

Super D. S 418

Chapter 418: Be captive

Ye Xuan turned his head and looked around, and found that his wrist was thrown aside by the red-faced old man, and the Qiang Kun ring was pinched in the hands of the red-faced old man.

"Things, things?" said the red-faced old man in a hoarse voice.

Ye Xuan understands that he is looking for those poisonous grasses.

However, those poisonous grasses were swallowed up by him, and the secluded grass that was not swallowed was also in his engulfing space. This Qiang Kun ring is used by him to force, no, to be used as a look.

"Those poisonous grasses have been eaten by the younger generation..." Ye Xuan said shortly, first throwing a suspense.

have eaten!

One person, eating so many poisonous grasses and not dying, is enough to make the red-faced old man feel surprised. Only in this way, he may have a chance to live.

"have eaten?"

The red-faced old man was shocked. Many of those poisonous grasses had to be carefully picked, but they were eaten by Ye Xuan. How is this possible?

The most important thing is, how can a large piece of poisonous flower buds be eaten?

At this time, the red-faced old man suddenly noticed Ye Xuan's wrist, and began to slowly grow out, and it will be restored as soon as possible.

This scene, he was stunned.

"What kind of ghost are you?" asked the red-faced old man.

A human being is absolutely impossible to reinvent the broken arm. However, he sees it with his own eyes and will inevitably doubt whether Ye Xuan is a human being.

"The younger generation is a human being, but once took a natural treasure, so it is not poisonous, and has the ability to regenerate the broken arm." Ye Xuan hurriedly explained.

"A hundred poisons do not invade, broken arms are born again?"

The red-faced old man's brows are slightly wrinkled. He did not sense that there are other Qiankun Rings on Ye Xuan's body. Therefore, after thinking for a while, he said: "You are practicing by eating poisonous grass?"

"No, the younger brother's body is a little special. If you don't eat poisonous grass, you may explode and die..." Ye Xuan sang a reason, he was ruined because he had no choice but to eat all the poisonous grass.

The red-faced old man will be suspicious, and Tieqing's face is also restored, but his look is a little weird. After thinking about it for a while, he threw a poison to Ye Xuan, saying: "In front of me, eat him, if you are cheating my words....."

He did not say anything, because he felt that if Ye Xuan was cheating on him, he would be poisoned by this poisonous grass, and he would not need to shoot him.

Ye Xuan caught the poisonous grass and found that the poisonous grass was swallowed by him, but he did not eat it.

"Mom, miserable, I can only believe that the tree of life is back."

Ye Xuan bit his teeth, took a bite of the leaves of this poisonous grass, and swallowed it.

Although he can put this leaf into the swallowing space, but the old man in front of him is the third-order temperament, swallowed with his mouth, and if he is seen through, then he will die.

So, only fight once!

He chewed the leaves of the poisonous grass and swallowed it in the abdomen. The next moment, he heard the system sound.

"Hey, the host is free of this toxin!"

"call!"

After hearing this tone, Ye Xuan also breathed a sigh of relief. It seems that the blood of life is still very powerful.

"carry on!"

At this time, the red-faced old man said coldly.

Ye Xuan is now relieved that he has swallowed the whole bitter poisonous grass into his stomach.

The red-faced old man frowned at him and waited quietly for a moment, only to reveal a strange look.

"Are you really poisonous?" The red-faced old man asked in vain.

"It's true, but some unfamiliar or toxic ones won't work..." Ye Xuan nodded.

The red-faced old man will look at him suspiciously and ask: "Can you tell me the toxicity of the grass?"

Wen Yan, Ye Xuan stunned, and then said: "When swallowing, the stomach is hot, feeling like to burst open, after the three interest, some nausea, there seems to be something moving in the belly, now the head is a little up..."

This answer makes the red-faced old man feel strange again. He said: "The plant is a spleen, and if the person below the second level of the qi is mistakenly obeyed, it will burn from the inside out into the ashes within the three-way."

"I rub!"

After hearing the explanation, Ye Xuan was scared to death.

In fact, he did not say the symptoms at all, he saw the toxicity listed in the phagocytic system, combined with his own thoughts.

Those who are under two hundred dragons mistakenly take a leaf and burn it to ashes in the three-six, but he swallows the whole grass.

"You try this again." The red-faced old man took another poisonous grass.

"Nima, take me to try poison?"

Ye Xuan was very helpless. This time, he first carefully bite the leaves of the poisonous grass and swallowed it. After hearing the system prompt, he took the whole poisonous grass into it.

"Sure enough, it is not poisonous." The red-faced old man's eyes squinted, and the look of Ye Xuan's eyes became a bit weird.

"Predecessors, younger generations mistakenly entered this place, made a big mistake, but also hope that the seniors forgive me, these poisonous grass, I will compensate..."

Ye Xuan said.

"Hey, just rely on you, dare to say compensation for this? You know, how much is this poisonous flower?" The red-faced old man screamed coldly.

Ye Xuan did not speak.

This poisonous flower bud, let him break through the power of one hundred and fifty dragons to one hundred and sixty dragons. The value of it is huge. If it is sold and replaced with cultivation resources, I am afraid that one hundred and fifty dragons will break through to one. One hundred and eighty-eight dragons, even one hundred and ninety dragons, even two hundred dragons are not impossible.

Ye Xuan's phagocytic system requires more cultivation resources than people of the same level. His advantage is to save a lot of time.

Therefore, Ye Xuan can not afford to pay!

At this time, the red-faced old man shouted: "You swallowed my entire poisonous flower, it was a death sin, but I think you are still pleasing to the eye, as long as you are willing to help me, I will spare you a life, otherwise, you will be killed immediately."

When I heard that there was a way to go, Ye Xuan also hurriedly asked: "What do seniors want me to do?"

The red-faced old man did not want to answer: "Try the poison, I have a lot of poisons with unknown toxicity. I want you to help me try the toxicity of these poisons. As long as you do well, I will let you go."

"This....."

Ye Xuan paused and his brow wrinkled.

The red-faced old man did not specify the specific time, that is to say he wanted to look at the face of the red-faced old man. If the old man does not let him go, then he has to be banned.

However, this is not a turning point, because the red-faced old man does not know that he has a phagocytic system. As long as he steals the poison, piles up, and then swallows together, the strength of the skyrocketing after using the Beastmaster violent, said that can not escape.

"Okay, I agree." Ye Xuan nodded.

This time he killed himself and was captured by the other party on the spot, so there is no way. Fortunately, this red-faced old man seems to have some rationality, otherwise he will directly kill the killer when he sees him.
