

## Super D. S 4211

Chapter 4211: Hundreds of miles

Nowadays, Ye Xuan's cultivation is the strength of the eight-order immortality in the ordinary state. If you want to upgrade to the immortality, you still need two small-order breakthroughs. This

The breakthrough of the two small steps, according to his estimation, requires at least fifteen immortal bloodstains.

In this vast universe of billions of miles, there is no such a supreme vicious beast. If you want to get the blood of the immortal beast, the only way for him can go out. This piece of the universe has a emptiness to go hunting in other distant stars.

Of course, in the closed cavern of the bottom of the volcano in the Shennong Dingyang domain of his body, there are still many immortal-level ancient wrecks, from ordinary immortality, to immortality, to seal the king, to seal the emperor, to seal the emperor to the immortal... All kinds of grades, such as the ancient powers and the ancients, are all there.

There are still a lot of them! but

These ruined ruins of the ancient ages that have been long gone, but can not be used to condense blood, can only be baked, or smashed blood and medicine.

Therefore, in order to get a new immortal blood, it is the only choice to go to the forbidden land farther away from this imaginary universe. Do not

However, those stars are more powerful than the six star-shaped forbidden places. each

In one place, there are fierce beasts who have been repaired by immortality.

Even if Ye Xuan sneaked away alone and started hunting, the number would be less. If you want to hunt down the fierce fierce beast of fifteen immortal levels, you must also condense it into blood with the Shennong seven-color flame on the spot... ..the difficulty here is not too small!

Once the alarms in these forbidden places are immortalized, and the other starry bans are sealed and immortalized, even if Ye Xuan has the ability to solve it, I am afraid it will be overwhelmed.

In his view, it is far from the time to officially fight against these star-studded banquets. The timing is far from yet. In any case, the strength of self-cultivation must grow again. The whole sangzhixing twelve tribes, large and small The cultivation of tens of millions of ancient survivors in the thousands of cottages must be further improved, and the timing is ripe.

According to Ye Xuan's original calculations, the six star-studded bans were all swept away. After the target of the tens of thousands of miles of the starry sky, the squadrons were squatted in the sangzhixing. All the materials of the beasts are smelt into flesh and blood medicine, and then all the staff retreat, and practice and breakthrough.

At the same time, Ye Xuan himself will do the same, until his own cultivation is the strength and the overall level of the subordinates' repairs, all of them are upgraded to a new height, and then go out of this corner and take a new journey...

The main line of this plan will not change for the time being.

But Ye Xuan now needs more immortal beast blood, so you must seek a balance between the two..."

After that, the army will be first received from this place. The tens of millions of beasts will be banned from the four stars that escaped before, and the final killing will be carried out. After completing this matter, they will return to Sang Zhixing and smash the blood medicine! ""

Speaking to himself, Ye Xuan quickly finalized the details of the follow-up plan. "

And I, swallowed blood three times in succession, in the blood and bone marrow of the body, there are some drugs that have not been refining, after returning to Sangzhixing, you can re-close once, while

swallowing some purple-gold top flesh and blood medicine, and evil. With the source fluid as a supplement, launch a new breakthrough..."

Once this breakthrough is successful, the seal of the deity is in immortality, and there is only one small-order breakthrough. The amount of blood needed will be sharply reduced. ""

Moreover, since this time is a breakthrough in the realm of the realm, what is needed is a tube of twenty-one liquid, so if the refining of the twenty-one liquid is carried out in a way of condensing blood and blood, most of them can be added at that time. The treasure wreckage energy of the quasi-aged ancient energy level and the ancient creatures..."

In this case, the last-order breakthrough should be completed with only three or four bloodstains. That is to say, only then, you only need to sneak into the far-off starry forbidden land, and sneak in the way to kill four. The supremely fierce beast of the head is enough... "One

In the light of this, Ye Xuan did not hesitate, and after swaying, he rushed to the second starry sky that had just been extinct not long ago. Only half a column of incense had arrived. and

At this time, the war here has also ended. The 20,000 slayers and the tens of thousands of demons who are stalking the sea and the Cang Qingyu are assisting the tens of millions of ancient survivors on Sang Zhixing to clean up the battlefield and clean up the battle. This

Everything, because of the arrival of Ye Xuan, speeded up the process, and it was completely over after a few hours. With

After that, Ye Xuan waved the life of the Dragon Field Life, and let all the underarms all enter the life giant. This waved the hand and rushed to the front of the tens of millions of forbidden beasts. Each of them crouched in the void area...

"boom!""

Rumble..."

A huge roar, after the Longye Life Giants arrived in this area, it immediately sounded again.

Sang Zhixing's tens of millions of ancient warriors are all over the millions of warships, including the 20,000 devils scouts headed by the sea and Cang Qingyu.

The eight King Kong and the flying scorpion, the silver scorpion old monster can not be idle, once again by Ye Xuan from the Shennong Ding. before

The task of the person is still the refining, forging and quenching itself, and the task of the latter two is to kill all the cosmic monsters among the tens of millions of squatting beasts, leaving only a small part to the mulberry Dozens of the universe's remnants of the universe are refining their hands... blood

The embarrassing smothering broke out again in an instant. This

The first battle lasted longer. After all, the goal of hunting was to have all the forbidden beasts in the four forbidden places, reaching nearly 50 million.

And these forbidden beasts were led by the fourteen immortal-level fierce beasts in the past, and they were completely smashed in a short period of time. After being completely murdered, they have been stunned this morning, all of them are scattered, and they are crouching up, only It only takes a certain amount of time to get them out of the hiding place.

In this battle, Ye Xuan still did not participate, but did not go far, but was kneeling in the mouth of the Shennong Ding Ding, holding the colorful fog, and deducing the formula of the twenty-first liquid that was about to be condensed. most

In the end, after a full three days, when Ye Xuan finally perfected the formula of the twenty-first liquid, the final battle finally came to an end.

At this point, the corner of this piece of Yili is partial to the void, and there is no starry forbidden land. The surviving tribe of Sang Zhixing has been in this illusory sky. this

In the resounding cheers, the army opened and rushed to Sang Zhixing. In the following days, it will carry out vigorous and vigorous flesh-and-blood medicines. This time, the battle of the beasts reached nearly eight. Tens of thousands of things, the harvest is so unimaginable, the total amount of flesh and blood medicine that can be refined is astounding...

Chapter 4212: Far from the void

Three days, the end of the last battle!

Since then, this piece of the tens of thousands of miles of the void around the original six-star banned land completely disappeared, the sangzhixing on the ancient relics of the tribes, has become the only side of this side of the emptiness, the only existence of billions of miles.

Of course, in this area, there are still a large number of life stars, and the stars and beasts that do not belong to the original six big starry forbidden places.

However, for these starry beasts, whether it is Ye Xuan or the ancient survivors of Sangzhixing, they have no intention of killing them. It is absolutely unnecessary. There are enough deadly beasts on hand, nearly eighty thousand, enough Twelve large tribes on the planting stars, tens of millions of ancient relics in thousands of large and small villages, have produced a large number of flesh and blood medicines...

What's more, the flesh and blood medicines that they got from the crazy smashing in the hands of their hands only consumed a little bit, but they were left with a lot of money.

After returning to Sang Zhixing, the second vigorous and vigorous drug-smelling exercise began in the first time.

For all of this, Ye Xuan did not pay attention to it. This time, the flesh-and-blood medicine that he had cultivated could not enter his eyes. According to his confession, tens of millions of ancient survivors on Sangzhixing would digest it on their own.

As for the Eight King Kong, Flying Scorpio, Silver Ghost and the 20,000 sorcerers scouted by the return of the sea, Cang Qingyu, and Yingtai, they all entered the Shennong Ding and the life giants, and reopened the practice.

After all, their cultivation is still weak, and the road to improvement is a long way to go!

Ye Xuan did not enter Sang Zhixing, still stagnant in the universe outside the atmosphere of Sangzhixing. After waving the Shennong Ding, he came to the Shennong Dingkou where he was carrying a colorful mist. Sit down and kneels.

First, I calmed down my mind. Then, I took out a lot of cultivation resources, except for the purple-gold top-level flesh and blood medicine that I had just refined recently, as well as the scented lotion, the evil source and so on!

Finally, after a long period of indulgence, Ye Xuan even intercepted a small piece of the precious blood of the ancient high-energy purple-gold rat from the closed cave at the bottom of the volcano in the central area of the Ding Nei space, and baked it with the Shennong seven-color flame. Golden oyster sauce, after the meat is overflowing, this is sacrificed, and together with the already prepared cultivation resources, chewed down...

After finishing all this, he closed his eyes and entered a new round of retreat!

.....

Time is slowly passing...

But at this moment, Ye Xuan has already entered the situation where both things have been forgotten, completely forgetting the existence of time.

"Oh la la!"

"Hey..."

Since all the prepared cultivation resources have been swallowed into the abdomen, Ye Xuan's body has been ringing the sound of a chain.

All the cultivation resources were melted and turned into a turbulent flow. Finally, they gathered together in the body, just like a big river, with a heart-rending high temperature, rolling in the limbs of Ye Xuan's body. Chung, rushing!

Although painful, for Ye Xuan, this kind of pain has long been taken for granted, and there is no incitement to the mind!

Nowadays, the whole mind is immersed in this kind of pioneering body, and it is easy to hit the body and feel comfortable. It is full of flesh and body, and it is a dazzling glow. There are billions of pores in the body, and they are all flowing out of Xia Rui's gas...

Eventually, with the sound of a huge squeaking sound from Ye Xuan's mind, the heat energy that had been rushing in his body was exhausted at this time!

When Ye Xuan opened his eyes, a familiar system sound was heard suddenly in his mind...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the ninth order of immortality!"

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: the ninth order of immortality!"

With this breakthrough in the cultivation of strength, today's Ye Xuan's cultivation in the ordinary state has reached the immortal nine-order great consummation.

And once he activates the konjac blood in his body, he can directly cross a big realm and have the strength to seal the immortal first order.

If you enter the sixth change of the konjac, his peak power will rise again, reaching the sixth stage of the immortality, and it has already entered the late stage of the immortality!

Although this breakthrough has only one small step, it is of great significance to the current Ye Xuan.

Because next time he is going to go to this starry forbidden land farther away from the void, and to hunt the immortal beast.

Since he did not intend to alarm the immortality of these stars in the forbidden land, he tentatively set the goal of this hunting to five blood.

And, the way to kill, can only be sneak hunting.

Since it is sneak hunting, then you must guarantee a blow and kill, otherwise it will undoubtedly be exposed once the war breaks out.

The target of hunting is also the immortal beast. If you want to kill this level of target and kill it, Ye Xuan must have the immortal power, even if it is only a first order.

Before this breakthrough, he activated the blood of the konjac in the body, showing the true body of the three-headed and six-armed konjac, and only the ninth-order perfection of the immortality. If you want to reach the immortal level, you must use the konjac. The first change of the nine changes...

Once this is the case, its size will also skyrocket ten times, reaching a hundred feet high.

Although the Baizhang high is not very large, but for the sneak hunting, it is still too conspicuous, the goal is large, even if the shape is hidden, the breath may leak, thus exposing the whereabouts.

But now this problem has been solved perfectly. After breaking through a small step again, Ye Xuan's cultivation in the ordinary state has reached the ninth-order grand perfection. If you want to have the immortal power, you only need to It is enough to activate the konjac blood in the body, without the need to display the magical power of the konjac.

In this way, his body size is only ten feet high, for the sneak hunting, it will be convenient too much...

After the end of this retreat, Ye Xuan did not alarm anyone on Sang Zhixing, waved the Shennong Ding into the immortal world, and then he swayed, facing the emptiness of this billion-mile-long square. Lie away.

Those more powerful stars are forbidden, and it is obviously not too close to the starry sky where Sang Zhixing is located. For this, Ye Xuan has already been psychologically prepared.

Even so, the next boring Star Trek still makes him feel speechless.

Now he is on the road in the usual state, and has not used the broken virtual shuttle and the Longye life giant plug, but the speed of the nine-step grand perfection is not slow.

In this way, it was also full-speed attack for a full ten days, and behind the huge empty space of hundreds of millions of miles behind it, the distant sky in front of the sky finally came to a place where the intensive life planets gathered together. If there is no accident, this must be a more powerful starry ground.

The long-awaited sneak hunting is about to start...

#### Chapter 4213: Sneak hunting

Before the Sangzhi Star Field, the scale of the six starry sky bans was not very large. Basically, there were more than a dozen life stars inhabiting a large number of powerful beasts. They gathered in an area, and there were tens of millions of starry beasts. Under the command of three to four immortal to the strong beasts, this will form a forbidden land.

But now, after leaving the Sangzhi Star Field, Ye Xuan sprinted in the sky for a full ten days. After the distance of hundreds of millions of miles, the starry ban was encountered. The scale obviously exceeded the Sangzhi Star Field. The six stars are forbidden.

First of all, whether or not the most powerful beasts in this forbidden land are sealed for immortality, or whether there are several seals that are immortal.

There are more than a hundred pieces of life stars that are only found in this large star field and inhabit a large number of starry beasts.

Judging from this quantity, the number of starry beasts in this forbidden land is at least 100 million.

According to Ye Xuan's estimate, if there is no accident, the powerful beast commander in the forbidden land of the starry sky must be the immortal level, and it should be two or three heads.

Even if there are more than two or three heads of immortality, then the ordinary immortal beast, even if there is no one, is estimated to be almost the same.

Just in this area, there are more than a hundred stars in life. Therefore, if there are no accidents, each of these hundreds of life stars should be stationed with an immortal beast.

Ye Xuan did not enter this area with human beings, because then, it is undoubtedly directly exposed, although in the sacred air outside the Sangzhi star field, in addition to the more powerful starry sky, it is also more powerful. Abandoned ancient stars.

However, in this piece of debris, the ancient survivors and the starry beasts are obviously opposite, and this place is a forbidden land under the rule of a beastly beast. Naturally, it is unlikely that the survivors of the ancients will appear.

Still a long distance away, Ye Xuan has activated the blood of the konjac in the body, showing the body of the three-headed six-armed Taikoo konjac.

Previously, under the usual state, his cultivation was the ultimate perfection of the nine-order immortality. After the activation of the blood of the konjac, there was an immediate restoration of the immortal first-order.

However, this kind of cultivation is obviously not exposed. Otherwise, in this forbidden land, it is tantamount to the candlelight in the night sky, which is too eye-catching and will bring endless troubles.

Even at this moment, the three-headed and six-armed konjac can't be seen in this way, because although the stars and beasts inhabited by the shards of this sacred land are mostly rare in the three major starry sky, the body has a rich and wild. The type of life blood, but the three-headed and six-armed Taikoo konjac is too loud.

Even in this illusory sky, there are no descendants of the blood of the ancient konjac, and the original source of the evil is only one in ancient times.

Once Ye Xuan appears with the three-headed and six-armed konjac, I am afraid that it will immediately cause a sensation, and it will cause a lot of trouble. The subsequent sneak hunting will undoubtedly be difficult to carry out...

Just as he carefully unfolds his knowledge, Ye Xuan found that in the life star of more than a hundred beasts in front, there is a fierce beast that is inhabited in it.

Moreover, most of the beasts are star-studded life stars, which are also located at the edge of this star field. The size of the stars is not the largest, but not the smallest. The degree is the best destination.

Therefore, after some indulgence, Ye Xuan even put the other two bodies of the konjac, namely the body of the cheekbones and the body of the black mist, all of them into the body, leaving only the flesh and blood, but also slightly changed. At first glance, it looks like a starry sky.

As for the cultivation of strength, he is concealed in the realm of the border, not too low, nor too high. If it is too high, it will lead to suspicion. If it is too low, even if it enters this starry sky, it will be violent. Life Star, I am afraid I can't get close to the immortal savage beast leader who ruled this star.

After everything was ready, Ye Xuan checked it and was very satisfied. Then she stopped worrying. After she was swayed, she rushed to the target star in the corner of the virtual space on the right side.

After entering this forbidden land, the activities of the beasts in the void become extremely frequent, and from time to time there is a star-shaped beast with different forms.

Although they belong to a different ethnic group and have different bloodlines, they are all the same genus in the same banned land. Therefore, these starry beasts obviously do not arbitrarily break out conflicts.

Of course, this kind of thing can never be eliminated. After all, it is a fierce beast. Bloodthirsty warfare is inherently instinct...

At this time, Ye Xuan is a starry and violent temperament with a boundary of the main territory. It is only two major realms from the immortality. Even in this powerful forbidden land, this kind of cultivation is strength. The head of the immortal savage beast of a life star can also be regarded as the middle-level war.

Therefore, he entered the target star all the way unimpeded, and after hiding it, he quietly spread the knowledge of the gods, and soon caught a two-time immortal vicious animal atmosphere.

In this life star, there are actually two immortal beasts, all of which are starry and violent, and these two families are just together at the moment. For Ye Xuan, this is the best time to shoot...

Taking back the knowledge of the gods, Ye Xuan approached the position of the other party as much as possible in the form of starry sky, until it was tens of thousands of miles away, and was blocked by the other's own soldiers, and he was unable to move forward. Go, go around the back of a mountain, directly mobilize the power of the body, and fully expand the positioning teleport!

"call out!"

The faint sound of breaking through the air, with Ye Xuan's current cultivation as the strength, tens of thousands of miles away, can also accurately lock the teleport position.

In the blink of an eye, his figure appeared in front of the violent front of these two immortal stars, only about a hundred meters apart.

At this time, due to the full force of the teleport, Ye Xuan's body repairing the immortal first-order repair has been undoubtedly exhausted, all the stars in the entire life star can feel it.

Leng Buding suddenly felt this heart-wrenching immortal breath, all the beasts in the whole star, in this moment, all of them were slamming, and all the time, I don't know what happened, I'm waiting for it. How can the land of the forbidden land suddenly come here.

The two immortal stars in front of Ye Xuan were violent, and they were completely stupid in an instant. They looked at Ye Xuan with a stunned look. They didn't understand that their core area of the nest was suddenly more powerful. The seal is immortal.

Even if this seal is immortal, it is still like them, it is also a starry sky!

This is really weird. Is this starry sky in the starry sky, the emergence of the immortal level of immortality? Haven't heard of it...

Chapter 4214: Thunder

Ye Xuan's accident appeared, so that the two immortal stars and violent surprises, and then the two fell into a hustle and bustle.

They didn't realize the advent of the crisis. They didn't even think that the seal that appeared in front of them would shoot for themselves. Because they are all starbursts, the same blood is flowing in the body. Although the origin of the other party is somewhat weird, After all, it is a predecessor of the same family.

However, at the next moment, the two of them have not yet recovered from the shackles of a mist, and the accident has suddenly occurred.

"boom!"

"boom!"

"Hey..."

Ye Xuan, who appeared quietly, did not hesitate, and the other side had not recovered. The first time he blew two punches, and the power of the immortality was undoubtedly revealed. Under such a close distance, these two heads were immortal. The starry sky is so violent that it is too late to make any reaction. It is directly bombarded and turned into a \*\*\*\* fog.

One of them didn't even have a chance, and the other one just sent out a short whistle. The whistling sound just started, and it was abruptly stopped...

"call....."

Then, Ye Xuan waved his hand, and inside the Shennong Ding in the body, a burst of two canopy Shennong seven-color flames, whistling out, one left and one right, shrouded the two canopies by the blood of two immortal stars and violent flesh. Within the first time, blood condensate was started.

The whole process is very fast, less than three breaths, blood sperm has been condensed.

As Ye Xuan waved again, the two awning Shennong seven-color flames screamed back into the body, and at the same time spurred on, there were two baby-sized feather beads, which were quickly harvested by Ye Xuan. Disappear.....

In the blink of an eye, the two starry stars of the immortal level have been thundered by Ye Xuan, and they have been smashed in the moment, and they have become the blood of two beasts of the size of the baby.

After doing all this, Ye Xuan did not stop for a moment, and his body shape shook, and before all the beasts in the whole star had not reacted, they had already come to the atmosphere of this beastly life star, without any pause. Turn around and rush to another life star nearest to this place...

This time the mission goal is five immortal beast bloodstains, and now two have been harvested, three worse, that is, next, Ye Xuan must be as fast as possible, killing three as soon as possible A powerful beast with a head of immortality.

As cautious as before, carefully and slyly, it is not realistic at the moment, because the violent fall of the two stars will soon be discovered, and if there is no accident, the matter will be the first time. Was reported.

At that time, the immortality of this powerful starry sky will obviously be immediately alarmed. At that time, at least hundreds of immortal beasts in more than 100 life stars will be moved, plus two to three The seal is immortal, even if Ye Xuan can retreat, I am afraid it will be very embarrassing.

What he has to do now is to hunt down three powerful beasts of immortality as soon as possible after the scene of this powerful starry ban, and as soon as possible, even if at the last moment, Waiting for immortality is still alarmed, Ye Xuan can also withdraw from the first time, not to be tied to this...

With this kind of thought, Ye Xuan started to speed up. Only a few breaths had reached the nearest life star. Without hesitation, he plunged into the atmosphere of this life star.

Under the glimpse of the gods, he immediately locked the position of the immortal beast leader in this life star.

What surprised him again is that this life star, which is mainly dominated by the \*\*\*\* beasts of the Asian blood greed, has two powerful beasts of immortality. Although they are not together at the moment, they are not apart. far.

As long as the two immortal sub-blood savage wolves are killed, Ye Xuan will only need to smother one more and he will be able to pull back.

"call out!"

Directly deploying the teleport, Ye Xuan's figure appears on the side of one of the Asian blood wolves, without hesitation, a fist will be the same.

"boom!"

This guy just turned around and didn't have time to make any sounds. The whole figure was completely blasted and turned into a \*\*\*\* fog.

"call....."

Even if she waved her hand, Ye Xuan pulled a sacred seven-color flame from the body and wrapped the \*\*\*\* fog directly. When the three breaths were not available, it was condensed into a baby-sized blood.

In the next moment, this Shennong seven-color flame and the blood-stained beads that had just been condensed have just been collected by him. In the distance behind him, there has been a fierce and uncomfortable voice...

"Hey..."

"The starry sky is violent, what do you want?"

Looking around, thousands of miles behind, the other end of the life star, the immortal level of blood, the wolf, actually rushed over at this moment, although the body of Ye Xuan is the power to seal the immortal level, he simply It's not an opponent, but after all, this place is a strong forbidden land, and there are three heads of the immortal beasts, and will soon come over...

Therefore, this sub-blood wolf seems to be fearless, giving Ye Xuan a feeling of no fear at all.

"Since you send it to your door, save the owner of the star and go back."

Cold and cold smile, Ye Xuan's body shape swayed, and the blink of an eye has reached the front of this immortal blood greed wolf, not to mention, directly is a punch.

"boom!"

"call....."

The huge figure of the other party, under the fist of Ye Xuan's full force, directly exploded, turned into a canopy of blood and quietly dispersed, it is also at this time, Ye Xuan suddenly waved, the body Shennong Ding was pulled out The Shennong seven-color flame directly wraps the \*\*\*\* mist that spreads out, and then begins the blood purification!

Everything was still completed in less than three breathing hours. In the end, Ye Xuan waved his hand, and the Shennong seven-color flame that was pulled out was directly into his body, and the returned one was also the size of a baby fist. Blood beads, together into Shennong Ding.

Since then, in a short period of time, he has continuously killed four immortal beasts in this powerful starry forbidden land. In the Shennong Ding in the body, there are four immortal beast bloodstains. .

There is only one blood deficiency gap at the moment.

However, according to Ye Xuan's estimation, his arrival, at this moment, should have been exposed. In the end, whether this blood essence can be successfully reached, it has become full of suspense in an instant...

"Roar!"

"Roar!"

"Hey..."

It was also at this time that in the three superstars of this powerful starry ban, there were no sudden signs of three earth-shattering beasts roaring and screaming, even through the endless distant void. All the sounds have been hundreds of millions of miles, so that the countless powerful beasts in the hundreds of life stars around them are all shaking and shaking...

"Fighting the immortal beasts... There are three heads?"

Ye Xuan, a starry form of starry sky, turned his head and looked around. He flashed a glimpse of the fineness: "The last one, the speed has increased..."

Chapter 4215: Qianjun Wanmawu

Although Ye Xuan's speed was very fast, after killing the two stars, the first time he rushed to the second beastly life planet, without any delay, killing two immortal levels at the fastest speed. The blood of the sub-blood, but in the end, the blood of the immortal beast in his hands reached four, but it was unexpectedly exposed...

At the time, from the three giant beasts around the central area of the forbidden land, each of them has a figure rushing out, and a terrible roar of roaring in the mouth, shocking hundreds of miles, more than a hundred beasts on the planet Billions of powerful beasts, all shivering. to

The immortal savage beasts on the planet of more than a hundred beasts are immediately responding to the general, and all of them are screaming and snarling, morphing into a figure, from their respective dominant beasts. Crush out in the atmosphere!

"Hey!"

In the giant star on the left side of the domain zone, the seal that rushed out was immortalized as a green cow. Its body size reached a giant of 100,000 feet, and it was \*\*\*\* and bloody. The powerful starry sky is forbidden to seal the strongest of the immortal. "

Roar! "right

On the side, a star-shaped blood crocodile squats from the giant planet inhabited by the atmosphere, and the body shape also reaches a giant of 100,000 feet. A slender crocodile tail is full of barbs, which is chilling. I am afraid it is a huge star. I can't stand the whip of this huge crocodile tail.

Its cultivation is the strength, it is to seal the immortal fourth order!

"Hey..."

In the giant star behind the domain strip, there is a sharp and screaming sound. The seal that is rushing out of this giant star is a black beetle with unknown blood and small size. It is only about a thousand feet, but its cultivation is not weak, and it has reached the peak of immortality.

Only one step away, you can step into the midst of immortality! this

At this moment, when Ye Xuan's figure rushed out of the atmosphere of the second target planet, the three powerful beasts that sealed the immortal level, while roaring and roaring, ran to his position. Grab it.

Although it is still tens of millions of miles away, but with the strength of these three vicious beasts, the speed is almost at the extreme, and at least a few breaths can be reached.

In addition, looking into the eyes, there are more than a hundred life planets in the sights of hundreds of thousands of miles of empty space. There are also one or two immortal powerful beasts. They are screaming out of the atmosphere of the stars, and they are like tidal waves. To the place where Ye Xuan is, roaring...

The three seals are immortal, and more than a hundred are ordinary immortal... This lineup of beasts can be described as horrible to horror, even if it is the strength of Ye Xuan's current cultivation, even if the magical power of the konjac is changed to the sixth change. Once you get caught up in the encirclement, you will be embarrassed! very

Extremely serious injury! but

He has no choice, but at the moment he has not yet evacuated... and

Today, Ye Xuan's cultivation is the strength. Under the usual state, it has reached the nine-order grand perfection of immortality. If you want to break through to the immortal first order, you must refine a tube of twenty-one liquid, otherwise it will be piled up with resources. The way to try to break through, the chance of success is small.

Twenty-level liquid can't be formulated as before.

According to Ye Xuan's derivation, based on blood essence, it is formulated with the method of simmering blood and meat, and the success rate is extremely high. but

To formulate a tube of twenty-one fluid, you need at least five blood.

Now he has four in his hand, only one difference.

If it is evacuated at this moment, this powerful starry sky has been prepared for defense. If you sneak again in a short time, there is no possibility of successful sneak attack. anti-

It will let the other party calmly arrange various means to prevent it after thoroughly checking everything.

Of course, in addition to this starry forbidden land, other areas around the Sangzhi Star Field, there are other starry bans, but only here, Ye Xuan has been looking for a dozen days to meet, the ghost knows to give up here When will the next starry sky be found, when will it be delayed? most

A good choice is to take advantage of the thunder in the distance before the three seals are immortal. Before they arrive, they will use the fastest speed to kill an immortal beast again...

This matter is indeed risky. After all, even if it succeeds in killing an immortal beast, Ye Xuan will need a certain amount of time to condense blood on the spot. and

With the three immortal speeds in the distant sky, at most seven or eight breaths, you can reach the near future and form a close relationship with him!

Followed by another hundred or more immortal beasts will soon come, and once the second layer of encirclement is formed outside, Ye Xuan's situation will be even more unbearable!

"Put it, isn't it the three seals that are immortal? The thousands of troops are rushing to the hustle and bustle... As long as there is still a line, you can't let it go!"

As soon as the ground bites his teeth, Ye Xuan's figure suddenly slams, and his head screams: "Hey..."

The sound of whistling is still not over, Ye Xuan's body shape has disappeared from the original place, once again launched the teleport, fully exerted, between half a breath, across hundreds of thousands of miles of void, appearing on the left The front of a fierce beast.

This fierce beast is far from the nearest planet. There has been a black blood scorpion that has rushed out of the atmosphere of this fierce beast. It has not started its speed, deliberately slowing down its

figure, apparently intending to wait for the distant void. The imperial seal came to immortality, and after Ye Xuan formed the first encirclement, he swept forward. but

At this moment, he did not rush forward, Ye Xuan took the initiative to come over, teleported, the same moment of the body shape appeared, directly hit a fist. This

For a moment, the violent amount in Ye Xuan's body suddenly rushed out, and the void came with a crisp sound, which would be torn at any time.

"Boom!"

The head of the demon blood is too dark to prevent, there is no time to dodge, the entire body shape has been smashed into a \*\*\*\* fog, and quickly exploded.

"call....."

Without any hesitation, Ye Xuan suddenly waved his hand, and a sacred Shennong seven-color flame was drawn from the Shennong Ding in the body, and the \*\*\*\* fog that spread after the explosion of the black blood scorpion exploded completely. In a moment, blood sperm is condensed! "

Roar! ""

Oh..."

Hey! "...

...

Seeing this scene, the three sacred screams in the distance are experiencing the immortal anger, and at the same time roaring, the figure is accelerating again, and the blink of an eye has crossed nearly ten million miles. Look at this posture, at most There are still two places to arrive.

Two moments of time, just pass!

"Call..."

Ye Xuan suddenly waved his hand, not far from the front, this canopy Shennong seven-color flame was directly absorbed by him, and at the same time, he also had a \*\*\*\* essence of the immortal beast that had just been condensed. end

It is still successful, and the five immortal beasts are bloody, and they are already gathered!

However, from the tens of millions of miles away from the distance, the three squadrons of the immortal savage beasts are just around the corner. The recent green cattle are less than a million miles away...

Chapter 4216: Twenty-level treasure

"No matter who you are, today... you can't escape!"

Hey! "

The young cow arrived first, and it was already in the void of the universe less than a million miles away from Ye Xuan. At this moment, the sound of the cold words was heard in his mouth, followed by the sound of a condensed burdock. . With

The sound of the cow screamed, and a thousand-month-long cyan half-moon whistling, and the void was directly cut along the way. The endless emptiness of the emptiness flowed out of the crack of the crack, and the surrounding universe was chaotic... ..

"Hey!" Green

In the millions of miles behind the cow's body shape, the body shape is only about a thousand feet. I don't know what kind of \*\*\*\* zerg screams suddenly, and a circle like a normal ripple is swept away, and the speed is even faster than the green cow. The cyan half moonlight lingering, in an instant, enveloped a vast expanse of stars. One

The invisible force of the invisible bond came, and at this moment, Ye Xuan suddenly felt that his body was a stagnation, and as strong as him, he immediately had a sense of delay in the endless mud.

Undoubtedly, this strange ripple has a special ban on the void of the universe. Under its power, it is not ordinary immortality. Even if it is immortal, it can no longer be teleported. This

It is clear that Ye Xuan will be trapped here in the first time, blocking the rhythm of his escape.

Moreover, as the ripples of this strange ripple spread, and the whole piece of void covering a radius of ten thousand miles, this zerg, which does not know what kind of blood is in the body, has obviously succeeded! "

boom! "a little

Closer, about the side of the void that touched more than one million miles, the star-shaped blood crocodile, who was sealed and immortal, did not say a word, but the huge crocodile tail that was covered with barbs was suddenly awkward at this moment. In an instant, there was a thunderous sound in the void, and an invisible horror shock wave blasted at the place where Ye Xuan was. its

There is also a sharp thorn in the crocodile tail. This is a means of enduring immortality. The barb of a root seems to be inconspicuous, but Ye Xuan has no doubt about its sharpness. .

I am afraid that even if a superstar is in front of it, it will be instantly shot by these inconspicuous barbs and directly into a large sieve! blink

Between the eyes, the three savage beasts who sealed the immortal level all came to the emptiness of Ye Xuan, which was only a hundred thousand miles away. From the left and right and the front, they launched a means to launch a surprise attack. Partial

Because of the ripples of the mysterious zerg, the Ye Xuan body shape is the origin, and the universe voids that are thousands of miles away are completely banned.

Not only can't it be teleported, even if he turns around or flies away, it's just like being trapped in a mud, the action will become very late...

It seems that it has been destined to be a complete fall. Look

In this scene, the three immortal savage beasts who followed the three immortal rears were so excited that they suddenly became mad and seemed to believe that Ye Xuan would not escape! thing

In fact, this instant Ye Xuan himself, the whole heart has also mentioned the eyes of the blind. first

Before he left his heart to stay, he continued to hunt for the fifth immortal beast blood, but his heart was still quite emboldened.

This kind of qi is the interstellar coordinate jumping ability he has. this

Before, from the beginning of the Sangzhi star field, he had already been in the emptiness of a star-shaped forbidden land in Sangzhixing, branding a star-shaped coordinate jump point.

Facing the arrival of the three immortal speeds, Ye Xuan thought of relying on the interstellar coordinate jumping ability to disappear directly from here and return to the Sangzhi star field.

However, the \*\*\*\* unknown zerg, which is beyond the emptiness of more than one million miles on the left side, is so overwhelming that the body's ability to smash the ripples and blood is so strange that even the powerful cultivation of his first order is immortal. There is a heavy body, like a muddy feeling.

For this reason, Ye Xuan suddenly had no sigh of relief. If this ability can also play a ban on his interstellar coordinate jumping ability, then today it is really a bit big, unless there is no head baby. Shoot, otherwise he will not die and have to peel off the skin!

In the heart of his heart, Ye Xuan did not hesitate to issue instructions to activate the interstellar coordinate jumping ability to the body's phagocytic system at the first time, and this time the locked jumping coordinate point is exactly the brand that he was branded in Sang Zhixing not long ago. The one in the domain!

"Hey!"

The faint sound of the road broke, and Ye Xuan's starry sky was violent, and the eyes disappeared. There was no trace to follow, just like a sudden disappeared from this world..."

Hey! ""

Oh..."

"Roar!"

This scene, let the next moments of the three rushing to the front of the three seals immortal anger, the earth-shattering roar and whistling sounds resounding, in the distance more than a hundred beasts on the planet, countless powerful star beasts All were scared to the ground, shivering...

At this time, in the far-flung sangzhi star field far away from hundreds of millions of miles, with a faint mans flashed, the starry sky of ten feet was vivid and instantly appeared.

"There was no disappointment to the star owner..."

With a long sigh of relief, Ye Xuan even relieved the three-armed and six-armed konjac's true state of the body, restored the human form, and recalled the situation of a singularity. Until then, he had a feeling of subtlety. "

call out! "under

For a moment, as he waved his hand, Ye Xuan directly sacrificed the Shennong Ding in his body, and his body shape has already come to the Shennong Ding Ding mouth with a colorful mist, and he will kneel down.

In the hand, five \*\*\*\* beads of the size of a baby fist appear in the palm of his right hand. These five blood essences will be the flesh and blood pulp refining the treasures of the phoenix bird. Together, they became the basic raw material for Ye Xuan's 20-stage liquid. and

In addition to these two basic materials, according to the formula of the twenty-first liquid that Ye Xuan has developed, this time, Ye Xuan will also add a large number of top treasures, as well as a few drops of evil sources and other hands. The top forging resources held...even

Said that in the preparation of gene culture fluids, Ye Xuan's experience has already been horrifying. Previously, even 20 grades of liquid were prepared in a single tube.

But this time, the twenty-first-class liquid was completely different from the previous one. It was developed in the way of simmering blood and meat. For him, it is still the first time to formulate the gene culture solution in this way. . again

Adding to the immortality from the ordinary immortality to the seal, it is a heavenly invisible big shack, the variables are too much too much...

Therefore, the success of this twenty-first-class liquid, even if it is successful, even Ye Xuan himself, there is not much confidence, can only be said to be five or five, right and try.

In the wave, all the resources needed in the recipe and all kinds of top treasures and treasures were prepared in an instant. Ye Xuan looked at the five immortal beasts in his hands.

The feeling of micro-striping, whispered: "Do not fail, otherwise, if you want to try the second time, you have to get five more immortal bloodstains. This is too much... too tossing people. It!"

Chapter 4217: Treasure

Shennong Ding, interior space, the bottom of the volcano in the central domain! "

call out! ""

Oh..."

The faint sound of breaking the air rang in succession, and a singular spurt came from the height of the Dingkou above the volcano of the central domain, directly above the flame pool at the bottom of the volcano. steep

However, the spurt of this road was hovering in an instant, and it was exactly the top materials and cultivation resources that Ye Xuan prepared for this twenty-one liquid. Take

The flesh and blood pulp refining the treasures of the phoenix birds of the savage ancient phoenix!

Five immortal beast bloodstains!

Five drops of evil source!

And all kinds of top-class treasures... all of them are the resources that Ye Xuan needs to use the in vivo phagocytic system to extract the twenty-first liquid!

"call....."

The sound of the fireworks whistling, from the flame pool below, a fascinating Shennong seven-color flame whistling, instantly condensed into a colorful furnace, a small and simple, revealing an extraordinary breath. under

For a moment, with the formation of a small flame that was condensed by the seven-color flame of Shennong, the five immortal beast bloodstains and other materials and resources spurred from the Shennong Ding Ding mouth all automatically flew up, immersed in In this fireworks small tripod that only covers the square. from

Therefore, the cultivation of the twenty-first liquid is in an instant...

Not far from the surrounding area, the eight King Kong and Feitianyu, the silver ancestors and other people who were originally retreating have already been alarmed. They have stepped out of the retreat of Dongfu and looked at the colorful sky above the flame pool in the central volcano of the central area.

Da Ding, looking at each other face to face, while the face is full of doubts, but also reveals a look of expectation. He

Here, I'm talking about it, talking privately..."

The head has a big movement, is this time to refine the purple blood of the top flesh and blood medicine? "

"It shouldn't be. There are so many refinings in the last time. It will not be consumed in a short time..."

"And this time, there is no use of the treasures of the powerful and ancient creatures. On the contrary, there are many treasures of the top treasures. There seem to be five bloodstains... not all immortal beasts. Are all the flesh and blood condensed?"

"What is this? Those flesh and blood pulp is the real good thing. Listen to the boss, it is condensed with the treasure of a quasi-aged ancient phoenix bird. Before that, the boss prepared 19th and 20th. When using liquid, I use a tube every time. This time I used five tubes directly..."

"Hey! Boss is not in the process of preparation... No, it should be refining, he will not be smelting twenty-level liquid?"

It should be, the boss's cultivation is the strength, in the ordinary state has reached the immortal nine-order great consummation, it is indeed time to take the twenty-first liquid..."

God, twenty-one liquid, one tube goes down, it directly creates a seal that is immortal... Daddy, you seem to be not far from this place, compared with the boss, only two small steps Breaking through..."

At the end of the day, the eyes of several people all looked at the flying scorpion that had reached the level of ordinary immortality. Although the old guy did not speak, but the violent ups and downs of the chest, and the fierceness of the screaming Fine mans, but clearly sold out his heart... I have already been excited to add! "

boom! "One

After an hour, at the top of the flame pool, a huge roar of sounds sounded instantly, and the sight of the flying scorpion, the silver scorpion, and the Eight King Kong and others, once again attracted the past.

At this moment, the eyes of the ten people all became fierce, and even the breathing was subconsciously held, and the short pause was delayed...

A huge roaring sound rang, and the furnace above the flame pool was condensed with the pure Shennong seven-color flame. It was scattered, and a colorful fireworks like a river was rushing back to the flame pool below.

The ones left above the flame pool are two bead-sized beads, which are as big as the previous beasts, but completely different.

Blood essence is blood red, showing a strong blood and blood. and

These two beads, although they are also the size of the baby fist, are full of colorful colors, a layer of dreamy halo, revealing a simple and heavy atmosphere. two

Ten levels of liquid!

To be precise, it should be twenty-one Dan! Take

Before, the liquid culture solution was used to make liquid, and it was called a liquid. and

Now, in the way of smelting blood and meat, the final product is solid, and it is common with medicinal herbs, so it is called Dan.

However, the effect is the same, so that the monks who walked the way to repair the body, when the ninth order of the big realm is completed, swallowed a large body potential in the body after swallowing, thus smoothly entering the next big realm!

"There are actually two twenty levels... Dan?"

At this time, Ye Xuan's voice rang, and came from the Shennong Dingkou above the volcano of the central domain, revealing a thick surprise.

Originally, he thought that this time it would be good to be able to refine the 20-level liquid. The only one in the expectation is only one, but the final result is not only successful, but also two twenty-first-class Dan. This is definitely an unexpected surprise.

Until then, he suddenly realized it. It

Before the reduction of the effect of Shennong seven-color flame on the effectiveness of various drugs. This

One time, I was able to get two twenty-first-class Dans, apparently because of Shennong's seven-color flame...but

All this is not important. For Ye Xuan, what is important is that in front of these two twenty-first-class Dans, he can swallow one by one, and he will be able to achieve his own perfection of the nine-order grand perfection. Break through to the immortal level! This

It is not the activation of the konjac blood in the body, the manifestation of the immortal strength of the three-headed six-armed konjac after the real body, but the state of its own in the ordinary state, the meaning is absolutely different!

"Hey!"

In a flash, a space box with a high order was spurred from the Shennong Dingkou above the volcano on the central volcano. After entering the volcanic mountain, one of the two 20-level Dans was directly included. Then he whistling back again, and he was born into the immortal world by Ye Xuanzhen.

This is the twenty-first-class Dan, one, that will make an immortal nine-order grand perfection, instantly jumped into a cold and immortal. Correct

In the major tribes of the three star-studded main planes of the world, and the top forces, only the 20-level liquid that can create the immortal grotesque can make them crazy, let alone create the 20th level of immortality. Dan? Eliminate

If the interest is spread out, the horror of the major ethnic groups and the top powers of the king are immortal, and the emperor is immortal, and must be shocked.

In any ethnic group and top power, the immortal blame is definitely the upper level of the entire ethnic group, but the immortal grotesque of any ethnic group will not be too much, but it may not be too small. and

Sealing immortality is a threshold for entering a small group of ethnic groups. The meaning is far from ordinary immortal...

Chapter 4218: Seal

Two twenty-first-class Dans, one was installed by Ye Xuan in a high-grade space vial, and the first time was in the body of immortality, so as to avoid the loss of medicine. and

The other one, which was still suspended in the flame pool at the bottom of the volcano in the central area, is over 100 meters.

But soon, with Ye Xuan accepting another twenty-first-class Dan, this second piece was also turned into a man, passing through the volcanic crater of the central volcano and rushing toward the sky. leaf

Xuan's cultivation is now the ultimate success of the nine-order immortality. It has already reached the requirement of taking the twenty-first-class Dan. Therefore, he intends to swallow it immediately, and in one fell swoop, he will repair his strength and push it to the immortality. Steps, across this road, many people can't pass their lives, and they are not even qualified to touch... Look

In this scene, the faces of Feitianyu and Jubilee and the grotesques changed instantly, especially the former, under the heart, when they even raised their heads: "Hey, my husband, I... I also went to the eighth level of immortality." Alone!"

The next meaning, this is clearly to remind Ye Xuan, he has a breakthrough, can also take twenty-level Dan, just Ye Xuan here two, everyone is their own people ... fat water does not flow outside the field.

"Yeah....."

The words of Feitianyu just fell, and the silver cockroaches on the side quickly took over the words, and then they also brushed a sense of existence: "Head, the old man said yes, he is still a small breakthrough, as for I, although not second-order, but will be able to go to the third-order, and count, the distance is not too far!"

Get out of the way, what is your special premature, do you want to grab this twenty-first Dan with the old man? "

As soon as I heard the words of the silver cockroach, the flying scorpion was angry for a moment, kicking the latter into a gourd. miss you

I also thought that when he was brought by Ye Xuan, when he was locked into the cage of the mountain wall at the bottom of the volcano in the central domain, he was already repairing the strength of the sixth-order immortal, and the silver scorpion was only half-step immortal.

Flying Scorio, but he saw his breakthrough and entered the immortal. Now

In his own hands, there is still a twenty-first-class Dan. He actually wants to insert a bar. How can this kind of thing be tolerated?

In fact, in the face of Ye Xuan's extra 20th-level Dan, it is the eight King Kong who have been repaired to the strength of the realm, and all of them are red-eyed.

The words of the silver cockroaches have just fallen, they originally wanted to scream, brush a sense of existence, although the repair is far from the strength, but after all, is the old man around the head, maybe in the deep feelings, I really gave them...only

It's now that even the silver cockroaches have been kicked to the ground, and they haven't dared to scream again.

After all, the silver cockroaches are also immortal. Even he is like this. If the eight borders are now jumping out, you have to grab the twenty-first-level Dan with Feitian. I am afraid that this old guy must be mad on the spot! "

This twenty-first Dan is temporarily kept in the hands of the Lord..."

The silver cockroach has just climbed from the ground, and Ye Xuan's voice has been passed from the height above the crater: "This kind of top resource, whoever is repaired in the future, can take the initiative to apply to the owner, currently This extra piece is no accident, and it should be a fly to the sky soon..."

But it doesn't matter, the main star of the star can refine a furnace, and it can refine two furnaces, three furnaces, and even more. It will gradually be stored in the future. You only need to cultivate with all your heart and upgrade the strength as soon as possible. ""

Really give it to me? Hahaha..."

After Ye Xuangang finished, the flying scorpion at the bottom of the volcano in the central domain jumped up and danced and smiled: "Thank you, thank you!"

On the side, whether it is the silver cockroach, or the only eight kings who have been repaired in the realm of the world, watching him look so proud, all face sighs, sighs and sighs for a while, then no more words, turn to their own Dongfu's trip, this is clearly all stimulated, will once again retreat, and start the rhythm of crazy cultivation.....

...God

The tripod of Nong Ding! leaf

Xuan Pan kneels in the thirteenth color of the mouth of the mouth, holding a colorful color in his hand, the surface of the small ball with a dreamy halo, the size of the baby fist, is just the 20 First grade Dan!

Taking a deep breath, after adjusting his mind and completely calming down, he would not hesitate. When he raised his hand, he directly threw the twenty-first-class Dan in the palm of his right hand into his mouth. treasure

At the entrance of Tanjong, it was instantly turned into a turbulent flow of chilling intentions. It went down the blade of Ye Xuan and went straight into the abdomen, and it was automatically in the body of his body. Flow quickly...

Everything is light and familiar.

The only difference is that this time, from the ordinary immortality into the seal of immortality, Ye Xuan body because of the power of this twenty-first-class Dan, the invisible human body shackles chain appears to be particularly strong. 哗

The sound of the shackles of the shackles is particularly harsh.

As for the turbulence formed by the twenty-first-class medicinal treatment, the tingling sensation brought about by the rapid circulation in the body is also more intense. but

All of this, for him, is not a problem.

Time is slowly flowing... Ye

All of Xuan's minds have been poured into this breakthrough, and unconsciously, the whole day has passed. when

When the awning heat in his body finally disappeared completely, Ye Xuan opened his eyes subconsciously. brain

In the sea, there is no familiar system prompt tone coming.

This made him feel a moment in the heart, and initially thought that this breakthrough failed, it means that you can only take one twenty-first Dan, which is too wasteful, after all, is not a general resource. but

The next moment, the sky above the head, suddenly came a thunderous sound. lift

Looking at the head, a large, incomparably robbery cloud is condensing. he

A moment of enlightenment. Look

Come, starting from the immortality of the seal, even if the repair has already broken through, but it must also pass through a round of robbery, can be regarded as a real breakthrough.

It doesn't matter, as long as there is no failure.

"Hey..."

Under the head of a loose, Ye Xuan Yang's hair screamed, and grew up, waved and took up Shennong Ding at the foot, and then directly rushed to the thick robbery cloud that covered the head.

"Booming!"

Card..."

For a moment, the earth-shattering thunder blew and roared, followed by a crisp and incomparable sound of lightning, a thick lightning bolt of ten feet, instantly slammed down and fell on Ye Xuan's body. Do not

However, even if it is the annihilation of the immortal cultivation, this level of robbery and lightning, for the road that has been taking the refining body, the body has long been forged to the intensity of the horrible, he also does not cause much damage. .

On the contrary, it is the repair of the immortality that has just been broken through in the body. It will be fully consolidated and consolidated because of this wave of robbery. It can be said that this time the robbery, in Ye Xuan, is in the middle of the mind...

#### Chapter 4219: Treasure

The lightning that fell from the thunderbolt, the color is pale gold, and the thickness is ten feet. The whole body shape of Ye Xuan is drowned. After all, it is the immortal annihilation. The destructive power contained in the hijacking is extremely terror.

Even with Ye Xuan's incomparable flesh, he was smashed out of Jiao.

Fortunately, this robbery only has a wave of hijacking, otherwise I am afraid he is, he has to drink a pot...

When the dense black robber clouds in the distance above the head scatter, Lin Xuan waved his hand and the clothes that had been robbed by the thunder were completely renewed, and in his mind, a familiar system sound was heard at this moment...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the first order of the immortal!"

"Hey, congratulations to the host, the physical and qi and blood of the realm breakthrough! The current realm: seal the immortal first order!"

This time, the immortality of the catastrophe, not only did not let his deity's body suffer the slightest damage, but also made the body of the 20th level of Dan remaining in the body, as well as the efficacy of various top-level heavenly treasures, thoroughly The ground was motivated, and Ye Xuan's cultivation was immediately strengthened and solidified. in

Before this, the realm of his deity was the perfection of the nine-order immortality. Once the three-headed and six-armed Taikoo konjac bloodline was provoked, the strength rose again and climbed directly to the immortal first order.

If you re-apply the magical scorpion and change the magical power, and reach the sixth change, you will be able to reach the horrible strength of the immortal seventh order.

Now, with his own cultivation in the ordinary state as a strength to break through again, he is promoted to the immortal first step. and

Today's Ye Xuan, once the body of the konjac blood is activated, and enters the sixth change of the konjac, its peak power will be able to reach the eighth order of the immortality, from the nine-order grand perfection, only one small step Other breakthroughs. very

As for the horrific combat power of feeling the immortality of the king in advance, there are only two small steps in the gap..."

Activate the konjac blood, enter the three-armed and six-armed konjac true body state, and the konjac nine-changing \*\*\*\*\* magical power, after the sixth change, have the peak power... Has it reached the end of the immortal eighth order? "One

While feeling the incomparable terrorist power in the body, Ye Xuan muttered to himself: "If you add a variety of powerful powers such as the 陨天弓, and Shennong Ding and other powerful treasures, even if the king is immortal, the star master also Can fight against it..."

Even if the other party is only the initial repair of the immortal one to three levels of the king... It's not impossible to fight it! ""

Unless you are confronted with the late existence of the king of the seven to nine stages of the immortality, you need to turn around and go away... because it is impossible to defeat, unless the baby is shot! "Say

At this point, Ye Xuan clenched his fists tightly, and his powerful self-confidence suddenly rose from his heart: "However, just like this, a large expanse of stars and miles near the tens of billions of miles is enough. !"

"For example, the powerful starry sky before the forbidden land, if it is coming again, even if I am facing the three immortal beasts who are immortal, I am sure to kill them one by one... After all, the three beasts are under the command, and No one, the strength has reached the end of the order of immortality!"

However, this matter should not be reckless. If this is done, I am afraid that it will cause concern for other powerful starry bans. ""

Formally attacking and conquering these powerful stars, or waiting until my cultivation is up to the immortality of the king, even if it is in the sixth state of the konjac, it will be immortal..."

In this way, it is only a breakthrough of two small steps, and it will not take too long, but it is not too urgent! "

Speaking of this, Ye Xuan suddenly remembered something, raised his hand and took a forehead: "I almost forgot the treasure of the sky..."

"Although the Lord of the Stars wants to stay in the Sangzhi Star Field, on the one hand, it will rehabilitate and improve its own cultivation. On the one hand, it can also urge the 20,000 devils to scout, and the twelve tribes of Sangzhixing, thousands of cottages, large and small. The cultivation of tens of millions of survivors is improved..."

However, there is no such restriction at all, but it can be like the three major star planes in the world, so that he can leave on his own, carry out various kinds of engulfing, and quickly improve his cultivation. ""

And because this avatar is condensed by the avatar system attached to the phagocytic system, the innate nature is extremely powerful, and now the cultivation of the deity has broken through again. If there is no accident, the cultivation of the devotee should be synchronized. Up..."

"As with the deity, you have the strength to seal the immortal first-order. Just be careful, this piece of space is everywhere, when you go..."

Having said that, Ye Xuan does not hesitate any more, and since he is in his body, he has stepped out of another Ye Xuan. The two are exactly the same, and it is the devour of the returning corpse! in

In this close distance, the consciousness of the deity and the avatar was originally synchronized in real time. What Ye Xuan thought in his mind, completely ignoring the avatar, now, the deity and the avatar meet, and nod each other. With

After that, the devour of the avatar will not hesitate, turning into a meteor awning, and the distance between the blinks has gone...

This time, Ye Xuan did not let him take away any treasures, including the \*\*\*\* corners of the soul, the towers of the ancients, and so on, all of which remained in the deity. complete

In fact, the devouring avatar this time to leave, just to devour all kinds of energy, to grow up, and the strength of the meditation has also been synchronized with the deity, reaching the end of the immortal.

Such strength, in this piece of emptiness, as long as it is not far from tens of billions of miles, into the deeper central area, there is basically no danger. which is

There is, even if it encounters a powerful beast that is in the middle and late stages of the immortality, it is said that the enchanting degree of the devour of the avatar, known as the undefeated God of War, even if he can not defeat the other side, withdrawing and retreating, can still be done.

For this, Ye Xuan has strong self-confidence and is not worried at all!

"The swallowing of the avatar has already left, and I must have brought an unexpected surprise to the owner of the star when I return again in the future..."

Looking at the direction of swallowing away quickly, Ye Xuan whispered to himself: "And as the deity, the main task of the Star Master in the recent period is to cultivate his own strength, from the current seal to immortality. The order is pushed to the third level of immortality."

"So, once you activate the konjac blood in your body, you can have the strength to seal the immortal fourth order."

"If you change the blood of the konjac to the sixth, then the sixth will change... Then, the power of the Lord's Lord will be soared to the immortal level!"

After possessing the immortal power of the king, the vast void of this tens of billions of miles is basically a rare enemy. By then, I believe that the 20,000 devils of the Majesty are scouting, and the tens of millions of survivors on Sangzhixing are strong. As a whole, the overall cultivation is a strength, and it must be once again raised to a big level! ""

By then, the second round of the full-scale conquest, it will be able to start..."

Chapter 4220: One year

When Ye Xuan returned to Sang Zhixing, the second wave of smashing blood and meat in the whole planet was over.

This time, the six star-studded bans in the territory of the Yili Circle were destroyed, and all the flesh and blood that were harvested were all smashed into flesh and blood, and all were distributed. mulberry

Twelve large tribes on the planting star, tens of millions of ancient relics in thousands of small and small villages, have all entered the state of retreat, and are slamming into one bottleneck and quickly improving their own cultivation.

The 20,000 devils scouted by the sea and the Cang Qingyu also retired in the life of the Longye. Even the eight King Kong and Feitian, the silver cockroaches are the same.

There are also star wars in Ye Xuan's hands, such as the tens of millions of murderous beasts led by the \*\*\*\* mosquitoes and the \*\*\*\* mosquitoes, and many slime, sorrowful scorpions, etc., Ye Xuan also had their own Some resources for cultivation that are suitable for them are allocated.

Nowadays, several star-studded battles have been collected by Ye Xuan in the immortal world, and the kinetic energy groups in the war, all of them have recently been sleeping, in this way, transforming the blood and promoting their own evolution...

Everything makes Ye Xuan quite satisfied. thing

In fact, among the twelve tribes on Sangzhixing, there are more than 10,000 people left, waiting for the arrival of Ye Xuan, while guarding the surrounding area of Sang Zhixing.

However, after Ye Xuan's return, they all entered the retreat directly. In an instant, the whole Sangzhixing became completely silent. All the ancient survivors went into the retreat, quietly. Just like an abandoned star.

Ye Xuan quickly rushed out of the atmosphere of Sang Zhixing, sitting cross-legged in the universe of thousands of miles away, taking out a lot of materials and starting to prepare 20-grade liquid!

Nowadays, he has even refined the twenty-first-class Baodan, and then he goes back and prepares the 20-grade liquid in the past. It is naturally difficult to get through.

His goal is to prepare a hundred tubes. Such as

Therefore, the materials in the hands are not enough. its

Its various auxiliary materials are quite a lot. The treasures of the top treasures held by Ye Xuan's hands are huge. The key is the flesh and blood pulp that was condensed by the phoenix bird of the ancient wild level. There are not many left.

However, it doesn't matter. There is still a lot of waste in the hands of the ancient and ancient spirits. There is still a lot of hands in his hands. It takes only half a day to refine one hundred tubes of blood and meat.

With these, plus the other treasures of the top treasures in the hands, Ye Xuan has to refine one hundred tubes and twenty grades of liquid, more than enough!

The 20th grade liquid is made of immortal grotesque. leaf

The reason why Xuan Xuan took advantage of this opportunity to prepare one hundred tubes at a time was because he had more and more cosmic monsters, and there were more than 30 out of the ancient people on Sangzhixing. Respect, and soon after, hegemony, returning to the sea, a knife and Cang Qingyu, the blood of the mosquito beast, the Eight King Kong, and so on, will also step into the universe...

It is in the three major starry planes of the world, naturally not so fast, but here, there are flesh and blood medicines, and it is Ye Xuan's seven-color flame of Shennong, adding the \*\*\*\* flesh of the immortal beast, Baoxuebao meat, The effect is simply too strong.

Greatly pushed up the speed of the subordinates of the squadrons such as the return of the sea! One

Once these genus repairs have reached the ninth order of the universe, they will need a 20-level liquid. Of course, instead of the 20-level liquid, they will only practice their own exercises, or the evolution of blood. , can also break through, into the immortal, but the speed is too slow, and look at the opportunity. If

There is a 20-level liquid, the path of the refining body, the evolution of the blood and the practice of the practice of the sculpt, from the ninth-order great breakthrough of the universe to the immortality, almost water, just around the corner! This

One hundred tubes and twenty levels of liquid, Ye Xuan is prepared for the subordinates of the sea, such as the sea, according to his estimation, one hundred tubes, it is estimated that only enough consumption in the near future. Time

A long period of time is bound to be far from enough!

At that time, Ye Xuan's immortal grotesques will surpass more than a hundred, and will be placed in the three major star-space planes of the world, and can definitely compete with a powerful ethnic group or top-level force that has been passed down for a long time.

Even in this piece of emptiness and space from the ancient times, it is enough to compete with some of the more powerful stars.

One hundred tubes and twenty grades of liquid, Ye Xuan spent a whole month, only to complete the preparation, this speed has been very fast, equivalent to three tubes per day. If

If the 20th grade liquid is regarded as the birth of an immortal old monster, Ye Xuan is equivalent to creating three immortal old monsters every day, which is absolutely scary!

Moreover, in this month, he will be robbed of thunder three or four times a day, because the 20th grade liquid is a liquid robbery, every time the 20th grade liquid is born, it will be accompanied by liquid robbery, every time, Although the subject of liquid robbing is a newly prepared quaternary liquid, but Ye Xuan as a formulator, naturally can not be spared...

In a month's time, he experienced a hundred liquid robes. At the end of the day, he was almost used to being accustomed to the thunder, and all of this is obviously beneficial. when

At the end of this month, Ye Xuan originally sealed the immortal first-order cultivation as a strength. After a liquid robbery, he suddenly broke through to the second order of immortality.

挨 雷劈, actually after more than a hundred times, I went straight to let the repair as a realm breakthrough, this kind of thing is estimated to be no one, even Ye Xuan thinks of it, can not help but shake his head and laugh!

After this breakthrough, his real combat power has once again advanced. in

Before this, the realm of his deity was to seal the immortal first-order order. Once the three-headed and six-armed Taikoo konjac bloodline was provoked, the strength rose again and climbed directly to the second stage of the immortality.

If you re-apply the konjac and change the magical powers, and reach the sixth change, you will be able to reach the level of horror of the immortal eighth order.

Nowadays, with his own strength in the ordinary state, he has once again broken through, and he has entered the second stage of immortality. Now

In Ye Xuan, once the body of the konjac blood is activated, and after entering the sixth change of the konjac, its peak power will be able to reach the ninth order of immortality, and the first level of the seal king is only a small one. The breakthrough of the order...

This last small step breakthrough, he is not in a hurry, decided to start again after one year!

Yes, it is one year. This

One year, it was not the time he gave himself, but the 20,000 scavengers who had returned to the sea and the Cang Qingyu, and the tens of millions of survivors on Sangzhixing to break through their own cultivation.

After all, it's just that Ye Xuan's combat power has reached the immortal level of the king, and his subordinates' subordinates are still as old as the old ones. The second full-scale conquest in the expectation is also impossible. One

In the year, there are still eleven months left. This last stage breakthrough, Ye Xuan can't use much time, so he is not in a hurry. He decided to break through when the year is coming to an end. and

Before this time, the formula used to derive the twenty-two-level Baodan is obviously the most appropriate...
