

Super D. S 4181

Chapter 4181: The beastly army is coming

Immortal first order... leaves

Xuan, finally broke through and became an immortal old monster!

At this moment, his heart is in full swing, recalling all kinds of emotions since entering the starry environment, and endless emotions!

It was also at this time that the sky above the head suddenly heard a thunder and thunder without warning..."

Rumble..."

Looking up, his sight passed through the field of Shennong Ding to shield the power, and the array of the valley array, and immediately saw the extremely high altitude above the head, there is a large black cloud, which is rapidly Gather. suitable

The thunder of the thunder is the result of this. leaf

Xuan Xintou gave birth to Ming Wu, immortal robbery... is coming! although

However, in the void of the ruins of this ancient land, there is no existence of the ruins of the heavens, but in the midst of it, the order and laws of the heavens and the earth are still there, so the annihilation will come.

The reason why the previous liquid robbery appeared is also the reason! star

The two big hurdles of the tyrants will be robbed, and when they enter the mighty power of Qiankun, they will also be called small robs. and

The second step into the immortal hurdle, once passed, will lead to immortal robbery, also known as the big robbery!

Nowadays, Ye Xuan's cultivation has already broken through into immortality. It is a veritable immortal grotesque. It's just a baptism of a big day. to

For him, this so-called immortal catastrophe is a test, but it is also an opportunity.

After the baptism of the robbery, the realm he has just broken through will be completely sturdy!
Correct

Therefore, Ye Xuan is naturally not allowed!

However, this sangzhixing is not suitable for robbery. Even if this life planet can resist the thunder of the immortal catastrophe, it is absolutely inevitable because of the destruction of this catastrophe. mulberry

The ancient survivors on the planting star are already hard enough, and Ye Xuan does not want them to make it worse. Place

Therefore, he decided to go to the universe in the void outside the atmosphere of Sang Zhixing to go to the robbery, so that the space is wider, and it is more convenient for him to display various means, can completely let go! One

In this regard, when Ye Xuan got up, he waved his hand to Shennong Ding in his body, and then he withdrew the big array and stepped out.

As he walked out of the valley, the thunderstorm that was gathering far away from the top of his head, and he followed him, apparently locked the air machine in Ye Xuan. and

At this moment, with the withdrawal of the big array, Ye Xuan immediately saw the situation outside the valley, and a piece of sluggish face with a stunned face, reflected in the line of sight...

There is a certain distance from Pingshan Village. Therefore, he did not see too many Pingshanzhai villagers, but Pingyang Mountain and several other Pingshan Village's high-level celestial planes are here. except

In addition to this, it is the dozens of people who are called Ye Xuan and protect the law.

They originally thought that Ye Xuan only broke through the second stage of the universe, that is, the second order of the universe, to the third level of the universe, but now only half a day later, when Ye Xuan appeared again, the cultivation of strength has directly reached The first stage of immortality... Oh, yes, in the name of the survivors of the ancients, the immortality is called the heavenly robbery. inverted

Also in line with this situation will usher in a feature of immortality! From

From the second order of the universe to the first stage of immortality, Ye Xuan broke through eight small steps this time, which is equivalent to a big realm. This kind of thing, in normal times, even in his body, it rarely appears, only two Three times. and

For the survivors of these sacred sacred stars, it is even more indistinguishable from the night of the night, and it is no wonder that they all have such a living expression on their faces at the moment..."

Before...the predecessor, you... broke through to the day of the robbery? "

"God, come to a thunder to kill the old man, half a day before the second stage of the Mahayana, how long does it take? It has become a stage of the day!"

"Absolutely wrong, otherwise, how can the cloud in the sky be explained?"

It's a enchanting...but it's a good thing, congratulations to the predecessors, and the means of the older generation, this day of robbery, should be able to easily spend it! "...

...with

With Ye Xuan stepping forward, a group of people who were dull and so on finally returned to God, all of them were arched, and they were ecstatic in the face, and they continued to express their congratulations. "

The power of this wave of robbery is not small. Although Sang Zhixing can kneel down, it will have some influence. Therefore, if Joe goes to the void outside the atmosphere to go to the robbery, you don't have to follow it..." point

Nodded, Ye Xuan no longer talked about it, and his body shape shook. When he even rushed to the sky, he blinked out of the atmosphere of Sang Zhixing and came to the universe in the void outside the atmosphere of the star. And

Also deliberately away from the foot of thousands of miles, this stopped the body shape. With

With his body moving, the canopy originally appeared in the dense black robber cloud on the upper part of the Sangzhixing atmosphere. It was also strangely outside the atmosphere of the star, still hanging above Ye Xuan's head, firmly locking him. Air machine.

Ye Xuan has not been the first to experience such a thing as a catastrophe. It can even be said that he has been used to it for a long time. Just half a day ago, when he prepared the four tubes and twenty-level liquid, he also experienced four waves of catastrophe. It. although

It is said that this wave of annihilation is a catastrophe of the immortal level, and the power can be stronger, but Ye Xuan is still not in the heart. thing

In fact, he even thought that the power of this big robbery could be stronger, because in this case, it actually represents that Ye Xuan's benefits after getting through this robbery are even greater.

"Card..."

At this moment, the robber clouds at the top of the sky above the top of the head have been thick enough to be incapable of opening. As Ye Xuan looked up, a crisp and incomparable slamming sound came out, and the universe's void within a million miles was lit up. One

The huge lightning flashes down!

"Good to come!"

At this moment, Ye Xuan's passion is screaming, and the body shape not only does not evade, but instead rises up and rises, rushing toward the huge lightning that comes from the head...

.....versus

At the same time, and the leaf robbery where Ye Xuan is located, the other side is just across the opposite direction of a mulberry star, approaching the universe of more than 20 million miles, a huge army of beasts is expanding. Extreme speed, coming in this direction!

This fierce beast army, from the tens of millions of miles away from the starry ban, because Ye Xuan prepared 20-level liquid, attracted liquid robbing, which caused two immortal powerful beasts in this forbidden land Attention.

In the eyes of these two powerful immortal beasts, the starry sky in this area can have such a breath of annihilation, and it is still four times. There must be some kind of heavy treasure to be born. for

After winning the treasure, the two immortal beasts immediately led a powerful beast army to rush.
original

Ben, because the time of liquid robbery has been a small half a day, they are still unable to determine where the treasure is born. but

At this time, in the void of the universe more than 20 million miles ahead, suddenly there was the breath of the robbery, and the two immortal powerful beasts of the leader team were excited again.

Chapter 4182: Stunned

The overall strength of this beast army is very strong!

In addition to the two immortal beasts of the lead, there are more than twenty beasts in the cosmic class, and as many as nearly one hundred in the main class, the domain masters and star owners below the main level need not say much.

The whole army of beasts and beasts, although only a few million in total, is enough to easily smash hundreds of thousands of ancient survivors on Sangzhixing back and forth.

In fact, this is not the full strength of this starry ban.

It is no wonder that tens of millions of ancient survivors on Sang Zhixing have never been able to rush out of this direction in the endless years and go to the wider universe.

Of course, the other directions... are the same!

Although Ye Xuan said earlier that the dozens of lords should not follow the Sangzhixing atmosphere, but for them, the supreme power of the day can be seen, but this opportunity is It's hard to get, and the millennium will rarely meet.

Therefore, more than a dozen of the lords of the landlord rushed out of the atmosphere of Sang Zhixing after Ye Xuan left, but they did not follow too close, just above the atmosphere, watching the distance in the distance of nearly 10 million Outside the scene, Ye Xuan crossed the sky.

On the other side of Sang Zhixing, the fierce beast army, which is so powerful and terrifying, once again feels the speed of the ravages here, and speeds up again. It is approaching under the extreme speed.

The whole army of the beastly beasts is extremely elite. Although the number of millions of beasts is not too much, the lowest ones are also the existence of the mysterious light.

This level of the beast army, for the survivors of Sang Zhixing, its lineup is already luxurious, and the speed of the attack is naturally very fast!

"Roar!"

"Hey..."

In less than half a cup of tea, the distant side of the other side of Sang Zhixing suddenly came a horrible sound of roaring and screaming, the whole beast army has already rushed to the distance. Sang Zhixing is only in the early ten thousand miles.

With this speed, I am afraid that there will be half a cup of tea. This powerful beast with more than one million beasts will make the horses sang and make this whole life star thoroughly. destroy!

The tens of millions of ancient survivors on Sangzhixing are afraid that they can't imagine it anyway. The crisis of life and death of a group of people is so fast, and without warning, it has already come to the fore...

"What is the situation? Where is the rogue beast roaring? It is still so earth-shattering..."

"The old man suddenly had a bad feeling!"

"God, look at it, the rear of the void is a million miles away, a powerful army of at least one million beasts is coming very fast!"

"The two giant beasts that lead the way... are finished, it is actually the supreme beast of two heavens!"

"The disaster is coming! Heaven is killing my sangzhi remnant..."

.....

As the murderous beast roars in the distant sky, Sang Zhixing's side of the atmosphere represents more than a dozen lords of Sang Zhixing's strongest fighting power, and soon he The direction of the sound of the beast and the sound of the beast is extended.

Almost in the next moment, the sound of exclamations came out from their mouths, and the emptiness of Sang Zhixing in the other direction, the army of powerful beasts that was powerful and horrible, had already rushed to the distance from Sangzhi. The star is only a million miles away from the universe!

Although not too close, it is not far away. At least, with the strength of their main body, the development of the gods is still completely clear.

Not to mention the general strength of this million-sound beast army at the lowest level in the mysterious light, just the two powerful immortal beasts at the forefront of the beast army, it is enough to destroy the dozens of lords in the end. A desire to survive.

They didn't even think about asking for help from Ye Xuan.

Because they know, and do not mention that they meet with this Qiao Feng predecessor, there is no friendship at all, people can not go to the same level of immortal beasts for the tens of millions of survivors on Sangzhixing.

Retreat 10,000 steps, even if people are willing to ... this war, there is no chance of winning.

On the side of Qiao Feng's predecessors, there is only one person, and he has just stepped into this territory, and the other side of Sang Zhixing's universe is less than a million miles away, and the leader of the millions of beasts is even more powerful. It is two powerful beasts of immortality...

Not to mention, behind these two immortal powerful beasts, there are more than twenty cosmic beasts... These twenty-headed cosmic levels can basically rival an immortal level!

In addition, at the moment, the side of Sangzhixing is in the void in the direction of thousands of miles. The predecessor of Qiaofeng has not finished the big day robbery. Even if he has the heart to fight for death... I am afraid it is also heartless and powerless.

Even now, people can almost say that it is difficult to protect themselves, because once they are harassed by the immortal beasts in the same time, they will obviously be seriously serious.

It is very possible to fall down on this!

Thinking of this, more than a dozen of the lords of the world face each other, and all the faces are showing the color of despair, but in the end, they firmly nodded at the same time, several of them, even if they swept to the front Ye Xuandu The area of the robbery rushed away.

"I have been waiting for it. This time, Sang Zhixing has tens of millions of survivors, and is destined to destroy this family..."

These lords of the landlord spurted away and screamed to Ye Xuan: "Predecessors, I am willing to launch a self-destruction, blocking the last few waves of robbery for the predecessors, helping the seniors to get out of trouble, only to seek future Have the opportunity, can help me thousands of survivors to kill this fierce beast army, report my **** hatred..."

These old lords, in the case of knowingly dying, would rather give up their chances of escape, to blew themselves, to help Ye Xuan resist the last few waves of thunder, and to seek a future possibility... .. the chance to kill the **** hatred!

This kind of determination is that Ye Xuan is not so moved!

Even if you don't make this choice, in the face of the powerful beast army with two immortal grotesque, these few lords who are ready to devote themselves to self-destruction, in the end, basically can't survive.

However, people have the help of Ye Xuan as soon as possible to get away from the thoughts, instead of taking advantage of the previous meager feelings, and pleading for him to save, but this is even kind!

The most unwilling to owe Ye Xuan is the human debt. In the face of this situation, he does not shoot, but also draws his hand, otherwise it will be difficult at the end.

In fact, he didn't even think about it, because for him, the two heads were so powerful that they led the immortal beasts that came from the millions of troops, but they were only the second and third-order repairs.not much more powerful!

Ye Xuan didn't even plan to take it out himself, because his majesty, there is clearly the power to easily solve this beast army.

As soon as I read this, Ye Xuan stunned and greeted a huge lightning coming from the top of his head. On the other hand, he would sneak into the inner space of Shennong Ding in the body, and rushed to the central volcano in the Dingnai space. bottom.....

Chapter 4183: Old slaves are willing to go

The interior space of Shennong Ding, in addition to the eight King Kong, there are currently three people, all of which are locked in the mountain wall cage at the bottom of the volcano of the central domain.

One is the Lion King, which was originally a waste man. Even the Qiankun Daoji was taken away. However, because of various accidents, the physique was now broken because of the break, and there was a huge change. Even Ye Xuan did not even take it. Let him become something.

The lion's breath is now stable, and the changes in the body's constitution seem to have entered the final stage. From time to time, there are all kinds of strange breaths, like the body of the congenital thunder, and the innate poison, in short, all kinds of strange, Even Ye Xuan looked at the scalp and numb.

Fortunately, this guy's physical changes are enchanting again. He is still a slave to Ye Xuan. This point has become a fact before his physique, and he can't change it.

However, Lion Wanjin has not yet awakened, but it is also fast.

In addition to the Lion Wanjin, Shennong Ding's internal space, the volcanic bottom of the volcano, the bottom of the mountain cage, there are two other figures, one is the flying scorpion, the existence of the sixth stage of immortality, was originally smashed by Ye Xuan, sucked dry body The venom, half dead and not thrown in the central volcano, and now the strength has been restored.

However, it was banned by the internal domain of Shennong Ding, and it was impossible to escape. It was no longer tempered.

The other is the semi-relenting ancestor of the second cosmic silver scorpion born in the first universe of the Devil's Star Field. It was originally a semi-authentic semi-realistic existence of the universe.

However, since this time, because of being imprisoned in the cage of the mountain wall at the bottom of the volcano in the central area of the Dingnai space, it has been practicing. The heaven and earth aura of the Dingnai space is far beyond the outside world, and Ye Xuan often uses Shennong. Different flames, sometimes there will be some energy floating in the midair of the central volcano, and he absorbed some.

In addition, there is also the boring guidance of Feitianyu. This old-fashioned half-graded cultivation has succeeded in breaking through after this period of time. Now it has entered the immortal world and become a The first-order immortal monster!

In other words, Ye Xuan's Shennong Ding has a total of two immortal monsters.

Moreover, these two immortal grotesques have basically been conquered by him, and they have officially bowed their heads.

Don't look at the vicious beast army that the army is dialing at the moment. It is only the top-class combat power. It is comparable to the three immortal monsters: two powerful beasts of second- and third-order immortality, and more than twenty universes.

But as long as the flying scorpion and the silver scorpion singularly shot, only rely on the two of them, absolutely crushing this savage beast army.

The repairing power of Feitianyu is close to the late stage of immortality. It has been in the sixth stage of immortality for many years. Only one person can abuse the two vicious beasts of the second and third order of immortality.

The remaining twenty more vicious beasts of the universe, although the sum of the combat power is equivalent to an immortal old monster, but that is only quite, not to the immortal, even if the universe is strange, the number is more, but also after all The tragic end of each break...

As for the world's landlords, domain owners, star owners, etc., there are always nearly a million beasts and savage beasts... even the top 20 cosmic beasts and two immortal beasts at the leading level are fussy, they dare to swear Is it?

This is exactly why Ye Xuan did not intend to personally take the shot, and even did not intend to use the life giant plug that was brought out this time, but only at the critical juncture, the reason for revealing the gods into Shennong Ding and directly entering the bottom of the central volcano Where it is!

It's been a short time since the flying scorpion and the silver scorpion were captured, and now it's time to let them officially serve soft!

At this time, although Ye Xuan's immortal catastrophe has not yet been completed, the remaining three or four waves of robbery, but his cultivation is the strength, but it has officially entered the immortal, this point, whether it is flying It is still a silver cockroach, it can be clearly and incomparably sensed.

Therefore, when Ye Xuan entered the central volcano with the avatar of the gods, when they appeared in front of the two old guys, the two of them first glimpsed, and then the look on his face became strange.

During the time of imprisonment at the bottom of the volcano of Shennong Dingyang, they can sometimes see Ye Xuan enter the space inside the Ding. Every time, Ye Xuan's cultivation is different. I didn't expect this time to rise directly to the immortal old. Strange level...

It seems that at this speed, perhaps soon, it will not be too surprising to directly enter the immortality.

Thinking of this, the flying scorpion and the silver scorpion, which had not had much temper, were even more stunned. After switching to a look, it was almost a sigh.

For the metamorphosis of the seven enchanting ones in front of them, they will not be convinced.

At the same time, the bottom of my heart is more fortunate to subconsciously rush out: perhaps, following such a eternal enchanting person who has no previous generations, and his future cultivation is a soaring road, how many can also touch a little of his characteristics, Change it faster.

If this is the case, even if it is surrendered, there is nothing that can't be accepted.

Unknowingly, the two old guys were unwilling to end up in the end, and they all completely disappeared.

These psychological changes, through their eyes, clearly reflected in unparalleled, Ye Xuan will all be in the eyes, until this time, only quietly said: "You two, stay in the bottom of the volcano in the central area of the volcano, Are you going to become old fritters?"

This is really rude, and the flying scorpion and the silver scorpion are first glimpsed, and then they exchanged a look of color again, and the face was red.

"This star owner is not a place for idlers. Now give you a chance, either to be honest or to bake directly..."

Speaking of this, Ye Xuan turned his eyes and then said: "Outside, the star master is now having a little trouble, but he is immortal and has no time to take care of it. Therefore, the intention is to ask you both to go out. Act as a gold medalist and solve the trouble..."

"Of course, if you don't want to, just say it right, the star master is not embarrassed..."

However, this is not a problem. What is the following words? I think that as long as it is not a fool, anyone can think of it. The flying scorpion and the silver scorpion have once again exchanged a look, and at the same time sighed with a sigh, the arched hand said: "Old slave ... willing to go!"

"I would like to talk to you early, the main star of the star for a long time thirteen..."

Ye Xuan's heart is dark and happy, but it is again turning his eyes: "If this is the case, quickly set a vow, and want to get away with it. It's not working here!"

For this, Feitianyu and Jubilee grotesque have been psychologically prepared, and have not thought of using this method to deceive the past. There is no hesitation in the moment, and all have made the oath of loyalty and allegiance.

A few minutes later, Ye Xuan's gods flew out of Shennong Ding, and his deity suddenly waved his hand. The next moment of Baoding's sacrifice, two figures, immediately came from Ding... horrified!

Chapter 4184: Beast war

"Hey!"

"Ming..."

With Ye Xuan's offering of Shennong Ding, to shrink into a form of only a thousand feet in the universe of the side of the body, Ding, immediately rushed out two figures, accompanied by a sorghum into the cloud Li Xiao and Qing Ming, turned out.

These two figures have been rushed from the Dingkou of Shennong Ding, which is full of fog. At the same time, the initial size is only a hundred feet. The repairing atmosphere in the body is restrained and unclear.

But very quickly, as they rushed out of the mouth in tandem, their body shape almost rose in the wind, and less than a short period of breathing, they all skyrocketed to the glory.

As for the cultivation of the body, it is even more diffuse in an instant... It's all in an immortal world, that is, the day of the dead in the mouth of the ancients!

These two immortal grotesques, just just voted for Ye Xuan, and confessed to him the loyalty of the flying scorpions and the silver ancestors.

One is the sixth stage of the immortality.

The other is the first-order cultivation of the immortality that first entered the world.

Although there are only two people, but with the horror cultivation that Feitianyu is about to enter the late stage of immortality, the two join hands and crush the army of millions of beasts that are coming from the other side of Sangzhixing. But it is more than enough.

At this moment, after the rushing out of Shennong Ding, the two immortal geeks fully urged the body to repair, and the figure has risen to the limit.

A huge flying scorpion, the whole body is dark, and the legs on both sides of the narrow body are so numerous that it is impossible to count.

On the back of the ridge, there are several pairs of huge black translucent fins, which are slowly splashing. Among the numerous small holes distributed in the surface of the flying scorpion, a large amount of black poisonous mist is poured out in an instant. Interest, it has completely shrouded its shape.

As for the silver cockroaches that followed the two, the whole body shines with silver and silver, and every corpse is like a glaring metallic luster.

These silver feathers are the natural weapon of the silver wing family. Once they spread out in the war, they wear gold cracked stones under the cover. They can definitely call their opponents with headaches and horror.

At this moment, with the sudden appearance of the flying scorpion and the silver scorpion, there was no sign of the sudden appearance, and the more than a dozen lords outside the atmosphere of Sang Zhixing immediately exclaimed, even the original rush Ye Xuan, the few lords who screamed for his dedication, were also scared to squat, and turned around directly in the void, and squatted back.

Two immortal grotesque, even if only the body exudes a breath of breath, it is enough to make them fly out of the sky...

"God, where are the two heavenly robbers?"

"It seems that it was rushed out of the giant tripod, and that giant tripod... seems to be the sacrifice of the predecessors of Qiao Feng!"

"Don't be... God, these two beasts of the heavenly robbers, shouldn't they be raised or conquered by the predecessors of Qiao Feng? He used to be a meridian, and he is still in the middle of the day. How can it conquer two supreme beasts that surpass their own strength?"

"Especially the robbers who are covered in black poisonous mist, seeing the atmosphere of their body, clearly shows that it is the peak of the mid-term, and can enter the late stage at any time!"

"So repaired, it is terrible, it is the strongest beast in the desperate world of Sang Zhixing, but it is a little stronger..."

.....

"Ming..."

"Hey!"

The sounds of Xiao Xiao and Qing Ming sounded again, and the huge flying scorpio and the silver scorpion singularly crossed the Sang Zhixing directly. The figure was shaped into a speedy flow, and it greeted the one that had reached the front of thousands of miles. Millions of beasts.

The two immortal beasts at the forefront of this beast army are all the strengths of the second and third generations of immortality. One is a one-horned giant rhinoceros, and the other is an iron-backed mountain armor. Crocodile, but not as powerful as the star crocodile.

At this moment, the heads of these two immortal beasts are cold and see the opposite side of the star in front of the stars, actually rushed to the two beasts of the same level, one of which is only the first order of this situation, but the atmosphere of the other body is diffused. However, it is clearly the sixth order of this situation, and the distance from the seventh stage is only one line apart.

And the strange beast of the sixth-order robbing of this day, is clearly a poisonous beast, and the whole body is shrouded in a majestic black poisonous mist. Its fierce atmosphere is just a glance. Immediately there is a feeling of scalp tingling...

Undoubtedly, this time it was a hard scorpion. The two screaming savage beasts apparently did not come to show the good, the whole body was very suffocating, murderous, and it was not a good temper. .

"Roar!"

"Roar....."

In shock, the one-horned giant rhinoceros and the iron-backed mountain armor subconsciously roared, but its sound was earth-shattering, but it clearly revealed a thick sense of guilt, no doubt, facing one end. The six-order poisonous beast of the day of the robbery, the two of them... are already afraid!

The war was almost unfolding, and the snoring of the one-horned giant rhinoceros and the iron-backed scorpion made the flying scorpion and the silver scorpion grotesque feel provocative. The two immortal grotesque responded immediately, the domineering, the whistling sound still did not fall. I have already collided with the other party.

There was no pause in the silver eagle, and a pair of huge silver scorpion wings that stretched over 20,000 feet rushed into the central hinterland of the million-strong army.

Just a flapping wing, four hundred and eight squares, I do not know how many repaired to be weaker beasts, directly like a gourd, screaming in the void and flying away.

Some of them even died because they could not withstand the immortal pressure of the silver plaque.

The battle has entered a fierce heat from the very beginning, and the huge blood of a awning has burst open in the void. It has been blown away by the wind, and within a thousand miles, there is a thick **** atmosphere.

As for the head of this fierce beast army, the strength of the one-horned giant rhinoceros and the iron-backed mountain armor, which also reached the immortality, means that there is no separate war, and the war is unfolding. In the early stage, the head of the savage beast was entangled in the vicinity of the shape of the flying scorpion, and began to squat back, looking for the opportunity to sneak shots.

Unfortunately, such a tactic has no effect or effect on the powerful poisonous beast of Feitian.

As the war became more and more fierce, the black poisonous mist that had shrouded the entire huge body of the flying scorpion, because of the energy and strength of the turbulent, unconsciously spread slowly, and after the tea time, was battling with him. The one-horned giant rhinoceros and the iron-backed mountain armor, the entire figure has been caught in a faint toxic fog.

Although they have already expected this kind of situation, they obviously don't go too far. As an immortal beast, even if they are poisoned, they can't attack on the spot. How much can always last for a while.

However, they obviously have a big idea, too much gaze at the tyrannical venom of the flying scorpion...

Chapter 4185: Repression

"Roar!"

Roar....."

With the horror of horror and unwillingness, from the mouth of the two immortal beasts of the horned giant rhinoceros and the ironbacked horns, there are even vague, two roars, even There is still a touch of despair that is spreading rapidly...big

Since the end of the war, it has only passed the time of only one tea, but the one-horned giant rhinoceros and the iron-backed mountain scorpion are too careless, and they don't know much about the toxicity of the black mist in the flying scorpion. This

Directly led to their tragic end and ending! short

In a short period of time, the strength of these two immortal beasts was caught in a complete disorder because of the absorption of too much black poisonous mist. Under the chain reaction, even their huge bodies were It has been stagnant with the naked eye. "

Oh! "micro

The sound of the dull cracks came, and the flying scorpion smashed at this moment. The figure rushed out of the black poisonous mist that shrouded the entire giant body. Countless legs stretched into the horned giant rhinoceros. Among the flesh and blood, a fierce pull, actually directly torn the vicious beast of this immortal level into two halves, blood rain sprinkled the sky. This

In one scene, the invaders of the indigenous inhabitants who came from outside the atmosphere of Sangzhixing, thousands of miles away, were in the eyes of a large number of people. that

More than a dozen of the top 13 tribal core executives, after a short period of sluggishness, are even more painful in the air. in

They seem to have a one-horned giant rhinoceros with a heavenly robbery, and it is a treasure. If it can be used to smelt blood and meat, the tribe will not know how many abandoned people will benefit from it. , repaired for strength rose. can

At the moment, although the murderous beast of this day's robbery is still there, after being torn by the fierce and fierce flying scorpion, it is thrown directly into the void and abandoned. It is like throwing garbage... Looking back, they are still Have the opportunity to collect it back and forth. but

The treasures of the sky in the body, but undoubtedly lost too much, this level of no surviving beast, its blood, the entire Sang Zhixing twelve legacy tribes, in the past endless years Even a drop has not been obtained. Now

However, they are watching them like heavy rain. The universe in front of thousands of miles is wasted. This scene has already made all people red-eyed, and it hurts that even the liver is faint. Trembling!

"Daoyou, have something to say, don't be impulsive... Is there any misunderstanding inside?"

At this moment, seeing the fierce scorpion flying sky, in a sudden tear, he will be repaired as a strength of the one-horned giant rhinoceros still on his torn into two halves, followed by throwing garbage as usual, the body shape twisted I rushed over to myself, and I had already been swayed by the iron-backed mountain armor. After I was in a slap in the face, I finally lost my mind and began to talk out. he

Although it is a fierce beast, the level of life has evolved into an immortality. It is natural to speak up.

Moreover, although he is known as the iron back drill, he does not think that his so-called iron back at the moment can be more resistant to tearing with the rough-horned giant rhinoceros. If the other party really rushes over, it is definitely ten. Dead endless! "

misunderstanding? In this case, you and the head of the deity say that the deity does not care about these broken things, the head said to kill you, then you must kill you..."

"Hey!"

In the face of the other party's voice, the flying scorpion did not intend to give a half face, and the tone returned with a sigh of relief, but the body shape did not stagnate, and then spurred out again in an instant, and the eye was lost to the body because of fear. And the shuddering iron back drilled in front of the mountain. Pang

On both sides of the large and narrow body, countless limbs and legs are suddenly opened at this moment, and they are directly buckled into the flesh of the iron back drill...

The next scene is no longer suspense, the iron back of the mountain is desperate and unwilling to scream the sound of sorrow and sorrow, and then, after a dull cracking sound, it is a slap in the face. Loud, this is the iron back of the iron back in the body of the body of the blood rushed out, in the void of the air into a swell of blood and rain, caused by the movement.

After doing all this, Feitianyu still has no hesitation. He directly throws the wreckage on both sides of the iron back drilled armor into the void. Once he is in shape, he has already rushed into the army of millions of beasts that have already been messy in front. ... pick up

There is no need to go into the details of the scene. The two immortal savage beasts rush into the army of millions of beasts with the highest combat power and only the universe. What can happen and appear, except for one side Rolling and killing, there will be no other sights...

On the side, Sang Zhixing's atmosphere is outside.

The sangzhixing major tribal powers who heard the news have already thoroughly collectively petrified. It

When the former flying scorpion smashed and smashed the one-horned giant rhinoceros into two halves, they also sighed in the air, but now, when the flying scorpion is swaying, it will be in the blink of an eye. After the murderous beasts of a day's robbery were torn into two halves, the only survivors of these ancient people, the only feelings in their hearts, were only numb.

The dozens of lords who represent the core powers of the 12 tribes of Sang Zhixing, after seeing the sky and the superb beasts of the heavens, sprinkled the sky again, and they were again painfully Hammer chest is full. With

Later, he subconsciously leaned toward the back of the body, Ye Xuan, who was far away from the tens of thousands of miles away, looked far away, whispered in his mouth, revealing a sense of powerlessness...

"Have you heard it? What did this murderous day robber say? Head? He said the head..."

Yes, the old man also heard it. Obviously, the head he said was not someone else, or the Qiao Feng predecessor who was still in the middle of it..."

"The enchanting ah, I have just been arrogant, but before that, I just called the two brothers who had robbed the two days to go out to fight... One of them was actually the mid-level ruin of the middle of the day. , only one line apart!"

This is a big Buddha! We must provide it well. If there is no accident, this opportunity will be unprecedented for the tribe of the 12 survivors of Sang Zhixing. Perhaps, I will wait for the entire ethnic group to get out of this film. The narrow world that is invisibly banned is not known..."

Behold, the big day robbery of Qiao Feng's predecessors has been successfully completed. The last time the robbery has just fallen, the predecessors are safe and sound! ""

There is no suspense in the war here, and I will let the children of the major tribes rush out of the atmosphere, prepare to clean up the mess and collect the profit. ""

As for me, it's time to come forward and congratulate Qiao Feng's predecessors... The robbery is a success! "...

...

The voices were degraded, and a group of lords and geeks were moving in a moment, and they were shaped into a stream of radiance. Their faces were filled with excitement and clear smiles, and they rushed to the front of Ye Xuan. The land of the robbery...

Chapter 4186: Immortal second order

"Booming!"

Cathy..."

After the thunder of the earth-like thunder, with the sound of the crisp lightning, a thick and bright lightning flashed, and instantly fell on the body of Ye Xuan.

It is a pity that even this level of robbery and lightning, for the road that has been taking the refining body, the body has long been forging and quenching to the strength of the heinerary, it does not cause much damage. anti-

It is the immortality that has just been broken through in the body, but it has been refined a lot since it was fully consolidated. when

When the dense black robber clouds in the distance above the head scatter, Lin Xuan waved his hand and the clothes that had been robbed by the thunder were completely renewed, and in his mind, a familiar system sound was heard at this moment..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the second level of immortality! "

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: the second level of immortality!"

The great annihilation of Fandu's immortality not only did not cause the slightest damage to his body, but also the full-scale volatilization of the 20-level liquid remaining in the body and the efficacy of various top-level Tiandi treasures. Directly let Ye Xuan's cultivation be a strength, and once again broke through a small stage.

Before this, the realm of his deity is the first level of immortality. Once the three-headed and six-armed Taikoo konjac bloodline is stimulated, the strength will once again soar and rise directly to the second level of immortality. If

It is to display the magical scorpion and change the magical power, and reach the fifth change, and it will reach the seventh stage of immortality in an instant.

Now, with his cultivation as the strength to break through again, once Ye Xuan activates the blood of the konjac in the body and enters the fifth change of the konjac, its peak power will reach the eighth level of immortality, and the distance will be immortal. There are only two small steps in the gap. "

Finally, I entered the immortality. The first two hurdles of the road to the strong practice of the starry sky have all passed smoothly..."

Holding tightly and clenching his fists, Ye Xuan suddenly felt his heart feel like an unprecedented heroic cloud. Looking back at all the things he had experienced along the way, he really told him to be embarrassed! "

However, this is just a starting point..."

Taking a breath, his glimpse of a glimpse of a glimpse of a glimpse of a sigh of relief, and then a heavy sense of urgency from the heart, even the look on his face, immediately became dignified.

Muttering: "In today's world, all the ethnic groups and forces in the three major stars and planes are facing an unprecedented severe test. The vast world of endless years is likely to come at all times..."

"In this case, it is only the strength of one's own body. It has become meaningless. Although there is no ethnic group behind me, there are a group of relatives who have been with each other for a long time. In any case, they must be big. Before the full-scale chaos, they will cultivate their strengths and upgrade them as much as possible..."

Having said that, Ye Xuan no longer speaks. He turns his head and glances at the direction of Sang Zhixing. After the slightest swaying in the middle of the sin, he seems to have made some great decisions, slamming his teeth, and instantly Waved...

"Booming..."

With this wave of his hand, a small round behemoth like a small star, instantly appeared in the universe of the side of Ye Xuan without warning, the mulberry that was originally rushing in this direction More than a dozen of the lords of the horoscope were so scared that they were almost conditioned, and they rushed back.

This behemoth, which was smashed by Ye Xuan's teeth from the immortal world, is nothing else. It was just a time ago that it had just completed a transformation and evolution---life giant plug! This

The life giant plug was only only 100,000 meters in diameter, but now it has reached more than 160,000 feet, which is 500,000 meters. Converted into kilometers, it is five hundred kilometers, just like a miniature star!

This kind of horrible body shape, even compared with the Tianji City's base camp, is not too much difference!

Even the shape, and the former spherical shape, has become the current oblate, which is more suitable for hiring in the universe and faster.

In addition, compared with the last evolutionary transformation before the recent evolution, the current life giant plug has expanded many times in addition to the external body shape, and its internal space, due to the overall use of space folding technology, is a significant improvement. . its

Inside, the view is extremely open, like an independent cave, there are mountains and water, you can't see it inside a starry sky. This

It is just one of the layers of the starry sky. There are a total of eighteen layers in the whole life. The scenery of each layer is different and the effect is different.

However, the forces currently housed inside, in addition to one million large and small fortresses controlled by countless intelligent robots, are only scouted by 20,000 demons headed by Haihai and Cang Qingyu.

Of course, among the two thousand demons who are among the strongest, the oldest people who followed Ye Xuan's first followers, such as Neboshan, Ba Guai, Li Mo, Zuo Fengtai, etc., in order to come out with Ye Xuan, this Fan also all cheeky in the two tens of thousands of scouts, acting as a Luo Xiao soldier! package

Including the mechanical family, Yingtai, is also in it! This

Although the guy is the first to follow Ye Xuan's group of old people, but because they have been left by Ye Xuan in the third universe of the death of the triumph of the city, although the cultivation of strength into the territory is also very fast, but compared to follow Ye Xuan, can have a variety of opportunities compared to this, this speed, obviously slowed too much! and

Today, Ye Xuan's cultivation has reached an immortal level, and the two thousand devils are scouting, and the strongest ones are only in the fifteenth world of the starry sky, even a star lord. This

If the situation continues, for Ye Xuan, who is becoming more and more powerful, this group of people who follow his earliest old subordinates will soon be completely out of use...

Therefore, this time he will bring the sword to the sea and Cang Qingyu and others. One of the purposes is to improve their cultivation as soon as possible. Do not

It is one or two, but the two thousand devils scouts, and the overall strength has jumped sharply.

This opportunity, Ye Xuan originally thought that it depends on the opportunity, encountered, and naturally came, after all, is not to enhance the strength of one or two people, 20,000 magic people scouts, the number is not small.

But now it seems that this opportunity is clearly here now. eye

Next, with the improvement of its own strength to the immortal, and also entered the second-order of this situation, Ye Xuan's improvement of his own strength, is not too anxious for the time being. he

Decided that in the near future, I will stay in Sangzhixing, using the tens of thousands of ruins of the top dynasties, and the vast amount of top-quality treasures, and frantically smelt flesh and blood. How to have to repair the strength of the two thousand magical scouts, such as the returning sea knife and Cang Qingyu, and improve the whole...

Chapter 4187: monster

"Booming..."

The life giant plug was sacrificed. Under Ye Xuan's thoughts, one million large and small fortresses inside the life giant plugs suddenly came out one after another, and they opened directly in the void. Show in front of Ye Xuan!

Although this million warships are all controlled by a large number of intelligent robots, their combat power is not bad. There is no one-star battleship with a diameter of three kilometers, all of which are spherical and have a diameter of 50,000. Rice and 100,000 meters in size starry fortress! This

It is definitely an elite teacher of terror. hundred

Although the number of warships seems to be small, after all, the starry battle that Ye Xuan experienced before is the scale of tens of millions of warships.

Even on the scale of the Star Wars, a whole team of 50,000 and 100,000 meters of fortresses is rare.

At the moment, this huge army of large and small fortresses, after driving out of life giants in the land, all in the universe in front of Ye Xuan, in the void, open...

Millions of large and small fortresses, the total volume added together, has far surpassed the life giant plug like a small star.

Such a scene is naturally nothing to the existence of modern scientific and technological consciousness in the mind, because even the ordinary federal people who have not cultivated strength in the three major star planes of the world know the inside of the warship. Is the use of folding space technology...

A warship looks like a captain of a kilometer, but its internal space is likely to exceed 10,000 meters! but

For those who live in this corner of the ruins of the ancient world, there are no survivors of modern science and technology in their minds. Such a scene is tantamount to the night and night.

Yes, the system of comprehension in the hands of the ancients and the remnants of the ancients also has the refinement of magic weapons, the refinement of magic weapons, and the concept of the inner mustard and the mustard. package

Including the magic of storage, they also have it!

However, although they are not unfamiliar with the space magic weapon, they do not mean that they can refine the space magic weapon like a life giant, huge to almost small stars!

What's more, this monster, like a small star, is clearly alive, it can open its mouth, and after a mouth, it spits out so many more strange, seemingly also a huge ball of life.

Everything is a subversive one for the survivors of the ancient people who live in the emptiness of this corner of the ancient world.

In the distance, the dozens of lords who had been scared by the life of the giants suddenly screamed at the moment, and they had already opened their mouths, squinting their eyes, and stagnation in the void, just like collective petrification!

Until a long time ago, when the millions of big and small fortresses were all rushed out of the life giants, the vast universe of space in front of Ye Xuan was arranged in a row, followed by the return of the sea and the Cang Qingyu, and led their respective The tens of thousands of demons under his majesty scouted the army, and when they rushed out of the life giants, the dozens of lords of the world's lords were continually stunned and shouted with a blank look...

God, what happened? Qiao Feng seniors he... What are you doing? "

"A big monster! A lot of monsters..."

That big guy, how can you put so many little monsters in your stomach? This ratio is also amazing. Is this a wild animal with a **** vein? But... this shape, I have never heard of it! "

"Hey! Look, there are still people in the belly of this monster, and they have been rushed out of the team. It is estimated that there are 20,000, too ferocious..."

But how do I feel that this monster, and all the little monsters, including the two-hearted humans who escaped from the monster's belly, seem to be a little weird? They... seem to be in the array, just waiting for the review of Qiao Feng's predecessors! "

"Who can tell the old man, this... What is going on?"

.....

"Hey!"

"Roar....."

Just as the dozens of lords of the world were shocked and screamed, with the two earth-shattering screams and roaring sounds, they had already abused the flying scorpion and silver plaque of the millions of beasts. The old blame is also coming back at this moment.

Turned into two streams, the direct spurt, rushed into the Dingkou where the rich and colorful fog of Shennong Ding.

Seeing this scene, Ye Xuanxin waved his hand and directly absorbed Shennong Ding into the immortal world, and then turned to the empty space of Sang Zhixing's dozens of lords.

Directly summon: "You are friends... Come!"

A group of old lords face each other, but they quickly nodded, but there was no delay, and they soon came together, and they appeared in front of Ye Xuan.

"I believe that your heart must be very confused?"

With a smile, Ye Xuan stretched his fingers to the front of the world to spread a million-size fortress in a vast universe, and a star-shaped giant plug like a small star. Connect

He said: "These are the subordinate strengths of Qiao, and they are only showing them today. This way, it is more convenient for you to understand Joe's next words..."

After that, Ye Xuan waved his hand and sprinkled a huge fortress in front of it. Then he heard the roar of the film again, and then stopped, and re-routed to the inside of the life giant plug.

This scene, it seems that Ye Xuan said that the reason why he let the millions of large and small fortresses out of the small stars like life giant plugs, the only purpose is to let them come out to reveal a face!

As for the 20,000 demon scouts headed by Guihai Yidao and Cang Qingyu, including the mechanical ethnic group Yingtai, they are still in a square matrix, quietly standing in the universe of the front side of Ye Xuan, not in the universe. Return to life giant plug immediately.

Since this time they are brought out, they must be well honed. If a great army wants to be truly strong, every individual in the army, in addition to its own improvement in strength, has various combat experience. It is also very important.

Some time later, unless you want to leave Sangzhixing, or have other important things, you need Ye Xuan to go there. Otherwise, during his time in the town of Sangzhixing, he will return to the sea and a green sky. The two thousand sorcerers scouted by Yu are basically not going to be re-invested in life. he

What we need is a variety of calendars! "

You, this one million round guy, called the Star Fortress, is 50,000 meters in diameter, called the Little Fortress, and the diameter of 100,000 meters is called the Great Fortress..." See

In front of the dozens of sangzhixing's lords, they are looking at themselves with a big-eyed, small-eyed look, and Ye Xuan sighs.

I am not in a hurry. After the briefing, I will continue to patiently give these old guys a popular science: "As for a giant star like a small star, it is actually the same type as these big and small fortresses, but the specifications are different, so the name It's different, it's called a starry sky..."

Chapter 4188: Remaining tribes

"Either a small fortress, a big fortress, or a starry sky, their role is the same. On the one hand, it is a means of transport in Star Trek, on the other hand, it is an auxiliary thing in the Star Wars... You can Think of them as a unique battle boat!"

"In fact, it is true. They are the war boats, but they are not made out of the traditional refining tools that you are familiar with, but they are made by a means of science and technology!"

"The so-called technology is a civilization system that is completely different from the familiar system of comprehension, but it has the same path. It is the unique product of the world that Joe came from!"

Having said that, Ye Xuan seems to feel a little bit of a pain in his head. He raises his hand and slams his head. This continues to follow: "The place where Joe came from, there are three major star planes, called the first universe, the second universe. And the third universe..."

"And the world you live in is just a piece of emptiness in the ancient world. It should have been drifting in the emptiness of the emptiness, like being exiled, but because of some kind of accident, the ruins of this corner of the heavens and the earth are empty. There is a corner and the three major star planes where Joe lives, with contact and ditch..."

"Joe, it is through the star passage of the corner ditch, enter here, come to Sang Zhixing!"

Speaking of this, the general meaning is already expressed very clearly. Although the dozens of lords in front of the eyes are still a look of sly expression, but after a little indulging and digesting, they are all full of sorrow and sorrow. Start up.

Obviously, they understand, at least, roughly understand what Ye Xuan wants to express!

Seeing this scene, Ye Xuancai took a deep breath and shook his head and smiled. Just now, for a while, he had a feeling that the whole person was about to get tired. The taste was really unspeakable...

"Okay, the general situation has already been finished. Next, what doubts or curiosities you have, there are 20,000 votes there, who is caught, and you ask yourself..."

As he said, Ye Xuan reached out and pointed to the 20,000-year-old demon squad, which was not far from the sea, and waited for them to respond. After he finished speaking, he immediately entered the life giant. went.

This kind of science thing, he does not want to do it again, hand it over to the sea and wait for someone to deal with it!

.....

After a small half day, Ye Xuan walked out of the life giant plug, first waved the giant plug into the body, and then looked at the void in the side not far away.

The 20,000 devils scouted by the sea and the green corpse, as well as Yingtai, still stand in shape and wait there.

In front of the two census scouts, more than a dozen sangzhixing lords are gathering together, whispering, and the look on the face is shocked and dignified.

And clearly with a deep worry.

Seeing this scene, Ye Xuan knows how to count, even when he walks away...

Obviously, these dozens of lords who represent the most core high-level sects of Sang Zhixing's tens of millions of ancient relics have already passed the ruins of the sea and Cang Qingyu, and the dangers facing the great world today. The situation has a general understanding.

Including the vast world of the wild, it is possible to fully come to the world at any time. Ye Xuan did not conceal them. Before that, he specifically confessed to the people who returned to the sea and Cang Qingyu, so that they would be honest.

As for how to stand up, Ye Xuan did not intend to influence the will of Sang Zhixing, a group of ancient people. In fact, with the current strength of their entire ethnic group, how to stand up the team, Ye Xuan does not care, and does not affect himself.

For them, the only purpose of this kind of station team is that it will only allow the entire ethnic group to continue to survive in this chaotic world.

At this moment, seeing the arrival of Ye Xuan, these dozens of sangzhixing lords who were originally whispering, even if they stopped the words in their mouths, they all looked with respectful colors to Ye Xuan.

"You, for the overall trend of the world today, I think you know everything about it?"

With a faint smile, Ye Xuan opened the door and immediately answered: "It doesn't matter, what you see is just a part of Joe's hand, even a tiny part..."

"But even so, Qiao is still not able to ensure that he is innocent in the chaos of the world in the near future."

"This time I came to your place. It was originally to find the opportunity for the old subordinates of the Majesty to upgrade their strength as soon as possible. But to be honest, the fragmentation of this corner of the ancient world is really disappointing to Joe."

"However, the methods of refining medicine that you have in your hands have some use for Qiao. If you can, Joe hopes that you can teach them. Of course, Qiao will naturally have some returns. The specific requirements. After you have discussed it, you can propose it..."

After hearing this discourse, more than a dozen of the lords of the world faced each other and talked again and again.

Ye Xuan did not care, patiently waiting on the side.

After a short period of time, these dozens of lords seem to have reached a certain consensus, stopped whispering between each other, and turned to Ye Xuan to look over.

One of them stepped forward and handed it to Ye Xuan. This said: "Predecessors, I have been negotiating, although I have learned the methods of refining medicine in the tribe, it is the same, even if it is Sang Zhixing. Between the twelve major tribes and the larger number of large and small cottages, they will not leak each other..."

"However, I am not a pedantic person. In the face of today's dangerous situation, it is naturally impossible to think about what I left behind by my ancestors. I will secretly declare that the entire ethnic group will perish and everything will be buried in the past."

"So, the various refining laws required by the predecessors, I am willing to give each other, and I will immediately list all the refining laws that are mastered by the Twelve tribes and the large and small cottages. He handed it over to his predecessors..."

"As for the request..."

Speaking of this, the old man's face was red, and he coughed twice, and then he took it: "The predecessors must have seen it, the 12 tribes of the survivors of Sang Zhixing, and all the people of today. The level of cultivation is not high. Since the endless years of the past, even the starry sky in the surrounding stars has been unable to break through and cannot go out..."

"With this level of strength and heritage, it is almost impossible to preserve the ethnic heritage in the next catastrophe, so..."

Having said that, he once again had a meal, and it seemed that it was extremely difficult to start. He finally slammed his teeth, and then he once again arched his hand and bent down deeply: "I waited for more than a dozen tribal leaders to agree, hope that seniors I can accept the sincerity of my Sangzhixing remnant tribe, bless me, etc..."

Chapter 4189: Refining drug frenzy

surrender?

The entire Sangzhixing 12 relics, the tribes, the big tribes, the tens of millions of ancient relics in all the cottages... all in good faith?

The thought flashed through my mind, and Ye Xuan, who was surprised by the accident, was stunned on the spot.

In fact, he has already prepared himself for being knocked on by these dozens of lords. After all, what he needs is a refining method that has been passed down from all tribes and cottages, and Ye Xuan has also It has been frankly stated that these refining methods are indeed useful.

In this case, if it is decided to hand over all these refining drugs, in general, the benefits demanded by the other party are obviously not too small.

Ye Xuan even guessed what they wanted, nothing more than the high-level ruins of the ancient treasures of the ancients, and the top treasures of all kinds of medicines.

These things are a lot of his hands, and because of his cultivation, the dozens of lords and geeks are not really lions, so even if Ye Xuan has the ability to take advantage of it, he never thinks. I have thought about doing this.

Although he is used to extortion, he is more powerful and has more profound top-level ethnic groups and forces.

Compared with him, it is obviously on the weak side, and the weak ones are more than one and a half of the Sangzhixing remnants of the twelve tribes. Ye Xuan really can't do this kind of bullying.

However, he has already planned to give a lot of treasures of treasures and treasures of treasures, but the other party actually proposed the plan of the family to vote, not to mention anything in Ye Xuan, but to put their entire ethnic group on the contrary. I sent it out...

This is really a bit embarrassing!

However, for this matter, Ye Xuan is naturally happy to see it.

the reason is simple.

On the one hand, he is now lacking in manpower, and there are few survivors on Sangzhixing. After all, there are tens of millions. Although some of them are old and women, the strength of fighters such as the starry sky is at least three. Divided into two.

For Ye Xuan, this is definitely a new force for strengthening the strength of the scorpion. In the future, once these tens of millions of ancient survivors have grown up, the fighting power is absolutely amazing.

On the other hand, even before the tens of millions of ancient survivors have grown up, their value is also indispensable for Ye Xuan.

Yes, people have promised that all the refining methods of the entire Sangzhixing Twelve tribes, all small and small, will be handed down to the book, and they will be handed over to Ye Xuan.

Even if Ye Xuan thoroughly studied his research, he could reproduce the big flesh and blood medicine with this ancient method of inheriting from the ancient times.

However, he is only a person after all, and in his view, the improvement of his own strength is obviously more important. Therefore, Ye Xuanteng is the only one of the twenty-first liquid and twenty-two liquid that he refines himself. Wait for big flesh and blood.

As for the 20,000 savage scouts, such as the returning sea and the Cang Qingyu, and the promotion of the flesh and blood medicine required for the cultivation of strength, he simply did not have time to refine one by one.

This is 20,000 devils scouting, and the current cultivation is still quite low, and the speed of consumption of flesh and blood is probably not too low...

I really want to let Ye Xuan go alone to smear the flesh and blood medicine for them... It is just like selling a slave, specializing in refining medicine, and there is no other way to take time to deal with it.

What's more, in addition to the 20,000 sorcerers and other genius scouts that came out of this time, in Tianhe and Kaixuan, he also has more genius and also needs this flesh and blood. It.

If you want to take care of it all, it is Ye Xuan, who stays up all night and night, trying to savour all kinds of flesh and blood medicines, and they are not available.

However, this problem is almost entirely a problem for Sang Zhixing's ruins.

The twelve major tribes on Sangzhixing, the large and small number of cottages, any one of the cottages have their own big tripods, all the priests who master different methods of refining medicine, can sculpt big flesh and blood medicine...

If you accept the other party's sincerity, for Ye Xuan, it is almost like a sudden increase of tens of millions of refining pharmacists who can sculpt big flesh and blood medicine, and all of them are familiar, this is a mastery. !

Of course, he can't completely call people as free laborers.

If you accept the devotion of others, then the tens of millions of Sangzhixing abandonment of the ancients will also become the genus under the Ye Xuan subordinates. While others are burying their blood and meat, Ye Xuan has to provide the family. Continuation, the tribes cultivated various resources for the promotion of strength...

This is undoubtedly a huge expense. The tens of millions of ancient survivors are not a small number. Let alone cultivate resources. Just bring people, so that all the ancient survivors can eat every day and the resources they need. It is an astronomical number!

However, this may be a big problem for the leaders of the 12 major tribes of Sang Zhixing. After all, it is the lord of the landlord who expresses his sincerity to Ye Xuan. But it has been flashing all the time, it seems extremely difficult to open, apparently because of thinking about this problem.

In his view, this clearly brings tens of millions of big mouths to be fed, which puts a burden on others.

For Ye Xuan, this is not a big problem at all.

Just within the billion-mile-long square starry sky where the Sangzhi tribe has been banned in disguise, there are a large number of life stars that are savagely beasts, thousands of miles away, and even a sangzhixing For the remnant tribe, it is equivalent to the murderous area of the forbidden land of the starry sky...

These areas and the stars of life, in the eyes of Ye Xuan, are no different from the source of flesh and blood resources, and are extremely rich... The survivors of Sangzhixing are too weak to dare to play this idea, but Xuan is completely fearless. Whenever there is a need, the direct army will go out and start hunting.

When I think of it, the light in his eyes is getting hotter, and there is no more hesitation. When even a big hand wave, I directly accept the 12 counts of Sang Zhixing, and the collective investment of tens of millions of ancient survivors!

All this came so fast, it was so easy, and the dozens of lords who had been stunned by the heart, in the midst of surprises, almost burst into tears on the spot.

From this moment on, they finally have a backing, and it seems that it is not generally strong, and the entire ethnic group has seen hope!

"Since all of them are self-employed, then I am not jealous of you. The name of the star is Ye Mingxuan, Qiao Feng, just the pseudonym of the emptiness of the ruins of this ancient world..."

With a big hand, Ye Xuan showed the true identity, even after the first instruction to receive the whole Sangzhixing: "Now, the star master ordered, from this moment, Sang Zhixing twelve tribes All the cottages, big and small, are fully launched, and they are fully engaged in a vigorous... refining drug frenzy!"

Chapter 4190: a new era

As Ye Xuan's words came out, the entire Sangzhixing atmosphere was inside and outside, and there was a mountain-like cheering thunder.

In the 12 tribes of Sang Zhixing, the tens of millions of ancient survivors in countless small and small villages are all very excited at this moment. In their view, with the Ye Xingzhu agree to include all of the sangzhixing The ancient tribes and the cottages, a new era, will undoubtedly open this.

Since the endless years, the tens of millions of ancient survivors on Sangzhixing have been trapped in the ancient void of only a hundred million miles away.

In the emptiness of the surrounding area of Sang Zhixing, there is a star-shaped forbidden area in any direction. Every place in the restricted area of the starry sky is surrounded by the superb beasts that have been repaired by the robbery, like the Scorpio, which cut off all the ancients on Sangzhixing. The steps of the survivors going out.

But all this, starting from this moment, began with the decision of Ye Xingzhu to earn their income, and will be completely changed from then on.

In the battle of the talented person, Ye Xingzhuo did not even take the shot. He just sent out the two ferocious beasts under his arm, and he would easily move the whole army of millions of beasts in the direction of the restricted area. Incomparably all annihilated.

Even the two ferocious beasts that led the army did not escape, and they died!

It's just that the two squatting squats of the squatting squad are so amazing that the power of Ye Xing's own power can be imagined.

What's more, he has a powerful army of warships, and even all of this, he himself said, just a part of the overall strength of the lower part of it...

With such a strong backing, for the tens of millions of ancient survivors on Sangzhixing, it is no longer possible to go out of this vainly emptied void and go to the wider universe. Distant reality.

As long as Ye Xingzhu is willing, he can take them away from Sang Zhixing almost at any time, go out and conquer the Quartet!

At this moment, on the other side of Sang Zhixing, in the void battlefield that just ended the war, the tribes and the ancient relics from the large and small villages that have rushed out of the atmosphere have already cleared the **** void battlefield. clean.

Including the two immortal beasts, all the beasts and wrecks left behind after the annihilation of this million-strong army were all lost.

For the flesh and blood wreckage of these low-order beasts, Ye Xuan has no interest at all, even the wreckage of the two immortal beasts, he did not intend to touch.

This level of star wreckage, there are a lot of people in his hands, and for the tens of millions of ancient survivors on Sangzhixing, the harvest of this battle is unprecedented and fruitful.

"The million wrecks left by this beast army, including the treasures of the two immortal beasts, are discussed by you. The twelve tribes, all the big and small cottages, are evenly distributed. interest....."

Turning to look at the more than a dozen of the lords of the side, Ye Xuan said when he was here, he said, "A similar harvest will become your daily life in the near future, because when the time is right, I will lead the tens of millions of survivors of all the large and small cottages of the 12 major tribes of Sang Zhixing, and the whole army will set aside and conquer the Quartet!"

"However, before this, whether it is the 20,000 scouts brought out by this star owner this time, or the tens of millions of ancient survivors of the twelve tribes on Sangzhixing, they must be as soon as possible in terms of their strength. Ascension will come up. Otherwise, once all the members are set to expedition, they will encounter a group of fierce beasts with stronger overall strength. Our losses will be extremely heavy!"

Hearing this discourse, the dozens of lords and strangers on the side looked at each other and their faces all showed their hustle and bustle.

Although Ye Xuan's words are euphemistic, the meaning of the words can still be heard. Don't look at the number of ancient people on the Sangzhixing, which is tens of millions. In fact, it's true to talk about the overall combat power. The vicious beasts in the forbidden land in the darkness of the surrounding area are all inferior, and the difference between the disparity is not small.

In this battle today, the army of millions of beasts from one of the forbidden places in the sky has been wiped out, but this has nothing to do with the ancient survivors of Sang Zhixing, all of them are the star owners. The merits of the two-day robbery of the beast.

In the future, once all the survivors of the twelve major tribes on Sangzhixing are accompanied by the expedition, it is obviously impossible to do so every time as the subordinates of Ye Xing's subordinates.

Under this circumstance, if the repairing power of the survivors is not as fast as possible and as much as possible, after the **** battle, the total number of tens of millions of survivors is now very high.

If the situation is worse, it will not be impossible for the entire ethnic group to be completely extinct after the repeated wars.

After all, even if they are themselves, as the core of the power of the 12 tribes of Sangzhixing, the cultivation of strength is only the main boundary. If you encounter a beast in a cosmic environment, you must be the end of the regiment... Is the cultivation of public opinion far less powerful than the survivors of their Sang Zhixing?

As these thoughts flashed in my mind, the joyful colors on the faces of these dozens of lords and monsters suddenly disappeared. They were like the ones who had just been thundered, and they smashed their faces and shook their faces!

After all, the total number of survivors of the twelve major tribes on Sangzhixing has reached tens of millions of homes. It is not easy for such a large number of ethnic groups to upgrade all their strengths.

After returning to Sangzhixing, Ye Xuan came to one of the twelve tribes, one of the tribal ancestral lands, and in the vast valley, a huge furnace with a diameter of 10,000 meters, jumped into the eye!

"The flats of the refinery in Pingshan Village are only a few kilometers in diameter, and the quality is not as good as the 10,000-meter giant Ding..."

Lifting his finger to the front of the 10,000-meter giant tripod, Ye Xuan turned to look at the tribe of the tribe, and asked: "Similar 10,000 meters, how many more on Sang Zhixing?"

"On the Lord, in Sang Zhixing, under the twelve major tribes, there are thousands of cottages. Each of the cottages has a refining furnace, the diameter of which is 100 meters, usually kilometers. It's about two or three kilometers."

When he asked him about this, a landlord screamed and respectfully said: "As for the 10,000-meter-diameter giant tripod, there are only twelve, and the branch is located in the ancestral land of the twelve major tribes... ..."

"Twelve? Still OK!"

Nodded, Ye Xuan ordered on the spot: "All the wreckage of the millions of beasts before the army is handed over to all the cottages under the tribe to refine the medicine. As for the twelve megameter giants among the major tribes. Ding, this star is mainly used..."

"From now on, these twelve 10,000-meter giant tripods will be opened at the same time to refine high-quality flesh and blood medicine."

"Notify the tribe that the priests who master the refining method are ready. These twelve furnaces and blood medicines, the star master provides nearly 10,000 treasures of the ancient and dead spirits... The strength is in the star's main territory to immortality. Between the world!"
