Chapter 4231: Revival

Five days, a blink of an eye will pass!

In this short period of five days, the thirty-sixth half-step immortal relics of the 12th tribe of Sangzhixing all successfully broke through the cultivation, and the barriers across the realm were successfully promoted to immortality. Between the tens of millions of ancient survivors, in the endless years, nowadays, there is finally an immortal existence, and when it appears, it is thirty-six.

Such a huge change has made the whole sangzhixing on the tens of millions of survivors of the twelve major tribes in the thousands of small and small villages, and cheered for a whole day.

In fact, not only the top 36 survivors, but also the strength of the entire Sangzhixing remnant of thousands of people, compared with a year ago, all have a substantial improvement. One

In the year, for this group of people who have been trapped in the illusory sky of this billion miles, it is like changing the land. One

Since the year, under the 36 immortal remnants, there have been nearly 100 strong people in the universe, two or three hundred in the landlord, four or five hundred in the domain, and nearly a thousand stars in the Lord.

Everything, if placed before, I am afraid that among the tens of millions of survivors, no one will believe it, but now, all have become reality.

Moreover, the birth of 36 immortal grotesque on Sang Zhixing, for the five days, has already established a captive parliament, and all the warships have been mixed into ten small legion units of the captive army. In fact, the shock is obviously equally huge. Do not

The blame, even in the most powerful ethnic groups and top forces in the three major stars, is not always present. For many years, one can break out into an immortal tribe.

But here, in just a few days, a small life star, at the same time, there are thirty-three immortal old monsters turned out!

This is by no means a general event, especially when all the star-studded powers in the captive army learned that these thirty-six immortal grotesques were all taken from the universe to the ninth order. After a successful breakthrough into an immortal world, the dawn of everyone's eyes will become extremely fierce. or

Perhaps their current cultivation is not enough, but as long as they have accumulated enough combat power and have enough materials, in the future, there is still hope that they will be exchanged from Joe King for a Baodan that is comparable to the 20th-level liquid effect. .

This expectation was quietly placed in the bottom of my heart by everyone, and I couldn't wait to go to the starry battlefield immediately...

This battle is indeed coming!

Whether it is the captive army, or the tens of millions of survivors of Sang Zhixing, they are all ready!

On the sixth day, Ye Xuan stepped out of Sang Zhixing and went to the void outside the atmosphere. "

call out! "

A wave of hands, the Longye life giant plug was sacrificed by him, but the shape has undergone some changes, which is very simple, directly to the formation of this giant plug of the world insect self-derivative core crystal on the order. and

Today's Longye's life giant plug is still almost the same size as a small star, but the form looks more like the battle boat in the hands of the powerful people. This is in line with the characteristics of this ancient void, a king Immortal possession of such a warship comparable to the stars, the sixty-two immortal monsters in the captive army, did not have any doubts.

Soon, with the life of the giant plugs, from the atmosphere of Sang Zhixing, there are a large number of large and small warships rushing out, and the light roads have entered the life giant plug that has already opened the door. versus

At the same time, the captive army in the void is also making final preparations before departure. Place

Some small warships are entering the interior through portal passages of large and small fortresses...

Among the more than 100 million warships, the size of the 50,000-meter and 100,000-meter star-studded fortresses is 20%, while the others are the large-star battleships of the big and small fortresses and the three-kilometer captain.

In order to ensure the speed of interstellar travel, all the stars have entered the big and small fort. Then, the number of small and small fortresses is small, and they enter the big and small fortress. If the big bag is small, the final result is one. The huge fleet of more than 100 million has finally become a fortress of more than 20 million. The stuffed inside is full of fortresses and warships...

When this was all done, one day had passed. With the singer of Ye Xuan, the life fortress of the Longye was transformed into a meteor, and lasing away toward the already locked starry sky. Rear

Fang, 20 million large and small fortress kinetic energy tank full force, the roaring sound resounded through a whole piece of empty void, closely following behind...

From Sangzhi Xingyu to the last strong forbidden land, Ye Xuan used the whole body for a full ten days in the way of physical cross. At that time, his cultivation was the first step of the immortality, far exceeding the A 100,000-meter-diameter starry fortress. and

This time, the slowest of the entire conquest army was the small fortress of 50,000 meters in diameter.

The speed of the dragon wild life giant plug is fast, and it must also take care of the process of the army behind it. Therefore, the entire star journey of more than one billion miles has spent seventeen days, which is still a huge life. The 20 million-size fortress behind the plug is the result of space jumping as much as possible. no

I am afraid that the time spent will be even longer...

After seventeen days of boring starry travel, the huge fortress and the 20 million-size fortress that followed closely behind it finally came to the universe of tens of millions of miles away from this powerful starry sky.

After the order of Ye Xuan, the whole army stopped in the void, and then, the big and small fortresses drove out from the rear of more than 20 million size fortresses. Then, the number was more The star-rated battleship, from a large and small fortress...

In just one day, the prisoner corps, with more than 100 million warships, was once again fully displayed. It was divided into ten combat units and opened in the void! in

During this period, all kinds of war boats of more than one million ancient survivors in the life of the Longye have also been set aside, and they have also formed a huge fighting unit. "

call out! "micro

The weak sound of the break sounded, and the life giant plug was directly absorbed by Ye Xuan in the immortal world. Then he activated the magical power of the konjac on the spot, and still hidden the two real bodies of the cheekbones and the black fog. The shape of the scorpion shows people, but the body shape suddenly rises to the height of tens of thousands of people. The body is repaired and breathed, and it also climbs to the strongest king of the immortal order..."

call out! "

tight

Subsequently, nearly one hundred sounds of broken air rang, thirty-six survivors were immortal, and sixty-two immortal monsters from the three major star planes of the world, a total of ninety-eight, all rushed out of the battleship. Follow the starry sky behind the huge body. "

Hey! "

The starry sky violently roared and screamed, and suddenly waved: "Go forward..."

Chapter 4232: Violent transformation

"Roar!"

Oh..."

.....

With Ye Xuan's order, the ninety-eight immortal monsters behind him, while screaming and screaming at the same time, the body's repairing atmosphere is an instant full of energy, and this whole piece of the universe is empty. They all shook a little. body

After that, the top ten battlefields of the captive army and the more than one million war boats that the tens of thousands of survivors of Sangzhixing drove closely followed the full speed, followed by Ye Xuan and nearly 100 immortal old people behind him. The strange rear, with a rush of anti-corruption, slammed into the starry sky ahead, and slammed away...

At the moment, Ye Xuan, full of emotions, recalled that he entered the starry environment from the Nine Stars, as if he was still yesterday, and at that time, he was still a small-scale minor repair of a star.

But now, in a short period of time, it has grown to the immortal power of the king, followed by hundreds of millions of warships, more than a hundred immortal, leading the army to attack a strong ancient starry forbidden land...

Everything is like a dream. If you entered the starry environment at the beginning, someone told him that in such a short period of time, one day, what is happening at the moment will happen. Ye Xuan must not believe it. but

All this is true. true

Really the facts that are happening!

Moreover, even the ancient and powerful starry forbidden land in front is far from the limit of his height of growth. It is just a springboard, a stage turning point. From here, the stage in front of Ye Xuan will be even wider. The height of future growth, even if he is now, can't be a little bit sloppy!

"Hey..."

In the tide, Ye Xuan Yang, who was stunned and stunned, gave a scream of screaming screams, and pressed the sound of nearly 100 immortal grotesques behind him. The sound spread hundreds of millions of miles... no doubt, ahead In this ancient and powerful starry ban, more than 100 billion beasts of more than 100 life stars have been alarmed at this moment.

The big battle, at the touch of a hair!

The distance of ten million miles can not be used for a long time. thing

In fact, the entire large-scale deforestation squad only rushed two or three million miles. At the end of the forbidden land at the end of the line of sight, there was already a large army of beasts and leaps into the eye.

On the occasion of the whistling sound, the countless forbidden beasts among the more than 100 life stars in this forbidden land have snarled and rushed out of their respective stars, in the void, by an immortal murderer. The beast leader led and quickly assembled. One

Looking at it, the forbidden beasts that have been assembled in the void are at least 30 to 40 million, and they cover a vast expanse. but

This is far from the total number of all the beasts in this ancient starry ban, only a small part of it. There are more than one hundred life stars in the rear of the beast army. At this time, there are still a large number of forbidden beasts, from the atmosphere of the stars. Rush out and gather to the beast army..."

Hey! ”

"Roar!"

Oh..."

At this time, three earth-shattering roars and whistling sounds came, the most powerful existence of this ancient starry forbidden land, and the three beasts who had been sealed and immortal, finally arrived, rushed out. The life stars that each inhabits...

In the giant star on the left side of the central area, the seal that rushed out was immortalized as a green cow. Its size reached 100,000 feet, and it was full of blood and blood. The strength was the seventh stage of the immortality. This powerful starry sky bans the three strongest in immortality.

On the right side, a star-shaped blood crocodile squats from the giant planet inhabited by the atmosphere, and the body shape also reaches a giant of 100,000 feet. A slender crocodile tail is full of barbs, which is chilling, and its cultivation is strength. Sealed immortal fourth order! most

The last one is sealed and immortal. A giant star from the back of the central domain is a black beetle. The blood is unknown, the size is slightly smaller, only about a thousand feet, but its strength is not weak, it has reached the seal. The third stage of immortality is the peak of this period. versus

At the same time, with the appearance of these three powerful and immortal beasts, the more than 120 immortal beasts who have gathered in front of the beast army are just like the appointments. Roaring in unison! Virtual

Empty, trembled again.

Nearly a hundred immortal grotesques behind Shi Xuan's body have been like this. Right now, the other party responds in the same way. This is clearly a tit-for-tat, no rhythm... Both sides are ready, the war can be started at any time. ! very

Fast, the three seals were immortal and went to the front of the beast army, and the huge deforestation army on Ye Xuan's side has also stopped. The distance between the two camps is only five or six million miles. This is already within the distance of engagement. this

At the time, Ye Xuan is still a violent form of the starry sky. It is only ten feet high. It does not display the blood and magical power of the konjac, so it is not only the body shape, but even the strength, it only seals the immortal fourth order!

Opposite the three beasts in front of the beast army, they are obviously recognized, but they are not in the heart, but they are ridiculous, vocal, and in the tone, scornful and sardonic..."

Behold, it is actually this little violent scorpion, actually dare to come back! ""

It's a bit of a skill, it's actually able to move more than a hundred immortals, and there's a weird army of hundreds of millions, eh? There are actually war corps of the ants and ants..."

"There is indeed a squadron, and these squads are indeed the style of the ants. But what are the other things? Is it strange, the new warships of the survivors? It looks like it's back. thing!"

"Unfortunately, if it's just these, it seems that it is still far from enough to incite me. Little violent, you are a fierce beast. You dare to collude with the ants and ants. It just throws away all the faces of our savage beasts. Today Fight, you will die..."

"Roar!"

The other party's words are still not finished. Ye Xuan here has suddenly screamed up. This time, he did not shout out because he considered that there were a large number of strong people from the three major stars in the world. The konjac changed nine times, but the body shape, after this roar, quickly rose up... and

Moreover, this time, Ye Xuan did not hesitate, the first change of the konjac to the sixth change, but the activation was carried out without any gap, which directly led to his body's continuous skyrocketing, and the spread of the air, The same! when

However, the skyrocketing is only the starry sky that he is showing now. The two real bodies of the bones and the black fog have been hidden by him and have not been exposed. "

Actually, is there any **** power that has not been activated? No problem, the small seal is only four steps, and how can it be tossed? Deity... um? "Correct

Millions of miles away, the strongest seventh-order green cow among the three beasts was not intent. After spraying a ringing nose, the sarcasm again came out in the mouth, but soon, with Ye Xuan's figure The more and more huge, the horror of his words, and the sudden stop...

Chapter 4233: Three wars

From the first change of the konjac to the sixth change of the konjac, even if it is activated one by one, it is only six breaths of time. At the same time, Ye Xuan activates at the same time without any gap. The time is shorter, only the four interest rate is around. carry out!

Four interest rates, his body shape from the original ten feet, skyrocketing to the current giants.

The cultivation of the body is a breath, and it has climbed from the previous fourth stage of immortality to the current immortal level of the king, raising six small steps, and also spanning a big realm...

"Roar!"

In the end, after all this, the body is like a small star, the breath is even stronger to the starry sky that makes the void slightly tremble, and the hair is angry.

"boom!"

"Booming..."

As the roar of the roar came, more than ten small abandoned stars on the right side of the figure were hundreds of thousands of miles away.

It can be described as fierce!

Millions of miles across the street, the sound of roaring from time to time, the arrogant and arrogant whole army of huge beasts, at this moment, completely quieted down.

The hundreds of millions of banned beasts, all consciously smothered the scent of the body, and quietly collected it.

Some of the courageous beasts with smaller courage, the tails that were raised high after the original stock, were even caught between the two squats. This is clearly scared and scared, ready to be the tail with the tail. The rhythm...

As for the seventh-order green cow in front of the whole beast army, the star-studded blood crocodile, and the black beetle with unknown blood, have long been stunned, and watched as the body has soared to the leaf that they all need to look up, the eyes of the cockroach Light, some are confused...

It's also the time of the two eyes, a small violent scorpion that only has a shape of ten feet, has turned into a horrible behemoth with a tens of thousands of body shape?

This is a joke.

Even if they are, they are only a hundred thousand feet of body shape, and now compared with others, immediately became an inconspicuous ants.

Although the full force of the blood of the body, the same can show the horrible body of a million feet, but still can not compare with the other side.....

What's more, the size of the body is only one aspect. What's more important is the strength of the other side, the hard work of the eye, the fourth stage of the immortality, and the emperor becomes the immortal?

Does this make people not live?

"Hey..."

"This... what is this **** power?"

"It's too enchanting, it's not a beast..."

After a short period of sluggishness and silence, the three beasts who had sealed the immortal level finally made a sound. The blue cow just swallowed a large calf and did not dare to speak. His cultivation was the result of the three beasts. The strongest, but the blood is destined to his temperament is not tyrannical, cattle are generally more docile.

It was only because of the support of the cultivation of strength that it was only arrogant and domineering.

But now, in the face of a king of immortality, his ox is suddenly back, and even the oxtail after the stock has been subconsciously swayed, this is the rhythm of showing good selling...

On the contrary, it is not as good as his star-studded crocodile and black zerg. It is clearly the existence of temperament, and the courage is much bigger than the seventh-order green cow. At this moment, facing a king whose strength is far beyond their immortality, although he is shocked Fear, but at least not yet to the extent of direct service to soft court.

After all, it is a wait-and-see, and it is also a fierce beast of **** sex!

"Impatient, must we fight?"

"I have no hatred, everything can be written off..."

"Even, we can also properly ... circumcision compensation!"

After a brief shock, the three seals were immortal and quickly recognized the situation in front of them. The arrogance of the previous entanglement has already converged. At this moment, when the voice is heard again, even the tone has become more dignified.

The last sentence is actually the most powerful one, and it has reached the end of the seven-step immortality of the immortal. It is really a big drop in the eye. The gentle nature of this young cow's blood seems to be completely sealed by Ye Xuan. Wang Jing's cultivation is awakened by strength.

"A write-off? Late..."

"Roar!"

In this battle, Ye Xuan must be unfolded. Otherwise, the nearly hundred immortal grotesque behind him and the huge warships of over 100 million will not agree, especially the captive army that has just been married.

The reason why they are willing to return to Shun Ye Xuan is originally for the sake of profit, and this kind of interest is the profit. If the war is not open, the newly condensed military mind will be scattered in an instant.

Under this circumstance, it would be hard for Ye Xuan to have the opportunity to carry out the next big battle with the captive army behind him.

So, don't say that in the other's words, there are still reservations, even if they completely let go of their arms and ask for flowers, Ye Xuan will never waver.

Moreover, at this moment, in order to let the other party die, he screamed in his head and swayed, and rushed straight ahead. The huge body of the giant, like the pillar of the right arm, suddenly Punch out!

"Booming..."

This boxing, Ye Xuan exerted his full force, and in a moment there was a loud explosion in the front, and the void collapsed a large piece, an unmatched terrorist force at a heinous speed. , rushing forward and going...

In the face of this scene, all the banned beasts that are millions of miles away are suddenly screaming, and the screams of horror and horror are rising, and the three savage beasts in front of the savage beasts are even more stunned. Under the big change, the counterattack was launched directly!

"Hey!"

The blue cow first reacted. As the sound of a condensed sirloin sounded, two thousand cubits of green moon and half moon rushed out of his mouth. The void was directly cut open along the way, and the endless void turbulence The cracks in the cracks rushed out, and the surrounding universe stars were chaotic!

"Hey!"

The whistling sound came from the mouth of the black Zerg who did not know what kind of blood, and his body shape stunned. The circle of ripples like a normal ripple was swept away. The speed was even faster than the blue half moonlight of the green cow. Covering a radius of ten thousand miles.

In an instant, the nearly hundred immortal monsters behind Ye Xuan's body were suddenly stagnate, and there was a sense of delay in the endless mud.

This strange No more teleports can be expanded.

"boom!"

At the same time, the star-studded blood crocodile, who was waiting for the immortal fourth-order, also smashed to the right side of the void at the first time. After the stock, the huge crocodile tail that was full of barbs suddenly slammed, and immediately thundered in the void. Sound, an invisible horror shock wave hits Ye Xuan...

The three seals are immortal. The half moonlight attack of the green cow is Ye Xuan, and the attack of the black beetle and the star-studded blood crocodile is against the nearly hundred immortal generals outside the emptiness of Ye Xuan.

This clearly wants to force Ye Xuan to return to the rescue, so that they can take this opportunity and immediately turn around and escape the rhythm...

Chapter 4234: Angry and murder

"Roar!"

"You are looking for death!"

Faced with the black beetle and the crocodile of the starry sky, Ye Xuan was furious!

Behind the nearly 100 immortal grotesque, but he was hard to cultivate, or in the way of surrender, the group of generals gathered around, the future conquest of this ancient wild debris, they are the most backbone power, each of them One immortal, Ye Xuan is not willing to easily break.

But now, in the face of their own attacks, the two vicious beasts have led the way, avoiding the sharpness directly, and picking up the generals behind them to start, licking the soft persimmons, and also attempting to force Ye Xuan to follow in this way. I took advantage of his chance to return to the rescue and turned around and fled...

This is absolutely unbearable, and the heart is so vicious that it cannot be tolerated.

In the roar of the roar, Ye Xuan's mouth instantly blasted two invisible sighs, and directly greeted the two moonlights that came to him.

Although these two and a half moonlights are only a few thousand feet in size, and the huge size of Ye Xuan's 100,000-foot-tall is almost disproportionate, even if it is found on the body, it leaves a small wound.

However, the cultivation of this young cow is immortal. After all, it is the existence of the seventh-order immortality. At this moment, in order to escape, it is the internal force of the body. Although these two and a half moonlights seem to be inconspicuous, they are The energy contained is extremely terrifying.

If there are no accidents, let them fall on the body. Although the wound is small, it must be extremely deep. If it is really inevitable, but now Ye Xuan is fully capable of blasting it. Naturally, there is no need to stupidly resist. It is.

With the powerful strength of his now immortal kingdom, even if it is only two rushes of spurt from the mouth, it is enough to smash the energy of an imposing seventh-order full-strength blow...

At the same time, Ye Xuan's original punch was also quietly changed at the moment, no longer rushing to the seventh-order green cow, nor staring at the black zerg.

Although the latter's blood and supernatural powers are strange, and the ripples of the ripples spread out, they have temporarily banned the vast void of Ye Xuan's tens of miles.

Even the nearly immortal old monsters are just like being trapped in the mud, they can't get out of it, let alone the ten camps of the captive army that are behind them, and the millions of survivors.

But it doesn't matter. At most, it is only a temporary delay in the process of this war. At least, the family behind Ye Xuan is not damaged.

Therefore, he did not rush to the black Zerg, but after a slight turn, he rushed to the giant tail that swayed behind him, and set off a star-shaped blood crocodile with a horrible invisible shock wave...

This guy is the real threat, although this threat is not for Ye Xuan, but to kill the immortal genius behind him, but it is even more inferable than directly attacking Ye Xuan, this must be !

"boom!"

"Booming..."

With the slamming of Ye Xuan, the horrible invisible shock wave formed by the giant tail of the millions of miles away from the **** crocodile in front of the sneak sneak, was instantly blasted.

Even in the invisible shock wave, a large number of sharp barbed spurs from the crocodile on his huge crocodile tail were also extinguished at this moment.

The sound of the explosion was soaring, and the void collapsed again...

But this is not the end. The seal of the king's immortality is so powerful, can it be only so powerful?

In fact, the terrorist power of this boxing was only consumed by less than 30% after the invisible shock wave formed by the star-shaped blood crocodile smashing the giant tail.

The remaining 70% of the force, in a blink of an eye, directly hit the body of the star crocodile.

"Do not....."

After the guy swayed the giant tail and picked up a horrible invisible shock wave like a hurricane, he turned around the first time. He thought that the starry sky in front would definitely turn around and protect the nearly one hundred immortal genus behind him, but he obviously underestimated. The immortal power of the king, but did not expect the starry sky of the giant body to be violent, the power of blood in the body is so magnificent.

At this moment, I saw that the starry sky was not violent, and I did not go back to sheltering more than a hundred immortal genus. Instead, I directly broke the law and did not hesitate to turn the giant boxing and blast him.

And in the first time, he collapsed the invisible shock wave that he tried to hit. The meteor-like giant punch had already hit it quickly. Under his heart trembled, he raised his voice with a resentful voice. !

"boom!"

In the next moment, the sound of the whistling sound of the crocodile in the starry sky was smashed, and a huge explosion of earth-shattering sounds rang.

The starry sky is like a meteor-like giant punch, directly hitting his body. Without any suspense, it is like a ruin, and it will directly smash this star-shaped blood crocodile with the immortal strength. The fog spreads out.

"call out!"

The faint sound of breaking the air rang, the starry sky violently waved with the left hand, and an invisible wave of air swelled. In the blink of an eye, the awning **** fog formed by the explosion of the star venomous corpse was directly collected into the body and sent. Into the Shennong Ding, began the blood essence refining.

At the same time, his body shape suddenly turned abruptly, striding in the void, and rushing toward the far side in the right direction...

In this direction, it is the path of the black worms who are unidentified in the body, and the other party is still immortal, and its blood and blood is a type that can form a strong ban on the void, which can be seen in the ability to escape. Obviously extraordinary.

Ye Xuan was able to kill a star-shaped blood crocodile with a fist, but the time spent was not enough for both breaths, but this was only at the same time as the star-studded blood crocodile, and then the black zerg, which was simultaneously turned away and fled directly, was so short. In a short period of time, it has already escaped tens of millions of miles, and now almost all of them have reached the end of Ye Xuan's sight...

This ability to escape, even Ye Xuan could not help but sigh, if you give the other party a little more time, even if it is only a few minutes, then I want to pull it out, I am afraid it is difficult.

It is a pity that he still did not escape. The star crocodile was too arrogant, and the punch was smashing, and the green cow did not have any black hands on the back of Ye Xuan. He did not make him feel too urgent threat. I don't want to pay attention to it for a while, so the escape time that this black Zerg has won is still too short...

"You... can't escape!"

The words of Mori's cold were heard in the mouth. When it was still not falling, the starry temperament of the huge size of the mouth disappeared in the same place. When it appeared again, it went directly to the front 20 million miles away.

Then, in just a short half of the interest, there were two flashes of blinking, and the blink of an eye was already behind the black Zerg, only a million miles away!

This kind of distance, for a huge size, like a small star-like starry sky, basically can be regarded as a melee distance...

Chapter 4235: Old cow is willing to drop

"Hey!"

Seeing that Ye Xuan is chasing from behind, it has already reached a million miles in the blink of an eye. For the other big body, this has definitely entered the melee distance.

In front of this black zerg, which is not known for its **** veins, there is a screaming scream of screaming, which is almost as fast as the physique of the pole, but the speed of the blink of an eye is skyrocketing, and the circle is like a normal ripple. Sweeping from behind him...

This time, the black zerg is obviously desperate, and it can be said that the brain is wide open!

In the face of the immortality of a king, he also knows that his **** powers cannot form an effective ban. Therefore, at this moment, he screams at the same time as the ripples formed by the blood and blood. In an instant, it formed a recoil driving force on its shape.

It is a pity that although the momentum of this recoil has caused him to move forward again, the speed of the sky has once again skyrocketed. However, for a starry tyranny with the immortal terrorist power of the king, all this is only a singular skill. It's not a big deal, it's not much substantive...

"Is it forced to a dead end? Even if this means is displayed, it will be immortal. Do you not feel that your current state of affairs is too unbearable?"

In the face of all this, Ye Xuan only sneered, the voice of the mouth is still not falling, the figure has already flashed again, and the blink of an eye disappeared.

At this moment, a strong and extreme crisis of life and death floated from the bottom of the black zerg of the unidentified blood. He almost suddenly subconsciously stopped his figure and suddenly stagnate in the void.

At the same time, there is a voice in the mouth that reveals endless sorrow and fear: "Don't kill me, I... will drop!"

"call out!"

Almost at the same instant, Ye Xuan's figure suddenly appeared hundreds of thousands of miles away in front of his way, just to hear the words of the other party's surrender.

However, Ye Xuan apparently did not intend to accept it. The starry mouth of the starry sky showed a smile full of violent temper, and he did not hesitate to punch it out: "Is it going to fall? Sorry, this king is under this group." Just after returning to the heart, I am afraid that you will be chaotic, your desire to fall... The king does not accept!"

"Hey..."

As soon as I heard that I had put down my body as an immortal body and dignity, I was crying for mercy, and the other party was still unwilling to let go, and the reason was actually to appease the empire of the immortal old monster who had been attacked by him. The black worms have a feeling of anger, and they have an unwilling scream in their hair. At this moment, he can be said to be resentful...

"boom!"

In the next moment, the sound of the whistling sound in his mouth has not yet fallen, and a huge explosion of earth-shattering has already sounded.

The starry sky is like a meteor-like giant punch. It directly slams into the body of the black Zerg. There is no suspense. It is like a ruin, and it will directly become a group of flesh and blood...

"call out!"

The faint sound of the air broke out, and the starry sky violently waved with the left hand. An invisible wave of air was picked up. In the blink of an eye, the **** fog formed by the explosion of the flesh was directly collected into the body and sent to Shennong. Dingzhong, began a second blood refining.

At the same time, its figure is a turn, and it disappears suddenly after the flash. When it reappears, it has already reached the front of the road 20 million miles away, and quickly returns...

All this is a long story, but in fact, from Ye Xuan's shot to the present, there are not a total of ten breaths.

Before the bombing of the starry sky blood crocodile, but only two breaths.

Then chasing this black Zerg, it took three breaths, shot it, and took a breath, plus Ye Xuan on the way to the rapid return, basically three breaths around... After nine breaths!

However, although the time of the nine breaths is very short, there are so many things that can be done for a powerful beast with the horror of the late terrorism.

Among the three squad-like beasts in the ancient banned land, the green ox has the strongest cultivation, and has reached the seventh stage of the immortality. It is a perfect completion from this place, but it is only two small steps.

Even the strong strength of the first level of Feng Wang that he and Ye Xuan currently show are only three small steps.

It is a pity that the disparity in strength of these three small steps is not in the same big realm, but across the vast realm of immortality and immortality.

Therefore, even if only three small steps are repaired as gaps, this green cow is also destined to be the result of being crushed and crushed.

At this point, he himself knows better and knows better than anyone else.

Therefore, after the two moonlights that spouted two giants in the mouth, the young cow did not see the result, and turned around at the first time, even faster than the star crocodile and the black zerg. Breathe.....

Counting up and down, from the time he started to escape to the present, definitely more than ten breathing time!

In addition, his cultivation is the strongest, so, in the blink of an eye, the distance that the green cow escaped is not closer than the black zerg who had just been killed by Ye Xuan with special escape talent. Nowadays, it has reached more than 80 million miles, even beyond the limit of the starry sky and the naked eye.

Unfortunately, all of this is a cloud, and there is no meaning at all.

The king's immortal force is full of teleportation. Even if it is only the first step of the king, it can reach a distance of 20 million miles. At present, this blue cow has escaped more than 80 million miles. For Ye Xuan, it is just a few The distance of the second teleport.

After a burst of five teleports in the body, Ye Xuan has crossed the gap of 100 million miles in just a few breaths. The huge figure is directly appearing in front of a million miles in front of the dying young cow...

The latter's extremely fast-moving figure came to an abrupt end. After spraying a ringing nose, he saw the starry sky screaming coldly, waving his right arm and slamming himself, scaring him to squat on the spot.

The voice of forgiveness is almost blurted out: "The big man is forgiving, the old cow is willing to drop... The old cow has a ruin of the nine-tailed Tianhu treasure in the hands of the old man. He is willing to go with the big brother and appoint a drive in the future!"

"In addition, the old bulls have always been honest, and they have not sneaked on those immortal monsters. They don't have to worry about their centrifugation. The old bulls don't want to die..."

In the face of a singularity that is so wonderful, it is immortal, and Ye Xuan at the moment is also a little drunk.

The young man has such a weak character, he really can't look at his eyes. His income is estimated to have no big future in the future. However, the treasure of a wild big-class nine-tailed fox is for Ye Xuan. The temptation is quite extraordinary, at least far more important than the life of this timid and fearful young cow!

With this in mind, the right fist that the starry sky is violently wanting to blast out has stopped for a moment...

Chapter 4236: Iron and blood

"Dayu, the old cow I said is true, the ruins of the nine-tailed fox of the ancient age, in the underground of the old cow sitting in the town, back to the old cow can take you to see"

Seeing Ye Xuan's words stopped the punch in his hand, and the seven-step green cow's eyes suddenly took a light, and quickly hit the iron, and said in a panic: "In addition, for this starry ban, the old cow is actually Outsiders, who came from outside only a thousand years ago, there is no descendant of the old cows..."

Having said that, the seventh-order green cow pointed in the direction of the distance behind him: "Don't look at the old bull in this forbidden land. I am the most powerful beast commander, but for thousands of years, I have been Excluded by the star crocodile and the black zerg, they are the original leaders of this place. Although they can't beat the old cows, they have always been yin and they are a group..."

"The old cow I have no sense of belonging to this place. For more than a thousand years, the whole heart is like a duckweed without roots. It is almost floating, almost all of them are in love..."

"Until today, let the old cow meet you, this is a pitiful see, the old cow I finally have the feeling of finding an organization, Dad, you are my reborn father..."

"stop!"

Seeing this brazen guy is more and more outrageous, the black lines on the starry sky are floating out of the atmosphere, and then dragging it down, it is estimated that I don't know what words to say for a while, the heart is cold, leaves Xuan Dang even stopped when he screamed.

I have to say that this seventh-order green cow is really not a strange thing. The eyelids that I just said are slightly reddish. At this time, Ye Xuan suddenly screams, and the words in his mouth are suddenly stopped, immediately. Another oxtail, standing incomprehensibly, showed a solemn and solemn expression on his face, and it was really forbidden!

This kind of seal is seventh, except for him, it is estimated that there is no one...

My heart sighed, and Ye Xuan seemed to suddenly think of something, and turned to look at the distant battlefield.

The talented person, the nearly one hundred immortal grotesque and the captive army behind him, and the more than 100 million starships such as the squadron of the remnant, all of them were trapped in a vast expanse of thousands of miles because of the **** talent of the black zerg. In the void, if you are stuck in a mud, you can't act at all.

But at this moment, because the black zerg, whose blood is unknown, has been smashed, the squadron in front of the battlefield has been smashed into a void, and it has quietly solved the seal and returned to normal.

The nearly eternal anger that had already been indignant was rushed out in the first time, followed by the ten phalanx of the captive corps and the squadron of the Sangzhixing remnants, and after they rushed out, The first time, the bombardment of the ship was launched...

When Ye Xuan turned to look at it at the moment, the piece of emptiness in the air had already become a group. The buffer zone of millions of miles in the middle of the two great forces was already invisible at the moment, and more than two hundred immortal old people. Blame, hundreds of millions of forbidden beasts and a large number of starships and warships of equal numbers, at the moment, rushing to each other, more than 20 million miles away, the void is incomparable, roaring...

"Da, these forbidden beasts are not good things. They have been smashed with the star sneakers and the black worms all the time. They all smashed and deflated. I have long seen that they are not pleasing to the eye..."

Seeing Ye Xuan's movements, the seventh-order blue cows not far away immediately guessed what was happening, and the eyes were dripping and turning around, and they were close to the compact, and slammed into the area where the war was far away.

As soon as the front turned, he then said: "However, among the more than one hundred immortal beasts, there are some who are like the old cows. They are the gentle and pure people. In fact, they have been There is no sense of belonging here, so I'm looking forward to you, hurry up and save..."

"Or... I will call them over the old cows, see the big brother together?"

In the last sentence, the feeling of temptation in the tone of Qingniu, carefully said: "Of course, if you look at them, they are not pleasing to the eye, the old cows will immediately kill them, who told them to look ugly, provoke It's sin to be unhappy!"

This face is really no one.

Ye Xuan turned strangely to the seventh-order green cow. After a little indulging, he nodded slightly: "Remember, there are a lot of blood descendants under the hand, don't!"

This is also a no-brainer, more than a hundred immortal banned beasts, even Ye Xuan looked hot, on the one hand want to stay and accept as a general, on the other hand, want to kill them all, refining Turn into blood.

Unfortunately, this matter is obviously not all beautiful.

He just turned around and looked at the battlefield where the blood was killed in front of him. What he pondered was this problem.

Now I listened to the words of this cheeky green cow, and this made a decision.

Most of the immortal savage beasts, in this starry sky, apparently left a lot of blood descendants, such as Ye Xuan's last killing of the **** wolf and the two starry sky, the life stars they live in. Inside, most of the forbidden beasts are all the same blood as them.

This class of immortal beasts is obviously not allowed to remain, otherwise their blood descendants will be killed, and their hearts must be hateful, unable to truly return.

This is the seventh-order green cow, originally an outsider. He is now trying to plead with Ye Xuan, and he wants to save the beast leader who has a good relationship with him.

Can be good with this guy, it is estimated that most of them are the same as his own situation, belonging to the loneliness, this part of the immortal level of the beasts, but it is possible to compile a little, but also can make their own strength, get a certain enhancement And ascension...

"Well, you look at it when you look at it. The old cow I brought back is definitely satisfying the conditions..."

In fact, the situation is obviously not much different from that of Ye Xuan. When he heard that he promised, the seventh-order green cow grinned in an instant, the voice was still not falling, and the figure was swept, toward the front. The land of the war is rushing away.

After a short period of time, more than 20 savage beasts with immortality as strengths followed him, timidly shrinking, trembled in front of Ye Xuan, stopping in the void of hundreds of thousands of miles away. In the middle, looking at it, what lineage is there, basically the kind of race that is hard to breed **** descendants, indeed a group of lonely people!

"What is the tremor? You guys, don't you hurry to pay?"

Seeing Ye Xuan seems to be quite satisfied with the more than 20 immortal grotes that he brought. The seventh-order green cow was originally caught in the oxtail between the stocks, and it was smugly swayed in an instant.

The bulls looked at the heads of the more than 20 vicious beasts and reprimanded them on the spot: "This is the big man I have just recognized, that is, your big brother, hurry to call people..."

"See Big Bang!"

Can be mixed with this guy, the smell is similar, obviously also a group of wonderful, now, these more than 20 immortal level beast heads, they all kneel in the void, the mouth actually called out The title of this wonderful flower, I heard that Ye Xuan's heart is cold, and he turned his eyes...

Chapter 4237: Shocking

The more than twenty immortal savage beasts brought by the seventh-order green cows are indeed all alone, and their look is obviously not to be seen in this starry ban, belonging to a group of leaders who are being excluded. Therefore, at this moment, a large number of forbidden beasts have been killed for the battlefield behind them. Not only are there no sorrow on their faces, but they have the color of deflation...

This has already met the requirements of Ye Xuan's fraud.

When he nodded, he raised his hand and pointed to the battlefield in the rear. In the middle of the battle, Senman said: "Go, return to the battlefield, the king does not force you, if you want to vote, no matter if you are Join forces, or fight alone, each of the immortal savage beasts..."

"Roar!"

"Hey..."

As soon as the voice fell, the heads of the more than twenty immortal beasts turned and screamed and rushed to the rear to conquer the **** battle.

Obviously, they have made a choice.

"Oh, I am going to pick up one or two of the old cows..."

Let Ye Xuan's accident, as the more than 20 immortal savage beasts quickly went away, the seventh-order blue cow on one side turned around immediately, and his mouth turned and rushed to the battlefield: "Old cow I Although the temperament is gentle and does not like to kill, but all this is for the sake of the big man, the old cow I spelled... Hey!"

Seeing this scene, Ye Xuan's forehead once again raised a black line. At this moment, he suddenly had a bad feeling. It seems that he has accepted this shameless blue cow who is waiting for the immortal seventh order. It seems that it is not a good thing. It's too tossing, and I don't know how many moths to make in the future!

Shaking his head and smiling, his body shape disappeared in the same place. After two flashes, he went directly to the thousands of miles of the **** battlefield. He did not shoot, but he was so close to the void, just like an outsider. Concerned about the swaying of the sky and the opening of the sky, stretching over more than 20 million miles of battlefield...

Originally, this immortal savage beast had more than a hundred sacred heads, and Ye Xuan's immortal grotesque was only ninety-eight. In this aspect of high-end combat power, Ye Xuan One side is slightly inferior.

But now, with the blue cow taking away more than 20 immortal beasts, joining Ye Xuan's camp, leaving the battlefield and returning quickly, they will be back in the water.

At the high-end combat level of the immortal level, the two sides immediately disappeared, and with the immortal addition of the green cow, the situation completely fell over and became Ye Xuan.

In this way, he naturally did not have to take another shot, just to give the squad of the generals to refine their hands and sharpen their edges.

"boom!"

Not far from the right side, the sound of the blasting sound came, and Ye Xuan turned to look at it, just to see an enemy of the immortal level of the enemy camp, was killed by the three-jawed dragon.

The repairing power of the three-jawed dragonfly has reached the seventh level of immortality, and the head of this immortal beast that was slain by him is only inferior to the fourth order. The difference in strength is a bit disparity, so it is bombarded so quickly. It should be meant.

"call out!"

Ye Xuan did not hesitate, and he had already shot the wreckage of the head of this immortal beast. In the process, the wreckage was directly crushed into the purest blood fog, directly in the body, and sent. Into Shennong Ding, blood purification.

Almost at the same time, the void on the left side, as well as the work of the front and rear feet, came with two shocking explosions.

Looking around, it turned out that the shameless seventh-order green cow was shooting.

The two immortal savage beasts selected by the old guys are all nine-order grand perfection in this world. They should be the same family of the black-skinned crocodile and the black zerg. Although they are extremely powerful, they face a seven-order seal that is immortal. Terrorist green cattle, they did not even have a chance to fight back, the scene was bombarded into two **** fog.

"Okay, no need to shoot again..."

Seeing this scene, Ye Xuan immediately made a sound, preventing the seventh-order green cow from shooting again. Otherwise, with him alone, the remaining one hundred more hostile camp beasts will soon be cleared. Thus, the purpose of the refining army is gone.

At the same time of speaking, Ye Xuan also waved again, and the two invisible Wei Li swept away, and the **** fog that opened the heads of these two immortal beasts directly into the body, and sent them to Shennong Ding to carry out blood purification... ..

At this point, the shot killed two fierce beasts, is a shameless green cow who has perfectly expressed his sincerity, and has turned around and turned back.

At this moment, he has been completely unprepared for Ye Xuan. He has already completely smashed himself into a loyal dogleg. He does not doubt that Ye Xuan will shoot him.

Therefore, this time, he returned directly to Ye Xuan's body, very close, two heels erected, standing there, a pair of forefoot but hugged on the chest, is completely a gold medalist The virtue of the bodyguard, seeing Ye Xuan is also drunk, straight through the eyes...

A similar scene is happening in succession.

Today is definitely a disaster day for more than one hundred immortal beasts in this powerful starry ban.

The three major seals in the forbidden land have two deaths and one death. Even the same immortal leaders like them have more than 20 honorable enemies.

In fact, the remaining more than one hundred beasts also have this thought. Unfortunately, people simply do not accept surrender, they can only fight.

In the emptiness of the distance, there is also a king who is immortal in the battle, including the shameless anti-water blue cow command.

Under this circumstance, there is no vitality at all. The heads of more than one hundred beasts have long been warless, and they have not stayed at all. The mind is even more chaotic. In less than half a day, they are completely smashed. Killed it all.

All the wreckage of the immortal heads were all crushed into a canopy blood fog by Ye Xuan's wave. The first time they were born into the body, they were sent to Shennong Ding, and they began to condense blood...

However, although the more than 100 immortal beasts are all killed and killed, the number of starry beasts in the forbidden land is too much, more than 100 million, and the follow-up war is still Continued.

After nearly a day, this shocking and **** killing finally came to an end. More than 100 million banned beasts were almost killed. Only a few million were killed because of Sang Zhixing. The benevolent strongmen are fancy and take the mount, which is to save their lives...

One and a half days, after the end of the war, the next step is to count the squad. For the conquest of the army, the harvest of this war can be described as terrifying. There are more than 100 million murderous beasts, not to mention more than one hundred. Life Star, every life star, has a lot of cultivation resources reserved by the beasts, as well as a variety of spirits and herbs needed to smelt blood and meat.

The vigorous battle to clean up the battlefield and count the profit-making time was carried out in an instant. For all this, Ye Xuan had no interest at all. He returned to his own list of wars and was sent to his hands...

Chapter 4238: I have a request for the old cow.

In the void, all the various warships in the top ten squadrons of the captive army were all scattered, including the million-star battleships of the survivors of Sangzhixing.

Their first task is to collect all the murderous beasts in the void, and then enter more than one hundred life stars in the forbidden land, search for cultivation resources and other convictions...

And Ye Xuan, the heart of the moment has been immersed in the Shennong Ding in the body, looking into the mountains of the volcano of the Shennong Ding Central domain, 137 blood essence has been condensed, quietly suspended at the bottom of the volcano Above the flame pool of the plain central area.

Among them, the ordinary immortal beast has a blood quality of one hundred and thirty-five, and the only one of the fierce beasts of the immortal level is only two.

These blood, Ye Xuan did not intend to use it for the time being.

In particular, the two beasts who are immortalized, this is one of the main raw materials used to condense Twenty Second.

Twenty-level Dan, what needs to be used is the ordinary immortal beast blood, the last time the 18-level Dan of Ye Xuan refining, used a full five immortal grades of blood.

Although the perfect formula of Twenty-Second-Level Dan has not yet been deduced, according to his estimation, if there is no accident, if you want to condense Twenty-Second, you must at least need five to seal the immortal. Animal blood.

This is a top resource that can only be obtained after killing the immortal. It is very difficult to get it. So even if Ye Xuan decides that he has swallowed the two **** beasts that are immortal, he will definitely have some strength. breakthrough.

However, after hesitating and hesitating, he finally gave up the plan. In any case, he first stored the five seals of immortal blood that were needed to condense the twenty-second dan.

Even the more than a hundred ordinary immortal beasts, he did not intend to use it immediately.

After all, in addition to the Twenty-Second-Level Dan he used, he had to refine some of the twenty-first-level Dan.

At the moment, there are more than 60 tubes in the 20-level liquid in his hands that make immortal grotesque, but there is only one one in the 20th-level Dan who made the immortality. This reserve is too small, and you must condense some of it. Only then.

Of course, condensing a 20-level Dan, only five immortal beast blood, plus other top resources.

In the hands of Ye Xuan, there are now more than one hundred immortal beast bloodstains, which can completely leave part of it to condense the twenty-first-class Dan, and the remaining part is used to swallow and enhance its own cultivation.

However, all this is not anxious. After all the beasts have been condensed, the most memorable thing now is the treasure of the nine-tailed fox that was mentioned before the shameless seventh-order yak...

"call out!"

During the meditation, all the more than one hundred beasts were bloody, all of which turned into a spurt of glare, and did not enter the closed cave underground in the bottom plain of the central volcano.

Then, Ye Xuan's mind retreated and turned to look at the seventh-order green cow on the side: "Let's go, take the king to see the treasure of the nine-tailed fox that you said before."

"Great, please, please!"

The seventh-order green cow obviously had already expected that after the end of the war, Ye Xuan must first ask about this matter. Therefore, at this moment, he heard his words without any accident, and put down a pair of front arms. Hoof, no longer standing, talking between the four hoofs, when even in front of the road, toward the distance of more than a hundred life stars, the most huge look of the roar.

Ye Xuan stepped and followed closely behind him...

As for his body shape, because he has already withdrawn from the **** magical power of the konjac, he has regained his strength to ten feet. There is no way. Although the horror of the giant body is powerful, it is not convenient, and it is impossible to keep it at all times. With.

Due to the withdrawal of the **** magical power of the konjac, Ye Xuan's cultivation at this moment is also the first step from the seal of the king, and it has fallen to the fourth stage of the immortality, which is weaker than the seventh-order green cow leading the way. Small order.

However, Ye Xuan did not worry about the other side's anti-water, and suddenly started to attack himself.

If the seventh-order Qingniu really has this idea, Ye Xuan can turn into the **** magical power of the konjac and nine-decision once again. At that time, the powerful strength of the immortal first-order king will return to shamelessly. Don't want to be cheeky.

The other side obviously understands this too, so even if he is now extremely skeptical that Ye Xuan's original cultivation is just the fourth order of immortality, it is not his opponent, but the seventh-order green cow still dare not act rashly.

On the one hand, the other party has a horrible blood talent, and it can be turned into a horrible violent temper between the meditation, and the strength is also soared to the immortal.

On the other hand, when Ye Xuan came here for the first time, he was besieged by the seventh-order green cow and the star-studded blood crocodile, and the black zerg was besieged, but the mysterious means of disappearing without a trace disappeared. The green cow is jealous...

Soon, under the guidance of the seventh-order green cow, Ye Xuan came to the life star where he was sitting. He just entered the atmosphere of this huge life star, and a rich and powerful aura of heaven and earth has already come.

Ye Xuan began his knowledge of the whole star, sweeping the whole surface of the stars and the sea surface, and saw a lot of top treasures that even his eyes were extremely hot.

After all, it is the old nest that is waiting for immortality. There are too many good things in it. It is also the case that the stars and blood crocodiles and the black zerg are sitting in the stars.

"Da, now I am already your own cow. The treasures of these top treasures in the old nest are naturally yelling at you. It is a good idea for the old cows. Please don't delay, you must It's good to accept it..."

Seeing Ye Xuan's eyes, the seventh-order green cow is also a bachelor, and there is no feeling of distress. It directly means that all of this is given to Ye Xuan.

In this regard, Ye Xuan will not deny it, but there is no need to rush to collect it now. Anyway, including all the top treasures in the star singer and the black worms, they will all appear on the list of wars. Packed and delivered to Ye Xuan, and then charged together, it seems to be more atmospheric.

However, the attitude of this shameless young cow in front of her eyes made Ye Xuan suddenly feel a move, and gave him a deep and deep look. Then, the corner of his mouth slowly floated a touch of laughter: "Old cow, look Looks like you have a request for this king..."

"The right pair...or the big picture, nothing can escape your eyes."

In this regard, the seventh-order Qingniu did not deny it. He nodded on the spot and admit it, but he said with a turn: "I told you before, the old cow I am a foreign household, and the things I ask for are related to the ancestral land of the old cow. However, if the matter is long-term, it is not anxious to disturb you now."

"I still take out the wreckage of the nine-tailed fox that is here. I will sing you with filial piety..."

Chapter 4239: Nine-tailed fox

"boom!"

The words in the mouth just fell, and the seventh-order green cow has already been shot.

A humming sound came from a huge hoof, and a mountain in front of its figure was directly blasted open, revealing a huge space inside the mountain.

There is no such thing in this huge space. There is only the treasure of a nine-tailed fox, and it is obvious that the seventh-order green cow is treasured here.

The treasures of this treasure are extremely large, and they are full of giants. They are silver-white and have no hair.

After the fox's stock, there are a total of nine furry silver-white giant tails, but there are a lot of damage on the body. Obviously, before the fall, it experienced a terrible battle, and the huge body of the huge body is missing. A quarter. Do not

After all, this nine-tailed fox was born after the age of the golden dragon, the empty giant tortoise and other ancient wilderness. Even if it has fallen into endless years, the body is still full of vitality, the silver at the wound The blood has not even solidified yet. Do not

However, the treasures of this ancient and large-scale treasure have not spread too much powerful pressure, which must be related to the blood of the nine-tailed fox. another

On the one hand, it is also because the seventh-order Qingniu has exerted some means on this treasure, and its pressure has been converged to some extent. complete

Actually, Qingniu is also a kind of powerful strength with unsuccessful seven-step power. Although the temperament is really strange and speechless, his combat power and means cannot be ignored. Look

These silver-flavored ninth-day fox wreckage, Ye Xuan I want to smoke, but suddenly there is a very fast frequency of turbulence, so that Ye Xuan's movements are instantly stagnation..."

call out!"

During the meditation, the smoky smog was directly escorted from the immortal world by Ye Xuan, suspended in the void in front of the body, and the wind was displayed in the wind, and turned into a giant pink pipa, which spreads the mist and reveals a mist. Mysterious and confusing atmosphere.

In the next moment, three white jade legs, white and snowy, were found from the hollow of the misty pink mist. The temptation was incomparable, and the seventh-order green cows on the side couldn't keep up, and they threw them into the ground. it is good

When it is not easy to get up, the sacred sorrows, the ancestral ancestors, and the ancient and old electric mothers, the three powerful names of the savage and savage, have all gone out from the smog. One

Passionate and glamorous, a mysterious and enchanting, the other, the cool and sultry reveals the charm of the soul, can be described as each has its own temperament, but whether it is body or face, it is the best choice, dazzling. which is

Ye Xuan has already been familiar with them. At the same time, he saw three ridiculous sorrows appearing in front of him, and all of them smiled and smiled. They screamed at the master... At this moment, they suddenly gave birth to a kind of almost control. Can not hold the impulse.

Seeing his shackles, the three bright and fascinating Hongyao repairs suddenly laughed, different gestures, motionless movements, but all of them were beautiful, and Ye Xuan was very dry.

He quickly shifted his attention and turned his mind to the strength of the three women, such as droughts and floods. It was shocked to find that when they disappeared for a while, when the three women reawakened after another sleep, they all had an immortality. The cultivation of strength, although it is only the second to third order of immortality, is the beginning of this situation, but it is equally amazing enough. Do not

However, I thought that the three of them were all the ancient powers behind the golden dragons and the empty giant tortoises in the floods of the year. Nowadays, rebuilding the treasures, like reincarnation, there is no need to practice the cultivation of strength. For them, The soaring strength is just like recovery. Ye Xuan is relieved. more

What is important is that the speed of his own cultivation as a strength does not seem to lag behind the three survivors who call him the master. So, there is nothing too tangled. "

Big... Big, these three peerless beauty, should be a big fight? "this

At the time, the seventh-order green cow on the side has already recovered from the initial shock. Under the vibration of the body, the first time, he ran four hoofs and ran to the back of Ye Xuan. The three women in the drought and the flood, a pair of low-browed and pleasing slaves look like.

During the speech, I did not wait for Ye Xuan to respond. He said hello on the spot with the three women in the drought and flood: "The three nephews are good, and the old cows ask the nephews to be safe..."

This sentence is good, and it is still the scorpions... Suddenly let Ye Xuan stunned and slammed it to the ground. Let

What is even more speechless is that for this title, the three women in the drought and the flood did not refute anything. Although they did not agree on the spot, they looked at the eyes of the seventh-order green cow, but they all obviously showed the feeling of approval. When I was close, I was stunned by the old things on the spot, excitedly turned straight into the circle, and I was very insane..."

OK, there is nothing wrong with you here, what should I do?...

For this scene, Ye Xuan was unable to vomit, and his eyes turned straight, and he immediately drove away the seventh-order blue cow behind him. Then he coughed and quickly shifted the subject. to

The three women, such as the drought and the flood, asked: "You are in the midst of wanting to smack in the smoke, saying that there are important things to report, what is it?"

In fact, for this matter, Ye Xuan's heart has already had speculation, but it has not been confirmed.

At this moment, he asked him about this business, and Ye Xuan, the most familiar corpse of the ancestors, turned his fingers and pointed his finger at the huge wreckage in the distant mountain space in front of him. He smiled slightly: "This With the treasure of the treasure, it is the treasure of the Tianhu sister..."

"What? Among the seven great cults, one of them is a nine-tailed fox?"

However, it has been vaguely guessed, but at this moment, it was confirmed by the corpse of the corpse, and Ye Xuan was still shocked.

In the ancient treasures of the smog, a total of seven sacred and sacred spiritual sources were sealed. These seven ancient and ancient cults were all the ancient powers that were second only to the golden dragon and the empty giant tortoise.

Now that he has awakened, and he has been helped by Ye Xuan, it is only the corpse of the ancestors, the ancestral ancestors, and the ancient monks.

The remaining four are still only four states of understanding and are in a state of slumber. leaf

Xuan even who they are, are still not aware. but

Judging from the situation in front of us, the fourth old-fashioned Yan Xiu repair is obviously about to be born. She is the nine-tailed fox that is mentioned at the moment! "

Yes, the Seven Great Yan Xiu, Tianhu Girl is indeed one of them..."

Sure enough, Ye Xuan's words were just finished, and the corpse of the corpse immediately nodded and explained to him: "Original, the spiritual source of Tianhu's sister is still in the midst of sleep, but just because she sensed her. The atmosphere of the predecessor's treasure, so I am now awake."

Moreover, because her predecessor's treasure is here, Tianhu's sister can immediately reshape the treasure of this life. The treasure of the front of the mountain is the best material to reshape the treasure..."

Chapter 4240: Tianhu is so happy

"Is it possible to reshape the treasure at once? And is it the material of the sacred treasures of the past?"

Upon hearing this discourse, Ye Xuan's eyes were brightened, and the breathing was a little quick. He quickly asked: "If you say this, can the nine-tailed foxes recover their past lives? Even if they can't reach the ancient Energy level, at least the ancient powers are still no problem?"

It is no wonder that he is so excited. If there is a great general of the ancient power level, I am afraid that even the Emperor of the Emperor can only sing and conquer, and then I will arbitrarily sway this void, completely out of my mind!

This kind of good thing, Ye Xuan has long wondered how many times he thought about it. When he had just rescued the Nether Giant tortoise, he had already thought this way.

The strength of the Void Giant Turtle is even more terrifying. He has never even fallen. He has lived from the time of the flood to the present. Unfortunately, the old turtle is not controlled by Ye Xuan. It is estimated that he will only listen to the headless baby. Place

Therefore, Ye Xuan is just thinking about it.

But now it is different, and he wants to be refining and smouldering. The seal of the seven ancient sacred cults has already recognized him as the main source. If the nine-tailed fox can restore his past life, even if he is stronger than Ye Xuan, Because of the relationship between the master and the servant, she can only listen to Ye Xuan.

This is a wild power level that can be arbitrarily driven. It is absolutely impossible to say that you are not tempted...

"Master, you want more..."

To Ye Xuan's expectations for the Jiuwei Tianhu are so high, all the faces of the three skulls are floating black lines. The ancestors' droughts and sorrows are shaking their heads and smiling. It's quite a bit of a feeling of silence. The old-fashioned electric mother on the side is a cover-up smile.

After receiving the words, I explained: "Tianhu sisters have obtained the treasures of the previous generation's treasures as materials to reshape the real body, but it is impossible to restore the peak strength of the previous life directly. That is, it is higher than the starting point after we reshape the treasure. If there is no accident, it should be around immortality..."

"Is it immortal? This is too low..."

Listening to the words of the ancient and old electric mother, Ye Xuan is half-cooled, and the ancient power of the promise is turned into an immortal old monster. This gap is too big, and it is really unacceptable.

No matter how unacceptable, I still have to accept it. After some depression, Ye Xuan quickly adjusted his mood. In any case, at least one more immortal general, and absolutely loyal. .

Even if people's cultivation is as strong as their strength, they can still compete with themselves. Maybe after the next sleep, they will wake up and return to immortality. This

As soon as he thought, he immediately balanced, and no longer said anything more. He asked the three gimmicks in front of him how to reshape the real body with the wreckage of the treasure in the front of the mountain. "

This matter does not require the master to take the shot, since it is the treasure of the ancestors of the Tianhu sister, she has its own means..."

After the ancestors, the faint faint smile, talking between the fingers to the front of the empty sky floating in the wild treasures of the treasure: "Master, you just have to look at it, Tianhu girl is ready to shoot, has been waiting for your approval!" Now that you have promised, she must not wait!"

"Hey!"

The words of the ancestors of the ancestors just fell, and the tens of thousands of smog in the wind in front of them stretched out a fierce silver light in an instant. The speed reached the extreme and directly shot into the distance by the seventh-order green cow. The peak of the mountain that opened.

In the blink of an eye, it has reached the body of the fox of the fox in the belly of the mountain.

For a moment, the huge Tianhu treasure in the mountain's belly suddenly burst into a fierce silver glory, and the breath was instantly made, even showing a sense of ingenuity. For a moment, Ye Xuan even had an illusion... This has long since fallen. The endless years of the nine-tailed fox, lived again. but

This is obviously impossible. The reason why Ye Xuan feels that the smell of this treasure is suddenly agile, is actually because the genius of the fox, the genius of the genus, has differentiated into an energy and entered the treasure of the treasure. It has formed a co-seismic relationship.

Just as Ye Xuan was stunned, the front of the mountain suddenly burst into a strong silver awn, and even he felt the glare of the silver awning. Ye Xuan closed his eyes subconsciously, and once again fixed his eyes, it was discovered that the giants were huge. The treasure wreck of a nine-tailed fox has actually broken down and disappeared at this moment. mountain

In the abdomen, there were countless small silver-colored awnings, with a fascinating breath, and under the traction of the fierce silver awns that were shot from the smoky smog, they quickly plucked into a silver-plated river. In general, I didn't fall into the wind and smoke in front of the wind... This

The process only lasted for a dozen or so breaths. When everything was over, the giant fox of the front of the mountain was completely disappeared. on

Three old sorrows, such as the corpse of the ancestral ancestors in front of the company, have already turned and smiled, and they have entered the smog...

"Silver Fox thanked the owner for re-creating the grace. This treasure is so heavy that it needs to be quietly refining and refining. It is impossible to come out and thank the master in person. If you don't wake up from sleep, thank you again!"

Just as Ye Xuan's **** was on the verge of the wind, the front of the wind and the smoke of the smoke, suddenly came out with a fascinating sound, soft and incomparably fierce voice, I heard that Ye Xuan's bones were lighter, and it's really fascinating. The nine-tailed fox, known for its beings, has this power in just a few words, and even Ye Xuan is a little scared.

By the time he returned, the incomparable voice of the nine-tailed fox had disappeared, apparently about to enter the midst of sleep. leaf

Xuan suddenly thought of something, immediately whispered: "Wait a minute, this king has not yet given you a face-to-face ceremony... Of course, the drought, the post-Qing and the electric mother also have a share, in one sentence, the resources are fully supplied, you Recover the strength as soon as possible..."

After that, Ye Xuan suddenly waved his hand, and instantly took out 40 drops of evil source liquid, 4,000 cubic meters of purple gold top flesh and blood medicine, and other top-level cultivation resources, which were divided into four parts. Directly invested in the desire to smoke.

Suddenly, I got so many cultivation resources, and they are all top-level things, and this time there are purple gold top-level flesh and blood medicines. The four beautiful repairs are obviously quite unexpected, and even more surprises, even when they are outgoing. A voice of a smile...

"Thank you for your master..."

"Look, I said it earlier, the master has something good to remember us!"

"Oh, it's so cute, Tianhu is born again, it's really happy, just be born again, there's someone who loves..." ...

...

Listening to these words, Ye Xuan's face was red, and the whole heart jumped up. No way, it's really these four gimmicks, all of which are fascinating with the existence of all beings. Used to describe them, they are all weak...
