Chapter 4201: Fierce beast

A punch, instantly smashed a powerful beast of immortality...this

The powerful beast in the early days of the head, the body shape has just started from one of the dozens of life stars, I don't know if I want to escape immediately, or I rushed out to death... but it's not important anymore because Under Ye Xuan's fist, nowadays, it has been completely turned into a **** fog, spread out in the void! This

For a moment, the entire universe of the universe was completely silent, whether it was the tens of millions of star-studded beasts in this forbidden land, or the millions of warships that had just rushed out of the Dragon Sky Star. The tens of millions of survivors in the interior, or the 20,000 devils scouted by the return of the sea and Cang Qingyu... all the people, without exception, all chilled.

They didn't even see clearly what the end of this fierce beast with a strong and immortal cultivation is, and how bloody, everything has ended so quickly! This

It is spike! Do not

Even the spikes are not enough to describe, everything is almost horrible! "

Roar! "

Here, this immortal powerful beast that has not been seen clearly, has just been smashed into a **** fog by a hundred miles away from Ye Xuan, and spread rapidly in the void. that

On the other life star that opened more than a hundred thousand miles away, there was an angry and violent beast screaming again in an instant.

This is another powerful beast that is immortal, and it is one of the more powerful ones. It has the sixth stage of immortality, which is the powerful force of the mid-peak of this situation. Into the late stage of immortality. this

At this moment, the horrible roar of the invincible sixth-order powerful beast clearly reveals a raging madness.

The only remaining two powerful and ferocious beasts in the forbidden place in the sky are killed by a second in the blink of an eye. At present, it is the only remaining fruit, and with the other party's powerful and tough terrorist power, he obviously can't last long. It will be destroyed soon, and it is very likely that it will be the same... spike!

After all, the three-headed and six-armed Taikoo konjac, and now the strength demonstrated, has clearly reached the immortality of the immortality. With his mediocrity in the mid-imperial period, he is simply unable to resist and is easily bombarded. Snail on the board...

Because of this, under the guise of self-confidence, the powerful beast that was cultivated in the middle of the immortality was completely excused, and the fierceness of the heart was stirred up. Since it was a dead and a dead, it would be better to bite it. Maybe it can also make the other person suffer a little bit of trauma and blow...

With this kind of determination, this powerful and vicious beast in the middle of the immortality, after the outrageous arrogance, the figure did not rush out of the life planet, but directly launched a teleport, locked Ye Xuan's location, in the blink of an eye, has arrived! This

It is a giant bear with a body shape of about a thousand feet. The whole body has a faint blood in the gray ash. At first glance, it must be the kind of temperament. thing

In fact, it is true. Now, in the case of knowingly dying, this earthly giant bear of the sixth-order immortality is directly teleported from the inside of the life planet, spanning more than one million miles. In the thunder of lightning, came to Ye Xuan's side, his purpose, the only purpose... is to blow!

The other party is too strong, and has the terrifying terrorist power. If it is a hard battle, he will not have a half chance of winning. only

With such a desperate self-destruction, it is possible to die for his fallen, to win a little bit of dignity, and to be the dignity of the immortal strong! thing

In fact, this earthly giant bear is even aware of the power of the other side, so that he is desperate in the powerful body of a million feet, even if he is desperate in this close range. The self-explosion is unfolding, and the final result is absolutely impossible to make the other party directly fall. very

Even serious injuries are extravagant, at most, some minor injuries, compared to the skin trauma, look so a little bit! This

Everything makes him very helpless, but he can't change anything. Ordinary immortal face is immortal. In fact, the exaggeration point is not much different from the ant ant facing a fierce beast... he

Everything that is done now is only to make the final struggle after knowing that he must die. I want to make my heart less willing to be less, let myself be the dignity of an immortal starry beast, and be able to show up before dying. A little more! can

Unfortunately, this opportunity, Ye Xuan will not be able to give him!

Compared with the one with a huge body, this giant bear with a size of only a thousand feet, even at this moment, he is fully self-destructed from the position where he is only a thousand miles away, can bring the damage of Ye Xuan, but it is just Slightly awkward, slightly closer to the wounds... but

... Since you have the ability to stop this, why should you give the other party a chance to provoke and swear?

"Do you want to blew yourself? You seem... thinking a little too naive!"

In this inferior sixth-order earth giant bear, with a teleport directly across more than one million miles of the void, unprepared to appear directly in the next moment from Ye Xuan's mere close-knit space, only a thousand miles away. In the mouth of the eternal giant scorpion, a moment of words with obvious ridiculous meanings came from an instant..."

call out! "under

For a moment, with the Taikoo konjac waving a hand, a giant star like a star, the blink of an eye has appeared in front of its huge figure.

"Boom!"

At the same moment, in the void in the sky, the giant earth bears directly detonated the soul and the flesh, turning into a **** smog of violent tempest, like a hurricane, facing the position of Ye Xuan, sweeping Come!

"call....."

In the face of all this, the Taikoo konjac did not sway with his body shape, his face was ridiculous and even ridiculously ridiculous, with a wave of hands, from the inside of the star-studded star, there was a colorful color in the blink of an eye. The smashing fireworks swept out, and the blink of an eye slammed into the violent energy that whizzed... No

There is a thunderous blasting sound, and there is no raging energy. The earthen giant bear spirits are also bursting out of the awning-like horror energy, and the awning colorful fireworks are rolled up one by one. After the hood, it was instantly compressed under some unknown mysterious power.

After a short three breaths, the canopy is said to be a vast expanse of flesh and blood energy, and the flaming fire of the awning is also circling a circle, then re-turning into the Shennong Ding, self-proclaimed At the mouth of the colorful mist, it disappeared instantly.

At the same time, the canopy of the colorful flames turned around at the turn of the turn, and there was also a faint faint spurt of blood, which rushed directly to Ye Xuan. half

After breathing, I fell on the palm of the right hand of the Taikoo konjac flesh and blood. It was a **** round shape of a baby fist, just like a certain kind of remedy that was a little bigger!

Chapter 4202: Big smelter

"Blood? It really is a good thing..."

With the **** bead of the size of the baby fist held in the palm of his right hand, Ye Xuan muttered to himself, sighed with a sigh of relief, and his face showed a satisfactory color. this

The name is blood, he is still the first refining! from

After the promotion of Shennong's flames to the seven-color flame, Ye Xuan's control over Shennong Dingwei has risen to a new height. Since then, he has been able to control the Shennong seven-color flame and directly transform some powerful beasts. Turned into a blood.

All the blood in the condensed blood contains all the blood and blood in the body of the beast that is refining, which is extremely precious.

And this thing can be swallowed directly, it has great benefits for improving the repair and restoring the strength of the body!

However, the beasts below the immortality basically have no value of condensing, because the beasts below the immortality, the power of blood in the body, even if it is magnificent, is basically a lot of impurities, and it is refined by Shennong Qishayan. Under the shackles, there is no limit to the essence of the blood, like chicken.

In other words, to condense blood, it is best to use strong beasts above the immortality as raw materials.

Before this, Ye Xuan's own cultivation is really weak, even if it activates the konjac blood in the body, and directly enters the fifth change of the konjac, it is only the ordinary nine-order perfection.

It is almost unrealistic to manipulate the seven-color flame of Shennong and let an immortal beast without being rebellious into a blood. but

Now, he only has to transform the konjac into the fifth change, and he has already possessed the strength of the immortal first-order cultivation. If he only condenses the ordinary immortal beast with the Shennong seven-color flame, he dare not It's easy to say, but at least it's definitely a success.

Before that immortal beast, the reason why he did not condense is because condensed blood is not in a short period of time, it takes a certain amount of time, and now is in the process of conquest, Ye Xuan Not that interest. Partial

Behind this immortal beast, he launched a self-destruction, the original sturdy beastly body, directly into a **** fog energy, eliminating the many links of Ye Xuan refining blood, almost the Shennong seven-color flame After wrapping the canopy blood energy, it will be condensed immediately.

In this way, he naturally will not let go easily, between the minds, a blood of the immortal beast with the power of blood and blood, has already arrived!

If the immortal beast that blew himself knows that it is such a result, I am afraid that it will be dead, and I will die.

Therefore, the two immortal to the fierce beasts in this forbidden land have all been in vain. Although there are still tens of millions of surviving beasts, even the cosmic level has dozens of them, but Ye Xuan has not I plan to shoot again! "

call out! ""

call out! "

Read

In the interim, the ten figures were sent from Shennong Ding, and it was the flying scorpion with the immortality, the silver scorpion, and after this month's breakthrough, all of them have grown into star owners. Eight King Kong! "

The cosmic level among the millions of beasts is handed over to the two of you to deal with it... Remember, don't kill all of them, and give the two cosmic monsters on Sang Zhixing. "One

In a step, Ye Xuan turned to the Shennong Ding Ding mouth with a colorful mist, sitting cross-legged.

At the same time, I also turned to the flying scorpion and the silver scorpion gangster who just rushed out from Shennong Ding and looked at it.

As for the Eight King Kong, he was too lazy to pay attention to it. These guys would not easily separate, but with their minds, they naturally guessed that the reason why Ye Xuan sent them out to Shennong Ding was to let them Participate in the war and look for a beast that is quite powerful. "

Roar! ""

Oh..."

For a moment, the flying scorpion and the silver scorpion screamed a roar and screaming in the hair, and instantly turned into two awns, rushing to the battlefield ahead.

For them, just to solve the fierce beast of more than a hundred universes, it is just like fun, this is simply a one-sided abuse...

All of this is a long story. In fact, from Ye Xuan's shot to kill the first immortal beast to the present, it's less than a fragrant time! before

On the dozen or so life planets in the emptiness of Fang Yuan, only a large number of fierce beasts roared out of the atmosphere of the stars! From

At this moment, the real fierce battle is unfolding in full swing...only

Yes, for Ye Xuan, the result of this **** battle has long been without any suspense. In this starry sky, only the two remaining strong beasts are already in vain. Even if the remaining beasts are more numerous, they will never turn over. A big spray! "

Rumble! "

"boom....."

"Hey!"

Roar....."

.....

In the void, the earth-shattering explosions came one after another, and the whole sound of each other was smashed. From time to time, there were all kinds of roars, and the roar of the beasts screamed and screamed.

For the beasts of the dozens of life planets in this starry sky, this battle is a **** extinction war.

But for the 20,000 devils scouts headed by Guihai Yidao and Cang Qingyu, and the twelve tribes on Sangzhixing, the tens of millions of ancient survivors in the thousands of small and small villages, this battle, It's just a heart-warping battle for refining soldiers...

Ye Xuan did not pay too much attention. After the meal, he took back his gaze and looked at it. He fell on the **** bead of the size of the baby fist that had been held in the palm of his right hand. "

This little blood essence, which is contained in it, is the full force of the blood of an immortal and powerful beastly body, and it is still the result of the purification of the Shennong seven-color flame, and the result of the decontamination..." Look

In the blood of the hands, Ye Xuanzhen took out a slap in the face, muttering to himself: "This kind of thing, even the Lord of the Star, is only the first time to condense, I do not know how it works... .."

However, after all, it is the blood of all the immortal beasts, and the current star owner is still taking this kind of thing for the first time, presumably the effect is more obvious! ""

Therefore, if there is no accident, this blood essence should be very likely to make my cultivation a strength and make a breakthrough again! ”

When I think of it, he doesn't hesitate anymore. In the middle of it, the mans are flashed again, and the blood is directly thrown into the mouth. Nothing tastes at all. In the blink of an eye, it falls into the belly, and it turns into a hot one. The energy, the limbs in Ye Xuan's body, quickly flowed. This

Once, his requirements are not high, as long as this blood essence can make his cultivation strength once again ushered in a breakthrough, even if it is only a small step breakthrough, for Ye Xuan, it can definitely be regarded as A huge surprise. complete

Actually, this kind of thing, he can refine a lot in the subsequent expedition...

Chapter 4203: completely annihilated

The effectiveness of this blood essence was dissipated and turned into a powerful energy river. In the body of Ye Xuan, there was a sound of a chain of sounds in his mind. This

These chains are the limits of the human body that limit his growth and evolution. Every time you tear a piece of broken, for Ye Xuan, it means that the strength can be raised to a certain extent. people

The body's potential chain is also large and small. Whenever he takes the genetic culture fluid and breaks through the bottleneck of the big world, he will encounter a huge chain of shackles. and

If only a small step breakthrough is achieved within the same realm, then the one that is encountered and will eventually be torn is a small body chain. this

Engraved, with the effectiveness of this blood essence, turned into a sturdy energy Dajiang in the body of Ye Xuan rolling, Ye Xuan body appears, clearly a small body shackle chain.

If this chain of shackles is broken, his cultivation will be strength, and he will climb again, so he will get a small step breakthrough. whole

The process is undoubtedly painful, but this pain Ye Xuan has long been used to it, for him, nothing at all.

His mind was immersed in it, with the ambiguity of the ancient sacred spirits, urging the body of this extremely hot energy river, rolling along the whole body and carrying out one big day after another.

Every big Sunday is completed, and this small chain of shackles that appears in his body becomes more fragile...

After seven or forty-nine large Sundays, a huge squeaking sound suddenly sounded in Ye Xuan's mind. The heat energy that had been rushing in his body was also exhausted at this time... ..under

For a moment, Ye Xuan opened his eyes, and in his mind, a familiar system sound was heard at this moment..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the fifth stage of immortality! ""

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: the fifth stage of immortality! "

Before this, the strength of his deity is the fourth stage of immortality. Once the three-headed and six-armed Taikoo konjac bloodline is stimulated, the strength will once again soar and climb directly to the fifth stage of immortality. If

It is to display the konjac and change the magical powers, and reach the sixth change, and it will be able to reach the second order of immortality in an instant. and

Now, with his cultivation as the strength to break through again, once Ye Xuan activates the blood of the konjac in the body, and enters the sixth change of the konjac, its peak strength will be able to reach the third stage of the immortal...

This is already the strength of the peak of the immortal early stage, only a small breakthrough, you can enter the immortal mid-term!

"A **** sperm has broken through a small order. This kind of good thing is simply... incredible!"

Feeling the strength of the body and a lot of power, Ye Xuan looked very excited, muttered to himself, tightly grasped the double fist. This

Once on the edge of the battlefield in the land of conquest, he was eager to retreat and practice. On the surface, it seems to be a little anxious, but in fact, the reason why he did so was only to verify the efficacy of this blood.

This result is of great importance.

If the blood essence is extraordinary, then in the next expedition, Dan Fan encounters an immortal powerful beast in those banned land, Ye Xuan will not hesitate, will smash the other side, or blast into one Bloody fog, and refining blood on the spot.

And if its efficacy is disappointing, in the next expedition, he does not need to do this at all, it is not thankful, meaningless!

But now, it seems that the result is very satisfactory to him, although this is most likely because he is still the first time to swallow this blood, so the effect is particularly significant, but even so, the anti-day effect of blood essence, basic Can also be affirmed. complete

It is actually the power of all the blood in the body of an immortal powerful beast. After the condensed body of the Shennong seven-color flame, even if it is swallowed in the future, the effect is affected, but then there will be a bottom line! total

In a word, this blood essence is definitely a good thing. Even if it takes a lot of effort to condense one, everything is worth it..."

Roar! "

"Hey!"

Rumble..." far

In the void battlefield, there are still voices of anger and roaring from time to time, and even more shocking explosions are one after another, but it is obviously more divergent than when Ye Xuan closed his eyes and began to retreat.

This time, he retired, and he used the evil spirits of the ancient shackles to drive the blood of the body after the blood purification, and in the body of the body, the seven hundred and forty-nine large days, It took nearly a day!

One day, this was originally a one-sided star war, and it has basically entered the stage of coming to an end. turn

Looking forward, the battlefield in the void is a light and fire. The bodies and wreckage of the beasts are everywhere. Of course, there are occasional corpses of some ancient people. This

One point, whether it is Ye Xuan or the tens of millions of ancient survivors on Sang Zhixing, has already been psychologically prepared. Such as

This level of Star Wars, even if you have a crushing force, casualties, must be inevitable. very

It can be said that if there are no casualties, then there will be no real refining role... An iron-and-blooded lion can only grow up quickly in the test of blood and fire.

However, although there are quite a few fallen ancient people, they are definitely not too many. At most, they are tens of thousands. Compared with the millions of beasts that are almost wiped out by the whole army, this is almost a battle damage. Already negligible!

It is the 20,000 devils scouted by the sea and the green feathers. This war is one of them has not been trembled.

This aspect is because the 20,000 devils scouts have always gathered together, watching each other and helping each other, forming a battle of killing the enemy. another

On the one hand, it is also inseparable from the special photos of the flying scorpion and the silver scorpion grotesque...

These two old guys obviously know that the two thousand devils are scouting the old man who has been with Ye Xuan for a long time. Naturally, it is impossible to see anyone among them fall into the hands of the beast. when

However, it is not that these two old guys, regardless of those who are old and dead, are the ones who are too many, and the tens of millions of people, even the various warships, have more than one million ships, only two of them, How can I look after it?

After a small half day, the last beast was killed, the air was completely quiet, and a roaring beast roared, and it was no longer smellable. to

Therefore, the tens of millions of beasts in this forbidden land, without exception, were completely slaughtered, and the whole army was wiped out! Connect

Down, it is to clean up the battlefield and collect the war.

For these, Ye Xuan is not interested, 20,000 devils scouting the strong no need to intervene, everything, naturally there are tens of millions of giants of the ancient survivors to toss...

Chapter 4204: Second round of conquest

The battle lasted only one day and it was completely over.

Tens of thousands of starry beasts in this dozens of life planets in the banned land were completely slaughtered and destroyed.

After the war, Ye Xuan did not intervene, and even the original team he had left was not taken care of.

Flying scorpion and silver scorpion, and the eight King Kong, the first time they rushed into the Shennong Ding, they have a lot of top flesh and blood medicine in their hands, compared to this boring war, they are more interested Or retreat in Shennong Ding, and break through the cultivation of his own.

Even the knives and the green feathers of the sea, and the 20,000 devils who are under the command of the two are also the same. After the end of the final war, they rushed back to life and seized the time. On the one hand, continue to cultivate, on the other hand, it is to digest the various gains of this war...

The closing of the battlefield all fell to the tens of millions of ancient survivors headed by the twenty or thirty cosmic monsters. thing

In fact, for this matter, all the abandonment of the ancients, all raised their hands in favor! This

In the First World War, the total number of annihilated stars and beasts reached tens of millions, and they were all more powerful elite beasts.

For the tens of millions of ancient survivors on Sangzhixing, this kind of harvest is absolutely unprecedented, and it has never been before.

Generally speaking, even the twelve tribes, large and small, thousands of cottages, dispatch a large number of elite forces, unite together, rush out of Sangzhixing, carry out a large-scale starry sky hunting... they can harvest The number of murderous beasts is generally one to two million.

The most time, nearly three million heads, but the quality is a little worse! can

This time, more than 10 million high-quality elite beasts were completely smashed in battle. At this time, all the emptiness in the void was the fierce beasts that made them blind. Correct

For the tens of millions of ancient survivors on Sang Zhixing, the ultimate goal of the previous war and **** killing is actually for the harvest of this moment.

Therefore, in comparison, the current battlefield finishing work is more exciting and exciting than the previous **** battle.

Looking at it, the dozens of life stars occupy a vast universe of voids, and there is a vast and fierce beast wreck between the scorpions, almost everywhere is the heart of the sangzhixing wild people. This

Some of these guys may be too excited and excited. They have never encountered such a big harvest. They have packed up this huge void battlefield, and sometimes they have a long, screaming wolf, or they've come out. The heroic battle song of the heroic. If

It's hard to use a sentence to summarize the words of this scene. Perhaps, the sentence is all like a chicken blood... obviously the most appropriate and appropriate!

The whole finishing work lasted for half a day. In the process, tens of millions of ancient survivors were busy and happy. All of this was definitely a pleasure, not a hardship for them.

In the end, even Ye Xuan was extremely impatient. While flipping his eyes, he urged the guys to finish the matter quickly, and the progress and efficiency of the battle was quickly upgraded.

Tens of thousands of ancient survivors have been linked at the same time. In just one hour, all the murderous beasts that have been smashed in the void have been collected into the magic of storage. to

Therefore, this starry sky is completely annihilated, and even the wreckage of a beastly animal has not been able to stay.....

...

I haven't been there for two days. Surrounding the emptiness around Sangzhixing, the tens of millions of ancient survivors who lived on this life star are trapped in the six-star banquet of the billion-mile star river. Go to one. Remaining

Next, there are five starry grounds!

Ye Xuan decided to make a sigh of relief and then solve one or two starry grounds.

Although this time harvested the corpses of tens of millions of beasts, you can let Sang Zhixing on the 12 major tribes of thousands of small and small villages in the desert, each of the cottages, have cooked a few furnaces of flesh and blood The medicine is gone. but

All of this can't be entered into Ye Xuan's eyes.

Although the number of such beasts is very large, the quality is really too bad, and it is useless to him.

On the contrary, it was the blood that had been condensed before, which made him quite interested. He could even say that his heart had been hooked up and he couldn't help himself.

Among the remaining five stars, the nearest to the forbidden land, which was just destroyed, is on the right side of the sky, and the distance is about seventy-eight million miles. Take

The extreme speed of the dragon sky star giant plug, can be arrived at mealtime! Let

Ye Xuan is speechless. After he decided to ban the starry sky and issue the instructions for boarding the crew in the first time, the millions of battle boats that the Sang Zhixing survivors drove were in turn into Longye. The number of life giant plugs, it took more than an hour.

At this time, he was able to toss a round trip from the starry sky. but

This is also a no-brainer. If you want to refine your troops, you have to bring the big troops. It is impossible to go alone and go to the battle alone. It takes a little time to spend some time on these side branches. One

After an hour, all the warships of the survivors of the survivors entered the life of the Longye, and Ye Xuan followed, and stepped into the core command cabin of Jusai, and then, with his order, the dragon The wild life giant plug instantly turned into a bleak stream, and launched a speedy, toward the second target of seven or eight million miles away, spurt away!

After the meal time, a new starry sky battle will open the curtain...

...this

At the time, Ye Xuan activated the body's konjac blood, showing the three-headed six-armed konjac, and directly entered the fifth change of the konjac, and when they jumped to the end of the immortal first-order cultivation, they began to develop their knowledge. A simple investigation into the forbidden land in the distance from the vacant space around Sangzhixing.

Among them, it is the Longye Life Giant Plug, which is now rushing to the restricted area of the sky...

In terms of the overall strength of the restricted area of the starry sky, it is roughly equivalent to the forbidden land that is extinct.

There are also only a dozen or so life planets gathered in a universe of virtual space, not far from each other.

The number of starry beasts that live on the planet of more than a dozen stars is also more than 10 million.

However, in this forbidden place of life, the immortality of the supreme beast has a full five, the weakest is the first order of the immortal, the strongest, has reached the eighth order of immortality, and the flying just broke The repair of is like the difference in strength.

If you switch to other ethnic groups or forces, suddenly conquering such a powerful starry ban, and facing the five immortal starry beasts, must be under great pressure. but

For Ye Xuan, this is almost completely absent. in

In his eyes, the five immortal beasts of the immortal class are actually just five immortal bloodsuckers that are about to be reached...

Chapter 4205: Abandoned forbidden land

For a banned land outside tens of millions of miles, it has been completely wiped out by the survivors of Sang Zhixing. The remaining five stars are forbidden, but they have all been known. This

The movements of World War I are so great that they want to marry, and they can't help it. and

Moreover, the tens of millions of ancient survivors on Sangzhixing's accomplishment of this feat are the ones who have the supreme existence of the immortal cultivation, and the top five stars of the forbidden land are now known. Bright. Correct

The tens of millions of ancient survivors on Sang Zhixing, they were not at all in their hearts. The number of ancient survivors on this star is quite large, there are tens of millions, but before that, the strongest one, The cultivation of strength is only the main boundary, and even the lords of the world are only a dozen.

For the six stars around the six places with immortal beasts, and more than one of the six starry bans, this level of power is simply not worthy of their attention, and casually send a cosmic beast to go It will be extinct.

In fact, the high-ranking beasts in the six-star banned area have not been shooting the ancient survivors of Sang Zhixing for many years. The purpose is simply to wait until this group grows and grows, at least After hundreds of millions of people, they will kill again...

To put it bluntly, they are actually in captivity.

However, what the high-ranking beasts in these forbidden places have never expected is that Sang Zhixing, who was regarded as a place for prey in their prey, was born out of the world. It is immortal to repair the horror of strength to make them tremble! most

When I first felt the powerful and powerful atmosphere of the immortal, the high-ranking beasts of the six starry bans, even under fear, moved to the idea of immediately turning away. but

This is obviously unrealistic, because in the wider universe underneath them, there is a more powerful starry ban, even the existence of the tribe.

Among these starry bans and the remnant tribes, there are also strong men who are waiting for immortality. Even some of the sects of the tribes and the banquets of the stars have a king, and even the emperor is immortal! Say

White, the six high-ranking beasts in the forbidden land are actually only living in this corner of the universe, but they are invisible in the sangzhixing remnants who are trapped in the central area. For the tribe, their space and scope of activities are much broader...this

The ancient ruins of the ancient heavens and the earth are so vast that the high-level savage beasts in these six star-ground bans are only ordinary and immortal, and they have not yet reached the illusion of this whole piece of debris. It's rampant, even if it's just around the corner!

In this case, facing the quiet and remote area of this corner, the sudden death of this seal is immortal. Since they can't turn around, the only choice is obviously to stay hard. It is.

However, the six stars are forbidden, and any one of them is obviously not the mysterious and immortal opponent. In the face of such a powerful presence, they have little chance of resisting. Once they fight, short time. Inside, any starry ban is only the end of the entire army. This

One point, it has been proved that in just one day, the six starry sky annihilated one, and now there are only five.

For the five remaining stars in the forbidden land, they want to survive under such a powerful and sealed battle of immortality. The only vitality is to unite with each other. Ren

Why can't a single starry ban, it can't resist the immortality of the seal, only the five stars are forbidden to unite, and more than twenty ordinary seals are immortal and shot at the same time, perhaps, can still be alive!

At this point, after they learned that a starry ban was completely annihilated, the top-ranking beasts of the five star-studded bans had already realized.

In an instant, the immortal high-level members of the five star-studded bans began consultations at the first time. The purpose of the negotiations was only to determine which star-studded land would eventually be banned as the final battlefield for a deadly battle with the other side. can

Unfortunately, this consultation has not yet talked about the results. The eternal seal of the banned land that has just been annihilated has brought the tens of millions of ancient survivors who have left him to the thunder. Two stars are forbidden...this

Everything, the top five immortal beasts of the five star-studded banned land were all caught off guard. They thought that this remnant army would return to Sang Zhixing to take a break and then carry out subsequent conquests.

I didn't expect everything to be so fast. On the other hand, the first starry sky was ruined for only half a day. A huge battleship like a small star had already come to the ground and reached the second starry sky.

The ongoing negotiations were immediately interrupted, and the four immortal beasts of the four starry bans almost no hesitantly abandoned the second starry sky that Ye Xuan stared at. original

This five-star banned alliance has become the current four-star banned alliance.

Moreover, just as the **** battle of the second starry ban in this area has not yet begun, the tens of millions of beasts in the other four starry bans have already launched their actions in the first place, and all the members have come out. Going to the agreed place to fight the final battle...

In all this, Ye Xuan does not know, and he is too lazy to pay attention to it. In this area, he has the ability to seal up the immortal warfare. He has already become the unique supreme hegemon. In the face of absolute crushing power, everything Struggling and intrigues are futile...

.....although

However, there is no way to escape, even the other four starry bans that they wanted to unite, they did not hesitate to abandon them in the first time.

However, the tens of millions of beasts in this forbidden land are still not planning to abandon the war. In fact, they also know that even if they abandon the war, the ending they will eventually face will still be slaughtered one by one. Kill it.

Because the tens of millions of ancient survivors of Sang Zhixing need the flesh and blood of these fierce beasts, they have always done this, always in the void, hunting those idle beasts that are not part of the six starry ban. . and also

That is to say, in any case, this post-war outcome is completely degraded. In this case, instead of humiliating and not fighting, it is better to let the bleeding, and fight with the opponent to break a net. band

With this kind of ruthless thought, the tens of millions of beasts in the banned land, after the arrival of Ye Xuan's Longyehao starry sky, have already rushed out of the living stars of more than a dozen, in the void Opened from time to time, from time to time came a fierce roar and roar.

They are already ready for a desperate battle...

Chapter 4206: Crazy condensing

"boom!"

"Booming..."

In the void, the sound of the roaring sound is echoing.

Upon arrival, the passage hatch of the Longye Life Giants plug was opened, and the tens of millions of ancient relics of the twelve major tribes on the Sangzhixing, thousands of small and small villages, all of them were dispatched and driven by millions. More than a variety of warships rushed out of the starry sky, and the warfare stunned to the front of the tens of millions of beasts that had already been arrayed in the sky.

The 20,000 devils scouted by the sea and the green feathers, including Yingtai, all rushed out of the starry sky, still maintaining the inherent battlefield, turning into a whole, rumbling forward Going swept away.

Including the eight King Kong and Feitianyu and the silver scorpion grotesque in Shennong Ding, Ye Xuan also sent Shennong Ding in the wave and joined the battle.

The mission of the Eight King Kong is still to honed his own body, and the mission of flying scorpion and silver scorpion is still the same as last battle, responsible for killing most of the cosmic creatures, leaving only part of it to their own side. The cosmic strongener in the camp...

As for Ye Xuan, after stepping out of the Dragon Field Stars, he waved the starry sky into the immortal world, lest it be damaged in the fierce battle.

Then, under the scream of the head, directly activated the blood of the ancient konjac in the body!

"Roar!"

As Ye Xuan screamed in the sky, the power of the body instantly rushed like a rushing river. It was rolling, and it was soaring, and its shape was like an inflated balloon. It quickly swelled up.

A three-headed and six-armed Taikoo konjac has already appeared in the void, and the three real bodies of flesh and blood, cheekbones, and black fog are amazing. The body has reached ten feet, three heads and six arms, and the atmosphere in the body is fierce. It's amazing.

"Roar!"

"The konjac has changed... the first change!"

Another voice of roaring came out, the body shape of the Taikoo konjac instantly rose tenfold, and the former ten feet high reached the current hundred feet.

Subsequently, a similar scene appeared several times in succession...

"Roar!"

"The konjac changes... the fourth change!"

The fifth roaring voice came out, the scorpion type of the three-headed and six-armed scorpion of the Taikoo konjac, after entering the fourth change, soared to 100,000 feet.

"Roar!"

"The konjac changes... the fifth change!"

The last roar came out, the body shape of the Taikoo konjac soared again, reaching a giant of a million feet, and this stopped, and at this time, the repair of its body has already reached the second order of immortality!

However, this is still not the final end. Just a while ago, Ye Xuan has just realized the sixth change of the konjac, which has not been shown yet.

Today is an opportunity. He has long been eager to feel the horrible power of the horrible body.

"Roar!"

"The konjac changes... the sixth change!"

The last slamming, the original has reached a million feet, the shape is like a small star-like Taikoo konjac, and instantly the body has skyrocketed ten times, reaching the horror of the tens of thousands of feet.

This type of body is absolutely comparable to the average small star.

In this moment, the repairs that have been dispersed in the body have completely reached the peak of the current reach--the third order of immortality!

Although the breath is only the third order of immortality, but such a huge body of konjac is no less inferior than a small star, and the power of the blood and blood contained in it is almost here. It is horrifying that these four words are beyond the point of description.

Undoubtedly, if the blessing of the horrible blood in this horrible body is counted, the current Ye Xuan, even if it is a face-to-face battle with the mid-term peak of the six-stage immortality, will not be inferior.

Faced with all this, the five immortal beasts across the tens of thousands of miles away from each other in the void are already completely dumbfounded.

They originally thought that their opponents were just a mysterious existence with the immortal first-order cultivation. If that was the case, they would still die, but at least they could struggle before they died.

After all, the other party only sealed the first order of immortality. Obviously, it just broke through to the immortality. It may not be stable yet.

But who knows, when the other side arrives, the original unremarkable figure will skyrocket again and again, and the time before and after a few breaths will be so large that it has a small star.

As for its cultivation as a strength, it has reached a fascinating seal of immortal third order...

Sealing the immortal third order, coupled with the blessing of the horrible blood in such a large body, the true strength of the other side, I am afraid that it can be compared with the supreme existence of the six-stage immortality... So, this How to fight in World War I?

In the face of this horrible existence, they have become even more meaningless with the last bit of struggle before death.

"Roar!"

"Hey..."

Under the huge fear, it was originally swayed in the front of the void, and it was already lined up. It has already strengthened its conviction. It must be the same as the five immortal beasts who died in the battle of the immortal death. After a scream, I turned around and turned around.

At this moment, they have already scared their courage. Even if they know that this kind of U-turn escape has no meaning at all, the other party can still kill an ant like a ant, killing them one by one, but they can't help but turn around. Escape, this is completely in a state of chilling, a completely subconscious move...

"You, all of them are the blood of the Lord's Lord. At this time, suddenly turned around and fled... Isn't it too late?"

Seeing these five guys were scared to be completely chilly, unpredictable and weird, and still five, but they did not say a word, turned and fled, Ye Xuan suddenly turned his eyes.

The voice of the words in the mouth has not yet fallen. His huge konjac, the star of the stars, has suddenly waved...

"boom!"

In the next moment, a space is hundreds of times larger than Ye Xuan at the moment. The starry sky, which is comparable to the biggest superstar, is in the void between his waves, directly blocking the five who turned and fled. An immortal beast is going in front of the road.

"call....."

Then, along with Ye Xuan's thoughts, a seven-color flame sea, which is called a majestic star, swept out from this star-like sky-like big trip, as if a big river was smashing from the galaxy. In the blink of an eye, it will be turned into infinity. After the spread, it will directly cover the universe of tens of thousands of miles away.

In front, the five immortal beasts who had escaped from the starry sky and were blocked by the starry sky, all of them were trapped in the colorful flames of the tens of thousands of miles, in an instant. It has been difficult to escape.

"After harvesting five bloodstains at a time? This time, the harvest is really looking forward to..."

After licking the corners of his mouth, the sound of Ye Xuan's words came out of the Taigu Moss, and then, in a step, he entered the seven-color flame sea and started a crazy refinement...

Chapter 4207: Even the starry sky

The five powerful immortal beasts of the immortal level are swept away by the sacred flames that Ye Xuan summoned from Shennong Ding in the blink of an eye. They are completely shrouded in all directions, all of them are the seven-color flames of Shennong, and there is no way at all. Can escape!

These five beasts, one lion and one tiger, one fox and one eagle, and finally a sharp-pointed giant rat!

The smallest scorpion giant rat has the strongest strength and has reached the eighth level of immortality. It is only one step away from the nine-order perfection.

However, its body shape, due to the blood of the body, is only about a thousand feet. It is considered a giant in the rodents, but even compared with the beasts of some stars, it can only be regarded as a general body. Compared with Ye Xuan like a star... it can be neglected.

In addition, among the five strongest beasts, the largest one is a black tiger, which has a body size of seven or eight thousand feet. It is extremely powerful, but it is his strength, but it is also the five strongest. The weakest of the beasts is only the first level of immortality. It seems that it has only just broken through not long ago!

"boom!"

With one step into the vast flames of this tens of thousands of miles, Ye Xuan's huge body shape immediately occupied a small gap, compared with him, the five immortal savage The beast, the body is so small that it is just like an ant.

Without hesitation, Ye Xuan even shot a punch, the target pointed to the largest size, reaching a huge black tiger of seven or eight hundred feet.

This fist Ye Xuan has used all his strength, and the huge iron fist has not yet arrived. The huge flesh of the black tiger has been directly blasted and separated by a million miles. For a **** fog.

"call....."

Almost at the same instant, from the **** flames in the sea, a sacred Shennong seven-color flame swept down, just like the spirituality, directly smashed the **** fog formed by the imperial black tiger body, completely wrapped , began the refining.

"puff!"

"Puff puff....."

Although this boxing is going toward the black tiger weird, but now the Ye Xuan body is too big, and when the fist hits, the stirring power is filled with this seven-color flame. Tens of thousands of emptiness...

In addition, the four immortal beasts are inevitable, and they are hard to bear the impact of the rest of the body on the flesh, and they have opened their mouths with a blood arrow!

"Can't be so wasted, this is the blood in your body. If you spit it down, it will definitely affect the quality of blood!"

Seeing this scene, Ye Xuan's mid-cold man flashed, striding forward, and instantly approached, arms stretched together, a double wind, from the left and right sides, toward the four immortal monsters Wrap it away.

"Hey!"

"Hey!"

The most powerful and the smallest in size, the screaming of the fastest, most dexterous giant rat, the first to avoid, fled to the other side.

The six-tailed fox that was repaired in the middle of the game followed closely, and took advantage of a loophole. Under the right arm that Ye Xuan whistling, he escaped dangerously.

Although it is still trapped in the area of this square, but at least, the looting in front of it is to avoid it.

Only the head of the lion and the black eagle eagle, because of the size of the body, the strength is weak, and finally failed to avoid this blow, the left and right arms that Ye Xuan whistling away, before and after The effort of the feet has been bombarded one after another.

The flesh is turned into a **** fog without any suspense.

Then, in the upper seven colors of the flame sea, there are two canopy Shennong seven-color flames roaring out, some swept, the two awnings just burst out of the immortal beast bloodstains wrapped in the cover, directly unfolding blood purification...

"Predecessors, I am willing to drop, can you not kill?"

"As long as I can leave my life, I will be willing to do it in the future..."

Seeing that Ye Xuan had killed two companions, it was inevitable that they would be the two of them. The six-tailed fox and the eighth-order giant rat trembled in their hearts. When they let go of their bodies, they pleaded for mercy.

"No, the star master has too many shackles, plus you... can't afford it!"

Facing the other's begging for mercy, Ye Xuan shook his head and refused on the spot: "Not to mention, now more attractive to the star master, in fact, the blood is condensed by the flesh of the immortal beast, you... The best raw materials!"

"boom!"

"boom!"

The voice was degraded, and Ye Xuan turned around and slammed again.

This time, the six-tailed fox and the eighth-order giant mouse have been evaded. The front and the left and right are blocked by Ye Xuan, while the rear and the top of the head are the seven-color flame sea that is burning...

"Hey!"

"squeak....."

Suddenly desperate, the six-tailed fox and the eighth-order giant mouse screamed at the same time with a screaming scream, and they rushed forward.

Almost in the next moment, two shocking explosions came out, and the flesh of the six-tailed fox and the eighth-order giant mouse exploded without any suspense, and was smashed into blood fog by Ye Xuan, followed by the top of the head. In the seven-color flame sea, two of the Shennong seven-color flames were dropped, and one package and one wrapped, and the refining was immediately launched!

"Five? This harvest is huge!"

At the first moment, Ye Xuan lifted the three-armed and six-armed konjac body. Under one wave, the seven-color flame sea that shrouded thousands of miles whizzed away, and did not enter the Shennong Dingkou in the distant sky. Inside.

Suspended in front of him, there are five beasts with different heads and different shades of color, all of them are immortal!

"call out!"

"call out!"

.....

The faint sound of breaking the air rang, and along with Ye Xuan's thoughts, the five **** beads hanging in front of him instantly turned into five faint **** masons, lasing. Directly did not enter Ye Xuan mouth, disappeared.

"This time, there are five blood sperm, I don't know... Can you break through two orders?"

In the whisper, Ye Xuan's body shape shook, and when it appeared again, it was already at the Shennong Ding Dingkou, where the colorful fog was in the distance, sitting directly on the knees and starting a new round of retreat...

"Booming..."

"Roar!"

"Hey..."

.....

In the distance, a huge roar of blasting sounds, as well as roaring and screaming of the beasts, continued to come and go, one after another.

Here, Ye Xuan has easily solved the five immortal fierce beasts in a short period of time.

And the universe around the sky, the Sangzhixing million battleship, and the 20,000-magic scouts headed by the sea and the Cang Qingyu, and the **** battle between the banned land and the beasts. However, I just just opened the curtain...

However, although the war has just begun, the final outcome of this battle has already been doomed at the moment when the five immortal levels of the fierce beasts have fallen.

In this battle, the finishing touches of the final endgame will be completed within a day and a half. Counting the time spent in the battle before, in just three days, Ye Xuan and his army, I have already broken two stars in the forbidden land...

Chapter 4208: Fourteen

In the void, a god-like big ding like a giant star quietly stands, and Dingkou squats in the place where the nine colors of fog are rolling. A figure is sitting cross-legged, and it is just after swallowing the five blood essences obtained by the talents. Ye Xuan trying to break through again...

At this time, with the effectiveness of the five blood essences, it turned into a raging energy, and the river rushed in the body, and Ye Xuan once again showed a small human shackle chain.

The fierce blood energy of the blood is constantly flowing in the body. This process is undoubtedly painful, but his mind is immersed in it, with the ambiguity of the ancient sacred spirits, urging the body

of this extremely hot energy, along the river. The whole body is rolling and running, and it is running on a big Sunday...

This time, perhaps because it was not the first time to swallow blood, the effectiveness of these five blood essences was diffused in his body, which was obviously not as strong as the first time.

Fortunately, the total amount of five blood essences, still dangerously supported a total of seven seventy-four forty-nine large days, and then, accompanied by a huge squeaking sound from Ye Xuan's mind, it has been The hot energy that rushes through the veins in his body is also completely exhausted at this time!

When Ye Xuan opened his eyes, and in his mind, a familiar system sound was heard suddenly...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the sixth stage of immortality!"

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: the sixth stage of immortality!"

Prior to this, the realm of his deity was the fifth stage of immortality. Once the three-headed and six-armed Taikoo konjac blood was stimulated, the strength rose again and climbed directly to the sixth stage of immortality.

Wherein it is also a faint squad that has changed into a sacred place.

Now, with the improvement and breakthrough of strength, once Ye Xuan activates the blood of the konjac in the body and enters the sixth change of the konjac, his peak strength will once again rise to the first level. Immortal fourth-order... Finally, it is the end of the immortal mid-season!

Although this time the retreat, the repair has been able to break through again, and now it has entered the sixth stage of immortality. If it activates the blood of the konjac, it will be the sixth change of the konjac, and it will be able to have the horror of the fourth-order immortality in an instant. Fighting power.

However, Ye Xuan is not too happy, and some of them are disappointing, and even a little disappointment is not an exaggeration.

Before it was just an immortal bloodline, he let him break through a small stage after the retreat, but now, the whole five immortal bloodlines have achieved the same effect, let him break through. a small step...

It seems that the difference between the **** substance, the first swallow, and the subsequent swallowing is too obvious, so obvious that he is almost unacceptable.

This is the second time, it takes five blood essences to break through a small step, then then back? If you want to break through a small stage, isn't it more and more blood?

Every time I think of it, Ye Xuan has a feeling of sighing and sighing.

I thought I found a shortcut that was faster than the cultivation of flesh and blood. I didn't expect the final result to be like this. I was happy for a day or two and I was disappointed in an instant...

"However, as long as the subsequent swallowing again, it will not be like this time and the first time to swallow blood, the effect of the drop is so great, then, the five immortal bloodlines break through a small order ... is still acceptable."

After calming down the mood, Ye Xuan's mind was whispered, and the mouth was whispering, analyzing how much this possibility...

After a short period of time, his smashing smashed out a slap in the face, and there was a decision in an instant.

If you want to know the third time you swallow this blood, the effect is exactly as it is now. It only takes about five to break through a small step, or the effect continues to decline dramatically. The only way is to Personally verify, swallow again, naturally know!

Thinking of this, Ye Xuan immediately moved: "The last four stars are forbidden, and now they should have united. When they searched for the first time to seal up the immortal gods, the four stars in the forbidden land are immortal to strong beasts. The number seems to be... fourteen!"

There are fourteen immortal beasts in the mouth, but at this time, what he thinks in his mind is fourteen immortal bloodlines!

As soon as I read this, Ye Xuan couldn't sit still in the moment, and subconsciously turned to look at the empty battlefield around him.

After the beginning of this war, although he has already killed five immortal beasts of the immortal level, and he also formed the blood fog formed by the explosion of their flesh, and even the five blood essences are even more Swallowed into the abdomen, completed a retreat, but the war around the distance is still continuing...

There is no doubt that one side is like a crushing battle.

However, from the current state of view, if it is to wait until the end of the war, and then clean up the battlefield, it will take at least a full day before and after...

If it is a small half-day, it will be a whole day, Ye Xuan can't wait any longer.

What's more, he is also worried that the immortal and fierce beasts in the other four starry bans will turn around and flee in the fear of the heart.

Although the savage beast army can not take it, but for Ye Xuan, to escape an immortal level of the fierce beast, it is equivalent to the loss of an immortal grade of beast blood, which is a bit too extravagant.

Considering this possibility, he made a decision immediately after he was indulged.

No longer waiting for the war here to end, and immediately rushed to another four starry battlefields, killing the fourteen immortal savage beasts first...

As for the wars here, there are flying immortals and silver cockroaches and two immortal grotesques staying here to watch, and there will never be an accident!

After the decision, even if he started the action, he rushed out from the Dingkou of Shennong Ding, and then folded the tripod with a wave of his hand, and then he turned to the side of Feitianyu and Jubilee. People looked at the past.

Ruan said: "You two are watching here, and there are four other immortal monsters in the four places of the forbidden land. Now it is very likely that they have already united, and they may be rushing away and fleeing..."

"The Lord of the Stars takes the first step and solves the fourteen immortal grotesques. You will wait until the end of this battle, and after the battlefield is cleaned up, then come later!"

After that, Ye Xuan did not hesitate, turned and sneaked away from the distance, the body's immortal cultivation was fully motivated, and the figure between the blink of an eye had crossed the millions of voids and disappeared at the end of the line of sight!

After the meal, just outside the tens of thousands of miles in front of the third banned land, a huge number of savage beasts and savage beasts finally came into view, Ye Xuan sneered, no longer hesitate, The first time activated the konjac blood in the body...

Chapter 4209: Tiger into the flock

At this moment, the power of Ye Xuan's body instantly rushed like a surging river. It was soaring, momentary, and shaped like a balloon that was inflated, and quickly swelled up. One

The three-armed and six-armed Taikoo konjac appeared in the void, and the three real bodies of flesh and blood, cheekbones, and black fog were amazing. The body was ten feet high, three heads and six arms, and the atmosphere in the body was fierce. "

Roar! "

"The konjac has changed... the first change!"

.....

"The konjac changes... the sixth change!"

After the last burst, the original has reached a million feet, the shape is like a small star-like Taikoo konjac, and instantly the body has skyrocketed ten times, reaching the horrible giant. This

The body type is absolutely comparable to the average small star. The body is filled with the breath, and it is the fourth order of the horrible seal!

Although it is only the fourth order, if you count the power of the horrible blood in this huge body of tens of thousands of feet, Ye Xuan at this moment can definitely be the last strongman in this situation with the immortality of the seventh and eighth orders. A hard battle! Such as

If you count on the Tianzhu and other strong powers, as well as Shennong Ding and other powerful treasures to the combat power, the power of the king is immortal, and it is not in the words..."

what? The king is immortal fourth order? How could it be so powerful? "

"The ancient konjac, this powerful king is immortal, it is actually the ancient konjac, this is the strongest blood..."

"How can this kind of remote star field appear even in the distant and old times, it belongs to the existence of the strongest blood? These characters, even in the central domain of this world, are definitely one hegemony, but now Appeared here, this is not common sense..."

What is more boring now is that this predecessor is clearly a fierce beast, and is also an ancient beast with a noble and strong blood. Why...what is it mixed with the weak and abandoned survivors? "

"It doesn't matter. The key is that the other party has already attacked. You, how should I deal with..."

boom! ”

"Hey..."

.....cold

Not to see Ye Xuan activate the body of the konjac blood, directly transform the konjac into the sixth change, the avatar is a horror konjac with a tens of thousands of body shape, three heads and six arms, **** and shocking, these fourteen immortal The level of the fierce beasts suddenly disappeared, and they were screaming and shouting. also

At this time, Ye Xuan, who is like a star-like figure, is close to him. He said nothing, and when he punched out, he blinked the two immortal beasts that could not be prevented. . This

At the moment, he already has the fourth-order combat power of the immortal. It belongs to the middle of this period. It is different from the initial peak of the third-order in the previous war. It is too strong, and it is a bombardment of two immortal levels. The beast is a proper meaning!

"call!"

"Call..."

During the hand, the two awning Shennong seven-color flames roared out from the Shennong Ding in the body, and directly wrapped the two **** fogs that had exploded, and began to condense blood. This

Everything happened too fast, and the fourteen immortal to the fierce beasts will instantly fall between two, only twelve! startle

However, under the eclipse, these 12 surviving immortal beasts have stepped back and reluctantly scorned their front. For Ye Xuan, the immortal power has not been a battle with him. Qualification, facing more than a dozen immortal beasts, now he is like a tiger into the flock!

"Predecessors, must you be so dead?"

"I have no hatreds, no offenses, and my predecessors are a vicious beast. Why do you want to help the survivors of Sang Zhixing to kill them?"

Seniors, I am willing to drop, I am willing to vote for the predecessors, let alone, more than a dozen immortal combat power, enough to help the seniors go to the starry sky, to seize a more powerful starry forbidden land. "

"Yes, those more powerful stars in the forbidden land, there are also immortal battles to sit down, the predecessors alone can not be attacked alone, I will wait for the predecessors to block those immortal enemy generals, so that the predecessors can concentrate on killing the enemy"

Oh... the deity is unwilling! ""

boom! "

.....

In the face of Ye Xuan's horrific combat power in the late stage of immortality, the surviving twelve ordinary immortals have no resistance at all, and even the fighting spirit against the First World War has collapsed.

They originally thought that the sangzhixing remnants of the ancients were immortal, just the beginning of the scene, and at the end of the immortal second and third order of combat power.

It is expected that the other party will not only achieve the immortal fourth stage, but also have a huge tens of thousands of feet. The three-headed and six-armed konjac is the real body, and the blood is strong, so that its combat power is forced to seal the immortal seven. Eight steps.

In this way, there is no suspense in this battle. Even if they join hands, they are destined to be killed one by one. heart

Under the fear of the head, the twelve supernatural beasts who were ordinary immortal cultivation made a voice of comfort and enthusiasm, and even expressed their willingness to vote on the spot. As a pawn, Zhu Xexuan went to the central area of the starry sky and attacked one place. Sealing the immortal battle to sit in the town, the overall strength of the more powerful starry ground forbidden ...

Unfortunately, all this has no effect at all. The black-faced Taikoi konjac is completely unmoved, and even too lazy to make any response... Oh no, his response is actually very strong, obviously, even if a punch Out! This

A blast of majestic powers rushed away, and it appeared too suddenly. Two immortal savage beasts were the first to bear the brunt, and there was no time to dodge. its

There was no chance for a sneak peek at the other end. The other end was just a resentful anger and a roar of anger. Then, the violent violent wind and the violent temperament, they have already taken the shape of both of them. Full coverage.

The scene that happened next has no suspense, and the battle power is so beautiful that it is not so weak as the second generation ancestors of the devil's group. The latter is the seal of the immortal ninth order. . this

Engraved, just facing the two immortal beasts of the ordinary immortal 3rd and 4th ranks, this majestic and terrifying terrorist force is raging in an instant, causing them to burst open and completely become one. Canopy blood fog. "

call! "

"call....."

All the follow-ups for Ye Xuan have long been a light-hearted road. With his wave of hand, the two cannons of the Shennong seven-color flames rushed out, and the blood of the beasts of these two tents was wrapped tightly, and the first time began. Blood refining...

All of this is long-lived. In fact, from Ye Xuan's activation of the ancient konjac blood in the body, nowadays, two fists are thrown out, killing four immortal savage beasts, and before and after, just a dozen The time of breathing.

Nowadays, the surviving immortal to the strong beast has only ten, and seeing the other party is simply not moving, just like crazy, the body shape is close, and immediately it is a punch, no chance. This

The surviving beasts of the ten heads are finally completely desperate, and no more words, they will turn around and flee...

Chapter 4210: Immortal eighth order

The next battle is no more suspense!

These fourteen immortal beasts of ordinary immortality, even if there is still no damage at the beginning, 14 immortal beasts join hands, and Qi Xuan, there is no chance of winning. and

Today, in just a dozen breaths, Ye Xuan has two punches and blasted four immortal beasts. The surviving immortal to strong beasts are only ten, and they are also shocked. Fear, complete despair, these ten immortal supreme beasts, even the confidence and fighting spirit of the joint war, are completely zombies, have turned around, fled separately...

In the face of this situation, they have completely lost their vitality. Under the joint efforts, they are not opponents. Now the birds and beasts are scattered. The only ending is that they will be killed one by one after being chased by their leaves.

"boom!"

"Booming..."

"Hey!"

"Roar!" ...

... virtual

In the air, with Ye Xuan's repeated shots, a huge thunderous roar sounded immediately, followed by an arrogant and screaming sorrowful and unsatisfied.

The first battle was too bloody, although cruel, but simple and direct. ten

The immortal behemoths of the immortal class were chased by Ye Xuan in less than a day of tea. Each one was a simple punch and burst into a **** fog.

Subsequently, Ye Xuan often waved his hand, directly from the Shennong Ding in the body, pulling out a glimpse of the Shennong seven-color flame, and the **** fog that spread after the target exploded, directly wrapped around and began to condense blood on the spot.

Around the distance, the tens of millions of star-studded beasts that originally gathered behind the fourteen immortal to the fierce beasts have already disappeared.

Looking into the distance, the vast void is full of chaos, and there are fierce beasts and escaping figures everywhere. These starry beasts flee, while still tremble constantly, and there are all kinds of low sorrows caused by huge fears. The sound of the sound is loud! Correct

In these scattered stars and beasts, Ye Xuan did not pay attention to it, no interest. a little

When the surviving army of Housang Zhixing arrives, it will naturally launch a murder. The final hunts will be carried out on the starry beasts in the forbidden land of these large stars.

Previously, Ye Xuan did not understand the world beyond the emptiness of this billion-mile square, but from the information that the fourteen immortal grades of the talented person and the fierce beasts inadvertently revealed the inadvertently, Sang Zhixing and its The tens of thousands of miles of the emptiness around the six star-studded bans should only make it a remote part of the ruins of this corner.

Further to the far side of the six starry bans, there is a starry ban on the overall strength of the whole place. The supreme savage beasts in the town are all immortal, even the king and the emperor are immortal...

After figuring out this situation, Ye Xuan was finally aware of the immortal level of the fierce beasts in the six starry bans. After clearly knowing that this square star field had a seal that they could not resist, why did they not have any The man pulled away and fled the star field.

Because they simply have nowhere to go, behind the distant void, the more powerful starry ban, there is the same horrible existence of the immortal level!

In this way, Ye Xuan does not have to worry about these tens of millions of star-studded beasts.

They have no way to escape, they can only sway in this tens of millions of miles of emptiness. In a sense, Sang Zhixing, which is surrounded by six stars, is invisibly banned, but Six stars are forbidden, why not? but

All of this has nothing to do with Ye Xuan, and he does not feel that there is anything wrong with his **** killings. flood

Everything is going to work for survival, because everyone is not just living for themselves, they all have different adherence..."

call out! "

"Hey..."

The faint sound of breaking the air rang out from the emptiness of the surrounding air, and the sin of the **** spurs came to the palm of the right hand of Ye Xuan, turning into fourteen different sizes of blood with a slightly different color. Beads. Look

Fourteen **** beads in the palm of the hand, Ye Xuan's scorpion has a touch of flashing color. During the wave, Shennong Ding is sacrificed from the body. Fourteen colorful flames are rushing around in the void. Ding inside. leaf

Xuan's figure also flashed under the flash of Shennong Ding's trip to the throne of the colorful fog. He sat down on the knees and threw the four bloodstains into the entrance and swallowed them. Closed the eyes and started another retreat...

When the blood is in the belly of the fourteenth, Ye Xuan's heart is still a little bit guilty, because if it is the third time to swallow this blood, the effect is the same as the difference between the second and the first time, then this Fourteen blood essences will be far from being able to support him to break through a small order. This
