Chapter 429: Hundred poison door master

"Not bad, I have reached the level of the disciples inside the door, but if you want to win, you are not enough. In the next month, you will follow me!" said the Princess of the Poison.

"Yes!"

Ye Xuan nodded.

If the disciple of Baidumen is here, he will certainly be envious of death. There are countless poisons of Baidumen, but they can't touch much. They can be guided by the first day of the poison, but this is not how much money can't be bought.

However, at this time, Ye Xuan suddenly said: "There are few masters, big elders, in fact, I still have hidden. I am not poisoned by this physique, but some remote poisons are still not immune, but as long as I have taken it, Then when you take it for the second time, it won't have any effect, so I need a lot of poisonous grass."

"Oh?"

The psychiatrist and the elders looked at each other and the physique was so amazing.

"If this is the case, then give up the detoxification test, I will poison, you will kill, three wins in three games, so I will win the door. The elders, immediately go to put all the poisonous grass, poisonous flowers Come." Princess Baidu told him.

Although it is only a door to the door, but there are many poisonous flowers and poisonous grasses, and there are some of the poisonous princesses, but it is almost the same.

After all, when the poisoning test was conducted, Baidumen and Wudu Zongzong were five kinds of poisonous grasses. If the five poisonous grasses that were taken by the five poisons were eaten, they won half.

The other half is to let Ye Xuan learn to make poison and let the other party die in three minutes.

Then, the Princess of the Poison was leaving the attic with Ye Xuan and the Grand Elder.

The elders and disciples who waited outside the attic were ashamed, and they immediately exclaimed after seeing the Princess of the Poison.

"It came out, and the few masters were really fine."

"My God, the blood of the kid really can detoxify, this is the nemesis of my poisonous door."

"What is the use of the nemesis? He has only two hundred and fifty dragons. I can pinch him with one hand."

"Hey, now that kid is a savior of the poisonous princess, do you want to die?"

The disciples were all stunned and stunned. Even the poisonous princess who was devoid of helplessness was solved by a layman of the power of two hundred and fifty dragons. This is a miracle.

Not only that, but even the elders.

"That kid, did you really do it?"

Both Wu and Shi Gongzi thought so in their hearts. Their inner feelings were very tangled. First, they did not want to let the poisonous princess die. Second, they wanted to see Ye Xuan die, so it was very contradictory.

At this time, the Princess of the poison suddenly shouted: "From today, Ye Xuan is the inner disciple of the door of my drug, the status is equal to the true disciple of the division. In addition, today, I hope that you are best closed. If you find someone who is talking about or rumored, you will be treated as a betrayal."

"Hey."

When this words fell into everyone's ears, their bodies were trembled.

The inner disciple of Zongmen?

Betraying the venomous door?

It seems that Ye Xuan saved the poisonous princess.

"If you don't have a small door, you have heard it. You have closed my mouth. Don't go out during this time, especially Ye Xuan's things. Who dares to talk about it and kill innocent!" The elders added.

Although it is a bit of a fuss, it is a big deal. If you are known by the people of the five poisons, it will be troublesome.

Although the Princess of the Poison did not say it, he could hear it. This time, it is very important to compare it. The planting area is not precious for them.

Next, the Princess of the Poison was also left with Ye Xuan and the Black Skull King, and went to a hidden place special training in Baidu Valley.

The elders also brought a lot of poisonous grasses, including those newly planted.

Ye Xuan began to try one by one to improve his anti-toxicity. At the same time, he also used the excuse of physique to devour the scorpion ring and other poisonous grasses.

The power of three hundred dragons!

The poisonous grass that the elders and the poisonous princess took out from the Qiankun to the outside of the ring made him directly promoted to the power of three hundred dragons and reached the third order of the royal gas.

The Princess of the Poison is also very surprised, thinking that if the training is good, Ye Xuan may become a secret weapon of Baidumen.

This month, she instilled a lot of knowledge into Ye Xuan, and also passed a lot of poison Dan Fang to Ye Xuan.

At the same time, Ye Xuan also knows her name, Feng Yaqing.

Ye Xuan couldn't understand, such a nice name, such a beautiful girl, screaming and screaming everywhere.

Hair, shoulders, and even the lips are poisonous. If you accidentally touch it, I am afraid I don't know how to die.

This makes Ye Xuan very surprised. He estimates that there must be quite a lot of Feng Yaqing, and maybe even there.

He is very skeptical, is Feng Yaqing really an 18-year-old girl? Isn't it a century old poisonous woman?

Feng Yaqing's poison has become a habit. If she marries in the future, will she accidentally poison her husband?

After a month of special training, Ye Xuan's anti-toxicity is much higher, completely immune to the poisonous Dan.

In another three days, it was the comparison between Baidumen and Wudu Zongzong. Therefore, Feng Yaqing directly took Ye Xuan and some elders who were separated from each other to join the general gate.

After three days.

The team of the division and the general gate finally met.

"father!"

After seeing the team at the main gate, Feng Yaqing also directly went up.

Feng Shan, the owner of Baidumen, is a seemingly easy-going middle-aged man. After seeing Feng Yaqing, he smiled and said: "How, this time, there is gain?"

"Hey, that Yangming and Wudu Zongzong are not good things. I invited me to poison the sacred beast of the fifth-order sacred gas, but set an ambush in secret. My daughter almost died in the hands of Yangming." Feng Yaqing said quickly.

When the owner of the door was heard, his face suddenly changed. "What is this? Yang Ming is your fiancé, why should you kill you?"

"Maybe it is for this planting area. I killed a **** road that day and went back to the door. I couldn't help the Yangming poison. Fortunately, he saved me."

After Feng Yaqing finished, he turned his head and looked at Ye Xuan next to the black king.

Feng Shan turned to look at Ye Xuan, whispered: "Tell me all the way!"

This matter is of great importance.

The Baidumen and Wudu Zongzong had a good relationship. Feng Yaqing, the owner of the Baidu Gate, and Yang Ming, the Shaozong of the Five Poisons, were even more dear, and it was because of this that Feng Yaqing went to the meeting alone.

But who knows, Yang Ming actually set an ambush in secret, want to kill Feng Yaqing.

For the reason, I am afraid that only the five poisons will know.

After listening to Feng Yaqing's entire story, the high-level of Baidumen is all face to face.
