

Super D. S 430

Chapter 430: Abstain?

"The plantation, is there a secret we don't know?"

This is a speculation in the high-level heart of Baidumen.

The relationship between Baidumen and Wuduotong is good. Even if the planting place is precious, it will not let the five poisonous sects for it, and the fangs door will tear the skin and do one without end.

Therefore, there must be other secrets in the planting area.

"No matter what, the five poison sects would like to cause Yaqing to die, then it is a break with our poisonous door. Everyone should be careful, and there may be a hard battle to fight."

Feng Shan reminded him that he turned his head and looked at Ye Xuan. He asked: "Ya Qing, you only said, you want him to fight poison test?"

"Well, he can already immunize a lot of toxins, father, you give it a rare point, this field should be able to win." Feng Yaqing nodded.

"I originally wanted you to be on the second brother. If he really has the magic of what you said, let him go. I have some poisonous grass that has just been cultivated by the general manager. You will give it to him." Feng Shan said.

"it is good!"

Feng Yaqing nodded, and then he took the things and went to Ye Xuan. Fengshan and other high-level lords also followed the past.

Then, Ye Xuan took these poisonous grasses in front of them, and the anti-toxicity was improved again.

"Sure enough, these poisonous grasses are enough to poison a master of the fifth-grade temperament."
Feng Shan felt very surprised.

"I also passed some of his poison Danfang that you passed to me. When you will be poisoned, the father will try to use these poisonous grasses..." Feng Yaqing reminded him.

"Ok, I know."

Feng Shan nodded.

Immediately, he took the other people to a side meeting, apparently doubting the practice of the five poisonous sects, but Feng Yaqing is the daughter of Feng Shan, unable to lie.

Therefore, there are definitely ghosts in the five poisons.

This time, there are not many people in the door of the poisonous door. In addition to the sixth-order of Fengshan, there are only four imperial fifth-order. There is a big elder of the fifth-order temperament, so it is five.

Secondly, there are more than a dozen sacred four-order and dozens of true disciples who come to see the world.

After waiting for the time, they are organizing the team and then going to the agreed place.

This time, they are actually in the Longtan Tiger Cave, because this may be another ambush.

However, they can't always go, so the people of Baidumen are ready to let go.

One day later, the team of Baidumen finally arrived at the agreed place, a place called the Dark Marsh.

The people of the five poisonous sects have already arrived one step at a time. The people they come to are similar to the ones, and there are almost fifty.

"Haha, Feng brother, I haven't seen you for a long time."

After seeing the people of Baidumen, Tang Huaizhi, the lord of the five poisons, also smiled and held fists.

"Don brother, I haven't seen you for a long time." Feng Shan squeezed a smile and pretended not to happen anything.

Tang Huaizhi and other people glanced at the same time, Feng Yaqing, who was in the team of Baidumen, found that Feng Yaqing was watching them with a gaze.

"What happened, this girl was not poisoned?"

Tang Huaizhi is very surprised. The same is true of Yangming in the five poisons. Although Feng Yaqing broke through the encirclement and escaped the pursuit, he was poisoned and died shortly.

But who knows, Feng Yaqing is still alive.

Since Feng Yaqing is alive, what is this Fengshan and will greet them?

"Feng old brother, since it is here, let's start directly?" Tang Huaizhi said with a smile.

"it is good!"

Feng Shan is no nonsense.

The two began to draw lots.

There are three games in total, but it does not mean that they are in the order of poisoning, detoxification, and poisoning.

Soon, the order of the three trials came out.

The first game, detoxification.

The second game, poisoned.

The third game, poisoning.

Detoxification test, each side took out a poison, to the other party's combatants to take, but also to take out the configuration of antidote.

The poison must let the opponent survive for three minutes. If the opponent dies within three minutes, then the party will lose.

If both of them detoxify in three minutes, then it will be leveled, and they will win or lose with life and death.

At this level, the luck component is enormous, and no one is sure to win.

"Feng old brother, I am a five-drug sect to play by him." Tang Huaizhi said, looking at one of the team.

But this disciple has not yet come out, Feng Shan is interrupted: "No need, detoxification than I try to give up the rights!"

Three trials, once started, must have one person to die.

However, you can still abstain before you start.

"Abstain?"

When the people of the five poisons heard this, their eyes were suddenly brightened. I didn't expect to win the game just at the beginning. Then, if they win another game, they will win.

The disciple of Wu Duongzong was also relieved. It seems that he does not have to die.

The second game was poisonous.

The poisonous killing test, each side has one person, and each of them has five kinds of poisonous grasses. Then the two use these ten kinds of poisonous grasses to configure poisons on the spot, let the other party take the clothes, and see which side of the warriors will die first.

"Yu Chixu, you come." Tang Huaizhi said.

Qi Chixu is a true disciple of Wu Duongzong. His strength has just reached the fourth stage of the qi dynasty. He has a wide knowledge of poisonous grass and is also very good at refining poison. It is the only talent in the five poisonous ancestors after Yang Ming.

After seeing him, the face of the Baidumen was a sinking, and then all gathered in a young man.

Ye Xuan was locked by dozens of eyes, and he knew that he had to play himself. After taking a sigh of relief, he went out.

"Who is this?"

Seeing Ye Xuan is somewhat strange, the people of the five poisons are all face to face, but Ye Xuan does not reveal the strength, so they do not know that Ye Xuan is just a third-order dregs.

"Everyone has taken off the ring."

Feng Shan shouted.

Ye Xuan and Nai Chi Xu both took the ring in the hand and took it up. This is to refine the poison on the spot, so it is not allowed to wear the Qiang Kun ring.

Then, Feng Shan and Tang Huaizhi each took out five kinds of poisonous grass, each of which was two. They divided the ten poisonous weeds into two batches and sent them to Ye Xuan and Yan Chixu.

"There are two kinds of poisonous grass unknown..."

Feng Shan's heart is a dark road, thinking that this must be the poisonous grass newly cultivated by the five poisons.

The same is true of Tang Huaizhi, because of the five poisonous grasses that Feng Shan took out, two of them have not seen him.

However, the five poisonous grasses that Feng Shan took out were all designated by Ye Xuan. He could use these five poisonous grasses to refine a super poison to send the other party to the west.

At this time, Ye Xuan and Yan Chixu both took out a stove.

"Kids, I am a refining poison, I can poison you in ten seconds." That Qi Xuxu could not help but ridicule.

Before he started, he was trying to give Ye Xuan the mental pressure.

However, Ye Xuan has never heard of this name, and he is not interested.
