Chapter 427: Detoxification

Ye Xuan took a look, this medicinal medicine he knows, is a mixture of three poisons, is used to reward him.

It's just that he is immune to all three poisons.

Then, he was in the public, under the eyes of more than ten senior masters of the Royal Air, put the poisonous Dan into his mouth, and also specially placed it in two rows of teeth, and then swallowed it.

"Hey, the host is immune to the toxin!"

"Hey, the host is immune to the toxin!"

"Hey, the host is immune to the toxin!"

After three prompts, the poisonous Dan is just like a chocolate, and it has no effect.

One second!

Two seconds!

Three seconds!

This medicinal herb is an acute poison, and it is taken within two seconds of the imperial gas. It must be killed within two seconds.

Ye Xuan was only two hundred and fifty dragons, and it took three seconds. No, it has been four seconds.

The whole audience was shocked, because with their eyesight, they could not see how Ye Xuan detoxified.

"How did you do it?" The elders also asked in vain.

Ye Xuan knew that the other party would ask, so he explained: "I have taken a magical fruit. After that, it is not poisonous. I have also taken the six poisons. I have no effect on me, so as long as With my blood, I can solve the six poisons."

"you sure?"

The elders frowned and asked again.

"OK." Ye Xuan nodded.

The elders of Wu suddenly remembered that Ye Xuan could survive under the broken sausage. It was indeed a bit weird. Now, after hearing Ye Xuan's own secret, he suddenly realized.

However, he is not 100% confident that he immediately yelled: "If you can really save the door, then you are the benefactor of my poisonous door. If you have other ideas, I will give your head. Twist it down."

He has the power of four hundred and thirty dragons, and Ye Xuan is only two hundred and fifty dragons. The power gap is very big. He can pinch Ye Xuan with one hand.

The elders glanced at him and said to Ye Xuan: "You come in with me!"

Without further ado, the elders have no time to hesitate. He is conservatively estimated to be an hour, but he is not omnipotent, and there are estimates of the wrong time. One night later, the psychic princess may fall.

Ye Xuan hurriedly stepped up and then entered the attic with the elders.

They climbed the second floor of the attic and found that the second floor of the attic was a sea of flowers. This time, it was not a poisonous flower.

"There is ample aura of heaven and earth, is it to suppress the poison?"

Ye Xuan glanced at it and found that there was an open space in the center of Huahai, and the psychic princess was lying on the open space. At this time, her whole body skin was already black. Although she had no consciousness, she would cough up from time to time. A black blood comes.

The elders took Ye Xuan and walked over. The latter did not talk nonsense, cut off his wrist directly, and then knocked the black-faced princess's mouth and poured it into blood.

The elders stared at him, in case he had any small movements. After all, at this time, the black-faced princess was in a coma, and Ye Xuan could cut off the head of the black-faced princess with a sword.

At this time, the black-faced princess suddenly coughed, and Ye Xuan's blood was coughed out directly.

Upon seeing it, the elders quickly passed, cutting the black-faced princess's wrist, using her real pressure to hold her blood, and then pointing Ye Xuan's wrist up.

"I hope your blood is effective, otherwise, I will kill you on the spot!" The dawn of the elders flashed.

Ye Xuan's face is gloomy, and he hopes that this time he will be able to detoxify successfully, otherwise he will die. The realm of this elder is at least four hundred and fifty dragons, and it is enough to kill it.

The current time, as if it was slowed down ten times, Ye Xuan's heart is beating fast, staring at the face of the black-faced princess.

However, in the third second of their wrist docking, the black-faced princess's face turned miraculously, and it returned to normal in less than two seconds. It was just because she spit out a lot of blood, so her face was pale.

"Is it really useful?"

The elders were also very shocked. He quickly checked the breath of the poisonous princess and found that it was relatively stable.

At the moment, he took out a purple medicinal medicine and stuffed it into the mouth of the princess. This is the seventh antidote to the poisonous blue.

Then, he took out another medicinal medicine. He just wanted to put it in the mouth of the poisonous princess, but found that the poisonous princess opened his eyes.

Ye Xuan's blood, in addition to the detoxification effect, is also equivalent to healing the holy medicine, so the injury of the Princess of the poison has been restored a lot.

"Ok?"

The poisonous princess opened her eyes and found that a strange man was so close to her, and immediately it was a palm.

"Hey!"

This palm, the middle of the leaf Xuan chest, the power of the four hundred and fifty dragons rushed out, and will immediately fly Ye Xuan.

Ye Xuanyuan did not respond, he was beaten out, and he was mad at the heart of the princess.

The elders also ignored the Ye Xuan and immediately asked: "When you are a small door, you wake up, how do you feel?"

Princess Baidu looked at him and sat up and felt it. He said, "My poison?"

"There are few masters, should your poison be solved?" asked the elder.

"Yes, and even the injury is better than half." The poisonous princess nodded.

When the elders heard it, they were a little surprised. He didn't think that Ye Xuan's blood could still heal the wound. He hurriedly said: "There are few people, the poison in your body is his solution."

When he finished, he turned his head and looked at Ye Xuan.

The palm of the psychic princess, although smaller than Ye Xuan's, is far more powerful than Ye Xuan.

Fortunately, she did not use martial arts, otherwise Ye Xuan is not as simple as breaking a few sternum, I am afraid it will be killed in an instant.

"he?"

The poisonous princess took a closer look and found out that she knew Ye Xuan. She used to let Ye Xuan take care of the black scorpion king.

Her eyes were a little confused, so I didn't recognize it. Now I know that after playing Ye Xuan, it is a bit embarrassing.

"My poison is developed by Yang Mingxin. Even I have no way to solve it. How did you do it?" Princess Bai was very surprised to ask.

Not waiting for Ye Xuan to open, the elders explained it again.

After listening to it, the Princess of the Poison is also stunned for two seconds. The blood can both detoxify and treat the wound?

The next moment, the bright and big eyes of the Princess of the poisonous poison are flashing a touch of color, and take out a ring of Qiankun, saying: "Thank you for this time. This is the Qiankun ring of the five poisonous sects of the Yangming master. You save my thank you and the gift that I missed and hit you."

Seeing it, Ye Xuan is also a step forward, and the eyes are shining and picking up the ring.

This time, he risked his life to come and save this poisonous princess. It really is a great opportunity. There must be a lot of good things in the Qiankun Ring of a large disciple.
