Super D. S 4191

Chapter 4191: Qishui flesh and blood medicine

After the previous Ye Xuan and the science of returning to the sea, Cang Qingyu and other people, these dozens of lords and strangers, have long been familiar with the division and title of the three major stars in the world.

And because of Ye Xuan's main relationship, now, they are also trying to fix the situation in the name of the realm of the three major stars in the world. Yes

So, at this moment, I couldn't hear the words that Ye Xuan said in a fluttering manner. More than a dozen of the old lords suddenly changed their faces, and they immediately exclaimed...

what? Ten thousand treasures of the ancient and dead spirits? "

"Is the strength to be all in the star's main territory to the immortality? How is this possible? It is me, but it is only the realm of the realm. The whole Sangzhixing, the similar lord is only me. Waiting for more than ten people, twenty less than..."

Although the main territory of the domain is a little more, it is only a hundred people. As for the star territory, there are only a few hundred..."

What's more, the treasures of the eternal life of the eternal life, the star's main territory, are only repaired to the lower limit, and its upper limit... is it immortal? "...

..."

The treasures of the immortal wild creatures will not be too much..."

Nodded, Ye Xuan's tone was still calm, and he said lightly: "It's not that the main character of the star is not in the hands. In fact, the seal of the king, the seal of the king and the emperor's immortal treasure,

the owner of the star. There are quite a few, the key to the 10,000-meter giant Ding in your hands can't resist its pressure. I really want to throw in a few pieces, and Ding has blown up."

Here, Ye Xuan shook his head and sighed. It seemed to feel a bit confusing: "That way, the treasures of the immortal class, the star master will take out 120 pieces, and the twelve 10,000 meters of giant tripod, each Ten, should be able to withstand."

As for the remaining tens of thousands of treasures, it is all the star's main territory, the domain's main territory and the realm of the border, and the wilderness of the universe..."

By then, there will be a huge number of powerful beasts in the distant sky, waiting for us to harvest! ""

Intermediate quality? Still nearly 10,000? "

"Well, compared with the treasures of the seal and the king of the king, the treasures of the star's main body to the universe can only be considered intermediate?"

Hey, listening to the words of the Lord, the old man knows that I can wait... I'm sitting on the ground! ""

Yes, it's too bad! However, as soon as I thought of refining this level of flesh and blood medicine, the old man suddenly became inexplicably excited... too exciting! "

In the face of Ye Xuan's words, more than a dozen of the old lords of the world face each other, and their faces are full of resentment, apparently being hit hard.

However, while being ruthlessly attacked, they were more excited at the moment, but they were still excited and excited. After some squatting, Ye Xuan's instructions were quickly conveyed by a dozen old guys, in an instant, Sang Zhixing XII Among the tribal ancestral lands of the tribes, a large number of ancient survivors began a preparatory work before refining. One

In the case of Sang Zhixing and the tens of millions of ancient survivors living here, it is absolutely unprecedented, and the unprecedented thrill of refining medicine has opened the curtain...

... are

Between the engravings, the whole Sangzhixing, the large and small thousand villages under the jurisdiction of the Twelve tribes, all began crazy insults, all the treasures of the entire army of millions of beasts that were annihilated this time, All of them are distributed to the following size cottages. and

Twelve 10,000-meter giant tripods among the twelve major tribes are all used by Ye Xuan to refine the top flesh and blood!

Of course, this top level is only relative to the big flesh and blood medicine that Sang Zhixing's major tribes have cultivated in the past! ten

The two tribes, the twelve 10,000-meter giant tripods, are quite far apart from each other and are not in one location.

Although Ye Xuan's current cultivation is the strength, the immortal grotesque, in the interior of a star, can be randomly displayed anywhere, but if you want to sacrifice a sacred sacred flame at the same time, If the two 10,000-meter giants raise the temperature of the furnace, it is obviously a lack of skill.

Fortunately, the 10,000-meter giant ding in the twelve major tribe ancestral homes is different from the kilometer-shaped dingding in the big and small hills below. Although the dingding is still under the heart of the fire, but because of the large amount, and the fire array The law is even deeper. Therefore, when smelting blood and meat medicine, there is no need for Ye Xuan to worry about the temperature of the furnace. he

What is to be done is only to pull out a sacred flame of Shennong in the later stage, and to improve the quality of the flesh and blood medicine that is refined in Ding. Such as

Therefore, the twelve furnaces do not need to be carried out at the same time, and there is no problem in order to display them!

In a certain tribe, Ye Xuan and the dozens of lords of the major tribes are all here at this moment. Not far from the front, it is a huge 10,000-meter giant tripod like a mountain.

Ju Ding has already installed the spring water that has been introduced. The fire in the ground below the furnace has also been ignited. The water is just boiling, and the flesh and blood of the beast can be put in. ten

The two 10,000-meter giant tripods, Ye Xuan this time prepared the wreckage of the ancient ruins of the ancient ruins of the 10,000-plus-star ruling. The highest level is immortal, basically all the darkness he used to be like a black hole. Harvested at the edge of the heavens and the earth Minute

Spread down, each 10,000-meter giant can be divided into nearly a thousand treasure wrecks. Although the size is large and small, but because of some of the ancient wreckage, it was originally a big thief, so nearly a thousand treasures, only It's just a 10,000-meter-diameter refinery giant, obviously it can't be installed. Encounter

To this huge treasure of the body, Ye Xuan can only promote the internal domain power of Shennong Ding, directly transforming the huge treasures into a **** fog, and then investing in the 10,000 meters. Among them. whole

The process lasted for about a few meals, and nearly a thousand treasure wrecks in the 10,000-meter giant ding were all finished.

Throughout the process, all the remnants of the ancients who looked around were all wide-eyed, and their bodies were shaken from time to time, and the mouth was constantly pumping cold.

This level of ruins of ancient and ancient spirits, they can see one or two in the whole year, but now hundreds of thousands of places appear, as if endless, dumplings like to go to the 10,000 meters

Such a scene, even if you see it with your own eyes, gives them a feeling of unbelievable.

After releasing all the treasures of the treasure, Ye Xuan also provided a lot of top treasures and treasures, and invested in Juding. Later, he left the tribe and rushed to the dozens of lords. a tribe...

In this way, for nearly a whole day, Ye Xuan's hand is busy, and in the twelve mega-meters of the twelve tribes, all the treasures and treasures of the treasures are finally finished. , the official refinement... started!

Chapter 4192: Repair

One day later, the treasures of the twelve 10,000-meter giant dings and various treasures of the top treasures have basically been refining, and Ye Xuan began to take out a glimpse of the Shennong seven-color flame from the Shennong Ding in the body. In the 10,000-meter giant tripod, while improving the quality of the liquid in the Ding, it also greatly promoted the process of cooking...

Originally, it took three days of smelting. In the end, because Ye Xuan introduced a sacred seven-color flame in Ding, the life was shortened by half, and only two days later, it was completed. tight

Then there were the priests who passed the refining and medicinal law in the Twelve tribes, and the energy of the sacred scent of the mysterious scent was thrown into the 10,000-meter giant ding, and instantly a scene of a dragon and a tiger Amazing vision...

Such a scene was successively staged in the twelve large tribes of Sang Zhixing. Then, in some other large and small cottages, there were also some small furnaces that entered the later stage, along with the priests in the cottage. In the end, a similar scene was instantly on the entire Sangzhixing, and it looked spectacular...

On the entire Sangzhixing, tens of millions of survivors have never seen such a scene. They have been completely stunned. Then all the people are excited inexplicably, because such a vision represents The top flesh and blood medicine to get it!

Twelve tripods of flesh and blood medicine, after the release, are all faint purple gold color, which shows that its quality is high.

Each of the giant tripods is tens of meters in diameter, and twelve of them are large. Each of the big purple gold flesh and blood medicines that have been released from the giant tripod has reached a height of more than 60% of the wall of the furnace... Thus, these twelve How terrible is the total amount of flesh and blood medicines that have been released in Juding. although

At the moment, the tens of millions of ancient survivors on Sangzhixing are already subordinates under Ye Xuan's subordinates, and they are the same as the 20,000 sorcerers who have returned to the sea, Cang Qingyu and the two of them. but

After all, the 20,000 main devils will come to the battlefield, and the tasks and roles they will bear are different from those of the tens of millions of ancient people. Therefore, it's not that Ye Xuan's thick and thin, in short, this time, the top 12 flesh-and-blood drugs, There are 60% of the total, all of which are handed over to the sea and a green feather. to

In the remaining 40%, Ye Xuan was handed over to a dozen or so lords, who selected the 12 tribes to be the strongest members of the tribe to distribute. complete

In fact, other ordinary ethnic groups, as well as other flesh-and-blood drugs that can be used in large and small cottages, can be used. These top-level drugs are still focused on cultivating a powerful elite team, which is more practical.

Among the twelve tribes of Sang Zhixing's ancient relics, how did the top 40% of the flesh and blood medicines be distributed? Ye Xuan did not ask, but the 20,000 devils in his majesty scouted here, according to Ye Xuan's instructions. The 60% of the top flesh and blood medicines obtained are given to the sea and the green feathers, and the average distribution! This

Sixty percent, the representative of the pale purple gold top flesh and blood medicine, is absolutely massive, equally divided into 20,000 devils scouts, everyone can get, is definitely not a small number. again

In addition, its quality is absolutely extraordinary, so according to Ye Xuan's derivation and estimation, in a short period of time, the repair of the two thousand devils scouts should be able to push to the fifteenth world of the stars, that is, the Qiankun Above.

This is a full 20,000 talents, familiar with each other, forming a team, once they go to the battlefield, the absolute fighting power is amazing. more

What's more, there are some guys who have been trained to be far superior to others. Nowadays, under the impetus of the purple-blooded flesh and blood medicine, the repair is the strength and promotes to the domain in a short time. It's not entirely impossible to lead the world...

Undoubtedly, with this time, the whole sangzhixing level of crazy big refining drugs, whether it is the 20,000 sorcerers of Ye Xuan's returning sea and Cang Qingyu, or the twelve major tribes on Sangzhixing, Tens of millions of ancient survivors among the thousands of small and small villages, all of them, will be ushered in a substantial surge! when

After all the flesh and blood medicines were allotted, the vigorous retreat and cultivation began in an instant! Return

20,000 swordsmen such as Hai Yidao and Cang Qingyu scouted, all entered the Sangzhixing, organized by a small team, entered the wilderness, and sneaked on their own.

And tens of millions of ancient survivors on Sangzhixing have continued to retreat in their respective cottages. to

Yu Ye Xuan, out of the Sang Zhixing, rushed out of the atmosphere of the star, directly in the universe of the universe beyond the atmosphere of thousands of miles, in the wave, the Shennong Ding sacrificed out. With

After that, his figure swayed and sat down on the knees of Shennong Ding's tripty to the colorful fog. This

He once took a thousand cubes and left it in his hands. This was prepared for the three gimmicks of Xuanyuan Ziyan, Duanmu Xiaocha and Zhao Qianru. Do not

After that, these three hoes are enough for three hundred cubic meters per person. They are packed in three space vials, and the remaining one hundred cubes, Ye Xuan just intends to use them themselves, and now they are all used at once. ! One

Hundreds of cubic meters, even if the whale swallows the sea, it can't be drunk, but he can use the power of Shennong Ding's domain field to compress. In the end, only the square is rounded, and Ye Xuan raises his hand and shoots into the belly... ...

The energy spread quickly and opened, and at this moment, he closed his eyes and started refining! Do not

However, for this hundred cubes of flesh and blood, Ye Xuan's expectations are not high. although

It is said that this time, the flesh and blood medicine that has been refined has reached a pale purple color, and the quality is still extraordinary. However, his cultivation has reached an immortal level, and these flesh and blood medicines are used in the practice. The immortal treasures of the immortal, but there are ten...

Only on this point, Ye Xuan has already expected their effect on themselves, absolutely not where to go!

According to his estimation, with his current cultivation as the strength, it is basically impossible to make the repairs soar again, unless the use of the treasures of the ancient powers of the ancient ages is used. In addition, even if it is used to seal the immortal, the king is immortal. Place

The flesh and blood medicine that has been refined, although the effect must be much better, but it is definitely not up to the point of soaring... small

Half a day later, Ye Xuan opened his eyes, and in his mind, a familiar system sound was heard at this moment...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the third level of immortality!"

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: the third level of immortality! "

Before this, the realm of his deity is the second order of immortality. Once the three-headed and six-armed Taikoo konjac bloodline is stimulated, the strength will once again soar and rise directly to the third level of immortality. If

It is to display the magical scorpion and change the magical power, and reach the fifth change, and it will reach the eighth level of immortality in an instant. and

Now, with his cultivation as the strength to break through again, once Ye Xuan activates the blood of the konjac in the body and enters the fifth change of the konjac, its peak power will reach the nineth order of immortality, and the distance is immortal, only There is only one small step breakthrough...

Chapter 4193: Hateful practice

Each of these tripods has added ten immortal ruins of the ancient treasures of the ancient ages, and the faintly golden flesh and blood medicines that have been smelted out, with the strength of Ye Xuan's current immortality, have swallowed up a whole hundred cubes at a time. It took half a day, but it just broke through the realm of a small order...

This result made him disappointed, because he actually knew that this breakthrough was not entirely the merit of this hundred cubic purple gold flesh and blood medicine. also

Part of the reason is that when he was robbed in the past, there were some remnants of energy in the body, and this time the retreat broke through and was completely refining!

In fact, if it is replaced by other people, such as his two immortal beasts, the singular monsters, and the silver scorpion, if it is only a short period of time, it will make its immortal cultivation a strength. In the case of small steps, people must be overjoyed. only

It is this situation that is put on Ye Xuan, it is really nothing. No

The way, before the road came, every breakthrough in his cultivation was different, the speed was so horrible, and often it was two consecutive breaks, and even three breaks. on

Even once a retreat broke through a big realm, there have been two or three times...

This time, just a breakthrough in a small stage, naturally it is a bit tasteless. Do not

In his heart, it is clear that in the future, this situation is likely to be a normal state. After all, his current cultivation is far from being comparable.

When I first cultivated it to be weak, it was natural and simple to break through, but now he is a powerful and immortal grotesque, and then I think that it is completely impossible to make the training as a rocket. It is also absolutely unrealistic.

Unless you have encountered some kind of special opportunity!

"Although it is basically unnecessary to consider the situation of crossing a big realm at one time, it is still possible to break through two or even three breaks."

In the self-talking, Ye Xuan's low mood soon rose again: "After all, it's an immortal grotesque now. It's quite good to have two consecutive breaks or even three breaks."

After all, as long as you do two more, you will soon be able to ascend to a big realm. Soon after you jump into the immortality, even the immortal king, it is not completely impossible! "

"The wreckage of the ancient and the ancient powers of the ancient age, the current headless baby corpse does not let the star take the initiative, but it does not matter, the quasi-wild and large energy level is completely without this limitation."

"It seems that it is also time to smelt a furnace mainly to seal the eternal treasures of the immortal life as raw materials, and a small amount of flesh and blood medicines with a small amount of quasi-wild and large-scale energy added... However, this level of flesh and blood medicine, I am afraid that if they return to the sea, they will not be able to digest them. They will explode directly. No matter how much they are refining, they will be left to use."

"At the top, give a little bit to the flying scorpion and the silver scorpion blame... um, yes, there are mosquitoes and other ghosts, and so on, you have to leave some for them!"

"Just, before that, we must first summarize the employment of the refining method passed down by the twelve tribes of Sangzhixing. Let's study it thoroughly..."

One thought about this, Ye Xuan even issued instructions to the body's phagocytic system, so that the system will show the results of analysis and deduction.

Previously, this list of all the twelve major tribes on Sangzhixing and thousands of cottages under its jurisdiction, all the summaries of the inheritance of the refining method, after being handed over to Ye Xuan, he first Time is thrown into the body's phagocytic system.

The amount of information in the refining laws passed down in thousands of cottages can be imagined.

If Ye Xuan goes to study one by one, enlightenment, and study, it is estimated that all of them will be thoroughly understood, at least until the Year of the Monkey. again

It is said that the refining laws passed down in these thousands of cottages are all incomplete, and they have been passed down from generation to generation. There may not be any mistakes.

Therefore, the best way is to give them all the bones and brains to the body's phagocytic system, let the system analyze and deduct, finally summarize, go to the sputum, sum up a set of the most perfect, the best effect of refining The medicine is coming. Such as

Therefore, Ye Xuan is faster when he starts to work. It is just a set of laws, and it is still perfect. It is natural and simple to master!

Of course, the perfection here is based on all the legal information related to refining drugs currently in his hands!

In fact, in the future, out of this star field, Ye Xuan will certainly be able to obtain other and different methods of refining medicine from the hands of the ancient tribes living on other life planets. Session

It must be handed over to the body's phagocytic system again, to carry out new derivation and analysis, and to summarize... As a result, the refining method he has in his hands will continue to be perfected until the end. Achieve true perfection! very

Fast, with the instructions of Ye Xuan, a piece of embarrassing information was directly transmitted from the system data repository of the body swallowing system to Ye Xuan's mind, allowing him to grasp it instantly and gain insight into everything.

This set of refining methods is the perfect result of the system after summarizing all the analysis, derivation and summarization. It is not too complicated, it is easy to get started, but it contains a lot of information, Ye Xuanhua After a long time, I was completely familiar with it! Connect

It was the refining of the top flesh and blood medicines he needed. This

Once, Ye Xuan took out the treasures of 108 ancient wild spirits, mainly based on the five elements of immortality, a total of 105, of which, the ordinary immortal seventy-five, sealed and sealed each ten There are five pieces of Fenghuang and Fengdi!

The last three are the precious treasures of the quasi-aged and ancient energy level. It is extremely precious. This kind of treasure of the treasures is just powerful and powerful, except for the Shennong Ding of the Furnace and Ye Xuan. He has not seen the third piece that can be accommodated.

Of course, it is not that there is no, just that Ye Xuan has not touched it. This is still clear to the heart. For the mysterious far-flung flood, Ye Xuan has always been awe-inspiring, never dared to take a peek!

"call out!""

Oh..."

During the meditation, this hundred and eight treasures, which are at least ordinary immortal, were taken directly from the sealed cave at the bottom of the volcano in the central area of the Dingnai space, and they were taken out, and there were a large variety of Top treasures...to

In terms of spring water, he is more extravagant and directly replaces it with a mixture of congenital yin and cold spirits and a lottery lotion.

Chapter 4194: Treasure medicine released

The inner space of Shennong Ding, the bottom of the mountain volcano of the central volcano!

At the moment, the lower part of Ye Xuanyuan is still in the inner space of Shennong Ding, and only the eight King Kong and Feitian, the silver and the old monster are immortal.

Oh, yes, there is a lion, but this kid is still asleep, not awake.

At this moment, the Eight King Kong and the Flying Scorpio, the silver scorpion and the grotesque ten people, squatted on the bottom plain of the central volcano, looked up slightly, looked at the low altitude above the huge flame pool in the plain central area, all face It's a dull color...

Although Ye Xuan's body shape has not entered the space inside the Ding, but it is like a retreat, it is still in the mouth of Shennong Ding.

But this trip has been thoroughly refining him, just a mindfulness, he can control everything in Ding.

Just now, with his enthusiasm, one hundred and eightty repaired to the strength is at least the eternal treasure of the ancient immortal treasures, as well as a large number of top treasures, and thousands of cubic furnaces The mixed liquid with the congenital yin and cold spirit liquid... was taken out by his bones and brains, and was suspended in the flame pool in the central area of the central volcano in the central area.

This scene looks extremely spectacular. Don't mention the eight King Kong. Even the flying scorpion and the silver scorpion are already stunned. They are shocked like they have just been thundered. They can't believe what they saw. all......

"God, the boss has so many ruins of the ancient and dead spirits in the hands of the boss... I just throw out a hundred and eight, and each one is more powerful than the deity, at least not in the late stage of immortality., old man, is this an illusion?"

"There are also treasures of treasures, oh, every strain is rare in the world Hey, how did the nine-day scouring grass look so familiar? It seems to be in the treasure house of my silver laurel group, At the beginning, the application for immortality in a family was rejected. How come it is now in the hands of the boss?"
"And those liquids, how do the deities feel the rich atmosphere of the furnace? And God, it is the congenital yin and cold spirit!"
"Obviously, this kind of liquid is a mixture of the two. Hey, the nest of the second universe of the Yin and the demon is really the boss, and a pool of congenital yin and cold spirit in the ancestral pool of the family group is estimated. It's all in his hands!"
"Look at this posture, the boss seems to be refining medicine? God, replace the Lingquan spring water with a mixture of the furnace and the innate yin and cold spirit. Other flesh and blood materials and precious treasures are precious and horrible. After the smelting of blood and meat, how effective is the effect of this medicine?"
"It doesn't matter. The old man's biggest concern now is After refining, can we share it?"
"boom!"
"Booming"
"call out!"

Just as the eight King Kongs stayed in petrified petrochemicals, the flying scorpion and the silver scorpion grotesque groaned while whispering, and the change suddenly began.

Among the flame pools under the top refining materials of the canopy, suddenly there was a loud rumbling sound, and an energy form that was condensed by the Shennong seven-color flame quickly rose from the flame pool.

Then there was the sound of a broken air. All the materials originally suspended on the flame pool of the central area all flew into the huge furnace that was condensed by the seven-color flame of Shennong. The blink of an eye, It has melted in an instant and merged together...

All of this, the eight King Kongs and the two immortal monsters on the plain side of the bottom of the volcano in the central area of the volcano are all clearly visible, because this stove is not a physical one, but a Shennong seven-color flame. Condensed, the body is translucent, everything in Ding is clear!

"call out!"
"Hey..."

Just a few breaths, all the treasures of the treasures, the top treasures, and so on, all of which are automatically flying into the Ding, are all melted and merged together. This scene is simply incredible, and this scene is seen by the eyes. The ten guys opened their mouths again.

I didn't wait for them to come back. From the top of the volcano in the central volcano, there was a dense sound of breaking the air. The colors were different and the shapes were different. From the top of the crater. As it rained, it fell over and over, and fell directly into the colorful furnace of this energy form.

These dense crepe patterns are exactly the perfect refining method that Ye Xuan, who was sitting at the top of his knees and sitting at the top of his mouth.

At this moment, as they fall into the colorful furnace above the flame pool at the bottom of the volcano in the central area, the top flesh and blood medicine of this furnace has also been thoroughly refined.

It's almost horrible, and time is almost negligible.

No way, the sturdy body of the people is condensed with the pure Shennong seven-color flame, and the flesh and blood materials used this time, the highest level is only the age of the ancient energy level, and only three, this In the case, it is not fast to blame!

"Hey!"		
"expensive"		
"Hey!"		

With these dense and rainy plaques falling into the colorful energy treasures, this flesh and blood medicine was completely formed. For a time, the virtual shadows of Zhenlong Zhenfeng all rushed out from Ding, and the neck screamed and cleared. The eight King Kong and Feitianyu, the silver cockroaches and other strangers who were watching from the bottom of the volcano on the bottom of the volcano in the central area were scared to the ground and almost fell to the ground on the spot.

"boom!"

In the next moment, a huge roaring sound rang, and the colorful furnace above the flame pool of the central area burst into infinite treasure, and instantly became a colorful star of the stars, and sprinkled toward the flame pool below.

This furnace's top flesh and blood medicine has been finished, and the furnace Ding, which is made up of Shennong's seven-color flame, naturally retreats and reverts to the colorful flames and returns to the flame pool.

At the moment, suspended above the flame pool is the top flesh and blood medicine of a large purple gold color, not the same as the pale purple gold that was produced by the twelve main giants of the 12 tribes of Sangzhixing., but the true pure purple gold color.

As for its volume, it is like a mountain, huge and incomparable, and emits a rich energy atmosphere.

Seeing that this awning is like a mountain of purple gold top flesh and blood medicine, whether it is the eight King Kong or the flying scorpion and the silver scorpion, these ten guys all breathe in an instant, and the scorpion is even more stunned. Strong desire for light.

Although they haven't tasted it yet, they already know that these flesh-and-blood drugs are sure to make their cultivation strength soaring. In the face of this opportunity, no one will not be tempted.

However, this top-class flesh and blood medicine is made by Ye Xuan, and even if they are eager, they dare not take the initiative to ask for it!

However, for this point, Ye Xuan apparently had already thought of it. His voice was quickly spread over the top of Shennong Ding: "What else? You have seen it, and each person takes a hundred cubes. The Lord of Stars does not want to be remembered by you all day..."

Chapter 4195: Sealing the power of immortality

"Hey..."

With the words of Ye Xuan falling, the eight kings of the central volcano at the bottom of the volcano and the flying scorpion, the ten guys of the silver scorpion, were excited and excited in an instant, and there was a wolf in the mouth.

Without hesitation, I took out my own magic weapon for the first time and mobilized the strength of the body. I took one of the big scorpion-like purple flesh and blood medicines hanging over the flame pool in the far field. Hundreds of cubes, and then they were scattered, each taking it slyly, and the retreat went through.

Ye Xuan did not pay attention to these guys. When he took out some space vials in his mind, he put the canopies like the high-grade purple flesh and blood medicine of the mountains.

This time, the flesh and blood medicines that have been refined are not only of excellent quality, but also the amount is extremely amazing. There is so much a mountain.

Aside from the fact that he has already packed it, the part left by the mosquitoes and the old ghosts, and the remaining half of the big flesh and blood medicine, enough Ye Xuan to upgrade the strength of the deity to the end of the nine-step grand perfection.

At that time, he needed to refine a higher quality flesh and blood medicine.

Of course, of course, if you want to enter the immortal world from the ordinary nine-order grand perfection, then Ye Xuan also needs to refine a large flesh and blood medicine specifically designed to break through the bottleneck of the realm. Now it is only a matter of raising the strength of the big flesh and blood medicine, and calling it a twenty-first-class liquid should be more appropriate.

However, it is a matter of the near future. At present, Ye Xuan's cultivation is only to the third level of ordinary immortality. There is still a distance from the immortal nine-order perfection that faces the breakthrough, so this matter does not have to be too Anxious.

After all the flesh-and-blood medicines were all packed, Ye Xuan was slightly indulged and quickly made a decision. He planned to take some of the top flesh-and-blood medicines that he had just refined, and reopened immediately. A round of repairs is a breakthrough.

Because after the last breakthrough, not long ago, his repairing strength has reached the third level of immortality under the ordinary state. If the three-headed six-armed Taikoo konjac is activated and directly enters the fifth change of the konjac, then his repair For strength, it will instantly rise to the nine-order great perfection of immortality.

The distance is immortal, only one small step is different.

Ordinary immortal ninth-order great perfection, and sealed immortal first-order, although it seems that there is only one small difference between the two, but the contrast between the two is quite different.

Next, Ye Xuan will soon lead the tens of millions of ancient survivors of Sang Zhixing to attack the forbidden land in the distance around the void, and then walk out of the billion-dollar void that has been banned in vain for years. He needs More powerful combat power.

Since it is only a small breakthrough, and he is now fully capable of doing so, then it is natural that it should be sooner or later...

"Is the power of immortality? Not long ago, I felt that it was far from the star master, and I did not expect it to be reached soon!"

After the decision, Ye Xuan's fine man flashed, and the whole person was excited immediately. He gripped his right fist tightly: "Even after this breakthrough, you can only activate the three-headed sixarmed Taikoo konjac blood, and will After the change to the fifth change, you can have the power to seal the immortal first order... but for the time being, it is enough!"

Speaking of this, he no longer speaks, his body is still sitting in the mouth of Shennong Ding Ding, which is carrying a colorful mist, and then waved his hand...

"call out!"

With Ye Xuan's wave of hand, a purple gold-colored smashed treasure light immediately spurted out from the inner space of Shennong Ding under his figure. He came to his body and quickly hovered and turned into a canopy. A small size purple gold liquid.

This size of the purple gold liquid is the top flesh and blood medicine that he has cultivated. It is also the result of compression by Shennong Ding domain field power, but it is not a hundred cubes, but only ten Cubes.

This level of flesh and blood medicine, the color has reached the true purple gold color, its potency is fierce, far from the kind of pale purple blood flesh and medicine that he swallowed before.

If it is compressed in a hundred cubes, all of which are swallowed into the abdomen at one time, even if it is the strength of Ye Xuan's current third-grade repair, and his strong physical strength, the horror is very likely. Facing physical damage.

Therefore, for the sake of security, plus this time his established goal, it is only a breakthrough of a small order. According to his derivation of the efficacy of this purple gold and blood medicine, a ten cube is the best. the amount!

"call out!"

The faint sound of broken air rang out, and the stalk of Xu Nanjin flesh and blood medicine hanging in front of him, between Ye Xuan's thoughts, like a spirituality, automatically rushed into his mouth, and when it flashed, it fell into In the abdomen.

The sleek flesh and blood medicine was almost instantly turned into a majestic energy, and it began to flow rapidly in Ye Xuan's knowledge of the sea and the limbs.

Different from the past, in the past, when this happens, it is often accompanied by the sensation of heat like magma. The whole body is like being torn apart, and the pain is incomparable.

But this time, because of this medicinal medicine, the replacement of Lingquan spring water is a mixture of mild scented scented furnaces and congenital yin and cold spirits that were originally very cold.

Therefore, when the awning purple flesh and blood medicine was opened in Ye Xuan's body, there was no such a sense of burning and burning. It was easy to tear a chain of human body in his body.

"Oh la la..."

As the break of this shackle chain disappeared, Ye Xuan's body immediately came along with a violent wave of energy flow, which made him whole body Shutai...

In the next moment, Ye Xuan opened his eyes, and in his mind, a familiar system sound was heard at this moment...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the fourth stage of immortality!"

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: the fourth level of immortality!"

Before this, the realm of his deity is the third stage of immortality. Once the three-headed and sixarmed Taikoo konjac bloodline is stimulated, the strength will once again soar and climb directly to the fourth stage of immortality.

If you re-apply the konjac and change the magical powers, and reach the fifth change, you will be able to reach the ninth order of immortality.

Now, with his cultivation as the strength to break through again, once Ye Xuan activates the blood of the konjac in the body and enters the fifth change of the konjac, its peak power will be able to reach the immortal first order, and finally can have the seal. Waiting for the power of immortality...

"Is it finally possible to have the power to seal the immortal?"

In the muttering, Ye Xuan grew up and waved directly to the Shennong Ding under his body to earn the immortality in the body. Then it was easy to move, directly excited the blood of the ancient konjac, and he couldn't wait to feel the seal. Waiting for the power of immortality...

Chapter 4196: Punch

"Roar!"

With Ye Xuan's screaming in the sky, after the activation of the blood of the Taikoo Konjac, the power in his body, instantly like a rushing river, quickly surged, rolling, and majestic...

Its shape, like a balloon that is inflated, quickly swells up.

The sound of roar in the mouth is still extinct. A three-headed and six-armed Taikoo konjac has already appeared in the void. The three real bodies of flesh and blood, bones and black fog are amazing, and the body size has reached ten feet.

At this time, no matter from which point of view, the current Ye Xuan is no longer a human being, but a Taikoo konjac with a strong blood, three heads and six arms, the atmosphere of the body, fierce to stunned .
As for the cultivation of strength, after entering the Taikoo konjac state, it instantly surged a small step and reached the fifth stage of immortality!
But this is obviously just the beginning.
"Roar!"
"The konjac has changed the first change!"
Another voice of roaring came out, the body shape of the Taikoo konjac instantly rose tenfold, and the former ten feet high reached the current hundred feet.
As a strength, it has once again soared a small step and reached the sixth level of immortality!
Subsequently, a similar scene appeared several times in succession
"Roar!"
"The konjac changes the fourth change!"

The fifth roaring voice came out, the scorpion type of the three-headed and six-armed scorpion of the Taikoo konjac, after entering the fourth change, soared to 100,000 feet.

The strength of the body that has been dispersed in the body has also reached the nine-step great perfection of immortality, that is, the half-step seal is immortal!

"Roar!"

"The konjac changes... the fifth change!"

The last roar came out, the Taikoo konjac of the body of the eternal body, the body shape once again soared, reaching a giant of a million feet, this stopped, and at this time, the repair of its body has slammed across a big realm, Reached the first order of immortality!

The original ancestors of the second generation of the devil were also immortal, although not the first order, but the current Ye Xuan is actually not strong enough.

Because Ye Xuan, who has a huge body size of a million feet, is only one of the horror of the horror of the horror, and can be compared to one or two levels of cultivation.

The ordinary star-studded star-studded powerhouse is definitely not his opponent. Once it is fighting in front, it is absolutely only the share of Ye Xuan.

Now, his overall combat power is equivalent to sealing the immortal third order... and this is still not considering the sacred bow and other strong blood and magical powers, and the fact that Shennong Ding's powerful saga is a battle force, the conclusion is drawn. !

In the blink of an eye, a huge giant Taikoo konjac with a specific size of a million feet is like a small meteor. The body is not only filled with the immortal first-order repair, but its blood is even more abundant. To the point of horrific, violent...

This scene has long alarmed the ancient survivors of Sangzhixing, thousands of miles away.

Some of the tribes and the remnants of the cottages rushed out of Sangzhixing, including the dozens of lords who were stunned, and after seeing such a huge horrible beast in the void, one by one The face changed a lot, and the horror of the body continued to tremble.

They simply did not recognize this horrible Taikoo konjac, but in fact they were the Lord Ye Xingzhu who had just been sincerely committed.

It's no wonder that, in fact, if you didn't know about it, I'm afraid that many of the devil's scouts who have followed Haixuan and Cang Qingyu's side for a long time are all pulled over, and the result will surely be No one can recognize it!

"The seal is immortal... It's actually a seal that is immortal!"

"It's over, this is really over!"

"The sky is destroying my sangzhixing, this powerful existence, even if the Lord and his two immortal beasts are at the same time, and they fight together, there is no chance of winning..."

.....

In the face of stunned, more than a dozen of the lords of the world whispered to each other, and the whole mind was shocked. In the face of such a powerful seal, they could not even get the idea of turning around and fleeing.

Because the immortality of the gods is enough to cover the hundreds of thousands of miles away from Sang Zhixing, their speed is fast, how can they get past the surviving beast?

As long as you can't escape to the vast area covered by the other's gods in an instant, how to escape is just a sigh of relief. If people want to kill, they can catch up at any time and raise their hands.

On the other hand, if people do not have this intention, they will simply look down on these ants, and naturally there is no need to turn around and escape.

It's really like that, but it's possible to irritate the other person, and the result will be counterproductive...

Ye Xuan did not pay attention to this, at this moment, his mood has been excited to the extreme!

Sealing the immortal power, and really has a world of difference with ordinary immortality, not mentioning others, just the power of God, let him be shocked.

At this moment, his gods are unfolding at random, and in an instant, with the position of his body shape as the center point, everything in the universe of the universe within a billion miles is displayed in his mind, as long as he reads a little Move, the nuances of any corner of this vast expanse of starry sky can be astounded...

And if it is about strength, then there is no need to say anything more.

Ye Xuan did not even suspect that he could smash the sangzhixing, which was thousands of miles away, into a cosmic dust.

Sang Zhixing naturally won't start, but some abandoned stars in other directions in the distance, but there is no problem at all.

Since the **** state of the three-headed and six-armed Taikoo konjac has been activated, and the **** magical power of the "King of the konjac" has been extended to the fifth change, if you do not try the horrible seal of the immortal force that the body suddenly feels, Ye Xuan is really itchy!

Soon, he chose the target of the shot, just a few million miles away, but in the opposite direction to Sang Zhixing, so this abandoned star is more than a million miles away from Sang Zhixing.

With such a long distance, even if the power of this blow is strong, Sang Zhixing will not be affected...

"Roar!"

With a scream in his head, Ye Xuan urging the strength of the body in this instant. The figure is standing in the void and there is no movement, but the right arm of the three real bodies is raised at this moment. Suddenly blasted out...

"Card"
"boom!"
"Booming"
An invisible terrorist force rushed out of Ye Xuan's boxing face, while whistling away, the void along the way was broken, and the speed was so fast that between the blink of an eye and millions of miles ahead. Abandoned stars, there was a huge explosion.
However, this explosion did not last long, because everything was soon over. This abandoned star, which is comparable in size to Sang Zhixing, was separated by Ye Xuan millions of miles away. Under a fist, it was directly bombarded into a cosmic dust
A punch star is out!
At this time, he suddenly realized that he had grown to this height without knowing it Chapter 4197: Must be an illusion
A boxing smashes a medium-sized star. This is something that is slightly more powerful and can be done, but it can never be done so easily, not to mention that Ye Xuan is still hundreds of distances from this medium-sized star. The vain void in the universe beyond thousands of miles has achieved this horrible destructive power
The effect of a punch can only be achieved if it is sealed and immortal! this

Engraved, with Ye Xuan separated by millions of miles, the fist of a medium-sized abandoned star was bombarded into a cosmic powder method, which is far from the Sangzhixing atmosphere outside his body shape. A group of deserted survivors, they were immediately scared of a sigh. One

I am so immortal, even if I just stand here, the invisible pressure that they form can be described as terrible, not to mention the existence of such a present, but it is still very angry, directly throwing a fist A medium-sized star a million miles away?
Sang Zhixing is a little farther away from his location, but within 10 million miles and millions of miles, the gap is really not very big. The other party can punch abandonment of the millions of miles away. Stars. One
It can also blast Sang Zhixing with a fist.
The only action that needs to be extra is just to turn around because Sang Zhixing is behind the figure! This
The thoughts just flashed from my mind, and the distant sky in front of thousands of miles away, the body size is as large as a million feet, like a small star-like Taikoo konjac, actually slowly turning the figure, looked over to Sang Zhixing"
Mom, it's going to be finished! "
"A fist down, a whole star is directly smashed into slag, we are useless to escape!"
"The sky kills me, the sky kills me Oh, that's"
"Well, the size of the Taikoo Konjac is actually shrinking rapidly, and the blink of an eye has turned into a human being?"
"Ye Xingzhu? Lord? Is the old man an illusion? The horrible seal of the immortal Taikoo konjac has turned into the Lord?"
"The illusion must be an illusion"

...Look

To this scary body, the horrible Taikoo konjac, slowly turned around and looked in the direction of Sang Zhixing. The benevolent strongmen outside the star's atmosphere were immediately scared. The loss of voice sent a desperate exclamation. only

Yes, the exclamation sound has just started. Here, Ye Xuan has lifted the **** state of the three heads and six arms of the Taikoo konjac, and restored the original human body. This scene is just a group of survivors of the Sang Zhixing atmosphere. We saw the whole process.

After a short stay, the guys suddenly screamed and thought they had an illusion! "

What? Lost heart is crazy? "straight

Between Ye Xuan's body and the moment, I came to the front from thousands of miles away, and screamed at the white eyes. These guys finally recovered from the state of madness, and once again fell into a sluggish, stunned one by one. The expression on my face is almost like a thunder. good

After a long time, the dozens of lords of the world were the first to react, and they were stunned, even when they were pleasantly surprised to ask Ye Xuan..."

Lord, what about the big monkey? No, no... What about the immortal konjac predecessors? ""

Are you jealous? I saw the whole process just now. The predecessor is our main..."

Yes, we are still immortal, whether it is a human or a monkey... Taikoo konjac, that is not important, the key is to repair! "

"Sang Zhi Daxing! I am a sangzhi tribe, Daxing, there is the Lord, and there is a place in the sky in the distance, and the sky is forbidden. It can be swept in almost one direction. In the face of immortality, those stars and beasts are simply Can't find a match!"

.....

Watching these guys dance and dance, one by one excited as just a shot of blood, Ye Xuan rolled his eyes, and then sneered: "Yes, one by one, the starry area, the star The Lord will indeed begin the expedition in the near future, but by then you will all be there!"

Just now, the Lord of the Stars has been swept away by the gods of immortality. There are a total of six stars in the restricted area. There are two or three immortal beasts sitting in the town. One of them is only one, and it should have been The place where the nest of the millions of beasts and the army of the beasts was destroyed..."

"If the Lord of the Stars only shoots out, it just destroys the existence of those immortal levels. The rest of the other beasts must be resolved by you."

"This is the smelter!"

Having said that, Ye Xuan turned and walked to the distant sky: "Give you another month. This month, on Sang Zhixing, all the people have entered the retreat, and everything else is put down. As for the guards... The star is sitting in the void outside the atmosphere of Sang Zhixing, you don't have to worry, you can break through!"

After that, Ye Xuan has already reached a million miles away. The wave will be like a huge star of Shennong Ding. The figure is already swaying in the mouth of the colorful fog, sitting cross-legged...

"hiss.....""

A big bite! "

"This tripod is the era of the legendary age-old age... Shennong Ding?"

"It should be it, I can't think of it in the hands of the Lord!"

"This era of heavy equipment represents the extraordinary air transport. This trip is in the hands of the Lord. It shows that the air traffic of the wilderness has already belonged to the Lord. This..."...

...cold

Suddenly, I saw the complete form of Shennong Ding, and the survivors of Sang Zhixing's atmosphere were suddenly stunned, and while they were chilling, they were constantly screaming.

After a long time, these powerful and powerful survivors of the ancients, under the leadership of the dozens of lords, turned around and rushed to the Sangzhixing within the atmosphere.

Ye Xuan's words made them feel pressured. Fortunately, they now have not only the top-level flesh-and-blood medicines in their hands, but also a whole month to improve their cultivation. They dare not say that everyone can repair. To soar.

However, in the case of holding this kind of top-level flesh and blood medicine, and without having to care about it, in the case of full cultivation, the small ground breaks through two or three small steps, it should still be no problem! its

Some of the talents are strong, or there is a deep accumulation of existence, and it is even more likely to achieve a breakthrough in the realm of the big realm. Milli

Undoubtedly, one month later, when Ye Xuan's date of the opening ceremony was over, the entire sangzhixing's twelve major tribes, tens of millions of ancient relics in thousands of small and small villages, each The individual's individual cultivation will be a qualitative leap. and

When they all walked out of the retreat, the tens of millions of survivors of the army will be fully unveiled for the first time in an unprecedented way, leaving Sang Zhixing and going to the surrounding area for a forbidden place... under the leadership of Ye Xuan, kill the Quartet!

Chapter 4198: Opening of the conquest

Soon, a large number of survivors who stayed outside the Sangzhixing atmosphere, all without exception, all entered the interior of the Sangzhixing within the atmosphere, and launched a retreat to break through.

Ye Xuan has just completed a breakthrough. The current realm still needs one or two hearty battles to stabilize. Therefore, he does not intend to continue to practice and seek a breakthrough. he

The reason why he sits in the void of the universe outside the atmosphere of Sangzhixing is to prevent the vacant space around the sky and the powerful beasts of the forbidden land.

On the other hand, it is to prevent the various ethnic groups and the scattered powers of the three major stars in the world from entering the dark air that is like a black hole, passing through the light curtain and entering. Come here, go directly to Sang Zhixing. that

Although the dark void like a black hole is vast, it can be said to be boundless, and it is the same in all directions. In this case, following him, he enters the three major star planes in the dark void, one by one. The fleet of forces may not be able to find the same light curtain that Ye Xuan came to at this time. but

This is still somewhat possible, he can't help!

However, he can't be ruined this month. although

However, there is no plan to practice, but Ye Xuan can be used to infer the blood of the ancient konjac, which is the sixth change of the konjac! To

Nowadays, the konjac has changed his mind and he has realized the fifth change, but it has been a long time ago. Although it is later, each change will become more complicated and takes longer. but

After completing the fifth change of the konjac, the phagocytic system in his body began the derivation of the sixth change of the konjac. According to Ye Xuan's estimation, the secret of the sixth change should be quickly derived.

Even if there is still a certain gap, in this month, as long as he sinks his mind and pushes forward with the body's phagocytic system, then the konjac will be pushed smoothly after the start of the conquest in a month. Derived... It should be a problem! Tune

After a whole mood, Ye Xuan quickly sinks his heart and listens to the various derivation data and information about the sixth change of the konjac in the body's engulfment system. It took a whole two days to fully study the whole body and then the body. The phagocytic system has been followed up with a follow-up...

To the data operation and derivation, although he is still far less than the body's engulfing system, after all, Ye Xuan is now an immortal grotesque, and his knowledge is powerful and horrible. With his help, he swallows the system against the devil. The progress and speed of the core of the sixth change of the core meaning has been greatly improved in an instant! Such as

In this way, after a full ten days, the systematic deduction of the core meaning of the sixth change of the Konjac was finally completed. This

At the moment, Ye Xuan was very happy, listening to the familiar system prompts in the mind, the whole person was spirited, and did not infer the feeling of exhaustion for nearly 20 days!

Prior to this, the realm of his deity was the fourth stage of immortality. Once the three-headed and sixarmed Taikoo konjac blood was stimulated, the strength rose again and climbed directly to the fifth stage of immortality.

If you re-apply the konjac and change the magical powers, and reach the fifth change, you will be able to reach the immortal first order. but

Now, Ye Xuan has already derived the core meaning of the sixth change of the konjac, and thoroughly mastered it. As long as he is willing, he can activate the three-armed and six-armed konjac at any time.

After entering the sixth change, not only will his size reach an unprecedented scale, that is, 30 million meters, that is, a giant of 60,000 miles, comparable to a super huge star, even even its strength It will also rise to the first level again, reaching the second level of immortality! If

It is the strength of the horror of the horror stars in the 60,000-mile-long horror star. Even if you don't use the powerful jewels such as the sacred bow and the Shennong and Shennong Ding, Ye Xuan's real power, It will also be able to reach the level of the sixty-seventh order of immortality, that is, the battle of the old monsters in this period..."

The konjac changed his blood and magic, and finally realized the sixth change... Hey! Strong

Pressing immediately activates the three-headed and six-armed konjac body, and directly enters the sixth change of the konjac, and feels the impulse of the horror of the 60,000-mile giant body. Ye Xuan from Shennong Ding squats with the colorful fog. The mouth grows up, and the hair grows out and shouts... This

For a moment, he is thriving in the chest with endless pride!

Because, with the completion of the sixth core change of the mystery, it is in the right place, he has already ordered the body's engulfing system, and immediately pushed the core of the konjac into the seventh change. he

As if I have seen it in the near future, I have realized the situation of the seventh change, the eighth change, and even the ultimate ninth change. eye

The next is only the sixth change. His konjac is in this state, and he can reach 60,000 miles, comparable to a superstar.

The seventh change, the eighth change and the ninth change in the future, not only can each change make his cultivation strength once again soaring a small step, even if the body shape of the konjac is true, if there is no accident, It should be ten times bigger...

If this is the case, in the ninth state of change, the body of the konjac is really big, and I dare not say that there is a huge hollow turtle in the star field that is comparable to the claws in the heyday, but at least worse. It is not much worse.

I think that one day in the future, I will have this kind of change, and the body shape will be like a small piece of starry sky. Ye Xuan's heart will inexplicably give birth to an unspeakable sense of incitement! One

Straight, the body is so horrible that only one toe can be compared to a star-shaped void giant turtle, which has always been an object of his own envy, but now, he finally saw that he will have this in the near future. The hope of the tyrant's body, how can it not be exciting?

Calculating the time, this time with the body's phagocytic system to promote the sixth change of the konjac nine changes, before and after, has actually passed 19 days. and also

That is to say, there are still 11 days to go, and Ye Xuan's previously established battle against the ban on the banquet around Sangzhixing will be officially opened!

With the expectation, he quickly calmed down his excited mood, and once again, he returned to the Shennong Dingkou, where he was holding a colorful mist, sitting cross-legged and closing his eyes...

At this last time, he did not intend to cultivate, nor was he ready to continue to push the core meaning of the seventh change of the konjac. It was still early, and in just 11 days, there would be no result.

What he has to do is simply to adjust the interest rate. With these 11 days, he will completely calm down his own mind...

After eleven days, Ye Xuan suddenly opened his eyes, and in a moment, he smashed out a glimpse of the fine mans, revealing a strong war!

Time has come, a gorgeous and mighty interplanetary war, will soon be fully opened...

Chapter 4199: Blowout

"Hey!"

Oh..."

.....One

The deadline for the month has arrived. Ye Xuan opened his eyes and waved the Shennong Ding to the immortal world. After spurting away, he just arrived at the atmosphere of Sang Zhixing and heard the Sangzhixing in the atmosphere. Lu, there is a voice of screaming with excitement and a sense of war... very

Obviously, the tens of millions of ancient survivors of the twelve major tribes in Sangzhixing, thousands of small and small villages, have all broken through. package

In addition, 20,000 swordsmen, such as Haihai Yidao and Cang Qingyu, who also made a retreat in the interior of this star, were scouting. leaf

Xuan Suo stopped his footsteps and did not enter the atmosphere of Sang Zhixing, or just a million miles away from the atmosphere, waiting for it!

Soon, a group of squad-based sangzhixing inland, who broke through the self-destructive retreat of the demon, scolded the strong, and then continually passed through the atmosphere of Sangzhixing, and came to the universe outside the atmosphere. In the void. and

Nothing more to say, no chaos, after a demon squad scouts the arrival of the squad, I saw Ye Xuan, who was in the air of a million miles away, when the universe was in an orderly manner outside the atmosphere of Sang Zhixing. In the middle, the whole team started. in

In the process, Ye Xuan's line of sight swept through a demon who had arrived at the scene and scolded the strong, and felt the refinement of the body in his body. His face suddenly showed a deep smile. ...

Although the time of one month is not long, for the two thousand people who are originally the devils who are thick and thin, the retreat is so long, and the time is not too short.

Coupled with the super-bright effect of the top-quality flesh-and-blood medicines they have received, this year, the 20,000-year-old devils scouted the strong, and each person's cultivation strength has been greatly improved.

Looking into the distance, all the devils scouted, and now they are all the fifteenth world of the starry sky, that is, the existence of the above.

This is a powerful team composed of 20,000 Qiankun powers. They are extremely familiar with each other, with tacit understanding and even perfection. Once they have all played and went to the battlefield, the formation of the combat power is definitely a geometric level.

Twenty thousand people are among the devils who are above the Qiankun territory, and there are more than a hundred star owners and more than ten domain owners! This

More than ten domain owners, including Yingtai, Haihaiyidao, Cangqingyu, and Naboshan, Ba Guai, Li Mo, Zuo Fengtai, etc., are the first to follow Ye Xuan's devil strong, now because This time, the opportunity has finally become a domain lord! phase

Letter, in the near future, the two thousand repairs have all surpassed the demon of the Qiankun, and the star lord, the domain lord will surely come more and more. its

Zhongguihai has a knife, Cangqingyu, etc. Nowadays, it is already the leader of the domain lord. In the near future, it is very likely that it will quickly break through to the realm of the border, and even the universe! With

These thoughts flashed in my mind, and the look of Ye Xuan's face could not help but be excited again. When I thought of one day in the future, my sire would have a 20,000-star lord, even a domain lord, and even the world. The main genius and the cosmic grotesque are the army of the genus, and Ye Xuan has a feeling of boiling blood...

All of this, if it is in the three major stars of the world, it may be difficult to achieve it in a short period of time, but here, there are a large number of beastly beast materials, and there are the top flesh and blood medicines that have been refined by the remnants of the ancient people. ... everything, it is possible!

"Booming!"

boom....."

Just as Ye Xuan's heart is fascinated, the atmosphere of the front Sangzhixing is surging, and a warship has sailed out of the interior of the star. There are various forms, and a large piece of black pressure. This time, Sang Zhixing The tens of millions of ancient survivors on the list were all dispatched. although

It is said that some ancient people are not combatants, and even some of them are old and young, but from the sight of the scene, they all undoubtedly entered the battle boat of a large and small cottage... even the resources of the cottage, personal It's soft and it's estimated that it's all packed up and carried with you. This

After the expedition, even if you never come back, there is no rhythm! This

In fact, it is normal. The tens of millions of ancient survivors on Sangzhixing have been trapped in the bounded universe of the billion-mile space by the surrounding stars. I don't know how many years have passed. Now

In the power of Ye Xuan, such a powerful master, there is no doubt that they have the strength to lead them to kill. In this case, no one is willing to stay here again.

However, Ye Xuan does not think so. There is no such thing as a starry sky in the distant sky. He can't sweep all at once. He can only annihilate one by one. If this is the case, after a battle is over, it must be back. Some, while digesting the resulting. that

What is the meaning of Sang Zhixing as the rear base camp will not disappear completely in a short time.

However, for the first time, for the sake of safety, all non-combatants will be brought along, lest these guys have worries, people will fight in front, and they are worried about the people of Sang Zhixing. Let

Ye Xuan's accident is that as the tens of millions of ancient survivors rushed out of Sang Zhixing, the dozens of lords and strangers quickly came and gathered in front of Ye Xuan.

I haven't seen it for a month. These dozens of guys have all broken through from the realm of the universe to the universe, and now they are all cosmic strangers. very

To such a cosmic eccentric is not just them, the total number of cosmic monsters of the whole Sangzhixing has reached more than forty...

In the universe, the landlords, domain owners and star owners, there are more. In general, this month, among the tens of millions of ancient survivors of Sangzhixing, the emergence of the strong is like a blowout. In general, this is obviously the result of their accumulation of thin hair for many years!

The first goal of this star's conquest is located in the northwest of Sangzhixing. This is the restricted area of the sky, and the distance from Sangzhixing is more than 70 million miles..."

After all the tens of millions of wild names in Sangzhixing arrived, after gathering outside the atmosphere of the star, Ye Xuan took the first scan.

Then the goal of conquering the first battle was determined: "This starry ban, there are four powerful beasts of immortality, but two of them, led a million beasts a month ago. I have tried my best to sue..."

"At the moment, this starry sky is forbidden, there are two powerful beasts of immortality. In addition, the repairs below the immortality are level beasts, the total number is about 10 million..."

At this point, Ye Xuan did not say much. When he waved his hand, he directly sacrificed the life of the oblate disk from the immortal world. It was like a strange star in shape, and it was empty.

In the next moment, Ye Xuan waved his hand and issued a command: "All the combatants immediately entered the Longye No.... immediately!"

Chapter 4200: a fist to kill immortal

"Booming!"

"Boom..."

With the singer of Ye Xuan, the huge dragons of the Longye, a huge star, have a layer and the passage is open.

The whole life is huge, there are more than ten layers in total, and the space inside is too wide, but at the moment, Ye Xuan is only one of the layers. It is only in the middle zone, just three layers, it is enough

to accommodate the next mulberry plant. The stars are tens of millions of wild people who are driven by these various warships.

Millions of warships, with a small half-day time, finally all entered the life giant plug, and the 20,000 magic people scolded by the sea and Cang Qingyu, the scouts have already entered.

"call out!"

After everything was ready, Ye Xuan swayed into the core command cabin of the Longye Life Giants. With the order, the huge life-like giant plugs, the kinetic energy chamber was fully opened, turned into a quiet Mang, smashing away to the destination of thousands of miles away from the northwest of Sangzhixing...

... bit

In the stagnation of the sky, which is more than 70 million miles away from the northwest of Sang Zhixing, there were originally four powerful beasts of immortality, but two of them led a million beasts to the army one month ago. It has been done in the Sangzhi Star Field. and

Today, in this forbidden land, there are only two powerful beasts of immortality. In addition, the repairs below the immortality are level beasts, with a total of nearly 10 million!

The two powerful beasts of immortality are in the middle of the territory, one is the fourth stage of immortality, and the other is the sixth stage of immortality.

This kind of cultivation is the strength. Once Ye Xuan activates the blood of the konjac in the body, he enters the sixth change of the konjac. With his own power, only two punches can explode. or

It is for the flying scorpion and the silver scorpion to shoot, in a short time, the same can end the battle.

After this month of cultivation, Feitianyu is now an eighth level of immortality. Even the silver scorpion and the old singer have the third-order cultivation ability. The two can join hands and can easily crush these two powerful beasts. !

In fact, the starry beasts in this forbidden land, including the two powerful beasts of immortality, are not too good!

To be precise, it is the starry beasts in the six starry bans in the distance between the sacred sacred stars. One

A few months ago, the massive starry beasts in the six starry bans sensed a strong atmosphere that made them tremble, and they were the immortal breath... from the center of these stars The zone is clearly and indiscriminately spread!

This is also Ye Xuan deliberately, so that during this month's retreat breakout, there will be some vicious beasts from a certain forbidden land around the world, do not open their eyes to the door to harass! he

The purpose is only to deter the guys, but the intimidating effect is actually surprisingly good, so that among the countless stars and beasts of the six starry bans, those who are immortal The beast is also all day long! especially

It is the forbidden place in the northwest direction of the void, not only now there are only two beasts of immortality, the strength is greatly damaged, and a month ago, they even sent a million beasts of the army, by two The powerful and ferocious beasts of the immortal world led the way to the surviving star who had come to seal the immortal breath.

They don't understand how the once-small beneficiary planet suddenly burst into a horror of immortality, but it is now irreparable.

These two powerful and ferocious beasts are not thought of fleeing, but on the one hand they have not attacked, they are not willing to give up their nests. On the other hand, the void in the far side is another powerful. The starry sky is forbidden. Even if they escape, they can't break through the past. After all, they still have to be trapped in this emptiness...

Because of this, these two powerful and ferocious beasts bite their teeth, they left their scalp and left, and the heart secretly prayed that the seal was immortal and not coming... but all this is obviously just a delusion! Seven

The starry sky distance of more than tens of thousands of miles, for the Longye star sky giant plug, but the time of tea can be crossed. by

It's too fast to come to the Longye. The two immortal powerful beasts in the forbidden land in the northwest corner of Sang Zhixing are not aware of it. Even if they want to take a moment, they are impossible... ...

"Booming!"

"All the battle boats, all the staff are dispatched... kill innocent!"

The roar of the huge kinetic energy cabin sounded, and the dragon sky starry tyrants came to the corner of the sky with nostalgia, and swayed above the forbidden land.

Then, with the singer of Ye Xuan, the floor of the Sang Zhixing Million Battleship was housed, all the huge door passages were instantly opened, and a ship of various shapes and stars was rumbling. Dialed out and directly killed the starry sky below...

In addition, the two devils, headed by Haihai Yidao and Cang Qingyu, scouted the 10,000-person brigade and also descended directly through the nakedness of the flesh. This

The two demons scouted the 10,000-strong team and did not spread out. After all, the individual combat power of all the devils is not very strong. If it is reduced to zero, and the war is separated, the damage will obviously be extremely huge.

This is all about the strength of the team that follows the master. Any one of the devils scolds the fall of the strong. For Ye Xuan, they are unwilling to accept. Two

The demon people squad scouted the brigade, and in this battle they were all gathered together to form a powerful squadron of martial arts. They cooperated with each other, and the power was screwed together, and the banned land was banned from the sky below.

"Booming"
boom!"
The corner of the universe, which was still quite quiet, boiled up in an instant, roaring, screaming and screaming, and rang through the vast void.
This star-shaped forbidden land in the northwest corner of Sangzhixing is actually a space void like the rest of the world. In this area, there are more than a dozen life planets congested more and more in a virtual space of about 10 million miles
And the lives of these dozens of life planets are all powerful stars and beasts. They watch each other and help each other, and they become a large regional force. Therefore, this starry sky is forbidden. Was formed.
Nowadays, the millions of warships from Sangzhixing, and the two devils led by the two hunters and Cang Qingyu squadrons, rushed to the dozens of starry beasts. The planet of life, the war, has been in full swing since the beginning
"Roar!"
Ye Xuan also rushed out of the life giant plug in the first time, directly activated the blood of the konjac, and directly into the state of the fifth change of the konjac, a horrible fierce body of a million feet. Following
And in the roar of his head, across a million miles of space, a punch and a bang
This moment, the void is like a silence, a powerful beast that has been immortalized and just rushed from a life star, bears the brunt of it, without any suspense by this punch direct explosion!
