

## Super D. S 425

Chapter 425: Seriously injured?

"The trough!"

Ye Xuan reacted faster and quickly turned off.

The next moment, he heard a slam, and the disciple was directly pinched by the giant tongs.

The scorpion disciple made a heartbreaking scream, and he still does not die for the time being, but in the next scene, he is afraid that he will die.

Because the black scorpion king actually caught his upper body and stuffed it into his mouth.

"The trough, eating people!" Ye Xuan was scared to death.

He clearly saw the desperate expression of the disciple's head being tucked into his mouth.

"Hey!"

"Hey!"

Ye Xuan was so scared that he was cold and sweaty. Fortunately, it was not him who attacked him for the first time, otherwise things would be big.

However, this is not over yet.

The black king swallowed the lower body of the disciple.

Ye Xuan tightened his nerves and stared at the black king. He didn't know that after the black king had eaten the disciple, he would not attack him.

"Hey!"

"Hey!"

That sad reminder disciple is already swallowed up.

Later, the black king turned and took a look at Ye Xuan, without any action.

"Do not attack? Is it full, or what?"

Ye Xuan held the Eight-Dangerous Sword in his hand and looked at it strangely. He felt that the Black King did not seem hostile to him.

It's hard to be because of the blood of the beastmaster?

Or, it was before he swallowed too much poisonous grass, and this black king was also poisonous, so he didn't want to eat him?

This issue, Ye Xuan also did not understand.

But he dare not take it lightly. After all, this is a sacred beast of the third-order temperament. If it is suddenly attacked, even he may fall. The disciple is the best example.

Ye Xuan and the black king looked at each other. Then, the black king closed his eyes again.

"call!"

Ye Xuan is relieved, regardless of the black king, he must be careful.

He stood here for a while, his eyes never removed from the black king.

Half an hour later, the air suddenly flew two figures, and then landed next to the black king.

These two figures, one is the elder of Wu, the other is the owner of the black king, black girl.

"Bloody smell?" After the elders landed, they frowned.

The girl in black is also a bit strange, saying: "Strange, Xiaohe didn't even eat another one this time?"

Not far from Ye Xuan heard, his face was black, what is Nima?

At this time, the Black King also opened the eight eyes.

"It's not bad to wash, but the mouth is not cleaned, forget it, Wu elder, then I have to leave for a while, Xiaohei will bother you to take care of it." The woman in black turned her head.

"Yes, please don't worry about the lesser owners."

Elder Wu answered with respect and respect.

The girl in black turned her head again and looked at Ye Xuan and said: "Little Black doesn't seem to want to eat you. The next day, you will take care of it. Remember, eat three sacred beasts a day, a cow is so big. It's enough, and it's washed once a day. If it's done well, come back and enjoy it."

"what?"

Ye Xuan's eyes are about to come out, and this black king does not want to eat him?

What kind of racial jokes!

"You can't find someone else by rewarding you?"

Ye Xuan is already imagining a million grass mud horses in his heart, trampling from the black girl.

However, due to the identity of this girl, he did not dare to refute.

Because the girl and the elders of the squad were flying, there were forty-five dragons around the girl, and the elders were two fewer than her, only forty-three.

This means that the black girl is the fourth-order temperament, with the power of four hundred and fifty dragons, which is twice as fast as him.

After the black girl finished speaking, she said a few words with the black king, and lost another ring to Ye Xuan, then turned and left.

"Kid, she is the main door of my lord's door. If it can be seen by her, it is much better than when I am a pro-disciple. You give me a good life, and you will not be able to benefit you." I also left afterwards.

"Go to your pro-disciple."

Ye Xuan screamed in his heart, and took angrily to pick up Qiang Kun to see it. Hey, things are quite a lot.

His inner heart suddenly became entangled. This ghost tomb collar is the ghost tomb collar. Even when he is a bather, he is better than him.

"Hey, the host has broken through two hundred and fifty dragons!"

The identity of this black girl is very unusual, and she has given a lot of things. After Ye Xuan swallowed it, she actually raised the Twenty Dragons.

However, now Ye Xuan is relieved, because of the black girl, his safety should be able to improve a lot.

Now he has broken through to two hundred and five, oh, the power of two hundred and fifty dragons. If you use the Beastmaster violent, you can upgrade to 325 dragons, plus agile advanced, he can be with the fourth-order People are faster than speed.

He was thinking, if you want to find an opportunity, hold a disciple, ask the way to leave the Baidu Valley, and then sneak away.

However, if you think about it, he thinks it is still a problem, because there are still a few hidden masters in front of Baixuanmen Mountain. He is afraid of this strength.

"Still waiting for her to come back, maybe I can improve my strength, and then I will say it."

Ye Xuan temporarily dismissed this idea. As long as he raised some realms, he would be able to leave the Baidu Valley.

In the next few days, Ye Xuan also lived by the lake, taking care of the black king, feeding three meals a day, and taking a bath every day.

In addition to eating, the black king is also closed, and it is not hostile to Ye Xuan, because Ye Xuan has the blood of the Beastmaster, which makes him feel guilty.

Ye Xuan took care of this for half a month. In the past two months, there were also many disciples of the Poison Valley who had nothing to do to observe. They were very surprised. How can Ye Xuan live under the eyes of the Black King? old.

However, they did not dare to approach, for fear of angering the black king, to a massacre, and if they were killed, no one would judge them.

Half a month later, the black girl was finally back, but this time, she was seriously injured.

No, to be precise, it is poisonous.

Ye Xuan also heard the news, so I went back to Baiduo Valley and heard the news.

"A hundred poisonous princesses, being wounded by a strong person, being poisoned, at stake?"

After hearing the news, Ye Xuan was shocked. He returned to the lake and told the Black King.

Who knows, after listening to the black king, he immediately opened eight eyes and then rushed back.

Ye Xuan hurry to keep up, he did not expect such a thing to happen, can only think of the black girl is fine, otherwise he Nima has to be pitted, may be used by the venom of the door to vent their anger, drowning pig cages to death.

His luck has been very poor recently.
