

## Super D. S 431

Chapter 431: Not more than?

"Is the last words finished?"

Ye Xuan head did not lift it.

"A good kid with a sharp tooth." Yan Chi Xu snorted.

Tang Huaizhi glanced at the two men and shouted: "The refining time is half a minute. If it is not refining within half a minute, it will be regarded as a failure and start timing!"

When the voice started, Ye Xuan and Yan Chi Xu were at the same time.

Qi Chixu directly selected five kinds of poisonous grasses, which are the five kinds that Tang Huaizhi took out. As for Feng Shan's, he did not move.

However, Ye Xuan is different. He not only took the five poisonous grasses of Feng Shan, but also used the two kinds of Tang Huaizhi.

A total of seven kinds!

"What is this kid doing, isn't it good to refine the heart of Dan, why do you add yin and lotus roots?"

Feng Shan and others behind Ye Xuan were shocked.

The five poisonous weeds that Feng Shanfang took out just happened to be able to refine a heart-breaking Dan, but now, Ye Xuan has added two more. What is this?

Seven kinds of mixed poisons, but not the average person can refine the success. Ye Xuan is just a layman who has been studying for a month. How can he be successful in refining?

Time, bit by bit.

Ten seconds!

Twenty seconds!

In twenty-five seconds, Qi Chixu was a refining success, and immediately he was the gloating face of Ye Xuan.

In another five seconds, if Ye Xuan did not succeed in refining, then the poisonous door would be lost.

Twenty-six seconds!

Twenty-seven seconds!

Twenty-eight seconds!

Finally, in the twenty-ninth second, Ye Xuan's furnace was a steaming roar.

Became!

"call!"

The people of Baidumen are relieved. Although it is completed, it depends on whether it is successful or not, and then it is more toxic than anyone else.

Ye Xuan, just completed the first step.

"Opening!"

Tang Huaizhi flashed a touch of color and shouted.

Ye Xuan and Yan Chi Xu simultaneously opened the lid of the furnace, and then took out a poison.

Qi Chixu's poison is black, very common, no lines, no fragrance, and looks very powerful.

The black medicinal herb of Ye Xuan is able to make a strange smell, which is quite good.

"Hey, even the cover smell can't be done, you are dead." Yan Chiu's heart is very disdainful.

"Change Dan!"

In the voice of Tang Huaizhi, the two of them each gave their poisonous dan to each other.

The atmosphere on both sides is also very tense and there is no extra noise.

At this time, Feng Xuan and others after Ye Xuan suddenly rushed out showed a confident smile. This is a reminder, because after this game, the five poisons are likely to start.

"Okay, let's swallow Dan!"

Tang Huaizhi can't wait to say.

Ye Xuan and Yan Chi Xu also sent the other's refining medicinal herbs to the end, and then swallowed them down.

Now Ye Xuan's anti-toxicity is not generally strong. The five poisonous grasses that Feng Shan took out can be immune. Even the three poisonous grasses that Tang Huaizhi took out have no effect on him.

Therefore, what Ye Xuan swallowed is actually a mixture of two poisonous poisons.

And the seven that were swallowed by Yu Xiaoxu.

"Hey, even the fragrance can't cover up, this Dan must be a waste Dan, not much toxicity." Yan Chixu thought in his heart.

The waste Dan is the remedy for the failure of refining. He thinks that Ye Xuan mixes seven kinds of poisonous grasses, which is a failure of refining.

Toxic attack, seven kinds of poisonous grass mixed together, if the dosage and refining techniques are wrong, it is often invalid and not very toxic.

However, Qi Chixu was wrong. He had just swallowed the medicinal herbs of Ye Xuan, and his face was changed.

He felt that his whole body's blood was rolling, and then his hands lost consciousness, then his legs, shoulders, stomach and even his face.

In the eyes of everyone, Yan Chixu's face became red, and the whole person seemed to be stuck in the same place. At this time, a cold wind blew, and Qi Chixu's body was planted into the mud, and there was no life.

Everyone was shocked. How long has this Nima been in the past few seconds?

At the moment, one of the poisonous doors is a person who rushes over and then checks the pulse of Yan Chixu.

"Without pulse, the whole body is suffocated and dead," he said.

Tang Huaizhi's eyes widened up, and as the other said, Qi Chixu was already dead.

God!

Qi Chixu is a genius of the fourth-order temperament. After taking this medicinal medicine for two seconds, he died.

Is this poison too strong?

"Uh huh."

Suddenly, Ye Xuan, not far away, snorted and proved that he was still alive.

In this game, the outcome is already very obvious.

"What mixed poison is that, why haven't I even seen it?" Feng Shanyu looked up.

At this time, Ye Xuan also solved the other two poisons, and then retired to the Baidumen camp.

"What is that medicine?" Feng Yaqing asked curiously.

The elders of the surrounding venoms also erected their ears. Obviously, they were very interested.

"Blood dan, if the fourth-order warrior is swallowed, the blood of the whole body will freeze instantly. If the coagulation powder is crushed into powder and sprinkled on the enemy's wound, it will have the same effect." Ye Xuan explained.

Now, his mission has been completed, and he is worthy of the treasures he has received.

Next, there may be a big fight, when he has to run away.

He can't participate in this kind of war, he can only take it once. Because he saw that the number of people who came to the five poisons was similar to that of the drug, so there must be ambushes around.

Feng Yaqing still wants to ask again, Tang Huaizhi is the loud voice: "Feng Lao Ge is really powerful, we have served this time."

"If this is the case, then go to the detoxification test." Fengshan said with a smile.

Detoxification test is actually a life-and-death battle. It is natural to send the strongest disciple Feng Yaqing.

And the five poisons, may be Yangming.

Yang Ming is Feng Yaqing's fiancé, but after that, he has been dead.

Feng Yaqing is stronger than Yangming in terms of his ability to poison or the realm. Therefore, Feng Yaqing won the third detoxification test.

"Slow."

Tang Huaizhi suddenly cried: "Wind brother, this third match, we are not comparing."

Feng Shan's eyes sighed. "Are you abstaining?"

"No, Feng brother, let me give you that plantation, I am willing to buy it at the market price." Tang Huaizhi whispered.

"buy?"

Feng Shan's eyes flashed a touch of color, and the piece of plantation was really a good thing.

"Why are you obsessed with the plantation site?" Feng Shan asked.

"This....."

Tang Huaizhi hesitated for a moment, said: "Feng old brother, you don't ask so much, I can buy it at a high price, you are definitely not losing."
