Chapter 4258: Lion Wanjin wakes up

Shennong Ding interior space, the bottom plain of the central volcano!

The entire volcano inside the central domain, and now only the lions and lions who have not revived Ye Xuan and Shang.

As for the Flying Scorpio, the Silver Ghost and the Eight King Kong, they are in the mountains of the Ding inside the volcano, and they are looking for a retreat.

Their cultivation was originally good, but since Ye Xuan entered this corner of the ancient world, there was a lot of powerful forbidden beasts, but it was already faint enough.

It is for this reason that before the two battles in the Sangzhi Star Field, after a little tempering, Ye Xuan threw them into the Dingnai space, including all the devils scouts headed by the sea and the green feathers. The same is true for the strong, the only task is to practice and break through!

At the bottom of the volcano at the center of the volcano, Lion Wanjin lies in a cage on the side of the mountain. The breath is very weak. Ye Xuan has already regarded him as a dead man, and he has almost completely forgotten its existence.

And Ye Xuan, sitting cross-legged on the flame pool next to the bottom plain, closed the eyes, and entered the state of cultivation that I forgot.

But he did not cultivate, but fully urged to seal the powerful gods of the late immortal, together with the body's engulfing system, to the perfect Dan Fang of the 23rd grade Dan, to promote...

Unconsciously, his mind has been completely immersed in, and he has forgotten everything around him, and even forgot the existence of the id. All the minds, almost like inertia, cooperate with the body's phagocytic system, and never sleep. Pushing forward!

Time passed slowly, blinking, and nearly five months passed!

In the past five months, Ye Xuan's body shape has not even swayed. Until now, as if he was sitting in a normal position, his shoulder suddenly moved slightly, and then the eyes that were always closed were slowly. The ground opened.

A touch of gloom has flashed through the bottom, and Ye Xuan's consciousness has completely returned. After nearly five months of full-scale derivation, he can help him to enter the imperial twenty-three-level Dan's perfect Dan in the future. Fang, and finally succeeded in deriving it.

Twenty-three grades of Dan, can make the king of the immortal ninth-order great perfect existence, after swallowing, in a short period of time, it will smoothly break through to the immortal.

The Danfang is more complicated than the Twenty-Second-Level Dan, but when Ye Xuan was deduced, it was originally a variety of attempts and combinations of various resources in the basic hands. Therefore, on the Dan Fang of the 23rd-level Dan, Although the variety of cultivation resources required for the refining process is more, it is simply massive.

But Ye Xuan has basically all of them.

The only thing that is bad is just the blood of the beast of the immortal level.

If you want to smelt a twenty-three-level Dan, you need at least five or more immortal beast bloodstains. The more blood, the more Chengdan will be released. For example, this time you will refine twenty-two. Dan, he joined ten **** beasts that sealed the immortal level. As a result, he accidentally produced three twenty-two dans.

If there is no accident, use ten pieces of the immortal beast blood of the king to smelt a twenty-three-level Dan. If everything goes well, then the twenty-three-level Dan that will be released at that time will most likely reach three. .

Of course, if you only use five, you can also learn, but the chances of two twenty-three grades of Dan, I am afraid it will be even smaller!

However, for Ye Xuan, it is meaningless to go to pondering now, because he has no blood in his hands.

This matter is not in a hurry, he has not even swallowed the twenty-second Dan, the tempering of the twenty-three Dan, and a lot of time.

However, in the subsequent expeditions, the king of the immortal beasts of blood, I am afraid I have to start preparing. After all, the existence of the royal family is less than that of the seal, and it is harder to hunt. It is so difficult to seal the blood of the beasts of immortality.

Now you need ten pieces of the immortal beast of the king's immortal blood, the difficulty can be imagined!

It can't be done overnight, only by slowly accumulating...

"Has it been five months?"

After rehabilitating the mind, Ye Xuan checked the time. This time, the deduction was actually spent for a full five months, and this has been pushed for four months before, only half of the words are left. the result of.

In other words, it is only the perfect Dan Fang of the 23rd grade Dan. He is using this piece and it takes nearly ten months...

Thinking of this, Ye Xuan couldn't help but shake his head and smile. This is still the twenty-three-level Dan. What is the follow-up to break through the immortal twenty-four Dan?

Wouldn't it take more than a year for the light to push a Danfang?

Moreover, in the past year or so, he still can't do anything, he must condense all his mind, never sleep, and constantly push forward...

One thought of this, even he could not help but sigh, this kind of genetic culture liquid forging, tearing the body's potential, and promoting the way of life evolution, although the breakthrough of the realm is extremely rapid, and after the breakthrough every major The breakthrough of nine small steps in the realm is also very fast.

Basically, as long as the accumulation of energy is reached, it will be able to break through.

But don't mention it, it's a bit horrible to push Daniel's energy and energy in this regard!

This is Ye Xuan, the vast amount of resources in his hands, and all of them are rare top resources. If they are replaced by others, in addition to spending a lot of time to promote Danfang, the collection of materials after Dan Fang's deduction I am afraid I can drive people crazy.

But the world was originally like this. Everything is two-sided. After he sighed a bit, he threw the matter behind his mind and his mind gradually flattened...

"the host!"

Just standing up from the ground, a sudden call came from the ears, with sincerity and respect, from the right direction.

Ye Xuan was not able to prevent it, and was almost shocked. Like a conditioned reflex, he subconsciously turned his head and looked at the direction of the sound.

Later, the figure of Lion Wanjin was reflected in his sight.

This guy has stood up at this moment, just inside the cage of the mountain wall, slightly draped his waist and looked at Ye Xuan with great respect.

Before, he was taken away in the body of the Tao, as if he was a waste, he was already retouched by Ye Xuan as a slave.

The reason why Ye Xuan did not kill this guy is to look at the lion's ninth-changing bloodline. On the other hand, it is because he has been refining into a slave. It is impossible for Ye Xuan to have another Bad thoughts.

Therefore, at that time, Ye Xuan threw some cultivation resources and sent them directly into the body, even including a drop of evil source.

After that, he was left to fend for himself. Basically, the destruction of this subgrade could not be restored. However, due to a drop of evil source, there is also the possibility of nirvana.

I didn't expect this guy to sleep for so long, but actually came over, not only to wake up, but also to repair the strength but also because of the break, and quickly soared to the present universe...

Chapter 4259: Destroy the poison

"Is it actually you? Not only awake, but also broken and standing, Nirvana rebirth, actually stepped into the universe?"

After seeing who he was calling himself, and clearly sensing the vagueness of the vagueness in the other's body, Ye Xuan almost took out the eyes on the spot.

This guy had never been taken away before, but it was only a ruin.

Although it has always been like a dead dog, it has always been lying in this cage of the mountain wall, and has been forgotten by the whole world.

But now that I am awake, I have already possessed the strength of the universe, which is too surprising.

You must know that when you first cultivated strength and compared with him, it is also a weaker one of the eight kings of the realm, and now only the universe is repaired.

How many resources did these guys spend with Ye Xuan?

It's not as good as a person's sleep for a long time, and I don't have to practice it with enthusiasm. I wake up and directly cultivate it as a skyrocketing... This is too speechless.

It is estimated that the eight King Kong and others are aware of this matter, and there will be a feeling of being in love on the spot!

"Well? Actually it is... breaking the poison and killing the body?"

After some investigation, Ye Xuan directly searched from the information database of the body's engulfment system, and soon found all kinds of information about the lion Wanjin that was just updated.

Yes, this guy really did not break after the Doji was taken, but it was like Nirvana rebirth, and its cultivation was indeed a universe that Ye Xuan could not believe.

But what really shocked Ye Xuan was the physique of Lion Wanjin.

Ye Xuan had never heard of it before, but Ye Yuanjin was awakened before, and it was close at hand. Therefore, under his command, the body's phagocytic system was first explored and identified. Analysis, and ultimately its physique, gives such a statement.

Although I don't know what it is, I know that it must be extraordinary and seemingly quite powerful.

With curiosity, Ye Xuan even quickly observed the introduction of this physique, and soon realized it.

This kind of destructive poisoning is indeed extraordinary. Although it is not comparable to some of the most powerful congenital physiques, it is formed after the Nirvana, because it is broken and then established, so it is only a kind of acquired physique.

But among all the powerful physiques of the day after tomorrow, it is definitely among the best.

Not only does it improve the realm of cultivation, but it is also the key to this kind of physique. It also has the attributes of thunder and poison. It is simply a violent poisonous thing that can't be touched.

The reason why this happens is because the lion Wanjin is standing in the back, and in the process of Nirvana rebirth, the blood formed by Nirvana in the body, invisibly absorbs a lot of other energy.

After this guy was killed, he was always thrown by Ye Xuan in the cage of the mountain wall at the bottom of the volcano of the central domain, and Ye Xuan got good things every time, even many times, refining, purifying, etc. All are carried out inside the central volcano.

Among them, the energy of various attributes is exuded, basically all the toxins and impurities that are rejected by the Shennong fire. These things float and spread, and each time, Lion Wanjin absorbs some.

For example, after a large amount of scorpion venom was obtained from Feitian, Ye Xuan had sent the scorpion venom with the effect of super forging to the central volcano of Shennong Ding, which was purified internally by Shennong.

In that process, a large number of toxins in the venom of the scorpion venom that were rejected by the sacred flames spread out in the volcanoes of the central domain. Some of them were absorbed by the lions and became the rebirth of his nirvana and the energy of the body and blood. With one of the elements...

This is just an example. In fact, there are many similar examples. It is all this that has created the current Lion King.

After figuring out everything, Ye Xuan couldn't help but shake his head and sigh. This is really a make-up, and I didn't expect to be under the heart, but actually created such a genus with a powerful poison.

However, this is also a good thing. Lion King is no longer strong, and it is impossible to pose any threat to Ye Xuan. Because he was reincarnation by Ye Xuan before this Nirvana rebirth, this is already deep. Deeply imprinted into the depths of his soul, even in the face of the fallen crisis, it is impossible to shake a little!

"Doji is taken away, and it has been thrown here for several years like a dead dog. During the period, even when it was purified by Shennong's flames from various sources, the impurities and toxins that were rejected were so one or two..."

"In this way, you can not die, and Nirvana is born again. When you wake up, you will have the repair of the universe... It's no such thing as an estimate!"

Looking at the lion Wanjin in the cage of the mountain wall in a strange look, Ye Xuan said and said, he couldn't help but smile. This kind of thing, if you don't see it with your own eyes, I'm afraid others will talk about it, he may not Believe.

"But, since you have come over yourself, it means that life should not be! The resentment and entanglement between you and me, with your rebirth of this time, is completely erased. In the future, Ye will never stop. Remember, between you and me, everything starts from the beginning..."

In the end, Ye Xuan shook his head, and the wave cage was removed from the wave, leaving the body of the lion Wanjin out of the mountain wall.

Then he threw out a small space box, which contained some top-level flesh and blood medicine and other cultivation resources. After all, the other's physical fitness is also extremely extraordinary. The starting point for repairing strength is the universe, not only the speed of improvement, but also the space for future growth. It's amazing, more loyal...

This kind of genus, naturally has to pour a large number of top-level cultivation resources, focusing on training!

"The universe is not weak, but in this void, it is still far from enough."

"With these cultivation resources, go to the mountains outside the volcanoes in the central area, and find a cave house for cultivation. I hope that you will enter the immortality as soon as possible, and even seal the immortal... otherwise, it is weaker than the immortality. This star owner is really useless now!"

After that, Ye Xuan waved his hand again and took the space box directly. He was sent to the volcano of the volcano by the lion Wanjin who was saluting him.

The inner space of the giant volcano is not easy for anyone to enter. The central area of the plain at the bottom is the core flame pool of Shennong Ding, the bottom of the ground, and there are several super large closed caves, which are stored inside. They are the most precious resources in Ye Xuan's hands...

The reason why the flying scorpion and the silver scorpion grotesque and the lion Wanjin were put in it was because there were mountain cages that restricted their actions. It is obviously not necessary now.

Outside the central volcano, the Shennong Ding interior space has rolling hills and peaks. It is necessary to retreat and practice, and some are places!

"I don't think I can still encounter this kind of surprise this time. Life is really full of accidents..."

Shaking his head and sighing, Ye Xuan swayed and left the volcano of the central domain. When it appeared again, it was already at the Shennong Ding Dingkou, where the colorful fog was smashing, and it rushed out of the space inside the Ding...

Chapter 4260: Old cows finally wish

"boom!"

"咩..." leaves

Xuan's body shape just rushed out of the atmosphere of the stars, and came to the outer universe of the universe. In the giant star of the retreat of the blue cow in the distance, there was a sudden explosion, even the star's The atmosphere has thus become more and more crowded.

Followed by it, it is a high-pitched burdock, which is the voice of the old goods of Qingniu.

In the sound of the ox, there is an endless joy, and listening to the static, is not the feeling of the immortal seventh-order, even the eighth order of this, but the nine-order great perfection. leaf

Xuanyuan is instantly illuminated. If there is no accident, Qingniu should be a breakthrough, and it is still the second breakthrough. It has been repaired as a strength. It has been upgraded from the 7th order before the retreat to the current seal. The order is perfect. complete

It has been more than five months since the retreat. Before the retreat, this old thing has been in the immortal seventh order for a long time, and it has been close to breaking through the immortal eighth order. again

With Ye Xuan giving him the pale purple flesh and blood medicine, he should have broken through to the immortal eighth order as early as four months ago, and now it has broken through for more than four months, achieving the nine-order grand perfection. This is what it should be...

The earth-shattering burdock, the sound of hundreds of millions of miles, the entire small starry sky forbidden more than a hundred life stars were all alarmed, a figure of the figure rushed out of the atmosphere of the stars, it is already the customs of the tribe, and the three-jawed dragon Dozens of immortal eccentrics in the captive parliament.

Including the more than 20 immortal beasts who had previously joined in favor of the Green Bull, they are also included. This

More than one hundred immortal grotesques, after experiencing this retreat for more than half a year, under the unreasonable supply of a large number of flesh-and-blood drugs, seven or eight of them have already broken through to the nine-order great consummation of immortality. its

Including the three-jawed dragonfly!

These eight great perfection immortal geeks only need one twenty-one dan, and they can immediately break through to the immortality. At that time, the strength of the squadron of Ye Xuan will be greatly enhanced.

Its structure will also be more rationalized.

More than a hundred immortal blame, sealed immortal eight, plus his own and the blue cow two kings immortal, just from the high-end combat power of the immortal level, this is equivalent to a medium-sized starry sky The strength of the forbidden land.

However, at the 20th level, Dan Yexuan had only refining two of them. After using one of them, only one of them was left in the hand, which is inappropriate for everyone, which made him feel a headache...

In addition, the cosmic eccentrics below the immortal level broke through to the ninth order of the universe. This time, there were more than twenty more, and the cosmic monsters in the survivors and the captives were half.

In the hands of Ye Xuan, there are more than 60 pieces of the 20-level dan, and they can go back when they return. At that time, the immortal grotesque in their camp will have more than 20 more. "

Oh..."

A group of people who had not waited for another hundred stars rushed to say greetings to Ye Xuan. In the giant star in front, there was another loud sound of the burdock. under

For a moment, a huge figure rushed out from inside the stars, the speed was very fast, the momentum was very majestic, and the atmosphere of the giant stars was mixed up.

The figure that rushed out of the star is the green cow. The old guy rushed out of the atmosphere and saw the starry sky of Ye Xuan's starry sky. He immediately changed his direction and rushed over with four hooves. face

The look on it was even more exciting, and kept yelling: "Oh, it's great to see you when you go out..."

Hey! "

"I have finally broken through the old cows, and I have entered the eternal perfection of the ninth order of the immortality. Oh, what do you say about Baodan? Hurry to give me a veteran, and the old cow immediately turns around and retreats again. , I have to pay for my wish, oh..."

After the words were finished, the figure was already in front of Ye Xuan. The original horror of the 100,000-foot tales quickly narrowed down in the journey here. Now it is turned into a ten-foot high, standing on Ye Xuan. In front of him, looked at him pitifully...

"call out!"

The faint sound of breaking the air, Ye Xuan suddenly waved, a twenty-two-level Danhua into a masculine volley. "

Hey..." Look

To the coveted Baodan appeared, and turned into a masculine rush to himself, Qingniu excitedly looked up again.

Then, the cow's mouth was opened directly, and after the stunned man's mouth was caught with his mouth, he swallowed it directly as he stretched his neck. "

Broken, this kind of Baodan old cow I...have not tasted anything, too violent! "

After Bao Dan's fall, Qingniu was stupid on the spot, and the immortal monsters and cosmic monsters around him thought that something went wrong.

When I heard what he said in his mouth, it was such a sentence, and suddenly turned his eyes, almost on the spot was turned over! "

Oh..."

"Da, I went to the old cow, I will meet again in a few days, I am the king of the old cow, hehe..."

Just as everyone was depressed and speechless, the green cow had suddenly turned a fat, and turned around and rushed over the giant star that had always come, and sprinkled the excitement of the

burdock. The dream of many years will soon be realized. Even if it is immortal, it is hard to suppress the excitement. very

Fast, the shape of the green cow once again broke into the atmosphere of the giant star in front, and disappeared.

The immortal grotesque and the cosmic geeks in the void in the sky, after seeing his body disappeared, seemed to think of something, almost unanimously, all turned to see Ye Xuan.

All eyes are green and oily, I don't know if I run into a group of wolves! This

Among them, the green awns in the eyes of the more than 20 ninth-order grand perfect universe cosmos and the eight immortal ninth-order geeks headed by the three-jawed dragonfly are the most violent.

Because they are like the blue cows, they have all reached the bottleneck of the big realm. They urgently need a piece of Baodan to break through to the next big realm. The only difference is that the blue cow wants to break through the immortality of the king, and the one they want to break through For ordinary immortality and imposing immortality! "

Breaking into different realms, Baodan is different. There are more than 60 pieces in the universe. You guys are lucky..."

Nodded, Ye Xuan waved directly, and compressed more than 20 tubes of 20-grade liquid into Dan, which was turned into a mans. which is

It will break through the ninth-order eccentric of the more than 20 universes in the immortal world, one for each person.

After the long-awaited Baodan arrived, all the guys cheered up. After thanking them, they didn't stop. They turned and went to the stars of life. This

Obviously, like the blue cow, it is necessary to immediately retreat and break through the rhythm of the next realm.

"Da, then...we are eight? Break through to the immortal Baodan, you should have a lot?"

When Ye Xuan made another noise, the three-jawed dragonfly had already looked at him with pity, and there was a trembling in the tone. It seems that the treasure in the hands of the fearful Ye Xuan has been out of stock...
