

## Super D. S 4161

Chapter 4161: Big black pot

With the roar of roaring and roaring around the void, Ye Xuan jumped and quickly withdrew, leaving the place where the golden gryphon had just been taken away. a few

In the next moment, more than a dozen immortal singular savage gods, overwhelmingly over, just like sweeping, in this corner of the void area, constantly explore and search.

Although Ye Xuan decided to use his current cultivation as the strength, the activation of the spiritual power secret that has already been promoted to a high level is perfect, and will never be perceived by the ordinary immortal exploration that only strengthens him in a big realm.

At the same time, it is the powerful gods of more than ten immortal grotesques. At the same time, there is no way to recover them. band

With such a cautious and cautious thought, Ye Xuan took a tens of millions of miles away, and then he stopped his body with confidence, and his face was so heavy that he slammed the lion who was the first to scream at the talent. The nose is immortal and looks over the past... though

However, his heart has long known that the risk factor of each subsequent shot will continue to increase, and the final exposure is only a matter of morning and evening. can

Even so, when it is really smashed by the lion's nose, Ye Xuan's heart is still inevitably unpleasant, and even can be said to be almost angry!

I blame the old guy with big red nose and big nose, otherwise I can charge more than ten or twenty and then expose it. But now it's good, it's already happening, and there are more than 70 old wastes in the future. The treasures of the energy level will surely be firmly watched by these ten immortal old monsters. If you want to shoot, you will not only succeed in the chance of success, but even be thrown out on the spot, revealing the risk of being traced. Soaring countless times.

After all, his spiritual power secrets perfectly oscillate, just to make all the breath and traces of Ye Xuan perfectly concealed. Although he can't detect it, he still exists. There are more than ten immortal places here. The old blame, I really want to find out his general location. In case everyone is surrounded by the envelope, it is very likely that Ye Xuan will come out...

In this case, in the end, the last seventy-seven treasures of the ancient powers of the ancient ages are simply not suitable for another shot. Once they reach out, the possibility of being blocked is at least 40%!

As soon as I read this, Ye Xuan was very sad, and my heart was thicker and unwilling to float. This

However, the top treasures of the ancient power level are all invaluable, and they are not one or two, but more than seventy. If you give up, it really makes him feel very distressed!

After some thoughts, Ye Xuan's brain suddenly flashed a glimmer of light, and there was even more sturdy and sturdy in the middle of the scorpion. A bold thought gradually emerged.

Out of prudence, he forcibly pressed the excitement of his heart, calmed his mind, and carefully deduced it. He finally determined that this method was feasible and the spirit suddenly improved.

"Hey, old guy, who told you that the bad star is a good thing? This is what you are looking for, no wonder the main means of the star is yin..."

Secretly from the abdomen, Ye Xuan turned to the far side of the virtual space outside the right side of the tens of thousands of miles away. His eyes were fixed on the lion's nose that was bad for him. When he looked up and down, his mouth also had a bad smile. The intention is slowly sketched up, and the more intense it is...

The sound of the sound fell, Ye Xuan once again swept the body shape, avoiding the roaring roar around the empty sky, all exposed to the thunder of more than ten immortal old monsters, around a big circle, with a roundabout trend, quickly to that The lion's nose is immortal and close!

After a short while, when he stopped his body again, he had already circled the lion's nose, and the distance was about seven thousand miles. With

Afterwards, Ye Xuan's line of sight crossed the back of the lion's nose and landed on a treasure wreck in front of his body six or seven hundred miles away. As for the realm of this treasure wreck, it is immortal! seal

The treasure of the king's immortal class, Ye Xuan, if it is to promote the domain power of Shennong Ding in the body, to collect the space inside the Ding in the way of ingestion, must ensure the distance from the target of the shot, no more than eight thousand miles. eye

Next, he happens to be within this distance, more than 7,000 miles, both successfully collected, and the distance between the lion and the nose is as far as possible, once the shot, the probability of successfully evacuating the area quickly, Has been maximized. eye

The more than ten immortal grotesques in the starry sky of this piece of ancient heaven and earth are from the second universe, and the suspicions between them are obviously inevitable.

And they are all ordinary immortal, they can only charge the treasures of ordinary immortality, and the success rate is not very high. As for the higher level of the wreckage of the treasure, let alone the immortal king, it is immortal, they are It is completely impossible to collect.

Previously, these more than ten immortal blame all guarded a high-level treasure wreck, deliberately deducing and experimenting with various means, in order to find a way to charge higher-level goals, if not, not until this moment, I noticed that Ye Xuan's move... and

What Ye Xuan is going to do now is to take away the wreckage of the immortal treasure of the lion in the emptiness of hundreds of miles away from the lion's nose.

But still have to collect, but also to be fair and honest, said simply, that is, at the beginning of the target is taken, to the distance in the virtual sky to the front of the lion nose immortal figure, the Shennong Ding internal domain The shadowing effect of the field has revealed a trace of flaws, allowing the other ten immortal grotesque to be clearly explored.

Subsequently, the target after enduring stature proximal lion nose, some distance toward the position where the leaves Villa lasing, and rapidly these specially ray revealed flaws fade ..... this

Bao body wreckage it dry, then around four weeks distant void that another dozen monumental see these odd, just with this level immortal champion, went straight to the lion nose after being shaken immortal away, and in the near disappearance of its stature. but

This is simply not catch the debris with Bao body to the lasing leaves Villa away, and follow the trajectory of his income in vivo Shennong tripod.

If you look at it coldly, this treasure is ruined, and if it is clearly defined, it will be taken away by the lion's nose.

This is a treasure of the king's immortal level, and the other ten immortal eccentrics can't move. Only he can do it... This alone is enough for the other ten immortal monsters. Caused a lot of associations. example

For example, if he can seal the king's immortal level, why can't he collect the ancient energy level? This is clearly the mastery of a certain secret, embarrassed, or the rhythm of a magic weapon with a special power! This

Once the thoughts appear in the bottom of my heart, even if there is no strong evidence, it is impossible to easily disperse at a time. In a word, this \*\*\*\* pot lion nose is immortal, and there are more than two hundred inexplicable deserts. The catastrophic treasures of the big level will be counted on his head!

This is simply a yellow mud, and it's a rhythm.

Chapter 4162: Old man

At this moment, with Ye Xuan's dark hand, he quickly pulled away and avoided the void in another direction. The lion's nose was immortalized around the void, and an angry roar of anger was heard.

The more than ten immortal geeks of the second universe, who are burning in their hearts, are screaming at the same time as they roar and roar, and they are rushing toward the lion-nose hens who are full of faces. ..."

The old lion blame, you are really big, actually let me all pass! ”

"Yes, it's the first thing that I found out that the abnormality is actually you. It's a thief who shouted and caught a thief for a long time. If it's not suitable, it's just itching and it's getting out of the way. I'm really going to be fooled by you!"

"I actually eat a single food! And the appetite is still so big, it is too much, the old lion blame, and quickly tell you the secrets of collecting the wreckage of the ancient sacred treasures, everyone share!"

"In addition, the wreckage of more than two hundred ancient powers that have been secretly taken away by you must also be taken out together, and everyone is evenly distributed!"

Hurry up and take it out, don't blame the old man for turning his face..."

In the eyes, more than a dozen irritating immortal geeks are close, all of them are full of anger, the dawn is extremely bad, and even can be described as fierce.

After all, they are all immortal ancestors in their respective ethnic groups. Have they ever been so fooled? more

What's more, the ethnic group behind the lion's nose is not too strong in the second universe. Although it is not ranked after one hundred, it is basically close to the bottom among the former hundred.

At the moment, there are more than ten immortal grotesque roaring from the roaring, and half of them are from the top ten in the second universe. Although everyone is immortal, the people behind them are deep and naturally more emboldened. It is. lion

There is no doubt that the nose is immortal. If the matter itself does not give a confession today, these ten people are immortal, and will definitely not hesitate to take it out. It is possible to tear him away! miss you

When I got here, the lion's nose, which was dull and sullen, trembled, and stunned two spirits. I almost cried on the spot: "All of you...you can't say anything?" It's a misunderstanding, the old man is awkward!"

Hey, you are a lion, the evidence is really still want to argue! ""

Yes, I have clearly seen the treasure of the king's immortal class, and turned it into a secluded man, and rushed to you until it disappears. If it is not collected by you, can it be that it will automatically chase you? ? ""

The old lion, this thing I have seen with my own eyes, you are on the side of the sky and even in the void far away, there is no second figure besides you, this situation still wants to deny it, is it really when I wait? Can you bully? ""

Roar! Don't be so much nonsense with him. Since you don't know each other, direct suppression is all right! "

"Everyone is taking a shot together. Our time is running out. The news of this ancient world is very likely to have been leaked. We must take away the treasures of the void in the sky as soon as possible. Later, it will be late!"

"The old lion blame you standing, where to run ... \*\*\*\* pharaoh bastard, it really is what you do, or what guilty to run? Friends of the road, join forces to suppress it, suppress him!"...

...One

It's useless to read the explanation. The lion nose is immortal and not stupid. Naturally, it's impossible to be stupid in the same place waiting to be suppressed. Seeing more than ten immortal grotesque swiftly swept around, not only did he not listen to what he explained. Even the words of repression and slaughter have been loudly out. Such as

This scene, let the lion nose immortal face a miserable, never dare to wait, directly turned around and started to flee back and escape, this situation, it is obviously not easy to escape, it is better to fight back, it is better to directly suppress the small life ?

In this way, the super black pot that has just been buckled on his head is undoubtedly equivalent to being completely seated. The more than ten immortal monsters swarming around in the sky are completely angry and chasing in the void. Constantly roaring, the entire universe of the universe is slightly trembled, and the consequences of a dozen immortal grotesques at the same time are very serious.

If you don't get a good void, you have to collapse a big piece...this

Everything is long, but in fact, it's only a short time before and after. In this vast void, in addition to the dozens of immortal monsters from the second universe, there are dozens. The pioneers of all ethnic groups explored the fleet, and the scale is not small. This

Some starships and a large number of strong families have been busy collecting the treasures of the star, the main and the main. this

The cold and the sudden suddenly caused this kind of change, more than a dozen immortal grotesque roaring, the voids trembled, and they all stunned them all around, avoiding the dozens of people who were escaping in the vain and encircling the chasing. Immortal blame, avoiding the shackles of the fish!

In the blink of an eye, this vast universe of voids is completely immersed in chaos...

However, not all immortal grotesques have determined that this is the lion's nose, and more than ten immortal ones. About three or four people quickly recovered their calmness, although they still pursued him after the lion's nose was immortal. Attack, the roaring roar in the delicious has disappeared, replaced by the advice of the lion nose and several other words of the same level immortal and calm down! This

It's not the result that Ye Xuan wants. These guys really want to calm down. How can he still have the opportunity to make a mess and take away the remaining 70-year-old treasures of the ancient powers in the void?

In the thought of this, Ye Xuan did not hesitate, his body shape was smashed out, and he was careful to keep the breath perfectly confined. At the same time, he quickly approached the area where the lion

nose was only seven or eight thousand miles, like the tail hanging around him. Waiting for an opportunity to shoot again! very

Fast, the opportunity is coming! this

At that time, I thought that the persuasive words of those immortal grotesques had an effect. The other immortal grotesque who had been chasing the tightest, all slowed down after a slight hesitation.

Seeing this scene, the lion nose that was fleeing in front of it was immortal and sighed. The body shape stopped and turned around, and then swept around the void, and soon selected a one outside the hundred miles. With the eternal treasure of the king. "

The Taoist friends, this matter still allows the old man to explain slowly. The treasures of the treasures are really not collected by me. The old man is too big to believe that you are watching. Isn't this a piece of immortality? The old man will accept it now, and on the spot, you will know when you look at it..."

The hoarseness has just fallen, the lion's nose has been shot, and the temperament that has been fully motivated is poured out from the body. It can be felt with closed eyes. It is definitely not pretentious...

In this scene, Ye Xuan grinned. he

I am struggling to wait for the best time. I didn't expect this lion-nosed grotesque to be so intimate. People have already cooperated with this. If they don't shoot, they can't say it...

"call out!"

In the next moment, the faint sound of the broken air rang, and at the same time as the lion's nose was immortal, the wreck of the immortal treasure of the kingdom in front of the sky was instantly transformed into a volcano. And go, blink of an eye has come to the front...

Chapter 4163: Without such a pit

Quiet!

Dead silence! on

In a moment ago, the other ten immortal geeks saw the lion's nose immortal, and also proved on the spot that he almost believed his words. and

At this moment, when the wreckage of this king's immortal treasure, as the lion's nose is immortal, it will instantly turn into a mang, and rush to him, staying in the air in the distance, more than ten immortal monsters And a large number of strong people of all ethnic groups, all of them suddenly opened their mouths...every

The face of the individual is full of dull colors in an instant, just like the one who has just been thundered! very

Even the lion's nose is immortal, and it is completely petrified. Looking at the right hand that is still raised, the brain is booming and resounding... This

Once, Ye Xuan was still at the beginning of the target's ingestion, and it was stunned to the front of the lion's nose in the void, and the shadowing effect of Shennong Ding's internal domain was removed. special

The intention reveals a trace of flaws, so that everyone in the sky in the sky can see it! tight

Then, in the moment when the treasure wreck was stunned to the lion's nose, the body was quickly adjusted to the field power of Shennong Ding, and the previously revealed flaws were hidden!

This scene can be described as a high-profile, everyone in the sky has witnessed, this treasure of the immortal level of the treasure, clearly is the lion's nose immortal tricks ... easy to take away!

"No! This is not right..."

"Which \*\*\*\* is killing the old man? Get out quickly! When the old man raises his hand, you will make it worse. What special hatred is this blame? Hey, why stare at the old man alone?"

After a short period of sorrow, the lion's nose that returned to the gods was immortal, and the whole face was instantly green. While jumping with a curse, he turned to look at more than ten immortal grotesque places in the distance. This

Back to him, he really cried, and he browed his brow and just got beaten by the frost: "Several people, you have been blinded by the watch, just now the old man has received it again, but it has not been successful, you guys Those who saw it, it's not the old man!"

"Deceive too much!"

"Old lions, if you don't marry you today, the Lord will not give up!"

Too much, really let me wait as a monkey! ""

What is the waste with him? Let's take a look..."...

...

The lion-nose immortal words just fell, and the more than ten people in the distance around the sky were roaring angrily. This time, even the few people who had previously advised both sides to calmly deal with them were all sullen, gnashing their teeth. Although it is silent, but it is the first to rush out, go straight to the lion nose and go!

"This is finished... It's useless in your mouth!"

In this scene, the lion-nose grotesque almost collapsed on the spot, and even the heart was desperate, even the meaning of continuing to explain is gone, and without saying anything, turned and fled! "

boom! ""

Rumble..."...

... pick up

Even after being played and humiliated twice, the more than ten people of all ethnic groups who are not aware of the truth are immortal. At this moment, they only feel that the entire chest is exploding. Even this pursuit is completely different from the one just now, while chasing and blocking in the void. I did not hesitate to take shots from time to time.

Even if it is separated by a long distance, it will not hesitate to explode the energy bombardment, as if it is only a vent and a painful one. This is clearly close to the rhythm of full-scale violent, more than ten immortal grotesque, no exception, almost being mad! take advantage of

With this opportunity, Ye Xuan has quickly pulled back and retired. He is not close to the immortal geeks who are chasing and mad at the fun. They are tossing in the west, Ye Xuan goes to the east, and chooses to stay in the quiet. If you don't pay attention, you will immediately take a shot and quickly collect a treasure.

And the targets of the start, each of them are ancient and big-level, even if it is a quasi-wild power, it will not be enough.

Time passed slowly, and soon, most of the time passed by. in

During this period, this huge void in front of the eyes has always been lively and extraordinary. More than a dozen immortal grotesque madness is chasing and blocking. But after all, the lion nose is immortal. This piece of emptiness is wide enough. How do you want him to be in a short time? It is obviously not possible.

As for Ye Xuan, it is still a quick opportunity to take the opportunity to quickly take out more than 70 ruins of the ancient powers of the eternal energy level in the void. After unconsciously, he was caught in the water and fished, and nearly half of it was taken away. Virtual

There are only more than 30 ancient energy levels that can still be seen in the air...

"No, the Taoist friends are stopping, and the ruins of the ancient powers in the void are seemingly half less..."

At this time, the anger was stunned, and the immortal people who lost their sensibility and almost madness were only stunned. I don't know who sneaked a word, such as the dream of other eternal immortality. Then, immediately after the body stunned, once again roaring...

"Damn, it's been a while, the wreckage of the big-level treasures is actually half lost. There are still more than seventy!"

"This is by no means a lion and an old ghost. In the face of more than a dozen of the same level of immortal chasing, he is too poor to cope, there is no chance to shoot!"

"We have all been cheated, and the lions are clearly the big heads of the black pot. At the same time, they attract me to pay attention, and the black hands hidden in the dark start to take the opportunity..."

Roar! who is it? Who is it? The old man wants to tear him away... hurry out! "

"It's too big, I waited for more than ten immortalities, and I was so played under the eyes... Why?"

Lions are also old, really nothing is a thing! Everyone only knows the truth, knowing that I am being played, why not make the situation clear? All of you have been delayed..."...

...

As these roaring roars rang, the immortal grotesques immediately stopped their pursuits, and the tacit understanding of the fascination in the first time spread out the spirits, sweeping through the surrounding air, and carefully not to let go of any beads. Silky traces. "

From the beginning to the end, the old man is the most embarrassing victim, is it good? "

In front of the void, the tired and screaming lion nose can finally stop and sigh, and muttered in his mouth, his face looked sorrowful and inexplicable: "A group of shameless old guys, actually still okay to blame the old man, It's just a wicked smoke..."

"Oh la la!"

Oh..."

Just as the more than ten immortal geeks from the second universe, all of them realized it, and then spread the knowledge of God, madly sweeping through the whole piece of the void, and the sound of the chain was clear and clear. At this point, suddenly there was no warning. Accompany

This familiar familiar chain of screams came from the entrance channel of this mysterious and ridiculous piece of debris, a huge bronze ding that is not weaker than any superstar, is exploding... ..from

The furnace that came from the first universe finally rushed into this piece of ruined ancient world, with endless fierce arrogance... all coming! "

by! How did it come? "

Looking around, Ye Xuan's face suddenly sank, no longer hesitate, turned and went to the place where the two largest silver dragons and black dragons were located: "The last two, the two dragons were collected. Hey... look far away!"

Chapter 4164: Going to the clothes

"Oh la la..."

"boom"

"Boom..."

.....

When the furnace arrives, it will be like a dying world. The 20,000-shaped chain of chains outside the wall of the wall will be waved, and some wrecks will be taken away from the emptiness of the ancient world. The furnace's tripod is put into its internal space.

And some of the fringe chains are attacking, like a starry sky, and a ship of the second universe to explore the ship's ship, so that these warships will be blasted and turned into fireballs. They are all illuminated...

All of this happened too fast, and the accident was amazing. In the blink of an eye, the void that rushed all the way to the furnace was cleaned up in a large area, and at least thousands of damaged second-class warships were destroyed.

As for the wreckage of the ancient treasures that have been collected in the furnace, there are more tens of thousands!

Obviously, destroying these warships is just a matter of handy. The main furnaces are mainly based on the wreckage of the ancient treasures of the dead.

At the moment when Ye Xuan looked back, he saw two treasures of the treasures of the ancient and powerful level. They were taken away by the mound without any suspense, and the eyes disappeared.

His pupils have shrunk in an instant, although there have been more than 10,000 ruins of the ancient and dead spirits that he has successively taken away. Among them, there are more than 300 ancient and powerful levels, and the remaining treasures in this virtual sky. Although the body wreckage is still a lot, but the ancient level of the ancient power, but only more than 30.

Even in the last thirty of the treasures of the ancient powers of the ancient ages, Ye Xuan has actually decided to give up... But even so, at this moment, I saw the furnace quickly and unscrupulously plundering various levels of treasure. Body wreckage, he still feels indignant, blocked panic!

The key opponents are not only efficient, but also a bit too aggressive, and Ye Xuan has been grinding and delaying for more than two days before he has taken away more than 10,000 treasures. Furnace, can only be mad!

"Damn, dare to be more enchanting than the star master, one day I will accept you!"

Looking back at the smoldering furnace, Ye Xuan did not delay, and after swaying, he rushed straight to the silver dragon on the right side of the sky...

At the same time, the imaginary genre of the lion-nose grotesque, which was originally searched for in the emptiness of the sky, and more than a dozen of the second universe, the immortal grotesques, all of them are now screaming in horror...

"Damn, are you all stupid? Avoid, hurry to avoid!"

"The rice bucket! A group of rice barrels! I obviously saw that the fierce furnace rushed over, but actually stayed in the same place and died, but unfortunately those treasures that were taken up..."

"After hard work and tossing for nearly three days, I finally collected some treasures of the treasures below the immortal level. At this point, at least one tenth was lost!"

"Evacuation, evacuation immediately, rushing out with the treasures of the treasures already in the battleship, returning to the family and then long-term discussion..."

.....

At this moment, the hearts of these ten immortal blame are bleeding.

In the past three days, although they have been pondering the way to seal up the wreckage of the immortal level, they have brought the fleet of the tribes, but they have been collecting those stars and domain owners for almost a moment. And the treasures of the Lord's class.

There are even some ordinary immortal treasures, which are sometimes shot by them, successfully collected or collected in the body, or sent to the underarms to be stored.

But now, just a dazzling time, the furnace has destroyed nearly 10,000 warships, all ethnic groups have been affected, and the destruction of each warship represents a huge loss far beyond the warship itself.  
!

Soon, with the immortal instructions of the more than ten families, all the star-ship battleships in the vain air all turned around and shunned and rushed into the mysterious wilderness three days ago. .

At the same time, Ye Xuan, who still swayed with the spirit of the mystery of the spiritual power, finally rushed to the front of the silver dragon with a body size of more than 100,000 feet.

Turning around and looking around, seeing more than ten immortal grotes in the emptiness around the world, all of them did not pay attention to this side. When he quickly shot, he succeeded in collecting this huge silver dragon treasure into the body of Shennong Ding.

Subsequently, Ye Xuan did not hesitate, and his body shape rushed to the last goal, that is, the golden dragon with a size of more than 200,000 feet.

I have to say that the timely arrival of the furnace, from a certain point of view, really helped Ye Xuan a big favor.

Whether it is the silver dragon that has just succeeded or the golden dragon that Ye Xuan is about to shoot, the size is huge. If there is no sudden arrival of the furnace, it will disturb the situation and attract the attention of more than ten families. Ye Xuan only needs one shot, it must be found.

Although he was not afraid even if he was discovered, he had been so careful and supported for nearly three days. At the last moment, he finally revealed his behavior, which made him depressed.

At this moment, after successfully taking away the silver dragon, Ye Xuan rushed to the golden dragon on the other side of the void in the first time, screaming that everyone did not pay attention, suddenly waved, blinking and easy to read, will be the body The golden dragon wreckage of 200,000 feet was reached, and it was included in Shennong Ding.

This time, his actions were finally discovered.

"Damn, the guy hidden in the dark is still here..."

In the distance of a million miles away, an immortal grotesque who didn't know which ethnic group from the second universe just turned around and saw the disappearance of the golden dragon in front of the empty sky. After a slight glimpse, the old guy was almost furious to get angry with the old blood.

While roaring, he has already smashed to Ye Xuan's side...

Ye Xuan glanced at him coldly, and he didn't care about it at all. The last target golden dragon had already successfully invested in the inner space of Shennong Ding, leaving only to watch a lively event.

As the other party has not arrived, he turned away from the first time, his body shape swayed, rushing deep into the front of this mysterious and ancient land, his body shape disappeared quickly...

"Roar!"

"Oh! Damn! Damn, he was run away... Hey!"

The irritating and immortal grotesque search and search, but ultimately did not find a trace of the clues, realized that the other party has successfully pulled away, he immediately roared again, the sound is a void.

"Oh la la!"

"Hey..."

In the faraway sky, the lingering chain of the chain continued to come, and it never stopped. The furnace was charged in the direction of the ruins of the ruins of the ancient dynasty. The emptiness on the right side goes!

In that direction, there were at least 100,000 kinds of starships in the void, but at this moment, they had already disappeared, avoiding the direction of the smoldering of the smoldering furnace, and circling around, like a mourning dog. To the export of this ancient land...

Chapter 4165: Can not enter

The fierce name of the furnace, even the immortal grotesque, dare not scorn its front!

With its unexpected arrival, the Second Universe first stepped into the mysterious and wild world of the Pioneer Exploration Fleet. After the initial chaos, the order was quickly restored, far away from the furnace. The area, roundabout, rushes to the entrance of this ancient world...

That is, the lion nose and other strangers and other more than ten people are immortal. Although they are unwilling, they can face the sinister flames of the smoldering furnace. They are also Mocani, and they sigh from time to time.

This time they entered the mysterious ancient world as the pioneer fleet of the second universe, and now, the result is nothing but the suffocation of a stomach!

In addition to the sudden sorrow of the singularity of the singularity, what makes them feel indignant is the one behind the darkness, who knows that man is a ghost!

The guy didn't know when he followed it. He couldn't even determine whether he came in from outside, or was it the aboriginal of this mysterious and ridiculous land, or was it coming through other channels...

But one thing is certain, that is, he hides in the dark, and after completely arranging the breath with some unknown means, he quietly takes away the wreckage of the vast ancient treasures.

Even the age of the ancient and the ancient powers is more than three hundred, even including the two specific types of silver dragons and golden dragons that are more than 100,000 feet and 200,000 feet respectively, then the treasures of the treasures below the age of the ancients, he collected Can you still have less?

What is even more exasperating is that after this guy was exposed, he was still so ill-fated and blamed for the lion nose, which almost killed them on the spot and screamed.

Every time I think about this, these more than ten immortal geeks from the second universe will feel the chest incomparably blocked, and they will not come and go in one breath. I can't wait to turn around and continue searching, anyway. Take this abominable guy out of the killing!

But this is obviously extremely irrational. In the face of the chaos and worrying situation in front of them, they must immediately return to the ethnic group, clarify everything, and try to find one or two pieces that can be like a furnace. Collecting the treasures of the ancient powers of the ancient ages, and then returning to kill them...

Otherwise, the hard consumption is useless here. Don't say that all the treasures in this peripheral area will soon be collected by the furnace. Even without this, the treasures still lie in the void. They still have no way to collect, they can only watch and worry!

With this kind of thought, after the immortal grotesque arrived at the entrance of the entrance, they waved their hands and gave instructions to their respective ethnic fleets to evacuate completely. They did not hesitate and rushed to the front entrance. ....

However, anyone who unexpectedly appeared!

Whether it is the immortality of the more than a dozen of the second universe, or the fleet of the various ethnic groups behind them, after entering the entrance to the front, without exception, they were all directly transmitted to the void area behind them.

Just like encountering a reversing space channel, it is obviously forward, but in the end, after the flower is taken, the position of the figure is not the second cosmic sinus outside the entrance of this channel, but the rear. The mysterious wilderness is farther away...

Some of the warships were even sent unfortunately to the area where the furnace was raging. The result was no suspense, and no one in the warship returned to God. Their battleships were destroyed by the furnace. Usually an instant explosion!

This scene is too strange, but it is not completely incomprehensible.

Obviously, this place is revealed in the second universe of the sinister star field, the mysterious and ancient heaven and earth entrance passage that spans two or three million miles away, is simply a star-shaped passage that can enter and exit, belongs to one-way property... The reason is so it should be related to this mysterious ancient world.

But all this is no longer important. What's important is that they can't get out now, they can't escape without escaping...

"Damn, what is this broken? Xu Jin is not allowed, is it too overbearing?"

"It seems that for the time being, I don't want to leave. I want to go back and think of other ways. Anyway, the main force of the ethnic group that I will wait for will soon come. The fleets of various ethnic groups entering this place will be larger and the preparations will be more adequate. I hope they will... bring one or two treasures that can collect the wreckage of the ancient powers of the ancient ages!"

"If you can't go anyway, it's better to kill it again. There is no need to spend any more on the side of the furnace. It's just a matter of death and injury. I think that the evil man behind the scenes thinks so. He should have left and went deeper. I'm waiting for it immediately..."

"All battleships, turn around immediately... Depart!"

"Booming..."

With the instructions of these more than ten immortal grotesque, the fleets of various ethnic groups that have just gathered again and again have all begun to turn around, and then they have fully opened their horsepower and gathered together into a huge number of starships with a total number of more than three million. fleet.

After circling the area raging in front of the furnace, from the edge of the side, it sailed deep into the dark space of this mysterious and ancient land, gradually drifting away, disappearing...

Half a day later, the wreckage of the ancient sacred treasures in the outer space of this peripheral area was basically collected, and the furnace was turned into a mansion, and lasting further toward the front.

What remains in the void is only the wreckage of a large number of starships that have been destroyed by the smoldering furnace. They are still burning partially silently, surrounded by a vast universe of voids, which is simply terrible...

Soon after, the second group of the main force of the second universe and the various ethnic groups came one after another in succession. After seeing the tragic scene and the empty void in the peripheral area, these are the main forces from the second universe. Almost all of the army did not stay too much, and the time before and after the foot rushed to the depths of the front.

Next, this area was hard to be quiet for a few days, just this rare peace, and soon it was broken again.

The two major camps of the First Universe and the Third Cosmic Terran, as well as the large fleet of the Federal Republic of Venezuela, have also arrived one after another. From the outside entrance, they rushed into this mysterious wilderness. .

These top-level ethnic groups and forces from the other two starry sky planes also have no hesitation. After a brief investigation, they also rushed to the deeper depths ahead!

In addition, there are a large number of second- and even third-rate forces and a small fleet of groups, as well as some reinvented star gangs, gathering together to form loose alliances, and so on... Within a few days, all of them are coming!

In less than ten days, the total number of warships rushing into this mysterious and ridiculous world has reached at least 400 million, and the star-studded powerhouses in the warships cannot count...

Chapter 4166: Ancient survivors

A sigh of relief, ten days have passed!

Ten days ago, in the outer edge of this mysterious and ridiculous world, Ye Xuan's last goal, that is, the golden dragon wreck with more than 200,000 feet of body size, was taken into the body. The ground spurs deeper into the void of this mysterious world...

In his view, this mysterious wilderness and the world, even in the outermost edge of the rim, the emptiness of the vast treasures of the ancient sacred treasures in the void, then the deeper hinterland and other areas farther ahead, the imaginary sky can be seen everywhere. Treasure resources must be even more amazing.

Even in all likelihood, there will be other opportunities and creations. In short, even if he is the same as all other powerful players who have entered this ancient world, he has identified this ecliptic starry sky. The exploration is sure to be an amazing harvest!

However, contrary to expectations, reality and ideals often end up running away from many times!

For the last ten days, Ye Xuan has maintained a near-extreme speed. He has been rushing in a virtual direction in one direction. Later, he even sacrificed a hole in the air. The speed suddenly rose several times...

But until now, he still has no one-and-a-half-point harvest!

After leaving the outer edge zone that was originally entered, the universe of the sky that went all the way, not only could not see the treasures of the ancient creatures, even a slightly more complete star would be rare. As for the planet of life, don't even think about it!

The universe of voids along the way, although indeed as the normal universe plane, is distributed with stars and stars, but these stars are all without exception, all are damaged, and some have even been thoroughly It collapsed into a pile of stars of varying sizes, so it floated in the void, revealing a deep and ruined atmosphere!

These stars are most likely destroyed in the ruins of the ancient world that collapsed the entire wilderness world. It may also be after that, in this process, the fragments of the ancient heavens and the earth are drifting in the endless void, because of Something like a emptiness, a starburst, and the like, is destroyed...

But for Ye Xuan, this is actually not important. His biggest wish now is to see the endless treasures of the deadly creatures in the universe in front of him, or... a life. ball!

Even if this life planet is born, it is all a few wild spirits that have not been wise!

At least not as confused and disappointed as it is now!

If he was to let him know that before he entered this mysterious and ridiculous world, he would explore the fleet of the Second Universe pioneers who tried to collect the wreckage of the treasures in the outer edge of the previous one.

Earlier, the first to enter here, in fact, there is a small fleet of more than a hundred warships of the Yinmo, and the former patriarch of the family. Now it is the emperor of the lord of the lord... Ye Xuan heart The uneasiness and embarrassment, I am afraid it will be even stronger!

The Yin Emperor and the small fleet commanded by the Yin 7 commander apparently did not stay in the peripheral edge of the wreckage of the vast expanse of the ancient sacred spirits. They were undoubtedly one step ahead and entered the deeper depths of this ancient world!

At the speed of Ye Xuan, I should have caught up with it, but in fact, he walked all the way, for ten days, except for the broken stars that were visible from time to time in the void, nothing else happened!

This incident is quite strange, but it may also be because this mysterious wilderness is too vast. The Yin Emperor and the small fleet of the Yin Mozu are not the same as Ye Xuan's direction, which is invisibly staggered. .

In any case, if you know this, Ye Xuan will give birth to some vigilance. Now, his whole mind is plagued by the seemingly endless monotonous scene in front, and he is upset and has nothing at all. Thinking about what else...

This kind of boring to the extreme, but has to bite the teeth to continue the journey of the stars, is still continuing, and another month has passed between the blink of an eye, when Ye Xuan's patience is about to be completely exhausted, the universe in front of the void In the middle, there was finally a roaring roar of a fierce beast!

This fierce beast roars into the ear. In Ye Xuan's case, it is almost the same as the sound of the sound of nature. No, it is more pleasant than the true sound of the sound of nature. It is almost a moment that he

is resurrected on the spot. The wilting spirit is in a hurry, no hesitation, even when urging the broken shuttle, follow the direction of the fierce beast roaring, spurting away!

As he got closer and closer, the movements coming from the front of the sky were more and more clear. In addition to the roaring of the beasts that sounded from time to time, there were some roaring sounds, and the sounds should be Caused by a magic weapon attack or a gunshot.

Obviously, there is a fierce battle in the far-flung air in front of these movements, and the two sides of the fierce battle, one side is an unknown number of starry beasts, the other side... Since it can drive the magic weapon attack, or It is a battleship that is driven by a naval gun. Even if it is not a human race, it is at least a high-level life group with extremely high intelligence!

Moreover, considering that this piece of heaven and earth is derived from the distant mysterious wilderness, it is basically impossible to have the scientific and technological power that can only be found in the world. Therefore, the loud roaring sounds coming from the front, more than 80%, should be sacrificed. The magic weapon was caused by bombardment.

That is to say, after entering this mysterious and ridiculous land for more than a month, there is still a certain distance in front of the sky, and there are finally indigenous people who are suspected of the ancients, and it seems that the strength is still quite good, and the number is also quite good. Never too little...

Thinking of this, Ye Xuan was even more excited, bitter for more than a month, and finally found the object that can be used to inquire about the news.

Regardless of whether the other party is an abandoned orphan, the identity of the aboriginal people is absolutely not running. Since it is an aboriginal, there must be some understanding of this world, which is of great significance to Ye Xuan. At least, this kind of unremarkable, The lost and boring starry travel should be over!

With this kind of excitement, Ye Xuan controlled the broken virtual shuttle and traveled at a very fast speed for a long time. There was a distant sky in front of the roaring sound and the fierce beast roaring, and finally there was a very dark light.

This gloomy light is like a diaphragm, through which it looks, and the vision that is more everywhere is blurred, just like gazing at another world...

After a short period of time, with the approach, this piece of gray light, which was originally only the size of the palm, has already become vast. At this time, Ye Xuan has already determined that behind the gray light curtain, it is very likely that it is another world.

At this moment, he drove the broken virtual shuttle to the speed of the gray light curtain, which is equivalent to the inside of a black hole, rushing to the void of the universe outside the black hole...

Chapter 4167: Monster from sin

"call out!"

The faint sound of broken air has already reached the limit of speed, and it has rushed out from the huge gray light curtain that was originally in front. In the blink of an eye, it has come to another space void outside the light curtain.

It is indeed like another world, even the light is much brighter in an instant.

Before Ye Xuan came all the way, in the mysterious and wild world behind the gray light curtain, all the stars were broken, there is no star that is still glowing, and the natural light is dim.

The new world, which is displayed in front of the world, is basically not the same as the three major star planes that Ye Xuan had previously contacted. There are various stars and stars.

It's just that the breath of the world is obviously quite vicissitudes, revealing a deep sense of the wild!

It was not until the smashing light curtain rushed out of the huge gray light curtain that entered the new heaven and earth, which was full of ancient and ancient atmosphere. He suddenly felt amazed... It seems that before entering, he forgot to activate the hidden emptiness. The formation method.

The occult method of breaking the virtual shuttle has always been activated, but then with Ye Xuan walking all the way in the dark and ancient world behind the light curtain, I have never encountered a life planet for a long time. Under the insufficiency, he closed the hidden array of the virtual shuttle.

Because of this, the broken virtual shuttle that was originally in a hidden state showed its body shape. In the subsequent starry sky travel, if there is a living body in the universe in a certain direction, even if he does not detect the existence of the other party, the other party is also very Probably because of the discovery of the broken virtual shuttle, and the initiative to approach...

But now, the consequences of this small negligence are serious. It is obvious that Ye Xuan had not thought of it anyway. before

The square was about a million miles away, and there was a starry sky battle. The movement that Ye Xuan heard behind the gray light curtain happened from here and passed through the huge gray light curtain.

The movement of the war can be passed to another distant universe in such a distant space. It can be seen that the scale and tragic extent of this star war is amazing.

However, it took some time for Ye Xuan to come all the way, not to mention when the star war began. I don't know when this star war started. So, at this time, this amazing starry sky battle is almost over. Entered the end of the final stage. to

On both sides of the war, as Ye Xuan had previously speculated, one side is a starry beast, and the other is a human being... To be precise, it should be a deserted survivor! This

In the First World War, the side of the starry beast was obviously defeated. At this time, in the empty sky nearly a hundred miles away, there were large and small stars and fierce beasts everywhere, all of which were damaged, and the stars were floating with a thick The thick \*\*\*\* atmosphere, Ye Xuan is separated by a distance of nearly a hundred miles, and still in the broken shuttle, can clearly smell.

At random glance, he roughly determined the wreckage of various starry beasts in the void, at least tens of thousands, and possibly even more. After all, the starry beast that was killed first is likely to have been defeated. One party earns a magic weapon for storage. This

Obviously it is a large-scale starry hunting operation, tens of thousands of starry beasts in order to be prey to be hunted on a large scale, and the survivors of the victors are the hunting hunters!

It is possible to carry out such a large-scale starry hunting, and finally ended the hunting smoothly. It can be seen that the ancient survivors who are the hunters are absolutely impossible in quantity.

According to Ye Xuan's estimation, this time the large-scale starry sky hunting, the attorneys of the ancients involved at least a dozen large tribes... Because in the hunting space of nearly one million miles, the film gathered in the central domain. Numerous wilderness remnants around the wreckage of countless wild animals and beasts can be seen in a faintly formed group of more than a dozen distinct groups.

He still doesn't know about these ancient people and various situations, and he is called the tribe for the time being. This

There are more than a dozen tribes, and the number of abandoned people in each tribe is more than 100,000. That is to say, the total number of abandoned ancient people who participated in this large-scale starry sky in the virtual air has reached more than one million. and

Moreover, more than one million survivors of the ancient tribes belonging to more than a dozen large tribes are clearly strong in the starry sky, otherwise they will not be able to stay in the universe with the flesh.

More than one million star-studded powers hunted less than 100,000 stars and beasts in the void. As long as the strength of the two individuals is not too great, then the final result is a party with a large number of people. Obviously there is no suspense. of!

Almost all of the tens of thousands of star-studded beasts that have been wiped out by the whole army, the most powerful ones that Ye Xuan has sensed, but only the main territory, and only six heads, four of which have fallen, only two remaining Struggling with two small strands of starry beasts.

As for the more than one million wild people who have gathered around these tens of thousands of stars and beasts and the remains of fierce beasts, there is no cosmic level in the strength. There is no need to say more about the immortal grotesque. Maybe, otherwise this battle is estimated to have ended from the beginning, and which will last for so long? This

Among the more than one million survivors, the most powerful ones are also the main borders, but the number is two more than the beasts. There are a total of eight elites.

Other wild people have strong and weak strengths, but they are basically in the eighth world of the stars, that is, above the black hole. Otherwise, they are basically not eligible to participate in this level and scale of star wars! by

The scale of hunting in this starry sky is too great, and the battle has not yet completely ended. Together with the ancient tribes gathered in other directions, the large tribes that Ye Xuan rushed out are farther away. when

However, the main thing is that Ye Xuan's broken shuttle is not big, only a hundred feet, that is, the captain who is not 300 meters away, and when he rushes out of the huge light curtain, it only triggers a The weaker sound of breaking the air, there is not much movement...

The addition of these kinds of things has led to the discovery of the ancient survivors who rushed out of the huge light curtains in the first place. and also

It is just a small group of people in the big tribe closest to the direction of the huge light curtain. It is about a thousand people, no more than two thousand! and

And more than a thousand of the ancient survivors seem to belong to a small group. The reason why they will see Ye Xuan's broken shuttle rush out from the huge light curtain is precisely because they just gathered together and are approaching this side. The sake of the emptiness of a savage beast with a large body! this

At this moment, with Ye Xuan rushing out from the huge light curtain, more than a thousand of the ancient survivors saw a glimpse of all the smashing, and then a whisper suddenly sounded: "Behold, From the sin in the front... I rushed out of a monster!"

Chapter 4168: No culture is terrible

Leng Ding Ding saw that the broken shuttle rushed out of a gloomy huge light curtain. More than a thousand people were rushing in this direction. They should have been collecting the ancient heritage of a star-shaped beast with a huge body. After a sudden glimpse, they quickly screamed and shouted...

"Behold, from the sin of the front... I rushed out of a monster!"

"What monster, it is clearly a big bug, the size of the head can grow to this extent, it should not be too weak, everyone is careful!"

Strange, why is this big bug in the body not scented? Even a little fierce breath is not the same, and the general Zerg seems to be different..."

Wouldn't it be a monster? Although it can't be sensed by the breath, it must be extremely hard from the luster of its carapace. This bug is not very good to deal with, and it will be arrayed immediately! "

"Array, go all out, kill this strange worm from the sin..."...

...This

Some words, one word and one sentence, were all clearly introduced into Ye Xuan's ear, and immediately made his face green, and there was a hint of resentment in the light. No

Culture is terrible!

It is obvious that these ruins of the ancients have never seen a starship warship. This is normal. There is no scientific and technological power in the ancient times. This mysterious ancient land has always existed, but it is only a fragment of the ancient world. After being ruined in the battle of the ancient world, it has been exiled in the endless void of the hustle and bustle, and there is no difference between being completely closed. Place

Therefore, the ancient survivors who lived in this broken world naturally cannot reach the outside world, and there is no possibility of developing scientific and technological strength. This

In this case, they couldn't help but see the broken shuttle, and subconsciously judged from the shape of a monster as a monster, it is inevitable. With

With the exclamation sounding, more than a thousand ancient survivors quickly dispersed, and the vaguely distinct form became a battle formation, and quickly surrounded the broken virtual shuttle.

In fact, when the exclamations in their mouths came out, many people in the deserted forces, not far from the rear, were also alarmed and turned around.

However, when they saw the existence of the so-called "sin", it was just a strange bug that was not even a hundred feet, and there was already a team of more than a thousand people in the camp. Out of the battle formation, it is about to start hunting.

Therefore, the other abandoned survivors apparently did not put this matter in their minds, and soon turned their heads and turned their attention back to the final ending of the starry sky hunting.

Obviously, the more than a thousand ancient survivors who are fighting out of the battle formation and rushing to the virtual shuttle, for Ye Xuan, do not have any threat at all.

Their cultivation is basically in the virtual space and the beginning of the domain. Even the great powers of Qiankun are not one. The final three or four people are only in the fourteenth world, that is, the middle and the middle of the universe!

If Ye Xuan thinks, if he raises his hand, he will be able to rush forward more than a thousand. The desperate people who want to kill him are so easy to suppress... one fell swoop!

But he obviously can't do this!

The reason why the other party rushed to scream and scream and kill, but it was because of misunderstanding, Ye Xuan came to the first time, on the one hand did not intend to over-enforce the enemy, on the other hand, he also wanted to explore some news through these ancient survivors.

Besides, the gray void in the huge light curtain behind him was so lonely that he had been grazing in the void for so long. He has not seen the living for nearly two months. Now it's hard to see, let alone the other person. Now, even if it's just an ugly starry beast, now Ye Xuan will feel that the other person is very intimate...

During his thoughts, he was swept away from the broken shuttle, and his body was in the void of the universe outside. tight

Then, with a wave of hand, I immediately lost the virtual shuttle to the immortal world, so as not to stay outside. If this guy is really a weird bug, it is not good to attack.

"this is....."

"Hey! Great ride..."

Not good, something went wrong, the strange worm actually has the Lord, and it is still a mount of the Mahayana eccentric, this is a disaster! "

.....cold

I don't see Ye Xuan suddenly appearing, and under a wave of hands, I will directly smash the broken shuttle. The more than a thousand survivors who have formed a battle formation are first glimpsed, and then they will be in shape. At the same time, however, under the guise of change, there have been exclamations! Look

It is said that they were scared by the first-order cultivation of the universe that was scattered in Ye Xuan's body, and they were not scared.

At this time, there was a whisper, and many of them even trembled.

This so-called Mahayana is obviously a universe, but the latter is the position of the three main planes of the world star, and here is a piece of the ancient heaven and earth that is completely closed, which is not called the name of the monk. It may be consistent with the three major star planes in the world.

This is just a different name, so Ye Xuan is too lazy to pay attention to it. Seeing that this guy is all parked in the void in the hundreds of thousands of miles away, he is staring at himself with a frightened look. It's not that I'm not afraid to turn around and escape. I can't help but smile. After shaking my head, I immediately hugged my fist and made a slight arch. Lang

The voice said: "You are a friend of the Tao, Joe has come to the beginning, do not know the path, I do not know this star field, how to call it?"

Therefore, he claimed to be surnamed Joe, and even the name has already been thought of. The single name is a peak word, although Ye Xuan is also considered.

Don't look at him, he is the first to rush through the huge light curtain from behind the dark universe, and enter the world's unfamiliar and powerful world. But soon, the fleet of the second universe will continue to come. here.

After the spread of the news, the Terran and the Star Forces, which came from the first universe and the third universe, and the forces of the stars and the stars, were all the same. leaf

Xuan does not want to reveal the traces, so naturally it is impossible to self-report the home with his true identity.

Qiao Feng is just a pseudonym that he took with him!

At this time, Ye Xuan never thought of it anyway. In the near future, the pseudonym of Qiao Feng that he now took with him was actually in the ancient wilderness of this corner, such as thunder and thunder, and the endless void Even more than the sensation brought by the seven major celestial enchantments of the world to the three major star planes of the world! and

At this moment, dozens of miles away from the emptiness of the air into a battle formation, almost rushed to Ye Xuan to come to the siege of a group of ancient survivors, seeing his attitude so harmonious, all of a sudden all stunned. less

After that, among the deserted people of the Zhouguang, only one person secretly bite his teeth, and boldly stalked his body, respectfully pointing to Ye Xuan, and then he said with care: "Hey, seniors. , you... don't kill us?"

Chapter 4169: Sang Zhixing

"Kill you? Why are you killing you?"

Listening to the other party's words, Ye Xuan was immediately mad, and he suddenly found that there was a vague servile existence in the bones of these ancient survivors, or that ... is a kind of deep bone marrow sorrow. Do not

After that, think about the cosmic voids they lived in. They are just the corner pieces of the ancient world. In the past, the source of their blood has disappeared. It is inevitable that they will become like this because of jealousy and confusion. It is. miss you

At this point, Ye Xuan's inexplicable heart gave birth to a bit of compassion for these ancient people. In fact, they really said that they should be the same as the three major stars in the world. only

However, because of the different living environments, they have led to very different reactions. It has to be said that this is really inexplicable. dark

In the first sigh, Ye Xuan even took over: "Jiao Mou has already said it, but just entered the expensive land, I don't know much about this star field, I want to ask you some news..."

This..... ""

That's great, the predecessors, Sang Zhixing, who lived in our twelve major tribes, are nearby, not very far..."

Right, if the predecessors don't want to give up, I hope to be a guest of Sang Zhixing. Everything about this sangzhi star field will naturally come back to the older generation! "...

...see

Ye Xuan does not seem to be lying. What is more crucial is that he does not have a bit of anger at the moment, and as a supreme strongman of the Mahayana, his attitude is so easy-going, it is really surprising and flattering.

Therefore, in the excitement, among the more than a thousand ancient survivors, they were the strongest of the strongest of the Zhou dynasty. They quickly stepped forward and handed them over, and they made an invitation to Ye Xuan with great hope. point

Nodded, Ye Xuan even accepted the matter: "So good, Joe first came to see, there is no place to stay, just go with you to Sang Zhixing temporarily staying?"

Seniors please! The mission of our tribe has been completed, leaving some tribes to take up the wreckage of this beast and return to the tribe..."

During the speech, among the few people, the middle-aged man who reached the seventh stage of the Zhou Guangjing suddenly thought of something. When the front turned, he quickly said: "For the predecessors, we are more than a thousand. People, belonging to the Pingshan Village under the jurisdiction of the Hongtian tribe, the younger generation is the owner of the village, and the predecessor called me Pingyangshan."

Former Ye Xuan listened to him, this Sang Zhixing has a total of twelve large tribes, presumably this Hongtian tribe is one of them, and under the Hongtian tribe, presumably there are quite a few cottages, in front of this More than a thousand people belong to one of the small villages named Pingshanzhai.

These thoughts flashed through my mind, and Ye Xuan did not say much, even when she nodded.

"So, before the seniors boarded the car, the younger generation immediately welcomed the predecessors into the Pingshan Village, and must be hospitalized!"

Ye Xuan speaks so well. The owner of the self-proclaimed Pingyang Mountain is obviously very happy. He has waved a car magic weapon and respectfully asked Ye Xuan to board the car.

It can be seen that this guy clearly has a little selfishness. It seems that he does not want to let Ye Xuan exist, let other small villages or big tribes know, and this is going to take him away from this area as soon as possible. It

So, maybe it's related to Ye Xuan's repairing strength... but it's not important, Ye Xuan is too lazy to pay attention to it. When even after nodding his head, he will enter the car magic weapon. .

There is no element of scientific and technological power in this world. The ancient survivors who live here do not even know the star-ship battleships. Their means of transportation are basically all kinds of flying magic weapons such as racing cars and flying boats. although

It's a little weird, but the same is true of the Terran cultivation camp in the third universe. Ye Xuan is relieved and does not feel that there is anything wrong with it. see

Ye Xuan entered the car, and Pingyang Mountain was overjoyed. He quickly boarded the car with several other elders from the Zhou Dynasty. Then he gave a few words to the villagers who had collected the huge murderous beasts. The power of the body is motivated, and the magic weapon of this car is driven, and the universe's void is spurred toward one side. according to

Pingyangshan introduced that the distance between the Sangzhixing and the place where they lived is not far from the place, but it is not too close. With the strength of his Zhouguangjing, he can fully control the car magic weapon. It takes about three days to arrive. . and

In this vast expanse of the galaxy within a billion miles, Sang Zhixing is the only life planet that lives on the ancients. when

Of course, there are other life planets in this area. Although there are no settlers left behind, there are all kinds of starry beasts. and

These starry beasts are the food of the ancient survivors of Sangzhixing, and the only flesh and blood resources that have been upgraded to strength!

As for the large-scale starry sky hunting that Ye Xuan Shicai saw, it is not always the case for the ancient survivors of Sangzhixing.

This starry sky hunting, the twelve large tribes on Sangzhixing all participated, although not all the people have been dispatched, but on such a scale, basically one or two times a year!

Sang Zhixing is the only life star in the universe with a billion-mile universe. The total number of ancient survivors inside the star is amazing.

The entire Sangzhixing, nearly half of the surface area is a vast ocean, while the other half of the land area is divided into more than a dozen giant continents by the vast ocean. its

In addition to a few continents, because they are too barren, even if there are some ancient people living in poverty, but the number is very small, there are 12 of these dozens of continents, belonging to the twelve large tribes of Sangzhixing. .

The total number of tribal people in each big tribe is more than ten million. flood

The Tian tribe is one of them.

In the Hongtian tribe, there are nearly a thousand small and small cottages, only a few thousand small-scale cottages, and large mountain plugs, there are tens of thousands, even more than 100,000 people! level

The Pingshan Village led by Yangshan is only in the middle of the nearly a thousand large and small cottages of the Hongtian tribe. All the villagers are together, just in the early 10,000.

However, among the Wanzhai people, nearly 40% of the old and the young women, and only the real monk, only about 6,000!

As the owner of the Pingshan Village, Pingyang Mountain has the strength of the seventh-order cultivation of the Zhou Dynasty, but it is not the most powerful person in the Pingshan Village. In the Pingshan Village, there is also a family old, and the strength has been achieved. Qiankun...

Of course, the Zhou Guangjing and the Qiankun environment mentioned here are not the original words of Pingyang Mountain. It is only the conclusion that Ye Xuan understands easily, analyzes himself, and compares with the realm of the stars and stars.

After understanding the general situation related to Sang Zhixing along the way, the three days passed by, the universe in front of the void, a planet of life with the atmosphere, finally reflected in the horizon... Arbor, it's here!

Chapter 4170: Flesh and blood

This star is not very large, but it is not too small, basically similar to Tianhe Star!

However, compared with the modern three-dimensional architectural pattern of Tianhe Xingchen, Sang Zhixing, which has no technological elements, seems to be far behind in terms of architectural style.

After entering the atmosphere, Ye Xuan saw a large continent, basically a large or small cottage, which is the simplest form of settlement, there is no building that is too tall, let alone Half empty or above the sea, there are also suspended architectural platforms.

However, the total number of the 12 sangzhixing tribes of the ancient relics is not more than 200 million. Such a big life planet is just a life of 200 million higher lives, but it is far from being crowded and even It can be said that the population density is very small and small.

In this case, they really do not need to do anything like castles in the air and water cities!

The Hongtian tribe is located in the southeast of Sangzhixing. The continent occupied by this tribe is called Hongtian Continent, while Pingshanzhai is located in the northwest of Hongtian Continent. It belongs to a relatively remote place.

The cottage is located in the mountains, is a gentle valley surrounded by giant mountains on three sides, and on the other side of the valley is a vast expanse of the Woye Plain, the location is quite good.

In the valley, the three-storey brick-and-mortar houses are set up according to the topography. In addition, on the cliffs surrounded by the valley, you can see a cave entrance. Obviously, these three

giant peaks The wall was also used by the Pingshan Village, and it was cut into a cave house, and the number is still quite a lot!

Soon, the car fell and fell into the valley. After Ye Xuan came down from the car, he looked at the direction of the center of the valley.

When he was in the air, he saw the situation in the whole valley, and everything else fell. It belonged to a group of cottages. Only in the middle of the valley, there was an item that appeared. Very weird, causing Ye Xuan's interest.

This item that made him feel that it appeared very strange is a big trip!

Of course, there is no way to compare it with Shennong Ding and the furnace. It is not at all a level.

But this big trip is also a magic weapon, but its quality is not too high. According to Ye Xuan's estimation, it is between the best magic weapon and the legendary magic weapon.

However, this big trip has been distinct for quite a few years. Its size is in the square of the kilometer. It is much larger than the one that was built around the valley. It is extremely eye-catching, which has attracted the attention of Ye Xuan. .

"Predecessors, this time we have a huge harvest in this starry sky hunting, and the murders of all kinds of fierce beasts, more than 500. For the people in the village, this is definitely a rare harvest... "

See Ye Xuan twisted to see the huge black tripod in the middle of the valley. Pingshan Mountain, the owner of Pingshan Village, immediately came over and said diligently: "If the flesh and blood of these starry beasts are used as food, they will be preserved for a long time. It doesn't matter, but if it is used to refine the big flesh and blood, it is obviously the fresher the better..."

"It's rare to have such a big harvest. Some of our high-rise cottages have been negotiating between hunting and hunting. Except for some of the wreckage of the beast that is not suitable for refining, it will be left for preservation, as a part of the food in the future. ... other murderous beasts will be immediately put into the Dingzhong, and control the flesh and blood."

"This matter will be carried out immediately. About three days or so, this big medicine can be completed. The strength of the previous generation is naturally not used, but as a delicious soup, taste it. It's not bad!"

"Small blood medicine?"

After hearing this, Ye Xuan's heart jumped and I immediately came to interest.

His cultivation is now the first step of the universe, which was achieved shortly after taking a tube of 19-stage fluid and successfully breaking through.

After the nine-step grand reunion in this situation, Ye Xuan can also take a tube of 20-level liquid. From this, he will be able to break through to immortality... Of course, the 20-level liquid, he has not yet prepared it, but the formula It has already been deduced, and successful preparation is not a problem.

However, the results of Ye Xuan's experience, including the systematic derivation of his in vivo phagocytic system, all indicate that the 20th grade fluid is already the limit of the gene culture fluid.

That is to say, the way of genetic evolution is to develop the path of physical evolution, to the 20th grade liquid, which is the end point. The magical liquid created under this technological element can only push the height of human life evolution to immortality. !

After the immortal level, or the twenty-first liquid after the twenty-level liquid, it is not impossible to successfully prepare it, but it does not need to use the simple preparation method of the previous gene culture solution... but it must be similar to the human family. In the same way as the alchemy camp, you can practice the big medicine!

However, in this way, although Ye Xuan can understand clearly, he has invested in all kinds of top treasures and treasures, together with the treasures of powerful beasts, to carry out refining at the same time, and finally smelt the magical effects and enormous energy. Ointment or medicine, but how to operate, but he knows nothing about it.

Although you can try it a little bit and try to move forward, it is too time-consuming and laborious.

Unexpectedly, this problem was inadvertently seen in the broken wilderness of the world.

It is obvious that there has been a long period of time in the center of the valley, and it is clearly a crater that has been meticulously treated.

Obviously, Pingshanzhai has always used this giant tripod to lead the fire in the volcano to carry out the cultivation of flesh and blood.

Moreover, listening to the meaning of the owner of Pingyang Mountain, this way seems to be very common among the remnant tribes, all the ancient survivors, from small cottages to tribes, all in this way to smelt flesh and blood, Then swallow, used to improve the strength of training...

This is also very understandable. After all, after the ancient World War I, this corner of the ancient world was exiled to the endless universe of the void, they did not touch the outside world, so there is no technological element, even the Terran cultivation camp They are not aware of the alchemy system that has gradually formed in the endless years.

The means of smelting flesh and blood medicines in their hands is the original system that originated from the original era of the ancient times. It has long been lost in the three major stars of the world.

It is hard to say whether this ancient system is more valuable, or the three major masters of the world have experienced the evolution of the endless years, and the technological elements and alchemy systems formed are more valuable...

But for Ye Xuan, all the methods, skills, and so on, which are in the hands of these ancient survivors, are the most necessary for him.
