

## Super D. S 4291

### Chapter 4291: Five kings

More than three hundred days and nights passed by...

Last time, Ye Xuan promoted the perfect Danfang of the 23rd grade Dan, which took more than ten months, and this time, although the perfect Dan Fang of the 24th grade Dan is more difficult to push, but because of Ye Xuan himself The cultivation of strength has already broken through to the kingdom of the king, and the knowledge of the gods is much stronger than that of the last time.

Therefore, the perfect Dan Fang of the twenty-fourth grade Dan, he also used only more than eleven months, and it was successfully completed.

When you open your eyes, there are only two days left until the original one-year period!

"Fortunately, not to be insulted, the perfect Dan Fang of the 24th grade Dan, finally pushed out as scheduled..."

In the middle of the flash, Jin Xuan subconsciously grasped the double fist: "Twenty-four grades of Dan, can make the emperor's nine-order grand perfect immortal monster, successfully break through to the emperor's realm..."

"That is to say, as long as the raw materials are sufficient, after refining the twenty-four-level Dan, my cultivation is the strength, and it will be destined to break through to the emperor in the future!"

"Unfortunately, let alone the twenty-four-level Dan, it is the twenty-three-level Baodan that broke through to the royal family. The raw materials for refining a furnace have not yet been assembled!"

Speaking of this, Ye Xuan looks a glimpse, but the light in his eyes is firm and firm: "So it seems that this journey has been swearing, except for hunting and killing the king, and refining the twenty. The third-level Dan's blood-stained king, as well as the cultivation resources for finding the blood of the four major war dynamism groups, even the immortal, are also within the scope of hunting..."

This is not entirely impossible. Nowadays, the cultivation of Ye Xuan's deity in the ordinary state has already broken through to the second order of the king. Once the magical power of the konjac is changed, and the sixth change is made, he will soon have the perfection of the ninth step. The horror of cultivation.

If it is on the way to this trip, there will be two or three breakthroughs. By then, Ye Xuan's peak strength will break through the royal world and reach the second and third steps of the Emperor...

In this way, if you encounter a first- and second-order realm, you will kill it, and you will be completely absent!

"The last two days of the year, the guys, you should also go out soon..."

During the talk, Ye Xuan looked up at the atmosphere above his head, and his shoulders were swaying away. The universe in the void outside the atmosphere suddenly came with a thunderous roar of earth-shattering...

"boom!"

"Booming..."

.....

These thunderous roars not only came suddenly, but also their potential was amazing, and there was a thunderous robbery, so that Ye Xuan was in a shock, subconsciously turned around and whispered: "Listening to this movement seems to be more than A wave of thunder, is it..."

His voice has not disappeared, his body shape has disappeared, and he came to the void of the universe outside the atmosphere, sweeping away, and there are six life stars above and around, and there is a sudden surge.

Almost at the same instant, the universe of voids outside the life stars in the line of sight, there is a large number of black robber clouds in a moment, a large number, the entire star is shrouded.

This scene looks extremely magical, just like the original atmosphere, and covered with a second layer of black atmosphere, it is dazzling, especially the whole six stars are all the same, for a while, it gives people a very The real feeling is like being in a dream...

"Five waves of royal robbing, a wave of looting..."

The gods swept through the black robbery clouds that covered these stars. Ye Xuan knew everything in an instant, and the fine mans flashed through it. The first time he passed the voice of the gods and rang through the vast expanse of the blood. Star Field: "All the people who have been robbed, all leave their stars and go to the void of the universe on the edge of the forbidden land."

"A peace of mind is that all the self-owned kings are the masters. If there is no accident, they must be shot..."

The voices fell, and from these six stars of life, there was a shadow of the figure in a moment, and the speed reached the extreme, all rushing to the void around the phoenix star field, and originally covered the six life stars. The thick robbery of the cloud, as well as the shadow, locked the six figures, and went away...

Although the six figures are fast, but Ye Xuan still sees a real cut.

The guy who was robbed in the dynasty was like a fox. In just one year, he wished to break through to the ninth-order great consummation of the immortal world. Now, after swallowing a banned Baodan, the robbery cloud descends. If you pass, you will jump and become immortal!

As for the other five figures, the crossings are all robbed!

Ye Xuan's hands broke into the king's land. The King of Baoding was not too much. The last time he was a big alchemy, this level of Wang Baodan was only made up of fourteen. One year ago, he gave a three-jawed dragon. Only 13 are left!

The thirteen pieces of Wang Baodan, Ye Xuan, before deciding to retreat the perfect Danfang of the 24th grade Dan, all were handed over to the Qingniu for temporary custody, and the thirty-four seals of

his majesty were immortal, if there were people Within a year, if you break through to the eternal 9th-order consummation, you will immediately give one.

It seems that the thirteen kings who have been handed over to the Qingniu should have only eight of them, and five of them will give us the presence of the king.

Among the five lucky guys, there are three people, namely, Yu Linglong, Long Yao, and Gongjun. As for the other two, they are the commander-level beasts of the young people who have earned their income from the previous World War. In the sixth stage of the situation, in a short period of time, three consecutive breakthroughs, one step into the seal of the ninth-order grand reunion, a few days ago, at the same time from the hands of the green cattle, received a seal Wang Baodan!

These five people, once they have successfully passed the thunderstorm that is about to come, the phoenix will ban the land and the five kings will be immortal.

Even if Ye Xuan and Qing Niu are far away, there are five fierce beasts who have entered the kingdom of the king. They are temporarily sitting in the ban on the blood, and they will be able to protect this area...

Because the movement of the thunderstorm is too big, the whole piece of the phoenix star field is extremely wide, but there are still more than 800 figures in the life stars, but there are still numerous figures rushing out of the atmosphere of their respective stars, coming to the outer universe. In the void, I looked up in shock and looked up.

More and more people are gathering, except for some of the moments that are still in retreat. As long as they can get away, almost all of them have come to the universe and look at this scene...

Yes, this is indeed a rare event. The six-wave thunder robbery arrives at the same time. After a wave of robbery, five waves of royal robbing, such a scene, even if it is not seen by Qingniu and Ye Xuan, let alone mention the phoenix. Other strong people in the blood star field.

"boom!"

"Card!"

"Card..."

In the eyes of the public, the earth-shattering roar sounded and continued, accompanied by a crisp and lightning-fast sound.

In the distance around the phoenix star field, the six pieces of the robbery land covered with thick black clouds, the six-wave thunder robbery almost at the same time, a road of violent robbery from the black robbery cloud, smashed The robbers under the cloud are strong.

All this, I do not know how many onlookers hold their breath and put the whole heart into the eyes of the blind. After all, this is a thunder, not all people are as abnormal as Ye Xuan, can be regarded as nothing...

Chapter 4292: Departure

No matter whether it is a robbery or a robbery, there is only one wave of robbery. The only difference is the thickness of the only wave of robbery and the strength of power.

The thunderstorm of the Phoenix Blood Star field is indeed rare. The five kings and one of the seals are simultaneously robbed. Even in this vast and innocent piece of the ruins of the ancient world, I am afraid that there have been no endless years. It happened a few times.

Although the power of the six-wave robbery was horrible, but after only one round, the robbery cloud was already scattered in the thunderous thunder of the earth-shattering...

When the six waves of robbery slammed down, Ye Xuan's whole heart did mention the blind eye.

The five kings and one seal of the robbery are very important to him. They are indispensable powers. No matter who is in the robbery, Ye Xuan is unlikely to be happy. Even it will definitely be extremely depressed.

Fortunately, these six guys are still fighting for enthusiasm. Although they have been killed for a while, but they have all survived, and no one has fallen in the robbery...

As for the injury on the body, even if it is heavy, it is nothing to be said for Ye Xuan. In the middle of a wave, six sacred shots are shot from his hands and rushed toward six different directions around the phoenix star field. In the hands of the six guys who entered the robbery, they were swallowed directly after being caught by them!

Six drops of evil source fluid can not only restore the serious injuries suffered by them during the robbery, but also consolidate the realm of the realm, so that the repairs that have just broken through are completely stable and stable...

"Hey!"

"Roar....."

.....

With a drop of evil source liquid falling into the abdomen, the six robbing guys instantly recovered from the wounds, and the breath was completely stabilized. Under the heart, they were screaming and shouting, and the excitement was hard to feel. All the people in the \*\*\*\* land.

More than 800 life stars outside the atmosphere, countless powerful parties who had been watching from far away, quickly dispersed, they were all stimulated, and they turned into their own stars in the first time. Enter the Dongfu and start a retreat!

It can be said that this time the six seals and the king of the same time to rob, for the entire phoenix forbidden countless strong morale morale, is a great incentive, a fiery cultivation boom, and this is vigorously launched!

At this time, when the figure of the outer universe was gradually less, the six guys who had just completed the robbery were also stunned and came to Ye Xuan.

There is only one strong one who is waiting for immortality. It is like a fox!

There are five people who are immortal and strong in the first place. They are Yu Linglong, Long Yao, Gong Jun and two beasts. One is the black wind tiger and the other is the roaring moon!

At this point, Ye Xuan's top-level combat power of the Starry Nomadic Legion, which is the immortal king of the king, has reached seven!

As for the seal, there were originally thirty-four. This time, like the fox, it broke through, that is, thirty-five, but five of them have successfully broken through to the kingdom of the king. Therefore, the number has declined, only three. Ten.

The ordinary immortality under the seal is just as before, a total of more than 400!

In terms of conventional strength, it is divided into three major corps!

The Beasts of the Beasts: The total number of tens of millions of giants, the entire army of beasts, a total of eight sealed immortal beasts, more than 130 ordinary immortal beasts!

Legacy Legion: The total number of survivors is tens of millions, all kinds of warships are more than one million, and the six immortals are sealed, and the ordinary ones are immortal.

Captive Regiment: There are countless strong stars and ships, nearly 150 million warships, and 16 immortal seals. More than one hundred and sixty are ordinary immortals!

And this is still the result of flying people, silver cockroaches, and corpses. If you count the hidden power of this part, the power of the entire Starry Nomadic Legion will be even stronger!

With such a lineup, the comprehensive combat power of the entire Starry Nomadic Legion, even if it is not mentioned in the super metamorphosis of Ye Xuan, is already comparable to the previous banned blood.

But the most gratifying thing for Ye Xuan is that this time it took only one year, and there were actually five seals that broke through to the realm of Feng Wang. In this way, even if he and Qingniu immediately left the phoenix forbidden, they traveled far away. Go, you can be completely relieved.

The five kings who have just broken through are immortal, enough to protect the blood from imprisonment!

Of course, the best strategy is to brand the second interstellar coordinate jump point in the banned area of blood, so that Ye Xuan can return at any time and arrive between the thoughts.

But this kind of thought just came out, and he was immediately denied.

With his current system title level, in the same universe plane, only two interstellar coordinate jump points can be branded. Previously, one has been branded in the Sangzhi star field, and only one place is left.

Although the phoenix star field is huge, there are more than 800 life stars, but for Ye Xuan, it is still only a temporary place to stay. The only coordinate jump point indicator that should not be wasted here. Fall!

"See the king..."

At this moment, Ye Xuan stood in the void and stood proudly independent. The violent figure of ten feet high revealed an invisible pressure, and behind him stood the green cow. From time to time, he squatted behind the oxtail and squirted his nose.

Six miles of mans came from a distance around the phoenix star field, and in front of him stood in a row, holding a fist and bending down the waist.

At this moment, whether it is the Yu Lingling and Long Yao, the Gongjun three who have just earned their income, or the black-eyed tiger and the roaring moon, they are the forbidden beasts of the Qingniu's income from the beast army. For Ye Xuan, they are all convinced. It is.

They almost did not stand up, but they got a great fortune. Just a year ago, they only closed the middle of immortality, but now, the blink of an eye has become a seal!

All of this, dreams are like real dreams, but they are so real, sighing, natural and convincing!

However, in the heart of the conscience, the five kings who have just broken through are immortal, and there is a sense of embarrassment in their hearts, especially the three people in Yuling... But this has nothing to do with Ye Xuan, but the chaos that Qingniu had previously stirred up.

Obviously, all these five guys are worried, Ye Xuan will not immediately shoot, if the blue cow said as usual, harvest the fruit, kill them on the spot, take the power of the flesh and blood, refining into a piece Sealed king blood!

"Well, don't think that those are useless. If you are really ready to take out, you will never have the chance to come close to the king. It has turned into a \*\*\*\* fog as far away as you can!"

Silently turned a blind eye, Ye Xuan turned and rushed to the deeper universe in front of the banned blood: "The old cow and the elephant fox smashed the king away, and immediately traveled as far as the phoenix banned the land. Give you five people to guard!"

"When I hope that the king will come back, all five of you are still here. Otherwise, if there is a violation of the yang and yin... This king can assure you that no matter where you flee, the king will surely take you out and punish yourself! "

"Hey!"

"Hey..."

The words are still not falling, the green cow and the elephant fox have already screamed each other, screaming and rushing...

Chapter 4293: Just breaking the king

There are only two places in the middle-level starry sky where the green cattle know the exact location. One is the forbidden phoenix forbidden, and the other is the forbidden land that is tens of billions away from the banned blood.

In the impression of the green cow, the overall strength of the banned land is equivalent to the ban on the blood of the phoenix. There are also two kings immortal, but the two kings are immortal but not birds, but two brave copper ratios. Mongolian, the body is extremely powerful.

However, these intelligence messages have been more than a thousand years ago. As for the details of the two intermediate star bans in the past 1,000 years, there is no big change in the details of the forbidden land.

This time, Ye Xuan and Qing Niu took the elephant fox to leave the phoenix star field, and the destination to be visited is that this place is forbidden! when

However, because the current situation of this powerful medium-sized starry ban is not understood, and the numerous stars of the Starry Nomadic Legion under Ye Xuan will take some time to improve. Place

Therefore, this time, Ye Xuan and Qingniu did not intend to openly ban the game, but like the first time to go to the Phoenix Blood Star field, to secretly explore, waiting for the machine to kill mainly!

Although the current situation of Bimeng's forbidden land is still unclear, if you refer to the great changes and strengths of the banned land in the past tens of years, you can basically analyze a rough estimate!

If there is no accident, nowadays, there are at least four to five kings who are immortal!

At this point, Ye Xuan does not care. His present deity is already the second-order king in the ordinary state, and enters the real state of the konjac, and changes to a starry sky with a ten-foot high, then it is the third-order king.

If the konjac change is reactivated and the sixth change is made, his peak power will reach the eternal perfection of the eternal ninth order of the king. It can be said that the emperor is already invincible!

Bimeng is stronger than the forbidden place. As long as the two bronzes of the same year were not in the big realm, they rose to the realm of the emperor. For Ye Xuan, there is no fear at all, and there is no threat at all...

...

"Hey..."茫

In the boundless universe of the void, a masculine rushing past, the speed is reaching the extreme, and the blink of an eye disappears at the end of the distance.

This is a man, it is the Ye Xuan and the Qingniu, Xianghuyu who left the banned blood. Milli

The mang is a blue color, but it is a green cow with a height of ten feet. He is now a savage beastmaster. He is fully sprinted with all his strength. The speed is almost at the extreme, plus occasional teleportation. Tens of millions of miles away from the starry sky, being left behind...

Because of this, this time, Ye Xuan did not make a contribution, but narrowed his body shape, kept Zhang Xugai, sitting on the back of the green cow and sitting cross-legged.

On Ye Xuan's shoulder, a purple long nose with a palm-sized scorpion is there. It's like a fox, this guy only waits for the first step. If he is on his own, the speed is definitely slow to call Ye Xuan and The green cow can't stand it.

Therefore, this time it was also the light of Ye Xuan, and it was regarded as a pet on the shoulder of Ye Xuan. Together, I enjoyed the limit speed of Qingniu's full strength.

Going far away from the forbidden road, the long-distance tens of billions of miles away, even at the extreme speed of the blue cow, it takes half a month to arrive. This

Or because the green cow knows the specific position of the forbidden land, otherwise, if it is in the virtual sky, the time is long and it is easy to shift the direction unconsciously. The angle of offset in one day and two days is limited. Ten days and eight days, I am afraid I will be wrong!

This is also why there are so many forbidden and forbidden stars in the emptiness of this ruined sky, but the neighbors in the nearer stars know each other's existence, and the distance is far away, it is difficult to have an intersection. Where it is!

Going to the direction of the Bimen Star, Ye Xuan did not get involved before, and Qingniu, although it was known more than a thousand years ago, the existence of the Forbidden Land, even its specific location is clear, but It was only because he was in the same level of the \*\*\*\* forbidden land as the head of the immortal beast. From

I don't know how to listen to it. As for the starry route to the Montenegrin field, he has never been involved. positive

Because of this, the blue cattle are not known for other small star-shaped forbidden areas in the star field along the way. One

After leaving the phoenix forbidden, the three people passed away for nine days at full speed. The distance in front of the banned land was only six or seven days away! also

At this time, a small star-shaped forbidden place appeared in the vision of Ye Xuan's three people. Not to mention that Ye Xuan and Xiang Hu were stunned, even the green cows were quite surprised!

This place is still far away from the Forbidden City, and it takes six or seven days for the King to immortalize and fight. Place

Therefore, even if this small starry sky is banned, it is absolutely impossible to have a surprise. Do not

However, for Ye Xuan and Qingniu, this small starry ban has not raised much interest. If

It was followed by the entire Starry Nomadic Legion. Even if they only brought out a small force, they might all be interested in the fact that the regular Legion of the Majesty was dispatched to launch a conquest.

But now it's just Ye Xuan, Qingniu, and Xianghuyu. There is absolutely no need to waste too much energy and time. This small starry sky will be completely annihilated!

However, the beasts of the beasts are not allowed to let go.

The rulers of the small starry sky are generally sealed and immortal, and basically there will not be only one. This is, after all, the \*\*\*\* essence, which can be used to refine the twenty-two seals of Wang Baodan. Although Ye Xuan has not used it himself. However, the seal of Wang Baodan in his hands is now only eight, so when the seal is immortal, the shot is still hand! "

Ok? Actually... the breath of the king? "

As the gods extended, the eye-turning Ye Xuan, sitting on the back of the green cow, picked it up and muttered to himself, and the light in his eyes lit up instantly.

In the small forbidden land in front of this forbidden land, he captured a breath of immortality!

Slightly somewhat unsteady feelings, it is clear that it was just a breakthrough not long ago, but it is still in a stable state... very

Obviously, this newly-expanded king-level fierce beast was only a long-term perfection of the immortal ninth-order great consummation. Perhaps it was a certain chance, so it successfully broke through the realm and became a fierce one. Beastmaster. This

One point, with the faint thunder of the small starry sky in front of the forbidden land, it can also prove! except

This newly broken king is immortal. In this small starry ban, there are two beasts who are waiting for the mid-term. The three goals are all the most annoying Zerg! Both

Of course, there is nothing to say, and when this kind of disgusting bug is encountered, Ye Xuan will basically not keep it, and the hunted must be hunted!

"The old cow, all three goals, all handed over to you..."

Micro-nod, Ye Xuan slammed the young cow on the body, and said: "Three worms, two sealed mid-term, one just broke through to the first level of the king, give you an hour!"

## Chapter 4294: Mysterious medullary crystal

"Hey!"

Ye Xuan grew up and walked away from the green cow's back with a fox squatting on his shoulder. The latter screamed and the whole figure disappeared instantly. When it appeared again, it was already in front of thousands of miles. Outside this small starry sky is within the forbidden territory. just

As soon as it appeared, the figure has already skyrocketed to the giant of 100,000 feet, murderous, domineering side exposed!

Of the three goals, the two were not seen in the middle of the middle of the seal, even if they let the other side escape for a while, they would not fly. and

The other one is the first step, although it has just broken through, even the realm has not been completely stable, but people are still the king after all, not to mention the ability of Qingniu's own cultivation, but it is only a breakthrough more than a year ago. The first step of the king is stronger than this worm, but if the other side is desperate to escape, the green cow can't really guarantee to kill within an hour!

But this old guy is dead to face, since Ye Xuan said it will give an hour, if it is not done, I am afraid that the old face of the cow has to be red for several days.

For this reason, Qingniu rushed to the past in the first time before the other party had noticed it. When it appeared, it immediately locked the figure of the king of the zerg, and left the hoof. Void, do not hesitate to go all out...

"Hey!"

"Booming..."

This hoof stepped and poured all the power in the blue cow. It was the full blow of the strong king. An invisible terrorist wave swept away, and the void was shocked and thundered.

The Zerg king who had already been locked in breath suddenly exclaimed, and the whistling in the mouth just came out, and suddenly he stopped... he

Although it has already entered the king's realm, it has only just broken through, and the cultivation is not stable. It was not the opponent of Qingniu. At this time, it was even a sneak attack by the green bull. It was suddenly a full blow, not even under the defense, even even It's too late to avoid it! "

boom! "shock

The blast of the sky came, the body of the zerg king, the entire body of the flesh exploded in a moment, turned into a \*\*\*\* green fog, and it was already far away, and it was already blown out by the green cow. The invisible strength of the cockroach, wrapped in it, compressed into a mass swallowed into the abdomen.

"Hey!"

Oh..." and

At the same time, there were countless rumors around the void. The countless beasts and zergs in this small starry forbidden land all screamed and fled. its

The most noticeable thing is that the two seals are immortal. In the face of a young cow who has already stabilized the kingdom of the king, they have not even resisted at all. The blood and body have been reduced to about a hundred feet. Two extremely fast flow vectors, divided from the left and the right, fleeing far away from the void outside the forbidden place...

It is a pity that although the seal is strong, the speed is not slow, but in the face of the strong king, it is only a joke. "

Hey! "green

The cow screamed at the neck, and the body shape swayed and swayed. The blink of an eye went to the left side of the void. The hoof stalked to the worms in this direction, and swallowed the blood of the body. After the belly, once again, the next moment has reached the far side of the void on the right side..."

Hey! "

The sound of desperate whistling sound came, and the last sect of the small star banned land was smashed! leaf

Xuan's time for Qingniu was an hour, but the old guy's cheeky and shameless sneak attack made it easy to count the first-order powerhouse of the same kingdom. So, at the end of the war, don't say an hour, Even the half-column incense is not going to work.

For Qingniu, this is definitely an amazing result and worth showing off. old

After the guy ended the battle, he smugly licked the oxtail behind the stock, and jumped to Ye Xuan in front of him, and opened his mouth to spit out the three awnings compressed by the Zerg.

Ye Xuan glanced at him with a scornful look. He waved the three canopy blood directly into the body and sent it to Shennong Ding, even when he began to refine his blood.

In just a dozen breaths, the three beasts of the beast were condensed and finished with a small bottle, which was properly stored in a closed cave at the bottom of the volcano in the central area. on

After a crazy refining of all levels of Baodan, the blood of the beast in Ye Xuan's hands has already been empty, leaving only four kings of blood, and now, with this harvest, the blood of his king has reached Five, enough to refine the twenty-three grades of Dan. this

In addition, used to refine the 20th and second-class Dan's blood-staining, there are also two reserves!

However, although the five kings of blood have been able to carry out the refining of the 23rd grade Dan, but Ye Xuan did not intend to start now, because the five can be opened, but the refined twenty-three Dan But most of them only have one.

And if the collection of ten kings of blood and refining, then the final twenty-three grades of Dan, there are more than sixty-seven percent chance, can have three. How

What counts, now the refining system is too uneconomical, anyway, no hurry to use, he decided to make up 10, and even more of the king's blood, and then refining! Two

Respecting the seal, a king, this high-end combat power in the small forbidden land has been exhausted, although there are a large number of Zerg and beasts, even more than a dozen immortal, but Ye Xuan has no interest in this. As soon as the figure fell on the back of the green cow, he ordered to let him go and continue on the road. also

At this time, the figure was reduced to only a small size, just like a pet like a fox on the shoulder of Ye Xuan, but suddenly suddenly sounded...

"Head, the old man, I smelled a unique crystal atmosphere from an abandoned star in the sky in front of the right side. I have never encountered it before. I don't know if it has value..."

As he said, the elephant fox has raised a small right claw, pointing to the far side of the right side of the sky: "Hey, right there, the storage of this unknown crystal seems to be not small, by feeling, old man I think they may have an effect on the soldiers in the four kinetic groups!"

Ok? "

Hearing this discourse, Ye Xuan's body shape suddenly stagnate, and the sound of horror came from his mouth, and he turned to look at the direction of the elephant's finger.

In fact, at this time, he did not believe much in the words in the elephant fox mouth. He did not believe that there was some unknown mysterious crystal in an abandoned star in that direction, but did not believe this. Crystals can be effective against the Void squad...

This is also too clever. Just after leaving the Phoenix Blood Star field, I found a cultivation resource suitable for the evolution of the blood of the four kinetic energy groups. It is incredible. positive

When his heart flashed through this thought, Ye Xuan's mind also sounded a familiar system prompt: "Hey, congratulations to the host, found the mysterious marrow crystal! Is it collected immediately?"

Chalcedony crystal?

Ye Xuanyi, subconsciously looked at the information database that has just been updated because of this resource, and directly sent out relevant information about the mysterious medullary crystal, and calmly reviewed it. under

For a moment, his eyes illuminate in an instant, no hesitation, and his body swayed, rushing to the abandoned star that had been locked in front of the system...

Chapter 4295: Life jump of the soldier's scoop

"call out!""

call out! "micro

The weak sound of the break, the eyes of Ye Xuan and Qing Niu, the time of the front and rear feet arrived at an abandoned star, and the foot of the universe was only about a thousand miles away from the star. "

Head, is your nose better than dog spirit? "body

The shape of the scorpion was only a stagnation, and the elephant fox on the shoulder of Ye Xuan squirmed strangely.

There are too many abandoned stars in this area, and there are thousands of them in the distance, and he is just pointing at this distance in the distance, just pointing at a general direction, not pointing out that this is the abandoned star in front of him. . but

Ye Xuan does not need to ask questions at all, and the figure is directly here. It is clear that the abandoned star with the mysterious crystal deposit has already been identified. This

This kind of skill can be compared with the elephant fox that claims to have one-third of the treasure-hunting mouse blood. It is no wonder that he will have such a flaw at the moment. leaf

Xuan naturally can't say things about the body's engulfing system. It can only be turned over without a word. Then, with a wave of hand, there will be an invisible force in the moment, and it will be abandoned to the front of the road. The birth is shrouded..."

boom! "

"Booming..."...

...hold

The continuation of the roaring sound came instantly, and the entire abandoned star was directly blasted by this majestic force, followed by the purple-green awning, and a large number of purple-green crystals were spattered from the star's star core. Out, flying in the void.

"Oh... there are so many?"

Seeing this scene, even Ye Xuan was very surprised. He took a sigh of coolness and then hesitated. He waved all the splendid medullary crystals scattered all over the wave, wrapped in an invisible force. Trapped to the universe of the void. Are

In the engraving, Ye Xuan and Qing Niu, Xiang Hulu are all reflected in the purple color.

The crystal in front of the sky is like a small meteor. There are at least hundreds of millions of cubes, big and small, and the colors are deep and shallow. Among them, there are more than a thousand cubic meters, which is the deep purple color. The highest purity of the purple chalcedony crystal! "

call out! "With

Ye Xuan once again waved, this thousand cubes, the highest purity of the purple chalcedony crystal, was collected in the space box, and sent into the immortal world. This

This kind of resource is very rare. This thousand cubics of purple jade medullary crystal is the essence of all the mysterious medullary crystals. It can't be easily wasted, and it will definitely be useful in the future. to

In the remaining vast quantities of purity, the purple and blue colors are also different in the hundreds of millions of cubic meters of jade and jade crystals, and Ye Xuan intends to give all the bones and brains to the tens of millions of soldiers in the Void War.

It has been said before, like a fox, he has an intuition, that is, this mysterious unknown crystal, should be able to have an effect on the emptiness of the four major war kinetic groups.

This is not casually said, and this kind of directness is also evidence-based, and is related to some kind of talent ability of the blood of the treasure hunt. can

Even so, the elephant fox is only speculation, not sure, he even knows the name of this mysterious crystal.

At this point, Ye Xuan's phagocytic system is obviously more powerful. He has not touched this crystal before. The information in the system's information database is blank, but now, once contacted, the system will decipher it, not only knowing it. The name of this crystal of the mysterious medullary crystal, even its main effects, is recorded in detail in the system's information database. root

According to the introduction of the system, this mysterious medullary crystal is indeed the best energy for the evolution of the blood of the Void squad, and its formation is related to the formation of the universe, and the emptiness of the hollow medlar that was born in the void. In the same vein! can

It is said that with this harvest, such a large amount of sacred jade crystals can definitely make tens of millions of emptiness soldiers in the Void War, all undergoing a \*\*\*\* evolution like a life-like transition.

Once this evolution is completed, the power of the Void War will be greatly enhanced. For the current Ye Xuan, it is already a big killer of the chicken ribs, and will once again be on the big stage with his conquest and growth...

"咻..."

With the excitement of his heart, Ye Xuan waved his hand and directly smashed the void war in the four major battles from the immortal world, hanging over the universe in the void.

"Hey!"

"Hey..."

... virtual

In the air battle, La Caigang just sacrificed. From the inside of the war, there were countless rumors of rumors, full of joy and excitement. Even Ye Xuan was somewhat surprised because he had never seen it before. By the way they were so excited, they just had a shot of blood with the entire squad. very

Obviously, the tens of millions of soldiers in the war are so excited that they are smelling the unique atmosphere of countless thousands of cubes of jadeite in front. only

Based on this, we can conclude that these mysterious medullary crystals have a striking effect on the evolution of the blood of the soldiers. leaf

Xuan did not hesitate, and waved his hand directly. In a moment, hundreds of millions of cubic meters of sacred jade crystals hanging in the front of the sky were all sent into the hive node of the Void War.

In the next moment, all the hive nodes in the battle, there was a faint sound of squeaking, and it was as if there were countless silkworms, eating mulberry leaves, and it was still a crazy foraging. Life fear is a step slower than others, and it will eat less.

"Hey, how long have you been hungry for these soldiers? How do you feel like a hungry wolf just down the mountain? Is this too inhuman?"

The sound of crazy foraging in the battle, the green cow and the cockroach on the shoulders of Ye Xuan suddenly became strange, and the old cow did not say anything, but the fox squatted, said Ye Xuanyuan is extremely incomparable, and his eyes are straight!

If you don't see this guy who has made a great contribution to this, dare to arrange his own head, Ye Xuan is not a good one to cut him. war

Although there are tens of millions of vain squads in Laine, it seems that it has not been supplemented with energy for their blood evolution for a long time, so it is hard to catch one, and all of them are stunned.

But this time, Ye Xuan, a bone-brain, is sent to all the honeycomb nodes in the battle hall. It seems that there are quite a few crystals. The total amount is hundreds of millions of cubic meters, which are evenly distributed. Each soldier can be divided into at least ten. Cubes. This

However, the mysterious medullary crystal is very hard, otherwise it will not be effective for the Void squad.

This kind of resource, even if it is a squad, can only be eaten like a silkworm, and the ten cubes are obviously not consumed in a short time.

What's more, after the end of the meal, the entire squad group must be collectively slumbered and begin to evolve blood. Therefore, waiting to see the final effect on the spot, obviously no drama!

One thought of this, Ye Xuan did not hesitate, immediately waved his hand, directly to the virtual warfare to the immortal world, and then the green cow's back: "Go, banned, continue to start..."

Chapter 4296: Nine-day mysterious girl

"Hey!" Green

The roar of the cow screamed, and the figure was instantly smashed out. The blink of an eye was already thousands of miles away. After all, it was the strong king of the king, and the emptiness of hundreds of millions of miles was no longer a problem. "

Head, you, you... are you too anxious? "also

It was at this time that the elephant fox in the shoulders of Ye Xuan was anxious again and again: "We seem to have not yet left, just in the place... there is something better!"

"Roar....."

The green cow squirmed a nose, and the four hooves slammed into the void, and a sudden brake came.  
"

Old guy, are you deliberate? Speak up and breathe..."

Ye Xuan was speechless, and turned a blind eye, and the foot was slightly weak. When the green cow fell off his head, he rushed to the empty space that had just left. short

After a short breath, the three have returned to the original point, once again squatting in the void of the universe in front of the bursting star.

"Let's say, what good things are there? Where?"

Xuan raised his hand and directly screwed down the elephant fox from his shoulder and threw it to the front of the void, his face was quite unpleasant. "

Wait a minute, the breath is a bit weird, there is a very unique fragrance, and it is not the smell of the body, but the sense of smell of the soul level! "

The small figure of the fox foxes rolled a few laps in the void, and after standing firmly, when flying around the emptiness of the surrounding space, while flying, while still swaying his nose, the words in his mouth were even more Weird and weird. "

The sense of smell in the soul level? What is the unique fragrance? "leaf

Xuan listened to the fog, subconsciously frowned: "How did the star master not smell?"

There is still a word he did not say, that is not only him, but even the body's engulfing system, it seems that there is no reaction.

This time, Ye Xuan couldn't help but think that it might be a problem like a fox's nose, or an intuition. After all, the body's phagocytic system did not respond. This is enough to explain the problem. Ye Xuan is extremely dependent on it! "

Hey! "

"Yes, Xiaohua, I am afraid you are wrong this time!"

Qingniu also looked up and snorted with a sigh of relief. He snorted and said: "The king's nose is also very spiritual. When there were so many cows and beautiful women, they covered their eyes and swayed from the front. They never made a mistake. a quasi..."

by! "leaf

Xuan was speechless, and his eyes turned a thick mouth. It seems that this dead cow is still a little bit sorrowful about the past. I can't think of those bulls and beautiful women, they are all resentful! "

beauty! beauty! Definitely beautiful! I have smelled the old cow. This is the beauty of the beauty. It can produce effects directly on the soul level. This beautiful fragrance has long been extraordinary..."

It was also at this time that the elephant fox that flew to the left rear of the sky suddenly screamed with excitement, and the figure directly turned into a lightning-like secluded man, facing millions of miles away from him. Abandoned stars rushed to go: "In the star of this abandoned star, the head, the cow two kings, there is a beautiful woman buried inside!"

Hey! ""

Little flower, you stand! "

When I heard that there was a beautiful woman, the response of the green cow was actually faster than that of Ye Xuan. Immediately, she screamed and looked up. The sound of the burdock was just beginning, and the figure had disappeared. It was a direct teleport, which appeared in the elephant fox. The front of the void. "

boom! "Rear

Under the hoof, the elephant fox rushing in that direction was directly smashed by the green ox, and the screams continued, and the body shape was reversed. "

Hey, you are a little flower, this is the king of the cow, what are you excited about? "

One foot will fly like a fox, but the green cow will not stay in half a minute, while the mouth squats, and once again teleports, the half interest has already appeared in the sky above the abandoned star, and the person stands up. The hooves slammed down!

"Boom!"

The sound of the sound of the sound of the sound of the sound of the explosion, the more massive abandoned stars instantly blasted, a group of bright brilliance from the core of the star-breaking star, rushed to the right side of the void. that

It is clearly a group of mysterious medullary crystals. There is no purple point. It is the purest cyan crystal. It is not big, only the square is round and long.

And the beauty that Xianghu said, naturally can't be the bullhead beauty of the blue cow misunderstanding, it is clearly a human woman, wearing a blue and blue skirt, the left half of the shoulder is gone, the body also has many scars, yarn The clothes are stained with blood, but in general, the body is kept intact. can

Unfortunately, this woman who has been sealed inside a piece of mysterious jade crystal has obviously fallen, and most of them have fallen into endless years...

"Hey!"

Seeing this piece of mysterious medullary crystal, and the human woman who was sealed inside the medullary crystal, the originally excited blue cow raised her anger and anger, revealing a deep sense of despair: How? How suddenly became a person? Damn, there are no corners on the head, nostrils are smaller than copper bells... What a really ugly!"

Such a stunning woman, whether it is looks, body or the kind of temperament, can definitely compete with the ancestral marshes and the nine-tailed foxes, but now they are so ugly, so wonderfully aesthetic. The view, the chill of Ye Xuan's back is stunned. risk

Immediately under the impulse, I shot the old guy on the spot! "

Hey! ""

Oh..."

It was also at this time that Ye Xuan's ruthlessness in the immortal world was suddenly violently shaken without warning. This situation has already appeared twice before, and the nine-tailed fox and phoenix When the celestial treasures of the heavenly woman were discovered, they were all the same. One

With this in mind, Ye Xuan's heart suddenly moved, and the voice screamed: "Isn't it so clever? Could it hit another one? If so, the woman who is sealed in this mysterious jade crystal is a nine-day mysterious woman. Or... Zixia Fairy?"

call out! "mouth

The exclamation sounded, and Ye Xuan's movements did not have a slight delay. When he waved his hand, he wanted to smoke from the immortal world, hanging in front of him in the sky, rising in the wind and turning into a pink of a hundred feet. Milo, slowly stretch! "

Master, I am a mysterious girl..."

At the same instant, from the pink Baizhang Baoluo, a very soft, faintly screaming woman's voice, also quietly spread: "Several sisters are still sleeping, not waking up, but ..... The mysterious woman sensed the breath of the predecessor's treasure, so the spiritual source of the slumber was unexpectedly awakened!"

Nine-day mysterious girl? Actually you..."

The speculation of the head was finally confirmed, and Ye Xuan's heart was shocked, and the dawn was light. "

Hey! "

Before he finished speaking, the green cow on the side was excited to look up at the burdock, and yelled at the oxtail, and rushed to Ye Xuan: "Oh, you can do it, you can't think of it like the old cow. Also, this mouth, actually hide the beauty in the Jura, this trick... the old cow did not expect that year!"

Chapter 4297: The drop of Zixia treasure

"roll!"

Ye Xuan gas knot, kicked out, and the blue cow that licked his face and squatted by his side directly flew, and then after turning a blank eye, he swept to the front of the sky in the sky.

After a little indulging, he then asked: "Mysterious woman, the previous nine-tailed fox and phoenix goddess can use the weight of the previous life to shape the body of this world. Are you the same? If so, you can use this star to help you move forward. The predecessor treasure in the void is put away?"

There is no need for the master to take the shot, although the mysterious woman has only one spiritual source, but it is the treasure of the past life, and there is still mutual induction, otherwise the talent will not suddenly wake up in advance..."

In the pink Baoluo, which stretched in the wind, the voice of the nine-day mysterious woman's words was once again heard: "The master only needs to look at it. If there are no other problems, the mysterious woman will now take back the treasures of the past and rebuild this world. Real body!"

Xuan nodded, suddenly moved in the heart, subconsciously blurted out: "Yes, the previous nine-tailed fox and the phoenix goddess of the past treasures of the star have seen the Lord, a lot of defects, but even so, they are reshaping After the present life, the cultivation of strength has directly returned to immortality..."

Seeing that your predecessor treasure has scars, but only the semi-hanging shoulder arm is missing, and the whole treasure is also sealed in a whole piece of mysterious medullary crystal. Although it has experienced endless years, the energy loss in the treasure body It should be very limited! "

"So, once you have molded this life with this predecessor, I don't know what it would be like to be able to achieve strength after completion."

Regarding this matter, Ye Xuan was disappointed once again. He originally thought that the nine-tailed Tianhu's predecessor's weight was shaped into a real body, and it was repaired as a strength, even if it was not the highest peak of the past, but at least it was restored. The king and the emperor are immortal, still no problem.

The result is that he is very speechless, only ordinary immortal. and

This time, the predecessor treasure of the nine-day mysterious woman was so perfect. After remembering this matter in his heart, he suddenly gave birth to new hopes...

It is the loyalty of the emperor who can add more emperors and even the emperor. It is absolutely significant for Ye Xuan, not only for himself, but also for the rapid growth of the entire Starry Nomadic Legion. ! Place

Therefore, once this matter is possible, he will not be able to pay attention and give high hopes!

"My predecessor treasure is indeed still intact, but when that war was consumed too much, before the deity fell, the treasure was hurt, so even though it reshapes the true body of this world, once it succeeds, it will not be repaired. It's only ordinary and immortal, but it's not too strong..."

In the middle of the color, the words of the nine-day mysterious woman continued to sound: "According to my own estimation, if there is no accident, it should be sealed around the immortal, and there is still a certain distance from the king!"

Just waiting? This is also... too weak! "

Upon hearing this result, Ye Xuan was disappointed again!

To the smoke, Luo has sealed a total of seven ancient and fascinating spiritual sources, counting nine days of mysterious women, and now six spiritual sources have awakened. but

In fact, with the increasing spiritual origins of Bao Luo Nei, the surprise of Ye Xuan's heart is gradually faded each time a new spiritual source is awakened. still

I still remember that when the corpse of the corpse was awakened, after reshaping the true body of this world, it was only a half-step to repair the strength, but Ye Xuan was very surprised, as a big reliance, even like a mountain. and

Now, the nine-day mysterious woman who just woke up, once reinvented the true body of this world, its cultivation is the strength, and even will directly return to the immortal...but

For Ye Xuan, this kind of strength has become a chicken rib, and his help is almost weak enough to be neglected!

"Although this is somewhat speechless, but ... from the other side, it also shows that the Lord's own cultivation is too fast, too fast, so it is also a happy thing!"

Thinking this way, Ye Xuan's feeling of depression was dissipated a lot, whispering in a whisper, shaking his head again and laughing at himself.

"The owner himself is already in a state of demise. After the restoration of the mysterious woman, the strength of repairing is too weak, and it is understandable to help the owner. It is understandable..."

When Ye Xuan sighed, the pink dome in front of him, again, the soft voice of the nine-day mysterious woman: "However, the master assured that the seven of our sisters were all ancient and powerful in the past lives, although the present life is born again, repaired as The strength has dropped too much, but after rebuilding the real body, once it is restored, the improvement of the realm is still very fast!"

"And, if there is no accident, it will definitely be able to re-enter the peak of the past and the ancient powers, but it will be sooner or later..."

If the owner needs strong help now, the sister of Zixia, who has not yet recovered from the seven sisters, may be able to surprise the owner! ""

how do I say this? "One

Listening to this, Ye Xuan's moment was lit up, and he asked a little anxiously.

"The war in that year was very fierce, and between the source of this spiritual knowledge was collected from Baoluo, seven of our sisters, some of whom did not even meet each other..."

"So, when the deities of the seven sisters fell, they were almost never together, and even in time, there was a difference!"

Only me and my sister Zixia, before the war in that year, were originally the best sisters, and when the two of us fell in the same year, the two sisters fought together to fight against the enemy. "

"The fall of Zixia's sister is still in front of the mysterious woman, and the reason why the mysterious woman's previous treasure has been damaged is that it can be used to reshape the true body of the present, and the strength can only be restored to the future. It was because in the same year, after Zixia's sister fell, the mysterious woman used her own source to completely seal her backward treasure..."

At the time of the fall, Zixia's sister's treasure was not only preserved, but also without any scars, because she was attacked by the enemy in the battle of God, and the spirit disappeared and haunted... even within her sealed treasure, there was one The soul of the remnant exists. "

"If you can find the Zixia treasure that was used by the mysterious woman to use the source to seal it, the spiritual source of the sister Xia Luo's sister-in-law will wake up and devour the sorrowful spirit in the previous life. Then borrow the weight of the predecessor to shape the real body..."

"It's repaired to strength, at least it will be restored to the immortal world of the emperor, and it may not be too far away from the emperor's immortality!"

"What? Is there such a good thing?"

After the words of the nine-day mysterious woman, Ye Xuan almost jumped up on the spot with excitement, and her face was already full of excitement and humor. The whole person's mood and state were cold and unremarkable. Needle chicken blood. One

While swaying his hands, he couldn't wait to ask the nine-day mysterious woman in Pink Bao Luo:  
"Quickly, quickly seal your Zixia treasure, and the coordinates of the hidden stars are spoken. You seven The sisters are now one of her, and the Lord must help her find the past treasures as soon as possible..."

Chapter 4298: Bimeng forbidden

"The owner is in a hurry. In those days, the reason why the mysterious woman did not hesitate to consume the innate source of the imperial treasure that was about to fall, but also to completely seal the complete treasure of Zixia's sister, and to pass the strong enemy induction, and send it to a distant place for hiding. Today, therefore, even if the endless years have passed, the predecessor of Zixia's sister is absolutely innocent..."

I felt the anxious meaning of Ye Xuan's heart. In the pink Baoluo, which was stretched in the sky in front of the sky, the voice of the nine-day mysterious woman vaguely revealed a sense of self-satisfaction.

After explaining the two sentences a little, I only answered again: "Here, the star coordinates of the complete treasures of Zixia's sisters in the past are the stars of a giant life star. Please accept the owner..."

"call out!"

The voice was degraded, and a man had been shot from the pink scorpion, and the forehead that had not entered Ye Xuan disappeared.

In the next moment, the voice of the nine-day mysterious woman once again sounded: "This is not only the star-space coordinates of the place where Zixia's sister was buried in the past, but also the mark of the goddess of the mysterious woman!"

"The seal of the year was created by the mysterious woman using the innate source. Therefore, unless it is a sacred supreme power that is more than a mysterious woman, there is no such mark of gods, and no existence can unlock the seal. Even the destruction will not work..."

"Master, everything is finished, if nothing else, the mysterious woman will now take back the treasure of the past life, and then will fall into a period of sleep, used to reshape the true body of this world, once again wake up, it is really Complete rebirth..."

Ok, everything, you can grasp it yourself!"

Seeing hope again, Ye Xuan was in a good mood. When he nodded his head and waved his hand, there was a rush of smoke in the wind. with

He said: "This is some cultivation resources, including the evil source liquid, the top flesh and blood medicine and the smelting lotion, the congenital yin and cold spirit liquid, etc., are the resources that can be applied to some women in the drought and flood. After you recover the previous treasures, Reinventing the true body of this world can be used at will, I believe there will be some help!"

It's really a good thing. So, after the mysterious woman reinvents the truth of this world, once she wakes up, she must be stronger when she cultivates her strength..."

In the pink scorpion in front of the void, the nine-day mysterious girl said through the words of endless joy: "Thank you for your master, the master is really good. The mysterious girl and several sisters are so lucky. I was worried that Bao Luo would fall into the monk. The present life will also be suffering again. I didn't expect the owner to be so easygoing. The mysterious girl is really happy..."

"call out!"

The voice just fell, a blue color man rushed out from the pink treasure of the Baizhang square, lasing away, and the blink of an eye did not enter the piece of mysterious medullary crystal in the far away sky, and disappeared.

"哗啦啦....."

Just in the next moment, just like the crispy sound of Zhuyu's falling, Ye Xuan turned to look at it, but it was the mysterious medullary crystal that sealed the fortune of the nine-day mysterious woman, as well as the sleeping inside the marrow. The mysterious woman's treasure, in the blink of an eye, turned into a blue worm spot, and collapsed. tight

Then, all the worms are sucked by an invisible force, gathered together, turned into a trickle, and injected into the pink scorpion in front of the void, just two breaths, Completely disappeared and disappeared..."

The predecessor treasure has been recovered, and there is no suspense in reshaping the true body of this world. Soon after, the mysterious woman will be completely reborn..."

After all this was completed, the pink scorpion in the front of the sky, the voice of the nine-day mysterious woman came again, revealing the endless joy of joy: "Thank you for the master's re-creation, and the mysterious woman will be revived in the future. Please master... treasure!"

After saying this, there is no movement in the pink pipa. Obviously, after the endless years, the last glimpse of the source of consciousness, and the nine-day mysterious woman who successfully recovered

the predecessor's treasure, has fallen into the first time. Sleeping, reshaping the true body of this world...no

After a long time, when she wakes up again, she will be reborn again if she is alive again. At that time, Ye Xuan's majesty will have another powerful genius who is in a state of circumstance, and is completely loyal and loyal. Kind. One

In this regard, his mood suddenly sounded good, grinning, muttering: "This girl is like a domineering drought, a strange fox woman, it really looks... especially well-behaved!"

call out! "

The voice was still falling, and Ye Xuan waved his hand, and instantly he wanted to smoke the money into the immortal world. At this time, the green cow that he had smashed to tens of millions of miles, also licked the oxtail. He ran back again.

"Hey!"

"Da, congratulations, and accept a cow... wrong, it should be a human beauty!"

Between the hoof and the hoof, the old guy only came to the front of Ye Xuan with only a few breaths. His face was full of a smile, but his heart obviously remembered his bull-headed beauty, almost saying that he missed his mouth and was taken by Ye Xuan. Oh, this changed your mind!

"Look, where is the starry sky coordinate, how far is it from us..."

During the speech, Ye Xuan waved his hand and instantly copied the coordinates of the star that the nine-day mysterious woman had just given him. It was compressed into a millimeter, and shot at the eyebrows of the green cow. The blink of an eye did not enter, and disappeared! "

Huh? Is this not the interstellar coordinates of the forbidden place? Look at the size of this star, it should be the nest of one of the two kings in the forbidden land.

Although the Qingniu has not been to the Forbidden City, it is the aborigines of this piece of ruins in the ruins of the ancient world, and he was also an immortal beast leader in the banned land of the phoenix, and there are still many channels of information contact. of. again

In addition, the giant stars that can become the land of the beasts of the savage beasts are obviously not everywhere. They have certain uniqueness.

Therefore, Qingniu did not have time to ponder, but only a few breaths got the answer.

In the end, I will look at the huge head of the bull. I looked at Ye Xuan and asked me: "How can you have the interstellar coordinates here?" Did the fallen king get in the flesh and blood?"

Having said that, Qingniu's discourse was stunned and hesitated for a moment. In the end, it seemed to be a heart-to-heart, and he persuaded him: "Oh, that guy is a zerg, a beauty that can be remembered by him, must also be An ugly bug, even the old bull's head beauty is not as good as you, it's better not to hold too much hope!"

roll! "

Ye Xuan was in a hurry, once again kicked out, directly kicking the blue cows into the void, and the sound of the tragic sound came out, and the eyes went to tens of millions of miles! "

Actually it is forbidden in Bi Meng? And the star that hides the Zixia treasure body is also very likely to be a place in the nest of a bronze king. ""

In the whisper, Ye Xuan subconsciously frowned, and there was a hint of restlessness in his heart...
