

## Super D. S 415

Chapter 415: Ye Xuan appeared

Ye Xuan's speed is very fast, and in a second, he can solve hundreds of copper corpses.

In a few minutes, the Iron Corps Corps was solved for most of the time. At the same time, Ye Xuan's realm was also upgraded to the power of one hundred and twenty, and it was a hundred dragons.

Ye Xuan suddenly paused, then turned to look into the distance in the air, there is still fighting.

It's been a few minutes, and they haven't finished playing. It seems that the strength of the two parties is not very different. Just right, Ye Xuan also has time to solve the rest.

When Ye Xuan solved most of the remaining iron bodies and copper corpses, he finally rose to the power of one hundred and thirty dragons.

"Booming!"

Just right, the battle in the distance finally came to an end.

After ten minutes of fighting, the infuriating of both sides also bottomed out. Ye Xuan glanced at him and approached there.

.....

"Red, although your qualifications are good, the realm is higher than mine, but the martial arts that my ancestors left behind is not something you can cope with."

Hu Bin looked coldly at the redness in front.

Red blood smashed and sneered, "Is it ....."

After all, the big flying dragon that flew outside his body began to burn.

"Burning infuriating!" Hu Bin took a cold breath.

This is really dare to play, burning infuriating, which will lead to the fall of the realm. But at the end of life and death, burning infuriating is nothing.

"Damn, I won't burn the infuriating, this is bad..."

Hu Bin's face sank, and he hadn't finished thinking in his heart. Red refining was already in front of him.

"Hey!"

A red sword was thrown out and Hu Bin was directly attacked.

The gap is widening in an instant.

In the blink of an eye, Hu Bin fell to the bottom, and it is estimated that he will be able to win the game soon.

At this time, Ye Xuan, who was watching in the clouds, showed his awkward look.

The one hundred and eighty dragons are still in the air, and even if he uses the Beastmaster violent, I am afraid it is not necessarily an opponent.

However, the red smelt burned infuriating at this time, which means that every time he goes, the realm will be reduced. After a while, he will be able to drop to 175 dragons or even one hundred and seventy dragons.

This is cheaper.

However, Ye Xuan is already a bit unbearable, and finally he decided to shoot directly.

"kill!"

His light flashed and suddenly landed. His goal was the three \*\*\*\* bodies, and the arrogant arrogant lord.

The power of one hundred and thirty dragons directly rose to the power of one hundred and seventy dragons and entered the battlefield.

"what?"

The four turned their heads and saw Ye Xuan, wearing an iron man mask, rushing at lightning speed.

So fast!

At this time, Ye Xuan's speed is already two hundred dragons.

If he is in a dilemma at this time, then it is the second order!

"Old antiques, I will spare you a life, today, I am here to take your first class!"

Ye Xuan screamed and smacked toward the big knife.

The speed of the two hundred dragons made the \*\*\*\* body of the big knife very stressful. Originally, he had an opponent of the same level. Now facing Ye Xuan, there is no power to fight back.

"dead!"

Ye Xuan and a sword swept out, and then, the head of the big knife blood corpse was flying.

Spike!

I am afraid, the \*\*\*\* corpse of the big knife will not think of it. Ye Xuan, who let him go more than a month ago, has grown to the realm of killing him.

Although he has a strong resilience, he has lost his head and can't live.

"Good!"

The left guardian saw Ye Xuan killing the big \*\*\*\* body, and immediately the eyes lit up, which was a big joy for him.

But the next moment, Ye Xuan let him understand that this is not a big happy event, but a nightmare.

Because, Ye Xuan is also sweeping a sword against him.

"You old guy, it doesn't look like anything good, die!"

"Oh!"

Two human heads flew up.

Then, Ye Xuan was quickly picking up their ring.

"Hey, the host has broken through the power of one hundred and thirty-three dragons!"

When the system prompts to sound, Ye Xuan is helpless, and the \*\*\*\* corpse of the big knife is no problem. After all, he has already taken a ring before.

But this left-handed law is also a century-old antique. After living for so long, how are there so few things in the ring?

"It seems that everything is in the \*\*\*\* old guy..."

Ye Xuan did not think much, and plucked again.

"what?"

The red lord and the big sword blood corpse.

This time, Ye Xuan's goal is to be the lord of Chimu. As the lord of the redwood collar, his body is naturally rich.

Because he is a dilemma, he became the primary goal of Ye Xuan.

"Oh!"

The road was shattered and the hand of the arborist was cut off and he was seriously injured. At the speed of nearly two hundred and ten dragons, the arrogant arrogant of the first-order temperament could not react at all.

Ye Xuannian spared his life in this arbor and lord. After all, after this incident, Akagi needed him to preside over the overall situation.

Then, Ye Xuan again focused on the big sword blood body.

"not good!"

The big sword blood scorpion flashed, and turned around and ran.

"I want to escape from my Ye Xuan, you are not qualified enough!"

Huang Quan sword method, the sword falls Huangquan!

The big sword blood corpse was originally a dead object, and Ye Xuan was just overtaking him.

The fourth 乾 戒 ring, received!

"Hey, the host has broken through the power of one hundred and thirty-seven dragons!"

The things in the sacred lord of Akagi are quite rich, and Ye Xuan nodded with satisfaction. Immediately, he quickly left.

This scene happened too suddenly, not even for a second. The two people in the sky played hot, and naturally they would not find it so soon.

Ye Xuan is also very annoyed. After all, the battlefield of the people is in the sky. He can't insert it at all. If you take Megatron, I am afraid it will only harm it.

However, it is at this time.

“Well? Black jade concentrate?”

Suddenly, Ye Xuan discovered a black ore that was not in the autumn.

At the moment, he is releasing Megatron.

"Small day, your snack is here..."

After Megatron saw a large pile of black jade concentrate, his eyes were about to come out and turned into a large stove, and the pile of black jade concentrate was poured in.

"Hey, the pet Megatron breaks into the air, and it is currently the power of one hundred and fifty dragons!"

what?

Ye Xuan has been shocked to open his mouth. Before Megatron, there was only ninety-nine dragons. If you want to break through the gas, you need black jade concentrate.

However, the system actually increased the power of its fifty dragons after it swallowed the black jade concentrate.

Is this the welfare after the breakthrough?

"The growth plan of the Holy Beast is amazing, Xiaotian, let's go!"

Ye Xuan shouted.

Megatron immediately changed into a Dapeng bird, carrying Ye Xuan to heaven.

At this time, Ye Xuan's strength reached 179 dragons, and he was infinitely close to the Red Lord.

No, his strength is already more than the red lord lord, because the latter burned infuriating and fell to the power of seventy-seven dragons.
