Chapter 4301: Green cow

"This battle, with your current situation of closure, simply can't intervene!"

After the decision, Ye Xuan turned to the elephant fox, and his look followed: "And the colorful elk is a fifth-order king. The sense of consciousness and the knowledge of the gods are very strong. If you stay outside, you will be silent. I am afraid that the invisible will expose the secret..."

"call out!"

During the speech, Ye Xuan waved his hand and directly sacrificed the Shennong Ding in the body. Of course, it was to reduce the shape. Otherwise, the deep gorge of the three crouching could not be accommodated, and the stars could be smashed!

"Go in for a few days, and if you have nothing to do, you will practice retreat..."

After that, Ye Xuan waved, and instantly there was an invisible force that would roll up like a fox, and turned into a purple awn, spurt away, and fell into the sacred mouth of Shennong with a colorful mist. It disappeared without seeing it!

"Oh, let's go now?"

With Ye Xuan waved again, Shennong Ding was born into the immortal world, and the blue cow on the side immediately took two eyes and excitedly turned around.

Ye Xuan nodded, no words, and his body fell on the back of the green cow. After sitting cross-legged, he directly provoked the brain to understand the spiritual core of the sea, and promoted the nine-level spiritual power to display perfection. Concussion, the body shape of itself and the green cow are all perfectly condensed...

"Hey!"

Under the continuous effect of perfect shock, no breath will be dispersed, not to mention the sound. The blue cow squinted and screamed at the sirloin, followed by the hoof, and the body was invisible. The faint green mans, the blink of an eye rushed out of the abandoned star at the foot, toward the right side of the void, spurt away...

...seal

The knowledge of Wang Qiang, in the case of omnidirectional divergence, can instantly cover the vast universe of 100 million miles.

This is only the general king of the king. If it is a half-step of the nine-step grandeur of this territory, then its powerful gods will open once, and the vast star field of four hundred and five billion miles will be shrouded in an instant.

Therefore, Ye Xuan will choose this ambush location in the universe of the universe about 300 million miles away from the right edge of the Forbidden City. From

The edge of the right side of the forbidden land is located in the central area of the forbidden area where the two red coppers are located in Biyong, and there are nearly 200 million miles away. Together, the ambushing location is close to the two half-steps of the emperor's lair star. 500 million miles away.

In this way, as long as they do not deliberately extend the gods to the right side of the single line, even if the radiation is all-round extension, it is impossible to detect what happened in the ambush area...

As for the multicolored elk, its cultivation is only the fifth stage of the kingship. Although the gods are condensed and extended in a single direction, the same can be passed to the universe of 500 million miles, but this opportunity, the leaves Xuan obviously can't give it to him. seal

In the half-step of the king's nine-level world, it is impossible to kill a fifth-order king under the defense, or there is absolutely no problem at all.

In less than a day, Qingniu and Ye Xuan have already arrived at a space void 300 million miles away from the right edge of Bimeng's forbidden land. They deliberately chose a more remote area in two. In the abandoned stars separated by a million miles, they crouched down. Connect

What I have to do is to wait quietly. After twenty-nine days, the universe in the distance is far away, and finally there is a colorful cloud of colorful clouds. color

Above the cloud, it is a star-shaped elk with a body shape of only a hundred feet. It has a colorful body and a colorful complexion. It is cold and arrogant, quite a bit of a fairy-like meaning!

It is the multi-colored elk that has been repaired in the fifth place of the banned land! Look

When the Lord appeared, Ye Xuan unexpectedly discovered that this lonely and self-respecting, cold and arrogant starry sky elk, actually turned out to be a female deer! miss you

At this point, Ye Xuan's heart moved, subconsciously glanced at the abandoned star crouching in front of a million miles away, and the feeling of faintness was a little uneasy and embarrassing.

The colorful elf deer with a cold breath, how to see it has the meaning of a little fairy, but also a mother... Although the deer and the cow are not a variety, the old goods of Qingniu have never been particular about this.

What's more, although the varieties are different, but the deer and the cattle are at least the same as the four-hoofed spirits, and all the heads are full of horns... Under this temperament, the old goods of Qingniu may not be able to hold it!

The more I think about it, the more I am going to do it. Ye Xuan suddenly jumps in the eyelids. It always feels like something is going to happen. It's really too old for the old cow. He is hard to rest assured! "

Hey! "

"Can you take a step to talk about the deer girl in front..."

Just as Ye Xuan was worried, the star-studded elk that came from the colorful clouds had reached a million miles away, just after the abandoned star that the green cow crouched.

Without waiting for Ye Xuan to react, and abandoning the inland of the stars, it sounded a clear spurt, revealing the sound of the burdock. tight

Followed by the sound of the old-fashioned slang of Qingniu: "The encounter in the starry sky is a matter of coming, come and come, if you are by the body, the old cow will send you a make-up..."

"Hey!" Star

The shape of the empty elk came to an abrupt end, and some of them suddenly turned to the inside of the star. At first glance, the old cow who was only the first king of the king was arguing himself, immediately angered, screaming and hoofing. Rushing into the stars...

"Damn old goods, the key moments are falling off the chain, almost a big deal!"

To this starry sky, the elk did not contact Bimeng for the first time. Ye Xuan was shocked by a cold sweat. His face was stunned and his body was rushing out. His body was instantly rushed out, and the eyes disappeared into the universe outside the stars. Nether, look up and scream: "Hey! The konjac changes... the sixth change!"

In the next moment, as the sound of this arrogant sound came out, the terror power in his body suddenly violently tumbling. The size of the original ten-foot-high was like a star explosion, soaring at a terrible speed, including the body's dispersion. The same is true for the repair! original

Ben, only the starry sky is ten temperament, the body is filled with the breath of the third king of immortality, but at this moment, as he directly transforms the konjac into the sixth, the body is skyrocketing. At the same time, the repairing atmosphere in the body is climbing at an extremely speed.

A short breath is not enough. When this breath of breath finally stabilizes, the realm of the atmosphere that Ye Xuan has dispersed has clearly reached the fascinating seal of the ninth order! also

That is, half step to seal the emperor!

And its body shape, it is a huge increase in the blink of an eye to a thousand feet, like a real star, the look of people is shocking, a few doubts in the dream!

It all happened too fast, and there wasn't even a breath in front and back. In front of a hundred miles away, the colorful elk that was raging to the green cow had already stunned and widened his eyes. It seemed that nothing happened to what happened in front of him. In response, the whole brain was completely paralyzed...

Chapter 4302: Bombing elk

"Who are you? Why are you killing the king?"

Suddenly, one of the two bronzes was as strong as the two bronzes, and the strength of the two reached the end of the ninth-order perfection of the king, that is, the half-step empire appeared in front of the star, this colorful elk Frightened almost on the spot.

Suddenly exclaimed in silence: "This king is one of the eight kings who have been banned from the land. I am also half-stepped by the imprisoned, and still two... This violent Taoist friend, you must not make your own mistakes!" "

No matter where you come from, if you dare to kill the king, the whole is forbidden, you must be with you... not dead! "

"Hey..."

At the end of the day, this colorful elk came out with a screaming shout, and there was an invisible power in the body that condensed into a needle and rushed toward the front in the direction of forbidden land. This

It is clear that I want to use this power to condense into a needle, break through the blockade of Ye Xuan, and at the first time, ask for the rhythm of the help of the two bronzes in the forbidden land. ...

"Oyster, it's useless, you only seal the fifth stage of the king. Even if you gather the gods into a needle, you can't think about breaking the pressure blockade of the star master..."

Seeing this scene, the size of the giants is like a star-like starry sky and whispering. words

When I was still on the verge of falling, I raised my hand and pointed a finger, and the needle of the sensation that spurred away was instantly disintegrated, and it completely dissipated! "

Roar! ""

boom! "

"Booming..."

For a moment, the starry sky violently raised a roar of hair, like a meteor-like right fist suddenly swayed, and the void trembled along the way, and the inch was broken.

The thunderous explosion of the rumble, countless emptiness flows out of the collapsed universe, each of them is sharp and unparalleled, and the blue cow rushing out from the crouching star in front screams, the oxtail At a glance, the first time I turned around and angered and turned around.

"Hey..."

"Hey!" No

A number of sharp sounds of breaking the air rang, and from the void of the universe that was broken by a fist, a large number of emptiness flows into the blade of space, and countless blood marks on the treasure of the colorful elk, under the pain The colorful elk sighs and screams, and the whistle is full of unwillingness.

"boom!""

It's over..."

In the next moment, the starry sky is like a meteor, and the huge giant boxing is also in front of you. It falls directly on the back of the colorful elk-covered deer, and the horrific power of the terror is rolling in. The body of the multicolored elk will be exploded. boom

The ground burst into a \*\*\*\* fog, and it spreads! "

Oh..."

In the \*\*\*\* fog of the rushing, a tiny multicolored mans rushed out, screaming, fleeing in the opposite direction of the starry sky, and its speed was over the light, and the blink of an eye was already 50 million miles. Far away. "

call out! "

"You can't escape!" Dream

The whispering whisper came out from the starry sky. When it was still not falling, its huge figure had disappeared from the original place. It was tens of millions of miles away, and it happened to stop this tiny color. The front of the awning glare.

Almost at the same instant, the starry sky suddenly opened the blood basin wide open, a horrible squirting force came out, directly spurred the colorful micro-mans swallowed into the belly. versus

At the same time, 50 million miles away from the front, the piece of the void is broken, the \*\*\*\* fog formed by the explosion of the colorful elk body, just raged by the raging emptiness, in an instant Once again, they will gather again and turn into a \*\*\*\* river, spurting toward the starry sky and anger.

Shortly for a few moments, this hang represents the majestic qi and blood of all the blood and blood of the fifth-order strongman of the king, and was swallowed into the abdomen by the violent starry sky, and was sent to Shennong Ding in the body at the first time. Expand blood smelt!

The colorful elk is falling like this... "

Oh la la..."

As the \*\*\*\* fog that popped up in the body of the colorful elk was sucked away, the empty position of the elk in front of the elk was quickly spread, and it was like a crack.

Looking around, a vast cosmic void with a radius of nearly a million miles is rapidly collapsing, and a cosmic black hole is formed, and its edge is still radiating rapidly around it. This

The newly formed cosmic black hole is precisely because of Ye Xuan's previous punching power, after cracking a large universe of voids along the way, and then all the blood fog has not been completely dispersed by numerous emptiness. In a moment, the power of powerful suction was brought out, completely causing the collapse of the void structure. seal

Wang Jiuji's great perfection has already been called a half-step emperor. If he is full-powered, he can even directly destroy a small star field. This

One punch, Ye Xuan's goal is only a multicolored elk. When a fist hits, it has deliberately controlled the power. Otherwise, the impact on this universe's void is far from this level. seal

Wang Jiuji is a great consummation, although he is known as a half-step emperor, but after all, it is not a true starry king.

Only the supreme existence of the emperor's realm can more perfectly control the majestic power in the huge real body, and make it a bit of a slap in the face, a punch out, enemies hundreds of millions of miles away, but along the way The void, but no influence at all...

This point, now Ye Xuan can not do it.

But this time, although the colorful elk was successfully bombarded, the final result was because the green bull did not follow the plan, which led to the formation of this black hole.

The current war has just ended. This black hole has a scale of a million miles, and is still spreading rapidly toward the surrounding. If it is left unchecked, let it continue to spread, I am afraid it will not take long, a diameter of 100 million miles away. The giant black hole will be completely formed. Session

When I said that Ye Xuan is now, even if the real imperial powerhouse arrives, it will not be able to return to the sky. In the end, it will cause some irreversible significance to this piece of vast and innocent debris. influences!

"Damn guy, almost a big mess..."

Wrinkled, the starry sky whispered a few words, no hesitation, the body has already reached tens of millions of miles, like a huge star-shaped body, squatting in this small universe black hole that is spreading outward edge. "

call out! "

"咻咻咻..."

For a moment, there was no hesitation in the starry sky, and the body shape continued to swim. As if the arms of the sky were constantly waving, the sound of the sharp and unspeakable sound of the road was invisible. The force spurred out of its hands and turned into countless tens of thousands of mans, shooting toward the cosmic black hole that is spreading in front.

The point of this mysterious and mysterious, all of which are the voids of the universe when the universe is completely collapsed, and it is to be remembered by Ye Xuan in the heart of the universe. If you want to repair the universe beyond a million miles, you can control this universe. The continued spread of the black hole even made it completely bridged.

The first thing to do is to rebuild all the collapsed void nodes.

Chapter 4303: I am not alive.

"call out!"

"Hey..."...

... virtual

In the air, the faint sound of broken air continued to sound, and the starry sky was like a huge figure of stars. It has been around this million-mile universe.

Along with the violent wave of the starry sky, the violent waves of the hands of the starry sky plunged into the gradually stable black hole of the universe, rebuilding the empty nodes that had completely collapsed one by one.

The process lasted for a while and the time was complete.

The cosmic black hole that had spread out rapidly, has completely stopped, and began to slowly condense inward...

It is a pity that things in the world have always been destroyed more than construction. At present, the outward spread of this cosmic black hole has been completely suppressed, and even began to repair itself.

However, it has reached a million-square-meter universe black hole. If you want to completely recover from the original, it will disappear. I am afraid it will take some time to realize. and

At this moment, Ye Xuan and Qingniu both intercepted the colorful elk, and the time of the semi-column has passed, and the possibility of unexpected variables has risen numerous times.

This place, definitely can't stay any longer...

Thinking of this, Ye Xuan did not hesitate, and he immediately retired from the state of the sixth change of the konjac. The huge tens of thousands of giants in the eyes of the stars returned to the height of ten feet in the blink of an eye. The cultivation of strength has also fallen to the third level of the king! versus

At the same time, the semi-column incense was sent to the Shennong Ding by Ye Xuan to carry out the blood-smelting condensed blood of the river, and it also just completed the condensing, turning into a \*\*\*\* and arrogant King of blood. . "

call out! "read

In the meantime, this king of blood was spurred from Shennong Ding and fell in the hands of Ye Xuan.

"Accounting for the blood of the two kings of the murderous blood of the phoenix in the phoenix star field, this is the blood of the third savage beast that I collected in my hands..."

In the middle of the glimpse of the fine man, Ye Xuan played the middle of the king of the blood, and there was a whisper in the mouth: Half of them are all in the middle of the kingship. Once you have 10 pieces, you will refine the twenty-three-level Baodan. When you release the quantity and grade of Baodan, there will be surprises coming..."

At this point, Ye Xuan couldn't help but want to be refining on the spot. After all, the five kings of blood can be opened, and the blood of the king that he holds in his hand has reached six. Beyond. but

After all, he still forced the impulse to be suppressed. After all, the location is not suitable.

"Hey!" Very

Fast, a small jade bottle was taken out by him, and after the precious king blood was put into it, Ye Xuan turned his hand into the immortal world, and then his body shape shook his eyes and it was already millions of miles away. An abandoned star inland... under

For a moment, the sound of a sturdy sirloin was introduced into the ear, accompanied by the sorrowful sorrow and cry of the Qingniu language...

"Hey!"

"Hey, I just met the true love of this life. In the blink of an eye, the yin and yang are separated by each other. Even the corpse has not been left. The wicked person has become a fierce beast. Why is it so embarrassing? Hey... I am not alive!" "

Oh..."

After hearing these words, Ye Xuan was completely speechless. On the spot, he was sluggish and looked at his \*\*\*\* and sat on the ground. He looked at the four hooves like a shrewd cow. The whole person seemed to be thundered and thoroughly smashed. Now!

This old goods... actually came true?

The thought flashed through my mind, and Ye Xuan was once again thundered. The look on her face turned into an oddity, and the faintness was green. One

Although I have heard more about this kind of thing, but... a cow encounters a deer, what kind of ghost is this happening?

Although I can't understand it in my heart, the green cow in front of me is really sad to cry. The strong man in the hall is like a shrew. Sitting on the ground with four hooves in the sand, it shows that the heart is hit hard.

And, since it is moving the truth, then, Qingniu has not acted according to the well-planned plan, and it can be understood. People can't help themselves, and things can be forgiven!

Thinking so, the anger of Ye Xuan's heart disappeared in an instant, and he looked at the eyes and cried and poured. It was a pair of green cows who couldn't be loved, and completely lost their mind! "

Oh..."

At this time, in the distance, the direction of the forbidden land, a fierce whistling sound suddenly came, this is clearly the wrath of a strong king, and it is not the general beastmaster, if there is no accident, it is Bianmen banned the two half-steps of the emperor's red bronze Bi Meng! "

Damn, almost a big deal! Vision

After sweeping the line, Ye Xuan's face changed instantly, and he did not hesitate. At the same time, the words in his mouth were suddenly waved. "

call out! "

When the sound of the air broke out, a quaint Ding of a hundred squares was sacrificed from the body. It was Shennong Baoding.

In the next moment, Ye Xuan did not pay attention to whether the green cows who fell on the ground agreed, and directly motivated Shennong Ding's domain field power, and the old guy who was insulted by the sinister was included in Shennong Ding.

Immediately after the wave of Baoding was put away again, Ye Xuan swayed, and even when he provoked the mental source of the mind in the brain, the perfect oscillating start, the nine spirits shrouded the whole body, and its ten The violent body of Zhang Gao, the blink of an eye disappeared, and the gas machine was no longer visible.

After completing all this, Ye Xuan was a sigh of relief. He was already aware of the occurrence of the accident, but he was already aware of the change, but after all, the distance was far away. It is a warning.

When he arrived, he had already escaped with the cultivation of Ye Xuan, and there was no fear at all. under

For a moment, with Ye Xuan's thoughts, the energy in the body was urging, and under the teleportation, the body shape that was perfectly concealed by the spiritual power was instantly disappeared in the inland of the star. When it appeared again, it has already reached the number. Tens of thousands of miles away.

But it didn't stop, only a half-time stay, and immediately launched a second teleport...

"boom!"

After ten interest rates, a shocking bang banged loudly above the abandoned star that Ye Xuan left before he left. The void split, and the whole body was red, full of glory, and the infinite red awning. A star-like figure that can't be overlooked, one step out of the collapse of the void. drop

The presence of the surviving is a red bronze, and the figure is like a gorilla. It gives people a sense of calmness. The atmosphere in the body is also very powerful. Wang Jiuji is a great consummation, that is, a half step!

At this moment, this red copper is more angry than Meng, the body of the king of the king has not converged, and the body shape has come to this void, just like the real generality under the pressure, everywhere in the distance In the void, there will be abandoned stars in an instant, because they can't bear the pressure of this horror, but they burst open.

For a time, within a million miles, a huge universe of volcanic bangs, like a big bang, the horrible destruction of the atmosphere is spreading...

Chapter 4304: Message of the furnace

"boom!"

The right foot was gently stepped in the void, and the abandoned star that Ye Xuan and Qingniu had previously stayed in was completely collapsed into a piece of cosmic dust, which dissipated. under

For a moment, the sound of a low voice rang out of this shape, like the stellar red copper of the star, which was revealed in the mouth of the mouth, revealing the meaning of endless anger..."

In such a short period of time, the colorful elk will be killed. The existence of the shot is definitely the late stage of the king... At least this stage is seven, and even the eighth and the ninth king!"

"In addition to this, in the void, there is still a smoldering treasure of the treasures... very special, not the general wild treasure, its level, it should be the era!"

"Shen Nong Ding! Must be Shennong Ding! Not long ago, the two murderous birds of the Phoenix Blood Star field sent out the beast army, secretly exploring the traces of the beads, looking for Shennong Ding, this is no coincidence!"

"With such a heavy treasure, no one wants to take it away. It is destined to be the king... no matter who is the source of the shot, where it comes from, what the purpose is, this time, you can't escape!"

"Hey..."

After the roar, this huge body of red copper has reduced its body shape, kept at about a hundred feet, and the glare-like red awns that are scattered in the body are also completely condensed and unremarkable.

Then, his body shape shook, his eyes had already reached the front of thousands of miles, and there was no stop, all the way away. This

The direction is exactly the opposite of his previous bail-out.

Obviously, this red copper is the same as the murderous poultry in the late two kings of the Mongolian and the phoenix forbidden. After realizing that the ancient sect of Shennong Ding was born, he could not help but produce a greedy heart. only

One difference is that the two murderous birds that were banned from the blood of the phoenix were only sent to the army of the beasts under their majesty. They scattered and opened up, secretly searching for clues. but

This red copper is different from Mongolian. After learning that the ancient sect of Shennong Ding was born, its carrier was wandering around the forbidden area, he even had no notice of another companion in the ban. The first time it converges, and blinks away... this

It is clear that I want to monopolize the rhythm of the gimmick, and I have no intention of sharing it with others! This

Everything, if you let Ye Xuan know, I really don't know what feelings he will have in his heart, because with the action of this red copper than Mengmeng, there are two half-steps of the imperial confinement, and now the top Fighting power, invisible, lost half of it.....

..."

call out!"

The faint sound of the air broke out, and Ye Xuan, who concealed all the air movements with perfect shock, appeared in a rather faint universe.

This place, the distance from the margin of the forbidden land, is only more than 10 million miles, but it is another direction.

Two days ago, after successfully killing the colorful elk and leaving with the blue cow, Ye Xuan did not go far, but the distance between the stars and the distance of hundreds of millions of miles, around the edge of the forbidden land Going in another direction.

Everyone knows the truth under the lamp, but things really come to their heads, but not everyone can immediately realize this.

What's more, it is so vast than the forbidden area, and the void along the edge of the area is extremely long. Even if the two red coppers think of this point, in a short time, there is no way to unfold the carpet on the empty edge line of the forbidden land. Check the situation. Place

Therefore, Ye Xuan did not have any pressure at all. After the appearance of the figure, he immediately broke into an abandoned star not far away. In a deep valley, he opened a hole in his own house and crouched down. test

Considering that the distance is very close to the forbidden place, it is only more than 10 million miles, and the blue cow that he was earned by Shennong Ding two days ago seems to be in a state of disappointment. When he releases it, he immediately sighs with sorrow. If you are on one or two times, I am afraid that bad food will be on the spot.

Therefore, after some indulgence, Ye Xuan decided not to pay attention to the old guy, temporarily crouched here to see the movement of the banned land, decided to take the next action plan, and then consider!

However, before that, he still has one thing to do immediately, that is, the soul of the colorful elk's remnant soul!

Although in order to understand the specific situation in the forbidden land, Ye Xuan had already had a search for the soul, but the object that was searched for the soul was only an ordinary immortal.

The hidden secrets of the forbidden land, which are known by ordinary immortality, are far from being comparable to the beastly kings of the five-ordered land of the colorful elk. The information value represented by the two is completely different! Read

Between the movements, the soul search started, and in a short period of time, it was completed! leaf

Xuan's face, but suddenly changed at this moment, into a gloomy...

This time, the soul of the search, with major discoveries, made him all sway, and his heart was faintly a strong uneasiness! This

Uneasy, from the furnace!

All along, the furnace in Ye Xuan's impression has always been synonymous with ominousness. After all, the control of the furnace is the heavenly eye of the wilderness, and Ye Xuan's eyes are in the same camp as the headless baby, and the eye of the wilderness is not the same. Water and fire are not allowed. Correct

For him, when you encounter a furnace, it is naturally impossible to be happy! Do not

However, the furnace did not appear in the nearby star field.

Although there are information related to the furnace in the remnant of the colorful elk, the starry elk has not seen the furnace in person. thing

In fact, even the colorful elk, just recently known the existence of the furnace. This

Once, he left the Forbidden City, the purpose is to go to the tens of billions of miles away from Xianqiong forbidden friends, this is a visit to a friend, so that the colorful elk unintentionally learned the news of the furnace.

In addition to the whereabouts of the furnace, Ye Xuan received a lot of intelligence information that was extremely important to him from the remnant of the colorful elk. It was all about the emptiness of this ruined land.

After all, the colorful elk is the middle-aged king. The information is far from comparable to the green cow. Through his remnant soul, Ye Xuan finally has a certain degree of understanding of this piece of wasteland. when

However, when the two mid-term murderers who had previously banned the ban on the blood of the phoenix, Ye Xuan also had the opportunity to search for the soul, but at that time he used his cultivation as his strength, and at the same time faced the two middle ages, he had no time to take care of too much. The only thing I asked was just to kill the target without accident.

In this way, after the First World War, the four savage beasts of the banned blood of the phoenix will never leave a half-dead soul, and naturally they will not be able to explore the soul!

"The large starry sky is forbidden! The place where the furnace is located is actually a large starry forbidden place..."

Analysis of the various intelligence information obtained from the remnants of the colorful elk, Ye Xuan whispered, the whole heart has sunk to the valley: "The large starry sky is forbidden, there must be more than one emperor to live in the immortality, the furnace It is the same age as the Shennong Ding, the countless people..."

"Since it can appear in the large-scale forbidden land, and from the information learned from the colorful elk remnants, it seems that the mixed winds are still not suppressed by people, so it is not that they are Can you... have been beautiful?"

Chapter 4305: Forced breakthrough

This piece of wasteland is vast and vast!

Before the soul-hunting of the colorful elk's remnant soul, Ye Xuan knew that there was only three places in the middle-class starry sky where the King of the Kings was sitting: the banned blood, the banned land, and the colorful elk friends. The place where Xian Jin is forbidden! high

At the first level, there is no large-scale banned land in the city where the emperor sits. to

On a higher level, there is a forbidden land in the top of the star where the Emperor of the Emperor is sitting, not to mention, I have never heard of it for the time being...

At the moment, after completing this search for souls, Ye Xuan's amount of information in this area has suddenly skyrocketed!

If the vast expanse of the colorful rivers known as the colorful elk is painted into a star map, then the three medium-sized starry grounds that Huang Xuan knew before, such as Huang Xue, Bi Meng and Xian Qiong, form a triangle.

These three forbidden areas are the three points of the triangle! in

On the periphery of this huge starry sky triangle, there are two medium-sized star-ground forbidden places and two medium-sized survivors. very

Even the large-scale starry forbidden land and the large-scale survivor's star field have one place...to

In the ruins of the top stars and the top-level sacred stars in the town of the Emperor, even in the remnant of the fifth-order king of the colorful elk, there is no information related to this.

Perhaps, this level of power exists only in the far-away universe of the sky around this huge starry sky triangle... At least for now, Ye Xuan does not have to pay attention to it, because it is too far away, with his current cultivation, In a short time, I can't go! thing

In fact, Ye Xuan's current cultivation is the strength. Even if the \*\*\*\* magical power of the konjac is changed to the sixth change, only the ninth step of the king is perfect. do not

It is said that there is a top-level star-ground forbidden land and a top-level survivor's star field in which the Emperor of the Emperor is in the middle of the town. Even if these two places are known to have large-scale starry bans and survivors in the town, he would not easily enter! complete

In fact, in this large-scale starry sky and the remnant of the sect, it is absolutely impossible for only one emperor to sit in the town. If it is easy to enter and be blocked by two or three emperors, I am afraid that even he may have cups.

That is the imperial powerhouse, any means may have, in case one of them can crack his system's interstellar coordinate jumping ability, then Ye Xuan is really in the armpit. except

There is no headless baby corpse that has not had any movements recently, otherwise the situation will be extremely difficult and dangerous...

The two large-scale starry bans and remnant tribes that he knows at the moment are located in different directions of the big triangle of the starry sky, one left and one right, separated by an endless empty space. left

The large-scale forbidden land on the side is called Xusheng Forbidden Land, and the furnace is wandering in this forbidden place. It has not yet been lowered. right

The domain name of the large-scale survivor star is the Fu Niu Xing domain, which is located just outside the 100 billion-mile right side of the Bianmen Forbidden and Xiandong forbidden middle line...

"Whether it is the Xusheng ban, or the Fu Niu Xing domain, soon after, the star must go forward!"

After sorting out a lot of intelligence information obtained by Soul Soul, Ye Xuan fell into sinking, thinking about it, and there was a whisper in the mouth.

"Xusheng has no need to say more about the forbidden land. It is impossible for the furnace to appear in the starry sky for no reason. There must be some plots. This is a strange thing. If you don't go in person, you will secretly examine the details. It's really hard to be safe!"

"As for the Fu Niu Star Field, which is in the hands of the ancient people, it is the largest inhabitant of the people who have been known since the Lord's entry into the ruins of the ruins of the wilderness. There are even more than one survivor of the royal family. ""

This level of the relics tribe, the mastery of the refining method in their hands must be more advanced, at least not the survivors of the Sangzhixing are comparable, if you can get the hand, the refined flesh and blood medicine will be better. ... can be described as significant, definitely not to be missed! ""

It seems that the forbidden land in front of the scene must be resolved as soon as possible. Otherwise, the trip to Xusheng and the Fu Niu Xing domain will be greatly delayed..."

The sudden appearance of the furnace, it is very likely that the Qingtian Tiandao Qingyan has begun to pay attention to this piece of debris, the time is getting more and more urgent, and the moment when the vast world is coming, it seems to be getting closer and closer. "

"So, the exploration of these two large-scale starry bans and the sacred land of the people must not be delayed for a long time!"

At this point, Ye Xuanyuan's mid-cold man flashed and subconsciously shook his fist: "So, you can only forcibly break through once again..."

"Although the previous battle with the colorful elk, it was not a hearty, and failed to completely consolidate the already somewhat unstable state of mind."

"But after all, there are still some effects. If you pile up a lot of top-level cultivation resources and bite your teeth, it is not a complete breakthrough."

As long as we can successfully break through a small order, then, in the case of transforming the blood of the konjac into the sixth change, I will now only be able to cross the great realm of the 9th-order grand perfection. To reach an unprecedented level of the emperor. ""

In this way, even if this is more than the two-and-a-half-step empire in the ban, it is impossible for me to be my opponent. It takes a lot of time to fight at the end, and eventually it will be able to completely suppress them. This is better than the ban. The transaction, it is completely over... After finding the predecessor treasure of Zixia Fairy, you can leave immediately and set off for Xusheng! Decision

After the decision, Ye Xuan will not hesitate, even if he even sneaked into the star's star nucleus, waved and banned it! "

call out! ""

Oh..."

Then, as he waved his hand, a lot of faint sounds of emptiness broke out, and various top-level cultivation resources were taken out by him from the immortal world...

Including the purple gold top flesh and blood medicine, the evil source liquid, and other rare treasures of rare treasures, etc...

Of course, this time, among the breakthrough resources he prepared, there is also a large piece of blood-blooded meat that has been burned by the Shennong seven-color flame. It is cooked in the golden color, ripe and oily, and full of aroma. ! One

After the completion of the cut, in the mind, the domain field power of Shennong Ding in the body was fully urged, and all the cultivation resources hanging in front of him were crushed under the power of Baoding domain, and the eyes were turned into a small one. Small beads, swallowed into the belly by Ye Xuan open mouth! blood

The entrance of the color beads, instantly turned into a turbulent flow that slid down the throat, into the abdomen, rushing to the limbs of his body, and rolling! "

Oh la la..."

"boom!"...

...

In the next moment, a chain of shackles appeared invisibly. From this moment on, Ye Xuan's body was like a sky-turning, and the sound of the huge chain of sings did not stop for a second, and the energy of the hanging dynasty followed the circulation of the whole body. , constantly swaying the new chain of this shackles, the boundless and intense pain, it is here...

Chapter 4306: Fenghuang Weili

boom! "...

...This

Once, Ye Xuan's breakthrough was particularly difficult. It was not as fast and smooth as usual. It was obviously because his mood was not stable, but it was because of his forcible breakthrough. From

After swallowing all the cultivation resources, his body would be like a sky-high, and the sound of the chain of huge slaps did not stop for a second. that

The energy that hangs on the river is following the circulation of the whole body, constantly swaying the newly-emerged chain of this shackles, and the endless intense pains are coming, for a moment...

I don't know how long it has been. In the end, an earth-shattering chain rang out, and then there was a crisp and golden sound of gold and iron, which broke through the body of Ye Xuan's body. The potential chain is finally completely broken! under

For a moment, the familiar system sounds sounded in his mind, and a clear and clear attack was tormented by a huge pain that had not stopped for a moment, and it was instantly restored.

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the king of immortality!"

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: Feng Wang immortal third order! "

Prior to this, the cultivation of Ye Xuan's deity has reached the second level of the immortal king of the king. Once the three-headed and six-armed Taikoo konjac blood is activated, the strength is once again soaring and directly climbs to the third stage of the imperial king.

If you continue to display the magical scorpion and change the magical power, and reach the sixth change, you will be able to reach the horrible strength of the eternal perfection of the ninth order.

But now, with his cultivation as the strength to break through again, once the body of the konjac blood is activated, and enters the sixth change of the konjac, its peak power will instantly break through the kingdom and cross the realm. The scorio, reaching an unprecedented level of the first empire, the degree of combat strength, horrifying...

"Fortunately, not to be insulted, after all, it has successfully broken through..."

Open eyes, Ye Xuan's face showed a slap in the face, whispered and whispered in the brain, the original shape of the knee in the core of the star, it has disappeared.

When it appeared again in a short time, it was already a secluded void of tens of millions of miles away from the banned area. "

The konjac changed nine times... the sixth change! "One

The sound of roaring, the power of Ye Xuan's body immediately rushed, such as the same hanging Nujiang, rolling in the body limbs.

A powerful force of horror and horror from the body, the body shape that was originally only ten feet high, is like a balloon that is inflated rapidly, and expands rapidly.

Less than three interest rates, it has reached the giant of thousands of feet, like a human star. with

When the sky was soaring, Ye Xuan's cultivation was the realm. In the past, he was in the state of the konjac in his body, and the body was filled with the breath, only the fourth stage of the king's immortality. and

At the moment, when the huge body of the giants of the tens of thousands of people appeared, the swaying cultivation of Ye Xuan's body has already reached the first level of horror. And

Because the power of blood and blood is so vomiting, I am afraid that the general level of the emperor is not an opponent! "

Roar! Yang

The first roar, the stars around the sky in the sky, suddenly trembled, this 吼, Ye Xuan did not provoke the power of the body, just a simple shock wave, there is such a terrible power. blessing

To the heart, he subconsciously turned to look at somewhere outside the universe, and the line of sight was locked in an abandoned star.

The figure is not moving, a punch hits..."

boom! "

Almost in the next moment, the universe of 100 million miles away, the earth-shattering explosion came, the abandoned star locked by his light, directly blasted into powder without any suspense, but the universe void along the way, but And no reaction at all, completely unaffected. seal

The Emperor Qiang has been able to perfectly grasp the power of the body. Even if it is blown out through a distant distance, there will be no emptiness along the way, but the goal in the far distance will bear all the power of this fist in an instant! Do not

A long time ago, when Ye Xuan hit a colorful elk with a fist, he could not do this. When a punch hit, the void was broken along the way. Although the momentum seemed more powerful, in fact this The strength of a punch, but lost a lot on the way. and

The punch that is blasted today is truly perfect, the void is not affected, all the power is used in the blade...cross

Into the emperor, Ye Xuan's knowledge has also skyrocketed, not only the limit distance of the exploration of the gods is too much expansion, and its concealment has also increased accordingly. and

Today, once he develops his knowledge, it is impossible to be amazed by the strong kings of the kingdom, unless it is the perfection of the ninth order of the king, that is, the half-step of the emperor.

In fact, for the exploration of the gods of the royal emperor, although the half-step Fenghuang can be sensed, it is limited to this. If you want to pursue the exploration of the gods, you can't do it!

In this way, Ye Xuan has no more concerns. After a little indulging, he will not delay. He will extend his knowledge to the first time. In an instant, he will cover the entire Forbidden City and ban the medium-sized starry sky. Everything is fine, everything is in my mind...

In the Forbidden City, there were originally eight beasts of the beasts. One of them was a friend of the king and a family of friends in the middle of the period. The latter had been killed by Ye Xuan, and the former... At this moment, he discovered that Actually, I have already returned to Bimeng! Such as

Therefore, with the return of this early King of the Kings, there are now seven kings in the Forbidden City, but in fact, Ye Xuan's exploration of the gods captures only the six kings. !

A seal of the king's nine-order is perfect, that is, half-step to seal the emperor, which is clearly one of the two red bronzes.

The other five, the three are the early days of the king, the two are the middle of the king of the king... and the other is the second half of the bronze.

"Well? Could it be that the red-breasted stag was attacked by the multi-colored elk, and the red copper that snarled and rushed to sneak... did it return?"

Under the slight sense of sorrow, Ye Xuan whispered a whisper, and a flash of aura in his brain, and he realized it in an instant: "If there is no accident, the half-step of the red copper of the emperor should be compared. Searching for the universe around the forbidden area, expand the search..."

Although the owner of the star had successfully escaped with the second child of Qingniu, he had no choice but to sacrifice Shennong Ding, and he took the half-step of the emperor's cultivation as the realm, capturing the treasure of the Shennong Ding from the void. It should not be too difficult!"

Having said that, Ye Xuan's fine flash in the body, the body faintly smashed a murder: "I still want to search in the void, and start the assassination of the star master..."

"If that's the case, then there is nothing to be polite..."

"Hey!"

After the last sentence, the size of the giant is like a small star-like starry sky, suddenly a hair screaming, followed by a shoulder, a huge to the horrible figure disappeared and disappeared...

Chapter 4307: Lonely King of the Six Kings

At this time, it has been two days since Ye Xuan intercepted the colorful elk.

The Bronze, which was screaming at the end of the day, had never returned. He did not even give feedback to the banned information after he rushed. Head

Is to monopolize Shennong Ding alone...but

It happened that such a big thing happened. It was impossible to react at all in a banned place. As early as half a day after the war, the disappearance of the colorful elk disappeared and spread out in the entire forbidden land. in

In these two days, there are countless days of banned beasts in the forbidden land. After all, the colorful elk is a fifth-order king. Such a powerful existence is unclearly intercepted, and even has not been able to come out. Signal for help. only

This is enough to prove the power of the killer. this

People, even if there is no king of the immortal nine-order great consummation, that is, the strength of half-step Fenghuang, at least have to be immortal seven or more orders after the seal! Burst

However, such a powerful late king, not only contrasted with the hostility of the ban, but also the way of doing things is so embarrassing, the dragon is not seeing the end ... all this, so that all the beasts in the forbidden land are worried. One

Time, the entire vast expanse of the vast expanse of the vast universe, all enveloped an invisible sense of calm...

At this moment, the six kings in the forbidden land are immortal. Apart from the slight anxiety of the three kings at the beginning of the kingdom, even the other two middle-aged kings who are similar in strength to the colorful elk are not too worried.

The person who shot the head reveals his face, which means that his cultivation has not yet reached the great stage of the seal of the king. It is extremely taboo for the two bronzes in the forbidden place.

In this way, as long as they do not go out alone, they will be able to sit back and relax.

Even if this person is more cunning, in the face of a half-step retreat of the retreat, it will not be long before the whereabouts will be revealed. At that time, the red copper ratio that is being searched in the virtual sky outside the forbidden land will be revealed. Meng, will be able to kill it! when

Ye Xuan's Fenghuang's gods have come from the outside of the forbidden land, and they have shrouded the entire forbidden land in an instant, and when everything is in their minds, not only all the beasts in the forbidden land have no awareness, even Even the fierce beasts of the early and middle of the five heads were all ignorant.

Only the other red copper in the giant star of the central star field in the forbidden area, the first time, the cold hair was blown up, and it was shocked to rush out from the nest...

"Roar!"

Fenghuang! Actually it is the emperor..."

After a roar, the red copper came out of the mouth of the Mongolian followed by a panicking roar, and the entire block of the screaming banned land, countless forbidden beasts were alarmed, or looked blank, or ignorant, land In the atmosphere of nearly a thousand life stars, rushing into the universe's void.

In addition, the five beasts of the beasts, the first time they rushed out of the nest stars, their faces all showed a fascinating color, and the body trembled to the blizzard of the copper in the central area of the forbidden area. Come. One

The head starry blood lion, a black beetle, is the immortal middle of the king. to

In the early days of the other three immortals, one was starry and violent, and the other was a three-legged black crow. The last one was actually a soft reptile. The whole body was green and blue, and it looked like a cold, very uncomfortable. I don't know what kind of \*\*\*\* starry zerg.

Although the five beastmasters were alarmed, they did not feel the sensation of Ye Xuan's exploration of the gods. This alone is enough to show that the copper is more ambiguous than Meng.

The comers are indeed a true emperor, and they are so powerful that they can unfold unconsciously and explore them. They can't perceive it!

"Damn, who said that the killing of the deer, the end of the king's late? This is a real royal emperor..."

"The matter is very strange. Within the distance of 100 billion miles, there are only Xusheng forbidden land and Fu Niu Xingyu with the imperial powerhouse... but I have no entanglement with them than if they were forbidden. If this emperor is from this Where are the two places, how can they go out and kill directly?"

If it is not from these two places, the royal powerhouse... Where can it come from? ""

Roar! "

The words of the survivors of these fierce beasts have fallen, and the sound of a roaring scream has suddenly come from outside the forbidden land. The coming of the people has not yet arrived, and only by an ordinary roar, the entire Bimeng has been There were countless stars in the forbidden land, and they all shook slightly. from

The countless forbidden beasts that rushed out of the stars almost completely lost their physical shape at the same time, stumbling over the universe. very

Even the five savage beasts who were exclaimed and exchanged were all without exception. They were all conditional reflexes and subconsciously searched for a few times.

Only the copper-clad Bimeng, which is known as the half-step of the emperor, can barely resist the sudden pressure of the emperor, but it does not reveal the embarrassment, but the pair of red and double scorpions above the huge body is the same. The gloom of the gloom, revealing a sense of evasiveness to the extreme...

With the endless roar of this pressure, there is a huge tens of thousands of feet. Like a small star-like horror figure, it has entered the universe from the void of the universe beyond 100 million miles. area. under

For a moment, the eyes of countless fierce beasts in the forbidden land all converge toward the starry sky among the six kings... Because of the sudden presence of the emperor, it is also a starry sky!

Seeing this scene, the star-studded blood lion and the three-legged black crow, etc., apparently misunderstood the beastmasters who were banned from the land, and immediately slammed into the starry sky next to them. It can be said that it is bitter, and it is tempting.

"Irritable, what is the situation? Is this predecessor yours... or your grandfather?"

In my opinion, most of them are the ancestors of this guy! "

"You kid is not kind, when did you escape from the ethnic group? You are finally caught, and this is clearly the rhythm that we have to be tired of..."

"Hurry, give your ancestors a mistake. After all, it is a family. There is nothing to say, or a few friends will be killed by you!"

"I....."

In the face of all this, this head is only the first step of the imperial power of the king. It is obvious that in recent decades, it has only broken into the starry sky of the kingdom. The whole person is completely dumbfounded on the spot. this

At this moment, the whole brain was awkward, squeaking, and his eyes staring straight at Ye Xuan, who strode from afar, was full of stagnation, and finally he said a complete sentence. The words: "You, I want to have such a strong ancestor, but the key is... this man, I don't know!"

"Roar!"

Rumble..."He

The words were just finished, and the starry sky that strode forward in the sky in front of the sky was violent, and after a roar of anger, he said nothing, and a fist blew it out.

This is clearly to be on the spot, the rhythm of the six kings of the lonely king...

## Chapter 4308: Blood starry sky

"Boom!"

Ye Xuan slammed out, almost at the next moment, and his body shape was about 100 million miles away, and the central star field of the Forbidden City, which was nearly 100 million miles away, was like a response, and an earth-shattering explosion was suddenly heard. .

The power of this boxing was controlled to be almost perfect, and a fist hit, and the universe of thousands of miles along the way was not affected by the half point. Countless stars and the beasts who fell to the ground in the void did not even have hair. Drop one. but

Nearly a hundred miles away, the location of the blasting sound was heard. The starry sky was still in the dumb eyes. The huge body of the whole giant, but suddenly blasted without delay, the blood starred...

Only fists, less than half interest, a king of immortal first order, it was completely blasted into a \*\*\*\* fog, and the gods are gone!

"Hey..."

The huge body of the starry sky blasted open, an invisible suction force appeared in the place, and instantly wrapped up the \*\*\*\* fog that was spreading and spreading, just like a \*\*\*\* river, facing the distance It's like a star-shaped giant sip in the sky... this

For a moment, the whole eternal death was banned, and all the banned beasts, all of them stunned their eyes, and doubted their dreams. They could not believe the facts at hand. on

In the first moment, all the beasts thought that this head came down, like the horror of the stars, the elders of the violent family in the forbidden land. Of course

However, this thought has just emerged from the mind, people have been separated by a virtual distance of 100 million miles, and without saying anything, they directly smashed the first-order violent smash into a \*\*\*\* fog, and the gods are gone! This

Where is the elder in the family? It is clear that there is a life-like killing god!

In the stunned, the star-studded lion and the three-legged black crow and other savage beast kings, after a short period of sluggishness, fled back in the first time, and the mouth was more exclaimed and rumbling...

"Damn, what did the violent temper have done? The anger of the elders in the family is so angry, this is clearly the rhythm of cleaning up the portal!"

"It's not good or not. Seeing his body killing and smashing, the meaning is still unfinished. I'm afraid it's not just the killing of violent temptations. The previous elk is the proof. I've been smashed and pond fish, I'm going to suffer together!"

"Predecessors, I have no enmity with you, and I have something to say, don't be impulsive..."

"It's useless, the killing machine is too fierce, or it's scattered to escape, or... join hands to fight!"

The sound is still not falling. The Fenghuang giant scorpion outside the mile of a hundred miles has swallowed the spurt of the \*\*\*\* river into the abdomen. There is no hesitation. The right arm that has just been lowered, the blink of an eye has been lifted again. Punch out...

"Boom!"

It was a shocking blast that came out. Among the five kings, the one who was covered in green and did not know how \*\*\*\* the zerg king, the whole body instantly burst open, turned into a \*\*\*\* green fog, did not wait for the spread, Has been wrapped in an invisible suction force, as before, lasing away from the distance.

Under the sway, it was swallowed into the belly by the emperor! to

Therefore, this emperor's violent bangs came to the Mengxing domain. The time was only three times. There were only two shots before and after. They were all simple and simple, but there were already two in the forbidden area. The sacred beastmaster... completely degraded!

There are only four of the six beastly kings.

Bronze Bimen, Starry Blood Lion, Three-legged Black Crow, and Black-shelled Zerg! "

Roar! ""

I am too angry,"

Everything happened too fast, and the short three interest rates did not come. The six kings had already fallen two. Until now, this one is the strongest copper, and the second is finally shocked. When roaring and roaring, it has a huge body that is as big as a giant, and it is like a balloon that is inflated, and it expands rapidly at a speed that is difficult to understand with the naked eye.

In just a short period of two interest rates, this red bronze body has reached a height of five million feet, which is only a small circle compared to the giant tyrannical figure. ! very

Obviously, this kind of red copper is also a kind of talented supernatural power that can quickly stir up the blood of the body and make the \*\*\*\* body rapidly soar.

However, Ye Xuan's konjac has changed his blood and magical power. Every time he activates a change, his body will skyrocket ten times. At the same time, his power will also rise a little.

But this red copper is better than Meng, whose blood is from the right hand, and within a short period of two, it has soared to five million feet. The power of blood has climbed too much, but the repair of its body is Breath, but still the king of the immortal nine-order great consummation.

From this point alone, it can be seen that this kind of talented magical power in the red blood is better than the konjac that Ye Xuan has mastered. It is not a little bit worse. can

Even worse, people's current size has reached five million feet. Although the strength has not changed, the power of the body has soared to a heinous degree.

Undoubtedly, this guy is definitely more difficult to entangle than before, and his blood is too strong. It is estimated that he can compare with Xiaoqiang who can't die!

Seeing this scene, Ye Xuan did not hesitate, and there was a cold cry in his nose. The third punch directly blew the past. The powerful force, firmly separated by tens of millions of miles, firmly locked the figure and him. Compared to the already too little red copper than the Mongolian!

"boom!"

Oh..."

The earth-shattering roaring sound blasted in an instant, but the red copper was as big as the star-like real body, but it was not bombarded with a punch. This

The species of the beast was originally rough and rough, like a yak, and like a mammoth, it was extremely beaten. At the moment, it is a kind of talented magical power that is inherited in the blood. It has soared to a giant of five million feet. The power is so strong that it is desperate, and naturally it is more resistant. Will

It was the full force of the Emperor of the Emperor, and he could not directly kill him. He just hurt him, just like a wolf, he looked up and screamed...

Seeing this scene, the star lion, the three-legged black ravens, and the black-shelled zerg, who were originally about to turn around, stopped their bodies in an instant and exchanged a look with each other. The first time they reached a consensus. The swept body shape swept away at the edge between Ye Xuan and the red bronze. This

The three guys clearly saw the hope from this red bronze Bimeng, and decided to stay and fight.

There is also a similar grade of copper in the forbidden area, and I believe that it will soon be rushed back. By then, there will be two red bronzes that can resist the iron fist of the emperor, and they will be in close proximity to the unknown. Oh, then, they are waiting for opportunities in the surrounding area. If you find the opportunity to count, this battle may not have the possibility of killing the emperor!

After all, the starry sky is strong, but it is only the first stage of the emperor's immortality. Most of them have just broken through not long ago. Perhaps the realm is not yet stable. If this is the case, their odds will obviously be even bigger!

Killing the emperor represents a huge interest. They have never thought about it before, but this time, since they have already seen a glimmer of hope, they will not miss it.

Chapter 4309: Killing half-birth

With this kind of red copper, Mengmeng activates the talented magical inheritance in the blood, and the body shape instantly rises from the original violent violent to the current five million ft, which is actually a violent, arrogant blood. Hardly resisting the starry and violent full-strike bombardment, but not degenerate, just hurting to scream and grow up...

The other three beasts who had already planned to evacuate in the emptiness of the surrounding air stopped the physique for the first time and swam around the battlefield. One

The side waited for the other half to return to the emperor, but on the other hand, it was secretly observing the weakness of the starry sky, and intends to wait for the opportunity in the follow-up battle.

The interests of killing a royal emperor are too great. At this moment, including the Bronze Bibi, these four beasts who are banned from the land have all greedy.

"Boom!"

In the next moment, the starry sky stunned, and the blink of an eye has reached another position. Under the punch, it will directly pass through the black-shelled worms of millions of miles away. Blood fog. not

When it spreads out, it is directly wrapped up by an invisible sucking force, spurting away, and falling into the starry mouth of the starry sky.

Inadvertently, the four beastly kings will once again squat, and only three of them will be left in the blink of an eye! "

Roar! "black

The black-red blood fog that opened up in the body of the worms was just swallowed. The red copper in the void in front of tens of millions of miles in front of the squadron, has already screamed and swayed toward Ye Xuan. This

The guy is clearly trying to squat on the rough skin, and then hard to resist Ye Xuan, as long as it can be dragged to another red copper than Mengmeng, the hope of this war is really dawning!

"Look at the guy who made you smashed... The guy who made the skin is not abused. What was it then? Now it's all sealed, can you be stumped by your skin?"

To the other party's body spurt, the starry sky violently angered and laughed, the huge blood basin wide mouth, the spread of Ye Xuan clearly with the voice of disdain and sarcasm...

"call out!""

Rumble..."

In a flash, the faint sound of the air broke out, and the starry sky was like a star. The huge figure of the star disappeared in the same place. When it appeared again, it was already on the right side of the red copper that was heading for the head. It was less than a million miles away. ...and

As he teleported closer to the red copper, the starry sky was violently in the right hand, and there was a huge black stick. The front end was huge, and the closer it was to the rear grip, the smaller it was... The fierce \*\*\*\* stick in the star of the evil! This

The \*\*\*\* stick is actually the \*\*\*\* pesticide that is matched with Shennong Ding. God

The farmer's tripod is the ancient treasure, and it is also the era of the era of the wilderness. The complete form is comparable to a giant star. As a supporting pesticide, it is naturally huge.

At this time, it was taken out by Ye Xuan and changed into a \*\*\*\* stick. Although the shape has changed, the size has not yet reached the limit of the original form. The starry sky is only for the sake of a hand, so it is just right. Look like that.

Even so, this \*\*\*\* stick that is held in the violent starry sky of the giant body is already amazing enough. Its length is much longer than the diameter of the stars of ordinary small stars. The thickest part of the stick is clearly comparable to some of the larger meteors..."

boom! "

As the figure appeared, the starry sky did not hesitate. The first time, the right arm was suddenly lifted, and the \*\*\*\* stick of the right hand single hand was lifted high, and the cockroach was smashed and stunned. The skyrocketing sound.

"Hey..."

A great strength is not small. After all, it is the full blow of the Emperor of the Emperor, and it also relies on the domain power of God's pesticides. which is

It is now that the body has skyrocketed to a huge size of five million feet, and the body's blood and blood are so strong that it is horrible, and the skin around the body is thick and thick, and the red-skinned copper is blind.

It's so cold, but the brain suddenly swells a giant bag that is like a meteor. Its shape is directly in the void, and it's almost on the spot.

In the mouth, there is a fierce and fierce voice coming out, the hearer is crying, the listener is sad...

"I can't stop it? It's just a good show, it's just starting..."

After seeing this red copper, Bian Meng was knocked out by himself, the screaming screams of the mouth were resounding, but the figure was abruptly stopped, stopping in the void not far away, still seemingly still slightly Shaking the ground...

This is clearly knocked on the head by a stick, the rhythm of the stars, Ye Xuan heart happy, while the words in the mouth came out, no longer hesitate, the second stick blinked and squatted, kneel!

"boom!"

"Hey..."

It was also a shocking bang, this time, still because the fortune of the previous stick was stunned, the red copper was finally unable to hold back, and the screams in the mouth suddenly became loud, and the one on the head was like a meteor. The general huge bag is also a \*\*\*\* moment. Fives

The huge figure of a million feet is directly pulling forward, struggling for a distance of a million miles, and the last one is rolling, directly in a huge abandoned star, and the dust is everywhere! This

Once, the \*\*\*\* stick in the violent starry sky was in the same position as the first stick. With the huge blood bag that appeared like a meteor on the back of the head, the consciousness of this red copper was completely smashed. . this

The entire huge body has been invaded into the giant abandoned stars of a million miles away. It is a full amount of interest that has never been heard and sent out. It is clearly not a serious injury, or... it has passed out!

In the void, I fell into silence again.

This scene happened too fast. Ye Xuan's two \*\*\*\* sticks came out before and after, and the total time was not at the end of the three-night period. In the entire forbidden area, countless fierce beasts all opened their mouths and looked at the one. The giant abandoned stars that have been cracked and shattered, as if they had just been thundered, have completely fallen into petrochemical..."

call out! ”

He is sick and wants him! First

After the two sticks came out, Ye Xuan did not stagnate in half, and his body shape swayed again, and then he teleported again. The blink of an eye reached the giant star of the dust mites. Besides, the right arm was raised high. In the middle of the cold flashes, the \*\*\*\* stick for the third time... squat!

"boom!""

boom! ”

"Booming..."

This time, after a huge shocking sound, it was followed by an overwhelming explosion of bangs. The giant abandoned star that had been cracked, under the full blow of the starry sky, completely exploded into countless gravel soil. Chips. and

Bronze, which had already completely fainted in the second stick, apparently failed to escape. The endless dust of the stars bursting and spreading, clearly the red blood fog of the canopy!

This is not only a bombardment of this abandoned star, the shape of the five million-foot giant copper, but also completely blasted into a \*\*\*\* fog...

Under the stick, one and a half steps to seal the emperor... miserable!

Chapter 4310: The king does not stay

"call out....."

Almost at the same moment when the stars blasted and the blood mist spread, an invisible suction force was transmitted from the starry sky. In the blink of an eye, the blood fog formed by the redness of the red body was inhaled. In the middle, send it directly to Shennong Ding, and start blood purification! This

At one moment, the whole banned land was dead, and countless forbidden beasts in the vast territory were all chilled. As the red copper was murdered, a feeling of desperation with a strong to the extreme was shrouded in the hearts of countless forbidden beasts. The stars are all in the boundless haze! "

Oh..."

Hey! "short

In a short period of time, the six kings were degraded, and the only remaining star lions and three-legged black hawks screamed at the same time, and then they turned and fled...

"If you have escaped before, there may be a chance, but now..."

Seeing this scene, the voice of Ye Xuan's words came out of the starry sky, revealing endless cold and cold. words

At the time of the sound of the fall, the starry sky violently turned over and directly put the \*\*\*\* stick into the immortal world. To deal with these two guys, you don't need it! "

boom! "

In the next moment, the starry sky was not violent, and the arm was kicked out. In the distance tens of millions of miles away, the three-legged black crow was dying and fluttering, and the whole blood was bursting open. Turned into a black and red blood mist, instantly gathered into the river, spurted in the void, swiftly smashed into the mouth, swallowed into the abdomen..."

Seniors, I am willing to drop..."

In the other direction beyond the distance of more than 60 million miles, the shape of the star lion escaping quickly stopped, and he knew that to escape, he could not escape.

Instead of this, it is better to stay behind, perhaps to get a chance.

In the trembling of the body, this huge body looks like a mighty starry blood lion. After turning around, he crouched down in the void on the spot. His voice screamed and he continued to beg for mercy: "Only ask the predecessors to stay. I am a life, I am willing to be a dog!"

"Please drop?"

There was a slight flash in the violent temper, and it seemed to be a little thought about it, but the fine mans that flashed in the sputum soon became cold again, violently slamming, raising his arm and banging out: "Sorry, this battle... Feng Wang does not stay!"

boom! "mouth

The violent screams in the air have not yet fallen. More than 60 million miles ahead, there has been an earth-shattering sound of explosion.

The whole body of the blood lion crouching on the ground blew open, completely turned into a \*\*\*\* fog, the first time was violently opened by the starry sky, inhaled into the abdomen, sent to Shennong Ding, launched blood sperm refining !

At this point, the six vicious beast kings who stayed inside the forbidden land, without exception, all fell!

The reason why Ye Xuan refused to ask for a \*\*\*\* lion in the starry sky was only hesitating, and he had already thrown a punch at half an instant. In fact, it was also well thought out. One

In terms of the fact that the king of the strong king is too high, the original is high, even if you drop, loyalty is difficult to guarantee, most of them will be suspicious, so it is tantamount to burying a time bomb near him, which is unwise. another

On the one hand, it is because the seal of the king is difficult, and the Ye Xuan refinery has broken through the twenty-three-level Dan of the imperial concubine, but it also needs the blood of the king who is condensed by the flesh and blood of the king. although

After the war, he had more than ten blood samples in his hand, but if there were no accidents, he would only be able to produce three twenty-three grades of Dan. Do not

After a long time, Ye Xuan will use one of his own, and the remaining two, most of them will be the oldest goods of Qingniu want to pick up the thick skin and try to get it first, so that he has only one second in his hand. Thirteen-level Dan, it is not enough!

Therefore, in this refining of Bao Dan, he must collect as much as possible the blood of the king, and strive to get a few more than twenty-three Dan. complete

Actually, it was the top-grade Baodan refining the main material of Fengwang. After this time, who knows when it is time to get enough blood of the king and refine the second furnace? "

call out! "

"Hey..."

Between the thoughts, with the sound of the faint sound of breaking through, the blood rushed out, a total of six, falling in the vast palm of the starry sky, awesomely six blood, is the ratio of this war The body of the six beastly kings in the imprisoned area was condensed. first

Before, after the killing of the multicolored elk, Ye Xuan's blood in the hands of the king has reached six. and

This time, I got six more, and a total of twelve..."

Twelve? One of them is the best blood-stained king blood that is condensed in half-step Fenghuang body..."

Looking at the six blood-stained bloodstains in the palm of my hand, the starry sky's gaze fell on the most rounded one, and the scorpion was savvy and whispered: "Five blood When the furnace is opened, ten blood essences are refining, and there are more than 40% of the possibilities. Three Baodans are released."

"But nowadays, there are twelve pieces of refining, and there is even one of the best things refining the body of the semi-emperor strong body. Then, the twenty-three grades of this furnace, the chance of three being released is at least nine. If you are above, it is the probability of four, and it is more than 70%. As for the five...the top is 30%!"

For a moment, the starry sky was violent, and there was a hint of excitement in the words: "If you can add a piece of blood that is refining the blood of the body of the Emperor's body, this A furnace of twenty-three grades, the probability of five out of the furnace, will instantly skyrocket to ... 70%!"

"Even even the chances of six will reach 50%..."

When it comes to this, he can't speak any more, and the gods will spread all the time, covering the vast territory of the banned land, but they have not stopped here, and they are still spreading rapidly.

Although the duration of the First World War was not long, the entire six kings who had been sitting in the old nest in the forbidden city were completely ruthless. The half-employed Bimeng, who was wandering outside, could not have any sense. leaf

What Xuan wants now is his appearance. As a result, there will be one more high-quality king blood in his hand. For the twenty-three-level Baodan that is about to start refining, the significance is great... can

Unfortunately, after some exploration, until the powerful gods of Ye Xuan's emperor's realm extended to the extreme, they still did not capture any breath of the half-emperor.

This is absolutely unusual. The only explanation is that this half of the Emperor Bianmen did not return to his body after sensing the horror of the forbidden land, but the first time... he escaped! "

This battle has just ended, even if it flees, it has not escaped yet..."

Realizing this, the starry sky violently flashed again, and turned to look at the end of the void on the left side: "To escape the battle of the emperor, only to avoid the large starry forbidden land or the legacy of the people, This is a fierce beast, it is impossible to go to the Fu Niu Xing domain, the only choice... is Xu Sheng forbidden land!"

Here, the starry sky is no longer hesitant. In the wave, the green cow and the elephant fox in Shennong Ding are thrown directly by him: "The old cow, here is handed over to you... clean up the mess!"

Then, the giant scorpion swayed, and immediately turned to the left side of the void, spurting away...
