Chapter 4321: Anthrax blood marrow

"call out!"

When the sound of the air broke, the purple mangling, the blink of an eye, the space in the universe near Ye Xuan's front, there was a thick purple crystal, which was big and small, and it was very beautiful. Among them, it seems that there is a purple blood that is flowing.

As for the total number, it is exactly a thousand cubic meters, which is not much different from what the system suggests.

Under the subconscious, Ye Xuan once again from the system's data information library, will be related to the information of these purple blood soul marrow, quickly browsed, and finally realized.

Last time, when Ye Xuan found the mysterious medullary crystal with the help of the elephant fox, he also obtained a thousand cubic meters of purple jade medulla from the massive mysterious medullary crystal.

Ziyu marrow crystal is actually a higher grade, more pure quality of mysterious medullary crystal.

For this reason, the one thousand cubics of purple jade medlar crystals were later collected by Ye Xuan into the immortal world, properly preserved, and not handed over to the martial arts group in the Void War.

This time, he discovered the same thousand cubics of purple blood soul from the inside of the red crystal soul crystal, in fact, the same.

The purple blood soul is also a higher-grade, purer red crystal soul crystal.

Generally, the ordinary red crystal soul crystal has various extraordinary uses, and its quality is more pure than its purple blood soul. It is obviously more versatile and better.

Without any hesitation, Ye Xuan, even if he put this thousand cubics of purple blood soul marrow, like the previous purple jade marrow crystal, properly earned the immortal world.

Even with a huge amount of hundreds of cubic meters of giant red soul crystal in front, Ye Xuan has taken away half of it, and plans to join it as an auxiliary resource when he plans to smelt flesh and blood medicine and refine various grades of Baodan in the future.

In the blink of an eye, there is only more than two million cubics left in the universe in front of the universe, but for the tens of millions of souls, it is still enough. Soul beasts are divided into a large number of soul crystals, enough to make the blood of the entire ethnic group evolve to a higher level...

"Hey..."

The constant low-pitched humming sounds, just a short time around the tea, more than two million cubic meters of red crystal soul in front, will be divided by these tens of millions of sorrowful beasts.

With these red soul crystals, Ye Xuan dare not count on the blood in their bodies, and they all evolved to the height of the **** soul, because it is simply impossible, **** and sacred, and purple Xia Xianzi and other seven women like the ancient power level exist.

Even if more than two million cubic meters of red crystal soul crystals are poured into a scorpion soul beast, I am afraid that it is impossible to raise its blood to such a height.

But as long as their blood and strength are repaired, they can all reach the domain and the main territory. For Ye Xuan, it is enough.

This is tens of millions of domain owners or landlords, but also has a unique blood talent, coupled with the increase effect of the soul of the war, once the urging, even if the king is even to the imperial level, it must be taboo Very incomparable...

With this kind of expectation, Ye Xuan gave instructions in the movement, so that all the souls and beasts returned to the soul of the war, and then waved, and then directly reintegrated the war into the body of immortality!

This time, on his way to the Xusheng forbidden land, he only stayed in this star field for about half an hour, but he harvested a huge amount of red crystal soul crystal, and even a thousand cubic higher purple. The soul of the blood, can be described as a great harvest.

All of this is all the credit of the fox, and Ye Xuan now thinks that this old guy feels pleasing to the eye!

"This time, give you a big deal!"

Turning to look at the elephant fox squatting, Ye Xuan nodded and answered: "The four martial arts resources required by the four major war dynasty groups to improve the blood, and now have solved two kinds, all in this piece of endless Found in the void of the universe. This illustrates a problem..."

"That is the piece of ancient debris from the distant ruins of the era, there are all kinds of rare resources, as long as there is a heart, there must be harvest!"

Having said that, Ye Xuan's words turned and turned to the front to go to the emptiness of Xu Sheng's forbidden land, and the fine mangling of the shackles: "When I went to Xusheng, I only walked one-fifth of the way. Going, the road ahead is still far away, I wonder if it will still be rewarded!"

"The head may be because it has just broken through to the seal, and the blood of the one-third of the treasure hunt in the body has risen, just like the arrival of air transport..."

After taking over the words of Ye Xuan, Xiang Hu squatted with a pair of small claws, and even the thief laughed: "I have a hunch for the old lady. This time I went to Xusheng forbidden, we must have other gains, and there should be more than one!" "

"Although this statement has no roots, but the blood of the treasure hunt is so wonderful, everything about the treasure seems to have some kind of power in the role, perhaps... the intuition is really unknown!"

"Then borrow your words!"

For the magic of the blood of the treasure hunt, Ye Xuan has seen it twice in succession, naturally convinced.

Therefore, at this moment, Fox said that there is indeed no head and brain, too embarrassing, but in Ye Xuan's view, it may not have a certain degree of credibility.

Nodded, Ye Xuan waved his hand and pressed the elephant fox back to the right shoulder socket. He did not hesitate. He continued to hurry and became a weak man. His eyes disappeared into the far end of the sky. !

.....

The long interstellar journey in the void has always been boring.

Ye Xuan and Xiang Huyu came along this road. The reason why they didn't feel this sense of boring was because they always had strong expectations. I hope that in the next moment, they will hit the big move and generally not far ahead. In a certain star, I found some precious treasure.

Even if it is not the cultivation resources needed for the evolution of the blood of the other two major war kinetic groups, at least it is better than nothing... After all, it can make the treasures and resources of the one-third of the treasure-hunting rats in the fox body, and again, worse. Not where to go.

But this time, once again on the road, the two men rushed for twenty days in the void, and the last four-fifths of the distance was halfway through, but during this time, the elephant foxes were always Nothing has been found, and it has never been heard.

As if he had called good luck, in the first two times, it has been completely exhausted.

Twenty days have passed, even Ye Xuan is somewhat intolerant. From time to time, there will be a touch of anxiety in the heart. Although it will soon dissipate, it is not a good feeling after all.

Fortunately, on the afternoon of the last day of the 20th, in the right shoulder socket, the voice of the fox scorpion finally suddenly sounded again: "Head, more than a hundred thousand miles from the left side, there is another star with a strange atmosphere." We seem to have hit the big fortune again..."

Ye Xuan's body shape was shocked. He didn't wait for him to come back. In his mind, the familiar system prompts sounded as expected. He said: "Hey, congratulations to the host, found the blood of the anthrax! The reserves are abundant! Receive it immediately..."

Chapter 4322: Purple pulp anthrax

Anthrax blood marrow?

The name of this resource, how is it so disgusting?

As the thought flashed through his mind, Ye Xuan frowned abruptly, and then, directly from the information database of the body's engulfing system, all the resources about the blood of the anthrax were just updated.

After some browsing, Ye Xuan suddenly realized!

This so-called anthrax blood marrow, and the mysterious medullary crystal, red crystal soul crystal is not the same, it is not a crystal form of cultivation resources, not even a dead thing, but alive.

It also has another name, called the blood marrow anthrax!

To put it bluntly, this is actually a kind of starry zerg, each one is only a short length, about two inches thick, because the center of the core of the worm has a blood line, and the whole body is black like carbon, the shape is very similar to the mites, blood The name of the medlar is coming!

Judging from the related resources provided by the system information database, this zerg is very rare, and the universe is basically invisible because it is based on the core essence of the star, that is, the origin of the star nucleus.

If you compare a star to an apple, then these blood marrow anthrax are the hidden aphids in the core.

Blood marrow anthrax will completely leave the star nucleus in the core area of a certain star, and will immediately leave, go to the next star, enter the core, immediately lay eggs, and then die by itself, thus completing a life. Reincarnation!

In the universe of the void, the reason why there are so many life stars, from the vitality to the dead, and become a waste of life, although this is related to the evolution of the star itself, but also because of the internal part of the star The star nucleus crystal is eaten by this blood marrow anthrax.

This kind of encroachment accelerates the disappearance of the stars and the process of death!

And this magical cosmic zerg, only a bright red blood line appears in the body, its blood, can be regarded as a pure evolution to the realm... Only this **** pure blood marrow anthrax can evolve the blood of the mosquito and blood , produces amazing magical effects!

"I don't think there is such a magical bug in the universe. It is extravagant to feed on the origin of the star's nucleus. It has evolved blood from generation to generation, until I don't know how many stars of the original crystals have been swallowed. How many times of breeding cycles have finally become blood? Pure blood marrow anthrax..."

After browsing all the materials, Ye Xuanton was sentimental, and then hesitated, and his body shape has already reached the abandoned star that has been locked in front of the system!

Although this star has long been extinct, its size is very large, belonging to the super giant star, and Ye Xuan from the inside of the star, but also can catch some very weak vitality.

It can be seen that this abandoned star should have been exhausted and died to death not long ago.

The reason why it had its vitality was completely exhausted in a short period of time. If there is no accident, the chief culprit of this matter should be the massive blood marrow anthrax still crouching at the core of the stars. !

This group of blood-stained anthrax, just recently eclipsed all the nucleus of this giant star core area, still has to leave in the future, and migrate to the core areas of other stars to lay eggs, at this most critical moment. They were caught by the foxes...

"Since it is a living thing, then you must prepare for hunting first..."

Muttering whispered, Ye Xuan suddenly waved his hand, and a masculine rushed out, hanging in the void in the distance, it was the **** battle of the four major wars.

"Hey..."

During the meditation, all the nodes of the battle are opened, and a blood-borne mosquito rushes out from the hive node and circulates in the void. It is a **** mosquito with a head, and the total number has reached the same number. Tens of thousands.

Among them, the leader is a **** brother of Ye Xuan.

Nowadays, the bloody, repaired strength has grown into the universe, only a few small steps from the immortal old monster, this is the result of Ye Xuan constantly pouring all kinds of top cultivation resources.

However, what makes him feel sorry is that although the **** cultivation is constantly climbing and breaking through, the consciousness has never completely recovered, but it is better than when he first met Ye Xuan. a lot of.

"boom!"

With the tens of millions of blood and mosquitoes all dispatched, under the guidance of Ye Xuan, the entire abandoned star will be surrounded by the group, the latter will not hesitate, waved, an invisible majestic blast, directly The whole huge star was shattered by a fist, and a large number of stars were splashing in the sky.

At the same time, a large number of black milli-mantles emerged from the inner star of the star, the length of the ruler, the strip looks like a locust, but there is a clear blood line in the body, the so-called blood marrow Anthrax.

Although it has already been known from the system's prompt tone that the amount of blood marrow charcoal contained in this abandoned star is extremely abundant, but at the moment, I can't see it, but Ye Xuan is still scared.

There is a large piece of imaginary air, all of which are the blood-stained anthrax, conservatively estimated, at least hundreds of billions...

In other words, the total number of tens of millions of **** mosquitoes and animals, on average, each blood mosquito, at least need to prey on 10,000 blood marrow anthrax, in order to consume all the anthrax.

Soon, Ye Xuan had a new discovery.

In the amazing blood marrow anthrax of this canopy, there will be a flash of purple awning from time to time, the number is not many, but in a **** black, this rich purple, even if every point is extremely weak But it is very conspicuous.

Ye Xuan's heart was shaking, and when he was about to shoot, the familiar system prompt sound came from the brain: "Hey, congratulations to the host, and found the purple pulp anthrax! Quantity: Thousands! Is it charged immediately?"

Purple pulp anthrax?

Chewing on this name, Ye Xuan's heart is suddenly realized. Obviously, this is a blood marrow anthrax with a higher blood evolution level and more pure blood. Because of the blood line in the body, it has become a deep purple Color, so it is called the purple pulp anthrax.

Subconsciously, Ye Xuan took the relevant resources of this purple pulp anthrax from the information database of the body phagocytic system in the first time.

After some exploration, the dawn of Ye Xuan's eyes lit up.

This kind of purple pulp anthrax is more extensive than the general blood marrow anthrax. It not only has a better effect on the blood evolution of blood and mosquito, but also can be used as a medicine for refining. Large flesh and blood medicine and various grades of Baodan will greatly enhance the effect of the drug.

This is also expected. After all, it belongs to a rare cosmic zerg. In general, the star worms in the universe, the secretions in the body, have different unique effects, just like this The purple pulp anthrax, the whole worm body can be used as a whole, it is relatively rare.

Since it is a good thing, Ye Xuan will not easily miss it. When he is in the middle of his mind, he immediately takes a shot and starts collecting...

Chapter 4323: Bloody chance

"call out!"

In the air, the faint sound of breaking air continued to sound. With

With Ye Xuan's thoughts, a black and transparent purple sacred spurt from the star bursting in front, and suddenly hovered before and after his eyes, it was a piece of purple pulp anthrax.

This zerg is the same length and length, the whole body is dark, and the only difference with the blood marrow anthrax is that the blood line that exists in the body has become the purple color, the name of the purple pulp anthrax, This is why it comes. Do not

To the three interest rates, all the purple pulp anthrax was locked by Ye Xuan, all in front of them, under the count, a total of 1,169!

After a little indulging, Ye Xuan waved a space vial and took one thousand of the purple pulp anthrax into it. This space vial was carved by billions of black ice, and all the purple pulp anthrax was sent. After entering it, it will be frozen in an instant, and the effect will not be lost by half. "

call out....."

In a wave, this space vial containing a whole thousand purple pulp anthrax was taken into the body by Ye Xuan, and the remaining 169, he did not deal with it for the time being, any of them hanging over the body. In the void, but it is bound by an invisible force, it can't move at all, and there is no way to escape.

These 169 pieces of purple pulp anthrax, Ye Xuan is specially reserved for the blood of the righteous brother, compared with the ordinary blood marrow anthrax, this purple pulp anthrax with higher blood purity, the **** mosquito Blood evolution has a better effect. by

In fact, the number is too small, Ye Xuan still needs to retain most of the future to join, refining Baodan, so other blood and mosquitoes are unlikely to enjoy this treatment.

But blood is different, he is Ye Xuan's righteous brother, enjoying nearly 200 pieces of purple pulp anthrax, is also Ye Xuan's mind, I believe that he will certainly make his cultivation a great strength, the blood evolution is more high! "

Hey! "

"Hey..."

At Ye Xuan, he took out the space vial and collected the thousand purple pulp anthrax. At the same time, the universe in front of the virtual void, a large number of whistling sounds came over and over again, one after another, dense and continuous.

Under the guidance of Ye Xuan, the blood-mosquitoes surrounded by the whole bursting stars have finally started the hunting operation. Tens of millions of blood-mosquitoes have swarmed up, and in a moment they will see the ocean in front of the sky. Moved up. Big

The blood stasis is called to escape to the surrounding voids. However, the number of them is more than 10,000 times that of the **** mosquitoes and animals that have been dispatched this time. but

The blood-mosquito is just the natural enemies of this Zerg. In the face of the **** mosquitoes that are overwhelming, all the blood-stained anthracites are trembled. The original ten-year-old repairs can only display two or three percent. The way, even if it is fully plundered in the void, the speed is slow to make people feel awkward.

This is no doubt that there is no way to escape, and they are destined to end in the mouth of their **** mosquitoes...

In the air, the ruthless hunting continues. This is a one-sided massacre. The small number of people become hunters. They often slam and open their mouths. There are dozens of hundreds of blood in an instant. When the anthrax fell into the mouth, it could not be chewed and swallowed.

So swallowing the sea, these blood-stained anthrax, which have been swallowed in the belly, obviously have never been refining, but it doesn't matter. Ye Xuan has time. When everything is over, the whole blood-mosquito group can be raised. The **** mosquito battle is in a sleep. versus

First, they will get the blood of the evolutionary resources of the blood vessels and the souls of the beasts, and use this deep sleep to digest the income...

Although the number of blood marrow anthrax is huge, it has reached hundreds of billions, but because they are too small, they are naturally suppressed by blood and mosquitoes, and the number of the latter is also quite large, tens of millions. Place

Therefore, the time of this starry sky hunted is not very long, and it is completely over a short period of time.

At this time, I turned to look at it again. In the void, I could no longer see a figure of blood-stained anthrax. All of them were preyed, and the tens of millions of blood-sucking beasts were eaten by the belly. Rolling, the face is all red, even the dawn is confusing, just like drunk. leaf

Xuan did not hesitate any more, and issued instructions in the mind.

"call out!"

"Hey..."

The dense and empty sound of the air rang in the next moment, all the blood and mosquitoes, all rushing to the distant **** air quietly standing in the sky, rushing into the hive node on the battle . and

Today, for these tens of millions of blood-mosquitoes, this blood-mosquito war has long become their nest.

In less than ten minutes, tens of millions of blood-mosquitoes disappeared, all of them entered the blood-mosquito war, only the blood-mosquito prince, that is, the **** brother of Ye Xuan, who was recognized by the original, remained in the void. blood

Although my mind is still not fully recovered, it is much better than the initial madness. Now, although he still can't talk to Ye Xuan, even the exchange of knowledge will not work, but Ye Xuan passed on to the past, and blood seemed to understand his meaning, and most of the time, he would not refuse.

The reason why he did not return to the blood-mosquito war, is that Ye Xuan specifically confessed to let him stay for a while.

The reason why Ye Xuan did this, the purpose is naturally to hand over the 169 pieces of purple pulp anthrax, which are still hovering in the empty side of the body, to the **** swallow.

The purple-purple anthrax in his hands has surpassed a thousand giants, but now it is only to give a small amount to the blood, this is not Ye Xuanzhen, but **** one-time can not afford so much purple pulp anthrax .

In the right hunting operation, as the prince of the beastly mosquito, the **** scorpion hunted and swallowed the most blood stasis, the other blood and mosquitoes only about 10,000 or so, only he swallowed ten More than 10,000.

However, these blood marrow anthrax will not be digested at once, and the energy they represent, as well as the unique effects on the evolution of blood and mosquito blood, will gradually release after the subsequent **** slumber, and gradually Completely refining. This

The process is also **** and all other tens of millions of blood mosquitoes, blood evolution, and the process of upgrading to strength...

But more than one hundred purple medullary anthrax are different. Compared with the blood marrow anthrax, the higher order purple scorpion scorpion is more effective, and will be thoroughly refining immediately after swallowing. Its unique effect on the blood and blood of the **** mosquitoes is quickly revealed. do not

It seems that the number of these 169 is very small, but according to Ye Xuan's deduction, once more than 100 pieces of purple pulp anthrax are swallowed, the final result is likely to be **** on the spot. Blood and mosquito blood, full return to the ancestors! Correct

In the case of bloody, this is obviously a major opportunity. His ingenuity, which has not yet fully recovered, is likely to be completely cured because of this opportunity. If

If this is the case, Ye Xuan, also completed a promise to the crazy mosquito king, untied a long-awaited knot...

Chapter 4324: Bloody

The **** and now repaired strength has reached the sixth level of the universe, from the immortal grotesque, only four small steps of breakthrough.

However, due to the influence of congenital madness, as a cosmic eccentric, he is not only unable to speak, but even the exchange of knowledge with Ye Xuan will not work. this

Engraved, under the call of Ye Xuan, the **** body shape came from the emptiness of the sky not far from the front, and fell in front of Ye Xuan's body, and he blew his eyes and stared at Ye Xuan. Although the look is embarrassing, the light is like blood, but there is no bit of fierceness in the body.

With this in mind, Ye Xuan is clear that the **** mind is clear. He at least understands the relationship between Ye Xuan and him, but he can't express it.

For this reason, Ye Xuan has never been neglected in the face of bloody, and has always been the righteous brother, respecting it...

"Hey..."

A sharp burst of sound broke out, and 169 pieces of purple pulp anthrax suspended in the air in front of the blood, without exception, all inhaled by him, chewed, swallowed! This

At the moment, Ye Xuan has been hanging in the eyes of the blind man, and finally fell completely.

Success and failure, here is one move.

If even more than one hundred blood evolution to blood and mosquitoes, and the incomparable miraculous purple pulp anthrax, can not completely cure the **** congenital madness, I am afraid that Ye Xuan will be desperate! and

Today, after activating the **** magical power of the konjac and transforming it into the sixth change, he can already possess the second-order cultivation power of the imperial emperor, but he still has no way to deal with the **** congenital madness. It is obvious that this disease is strange and tricky. It can be said that the more than one hundred purple pulp anthrax that has been swallowed by **** blood is basically the last promise of Ye Xuan!

"Hey..."

More than 100 pieces of purple pulp anthrax were swallowed and swallowed, and their effectiveness was instantly revealed. In the **** body outside the hundred feet, a high-frequency pulsating sound like an insect screaming came out. And did not disappear immediately, but always existed.

At the same time, the fog of the blood of a awning is like a rolling river. With the numerous pores of the **** body, the springs are generally vacated. In just a dozen breaths, it covers an area of nearly a hundred feet. Cover the entire body of bloody.

Until then, the **** mist that rushed out of his body, but still did not stop, the situation is more fierce, but the strange thing is that although this mysterious blood color fog has been more and more, but it has not spread to the distance from the blood The area outside the body is a hundred feet away.

It seems to be attracted by some kind of invisible force in his body, always swaying in the crowds...

In the first place, he took the elephant fox squatting in the right shoulder socket and retired to the outside, but his knowledge and gaze never moved. Firmly locked in the **** blood of the rolling blood, once there is any accident, he will shoot in the first time.

This scene continued when I touched a cup of tea. In the process, there were always a lot of mysterious blood and blood flowing in the numerous pores of the **** body. The amount was huge. Later, even Ye Xuan had some It's so moving. If

The **** breath in the non-consciousness lock is stable, and Ye Xuan is even skeptical about whether this is a problem. it is good

At the end of everything, the time of a cup of tea has just passed, and the mysterious blood of the **** body is finally no longer there. At this time, the blood fog is concentrated in the body of the body. It has reached a point of horrific, just like the essence, the **** figure has long been invisible, only the exploration of the gods can perceive his existence.

In the next moment, the thick **** fog of the canopy of the awnings began to condense inward in the slow rolling, as if there was an invisible mysterious force in the dynamism that dominated this happening...

This time, the speed is much faster. Just after the half-column fragrance, the thick **** fog of the Baizhang square has already completely condensed. Finally, an elliptical big cockroach with a diameter is formed, and the blood color is like a cockroach, and the **** body shape. It's just inside this **** shack.
more

What is strange is that at this time, the power of the gods that Ye Xuan has extended is no longer able to enter this **** shackle. When he first touched the surface of Daxie, he was pushed by an invisible mysterious force. Towards the side, it is like reaching out to catch mud, slippery and speechless, there is no point at all...

You must know that although he does not provoke the blood and magic of the konjac, but after all, he also possesses the strength of the fifth-grade immortality of the king, and the **** is only the sixth stage of the universe.

A middle-aged king who is the fifth-order king of the king, unfolding the power of the gods to explore, can not enter the **** shackles formed by the six-order existence of the universe. If this is not a personal experience, Ye Xuan can't believe it.

But this also illustrates the magic and mystery of this **** scorpion from one side. For Ye Xuan, this is naturally good news. eye

Under the glimmer of the fine man, he finally looked forward to the **** evolution of **** blood.

Chapter 4325: Return to ancestors

With the **** body shape being banned by the huge **** diameter of this Zhang Xuan, even the king of Ye Xuan's gods can no longer enter it, explore his specific state, the void, and fall into silence for a while... ..

Although Ye Xuan is excited, she feels that this is a good thing, but there are always some concerns. Although there is no speech at the moment, the eyebrows can capture a faint worry.

Bloody must not be an accident, otherwise, it is only one aspect that can't be explained to the crazy mosquito queen in the future. What's more, Ye Xuan himself will be guilty, and it is very likely that the knot will be solved! "

Head, he should be changing, just like insects, it is a kind of transition of life form..."

Perhaps it was Ye Xuan's fear and suffering, and the elephant fox in his right shoulder was screaming at this moment, breaking the dull death: "The caterpillar wants to be turned into a beautiful butterfly without going through a break. Pain, how can you get what you want?"

Xuan nodded silently and did not speak. This

For the sake of reason, he understands that, just since he first encountered bloody, he has been in this ignorant state of madness, even before Ye Xuan saw him, since the birth of He Yi, **** It has always been afflicted by this congenital madness.

In Ye Xuan's view, his self-awareness is clear, treacherous and violent, only occasionally...

Therefore, the pain in the **** heart can be imagined, without personal experience, no words can explain it!

All of this has made Ye Xuan unable to let go of his heart. For the **** sorrow, the righteous brother who has been deeply mired in the boundless sea, naturally he is more concerned. The so-called concern is chaos. At this moment, he is so embarrassed. It is for this reason, it is too worried, even if it is useless, it cannot be solved! Time

The gradual lapse, the emptiness in front of the sky, the **** shackles of the diameter, have always stood, and there is no change.

And Ye Xuan, who is always kept in the void not far from the sky, although the gods can't find out through the mysterious blood color, but the scene of Ye Xuan has not moved for a moment. open.....

In fact, he simply did not know how **** this time was, and how long it took the entire process. If

It is for others to change. Ye Xuan can first earn the **** scorpion into the immortal world, or the income of Shennong Ding. Otherwise, the moment it takes to break the butterfly, it takes a long time to come, then, right now. Withered, it will obviously be meaningless! This

One point, Ye Xuan did not think about it, but he was eventually thrown behind him.

Blood is different from others. When he was born, he was accompanied by this unpredictable madness. This time, the blood is the only chance for him to return to his ancestors. Ye Xuan is worried that if he is to be bloody, he will be in the body or Shennong Ding. In the event of an accident in the process of **** change to the ancestors, by then, he will not be able to perceive for the first time...when

However, if the **** scorpion in the front of the sky is always as normal, there is no movement, Ye Xuan can not wait so long, in his mind, has already estimated a bottom line, beyond this time, No need to wait, Ye Xuan will find another way to properly handle this matter! three

Days, just passing by...

"Card..."

Without warning, there was a clear and crisp sound in the universe under the sky. leaf

Xuanyuan has a flash of glamour, and his face is instantly excited.

After this fragile sound, a lot of similar sounds came in, and the **** scorpion that stood in the sky outside the sky was full of cracks on the surface. Milli

Undoubtedly, this represents the **** metamorphosis, and it is nearing the end. He is like a life transition, turned into a beautiful butterfly caterpillar, and is about to break out. although

However, I don't know what the final result is, whether blood stasis can smoothly achieve the full return of the blood, and the madness that has existed since the birth of the birth has been cured. But now this **** scorpion is coming out. The movement, at least, shows that blood is innocent. only

With this in mind, it is enough to worry about Ye Xuan for three days, and my heart suddenly disappeared!

"Card..."

Soon, the card in front of the emptiness came suddenly and densely. The time of two or three breaths, the diameter of the cockroach and the big bloody, was completely cracked at a speed visible to the naked eye. One

The head of the murderous mosquitoes reflected in Ye Xuan's line of sight, completely different from the previous **** scorpion. Although the body shape is still only a stipulation, its shape is even more powerful, revealing a thick and wild and fierce atmosphere. . very

As for the body of the crazy mosquito king that Ye Xuan had seen at the beginning, it is not as good as the simple and fierce beast of this size.

Ye Xuan's heart immediately gave birth to a touch of instinct. The mosquito that was seen in front of him was the true form of this species in the ruins of the wild. After the **** life, this time, the blood of the mosquitoes in the body finally returned to the ancestors. Up...

Even the temperament that has been condensed in the body of this murderous mosquito is also fascinating.

Previously, the **** cultivation was only the sixth stage of the universe, but now, he not only entered the immortality, but also the immortal nine-order great perfection, that is, half-step sealing!

In just three days, the **** transition has actually made his cultivation a strength, and his eyes have climbed to nearly two great realms. If this matter is spread out, I don't know how many star-space powers are going crazy.

However, Ye Xuan did not care about this matter. On the one hand, he himself had similar repairs as a major outbreak, and even experienced a three-time surge in the three realms. It has long been eclipsed.

On the other hand, it is because his mind at the moment has already been dragged down by another thing, and he simply can't take care of the **** increase in strength.

Before, **** sputum could not be completely deformed. Every time, it appeared in the form of murderous mosquitoes in front of Ye Xuan, but at least its head has successfully completed the transformation... the simple point, the previous Bloody, is a large, **** mosquito with a human head and a human head.

But now, without any accidents, after experiencing this life transition, the blood of the blood in the **** body has successfully achieved the full return of the blood to the ancestors... but his human head is gone! exhibition

Now the quaint mosquito in front of me, from the beginning to the end, is a real wild mosquito, which makes Ye Xuan very uncomfortable, has a strong sense of strangeness. Look

With this murderous mosquito, he even has a subconscious illusion that his **** brother seems to have disappeared and is no longer visible..."

Card! "

"Card..."

Just as Ye Xuan was stunned by the unexpected scene in front of him, when he was paralyzed, in front of the sky, there was a crisp and squeaky sound. The old mosquitoes that had just broken out were actually chewing on their heads. The **** debris floating in the sky around the sky...

Chapter 4326: Mysterious call

"Card!"

"Card..."

The intensive crisp sound continued to come, and did not wait for Ye Xuan and the elephant fox to react. The black carcass debris floating in the front of the sky has been looked at in this wild and murderous mosquito, all of which have been eaten empty.

At this time, Ye Xuan was able to react and smashed out the fine mans.

He remembered the oviparous creatures such as the Kirin beast. In general, after the first shell of the broken shell, the broken shell would be swallowed up. For them, this is the first meal after birth.

In the shell associated with it, it not only protects the unborn cubs in the shell, but also contains certain energy. Perhaps this energy is special...

Obviously, the wild mosquitoes in front of us are also the same. This already broken **** scorpion, which was previously formed by a large amount of blood mist that surged from its body, was formed by extreme compression, and is obviously a special form of energy.

After all the broken carcasses are foraged, the **** scorpion's life-level transition is truly perfect!

At this time, when the last blood-colored clam shell was eaten, the **** body was repaired, and it suddenly rose again. Before that, it was only the nine-step grand perfection of the immortality, that is, half-step sealing, but now, it climbs directly. In the real environment of the seal, and still sealed the second order of immortality!

This scene, let Ye Xuan are a bit stunned, those seemingly inconspicuous **** fragments, swallowed by blood, the effect is like a twenty-first-class Baodan, and even still have it.

After all, the twenty-first-class Baodan can only make the nine-order immortality of the immortality break through to the first-order order, but it cannot directly rise to the second-order.

But those **** fragments that have been eaten have been done!

Even the problem that Ye Xuan was only worried about now seems to have been solved, because after eating the **** fragments and successfully breaking through the immortality, the shape of the wild mosquito in front of the void, It is also changing rapidly at a speed visible to the naked eye...

This is clearly in the shape, and its incomparable murderous mosquito form is slowly condensing inward, becoming softer and shorter than a few breaths, and it has already revealed the human prototype.

After a few breaths, the **** form has been completely changed. The wild and fierce mosquitoes that were previously incomprehensible are no longer visible. Standing in the void, it is clearly a human man, and its head and **** scorpion have already been The shape looks exactly the same.

Seeing this scene, Ye Xuan has been hanging in the eyes of the blind man, and finally put it down completely, his face is full of excited surprise smiles, because at this moment, after the complete shape, the **** eyes are clear and clear, before that The kind of crazy blood color disappeared completely disappeared...

If there are no accidents, most of the insane madness is already solved!

"Ye Xuan, the younger brother, has been taken care of these years..."

Sure enough, with the flash of the fine mans in the middle of the squad, the blood in the void in front of the hundred feet, the fist punched a big gift to Ye Xuan, and the words said that the half ended abruptly and grinned: "Forget it, Thank you for your words, you and me... are brothers!"

"Ha ha ha... Ok! You are so good!"

Ye Xuan stunned, and then he was very excited and laughed. He was almost happy to pick it up on the spot. At this moment, his heart was completely relieved, his heart seemed suddenly and loose, his mood was inexplicably and he experienced an epiphany-like sublimation...

"how do you feel?"

As soon as he was swaying, Ye Xuan's figure was already close to the blood. He lifted his hand on his shoulder and looked up and down. His eyes were full of joy.

"The blood has indeed returned to the ancestors, but now it is no longer a murderous mosquito, but a pure wilderness mosquito. In the blood, there seems to be a lot of corresponding talent inheritance, but there is still no time to sort out, and then look back... "

A faint smile, **** quite a bit like a humiliating look, compared with his previous crazy and fierce look, but now it seems a bit too bleak, but still not bold: "and break through to the second order is just refining The result of the 169 pieces of purple pulp anthrax, the more than 100,000 blood marrow anthrax that was previously swallowed, the energy is still in the body, no refining..."

"It takes a long time for the retreat to go back to sleep. If it is completely refining and rejuvenating, it should be able to enter the realm of the king!"

This is definitely good news. After a deep sleep, you can step into the king. Even a twenty-two-level Dan is not needed. This may be related to the blood of the wilderness of the **** and now!

"call out!"

When the sound broke, Ye Xuan waved his hand and there was a huge table and chair in the void next to it, suspended in the sky, which looked very strange.

On the table, a variety of spirits and spirits are dazzling, and there is a large piece of the dead chicken legs that are roasted to golden oyster sauce. It is a treasured remains from a quasi-wild power.

Today, **** ill's go, Ye Xuan heart knots, it is a happy thing, it is worth celebrating, Ye Xuan intends to drink him a happy.

On one side, the elephant foxes stared at the spirits and spirits on the table, especially the rotten poultry roast leg of the hundred-square-foot round, exuding a fascinating scent and energy atmosphere that was so strong that it must be extraordinary at first glance. His awkward mouths are coming out...

"You can also sit down, this time the **** old brother can get this chance, it is your credit, this matter, remember your great deeds..."

Turning to the side of the elephant fox, Ye Xuan said that even if he laughed and took the blood and sat down, waved his hand, the huge murderous roast leg of the Baizhang Fangyuan was instantly turned into dozens. One of the big pieces flew up automatically and rushed toward the blood.

"Blood brother, try this roast leg, this is cut from the treasure remains of a powerful and fierce bird of the ancient age, and it is baked with the Shennong seven-color flame. Just breaking through, I just need this thing to be fixed..."

.....

Time passed slowly, unconsciously, a day and night passed, the huge rotten poultry roast leg on the table, and now has become a huge leg bone with some sporadic golden treasure.

Other spirits and spirits are also consumed. Among them, Ye Xuan and **** are basically drinking, but the elephant-like foxes sitting together are screaming, and the hundreds of feet of the murderous roasting legs are estimated. Half of it was taken away by this old guy.

"Hey, I am like a drunk..."

On the occasion of the rise of the chatter, Xianghu's face flushed and he staggered and stood up. He turned to the side of the fierce mosquito, and muttered and said: "If you both eat first, call me to Let's take a nap inside."

The old guy didn't drink a few glasses of spirits at all, but he wasn't drunk at the moment, but the energy he took in a short period of time was too large, and the flesh was already a little bit stunned. He needed to close the refining!

Ye Xuan turned his eyes blankly and waved his hand and let him go.

At this time, after the **** sitting on the opposite side was beaten by the fox, the front of the voice was suddenly turned, and the hand was lifted to the left side of the sky, and the singer said: Ye Xuan's younger brother, there seems to be a mysterious force, calling me in...!

Chapter 4327: a thick thigh

"call?"

Ye Xuan heard a word, and then did not know what to think of, the look on his face, instantly became strange.

He suddenly remembered the source of the devil's ethnic group.

In this regard, he also heard about the generation of the emperor Mo Zhentian, only to know.

All this is suspected to be related to the mysterious mother star...

The source of the blood of the devil's group came from the mother star. When it came to this first universe, there were several descendants of the descendants and other ethnic groups.

The devil's group in the first universe is a blood descendant left behind by a descendant of the blood source ancestors in this world.

Later, the blood ancestors and the descendants of several ethnic groups around them, as well as the followers of several other ethnic groups, all left the first universe and embarked on a journey of finding a way to return to the parent star.

However, the descendants of the ancestors who left the blood of the devil's ethnic group in the first universe, the generations and the second generation descendants, left behind, became the generation of the devil's ethnic group and the second generation of ancestors, have been sitting in the ancestral land of the devil!

Among them, the generation of the ancestors of the ancestors is the immortal, and the king is immortal. Now it is retreating. It has lasted for 10,000 years. Once it breaks through, it is immortal for the emperor... In today's three major stars, it is said that it is invincible. Not too much!

In that year, the source ancestor followed several descendants, leaving only one of the blood of the devil, and there was one person and one beast, and left the descendants of the three stars in the world.

Mosquito is the bloodline left by the descendants of another source of the ancestors, and belongs to close relatives with the devil.

The mosquito mad king, just a **** follower of the source family, is not a demon, but the relationship with the devil is not shallow, at least belong to the same camp!

Moreover, the mosquitoes and the old ghosts and the madness of the mosquitoes, in terms of identity, and the generations of the ancestors of the devil, are the descendants of the mysterious source ancestors, and the early generations of the savage mosquitoes who followed the side of their bodies. The avatar of...

It is inferred from this point that the deity of the mosquito and the mosquito king must at least be the cultivation of the kingdom, but as a mosquito and a mosquito king, the body seems to have been sealed, and all of them are accidentally lost. Now, even where my own deity is, where I went, I don't know...

This incident, Ye Xuan had already forgotten, but now, I can't help but hear the **** saying that the left side of the far side is in the void, it seems that there is a mysterious power, calling him in the dark, Ye Xuan in the heart Under the flash of light, I suddenly remembered this!

Blood is now awaiting immortality. Not only does it feel powerful, but everything related to one's own body is invisible.

Since he has sensed this mysterious call, it is absolutely there, it can't be an illusion... If it is the strongest, there will be such an illusion, it is simply ridiculous.

As a mid-term king, Ye Xuan did not respond to this, including the elephant fox, which has one-third of the blood of the treasure hunter in the body. He did not feel any abnormality before... It is enough for this kind of summoning. The mystery and extraordinary power.

In addition, **** feelings of this mysterious call is not a feeling that was there before, but after completing the **** return to the ancestors and becoming a pure wilderness mosquito...

To sum up all this, if there is no accident, the mysterious summoning power in the far side of the void on the left side is very likely to be related to the ancient mosquitoes, or the deity of the crazy mosquito king, or other wilderness mosquitoes.

The possibility of the former is even greater, because the madness of the mosquito is the **** father, and the deity and blood of the ignorant are actually the same relationship. There is the most direct blood and the cause and effect between the two. The **** call that is felt in the middle is naturally stronger!

"There is still a possibility..."

After the first two possibilities, Ye Xuan's fine flashes, then he said: "This is a piece of emptiness in the wild, and it's endless, even the most likely to be the main body of the wild world. In this way, the mysterious mother star is likely to be in the distance of the debris in one direction..."

"And the source of the blood of the devil's group, with a few of the descendants of the family, and the end of the wilderness as a follower of the ancient mosquitoes, is to find the path to return to the ancestral star, to a certain extent, They are also very likely to be in the void of this piece."

"If this is the case, the mysterious summons you feel will most likely come from the ridiculous mosquitoes that follow the source of the devil, that is... your grandfather!"

Having said that, Ye Xuan himself was excited first, his eyes were fine, and his breathing was fast.

The age of the demon ancestors was too long, the identity background was mysterious, and the cultivation was bound to be extremely powerful.

This is a nail on the board, absolutely not running.

Even the two younger generations around him, as well as a wild mosquito that followed the side, left three sons in the three major star planes of the world, namely the generation of the ancestors of the devil, as well as the mosquitoes and mosquitoes. The deity of the two ghosts, and nowadays it is very likely that the emperor is immortal.

Then, the few descendants around him and the wilderness mosquitoes that follow him must at least be immortal.

Even the last five realms, that is, the universe, the Lord of the Universe, the Supreme of the Universe, and the ancient powers of the wild, the ancient realm.

As for the source of the devil, according to Ye Xuan's estimation, the conservative must also be the supreme of the universe, and even more than 30% of the possibility is the real wild power!

This is a living, prosperous state of the ancient powers, even in this mysterious ruins of the ruins of the heavens and the earth, are absolutely free to walk around.

If you can pick up this thick thigh, take Ye Xuan and the devil's group, and the relationship between the mosquitoes and the old ghosts and the madness of the mosquitoes... If it is a blessing, what a refreshing thing to do?

What kind of large-scale starry ban, the top star ban, and so on, can be completely ignored!

One thought of this, Ye Xuan even turned to the side of the already dumbfounded blood looked at the past, holding his hands, could not wait to ask: "Blood brother, the mysterious summoning power you feel, how far away Or do you... Let's rush over now, don't delay!"

"This one....."

"According to my instinct, the source of this power of summoning seems to be extremely far away. It is not something that can be reached in three or five years, in addition..."

The **** face gradually became weird. When it came to the end, I even shook my head and smiled. I sighed and sighed. Then I answered: "And maybe it is because my cultivation is too weak, although I can feel this mysterious call. The existence of force, but it is intermittent, not very clear."

"If you want to rush now, I am afraid it is difficult to point out the specific clear direction. The void is so vast, in case it is a little bit worse... the difference is a thousand miles!"

Listening to this, Ye Xuan was dumbfounded on the spot...

Chapter 4328: Sixth king

"This way, it can only be put on for a while, anyway, no hurry, wait for you to break through to the king and immortal. Then, it will be stronger, and perhaps the perception of this kind of summoning can be more For clarity..."

After some depression, Ye Xuan nodded helplessly.

"It's almost the same. I should return to the blood-mosquito war, and I will fall into a sleep, digesting a lot of blood marrow anthrax that was previously swallowed in the body..."

During the speech, the blood began to rise, arching his hand toward Ye Xuan, not too much nonsense, turned and swept away...

"Remember to throw the old man out..."

Ye Xuan suddenly remembered the elephant fox, and quickly screamed: "There is still a blood evolutionary resource of the squad of kinetic energy is not implemented, this old guy can not be lazy!"

In front, **** words came: "Reassured, throw him out immediately..."

At the time of the fall of the voice, his figure has already entered the core honeycomb node of the blood-mosquito, and then a small man was thrown out from the core battle, which is like a fox.

This old guy is comfortable, but he is already asleep. He is obviously digesting the majestic energy brought by the previous massive swallowing of the fruit and the roasting of the rotten poultry. Now he is thrown out of the core honeycomb by bloody, actually Never wake up.

"call out!"

Ye Xuan waved his hand and directly absorbed the blood-mosquito war into the immortal world. At the same time, he also turned the front into a stunned elephant scorpion to catch it. At first glance, this old guy might not wake up in a short time. Suddenly speechless.

"But, anyway, the hidden dangers of the current state of mind have been resolved, and when the **** old brother breaks through, my mood is once again sublimated because of the knots of the knot..."

Having said that, Ye Xuanzhen's fine mang flashes: "It's just like the fox scorpion is also in a deep sleep. I'm not in a hurry to get on the road for the time being. I'm staying here, I'm going to break through the iron once again, and wait until the old man screams, then Keep on the road!"

"call out!"

"Hey..."

In the next moment, with Ye Xuan waving, Shennong Ding's large amount of cultivation resources are directly taken out from the immortal world of the body, ten drops of evil source liquid, two hundred cubic meters of purple gold top flesh and blood medicine, and various top treasures And hardened materials and so on!

Then, as he stepped into the top of the Shennong Ding Ding mouth with the colorful fog, Bao Ding's domain power was also motivated, and the cultivation resources suspended in the void were compressed and turned into a baby fist size. The ball was swallowed by his mouth and rolled into the belly.

Break through, start this...

"boom!"

Almost in the next moment, a huge roar sounded in Ye Xuan's body, and he swallowed the ball in his belly. In a moment, he became a majestic energy river, a near-destroyed land. The breath swelled in the limbs of Ye Xuan's body, like a wrath.

Almost at the same instant, Ye Xuan's body is full of treasures, shining brightly, up and down one hundred and eighty million pores, nowhere is not sprayed out Xia Rui, the whole person is like a god, blooming brilliant!

"Hey!"

"Oh la la..."

The overwhelming chain of squeaking sounds also sounded at this moment, and continued, in the body of Ye Xuan, two thick shackles were displayed in the darkness, slowly shaking!

The energy in the hundreds of miles around the river is rolling, and every moment is shaking the chains of chains that appear in his body. The loud roaring sound is deafening, like a catastrophe!

Every second, Ye Xuan is suffering endless pain, and I don't know how long it has been. In the end, when his consciousness gradually returns, he discovers that the roar of the body has disappeared.

The two shackles that were previously visible in the body were also torn and gradually disappeared...

And as these two extremely thick shackles were finally completely broken, the expected system sounds, and soon in the mind of Ye Xuan, and two times, it is gratifying...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the sixth stage of the star!"

"Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: the sixth stage of the star!"

Once again, two consecutive Jins, this time the knot is relieved, the benefits brought about by the sublimation of the mood are really extraordinary, and let Ye Xuan enter the peak of the immortal mid-season!

Previously, his master's cultivation was only the fourth order of the king. Once he activated the blood of the ancient konjac in his body, he could climb to the fifth stage of the imperial king.

Once the konjac was transformed into a supernatural power and reached the sixth change, the combat power immediately rose to the second level of the imperial queen.

Now the cultivation of the deity is broken again and reaches the sixth order of the immortal king. Then, after activating the blood of the konjac in the body, Ye Xuan will enter the imperial seventh stage of the king, which is the later stage.

If you use the magical power of the konjac and change it, and directly enter the sixth change of the konjac, its peak strength can reach the fourth stage of the immortality of the emperor. This is another situation in this situation, and the early second stage. Compared with the situation, the combat power has improved a lot!

If you count the tens of thousands of feet of the trolls, the horrible power of the horrible body, today's Ye Xuan, even if it meets the imperial fifth, or even the sixth, can fight.

As long as it is not a late emperor, there is no danger of any degeneration!

"Hey!"

"Hey..."

After the breakthrough, I did not wait for Ye Xuan to open his eyes, and there was a very loud voice in the ear. It was clearly the voice of the old guy like the fox, just like the chicken blood, and There is more than one shot.

In the previous breakthrough, Ye Xuan stepped into the Shennong Dingkou where the colorful fog was, and sat down on the knees, and the old monster was not thrown into Shennong Ding, but he was allowed to kneel in his own Sleeping at the right shoulder.

Anyway, it is the size of the size of the block, it is simply nothing, no effect.

At this point, since the old guy can be embarrassed, and still so excited, it is obvious that he has already awakened, if there is no accident, most of them have broken through. These are long and sturdy, clearly in the rhythm of Dess...

These thoughts flashed through my mind. Ye Xuan opened his eyes and raised his hand subconsciously. He grabbed the elephant fox, still in his shoulder pocket, and threw it outside the mouth.

Take a closer look, and sure enough.

Previously, the cultivation of the fox fox was only the first order, but now, after refining the energy of the body that was swallowed this time, the old guy's cultivation is clearly the third order of immortality. At the beginning of this period.

Can break through the two small steps in the context of the seal, this kind of thing is extremely rare, it is no wonder that the old guy is excited like this, the shouts from the mouth are almost the same as the wolf!

"The head, broke through, the old man broke through! And it is still breaking through two levels, I want to ask, so there is something like this..."

The figure was rolled a few laps in the void outside the Dingkou. The old guy did not wait for his figure to stand firm, and he was excited again. His tone was not small, and he was bullish.

However, I didn't wait to finish it. When I saw Ye Xuan's current cultivation, I actually soared two small steps, and it was still two breaks in the order of the king. The words in the old guy's mouth suddenly stopped, the whole People are jealous...

Chapter 4329: Magic vine

"Hey!"

During the hand, Shennong Dinghua became a masculine sensation, and Ye Xuan earned the immortal world. "

Among the four major wars, there have been three cultivation resources needed for the evolution of the blood of the kinetic energy group, and now there is the last year of war. ""

However, the kinetic energy group of the years of war is different. It is a special zerg, and its unique biological wave has certain powers of the years, so it is suitable for the evolution of this group of blood, and must also have miraculous effects. There are very few cultivation resources..."

"At the moment, although there is one in my hand, the effect can only be said to be general, and the amount is not much. This matter can only depend on you!"

In the words, Ye Xuan turned to the side of the elephant fox squatting, and the smack of the smack in the middle of the smack, after the slight pause, he said: "This is going to the Xusheng ban, there is a small half-way, about 20 days to arrive, You will work harder and pay more attention along the way. Try to find the necessary cultivation resources before you arrive at Xusheng."

In this way, not only can you remember your great deeds, but even after you finish, you don't have to spend it with me anymore. You can enter the inner space of Shennong Ding like the green cow, and retreat in peace and mind, and attack the immortal nine-order great consummation."

"As long as the first to the ninth order, swallow the twenty-two-level Dan that has already been handed over to you, in just a few days, you can achieve the honor of the beastmaster!"

The simple words, but the old face like the fox foxes are congested, the breathing is rushed, he is too eager to seal the king, and from Ye Xuan's current words, as long as the last one is suitable for the Slim group With the cultivation resources of blood evolution, he can immediately bring a large amount of cultivation resources into the inner space of Shennong Ding and retreat with peace of mind. eye

Next, he is already waiting for the third-order immortality. To reach the ninth-order of this situation, only six breakthroughs are required. Under the accumulation and promotion of massive top-level cultivation resources, there are only six breakthroughs. In the eyes of Xianghu, I can't use much time at all... One year is enough! "

One year, as long as the last task is completed, after another year, I will be able to achieve the respect of the king! "Say

Here, the elephant foxes did not hesitate, and they jumped into the right shoulder of Ye Xuan. They crouched down and urged on the spot: "Hey, don't say anything, go on the road, I can't wait for the old man." !"

Xuan shook his head and smiled. Although he didn't speak, he didn't delay too much. When he was in a sway, he immediately took the old blame in his shoulders and turned it into a stream of arrogance. And go, blink of an eye disappears at the end of the sky.....

...go with

The last half of the journey to Xusheng's forbidden land takes about 20 days. At the moment, ten days have passed, and this small halfway has already gone halfway, but on the way, there is no gain.

Seeing that there will be another ten days or so will arrive at the edge of the Xusheng forbidden land. If there is no discovery in the last ten days, it will be a short time to find the cultivation resources necessary for the evolution of the blood of the slime group.

As soon as I thought of not completing this task, I couldn't do the same as the Green Bull. I was able to take a lot of top-level cultivation resources with ease and enter the Shennong Ding interior space to retreat, and I'm so eager to catch my ear, along with Ye Xuan. More noticeable! also

After two days, in front of the void, finally there was movement...this

Once, there is no need to be reminded like a fox, but Ye Xuan first discovered an anomaly, because everything in front of the sky is too conspicuous, and it is clearly there, as long as the eyes are not blind, anyone can see. Elephant

The reason why the fox was not reminded before Ye Xuan's discovery was that Ye Xuan was the king after all, and now he is in the form of activating the body's konjac blood and changing into a violent starry sky. Therefore, the cultivation of the strength is the seventh stage of the king, which is the end of the situation.

In the late kings, the gods were extremely powerful, and there were still hundreds of millions of miles away. Ye Xuan first explored the movement of the front corner of the void.

It was also in the next moment, in his mind, a familiar system prompt sounded at the right time: "Hey, congratulations to the host, and found the starry magic vine! Is it immediately charged with the magic vine pulp?"

Magic vine pulp? eye

Under the bright light, Ye Xuan first retrieved all the information related to it from the information database of the body phagocytic system.

After some browsing, the dawn of Ye Xuan's eyes became more and more bright... This kind of thing has an effect on the evolution of the blood of the slime group, and the effect is still very strong, it is extremely rare!

"Hey, what do you seem to have discovered? Is that kind of resource we are looking for?"

Just as Ye Xuan was excited, there was a voice like a fox with a suspicious inquiry. This

The old guy is still not aware of the existence of the starry sky vine in front. After all, the distance between the stars and the sky, hundreds of millions of miles away, is still immortal. of. Do not

However, the old blame lies in Ye Xuan's right shoulder socket. It is naturally very sensitive to the changes in Ye Xuan's mood. The first time I noticed the excitement of Ye Xuan, and at the moment, I asked in a voice, except for suspiciousness. It clearly reveals a strong expectation.

"Your mission has been completed, go to retreat and practice!"

Ye Xuan did not answer directly, but this kind of discourse has undoubtedly explained everything.

During the speech, as he waved his hand, the elephant fox, which was originally in the right shoulder of Ye Xuan, disappeared instantly and was directly sent into the inner space of Shennong Ding by Ye Xuan. with

When the time passed, there were a lot of top-level cultivation resources that Ye Xuan took out from the immortal world, including one hundred cubic meters of purple gold top flesh and blood.

Coupled with other resources, it is enough to be old enough to be promoted to the strength of the 9th-order Grand Constituency, and to swallow a 20-second Dan, successfully break through to the imperial kingdom of the king, to stabilize the realm. used!

After doing all this, Ye Xuan did not hesitate, and the fine mangling flashed through his body. The body shape was rushed away in a short time. In a short period of time, it crossed the void distance of hundreds of millions of miles. The secluded void found.

The figure was lagging behind, and Ye Xuan lifted his head to the right. His eyes were fixed on an abandoned star a million miles away, and a sneer smirked at the corner of his mouth.

This star-shaped magic vine is quite good at concealing the road. It is no wonder that this imaginary air can not be discovered by other beasts or survivors passing by. At this moment, even if Ye Xuan has already reached the hiding place of it, only a million miles away. In the vicinity of the distance, under the exploration of the gods, there was no discovery. If

When it was still hundreds of millions of miles away, this invisible perfect starry sky vines just stretched out a giant vine, and preyed and hunted the starry beasts passing by the edge of their hiding place, revealing the breath. I am afraid that this time Ye Xuan really has to pass it by...

Chapter 4330: King class plant life

"Come out, you have already exposed..."

There was a sneer in the corner of his mouth. Ye Xuan's line of sight was locked in front of a million miles. This is huge, but even in the late stage of his powerful exploration, there is still no abandoned life star. language

The gas looks very incomparable: "As long as you hand over all the magic vine pulp, today the king will not be embarrassed, so leave!"

In the latter sentence, Ye Xuan said that the magic vine marrow pulp, no doubt has already pointed out the origin of the other party's identity, this is some arrogance, if you do not find the traces of the beads, it is impossible to do.

"戾..." hidden

The star-shaped magic vine hidden in the giant abandoned star here, realized this moment in an instant, no longer hiding, a shocking whistling sound, in the next moment, from the inside of this giant star, resounding Tens of miles, even the void, under the raging screams of this sharp, trembled slightly, and heard the sound of screams...

"I am so violent, I dare to play the idea of this vine... Are you too arrogant?"

As the sound of the whistling sounds, in the giant abandoned star in front, there will soon be a feminine voice of the gods, although the other party is a plant life, can not speak, but the exchange between the strong stars, God can convey any message without the obstacles of race.

At the same time, a powerful and terrifying atmosphere has also sprouted from the inside of this star. This is actually a plant life of a king-level class, and it is not a general king, but a king of the nine-step ! also

That is, half step to seal the emperor!

It is no wonder that this star-shaped magic vine, there will be such a voice of the gods, as a half-step emperor, even if it is a relatively starry beast, generally speaking, the plant life is weaker.

But in the face of a starry temper that only seals the king's immortal seven-order, this magical vine is indeed full of enthusiasm!

The strength of plant life is weak, but it is only relative to the starry beasts of the same order, but at the moment it is a starry temperament known as fierce and violent, but it is weakened by two small Order, the starry magic vine is completely fearless.

Even if there is a sudden outbreak of great war, he even has the confidence to violently provoke this starry sky... kill it in one fell swoop!

"call out!"

"Hey..."

The sound of the goddess of the king-class star-shaped magical vine is degraded, and the giant abandoned star that has been completely locked by Ye Xuan's breath in front of millions of miles, suddenly came without a sign. Sharp and unpredictable sound of breaking. Accompany

The sound of this sharp, empty sound, and a lot of dull bangs, was caused by the rock in the soil and the surface being pushed and rolled around. set

Looking into the eye, the original virtual air in the front of the virtual exploration of the king of the king, the capture of the giant abandoned star surface of even a little bit of life, at this moment there is a huge cane of thousands of miles, breaking the land The surface of the ground is like a horrible starry sky, rising from the sky...

In the blink of an eye, the blood-stained rattan that rushed out of the ground directly spread to the universe of the universe outside the light atmosphere of the stars. Its length is hundreds of thousands of miles.

And its surface is still full of incomparable **** barbs, dense and numb, and at first glance, it gives a sense of horror in the back.

This is really a magic vine. Nowadays it only shows a rattan that may not be the main body. It has become fierce. Even though it is a plant life, its murder is not weaker than most of the starry beasts.

At the same time, with the **** magic vines demonstrating the general appearance of the abandoned star's land table, the starry sky magic vine reveals the endless feminine voice of the gods, and it sounds again at this moment: "The violent, this vine last time Warn you, leave immediately, otherwise...kill!"

"The arrogance? Kill the king? It seems that you are a little confused about the situation..."

Seeing each other's toughness, actually threatened and warned himself, Ye Xuan shook his head, the sneer of the corner of his mouth remained the same, but his face sank in an instant, and the light was gloomy.

Looking up, it's a horrible temper: "The konjac changes... the sixth change!"

As the roar came out, the strength of Ye Xuan's body immediately began to swell, just like a roaring river in the roaring river, the body's limbs screamed in endless fierceness, and there was a horrible horrible gas. The power of blood rushes out of his body.

In the blink of an eye, the body shape that was originally only ten feet high is like a balloon that is inflated at a very high speed. It quickly expands, and the short three interest rate is less than that, and it has reached a giant of a thousand feet. A human star. This

Not all! versus

The violent body of the starry sky is also rising at the same time, and the temperament that has been dispersed in the body. When the body of the konjac was in the state of the body, the meditation of the body was the seventh step of the immortality. At the moment, when the sixth large body of the tens of thousands of giants appeared, the self-cultivation exuded from the violent body, and it reached the fourth stage of the horror of the horror. This

It's not the general fourth-order emperor, the starry sky is full of temperament, and the power of blood is so horrible. I am afraid that the fourth stage of the general emperor is far from the opponent, and its real combat power is already It is comparable to the general sixth-order Fenghuang, which is the mid-peak of this situation! "

Roar! "

As the sixth change of the konjac is completed, the starry sky of the tens of thousands of violent stars screams and screams again, and the stars and stars around the imaginary sky are like a response in the blink of an eye. The light trembled. thing

In fact, this embarrassment, Ye Xuan did not even provoke the power of the body, just a simple shock wave, there is such a terrible power. under

In a flash, the starry sky blew two brilliant blood awns, and turned to the giant abandoned star a million miles away. The gods locked, the figure did not move, and a punch hit..."

boom! "a few

Just in the next moment, in the void of the universe beyond a million miles, an earth-shattering explosion blasted open, and the abandoned star locked by his light, in the blink of an eye, blasted directly without any suspense, and could not resist The terrorist power to block this punch.

And a fist hits a large universe of voids along the way, but there is no damage at all, completely unaffected...

"Hey..."

The stars blew up completely between the half interest, and a fierce whistling sound came from the smoldering of the millions of miles away from the gravel dust.

I have always been concealed and my body has never revealed my body. Even if it is certain that Ye Xuan has already discovered his hiding place, in order to repel it, it is only a meaningful extension of the vine body, and the demonstration of the starry sky Finally, I can no longer hide my body shape, and the whole place is exposed, and it straddles the universe in front of a million miles away...
