Chapter 4311: Half Emperor is like a fun dog

"call out....."

In the void, the sound of the air broke, and the thorns were incomparable. A mile rushed toward the front at a speed that surpassed the lightning.

The road is full of redness, which is clearly another red copper in the forbidden land.

This guy has always been wandering around the void in the universe outside the forbidden land, looking for the whereabouts of Ye Xuan, and even converging his body shape, the breath disappeared, as if the fear of being discovered by the other party is wrong, and the body is far away. but

Just now, he suddenly felt that the horror in the forbidden land, the six savage beasts, none of them survived, all were killed, and in a short period of less than half a column.

This is definitely the result of the shot of the imperial powerhouse!

The first time of the red copper than the Mongolian thought of the mysterious existence of the killing of the multicolored elk, even if it is not his own in the forbidden land, it must be able to get rid of it, at least it must be an accomplices! This

It was speculated that the red copper was shocked by a cold sweat, but fortunately, he had previously hidden his body shape, and he converges his breath to search in the void of the universe outside the forbidden land. no

Then, if the enemy captures his breath, I am afraid that I will suffer before the six beastmasters in the forbidden land were killed. band

After this fear, this red copper turned around and turned around in the first time, and fled to the void in the far side of the forbidden land.

In the surrounding area, there is only the Xusheng forbidden land in the far left of the void, and the Fu Niu Star in the distance to the right side of the void. There is a strong imperial person. If you want to escape the birth, avoid the emperor. The pursuit of the strong, the only way to live, is to enter these two places with the existence of a strong imperial power, so that the other side can be jealous. Two

Among the destinations, the former is the former, and the Fu Niu Xing is a remnant of the ancients. It is a large settlement of inhabitants. As a starry beast, he is simply not suitable to go there.

The Xusheng forbidden land is a forbidden land ruled by a fierce beast, and among the beastly kings in the forbidden land, there are several people who have a very good relationship with him, even within the three beasts. There is a private relationship with the red copper.

With the cultivation of his half-step imperialism, even if it is in this large-scale banned land, it can be mixed with the wind. Although it is not as good as the king's arrogance in the forbidden land, it is the affiliation of others. But it's better than it's now."

Roar! "

Just as the red copper was swept away from the body, and the speed was rushing to the far side of the sky, the distance behind the forbidden land, a shocking roar came. This

At the moment, a strong sense of crisis hit the heart of the red copper, so that his entire body trembled slightly, subconsciously turned to the first place, and exclaimed: "Damn, it is a starry sky." It's violent, and it's really a strong man. When did this void come out?

"What's more important is that he actually guessed the calculation of the king and chased it directly in this direction..."

In the line, a star-shaped violent starry sky stunned into the eye, the rich atmosphere of the emerald in the body, so that the red ramie than the scalp numb, eyelids are mad. he

It is certain that this starry sky has never been heard before, and it has never been heard of such a strong man, whether it is the Fu Niu Xing or the Xusheng forbidden land that is rushing forward.

But this is not the point. The point is that the other side is a true emperor. It is much faster than him. Although it is still far away, if you continue to do so, I will probably not be able to catch up with it.

Session

At that time, even if he is a half-emperor, and also has the gift of magical heritage in the blood, and the skin is rough and rough, but once the other side catches up, under the two sides of the war, he can not support the time of the small half pile of incense, Definitely to be killed on the spot..."

Oh..." with

As the crisis gradually approached, the heart was shocked, and the red copper was more screaming than the screaming voice. In the next moment, the strength of the body was fully opened, and the speed of the spurt increased by 30%, which was actually burning blood. The power to expand. and

Moreover, even the direction of his escape has been revised!

This place is still far away from Xusheng's forbidden land. There is another emperor who is chasing after him. He can't escape smoothly. The only vitality is a long-distance wormhole known to the red copper.

The entrance to this wormhole is not far away, and its exit is on the edge of the Xusheng forbidden land. As soon as it rushes into the wormhole, it can reach the Xusheng forbidden land in an instant.

However, this wormhole is not stable. There are still some emptiness in the air. Even if it has a half-step copper seal, it is very likely to be in danger.

If it is normal, he will not choose to go through the unstable wormhole to Xusheng, but now there is no choice.

Although there are dangers in the wormhole, at least there is still a line of life, and if it is still in the void in the air as it is now, it will soon be chased by the starry sky behind it, and it will undoubtedly fall on the spot!

"You... can't escape!"

"Roar!"

"boom....."

Behind him, the violent figure of the starry sky was close to a big gap, and the two chased and fled, all of them speeded up, but the distance between them was only less than 200 million. angry

In the snoring, the starry sky burst into a violent bang, and there was no movement in the void along the way. However, the red copper in front of more than 100 million miles, the back of the ridge, suddenly exploded a **** fog...

"Hey..."

The pain came from the heart, and the red copper was more fierce than the one in the mouth. This punch was too far away from the distance and did not cause too much damage to him. However, the pain of the flesh could not be avoided.

With the strength of this punch, the red copper bites his teeth sharply, and the screaming screams of the mouth come to an abrupt end. The body shape that was originally spurred is suddenly accelerated again. The strength of a punch, and rushed forward tens of millions of miles.

"Illness, no matter where you come from, no matter what background you have, today's revenge, this king will come to Japan to report..."

As the body spurt away, the front has already reached the edge of the starry wormhole, but the distance is only a million miles. The red copper has already hung up to the heart of the blind eye, and finally fell back to the abdominal cavity. he

The corners of the mouth are still hanged with blood, the look on the face is very incomparable, the Tang Dynasty is full of the nine-step grandeur, the supreme power of the half-step of the emperor's realm, today is actually chased in the void in the air like a house of mourning... two resentful resentment

The dawn of the light, shot from the eyes of the red copper than Meng, the mouth of the mouth is more resentful and the words of the sky are roaring. "

call out....."

In the next moment, a sharp and unspeakable sound broke out, and the red copper turned back. It was a glimpse of the emptiness of more than 10 million miles, and it plunged into a cosmic wormhole that was not very stable. The body shape disappeared and disappeared...

Chapter 4312: Harvesting

"Hey!" three

Not enough interest, the edge of this cosmic wormhole, once again sounded a weak sound of breaking, a body in the size of a giant, like a small star-like starry sky, Ye Xuan finally chased over. Do not

However, he did not directly rush into the cosmic wormhole in front of him. Similar to such a place, if it is not possible to determine the internal conditions, in general, it is absolutely not easy to enter, otherwise it is very likely to usher in an unknown. Accidental change.

"Ok?"

As a god's knowledge extended, and there was no wormhole in the cosmic wormhole in front, there was a scorn in the mouth of the starry sky. through

After exploration, Ye Xuan immediately determined the nature of this cosmic wormhole, and its internal instability is not. From a certain point of view, this is not a real cosmic wormhole, it is related to the void crack and cosmos. There is no small danger between the holes. "

Moreover, the exit of the wormhole is extremely far away. According to the breath of the void coordinates, it should be close to the Xusheng ban where the Emperor of the Emperor was in the middle of the town...

In the middle of the mutter, the starry sky is always flashing. this

At this moment, Ye Xuan has already realized this red copper, so why suddenly broke into this place is not stable, there are certain dangerous cosmic wormholes. Correct

The party is obviously fighting hard, not going in, it must be degraded, and ten deaths are inanimate.

And entering this cosmic wormhole, although there is the danger of degeneration, but at most it can only be regarded as a life of nine deaths, at least there is still a glimmer of life, how to decide, there is no need to think too much! "

Roar! "

After discovering everything, the starry sky was violent and reluctantly raised his hair with a roar, his body swayed, and he turned and rushed to the road... though

However, the red copper escaped into the past, but Ye Xuan did not intend to pursue it. The reason why he came back and wanted to kill the red copper of the first half of the emperor was only intended to be obtained again. One of the best products is the blood of the king.

This matter, for him, can only be regarded as a icing on the cake, and it has not been a major risk, but also must be done!

.....

Bimeng forbidden!

Suddenly, Ye Xuan threw it out from Shennong Ding. Whether it was a green cow or a fox, it was a slam dunk. Before they returned, the starry sky violently threw a sentence and directly spurred it. Going, the figure disappeared and disappeared. straight

At this time, the two cows, Qingniu and Xianghuyu, turned their heads and looked at it. After confirming the place where they were at the moment, this was the heartbeat, and the voice whispered...

"God, this is the banned land? What about the kings? Didn't see one, did you run all the time?"

"It should be no more, look, the forbidden beasts in the emptiness of the sky are all in the void, shaking and shaking. The strongest is just a few dozens of immortal seals..."

As the whispering sound came out of the mouth, the two cows and the elephant foxes immediately understood what had happened, and all the faces were exposed to the hustle and bustle.

This is a banned land, with eight beasts of the beastmasters, the strongest of the two red bronzes, even the two kings of the nine-step grand perfection of the king...

But now, judging from the situation at hand, in addition to the colorful elk that has been intercepted, the other seven beasts in the mid-level banned land seem to be all fierce. estimate

It's not that it's being bombarded, it's already fleeing, and the tyrannical screaming of the previous reason is obviously a rush to confess, and then rushed to chase it!

In the stunned, Xianghu whispered to himself: "This is the seven savage beasts including the two half-step emperors. He... How did he do it?"

"Oh..."

When his words fell, the green cows on the side were excited and screamed out of the sound of a sirloin. The whole cow was just like a shot of chicken blood. It was very exciting: "I understand the old cow." Daxie must have broken through again..."

"With the kind of anti-sky blood that he has in his hands, once activated, his body shape is skyrocketing, and his strength is also climbing several small steps, and he directly enters the realm of Fenghuang..."

So, what kind of politeness? This is a strong mid-level starry ban, but this morning has no defense, all the cultivation resources are ours! "

"As for the number of these banned beasts, there are too many, they can't afford it, or the old rules, killing 80%, leaving only 20%... Hey, want to live, hurry and scream!"

"Boom!"

The sound is still not falling, the green cows are stepping out of the four hooves, and in a moment, the tens of thousands of forbidden beasts that are not far from the emptiness in the air will be directly stepped into a **** fog, followed by the old guy. I squirted a nose and instantly inhaled the blood mist that was blown out.

The fierce slaughter was unfolding in an instant. During this period, a large number of forbidden beasts gradually recovered from the softness. If they did not say anything, they turned and fled in the first place.

"Hey!"

At the same moment, there was a terrible roar in the distance, and the starry sky returned! This

For a moment, the whole piece of vast and innocent sorrow was plunged into a mourning, all the banned beasts were completely desperate, once again collapsed in the void... blood

The slaughter of the cockroaches lasted for a little half a day. In the end, countless beasts in the entire forbidden land were killed more than 80%, and only 15% of the banned beasts were left behind, and the income was retained. Your Majesty, after returning to the Phoenix Blood Star Field in the future, will be incorporated into the army of the beasts under the Qingniu account. This

A total of more than 10 million beasts have been left behind by their lives, of which 10 are immortal, and nearly immortal. first

In the past, among the beastly army of the young cows, the total number of beasts has been tens of millions. In the whole army of the beasts, a total of eight heads of the immortal beasts are commanded, and more than one hundred and thirty are ordinary immortal. The beast leader! and

Today, after this expansion of the army again, the total number of banned beasts in the entire army of beasts is close to 30 million. Among them, the common immortal beasts are in their early twenties, and even the immortal beasts are sealed. The number has also reached 18. whole

The overall combat power of a beast army army can be described as a big increase!

"call out!"

"Hey..."

After all the beasts in the forbidden land were all processed, the green cow rushed to the front of the starry sky, followed by a cow mouth, and a large number of broken sounds sounded in an instant. from

Within his wide open mouth, a large number of fierce beasts that had already been compressed into spheres spurted out, densely covered, and a large piece of space was laid in the void between the blinks.

These fierce beasts that have been compressed into **** are all the gains that have been made to kill the massive forbidden beasts. Now they are all taken out by the green cows and handed over to Ye Xuan. Milli

Undoubtedly, as these fierce beasts are sent to Shennong Ding to carry out blood condensing, Ye Xuan's hands will once again produce a large number of fierce beasts of various grades. As a result, once opened, he is in his hands. The number of various levels of Baodan will usher in a substantial increase...

Chapter 4313: Open furnace

The blood of these fierce beasts is the lowest of the flesh and blood of the cosmic beasts in the universe. Because the vicious beast of the universe can be used to refine the 20th-level Dan that breaks through the immortality.

Twenty-level Dan is the lowest level of Bao Dan that Ye Xuan is now interested in refining.

A twentieth-level Dan represents the birth of an immortal grotesque. It is barely able to enter the eye. Below the twentieth-level 19th-level liquid, he is too lazy to prepare, the survivors of the entire Starry Nomadic Legion, fierce There are too many beasts and powerful people in the world. If everyone breaks into the universe, they need to rely on Ye Xuan to provide nineteen-level liquid to achieve it. It is estimated that he will be exhausted. he

It has already been decided that below the cosmic level, I will work hard, and after the cosmic level of the 9th order, there will naturally be a 20-level Dan to help them break through to immortality!

The number of forbidden beasts in the entire Forbidden City is too large to count. Even the beasts above the universe have a lot of numbers. This time, the vicious beasts and blood **** are densely packed in a large space. People are dizzying. "

OK, the two of you, with the army of the beasts you just assembled, go to the thousands of life stars in the entire forbidden land, collect all the cultivation resources, and then make a book..."

The first sweep to the green cow and the elephant fox, Ye Xuan confessed to the task, a wave of all the fierce beasts floating in the air in front of the body, the blood ball into the Shennong Ding, and then swayed, directly rushed to the distance A huge abandoned star.

These beasts are not stable, and the longer they are kept, the more blood is lost. Therefore, Ye Xuan must condense them into beastly blood as soon as possible, so that there will be no more blood. The power is lost. "

call out! "

After entering this star, Ye Xuan waved his hand and directly sacrificed Shennong Ding. Then, the massive beastly blood ball that was harvested in this battle was all smashed by his fierce beast. Take

After the power of Shennong Ding and now, after the smelting of the seven-color flame, even though the number of vicious blood **** that were put into this time was horrible, the whole process was completely over in just over one hour.

For more than an hour, all the beasts and bloodballs have been refined into a beastly blood, which can be used to refine the twenty-two seals of Wang Baodan, which has more than 60 pieces. Together with the two that were previously collected in the hands, there are sixty-eight seals of blood. seal

There are more immortal blood and cosmic bloodstains under the waiting list! will

After these fierce beasts and bloodballs have been condensed into blood, Ye Xuan did not stop at this, but when the universe, immortality and seal of the blood under the king's blood, the treasures began. Dan refining! three

Furnace Baodan, due to different grades, this time there is no way to get into the bones and go all out. leaf

Xuan began to refine from the blood of the universe, spent half an hour, and was released to break through the immortal 20-level Dan more than 3,000 pieces, plus the previous two thousand stocks already owned, now, he The 20-level Dan in the hands has reached as many as 5,600 giants! This

Five thousand six hundred and twenty twenty-level Dan, representing five thousand six hundred immortal old monsters, it is estimated that it is necessary to scare a large piece of the king and the emperor.

For a long time, the 20th grade Dan was enough. tight

Then it was made with the immortal blood refining system to break through to the 20th-level Dan, which was immortal. This time, it took an hour, and the number of 20-level Dans released was much less, only 280, plus The original 259 stocks in the hands of Shang Ye Xuan, now, the total number of 20 first-class Dans in his hands has reached 539! most

The latter furnace is based on the blood-smelting refining system to break through the 20th-level Dan of the immortal king of the king. The blood-stained essence in his hand is only 68 pieces. If the whole furnace is finished, according to Ye Xuan It is estimated that more than twenty-five twenty-two Dans should be available. Two

After an hour, the furnace was completed in the 20th and second grades. The number of Baodans that were finally obtained made Ye Xuan feel quite surprised, actually there were thirty-one. Such as

This, together with the eight stocks that he had in his hands, Ye Xuan now has twenty-two dan, the total number has reached thirty-nine.

Don't look at the small number, but what it stands for, but the thirty-nine kings are immortal, even if it is the top-level large-scale forbidden land, I am afraid that there are only so many kings immortal! Such as

Today, Ye Xuan's hands broke into the immortal 20-level Dan, more than 5,000!

Break through to the 20th level of immortal Dan, there are more than 500! very

Even the 20th and second dan, who broke through to the immortal king of the king, have thirty-nine...

Looking at the number of all the treasures in his hand, at this time, the leaf scorpion of Ye Xuan, who has recovered from the violent temperament of ten feet, has been flashing, and there is an excitement that cannot be suppressed. "

Previously, it was always in the battle, condensing the various levels of Baodan as a reserve. After all, the entire starry nomadic army was too large, and the number of genus was too speechless..."

In the whisper, his mind gradually let go, and his mind relaxed a lot: "But now, from ordinary immortal to immortal, the three levels of Baodan reserve are extremely impressive."

In this way, in the near future, there is no need to deliberately carry out large-scale conquests, and then refine the various grades of Baodan, and reserve them, and finally have a sigh of relief..."

However, not long after, even the owner of the star must use the twenty-three grades of Dan, but now there is not even one, this matter can no longer be delayed! "Say

Here, Ye Xuanzhong once again picked up the fine mans, and the heartbeat was somewhat accelerated: "Twenty-three grades of Dan are used to break through the realm of Fenghuang. Now the materials are ready, just open the furnace, immediately Can be condensed."

"After the completion of this incident, I have completed a wish. From then on, my master's cultivation in the ordinary state has been able to achieve the immortality!"

But then the pressure that will be pressed will be even greater! ""

After the emperor's emperor, he was the emperor, breaking through the twenty-four-level Dan of the emperor's realm. Although his perfect Danfang has already been derived, if he wants to refine the refining, even if he only refines a twenty. Four-level Dan, you must also make up five pieces of Fenghuang blood before you can do it..."

This is the blood of the emperor, far from the previous blood of the king! "

"In the past, it was just that it was so hard to get the twelve kings of blood in the hands. It took so much effort and energy. The next step is to make up five pieces of blood. The difficulty is at least several times. the above.....""

What's more important is that the emperor is immortal, only the large starry sky is in the forbidden land, and there is only one place in the surrounding endless void, even if the large-scale starry sky is forbidden. I'm afraid it's hard to make up five pieces of the emperor's blood..."

Mind this way, Ye Xuan made a decision in an instant, and subconsciously grasped the double fist: "Can no longer delay, immediately refining this furnace twenty-three grades, and then immediately rushed to Xusheng forbidden land, trying to raise Fenghuang blood essence..."

Chapter 4314: Twenty-three treasures

Refining a furnace Baodan, at least five beasts of blood, plus other top-grade auxiliary materials on the Dan side, can be opened for refining.

The more the amount of blood sperm, if the refining is successful, the number of Baodan that will be released will be more! This

Once, Ye Xuan refines the twenty-three grades of Dan, and has gathered twelve pieces of blood-stained kings and twelve pieces. He plans to make a good meal, and there is even one that is refining the body of the semi-emperor. The best of things. that

What is the twenty-three grades of this furnace, the probability of three out of the three is at least 90%, it is the probability of four, but also more than 70%, as for the five at most 30%!

In order to extract as many as one or two twenty-three-level Baodan as much as possible, this time, the other auxiliary materials on the Danfang prepared by Ye Xuan are selected as the best quality in the hand.

Twenty-three grades of Dan Tai are precious, and one represents the immortality of a royal emperor. If it is placed in the major tribes and top forces of the three major stars in the world, one can make them mad. can

Say no to be sloppy! Swing

All the Baodans that were previously refining were all packed in jade bottles. After properly collecting the closed caves at the bottom of the volcanoes in the central area, Ye Xuan's body shape swayed directly to the Shennong Dingkou, where the colorful fog was squatting. under.

Twenty-three grades of Dan have not been refining, no more than the previous three-level Baodan, so he did not dare to take a light point when refining, and must go all out. no

Then, in the event of a failure in refining, Ye Xuan may have even a crying mind... It's just a collection of materials that makes people feel distressed.

Soon, as his body fell into the seat of Baoding Dingkou, the bottom of the volcano in the central space of Shennong Ding was instantly in motion.

"call out!"

Oh..." with

A faint sound of broken air rang in succession, and a large number of secluded spurts from the high point of the volcano above the central volcano, directly appeared above the flame pool at the bottom of the volcano, and briefly hovered silently. This

These fascinating, it is exactly the top materials and cultivation resources that Ye Xuan prepared for this time. tight

Then, from the flame pool at the bottom of the volcano of the central domain, there will soon be a fascinating Shennong seven-color flame whistling, and in a moment it will be condensed into a colorful furnace.

This colorful stove is small and simple, revealing an extraordinary atmosphere. under

For a moment, the materials and resources of the beastly bloodstains, which have already been prepared, all flew up automatically, and they did not enter the fireworks of Ding Ding, which was only the square of the square. Since then, this furnace has been refined by the twenty-three-level Dan. It's officially launched...no

Unconsciously, time is slowly flowing..."

boom! "and also

I don't know how long it took, and there was a huge roaring sound above the flame pool at the bottom of the central fire.

In the line of sight, the furnace that was purely condensed by the seven-color flame of Shennong was scattered, and a colorful fireworks like a river was rushing back to the flame pool below.

And still staying above the flame pool, it is a ball of the size of a baby fist, and the blood of the previous beast is as big as a head, but it is completely different. blood

The essence is blood red, with strong blood and blood, and these beads are also the size of the baby fist, but the color of the colorful, the surface has a dreamy halo, showing a simple and heavy atmosphere.
One

The stock is extremely rich, and the emperor's breath is coming...

Twenty-three treasures... refining success!

"There are actually five..."

Open your eyes, Ye Xuan's bottom flashed a flash of excitement, and the voice whispered... though

It is said that this time, the refining and refining of the twenty-three-level Dan, the blood of the King of the King that he put in has 12 pieces, and there is even a semi-emperor that is condensed by the blood of the body!

Even so, the possibility of a five-dan is only 30%. to

In the six, that is not a Chengdu, there is no need to expect, do not think about it.

Such a small chance has turned into reality. It can only be said that this time Ye Xuan is simply a big outburst, and the harvest is amazing.

"Five twenty-three grades of Dan, I will use one of them myself shortly afterwards, and the remaining four will, in the future, let the four princes in the account be immortal!"

Excited, Ye Xuan whispered, and even the breathing was a little rushed: "The five strong emperors, even the general large-scale starry forbidden land or the survivors of the stars, have no such power...today, the stars The Nomadic Legion finally made the atmosphere a success, and it was able to stand in the vast void of this vast universe!"

As these thoughts flashed, Ye Xuan's heart suddenly moved, and the whole state of mind had some kind of mysterious change. It was like an epiphany. In the past few years, the rapid breakthroughs in the past, resulting in a hidden danger of the state of mind, actually In an instant, it will be completely closed and disappeared no longer! This

Perhaps he has also repeatedly shot with him in this place, and has successively battled the eight great beasts of the beasts, and the successively refining the ranks of the beasts of the beasts is related to Baodan!

But no matter what, there is one thing that cannot be ignored. that

It was just that the hidden dangers of his mood were gone, and Ye Xuan, who had been unable to try to break through in the short term, could finally start the comprehensive improvement of the realm again..."

This time, the state of mind is stable, like an epiphany, the benefits are not small..."

In the whisper, he even made a new decision: "Looking at this opportunity and breaking through once again is what it should be!"

"call out!"

"咻咻咻..."

For a moment, with Ye Xuan waving, a large number of cultivation resources were taken directly from the immortal boundary of the body by Ye Xuan... Ten drops of evil source liquid, two hundred cubic meters of purple gold top flesh and blood medicine, and various top treasures Medicine and hardened materials, etc.! he

Even from the ruins of the ancient treasures of the ancient caves collected in the closed caves at the bottom of the volcano in the central area of Shennong Ding, a bird's leg was cut.

This piece of poultry leg is taken from a powerful bird of the ancient wilderness class. Although it only takes a small piece, it has hundreds of cubes. It is purified by the Shennong seven-color flame and goes to its dregs. Shennong seven-color flame is baked to golden oyster sauce, and finally there are about two hundred cubic meters left, suspended in front of him. tight

Then, Shennong Ding's domain field power can be motivated, suspended in the front of Ye Xuan's cultivation resources, compressed in the blink of an eye, turned into a baby-sized ball, he was swallowed directly, Rolling down the belly.

This time the breakthrough, this is the beginning...

"boom!"

A huge roar sounded in Ye Xuan's body, and he swallowed the ball into his abdomen, and instantly became a majestic energy river.

A breath of near-destroyed land swelled in the limbs of Ye Xuan's body. It was like a raging anger. The next moment, a strong tingling sensation came from this time. This time it was too strong, perhaps because of that. The energy of a small piece of quasi-aged ancient energy-class poultry is extremely fierce...

Chapter 4315: Feng Wang fifth

With the energy of the body rolling in and out, Ye Xuan, who is kneeling in the fog of Shennong Ding Ding, the look on his face has become awkward because of this pain.

The energy contained in this great energy river is rapidly turning, causing him to have a billion-thousand-thousand-thousand-thousand-thousand pores in his body. Nowhere is he not smearing Baoguang Xiarui. The whole person is like a god, and it blooms. Huimeng! "

Hey! "

....." and

At the same time, the inside of the body of the body, the overwhelming chain of squeaking sounds continued, when the energy of the enthusiasm to the extreme energy of the river, the body of his body has been shaken because of the potential of life, and appeared A stout body chain.

What he needs to do now is to spur the violent energy of the body that is rolling in and out, tearing this quietly shackled chain, to do this, and to cultivate it as a realm, it will rise again in an instant! "

Hey! ""

Rumble! "

.....From

From this moment on, Ye Xuan's body treasures are like a sky-turning, and the sound of the chain has not stopped for a second. can

The vast and incomparable rivers are rolling in and out, and every moment is inciting the chains of chains that appear in his body. The loud roaring sound is deafening, like a catastrophe! Time

Everything slowly passed, and every second, Ye Xuan was suffering endless pain. and also

I don't know how long it took. In the end, when his consciousness gradually returned, he discovered that the roar of the body continued to disappear. that

The energy of hanging up the river is no longer!

A touch of clearness rushed to the heart, Ye Xuan opened his eyes, and then, the expected system prompts, it was instantly heard in the brain...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the king of immortality!"

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: the king of the immortal fourth order!"

Once... a smooth breakthrough! in

Before this, the cultivation of Ye Xuan's deity has reached the third level of the immortal king of the king. Once the three-headed and six-armed Taikoo konjac blood is activated, the strength is once again soaring and directly climbs to the fourth stage of the imperial king. If

It is to display the konjac and change the magical powers, and reach the sixth change, and it will be able to reach the immortal first-order terrorist strength in an instant. and

This time, when his cultivation is once again ushered in a breakthrough, with Ye Xuan's deity in the ordinary state, he will enter the immortal fourth stage of the king, once he activates the blood of the konjac in the body, and enters the konjac Six changes, its peak strength, will instantly reach the second stage of the immortal.

If it is coupled with the huge konjac of the tens of thousands of people, the horrible blood and blood of the real body, the current Ye Xuan, even the third-order empire is immortal, can be fearless!

"call out!"

When the sound of the air broke, Ye Xuan's body shape had already left the Shennong Dingkou where the colorful fog was.

I felt a lot of strength in the body, and his face showed a satisfied smile. Count

Counting the time, it is three days since he entered this abandoned star to carry out various blood and treasures.

Although Bimeng's forbidden land is vast and vast, it's just a thousand stars of life, and it's more than a thousand. The richness of various resources within it is obviously conceivable.

However, after the previous World War I, there were more than 10 million banned beasts under the new income of the young cattle. These forbidden beasts are all aborigines than the banned land, and they are very familiar with this star field. Have

More than tens of thousands of forbidden beasts have been shot, and the various cultivation resources in more than a thousand life stars should not be collected for too long.

Three days, it should be enough!

One thought of this, Ye Xuan waved Shennong Ding, and his body shape shook, and instantly rushed out of this abandoned star, appearing in the universe under the atmosphere of the stars.

"Hey!"

The body shape has just emerged, and in the far-away sky, a huge sound of burdock has been heard, revealing endless excitement and excitement.

Obviously, the young cow has long waited in the outer universe of the universe, perhaps because it is guessed that Ye Xuan must be retreating inside, or refining Bao Dan, this guy did not bother to go directly into the interior of the stars.

"Great, congratulations, and broke through..."

Before, the deity of Ye Xuan was cultivated in the normal state as the third order of the immortal king of the king, and activated the blood of the konjac in the body. When the starry sky was changed to ten feet, it was the fourth order of the immortal king. and

Right now, as he breaks through again, now in the violent starry sky of ten feet, the strength has already reached the fifth stage of the immortal king of the king. The old guy of the green cow is very ghostly, and at first glance he sees Ye Xuan. Optima launched a real-world impact and successfully broke through. this

Engraving a mouth, it is a good word, while talking, a pair of huge calves, but also dripping, and constantly sweeping on Ye Xuan's body, as if searching for something.

Ye Xuan knew it, but he didn't know it. He didn't pay attention to the old guy at all. When he reached out, he said, "What about the list?"

This harvest is all the cultivation resources in a whole medium-sized starry ban, and the amount is so rich that even Ye Xuan can't beat it. especially

It is within the nest of the two half-emperor than the Mongolian nest, there must be a large number of top treasures and other resources, and maybe you can find the twenty-four treasures from the middle, even the twenty-five-level Baodan perfect Danfang needs The medicinal materials, therefore, Ye Xuan is extremely concerned, directly asking for a list, so as not to be greedy by the old goods of Qingniu. "

Head, the list is here, but the resources are in the hands of the two kings..."

As soon as the voice fell, the elephant fox rushed over and reached out and handed a black jade to Ye Xuan. This

The guy is also a personal fine, knowing that Ye Xuan let him and Qingniu collect the trophy resources in the forbidden area, that is, to guard against this shameless old cow, so it is particularly exciting, there is a kind of self is Ye Xuan A true sense of belonging! "

Hey! "One

Next, the blue cow snorted with great dissatisfaction, squirting a nose, and then there was a mans shot by his hoof, falling into the hands of Ye Xuan, a space bottle. very

Obviously, all the trophistic resources collected from the more than a thousand life stars in the forbidden land have been placed in this space bottle.

"call out!"

"Hey!" two

The weak voice of the road sounded, and the list of war resources and the space bottle were collected by Ye Xuan in the immortal world. The profit of this harvest is too much, even if it is inspecting, picking the top priority. Materials will cost a lot of time, and now it is obviously not the time to do this. return

Take your head out and slowly comb it! "

Head, that... This battle, the blood of the king in our hands seems to have twelve pieces, right? "just

Putting the list of jade slips and space bottles, the blue cows on the side smashed over, licking the old face and rushing to smile, and finally swallowed the water subconsciously, and snorted: "Twelve seals of blood, At least three or four pieces of Fenghuang Baodan can be produced. You see the old cows... Can you divide one?"

Chapter 4316: Zixia

"Twelve kings of blood, and one of them is the best of the semi-emperor strong... This furnace is indeed satisfactory, and a total of five!"

The first look at the green cow, Ye Xuan nodded, said that half of the sudden, the words turned: "How? You want one?"

Think, how can you not? "One

Listening to this furnace Fenghuang Baodan actually produced five pieces, Qingniu excitedly squirted a nose on the spot, four hooves eagerly planed in the void, panicked and nodded again and again: "This is Fenghuang Baodan As long as the strength is up to the ninth stage of the king's kingdom, swallowing one, you can immediately become a fierce beast, the old cow I want to stop? Just ask for it..."

So what are you doing now? ""

Seal the king! Seal the king... first order! "With

Ye Xuan liked to ask again as a mouthful, Qingniu excited, did not think much, did not answer subconsciously, just half said, the old guy's eyes are rounded up, straight hook Staring at Ye Xuan for a while.

Finally, I was suspiciously answered: "Oh, what do you mean by this question? The old cow I... It will take a long time to get to the end of the seal of the King of the King!"

Then wait until you get there. Anyway, you just said it, it won't take long, don't worry! "

Ye Xuan secretly dark music, but his face did not show up, once again inadvertently returned such a sentence, then his body swayed, directly to a distant star spurting away: "Okay, put all the beasts They are summoned, and they are not allowed to go out at will. There is one more thing for the king to do. After the completion, we will leave!"

thump! ""

Oh..." straight

At this time, Qingniu finally came back to know that he was set by Ye Xuan. The old guy's face is thick, but he just said the words, but he was too embarrassed to change his mouth on the spot.

What's more, there is a fox like a beggar, staring at him with a strange look. heart

Under the head depressed, the old guy's face suddenly showed a sorrowful color of sorrow and anger. He fell into the void and raised his voice with a burdock. The meaning of the resentment was simply a tear. Resentment...

Ye Xuan did not pay attention to him. His body shape has already reached more than 100 million miles, and he rushed to a giant abandoned star not far from the front.

This abandoned star is the final position pointed by the nine-day mysterious woman's interstellar coordinates. According to the nine-day mysterious woman, this star was a living planet of life, but now it is I have already lost my vitality. After all, the flood of the year has long since been countless years...

Is a life star, Ye Xuan will hesitate, after all, even if this is more than a thousand of all life planets in the ban, the internal important resources of cultivation and various treasures, have long been green cattle and elephant fox With more than 10 million forbidden beasts, the life star is quite precious, and there are various living beings in it, completely destroyed, and there are many dry days. but

It's just a waste of life that has long since lost its vitality. There aren't so many concerns. It's just a big stone."

boom! "less

After that, Ye Xuan arrived at the abandoned star, but did not enter the interior of the star, but stopped in the void of the universe beyond the millions of miles of the stars. After some exploration, he swooped his fist and slammed it.

The thunderous sound of the roaring sound blew, and the whole star of the big star shattered into countless large and small pieces of stars. In it, a smudge of purple blue appeared quietly, and the first time was sharply captured by Ye Xuan. Arrived! "

call out! "eye

Under the skinny jump, Ye Xuan's breathing was immediately rushed, without hesitation, immediately beckoning, in front of the star bursting stars, even if there is a touch of purple blue glare, Ye Xuan body In addition to the former Baizhang, hovering. This

It is a piece of blue sapphire crystal, which is the size and shape of the scorpion. In its interior, it seals a woman, a purple dress, and even the hair is purple. Closed eyes, just like sleeping. Going to the general. This

The purple temperament of the purple skirt is like a fairy, the appearance is noble and dusty, beautiful to suffocating, and the other six women like the nine-day mysterious girl and the phoenix goddess, although she has already fallen, there is no life. but

This is sealed on the predecessor treasure of a piece of intact sacred jade crystal, but there is no scar, even the purple purse that shines in the glory, there is no wrinkle! "

A strong breath..."

Feel the faint scent of energy in this sacred jade crystal, Ye Xuan can not help but shake, this power has even surpassed the realm of the emperor, if there is no accident, it should be sealed The emperor is immortal. This

It's not just a sigh of relief, but a real energy. If

Said the pressure, Zixia fairy past life and the nine days of the mysterious girl and the phoenix goddess and other six women, are also the existence of the ancient power level of the wild, after the fall, the previous treasures, still able to capture this ancient power level The unique pressure of the atmosphere.

But for the moment, what makes Ye Xuan marvel is not the residual pressure that represents the level of his previous life, but the power that is truly contained in this complete treasure..."

Previously, the nine-day Xuan Nuo once said that after the fall of the soul, Zixia Fairy was consumed by her in the first time, sealed on the spot and sent to the core of the star..."

If there is no accident, once the spiritual origin of the purple scent of the scent of the scent of the scent of the scent of the scent of the scent of the singer, reinventing the present body, then, once it is awakened, it can at least reach the emperor and be incomparably Close to... the land of the emperor! "

Having said that, Ye Xuan's fine flashes in his eyes, the breathing is getting more and more urgent, and the depths of his eyes are deep, and he is full of inexhaustible and savage: "Now it seems that the energy in this predecessor's body is so powerful. The mysterious speculation... is very likely to become a reality!"

"Hey..." just

Speaking of this, the immortal world in the body suddenly came a faint humming sound, Ye Xuanfu to the soul, subconsciously waved his hand, and immediately saw a secluded shot, rising in the wind, shortly In the time, it has turned into a pink pipa with a hundred feet. positive

It is a waste of ancient treasures--- want to smoke! "

Master, I am Zixia..."

Just took Bao Luo's sacrifice, and this one of the pink scorpions that stretched in the wind, the first time came a voice of eloquence that was firm and firm: "Thank you for helping me find the treasures of the past. With its help, Zixia not only can immediately reshape the true body of this world, but once it wakes up again, it will at least reach the mid-season of the emperor..."

In this world, Zixia is able to have the power of Fenghuang and finally be able to protect the mysterious female sister! "

Chapter 4317: Half emperor

"Sure enough, is it the land of the emperor? Great..."

Hearing the voice of the origin of Zixia's knowledge of the smog in the smog, Ye Xuan's moment was lit up, and the breathing was more urgent. He quickly asked: "Zi Xia, I don't know if you used this predecessor's weight to shape After the present, the strength can be restored to the first stage of the Fenghuang? Initial? Mid or late? The difference is very big..."

"The environment of the emperor is absolutely guaranteed..."

Bao Luo Nei, the voice of Zixia Fairy once again came out: "But in particular, at which stage of the imperial power, there is no way to judge, you have to recover the previous treasures before you can make a detailed estimate..."

Ye Xuan was anxious to hear, and repeatedly urged: "What are you waiting for? Hurry up to collect..."

"call out....."

The voice just fell, a purple mangling shot from the pink Bao Luo stretched in the wind, the blink of an eye did not enter the blue Xuan Yu Jing Jing in the front of the square.

Almost at the next moment, the whole piece of Xuanjing collapsed and collapsed into a purple-blue energy light. Like the countless worms in the night sky, the glare went away, and all the eyes disappeared into the pink scorpion. It disappeared.

Ye Xuan did not urge, waiting quietly.

After touching the number of interest, the voice of Zixia Fairy finally sounded: "Master, the predecessor treasure is relatively well preserved, and because the mysterious female sister used this source to form this blue mysterious marrow marrow crystal, help Zixia save Former life insurance, even if it has experienced endless years, the energy retained is still very strong..."

"So, according to Zixia's estimation of the energy in the treasure, after rebuilding the treasure, Zixia will immediately have the strength of the seventh stage of the emperor..."

"The seventh order? It's not bad... This is the end of the emperor's immortality. There are only two small steps from the peak!"

Ye Xuan's eyes lit up in an instant, excitedly rubbing his hands again and again. When he said half of it, he suddenly thought of something, and the words suddenly stagnate, and then immediately waved his hand, directly to the front of the pink 绢Shoot it.

This imaginary contains a large number of top-level cultivation resources, only ten drops of the evil source liquid, other such as purple gold top flesh and blood medicine, etc., each of the top treasures of the treasures are a lot.

"Oh, these are for you, and can help you to reinvent the strength of this world, to further strengthen your strength..."

After the injection of the pink mantle, Ye Xuan was able to speak again, revealing the meaning of excitement and expectation: "Reinventing the real body is equivalent to a major opportunity to break through and stand up. With the help of these top resources, you Once you wake up, your strength will definitely be stronger..."

"Is there a dozen drops of evil source?"

In the pink Jurassic, Zixia immediately sounded a deep surprise: "Thank you for your master, reinventing the true body of this world. For Zixia, it is indeed a great opportunity to lay a solid foundation!"

"With the help of these top resources, if there is no accident, wait until Zixia successfully builds into the true body of this world. After waking up, the strength should be restored to the eternal perfection of the imperial ninth order, that is... The realm!"

"hiss!"

"What? Half Emperor?"

Ye Xuan immediately widened his eyes, and the sound of coolness was heard in his mouth. He whispered: "On this ten drops of evil source liquid, you can make you rebuild the strength of the real body and climb two small steps. Why don't you say that this kind of evil source is precious, but there are still hundreds of drops in my hands..."

"Ten drops are enough..."

Without waiting for him to finish, Zixia's voice has already sounded again: "Even if the master gives more, Zixia's cultivation can only be restored to the semi-empirical situation. It's impossible to jump directly in any way. Boarding the emperor..."

"The reason for this is hard to say. The emperor's immortality is a very peculiar level of realm. When the master breaks into this realm in the future, he naturally understands the meaning of Zixia. Now... it is difficult to use words to make it clear. The subtleties!"

"Is there still such a thing?"

Wrinkled, Ye Xuan secretly recorded this matter in his heart, did not entangle too much, after a little thought, when even nodded: "So, you will reconcile, reshape the real body, and strive to complete as soon as possible All this, wake up!"

"Master, Zixia went! See you in the future..."

Pink Bao Luo, the last sentence of Zixia finished, immediately there is no sound, this girl's temperament is soft, but it is quite a bit of a feeling of softness inside, just acting resolutely, without a little bit of muddy water.

"I just don't know if this girl is reshaping the true body of this world. How long does it take to wake up..."

Looking at the smoke in front of the hundred feet in front of the wind, Ye Xuan whispered, for a moment, actually lost some.

But in the middle of it, it's a glimpse of what it's so long...

Fenghuang Jiujié Daquan is perfect, that is, half-step enshrined, this is definitely an extremely powerful existence. I dare not say that it can be rampant in this mysterious and devastating piece of land, but it is basically difficult to meet again. A rival that can match.

At least, in the two known places of Ye Xuan, there is the power of the imperial power, that is, the Xusheng forbidden land and the Fu Niu star field, it is absolutely impossible to have such power.

"I don't know if the star owner himself will be able to step into the realm of the emperor..."

Thinking of this, Ye Xuan's face could not help but show a strong fascination.

Immortality of the five major realms: ordinary immortality, immortality, immortality, immortality, and the last emperor immortal... Ye Xuan was originally immortal, seems to be close to yesterday, but in the blink of an eye, now, Unexpectedly, he has grown to the fourth stage of the immortal kingdom, which is the mid-term.

This kind of speed of entry, I dare not say that there is no one before, but I am afraid it is almost the same.

But it's just that, but it's still not enough. In the middle of the king's reign, it's just that it's immortal, and there are two big realms, not to mention the emperor's immortality, the cosmic lord, the cosmic master, the cosmic supreme, And the five realms of the ancient powers of the ancients, the ancients of the ancients!

In the future, once the vast world of the wilderness has come, the wilderness will be flooded with a lot of snow, or the wilderness of the wounds will be restored. Ye Xuan is only able to seal the king's immortal mid-term cultivation, and wants to enter the ancient and supreme environment. In total, there are still seven major realms that need to be broken.

And every big realm has nine small steps, so if you want to enter the ancient and supreme, you need to break through at least sixty times...

Sixty times, this is not the initial stage, but the late stage of the starry sky. Even a small-scale breakthrough may take a long time, sixty times... now I can think of it. In a moment, let Ye Xuan give birth to a heavy sense of powerlessness!

"So it seems that the pressure on the shoulders is still huge, and the breakthrough of 60 times... is desperate!"

Speaking of this, he sighed and sighed, shaking his head and smiling. When he waved his hand, he immediately took the smog outside the hundred feet to the immortal world.

Then he turned and rushed in the direction of the arrival...

Chapter 4318: Going to Xusheng forbidden land

"Hey!"

Just back to the previous area, I met the green cow with four hoofs, and the old guy was still a deadly virtue. It was only a blink of an eye, and it was resurrected with blood. Like, the fart is gone, and Ye Xuan is also silent for a while.

"Da, all the banned beasts have been summoned. Is it right to call the camp back immediately?"

Before and after Ye Xuan's body, Qingniu had a sudden brake. Without waiting for Ye Xuan to speak, he hurriedly urged him up: "Isn't your business done? If nothing else, we will return to the old nest immediately." Let's come out for so long... I want to go back!"

"what's the situation?"

Ye Xuan frowned, turned to look at the side of the elephant fox, and then glanced at the back not far from the void, already tidy into a square array of more than 10 million forbidden beasts, suddenly there are species Inexplicable feeling.

This old guy is really weird. When he didn't come out from the phoenix star field, he was screaming to come out. Now he just took the ban, he hurriedly urged Ye Xuan to hurry back...

Elephant foxes are also confused, looking at Ye Xuan with a stunned look.

"In fact, there is nothing. Dahao, I am trying to close the old cow..."

Ye Xuan's words just fell, Qingniu took over his words, quite a kind of posture that could not wait: "Look at you, I was a big cow, but I broke into the royal world with you, now though I haven't had much time left yet, but you are already the fourth-order immortal king, but I'm still in the first place..."

"This can't be tolerated!"

Speaking of this, the young cow smashed the head of the cow, squirted a nose, and the face was firm: "Fortunately, the old cow, I realized it, and it is not too late, so I urge you to go back."

"I have already thought about the old cows. This time, I will not break through to the strength of the King of the Kings. I will stop going outside when I am killed. Youth is so wasted... I can't look back!"

When he heard the words of the king's nine-step grand perfection in his mouth, Ye Xuan immediately realized that he had come over and turned his eyes.

After a long while, this old guy is still thinking about the twenty-three-level Dan who can help him break through the immortality of the emperor. This one is shocking, but it is quite a moth.

"Okay, this king is always seeing it. I won't give you this twenty-three-level Dan. I haven't known any other movements during this time..."

Shaking his head and smiling, Ye Xuan suddenly waved his hand, and immediately there was a rush to the green bull.

This is an emerald green jade bottle, which is loaded with one of the five twenty-three grades of Dan... Of course, it is impossible to be the best quality, but Ye Xuan gives himself Stay.

"Fenghuang Baodan?"

Seeing this glare, the green cows rounded up their eyes in a moment, and when they screamed and screamed, their body shape slammed up, like a hungry tiger, they would The green jade bottle that flew away was in his arms, and he glanced around the circle with vigilance.

Seeing this scene, Ye Xuan was completely speechless.

On the other side, the elephant fox, even more excited, his face showed a flush of redness, and his eyes stared at Ye Xuan directly. If it was not repaired for the sake of strength, I am afraid that it will blurt out at this time. Ask Ye Xuan for a twenty-three-level Fenghuang Baodan.

"Okay, you don't think about Fenghuang Baodan, but this king can't be more than this. Let's just give it to you. Let's take care of it and try to break through to the ninth order." Swallowed...

Turning to look like a fox squint, Ye Xuan finished, directly raised his hand to shoot a jade bottle, which is filled with a twenty-two seal Wang Baodan!

"The head is mighty..."

Although it was only a piece of Wang Baodan, the excitement of Xianghuyu was not less than that of the young cow. After raising his hand, he first gained income in the body.

"call out!"

In a wave, Ye Xuan directly sacrificed Shennong Ding. This time, he did not deliberately control the volume of Bao Ding. At this moment, he appeared like a giant star, and immediately attracted the attention of Qingniu and Xianghuyu. past.

As for the forbidden beasts who had just been compiled not long ago, more than a million of the forbidden beasts that had just been compiled in the distant sky, all of them were shocked.

Even the ten beasts who were waiting for the immortal level of the immortal ranks, after a sudden stay, have been chilling...

This is the eternal treasure of the era of heavy weapons. They have only heard of it before. Like the ancient legends, no one has thought that today, in this abrupt situation, they can see for themselves!

"All the forbidden beasts, all go into the inner space of Baoding, and practice with peace of mind. When you need to participate in the war, you will naturally be summoned!"

Turning to sweeping into the distant sky, the fierce beast army, Ye Xuan 睥睨精精精精,,,,,,,,, 叶叶叶Can apply to the king for a Baodan, can break through to immortality within a few days..."

"The same, immortal nine-order, seal the ninth-order, and even seal the king's nine-order, all of them are the same. The king has corresponding levels of Baodan in his hands. As long as he reaches the nine-order perfection of the great realm, after swallowing, several days Can break through within!"

"However, these treasures are not given free of charge, and will be deducted from the accumulated achievements in the future..."

After that, Ye Xuan no longer speaks. When he waved his hand, the colorful fog of Shennong Ding Ding's mouth was scattered and dispersed.

In the distant sky, the more than 10 million heads of banned beasts, after listening to Ye Xuan's words, have already been excited to tremble.

They originally thought that this time of return, representing the incomparable darkness of slavery in the future, did not expect the facts to be the opposite, this is clearly a creation, the so-called warfare, actually can be exchanged for this within a few days to break through Super Baodan, the bottleneck of the realm, I didn't dare to think about it before!

With excitement, all the banned beasts did not have any resistance and hesitation. Under the leadership of the forbidden land and the beasts under the command of the ten seals, the land continued to be turned into a mans, and the star-studded gods Lie away.

In just half an hour or so, more than 10 million banned beasts have entered the Shennong Ding, and the void in the distance is empty.

At this time, Ye Xuan turned to the side of the elephant fox and the green ox two people, and the singer of the singer said: "As for the return of the banned blood, the first time, the king's meaning, It's time to go to the forbidden place..."

"The sun is forbidden?"

Upon hearing this, Qingniu was shocked and his face changed: "Da, that is the only large-scale starry sky in the surrounding 100 billion miles. It can match it, only another place. The large-scale remnant star field, are we not yet ready to hit it? It's too dangerous..."

Chapter 4319: Massive red soul crystal

"This is going to Xusheng and forbidden, just to inquire about some news, basically there is no danger..."

Ye Xuan waved his hand and directly interrupted the words of the green cow: "The phoenix blood will not go back to the forbidden place. After the Xusheng ban, there is another large-scale survivor star... Fenghuang Baodan is not Have you already given it to you? What are the ghosts to go back?"

Upon hearing this, the face of Qingniu immediately showed a grievous expression, and muttered: "Bao Dan is for the old cow, but I can't use it now, but I can't swallow it." This feeling is a hundred claws, and it is more uncomfortable than when Baodan didn't get it!"

This is a good reason. Ye Xuan opened his mouth and was speechless.

"To retreat, you will go in, and the aura in Shennong Ding is more full..."

Finally, he silently pointed to the Shennong Ding next to him.

As soon as the voice fell, the blue cow slammed into the ox, and rushed straight into the tripod of the nine-colored fog, and the figure disappeared.

"Head, I... repaired to be weaker, more need to close!"

Elephant fox has just got a twenty-two-level seal Wang Baodan. When he saw Ye Xuan specially approved the green cow to enter Shennong Ding, he started a long-term retreat and immediately moved.

A face stared seriously at Ye Xuan: "And, I think the big two kings said that it makes sense. Bao Dan is at hand, but can't see it. This is more tormenting than when you don't get Bao Dan. Claws and hearts? It's just a thousand hearts!"

"You don't want to think..."

I heard that this old guy also wants to be lazy and passively absent from work. Ye Xuan even turned up his eyes and refused directly on the spot: "Don't forget that you still have to help the owner to find the blood evolution resources of the other three squad kinetic groups... As long as you have done this, the Star Master will give you a ticket. In the future, as soon as you break through to the kingdom, you will immediately get a twenty-three-level Fenghuang Baodan!"

"As for other people, you must wait until the seal of the 9th stage is perfect. The green cow is just a special case..."

"Dry!"

I can enjoy this kind of treatment as soon as I can enjoy it. Like a fox and a scorpion, it will light up in an instant. If you don't hesitate, you will nod on the spot and take the mountain with your chest. "You can rest assured that the old man will definitely force the blood talent. As soon as possible, help you find the blood evolutionary resources needed by the other three Warra kinetic groups!"

"So, then you will be on the road!"

"call out....."

Ye Xuan nodded and waved Shennong Ding into the body.

At this time, the elephant fox has once again reduced its body shape, only to the size of the foot, as if it were a pet, it falls in the right shoulder pocket of the violent starry sky, just like the whole body is trapped, it is comfortable and uncomfortable. .

This is also a no-brainer. If he is to follow his own path, he will only wait for the first-order speed. I am afraid that Ye Xuan will be on the spot!

Then, Ye Xuan turned around and sneaked a lap in front of him, and shook his head, sighing, and slamming his shoulders away.

.....

Xu Xuan has a clear understanding of the star-and-air azimuth coordinates of the forbidden land.

However, there is far away from the forbidden land, and there are hundreds of billions of miles away. Ye Xuan's current strength in the ordinary state has reached the fourth stage of the immortal king, and now it is to activate the body of the konjac blood. And change into a starry and violent form to hurry, repaired as the strength of the king of the immortal fifth order!

Even if it is speeding up and using the starry sky teleportation from time to time, it will take at least two months to cross the distant universe of the tens of billions of miles away!

Of course, he can also directly activate the **** magical power of the konjac, and display it to the sixth change of the konjac. Then, the strength of its cultivation will reach the second order of the imperial concubine in an instant, and the speed will rise several times, at most twenty. Days, you can reach Xusheng forbidden!

As a result, he will miss most of the things along the way.

This time he went to Xusheng forbidden land. Although he had a strong purpose, it was to inquire about the news and movements of the furnace. But there is also a purpose, that is, to find the other three wars in the void with the elephant fox. The cultivation resources required for the evolution of the kinetic energy group.

Previously, the Xuanyu medullary crystals needed by the whole martial arts in the Void Warrior were found to be like the foxes. Although Ye Xuan's phagocytic system also gave a system sound, it was After the fox screamed his discovery.

Only by this point, it can be seen that this old guy is only one-third of the treasure-hunting mouse lineage, and how powerful it is in exploring the resources of treasures.

If there is really no suitable resource in Ye Xuan's hands, he must do everything he can to help the elephant fox to raise the blood of the treasure hunter in the body.

Even if it can only be one-half, that is, half of the degree, I believe that the old guy's treasure talent will also rise sharply...

However, even if it is only one-third of the treasure-hunting mouse bloodline now, Ye Xuan object fox is also very confident, before he easily found the mysterious medullary crystal, it can explain everything.

This road goes to the Xusheng forbidden land. Although the road is far away, hundreds of billions of miles away, but on the other hand, the opportunity to cultivate the resources needed for the evolution of the blood of the other three major war kinetic groups is also formed. Just proportional.

Therefore, Ye Xuan is really reluctant to take a look at the horses and flowers.

If there are really the resources needed by the three kinetic groups along the way, but it is unintentionally missed, it would be a shame...

"call out!"

When the sound of the air broke out, a glimpse of the emptiness in the void, squinting!

This secluded man is Ye Xuan who is on the road to Xu Xing. Now, it is ten days since he left Bimeng, and the distance between the two stars of 20 billion miles has been left behind. The long road of the journey has already passed one-fifth!

In these ten days, although Ye Xuan has been on the road for a long time, the elephant fox in his right shoulder socket seems to be comfortable and comfortable, but in fact he is not idle. The old guy is always working hard. The blood of the treasure hunt in the body is stimulated, and the atmosphere in the stars along the way is sensed. It is judged whether there is a cultivation resource required by Ye Xuan.

Even with his ability to seal the first-order repairs, it is extremely hard to spur the blood talents for ten days. The blood consumption of physical strength is too great. Fortunately, Ye Xuan has various top treasures. medicine.

Whenever the foxes are weak and tired, even if they throw a pile of past...

It is speechless that a large number of top-class treasures have been swallowed up, and the strength of the old goods like the fox fox has been broken unconsciously two days ago, and now it is the second-order situation.

"Head, nearly a million miles from the front right side, the smell of a star is very weird..."

Just at this time, the voice of the fox screamed suddenly.

Ye Xuan's body shape was shocked. He did not wait for him to adjust his direction and spurred toward the right front. In his mind, the familiar system prompt tone has been heard: "Hey, congratulations to the host, and found the red crystal soul! Resource reserves: massive Is it charged immediately..."

Chapter 4320: The screaming of the soul beast

Red marrow soul crystal?

Massive?

With the familiar system prompts in his mind, Ye Xuan fell into a sluggish spot on the spot, and then his face showed a surprise color.

Without hesitation, he first extracted the information and materials related to the red crystal of the soul from the data repository of the body's engulfment system, and quickly browsed...

This kind of resource, he has not heard of it before, but now that the phagocytic system has already stated its name, it indicates that the newly discovered resource has been automatically identified, so the system information database must have been updated, All relevant information can be found in the system.

Of course, this time I found the red crystal soul, which is still the credit of the fox.

The last time I discovered the mysterious medullary crystal, the system sounds that appeared in Ye Xuan's mind were also discovered after the fox scorpion was discovered and the vocal prompts appeared.

This is also true this time, it is absolutely impossible to be a coincidence.

Before, it was generally Ye Xuan personally contacted or discovered a new resource, the system will give a prompt tone, but now it seems that like the fox as the nose of Ye Xuan, the system has obviously made his discovery, the default is And Ye Xuan found the same effect!

After some inspection, Ye Xuan's heart suddenly jumped up.

This red crystal soul crystal is a kind of crystal that is red and bloody. The key element of its formation is the soul blood, and it must go through a long period of time. The soul blood that penetrates into the mud can be within the terror of the stars. Under the effect, gradually become a blood color soul crystal.

It can be seen that the abandoned star with a large number of red crystal souls in front, must have experienced a fierce battle before the endless years.

And the creatures who participated in the war, or the entire ethnic group of a certain kind of starry sky species, in the end, must also use some kind of secret method to excite all the souls of all ethnic groups...

In the end, this desperate and unrecognized ethnic group must have been destroyed by the family. As for whether their enemies have been killed by such means, it has long been impossible to verify.

But one thing is certain, that is, the soul blood that all the ethnic groups of the unknown ethnic group forced out. After the war infiltrated into the earth and the soil was soaked, the star nucleus must have happened. Intense crustal movement.

Bringing a lot of muddy soil that has been stained with red blood into the core of the stars, and then going through the endless years, it becomes a large number of red crystals under the horror of the star nuclear, becoming this one. Abandoning the precious minerals of the stars!

The reason why it is said to be precious is not only because of this kind of red-skinned soul crystal, but also has a strong and rapid effect on the blood.

Another reason is that this kind of red crystal soul crystal is effective for most star-sky groups, and can enhance the soul of most life groups, comparable to the effect of forging and quenching!

Even this kind of soul crystal can be used as medicine, used to join the Danfang, so that the quality of the various treasures refining has improved...

"Good things, and their storage is called massive, this time making a big profit..."

In the muttering to himself, Ye Xuan's fine mans and sorrows, no longer hesitate, his body shape swayed, and the blink of an eye has reached the atmosphere of this abandoned star!

This birth is very large, but it has long since abandoned the endless years, and there is no life at all. Even the atmosphere is just an extremely thin layer.

Ye Xuan's figure stood in the void of the universe outside the atmosphere. The first time he extended his knowledge and extended it to the interior of the star. After a very detailed search, he discovered the star in the star. At that point, there are a lot of blood-colored crystals. If there are no accidents, these blood-colored crystals should be the so-called red crystals.

After confirming that it was correct, Ye Xuan's heart was loose, and he was also fortunate.

Fortunately, this time, with the help of the elephant fox, I was fortunate enough to discover the massive red crystal soul of this batch of minerals. Otherwise, if Ye Xuan alone passed by here, I am afraid there is no chance at all.

There are too many stars in the void, and it is impossible for him to explore the gods so carefully.

Only one-third of the treasures of the foxes in the body of the fox can be separated by a million miles. At this high speed of lasing, the keenly captures the star's nucleus. Weak breath...

When Ye Xuan discovered the origin of the star nuclear in the third universe funeral star field, the situation was just like the current fox hunting treasure. It was like opening.

But at that time, Ye Xuan was able to do this because he had robbed the blood of a beast that was engulfing the beast, and the devourer was naturally most sensitive to the origin of the star, but only by this kind of resource.

In the other resources stored in the star nucleus, such as the red crystal soul that was discovered this time, Ye Xuan's body swallowed the blood of the beast, which is not a half-point induction.

The elephant fox is different. As long as it is a treasure of great value and a resource for cultivation, people can have a keen sense. Only this point, the power of the scorpion mouse is so powerful!

"call out!"

"boom!"

"Booming..."

After determining the location of the mineral deposit, Ye Xuan did not hesitate, waved, and an invisible majestic force blew out. In an instant, the abandoned star in front of it was smashed into a pile of star fragments, a huge shocking blast. Come, you can smell it within a million miles.

It is already a very easy thing to annihilate a star with his own strength.

At this moment, as this abandoned star blasts, a large number of stars in the debris, there will be a touch of red in a moment, like a giant peak, are large and small crystals, red as blood, its interior seems to have some kind of The energy is flowing, giving people a very dreamy feeling.

Ye Xuan waved, all the red crystals in the void were all spurred, suspended in front of his figure, and after a quick measurement, the total amount was as many as several million cubic meters, and the reserves of the minerals were abundant. Staggering!

"call out!"

Once again, the sorcerer's war, which was originally collected in the immortal world, was sacrificed by Ye Xuan. Then, as he chanted, the tens of millions of sacred beasts in the battle squad were all swarming. Out, while making a surprise from the mouth to the extreme screaming sound, while rushing to the front like a giant peak of the red blood marrow crystal!

At this time, Ye Xuan's mind unexpectedly re-emerged with a familiar system prompt: "Hey, congratulations to the host, and found the soul of the purple blood! Quantity: a thousand cubes! Is it charged immediately?"

Purple blood soul marrow?

Ye Xuan stunned, subconsciously looking toward the front of the massive red blood marrow crystal, especially in the largest volume of the whole red pulp crystal inside, saw a thick purple.

From the analysis of its size, about a thousand cubes, it should be the purple blood soul that the system prompts!

After confirming, Ye Xuan did not hesitate, and immediately waved, the largest red blood cell of the red pulp echoed, a touch of purple awning, rushing toward Ye Xuan...
