

Super D. S 4331

Chapter 4331: The feast of slime

"call out!"

"Hey..."

The overwhelming sound of the sky broke through, and the scene that appeared in front of millions of miles, even Ye Xuan, who had been mentally prepared for a long time, saw that he had opened his mouth subconsciously after seeing it. The color of the accident...

With Ye Xuan's activation of the konjac's **** magical powers, and directly applied to the sixth change, the cultivation of strength suddenly surged to the fourth stage of Fenghuang, and its figure also climbed to the tens of thousands of feet, under the **** With just one punch, the giant abandoned stars locked in breath are shattered into pieces. original

The whole body, which was crouched inside the stars, was finally completely exposed to the void.

Too big, its central body is a huge plant ball, just like a large star, countless rows of **** magic vines stretched out from this ball, each of which is as long as 10 million Zhang, very strong, at least a few thousand feet, is like a starry sky, in the universe of millions of miles away, waving wildly... This

The plant life body is not only a king-level existence, but also not a general king, but a king of the nine-step grand perfection, that is, a half-step emperor, the body of the horror of the grass and spirit is simply horrible, although still not Compared with starbursts with tens of thousands of body types, but at least in terms of body size, the gap between the two is really not too great.

At this moment, with the tens of thousands of vines in the starry sky, the rattan is dancing wildly in the void. Its huge body shape is like a jellyfish wandering in the sea, quickly swaying toward the rear, lasing. go with.

Blinking tens of millions of miles!

And perhaps, because the power contained in these tens of thousands of canes is too majestic, at this moment, the madness of the madness is waving, and the emptiness of the body along the way is full of stunned sounds. This is clearly the rhythm of the collapse of the void...

The style of painting has changed too fast!

Just before the moment, this half-step of the emperor's starry sky vines is still very arrogant, even arrogant to the demonstrations generally reveal a long, barbed **** cane, but also a threatening words to Ye Xuan.

But now, when it realizes that the adversary of this time is actually a mid-term imperial power that is so horrible that it is completely powerless, this star-shaped magic vine is actually half-sounding, and it is directly launched with full force. escape! "

You are simply, but now you want to escape... Is it too late? "

In the middle of the cold, the starry sky flashed, the starry sky violently turned right, and the **** stick that changed with the Shennong appeared again, dragged him behind him, striding the big step, the giant horror body Shape, instantly like a huge meteor, rushing toward the front.

The strength of this star-shaped magic vine is not weak. It has reached half a step, and its main sphere and tens of thousands of blood-colored canes that are like giant pythons are all covered with sharp barbs. .

This level of plant life can not be too simple, it is the intensity of the violent body of the starry sky, if the bare hand blows directly, the flesh and blood are very likely to be pierced by this seemingly inconspicuous barb. If

It is a bit more exotic, and it will be extremely troublesome.

Therefore, out of caution, Ye Xuan did not intend to directly kill the other side with a flesh fist, but took out the **** stick, ready to kill! star

Although the speed of the empty magic vine is not slow, tens of thousands of giant blood-colored cane mad dance, and immediately tens of millions of miles, but then fast, after all, it is only a half-step imperial, and now has the mid-term imperial power Compared with Ye Xuan, it is not at all a level.

Just a few simple steps, Ye Xuan has been catching up, and the starry sky is still madly retreating from the front of the sky, it is less than a million miles away...

For a moment, the starry sky was violent, and the right arm suddenly lifted up, twisting the **** stick, kneeling! "

boom! "One

Under the shackles, the horrific sound of the sky, the skin of this starry magic vine is really hard, Ye Xuan can now be the power of the mid-term emperor, holding the **** stick of this Shennong squatting all-out.

But the end result did not cause the starry magic vine to explode directly, but only a large piece of festering on its spherical central body, including the tens of thousands of giant **** vines. None of them broke, but there were thousands of them, and the skin kaka peeled off...

At the same time, with the main body of the starry sky and the thousands of huge rattan skin peeling off, a large amount of blood-colored juice spattered in the void, and it exudes a strong fragrance that is inseparable, even Ye Xuan was subconsciously pumping his nose, and the spirit suddenly became a vibrate!

"Magic vine plasma? It really is a good thing..."

For a moment, the glare of the starry sky illuminates, and instantly realizes what these spattered **** juices are. Now he will not hesitate, and the figure will once again violently move forward, and the second stick will go down again.

Then it was the third stick, the fourth stick... In a short ten-digit interest, the storm was like a stalwart right-handed swing, and the **** stick was dozens of times, the original speed was retreating. The starry sky, the body shape has already come to an abrupt end in the void, unable to escape. its

The huge sphere of stars, and the tens of thousands of blood-colored canes that are like giant pythons, now at least 60% of the epidermis has been shaken by giant force, revealing a **** body like the flesh under the cortex. The **** juice rushed out, sputtering the void, and the rich fragrance that came out, almost fascinated Ye Xuan. "

It is no wonder that there is a miraculous effect on the evolution of the blood of the Slim people. The mouth of this worm is the most embarrassing, and the general cultivation resources are simply ineffective. Only this kind of thing can make them crazy..."

In the middle of the

What followed was the sharply inverted hook on the epidermis. Nowadays, the star-shaped magic vine with the wet body is exposed. There is no threat to Ye Xuan. Naturally, it is not a **** stick. "

call out! "

In the next moment, with the **** sticks put away, the starry sky violently waved again, and directly smashed out the battles of the four wars, and squatted in the void not far away. Read

In the moving room, Ye Xuan directly used the knowledge of God to give instructions to all the Slims in the war. "

call out! ""

Oh..."

Almost at the same moment, the figure was turned into a mans, and it rushed out from the thousands of hive nodes in the battlefield. It was the kinetic energy group of the Star Wars, and the total number reached tens of millions of miles. Lyme...

At this moment, the squad rushed out of the years, the tens of millions of the Slim zerg, who wanted to smell the rich fragrance of the emptiness in the void, and there was a very special scream in the mouth. The sound, the endless excitement and excitement, almost crazy.

Overwhelmingly, he has been seriously injured to the front, and even the escaping is no longer possible.

Chapter 4332: Magic vine purple core

"hiss!"

In the air, the dense sound of the sound is overwhelming! With

The years of war were slain, and tens of millions of slimes flew from the nests of the war, and a feast of this ethnic group began.

Xuan did not continue to attack. Under the horrific offensive with his black-headed stick and full mammoth, this star-shaped magical vine with a semi-premium was repaired, and this morning has been half-dead, even his consciousness has fallen into coma.

Right now, with the tens of millions of huge slime like a hungry wolf going down the mountain, the blood of the magic vine in the star vine will be lost a lot. If there is no accident, it will not have the chance to wake up again. . will

In the state of severe injury and coma, by the tens of millions of huge slime... completely sucked dry, it fell!

For all of this, Ye Xuan's heart is not half-bearing, and the way of survival in the sky is like this, the weak meat is strong. more

What's more, he has already given the opportunity to survive. As long as this star-shaped magic vine recognizes the situation and takes the initiative to surrender the plasma of the vine in his body, it does not need all, even if it is only six or seven percent, Ye Xuan will leave.

Although paying so much of the magic vine plasma, the repair of this star-shaped magic vine must be regressed, and it is very likely that it will fall back to the early stage of the king, but at least the life can be saved, give it a certain time, and in the future, it can still be recovered. of.....

It is a pity that this opportunity, the other party refused on the spot, then Ye Xuan does not need to say anything more, the immediate result can only be said that it is self-defeating! this

At this moment, Ye Xuan is very quiet in the universe of the universe, which is only a million miles away from the starry sky. The dawn is fixed on the starry sky.

This scene in the line of sight is shocking, but his face has no expression, no sadness, no joy, no sorrow...

Tens of miles of slime, at this moment, all of them are on the body of the starry vine, some on the tens of thousands of **** canes that have already been swayed, and some are like a star. On the main body of the ball.

Obviously, all of Slime is eating a crazy meal, arrogantly consuming the **** juice that swallows the body of the starry vine, also known as the magic vine plasma.

This scene is cold and unremarkable, as if a strange, towering giant tree was sick, its spherical trunk and numerous rattan-like branches and leaves, there are countless locusts, madly swallowing in general...
Time

The time passed slowly, unconsciously, and three hours passed.

Ye Xuan is not in a hurry. He has been standing in the void of the universe less than a million miles away. He has been staring at the starry sky vine in front. in

This is not long, the short but not short three hours, the entire group of tens of millions of slime, did not stop for a long time, has been madly grabbing the **** juice in the star of the magic vine. star

Although the empty vines are huge, each rattan is like a starry sky, and there are tens of thousands of such **** giant vines.

And its central body is a huge **** ball like a star...

But at this time, it seems that the locusts are generally adsorbed on the body and continue to devour the Slim, and the number is too much. Under the horror base of tens of millions of giants, plus three hours of endless madness, nowadays, This tens of thousands of canes, like the giant vines, have been completely withered. original

The part of the slime that was absorbed on the tens of thousands of rattans was obviously still unfinished. When the rattan they absorbed completely disappeared, there was almost no hesitation. The first time they followed the rattan. Climbed to the main body of the magic vine ball at the center...

In fact, even this star-shaped magic vine ball body is now significantly smaller than the previous one. but

At this moment, with a large number of slimes that were originally absorbed on tens of thousands of rattans, they have all gathered together, and they have already lost a large circle of magic vine balls, which are covered by countless slimes in an instant, and The speed visible to the naked eye quickly dried up.

If there is no accident, follow this speed and develop, at most one more hour, this original magic-like magic vine ball will be completely withered by the tens of thousands of blood-colored magic vines.

It was also at this time that there was a glimpse of the starry sky in the vain sky of hundreds of thousands of miles away, and suddenly there was a new discovery...

Purple mans! With

The magic vine ball in the void in front of hundreds of thousands of miles quickly dried up. In its interior, the purple singularity of the stars was unintentionally revealed, and the stars were a little bit, shining brightly.

"call out!"

In the next moment, with the heart swaying, the starry sky will not hesitate, and with a wave of hands, an invisible majestic power will swept away, and in a moment will be surrounded by the magical vine ball covered by countless slimes. "

call out! "

"Hey..."

At the same moment, under the control of the horror of the starry sky, the purple ghosts originally located inside the magic vine ball were extracted one by one and turned into a purple flower. Mang, violently rushing toward the starry sky, the emptiness of the air, the faint sound of breaking the air continued to have a hundred interest, which suddenly disappeared.

With the disappearance of these broken sounds, the starry sky in front of the universe in the void, a little bit of exuberant fragrance of purple mans, is quietly suspended, from time to time flashing a glimmer of purple light, dazzling . This

A little bit of purple mans, only the size of the fist of ordinary humans, and clearly is liquid, but it is not condensed, like crystal, you will know the extraordinary resources at first glance.

Just as Ye Xuanyuan's fine mangling flashed, he wanted to take a close look. In his mind, he immediately heard a familiar system prompt: "Hey, congratulations to the host, I found the magic vine purple core! : One thousand drops! Is it charged immediately?"

Rattan purple core? Tsui

Chewing this vocabulary that has never been heard, Ye Xuan did not hesitate. In the first time, from the data repository of the body swallowing system, all the information about this magic vine purple core was taken out and quickly browsed. less

After that, the violent face of the starry sky showed a touch of enlightenment, and the singer was even more excited and excited.

The so-called magic vine purple core, really is not a general starry sky resource. Such as

If you compare the magic vine plasma to the ordinary blood in the human body, then the magic vine purple core is equivalent to the vertebral blood in the human spine, which is precious. This

One point, only from this starry sky, the vine has the strength of the semi-premium, but the magic vine purple core in the main body of the ball, but only a thousand drops, can be seen one or two.

As for its effect, not only does it have a heinous repair power for the injury of the physical body, but it also makes the blood, the real element, the soul power, the spiritual power, etc. consumed by the starry sky body fully recovered in an instant. simple

Straight is the legendary Wanjin oil, a drop, the state is wilting, and you can live alive! more

What's important is that it can repair even the wounds on the soul level, and the effect is quite strong...

Chapter 4333: Late king

"call out!"

During the wave, a small jade bottle was sacrificed. With Ye Xuan's thoughts, a thousand drops of magic vine purple core hanging in front of him, instantly disappeared into this small jade bottle, and he was born into the immortal world.

This time, the harvest was amazing. Not only did the tens of millions of Slims in the whole year's battles get the blood of the magical vines that quickly increased their blood. Even Ye Xuan himself had a thousand high-value devils. Rattan purple core. This

Resources can only be condensed in the body of the Star Wing, and even a single drop requires a long period of accumulation to be able to condense. Not only can it be used to refine high-grade Baodan, but also various other effects. . leaf

Xuan can get a thousand drops at a time. It's definitely a dog's luck. If this is not the case, it's a half-step of the magical star of the royal world. It's impossible to harvest so much...

After the jade bottle was put away, Ye Xuan continued to wait patiently. After about an hour, the front of the sky was like a giant star-shaped magic vine main body, but now it has dried up to a diameter of only about a kilometer.

The breath of life is no longer there, and the consciousness of this vine is dying, and it has fallen. and

The tens of millions of slimes that were originally absorbed on the main body of the magic vine, have basically been separated since now, one by one like drunkenness, swaying in the void. This

Obviously, the blood of the vine that is absorbed is too much, and the flesh is already a little bit stunned. It is about to fall into a deep sleep, and the rhythm of refining!

Ye Xuan did not hesitate any more. In the middle of a wave, the vicissitudes of the years in the sky were spurred, and an invisible squirt was rolled out from the thousands of hive nodes of the war, just less than one. At the time of the incense, all the slimes in the void have been sucked back to the hive of the war. on

This is in a deep sleep...

Believe, after these slime wake up from the slumber, the next time they see them again, the life form of the entire ethnic group will surely get a qualitative leap.

Once Ye Xuan will upgrade the hardware of the war, then the power of the whole battle will rise in an instant, from the current chicken ribs, to the return of even the current Ye Xuan, you need to rely on the starry sky to kill. The list of devices! "

call out! Wait

After all the slimes returned to the hive's hive node, Ye Xuan waved his hand and directly absorbed the years of war into the immortal world. Then he turned to the front of the millions of miles away, but now only a thousand The diameter of the main body of the magic vine.

Don't underestimate this kind of kilometer ball that has been reduced by countless times before. The inside of it is all wrapped in precious rhododendron plasma.

Not only is there a miraculous effect on the evolution of the blood of the Slim group, but it is the same for the star-studded powers of any other group, but the effect may be slightly different from that of the Slim group.

The reason why Ye Xuan left the rhubarb plasma of this kilometer diameter is to prepare some retention for the future. another

On the one hand, it is intended to take advantage of this opportunity, and also absorb some of the magic vine plasma, and with other cultivation resources, try to break through.

Of course, the magic vine purple core must be no less, anyway, there are a thousand drops! "

boom! "

A fist banged out, the front of a million meters away from the diameter of the main body of the magic vine, instantly blasted, countless **** magic vine plasma spattered, a fascinating fragrance in the void . leaf

Xuan waved his hand and immediately took out a sapphire vial and held it in the void. An invisible sucking force swept out from the sapphire vial. Just like the long whale absorbing water, the half of the magic vine plasma was immediately put away. .

Then, after the sapphire vial was born in the immortal world, Ye Xuan's body shape was freed from the state of the sixth change of the konjac. The figure was like a balloon that was deflated, and it immediately contracted. Responding to a ten-foot high, it is still a starry form.

As for its cultivation, it has also fallen back to the seventh stage of the immortal king!

In the next moment, in front of the void, the remaining half of the magic vine plasma lasing and turned into a liquid sphere with a diameter of several hundred meters, rich to the horrible smell of fragrant fragrant...

When I saw it in front of me, this liquid ball that was hundreds of meters straight was already promoted by Ye Xuan's domain power of Shennong Ding. It was compressed to the size of only the baby fist, and it seemed like a sweet and sweet. The strange medicinal herbs are general. One

The mouth was swallowed by the blood-colored medicinal herbs compressed by the massive magic vine plasma. Ye Xuan did not pause for a while, and then he took out a hundred drops of magic vine purple core from the immortal world.

Together with a dozen drops of all the evil source liquid, and a hundred cubic meters of purple gold top flesh and blood medicine, they gradually swallowed the abdomen.

After completing all this, he waved and sacrificed Shennong Ding, a step-by-step room, and went straight to the Dingkou where he was holding the colorful fog. He did not hesitate to sit down and kneel down, and started a new round of breakthrough.

In the next moment, the sound of the overwhelming chain makes it easy for Ye Xuan's body to ring. This

Once, the chain of shackles that appeared in his body was still two. This represents the cultivation resources of this swallow. The power formed after the fusion is enough to make him break through two small steps. but

The premise is that while he is in the refining and chemical body, he can drive them and smoothly smash the two chains of chains that appear in the body at this time... all tears completely! Correct

In all this, Ye Xuan has already been familiar with the road.

Without any pause, even if he spurred the energy of the river, he carried out a big Sunday operation in the whole body of the treasure body, thereby accumulating strength.

In the end, everything is no suspense. When all the energy is refining, it is only a shock, and the chain is broken. and

As these two extremely thick shackles were finally completely broken, the expected system sounds, and soon in the mind of Ye Xuan...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the king of immortality!"

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: Feng Wang immortal eighth order! "With

With this breakthrough, Ye Xuan's combat power has once again climbed... The eighth order is already the late king! this

Before, the cultivation of his deity was only the sixth order of the king. Once he activated the blood of the ancient konjac in his body, he could climb to the seventh stage of the imperial king. One

Once the konjac was transformed into a supernatural power and reached the sixth change, the combat power immediately rose to the fourth stage of the imperial eternity.

Now, after activating the blood of the konjac in the body, Ye Xuan will enter the ninth order of the immortality. Such as

If you use the magical genius of the konjac, you can directly enter the sixth change of the konjac, and its peak power can reach the sixth stage of the imperial emperor, and the combat power will be greatly improved! If

It's a tens of thousands of feet of trolls, and it's the horrible power of the cockroaches. Today's Ye Xuan, even if it meets the imperial seventh, or even the eighth-order emperor, Can be fearless! only

The imperial power of the imperial ninth order of the emperor can be a threat to him...

Chapter 4334: Horrible Asahi

With this breakthrough, Ye Xuan's cultivation has reached the eighth level of the king, which is still under the normal state of the deity. At the moment, he activates the blood of the konjac in the body and changes to the body shape. The starry sky is high, and the strength is climbing to the first level.

Therefore, the temper at the moment, the temperament that is scattered in the body is the ninth order of the king, that is, the half-step empire!

The semi-emperor strongman, the speed is a lot faster than the previous seven-step king of the king. Therefore, the last small segment in front of the rush to the starry sky of Xusheng, the Ye Xuan only took a few days, it has been left behind. before

The universe void outside Fang Yili is the edge of Xusheng's forbidden land. Ye Xuan did not move on, but decided to crouch down in the surrounding area. As before, he first hunted an ordinary immortal. Forbidden land beasts, search for souls, and explore the current situation of this Xusheng forbidden land.

An ordinary immortal banned beast, it is impossible to understand too many important hidden information for this large-scale forbidden land where the beastmasters are sitting in the town. However, what Ye Xuan needs to know now is only some basic situations, but It is completely enough. complete

It was actually a large-scale banned land with a beastly beast. The territory of the starry sky was much wider. The number of all kinds of banned beasts was many times higher than that of the previous banned land. again

In addition to the thousands of trillions of vast emptiness that Ye Xuan currently knows, there is no more powerful, top-level banned land with an emperor-like presence. On the other side of this vast starry sky, there is a similar level. Large-scale survivor star...

It can be said that this Xusheng forbidden land basically does not have to worry about foreign enemies to provoke violations. Therefore, all the banned beasts in the forbidden land, the frequency and density of activities in the surrounding areas, are also more forbidden than the intermediate-level star ban. , climbing too much. This

In this case, Ye Xuan was incomparably in the distance of the distance from the edge of the distance of hundreds of millions of miles away, met a common immortal level of the forbidden beast.

Looking at the timing, suddenly shot, the head of this immortal savage beast has no chance to slam, and Ye Xuan kills him on the spot, almost disappeared, leaving only a sorrowful soul Search for the soul.

After a soul search, Ye Xuan had a general understanding of the basic situation of the entire Xusheng forbidden land. The whole heart sank, the face was gloomy and fell into sinking... This

The large-scale starry forbidden land is different from the small starry sky forbidden by Ye Xuan and the medium-sized starry forbidden land. He has more than one star field.

In fact, the entire Xusheng forbidden land is composed of four vast stars. Each of these four stars is more vast than the Forbidden City. There are thousands of life stars in each star field. More than ten beasts and beasts, and countless forbidden beasts. plus

Together, the entire beastmaster of the Xusheng ban has reached more than 50, and the seal is immortal, with five or six hundred.

Because there is a small central star field in the junction of the four stars in the southeast and northwest.

Although the central star area is smaller, it is the core of the entire Xusheng forbidden land, surrounded by four stars in the southeast and northwest.

In the central star field, there are ten or so beasts of the beasts. In addition, the beastly king of Xusheng's forbidden land is also seated in this central star field.

Those who are qualified to inhabit the Xu Xing ban in the central star field of the forbidden land are all elites of the king. Their cultivation is the strength, they have reached the ninth-order great perfection of the imperial king, that is, within the central star field. There are more than ten statues in just half a step.

And the real beastly king, there are eight! early

In the middle and the end of the two, in addition, there are two great emperors of the ninth order, that is, ... half-step emperor! do not

Say all the eight beasts of the beasts, just these two half-steps of the emperor, Ye Xuan can not deal with now, unless the headless baby in the sleep is awakened.

Even if the Zixia Fairy wakes up, and it does return to the refinement of the Fenghuang Jiujie Daquan, but Ye Xuan has only one half-step emperor. he

In the long run, the **** magical power of the konjac is changed to the sixth change, and only the sixth-order repair of the emperor is the strength, and the bonus of the powerful body of the huge body of the tens of thousands of feet is counted. Many can only fight the existence of the seventh and eighth orders of the Emperor, and the ninth order of the perfection of the Emperor will definitely not win. Take

The former Ye Xuan often can fight across the big realm, but as his cultivation is getting higher and higher, the masters of Shenqiang and Shennong Ding, which he has in his hands, are so ridiculous that he has obvious effects on his combat effectiveness. It has become weaker and weaker, its strength is strong and weak, its importance... is becoming more and more obvious. except

With regard to these basic information about the Xusheng ban, Ye Xuan also learned some information about the smoldering furnace from the remnant of the ordinary immortal banned beast.

The furnace has indeed been banned in Xusheng, and it has been a long time since it came to this forbidden place. However, it is strange that it has always been a fierce day. In the three major star-space planes of the world, countless star-studded powers have become ugly, almost becoming boundless. The smoldering of the representative of the singer, since the advent of this Xusheng ban, but did not launch a similar killing of the forbidden beast here.

This is not like the style of the furnace, so that Ye Xuan frowned, the more I feel that things are not so simple, the sudden change of style in the furnace, there is absolutely a conspiracy.

It is a pity that the ordinary immortal savage beast that was searched by his soul is, after all, repaired to be too weak. In the huge monster of Xusheng, the status can be neglected, so the information is limited and basically touched. Not really what is hidden. Place

Therefore, Ye Xuan still can't analyze the true purpose of the Furnace coming to this Xusheng forbidden land. but

Regarding the smoldering furnace, Ye Xuan is not completely ruined. At least, there is still a certain degree of cognition in the memory of the current power of the smoldering furnace, the remnant of this ordinary immortal banned beast. from

After coming to this area, although the furnace has not been as arrogant as the past, it is a **** killing of the horrible, but it is the same level as Shennong Ding, and it is a treasure of the stars, including the beast. There is no redness. can

It is said that since the first time, the furnace has been stared at by the top five stars in the Xusheng forbidden area. sit

The forty-something ordinary kings in the four outer stars of the southeast and southwest of the town are naturally not qualified. Even if they want to own it, they dare not take it.

In fact, even the ten-and-a-half-step emperors who inhabit the central star are like this.

In the Xusheng ban, he is qualified to stare at the furnace, and he tries to conquer it. He only has the eight beasts who sit in the central star field.

It is a pity that almost all of the eight beasts have been shot, but the end result is no exception. No one can get a furnace...

Chapter 4335: Mixing

In Xu Xing's forbidden land, all the eight emperors, including the two emperors, and the nine emperors, all tried to conquer the furnace, but without exception, they all failed.

This shows that a problem, the fighting power of the furnace, has at least reached the realm of the emperor.

Of course, the power of the furnace is extraordinary. Even if it was still in the star of the evil, it would be able to crush the ruins of the ancient and even the ancient ruins, and even broke into the unknown. In the void cracks, a large number of ruins of the ancient ruins are collected.

As the same as the Shennong Ding, the age-old era of the ancient treasures, it was difficult to conquer, the eight emperors of the Xusheng forbidden land can not conquer, and can not represent its true combat power, it has reached the realm of the emperor.

The reason why Ye Xuan will have this conclusion is because the eight supernatural beasts of the Asahi ban are not only trying to collect it, but one of them is half-step, even under a wrath, with the furnace There was a big fight.

The end result is that this half-step defeated the emperor... So, naturally, the combat power of the furnace can be roughly assessed.

Moreover, the strength of Fengdi is only a conservative lower limit estimate, it may even be more powerful!

With this powerful combat power and the ranks of the era-old treasures of the times, the furnaces in the Xusheng ban are completely traversable. In the entire forbidden land, all the banned beasts are incomprehensible. .

However, although the furnace has a powerful force that can be rampant in the Xusheng forbidden land, it does not kill here, but does not leave. It is a stroll in the day, flying here for a while, flying for a while. Going there gives people a very strange feeling...

Initially, because of its arrival, and after showing the horrific power of the half-step of the imperial concubine, the entire Xusheng forbidden land was once a beastly heart, but over time, the beasts in the forbidden land found it powerful. However, it seems that after natural harmlessness, this fear of growing up has gradually faded away.

Now, two years have passed, and the countless forbidden beasts in the entire Xusheng forbidden land seem to have become accustomed to the existence of a furnace, even when they are in the void, the furnace is swaying from the side, they are not There will be too much fear and anxiety.

Such a situation, if it is not through the information collected by the soul, there is no possibility of fraud, Ye Xuan almost can not believe ...

"There must be a conspiracy!"

After some indulging, Ye Xuanyuan flashed in the cold mang, and murmured: "However, it is unrealistic to search for the inside story, even if it is in the Xusheng ban. The strong, that is, the two half-steps of the Emperor, I am afraid I do not know the true purpose of the furnace, at most I can only see some traces of the beads..."

"The only way is to mix into the Xusheng forbidden land, and then squat down, secretly observe the movements of the furnace, find out the traces of the beads, and then carry out the deduction and analysis, and finally it is possible to get the answer."

If you want to mix into the Xusheng forbidden land, and it is very likely that you will crouch for a long time, it is obviously unrealistic to use the strength of the ninth-order grand refinement that Ye Xuan now shows.

The entire Xusheng ban, the inner kingdom of the banned king, has only existed for more than 60 liters. It has the sacred emperor of the ninth-order grand prince, and it is only the ten-seat half-step emperor who inhabits the central star field. Everyone is a high-powered existence. It is absolutely well known in Xusheng's forbidden land. Suddenly, Ye Xuan's such a raw face will be exposed in the first place.

However, if the repaired strength is too weak, it will be extremely inconvenient...

After some indulging, he decided to fix the strength to the immortality of the seal, and still seal the immortal first order.

In the five major stars of the Xusheng forbidden land, there are about 600 immortals, and Ye Xuan deliberately cultivates the strength as the first step of the seal. This is more likely to be a perfect fulfillment from the ordinary immortal ninth order. Breakthrough comes, and the concealment is higher, when it can be foolproof.

After the decision, Ye Xuan did not hesitate any more. Even if he rebuilt his own strength, he was concealed to the immortal level, but his body shape still maintains the violent appearance of the current ten-foot high, in this vast and vast In Xu Xing's forbidden land, there is also a starry beast with a starry sky, so there is no need to make another choice.

Everything is ready, and even if Ye Xuan rushes out of the abandoned star hiding in the hiding place, the speed is not fast or slow, and it is roughly equivalent to some of the forbidden beasts that occasionally appear in the surrounding area, and is determined to rush to the front of the Xusheng ban. go with.....

The area he entered was the southern star field in the five major stars of Xusheng, so after entering, Ye Xuan did not stop at all and went all the way north.

Because the furnaces are now active within the central star field surrounded by the four fringe stars, Ye Xuan's adventures have been deepened into the forbidden land. The purpose is to discover the movements and conspiracy of the furnace, which must be approached first. It is possible to achieve.

Xusheng's forbidden land really deserves to be the only large-scale starry sky in the vast void of the surrounding trillions of miles. Before Ye Xuan's distance in the outer zone, there was no deep feeling, but after entering the southern starry field, The sight that I saw was immediately different.

It is only this southern star field, its territory is more than the Forbidden area, there are countless stars, there are more than a thousand stars in life, and the surviving kings in the middle of it are more than ten.

Looking around, there are all kinds of forbidden beasts that are cultivated for varying strengths in the void. It looks very lively.

In this way, Ye Xuan galloped all the way in this area, and rushed straight toward the north. It was not so conspicuous. Anyway, there were banned beasts everywhere in the void, and no one would specifically lock him, and continue to pay attention!

At this speed, Ye Xuan took a full ten days to cross the vast southern star field and enter the central star field surrounded by the four major stars.

This is a waste of a lot of time, but it is also a no-brainer. After all, it has already entered the interior of Xusheng's forbidden land. If the revealed repair is too strong and the speed is too fast, it will definitely attract unnecessary attention and it is very likely to reveal identity. .

Everything is still based on security!

After entering the central star field, Ye Xuan did not rush to hurry immediately, hunting an ordinary immortality in the marginal zone. The soul search determined the approximate orientation of the muffler, and then continued to hurry and rushed toward the target area.

Although the central star field is not as wide as the four major stars in the southeast and northwest, it is not too much, and because the eight emperors in the Xusheng forbidden land all sit before the town, there are another ten half-steps. Therefore, Ye Xuan had to be more careful.

In the end, it took another eight days to finally reach the northwestern part of the Central Star. The furnace was recently in this area...

Chapter 4336: Star controller

Also at this time, Ye Xuan's mind suddenly sounded a familiar system sound...

"Hey, congratulations to the host! Discover the dangerous star!"

"Appraisal Results: Void Vortex! Hazard Source: Unknown! Risk Factor: Unknown! Do you explore immediately? Tip: If the exploration is successful, there will be a chance to upgrade the system title!"

"The current title of the system: the fifth level, the interstellar devotee!"

"The next level of the system: the fourth level, the Star Master!"

"Interstellar controller: The title's own halo effect will add a brand new system based on the original five-level title of Star Trek, Interstellar Adventurer, Interstellar Explorer, Interstellar Trailblazer, and Star Trekker. Ability, random activation. At the same time, the number of interstellar coordinates imprinted on any cosmic plane, from the first two, grows to three!"

"Hey, after the system is finished, do you start exploring immediately?"

I haven't seen the furnace yet, but I first encountered the system exploration mission that suddenly came.

With the end of the system sounds in the brain, Ye Xuan was caught in the sinking, the eyebrows were locked, and the faint screams were flashing...

Speaking of it, the system exploration mission has not arrived for a long time. This time it suddenly came. For Ye Xuan, it is indeed good news, but in the same way, his mind also has deep concerns, so it will be so hesitant at this moment.

The upgraded fifth-level system title, which is the name of the interstellar conqueror, not only adds a new system capability based on the original four-level title, but also helped Ye Xuan create four major battles. Forging system. At the same time, the number of interstellar coordinates that he imprinted on any cosmic plane increased from the original one to two!

Moreover, when the title of the fifth-level system was successfully promoted, the secrets of the spiritual power secrets and the magical powers that Ye Xuan had mastered, as well as the various blood vessels in the body, also had a certain degree of improvement.

It can be said that the benefits are enormous.

But the reason he got these benefits was because of the ultimate success of the fifth system exploration mission.

But if the system exploration mission failed, the punishment that Ye Xuan will face is also very serious, that is, the system title will be directly lowered by one level, and the corresponding title ability and benefits will also disappear automatically.

The fifth system title exploration mission before, the punishment for failure has been so harsh, and the sixth systematic exploration mission that suddenly comes unexpectedly, once it fails, the punishment must be more severe, at least not the last time. light.

That is to say, once this system exploration mission fails, Ye Xuan's current fifth-grade title is very likely to be directly downgraded by one level, from the current interplanetary devotee, to the previous fourth level, which is the interstellar pioneer. .

At the same time, there are also affiliated abilities and various benefits corresponding to the fifth-level interstellar devotees...

By then, the already activated forging system will be closed again, and the benefits of branding two interstellar coordinate jump points in any cosmic plane will also be restored to only one brand.

Including the success of the last time after the successful exploration of various blood and secret techniques and the level of supernatural powers, will also fall back!

This kind of price is too big, it is simply unbearable, so Ye Xuan has to be carefully considered.

However, although the risk is very large, if the system title task is successfully explored, the benefits will be obtained.

A new system capability that will open again will not be mentioned. It is only the existing universe plane, which can only mark the limits of two inter-satellite coordinate jump points. It will be relaxed to three points, and let Ye Xuan heart No more.

The emptiness of this piece of land in the wild world is indeed too vast. Even with the horror of the emperor and the emperor, it is also considered to be vast and vast.

In the universe, Ye Xuan has branded an interstellar coordinate jump point, which is the Sangzhi star field when it first arrived.

Right now, he can still jump in the interstellar coordinates of this cosmic void, and there is only one left, which is really not enough.

If one more can be produced, its significance will be extremely significant.

What's more, with the successful exploration of the title of the system, Ye Xuan's own blood, as well as all kinds of secret secrets and magical powers, the level of which will certainly be the same as above, and once again comprehensively improved.....

In general, although the risks are large, the benefits are even greater. As a strong star, if there is a courageous brave man, if you are cringing, what should you do?

The rest of the time is running out. The rehearsal of the furnace, the strange behavior, the conspiracy, and the fact that the vast world of established facts has come to an all-round, is getting closer and closer.

It will be a real catastrophe, that is, Ye Xuan can now have the power to seal the emperor, and may not be able to survive, not to mention the many other friends he belongs to and his descendants.

Nowadays, the situation is already cut off in the back road. In the face of any distress, the only choice is to break the boat and go straight ahead!

With this in mind, Ye Xuan did not hesitate any more, even when he gave the body's phagocytic system an affirmative reply to accept the title of the system.

In the mind, familiar system prompts sound instantly.

"Hey, congratulations to the host! Successfully open the system title exploration mission! If the exploration is successful, there will be a chance to upgrade the system title!"

"The current title of the system: the fifth level, the interstellar devotee!"

"The next level of the system: the fifth level, the Star Master!"

"Interstellar controller: The title's own halo effect will add a brand new system based on the original five-level title of Star Trek, Interstellar Adventurer, Interstellar Explorer, Interstellar Trailblazer, and Star

Trekker. Ability, random activation. At the same time, the number of interstellar coordinates imprinted on any cosmic plane, from the first two, grows to three!"

"System Task Exploration Completion Requirements: To be determined, open after entering the Stars!"

"Exploring mission failure penalty: the system title is up and down on the current basis!"

really!

Once this exploratory mission fails, the existing fifth-level title will automatically be downgraded to the first level and directly return to the previous fourth-level star pioneer!

Although I have already realized this, I am suddenly surprised to hear that this punishment has become a reality. Ye Xuan's heart is still inevitable, even when he shook his head and smiled helplessly...

However, this time the sudden exploration of the system exploration mission, Ye Xuan has already accepted, but he did not explore immediately. After all, the system's prompt tone did not give a time limit for exploration... Of course, this matter also Can not be dragged for too long, otherwise there will inevitably be other changes.

After a little indulging, Ye Xuan even though he followed the original road and quietly withdrew from the Xusheng forbidden land, until it was a billion miles away from the edge of the Xusheng forbidden land, and then stopped and swayed. To a nearby abandoned star, a wave of hands, the Shennong Ding sacrificed out.

The reason for this is because the star vortex that is about to start the exploration mission this time is very likely to connect with another mysterious void. Ye Xuan does not know whether it can return in the near future, so it must be before leaving. Make a proper arrangement...

Chapter 4337: Entering the star

Away from the edge of Xusheng's forbidden land, Ye Xuan broke into an abandoned star and waved it directly to Shennong Ding.

As his knowledge extends into Baoding, it is just that the old goods of Qingniu are not closed. It seems that they have just broken through a small order and are preparing for the next retreat.

"call out!"

During the meditation, a faint sound broke through, and the green cow, which was originally in Shennong Ding, was directly smashed out by Ye Xuan. When the body shape appeared, there was still some unclear situation. After seeing Ye Xuan, this sprayed a nose.

The road straightened up and greeted: "Hey, what happened? How did you suddenly pull out the old cow? I just broke through to the second level of the king, and I am preparing to continue to practice retreat..."

"Responsible things are not anxious, returning to the phoenix forbidden, some time to give you a retreat."

Ye Xuan waved his hand and directly interrupted the words of Qingniu. Then he looked positive and said: "This king encountered something in this Xusheng forbidden place. It is very likely that he will not be able to return in the short term, but the starry sky nomads in the forbidden area. The strength of the legion can not be delayed. Therefore, you need to bring back some of the various levels of Baodan."

"After going back, you will temporarily lead the entire banned blood ban, so even if the king is not there, the phoenix bans you in the forbidden land, there are also six kings. Although they are all early, but within a hundred billion miles, there is no The strong medium-sized starry sky is forbidden, when it can be innocent..."

After that, Ye Xuan waved his hand and slammed several storage bottles toward the green cattle. The ones contained in it were the twenty-two to twenty-three treasures.

Breaking through the ordinary immortal 20-level Baodan, Ye Xuan has more than 5,000 pieces in his hands. This time, it is a full two thousand pieces for the Green Bull.

Breaking through the 20th-level Baodan, which is immortal, he has more than 500 pieces in his hands and gave 200 pieces.

Breaking through the immortal twenty-two treasures of the king, he has thirty-eight in his hand, this time gave twenty.

Even the breakthrough of the imperial twenty-three-level Baodan, Ye Xuan has only four in his hands, and they have all taken out half, that is, two.

The value of this batch of Baodan is simply incalculable. Even if the two squadrons in the Xusheng ban are full of half-steps, they will be shocked.

Nowadays, they are all packed in a storage bottle, and they are thrown to the green cow.

The old guy obviously didn't expect Ye Xuan to shoot at once, but it was so terrible. After taking over the four storage bottles, the gods looked inside and scared the hooves and slammed them. They almost fell four bottles. Void.

"Da, so many Baodan, there are actually two Fenghuang Baodan, you just hand it over to me..."

Staring at Ye Xuan for a few moments, the old guy's face was blushing: "Isn't it afraid that the old cows will take them with them? With these resources, they will run to places you can't find, in time. Can create a large starry forbidden land!"

"If you want to run, you will run. Anyway, Fenghuang Baodan has already given you one before. Even if you don't count the two given this time, you have one in your hand. In a short time, you should not need to seal the emperor. Dan..."

Ye Xuan shrugged his shoulders indifferently, and turned his eyes and said: "Running better, this time the king went to collect materials, and then the refining of the Emperor Baodan, you can save one."

"Fang... Feng Di Bao Dan?"

Upon hearing this, the green bull's bulging bull's eye was instantly red, and the corner of the mouth was smashed out, and he was sucked back.

This old goods, the twenty-three-level Fenghuang Baodan that I had just received in the recent time, have not yet been used. When I heard the Emperor Baodan, I actually remembered it, and I had a bunch of smiles on my face. He rushed to the side of Ye Xuan with his hoof.

After taking it straight, I rushed to the starry sky and screamed: "Oh, what are you talking about? Old cow, is that kind of cow? Is it safe, the task of confessing is absolutely complete..."

"To the big brother, this time you are going to collect the materials for the refining of the Emperor Baodan? This is a big event, you must not delay, and quickly set off, the old cow I will return this batch of Baodan to the blood as soon as possible. Starfield, stay there and sit there, waiting for you to bring back the Emperor Baoding..."

"Hey!"

After that, the old guy just like a shot of chicken blood, excitedly raised his head and snorted, and then did not stop, the four hooves rose, the blink of an eye has returned to the direction of the Phoenix blood star field, the speed is far away.

The most dangerous place on this road was previously forbidden, but now it has become a history more than the forbidden land. With the second-order cultivation of the Qingniu King, there is no danger at all.

Therefore, Ye Xuan did not worry at all. When he saw him away, he did not hesitate. He turned and rushed to the Xusheng ban outside the one billion miles behind him...

It took another few days for Ye Xuan to successfully return to the star field that previously triggered the title of the system.

This way, I still didn't touch the furnace, which made him feel uneasy, but he couldn't help it.

This time I came to Xusheng forbidden land. Although the main purpose of the original was to investigate the movement of the furnace, but now I did not see the furnace, but unexpectedly triggered a system title task. So, Ye Xuan can only temporarily After throwing the story of the furnace, I decided to complete the system title task that has already been triggered.

Otherwise, if the Xu Sheng ban stayed for too long, the system title task that has been triggered has passed the time limit, and it is automatically determined that Ye Xuan has failed to complete the task.

These thoughts flashed through my mind, and Ye Xuan shook his head and smiled, completely throwing away the things of the furnace, no longer thinking about it, and then turned to the left side of a remote void.

There are only a few dozen abandoned stars in the void that have no light and heat. In the inconspicuous corner of the two abandoned stars, there is a void crack that is only a few hundred meters wide.

Because this kind of void crack can be encountered in the void, and this piece on the back of these two abandoned stars does not have much energy and energy, it is extremely inconspicuous.

If the system prompts this system title task, it is to enter this so-called "Star Swirling" to complete, I am afraid that Ye Xuan will not pay attention to it.

"A small, ordinary void crack is actually called a star-swirl by the system... This is really speechless."

Staring at this emptiness crack for a while, Ye Xuan did not see any clues, but the system is not wrong, he is extremely determined, and everything in the past has long been proven.

In the whisper, Ye Xuan did not hesitate, and his body shape swayed directly toward the void crack. He was not involved in the blink of an eye, and his body shape disappeared completely.

Almost at the same moment of entering this void crack, Ye Xuan's mind also came with a familiar system prompt tone... The specific content of this system title task, the system has not been detailed before, saying that it is to be treated It will not be turned on until it enters the interior of the star.

And now, everything is coming...

Chapter 4338: Awesome task

As Ye Xuan resolutely entered the so-called star-swirl specified by the system, the familiar system prompts in his mind also sounded again at this moment...

"Hey, congratulations to the host! Successfully open the system title exploration mission! If the exploration is successful, there will be a chance to upgrade the system title!"

"The current title of the system: the fifth level, the interstellar devotee!"

"The next level of the system: the sixth level, the Star Master!"

"Interstellar controller: The title's own halo effect will add a brand new system based on the original five-level title of Star Trek, Interstellar Adventurer, Interstellar Explorer, Interstellar Trailblazer, and Star Trekker. Ability, random activation. At the same time, the number of interstellar coordinates imprinted on any cosmic plane, from the first two, grows to three!"

"System task exploration completion requirements: find a chaotic source nest, and enter into it, differentiate one yuan god, refine the system into a **** god seed, plant into the chaotic source nest, open the road of chaos demon god!"

"Exploring mission failure penalty: the system title is up and down on the current basis!"

boom!

With the sound of the system prompting, Ye Xuan's mind immediately blew out the sound of roaring, and the whole person was sluggish, and his eyes widened, just like a thunder.

Chaos Devil?

Actually let yourself differentiate into a sacred god, refine the system as a seed of the gods, plant this so-called chaotic source nest, and open the path of the chaotic demon god?

Just kidding, this is simply scaring people.

Ye Xuan naturally understands the meaning of the system requirements literally. It can even be said that there is no difficulty in implementing it. His swallowing is condensed by the system attached to the system.

But this time it is obviously different. Although it is actually refining a avatar, the level of avatar is too high, and it is too big.

Although he does not know what the so-called chaotic source nest is, if it is associated with the Chaos Devil, it can basically be concluded that it should be the star of a particular star!

Moreover, this chaotic source nest is obviously more than one place, which is also consistent with the legend!

Legend has it that there are 3,000 avenues in the world, and the avenues can be proved. The three thousand devils are the congenital gods bred by the three thousand avenues of the avenue. Each chaotic demon has a rule, and it is said that the chaotic demon **** is bred by the avenue. from.

Even the legendary earth-opening, the Pangu **** that opened the great wilderness of the wild, seems to belong to one of the three thousand chaotic devils!

That is to say, the so-called three thousand chaotic demon gods were actually born before the opening of the flood era. Now Ye Xuan suddenly encountered such a system title task, actually let him find a chaotic source in this mysterious void. nest.

And put one's own seed of the gods into it, used to breed a chaotic demon... This undoubtedly also verified the world of the wild, from a side, is indeed coming.

This is the Chaos Devil, and the Pangu Great God, which opened the world of greatness, belongs to the same level. If you can really take a share from these three thousand chaotic devils, turn one of them into your own demon god. At that time, Ye Xuan's mighty might might not even be able to match the so-called wilderness.

"The matter sounded too ridiculous, but now the title of the system has been opened. In any case, there is no way out. In any case, try to find the so-called chaotic source nest and say..."

After some emotions, Ye Xuan gradually calmed down, and in the middle of the flash, there was a decision: "As for whether or not the system is required to be differentiated, the gods are divided into the gods. Where, Nestlé, occupying one of the three thousand chaotic devils, refining into one of their own avatars, that is the next thing, find the source nest, and then look at the situation!"

However, if you want to find this so-called chaotic source nest, I am afraid it is not a simple matter. Even if it is similar, it is very likely that there will be a full 3,000, and Ye Xuan only needs to find one place.

After all, this is the sixth-level system title task. How can it be difficult? If it is easy to complete, then it is strange.

With this kind of thinking, Ye Xuan subconsciously turned his head and looked at it. When he first entered the place from the star, he heard the specific details of the sixth-level system title task in the first time in his mind. Xuan's mind, so he did not pay attention to the surrounding environment.

At this point, he suddenly let his whole heart cool down.

After entering here, Ye Xuan no longer deliberately concealed and suppressed the cultivation, and restored to the immortal world of the king, but now, with the extension of his powerful gods, until the limit distance is explored, Still did not detect even a small abandoned star.

This piece of darkness is dark, nothing, not to mention an abandoned star, and even a little bit of cosmic dust can not be captured.

Not to mention that the void crack that entered this place is too small to be noticed. No one will pay attention to it. Even if some of the forbidden beasts enter here, it is estimated that they will leave without hesitation immediately after a round trip. There is simply no value...

But the system's prompts are not wrong, and, such a vast and infinite universe of voids, but nothing in the dark, even the powerful gods of the immortal kingdom extended to the limit, can not capture even a small Small abandoned stars... just this is not normal!

This is enough to show that there is something weird here!

With this in mind, Ye Xuan suddenly got a boost.

As long as there is nothing wrong with the title of the system, there is nothing to worry about. Before the shards of the ruins of the world outside the crack, Ye Xuan alone wandered alone in the dark void for several years. It's a big deal to review that feeling again.

After adjusting his mindset, he did not hesitate. When he even screamed his hair, he directly activated the blood of the konjac in his body: "The konjac changes... the sixth change!"

When the roar came out, the strength of Ye Xuan's body suddenly began to swell, just like a snarling of the Nujiang River, and the inexhaustible and fierce meaning of the limbs and the horrible power of the horrible blood. Gushing out of his body.

Its original shape is only ten feet high. It is like a balloon that is inflated rapidly in the blink of an eye. It usually expands rapidly, and the short three interest rate has reached a huge size, like a human star. .

And when it is skyrocketing with the violent body of the starry sky, there is also the temperament that has been dispersed in the body. When the sixth body of the tens of thousands of giants appears, the self-cultivation of the self-defense body is breathtaking. Reached the horrible Fenghuang immortal sixth order.

"Roar!"

With the completion of the sixth change of the konjac, Ye Xuan, who has the peak of the middle of the emperor, will speed up several times, and once again, he will not hesitate, and he will not hesitate, and he will look at one direction and look at it quickly. go with.....

Chapter 4339: Baby waking up

"call out!"

The sharp sound of the sound broke out, and a volley was passed by, and it was extremely eye-catching in this empty space where nothing was empty.

But its speed is very fast, and it has disappeared in the blink of an eye and is invisible at the end of the line of sight.

This is like a beautiful Huimeng, it is Ye Xuan.

Nowadays, under the state of the sixth change of the konjac, the temperament of the body has spread to the sixth stage of the immortality of the emperor, and the speed is almost horrible.

Even so, Ye Xuan maintains this extreme speed, looking for a fixed direction, and from time to time, he is fully engaged in teleportation, but now that a month has passed, he still finds nothing in this empty and empty void. No.

The strongest man in the mid-peak of the imperial concubine rushed for a month, and the distance between the stars and the sky behind him was already beyond the forbidden land from Bimeng to the sun, and he could come along the way. Ye Xuan was increasingly disappointed. For a month, don't say an abandoned star. He didn't even see the dust of the universe.

It seems that here is an endless empty void, eternal in the darkness of sleep...

Two days later, just as his heart became more and more helpless, the end of the void in the distance ahead, a star, finally reflected in the line of sight.

This star is very large. It is the largest giant star that Ye Xuan has ever seen. Although there is no atmosphere, its star land surface looks like a rock formation. There is no green vegetation or even water. However, Ye Xuan clearly captures the life of this star from the inside of this star.

After a month of galloping in this empty void, it is already a very gratifying thing to see a star suddenly. There is still a touch of life in this star. Perhaps it is the so-called chaotic source nest he is looking for...

One thought of this, Ye Xuan excitedly squinted and laughed, just as he wanted to start a full-speed lasing, and to look into the vicinity of this star, carefully look at somewhere in front of the left chest. Suddenly there was a familiar incitement that made Ye Xuan suddenly stunned, and then he subconsciously looked down to the left.

At first glance, nothing was found. He thought that he was now a huge monster with a huge body. The corpse lamp imprinted by the headless baby in his left chest was only double-finger. Under such a huge body shape, it is strange if it can be seen.

Without any hesitation, Ye Xuan lifted the **** magical power of the konjac in the first time, and even freed himself from the **** state of the ancient konjac, and restored the human body.

Therefore, his cultivation has also fallen rapidly, and his eyes have already fallen back to the eighth stage of the imperial king. With the fall of strength, the giant stars that could be sensed at the end of the void at the end of the sky disappeared instantly, because the distance is very Far away, it has exceeded the limit that can be found by the immortal gods.

But it doesn't matter, it can't be explored, but the star is still in the same place, and it can't run at all. It goes straight and can be reached in two days.

The most concerned issue of Ye Xuan is the instigation of the corpse lamp tattoo on the chest. This is very likely to represent the headless baby body that has been in a deep sleep, and has already awakened again.

This is definitely good news. Recall that this sleepless head of the headless baby corpse has been almost ten years old, and now suddenly wakes up, there will be a surprise.

This is Ye Xuan's intuition, which makes him very excited!

At this moment, as he restores the human form, the baby corpse tattoo on the chest is instantly revealed again, clearly showing a strong radiance, a mysterious breath is diffused from it.

Not waiting for Ye Xuan to respond, the corpse light tattoo on the chest turned out to be extremely hot, and then, under the flash of light, the corpse lamp tattoo on the left chest of Ye Xuan disappeared, and

the void in front of Baizhang, But there is a figure more, it is only the size of the baby, the whole body blood lines, there is no head in the item, but the head is holding a baby headless head!

"Rely, you finally woke up, know how many years have you slept?"

Seeing the headless baby corpse really wake up, and this time seems to be quite active, actually generously appeared directly in front of his face, Ye Xuan suddenly ecstatic, asked on the spot: "And, now you What is the repair?"

"Is the truth of the ancient war in the past, as the young cow said, you are the roots of the wild creatures that are called the devil, the artificial heavens created?"

"This is... Hong Meng's void?"

In addition to the hundred feet in front of him, the headless baby corpse suddenly awakened, and he did not pay attention to Ye Xuan. For his general problem, he did not even mean a little response.

At this point, the eyes of the baby's head that he was holding in his arms had already opened, shooting two **** awns, but did not look at Ye Xuan, but with the headless baby corps holding this head. The figure turned and squinted in the dark void around.

Although the mouth of the baby's head did not move, but in the void, there was a sudden sound of innocence, but the tone, but it seems old and even the voice of the sang: "You, really, the soul of the body Actually, you really found it here..."

What you said here, obviously refers to Ye Xuan, although the headless baby body said that there is no head, but Ye Xuan still heard some information from it.

Judging from his words, in the void of the ancient cages that were connected to the valley of the Forbidden City, the headless baby was named Ye Xuan, and the death was brought on him, and after that They have never left, and there is a reason for this.

The reason is that as early as that time, the headless baby corpse did not know what means to use, and saw that Ye Xuan is what Lao Shizi is a Hongmeng pneumatic soul.

He may be based on this point that Ye Xuan will definitely find this so-called Hongmeng void in the future, so he has always died in Ye Xuan and does not leave.

At the moment, there may be a power that cannot be understood in the darkness, so that Ye Xuan unexpectedly came to this place under the ghost, so he has been sleeping in his left chest with a corpse lamp tattoo. The head baby body, after sensing the unique atmosphere of Hong Meng's void, began to gradually break free from the sleep, until now, completely awaken!

These thoughts flashed through my mind. Ye Xuan stayed for a few moments, and then immediately turned his face. He immediately became nervous: "I said that you will not be at the head. After you reach your goal, you want to go alone." ?"

"If that's the case, then it's too kind. For the sake of you, the Lord of the Stars is now guilty of the horror of the ridiculous heaven and earth. You can run the road casually. The owner of the star is dragging his family and running the monk. ... can't run the temple!"

After saying this, Ye Xuan shook his head and smiled.

At first, he tried his best to get rid of the headless baby corpse, but now he is worried that the other party will leave. The person who took the thief boat can't afford to hurt...

Chapter 4340: Hong Meng Xukong

"The king of the king is immortal? The speed of entry into the strength is barely okay, but... it is still too weak!"

With the sound of the words of Ye Xuan with a little bit of awkwardness, the **** dawn of the baby's head held in the arms by the headless baby corpse finally moved slowly and finally fell to Ye Xuan. locking.

After looking up and down a few times, the strange, innocent and sorrowful voice of the voices of the sang sang again sounded at the moment: "However, since the body is arrogant, then, the chaos devil is

three thousand, must have One belongs to you, although it is weak now, but in the future, once the demon **** is gestating, it will be under the strength of the skyrocketing... It is also eligible to participate in the final battle!"

"Rely! This is the so-called "Hong Meng", which is actually this?"

Upon hearing this, Ye Xuan's eyes widened on the spot, and the mouth was even more cool.

Before he took this system title task, the headless baby body has not yet awakened, so most of them do not know the specific task of this system title task, that is, let Ye Xuan find a chaotic source nest and differentiate one yuan. God, where the Lord is, where Nestle occupies Nestlé, occupies one of the three thousand chaotic devils, refining and turning into one of his own avatars...

But at the moment, the headless baby corpse still speaks a similar discourse, which is absolutely impossible to be a coincidence.

The only explanation is that the so-called Hongmeng air transport that the headless baby corpse said earlier is actually white, and it will occupy a place among the chaotic devils!

Moreover, listening to the words he said at this time, between the headless baby body and the wild sky, there must be a so-called final battle. This battle is actually the ruin of the ancient world that collapsed the whole world. continue.

The battle of that year, although tragic to the collapse of the entire world of the vast wilderness, both camps have also suffered numerous deaths and injuries, even the existence of the empty giant tortoise and the golden dragon, the ancient sacred sacred, the seriousness of the serious injury The fallen and fallen.

In fact, the command of the two camps in that war, that is, the headless baby corpse and the ridiculous heaven and earth, have never fallen.

Nowadays, after the undulations and recovery of the endless years, the headless baby corpses and the ridiculous heavens and blue eyes have each awakened. Therefore, as the final result of the ruin of the past, the final battle of the endless years... ... is destined to come.

Perhaps the day when the vast world of the vast wilderness came to the world is the moment when this war officially opened!

If this is the case, Ye Xuan's time will obviously not be too much. The activities of the furnace are becoming more and more frequent and more and more strange, which gives him a heavy sense of urgency.

Although listening to the meaning of a headless baby corpse, once he refines one of the three thousand chaotic devils into his own avatar, by then, the chaotic demon who has been refining into a avatar will wake up, and the strength of Ye Xuan's cultivation will suddenly skyrocket. It is even more likely to reach the age of the Supreme Supreme, like the Nether Giant Turtle, the Golden Dragon, and the Ancient Fork, and have the qualification to formally participate in this final battle...

But... How long does it take for a ghost to know the time of a chaotic demon?

I can guess with the roots of the feet. This time must be short. Ye Xuan is afraid that he will not wait until then. The blue sky will suddenly start, so that the vast world that has already collapsed completely will come to the world. !

As soon as I read this, Ye Xuan couldn't sit still anymore. I didn't have the mood to talk to my eyes. I always talked about it's headless baby corpse. When I was in shape, I explored the direction of the giant star. Lie away.

Although not in a hurry, but in his view, the breeding of Chaos Devil is not a short time to complete, now can fight for a little bit.

Besides, there is also a system title task on your head. Just enter the star nucleus of the giant star in front, find the so-called chaotic source nest, and differentiate into a sacred god. 鸱 雀 Nestle, occupying one of the three thousand chaotic devils, refining and transforming into one of their own

Then, no matter when this reincarnation of the chaotic demon **** wakes up, can you wake up before the flood of the world in full bloom, at least for now, Ye Xuan's sixth system title task is finally able to finished.

This is a real benefit, can you miss it?

"The star in front is indeed a chaotic source nest. In the deepest part of its star nucleus, there is a chaotic demon **** in gestation..."

With the spurt of Ye Xuan's body, behind him, the sound of the words of the headless baby corpse and the thick sang sang, also sounded at this moment, "but, this chaotic source nest breath Too weak, the Chaos Demon that was born is not destined to be too strong, and it is not suitable for you..."

"In this piece of Hong Kong, there are three thousand places of similar chaotic source nests. What you need... is the most powerful source nest!"

"It is said that before the endless years of eternal years, when the era of the hunger was not yet opened, there was a place in Hong Kong's imaginary place where there was no known place, and there was a chaotic Qinglian..."

"Chaotic Qinglian constantly absorbs the chaotic aura around, and gradually forms a huge aura storm. From time to time, it flashes with dazzling light! In the end, Qinglian blasts, and three thousand roads are violently smashed and turned into three thousand. Stars, at the core of the stars, each has a chaotic source nest, which breeds a chaotic life, which is the so-called chaos demon..."

"But these three thousand chaotic source nests are also strong and weak. The chaotic demon gods, which represent different avenues of avenues, also have strong and weak differences..."

"In chaos, the three thousand rules, the so-called three thousand avenues, among them, the masters of the top ten rules are extremely powerful. The top ten rules are: the law of power, The law of time, the law of space, the law of chaos, the law of immortality, the law of magic, the law of life, the law of five elements, the law of yin and yang, and the law of destruction.

"In those days, in the glory of Hongmeng, the Pangu Demon, which opened the floodplain, is the chaos demon that emerged from the number one chaotic source nest. He is the first in the top ten rules. The top rule - the law of strength."

"If the law of power is great, it will be able to open up the sky and go straight to the avenue..."

Speaking of this, the head of the baby corpse in the blood awning flashed, the line of sight on Ye Xuan's body up and down again, and finally received: "You are different from me, I belong to the wild, branded the breath of the wild world You can't change your life at the level of Hongmeng, but you, with a glimpse of the air, have the opportunity to become one of the three thousand chaotic devils..."

"Now, this round of chaotic fruit is already gestating, and a new era is coming. Since there is a slap in the face, why not choose the strongest rule, use power... conquer everything?"
