

Super D. S 4221

Chapter 4221: When the world is coming

In a month's time, Ye Xuan buried a full set of 20 tubes and 20 grades of liquid, which basically represents his future, and will produce a hundred immortal subordinates, which is absolutely significant.

Even his own cultivation of strength, after a full hundred liquid robes, successfully broke through again, and now Ye Xuan, is the second monster of the immortal.

If the activation of the konjac blood in the body, the magical power of the konjac will be extended to the sixth change, and its combat power will reach an unprecedented eternal perfection.

The distance has the immortal power of the king, only a first-order gap.

This small step breakthrough, Ye Xuan is not in a hurry to start immediately, the recent breakthrough is too frequent, he needs to consolidate the mood, so, the next time, Ye Xuan decided to use the second level of Dan formula.....

After all, it may be used soon, but now don't talk about refining, even the recipes of the twenty-two-level Baodan have not been deduced, which is somewhat unreasonable!

The formula of the gene culture solution is more difficult to be deduced afterwards, and this difficulty is improved. There is still a watershed between the 20th grade liquid and the 20th grade liquid.

Although the formulation of each level of the gene culture solution will become more and more difficult before the twentieth grade liquid, the difficulty can be tolerated after all.

However, starting from the twenty-first-class liquid, the difficulty of formulating the formula is increasing more and more every time. It is almost horrible.

Before the first twenty-level liquid, Ye Xuan did not take too long, with his powerful social knowledge of the immortality, coupled with the powerful computing power of the body's engulfing system, together with the derivation, only a few days to deduct it is.

But now the 20th and second liquids have been pushed, and it has been a whole month, but there is still no clue!

However, the more so, the more Ye Xun does not believe in evil, his whole mind has been immersed in, fully urging the powerful gods of the immortality, coupled with the powerful computing power of the body's engulfing system, making progress all the time. I have already entered the situation where I have forgotten both things...

Time passed slowly, unconsciously, and ten months passed.

Counting the previous two months, it's been nearly a year, only a few days...

The perfect formula of the twenty-second liquid, Ye Xuan has been deduced four months ago, and it took six months, that is, half a year.

Just the formula of the twenty-second liquid, it takes a long time to push it, which makes Ye Xuan feel shocked.

Undoubtedly, the subsequent twelfth grade liquid will be more difficult to push, which makes Ye Xuan suddenly have a strong sense of urgency.

For this reason, four months ago, after successfully deriving the perfect formula of Twenty-Second Liquid, he did not stop here, hit the iron hot, and launched the subsequent Twenty-three liquid formula.

.

Nowadays, the formulation of the Twenty-three grade liquid has been extended for four months. Although it has not been fully derived, it has already been at least halfway. At this time, the previous scheduled rest period is about to end. In the last few days, he only temporarily stopped pushing, and he plans to follow up on it as soon as he withdraws his leisure time.

As for the last few days, Ye Xuan intends to use it to break through.

Nowadays, he only needs a small-order breakthrough. Once he enters the sixth change of the magical 猿
变 神 神,,,

This is also a watershed and extremely important.

After this breakthrough, a new round of comprehensive large-scale deforestation will be launched again... Come to this broken and empty world of heaven and earth, now it is more than a year, and the day when the vast world is coming, it is possible to come at any time. The sense of urgency of Ye Xuan's heart has become more and more intense.

He must as soon as possible improve the strength of his own and his subordinates!

At this time, after nearly a year of retreat, the sangzhixing, which was originally lonely, thousands of miles away, has now become bustling again.

One year's retreat, the sangzhixing's dozens of tribes and thousands of small and small villages in the thousands of abandoned villages of tens of millions of ancient relics have been greatly improved.

Looking around, Qiankun is as big as a dog, and the main domain of the star is full of people. Even the lords of the world have more than one hundred, and the strongest of the universe, this time, there are more than 20 The position turned out.

However, the dozens of cosmic eccentrics who have acquired the strength of the universe a year ago are still in retreat and have not yet gone out. It will take a few days to appear.

Seeing all this, Ye Xuan was completely relieved. When he left Sang Zhixing, he didn't even stay in the nearby tens of thousands of miles, but went to tens of millions of miles away. The extinct starry ground.

He intends to make a breakthrough in this area, and he is far away from it. He is worried that his breakthrough is too big. In the event of a breakthrough, the third-order pressure of the immortality will

be spread, which will affect the resurrection of Sangzhixing. And some of the survivors who are in the midst of a breakthrough are not good...

"call out!"

As soon as the figure was shining, Ye Xuan's figure fell on an abandoned star in the forbidden land. He randomly found a mountain and sat down on his knees. Then he waved and took out a few drops. A large number of cultivation resources, including the source of all evil sources, and one hundred cubic meters of purple gold top-level flesh and blood.

After swallowing directly into the abdomen, he closed his eyes and made a breakthrough...

.....

at the same time!

Sang Zhixing is only about a million miles away from the dark world light curtain, just as Ye Xuan is far away from Sang Zhixing and avoids a breakthrough in the starry ban where tens of millions of miles away from the other direction. The huge fleet of stars and airs also broke through this bleak light curtain, from the dark world behind the light curtain, continually and blasting to this place...

This fleet of ships is the three major star-space planes in the world to enter the various national fleets located in the ancient world of the second universe.

Of course, at this moment, through the dim light curtain, not all of the sangzhi stars in this area, and some fleets, went to other directions in the dark world, did not come here.

Except for some idle fleets of scattered alliances and small forces, in general, all the fleets that come here are mainly composed of the second universe, the top ten ethnic groups, and the family of the tortoises. The fleet of the other nine ethnic groups arrived.

In addition, the First Universe's Alliance of Ten Thousands also formed a fleet, which is also in this direction. After a long interstellar trip for a year, it has now entered the Sangzhi Star Field.

The second universe of the nine major groups, the fleet of each ethnic group, has the scale of tens of thousands of warships. Together, the number of warships is hundreds of millions.

The fleet of the First Universe Alliance, the number of warships is about 20 million.

As for the total number of warships of other small forces, scattered alliances and other small fleets, together, it has exceeded 10 million...

Chapter 4222: You are captured.

Although the total number of warships that have arrived in the past is more than 100 million warships, the faint light curtain that blocks the dark world is extremely vast. Therefore, it is only a small half-day, more than 300 million warships of various races. , has passed the light curtain, all members of the sangzhi star field...

Outside the star field, more than 100 million warships did not gather together, but were divided into three large groups.

The front is the main force, the number of warships is over 100 million, and it is faintly divided into nine small legions. It is the second cosmic group of the Second Universe and their respective affiliated weaker fleets.

There is a small group on the left and right sides.

On the one hand, it is a fleet of the First Universe Alliance, and the number is about 20 million.

On the other hand, it is a miscellaneous army composed of small forces and many scattered alliances. The number of warships is only over 10 million...

After the three camps, the two camps at the rear obviously have been invisible for vassal, even if they do not want to admit it, but the facts are facts.

It's like the fleet of the three camps at this moment breaks through this faint light curtain from the dark world, and descends on the Sangzhi star field. The two weaker camps with too few warships can only watch in the back and go to the front. Going straight to Sang Zhixing, it is the hundreds of millions of warships from the nine universes of the Second Universe!

In fact, if the number of these two warships that are not followed is too small, the overall strength is far less than the two camps of the two camps, and there are several immortal monsters sitting in the town, the number of warships ahead is more than 100 million. The number of the second universe of the nine major ethnic groups, I am afraid that I have already lost my head, will continue to follow the two weaker fleets, swallowed!

Among the two camps with weak overall strength, there are more than a dozen immortal monsters.

In the front of the army of over 100 million warships from the second universe of the Second Universe, the number of immortal monsters is only more than 30.

If you turn around and want to swallow the two camps behind, you will definitely force the two weaker camps to join together. By then, the two sides will have more than 30 immortal monsters, the top level of combat power is flat, the balance of the battle, basically not There may be too obvious dumping...

It is for this reason that the infighting between the three camps has never appeared.

In the long and lonely starry travel that lasted for a year in that dark world, this kind of infighting did not appear, so now, it has entered a new universe of voids, and there is a lot of life in front, representing The emergence of foreign interests... This kind of infighting is naturally less likely to occur.

However, after all, the overall strength of the battleship level between the three camps is too great, even if the spearhead is unanimous, the tacit agreement on the interests of this strange star sky will obviously be the second universe in the lead. The large ethnic group coalitions eat meat, and the weaker first universe of the universe, behind the fleet of the alliance with the parties, followed by soup to eat bones!

Although this situation is resentful, the situation is so unrecognizable and can only be recognized.

Just like this moment, after the first come of this cosmic starry sky, it is determined that there is a life star with a strong life in front, and the two weaker fleets following the invisible have reached a consensus... this first, they Will not intervene, handed over to the front of the second universe of the nine major ethnic groups in the army!

This is both a helplessness and a statement that everyone knows well, and each other defaults and accepts...

In front, the total number of warships exceeds 100 million, and the second universe of nine major ethnic groups is divided into nine small corps.

These nine small army regiments, in addition to the second cosmic **** clan, Qingpeng, war lion, silver sui, barbarian, golden eagle, Cailu, greedy wolf and tree spirit, etc. The nine top groups in the top ten are headed by each of the small legions, each with a fleet of the weaker ethnic groups that are also from the second universe, but not among the top ten, as vassals.

Basically, the nine small legions, each with a fleet of more than 10 million, are between 11 million and 12 million.

As for the immortal grotesque, each of the nine small corps has three to four!

Right now, there are three to four immortal old monsters in the center flagship of each of the nine small legions, and a video conference is underway.

The object of the meeting discussion is Sang Zhixing, who is less than ten million miles ahead.

The meeting was short and it was over in less than ten minutes.

Because there is nothing to discuss at all, the more than 30 immortal grotesque from the second universe of the nine small corps have unanimously reached a consensus, and immediately took the life stars in front of them with lightning speed.

However, due to the first arrival, I am still not familiar with this strange starry sky. In order to enter the depth zone and pluck more resources, they obviously need guidance.

Therefore, although the main direction of the meeting does not need to be said, it must be surrendered, but in the way of surrender, all the immortal grotes have their own opinions.

Some advocate a comprehensive slaughter, take resources away, and move on, rushing to the next life star...

In some cases, it advocates the recruitment of the main, and regards the life-like creatures of this life as a bridge to understand this strange starry sky, and absorb them, making it a guide for subsequent conquests.

In this way, you can conquer this strange and vast void more quickly!

The final result of the vote is that the immortal blame that claims to be surrendered exceeds 60%. This matter will be settled and there is no objection!

As the most powerful **** clan of the nine major ethnic groups, this time the coalition forces entered the first battle of this strange star field, they naturally do their part.

The **** clan has come to four immortal grotesques, including even the three-jawed dragons who have already secretly voted for Ye Xuan!

At this moment, these four immortal grotesques have already gathered in the center flagship master control room of the **** Yi people's tens of thousands of warships. Through the holographic stereo screen in front of them, we can see Sangzhixing, which is only a million miles away... ..

In addition, the powerful gods of the four immortal geeks, such as the Dragon Claw Dragonfly, have already been extended, and the entire Sangzhixing has been swept through the distance of a million miles.

The result of the sweeping of the gods made them somewhat interested.

"It seems that the rest of the planet is full of some ancient people, and the number is quite a lot. It is quite impressive, and there are tens of millions of giants..."

"Unfortunately, the cultivation is too bad, and the strongest is actually the nine-order grandeur of the universe. Although there are dozens of them, in the near future, it is obviously impossible to break through."

"Oh, there isn't even an immortality. The old man really can't afford to be interested. There is no need to fight. The direct recruitment is..."

The last sentence is the words spoken by the three-jawed dragon.

After the words, seeing the other three tribes as the most powerful existence has no objection. He even shouted to the tens of millions of ancient survivors on the entire Sangzhixing. "The ants on this star are listening, you...have been captured!"

Chapter 4223: What about silly music?

When more than 100 million warships descended on the Sangzhi Star Field passed through the dim light curtain, from the dark world on the other side of the light curtain, when they invaded the Sangzhi Star Field, the ancient survivors of Sangzhixing, I found it in a moment.

Just as the huge fleet of these three camps marched toward the Sang Zhixing from the edge of the dim light curtains more than 10 million miles away, the more than 30 top tribes who were retreating were already in their tribes. The strongman wakes up and goes out at almost the same time.

But they soon discovered that there was no connection to the Lord at all, and the number of warships was more than 100 million. Obviously, the powerful fleet from the same world, that is, the three major stars in the world, is rapidly Approaching the ground...

In the face of this situation, just out of the customs, and repaired to the strength of the nine tiers of the nine major thrones of the universe, more than 30 high-level executives, the initial panic.

But very quickly, when the four immortal old monsters of the **** scorpion launched their knowledge and swept the whole territory of Sang Zhixing unscrupulously, they suddenly did not panic, and almost all of them recovered between a few short periods of interest. calm.

These four sweeping gods know that there is only immortality.

In this case, what else is it?

Speaking of it, they are more than 30 people, and now they are half-step immortal. I really want to elaborate on it. There is not much difference between the strength of the other side and the strength of the other side. Is it not a few small steps?

In the past year, they have retired. They have more than 30 people. Which one has not broken through a few small steps?

In this way, the four guys who shouted Sang Zhixing with the sacredness of the gods and swept the unscrupulously, but it was only a year or so of repairing the gap...

Give them a year, they must catch up with each other.

For another year, you must absolutely leave the other person behind you!

With such a thought, how could my heart still feel fearful and scared?

What's more, there is still a powerful and powerful master behind Sang Zhixing, not to mention four immortal grotesques, even if they turn ten times, forty immortal grotesques are swarming at the same time, and they are definitely not rivals...

Half a day ago, the Lord was still here, and it seemed to be deducing what was left in the void in the other direction.

Although I don't know where to go, it's obvious that I'm only just leaving for a while, maybe I'm going back to my head and I'm coming back!

When the thoughts floated from the sea, the more than 30 tribal executives were completely determined.

In fact, it's not just them. The tens of millions of deserted tribes in the whole sangzhixing, the tens of millions of ancient relics in thousands of cottages, all in their minds...

After all, Ye Xuan's power has long been deeply rooted in the hearts of the people. In just a few days, he broke through the six starry banned areas, all the immortal savage beasts, all killed... all this, giving them the impression, too deep!

It can be said that in the face of this powerful battleship army, the tens of millions of ancient survivors on Sangzhixing quickly calmed down after the initial brief panic, and they planned to go to the meeting again. Why are you doing it, maybe you will be back soon, and he has to deal with it, and they don't care!

For this reason, when the three-jawed dragons uttered a sense of endless superiority, even the sound of words of sorrow and sorrow sounded, when the whole sangzhixing was spread, the tens of millions of people in the various villages in the atmosphere were strong. After a slight glimpse, all of them suddenly grinned...

captive?

Are you kidding?

The commander of this powerful fleet is too funny, this so-called captive... It should not be his own?

It is estimated that this is the case. The temper of the Lord is not good. When he is absent, he actually gets a fleet and wants to capture the tens of millions of princes on the account. Even more arrogant is the leader who is always immortal. Nothing is repaired.

A few ordinary immortal people took the big flag to stand out and arbitrarily arrogant, five people and six people, this matter ... the Lord can not stand it.

Think of it this way, Sang Zhixing's face on the tens of millions of survivors' strongmen, all of them suddenly showed a smile of gloating, a joyful atmosphere, which grew rapidly in the atmosphere of the whole star, and spread and rendered... ..

All of this did not escape the sorrows of the four **** scorpions, such as the Three-Pronged Dragon, and they were clearly and incomparably reflected in their minds.

In fact, it's not just four of them that capture this scene.

At this time, there are more than 60 immortal grotesque, and a large number of cosmic monsters, lords, and domains in the three camps that have stopped in the universe of thousands of miles away. The main grotesque and the star lords, almost all of them have begun to realize the knowledge, or the light, or sneak up the scene in the atmosphere of Sang Zhixing.

Therefore, it is almost a lot of people who see the world's strong people in this scene!

And the scene captured by the gods sweeping is really too weird...

In the face of a powerful warship army, and their overall strength is far weaker than the other side, it can be said to be disproportionate, completely incomparable... This group of ancient survivors, actually still have a mood to laugh?

And not a couple of people laughing, all over the entire star inland, without exception... all laughing!

Such a strange scene, instantly let all the people stunned and opened their mouths, responsible for the **** four immortal monsters of this battle, and even slightly worried about the whole life star in front of the gods, It was carefully raided inside and outside.

Even the other abandoned stars around the star are so... to prevent the overly powerful presence from crouching on these abandoned stars and being ignored.

But the end result is nothing unusual!

Among the life stars with tens of millions of ancient survivors in front, the most powerful existence is indeed more than 30 ninth-order great perfect guys in the universe, and these more than 30 half-step immortal, obviously belong to this star ten The core of several top-level forces, the result of the sweeping of the gods, has been clearly demonstrated.

This result makes the immortal grotesque of the four **** scorpions, such as the three-jawed dragonfly, completely relieved.

At the same time, my heart was suddenly relieved, and there was even more anger. It suddenly floated at this moment!

As an immortal grotesque, they were almost scared by a group of ancient survivors who had obvious problems in their brains. If they were passed out, they would be shameful.

Even if it didn't spread out, it was obviously uncomfortable in my heart, and I was bored in my chest.

One thought of this, the three-jawed dragon immediately picked up his eyes, and once again passed the voice of the gods, covering the entire sangzhixing.

In the next moment, a voice of God who clearly showed the meaning of shame, suddenly sounded in the atmosphere of Sang Zhixing, and passed into the ears of all the benevolent strong: "You two groups of scorpions, what are you going to die?" Give you three minutes, the top forces of all major forces will come and drop immediately, otherwise... the deity will be killed!"

Chapter 4224: Feng Wang Weili

With the sangzhixing tens of millions of miles away from the starry sky, the Ye Xuan chose to use the abandoned stars to close the breakthrough..."

Hey! "

"Oh la la..."

At this moment, Ye Xuan closed his eyes to the top of a giant peak of this abandoned star.

It's been a small retreat from his practice. It

The swallowing of a few drops of sinister source in the abdomen, and hundreds of cubic meters of purple gold top flesh and blood medicine and other cultivation resources, after turning into a majestic hot energy, has now stirred up in his body, ran into dozens of big Sundays. in

During this period, Ye Xuan's body has been ringing the sound of the chain.

An invisible human body chain, after swallowing these cultivation resources, appears in his body, invisibly.

As long as it breaks through it, tearing this chain of shackles and repairing Ye Xuan's strength, it will once again get a small step breakthrough. Do not

However, after the cultivation of his deity has been promoted to the immortal world, there are still many human body chains remaining in the body, but each one has already become tenacious, far from being sealed before immortality. Those that have appeared are so easily broken and torn. whole

For the whole time, Ye Xuan has always suffered from the extreme pain from the flesh.

The body's fierce energy, like the river, burns every inch of his flesh and bones almost every moment... If he has come all the way, even this kind of inhuman torture has long been used to it. This time, if you change to someone else, you are very likely to break through!

For half a day, the sound of the shackles in Ye Xuan's body has not stopped for a moment, which also represents the pain he suffered, and there is no moment to rest... but

Nowadays, this is obviously coming to an end. This

A breakthrough is coming to an end! "

call out! ""

Oh..."

The faint sound of a few unknowable sounds, quietly sounded at this moment, the body of Ye Xuan, who had always been faint, has burst into an endless glow. This

For a moment, he has a surface of one hundred and eighty thousand pores, all of which are shining out of the stunned auspiciousness, the treasure is shining, can not look directly!

The majesty, like the mighty river, is like a magma, and the energy that has been rolling in the limbs of his body has finally been completely exhausted. and

The sound of the chain of shackles that has been continually in his body for half a day, at this moment, is also completely rested and completely disappeared! leaf

Xuanyuan opened his eyes and deep in the bottom. After the first breakthrough, it was not the kind of excitement and excitement, but a touch of faintness with obvious intentions of exhaustion...

This time, the time it took was really too long, and during this period, he was suffering from the unprecedented pain all the time... it's hard to say!

Fortunately, everything is over at this moment.

With the arrival of the breakthrough, Ye Xuan's mind finally sounded a familiar system sound..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: seal the immortal third order! ""

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: seal the immortal third order! ”

Prior to this, the realm of his deity was the second dimension of immortality. Once the three-headed and six-armed Taikoo konjac bloodline was provoked, the strength rose again and climbed directly to the third stage of the immortality. If

It is to display the konjac and change the magical powers, and reach the sixth change, and it will be able to reach the horrible strength of the immortal ninth order in an instant. and

Now, with the revision of Ye Xuan's deity in the ordinary state, he has to break through, and he is promoted to the third stage of immortality, which is the peak of the initial stage. Once he activates the blood of the konjac in the body, he enters the sixth place of the konjac. change.

The peak force will be able to reach the first stage of the imperial kingdom, directly crossing a big realm, and finally can feel the majestic power of the imperial king in advance..."

The king of the king is immortal, although it is only activated in the body of the konjac blood, and the magical power of the konjac is changed, and it is obtained in the state of the sixth change..."

Holding a pair of fists tightly, Ye Xuan's smashed a slap in the face of an unprecedented brilliance. At this moment, the passion in his chest was like a sigh of relief, and he looked up and shouted: "But anyway, this is... I The power of a certain possession!"

In the next moment, Ye Xuan directly activated the blood of the Taikoo Konjac in the body after a roar of his head!

"Hey!"

The anger also spread, the power of Ye Xuan's body instantly rushed like a surging river, rolling in a mighty, momentary, physique, like a balloon that was inflated, quickly swelled up. One

The three-armed and six-armed Taikoo konjac appeared in the void, and the three real bodies of flesh and blood, cheekbones, and black fog were amazing. The body reached a height of ten feet, three heads and six arms, and the atmosphere in the body was fierce. . "

Roar! ""

The konjac changed nine times... the first change! "also

A roar, the body shape of the ancient konjac instantly skyrocketed, and thus the previous ten feet high, reached the current hundred feet high. With

After that, a similar scene appeared several times in succession..."

Roar! ""

The konjac changed nine times... the fourth change! "

The fifth roaring voice came out, the scorpion type of the three-headed and six-armed scorpion of the Taikoo konjac, after entering the fourth change, soared to 100,000 feet. "

Roar! "

"The konjac changes... the fifth change!"

It was a roaring out, the shape of the Taikoo konjac still skyrocketed tenfold, reaching a giant of a million feet, and this stopped. At this time, the repairing atmosphere in the body has already reached the end of the ninth order. Complete!

However, this is still not the end of the end, Ye Xuan has long been eager to feel the immortal power of the king. magic

The sixth change is imperative!

"Roar!"

The konjac changed nine times... the sixth change! "

The last slamming, the original has reached a million feet, the shape is like a small star-like Taikoo konjac, and instantly the body has skyrocketed ten times, reaching the horror of the tens of thousands of feet.

This type of body is absolutely comparable to the average small star.

The repairs that have been dispersed in the body have suddenly broken through the barriers of the barriers in the realm of the realm, and have completely reached the peak of the current level that can be reached. "

Is this the immortal power of the king? "sense

Affected by the horror of the body to the indescribable majestic power, Ye Xuan hangs his head, and the scorpion is full of sorrows and sorrows. He looks at his own giants, and compared with the stars at his feet, they are too small. Terror type. Mutter

Whispered: "Now, the star master feels that a punch can smash a small piece of void, not a simple void, but completely... funeral!"

Roar....."

The heart is stirring, the giant scorpion of the giant body is so arrogant, the snoring from the throat, a starry storm is formed in an instant, and an abandoned star in front of it is like weathered, the rock formation is rapid. The ground layer peeled off, and eventually the smoke flew out!

Chapter 4225: Big mistakes

After confirming the life star in front, there is no such thing as a big squat in the dark, and under the shame of the three-jawed dragon, the second **** voice is heard. This

Once, he only gave the other party three minutes. Within three minutes, if the core high-level members of the major forces in this life star did not rush out of the atmosphere of the stars, they came to the sky in front of themselves...

Then, considering the voting results of more than 30 immortal eccentrics of the Nine-Family Coalition Forces, it is impossible for him to seriously kill all the ancient survivors of this life star. but

The dozens of high-level elites in the ninth-order universe that were locked in the previous sweeps of the universe are absolutely unstoppable.

As a man of immortality, he has been tweeted twice, and the second time he even pointed out that dozens of half-steps in the life star in front of him have come to the ground, but they actually Dare to ignore...

So, if you don't kill it, why is it so effective?

Three minutes of time, almost swaying...

The final result is that the three-jawed dragons are almost on the spot, even the nearly seventy immortal monsters who are closely watching the internal situation of the life star in front of the three camps, and a larger number of cosmic monsters. The lord of the landlord and the lord of the domain owner, etc.... At this time, the look on the face also reveals a lot of unhappiness and indignation!

The indigenous benevolents in the life star in front are too unruly, or do not know how to live and die, may seem more appropriate! three

In the three minutes after the second sacred voice of the claws, the tens of millions of indigenous people in the atmosphere of the whole star clearly heard the sound of the warning, which is full of warnings, but They are still completely ruined one by one.

What do you do or not? Occasionally, some people look up to the atmosphere above their heads, and their faces are all the kind of ridiculous look...

"Roar!"

"Damn, the indigenous people in this star, are they really all two fools?"

Discouraged old man..."

For this embarrassing scene, even if the three-jawed dragonfly wants to strengthen the face, it is impossible. Even if he growls up, the words reveal a strong sense of anger.

A powerful and immortal grotesque, actually by a group of indigenous people who have problems with their brains, almost suffocating to the old blood...

I was too unlucky. I thought that this battle was a face-lifting thing. I didn't expect that the war had not started yet, and my face was almost lost. this

At this moment, his heart is almost remorseful. bump

On such a group of two fools, don't say that it is him, even if it is useless to seal a immortal, it must be mad at half. from

It's still a bad year, and I've run into this unfortunate thing! With

These thoughts flashed in my mind, and the anger of the three-jawed dragon's heart was getting more and more flamboyant. The sound of roaring roar in the mouth was still not finished, and the figure was already under the sway, from the center of the **** people at the foot. The flagship fortress rushed into a mans, with the anger of the sky, toward the life of a million miles away from the life ... spurt away!

He decided that this time he entered the atmosphere of the star, there is no need to say anything more, so that he would not be tempted by the two idiots, so that many powerful people behind him could see jokes...

After entering, directly shot, and all the nearly 100 universe monsters in this life star can be killed in one fell swoop. Such as

Therefore, it should be able to achieve the effect you want. This

Although the indigenous people of the group have problems in their brains and can't understand the human language, they should still be able to understand the **** facts in front of them. To deal with this stupid, stupid native, you have to use this most direct Way, the most ferocious means! "

call out! "hundred

The distance of thousands of miles, for the three-jawed dragonfly with the sixth-level repair of immortality, it is not far from how far, between several breaths, his figure has turned into a streamer, spurt Blinking to the outside of the atmosphere of the life star in front. only

If you need to step in, you will be able to step into the interior of the star and kill you!

At this moment, the old gods in Sang Zhixing were there, and the hearts of the people who were worried were not satisfied. The high-level people who were not worried about it were subconsciously referred to the eyes of the blind. Make

For the strong universe, their gods have already passed through the atmosphere, and they have been closely watching the situation outside of Sangzhixing. although

It is said that all the people are sure that the Lord may return at any time, but at the moment, this huge fleet that has come from the invasion, after two warnings of the whispering of the gods, has now been under the horror of an immortal grotesque. I rushed out of the battleship and ran into the atmosphere of Sang Zhixing...

In the next moment, the other party only needs to walk through the star atmosphere and enter the interior of the star. Session

When the **** killings must come for the first time... This immortal old monster is obviously not mad at the moment, now anger comes, not killing, can you still chat?

These thoughts flashed through my mind, and the high-ranking tribes of Sangzhixing, who were concerned about the situation outside the atmosphere, suddenly worried about it. although

Said that this deceitful immortal grotesque must be blamed by the Lord afterwards, I am afraid there is nothing to end, but before the Lord returns, if this person really let the person step into Sang Zhixing... blood flows into the river, the people Being strangled is obviously inevitable.

At this moment, dozens of half-step immortal repairs of Sang Zhixing's major tribal cores, all of them have smashed the cold cold of Mang, without any agreement, all people will subconsciously rush out of the atmosphere, will The other party intercepted. although

It is said that there will be a **** battle, but for the survival of the tribes, they have no choice... What's more, if you choose to be a tortoise, then once the Lord returns, they can't escape the punishment! "

Roar....."

Almost at the same instant, in the tens of thousands of steps in the tens of thousands of worlds, the half-step immortal is about to rush out of the atmosphere, from the end of the empty space at the far right of Sang Zhixing, suddenly there is no sign There was a terrifying madness in the ground! only

It's just a madness, perhaps a tens of millions of miles away from the void... but at this moment, the entire innocent starry sky shivered slightly.

The sangzhixing at the foot is like a hurricane blown by an invisible starry sky. The whole place is shaking in the void, a few times! positive

The three-jawed dragonfly that straddles the Sangzhixing atmosphere is even more fierce at this moment. After a sudden slamming, the subconsciously follows the end of the void at the far right and looks at the past.

In the mouth, there is even more exclamation, just like the conditional reflection, exclaimed: "This breath... the king is immortal?"

God..."

Big... big slap, impulsive, this special... is a misunderstanding! "

Not waiting for his words to fall, the virtual air in the far right, a horrible figure of up to 10 million feet, there is no warning... quietly appeared!

Chapter 4226: Don't want to run one

The body's majestic Wang Chuanli made Ye Xuan very excited. After the arrogance of his hair, the excitement in his chest control was roughly catharsis, and his heart was calmed down. under

Consciously spread the horror of the kingdom of the kingdom, and swiftly swept the universe of the billion-mile universe. Ye Xuan immediately learned everything that happened around Sangzhixing, which is tens of millions of miles away... .."

Is it finally here? The leading army is actually the coalition of the nine major groups of the Second Universe, so... "

Under the flash of the fine mans, the body shape of Ye Xuan's movement has disappeared. and

Today, he not only activated the blood of the ancient konjac in the body, but also transformed the blood of the konjac into a sixth change. The horrible power, tens of millions of miles, just a sway, it has already passed...

However, considering that it is not suitable for exposing his true identity, Ye Xuan has already swayed the body of the three-armed, six-armed konjac in the body of the scorpion and the body of the black

fog, leaving only flesh and blood. The body, but also made some small changes, showing the appearance of the form, it is like a starry sky!

In the next moment, his figure spanned tens of millions of miles away from the starry sky, appearing in an empty space just a few million miles away from Sangzhixing.

Although there is no sound in the past, there is no warning in advance, but at this moment, whether it is the twelve major tribes on Sangzhixing, the large and small tens of millions of survivors, or the three camps outside the atmosphere. Innumerable star-studded powerhouses in various types of warships are also marching towards the Sangzhixing atmosphere, and want to enter the three-pronged dragons killed by this star show...

In the emptiness of the square, all the gasps that can breathe, at this moment, all because of the inexplicable fear of the heart, subconsciously projecting the line of sight to Ye Xuan...

The shape of the body is tens of thousands of feet, and the scent of the body is restrained, but even so, it gives people a feeling of destroying the earth... At this moment, Ye Xuan's starry and invincible posture is clear and incomparable. And almost immortal engraved in the hearts of everyone!

The three-jawed dragonfly responded the fastest. As the body trembled and slammed, he subconsciously screamed on the spot: "This breath... the king is immortal?"

"God..."

"Big big... don't be impulsive, what's special... it's a misunderstanding!"

In the next moment, the universe of the universe beyond the millions of miles of Sang Zhixing, the world's three camps, which are only one hour away, have been smashed in the sky. The desperate exclamation of the road..."

The king is immortal? Actually, the king is immortal..."

It's over, this is over, no wonder these indigenous peoples are so surprised, people are completely fearless! ""

The deficits also regard people as two idiots. Is it really good for us to have a problem with our brains? A group of ordinary immortal, with hundreds of millions of starships, actually attacked a life star of the immortal protection of the king..."

"Escape, there is no suspense. The other party is not only immortal, but also a starry sky. This kind of blood is the most violent, and it is not sensible at all. If you don't escape, you will be degraded today!"

In a place where you are in a ghost, just jumping out of a strong person is the immortality of the king. Does this make people not live? Go to escape..."

boom! "

"Booming..."

... with

These exclamations sounded, and there were countless battleships in the three camps. In an instant, the horsepower was fully opened, and he turned around without hesitation, rushing toward the light curtain of the later road...

Hundreds of millions of various starship warships, only to arrive at this strange starry sky, only one hour, except for the three-jawed dragonfly, everyone else, even in the future, can get out of the battleship at the foot and experience it personally. Let's take a look at the atmosphere of this starry sky. At this time, it is like a dog that is mourning, and hurriedly turned around, wanting to escape! "

Today, you... don't want to run one! "surface

For all of this, Ye Xuan's utterly cold and incomprehensible words have not yet fallen, and his huge horrible and violent body has disappeared in place. under

For a moment, when his figure reappeared, he was already more than a million miles away, holding his arms and standing in front of the dim light curtain leading to the dark world, blocking the shackles of everyone. The way to escape!

Seeing this scene, countless warships that have escaped from all directions have suddenly stopped in the void, and there is a king in front of them who are immortal, even though their giant size is compared with the wider faint light curtain. It is really nothing, there are more gaps on both sides of the figure, which can accommodate the entire fleet. but

All the warships, but no one dared to rush forward, it is absolutely no different from sending death.

After a short silence, within the fleet of the tribes of the three camps, some immortal grotesque sounded mad roaring roar. before

If the road is blocked, you will not be able to leave this **** strange void, and stay, facing a king of immortality, waiting for them, except for the fall, there is no other possibility.

Anyway, the horizontal and vertical are already dead, leaving no vitality here, rushing into the faint light curtain in front, there is still a trace of escape from this place, the possibility of returning to life. for

This line of life, all the immortal blame all spelled...

"Blasting! All the battleships, immediately bombarded..."

"In any case, you must blast this starry sky. Otherwise, if I stay here, I will die.... God, if I knew that there was a king in this place, I wouldn't come to kill the old man! ""

boom! ""

Booming..."

.....

As these roaring sounds from the immortal geeks of all ethnic groups sounded, the following fleet commanders did not hesitate any more, and immediately issued an order to launch the guns and launch bombardment. One

Time, innumerable and numerous sizes of naval gun energy beams, like if you don't want money, slamming into the starry sky.

In the face of this scene, Ye Xuan was furious on the spot!

With his current cultivation as the strength, coupled with the huge and powerful body of the giants, the ordinary naval gun energy beam can no longer bring him harm, unless it is the anti-material dead light cannon of the big and big fortress. Energy beam.

However, among the three battleships with more than 100 million, the size of the fortress is quite small, but it is only about 20%. It is also scattered in the vast empty space in front of it. With the strength of Ye Xuan, avoid these sporadic The anti-material dead light gun energy beam of the scattered hair has no problem at all. body

Under the sway, he has already rushed out, blinking at the front of a fleet, and slamming his fist!

"boom!"

Rumble..."

The sound of the blasting sound came out, and after a punch, hundreds of warships were instantly turned into fireballs. Among them, the three wolf-eyed figures fell from a big fortress and rolled into the void...

Chapter 4227: Captive legion

As the warships exploded, other repairs were weaker, even if they were strong in the universe, none of them escaped. The energy that was blown up by the warships tore the body, was the boxing of Ye Xuan. The horror impact is shocked by flesh and blood.

More than a hundred ships of all kinds, all blasted, only three live, these three guys, all are immortal grotesque, and also from the second universe of the nine major groups of Qingpeng. This

More than 100 warships, all belonging to the Qingpeng people in the Second Universe and the Nine-Family Coalition, and one of the big fortresses, is the central flagship of the Qingpeng Legion. leaf

Xuan is deliberately staring at this side of the shot. The hundreds of millions of warships around the world are all under the command of the immortal geeks of all ethnic groups. Want

If you want to stop all this, you must take the immortal blame. only

Even he did not think that the flagship fortress of the center that he was eyeing was actually the Qingpeng from the second universe. Speaking of it, the relationship between the family and Ye Xuan was really not good. thing

In fact, among the top ten ethnic groups in the second universe, except for the tortoises that have already been sealed, the other nine ethnic groups are all the same, all of them are the enemies of Ye Xuan.

Although Ye Xuan became the star of the Tianhe Star, the relationship between them has eased, but from this time the second universe of various ethnic groups blocked the wormhole, and did not allow other ethnic groups and powerful forces outside the plane to enter the second universe. Look, these guys are obviously still the same.

Everyone is just a superficially peaceful one. In private, there are still calculations.

In this way, Ye Xuan naturally has nothing to lose, and there is no psychological pressure at all...

At this time, the body shape just fell out of the central flagship fortress that exploded into a fireball. The three immortal geeks of the Qingpeng people changed their faces in the first time and asked Rao to blame...

Great... big bang, don't be impulsive! ""

Right, there is something to say, the impulse is the devil..."

Misunderstanding, misunderstanding, this is definitely a misunderstanding..."

While asking for mercy, these three guys are more quickly stunned and retreat. Whether it is words or actions, they are fooling Ye Xuan. "

You three old guys, when the king is as stupid as you? "leaf

Xuan was so angry that he was too lazy to talk nonsense with these three guys. The reason why he shot was originally to kill chickens and monkeys. If these three old guys are honest, now they still want to fool him, then there is nothing more polite. . "

boom! ""

Oh..."

As the starry sky violently punched out, the three immortal geeks of the Qingpeng people who are rapidly retreating quickly blasted in the flesh and turned into a **** fog, and they were spiked in the blink of an eye. "

Dare to shoot the king, or flee, this is the end..."

Punched burst three immortal odd, leaves Villa Bianxiang the first turn around hundreds of millions of warships away stare, mouth came shaking roar, no breath or two, like a god! versus

At the same time, the three **** fogs formed by the three immortal geniuses of the Qingpeng family were also swept into the body by his first wave and directly sent to Shennong Ding in the immortal world.

Right now, he did not want to expose the identity of Xuan Ye, therefore, not just form Swire magic ape should not be revealed, even Shennong tripod can not be resorted to, but fortunately burst open directly involved in the body of Xue Wu, Shen Ding into among expand Hematospermia condensed, the effect is the same, there is no improper.

Huasheng Yau off the occasion, in his immortal Shen Ding industry in vivo, these three tents had already been condensed Xue Wu became a monumental three-level sperm blood, leaves Villa directly into the central region of the bottom of the volcanic cave sealed the collection up for another day refining twenty-two Dan, as well as taking the time to retreat this breakthrough

Engraved, with the leaves Villa Thunder shot, punched explosion hundred ships all kinds of warships, followed by another very Jagged be blasted punch again, buried off three powerful immortal odd, surrounded by originally being bombarded salvo All the battleships, as soon as they were scheduled, all stopped the bombardment. tight

Then, as the sound of a weak vacancy sounded, the figure rushed out from the central flagship fortress of the various ethnic groups in the distance, and hesitated and smashed to the side of Ye Xuan... One

Looking at it, there are a total of sixty-two such figures, all of which are immortal. This

Helping the guy clearly recognizes the situation, knowing that facing such a powerful king is immortal, wanting to create chaos and fleeing, it is simply impossible, don't look at them, there are sixty-two immortal, but people just now Just knocking on the three punches, I really want to destroy them all, but it is just a few more punches. versus

This is not as good as a temporary soft, and then find ways to escape. complete

In fact, since this starry temperament only requires all warships to cease fire, and does not allow anyone to flee, instead of directly rushing into the fleet and making a big shot, it is very likely that he is not going to smash all the people. Kill... So, you have to talk! "

Why, don't you run? "see

These sixty-two immortal grotesques all came to the front, divided into several circles in front of the void, maintaining a certain safe distance, all faces are full of vigilance, Ye Xuan immediately laughed sound. Correct

Therefore, all the old guys were bitter, some people sighed, some were speechless, and although they didn't have a snoring, they all shook their heads. very

Obviously, this is a rhythm that implies the fate of life. At least on the surface, it has already surrendered, and dare not say anything else.

For this kind of performance, Ye Xuan was quite satisfied. At the moment, he nodded and raised his hand and pointed it to the surrounding: "Since you have not escaped, from now on, you, including all the battleships behind you, and the warships. Any life...all captured by the king!"

captive? One

The group of immortal geeks have big eyes and small eyes, and their faces are full of strange colors. he

They can naturally understand the meaning of Ye Xuan's words, but... a powerful king is immortal, what do they do for them? Don't look down on the number of old monsters, more than sixty, but there isn't even a seal in it, you can't afford to beat him a few times.

Even though the number of star warships behind the crowd is more than 100 million, it is obviously even worse if it is to be compared with the immortality of a king. One

Time, these sixty-two immortal grotesques, all of them are awkward, can't do what Ye Xuan's purpose is! "

From now on, all the warships have been reorganized and reorganized, and ten small corps have come out... These ten regiments are united together, which is the captive army of the king! "

Just as the old guys were all secretly stunned, Ye Xuan had once again made a sound, and directly solved the doubts of their hearts. Say

In half, Ye Xuan's line of sight was recovered from the massive warships in the distance, and once again fell on the sixty-two immortal grotesque who were stunned. After a little thought, he continued: "As for you, form a parliament. For the king to lead the captive army, the name of the parliament... It's called the captive parliament!"

Chapter 4228: Cheeky and pleading

"thump!"

"thump....." ...

...

Ye Xuan's words just fell, and the sixty-two immortal monsters in front of him were almost turned into the void by the scene. this

At the time, they basically understood the intention of the large fleet of Ye Xuan captives. If there were no accidents, they should want to build them into a military and rip them into the shape. complete

Actually, although the other party is strong, it is immortal for a tyrannical tyrannical king, but this kind of galactic field is not likely to be alone.

The indigenous benevolents in the life star that he was holding were very weak, so naturally they looked at the powerful fleet behind them.

Including their sixty-two immortal grotesques, they were also taken by the other side, and they were to be driven by the generals who led the troops.

This is nothing. It is not a shameful thing to give a king a piece of immortality. It is not a shameful thing. In the sky, it is originally a strong person. more

What's more, listening to the other party's meaning, it seems that the formation of the legion, disrupted and reorganized into ten small legions, then they will form a parliament to manage, the other party does not intervene. Such as

This gave them a high degree of freedom, even if they were not happy in the future, they would be able to escape from this star field.

However, the name of this legion is called the captive army. The highest council of the legion is actually named after the captive. Is this a bit too embarrassing? Discussion

This kind of organization listens to the high-end, but if you add a captive in front, ask a group of immortal monsters how to face to see people..."

Since you have no opinions, then this matter is fixed..."

When the old guys are bitter, hesitating whether to discuss with the name of the name and the lack of attention, to see if the name of the parliament can be changed, Ye Xuan has directly regarded them as the default. .

With a wave of his hand, he turned his gaze to the three-jawed dragonfly who was shrinking aside: "You look at this thing quite pleasingly. From now on, the captain of the captive parliament will be served by you!"

"Plop!"

Next, the three-jawed dragonfly was really directly planted in the void by Ray, and it was hard to get up. His face was already very bitter. At this moment, he wanted to stand up and tell the other person that he was not Something... No, it's not something. In short, the captain of the captive parliament, he doesn't want to be in any way. this

After the return to the Second Universe in the future, it will surely be preached. By then, the so-called captive army and captive parliament will surely become the laughing stock of countless powerful masters of the three starry stars in the world. military

The members of the regiment do not care at all. The warships are more than 100 million ships. The number of strong people in each group is more. Who knows which one?

Even the other 61 members of the captive parliament have a large number of people. When the matter is spread, it is impossible to name it. only

There is his speaker, but he can't escape anyway.

When I think of people coming up with this shameful thing, the name mentioned must be him as the captain of the captive parliament. The three-jawed dragon has a feeling of being in love, and almost rushed to cry...

Seeing this scene, another sixty-one immortal grotesque exchanged their eyes and expressed sympathy to the three-jawed dragonfly. At the same time, they all sighed with relief. In any case, the captain of the captive parliament did not fall to himself. Come up, thank you! "

Lord! "

"Welcome to the Lord to return..."

.....also

At this time, from the distance of Sang Zhixing in the distance, more than 30 figures came together, and still separated by a long distance, they shouted and excitedly met Ye Xuan.

These more than 30 figures are the top leaders of the twelve major tribes on Sangzhixing. They have just been called out by the elites of the tribes before an hour. Although no one has broken through into immortality, they are all The strength of the nine-order grand perfection of the universe is half-step immortality.

"Well? One year, all from the first into the universe, breaking through to the nine-step great perfection of this situation? Not bad..."

Xuan turned to look forward to it, immediately before the eyes, after approving two sentences, suddenly waved his hand, and immediately saw a fascinating glare toward the group of people, just thirty-six, the oncoming twelve Tribal high-level, one each. This

Thirty-six sacred, it is Ye Xuan taken out from the immortal world, only a few years ago, just refining a good 20-level liquid, a total of one hundred tubes, at the moment directly consumed a third.

The 20th grade liquid can make the universe's ninth-order great perfection and directly break through to the immortal first order.

At the moment, Ye Xuan has given a twenty-level liquid to the 36 high-level tribal high-level elites. It is obvious that they want to help them again, let them all break through and become immortal. Such as

As a result, among the survivors of Sang Zhixing, there are thirty-six immortal old monsters, and finally the strength is still too eye-catching.

Of course, the gene culture fluid is the technological product of the three stars in the world. Ye Xuan does not want to reveal his identity now, and naturally it is impossible to take it out as it is.

These thirty-six tube gene culture fluids were all compressed into Dan pills, which were only the size of the longan, the breath was strong, and there was no change in the efficacy, but it was absolutely impossible to see the gene culture solution. this

Engraved, seeing a secluded shot in front of the eyes, the 36-seat half-step immortal level of the high-level remnants of the high-level, all the faces are full of joy, after receiving, they have handed over to Ye Xuan, the feeling of the Lord's reward. "

This Baodan, you swallowed immediately after going back, and then retreat, if there is no accident, within a few days, you should be able to break through to immortality..."

Having said that, Ye Xuan is like a trivial little thing, and he waved his hand in a fluttering manner: "Go and go, remember to fix it after the breakthrough, and you have to practice harder in the future, and follow the king without you." At the time, when your cultivation is up to the ninth stage of the immortality, the king naturally has a better Baodan reward..."

It is enough to help you break through in one fell swoop...”

All this, I saw the sixty-two immortal grotes including the three-jawed dragonfly in the distance.

It was only then that they realized that the thirty-sixth steps of this life star were immortal, and only a year ago they just entered the universe.

In a year's time, I actually entered the environment directly from the beginning, and broke through to the nine-order great perfection of the universe! This

It's scary enough, but it's nothing compared to the so-called Baodan that they just got one each... it is good

Well, the breakthrough to the immortal Baodan can also be ignored, but ... can break through to the immortal Baodan, but it must not be regarded as not heard, the uncle's body, actually have such a good thing ? brain

The thoughts flashed through the sea, and the sixty-two immortal scorpions' scorpions were instantly red, and all turned to look at Ye Xuan, breathing quickly...

The three-jaw dragon, who has just been appointed as the captain of the captive parliament, is even more anxious to take a forehead. He blurted out: "Predecessors, this... you see that I am a speaker after all, is it a bit of reward? I am not a seventh-order The distance between the two steps is only two steps!"

Chapter 4229: a bright future

The words of the three-jawed dragonfly just fell, and the other sixty-one immortal grotesque around him also cast a contemptuous look at him. just

When he was named as the captain of the captive parliament, he was still an expression of incomprehensible love. All the people all cast a sympathetic look to him with a little comfort.

This is a blink of an eye. Once I heard that there is a great success in the ninth order of immortality, I directly broke through to the immortal Baodan, and immediately changed the color, and took the initiative to take the position of the speaker. I asked for a reward... even at the end of the discourse, I mentioned my own cultivation as a strength, and I was facing a breakthrough in the face of imposing, only two small steps. This

Is it unclear to suggest that someone will give you a treasure? simple

Straight shameless! Do not

If you can have such an opportunity, if you are shameless, you will get a breakthrough to the immortal Baodan. All the people present will not care about shamelessly. This

I thought, when the immortal old monsters looked at Ye Xuan again, the eyes suddenly changed again, and all of them were all green, and the wolf-like ones were screaming! "

reward? Do you want this? "for

After hanging up the appetite of these immortal grotesques, I willingly and even willingly play for myself in the future. Ye Xuan smirked and squinted at the face and turned it into another one in the immortal world. The tenth level Dan took it out and held it in the palm of his hand.

This moment, not far from the sight of the sixty-two immortal grotesque, all gathered toward the palm of his hand, one by one, and the breath was rushed. Take

Their cultivation is the strength, and naturally they can feel the atmosphere of this twenty-first Dane.

This is definitely a treasure that is comparable to the twenty-first-class liquid. It can make the ninth-order great perfection of the immortal, and directly break through to the immortal without any suspense...only

It's just this one, so it's enough to make the sixty-two immortal monsters on the scene crazy.

Although their cultivation is high and low, the high has reached the eighth order of immortality, and the low is only the second order of immortality, but even if it can not be used now, if it can get such a treasure, wait for future repairs. When the strength reaches the immortal nine-order grand perfection, once swallowed, within a few days, you will be able to successfully break through the big realm in an instant, and become a one-stop immortal!

Such an opportunity is absolutely a dream of any immortal blame. After all, under normal circumstances, the ninth-order grand perfection of the immortality must successfully break through to the immortality, at least for a thousand years.

And it is not a guarantee of success. Basically, there are a thousand immortal nine-order great consummations, and several of them can be successfully upgraded to be immortal, not as much as one.

Others, either stop at ordinary immortality for life, or fall down like this..."

Right, right, it is it... Xie Dawang rewards! "One

Seeing this Baodan, the saliva of the three-jawed dragonfly is coming out quickly. For him, the attraction and temptation of this Baodan is definitely more than the drop of evil source that Ye Xuan gave him. Strongly numerous times.

After all, the evil source liquid can not let his cultivation become the strength, directly from the immortal nine-order great perfection, breaking through to the immortal. see

Ye Xuan took Bao Dan out, this guy thought that he was really rewarding him, and his heart had already opened the flowers. Bao Dan had not yet gotten it, he thanked him first, and he was also respectful and respectful to Ye Xuan. Dawang, also thank the king for rewarding...

In an instant, the other sixty-one immortal grotesque around him turned up their eyes again and again, and they cast their contemptuous eyes on the three-jawed dragonfly, but among them, there was a clear and envious meaning. If

It is possible that they would rather change places! can

Unfortunately, all the people thought wrong, Ye Xuan talked and gasped, did not wait for the three-jawed dragon to rush forward, his giant palm turned over, and the Baodan was collected on the spot.

Not salty and not ruthlessly asked: "Who said that the king wants to give this treasure to you?"

Seeing that the three-jawed dragonfly that rushed to the front of the eye was petrified at once, and looked at Ye Xuan with a sigh of relief, the grief of a sudden sudden drop from the cloud to the bottom of the valley was quickly rendered!

Fortunately, Ye Xuan did not hit him again, but he continued to say softly: "On the one hand, your cultivation is not up to the ninth stage of the great perfection. Besides, give you the captain of the captive parliament, this is Already a reward, don't be too greedy..."

On the other hand, you have just been compiled by the king. The strength has not been established. Even if the strength has reached the ninth-order great consummation of the immortality, why should you apply for this level of Baodan as a reward? "

In a word, Ye Xuan has brought the topic to the right side. When it comes to this, all the immortal grotesques that are not far away are thoughtful, obviously waiting for their own texts. he

This was after the briefing, and then said: "In the near future, the king will lead all the vassals, and open the starry sky deeper into the void, conquering a strong starry ban site..."

Among the stars in the forbidden land, there are basically more than one immortal seal. This level of existence, the self-owned king shot, you are responsible, just the immortal banned beasts, and the fleet under the leadership of the squadron The forbidden beasts below the border..."

As for the profit from the harvest, the king and the lower part of the scorpion are only taking 70%, and the other 30% are watched by your prisoners of war.

"Remind you that the treasures in the hands of the king, as well as the savage and savage of all the survivors of Sang Zhixing, are all the treasures of these beasts, and the stars of life in the stars. The various spirits obtained from the above are refined."

"If you want to get Baodan, and quickly upgrade the blood of the treasure, you can accumulate military skills and apply to the king when you need it."

"There is another way, that is, when the 30% of the conquests are accumulated and the amount needed for refining is reached, then the king will be asked to refine the Baodan and the flesh and blood."

Upon hearing this, all the immortal grotesque eyes immediately illuminate, and even the breathing was once again rushed. complete

Actually, they entered this starry sky. They originally came to plunder resources. Although they are now captured, the things to be done in the follow-up are obviously not in conflict with their original intentions.

Although the profit is exploited to only 30%, but with the death of a king after the immortalization, the total amount of warfare obtained each time is far more than the weight they can get. Such as

In this case, Sancheng actually does not suffer at all.

What's more, now, in addition to the accumulation of warfare, the 30% of the accumulated profits in the hands of the team, in the future can also ask a king to immortal shots, refining can quickly improve the cultivation of strength, and break through the big realm of the treasure... This kind of thing is simply I can't find it with a lantern. The future is bright! One

With this in mind, the sixty-two immortal grotesque, including the three-jawed dragonfly, immediately broke the thought of yin and yin, and the whole heart became hot...

Chapter 4230: Before the war

Originally, the sixty-two immortal grotesque including the three-jawed dragonfly, for Ye Xuan's arrogance, only surrendered on the surface, and the heart has already calculated that Yang and Yin are guilty, as soon as they find the opportunity, they immediately take the ethnic ship. The faint light curtain when I fled, completely fled... but

Nowadays, with Ye Xuan's means of exerting it, the mentality of these sixty-two immortal grotesques has undergone a complete reversal.

Whether it is a so-called flesh-and-blood medicine that can make the first-time universe break through the ninth-order perfection of the universe within a year, it can still make the immortal grotesque in this ninth-order perfection, and smoothly break through the big realm in a short time. In one fell swoop, it was promoted to the immortal Baodan... For them, it is a supreme resource that can be met. and

And these things can't be found anywhere else. In the three major stars and the top powers of the world, there are also immortal kings, and even some powerful ethnic groups, even the emperor and the emperor are immortal. There are. but

They also don't have this kind of treasure.

What's more, isn't the guy who claimed to be the king already said it? The raw materials for refining these flesh and blood medicines and Baodan are the treasures of the forbidden beasts, the life stars in the stars, and the treasures of the top treasures that grow in the universe!

These resources, they can get here, and it is the most here, in the three major starry sky planes, where is this ancient starry sky, the property is so rich?

Combining all of this, the sixty-two immortal old lords set their minds in an instant, and decided to follow the leaves behind Ye Xuan to slash a starry ban in the depths of the void, and to do their best, not to grind the work, have passed . because

For each battle, the final profit will be distributed to them in 30%, and these three percent will be profitable. For them, for their ethnic group, they are clearly the future flesh and blood, and Baodan. what.....

After thinking about all this, it can be said that even if Ye Xuan wants to take these guys away, they will not do it, and the dead skin will follow behind Ye Xuan... seek rule and seek help!

Everything, the dust settled, and the result was that Ye Xuan was very satisfied.

At the moment, since everyone is their own, then the war is naturally impossible to break out again. Ye Xuan immediately lifted the sixth change of the konjac, but still maintains the state of the konjac in the

body, but only disappears. The two bones of the cheekbones and the black fog, only the flesh and blood that survived, have also changed into a starry temper!

In this way, his cultivation as a strength, from the immortal first step of the king, fell to the fourth stage of the immortality of the activation of the konjac, although it fell a whole six small steps, even across a large Realm, but with the strength of the fourth-order repair that is now immortal, it is still possible to crush these 62 immortal mortals, so Ye Xuan is not worried. more

What's more, the eyes of his old guys seem to be that the king is only because of the huge body of the giants, too inconvenient, so the body size has been reduced, keeping it at a height of ten feet. on

The continuous repair is the strength, it is estimated that because the immortal pressure of the king is too strong, even if it converges, but occasionally only reveals a trace, it is scary enough, so it is deliberately concealed and kept in the fourth stage of immortality.

In this way, naturally, I don't even worry about what the old guys are thinking about. One

After the scene was cut, sixty-two immortal grotesques quickly became alive.

Ye Xuan has already confessed just now. More than 100 million warships in the three camps have to be reorganized and turned into ten small regiments.

In addition, the commanding layer of the captive army, which is the captive parliament, must also be established immediately, and some clauses and clauses must be formulated...

Everything needs them to be personally involved, but the old guys are very busy, because the king said, and soon the first battle will be launched, that is to say, their first battle is 30%. War profit... I will get it soon! see

The old guys were busy in the void, dispatching the fleet, redistributing them into ten small corps after the disruption, and discussing and discussing the details of the establishment and operation of the prisoners. Ye Xuan nodded with satisfaction and did not go. Bothering them, the figure is swaying, even when returning to Sang Zhixing. this

Before, after getting a 20-level Dan who was rewarded by him, the thirty-sixth half-step immortal high-level of the 12 tribes of Sang Zhixing, after returning to the interior of the star, had re-opened again in the first time. A breakthrough in the realm.

Ye Xuan returned to Sang Zhixing at this moment, just waiting for them to make a successful breakthrough.

Once all these thirty-six old guys have broken through into immortality, Ye Xuan will give them three more days to stabilize the realm. Then, after all the people have gone through the customs, a new round of forbidden land conquest will be Open the curtain again. This

In the First World War, Ye Xuan did not intend to let the 20,000 devils headed by the sea and Cang Qingyu scouted to participate in the war, so as not to be seen by the old guys who had just captured.

This includes the eight King Kongs in Shennong Ding, as well as the flying scorpion and the silver scorpion.

However, it is just the right thing to do, so that the direct family members can reconcile peacefully in the Shennong Ding and Longye Life Giants. I want to believe that when Ye Xuan saw them again, the repair of these direct genus For strength, it will definitely jump to a higher level. to

In the forbidden land to be confiscated, there is no need to choose. Ye Xuan is directly located in the place that he has just visited before. on

Once, his cultivation has not yet reached the immortality of the king, facing the three sacred beasts who are equally immortal, and more than a hundred ordinary immortal slayers, even Ye Xuan. They can only immediately sneak out after killing five immortal beasts. and

It is still in a critical situation, and it is somewhat embarrassing to escape directly from the interplanetary coordinate jumping ability. but

Now, only in the past year, the situation is completely different. His own cultivation has reached the immortal level of the king. In the face of the three banned immortal beasts in the ban, it is already Has an absolute crushing power.

Even the immortal grotesque under the shackles, the 36 high-ranking survivors who are about to break through, and the sixty-two predecessors of the three-clawed dragon owl, the total number has reached nearly one hundred. Such as

Therefore, in terms of high-end combat power, Ye Xuan has already taken an absolute advantage in the forbidden land on the strong starry sky. This has been deforested and completely removed, without any suspense!

The only thing that made him feel speechless was that the Longye Life Giant Plug could change its shape so that it could not be seen as a warship, but as a predecessor, but even so, it still does not contain more than 100 million ships. All kinds of warships, after the start of the expedition, rushed to the starry sky, I am afraid that it will take at least half a month on the way...
