Chapter 416: Go back to the abyss

Hu Bin's red lord was being suppressed, and suddenly he felt something wrong. When he turned around, he saw Megatron's big wings rushing toward him.

This speed is almost catching up with him.

After the human warrior breaks through the shackles, he can fly in the air, but if it is compared with the flying sacred beast, the speed will be worse.

At the same level, the flying sacred beasts are absolutely faster than humans.

At this time, Chi Lian and Hu Bin discovered that the four men had already been killed by Ye Xuan, leaving only the seriously injured of the Redwood Lord.

Obviously, Ye Xuan is a third-party power.

"Death!"

Ye Xuan rushed in with Megatron, but his attacks were all directed at Hu Bin.

After all, Hu Bin is easier to deal with than Red.

As long as Hu Bin's shackles fall into Ye Xuan's hands, Ye Xuan can break through again, and it's easy to kill the red smelt.

"It's over..."

Hu Bin's face is gloomy.

Originally, he was beaten by Sally, and now he has no one to fight back. Now, with Ye Xuan alone, he has been cut off by two rounds, and it is just the left arm wearing the Qiang Kun ring.

"Want to take?"

Chi Lian once heard of the big knife and blood corpse heard about Ye Xuan, so he recognized him, so when Hu Bin's arm flew, he attacked Ye Xuan.

"Humph!"

Ye Xuan snorted and stepped hard at the foot.

As for Megatron, it is instantly turned into a small bird, and Hu Bin's left hand is taken off.

"not good!"

Chi Lian forgot that Ye Xuan was not alone, and immediately retreated.

Ye Xuan will not fly, can only issue a long-range attack, can not pursue. But at this time, Megatron turned around a corner and returned to his feet.

"Red, you are finished!"

Ye Xuan's hands pinched Hu Bin's Qiang Kun ring, and his eyes burst into an endless killing.

"Hey, the host has broken through the power of one hundred and forty dragons!"

Although it only enhances the power of the three dragons, but every time he breaks through, the things he needs will naturally increase. The strength of the three dragons is not bad.

At this time, there are more than twenty dragons outside Ye Xuan's body, eighteen large and two small.

One hundred and eighty-two dragon power!

And red refining, has been reduced to 175 dragons.

"It's over..."

Red refining is also desperate. He did not expect that halfway through the scene, he killed a Ye Xuan and destroyed his revenge plan.

"You can rest assured that I will kill him for you."

When Ye Xuan's voice fell into the ear of the red ear, the latter's head was already flying.

Although Chi Lian was inhumane and slaughtered dozens of large and small sects, he also wanted to take revenge, and Hu Bin is his enemies.

Ye Xuan does not care whether Hu Bin is or not. Anyway, Hu Bin is no longer a human being, so Hu Bin can't escape.

"Do not....."

Hu Bin, the seventh patriarch of Chimu, threw his head into the sky, and then the two bodies fell together from the sky.

"Snapped!"

The blood corpse is a very strange thing. It quickly turns into a pool of blood after death, and so is the three blood corpses.

The body of Chi Lian and Hu Bin dissolved into blood in the air, turning into a **** rain.

The masters of the two atmospheres were killed by Ye Xuan.

"Hey, the host has broken through 150 dragons!"

The prompt sounds.

Ye Xuan is stunned.

This Chi Lian and Hu Bin's net worth is very expensive, the two people's Qiang Kun ring, let Ye Xuan break through the power of the Ten Dragons.

However, this is a bit too poor for their arrogant masters of the hundred and seventy dragons and one hundred and eighty dragons.

This battle is now over.

The corpse of the corpse was destroyed and the red smelt was killed. This is a good ending.

"father....."

The arborist of Akagi dragged the wounded body to the past, but Hu Bin has turned into blood, and even if the gods come, it is impossible to resurrect him.

In this regard, Ye Xuan did not feel any embarrassment, this is a strong world, murder and treasure is obvious, Ye Xuan did not kill the Redwood lord, it is considered to be benevolent.

After looking at the lord of Akagi, he drove away in Megatron.

.....

The realm of the one hundred and fifty dragons, if you want to improve again, you have to go to a more powerful territory to experience, this red wood collar may not be able to satisfy him.

However, there is still a place in this 赤木领, which makes Ye Xuan very interested.

That is the abyss of the Nether!

There, there was a mystery that had been trapped for him for more than a month, and there must be something good in it.

But before that, he strolled all the sects of Akagi, and saw if there were any missing iron bodies or copper bodies.

Later, he arrived at the abyss again, this is the third time he has come to this abyss.

"The last time I was a hundred and twenty dragons, I couldn't break this puzzle. Today I am the power of one hundred and fifty dragons. I don't know if I can..."

Ye Xuan thought in her heart.

If it was other time, he was lazy, but now it is an extraordinary period, he is stuck in a difficult situation.

If you want to break through the dilemma, you need a few breakthroughs in the heavens and earth treasures, and the secluded grass is one of them.

Although there is a 60% chance of breaking through the current situation, but Ye Xuan can not bet, he wants 100%!

After preparing for it, Ye Xuan walked in. Soon, he found the one.

One hundred and twenty dragons, one hundred and fifty dragons, the gap is very big, Ye Xuan's physique has also greatly improved, which is of great help to his break.

Big deal, use a beastmaster violent.

In the event that there is a secluded grass in the fascination, then he will be able to break through to the air.

He has a feeling that there is definitely a secluded grass in the place surrounded by the lost.

"Let me see and see how powerful you are in this puzzle..."

Ye Xuan thought about it and just stepped in.

This time, he also exchanged a lot of things, these things are actually some marks.

The most troublesome thing is to get lost. Just look for the right direction and you will be able to break.

However, Ye Xuan is still too naive.

He followed the West, but at the end, he returned to the starting point.

It seems that this puzzle is very unusual.

After three days of turning, he still has nothing to do.

However, just on the seventh day of his incarnation.

"Well? A strong breath..."

Ye Xuan suddenly had a meal at his feet, and the blood of the beastmaster in his body suddenly boiled up.

In front of him, there must be a powerful sacred beast!

"It must be flying, it should be at rest!" Ye Xuan eyes bright, if you follow the induction, you may be able to break.

At the moment, he is following this direction.

In this case, the induction is more reliable than the eye.
