

## Super D. S 4261

### Chapter 4261: Expedition

Used to break through to the 20th-level Dan, who is immortal, Ye Xuan does have a hand, but only one. This

Twenty-one Dan, he specially prepared for Feitian. fly

The repair of Scorpio is stronger than the three-jawed dragonfly, and it has been a small step, and it has been closed for a long time. If there is no accident, it is estimated that it will be cleared in these two days. At that time, Ye Xuan's hands are 20 Dan, will be handed over to him to break through to the border.

Although the three-jawed dragonfly is also his own, he has long since voted for Ye Xuan, but on the one hand, this hometown still does not know that the starry sky is the Ye Xuan. another

On the one hand, as before, he broke through the immortality of the nine-order grand perfection of immortality, and there are eight.

Ye Xuan is not suitable for anyone who gives this twenty-first-class Dan, such an important resource, one represents the environment of the seal, even if it is subordinate to the loyalty, I am afraid that there will be a small ninety-nine. most

A good way to dispose of this is to leave the twenty-first-level Dan in your hand to Feitianyu. The eight guys in front of you, who don't give it, wait for the next batch, so that they can maximize their enthusiasm for the harvesting... ..One

With this in mind, Ye Xuan shook his head and sighed, even when he spread his hands: "Breakthrough to the immortal Baodan, the king had previously refining two, one used himself, and there was one However, in order to refine the Qingniu refinement to the immortal Baodan..."

"Not long ago, I just joined some of the fierce beast blood and all kinds of top treasures and treasures, and upgraded it... Hey, the one that the blue cow just swallowed is!"

what? That cow has swallowed our Baodan? "

"Damn, this..."

...leaf

Xuan's words just fell, and the eight peaks in front of him were immortal and immediately angered. They all looked toward the giant star of the Green Cow retreat, and their faces were full of indignation.

However, at the thought of the existence, but the peak of the peak, they are stronger than them, and if there is no accident, then the family is the king after a few days... The eight peaks are immortal and immediately collapsed. Turned to the head and looked at Ye Xuan.

"Oh, you can even make a breakthrough if you break through the immortal treasure of the king. This candidate of Baodan must be very relaxed, or..."

Here, the three-jawed dragonfly is coming to Ye Xuan's body, and the face is flattering: "If you want to refine it, you will be able to get it quickly, and you will be able to raise your hand."

roll! "

Ye Xuan turned his eyes on the spot and spread his hands and said: "The refining is simple, but there is no material, and the clever woman is also difficult to be without rice. Could it be that you have the great magical means of doing nothing in this king? Level Baodan, need five immortal beast blood, eight Baodan is forty immortal blood, now there is no one, where to go?"

Only need five immortal beast bloodstains? Let's say that other auxiliary treasures and treasures, you have already had it here? "One

Listening to the request is as simple as this, and the three-jawed dragonfly is excited again in an instant: "Da, is it as long as it is the blood of the immortal beast?" The immortal beast is not?

"As long as it is immortal, it doesn't matter in the early and middle stages, a total of five."

Nodded, Ye Xuan added another sentence: "Of course, the strength of the five fierce beasts is stronger, and the refined quality of Baodan is better. If all are post-immortal, then It's safe, absolutely one can break through to the seal, this king packs the ticket..."

What are you waiting for? Do it! Find a place forbidden and kill directly. "

To figure out the situation, the three-jawed dragonfly once again took out the light of hope, and said with excitement: "The deity is not full of the nine-order grand perfection, what is the immortal beast that hunted the middle and late five heads? Let's go out now..."

As soon as I heard this, the other seven peaks were immortal and they were ordered to go out. Even the other hundred immortal geeks whose strengths did not reach the ninth order of perfection in this world were all the same.

Although they do not need to seal the class of Baodan now, the blood of the fierce beasts condensed by the flesh and blood of the five beasts in the same territory is not free to get it. It is necessary to take a look at it in advance.

In an instant, the war of more than one hundred immortal grotesques was stirred up like never before, saying that it was like a chicken blood, and it was all too much. This

It is also the result that Ye Xuan wants, which makes him very satisfied. but

Obviously, when it is not yet in the expedition, in addition to the green cow, he has to break through, otherwise he will die when he rushes to the phoenix star field! "

It's really going to be out recently, and the target of the expedition is still the medium-sized starry ground that is immortal..."

During the speech, Ye Xuan waved his hand and turned and walked away from the life star: "But before going out, the king must break through again, including the green cow, and wait a few days for patience." can."

The voice was degraded, and his figure had passed through the atmosphere and entered the interior of the star.

In the wave, Ye Xuan cloth next an isolation method, and then the Shennong Ding sacrificed out, stepping into the thirties of the colorful fog, into the space inside the Ding. just

Into the Shennong Ding, there are ten sacred glares on the face, and Fei Tianqi and others have actually gone out.

After reviewing the ten-person refinement, Ye Xuan was very satisfied. silver

The old blame has broken through to the fourth stage of immortality. For the time being, there is no need for twenty-level Dan. and

Feitianyu did not unexpectedly break through the nine-step great consummation of the immortal. In addition, the cultivation of the eight King Kong's strengths, all of them have successfully broken through to the ninth-order great consummation of the universe, and have already swallowed a 20-level Dan. It's time.

Undoubtedly, after the ten guys complete a retreat, Ye Xuan's squatting will give him an extravagant seal and eight ordinary immortality, and he is still the most loyal force, which makes him feel gratified. "

call out! ""

Oh..."

In the hand, there were nine space boxes containing twenty-first-class Dan and eight twenty-grade Dans, which were directly sent out by Ye Xuan and fell in the hands of Feitian and the Eight King Kong.

"Okay, the recent expedition does not require you to intervene, just in the Ding Nei space to bury your head and practice, and when you reach the bottleneck of the 9th-order big perfection, go straight to the customs and apply to the star owner to break through the big realm of Baodan... "Say

At the end, Ye Xuan nodded, and his body shape had already rushed out of the space inside the Ding, but he did not stay away, but he sat down on the knees of Shennong Ding directly, and his body was hidden in the nine colors. In the mist. First

Three times of conquest, even the green cow, if there is no accident, after two or three days, will break through the current realm, promoted to a king of immortality, and all the things at hand have been processed for the time being, even the twenty-three Dan's perfect Dan Fang has been deduced. For Ye Xuan, the moment when he broke through to the king's realm, he finally came...

Chapter 4262: Shock seal king

"call out!"

"Hey..."

During the hand, a large number of cultivation resources were taken out by Ye Xuan directly from the immortal world. ten

Distilled evil source liquid, two hundred cubic meters of purple gold top flesh and blood medicine, as well as a variety of top treasures and quenching materials and so on! he

Even from the ruins of the ancient treasures of the ancient caves collected in several closed caves at the bottom of the volcano in the central area of Shennong Ding, a bird's leg was cut and roasted with golden sesame oil to the golden oyster sauce. This

The leg of the poultry is taken from a powerful bird of the ancient wilderness level. Although it only takes a small piece, it has hundreds of cubes. It is purified by the Shennong seven-color flame and goes to its dregs. There are still about two hundred cubic feet left. This

Two hundred cubic meters, Ye Xuan is divided into two, half left in the bottom of the volcano of the central domain, the other half is sacrificed, and now with the top of the cultivation resources such as the evil source liquid, suspended in front of him.

"Hey..."

In the interim, Shennong Ding's domain field power can be motivated, and these cultivation resources suspended in front of Ye Xuan are compressed in the blink of an eye and turned into a ball of the size of a baby fist. Following

However, it was swallowed by Ye Xuan and swallowed directly.

"Boom!"

The huge roar of the road blew in Ye Xuan's body, and he swallowed the ball in his belly. In a moment, he turned into a majestic energy river, with a breath of near-destroyed land. Ye Xuan's body limbs are rolling in and out, like a wrath

The incomparable tingling sensation came from the next moment. This time it was too strong. Perhaps it was because of the small flesh and blood of the ancient wild-level bird. The energy was fierce and violent, and the knees were on the Shennong Ding Ding. Ye Xuan in the fog, even the look on his face, became awkward because of this pain.

At this moment, he had a billion-thousand-thousand-thousand-thousand-thousand-pores in his body. Nowhere was he not squirting Baoguang Xiarui. The whole person was like a god, and it was a glare that could not be seen directly..."

Hey! ""

Oh la la..."

Inside the body of the flesh, the overwhelming chain of squeaking sounds continue. on

At the same moment that the energy of the energy is soaring to the extreme, the body of Ye Xuan's body has been shaken by the potential of life, and two human chains have been revealed.

The appearance of these two chains of shackles made Ye Xuan subconsciously relieved. first

The reason why I also specially baked a small piece of the treasures of the ancient wild-level birds was because he worried that this would not be the case. This time, the body could not be excited by two chains. but

Now that everything has been solved, the only thing that needs to be done is to spur the violent energy of the body that is rolling in and out of the body, tearing the two chains that are quietly floating, one by one!

"Hey!"

Oh la la..."

"boom!"

"Booming!"

.....From

From this moment on, Ye Xuan's body treasures are like a sky-turning, and the sound of the chain has not stopped for a second. versus

The symphony of this, as well as the enthusiasm of the raging energy of the river, swelled and swayed the huge roar of the two chains. Time

In the meantime, this kind of smashing roaring resounded slowly.

Every second, Ye Xuan is suffering endless pain. In the end, he has even been numb, and he has forgotten the existence of time.

I don't know how long it took. In the end, when his consciousness gradually returned, he discovered that the roar of the body continued to disappear. that

The incomparable energy of the great river has long since disappeared. The two chains that have emerged from this breakthrough have no trace. One

Wiping up the clearing of the heart, Ye Xuan is very happy, he knows that the breakthrough is completed, and what will appear next will be the long-awaited system prompt.

This time, when all the cultivation resources were swallowed into the abdomen, the potential of Ye Xuan's body was shaken. In the body of the body, the shackles were still two. Therefore, when the breakthrough was not completed, Ye Xuan I already know that this time has ushered in a rare two consecutive breaks. meaning

The second system sound in the material, for him at the moment, the ear is like a fairy..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: seal the immortal nine-order great perfection! "

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: the seal of the immortal nine-order great perfection!"

The immortal nine-order great perfection! in

Before this, the cultivation of Ye Xuan's deity has reached the end of the immortal seventh order. Once the three-headed and six-armed Taikoo konjac blood is activated, the strength is once again soaring and directly climbs to the end of the order.

If you re-apply the konjac and change the magical powers, and reach the sixth change, you will be able to reach the horrible strength of the fifth-order immortality of the king.

The king of the king is immortal, and it is in the middle of the world.

This time, when his cultivation is once again ushered in a two-time break, with his deity in the ordinary state, he will enter the immortal ninth-order grand perfection, once Ye Xuan activates the body of the konjac blood, and enters The konjac has changed into the sixth change, and the peak force will be able to reach the seventh stage of the immortal kingdom. This is the situation of the late kings. The extent of the increase in combat power is hard to imagine...

But this is obviously not the end! very

It can be said that this time, Ye Xuan's breakthrough is only a beginning. It

The first two breaks were made for the next preparation. Connect

Down, he will take the twenty-second dan, which was just refining not long ago. Once it is successful, the efficacy of this twentieth-level Dan will be refining, and Ye Xuan's life level will once again jump. From

This... step into the king! "

call out! "

"Hey..."

Without any hesitation, even the meaning of rest is not enough. Ye Xuan waved again at the first time. From the immortal world in the body and the inner space of Shennong Ding under the body, the second batch of cultivation resources that had already been prepared were taken out one after another. ... sudden

The other hundred cubes of the quasi-aged big-age bird that was baked before it was broken.

One hundred cubic meters of purple gold top flesh and blood.

Five drops of evil source... and various other top-level cultivation resources, but this time, all are forged! most

After that, and most importantly, it is a twenty-two second. first

In the former refining system, the twenty-two-level Dan, a total of three Cheng Dan, gave a green cow, and there are two left. leaf

Xuan took out at this moment, is the best of the three! very

Fast, Shennong Ding's domain field power can be mobilized again.

All the flesh and blood medicines and other resources were all compressed into a baby-sized ball, which was swallowed by Ye Xuan under his mouth.

"boom!"

It was almost exactly the same as the previous roar, but this time, Ye Xuan's feelings were not as painful as before. One

In the middle of the wave, the twenty-two-level Baodan suspended in front of him was swallowed by him. When he first arrived in the mouth, he was turned into a clear stream. "

Oh..."

The sound of an unprecedented chain has come. This time, at the chest inside the body of Ye Xuan's body, there is a strong chain of shackles...

Chapter 4263: King robbery

"Hey!"

Xuan's body, the endless chain of screams came.

This time, the chain of shackles that appeared inside his treasure was as thick as ever, just in the chest, straight through the belly. This

The thick and strong chain represents the cultivation of the king's kingdom. Once it is torn, Ye Xuan will suddenly become a king of immortality! in

Before entering the emptiness of this ancient wild world, the most powerful star powers he had contacted were just waiting for immortality. but

Now, in just two years, even he himself is about to enter the king of immortality. Recalling all this is like being in a dream.

This piece of emptiness is indeed a true cultivation of the Holy Land, and the coming of the world of the King of Kings is absolutely impossible to be the strongest force that Ye Xuan has obtained here. phase

Instead, it is just a beginning. true

The positive glory will be opened after this breakthrough to the immortality of the king!

With this kind of determination, Ye Xuan urged the energy in the body, forcing the unprecedented pain, and continuously hitting a night and night. Finally, with a huge "铮" ringing, this is in its treasure. At the inner sternum, the thickest chain of shackles was finally broken! "

boom! ""

Rumble..."

.....

Almost at the same instant, under the feet of this life star, there is a large number of black robber clouds in the universe. The number is so horrible that the whole star is enveloped, just like in the original atmosphere. In addition, it is covered with a second layer of black atmosphere...

Of course, it is semi-circular, only in the sky above the top of the head!

After all, this is a king robbery. The power of nature is far superior to the previous one. The robbery cloud can have such a scale, and it is also what it should be. leaf

Xuan grew up and waved Shennong Ding into the body. In a step, the body shape disappeared instantly. When it reappeared, it was already in a deserted emptiness of tens of millions of miles away from this small starry ban!

Nowadays, the cultivation of his strength has reached the realm of the king, and the only difference is the baptism of a wave of thunder. but

This kind of baptism, he can not let other genus in the forbidden land to fight with him, otherwise, in addition to the old goods of the green cow, I am afraid that few people can survive!

With the change of Ye Xuan's body shape, the horrible robbery cloud that had enveloped the life star was also dissipated instantly, and at the moment he was above the void, a large number of robber clouds emerged. flood

Although the world of the ruined world has collapsed and is divided, the will of the heavens and the earth representing the heavens is lacking, but the law of the operation of all things has not changed. Even if it is an incomplete fragmentary void, the law of heaven is still in the midst of it. Run by yourself. Place

Therefore, some of the thunderstorms will surely come, and Ye Xuan has already locked in the meditation, and wherever he flees, he can't avoid it.

In fact, he did not have to flee. In the face of the thunder of the monks who heard the changes, Ye Xuan's dictionary never escaped. "

Roar! "

Roaring his head, this moment, his hair fluttering, the body's breath is all motivated, the whole person is like a most powerful humanoid star, the body of the body is blooming in endless treasure, through the surface of the body One hundred and eighty million pores sprouted out...

"Card!"

It is because of the feeling of Ye Xuan's provocation, the sky's robbery cloud is suddenly more intense between the moment, and after a short break, a stout purple gold lightning has already collapsed!

"Leidi printed!"

Xuan whispered, and when he waved his hand, Lei Di Yin, who was hanging in the brain and knew the sea, spurred out and hung over his head. However, there was a suffocating machine to cover it, so as not to be taken from the three major star planes of the world. The captives of the captive army saw that if that was the case, Ye Xuan's identity would soon be revealed. "

Oh..."

With the sacrifice of Lei Diyin, the first time in the emperor's seal resounded a high-pitched whistling sound. This is the thunder of the emperor, and for it, this kind of king robbery is precisely The best chance for forging and quenching itself.

At the beginning, the reef that was refining for Lei Ling was only three levels of immortality, but nowadays, because of the cultivation of Lei Di Yin, it has already broken through to the nine-order great consummation of immortality.

This time the thunder robbery is not only the opportunity of Ye Xuan, but also its chance. After the baptism of the thunder, the Lei Di Yin will be more powerful, and the Emperor Yin Ling is also likely to break through the big realm and cross into the seal. Waiting for immortality! this

At the time, Lei Ling's voice of joy, clearly revealed the excitement and excitement, had already been unable to hold back, and wanted to rush out.

In this regard, Ye Xuan is unlikely to allow, because then, identity exposure is also unavoidable.

"To be honest in the emperor's seal, the king of the robbery, there should be three waves of purple gold lightning, the star of the Lord as long as the last wave, the first two waves, leaving you and the emperor printed ..."

Slightly raised the head, Ye Xuan mouth heard the voice of the words, listening to its content, is actually the distribution of the three waves of thunder robbery on the head, just like the allocation of important resources in general!

The voice has not yet fallen, the first wave of the king Zijindian has already slammed down, although it fell to the top of Ye Xuan's head, but did not leak a little, all were inhaled by Lei Di.

"Hey..."

In an instant, there was a resounding voice of Lei Ling in the emperor's seal. At this time, the second sky of the top of the sky, the second loud sound of the card is just coming, one is thicker than before, reaching the hundred feet. The huge purple gold lightning, instantly rushed...

This time, Ye Xuan still did not have any movements, carrying his hands, let the Lei Di Yin hanging over the head absorb the second lightning. a few

In the next moment, a more cheerful and whistling sound came from inside the emperor's seal, revealing a strong seal.

Emperor Yin Lei Ling, finally broke through!

"You are lucky..."

After licking his mouth, Ye Xuan waved his hand and directly injected Lei Di into the body, and then he hanged in the air in his mind. Then he looked up and looked at the sky. "

Card! "most

After a wave of hijacking, the power is even more horrible, still the color of purple gold, but the diameter has reached a thousand feet, compared with the human body shape of Ye Xuan, it is just like an ant. "

Roar! "

With a roar, in the face of this wave of the most powerful robbery, Ye Xuan did not avoid flashing, but the body shape rushed out in the arrogance, and went on the face, the blink of an eye did not enter the robbery, was completely submerged... ..

"boom!""

Rumble..."

The horror of the roar of the horror continued, from this moment, the vast expanse of the emptiness of the vast expanse of the purple gold Leihai was shrouded, even the emptiness of the void, it seems that there is a possibility of total collapse at any time.

The thunder's ravages continued for three breaths. In the end, the vast expanse of the Thunder Sea, together with the endless robbery of the void, disappeared in a period of half a breath. "

boom! "

Ye Xuan stepped out, the clothes of the whole body have disappeared completely, and the whole body of the body is in the purple-golden Xia Rui Mang. From this moment, he is the king...

Chapter 4264: Third conquest

The king robbery is over!

However, the dissipating of the thunderbolt represents the transformation of Ye Xuan's strength into a new realm...

Before this, his devotional strength has reached the end of the eternal nine-step perfection. After the activation of the three-headed and six-armed Taikoo konjac blood, the strength has once again soared and directly climbed to the first level of Feng Wang. If

It is to display the konjac and change the magical powers, and reach the sixth change, and it will be able to reach the horror level of the immortal seventh order of the king. but

Nowadays, Ye Xuan's deity is already the first step of the king in the ordinary state. Once the konjac blood is activated and enters the sixth change of the konjac, its combat power will instantly reach the eighth level of the imperial king. distance

The perfection of the kingdom of the seal is only one step difference!

It can be said that in the big territory where the king is immortal, he has almost no fear of anyone..."

Rumble..."

When Ye Xuan's heart was stirring and feelings were full of emotions, within the banned land of tens of millions of miles away, the familiar roar of thunder and thunder suddenly came again.

A violent temperament to the extreme breath is coming, it is the robbery of the king! turn

When she first looked, Ye Xuan discovered that the giant star that Qingniu was sitting in was actually shrouded in a majestic black cloud.

Here, Ye Xuan's Feng Wang robbery has just ended. At that end, Qingniu has successfully broken through. As long as this robbery is overtaken, it will soon rise to the immortality of the king! "

Are the two kings sealed? In this way, in terms of high-end combat power, it has the qualification of a medium-sized forbidden land..."

Mouth whispered in the mouth, Ye Xuan 闪 flashed a glimpse of the fine mans, the body shape instantly swayed, and directly into the giant life star. "

Hey! ""

Come, come and kill your uncle..."

Only after entering the interior of the star, I saw the blue cow that had successfully broken through and looked up and excited.

At this time, Ye Xuan had already revoked the konjac blood in his body after he had finished the thunder, and removed the air machine that covered the whole body. It changed into a starry sky to avoid exposure. Place

Therefore, his current cultivation is the second order of the immortal king.

Seeing the green cow's hair, the starry sky turned a blind eye and kicked it in the past: "Are you stupid? Here is a ghost, you have to sneak away, don't harm the king's subordinates..." "

"boom!"

"Hey..."

After the huge sound of the explosion, the huge figure of the green cow was kicked and kicked out, directly rushing out of the atmosphere, and shooting at a distant and remote space thousands of miles away. The mouth was even more screaming and screaming. Moved! "

Rumble..."

His body was far away, and the looming clouds that had shrouded the stars quickly dissipated. In the remote emptiness of tens of millions of miles away, there was a familiar sound of thunder.

Ye Xuan did not intend to look at the past, and by the way, what to do. green

The cow's heritage is still very rich. On the one hand, it is thick and thin, and the foundation is very stable. On the other hand, this old guy is originally rough and rough. If even these three waves of looting are not enough, then it is strange...

"Card!"

Uh... your uncle, you are killing your grandfather..."

Oh..."

Soon after, with the first crisp and incomprehensible bang, the distant emptiness in the distance of tens of millions of miles, the sound of the tragic sound of the green bulls, one after another, It's endless, and it's all horrible and creepy. know

The Tao understands that this is in the robbery, I don't know, I thought I was killing the mad cows!

All the star-studded powerhouses in the small starry forbidden area have long been alarmed. There are more than one hundred life stars. Each of the atmosphere has a large number of survivors and captive army strongmen appearing on their faces. Weird color, looking out into the distant void...Ray

There were only three waves of robbery, and all the robbery clouds disappeared after the battle.

But in the distant emptiness of tens of millions of miles away, the horrible sound of killing mad cows lasted for an hour.

Just as Ye Xuan couldn't help it anymore, when he wanted to rush to smash the \*\*\*\* old bull, the horrible sound coming from the distant sky finally stopped.

Then, a green spurt came, and when it was thousands of miles away, it stopped and shook the small steps. Under Ye Xuan and more than a hundred stars, countless survivors and captives of the captive army were stunned. I walked over with my hoof..."

Have you seen it? "

"Have you heard it?"

That is the king! "

"The old cow actually resisted, and the sly is called a miserable ah, but now, there is no fart, the old cow I became a savage beast king... oh!"

The last sentence of the sorrowful long wolf is obviously not pretending. The old guy was stunned by Ye Xuan in the starry sky, and he reached the end of the starry sky...

...in

Ye Xuan and Qing Niu broke through to the immortal three days of the immortality of the king. Before they took away a remnant of the 20th-level Dan and the captive of the captive army from Ye Xuan's hands, they finally made a successful breakthrough. to

Therefore, the number of immortal monsters under Ye Xuan's shackles has already exceeded two hundred!

More than 90 sangzhixing remnant tribes! More than 20 beasts of the ban on the green cattle! More than 90 captives!

And this is still the result of flying people, silver cockroaches, and corpses. This

Among them, the nine-order grand perfection, which is headed by the three-jawed dragonfly, has reached nearly 20, and soon these guys will become the seal! to

The cosmic monsters below the immortality, the lords of the landlords and the lords of the domain owners, the lords of the stars, are even more numerous. again

Together with Ye Xuan and Qing Niu, two powerful beastmasters, this powerful starry nomadic army finally has the foundation and qualification to occupy a middle-level starry forbidden land! First

Three comprehensive conquests are already in place! "

Daxie, let's go, the goal of the third expedition is set in the ban on blood..."

It seems that it is guessed that Ye Xuan's heart is calculating the goal of the third comprehensive expedition. The blue cow immediately squatted in front of him, and the oxtails after the stock came and went, seemingly anxious. "

The old cow I have been waiting for more than a thousand years, this day, now, the old cow I finally closed the king, although it is not the opponent of the dragon and the sheep, but slaughter his son is no problem at all. As for Laozi... I will give it to you. "see

Ye Xuan was silent, and the green cow was anxious to jump up and down. He even urged him: "In this case, if you can't kill it immediately, I have to smash the old cow. You can pity the people." ...""

boom! "words

Before I finished, Ye Xuan turned over the white-eyed corner and smashed the past. The huge figure was like a meteor. In the blink of an eye, it was already thousands of miles away. The sound of the wolverines along the way was resounding. The smell of tears!

"Remains of the tribe, the captive army to listen to orders!"

One foot will fly the green ox, and Ye Xuan will turn to the more than a hundred life stars behind him. The voice is whispered in the mouth, but the voice is instantly spread over hundreds of thousands of miles: "Within three days, all resources are cleaned up and put away. The third starry sky, three days later... fully opened!"

Chapter 4265: Again on the blood

Three days later, Ye Xuan stepped out of the retreat of the life star and came to the void outside the atmosphere.

Looking up, there are more than a hundred life stars in the void, and already densely covered with a star-studded battleship and a lower arm. in

Within these three days, according to Ye Xuan's orders, all the resources of the entire Starry Nomadic Legion were cleaned up, including all the refining drugs of the relic tribes, and the treasures of more than one hundred life stars. material.

Since it is a starry nomadic army, it will not start the expedition. Once it is launched, it will not be possible to return.

The emptiness of this piece of land is too vast, and Ye Xuan's growth time is very limited. The full-scale coming of the vast world is likely to come at any time. he

It is impossible to waste a lot of time on the long interstellar travel.

The original legion was defined as the nomadic nature of the stars, which is the only reason! "

call out! "One

In the middle of the wave, the dragon wild life giant plug was sacrificed by him. His body is still similar to a small star. It is huge, but the form looks more like the battle boat in the hands of the benevolent strong. This is in line with this ancient void. Features! "

Oh..."

Soon, with the life giants being sacrificed, from the atmosphere of the surrounding life stars, there will be a large number of survivors rushing out of the boat, and they will enter the life giant plug that has already opened the door.

At the same time, the captive army in the void is also making the final preparations before the departure. All the small warships are entering the interior through the portal passages of the big and small fortresses! One

Among the more than 100 million warships, the size of the 50,000-meter and 100,000-meter star-studded fortresses is 20%. The others are the large-star battleships of the big and small fortresses and the three-kilometer captain.

In order to ensure the speed of interstellar travel, all the stars have entered the big and small fortresses, and the big and small fortresses have entered a large and small fortress. In the end, more than 100 million large fleets have become more than 20 million large and small fortresses. The inside is full of stuff...

All of this, all members of the Starry Nomadic Legion have long been familiar with the road, and when it is completed, it only lasts for a long time!

"Goal, the mid-level starry sky bans the blood of the phoenix... set off!"

With Ye Xuan's order, the whole piece of emptiness trembled, and the Longye Life Fortress instantly turned into a meteor, lasing away toward the already locked starry sky.

Immediately afterwards, the 20 million-size fortress and kinetic energy tanks were full of strength, and the roaring sound resounded through a whole huge void...

...phoenix

As the ancestral home of the green cattle, the blood ban is an old-fashioned mid-level banned land, and its territory has been constantly expanding into the surrounding area.

More than a thousand years ago, when Qingniu was persecuted and forced to leave the ban on blood, the scale of the mid-level banned land was only a large and empty space with a variety of life planets of six or seven hundred, occupying a billion miles! System

The ruler is a fierce bird with two heads of immortality!

Under the sacred kings of these two beasts, the beasts who waited for the border commanded more than 30 sects, and the total number of immortal savage beasts in the entire banned blood ban was over a thousand!

Now, after more than a thousand years, the scale of this intermediate-level starry ban is much larger than before. It is steadily advancing toward the large-scale starry sky...

Nowadays, the phoenix blood bans the land, the four beasts of the beastly kings, the commanders who command more than forty, and the immortal beasts have not reached the number of two thousand, but they are more than one thousand five! to

In the territory, there have been more than 100 million miles, and there are more than 800 life stars in the territory...

The scale is almost one day and one place compared to the small starry ban that was dominated by the green cattle. thing

In fact, even compared with the star-studded nomadic army under Ye Xuan, the phoenix star field, on the whole, also occupies an absolute advantage!

The power of immortality is not mentioned for the time being!

The light is immortal, and there are more than one thousand five people, and the Starry Nomadic Legion is only two hundred years old! seal

In terms of immortality, there are more than forty people in the family, and the Starry Nomadic Legion...not to mention the flying scorpion and the corpse of the corpse that have not yet broken through, not counting one! to

At the highest end of the king's fighting power, there are four people, and the Starry Nomadic Legion, but only two! From

These data can be seen, Ye Xuan's starry nomadic army, if it is forbidden to the blood of the upper phoenix, the result is almost no suspense, ten dead and no life, absolutely all over the army! surface

In contrast to this disparity in strength, Ye Xuan still decided to launch a third star-studded expedition. Apart from the time constraints, he can't wait. The main reason is that he has strong confidence in himself!

There are indeed many vicious beasts in the forbidden land of the phoenix, and there are four! This

Four kings are immortal, Ye Xuan has all had a side in the near future...

It is a \*\*\*\* phoenix that is full of blood.

One is not a miscellaneous hair, the whole body is blue and plume, and there is only a blushing crane top in the top of the head!

These two birds, the two old-fashioned beastmasters who banned the blood from the phoenix, all cultivated to the strength of the middle of the king, all of which are the sixth rank of the king! another

The outer two heads, one for the Zerg, one for the Panjiao Longyang, repaired to strength in the early days of the immortal king, apparently the new king of the beasts in this thousand years. and

Ye Xuan, once he enters the sixth change of the konjac, he will soon have the horrific power of the eighth king of the king.

Even if they are all in the sixth-order blood-staining phoenix and Heding Qinglan, Ye Xuan is sure to fight and smash it...

In fact, in order to ensure that there is no accident, he will not give the opportunity to join the two six-stage kings! in

Before entering the phoenix forbidden land, Ye Xuan will sneak into it alone, and with the speed of lightning, he will kill any one of the six ranks of the two kings... Such as

Therefore, even if the remaining three kings join hands, only one middle-aged king... At that time, even if they fight for death, they can't help Ye Xuan! to

Yu Gang has just broken through to the immortal first-order green cow. Ye Xuan did not intend to let him interfere with the battle of the king. This old guy only needs to deal with the martial arts seal commander and the immortal leader!

If all this is not an accident, Ye Xuan will be able to completely disintegrate the highest-end combat power of the banned blood in a short period of time. Such as

Therefore, there is no suspense in the result of this war... Even if there are more banned beasts in the phoenix star field, facing the absolute crushing of the high-end level, in the end, it will only be able to end the entire army. ! Man

The long and boring star travel is always the most boring. Going to the Phoenix Star Field, Ye Xuan and Qing Niu lead the 20 million large and small fortresses behind them, and the wormhole jumps as much as possible. Even so, it is enough. After a month and a half, I finally got close to the edge of the Phoenix Blood Star field!

Beyond 50 million miles ahead, it is the boundary line of the Phoenix Blood Star.

With Ye Xuan's order, more than 20 million large and small fortresses behind him, all closed the kinetic energy cabin, and the sound of thunder and thunder in the void suddenly disappeared and disappeared.

Chapter 4266: Ridiculous trap

The reason why the fleet of troops behind him is still in the void of 50 million miles away from the edge of the Phoenix Blood Star, it will completely stop the fire, because Ye Xuan will enter the phoenix forbidden land alone, and it will not be covered by lightning. The potential of the ear, first kill a vicious beast king in the sixth-order world.

In addition, the entire army is still in an emergency state, not a combat state. It takes time to switch between these two forms! when

Of course, 50 million miles away, in fact, within the scope of the immortal \*\*\*\* of the king.

The king of the king is immortal, and the gods are fully motivated to cover the vast void of the billion miles. but

The four kings who are banned from the blood of the phoenix are immortal. It is impossible to carry out all the powers of the gods at all times. Search for the surrounding... the savage beastmasters. If you live so carefully and cautiously, what fun is there?

In fact, even if it was discovered by the other party, even setting a trap in the ban on the blood of the phoenix in advance, for Ye Xuan, it was just a joke. he

No fear at all, in the face of absolute crushing power, any intrigues and tricks are in vain! "

boom! ""

Rumble..."

In the moving room, the door of the Longye Life Giants plug is fully open, and a ship of various shapes of the remnants of the warships rushes out from the giant plugs, and the battlefields are arranged in the void. Rear

In the distance of the virtual void, the same is true of more than 20 million giants and large fortresses. A large and small fortress is driven out of it. After the camp, a three-kilometer captain's star-rated conventional starship, Rushing out from a large fortress...

Xuan did not wait for this to end. After all the more than one million remnants of the warships had sailed out of the life of the Longye, he waved his life into the body and turned to the front of the ban. Grow away. whole

The figure is a weak mil, and the blink of an eye disappears...

...

Phoenix blood is forbidden!

This starry forbidden land is quite old. It existed a long time ago. From the small starry ban, it gradually developed to the medium-sized starry ban. There were only two savage beasts. Now there are four, and it has officially entered the medium-sized star ban. The stage of development. and

Today, the two old kings who are banned from the blood of the phoenix are all repaired by the six-level immortality of the king. again

There are several breakthroughs. As long as one of the two old kings breaks into the immortality of the emperor, this medium-sized star ban will become a large-scale banned land, and the territory will be more vast...

This day is not far away. If there is no accident, it will be reached in two thousand years. Do not

However, for these two old kings, the two thousand years seem to be a bit long. This feeling they did not have before, but not long ago, when they saw the legendary era of the ruins, they became prosperous. The ground is strong.

As long as you can get the ancient treasures of this age-old era, the two old kings in the banned ban will have more than 80% of the masters. In just a few hundred years, they will make a comprehensive breakthrough and become a leap. The beastly king...for

In order to realize this wish, in the recent period of time, the phoenix blood banned a large number of beasts, and scattered around, in the vast surrounding stars to search.

Even the medium-sized star-shaped forbidden land adjacent to the Phoenix Blood Star has a spy, and the only purpose is to find the whereabouts of the green cow associated with the ancient gods.

Unfortunately, there has been no valuable clue to feedback.

Because of this incident, the four kings in the forbidden land are immortal, and all of them have recently been agitated, and the whole phoenix is forbidden, and the beasts are disturbed!

It was in this case that a squad of a forbidden beast that was searched around the banned area of the phoenix suddenly sent a message, and a huge and incomparably strange army suddenly appeared in the void of the universe 50 million miles away.

The number is over 100 million, all of which are all kinds of war boats. The vast majority of them have never seen each other, and they are arranging troops outside the 50 million miles.

It should be a powerful remnant of the tribe to carry out the action, want to attack the rhythm of the banned blood! ban

The four beasts of the beasts in the earth were furious, and they began to explore God in the first time and explored in the direction of the enemy. Because of this, they quickly discovered a figure that was spurting... Not long ago, the king-class starry sky that came with the green cow was violent! This

It was simply the joy of the accident. The four beastly kings were ecstatic after a short embarrassment, and even the remnant of the remnant of the 50 million miles was too lazy to pay attention to it, even if it screamed...

"Through the iron shoes innocent, it took no effort, but I didn't expect this starry sky to be violent, but actually took the initiative to come to the door!"

Hahaha... It seems that the time is heavy, and it is destined to have a relationship with my blood, and today I must not let this violent life leave again! "

"Bug, prepare immediately, inform all Zerg in the forbidden land, once the other party enters the core area, immediately activate the blood and magic, and completely ban the void in the core zone! This battle, you do not need to participate, you can ban the void!"

"Yes, this violent \*\*\*\* magical power is too strange. The last time I was calmly taken away under my eyelids, the same thing, I can never repeat it today..."

"Hey!"

In the low humming sound, the figure of the Zerg king disappeared, but the \*\*\*\* phoenix, the crane top and the three kings of the Panjiao Longyang, although still pretending to stay in their nests, have already done well. Ready at any time, ready to fight together.

..."

Broken

The whispered sound, the distance of the starry sky of 50 million miles, for today's Ye Xuan, it is nothing but a short time has passed. Enter

At the moment when he entered the banned land of the phoenix, his body shape disappeared completely, but the gods still existed. In the blink of an eye, the whole \*\*\*\* star field was swept away, and the first three powerful kings were captured.

Without any hesitation, Ye Xuan, who entered the perfect oscillating state, directly launched the teleport. The next moment, the figure appeared outside the atmosphere of the star where the \*\*\*\* phoenix nest was located. but

Therefore, because of the teleportation, his perfect shock state was forced to be solved, and the figure of ten feet was revealed...

"Hey!"

Almost in the next moment, the overwhelming humming sound of the overwhelming sound, the space void of Ye Xuan's figure, tens of millions of miles, was instantly shrouded by an invisible force, making his figure fall into a sticky In the mud of the silk, it is generally slowed down and becomes sluggish. "

call out! "

"Hey..."

When Ye Xuan reacted, there was a sound of breaking the air around the three corners. It was a triangular trend. He was trapped in the center by a distance of 10 million miles. It is this phoenix star field except the Zerg. The other three kings besides the king are immortal. cry

Bloody Phoenix!

Crane top green! Take

And the old enemy of the green cow - Panjiao Longyang!

"I am very violent, but I still dare to come back and watch the action. It seems that I still want to launch a sneak attack on this king..."

Chapter 4267: You crazy

"Irritable, actually dare to come back, look at the action, it seems that I still want to launch a sneak attack on the king..."

The formation of the attack, the three beasts of the king of the beasts are big, the \*\*\*\* fire and the phoenix are spreading their wings, and the voice is heard from the mouth: "Only in the early days of the king, they dared to enter the banned blood, sneak attack on the middle king, you... ...a big courage!"

"The king's courage has always been great, but today he came here to kill him, but he has nothing to do with courage, because he simply doesn't need it..."

Ye Xuan sneered, no more words, looking up is a madness: "Hey! Konjac... Sixth change!"

The sound of arrogance came out, and the terror power in his body suddenly tumbling up. The size of the original ten-foot-high was like a stellar explosion, soaring at a terrible speed...

At the same time, the skyrocketing, as well as the repair of the body of Ye Xuan. and

Today, his deity is in the ordinary state, has been the first level of the repair of the king of strength, but previously, Ye Xuan has activated the body of the konjac blood, changed to a starry temperament, the body The dispersal of the repair is the breath, the second order of the immortal king!

But at this moment, as he directly casts the \*\*\*\* magical power of the konjac to the sixth change, while the body is skyrocketing, the body's repairing atmosphere is at a speed that is rising at a speed... ...

The third level of the king!

Feng Wang fourth order!

After a short breath, when the breath of this surge has finally stabilized, the realm of the atmosphere that Ye Xuan has dispersed has clearly reached a fascinating... This

Everything happened too fast, only one breath before and after, and the three kings who were surrounded by ten million miles were immortal. They had already been stunned and widened their eyes. They looked like a small star in front of their eyes. Ye Xuan, a few doubts in the dream!

A time of breathing, for the immortality of the king, is actually very long and can do a lot of things.

The key point is that all the things that happen in front of us are too ridiculous. One is ten feet high, only the second-order starry sky is violent, and the blink of an eye has changed. It is transformed into a body like a star. Eight-order horror king...

This kind of thing, even if the king is immortal, can't imagine it, so, when it's too late, the three vicious beast kings have not reacted, and the whole brain is completely paralyzed! "

Roar! "

It was also at this time that the horrible giant cockroach that looked like a star once again screamed out of his hair, and the three savage beast kings in the distance were only after the glimpse of the spirit and returned to the soul. surface

Under the sudden change of color, the exclamation sounds instantly from their mouths, and the body shape immediately turned around without hesitation, trying to escape...

"Damn, it's actually the late king. It's no wonder that you dare to come here alone!"

The robbery is coming, the \*\*\*\* green cow, everything is triggered by him..."

The worm, immediately removed the emptiness of the ban, I was trapped... oh! "

"Do you want to run now? It's already late!" Wan

If the stars are generally huge in the mouth, the voice of Ye Xuan's words is heard, revealing the endless sense of coldness.

In the next moment, the starry sky violently punched out, and the huge fist was like a meteor that swiftly crossed the void of the universe, with the supreme power of destroying the earth and destroying the earth, turning to the left side of the void and fleeing. Booming..."

Rumble..."

boom! Virtual

In the air, the thunder of the world resounded, and it seemed to be extremely rushing. It only came to a halt after only half a breath.

What followed was a huge explosion that was like a skyrocketing. This

A punch is the full blow of the eighth-order king. The blood-staining phoenix that turned and fled is also the middle-aged king. It has reached the sixth stage of this situation, but it still cannot resist.

Its huge body of 100,000 feet is under the horrible power of Ye Xuan, which is full of blows. It instantly bursts into a \*\*\*\* fog, and it is completely destroyed. Only the body is represented. The \*\*\*\* red blood of all the qi and blood of the treasure is spreading rapidly..."

call out! "

Not waiting for the blood fog to completely disperse, the starry sky violently waved a hand, an invisible force came out of nowhere, wrapped all the blood fog, directly into the body, and then sent to Shennong Ding, even if the blood refining system !

At the same time, the Zerg king who did not know where to hide was also removed from the emptiness of the emptiness that had just been propped up recently. In the other two directions, the figure was very slow after the turn and fled. Panyang Longyang, the situation is a moment of illness, and it has reached tens of millions of miles in the blink of an eye...

"Hey!"

Almost in the next moment, the huge body shape of the starry sky disappeared in the same place, and the teleportation began!

When the semi-interests did not appear again, it was already in front of the left side of tens of millions of miles, and it was in front of the road to the top of the crane! "

Oh..."

I am violent, I have no vengeance against you, why do you have to fight hard! "

The scalp of the top of the crane top blasted open, and the hair screamed with a screaming scream. The breath in the body suddenly became frantic: "Always let me go, if it must be shot, the king can't blow himself, even if he can't pull your back, At least you have to be seriously injured..."

This is his last hope. The sixth-order king is already extremely powerful. He has all kinds of power and horror, but in the face of a king of eight kings, he is known for his violent starry sky. Half chance.

If you are willing to exert your own blood and magical powers, and you will fight for it, the final result will be no suspense, and you will die. inverted

Now, turning around and turning around, even if it is blocked, it immediately threatens itself, but there is still a chance.

If the other party out of jealousy, spread out and lock the shape of the eight-order king of the king, the crane top will immediately expand the teleport, although it can not escape the starry and violent sense of God. but

As long as the other party does not catch up, after several extreme teleports, he will eventually have a chance to leave...

Unfortunately, all this is just a good wish of his heart. Exploding this kind of thing, for Ye Xuan, not only has no effect, but is also very welcome. which is

At the end, Ye Xuan is also going to shoot himself and bombard his body. If this is the case, if you know it, I don't know how it will feel...

"Do you blew it? That's very welcome..."

call out! "Say

In the words, the starry sky violently waved, Shennong Ding instantly came out from the body of the immortal world, hanging over the top of its huge body, pouring out the atmosphere of the nine colors, and immediately Yang Xun's body is well protected.

At the same time, in the mouth of the starry sky, the voice of words again came out, revealing the meaning of banter and sarcasm: "What's the big bird? Say good blew? What?" Hurry up, save The king shot..."

"Hey!"

You crazy!"

Everything in the past was once again out of the expectation of the top of the crane, letting his brain slam, and the whole person was instantly paralyzed.

Until I came back, I was sure that the other party was not a joke, and I didn't intend to let go of myself. After the sun was shining in the top of the crane, I felt a scream of screaming, a huge body of 100,000 feet. Instantly blasting...

Chapter 4268: You can't escape

"Boom!" Short

In the short time of less than ten days, the second shocking explosion came out. The crane top was desperate and launched a self-destruction. Although he knew that even if he started to blew himself, he

might not be able to cause any damage to the starry sky. Because, because the other side has the era of the weapon, Shennong Ding's domain field power can protect the whole body...but

He still does this. This may be a statement, a vent, but no matter what, it is not important for Ye Xuan.

The important thing is that with the burgeoning body of the top of the crane, the body is exploding, and with the violent energy formed by the self-explosion, the \*\*\*\* fog that spreads rapidly toward the surrounding area! "

Oh..." This

Once, waiting for a breath, let the strongest shock wave formed by the self-explosion dissipate, and along with Ye Xuan's thoughts, hanging on the top of Shennong's mouth at the top of his head, he immediately poured a large piece of colorful gas. The blink of an eye spreads and envelopes the surrounding area.

This time, because Ye Xuan waited for a time to breathe, the \*\*\*\* fog formed by the self-explosion of the body of the crane was very wide. but

They are all still in the void in the thousands!

At this moment, with the spread of the fog of the nine colors of the Shennong Ding field field, covering this area, all the pure blood fog was gathered at the first time, wrapped into a group, floating toward the Dingkou of Shennong Ding. Go, blink of an eye disappears...

Solved the two strongest mid-term kings, the remaining two guys are not afraid, in the face of Ye Xuanfeng's immortal eighth-order horror cultivation, they even have no chance to escape. where

I am afraid that these two guys will escape for a while with a teleport. Ye Xuan also has a 10% grasp. They can chase them back one by one and throw them up!

But he didn't do it right away, but turned his head to the huge star on the right side. This

The stars give Ye Xuan a feeling of incomparable breath. It is clear that the surface of the abandoned star is a vast volcanic magma layer. "

Roar! "

Looking up and roaring, the starry sky violently punched out, aiming at this deserted star with a breath of breath. "

boom! "shock

The explosion of the sky came again, and the whole huge star was completely blasted under the horrible punch of Ye Xuan.

Sure enough, the interior of the stars, all of them are fierce magma. At this time, they were bombarded and instantly exploded into a huge fireball in the void... just like the big star explosion, even in the hundreds of millions of miles, can see. This

A punch, announced the Starry Nomadic Legion, the full-scale demolition of the ban on blood, is unfolding!

"Booming!"

"Booming..." near

In the distance of the emptiness beyond 100 million miles, the endless roar of the roaring sounds immediately, waiting for the legacy of the warships and the captive army, the kinetic energy is fully open, maintaining the already-expanded formation, and rushing to the phoenix forbidden .....

At this time, the distance from Ye Xuan rushed into the banned blood, but only after a dozen breaths. whole

In the vast forbidden land of the sky, there are countless starry beasts in more than 800 life stars. Until then, they have just rushed out of the atmosphere of a star!

These forbidden beasts, who have not yet known their four beastly kings, have long since fled, and have abandoned the entire banned blood.

"Roar!"

Oh..."

.....

With this head-to-head repairing forbidden beasts rushing out of more than 800 life stars, this vast expanse of emptiness instantly sounded a violent and screaming of a beast. The sound, the lively and extraordinary, the atmosphere of killing is extremely powerful! and

At this time, Ye Xuan had turned to look at the void in the right rear, and the horror of the Eighth Order of the King of the Kings was fully unfolded, and it was rapidly extended toward this corner. very

Fast, the figure of the dragon-horned dragon that fled at a speed of hundreds of millions of miles ahead, reflected in the knowledge of Ye Xuan's search. "

call out! "

In the next moment, with the singularity of Ye Xuan's singer, the starry sky is like a huge body of small stars, and instantly disappears under the teleportation. again

When it appeared, it was already a hundred miles away. This is the ultimate distance for the immortal expansion of the king. Ye Xuan is now the eighth-order king, but it has already reached it in advance.

In front, the dragon-horn sheep escaped a dozen breaths first, but he only took the repair of the king's early immortal strength. Even if it was teleported again and again, it could not escape far, and the distance was soon Zooming in, you can't make more teleports a few times! Connect

After five teleports, the figure of the dragon-horned sheep appeared more than 30 million miles ahead. For the starry sky of the eighth-order star, such a distant distance has actually entered the effective attack range.

"You... can't escape!"

Zhongsen Mang flashes, the starry sky is no longer hesitant, and a punch will blow to the front!

"Roar!"

That \*\*\*\* green cow, he... what promised you? "before

The unprecedented sense of life and death crisis, at this moment, completely covered the body of the Panjiao Longyang, his face showed a desperate color, and his hair screamed with savage arrogance, and it was extremely bachelor's stop. I no longer fled forward, turned to Ye Xuan and tried the final effort: "He can do it, I can do it with the dragon and the sheep, and I can do better..."

boom! "No

When he finished the words in his mouth, the horrible power of the starry sky and screaming was already in sight. huge

The big explosion suddenly erupted, and its potential was like ruining the earth. Even the void trembled. The dragon and the sheep were only in the early stages of the immortality. In the face of the horror power of this boxing, there was no ability to resist half a minute. The giant body of Pangda's 100,000-foot-thirsty body was completely blasted in an instant, turning into a rush of flesh and blood...

"call out....."

In the face of this scene, Ye Xuan has already been familiar with the road. With a wave of invisible power, the invisible force spreads out, and all the diffused blood mists are forced together. Finally, they are wrapped in a group and directly sent to the Shennong Ding hanging over the head!

At this point, the four kings of the banned blood of the phoenix are immortal and have fallen three. The final result of this war has no suspense.

But in the end, the Zerg king, Ye Xuan, is unlikely to let go. For him, this is a precious king of blood that will refine the twenty-three grades of Dan in the future!

"I didn't see the worm when I came. It should be a kind of \*\*\*\* secret method, and the body shape and breath are hidden..."

In the first four hopes, the figure of the Zerg king was not seen at all. Even the sensory sense of the gods could not detect any results. Ye Xuan frowned and muttered, subconsciously stimulating the brain. The spiritual source nuclear suspended in the sea! Both

However, if the gods are not able to detect them, then they will use the spiritual power of the devil to perceive them...

Ever since entering this ancient ruins of the ruins of the wild, Ye Xuan has been busy refining the flesh and blood, pushing the Dandan, or conquering, or retreating, and has not had the opportunity to raise the level of the spiritual core in the brain. can

Even so, with his current cultivation, urging the nine-level mental power in the nuclear core, covering the vast void of the miles, is still completely achievable...

Chapter 4269: This king hates bugs

"Hey..."

With the power of the body, Ye Xuan fully motivated the brain to know the spiritual core of the sea, a faint and incomprehensible low-pitched voice, and immediately focused on the empty position of his lameness, quickly toward all directions. , diverging away!

Before entering here, Ye Xuan's spiritual source core has reached the ninth level.

When he first entered the Devil's Star Field, he thought that the nine-level spiritual power was the ultimate in the core of the spiritual source. After all, the inside of the Devil's group was the same.

But until later, Ye Xuan knew that the 9th level was not the ultimate source of spiritual origin, because the second generation of the ancestors of the devil, that is, the seal is immortal, and its spiritual strength is ten. very

As for the fact that it is highly probable that even the tenth level is not the limit of the spiritual power of the devil, it is only about this issue that Ye Xuan has not had enough time to explore it. eye

Next, his spiritual strength is only nine, but his own cultivation is too strong, and he is close to the immortal. Therefore, under the full force, even if it is only a nine-level spiritual force, it can be as good as him. The open gods are generally a vast expanse of empty clouds!

The spiritual power of the devil is different from that of the monk of the Terran. At this moment, along with Ye Xuan, the core of the mind that hangs in the mind of the brain is pushed to the extreme, and the nine-level spiritual power is extended. in

In the distance, the atmosphere is equally fierce, but in the more abandoned abandoned stars, he is keenly aware of the fluctuations of a ban. This

The kind of volatility was not discovered when he searched for this piece of emptiness with the gods.

At the moment, because of the different magnitude effects of the nine levels of mental power, they were slightly touched and appeared.

Judging from the atmosphere of the ban on this law, it should not be possible to seal the immortality. That is to say, this ban on the law should be the immortal handwriting of the king.

In all likelihood, it is one of the four vicious beasts of the banned blood.

It is impossible for the king to immortally arrange such hidden secrets to ban hidden things. Naturally, this unexpected discovery will make Ye Xuan's spirit alive and the interest in his heart will be immediately hooked up.

But now is not the time to explore, because there is still a Zerg king who did not come out. eye

The next time is still short, as long as the location of the other party is found, Ye Xuanxiu is fully open and will be able to kill each other.

But if you drag it for too long, this Zerg king has already escaped. Don't say that it's killing. I'm afraid I'm afraid to find the other person, or know where to go, I'm afraid it's impossible! "

Oh..."

The low humming sound continued, and in a short half of the breath, Ye Xuan glanced at everything within a billion miles with his spiritual strength. Unfortunately, the figure of the Zerg King was still not found.

This should not be because mental power is not enough to break the special secret occult and find the other person's body shape, but because... the zerg king is not in the area of this billion-mile. "

Not here? It doesn't matter, it will take a few more times to move a little more, and it will take a few more toss! ""

In the whisper, Ye Xuan's singer was flashing, and the teleportation between the thoughts was once again unfolded. The huge figure of the starry sky disappeared in the same place. When it reappeared, it was already another 100 million miles away. Area. "

Oh..."

Without any hesitation, the spiritual power will be completely opened in the next moment, accompanied by a low humming sound. Everything in this area is within a billion miles, instantly displayed in Ye Xuan's mind, with no details, no more...

In the next dozen breaths, Ye Xuan successively launched teleports, each time going to different areas, and the footprints covered the surrounding area of more than one billion miles.

After the end of each teleport, after arriving in a new area, he will fully activate the spiritual power in the brain's inner core, and explore everything in the blink of an eye.

Finally, after completing the thirteenth teleportation, Ye Xuan's full strength of the spirit finally captured a strange figure. that

It's a bug, the speed is so horrible, but it doesn't have any breath. The whole figure is shrouded in a strange force, narrowing the figure, only the size, and the front is lasing. go with.

The peculiar power that surrounds the whole body should be a kind of blood talent born to the Zerg king. It belongs to a kind of biological wave frequency of the Zerg, which can avoid the exploration of the gods, but obviously has no effect on the spiritual power of the devil. .

Because the magical power of the devil can actually be regarded as a kind of biological wave frequency. Although it is not exactly the same, it belongs to the same kind of force. Once it is touched, even if it has only a slight co-frequency resonance, it can be revealed instantly! this

At the time, the location of this little bug was just over 30 million miles away from the right front of Ye Xuan. Here, the ban on the blood of the phoenix is enough for 890 million miles. and also

Lost now found this guy, otherwise, if there are more than a dozen breathing time, when he fled to more than a hundred billion miles, Ye Xuan even tired of running around, constantly searching for the pursuit in the surrounding air, successfully smashed him The chance of coming out is probably no more than three!

After all, the farther the distance of the void is, the wider the area of the surrounding radiation is, and it is almost geometrically increasing. Even if Ye Xuanxiu is stronger, there is only one person, and it is impossible to take all directions into consideration..."

Damn guy, it's quite easy to escape, but... it's still being smashed out! "

"Boom!"

In the whisper, the starry sky is no longer hesitant, like a meteor's huge right fist, and immediately blasts forward. roll

The sound of thunder and thunder rang out in an instant, and an invisible terrorist force slammed forward, and the universe's void along the way sent out a soothing vibrato, as if it could be torn at any time! "

Oh..." straight

At this time, the zerg king knew that he had been discovered, and the scalp was tight, and with an unprecedented desperation hitting his heart, a sharp and screaming voice was heard in his mouth. .

Although its castration has not stopped, but the voice of the words of inexhaustible pleading, but in the first turn, toward Ye Xuan: "The Taoist lifeless! I am willing to follow the left and right, let the difference ..."

"My zerg has a unique \*\*\*\* mind that can ban the void, and..."

And I still have an amazing secret, but it is banned by the Zerg's unique blood and secret method... Kill me, you can't find it! ""

The secret that you said, the king already knows where it is..."

Ye Xuan shook his head, even more so in the middle of the cold: "In addition, the king ... hate bugs!"

Boom..."

The sound is still just falling, and there is a shocking explosion in the distant sky in front of you. Although the size of this Zerg king has been reduced to only a few, but the strength of the early stage of the king is not waiting. At this moment, it was blown by a punch, and it was instantly turned into a \*\*\*\* fog, and it spread out...

Chapter 4270: Phoenix Heavenly Girl

"call....."

An invisible force spread out, and the \*\*\*\* fog formed by the explosion of the Zerg king's body was all gathered. In Ye Xuan's mind, all of them were absorbed into the body and sent to Shennong Ding for blood purification. turn

Looking forward to the starry nomadic army that came from thousands of miles away, it was only at the edge of the forbidden land of the phoenix, and the countless forbidden beasts in the entire banned blood ban were already aware of the disaster. The four powerful and powerful beastmasters of the four kings have all fallen and been slain. heart

Under the horror of the head, all the banned beasts were fleeing under the leadership of an imperial leader and a commander. Big

The war broke out in the first moment of the encounter between the two great armies. "

boom! ""

Rumble..."

Roar! ""

Oh..."

The roar of the guns and the warships came over the sky. There were a lot of fierce beasts and screams in the middle. It must be said that the banned blood of the phoenix was a forbidden land that passed down the endless years, and opened the four fallen. The beastmaster king does not mention that the power below the immortal level of the king is far more than the starry nomadic army under Ye Xuan. "

Oh..."

The old cow is here, who dares to let go! "

In the face of the beginning of the battle, it showed a declining trend. The body of the blue cow suddenly rose, and the head screamed, and the horse immediately rushed out. The huge figure did not know how many forbidden beasts flew. First

For a time, some of the banned beasts and commanders recognized him. From this moment on, the exclamations of the screams resounded in all directions...

"God, it's the \*\*\*\* green cow, he is back!"

"It's too shameless. It was this guy who was collaborating with other enemies. He was driven out of the Phoenix Blood Star field. He had already been there once, and he was beaten. This time he actually ran back and harmed me..."

"The Dragon King said that it is true that this cow is rooted in bad water, and the entire \*\*\*\* star field will be ruined in his hands."

"I knew this before, I shouldn't let him escape anyway, but I regret it!"

"Hey! Hate..."

Hey! "

"Let you have his mother's shit..."

Zhou Xuan's arguments in the air immediately angered the blue cow. The old guy's mouth was swearing, and the roar screamed straight ahead. A hoof went down and killed a few immortal monsters, including even one. Sealed immortal.

"call....."

After the raging, the old guy spurted an invisible temper in his mouth, but he did not forget to collect the blood mist that opened the bodies of these immortal geeks. Although they could not be condensed, they could be compressed into a small group. Temporarily swallowed in the abdomen and turned back to Ye Xuan.

Seeing this scene, Ye Xuan completely let go of his heart. Although the old guy said that his temper is not reliable, he has at least a measure of his work. So, he has such a king of immortality, and he has cleaned up this place. The phoenix blood star field shows no problems.

One thought of this, Ye Xuan even if the sixth change of the konjac was lifted, the figure was reduced to ten feet, and the strength was restored to the immortal level of the king. Following

However, after waving the Shennong Ding to the immortal world, he swayed and slammed away to the huge abandoned star. less

After that, Ye Xuan entered the land table of the abandoned star and went to a huge circular crater. This

The stars, like the abandoned stars that were previously beaten by him, are all under the surface of the table, all of which are extremely majestic magma, and the place where the zerg king is under the ban is in the core area of the stars. that

The magma temperature in the area has already been high enough, but Ye Xuan once smashed the starry sky and thunder sea. Now it has already sealed the king. This hot temperature does not have any effect on him. "

Oh..." with

He urged the brain to understand the spiritual core of the sea, an invisible nine-level spiritual force, accompanied by the spread of low humming sounds, instantly aroused the resonance of the front prohibition, the entire prohibition appeared. come out.

The sect of the Zerg King is not very deep. The reason why it is possible to make such a seal that Lian Yexuan does not use the spiritual power can not be found is completely due to his innate blood talent.

Nowadays, the prohibition and the spiritual strength resonate, and it has become apparent. For Ye Xuan, it is extremely easy to break this forbidden seal.

After a short period of half-column incense, the entire ban was broken. After a shocking explosion, a huge wreckage of the murderous poultry appeared in the sturdy magma, which was actually a real phoenix! early

The smell of the ruined treasure that has fallen into the endless years is actually an ancient power!

At this moment, Ye Xuan's body of smoke suddenly trembled fiercely. He accidentally glanced, and then his heart leaped wildly, suddenly bursting out with a bold guess.

This will not be the same as the last time. The ancient Fengbao treasure of this ancient and powerful level is actually a past life body that was sealed by Yan's seal. Yes

Whether he is so, he is really not sure. want

In the tobacco, a total of seven ancient and fascinating spiritual sources have been sealed. Today, there are four waking waking cadres, the ancestral ancestors, the ancestors, the ancient priests and the nine-tailed foxes. Yu

Ye Xuan does not know who the next three roads are.

But now it seems that one of them is very likely to have something to do with the real Fengbao treasure..."

call out! "read

In the interim, the desire to smoke is to be sacrificed, and the wind will rise, turning into a hundred feet of the size of the Jurassic stretched out.

Although this is the core magma layer, it is a waste of ancient treasures, and it is not affected at all.

"call out....."

When the sound broke, the four figures rushed out of Baoluo, and it was Baoluo's already awakened, and it was able to reshape the four ancient treasures of the treasure.

The last time the nine-tailed fox awake, Ye Xuan also provided a large number of top-level cultivation resources. Subsequently, the four corps of the corpse of the corpse fell into a retreat and sleep, and now it is clear that they have all gone through. Do not

However, this time the four people's cultivation is not a big jump, it is still immortal. just

As soon as they appeared, the four men screamed and said, all of them looked very excited...

"Master, your luck is so good, it seems that we have another sister to reunite..."

"Yes, and this sister, like the Tianhu girl, has a bad luck. When he just woke up, he can get the treasures of the past life, directly condensing the treasures of this world, and the highest degree of fit. And repairing the strength is also faster, and the achievement of the treasure is immortal..."

"I guess it?"

In this discourse, Ye Xuan's eyelids jumped, and the face suddenly showed a surprise color. tight

Then, when he was eager to ask, he said: "I don't know which power is waking up this time?"

Is this still asking? "One

Next, Jiuwei Tianhu, who did not speak, said with a smile, pointing to the huge phoenix corpse in front of him, covering his mouth and laughing: "Of course it is the famous Phoenix girl..."
