

Super D. S 4171

Chapter 4171: Unintentional

At this moment, it is known that the ancient survivors on all the planets of life in this ancient world, whether it is a small cottage or a large tribe, are using this method of smashing flesh and blood to obtain extraordinary effects and intrinsic energy. After a large amount of flesh and blood medicine, and after the training to improve the strength, Ye Xuan suddenly spirited!

This time it's really right!

Even if he made a decision, he would look back and find ways to collect the skills and secrets of the different masters of the big tribes in the hands of the big tribes, and then hand them over to the body. The phagocytic system is summarized and summarized.

And finally derived a best way to smelt blood and meat!

In this way, he has great confidence in the treasures of the top-class wild creatures owned by Ye Xuan and a large number of top-grade treasures. He can have 20 levels in a short time. The above-mentioned big flesh and blood medicine, several kinds of refining.

At least, the four major environments in the immortal five worlds, that is, the four immortal medicines that are immortal, immortal, immortal, and immortal, are not too big a problem!

At this time, there are already many Pingshanzhai villagers who are busy around the huge furnace in the center of the valley.

All the people seem to be familiar with each other, and each has their own duties. Some of them attract mountain spring water into Ding, and others start the formation method, which leads to the fire in the crater of the Dingwei, which makes it rise and start in Ding. Warm up under the abdomen.

Some, they began to rush to Ding, throwing some fierce beasts...

The flesh and blood of these beasts are all treated. On the open side of the plain outside the valley, close to the river, there are also a large number of villagers busy.

This time, hundreds of huge beasts and flesh-and-blood wrecks obtained by Pingzhai were thrown into the Ding directly without any treatment. However, on the open land near the river, the meat was first taken into the Ding. Then divide the flesh and blood, and only take a part and throw it into the giant tripod...

Everything seems to be very busy, but it is orderly. Ye Xuan looks at this side from time to time, from time to time to look over there, for a while, there is quite a sense of dizzying!

The 1000-meter-long Ding furnace is not small, but the mountain spring water introduced into the Ding is a big pool, and the various treasures that the villagers have thrown in and throw into are estimated to be piled up. A hill.

These heavenly treasures should be collected and stored in the nearby Dashan Daze on weekdays.

As for the flesh and blood of the beasts, there are hundreds of heads, and even large ones have a body shape of a kilometer. They are cut into pieces of meat of different sizes and put into the tripod.

It was just this link, and it was a little busy for a long time. When the night began to fall, everything was finally completed. At this time, the huge round tripod of the square kilometer was already overflowing.

Subsequently, a huge and must be extremely heavy, was driven by some villagers to cover the huge black ding, and other villagers began to surround the huge black ding. Set up some cases and so on. At first glance, you can't see the side at all. Obviously, here, a party will start.

Moreover, this party is likely to last for three full days, until the end of the great flesh and blood in the huge black Ding.

At night, a fire has risen everywhere, and a large number of villagers have shuttled and placed various spirits, spirits and some grilled and cured beasts on each case.

The Pingshan Village is the strongest, and the old man who has reached the Qiankun situation has not appeared. However, as the owner of Yizhai, the Pingyang Mountain, the second strongest of the Pingshan Village, has been repaired with several other For the old family, I have always been with Ye Xuan's side, from time to time toasting...

For the entire Pingshan Village, it is obviously impossible to have a large-scale banquet of this scale. According to Ye Xuan's estimation, Pingyang Mountain has said that it is similar to the large-scale starry hunting he saw this time. The star is only about twice a year.

If there is no accident, the same scale of banquet, in Pingshan Village, should be about twice a year, today's big harvest, in their eyes is a rare grand festival.

Ye Xuan, who came to this place inadvertently, became the most distinguished guest at this feast...

Soon, with the slow warming of the ground fire, the soup in the huge black Ding finally boiled. Although it was completely refining from this big flesh and blood medicine, there was still a full three days, but now, Ding The fierce beast meat is obviously already cooked.

There are some small holes on the top of the Ding beast. From time to time, some steam emerges, with a rich fleshy fragrance, filling the entire vast valley.

This kind of meat is very weird, and it is also clearly mixed with the unique taste of Tiandidibao, which is put into the Ding. It is mixed together, and it makes people eat their fingers. Even they are used to the gods and fires. Ye Xuan, the top animal meat, could not be praised by his heart.

Sure enough, it is an ancient method that has been left since the time of the ancient times. Although some of the doorways in it have not been understood, the strange fragrance that has only been dispersed from the boiling of the soup has already made him three days later. The great flesh and blood medicine that has been released is extremely looking forward to...

Three days said that the length is not long, but the short is not too short. Ye Xuan, Pingyang Mountain and other villages in the Qing Dynasty have been drinking, and everyone is finally familiar with each other. It will open.

Soon, Ye Xuan took the opportunity to ask some topics related to the era of the ancient times, such as the dark world he had driven out of the broken shuttle, why it was called the sin, and the whole flood The world's ruined world, the truth, what the truth is, and so on...

These topics are exactly what Ye Xuan had guessed for a long time, but there has been no real answer. There are only some doubts about delusions.

This time, with the opportunity to ask, Ye Xuan originally only asked me casually, and did not have too high expectations, can get detailed information.

However, things are always the case. Some things, when you look too much, it tends to be delayed, and once you don't have too high expectations, it is always when you are unprepared. Suddenly, it will come, and you will be out of focus.

Perhaps, there is no way to plant a tree, and it is meaningless to insert a willow.

That's right, this time for Ye Xuan, it was really unprepared and suddenly encountered a major surprise.

Because the truth about the battle of the ancient world that collapsed the whole world of the wilderness in that year was too mysterious to him, but for these ancient survivors, it was almost equivalent to a loose thing, Xuan Cai just asked, several Pingguang Mountain villagers, including Pingyang Mountain, said that I spoke in a word.

Ye Xuan, who was caught off guard, was stunned on the spot, and his brain was roaring...

Chapter 4172: The truth about the collapse of the flood

From the mouths of the Zhou Guangzhai, who are in the Pingshan Mountains, Ye Xuan finally realized the true truth of the war.

He had had all sorts of conjectures before the battle of the ancient world that had collapsed the whole world, but he never got any verbal proof.

Now, from the mouths of these ancient people, I heard everything in the past, and Ye Xuan immediately roared in the brain, and the whole person was shocked.

He did not think of it anyway, the truth about the battle of the world was so bizarre and strange...

During the floods, when the heavens and the earth were first opened, there was already a flood of heaven and earth, and with the opening of the heavens and the earth, the whole world was covered.

But the world is not benevolent, everything is only for dogs, the whole world of floods, like a purgatory of blood and fire, there are killings and **** everywhere, a slightly weaker group, can not survive for a long time, will be extinct.

Even some powerful races are always vigilant. In order to survive, whether they are willing or not, they must start all kinds of **** killings from time to time...

People are old and sick, and there is a lack of cloudy and sunny months.

Wind and rain, thunder and fire. The difference between the world and the world is that the life and death cycle has its own rules of operation. Heaven is invisible, but there are laws and regulations.

During the floods, a group of creatures born in the early days of heaven and earth opened up the atmosphere of the world. Since the beginning of the birth, they have mastered all kinds of magical powers that are born with their blood and blood.

Some of them have mastered the talents of their own blood to the extreme, and finally touched one of the thousands of ways in which Tian Dao worked. In the various fields represented by their own blood talents, they can master the laws of heaven and earth. .

With the growing number of creatures in the fields of heaven and earth, one of them is enlightened and revered, some of which are later regarded as evil repairs, and at the same time, they are full of **** and devastating wilderness. The spirits... sprouted a crazy idea!

They believe that since Heaven is made up of the universal laws followed by the operation of all things, if some of the souls that control their own laws of operation are brought together, they will gather one for all... Why, can't create Another heaven?

Once this crazy thought was published, the floods were scared, more and more crazy evils appeared, gathered together, away from the original world, entangled in the endless void to create the second day.

Just as the evil spirits merged the rules of the heavens and the earth that they controlled, and entered the stage of reorganization, they eventually created an artificial heavenly path and appeared in the form of a baby.

The defenders who have been chasing time and space have finally led the army to approach, and the battle of the largest scale since the beginning of the world has been launched...

This war of the world has lasted for 10,000 years. In the meantime, countless wild animals have participated in it. The whole world of the wild and the wild has been affected by the war. The ancient powers of the wild and the nobles of the ancient ages are all unknown.

Even, even the ruthless, ruthless and ridiculous heaven and earth, came to the end of the war.

At that time, the artificial heavens created by the many ancient ancestors who were called evils, that is, the heavenly babies, apparently still far from growing up.

Even so, he still fights with the wild days in the war, and wins each other!

In the end, after the 10,000-year-old period, this battle of the world has finally come to an end, and the result of the war is naturally both losses, and both sides are dead and wounded.

At the last juncture, the ruins of Heaven and the Heavenly Baby began to fight hard, and the sound of the rumor that rang through the hustle and bustle broke open. The ruins of Tiandao were seriously injured. The baby of Tiandao was decapitated by his palm, and his head was smashed and became an inclusion. The headless baby corpse that was mourned was finally turned into a mans, and it was irritated and disappeared.

The two powerful and strongest people in the final battle of the war, the whole world is completely broken up into a vast expanse of the vast world, into countless large and small fragments.

The endless stream of emptiness flows from the cracks of the emptiness of varying sizes. I don't know how many ethnic groups have been destroyed. In the end, they will be torn apart and broken into the ruined heavens that have been seriously injured. The volume is in all directions...

Since then, the eternal battle of the eternal years of the eternal years has finally come to an end, and the once glory of the vast world of ruin, and thus ... completely collapsed!

"For the tens of millions of ancient survivors of our sangzhixing, there has never been a brilliant world of great wildness. In fact, there is not much difference between them and distant legends!"

Speaking of the final result of that war, several Pingshan Zhai Guangzuo old people sitting in the side ring of Ye Xuan's body have long been a sigh of emotion.

The patriarch Pingyangshan sighed and then he said: "In fact, even if we lived in the ruin of the endless years of the endless years, I don't know where the end is, showing the once glory of the world. How vast is it?"

"Every time I think of the era and the world where the ancestors lived, it was really fascinating, but it was very sentimental..."

"The fragments of this corner of the wilderness are so vast to such an extent?"

At once, even Pingyang Mountain and others were completely ignorant of the end of the ruins of this corner. Ye Xuan could not help but frown a little, and subconsciously asked: "The strongest of you, Sang Zhixing, have never gone out. Have you explored the end of this world?"

Previously, he listened to Pingyangshan and knew that the leader of the twelve tribes of Sangzhixing existed, all of which were equivalent to the nine-order consummation of the world's starry sky. According to reason, this cultivation is not weak. It's not too dangerous to explore Star Trek and explore the end of this world.

"This world is really vast, but it doesn't really go through such a long period of time, but it still hasn't been explored at its end..."

Pingyao Mountain took over the words and explained to Ye Xuan patiently: "Perhaps, on other planets with more powerful presence, people have already made this thing clear, but in our sangzhixing, it is impossible."

"In this world, in addition to our ancient people, in fact, there are more, but also descendants of all kinds of wild animals."

"For example, in the vast territory of China's Sangzhixing, within a vast territory of billions of miles away, the life planet is actually not a minority, but only Sangzhixing is such a life ball, and the life inside it is a wasteland. Survivors."

"And all other life stars are all blood descendants of all kinds of wild and savage beasts..."

"In this, most of the beasts on the stars of life are not too strong, but there are also some beasts that live on the stars of life. They are powerful. There, in our case, it is no different from the restricted area of life. Dare to approach, let alone walk through and explore the faraway Star River..."

Chapter 4173: Survival in the crack

Pingyang Mountain simply explained a few words, and Ye Xuan has completely realized it.

Obviously, this corner of the ruins of the ruins of the heavens and the earth, scattered in the living planets of various regions on the life planet, the apparently unremarkable.

They are different from the blood descendants left by the savage beasts who occupy more planets of life.

The descendants of the blood vessels left by the savage beasts are in their own blood, and between these wild beasts, relying on each other's engulfing, they can make their blood become more and more pure, step by step. The evolution of the earth has become more and more powerful. but

The inheritance of the survivors of the ancients, after the long history of the war, there is not much left, even if there are, most of them may be crippled. Such as

Therefore, they are doomed to their evolutionary and stronger roads, and they are even more difficult than the descendants of the savage beasts who lived in the emptiness of this square. no

Whether it is the height that can finally be reached, or the speed of evolution and becoming stronger, is far less than the blood descendants of all kinds of wild animals.

In this way, when there is an extremely powerful beast in a certain star field, such as immortality... then, the star field is nothing but a real forbidden place for all the other ancient survivors. I simply don't dare to approach. and

If there is a life star in the life of a deserted survivor, in the distant universe, there is an extremely powerful beast in the universe. Then, this life star with a small number of ancient survivors will undoubtedly be Entrapped.

Because no matter which direction of the distant space is explored, it will eventually encounter a forbidden land with an immortal level of beasts. Therefore, they can only huddle in this corner of the central domain, and they will continue to linger.

If you are not exposed to the outside world, you will not be able to contact other surviving people. You will not be able to try to complement the inheritance of the blood ancestor through the main test of mutual communication... In this way, it is equivalent to forming a vicious circle. The strength of the entire ethnic group is always on the slow lane of the evolutionary road, and there is hardly any hope for the future! mulberry

Zhixing, obviously this is the case.

And in this case, I don't know the extent to which the vastness of the ruins of the heavens and the earth, the similar life planets that are more or less absurd of the ancients, is likely to be basically the same. he

We live in the cracks of the stars! difficult

It is strange that Ye Xuan would think that these ancient survivors seem to be quite servile. Now it seems that it is not slavery, but a kind of desperation that has almost been branded in the bones, and the inevitable result of the future.

The whole Sangzhixing is a lost life star!

Perhaps in this vast expanse of the galaxy, there will be some ancient evolutionary planets with a high degree of evolution, immortality, and even the existence of the immortal strong, but it is clear that for this information, this has never been out of this Among the twelve tribes of Sangzhixing, who are thousands of miles away, no one knows...

After knowing this situation, Ye Xuan could not help but feel disappointed. he

Originally thought that it was difficult to encounter a life planet with the lives of the ancient people, and finally able to find out the general situation of the emptiness of the ruins of this corner. No

The result of thinking of the result is so ridiculous, and the tens of millions of ancient survivors living on this life planet have not gone beyond a billion miles. and

In this tens of thousands of miles of the galaxy in the sky, similar to the life planet of the ancients, but only Sang Zhixing, even if he wants to change places to inquire about the news, it is doomed to have no chance. Look

Come, I still have to rely on myself! Billion

A thousand miles away, for today's Ye Xuan, it is not too far away, and now I can only hope that after walking out of this area, I can meet a life planet with a strong and abandoned people. In this way, it is possible to successfully inquire about the overall trend of the void in this corner of the wilderness.

While drinking and chatting, Pingyang Mountain and several other strongest villagers in the Guangguang area quickly mentioned the situation of the square around the billion-mile empty space where Sang Zhixing was located. fruit

As Ye Xuan guessed, the tens of millions of ancient survivors who lived on this life star did not understand everything about the universe beyond the billions of miles.

The reason is that because of their place of living, they are located in the center of several restricted areas.

In the direction of the starry sky hundreds of millions of miles away, no matter which direction you go, you will eventually encounter a star-shaped restricted area that is absolutely insurmountable with their ability, even if it is the power of the family.

The most recent one is more than 40 million miles away. and

The farthest place is more than 80 million miles away. only

In the same way, among the several restricted areas of life, there are one or two or three extremely fierce beasts sitting in the town. According to the realm of the stars and the realm of the world, these are extremely strong beasts sitting in several surrounding restricted areas of life. It should all be immortal.

Mentioning these extremely immortal beasts, Pingyang Mountain and other strongest people in the village are all helpless, because it is their existence that prevents tens of millions of ancient survivors on Sangzhixing from going out. pace. with

Most of the time is also because they have prevented other wild people from the outside of the sky from coming in... no

However, for these extremely fierce beasts of immortality, they are helpless, and more is a deep powerlessness and fear. whole

Among the tens of millions of ancient survivors who lived on the sacred star, the strongest ones were not only the perfection of the ninth order of the main ruins, but even the existence of a cosmic environment. What is the way to be an immortal beast with a powerful whole world? only

It is hoped that the power of sighs! Do not

However, for Ye Xuan, this is obviously not a problem. Do not

The savage beast can't stop him from moving forward... In fact, with his current cultivation as strength, if all kinds of supreme magical powers and repairs are done, even if it is immortal, Ye Xuan can A positive battle, even defeated! One

With this in mind, even after making a decision, after a short stay on this sangzhixing, he immediately took a walk and chose a direction, passing through the so-called banned area of tens of millions of miles away. Go out of this banned area like a starry cage, go outside the wider starry sky, and inquire about the news...

The reason why he decided to stay on this sangzhixing for the time being, the only thing that attracts Ye Xuan is that the tens of millions of ancient survivors who lived on this life planet have mastered the secrets of smashing flesh and blood. inherited.

There is a furnace in front of you, what is the effect of this **** meat and medicine, and then more than one day, you can see it. This

The results also determined that Ye Xuan continued to delay some time here, or suddenly disappointed, and immediately set off to start...

Chapter 4174: Big drug released

In the last day and a half, in the process of changing the cup, from time to time, in the process of chatting, dazzling, it has passed! through

After a full three days of continuous high-temperature fire, this furnace of blood and medicine, and now, finally arrived at the moment of opening! From

In the Pingyang Mountain Pass, Ye Xuan learned that among the large and small villages of the relic tribes, this kind of flesh and blood medicine was cultivated, and it was basically two to three times a year.

Every time you smelt blood and meat, all the villagers in the village can be divided into different shares according to the difference in strength. and

The flesh-and-blood medicines that are only collected three times a year, these villagers will not drink all at once, but will be like the star-studded powers of the three main planes in the world, treating the core and other cultivation resources. , use some of the bottle-shaped storage method treasure to collect it, and slowly consume it in the future. because

For this kind of flesh and blood medicine, for these ancient survivors, it is the only resource for self-cultivation and evolution of life level!

Of course, the flesh and blood of the starry beast that eats flesh and blood on weekdays has a certain effect on the evolution of life and the improvement of the strength of the flesh and blood, but it is obviously far from the secret of this passing through the village. The flesh and blood medicine that is refined is comparable!

After hearing these words, Ye Xuan's heart was about to look forward to the flesh and blood medicine that was about to be completed.

Since they are trying to refine the flesh and blood of these fierce beasts, they are not just eating, but as the only kind of cultivation resources to toss, then their effectiveness should not be too disappointing!

With this expectation, Ye Xuan's line of sight immediately turned to the huge furnace in the central valley of the front, because at this moment, Pingyang Mountain and other people who have been sitting around Ye Xuan's body have been All of them have risen all the way, and they have moved to the top position of the furnace.

The Pingshanzhai people who are carnival around, as well as the appointment, stopped the things in their hands, all of them cast their sights on the past, all with eager and even arrogant expressions on their faces. They are like a pilgrimage for a moment! complete

In fact, the big medicine in front of us, for them, represents the cultivation resources for the next half year. At this time, it will be released, and all the people are excited, and it is indeed inevitable...

At this time, the Tianming, the east side of the valley, a round of fiery red sun, is rising, pouring a golden glow, and the entire valley and the surrounding area are reflected in the sky! One

Standing on crutches, it seems that the old man, who is sixty or seventy years old, walked out slowly in a small path in the valley under the arch of several female villagers. This

At the moment, all the Zhai people all cast a reverent gaze on her, even the Pingguang Mountain and other Pingshan villages. This

In one scene, Ye Xuan suddenly turned his eyes, but it was just a veteran of the Qiankunjing. I didn't know what happened in this row. I thought it was the immortal king who came to immortality! old

His eyes swept over several people in Pingyang Mountain, and finally fell on Ye Xuan's body, nodded with a smile, and then moved away, it was a greeting. This

It's even more uncomfortable when Ye Xuan is in a hurry. Even if the old man is very high in Pingshan Village, but what is more, it's just a great power. Ye Xuan's current strength is the first step of the universe. The whole Sangzhixing can't find the second place. Why is the other party so calm?

Is it too too old to sell old?

In fact, the other side is just a solid appearance. It seems to be old. It is far worse than Ye Xuan. It is not too long to enter the starry environment, but before entering the Star World, it is already long. I don't know how many years I have lived, I can't figure it out!

Just as Ye Xuan's heart is slightly unpleasant,

The old man was already in front of the black dading of the diameter of a few kilometers under the guard of several female villagers behind him. very

Obviously, as the Pingshan Village is likely to have the highest number of generations, the opening ceremony of this big flesh and blood medicine should be done by the old man.

This made Ye Xuan's impression of her a little worse. It

In the previous preparations and the subsequent three-day refining process, the old guy not only did not have a part of it, but even did not reveal it. Thirteen brush presence, it is really awkward! but

This is a matter of people's cottages, Ye Xuan did not intend, and it is even more impossible to stay here for a long time, so after swearing, he threw the matter behind his head. he

It has been decided that after waiting for the big potion to be opened, look at its quality, if it is disappointing, then there is no need to stay here anymore, just leave and leave.

Just at this moment, the old man in front of the black big tripe suddenly started to have an action...

Originally, it seems to be quite old-fashioned. In a moment, it has become a dragon and a fierce dragon. It has taken a big step and walked in front of the huge black ding. The foot falls like a certain rule, giving a kind of The feeling of walking on the foot.

The hands are waving from time to time, and there are words in the mouth. The fingers are constantly licking some kind of fingering, and they look at it with a cold look, and they simply take off the old things of jumping the gods.

But in fact, with the silent voice in her mouth, accompanied by the various fingers of the fingers, Ye Xuan clearly and clearly felt that in the area where his body shape is abrupt, suddenly Between the original invisible field, there was no change, and the change was silent. "

Could it be that before the furnace was opened, did it really need some special law, or ritual, as the final ending, in order to successfully start the furnace, so that this medicine is finally complete? "

These thoughts flashed through my mind, and Ye Xuan immediately became interested in this old man.
very

As for the attitude and temperament that was too proud of the other side, he also had speculation in
vagueness. very

Obviously, this old man is in the Pingshan Village, which is equivalent to the existence of priests in some
tribes. The key secrets of the whole medicine that is passed down in the Pingshan Village should be in
her hands.

And this kind of existence, in the cottage like the ancient villagers of Pingshan Village, should have been
passed down from generation to generation, thus creating her detached position in the cottage, even as
the Pingyang Mountain, the owner of the village. In front of her, she must treat each other with
courtesy. complete

Actually, although Pingyang Mountain is the owner of the village, there is no such existence as a tribal
priest. He is also unable to refine a big flesh and blood.

Everything is still Ye Xuan's guess, but if there is no accident, this guess should be the truth. positive

When he was thinking about his heart and immediately had a strong interest in the old man, the latter
suddenly uttered a violent drink, slammed a bullet, and finally pointed at it, and instantly turned into a
blue-colored man, and shot it. Among the huge black dings of the square.

In the next moment, even Ye Xuan couldn't help but open his mouth...

Chapter 4175: Dragon Tsunami

"Hey!" No

In front of the huge black furnace in the distance of the kilometer, there is always a step in the mouth,
like a big jump in the mouth of the gods, and the hands are constantly changing the various fingers of
the old man, suddenly between the body shape, abruptly stopped At the same time, the mouth is even
more violent. its

The **** in his hand seems to have reached the last one. While the mouth is lightly drinking, the right arm is suddenly lifted up, pointing to the bottom and pointing out...

"Hey!"

With her finger, a blue smudge was shot from the fingertips and fell into the huge black furnace in front of him. This

The road seems to only refer to the size of the belly, and it seems to have taken away a lot of strength and vitality in the old body. With the shooting of Qingmang, she has always been a dragon and fierce, she is in an instant. The wilting went down, and it seemed like a sudden old age. One

The women who were standing behind them, immediately stepped forward, supported their figure, retreated to the rear, and began to nurse...

All of this is very skillful, and there is no one to make a sound of exclamation. Obviously, a similar scene has already become commonplace for all the villagers in the Pingshan Village. and

What makes Ye Xuan even more shocked is the amazing change brought by the old-fashioned blue-colored mang, which has not entered the huge black ding of the diameter of the kilometer.

Even him, because of the strange scene that appeared in the next moment, he subconsciously opened his mouth, his face was dull...

"Hey..."

"Roar!"

A clear sound of dragons sounded, followed by a tiger whistle of the Megatron.

Accompanied by the sound of these two dragons and screams, from the front of the huge black ding of the square, there is a virtual dragon and a black tiger with a black-winged tiger. This

A scene is clearly a dragon and a tiger! very

Fast, the virtual shadow of the dragon and the black tiger, which is rising to the top of the 100 meters, gradually dissipated. but

The black big trip below did not stop there, and a similar virtual shadow continued to rise from Ding.

There are unicorns, giant bears, and various forms of alien beasts, all of which are breathtaking. At first glance, they know that they are pure and vicious beasts... Of course, they are all illusory, not really exist! Look

In this scene, Ye Xuan suddenly realized it. very

Obviously, what caused all of this is that the Pingshan Village, which was repaired by the old man, was spurred into the Ding's blue-colored mans, and perhaps related to his previous smashing into the bones. This

It is a kind of refining method that originated from the ancient times. Its role has already been reflected. It is able to play a horrible role in the blood and blood resources contained in the flesh and blood materials of the medicines in Ding. The effect of the increase.

Previously, the villagers of Pingshan Village invested in various beasts in the black Ding, Ye Xuan has seen each other, although these fierce beasts follow the blood of a wild and savage beast, but this The concentration of various blood vessels is far from the extent that it can show the dysfunction of bleeding veins. Want

Want to manifest the bleeding pulse virtual shadow, then at least it must be the blood concentration of the beasts above the star main body, can do it.

But now, because of the refining method that the old master has mastered, these fierce beasts that have been repaired as ordinary people have actually manifested the vicious beasts that have been repaired above the main character of the star, in order to show the **** shadows, in an instant This makes the quality of this big flesh and blood medicine, as the skyrocketing general increase greatly... This is simply unimaginable! "

Dangdang! "

Just as Ye Xuan was shocked, the heavy Ding beast of the black Ding, which is a kilometer in diameter, has been opened by several strong people in the Zhou Dynasty, such as Pingyang Mountain, and thrown into the central area of the valley. One side. Are

In the moment, with the opening of the Dinggai, within the huge black Ding, even if there is a canopy of mist spread out, after inhaling the nose, even Ye Xuan's current cultivation is a sense of strength. .

Undoubtedly, the quality of this big flesh and blood medicine is quite good. Although it doesn't have much effect on Ye Xuan, don't forget that this big flesh and blood medicine can all be seen by some Ye Xuan. The flesh and blood of the upper eye, accompanied by a variety of herbs. press

According to his estimation, this level of fierce beast material, the flesh and blood medicine that has been refined, under normal circumstances, half of the current efficacy should not be reached.

But the facts far exceeded his predictions. This great medicine has a slight effect on the realm of his own universe. and

All of this is obviously the credit of the old-fashioned refining method that the old man has mastered!

Thinking of this, Ye Xuan's mood suddenly became excited.

The most common animal of the beast and blood, accompanied by a variety of herbs, can actually produce such a great flesh and blood medicine...

Then, if it is the flesh and blood materials of high-quality beasts such as various star masters, domain masters, masters, and even immortals in his hands?

Undoubtedly its effect will be better!

As for the ancient power level, even if it is the top flesh and blood of the quasi-aged ancient energy level, Ye Xuan did not think about it. This black diamond with a diameter of kilometer could not resist the kind of horrible pressure. I am afraid that there is a certain standard. The **** flesh of the savage beasts of the ancient ages has just been thrown in, and the whole tripod will be blown up! Want

Refining the flesh and blood of the top fierce beasts above the ancient ages must be refined by Ye Xuan's Shennong Ding, and this matter cannot be artificially handed, because the Shennong Ding's Shennong's flames are only The flat old villagers who have been repaired cannot be driven at all. only

After Ye Xuan learned this kind of refining method, he personally used Shennong Ding to control the Shennong flames.

I believe that with the power of Shennong Ding and the magical purification effect of Shennong's different flames, the flesh and blood medicines that have been refined will surely go against the sky. Do not

Over, that level of flesh and blood medicine, it is estimated that at least Ye Xuan's own cultivation of strength to break through the immortal level, and even after the seal, the king is immortal, can take. complete

They are all the flesh-and-blood medicines that have been refined from the flesh and blood of the quasi-absolute ancient monsters. Even if his current cosmic level is repaired, they are absolutely unbearable and will be in danger of exploding!

"The flesh and blood of the savage beasts above the ancient level of the quasi-ages, although they can not be refined now, but the vicious flesh and blood of the immortal and immortal grades, there is no problem at all."

"This is the black big tripod of this flat cottage, it should be able to withstand..."

In the mouth, muttering to himself, when it comes to this, Ye Xuan's heart is eager to try. He almost did not hesitate to make a decision. Please ask the old man of Pingshan Village to provide his own star-level to immortal level. A kind of fierce animal flesh and blood, with the help of the black Ding passed down from this village, it is a great high-quality flesh and blood medicine. If

If there is no accident, with this big flesh and blood medicine, Ye Xuan has at least 80% of the grasp, and in a short period of time, he can rebuild his own strength into the first step of the current universe and quickly push it to the ninth stage of the universe. Complete...

Chapter 4176: Refining a furnace

At this moment, with the release of this great medicine, thousands of Pingshan people around the valley all cheered for the thunder...

For them, this big flesh and blood medicine represents the cultivation resources of the next half year, and it is now very exciting. very

Fast, Pingyangshan personally shot, from the black Dading inside a lot of flesh and blood medicine, some sent to the hands of the restored Qiankun Laojiao, and others, Pingyangshan personally sent to Ye Xuan.

At the same time, the other patriarchs of the Pingshan Village, surrounded by the black Ding, began to give the growth of the Dragon's villagers, according to the established share, the black big Ding in the flesh and blood. This

These flesh-and-blood medicines will be collected by a devotee of the villagers, and will be reserved for later cultivation when they are ready to practice. Be

To the front of Ye Xuan is a large bowl, only slightly larger than the fist, but this bowl is obviously a magic weapon, its real capacity, at least in the hundreds of cubic meters.

In order to win over him, such a super-royal monster in the universe, Pingyang Mountain is considered to be a **** one. The family has a lot of flesh-and-blood medicines that are not easily smelted out, but the eyelids are not smashed, and hundreds of cubes are directly sent out. Let's say that Ye Xuan tastes it. If it is satisfied, the flesh and blood medicine inside the black tripod will be taken...

Xuan nodded, no choice, but looked down. Set

The flesh-and-blood medicine in this magical bowl above the front of the case is of extraordinary quality. It is a translucent amber color, revealing a rich energy atmosphere, and even more than a ray of light shines from time to time.

Ye Xuan took another ordinary big bowl, only poured a small bowl, and drank it all. The rest, he still pushed back.

Although more than a hundred cubic meters of flesh and blood medicine is extraordinary, its quality far exceeds the value of flesh and blood raw materials used for refining, but it is not of much use for Ye Xuan's current cultivation. If

It is for the sake of greed, and let some of the villagers in Pingshan Village be deducted part of the cultivation resources in the next half year, which is not what he wants. "

Seniors, you are..." See

Ye Xuan only tasted a small bowl, and then pushed the large bowl of the magic treasure with hundreds of cubic meters. Pingyang Mountain was first seen, and then the face appeared disappointing, and the words stopped.

"The taste is quite good, but this level of flesh and blood medicine is not very useful for Joe. I don't know if Pingzhai can be the master, and then refine the stove for Joe... Of course, all the flesh and blood materials and each a herb, provided by Joe!"

Here, Ye Xuan smiled lightly: "In return, after the release of the big flesh and blood medicine, Qiao will take 10% and give it to Guizhai!"

"This....."

A glimpse of Pingyang Mountain, and then a shortness of breath, a **** flesh and herb materials provided by a strong cosmic force, the refining of flesh and blood medicine, its high efficacy, he is naturally clear, saying shameful words, Not to mention that they are flat cottages. It is estimated that even the twelve major tribes of this sangzhixing may not have such flesh and blood.

The other party can give 10% of the flesh and blood medicine as a reward. In his opinion, this is simply a white delivery, just like a golden mountain falling from the sky, slamming on the head!

However, after the excitement, Pingyang Mountain quickly shook his head and smiled again: "Predecessors, not the younger generation did not agree, it is really the ability of the old priests in the village. The right one has already made her a big injury, to recover, fear is It takes at least a month or two... In addition, the level of the beastly flesh and blood, this kind of heart fire, fear is not open, the temperature is not enough!"

"The fireworks of the smelting do not have to worry about you, I have my own solution. As for the Taoist friend..."

Having said that, Ye Xuan smiled faintly, and waved his hand to smash a milky white light group: "With this thing, her loss of energy can be recovered immediately, and the strength can be improved. Don't say that there is no more refining, even if it is refining three or five furnaces, there is no problem!"

Was sent by Ye Xuan, is a canopy-sized oven. This

There are a lot of things in his hands, usually used for bathing, such a small canopy, for the current Ye Xuan has almost no effect, but for the cultivation of strength only only the Qiankun environment, and still use this thing for the first time The priest, the old priest, has a completely different meaning. she was

After taking a small amount of flesh and blood medicine, I was recovering. I couldn't see a milky white liquid stunned to my eyes. I hovered and suddenly stayed. Following

However, the look was very excited, and even the breathing was rushed. she was

Although I don't know what this is, the energy of the energy contained in it can still be sensed.

With excitement, the priest, the old priest carefully took out a jade bottle and took up about 70% of the head-sized mound lotion, leaving 30%, a mouth inhaled into the abdomen, and then closed his eyes. I meditated on the knees and started refining. leaf

Xuan is not in a hurry, waiting patiently, he is still very confident about the effect of the oven. short

After a short ten minutes, the priests and grandfathers suddenly opened their eyes. The original languid look was long gone, and a long jumped up. Long Jinghu rushed straight toward Ye Xuan, slamming in front of him and bowing his hands. Road: "Thank you for the cultivation of the predecessors!"

Before, her cultivation was only the fifth order of Qiankun, but now, it is already the nine-step grand reunion of the Qiankun. This is not only the merit of the scent of the scent, but should be a combination of her physique and blood. At the same time, the amazing results brought about by the breakthrough. One

Next, Pingyang Mountain and other Pingshan villagers have long been stunned by the strong people of the Zhou Dynasty. They are all open mouths, and the whole person is awkward. short

In the short ten minutes, the cultivation of the priests in the village has reached the great perfection of this situation, and even the four small steps of Jin, even if this happens in front of them, they still have a feeling of unbelievable. "

Since the vitality has been restored, it will help Joe to refine a big flesh and blood medicine. It has already been said to be good with the Pingzhai master. After the completion of the refining, you can take 10% as a reward for refining. "

"As for the temperature of the furnace, you don't have to worry about it. If the temperature of the fire is not enough, then Joe will naturally shoot..."

Speaking of this, see the priest Laos who crouched in front of him nodded, just in time, the flesh and blood medicine in the black Dading in front was already finished, and Dading was empty again. Therefore, Ye Xuan did not hesitate, waved, From the caverns in the depths of the volcanic bottom of the Shennong Dingyang domain in the body, a large number of treasures of the ancient and dead spirits were taken out.

"call out!"

Oh..."

As the sound of a broken road sounded, the wreckage of this ancient and uncultivated treasure taken from Shennong Ding was gradually turned into a mang, and fell toward the inside of the kilometer-diameter black dading in front. . Look

In this scene, Pingyang Mountain and the priests and old priests and other high-rises in the middle of the village were all shocked and stunned...

Chapter 4177: Twenty grade liquid

This time, Ye Xuan is preparing to refine the flesh and blood medicine, the purpose is only to repair it as strength, from the current level of the universe, as soon as possible to the nine-order great consummation of the universe.

Therefore, there is no need to use the ruins of the ancient treasures of the ancient ages that are too high.

In fact, even if Ye Xuan took out the ruins of these ancient treasures that were too high in level, the black dading of Pingshan Village could not bear it. Once a treasure of the quasi-aged ancient energy level was thrown in, instantly It is necessary to fry the furnace. This

At one time, the total number of treasures he had taken out was only one hundred, and all of them were from the treasures of the tens of thousands of stars in the hands of the collectors. The smaller ones were selected. no

In this case, the tripod is only a kilometer in diameter, and it does not belong to the kind of treasures that contain more space, and contains more space. The treasures of more than one hundred ancient creatures can not be installed.

Even so, while more than one hundred treasures were successively put into the black Dading, Pingyaoshan and other villagers in Pingshan Village were still stunned by the scene.

More than one hundred treasures of the ancient and dead spirits are incomparably pure. The weakest of them is the main territory of the star and the domain of the domain. This external environment and the universe are the mainstream. to

Yu Xiu is the most powerful, and it is the treasure of nine ordinary immortal treasures. when

When the nine treasures were taken out by Ye Xuan and thrown into the black dading, Pingyang Mountain and the priest Laos were scared on the ground and sat on the ground, stunned, just like being thundered on the spot.

When they look at Ye Xuan again, they even look very strange on their faces. It is estimated that they are squatting in their hearts. Ye Xuan's own cultivation of the universe is only strength. This immortal level of ancient life, he is How to hunt it.

Despite the wreckage of more than 100 treasures, Ye Xuan has tried to pick a small size as much as possible, but after throwing it into the black dading, he still installed Baoding with an 80% full, and the rest needed to be injected into Lingquan spring water and placed. Various treasures of treasures, so Ye Xuan stopped the release of treasures. short

After the temporary sluggishness, the high-level people of Pingyang Mountain and other Pingshan Village soon became excited, and they sipped the villagers to launch a new round of great medicine.

Everything soon began in a well-organized manner. Some of the villagers began to inject the spring water into the spring, and some of the villagers began to ignite the fire.

And Ye Xuan, after asking about the priests' old treasures about the various treasures of the treasures in the Ding, they quickly cast a large number of high-grade natural treasures to Ding. This

There are too many treasures in the class of treasures, but for the villagers of Pingshan Village, none of them are top-quality goods. When a plant is a treasure that has never been seen by priests and old friends. When the medicine was put into the Ding, it immediately triggered a scream of excitement...

After the cut was completed, Ye Xuan suddenly waved his hand, and the huge and heavy Ding cover immediately covered the black dading. At this time, the raging heart fire had already started, but according to the priest Laojiao, this level The treasures of treasures and the treasures of the treasures are just the heart of the fire, I am afraid that it is not enough to completely melt them. and

This time of refining, the time required for the touch is still about three days. "

So very good, Joe has to leave a day, looking for a secluded place to do some preparatory work nearby, about to return after a day, at that time, I have a solution to the furnace temperature..."

At the end, Ye Xuan left the valley where Pingshanzhai lived, and found an abyss in the distance, not far from the nearby, and began to refine the 20th grade liquid.

Refining the top-grade medicinal materials of the 20-grade liquid, such as the rare treasures of the genus Yuxiang Ganoderma lucidum, the starry sun geranium, and the enchanting Ertengen, Ye Xuan has five copies in his hands. This time, he plans to use the time of day. , all these five treasures of treasures are prepared!

When he is ready, he will soon be a **** flesh of a phoenix bird with a quasi-wild power. After careful condensing of the four-color flame of Shennong, he will turn into a ball, revealing the blue-red awning, and condensing it. Blood and meat pulp took a copy

Although these flesh-and-blood pulps seem to be unappealing, they are actually the whole body of a huge type of phoenix bird's treasure flesh and blood, breaking the order chain and refining it. in

Under the condensing of the four-color flame of Shennong, the order chain in the flesh and blood of the phoenix bird collapsed completely, the body disappeared, and even a tiny black-and-blood black hole appeared, completely collapsed, and the inside contained horrible flesh and blood energy.

However, it is only the first step in the smelting of flesh and blood medicine. It can only be regarded as a semi-finished product. In order to formulate a quaternary liquid, it is necessary to add various rare days to the inside based on these flesh and blood syrups. Materials such as Tidibao and resources can be completed again and again.

In this process, Ye Xuan had the experience of preparing the seventeenth, eighteenth grade liquid and the nineteenth grade liquid. It is easy to do it at this moment, and everything will be completed soon...

The first tube of 20-grade liquid, Ye Xuan was only used in one hour to prepare successfully, but this top-level gene culture solution will undoubtedly lead to catastrophe, and then the time of anti-robbery consumes another Hours, but this time, Ye Xuan's cultivation has not been promoted.

It can be seen that after many times of baptism and fleshing, the thundering effect of the thunder on his body is getting weaker and weaker. Connect

The second tube of the 20th grade unfortunately failed, and the discarded genetic fluid was thrown into the waste energy ball by Ye Xuan, and then the third tube was started without any delay. Connect

The three tubes and twenty-level liquids that came down, Ye Xuan all refining successfully, and after three subsequent thunderbolt baptisms, he has been stagnant for a long time and has once again made a breakthrough. However, this time is just a breakthrough. A little order.

When Ye Xuan passed the last liquid robbery, and when he opened his eyes, the system sounds in anticipation, and also sounded in his mind...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the second order of the universe!"

"Hey, congratulations to the host, the breakthrough of the physical body and blood! The current realm: the second level of the universe!"

Before, when he was the first step of the universe, he was eager to talk about the blood of the three-headed and six-armed Taikoo, and his strength soared again, climbing directly to the second level of the universe. Such as

If you use the konjac to change your magical powers and reach the fifth change, you will be able to reach the seventh-order power of the universe in an instant, and each change will increase a small order.

Now, the cultivation of Ye Xuan's deity has once again broken through a small order and reached the second level of the universe! that

After the activation of the konjac bloodline, he will become the third-order of the universe in the state of Taikoo konjac. Once he enters the fifth transformation of the konjac, his peak power will reach the eighth order of the universe.

From the nine-step great perfection of this territory, there has only been a breakthrough in a small order...

"The second order of the universe? This is far from the end of this breakthrough..."

Holding the double fists tightly, Ye Xuan's body shape shook, and instantly went to the small valley where the Pingshanzhai people gathered!

Chapter 4178: Vision horror

When returning to the small valley where the Pingshanzhai people lived, the second furnace of flesh and blood medicine was only carried out for one day. At this time, Ye Xuan absolutely did not know, because he prepared the 20th grade liquid in Sangzhixing. The four consecutive liquid catastrophe triggered by this moment has already sensationalized the entire Sang Zhixing.

Moreover, even within a starry ban on tens of thousands of miles away from Sangzhixing, the two powerful and ferocious beasts of the immortality also led a powerful starry murderer because they captured the atmosphere of liquid robbing. The beast army, the coming of the bomb...

In the days of the day, all kinds of precious treasures and treasures in the black Ding have not even completely melted. After all, the level of the geothermal fire is too low, and the temperature simply does not satisfy the refinement of this level. The condition of the medicine.

For this reason, both the Pingyang Mountain and other Pingshan Villages, and the priest and son-in-law who have not yet begun to display the recipes of the relics of the cottage, are somewhat worried.

They are obviously worried that the trial of this big flesh and blood medicine will fail. If that is the case, not only will the 10,000 yuan not be paid, but it will also anger the supreme power of the universe. By then, Wan One other party is furious, and for Pingshan Village, it is tantamount to a disaster. leaf

Xuan took all the worries of the people into their eyes, and suddenly they smiled, but they never thought about it. The body shape fell, and after falling into the valley from half air, they waved at the first time and pulled out a Shennong from Shennong Ding. The seven-color flame directly enters the interior of the black dading. It

Therefore, it is not like the fire of the earth below the big Ding, and it is heated outside the wall. Because Ye Xuan is worried that this black big trip can't bear it. With its material, I am afraid that Shennong's seven-color flame will be refined. It is.

Let this Shennong seven-color flame enter the black ding, under the careful control of Ye Xuan, not only will the black dading not be damaged, but the heating effect will also be faster.

"This is... a high level of flames?"

Seeing Ye Xuan's wave of hands, he sang a gorgeous colorful fireworks and directly fell into the interior of the black Ding. Pingyang Mountain and the priests and old princes were shocked and their faces were full of excitement.

Although they have never seen Shennong Ding, but with this black big Ding refining a lifetime of flesh and blood medicine, for the fireworks is still a little insight, Shennong seven-color flame just to see its gorgeous colorful color, you can know the inevitable .

"Predecessors, this big flesh and blood medicine, not only all the refining materials such as Baoxuebao and Zhenbaobao are all yours, even the high-grade flames of refining these materials are also the predecessors..."

Looking at Ye Xuan first, Pingyangshan shook his head and smiled: "The reward for this is that I am really stunned by the Pingshan Village. The predecessors are still recovering their lives. I am so guilty."

"Noisy!"

When Ye Xuan turned his eyes, he replied: "What is the reward for this in Qiao's eyes? If you are so twisted and twisted, Joe will finish the big flesh and blood medicine, and then leave and stop!"

The implication is that after the refining of this big flesh and blood medicine, it is very likely that it will continue to stay in Pingshan.

This is exactly what Pingyang Mountain expects. After he realized this meaning, he first stunned, then ecstasy, and sinned to Ye Xuan, even if he retired with joy...

With the addition of the Shennong seven-color flame, the treasures and treasures of the various treasures in the black Ding quickly melted. original

It still takes two days of cooking, and after just two hours, it has been completed. Correct

In refining this kind of flesh and blood medicine, the people in Pingshan Village are obviously more experienced than Ye Xuan. When they saw some subtle changes in the stove, the priest Lao Ding even stood up and looked at Ye Xuan with a dull face. good

After a long time, I whispered softly: "Predecessors, what kind of thing is the smoldering flame that you just put into the furnace? You can actually get out of it. This speed... is too fast?"

Are you going to be released? Then... hurry back, lest the charcoal be burnt. "One

Listening to this, Ye Xuan stunned, and quickly rushed into the black Ding, the Shennong seven-color flame regained the Shennong Ding in the body. Festival

The son-in-law looked at Ye Xuan deeply and did not hesitate, even when the final link was launched.

Her seemingly old-fashioned figure, which has changed in a moment, has become a dragon and a fierce, striding forward, walking in front of the huge black tripod, and its feet fall in a certain pattern, giving people a certain A feeling of stepping on the foot, the hands are waving from time to time. mouth

There is a word in the middle, and the ten fingers are constantly licking some kind of fingering, and they look at it with a cold look.

Soon, with the silent voice in her mouth, accompanied by the various fingers of the fingers, Ye Xuan clearly felt the area where his body shape was full, the original invisible field suddenly There was no change, and there was no change in silence.

"Hey!" Less

After that, I have been stepping on the steps like a big jump in the mouth of the gods, and the hands are constantly changing the various fingers of the old man. Suddenly, the body shape is shocked, and at the same time, the mouth is even more violent. The **** in his hand seems to have reached the last one. While the mouth is lightly drinking, the right arm is suddenly lifted up, pointing to the bottom and pointing out..."

call out! "

A blue smudge shot from the fingertips, did not enter the huge black furnace in front of him, this seemingly only refers to the size of the eye can not be seen, it seems to take away a lot of strength and vitality in the old body With the shooting of Qingmang, she has always been a dragon and fierce, and once again succumbed to an instant.

Although the degree of embarrassment is not as good as the previous one, it seems like an old age, but it is not a general exhaustion. One

The female villagers standing behind them immediately stepped forward at this time, holding their body shape and retreating to the rear. With

After that, the old man took out the scented lotion that Ye Xuan gave before, and started to nurse... This

Once, the vision of the ancient creatures rushing out of the black Ding is even more amazing. The figure of the real dragon and the phoenix rises up and can be clearly seen through thousands of miles.

At this moment, in the distance around the sky, there are some strong people in the main territory who are searching for nothing. They are attracted by this vision, and all of them are gathered together in an instant.

More than a dozen figures, all of them are the lords of the landlord, which is the strongest of the twelve sangzhixing tribes.

The reason why they came to the vicinity at the same time was because Ye Xuan had ordered the liquid robbing four times in succession when he prepared the quaternary liquid.

However, after the refining was completed, Ye Xuan left the small valley directly, and the smell of liquid robbery disappeared. Therefore, the dozens of lords and strangers could not determine the position. straight

At this moment, the vision of the Pingshan Village rises and they are shocked. It turned out that this hill has been changed. this

Engraved, with more than a dozen lords of the world coming from all directions and seeing the scenes in the valley inside the village, they immediately screamed and screamed...

Chapter 4179: I have seen seniors

"God, there is a great ancestor in the hilly village below..."

Also, what is the grade of this big flesh and blood medicine? Why does the old man have a feeling of stunned? "

"This must have been hand-made by the great ancestors. The grades are far superior to those of the 12 major tribes. I look at the vision of the dragon phoenix and the horror. amazing!"

However, the last drug control, why did the seniors not personally take the shot? Actually let a weak

"Supreme people act, so I can wait for the old man to see, the predecessors must have their deep meaning..."

.....

In the exclamation, these dozens of high-ranking tribes from the 12 relics of Sangzhixing quickly fell into shape, but did not dare to enter the small valley where the Pingshan Village lived, but on the periphery of the valley. Looking up inward.

For their arrival, the high-level high-level members of the Pingshan Mountain, such as the Pingshan Mountain, have already noticed that one of them is the boss of the boss, which is the core of the big tribe to which the Pingshan Village belongs. .

If they were in peacetime, they had already greeted them with great respect and greeted them, but at the moment, because Ye Xuan was here, and this big flesh and blood medicine was just opened, they simply could not leave. Therefore, several people in Pingyang Mountain exchanged. After a look, I could only linger in my heart, and my scalp was left behind by Ye Xuan.

"Dangdang!"

As Ye Xuan waved his hand, the black dadong's tripod flew up and fell to the side of the valley in the middle of the valley. Then there was a purple mist in the Ding, and some Pingshanzhai people in the valley only Just sniffing a big purple mist, the body heard a roar. actually

It was a breakthrough on the spot.

Of course, this situation will only appear in some of the weakly existing existences. It is impossible to reach the level of Ye Xuan.

The whole black Ding's internal volume is a thousand cubic meters. Before that, the big flesh and blood medicine was released with 900 cubic meters of amber pulp.

But this time, when Ding Gai flew up, the flesh and blood medicines that appeared inside were actually only half, that is, five hundred cubic meters.

This is obviously caused by the purification power of Shennong's seven-color flame. Although the medicine is less, its efficacy has improved a lot. "

A total of five hundred cubic meters of pulp, you take fifty cubic meters, Joe has said before, don't be arrogant! "

With a wave of hand, Ye Xuan directly rolled up 450 kinds of flesh and blood medicine from Ding, and put it into a space vial, which was in the immortal world. "

hiss.....""

This big medicine... God, it is actually a purple infection! "

As Ye Xuan's words fell, the Pingyang Mountain probe looked into the black Ding, and saw that there was only a shallow layer of flesh and blood medicine at the bottom of the Ding, and even when the voice disappeared, he exclaimed.

Then, with a transparent little cockroach, he took a handful from Ding, and went to the side of the priest, and excited, his body trembled: "Priest, Zipper, actually is the purple peony Ah...we actually made a purple peony!"

The first large flesh and blood medicine that was refining before was a pale yellow translucent gelatinous substance, like a thick pulp. This time, although the pulp is still semi-liquid and translucent, its color is It is a deep purple color, and it also emits a purple treasure. If you look at it coldly, this **** medicine is really like a huge purple amber.

No wonder it is called Pipper Medicine by Pingyang Mountain! Festival

Mrs. Lao has been so excited that he couldn't speak. He was grateful to cast a look at Ye Xuan. After a slight jigsaw, he even swallowed a small amount of fist-sized medicine. In the abdomen, the refining began in the same place.

Undoubtedly, with this big purple medicine, she has already broken through to the strength of the nine-step grand perfection of Qiankun, and will surely break through again and become a star-studded monster. It is definitely a matter of stability.

Seeing that the priests and old priests have swallowed a small When I came to Heiding, the fifty cubic meters of purple medicine that the seniors gave me, and now I will take the points. Every family has a share..."

After hearing this discourse, Ye Xuan stunned a bit, and then he turned his head thoughtfully to the dozens of lords who looked up outside the valley.

When these dozens of lords had just arrived, he already knew it, but he did not pay attention to it. Now

In the act of watching Pingyang Mountain, it is obvious that even the dozens of tribes of Sang Zhixing behind the dozens of lords of the lords, I am afraid that they can not smelt this kind of purple and poultry. and

The reason why Pingyangshan immediately summoned all the ethnic groups to come and collect them was obviously because they were worried about the fifty cubic meters of flesh and blood medicine in the black daging, and the dozens of lords who were looked up by the valley outside were worried about it. he

After all, all of them are people with identity, even if they are eager to see, if these purple points, Pingyang Mountain, have all been distributed to the hands of all the villagers in Pingshanzhai, I don't think they will remember it anymore. Too ugly.

However, this incident Ye Xuan is somewhat unreliable after all. He does not want to bring disaster to the villagers of Pingshan Village because of this incident. more

What's more, the follow-up he will sooner or later contact with the dozens of lords of the landlord. The priests in the large and small villages of the twelve major tribes on Sangzhixing have different methods of refining medicine in their hands. Many obviously They are all incomplete, and the most complete one should be in the hands of the high priests of the twelve tribes. Correct

In these refining laws, Ye Xuanzhi is sure to win. He can't always rely on others to make such a big flesh and blood medicine. One

With this in mind, Ye Xuan even called the caller outside the valley: "Since you are coming, it is better to see you in the valley, just as Joe has just refining a big flesh and blood medicine, seeing is the fate, Joe Since I have to pay a few, I don't want to push it, but I don't want to push it."

In the meantime, more than a dozen storage vials have been spurred between his waves, which contain ten cubic sterling pills. only

This is just the next time, Ye Xuan's 450-cubic-pound purple medicine is almost one-third less, but he doesn't care at all. He's not paying attention to this level of flesh and blood. In it, it is only effective before the immortality. After using this one, it is estimated that the next effect will be much weaker.

Compared with the complete refining method controlled by the dozens of lords in the hands, the value can be neglected.

At this moment, Pingyangshan sees Ye Xuan so generous, and he is relieved in the dark, and the dozens of lords of the world are flattered and pressed down into the shape, and bowed in front of Ye Xuan: "I have seen seniors."

Chapter 4180: immortal

After accepting the leaves of Ye Xuan and sending out ten cubic sterling medicines, these dozens of geeks from the 12 major tribes of Sangzhixing seem very polite, and they have bowed to Ye Xuan's ceremony. thank. thing

In fact, even without these ten cubes of purple medicine, they are the same in front of Ye Xuan. After all, the gap between the two sides is the place where strength is placed. Ye Xuan is only the second order of the universe. However, but to clean up a dozen or so lords, this kind of cultivation is still completely achievable. leaf

The reason why Xuan Xuan showed well to these dozens of lords, the purpose is the complete refining law that the twelve tribes have in their hands. Do not

However, this matter is not directly available, Zhang Xuan is not prepared to use strong, but not eager for a while, but now the 20th grade liquid has been successfully formulated, and even the excellent effect of the purple medicinal medicine, There are more than three hundred cubes in his hands. Therefore, the breakthrough in the cultivation of strength seems to have become more urgent. One

Mind this, Ye Xuan even arched his hand and said: "You, Joe's purple pouch has just been released, you need to try its effectiveness, just take this opportunity to break through..."

The meaning of the next, clearly is that you can't talk more about it for a while. After this breakthrough is completed, let's talk to you about the rhythm. One

The old lords of the world are also very interesting, even when they are hand-in-hand, they are extremely diligent.

"Would the predecessors want to break through? Oh, it's really enviable. I think this time after retreating, when I saw my predecessors again, it was already the third-order repair of the Mahayana. I am far behind..."

However, although I am too weak to be trained, it is perfectly possible to protect the law for the seniors. ""

Although the seniors are reassured, the outside things will be handed over to me! "...

...This

Helping the family obviously has a strong interest in Ye Xuan. At the moment, there is no intention to leave. On the spot, he proposed to give Ye Xuan the meaning of protecting the law. Rear

It doesn't matter if you don't care. After nodding your head, you don't have to say a word. Once you've got your body shape, you've reached the small valley where you used to reconfigure the 20-level liquid. Swing

After the hand sacrificed a large array, Ye Xuan directly sacrificed the Shennong Ding in the body. Of course, it was just a condensed state of a hundred feet. Otherwise, this sangzhixing might have to be crushed and could not be installed. Do not

Whether the dozens of landlords outside the tube have other thoughts, and Shennong Ding's support, Ye Xuan can be safe and sound.

At the moment, after the spurt of the body flew to the Dingkou where the nine-colored fog was smashing, he sat down and took out the space vial containing more than 300 cubic zirconia medicines. Zhangkou directly took away two hundred. Cubic, condensed into a purple to black liquid, in the body of the limbs, quickly flowed ...

With this extremely concentrated purple peony medicine flowing in the body, within the body of Ye Xuan, the sound of dragons and tigers screaming in the dragon and tiger rumors was heard, and the whole body was one billion. Eighty million pores are shining outwards with a purple brilliance. From time to time, there is also a shadow of a powerful and desolate creature, rising from the top of his head. Do not

However, all these visions are controlled by Shennong Ding's domain power, which is covered and not leaked out, otherwise it will only lead to even more amazing sensation...

In this process, the strength of his cultivation is constantly rising. The knowledge of the sea in the brain is even more shocking. Under the impact of this concentrated black purple liquid, The vast range of Ye Xuan's knowledge of the sea is rapidly expanding at a speed visible to the naked eye...

I don't know how long it took, when Ye Xuanyuan opened his eyes with great brilliance, the system sounds in anticipation, also sounded in my mind, and it was still dense, and it was a series of resounding...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the third level of the universe!"

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: the third level of the universe! "...

...

A similar system prompt sounds, and there is no end to it. When Ye Xuan heard some numbness, the last sentence was late.

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the universe is full of the ninth order!"

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: the nine-order great perfection of the universe! Yu

The universe, the nine-order great perfection!

The thought flashed through my mind. Ye Xuan gripped her fists tightly. Without any hesitation, she took out the four tubes and twenty grades of liquid that had just been refining not long ago, and picked out the best one. Tube, look up into the entrance. tight

Then, he swallowed five drops of evil source liquid, as well as various other top resources, and then closed the refining and turning, and began to hit the spot! This

The potency and energy of a tube of 20-grade liquid is absolutely not weaker than the black-purple liquid formed by the two hundred cubic zirconia drugs that have been swallowed by Ye Xuan. complete

Actually, the refining of the blood and meat pulp of the 20-grade liquid can be made from the treasures of a powerful and ancient wild spirit of the quasi-aged ancient energy level, and then refined by the four-color flame of Shennong.

At this moment, as the tube of the 20th grade liquid fell, and quickly circulated in Ye Xuan's body, within his body, a large number of dense chains of squeaking sounds were heard. It

As I said before, there are two big obstacles in the cultivation of the starry sky. The first is to break through to the mighty power, and the second is to break through to the immortal.

Before the first big hurdle, Ye Xuan successfully crossed, and now, the second scorpion gap on the road of life evolution has finally arrived... no

However, although this second hurdle is even more difficult, it is obviously not a problem to successfully cross him with the essence of Ye Xuan and the overbearing power of the 20-level liquid. short

After three short hours, he opened his eyes again, and in the brain, he also heard a familiar system prompt tone...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the first level of immortality!"

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: the first level of immortality! "This

Before a retreat, the strength of Ye Xuan's deity is the second order of the universe, and once the three-headed and six-armed Taikoo konjac blood, the strength is once again soaring, directly climbing to the third level of the universe.

If you use the konjac and change the magical powers and reach the fifth change, you will be able to reach the eighth-order power of the universe in an instant, and each change will increase the strength of a small order.

Now, with the refinement of Ye Xuan's deity as a strength, he has finally broken into an immortal world. Then, once the body of the konjac blood is activated, he will be in the second stage of the three-armed and six-armed konjac. If he enters the fifth stage of the konjac, his peak power will reach immortality. Seventh order. to

Therefore, even if it encounters immortality, Ye Xuan will have the power of a battle without using all kinds of supreme powers and treasures.

And if you use the various powerful powers and treasures such as the 陨天弓 and Shennong Ding, even if the king is immortal, now Ye Xuan can be fearless...
