Chapter 419: Ghost tomb

"I know that the time is for Junjie, you can rest assured that as long as you do well, I will let you go." The red-faced old man stepped up and then grabbed Ye Xuan's shoulder and vacated.

Ye Xuan was surprised and asked: "Predecessors, where are we going?"

"This red wooden collar is the tenth plantation I have found. Now you are all picked up and can only wait a little longer."

The red-faced old man, with a hand-held Ye Xuan, replied: "My name is Hong Laowei, and the ghost tomb leads the person who has a hundred poisonous doors."

"Ghost Tomb?"

Hearing this name, Ye Xuan brows a head, he remembers, this ghost tomb collar and the red wood collar are not adjacent, separated by several territories.

The ghost tomb collar is an intermediate territory in the Luosha area. There are three super powers in the head. One is the poisonous Wangzong, the second is the corpse, and the third is the yin gate. These three forces belong to the evil gate, which is said to be There are masters of fine world.

These three major sects led to the atmosphere of the ghost tomb, so the ghost tomb is a very chaotic territory. Few people will enter the ghost tomb, and the high-level territory is too lazy to manage and let them develop.

Hong Laowei also did not hear Ye Xuan heard, and continued: "My people are good at using poison, and we all configure poisons personally, but the cultivation of poison is not everywhere, so we generally have to go. Other territories are looking for, and then planting. This red wood collar was only recently found by me, but I didn't expect it to be destroyed by you. This is the first time I have been so old for so many years."

"Cough."

Ye Xuanyuan said nothing.

If God gives him a chance, he will never come in again, he will choose to upgrade honestly.

Unfortunately, he only had one chance.

Fortunately, the results this time are not too bad.

The speed of the old blame is very fast, and the third-order temperament is not covered. He took Ye Xuan and rushed for seven days, only taking a break every day.

Subsequently, Ye Xuan was forcibly brought into the dark ghost tomb collar, and Hong Lao was carrying him like a chicken.

"It's a disgusting breath. If you live here all the year round, your heart will probably change. It's no wonder that no one wants to enter this ghost tomb."

Ye Xuan couldn't help but frown. Although it was a big day, he smelled a lot of odor.

"I am a poisonous door. I am in the jurisdiction of the poisonous king. I am a planting manager of the poisonous door. I will take you in. I will not let you talk. Don't open your mouth. There are quite a few disciples with eccentric temper. If you say something wrong, even I can't keep you!" Hong Laowei smiled solemnly.

"The younger generation knows." Ye Xuan nodded.

Even the third-order Hong Lao blame is just a planting management, then the strength of this scorpion door is not so simple.

He was thinking, even if someone took him with a stinky shoe, he would not open his mouth.

This scorpion door is built in a valley called Baidu Valley, surrounded by defensive formations.

Under the defensive array of this poisonous valley, there is also a poisonous forest. In the forest, there is a fascination and a illusion. If the average person does not enter the way, he will only enter the end of death.

Hong Lao blame took Ye Xuan into the door of the poison, just arrived at the mountain gate, there is a disciple of the baidu door asked: "Hong Guan things, this person is ..."

"This is a new drug tester." Hong Lao explained.

"Oh."

The disciple heard this explanation, did not block it, and let him go directly.

Hundreds of poisonous doors are usually planted with poisonous grass and poisonous flowers, and then refining poisons and cultivating poisons. However, due to various factors, they will refine a lot of poisons with unknown medicinal properties. Therefore, some people need to try this. poison.

This kind of person is called a drug tester.

However, the testers are extremely miserable. They are usually caught by the disciples of Baidumen. At most, they live for ten days and a half. The worst ones have been brought in for poison. Did not live for two minutes.

Moreover, the law of death is also very strange, what is turned into blood, pus, sores, skin ulcers and so on.

Anyway, the testers who came in, no one will live out of the Baidu Valley.

Ye Xuan naturally understands this, but he has the blood of life and should be able to survive. Of course, just look at this old man and let him go.

Hong Laoqiu grabbed Ye Xuan and returned to his remote residence.

"Kids, you will live here in the future, you can't even get out of the air. It's best not to run away. You don't have to see a disciple in front of the mountain. There are actually a few guards guarding the fourth stage." Hong old blame reminded, then went back to the residence next door.

"The younger generation knows." Ye Xuan nodded.

However, he did not find that there are other people, the fourth-order temperament, this Nima is even stronger than the old blame.

"I have some poisons of unknown medicinal properties at hand. You are waiting here, don't go out." Hong Laowei reminded him again, and then he left.

Ye Xuan was very helpless in his heart. He did not expect to be a dead man and was caught in a big force.

Soon, the old man was taken three poisonous grasses and let Ye Xuan try.

Ye Xuan did not dare to care about it. He first bite it and then swallowed it in. He confirmed that the blood of the sacred tree of life could be immunized before the whole plant was swallowed and then swallowed. Then he received the chewing system and swallowed a few mouthfuls.

In this way, he got two precious poisonous grasses.

However, after he ate a small leaf of the third poisonous grass, the system's tone was finally different.

"Hey, the host has been poisoned and started detoxification!"

what?

poisoned?

Ye Xuan's face changed greatly, praying that the poisonous grass is not very toxic, so don't make him immediately.

Hong Laowei saw Ye Xuan's face pale and immediately asked: "What happened to you?"

"Poisoned, it takes a little time to detoxify..." Ye Xuan was sore and sore, and the bones felt like breaking into slag.

Fortunately, he only swallowed it, and the detoxification time was not too long, otherwise his spirit would collapse.

"All right....."

Ye Xuan sighed down and began to report toxicity.

Hong Laowei looked blank and said: "This is a kind of poisonous poisonous grass newly planted by my poisonous door. Last month, I was poisoned by a second-order gas, can you hold it down?"

Nima!

Royal gas second order?

Ye Xuan has a white eye, this is at least the master of two hundred dragons.

Now, Hong Lao blame realizes that he has reached the treasure. If this is the case, then he can go to the poison door to take the toxicity test, and after completing it, he can get a lot of cultivation resources.

"good very good."

Hong Lao grotesquely nodded and said: "I will come here today, I will come again tomorrow. In addition, without my order, I will not be allowed to step out of the yard for half a step. These poisonous grasses will be given to you."

After he left some poisonous grass, he left.
