Chapter 4271: Green cattle revenge

"Phoenix Heaven Girl?"

Xuan eyelids jumped again and widened his eyes.

He is not the existence of the ruined age. Naturally, he has never heard of the name of the phoenix goddess. However, from the words introduced by the nine-tailed fox at this moment, he can also guess some. This existence, in the era of the wilderness, was absolutely loud. .

Although it is not comparable to the ancient sacred dragons such as the Golden Dragon and the Void Giant Turtle, in the wild power, it must be the top ranking. thing

In fact, the name of the goddess can only be used in the name of others, and basically can be seen one or two!

Thinking of this, Ye Xuan immediately became interested in the other two ridiculous cults that have not yet recovered from the smog, and even asked: "I don't know who the last two sisters who have not yet awakened are?" "One

Listening to this, Jiuwei Tianhu even laughed and laughed again: "Sister? Giggle... Master, you are really interesting, you are not a woman, how can we be sisters with us?"

The look of the corpse of the corpse of the corpse, the ancestors of the ancestors, and the face of the ancient monk was quite strange, as if laughing.

This made Ye Xuan very embarrassed, shaking his head and laughing bitterly.

"The other two sisters are Zixia Fairy and Nine Heavens."

After a few words of interest, the earliest awakening of the corpse is the most intimate, even when the topic is transferred, talk about business! "

Zixia Fairy? Nine-day mysterious girl? "leaf

Xuan's face is stunned. These two names have never been heard by him. However, it sounds like they are quite extraordinary. It seems that the seven ancient and savage spiritual seals sealed by Yan's The past lives have all come a long way.

At present, four people have been born again in this world, reshaping the body of the treasure, and the fifth person can complete this matter immediately. Soon after, the last two will also wake up and reshape the treasure. At that time, the seven ancient wilderness repairs are all reborn in this world, and the weight of the treasure is plastic, and without exception, they are all around Ye Xuan, calling it the main...

The scene is just like thinking about it. It's called Ye Xuan's excitement. At that time, even if the vast world is coming, I don't know how many famous people are famous! but

This is obviously not the immediate thing. There are still two years of old-fashioned repairs that have not awakened. It is probably far away from the day when the seven major retreats are reunited. eye

The most important thing is to help the phoenix goddess to build the weight of the treasure, and then reunite with the four women who are dying.

As soon as I read this, Ye Xuan turned to the four women in the drought and the river and asked: "Is this real treasure of the phoenix, do I need to collect it? Or as I did before, I will collect it by the Phoenix goddess. Is it condensed?"

It doesn't matter, this thing does not require the master to take the shot. It was originally the body of the goddess of her own life. It is most appropriate for her to take the shot..."

Aside, the ancestral squadron nodded even if he nodded, indicating that Ye Xuan did not need to shoot.  
"

call out! "corpse

The words of Zu Houqing just fell, and the inside of the magma stretched in the magma, and a bright red light was shot in an instant. The speed was so fast that it shot directly into the distance, blinking in the blink of an eye. It's already on the treasure of the real phoenix, and it's gone from its eyebrows...

In the next moment, the huge wreckage of the wreckage suddenly burst into a flamboyant brilliance, and the atmosphere was great, revealing a sense of ingenuity, and the treasure of a nine-tailed fox, which was instantly decomposed and disappeared at this moment. Vision

There are countless small and bright red awns in the line, with a fascinating breath, under the traction of the violent red mans that is shot from the smog, it quickly rises up and turns into a red one. Like the river, it is directly immersed in the smoke of the wind!

This process only lasted for a dozen or so breaths. When everything was over, the huge true Fengbao body in front of it had disappeared completely, and even the three old sacred monks, such as the ancestral ancestors in front of them, were already beautiful. Laughing and turning around, and plunging into the smog...

"Tianfeng thanked the master, this treasure is weight-shaping, you need to sleep and refine at once, you can't come out and thank you for your master, and you won't wake up from sleep in the future, thank you again!"

Just as Ye Xuan's \*\*\*\* was in the air, the smoke of the wind and the smoke of the wind, suddenly came a soft and incomparable voice, and when he returned to the world, the soft voice of the soft has disappeared, apparently just got The phoenix goddess of the predecessor treasure is about to enter the midst of sleep.

Ye Xuan shook his head and smiled, but still the old rules, waving, when even a large number of top cultivation resources were taken from the immortal world, including the previously refining purple gold flesh and blood medicine, divided into five parts, all the bones and brains were sent Want to smoke.

The five beautiful sorcerers in Baoluo were very surprised, even when there was a voice of a smile: "Thank you for your master..."

In this regard, Ye Xuan did not respond to the roots, a wave of hands directly, Bao Luo income into the body, and then swayed, rushing up, blink of an eye has left the star, came to the outer universe of the void! "

Hey! Lamb scorpion, why do you stand for the king, and promise not to beat you! "

Just rushing out of the abandoned star, Ye Xuan immediately heard the sound of the earth-shattering burdock, but there was no anger, but a deep sense of self-satisfaction and playfulness. he

I stumbled, and when I reacted, I rolled my eyes directly.

With his understanding of the green bull, this old guy is obviously deliberately so loud, like the fear of resentment at the moment, some people do not know the general. No

Wrong, the goal that is being chased by him is obviously the only son of the Panjiao Longyang, that is, the young cow who is harmed by the head is left behind, and all the blood ethnic groups are killed. This

The guy was weaker than the green cow. It has been overtaken for more than a thousand years. When the young cow is still only waiting for the seventh-order immortality, his cultivation has reached the end of the nine-step perfection. The king is only one step away.

For this, the young man was still quite hurt at the beginning, but with the help of Ye Xuan and his own efforts, Qingniu finally proved himself again. In just a few months, he was sealed from the immortal seventh order. Breakthrough to the immortality of the king.

The only son of the Panjiao Longyang is still only the leader of the immortal ninth-order grand perfection. One

One is the real king, one is only a half-step to seal the king. The green cow has an absolute crushing advantage for the only son of this dragon and sheep. If he wants it, one hoof can kick the other directly into a group of blood. The fog burst open. but

The movement in the sky is obviously not the case. leaf

When Xuan turned to look forward, the corner of his mouth twitched a little bit, and turned his eyes again...

The vastness of the line is vast and empty, and this morning is already a war, and every corner is in a fierce battle. In the center of this battlefield, a figure is more than a thousand feet, and the figure is the same as the dragon and the sheep. I am fleeing. with

Behind him is a young cow with a body size of only a few thousand feet, a few laps smaller than him...

Chapter 4272: Sinking snow

Although the size of the dragon-horned sheep is huge, the body's self-cultivation is breathable, but it is only the seal of the immortal nine-order great consummation.

The young cows who are not chasing after them, although they are small in size, are only a few thousand feet in size, but the body is repaired as breath, but it is the real king!

The difference between a small step, but across a big realm, the disparity between the two is so vast that it is completely speechless.

Not just the combat power, but also the speed!

Faced with the crisis of life and death, the Panjiao Longyang has already tried its best to gallop in full force...not that he does not want to teleport, but the whole body has already been suppressed by the powerful pressure of the green cow, and it is impossible to carry out teleportation.

And the green cow behind him, just like walking in a leisurely way, slowly squatting in the void, stretching his forefoot from time to time, gently slamming on the huge body of the dragon sheep that fled in front of him. .

It seems that there is no effort, but every hoof goes down, and you can hear the sound of the crack of the card in an instant. Obviously, the taste of the dragon and the sheep is not good, not only being abused, but even being humiliated. .

Unfortunately, the gap in the cultivation of strength is too great, even if he is so angry, there is no way, even the angry roar is not, because it will only make the blue cow feel better!

This scene is indeed a bit speechless. There is such a bad taste that the king is immortal. It is estimated that there is no one except the green cow.

If it is Ye Xuan, there will not be so much nonsense at all, just kicking the enemy into a blood mist with one hoof, it will be clean and neat.

However, considering the grievances of the blue cattle, and the pain and accumulated deep resentment that has been suffered for more than a thousand years, Ye Xuan shook his head and sighed, and did not interfere in this matter.

This matter has already become a knot in the heart of Qingniu, and the old guy is not easy. So a lot of age, when a large group of bull-headed girls gave birth to a nest of cows and cows, the result was all killed. ....

Think about it and pity, this time, he went, as long as you can unlock the knot!

"boom!"

"Card!"

Just at this time, in the void in the distance ahead, after a heavy reverberation, followed by a clear sound of bone fracture.

This time, half of the shoulders of the small-horned dragon sheep were shattered. Obviously, they suffered from a light internal injury. They opened a blood arrow.

However, after all, he is a half-step king, and the green cow has also deliberately left the weight. Therefore, this injury is obviously nothing for the small-horn dragon sheep. In his half-step, the king's strong body is self-defeating. The ability to recover, soon recovered more than half.

However, this kind of recovery, for the small-horn horn dragon sheep, turned out to be a kind of pain. Now, he would rather solve the problem directly under the anger of the young cow. It is better than the current one, and it hurts and heals. The more it hurts, the more it's endless and painful, and it's better to die...

In the face of this situation, Xiaopanjiao Longyang did not think about self-destruction, but now he is completely locked and suppressed by the powerful pressure of the Qingniu Fengwang, and even the possibility of self-destruction is not, it is doomed to This torture will continue until the blue cow is tired!

However, it is clear that the green cow has been resentful for more than a thousand years, and it is impossible to vent it so easily. This is not only that Ye Xuan is clear, but also the Xiaopanjiao Longyang is well aware...

"Roar!"

"Roar....."

"Hey!"

.....

In the emptiness of the surrounding air, countless forbidden beasts in the banned land of the phoenix blood, after seeing this scene, all hated anger and screamed and roared.

The repair of the small-horned dragon sheep has reached the end of the nine-step grand perfection, but it is a peak leader, and his father is one of the four great beasts of the phoenix star field.

Only then can we speculate that the reputation of the small-horned dragon sheep in the forbidden land of the phoenix is high.

But nowadays, such a super-prestige and extremely popular peak of the beast, but it is being rejected by the former judgment of the young cow, this is absolutely unacceptable, and all the banned beasts will react like this. In the case.

Unconsciously, the green bull seems to have caused public anger. Although these forbidden beasts are not opponents, they are not satisfied with their hearts, and they are so angry!

"boom!"

"Card..."

The small half-length of the small-horned dragon sheep was just recovered. The blue cow immediately behind him raised the hoof again. This time it fell in the same position. The voice came, and the large pieces of bones shattered, and the small-horned horned dragon opened his mouth and blew a blood arrow...

"Hey!"

"What is the taste of the little bastard? All this is what you deserve!"

"I can't wait to give birth to the flesh and blood of your father and son, but you can rest assured that this king will not let you die so easily, otherwise it will not be enough to eliminate the hatred of the heart..."

Under the hatred of the heart, the blue cow screamed and screamed in the mouth.

The small-horned dragon sheep that just squirted a blood arrow seems to have felt the change of the mood of the green cow. He has been screaming at all, but suddenly he looks back, and he screams the \*\*\*\* sorrow of the sky and stares evilly. The green cow.

Grit your teeth: "You are a poor old thing, even if you are now a king? What is your cow and grandson? It's not all dead before..."

"Ha ha ha..."

"What if the leader is killed by you?"

"In the past, everything has become a fact. Yes, your crimes against the enemy are made by our father and son, including those of your cows and cows. They are all killed by our father and son. Who told you to cultivate this strength? The commander has been strong for the first time, and it is obvious that it will be promoted to the trend before the leader?"

"Hey, dare to grab the position of my commander, all this is the end you deserve..."

These words may be the voice of Xiaopanjiao Longyang, but he suddenly said it at the moment. The ultimate goal is to anger the blue cow and ask for a quick death.

But Ye Xuan, after hearing the truth of the year was said by Xiaopanjiao Longyang, although he frowned, his heart was secretly relieved.

In any case, this discourse, at least let the youth of the past, sink into the snow, or no accident, the stagnation of this old guy's heart, it should be solved...

"Hey!"

"Are you a little bastard, have you finally said the truth of the year?"

The green cow screamed at him, and the voice was still not falling. The pair of front hooves had been lifted up high, and slammed toward the head of Xiaolongjiao Longyang: "So, you can go died!"

"boom!"

The next moment, the sound of the earth-shattering sound of the explosion, the blue cow seems to use all the strength, the huge body of the small-horned horns and the huge sheep, instantly burst into a \*\*\*\* fog, blinking thoroughly The terrain is gone.

"call....."

In the next moment, an invisible gas spurted out from the mouth of the green cow, and wrapped all the flesh and blood around the spurs, and compressed it into a \*\*\*\* ball of about a hundred feet. Swallowing in the belly...

Chapter 4273: Cattle

At this time, the phoenix blood banned the vast expanse of the sky, the original hateful anger, roaring all the banned beasts, in the small discs of the dragon and sheep, the words of the full, have all fallen into silence.

Today, they finally understand the cause and truth of the whole incident.

Looking back, I think about the treatment that Qingniu suffered in the past, and the suffering that has been suffered for more than a thousand years. All the beasts of the forbidden land can not help but sigh.

Some grumpy guys rushed angrily in an instant...

"Oh! Damn, it turns out that this is the truth, the Horns and the Dragon and the Son... It's not something!"

"The old cow is too pitiful, and it has been forbearing until now, until the king of the king came back, and he avenged the hatred of the cows and cows who had been maimed in the past. This responsibility and blood gas is amazing!"

"If this commander has suffered such unfair treatment, I am afraid that he will be the same as him. After breaking through the royal world, he will immediately lead a large army to take revenge."

"So, all this is really no wonder that the old cows have harmed the whole \*\*\*\* star field. It is the father and son of Panyang Longyang..."

.....

With this roaring sound, the atmosphere in the virtual battlefield is instantly changed. Some of them are weird, and more and more forbidden beasts stand on the side of the green bull, and they are filled with indignation!

This scene makes Ye Xuan stunned!

In fact, just at the moment when the young cow shovel directly smashed the small-horn horn dragon sheep, Ye Xuan's face had already floated a strange color.

The reason why Xiaoniangjiao Longyang has the words is obviously just to anger the young cows and ask for a quick death.

Wherein the singer can't see it, and his sorrow, as well as the business state, it's tempted, and the sighs

Obviously, this old guy is waiting for such a truth, and the reason why he is so, in addition to understanding the stagnation of his heart, there must be some factors, is the countless forbidden beasts who want to let the entire blood ban, all Hear the truth of the facts, from the mouth of the small dragon horn sheep, say it!

The effect of this has already appeared. At present, this battle of conquest, the starry nomadic army under Ye Xuan's squad may not be half-hearted.

But now, when all the banned beasts have learned the truth of the year, their resentment against the Starry Nomadic Legion is obviously invisible and dissipated more than half...

"It seems that the old cow is doing this, it is to want to get together with the beast, in this phoenix star field, accept a group of fierce beasts..."

After some indulging, Ye Xuan quickly guessed his mind, but did not mind.

At present, the green cow is no longer a fierce beast king. If there is no vicious beast army under the arm, it is obviously not quite like words.

Anyway, the number of banned beasts in this phoenix star field is huge, and it is a good thing for Ye Xuan to take advantage of these opportunities to gather a beast army. The overall strength of the entire Starry Nomadic Legion will be consolidated again. And ascension...

Just as Ye Xuan was indulging, there were some forbidden land beasts screaming loudly in the void of the \*\*\*\* battlefield. They shouted to Qingniu and said they would not fight again. They would return to the Qingniu and follow him.

The forbidden beasts who express this willingness are not too many at first, but soon, they may have been infected. The same kind of voices have gradually increased, and they have been resounding in the void, forming a general trend...

In this regard, Qingniu turned to see Ye Xuan, apparently asking for his meaning.

"You can do it with your own ideas. What can be collected and what should be done by you?"

Ye Xuan nodded, the voice of the gods spread throughout the vast void, this person, he sold to the green cow, after all, the direct commander who led these forbidden beasts in the future is him, Ye Xuan is just the entire starry nomadic army The highest commander is not responsible for the direct leadership of the small army below!

After saying this, Ye Xuan did not stop, turned and spurred away to the four super-lifeful stars in the distance.

These four stars of life are the places where the nests of the four savage beasts of the phoenix ban are in the land. The immortality of the king is not better than the seal. The strength is too strong and too strong. These four kings are among the immortal nests. There must be a lot of good things, even some resources and treasures, not even in Ye Xuan's hands, is also very likely.

After all, although he had all kinds of adventures in the past, he was extorting and copying people's nests. However, due to his own limitations on strength, none of the target objects was immortal.

Therefore, the quality and grade of the resources and treasures harvested from these four life planets are absolutely unprecedented. Even Ye Xuan can't be tempted...

"Hey!"

With Ye Xuan turning around and expressing all the forbidden beasts in the entire blood-blooded star field, life and death are all decided by him. The green cows will have a strong spirit in an instant, and the body will be surging with an unprecedented strong atmosphere. Sending a shocking sound of burdock...

"For more than a thousand years, although I was forced to leave my hometown, I am not in the \*\*\*\* field, but don't try to fool me. Who is close to the father and son of Panjiao Longyang, I am clear about the old cow!"

"boom!"

As soon as the voice fell, the shape of the green cow disappeared. When it appeared again, it was already tens of millions of miles away from the empty space on the right side. It directly raised a pair of forefoot and shook a few heads to him. The singularity of the immortal-level savage beast commander, directly smashed into flesh and blood.

"call....."

After doing all this, the green cow has a mouth, and the mouth instantly squirts out a sturdy invisible strength, wraps the scattered flesh and blood mist, compresses it into a \*\*\*\* bead, and then swallows it. Into the abdomen, temporarily saved up...

"All the savage beasts with the horns of the dragon and the wolf, all the people who participated in the plot of the year, participated in the \*\*\*\* persecution of the cows and cows of the old cows, the old cows will not stay..."

"Don't try to provoke the king's IQ, all the conspiracy and tricks can't escape the examination of the king's wisdom..."

"boom!"

The words in the mouth have not yet fallen, and the shape of the green cow has disappeared again.

This time, he came to the left side of the void more than 20 million miles away. In this area, there are a large number of forbidden beasts, all of which are the sacred squad of the horned dragon and the father and son. The genius is also clamoring for the green cow. surrender.

Regardless of whether these guys are really so, or if they are virtual and arrogant, they are not important to the young cows. As long as they are enemies, as long as they have been vilified with the enemy, he will not let go...

"Booming..."

The earth-shattering sound of the explosions is endless. The millions of forbidden beasts in this area, under the crush of the old guy's horns, all burst open in an instant, turning into a canopy of flesh and blood. .

Among them, the blood fog that was indestructed and sealed by the immortal body was collected by the green cow in the first time, compressed into a blood bead, and temporarily swallowed into the abdomen.

These can all be precious raw materials for refining Baodan, and they can't be wasted at all...

Chapter 4274: On merits

The war is over!

Although the banned blood of the phoenix is vast and innocent, the number of life stars is more than 800, and the forbidden beasts are almost countless.

But at the beginning of this war, the four savage beasts in the forbidden land have all fallen in a short period of time, and the war has not yet been opened. All the banned beasts have lost their fighting spirit and fighting spirit.

Everything that follows is almost a one-sided massacre.

Even in the vast battlefield, there is a certain area where the battlefield is dominated by the banned beasts. The young cows with the seal of Wang's cultivation will also rush to the first time. Under the hoof, they will directly occupy the forbidden land. The beasts are solved...

This battle is simply too easy for the Starry Nomadic Legion.

Although the entire nomadic army, counted as tens of millions of survivors in the millions of warships, and the hundreds of millions of warships of the captive army, the total number is far less than the forbidden beasts of the Phoenix.

However, due to the high-end combat power, the Starry Nomadic Legion has an absolute advantage and is fully rolled out, so the final result is no doubt.

The Nomadic Legion not only won a great victory, but even did not have much damage. It can be said that it was easy to win the entire Phoenix Blood Star. Since then, Ye Xuan and his Majesty have a medium-sized starry sky...

The entire forbidden beasts in the entire phoenix star field are not all killed. The green cows really want to gather a beast army, as their own army.

For this matter, Ye Xuan gave him the greatest discretion, and Qingniu did not live up to Ye Xuan's expectations, carefully selected, and finally left a fierce beast army.

The total number of forbidden beasts in this beastly army is more than 10 million. This is only a slap in the face of the total number of banned beasts in the entire ban.

It can also be seen that the requirements for the selection of the genus by the blue cattle are severe.

But strength is not the first factor. He puts the reliability first, the blood potential is second, and finally it is the current strength!

In the army of millions of fierce beasts, a total of more than ten heads of immortal-level beasts are commanded, and one hundred ordinary immortal beasts!

Since then, count the surviving tribes and captive army, Ye Xuan's starry nomadic army, the high-end combat has two kings, more than ten sealed, more than three ordinary immortal!

Basically, there is a medium-sized starry ban!

One day, Ye Xuan searched the nests of the four savage beasts, including the \*\*\*\* phoenix, the crane top, and the worm king and the horned dragon sheep, and once again got a huge amount of cultivation resources.

Among them, he is the best part of the selection, and the income is in the immortal world, as a backup resource.

And more Ye Xuan did not see the resources of the eye, he was left behind, and the three-jawed dragonfly who turned back to capture the parliament will naturally arrange for personnel to clean up. Finally, as in the small forbidden land that was previously conquered by the Green Bull, all battles Li, will be aggregated, according to the proportion of the nomadic army, the unified distribution!

The scale of this war is unprecedented, and the territory of the battlefield is vast, and it is also speechless.

Therefore, the post-war battlefield cleanup, as well as the search for all the trophistic resources of more than 800 life stars in the phoenix star field, it takes a lot of time to collect the books.

Fortunately, in the aspect of the search for trophistic resources, the 10 million banned beasts under the help of the young cattle helped a lot. Under the guidance of their light and familiar roads, all the resources were directly taken out without searching.

In addition, the strength of the Nomadic Legion is now very large, and the progress of clearing up the battlefield and the resources for warfare is also very fast.

Even so, when everything is tossed, three days have passed.

At this time, in the vast starry sky of the central area of the Phoenix Blood Star, all the forces of the Starry Nomadic Legion gathered together to launch post-war resource allocation.

In the starry sky, 10 million banned beasts form the beast army.

More than 100 million warships form the captive army.

Only the number of warship corps of the surviving tribes is small, only one million, but the number of survivors is also quite large, tens of millions.

These three legions, surrounded by the void, in the central area, are more than 300 immortal grotesque, and more than a dozen are immortal.

At the core of the area, you can sit on the knees and stare at the starry sky, and the young cows that have already sealed the king!

A resource summary resource was sent to Ye Xuan in the first time.

The gods swept through it, and he found some rare treasures in his treasures, which were added after the subsequent refining of Baodan.

This part was waved by Ye Xuan and directly incomeed into the immortal world.

Subsequently, the resources on the entire list were all allocated according to the proportion prescribed by the Starry Nomadic Legion.

However, although the green cattle have resources, but the 10 million banned beasts that he has left are not worthy. In this battle, they have no credit. Such a huge army, no rules, no rules, everything, Behave according to the rules!

"call out!"

"Hey..."

After all the trophistic resources have been allocated, the green cow has a mouth, and immediately there is a red blood spurting out from his belly. There are big and small, all of which are formed after the flesh of the violent beast in the universe. The blood of the pounds, the compression!

These compressed beasts will be handed over to Ye Xuan to refine Bao Dan.

The reason why even the flesh and blood of the beasts in the universe are unified and summed up is given to the green cows. It is because of the bloodliness of the beasts of the universe, which can refine the twentieth-level Dan and create the immortal grotesque!

In the entire phoenix star field, in addition to the 10 million banned beasts selected by the Green Bull, the rest have been killed. Among them, the number of banned beasts cultivated above the universe is extremely impressive, and now they are physically open. After the blood and blood formed by the blood, in the void in front of Ye Xuan, fluttering a large piece, spectacular!

In a wave, these blood beads, all of which were involved in the body of Shennong Ding by Ye Xuan, began the blood refining system in the first time!

Although the number is huge, for the Shennong fire that has evolved into the seven-color flame, refining these blood beads into beastly bloodstains is still not a laborious task.

After a short period of time, all the blood beads were refining.

In the hands of Ye Xuan, she has a lot of blood.

The blood and blood of the former four beasts of the beasts of the beasts have been condensed into four bloodstains of the four kings, which will be the important masters of the subsequent refinement of the twenty-three-level Dan. material.

This time, the condensate, Ye Xuan received forty-three blood seals, can be used to refine the 20th and second Dan who broke through to the kingdom.

Thousands of immortal blood, can be used to refine the 20th level of Dan to break through the border!

More than a thousand cosmic blood, can be used to refine the 20-level Dan who broke through to immortality!

Such a large number of bloodlines of various levels can only be obtained in the mid-level banned land of the Phoenix Blood Star. For this reason, the Starry Nomadic Legion has been all the way, Ye Xuan even the small starry bans on the way. Have not gone to the attack, and now, finally got the biggest fruit...

Chapter 4275: Massive Baodan is released

"Dayu, this time I have harvested four blood-stained kings. I want to refine two Baodans that broke through to the royal world. Is it only necessary to have ten blood-stained kings?"

The blood beads were condensed into the blood of the beast, and the blue cow on the side immediately squinted and came close. He stared at Ye Xuan and said: "If this is the case, we will only have six seals now. The king is bloody, and you can now repair the horror of the eighth-order king of the king. The general medium-sized starry sky can also be swept away..."

"After this, we will start immediately, and find one or two intermediate stars to ban the underground, even if it is secretly hunting as before."

I have gathered ten pieces of blood-stained kings, and I first made a breakthrough to the royal family that can break through to the royal world. You and I are one person... so my heart is also practical! "One

After listening to this, Ye Xuan stunned on the spot. After a few moments, he turned to the first sneak peek: "You old things have just broken through to the kingdom, and you will remember the breakthrough to the royal world." Are you using it now?"

Hey, you can't use the old cow to collect it. The key treasure is at hand. This is just a matter of heart. It seems that the emperor has not ran. You don't know, it is harder to seal the emperor than the king. One can make a smooth breakthrough, I am naturally nervous! "

"Roll! What do you think is beautiful?"

Ye Xuan directly turned his eyes, and pointed a finger at the front of his eyes, staring at his three-jawed dragonfly and other people, and said: "Look at people, it has already been a decade of great emperor, just wait for one Baodan can break through to the immortality of the seal, and people are still not in a hurry, you are the first step of the king, what is the urgency?"

"No no no..."

The sound of the fall, the dozens of peaks including the three-jawed dragonfly are immortal, and immediately squatted over, one by one staring at Ye Xuan with tears, the former is holding a hand of Ye Xuan: " Head, we are anxious, who is not in a hurry? This is waiting for the rice to cook..."

"I really served you..."

Xuan Yiyi, silently turned a blind eye, after some sinking, this took over: "But, in addition to the peak of immortality, after this war, the peak of the universe is also more, also need Baodan to break through to immortality ""

"If this is the case, then first make this batch of blood fines into Bao Dan and say it!"

After that, he did not hesitate, ordered the army to disperse, and each selected the life star to be stationed, and immediately asked the remnant tribe to distribute the murderous beasts and treasures of the treasures into flesh and blood.

Then, he walked into the biggest one of the four giant life stars, which is the nest star of the \*\*\*\* phoenix. This

The temperature in the stars is very high, but it is not a good thing for Ye Xuan. After entering the atmosphere of the stars, he directly enters a valley, swings the cloth to isolate the array, and then sacrifices Shennong Ding.

"call out!"

As soon as the figure was swaying, Ye Xuan's figure swept up and stepped into the mouth of Shennong's Ding Ding with a colorful mist. and

His knowledge of the gods, in the moment of closedness, entered the interior of Shennong Ding and extended toward the bottom of the central volcano...

There are only four blood-stained kings, which is not enough to support a condensate. Therefore, although the perfect Danfang of the 23rd-level Dan has been deduced, this Dan has no way to refine it. leaf

This time, Xuan retreats, and intends to refine, is the 20th and second Dan, the 20th grade Dan and the 20th grade Dan. In short, all the vicious beasts except the four kings of blood are used up. , will only close the hand! most

The first refining is the twenty-second Dan!

Last time, Ye Xuan sealed the blood essence with ten pieces of refining, and refining three twenty-two dans, and the blood-staining essence he now has in his hands is as high as forty-three. If

If there are no accidents, these forty-three seals should be able to refine at least twelve twenty-two Dans. This

Absolutely a shocking number, Twenty-two Dan, Ye Xuan still has one in his hand. If this time, 12 pieces are actually refining, and the twenty-second Dan in his hand will reach thirteen. This

However, the thirteen kings are immortal. Even in the large-scale banned land, the king is only twenty or thirty. It is conceivable that the thirteen twenty-two dans are precious! Swing

In the hand, all the resources needed for the 20th and second-level Danfang and all kinds of top-class treasures and treasures are all prepared, and they are hanging in front of Ye Xuan with the 43 pieces of blood-stained blood that have just been refined. , blinking down and screaming...

...God

The bottom of the volcano in the central area of the farmhouse!

"call out!"

"Hey..."

The faint sound of breaking the air rang in succession, and a singular spurt came from the height of the Dingkou above the volcano of the central domain, directly above the flame pool at the bottom of the volcano.

Suddenly hovering and hovering for a moment, it is exactly the top materials and cultivation resources that Ye Xuan prepared for this time. "

Call..."

For a moment, all the resources below, from the flame pool at the bottom of the volcano of the central domain, a fascinating Shennong seven-color flame roared. to

In a moment, it will be condensed into a colorful furnace with a square shape. It is small and simple, revealing an extraordinary atmosphere. Then, the materials and resources such as the blood of the beasts that have already been prepared are all automatically flying, and they have only entered this one. Zhang Xuyuan's fireworks in the small tripod.

The second 20th-level Dan's refining, officially launched...

"Boom!"

The time passed slowly, and I don't know how long it took. On the bottom of the flame pool at the bottom of the central fire, suddenly there was a huge roaring sound, and the stove that was condensed by the pure Shennong seven-color flame was scattered. A canopy like a colorful fireworks like a river, whistling back to the flame pool below.

Staying above the flame pool is a ball of the size of a baby fist, and the blood of the previous beast is as big as a head, but it is completely different. The blood is blood red, revealing a strong blood. force. This

Although these beads are also the size of the baby fist, but the color of the colorful, the surface has a layer of fantastic halo, showing a simple and heavy atmosphere.

All the beads are all twenty-two Dan, and the number is quite large, there are fourteen! "

There are so many? "

Almost in the next instant of this furnace Baodan refining success, Ye Xuan opened his eyes, revealing the words of surprise and joy, from the Shennong Dingkou above the central volcano... This

Fifteen twenty-two-level Dans represent the starry nomadic army in Ye Xuan. In the near future, there will be another fifteen royal kings born immortal.

Looking at these treasures of the twenty-second dan, even Ye Xuan is not rushed by the breath, this time the harvest, it is really amazing, and then, there will be a huge number of treasures of all levels, Come out of the oven..."

call out! ""

Oh..." flat

After regaining his mind, Ye Xuan waved again. This time, all the resources of the 20th-level Dan were condensed, all of them were taken out and suspended in front of him. The number of blood essence is so horrible...

Chapter 4276: Prosperous

Twenty-first-class Dan can make the peak of the ninth-order grand perfection immortal and smoothly enter the world of sealing.

The raw materials for refining this Dan, in addition to the flesh and blood pulp refined by the treasures of the quasi-wild and ancient powers, are mainly the blood of the beasts of the immortal beasts, and then with a large number of twenty-one Dandan All kinds of top treasures on the party can be. base

In fact, five immortal blood, can guarantee the successful refining of a twenty-first Dan.

But of course, Ye Xuan is now a concentrated refining system, so this ratio can be smaller, and the 20th and second dan, which is the only one that has been condensed, has once again verified this!

This time, more than a thousand immortal beasts in the banned land of the phoenix were ruled by the Qingniu, and they were all taken to the lower part of the genus. The rest were all killed. Got

To the immortal blood, there are more than a thousand!

Suspended in front of Ye Xuan, in order to refine all the raw materials of the 20th-level Dan, including the thousands of immortal blood, a large number, exudes a majestic blood, it is eye-catching. two

Ten-level Dan, Ye Xuan refining is easier, and it is easy to get used to it.

In a short period of time, the 20th level of this furnace has been successfully refining, and the number of Baodan that was finally released is as much as he had previously guessed, more than five bloodstains and one Baodan. proportion.

Twenty-eight levels of Dan, which are refining more than a thousand immortal blood, have a total of two hundred and eighty-six. Look

With more than two hundred twenty-first-class Dans, Ye Xuan's breathing rushed again, as if he saw more than two hundred seals immortal!

"Suck....."

Taking a deep breath, Ye Xuan waved out a space box, and after all the twenty-level Danes were collected, he waved again. This time, it was taken out to refine the various 20-level Dan. material.

Including more than 10,000 cosmic-level beasts, the blood of the cosmic blood, and other kinds of top treasures.

The next thing is more relaxed. In fact, Ye Xuan does not need blood condensate, and can be formulated with gene culture fluid. However, there are too many cosmic blood in his hands. The way is obviously easier.

More than 10,000 pieces of cosmic blood, as well as a larger number of other auxiliary materials, this furnace, Ye Xuan took only half an hour to complete the refining.

The 20th-level Dando who came out of the way called him speechless, a total of 2,453, plus dozens of Ye Xuan's hands, and now he has more than 2,500 Grade Dan. "

There are more than two thousand and five hundred in the 20th grade, more than 280 in the 20th grade, and 20 in the 20th and the second..."

After all the twentieth-level Dans were all taken up, Ye Xuan's smashed out the fine mans and muttered to himself: "It seems that in the last one or two years, there is no need to refine the same type of Baodan. The stock in hand is enough to use!"

Even if it is refining, it is refining twenty-three or even twenty-four, which is for the owner of the star. But the material is not enough at the moment, and the matters of the Starry Nomadic Legion are arranged. After the phoenix star field settled down, it was time to go out with a green cow and start a new round of hunting! ""

call out! ”

Stepping out of Shennong Ding Ding, Ye Xuan waved Baoding into the immortal world, and then swayed, directly rushed out of the atmosphere of the stars. and

At this time, it is only a small half-day time for him to enter this life star to retreat Baodan. outer

In the face of the void, the three major corps that had been comprehensively assembled and participated in the post-war distribution are still being withdrawn. complete

It's only half a day before, and the three major regiments have so many warships and beasts, and each chooses the life star that settles in it. It takes time. package

Including the three-claw dragon owl and other dozens of peaks immortal, this time is also in the void. "

The peaks of all the nine-order great perfection are immortal, the peaks of the universe, and the peaks of the seals... forget, this last seems to be no! "God

When I read it, Ye Xuan's words suddenly enveloped the entire phoenix star field. All the squats were heard: "All come over, receive all levels of Baodan, and help you to break through the realm within three days. The bottleneck!"

"Including the fierce beasts that have just joined, if there are cosmic monsters and immortal monsters with peaks, you can also come and collect them. Let you first advance a Baodan and turn back from the battle..."

Oh..."

"Roar!"

"Hey..."...

...

His words just fell, and the surrounding airy moments responded with a scream of roaring and shouting. In the entire Starry Nomadic Legion, all the cosmic monsters that have reached the ninth-order grand perfection Immortal grotesque, all like just a shot of chicken blood, excited.

Because if there is no accident, after three days, they will break through the bottleneck of the big realm, the cosmic old monster becomes an immortal old monster, and the immortal old monster becomes a sealed immortal.

Is there anything more exciting than this? Do not

These are just the right things to meet the requirements of the cosmic eccentric and immortal geeks, all other legion members, whether they are survivors, or the stars of the sky, or the sinister beasts of this fragmentary emptiness aborigines, at this moment After hearing the words of Ye Xuan, all of them were all savagely brilliant. although

However, they have not yet reached the ninth-order grand perfection of their own realm, and can not receive Baodan, but this scene in front of us undoubtedly shows that there are a large number of Baodans in the hands of the head, as long as they work hard to achieve the realm. Great satisfaction, you can apply for it at any time. This

It was simply for them to open a thoroughfare avenue that was upgraded to speed. From then on, it was only necessary to bury their heads and repairs, and there was no other worries. brain

These thoughts flashed through the sea, and all the members of this starry nomadic army regiment were all spirited. Unconsciously, the military heart condensed to the level of horrible... After the war, the haze went, everything was thriving! "

call out! ""

Oh..."

As the sound of the emptiness sounded, all the figures, from all directions, rushed toward the empty position of Ye Xuan.

There are both the survivors and the captive army's star-studded powerhouses, and there are also forbidden beasts.

These guys are all in line with the conditions to apply for Bao Dan to Ye Xuan to help break through.

Among them, the nine-order grand perfection of more than 20 immortal monsters, led by the three-jawed dragon.

The nine-order grand cosmic eccentric, there are more than two hundred. If

If there are no accidents, after releasing more than 20 pieces of 20th-level Dan and more than 200 pieces of 20-level Dan, at the latest three days, Ye Xuan's under the starry nomadic army will be above the immortal level. The number of high-end combat power will once again skyrocket!

Since then, count the surviving tribes and captive corps, the entire starry nomadic army, in addition to the number of two kings, the immortal will reach more than 30, ordinary immortal, there are more than 600, this absolute Reached the scale of the combat structure of the mid-level starry ban

Today, Ye Xuan is sitting on a forbidden land with a complete structure of warfare. The atmosphere has become...

Chapter 4277: Lion Wanjin's petition

"call out!"

"Hey..."...

...

The sound of the road broke, and with Ye Xuan waved, more than 20 pieces of 20-level Dan, and more than 200 pieces of 20-level Dan, instantly turned into a mass, shot around a circle, all Eyes staring at Ye Xuan's lower part of the hand. three

The claw dragon is one of them. At this moment, Bao Dan came to the hand. He looked down and the mouth of the mouth was coming out quickly. His face was full of joy.

"Okay, go to the retreat to break through!"

Waving, Ye Xuan even dismissed all the people, directly ignoring the pitiful side of him next to stare at him, wanting to persuade Ye Xuan to immediately dispatch, to attack other intermediate starry forbidden land, to hunt for the beastmaster, to seal The \*\*\*\* green cow of the king, under the sway of the body, directly rushed to the life star where the \*\*\*\* phoenix nest was located.

This star is very large, but now only Ye Xuan is sitting in the town, no one else, even the green cow, will not easily set foot here.

Everyone is familiar with it, but even if it is a person, it is necessary to pay attention to it. At this level, everyone has their own secrets. Although the temperament is not very reliable, in this respect, it is still quite measured. of. Enter

After entering the atmosphere, Ye Xuan returned to the previous valley at the first time. He had already sacrificed Shennong Ding in the wave... Of course, it was a reduction in shape, only a hundred feet, otherwise even this giant star could not fit. . One

Stepping out, Ye Xuan's figure appeared in the Dingkou of Shennong Ding, and the blink of an eye disappeared and entered the space inside the Ding. "

Roar! "just

In the vicinity of the volcano in the central area, there was a terrifying roar in the mountains in the distance. It was clearly the sound of the flying scorpion, a breath of immortality in the air, and Ye Xuan's bright light, this old guy And finally broke through!

In the next moment, Ye Xuan swayed and glared in the direction of the roar. when

When he arrived, in addition to the flying scorpion, even the figure of the silver cockroach and the eight King Kong were also in sight.

The last time I saw these guys, Ye Xuan gave Fei Tianyi a 20-level Dan, and the Eight King Kongs each had a 20-level Dan. This

After a period of time, Feitianyu has already broken through, and now it is the second-order repair of the immortal, and the Eight King Kong has broken through the two times after breaking into the immortality. Now all have the third-order strength of immortality. very

Even the silver cockroaches, the repairing strength has also reached the seventh stage of immortality, and then two breakthroughs, you need to swallow twenty-first-class Dan, the impact of the seal. "

call out! "

"Hey..."

After several consecutive sounds, one can break through the 20th-level Dan, who is immortal to the king, and nine can break through to the 20th-level Dan, which is immortal, and rushed to the sky and fell into the sky. Eight King Kong and the hands of the silver cockroach. "

Your cultivation has not yet arrived, Baodan first kept, and turned back to the ninth-order great consummation, and then swallowed, thus breaking through the bottleneck of the big realm..."

Nodded, Ye Xuan said: "As for the resources that are usually cultivated, you should have a lot of hands in your hands. You should use it first. In the recent period, if there is nothing to do, there is no need to go

out. The situation outside is very stable. Before you even get out, let's improve the strength as soon as possible and say it again!"

Then, Ye Xuan waved his hand, flying the sky, the silver cockroach and the eight King Kong faces, and turned around and re-entered the retreat!

Just as Ye Xuan turned and wanted to leave, in the distant mountains, there was another figure looting, and it was actually the lion Wanjin who had the Thunder poison.

Seeing that it is cultivated as a strength, it has also reached an immortality, and it is the third order of immortality. This

The speed of entering the country is more than a little bit faster than the Eight King Kong, and he broke into the immortality. It seems that the 20th grade Dan is useless. This is clearly the reason for the Thunder poison body, and Ye Xuan's engulfing treasure has Get a fight, there is no bottleneck in the big realm, the accumulation of energy is here, the breakthrough is natural, just like the water! "

Master, I want to go outside..."

In the vicinity, Lion Wanjin squatted directly, but soon he was waved by Ye Xuan and held up with a soft force. He did not like this form and was not used to it. "

Going out? "

Upon hearing the words of Lion Wanjin, Ye Xuan frowned and fell into sinking. "

In this, although the speed of cultivation is not slow, but only relying on the cultivation resources given by the owner, after all, it is too... the last time, it has been used up! "

The face of Lion Wanjin showed a slap in the face. Although he had been transformed into a servant by Ye Xuan, his wisdom and emotions were not lost. Therefore, various rich expressions still exist. It's not like a robot, it's cold and dull. "

Just used up? "leaf

Xuan was shocked and understood the meaning of Lion Wanjin. This

The guy is obviously suspected to be in the inner space of Shennong Ding. He has all kinds of hands and feet. Because there are also beasts in the Ding interior space and various kinds of spiritual herbs, it is a resource belonging to Ye Xuan. He dare not ask himself. Take, as a result, once the cultivation resources at hand are used up, the cultivation of strength will naturally stagnate.

On the contrary, when it comes to the outside world, his Thunder poison body is not as good as Ye Xuan's devour of the treasure, but basically it is the same, that is, the plunder and engulfment of the red fruit. outer

The surface of the void has a variety of resources, even the thermal energy of the star, his body can be released to devouring. One

Once you enter the wider space outside, then the speed of the improvement of the strength of the lion will be upgraded. It is no exaggeration to say that it is a big upswing. and

Moreover, since he was retouched by Ye Xuan's mutated slaves from the soul level, this process is irreversible at all. Therefore, even if he is allowed to go outside, let him grow freely, even if one day, Its cultivation is far beyond the strength of Ye Xuan himself.

It is absolutely impossible to do things like betrayal.

Retreat 10,000 steps, even if it appears, Ye Xuan is not as good as him, but between the thoughts, it can determine the life and death of Lion Wanjin...

In this way, there is no scruples and concerns. One

After reading this, Ye Xuan even made a decision and nodded: "So, I will send you out, remember, it is important to improve the strength, but anything, more important, can't compare with yourself. Little life..."

You can survive the disaster without dying, and the owner of the star does not have to worry about the crisis you have encountered outside, and he will die in advance. In a word, everything thinks twice and is careful..."

call out! "

After that, Ye Xuan suddenly waved his hand. In an instant, there was a faint mist of mist from the foot of Lion Wanjin. He lifted his figure and lifted it directly toward the sky. It was already in the blink of an eye. At the mouth of Dingkou, under the sway, he rushed out of Dingkou with lion Wanjin, and disappeared without it...

Chapter 4278: The future of the four wars

After sending Lion Wanjin away, Ye Xuan also walked out of Shennong Ding, waved his hand to collect Bao Ding, and immediately sang the Longye Life Giant Fort.

Step by step into it, Ye Xuan even came to the layer where the 10,000 demon scouts headed by the sea and the green feathers, all the devils scouted, only a small part just got out, repaired as the strength Dajin, I am quite satisfied with Ye Xuan.

However, the return to the sea and the emergence of Cangqing, as well as Yingtai and others are still in retreat, Ye Xuan did not see.

After leaving a batch of cultivation resources including purple gold flesh and blood medicine, he left the life of the huge fort, waved his hand, and fell into sinking, began to think about the future of the four major battle stars...

The four major battles, when Ye Xuan was in the first cosmic plane of the three major stars in the world, it was a great achievement.

Until Ye Xuan entered the emptiness of this piece of ruined land, for him at that time, the four major wars also had a lot of value space.

But nowadays, the cultivation of Ye Xuan's strength is far from the past. The four great battles of the great achievements of the past are already a chicken rib for him.

If it is used, it will not be used at all, but if it is abandoned, but it is unwilling, after all, it was created by myself, and it has made a great contribution!

"The horror power of Star Wars is reflected in two aspects..."

In the midst of thinking, Ye Xuan whispered to himself: "The first one is the war La, which is related to its structure and materials. In this respect, it can be upgraded. It is not a big problem. It gives instructions to the phagocytic system and promotes it. After getting the best solution for the upgrade, and the required materials, once everything is ready, you can activate the forging system and upgrade it..."

"The second is the kinetic energy group of the war, this is a bit of a headache. The number of kinetic energy groups in the four major wars is extremely large, and the energy needed for evolution is not ordinary easy to find..."

This is what is bothering him!

In the Void War, there are two heads of nine-star eagle, ten heads and eight stars, and tens of thousands of emptiness. However, the cultivation is generally low.

The same is true of the sorcerer's war. After the last time I absorbed a large amount of \*\*\*\* ant liquid, although the sorcerer's soul evolved out of the golden scorpion, and a lot of soul scorpion, but the strength is also low.

In the years of war, the same is true of Qingjin Slim and Zijin Slim.

In the \*\*\*\* mosquito battle, it is the \*\*\*\* state of the mosquito and beast, but now it is only the star territory. There are tens of millions of other murderous beasts, but basically they are below the Qiankun, the big-level beasts. There are only a few thousand heads. For Ye Xuan, it's just like an ant...

"The flesh-and-blood medicines that the ancients retired from the ancients, all of them have the effect of strengthening the blood and enhancing the realm of the Void Scoops, the Souls, the Slime, and the Blood Mosquitoes in the Four Great Wars, but in the end they are not as good as those Special resources for strong effects..."

In the muttering, Ye Xuanzhong once again smashed out the fine mans: "So, you can provide a large number of flesh and blood medicines first, so that the kinetic energy groups of the four major wars will slowly increase their strength, consolidate the foundation, and at the same time in this vast void. Start a search and look for special resources that have amazing effects on the four kinetic groups!"

After the decision, Ye Xuan immediately waved, and the four major wars were sacrificed, waved, and the top flesh and blood medicine of a awning and other top resources that were effective for the four major stalwart kinetic groups were all sent out by him, still entering the four major wars. Inside.

"Hey!"

"Hey..."

Feel the atmosphere of these top-level cultivation resources and flesh-and-blood medicines. The four kinetic energy groups in the war are all excited and screaming, and they are excited and happy.

During this period of time, Ye Xuan has been busy with his own improvement of strength. For a long time, he has not participated in the battle of the four major wars.

The four kinetic energy groups in the war have been shackled in the immortal world for a long time, and now they can finally come out to breathe, all seem cheerful.

"But it. In the recent period, let you breathe out, but no one can walk out of the atmosphere of this star, otherwise it will expose the identity of the star..."

Shaking his head and smiling, Ye Xuan even issued instructions to the four kinetic groups in the four battles.

"Hey!"

"Hey..."

His words almost fell, and from the four battles, there was a sudden low-pitched voice, and a large number of Void Scoops, Skulls, Slime, and Blood Mosquitoes all rushed from the battle. Out, with joy and incomparable meaning, instantly spread in the interior of this star, each tossed away.

"call out....."

The sharp sound of the sound broke out, and a \*\*\*\* spurt came, hovering in front of Ye Xuan, it was the blood of the mosquito and beast.

Nowadays, the \*\*\*\* repair has already broken through to the star's main territory. Although the gap is getting bigger and bigger compared with Ye Xuan, the speed of this strength improvement is actually not slow, even arguably Extremely fast.

The crazy blood color in his eyes has faded a lot compared to the previous ones. Obviously, his madness is slowly recovering with the improvement of his strength.

Seeing this scene, Ye Xuan's heart crossed a stream of turbulence, and the dawn became softer: "Blood brother, remember the scene that I was with you when I was in the crazy mosquito star? It's nothing... then you It's completely mad, and there's no clearth in the world. Naturally, I don't remember..."

"I just have some emotions. I have already reached this step without knowing it..."

During the speech, Ye Xuan shook his head and sighed, and smiled bitterly: "Reassured, I must let your cultivation as strength as soon as possible to the immortality, according to my deduction, if there is no accident, when you break through to immortality, life Level evolution, big transition changes, this congenital madness should be able to solve it all the time!"

"Hey..."

It seems that I understood the meaning of Ye Xuan's words. The \*\*\*\* prince raised her voice with a joyful shout, and nodded to Ye Xuan.

The huge wing behind it slammed, and the humming sound came, and its body shape instantly turned into a \*\*\*\* man, and it was supported by the lasing in the distance, and it disappeared at the end of the star's inner sight.

"Oh, are you retreating? If you don't have one, please come out first..."

It was also at this time, outside the atmosphere of the stars, the sound of the old goods of Qingniu suddenly sounded: "A place on the edge of the blood ban, ... According to your statement, it should be a black hole."

"In that black hole, suddenly a lot of strange warships rushed out, the same as the captive army... This guy seems to be from the same place with you!"

"Let's go out and see if it's an enemy or a friend..."

Having said that, the tone of Qingniu suddenly became excited: "If it is a person, but if it is an enemy..."

"Hey..."

Chapter 4279: Friends come from far away

The edge of the phoenix star field does have a black hole, which is larger than the black hole at the time of Ye Xuan.

All along, this black hole has no movement. It is connected with the dark void that Ye Xuan came to connect with the second universe.

However, the dark void is too vast, although more than two years ago, the major forces of the three major stars in the dark void from the sinister star field, the number of the major forces fleet is huge to almost countless, but there is no Any fleet, or the strongest person who is single.

Enter this place through the black hole!

Until today, finally a fleet arrived...

"Booming..."

"boom!"

The overwhelming kinetic energy cabin roared, and a thousand huge fleets rushed out of the black hole and entered the edge of the phoenix star field.

If Ye Xuan is here at the moment, he can recognize the origin of this fleet at a glance.

This fleet is the joint fleet of the Third Cosmic Terran and the Faroese Federation in the three major star planes of the world.

The scale of the entire fleet of warships and warships reached about 30 million.

The Senlan Fleet of the Federation of Varo, the total number of warships is 10 million.

Among the two camps of the Terran, the immortal army of the immortal dynasty, the battleship of 10 million.

The ten-day palace of the comprehension camp, all kinds of powerful battle boats, there are also 10 million!

The highest commander who sits in the joint fleet is not a single person, but three immortal seals, the jade exquisite of the crystal family from the Federation of Wanluo, the old dragon from the immortal dynasty. And a deputy palace owner from the Ten Heavenly Palace, called the Palace Army!

These three members are extremely high-ranking and sit in the core flagship fortress of the three fleets. They simply do not intervene in any specific affairs. They only have major changes, such as encountering a crisis concerning the survival of the fleet.

In normal times, all the affairs of the entire joint fleet are decided by the immortal old monsters of the three major forces.

This time, the sinister star field, whether it is the federal headquarters of the Varo, or the two camps of the Terran, in addition to each has a huge fleet of tens of millions of levels, in the high-end combat power, there are also ten immortal grotesque.

The three forces combined together, the number of immortal grotesque, reached 30, of which, Ye Xuan's old acquaintances like fox carving, Longshan Tang and Gonghua and all.

And like the fox, or the three-jawed dragonfly, Ye Xuan has already secretly voted for it, but only he and the three-jawed dragon are known. This is the \*\*\*\* family behind the two and the federal headquarters of Varo. , are not aware of it.

After all, after Ye Xuan's income from the two men's income, they have not yet exercised their power, and have commanded any instructions and tasks. Naturally, there is no possibility of exposure...

At this moment, in the other core flagship outside the three core flagships, in the top command post, these thirty are from the Federation of Van Rou, the immortal dynasty and the immortal genius of the Ten Heavenly Palace, are gathering together. Have an emergency meeting.

A similar meeting, the most recent one, is already half a year ago...

Ever since the mysterious passage from the second universe, the mysterious passage to the dark void that has just left, the entire united fleet has been wandering in the almost boundless dark void, unconsciously, two More than a year has passed.

The dark void is too vast, and even the abandoned stars are extremely rare. The whole piece of void is almost empty, not to mention the stars of life.

In the past three years, the entire fleet has been sailing in the dark sky for a purposeless starry sky. Almost everyone is mad, and this feeling, Ye Xuan also had it, almost mad, until he passed that Daoguang curtain, enter the universe of the present space...

This time, when the joint fleet experienced nearly three years of boring starry travel, it finally rushed out of the black hole. After seeing a bright world, the whole fleet was boiling, and everyone cheered.

The reason why the 30 immortal grotes including the fox scorpion, the Longshan Tang and the Gonghua, and the half-year-old plenary meeting of the immortal level are again launched. The purpose is to discuss the follow-up plan.

"Although we have just arrived at this void, we don't know everything about it, but just now, the general situation of the universe's void within 100 million miles has just been scanned..."

At the meeting, several immortal geeks who were responsible for the three-month rotation value continued to speak. Their faces were full of excitement, and there was an irresistible excitement in their tone.

The other attendees are all immortal, and all of them are like this. Everyone has just beaten a shot of blood, forcibly suppressing the excitement of the heart, patiently listening to several preliminary reports of immortality...

"In the imaginary circle of 100 million miles, the number of life stars that have been detected is more than 500! The high concentration of life stars is extremely rare even in the three major star planes of the world. It can be inferred that This virtual air resource is absolutely rich!"

"Yes, the unknown world we entered is a super gold mine that has not been excavated. All kinds of resources are waiting for us to harvest!"

"Of course, since there is a life star, there will naturally be life. However, according to the results of the initial detection of the talent, the most powerful atmosphere among the more than 500 life stars within a billion miles. It's just the universe..."

"But this is the data outside of all life stars. As for the inside of the life star, due to the isolation of the atmosphere, the specific situation cannot obtain more detailed intelligence data."

"As for the structure of life, the creatures wandering in the void are basically all kinds of starry beasts. Although they are powerful, in the face of our 30 immortal grotesques, they are just chickens and puppies... the most powerful number Ten beasts in the universe, I can solve them by one person."

"In addition to the starry beasts, there are some warships similar to the comprehension camps patrolling in the void, but the form is more ancient. If there are no accidents, there should be some tribes of the ancients in this void. These forms of ancient warfare The boat belongs to them..."

After all the circumstances have been finished, among the several immortal grotesque people who are rotating, the other few people are no longer talking. Only one person, the first immortal geeks who are turning around will all scan the circle, and finally say: "You, my opinion is a conservative attack, first concentrate on the power, and launch a volley to the nearest life star..."

"So, you can test the reaction of other life stars. If there is a cultivation that exceeds the ordinary immortality, then we must be careful. Of course, if only one or two seals are immortal, they can't escape. The fate of slavery."

"And if there is too much power at this level, we can immediately retreat and return to the dark void in the coming. What do you think?"

"Seconded!"

"I have no opinion!"

"Seconded....."

Chapter 4280: Captive army

The immortal grotesque of the 30 joint fleets unanimously endorsed the action plan for exploratory attacks and issued the operational instructions at the first time.

The entire huge joint fleet still stays in the universe of the universe, which is only 10 million miles away from the huge light curtain in the rear. Only six million warships and warships are drawn from the large forces.

The Wanluo Federation, the Immortal Dynasty and the Ten Heavenly Palace each dispatched two million.

As for the three small fleets in the town, as the highest combat command, there are three immortal monsters from the three forces. Coincidentally, these three old guys are the old acquaintances of Ye Xuan, like the fox, Longshan. Tang and Gonghua and!

All of this, Ye Xuan does not know, if it is known, I am afraid that it will be speechless on the spot, the world, it is unpredictable, this coincidence has appeared.

"Booming..."

The roar of the kinetic energy cabin was full of whistle, and six million warships and battleships were divided into three small corps, lined up and headed forward.

The target chosen by this Pioneer fleet is just 50 million miles ahead, and it is the star of life at the edge of the banned blood.

In this life star, it is only a squad of the forbidden beast that has just been sown by the young cows. It is only a total of more than 100,000 heads. Although there is an immortal level, it is now closed, and the outside world is also unknown. Everything that happened.

In fact, even if you know, this immortal grotesque will not rush out of the atmosphere of the stars.

Because Ye Xuan received the instructions after receiving the voice of Qingniu, the first time to give instructions, all the forces above the immortal level, are not allowed to show up, no retreat, all in the atmosphere of the stars in their respective feet.

Even the survivors and beasts under the immortality are not allowed to leave the atmosphere at will during the war. This battle is under the command of the Qingniu, and the captive army is responsible for the specific war...

The reason for this arrangement may be that Ye Xuan wants to test the loyalty of the captive army.

After all, Ye Xuan did not show his identity to them. In the eyes of all the captives of the captive army, he was the aborigines who belonged to this fragmentary void, and the stars and the riots that they did not come from the same world.

Previously, only a star-shaped forbidden land in the emptiness of this piece of debris was launched, and the strongmen in the captive army would naturally not have psychological pressure.

Now, Ye Xuan allows them to deal with the same strength from the three major star planes of the world, and how loyalty can be tested in an instant.

Even Ye Xuan deliberately smashed the green cow, let him not show up, and deported the specific command of the war to the dozens of newly-opened seals in the captive parliament, such as the Three-Claw Dragon, and let them take it. The entire captive army, rushing to the front...

If the top of the captive parliament, such as the Three-Clawed Dragonfly, has two hearts, taking advantage of this opportunity, the entire prisoner's regiment will merge with the newly arrived joint fleet and rush back into the black hole in front, then Ye Xuan will return to his own way.

Of course, he does not want to see this situation. For the results of this temptation, Ye Xuan is still quite confident!

Similarly, for the instructions of Ye Xuan, the three immortal monsters in the joint fleet pioneer camp are not aware of it!

The distance of 50 million miles is not too far away for the Star Warships. What's more, this Pioneer fleet is basically a big fortress and a big fortress, as well as a competing battle with the same performance and power.

Therefore, it took only about half an hour, and the three small corps of the Pioneer Fleet had already reached the target star of 10 million miles. They were lined up in the void and the angle of the muzzle was adjusted. There are 100,000 life stars in the forbidden beast!

"All battleships, three consecutive rounds of fire... fire!"

"boom!"

"Booming..."

.....

With the order of Longshan Tang, six million warships and warships of the entire Pioneer fleet, 10 million miles away, opened fire at the same time...

In the void, the roar of the roaring sounds, the energy light column of the ship's guns, like the intertwined light net, is in the void, it is dazzling and fascinating.

Even Ye Xuan and Qing Niu did not expect that these guys were so black, and when they came up, they stared at a life star in the most marginal zone, and they didn't say anything, even a small temptation. Millions of warships and warships fired at the first time and were still volley.

Qingniu immediately became angry, but did not violate Ye Xuan's previous instructions. He did not dare to show up, but directly entered the atmosphere of the target star with the gods, and informed the stars of more than 100,000 forbidden beasts from the stars. The other end of the atmosphere, rushing out of the void, retreating into the rear...

Nowadays, he is already a king-level existence, deliberately concealed, and his extended knowledge, even the three seals in the joint fleet are immortal, are undetectable.

"Roar!"

"Roar....."

"Hey!"

.....

Within the target star, a large number of fierce beasts roared and roared.

More than 100,000 banned beasts, the first time they started the evacuation, rushed out from the other side of the atmosphere of the stars, and did not even stop, spurting straight into the foreground of the banned blood in front.

They will be transferred to another life star. Although they are angry, they dare not defy the purpose of the green cow. In this battle, the green cow has already stated to them, and will be responsible by the captive army.

"boom!"

"Booming..."

The earth-shattering explosion came out, and the target star, under the volley bombardment of six million gunfire energy beams, instantly exploded and turned into a huge fireball, illuminating the whole \*\*\*\* forbidden place...

However, due to the timely notification of the blue cow, all the more than 100,000 forbidden beasts in this life star were all withdrawn from the other side of the star atmosphere before the ship's energy beam was lowered. Therefore, there is no such thing. damage.

However, the collective escape of more than 100,000 banned beasts, and even dozens of universes... This scene, after falling into the eyes of Elephant Fox, Longshan Tang, Gong Gong and the three, has undoubtedly explained Too many questions.

The three old guys immediately raised their heads and laughed. In their view, this temptation was quite successful, and the results seemed to be very satisfying.

"Seeing no, these beasts have more than 100,000 heads, and there are even dozens of universes. But when I faced the offensive, I turned around and fled in the first place. I didn't even have the courage to fight. !"

"This shows that they are very unconfident in their hearts. From one aspect, it also shows that there is no such thing as the existence of a sealed class in this void. Otherwise, how can it be so unfounded?"

"Is it just not sealed? As I see it, I am afraid that even the immortal blame is not there. I don't need to test it anymore. I will immediately return, and the army can open it and launch a full-scale attack..."

"Hey? That's..."

At the end of the day, the words in Gonghua and the mouth suddenly stagnate, and the line of sight sweeps farther into the front of the void. The face is dull, the mouth is wide, and the eyes are coming out quickly...
