

## Super D. S 42

### Chapter 42: Re-enter the Lianyun Mountains

The weight of the Yunyunzong in Nanlin County is also quite large. The owner of a sect is certainly not low. As long as there is money, Ye Xuan can make an infinite breakthrough. Finding a strong backing is Ye Xuan's plan.

However, before he found it, Ye Xuan could not expose his phagocytic ability to prevent people from being embarrassed.

However, when he left this time, he did not go directly to the cracked Yunzong. He wanted to get the blood of the beast before he got to the cloud.

Lianyun City is a long way from the cracked Yunzong, and it takes ten days and a half to get it. Coincidentally, there is a good place in the middle, that is, the Lianyun Eighteen Mountains.

"Yeah, Ye Xuan, shouldn't you want to take the shortcut of Lianyun Eighteen Mountains?"

Xue Qingqing could not help but ask.

"Not bad!" Ye Xuan nodded.

Now he still needs the blood of ninety-nine kinds of monsters, which is the preferred place for the Yun 18 Mountain Range. In the Lianyun 18 Mountain Range, starting from the 10th Mountain Range, there will be a 7th-order monster, and the 16th Mountain Range has a 9th-order monster.

However, Ye Xuan's plan was to spend a period of time around the Tenth Mountain Range, and then go out from the exit of the Ninth Mountain Range and rush to the Yunyun.

"But, I was the fourth heavy middle of the martial arts. You took me with this burden, I am not afraid that I will drag you down, and then die together." Xue Qingqing was worried.

"If you are in danger, then you can do a pair of deaths." Ye Xuan laughed.

The seventh-order monster, he can still cope with it, after all, there are some swallowing points on hand, in exchange for the explosion of Dan.

Moreover, as long as he has the blood of a hundred beasts, then he will certainly be able to challenge.

Think about it, in the middle of the seventh middle of the martial arts, and the martial arts of the seventh peak of the martial arts, don't mention how cool it is.

"Hey, who wants to die with you." Xue Qingqing wrinkled Xiaoqiong nose, but her heart was also full of thoughts. If Ye Xuan's father did not refuse, I am afraid that she is now engaged with her. Let's go.

Entering the Lianyun 18 Mountain Range is Ye Xuan's plan. However, due to the strength of Xue Qingqing, Ye Xuan still did not let her follow, but arranged for her to live in a small town outside the Lianyun 18 Mountain Range.

And Ye Xuan himself is alone in the Lianyun 18 Mountain Range. Within two days, he came to the tenth mountain range of Lianyun. From here, there will be a seventh-order monster.

"The blood of ninety-nine kinds of seven-order monsters, this is not an easy task, forget it, get it!"

Ye Xuan took a deep breath and went in.

The blood of the beasts requires a hundred kinds of monsters of the seventh and above, and there are many monsters in the eighteen mountains of Lianyun, but there are so many kinds.

Ye Xuan does not know whether he can get together a hundred kinds. If it doesn't work, he can only buy it. But the acquisition is probably not so simple, because the average person hunts the monsters, they take the materials on the body, rarely collect blood, only a small part of the monster blood can be used for alchemy.

In this way, Ye Xuan began a long road to hunting.

The blink of an eye is the last seven days. In the seven days, Ye Xuan hunted hundreds of monsters.

However, most of them are sixth-order and below. There are only more than twenty, and there are more than twenty.

Looking at the \*\*\*\* groove of the beast, Ye Xuan is also slightly helpless. In this case, I am afraid it will take a long time to fill the blood of the beast.

He is hesitant now.

"The blood of the beasts is only twenty-two, and it's still seventy-eight. It's too slow. It's better to go to a big city, sell martial arts and buy one hundred points to buy one."

Ye Xuan began to worry, but these days he hunted hundreds of monsters, but also improved a lot, he estimated that staying here for two months, perhaps you can break through the seventh peak of the martial arts.

He thought for a while, and finally decided to go deeper and look at it, maybe he could meet a lot of seven-order monsters.

At this time, he is in the twelfth mountain range. If you go deeper, then it is the thirteenth mountain range, but there will be eight-order monsters.

If you don't get into the tiger's hole, you can get a tiger. Although it is dangerous, but now he can still escape under the eyes of the general eight-order monster.

At the moment, Ye Xuan is moving forward.

The eighth-order monster is equivalent to the eighth-armed warrior of the martial art, but the biggest difference between the monster and the human being is that they are generally hard-dried.

This is a relatively difficult thing for the average person, but Ye Xuan is a multi-invasive warrior. In addition to swords and boxing, there are also bows and arrows.

It is possible to deal with the eighth-order monsters in the middle of the seventh middle of the martial arts, as long as the preemptive strikes are made.

I don't know if he is unlucky or lucky. He just entered the thirteenth mountain range and met an eighth-order monster.

"The saber-toothed tiger is endless, and a pair of sharp cavities can pierce the human body."

Ye Xuan looked at the yellow tiger who was eating on the body of a monster, and said in secret.

Fortunately, this saber-toothed tiger is focusing on eating and has not found Ye Xuan.

"This saber-toothed tiger is the lower layer of the eighth-order monster. If there is a distance, there should be no problem."

Ye Xuan thought in his heart, that is, he began to quietly approach, and when he was only a hundred meters away from the saber-toothed tiger, he suddenly opened the bow.

Preemptive!

"call out!"

"call out!"

"call out!"

A series of arrows plucked out and shot toward the saber-toothed tiger.

This eighth-order demon sword saber-toothed tiger is still eating. It is not expected that someone will attack it, but it is directly shot by six arrows.

But the eighth-order demon animal skin is thick and thick, and the martial arts of the chaotic star arrow, the attack power is actually not too strong, and the victory is much more.

The saber-toothed tiger roared and turned to go to Ye Xuan.

"Chaotic Star Arrow!"

The saber-toothed tiger has not yet reached the front of Ye Xuan, and it has been shot into a sieve by countless arrows, and the blood is full of earth.

"Hey!"

With its powerful vitality, the Saber-toothed Tiger rushed to him in front of Ye Xuan's attack, and then flew up. The fangs of Ye Xuan's arm were shining in the sun, and seemed to want to give Ye Xuan's head Hole through.

"Large monsters are hard to kill, or fight guerrilla warfare!"

Ye Xuan immediately stepped on the seven-character martial arts to escape, and then continued to shoot.

Although the saber-toothed tiger is already an eighth-order monster, it is still occupied by the animal, and the IQ is actually not high. It continues to attack with Ye Xuan's attack.

Ye Xuan retreats and attacks, the saber-toothed tiger cub is no way to take him, not half a minute, the saber-toothed tiger is already bloody, and the speed has dropped significantly.

After another half minute, it was finally hanged by Ye Xuan.

When seeing this saber-toothed tiger, which is like a big car, fell to the ground, Ye Xuan also breathed a sigh of relief.
