

## Super D. S 4281

### Chapter 4281: Unparalleled dragon

At the end of the front of the void in the line of sight, inside the stars of life, there are a large number of star-ship battleships rushing out. This is the life star of this kind of starship battleship, which is more than 400, and 500 yuan within a billion miles. Among the many life stars, almost 80%.

The number of star-ship battleships that rush out of each life star is even more enormous, and it is well-trained. After rushing out of the atmosphere, it is very skillful to assemble in the void...

But all this is not the reason why the elephants, the dragons, the Tangshan, the Gonghua and the three people are dull.

The real reason is that these star-ship warships are not only large in number, but also very clear-cut, and look at the huge logo painted on the outer surface of the ship. This is clearly the battleship army from the three major star planes of the world.

To be more specific, it should be from the second universe, basically half of the top ten ethnic groups, and there are also some small-capital fleets, some of which are not well-known second-rate forces, even star gangs. Logo. Have

And even the logo of the Third Universe Wanluo Federal Sen Blue Fleet! short

In just ten minutes, the number of starships that rushed out of the four hundred life stars exceeded 30 million, and it continued to increase.

Its total strength has already surpassed the joint fleet that has just arrived! more

The key point is that this sudden large fleet, although the main body is half of the second universe, but there are some minor groups in the first universe, some second-rate forces in the third universe, star gangs, and even Wan Luo. The federal small fleet is simply a hodgepodge. real

It's hard to imagine that these forces, which have complex relationships with each other, are simply unclear, how the forces' fleets are gathered together and get along with each other..."

By the way, what happened? A powerful and powerful army! "

"There is still a small fleet of about 100,000 warships, which is from the Federal headquarters of Wanluo. Yes, when we first entered the dark void, we did not send a Pioneer fleet to march forward, to explore ahead? Later I'm gone, I'm here for a long time?"

"What rhythm is this? Actually mixed with the fleet of the Second Universe, including the second-rate forces of the third universe, even including the Star Thieves gang... The old man suddenly felt a little faint, his brain hurt!"

In fact, is it the pain of these three old guys? The entire Pioneer fleet, and even the huge joint fleet outside the 40 million miles behind, from the immortal grotesque, down to the ordinary creeps, all the strong men of the world, this moment has a feeling of a head.

This scene in front of me is too ridiculous, too puzzling, and it is not scientific at all!

"Which is the commander of the front fleet? Stand out and scream, the old man is the highest commander of the fleet..."

When all the people were in the circle, at the end of the sky in front of the sky, a large number of warships that had rushed out of the more than 400 life stars had been assembled into a military, and they swiftly approached here. versus

At the same time, in the core flagship fortress of the central army of hundreds of millions of warships, there was also a voice of endless arrogance and arrogance, but it was transmitted through the star-studded sound system in the flagship fortress. , so I can't perceive the cultivation of the voice of the person...

The core flagship is a special isolation method. Coupled with the realm of the three-jawed dragonfly, even if it is immortal in the same place, it cannot be detected. "

Three-jawed dragon? Actually he? ”

Like a fox, he quickly frowned. With his understanding of the three-jawed dragon, the other party should not be such a performance. You must know that due to the news leak, and the sudden arrival of the furnace, In order to enter the dark void as soon as possible, the coalition of the various communists of the universe did not seal the immortal existence.

At this point, the major forces that have entered the follow-up have basically found out the news and confirmed it.

And the three-jawed dragon and even the own side of this joint fleet have been sealed and immortal, the town has not yet figured out, the tone of speech is so mad, it is not like his cautious character...

When Xianghu's heart was suspicious, Longshan Tang and Gonghua on the side of his body and the two had laughed. They naturally knew that when the Second Universe coalition entered, they were too rushed to sit down and wait for the immortality.

In this way, even if the opponent's warship is bigger and fearless, it is still a good thing. You can capture it and expand the power of your own fleet...

"Three-jawed dragonfly? The immortal old man of the \*\*\*\* family? Also the highest commander, isn't it an ordinary immortal? Zhang crazy into this, who gives you the courage?"

"The size of the fleet is quite good. Although it has been mixed with a lot of miscellaneous troops, its combat power is real. There are hundreds of millions of warships. It is very jealous..."

"Unfortunately, although the size of the warships is huge, the high-end combat power is short-board. There is no one waiting for the town, and the warships are many more stunned. The three-jaw dragons have no need to continue. This battle has not stopped, you only have Surrender, or death, these two choices!"

Roar! ”

"When you die, your mother!"

The words of Gonghua and the words just fell, and the central flagship of the army that came from the front, the core flagship fortress, there was a sudden scream. tight

Then, the more maddening voice of the three-jawed dragonfly suddenly sounded: "Who said that we have not been sealed? Your grandfather, I am not that? Do not have the ability to shrink the tortoise, roll it thick, Bentham claws scratch Die you!"

boom....."

The arrogant words just fell, and a roar of sounds sounded instantly. From the core flagship fortress, a figure rushed out quickly, and the speed reached its peak. In the blink of an eye, it was already at the forefront of the entire billion-dollar army. .

Under the stagnation of the body, hanging in the void, is a sturdy blood dragon, which is the three-jawed dragon. and

At this time, the temperament that has been diffused from the body is really a scene of immortality, although it is only a one-step closure, but... after all, it is already waiting!

This moment's three-jawed dragonfly can be described as a spring breeze.

Among the ninety-eight immortal grotesque of the captive parliament, there are now a total of eighteen people who have broken through to the immortality. Originally, this opportunity to appear in front of the third cosmic unit fleet is not enough for him. This

The reason why the guy can pull the wind so much, even the highest commander of this huge fleet, is just a dog shouting, and another 17 just broke through the seal and immortal, just to get the top spot... this

Engraved, as he rushed out of the core flagship fortress in order to show off, showing the \*\*\*\* body, in the Pioneer fleet tens of millions of miles away, the elephant fox and the Longshan Tang, Gonghua and the three fell The exhalation of the cool air...

"What? The seal is immortal? Is this guy actually breaking through?"

"Damn, he is ahead of us, it must have been a great creation here, and it's a dog."

Chapter 4282: Feng Hou three to one

"The seal is immortal? Is this guy actually breaking through?"

Damn, he is ahead of us. It must have been a good thing here, and it's a dog's luck..."

Looking at the three-pronged dragonfly in front of the temperament, Gonghua and the two people stayed with Longshan Tang for a short time, then the face changed greatly, on the spot in the top flagship of the core flagship, gnashing his teeth and smashing his chest. on

Even the scorpion scorpion, which has no snoring, has a slight change of face, a frowning look that is unwilling... and

Compared with the three-jawed dragons, the strength of the three of them is not weak. Nowadays, they are all seven stages of immortality. Three years ago, the three-jawed dragonfly was also a repair, but now, it's only dazzling. The work of the people, the family has broken through to the seal, there is nothing more shocking than this...

Especially when I think that the other party can have such amazing achievements, everything is more than 90%. It is because he entered this resource-rich unknown void in advance, and got some big benefits, the reason for the big creation, three Unwilling to be in the heart, the moment is even stronger!

With this kind of unwillingness to express in the heart, the heart of the three people has a resentment in an instant, and the fox has not said anything yet. After all, he and the three-jawed dragon have a common secret between the two, that is, both of them are all Invested in the Tianhe stars, the main Ye Xuan. Place

Therefore, even if the resentment is heavy at the moment, he does not dare to scream. After all, the three-jawed dragons are all waiting for it. I am afraid that even if the Tianhe star is the main Ye Xuan, he is not afraid... Of course, if there is no original The words of the oath that are established.

However, he is different. In the past three years, he has hardly improved his strength. He was all wasted in the infinite temptation of long interstellar travel. in

In this case, if the three-jawed dragonfly is annoyed, the other party can completely unscrupulously throw out the things of the Tianhe Stars, and then the family does not matter, but it is him! Do not

However, the foxes do not dare to sing, but they do not represent the same as the Gonghua and the Longshan Tang. do not

Forgot, among the joint fleets of 40 million miles behind, there are still three people who are waiting for the immortality. This

The three statues came from the Federation of Van Rou, the immortal dynasty and the ten eternal palaces were immortal, and the strengths of the repairs all reached the fifth-order sixth-order of immortality, and one of them could make the three-jawed dragon look dumbfounded.

Even if the three seals are immortal and united, and the three-jawed dragonfly is locked, he will not even have the chance to escape.

One thought of this, Longshan Tang and Gonghua and the two exchanged a look, immediately obtained a tacit agreement, decided to use words to irritate each other, it is best to make their words more inferior, all the way to the end, then, it is very likely to sit behind the town The three seals were immortal, and they joined forces to suppress each other. Do not

After the crackdown, whether it can get the actual benefits from the other side, at least always solves the stupidity of the moment, not to mention, since the three-jawed dragonfly can break through to the immortality so quickly, the result must not be ordinary As for the creation, as long as he can kneel down, from his mouth, how much can learn some important information...

This thought made the two people feel in a hurry, and did not pay attention to the elephant screaming in silence, even if they provoked their voices..."

The three-jawed dragonfly, surrendered immediately, handed over the battleship army under your arm, and then said everything related to this void, you can still spare you today..."

Yes, you only have ten moments, and once you get through, everything is late! "

"A small initial seal, what is it? What tells you the truth, in our joint fleet, there are three mid-term seals that are immortal, even close to the end of the seal, suppressing you, just killing An ant is average!"

"Roar!""

Grind your mother's mother..."

The words of Longshan Tang and Gonghua are still unsuccessful. The three-jawed dragonfly outside the tens of thousands of miles has already snarled: "When your grandfather is scared, don't you say that you are blowing the air, Even if there are three mid-term seals in the coalition behind you, Grandpa can take them to the fart and scream, and scream on the spot..."

He is really angry. Capture

In the 虜 Parliament, there are a total of 18 outstanding breakthroughs that are immortal, and they are the first to be won. Originally, I was going to jump out and install a ratio. I had a good time in front of the old acquaintances. Who would have thought that this had not found any feeling? It was scared by the other party on the spot.

If you are really afraid of him, it is far from it. do not

It is said that only three of the opposing coalition fleets are immortal. Even if there are three kings, it seems that they can't scare Laozi.

The backing of the back of the mountain is the eighth order of the king. They are all fast and complete. They come to the three kingdoms in the same territory. That is also the rhythm of crushing on the spot!

For this reason, in the face of the intimidating words of Longshan Tang and Gonghua, the three-jawed dragonfly will not only be divided into fearless, but even domineeringly responded, claiming that the three seals will be screamed on the spot. ....This

It was a bit arrogant, only to seal the first order, but actually put oneself in the same way as a king, actually claimed to have three squadrons in the middle of the middle of the queue, screaming... I met this kind of thing, even if it was The temper and the cultivation are good and the immortal seal is immortal. first

In the joint fleet behind the front fleet, three screaming roars came in an instant..."

Hey! "

"Small nephew, just broke through the seal, even you have forgotten who?"

The tone is so big, the attitude is so arrogant, I don't know, I thought I met the king..."

"Since there is no tutor, then teach him how to behave... No, this guy is not a human being at all, it is a beast, teach him to be a beast!"

"Roar....."

As the voice of this roaring voice spread, from the three flagship fortresses of the rear joint fleet, there were three masons spurred in an instant. speed

The degree is almost at the extreme, almost a distance of more than 40 million miles between the blink of an eye, the body shape is timed, has reached the front of the Pioneer Fleet led by Xiang Huyu, Longshan Tang and Gonghua and the three!

The three seals are immortal. They are Yu Ling, a crystal strong from the Federation of the Faro, and the old dragon from the immortal dynasty, and a vice-president from the Ten Heavenly Palace, named Gongjun!

Yu Ling is a crystal life, showing a form of a young woman, graceful and graceful.

The other two are human men, and the two camps from the Terran look like Pentecost...

When you are honored, you are not the first to enter the world, but the old-fashioned strong, the strength is in the mid-term, except that Yu Ling is the fifth-order, and the other two are all waiting for the sixth-order!

At this moment, the universe's void within a billion miles is completely quiet. More than 100 million warships of the captive army, which are 10 million miles behind the three-jawed dragonfly, have all closed the kinetic energy tank at this time. It seems as if the three-on-one battle is blocked by the front, which scares the general...

Chapter 4283: More than people

As the three seals of the joint fleet came to immortality, the void within a billion miles was completely ruined.

Even the hundreds of millions of warships of the captive corps, which had been smashed from behind the three-jawed dragonfly, stopped in the emptiness of ten million miles, shutting down the kinetic energy cabin, and quietly waiting.

It seems that it is as scared by the immortality of these three sudden arrivals!

Such a scene made the three statues of Yu Linglong, Long Yao and Gong Jun very satisfied. They enjoyed this kind of sorrow, the void was a stagnation, and the atmosphere suddenly became heavy and stagnate.

Especially after being provoked by a blind-minded guy who was just beginning to seal up...

"Small muddy, is it scary? Isn't it arrogant just now? Why didn't you suddenly scream?"

"I feel very embarrassed when I first enter the seal? But you are obviously a little too excited, forgetting your own weight..."

"Come on, please, in the middle of the three seals, you should clamp your tail, and you will be pitiful. If you do, perhaps the deity can choose to forget your disrespect and leave you a little life!"

In front, the three immortal faces of the immortal face showed a sneer, and the breath has already locked the three-jawed dragonfly. The tone of the voice reveals the arrogance, and it is so arrogant that it is obviously beating!

This is indeed very refreshing. Even if it is honorable, it is also very pleasant at this time. At this level, it is really difficult to meet the provocative existence.

It's hard to catch one today. These three have long forgotten this kind of fun, and they have found the feeling. Unconsciously, they have found the feeling. At the moment, the face is full of incomparable pleasure.

In the face of all this, the look on the face of the three-jawed dragonfly became instantly weird. The line of sight swept through the three middle-end seals in front of him, and said faintly: "You are... how many people are bullying the rhythm of people?"

"Ha ha ha..."

"Small muddy is a bit interesting, so it's so fast, it's very interesting to compare with the previous madness."

"Yes, that's how many people are bullying, what's wrong? Don't you accept it?"

The three faces on the opposite side were immortal and immediately laughed. They have been high above them. They have not experienced this kind of fun for a long time. This feeling of face-lifting makes them feel that they have returned to the struggle years before they entered the immortal. .

In my heart, they came to the interest for a while. Although they said that they were in the midst of a prosperous period of time, facing a first-time immortal seal, they simply did not need to press more and less, but they still followed the words of the three-jawed dragon. Admit this.

Everything is just because I suddenly feel that today's things are quite interesting!

However, the development of the whole incident was not at all like they imagined. It did not develop according to the plots they expected. It could even be said that there had been a total reversal that everyone could not have expected...

"It's really bad to deceive like this..."

In the face of three imposing madness and banter, the three-jawed dragon sighed and sighed, and finally the voice suddenly turned: "But since you have this hobby, then Grandpa can only do as the Romans do, brothers, come out... ... people bully me alone!"

In the last sentence, the three-jawed dragonfly almost snarled and roared out...

"Roar!"

"Hey..."

With his last roar, the core flagship fortress of the rear captive army, in an instant, responded to the general voice of arrogance and screaming.

More than a dozen figure rushed out from the core flagship fortress, all breathtaking, actually all are sealed immortal!

In the blink of an eye, seventeen volleys came from the spurs, standing in the shape of the three-jawed dragonfly, plus him, a total of 18 seals... lined up!

The void in the void once again fell into complete silence, but it was very short, followed by a large tidal wave of coolness and exclamation.

"God, what happened? Is this my eye? Or is it an illusion?"

"18! The 18th seal is immortal... This is simply scary!"

"This is not the key. Even if it is the 18th order, it is impossible to defeat the three seals. The key is their cultivation..."

"Yes, it's all in the first place. It's just a breakthrough. Among the 18 old monsters, even half of them can be named. This is all three years ago, all of them are ordinary immortal. !"

"Huahua! The great creation of Tianda! This unknown void will surely hide some of the great things that I don't know yet, and let these guys all break through to the world..."

As these exclamations rang, among the pioneering fleets thousands of miles away, Longshan Tang and Gonghua and shortness of breath, immediately screamed and excited, and could not wait to make a request...

"Roar!"

"Absolutely can't let them go, three predecessors, with your strength, even if the 18th seal is immortal, you can suppress it in one fell swoop..."

"The hands of these guys are in control of the secrets of the sky. Once they are informed, the strength of our combined fleet will increase greatly, and the immortality will be like a blowout!"

In fact, they didn't need to be reminded by the two of them. In front of the Pioneer Fleet, when the eighteen seals were immortal, the three people of Yuling, Longjing and Gongjun were only briefly sluggish, followed by It was a fierce and incomparable man.

Their response was faster than that of Longshan Tang and Gonghua, and almost instantly realized the meaning of the 18 seals in front of them!

"Roar!"

"Small nephews, you are all captured, and immediately surrender, telling the secrets in your hands, otherwise... killing innocents!"

"You have a lot of people, don't challenge me to wait for patience, give you ten-day time, after ten interest, 18 people will wait for the first order, and every time you kill three, you will kill one until you surrender..."

Hearing this discourse, Longshan Tang, Gong Gonghua, and the two of the core flagship fortresses of the Pioneer Fleet, were excited immediately. Even the side always felt that things were a bit uncomfortable, so they never said a word. The foxes are shaking at the moment.

After all, this is the temptation to break through to the seal, and he can't resist it...

However, what is strange is that in the face of all this, the 18th-ranked first-order squad that is lined up in the air of thousands of miles away is not meant to be a little flustered.

It seems that there is no realization that the three seals of Yu Ling, Long Yu and Gong Jun are immortal. They are the medium-term situation and absolutely have the terrible strength to crush them.

Only after standing in the 18-year-old three-jawed dragonfly who was waiting for the immortal center, after hearing the threatening words of the three people of Yu Linglong, they shook their heads and sighed.

Then I turned to the void behind me and looked at it. Suddenly I said, "Brothers, it seems that we have to add more fire. We are eighteen, obviously not living in the house. People have not taken us." When dished..."

Chapter 4284: Escape

"Roar!"

"Hey..."...

...three

The words of Claw Dragonfly just fell, and in the life stars of the sky behind the sky, they immediately responded with a loud scream and scream. tight

Then, more than a dozen figures rushed out of the stars and turned into masculine masculine shots. Between tens of millions of miles in the blink of an eye, they came to the forefront of the confrontation between the two armies, on the sides of the three-jawed dragonfly and other people. Suddenly stopped.

Sixteen people are still immortal, six of them are from the relic tribes, and they are six of the twelve tribes in the relic tribe. They have been following Ye Xuan for more than a year, and they have never broken the top flesh and blood. Next, coupled with the solid foundation before, the accumulation of thin hair, six people have broken through to the end of the world. Do not

However, like the three-jawed dragonfly and others, they are just waiting for the immortal level. another

The ten foreigners are the ten commander-level beasts that Qingniu received in the previous World War, and the strength is uneven. its

The two are the first order of the seal, the third is the third order of the seal, the other five, one is the fourth order of the seal, the other is the fifth order of the seal, and the last three are all the sixth order! blink

Between the eyes, the seals in the void are immortal, and they have reached thirty-four. This is the strength of Ye Xuan's display on the bright side, and all the lineups are sealed. its

Only the three vicious beasts who are waiting for the sixth order are enough to suppress the three people of Yuling, Longjing and Gongjun! This

It's the real one to bully! you

Are there not three seals? OK, Laozi immediately gathered the team, made more than 30 statues, ten hit one, and kept the don't want to abuse you...

This discourse has not been said, but all the people have profoundly experienced his heart! Virtual

In the air, for the third time, I was completely ruined, and the atmosphere was dull and depressed. It was far more than the first two times... Even Yu Linglong and Long Hao and Gongjun three people all opened their mouths, round their eyes, and their faces showed green The color!

Seeing the sky in front of thousands of miles away, there are so many seals immortal. At this moment, even the three of them have doubts about their own eyes, or the feeling of illusion! too

Not true, such a luxury lineup, even if it is a dream, they dare not think about it.

But now it has become a reality. What is even more terrible is that these guys seem to be enemies. They just clamored to use more bullying and crushing people!

These thoughts flashed through my mind. Yu Linglong and Long Yao and Gongjun three people couldn't wait to raise their hands and smack a few big ear scrapers!

Unfortunately, regrets are already late, and the lineup has been assembled. If there are no accidents, what will happen next is to use more deception, ten fat ones and one desolation scene...

"You, there is a misunderstanding here..."

"Right right, don't be impulsive, impulsive is the devil!"

"In fact, we are coming to the door, since it is not welcome... it's a big deal!"

The throat was swallowed, and the three seals from the joint fleet were immortal to throw a sentence, and turned and left... This is clearly trying to escape the tempo of this horrible void.

"Booming..." and

At the same time, the Pioneer Fleet behind the three men, and the entire huge fleet of 40 million miles behind, also in an instant, as expected, sounded a terrible roar.

All the warships, at this moment, are fully open to start the energy cabin, and even the U-turn link is saved. The warship maintains its original orientation, directly withdraws, and madly withdraws!  
Elephant

The piranhas, the Longshan Tang and the Gonghua, and the three-headed commander's fleet are all over. If you want to enter the huge light curtain, there will be more than 40 million vacancies, and you will not be able to escape for a while. .

However, Yu Linglong is different from Long Yu, Gong Jun, and the entire joint fleet behind.

The former three are sealed and immortal, and they can reach the last side in an instant. Once they break into the black hole, the variables that have been successfully escaped will suddenly increase. its

The second is the joint fleet at the rear, the position of the entire joint fleet at the moment, but the black hole is more than five million miles. If the space jumps, I am afraid there will be many warships that can rush into the black hole...

Seeing this scene, the three-jawed dragonfly turned his eyes on the spot. Correct

The three seals that were being pulled back and retreating were really disappointing. just

It's so screaming that it's so powerful, I thought it's very hard. I didn't expect this to be a blink of an eye. I immediately became a tortoise, and I didn't even dare to squat with a single swearword. I wanted to bring the entire joint fleet directly. Retracted into the black hole when coming. If

If you really let them escape, isn't that too shameless?

This is why he is so hard to get a chance to get a face, and definitely can't screw it up. Do not

However, even if he and the 30 or so people around him are waiting for the same time, they can leave the Pioneer fleet even the entire joint fleet close to the black hole, but the three seals the fifth and sixth stages. The enemy commander of the highest ranks, but most of them have to escape. true

Let them enter the black hole, and then immediately start to teleport after rushing in, and then display them again and again, I am afraid that only the violent slaps will be able to catch them one by one...

This is by no means the result of the three-jawed dragonfly. It has been tossing for so long, and in the end it is still a big surprise, which is too unsuccessful.

As soon as I read this, his face suddenly showed an angry color, and then turned his head and smashed the scorpion in the distance behind him again: "The second king of the cow, if you always do not shoot, I will have this battle." It's messing up, it's not a big deal to lose my face, the key is to make people laugh at home..."

The so-called Niu Erwang, referring to nature is the green cow.

In addition to Ye Xuan, he is the second king of the imperial ban, and the name of the two kings is so deserved. In fact, this is quite consistent with the character of the blue cow. It is a pen of God.

At this point, Ye Xuan did not intervene and handed it directly to the Qingniu. He had previously issued a combat order to the three-jawed dragon, and the existence of some matters was the green cow. Place

Therefore, at the moment, the first thing that the three-jawed dragonfly thinks is the green cow. It is impossible to ask for more help from Ye Xuan! "

Hey! ""

I just wanted to go, what is the place where the king's blood is forbidden? "three

The words of Clawed Dragonfly just fell, the end of the void at the end of the sky, within a certain life star, suddenly a sound of a screaming screaming sound, followed by the blue cow proudly, almost swearing words sound. This

Compared with the three-jawed dragonfly, the goods are not much better. They claim to be the king. The key is to ban the blood of the phoenix as his, which is simply shameless. In order to match, even the face is not needed.

However, reloading is better than the fact that the horror strength of the world's young cows is not adulterated. As his words spread, an invisible seal of the king's pressure immediately enveloped within a billion miles. The whole piece of vast void, completely banned! blink

The work of the eye, including the three joint fleets of the three immortals, such as Yu Linglong, has no way to escape...

Chapter 4285: I am the devil

When the three-jawed dragonfly turned again, as before, when the voice was called, the three people who had turned around and fled in front of Yu Ling, Long Yao and Gong Jun had realized that something was wrong. heart

Under the abruptness of a head, all three people gave birth to a very unpredictable foreboding... especially

When they heard that the three-jawed dragonfly actually called the name of the two kings, the faces of the three of them changed almost instantly.

Can a seal be immortal called the king, even if it is only the existence of the two kings, in addition to the immortal king, what can it be?

This thought just floated from the mind, and the distant space in the distance, the sound of the cow's burdock, accompanied by a powerful and powerful atmosphere, instantly took the shape of the three of them, including The entire joint fleet that was rushing forward toward the black hole was locked in...

The void is banned, even if it is immortal, it is like being trapped in the mud, the movement becomes very slow, and the teleportation does not have to be thought of, and completely loses the possibility of re-display! under

For a moment, the figure of Yu Linglong and Long Yao and Gong Jun, who were in the air and stopped in the air, took a sigh of coolness. When they subconsciously turned their heads, they suddenly exclaimed...

The king is immortal? This is absolutely impossible! ""

Damn, let's go to Jedi, seal the king? How can there be a king here? "

"What to do? The void is banned. This is definitely the power of the king. It is bad."

"Hey..."

The exclamation of Yuling's three people just fell, the end of the void at the end of the sky, the sound of a burdock has already sounded again, and under the glimpse of a glimpse, a huge green cow with a size of 100,000 feet is from far away. The hoof is rushing, and the strong breath in the body makes the stars eclipse. This

For a moment, everything in the heavens and the earth has become the back of the setting. Only this huge green cow has attracted countless eyes to gather together..."

Seal the king..."

In the core flagship fortress of the Pioneer Fleet, the eyes of the fox screamed for a while, whispering in the whisper, revealing the endless envy.

He felt that although this young cow is a king, but like the three-jawed dragon, etc., all of them have just broken through the big realm. That is to say, the green cow of this kingdom is only one end not long ago. The seal is immortal.

But now, a small step breakthrough, but his level is different in a moment, the difference between the seal and the seal of the king, like a heaven and earth, across an invisible Scorpio, may not have a smooth promotion.

This young cow... is so lucky!

One thought of this, the elephant fox suddenly thought of the Tianhe star, Ye Xuan, could not help but sigh: "Hey, if that big cockroach has entered this unknown starry sky, how good it is, with his anti-skyistic road, representative in the world of such a world, it must be flying in the sky... Unfortunately, staying in the Tianhe Star, never came!"

At the end of the day, Xiang Huyu sighed again, and the whole person felt that some of them were stunned. "

I am a cow demon, the temper is definitely not very good! Give you time to give up, or surrender, or ... die! "

In the blink of an eye, the green cow has already reached the front of a thousand miles, squatting in more than 30 vacancies in front of the seal, smashing everything, the supreme power, seeing Yu Lingling and Long Yao, Gongjun three bursts Lost, the face has been completely dimmed.

The three cows and devils are really frightened by the three people of Yuling. This name is very evil. If you listen to it, you will not be tempted. If you try to resist again, you may have to be shackled. Dead...after

Fang, a group of people waiting for the immortal face, we are looking forward to each other. The name of the cow devil is the first time they heard it. It's obvious that the green cow just took it out. Although it's a name, nothing. Big deal, but... This name and his character are clearly incompatible. three

The claw dragon is the most depressed, he can see it, this old cow is estimated to wait for himself to ask for help. hinder

In the command of violent swearing, he had previously been unable to take the initiative to jump out, but in fact, this old goods, like himself, also wanted to come out and pretend to be a slap in the face. After all, it was only after the king was closed that it was inevitable that his heart was a little excited. . Do not

However, I bumped into the Universiade, and finally managed to get the best out of the 18th seal. This old guy is too shameless, waiting for his help, and then rushing out the first time. The most...

The key point is that this will come out, and all of his own limelight will be robbed by him. He also claims to be a demon king. Don't be so disgusting!

"You still have a good time..."

The time passed by, and when the three-jawed dragon was depressed, the blue cow in front of it had roared again: "The outsiders, the king's temper is not very good, and he is afraid to start it. You think about it!" ..... "most

After the sound of the burdock, Yu Lingling and Long Hao, Gongjun three were scared to the whole body, and the numerous powerful people in the entire joint fleet were even more trembling.

In front of him, this is the real king. The devil is too heavy, and the fierceness of the flames is so fierce. I actually started to be even scared. I knew that it was a tyrannical tyrant. Tiger, it is estimated that no day has passed.

It's just that the situation is so urgent, it's a death without bowing down...

It's a dog, is it destined to be so miserable? "

Niu Er! "positive

When all the people were horrified, from the end of the void at the far end, a violent voice came, the power was amazing, even in front of the tyrant who claimed to be the demon king..."

Hey....."

Qingniu subconsciously replied, and then screamed and roared: "Who? Who is special, called Wang Niu Er? Is it this way... Big?"

The words in the mouth were just halfway up. After looking back at the figure that was taking a step, the green cow stunned and immediately returned to the soul and remembered his true identity.

In the next moment, the violent breath in his body is like a spring breeze, and it disappears silently and silently. The oxtail is a glimpse, and the fart is violently rushing toward the starry sky that is coming from the far side. The past. that

The gait of jumping and jumping, and the oxtail that came and went after the stock...how it gives a feeling of sorrow. This

In the scene, on the spot, the three people of Yuling and the powerful soldiers of the entire joint fleet were given to the Thunder! Say

What is a good demon king?

Say good tyrant? How

What is the slap in the blink of an eye?

After a few moments of sluggishness, Yu Ling's three talented faces were black, and they completely understood it. When they turned to each other, there was a low-pitched whisper in the mouth..."

Cow two? It is no wonder that the previous three-jawed dragon yelled at his two kings, and it took a long time to make a comparison. ""

But this is not important, the important thing is... there is a new king in the head, it seems to be really powerful! "

"And it is still a starry temper known for temper tantrums. This is definitely not a fake tyrant. It is terrible..."

Chapter 4286: Selling as a slave

"You, welcome to the phoenix forbidden!"

Step by step, Ye Xuan quickly went to the front of the three-jawed dragonfly and so on. The figure was standing, not directly shot, with a smile on his face, and even the tone was soft. with

The temperament of the starry sky is completely different: "When you look at the battleships, you should also come from the three major star planes of the world? Such exotic guests have already had a batch of..."

It is also a fate, far away from different stars, when you and I actually meet, this is the fate..."

As soon as the words were exported, the faces of the high-ranking captains of the three-jaw scorpion and other prisoners became instantly eccentric, and they looked at each other and secretly scorned. edge

A fart, even if there is a fate, is the fate of being captured!

Of course, this is just a glimpse of it. Think about the benefits you have now, let alone the captives, even if you are enslaved!

However, this scene is obviously not in line with the style of this big sister... It must be a moth!

I thought about it, when the three-jawed dragons and other people once again looked at the jade exquisite, the dragon scorpion and the Gongjun three in the sky in front of the sky, there was a sympathy in the moment.

In fact, these three guys are worried about it now! eye

The starry sky that came before, obviously, is the real master of this banned blood. This point, from the two kings who just claimed to be the demon king, stood behind him, with a low-browed eye After the oxtail is still pleasing to the ground, you can see one or two. its

The cultivation of strength also proves this point. It is actually the second order of the king. Although it is still the beginning of the king, it is at least a lot stronger than the two kings who entered the world! only

Yes, this starry and violent temperament is very literary. It is not like the temperament of this species, but it is also normal. People are now kings. They always have a higher pursuit. How can it be like a general starburst? What is it? Roaring like a thunder?

It is no wonder that the three-jawed dragonfly and other people are so mixed here, and they have encountered a fierce beastmaster under the rule of the Lord for a long time...

Thinking like this, Yu Linglong and Long Hao and Gongjun three screamed at the atmosphere, and already mentioned the heart of the blind man, and immediately fell half. even

Three-jawed dragons and other people can mix in the wind here, but they are in the middle of the seal, and even approaching the later stage of the situation, naturally no problem!

"Predecessors are too polite, I am indeed from the three major star planes of the world..."

Among the various ethnic groups in the world, the human race is the most powerful, and I am the Federation of the two countries from the two camps of the Terran and the nearly three major planes! "

"If there is an opportunity, the predecessors can go to the third universe in the three major planes, and the two camps of the Terran are welcome. In the two camps, there are also kings and even emperors,

who will communicate with their predecessors. , confirming each other's avenues... presumably also a happy thing!"

Under the sudden slamming of the head, the three people of Yu Lingling, even if they bowed to Ye Xuan, happily sighed a few words, and even revealed their background in detail, and the level of power behind the camp.

Finally, Yu Linglong from the Federation of Wanlu smiled at the head of the jaw and said to Ye Xuan: "However, I have to wait for this to have something to do with it. It is really inconvenient to disturb this. The seniors also please come back, I will wait... Enter the black hole and set foot on the return journey!"

"I wonder if the predecessors can let the cows... the two kings will ban the ban of this void?"

One sentence is the heart of the three of them.

Although the starry sky in front of us looks like a harmless person, it can be a strong man. After all, there are still young cows who don't look very safe and reliable.

This is the immortality of the two kings. Even if they are polite, they will be like a thin ice. What they want most now is to leave immediately...

"I originally wanted to talk to you, but since there are important things, naturally it is inconvenient to retain too much. You are good... Niu Er, the ban is withdrawn!"

During the speech, Ye Xuan turned to look at the green cows on the side. As the words in his mouth uttered, the blue cow was stupid, and the three people in the empty sky were jealous, and they were still awkward. Mind, this is a complete fall.

At this time, Ye Xuan's line of sight inadvertently swept through the void in the distance, and his face stunned, and immediately he said with amazement: "Hey? There... How come a life star is missing?"

Deng!

Listening to his words, he mentioned the life star that had just been smashed into slag. The face of Yu Ling and Long Hao and Gong Jun changed, and the whole heart sank to the valley. Hall

Tang Feng Wang second-order, how can you not know about everything that happens? Look

He was polite and courteous, and thought that this was a violent martial art genre. He didn't expect to have a long time, and he met a smiling tiger! One

With this in mind, the heart of the three people just put down, and once again mentioned the eyes of the blind.

After looking at each other, Long Hao tried to test it with enthusiasm and apologized: "Predecessors, that star... Hey, I am sorry, the warship has just gone too far, and accidentally gave it to us!" ""

Don't be angry, I have something wrong with this matter, but the big mistake has already been cast, we can... "

"Fire! Millions of warships... Are you going to fire together?"

Xuan nodded, his face was still calm, and there was no meaning of anger on the spot. He even shook his head and sighed: "It seems that the quality of your battleship is worrying, but it is only a life star. If it is gone, it will be gone..." "

But this is also a public resource after all, it belongs to the forbidden land, the public thing, the king is not too generous..."

"If you don't like this, you won't have to pay for it. If you say that the stars are priceless, you really have to pay, you can't afford it."

"So, it would be better for the entire fleet to stay, temporarily incorporated into the king's captive army, and later with the king to fight, to slash the void, even the best to win thousands of 800 life stars, the horses and tigers will be evened out. ..., what do you mean?"

"Hey!"

Xuan's words were just finished, and Yu Ling's three men had already changed suddenly, and they almost fell into the ground in the void. even

This will bring down thousands of 800 life stars, will it be a slap in the face? I

by! This

The lord is too dark, and it is shameless than the star of the Tianhe Star, Ye Xuan. It is extortionate to this extent. The most notorious star thief gang in the world's three major star planes is far worse!

Doesn't it destroy a life star? Actually, the entire joint fleet of more than 30 million people will be left behind, and the three of them will be immortal, and they will be incorporated into the captive army... This is clearly the rhythm of being a good slave and selling as a slave! Ok

? Captive legion? want

There was no tears in tears, and the three of them suddenly moved, chewing the name of the legion, and the line of sight had subconsciously looked at the three-jawed dragon and other people...

For a long time, these guys...it was also captured!
