Chapter 4341: Zuxing is here

"The law of power? You want me to do Pangu?"

Xuan scared a big jump, and quickly waved his hand: "There is no discussion about this matter, what is good for the world? Pangu that goods can have no good ending, and finally put all of them into the ..."

"That was just what happened in the last round of the Hongmen era..."

The baby smashed his head and his face showed a sullen color: "Every round of the Hongmeng era is different. I and the will of the wilderness have become a thing of the past. Now he is just struggling and wants to steal this round of glory. But all this is doomed in vain, you have a slap in the face, and this new round of good luck history is also destined to have a thick and heavy ink..."

When the last round of the Hongmeng era was opened, the rule of strength was Pangu, but this round, why can't you be Ye Xuan? Pangu chooses to open up the world and open up the world, but your choice is up to you..."

"The premise is that after this round of Hongmeng era is opened, you must have enough power to have the right to speak. Otherwise, in the previous era of soft Hongmeng, even if it is three thousand chaotic devils, I don't know how many in Pangu. Before the opening of the day, it fell into disarray early."

"It's rare to encounter an era when the Hongmeng era was opened, and it's just like a glimpse of luck. You never want this time. You are like some chaos demon in the last round. At the beginning of the new era, Will it fall early and fall?"

"It makes sense to say that I am speechless..."

Xuan dumbfounded, staring at the headless baby body, murmured: "In this way, among the three thousand chaos devils, I still have to do the strongest person who controls the law of power, otherwise... destined I have to be bullied by others!"

That's the truth, go, look for other chaotic source nests, and when you can feel the power of violent power, you can stop...."

After that, the headless baby corpse is swaying, and the temptation is coming to Ye Xuan. This

It is clear that after a meal, I have to return to Ye Xuan's left chest and turn it into a corpse lamp tattoo.

"Wait....."

Ye Xuan brows, even when she raises her hand and grabs her left chest, she even looks over her body. It seems to be sideways to avoid something, no matter what it is, but it is indeed a condition. The subconscious movement of reflection.

It's not that the baby's corpse will not return. Ye Xuan and he are already on the rope. The key is that the child's shackle is too habitual. I have been sleeping for so long, and finally wake up. Just a few words and want to rush back to sleep. bitter

Live and tired, but all let the cockroaches go... Why?

One thought of this, Ye Xuan's face was pulled down in an instant, and he turned his eyes and said with a good heart: "We are a cooperative relationship now, it's not right, it's always a cooperative relationship, but you don't think I'm always tossing? You It's comfortable to sleep, this time it's hard to wake up, how many things are going to happen?"

"Are you tossing for a few years? I was already setting up after the end of the eternal years of the endless years..."

Ye Xuan resentment is deep, but the headless baby body is just such a sentence, it is not tempered to put him on top. miss you

Thinking about it too, has he tossed for a few years? Since the headless baby corpse has not fallen in that battle, and lived to the world, how could there be no arrangement? that

After the collapse of the entire world of the wilderness, the headless baby corpse and the ridiculous Tiandao Qingyan have never had a positive confrontation, but both sides must be in the dark as far as possible to carry out all kinds of arrangements, everything. They are all for the final battle that will surely come in the future.

For example, the furnace of the sacred furnace and the source of the evil, such as the virtual giant turtle...

The arrangement is the arrangement of the green eyes of the wilderness, while the latter is obviously related to the headless baby. that

However, a sacred sacred man who lived from the wild to the world, was rescued immediately after being rescued by Ye Xuan. If there is no accident, this must be one of the backhands of the headless baby corpse, but Ye Xuan has not yet At that level, I am simply not qualified to know.

In fact, even if he told him that he didn't have any fart, he would listen to it at the most, and then follow the joy and worry.

When I thought of it, he suddenly stunned. The left hand on the left chest squatted a few times on his chest. He smiled and let it go down. He tried and asked: "Right, big, except turtle, you were His Majesty the Supreme Supreme, still alive... How many? Where did you go? Including the Golden Dragon and the Wild Night Fork? They all have a relationship with me!"

These are not yet let you know, when you get to the universe, you can naturally understand the whole layout..."

"The universe is supreme? Rely on, that is still far away!"

Ye Xuan turned his eyes on the spot. After the emperor's immortality, there are five great realms, the universe, the cosmic master, the cosmic supreme, and the ancient powers and the ancient supreme! This

The so-called cosmic supreme is actually a quasi-wild power!

Ye Xuan has not even arrived in Fenghuang and Fengdi, not to mention the five major realms in the back. I don't know what happened after the Monkey Year. "

Or, find the ancestral star and enter it... At that time, you can also know some of the layout first! "No

Waiting for Ye Xuan to continue to swear, the voice of the vicissitudes of the headless baby corpse visa has already sounded again: "When the ancient world was destroyed, the whole world of the wilderness collapsed, but the ancestral star did not suffer much. , was swept away by a sigh of relief..."

"If there is no accident, Zu Xing should be within this piece of Hong Kong's void. Not only I am looking for it, but also the enemy of that year. You are in a hurry and enter this piece of Hong Kong, which is bound to be Get the glory of Hongmen Avenue, perhaps, the ancestral star will be found in your hands...not known!"

"What? Is the ancestral star here?"

Xuan immediately opened his eyes and shouted. This

The news was so amazing that he was surprised, and his breath was rushing as he screamed.

He has always suspected that this so-called ancestral star is the planet he was born. press

According to the description of the ancestral star heard by Ye Xuan, it has more than 70% of the sea, looking from the universe of the void, a piece of water blue, which is clearly the same as Ye Xuan's true homeland!

Calculating the time, he left the home planet and accidentally descended on the Nine Stars. I have already known how many years have passed. If this ancestral star is really the original earth planet, I wonder if the time passing there is the same as the outside world. Such as

The result is the same. After such a long period of time, what will be the scene in the present homeland planet?

For a moment, all of these thoughts were tumbling from Ye Xuan's mind, and he was immersed in confusion...

Chapter 4342: World worm

When Ye Xuan recovered from the short-lived loss, the headless baby corpse in front of her eyes disappeared. Looking down, at the left chest, there was a sly and strange corpse tattoo.

This made him quite speechless, and for a long time, after the headless baby was awakened, he only had a slap in the face, but in the end he was still in a deep sleep.

This big stall outside, to put it bluntly, still has to rely on himself to toss!

After turning a few sighs and sighing a few times, Ye Xuan's movement once again activated the blood of the konjac in the body, and it still changed into a starry sky. As a result, his cultivation was strength, and he climbed to the king of immortality. The order is perfect, that is, half-step.

In this state, with the half-imperial repair, the speed is still satisfactory, and the body is only ten feet high, the most suitable!

After adjusting his mind, Ye Xuan temporarily forgot about the ancestral star, and his body shape suddenly turned into a stream of stalks. He rushed toward the front of the sky, and his eyes disappeared.

Previously, he was in the sixth state of the konjac with his body shape, and he fully explored the gods and explored it in the front. At that time, Ye Xuan had the powerful cultivation of the sixth stage of the imperial emperor, and his knowledge far exceeded the present. Place

Then, the giant star in the sky in front was explored. and

At the moment, how can God's knowledge continue to stretch, and the shadow of this giant star cannot be captured at all, but the orientation has been locked by him.

Under the full force of the gallop, in the past half-day time, Ye Xuan came to this giant star in the near future, did not enter it, but squatted in the void, staring at it in a weird look, carefully examined.

Since entering this vast and devastating emptiness, this is the first star discovered by Ye Xuan. To be precise, it should be the only other thing found except for himself and this dark void. substance.

Really want to say, Ye Xuan really reluctant to give up on it, and even do not want to leave.

Because once you leave here, the ghost knows when to find a second similar source of chaotic sources? although

If there is no accident, such a chaotic source nest that breeds a chaotic demon seed inside the star nucleus, there are three thousand in this Hong Kong virtual air, the number is not too small.

However, once the three thousand chaotic sources are nested in a dark void that seems to have no margins and end at all... This number is actually too little and too little, and it is insignificant. Estimated. This

At the moment, Ye Xuan really had an impulse to immediately enter the star nucleus of the star in front of him, and differentiated into a sacred god, where he entered the place where he occupied Nestlé, occupying one of the three thousand chaotic devils, refining himself into himself. a avatar...

Therefore, at least the system title task that is still in progress can be successfully completed, and the consequences of punishment after failure are avoided.

However, this is a bit too quick and quick, and Ye Xuan does not want to lose big because of the small. In the end, after hesitating and squatting, he almost bite his teeth and go away. The blink of an eye disappears at the end of the void, and then disappears. ! ...

...

Two years, I passed by! This

In the past two years, although Ye Xuan's cultivation has been refined, but the cultivation of the deity in the ordinary state is still in the realm of the immortality of the king, for two years, there is no breakthrough. Do not

He didn't want to, but he didn't have time at all.

In the past two years, Ye Xuan has almost never stopped, and has been strolling around in this vast and vast area of Hongmeng. To

Now, he knows a little about this dark void.

In fact, in this piece of Hongmeng, there are not only three thousand internal star nucleuses that have a chaotic source nest of seeds of Chaos Devil.

In the past two years, Ye Xuan has also seen many ordinary stars, including abandoned stars that do not emit light and heat, as well as astounding stars, and even some life stars, but they are generally some plant life, even There are flesh and blood, and the level of life is very low, and there is no wisdom. first

The reason why the former mistakenly believes that this piece of Hongmeng only has only three thousand chaotic source nests, because he entered a short time, and there are too few areas to go through, and the vastness of this void is too horrible.

In addition to these abandoned stars of ordinary life stars, in the past two years, Ye Xuan has encountered more than a dozen chaotic source nests, all without exception, all of which are super giant giant stars.

This is almost a common feature of the source of chaos. Ye Xuan saw more and gradually touched the doorway. Now

In the presence of him, even if he is separated by a distant void, as long as the knowledge can be explored, it is possible to judge a certain star in the sense of God without having to go to the front. Is it a normal ordinary star or a nurturing inside its star? a chaotic source nest of a demon seed...

Unfortunately, the dozen or so chaotic source nests found in the past two years, the rules of the roads that were born inside are not the strong laws that Ye Xuan wants, that is, after the opening of the last round of the Hongmeng era, it was taken by Pangu. - Power law! but

Among them, there are several energy sources in the chaotic source nest, but they are extremely powerful, far beyond the breath of the first chaotic source nest discovered by Ye Xuan in this piece of Hongmeng. that

A few times, he once again heartbeat, almost shaken, made a decision to give up and continue to find the source of the power law, but in the end, Ye Xuan still insisted on the teeth, with a strong unwillingness, turned away from the chaotic source nest, again Stepping on the road of searching without knowing whether there will be results... and

Today, it has been two months since he last discovered a chaotic source nest. In the past two months, Ye Xuan has not found a chaotic source nest. This probability is lower than the average period of more than a dozen chaotic source nests discovered in two years.

Therefore, his heart is inevitably faintly a little uneasy.

The thought of suffering from loss and loss will appear in my mind from time to time in the past two days...

It was also at this time, in the dark void in the distance ahead, a huge star was detected by the powerful gods that Ye Xuan fully extended, and it was reflected in his mind.

Just a glance, he determined that this giant star must be a new source of chaotic sources. Do not

However, the law of Hongmeng Avenue, which is bred in it, or the law of power, is still uncertain, because the distance is too far away, and it must be close to the front to be inductive. again

Without hesitation, Ye Xuan immediately spurred his body shape, and the speed was unfolded to the extreme. The figure was turned into a streamer, and swept away in the direction of locking.

Soon after, when Ye Xuan finally approached the distance within this giant star, a sudden increase in his body, there was an unprecedented incitement. body

Under the shape of a stagnation, Ye Xuan subconsciously extended the knowledge of God into the immortal world. In the next moment, his face changed slightly, and his voice whispered: "What is the situation? The whole life giant is shaking, this is clearly the world. The worm self-revolution group is in the rhythm of family tremors!"

Chapter 4343: Usurp a source nest

When the Longye was first in the hands of Ye Xuan, it was only a small fortress of five kilometers in diameter. It was the legacy of the pioneering technology of the Terran Science and Technology.

The entire Longye Life Fortress, when it was first created in Xingbo's hands, only has the size of an egg, but the size of the egg is small, but it is a whole world of insects. world

The worm-independent body group is a magical substance between the living body and the non-living body. For example, the legendary Tai Sui is such a thing.

Of course, although the world's worms and self-derivatives are theoretically related to the same substance, in fact, its level is not known how many times higher, it is completely incomparable, and this can be pushed from its name. Derived one or two. Take

The small egg created by the world's insect self-derivative group can grow slowly. As long as there is enough energy for the self-producing group to multiply, it will eventually grow to what state, even the star blog itself does not know. when

When it first fell into the hands of Ye Xuan, it was a small fortress of five kilometers in diameter. Because of the lack of energy, the whole world of insect self-derivatives fell into a sleep, not only continued to grow, but also could not repair itself, it was extremely broken. .

Later, Ye Xuan found the energy needed by the world's self-propagating population, so that the numerous small world worms in the entire self-producing group grew wildly, step by step from the starry sky fortress to the starry fortress, and then the starry sky of 100,000 meters in diameter. Big fortress...

This is still not over. After the last energy supply, the Longye was only a star fortress of 100,000 meters in diameter, but it grew to more than 160,000 meters in a short time, which is 500,000 meters.

Converted into kilometers, it is five hundred kilometers, just like a miniature star!

This kind of horrible body shape, even compared with the Tianji City's base camp, is not too much. It's absolutely amazing, even its shape, and the former sphere has become the current oblate, more suitable for The cosmic sky is hiring faster.

In addition, compared with the last evolutionary transformation before the recent evolution, the current life giant plug has expanded many times in addition to the external body shape, and its internal space, due to the overall use of space folding technology, is a significant improvement. .

The interior has a very wide field of vision. It is like an independent cave. There are mountains and waters. It is impossible to see that it is inside a star-studded giant plug. This is just one of the layers of the starry sky. There are a total of 18 floors, each with different scenery and different functions. Head

Before, it has grown into a star-studded dragon, the Nono, whose internal containment power, except for one million large and small fortresses controlled by countless intelligent robots, is only led by Guihai Yidao and Cang Qingyu. The 20,000 devils scouted...

The two thousand demons scouted, practicing in the midst of sleep, calculating the time, Ye Xuan has not seen them for several years.

The reason why he has not provided energy again for such a long time, so that the Longye life giant plug continues to grow, the reason is that the world's insect self-derivative group that forms this life giant plug, the energy needed for the population to multiply and grow. It is actually obtained from the eggs of the evil spirit Slime. evil

Ling Slim's mother's nest, Ye Xuan did have one in the hand, originally in the bottom compartment of the Black Wind, and this morning has been transferred to the bottom compartment of the Longye Life Giant Plug. can

Unfortunately, the current Longye is really too big. It is just the mother's nest of this evil spirit. Although the energy source continuously produces new eggs, the special energy contained in it is only enough to sustain. On the premise of the daily operation of the Longye No. 1 plug, there is still a little surplus.

These surplus energy have been stored, and although the total amount has been considerable over time, it is basically enough for the Longye Life Giants to make a big change.

But... Ye Xuan did not choose to do this before. because

The energy needed to form the self-propagating group of the world of the Longye is too special. At present, no alternative energy has been found. Therefore, Ye Xuan must leave a certain amount of reserve energy. Otherwise, in case of an unpredictable accident, the dragon The wild number must be in the armpit! positive

It is for these reasons that the Longye Life Giant has been pushing the existing state for many years and has not continued to evolve. Correct

At this point, Ye Xuan is also very helpless.

But now, when he discovers that the dragon field life giant plug that has been accepted in the immortal world is suddenly inexplicably trembled, Ye Xuan's brain suddenly flashed a glimmer of light, a wonderful premonition poured into his heart... Longye The problem of evolutionary evolution once again may be solved immediately.

Even the question of the future energy supply of the world's self-propagating group is the same! brain

The thoughts flashed through the sea, and Ye Xuan did not hesitate. When he was swaying, he began to speed up and rushed toward the giant star in front of the sky. Dragon

The whole world of insects in the wild life giant plugs, the reason why there is such a change, must be related to this giant star.

To be precise, it should be related to the chaotic source nest in its internal star nucleus.

If there is no accident, the energy contained in this chaotic source nest is needed by the numerous tiny world worms in the world's self-propagating population.

And it's not a general need, it's just like crazy.

At least, in the face of the energy in the eggs produced by the evil spirits, the countless tiny world worms in the whole world of insects have never had such a shocking reaction! If

It is true that all these speculations are true. Ye Xuan will not have any hesitation at all, and will surely rob all the special energy resources contained in the inner star nucleus of the giant star in front. where

I am afraid that this will mean killing a future chaos demon god. He is also hesitating... Anyway, it is not his own genus, and he is still gestating. At present, most of them are just a seed of life, and they are destroyed.

With this thought, Ye Xuan was at a very fast speed. Soon after, he rushed to the vicinity of this giant star. He did not hesitate and went straight to the star land table. "

call out! "tip

The sharp sound of the air broke out, and Ye Xuan's figure was like a meteor, rushing toward the star land table at a heinous speed. There was no pause at all, and there was no giant bang in the surface of the star. The pit, its shape is not damaged, the speed is still not reduced, just a few breaths, it has already rushed into the core of the giant star. "

hiss! this is....."

In the next moment, inside the star's nucleus of the giant star, there was a sound of coolness, followed by Ye Xuan's ecstatic exclamation: "Developed! This time it is really developed! Not only the world insects self-derivatives The energy supply will be completely solved. Seeing this scene in front of us, even the four star wars are once again forged. This time, it seems that it can be completed in one fell swoop..."

Chapter 4344: Refining the four major wars

Shown in the sight is a gorgeous world!

Within the giant star of this giant star, all are pure crystals that radiate brilliant light.

Ye Xuan's body shape rushed into the star nucleus, and a familiar system sound was heard in his mind. Before he had not entered the star nucleus, he did not touch the various crystals contained in the star nucleus. Therefore, the system prompts the sound. Never appeared.

But with Ye Xuan entering the star nucleus, not only did his body's phagocytic system immediately have all kinds of hints, asking if it was immediately collected, even the information database attached to the system, all the information and information about these energy crystals. Updated in the first place.

Too much to hear can make people numb!

Ye Xuan did not know which chaotic demon **** was born in this chaotic source nest. Regarding this point, the system did not prompt, and the information database could not be queried.

He couldn't even see anything in the star's nucleus that was like the seed of the devil's life, even if it was carried out in a detailed exploration of the powerful gods of the king's realm.

Inside the entire star nucleus, there are only a variety of gorgeous, different colors of energy crystals, others, nothing!

Perhaps the chaotic demon **** born in this source nest, the seed of life, has not yet appeared, or has already died in the womb, and it has dissipated...

Who knows?

Ye Xuan is also not interested in paying attention to it.

At this moment, his whole mind was completely occupied by the pure energy crystals that can be seen everywhere in this chaotic source nest.

This star is a nest of chaotic sources. It is extremely large. It is the largest natural star in the three major stars of the world. It is not as good as it.

Therefore, the diameter of its star nucleus is also horrifying. The light is the diameter of the star nucleus, which can match a meteor.

In this star-shaped nucleus with a diameter comparable to a meteor, there are all kinds of energy crystals of various colors. There are more than one hundred kinds in total. Ye Xuanyi rushes into the star nucleus, and the familiar system sounds that sound in his mind have always been Resounding, never stopped for a few minutes.

Every energy crystal, the system will make a reminder, hundreds of ... can be imagined.

Later, Ye Xuan was too lazy to listen, let it ring, and he himself began to work.

These more than one hundred kinds of energy crystals are the top resources. After all, they are the resources in a chaotic source nest in Hongmeng, and where can they be worse?

The vast majority of the energy crystals, Ye Xuan are too lazy to carefully explore their use, and waved into a awning smashed light, he was directly absorbed into the body of the immortal world, separately stored.

In this way, after at least one hour of busy work, most of the energy crystals that can be ignored for the time being are finally collected.

In the entire star-shaped nucleus, more than 90% of the eyes were empty, and there were only five different energy crystals, which were left by Ye Xuan.

These five kinds of energy crystals are the four major stars and air battles, and the things that are needed for re-forging... The extra purple crystals are the mysterious energy sources that make the world's insect self-proliferation groups crazy.

The five types of energy crystals are very large, especially the purple crystals required by the world's self-propagating population.

Ye Xuan did not hesitate to leave all five crystals in the 10,000-cube cube, which was in the immortal world, so that after a short-term need, he waved his hand...

"call out!"

"Hey..."

The dense sound of the air continued to sound, and it lasted for a few minutes.

After a few minutes, the purple energy crystals in the five energy crystals were all taken away by Ye Xuan, and they were sent to the Xingye Life Giants in the immortal world!

With this massive purple energy crystal, not only will the Xingye Life Giants ushered in a new transformation and evolution, but the future energy supply problem will also be completely solved.

However, how to use this purple mysterious energy crystal, but it needs Ye Xuan to grasp, otherwise, if there is no limit, the world insect self-proliferation group will always absorb the energy of purple crystal, continue to frantically multiply, Until all the purple energy crystals are exhausted!

In order to avoid this unspeakable situation, Ye Xuan sent the remaining purple energy crystals to the second floor of the bottom of the Hoshino Life Giant Plug, and issued the permission command at the first time.

This batch of purple energy crystals, which was called a massive amount, was divided into two equal parts, and one was sealed and stored in the warehouse. As the future energy source and energy reserve resources of the Hoshino Life Giant Plug.

The other one, the full supply is open, so that the whole world of insects self-proliferation groups can absorb it arbitrarily... until this half-purple energy crystal is completely consumed.

After the order was issued, Ye Xuan's life in the immortal world, the Longye's life giant plug, immediately trembled with a violent earthquake, and then there was no movement, just like a dead object, it did not move.

However, Ye Xuan clearly noticed that there is a kind of almost crazy biological wave frequency, which faintly emerges from the life giant plug. This is clearly the whole world insect self-derivative group that forms the life of the Dragon Field, and all of them have been full of crazy tonic. , the rhythm of mad splitting and multiplication...

Undoubtedly, this transformation and evolution process must not end in a day or two. This purple energy crystal has such a deadly appeal to the world's self-propagating population, which is enough to show their efficacy.

Coupled with the sheer number of crystals, according to Ye Xuan's conservative estimate, all the purple crystals of this half amount will be completely consumed. In terms of time, at least in years...

So, there is no need to keep guarding.

As this thought flashed from his mind, Ye Xuan's consciousness immediately retreated from the immortal world, and the sinister glimmered in the last four different color crystals in the star's nucleus.

Through the resounding system sounds that had been heard in his mind, Ye Xuan already knew about these four energy crystals, which happened to be the core resources needed for the upgrade of the four stars in his hands.

These four star wars, at the beginning, were the ace cards in Ye Xuan's hands, relying on them, Ye Xuan could kill the domain lord and even the landlord when he was in the hustle and bustle, and he would let the immortal geeks return when he was in the border. Killed on the spot.

But now, with the strength of his cultivation to the kingdom, the power of these four wars is far from enough.

To this end, Ye Xuan used the blood of the hunter-hunting rats in the fox scorpion in the past, and the four kinetic energy groups in the war squad each hit the energy suitable for the evolution of their blood. Now, these four kinetic groups are all sinking into the sink. Sleep, once you wake up, you must be like a broken butterfly...

However, the improvement of the life level of the kinetic energy group is only software. If the battle itself as a hardware does not undergo a corresponding upgrade, it may not be enough to support the horror energy output by the kinetic energy group after the transformation.

Therefore, it is imperative to upgrade and renovate the four major wars.

Before, Ye Xuan had not found the right materials, but for now, this problem has been completely solved. He decided to upgrade the four stars in one go... at the same time upgrade!

Chapter 4345: Horrible invisible field

There are four kinetic energy groups in the inner air, but now there is a kinetic energy group in the sleep, but the hardware upgrade of the four star wars will not affect the kinetic energy of sleeping in the thousands of honeycomb nodes in the battle. Ethnic groups, so there is no need to first shift the kinetic energy group of sleep.

In this way, many hands and feet have been saved, and Ye Xuan did not have too much delay. After the decision, even if the action was launched...

"call out!"

"Hey..."

In the middle of a wave, the last four energy crystals with different colors were all absorbed into the body by his bones, but they were not sent to the immortal world, but directly to the phagocytic system.

This kind of energy crystal will be upgraded to the hardware of the four major wars. Ye Xuan does not know how much energy crystals need to be consumed in this upgrade, but the rest will automatically transfer to the immortal world in his body for future Need.

Subsequently, Ye Xuan took the four major battles that had been collected in the immortal world, and took them out at the same time, and gave them to the phagocytic system. Then, he immediately ordered the forging system attached to the phagocytic system to fight against the four stars. Carry out a comprehensive upgrade...

"Hey..."

The low humming sounded, and in the next moment, Ye Xuan's mind came with a system sound that followed, and the hardware upgrade of the four star wars was fully launched!

This process is obviously not a short-term, but it does not take a long time like the evolution of the Dragon Field Life.

The latter is the complete transformation and evolution of the life form of the whole world of insects, just like the life transition, and the four star wars are only on the basis of the present, the upgrading and transformation of hardware, not the same concept. The time required is naturally different!

What's more, even if the four Star Wars are added together, it is not as big as the existing Longye Life Giants. Therefore, according to Ye Xuan's estimation and deduction, this upgrade will take only about half a month. The time can be completely completed.

Ye Xuan did not rush to leave, but crouched down in the star nucleus, sitting cross-legged for a short period of cultivation.

Half a month later, Ye Xuan, who is in a state of cultivation, suddenly opened his eyes, and the manskin grew up and stood up. When he stepped out, his body shape had already reached the universe in the sky outside the stars.

"call out!"

"Hey..."

In the middle of the wave, the sharp sound of the air broke out, and four spurs came out from his hands. The four star wars that had just completed the hardware upgrade were directly sacrificed by him, in the void in front of Ye Xuan. In a column.

I couldn't wait to see it. After four upgrades, the four star wars, and the area that seemed to have no big area before, but if it is meticulous, it can be found that there is a slight difference between before and after.

The current four major battles, which are bigger than the previous one, are more metallic and give a feeling of being extremely thick and condensed.

As for its power, it must have climbed too much more than before. After all, the material used for upgrading this time is the energy crystal used by Hongmeng in the void to breed the Chaos Devil.

However, the specific power can be reached to the point where there is no way to know, because the four major kinetic groups in the four major wars are still in the midst of sleep.

Even if Ye Xuan has the heart to try his best, he can only wait until the four kinetic energy groups in the battle, and after the successful completion of the life form transition, it is possible!

After reviewing it, Ye Xuan waved and folded the four star battles, and then set foot on the journey again.

Although this unexpected harvest made him extremely satisfied, he finally solved the problem of upgrading the hardware of the four Star Wars, but the right thing, that is, the sixth title of the system, still has no shadow.

Calculating the time, the time has passed two years, although there is still no reminder to receive the deadline, but this matter can not continue to drag on for a long time, Ye Xuan has a strong sense of urgency.

In the blink of an eye, it is half a month later. This time, Ye Xuan's luck is better. The front of the sky is at the end of the sky, and several stars are unexpectedly appearing. One of them is especially large, only one glance, he confirmed this. The stars are a chaotic source nest that breeds the Chaos Devil.

Under the spirit of the spirit, Ye Xuan immediately launched full speed and went to the lasing.

Soon after, his physique came to an abrupt end in the void, and thousands of miles away from the foot of the land was the huge source of stars.

To his disappointment, this chaotic source nest is obviously still not related to the so-called strongest power law. The atmosphere diffused from the interior of the stars is even more than the source nest stars of the previous area. Weak a few points.

"Although it is impossible to be a source of chaos that breeds the law of power, there may be other gains in the star's nucleus."

With the harvest of the previous chaotic source nest, Ye Xuan has already unknowingly remembered all the source nest stars. At this moment, this chaotic source nest is not the target, but he still hasn't. I'm going to let go, the words in my mouth are still not falling, I'm already swaying, going to the lasing...

"Hey..."

Just as his figure was close to a close range from the surface of the star, only a thousand miles away, a squeaking humming sounded, and Ye Xuan's original body shape fell into a sturdy invisible barrier. On the other hand, he was unable to pass through the strength of his nine-step grand perfection, and he was shocked back to the horrible power.

It was only after tens of thousands of miles in the void outside the stars that it was stable.

When she shook her head, Ye Xuan looked at the source nest star in front again, and it was already a blank face.

Just under this collision, Ye Xuan not only turned back tens of thousands of miles backwards, but even the blood and blood rushed, until now the figure has stood firm, and still is still holding Venus...

Although this has something to do with the inertial force that he had formed before the rapid fall of the stars, but more importantly, it is because of the invisible domain power that shrouds this source of stars, it is too strong.

"Which situation is this? Outside of this chaotic source nest, how can it be covered with such a terrible invisible field?"

Looking at the source of the nest in front of the eyes, Ye Xuan stayed ten full, and this time he shot again, punching the source of the nest in front of the stars, slamming away...

"boom!"

"Booming..."

The earth-shattering bangs came in an instant, and in the line of sight, this source of nesting stars was thousands of miles away from the universe, and a layer of solid ripples appeared, only slightly shaking for a moment, and blinking again Converged, completely disappeared.

Seeing this scene, Ye Xuan's brain flashed a glimmer of light, and while the voice whispered, the whole heart sank...

Chapter 4346: Hong Meng Power Law

"boom!"

With the speculation of the heart floating up, Ye Xuan was unwilling to take another shot, punching the source nest star in front of him, but before eating it, he ate a small loss, so he did not use it recklessly this time. Big power.

In front, a loud bang came, and the source of the nest was a thousand miles away, and there was another ripple, and it shook a little, and then disappeared immediately.

Once again, I verified my heart's guess. Ye Xuan suddenly shook his head and smiled. He didn't try again, and there is no need to try again...

"It seems that all the source nest stars, once the seeds of the demon gods germinated inside, there will be an invisible ripple protection. If it is strong, it will be strong, and if it is weak, it will be weak... In short, it will not break!"

Mouth whispered in the mouth, at this moment, Ye Xuan's intestines are almost green.

The source stars that he had encountered before did not have such ripples, but Ye Xuan only shot once, but now it seems that as long as this ripple appears, the seeds of the demon gods inside the source nest stars sprout. Even if Ye Xuan wants to make any other ideas, he can't do it.

The reason why he regrets now is because he has encountered so many source nest stars that the seed of the demon **** has not sprouted before, but Ye Xuan is occupied by the source nest that is eager to find the power god. For a moment, I ignored the immediate benefits.

Such an opportunity may be difficult to meet again in the future.

At the same time, a more intense sense of urgency has quietly floated from his heart at this moment.

Previously, Ye Xuan did not know that all the seeds of the Demon seeds that were born inside the source nests would sprout. This situation would happen. In addition, the system did not limit the time limit for the completion of this title task, so although the heart was a little anxious, Not too serious.

But now it is different. Although the system does not limit the time limit for the completion of this title task, in fact, this time limit has already existed invisibly.

All the source nest stars in this piece of Hong Meng's emptiness are only three thousand. If all the seeds of the gods that were born inside the nest stars have all sprouted, Ye Xuan still can't find the source nesting stars that gave birth to the power demon. And use it to complete the system title task...

Then, the final result will undoubtedly be that Ye Xuan has no chance, even if all three thousand source nest stars are found by him, but since it is impossible to break through the ripples into the stars, how to carry out refining?

Can not be refining, the system title task can not be completed, will be determined by the body's phagocytic system as a failure!

"Rely! Can't wait any longer, since you have already encountered a source nest star that has been sprouting the seeds of the inner dementia, indicating that other source nest stars are also fast, and even the most demon seeds that are bred in the source nest stars. In fact, they have all sprouted..."

Thinking of this, Ye Xuan couldn't sit still on the spot, and even once again began to shake the idea of finding the source nest star that gave birth to the power devil.

As soon as he was swayed, he continued to spur the vain universe in front of him: "No matter, within a month, if you can find it, otherwise, after a month, as long as you encounter a seed of the inner demon **** The source nest star that has never sprouted... At that time, it will enter immediately, and the system task will be completed first!"

As these words rang, Ye Xuan's body shape turned into a stream of glory, disappearing at the end of the universe in front of the sky, and disappeared.

.....

In the cosmic environment, a month's time is simply a glare.

Ye Xuan is very disappointed, because this month, he has indeed encountered a new source of nest stars, and the number is still quite a lot, there are three.

But these three source nest stars, but no exception, the seeds of the demon gods that have been nurtured inside have all sprouted.

The close-range void of the three source nest stars, once close to a distance of a thousand miles, will instantly appear a ripple between the ripples, light and thin until nothing, but no matter how Ye Xuan impact, can not cross, simply rushed into Inside the stars.

This was the case in three consecutive encounters, which made Ye Xuan more and more anxious. He now suspects that all the source nest stars are already in this situation, even if there are still internal embryos that have not yet sprouted. I am afraid that the number will not be too much...

Invisibly, the sense of urgency that hangs over his mind has become more and more intense. At this moment, he has already searched for the thing that bred the source of the power of the devil, and completely thrown it behind his head.

Even the title tasks released by the system can not be completed, which dare to expect too much?

One month's time has passed, and Ye Xuan is now thinking that as soon as possible in this piece of Hong Kong, find a source nest star that has never sprouted the seeds of the inner pregnancy.

In this way, no matter what kind of internal law is bred, Ye Xuan will never have any hesitation. In the first time, he will rush into it, planting the seeds of the gods in the core area of the source nest. 鳩雀 Nestle, first complete the system task and then say...

In a blink of an eye, seven days have passed. In the past seven days, Ye Xuan has not had any gains. He did not encounter a source of nesting stars. Just as his heart became more and more anxious, the space was empty and there was nothing in the universe. In the middle, a huge giant star suddenly appeared in the sensory sense of extension.

What makes Ye Xuan incomparable is that the breath of the inside of this source nest star gives him a violent sense of power!

"Isn't it so clever? Actually, in this most critical moment, I found the source nest star that bred the law of Hongmeng's power?"

In the whisper, Ye Xuan's eyes are very bright, no hesitation, and his body shape swayed, and the speed of the moment began to spurt toward the giant star in front.

At this moment, his heart is not only excited, but also awkward, the whole heart has almost hanged to the eyes of the blind.

Because this source nesting star that has bred the law of Hongmeng has already been found, whether the seeds of the demon that have been bred inside have already sprouted, but it is still unknown.

If it has already sprouted, then for Ye Xuan, seeing the huge surprise of the hand, I am afraid that between the blink of an eye, it will evolve into a fright.

Even the source nest stars that have bred the strongest rule have sprouted, so what are the hopes for the source nest stars that breed other weaker rules?

If this is the case, this time the system title task, I am afraid it is doomed to be completed.

However, this worry is obviously superfluous.

As Ye Xuan approached, just a few minutes later, he came to the close-knit of this giant star.

With a kind of incomprehensible situation, Ye Xuan bit his teeth, no hesitation, and his body slammed into the inland stars in front.

At this moment, he really worried that the figure would be blocked in the universe of the universe thousands of miles away, but in fact this scene did not appear, Ye Xuan's body shape, smoothly fell on the surface of the stars...

Chapter 4347: Planting a god

"Is it true that there is some kind of God's intention to dominate this? Even the source nest stars that are weaker in the breeding rules, the seeds of the gods that have been bred inside have sprouted, but this is the source of the strongest rule. Nest Stars, but there is still no movement..."

At the moment of the implementation of the foot, Ye Xuan had hung the whole heart of the eyes of the blind, and finally fell back to the chest, taking a long breath, with a feeling, muttered: "Or, it is true as no As the head of the baby said earlier, the body of the star has really had a smattering of luck?"

"How else, how can the world's affairs be so coincidental? This source of nesting stars, which breeds the strongest power law, is like waiting for the star master..."

After some emotions, Ye Xuan did not dare to continue to wait for more, and his body shape shook to the depths of the stars under his feet, all the way forward, rushed to the core of the stars. less

After that, the star nucleus arrived, and Ye Xuan plunged into it. In an instant, there was a mighty force of breath, and he was now close to half a step to repair the emperor's strength, under the cover of this power. , actually gave birth to a deep sense of powerlessness...

There is no doubt that the source of this source nest is the rule of power that Ye Xuan wants to find. and

What he has to do now is to activate the avatar system attached to the system, differentiate it into a sacred god, turn it into a seed, and plant it into this source nest. and

The soil that is planted into the seed of this 缕元神, if it is not guessed wrong, should be the blood red crystal of the diameter of the most central area of the star nucleus.

Without any hesitation, Ye Xuan issued an instruction to activate the avatar system to the body's phagocytic system in the first place. Then, a familiar system sound was heard in his mind. "

Hey, congratulations to the host, find the source of life crystal! Attribute: Energy crystal form! Level: Perfect purity! Grade: Hong Meng rule level! Is it immediately refining into a avatar? "

"Hey, congratulations to the host, the activation of the avatar system is successful! Current level: Level 1! The current level can apply for the number of avatars: zero!"

Hey, congratulations to the host, the system title is completed in the sixth level, and you get the system reward: choose one of them, please choose! One: The level of the system is upgraded once! Two: Randomly activate another affiliate system! Do you choose immediately..." Listen

At this prompt, Ye Xuan was on the spot.

His avatar system is really only the first level. In the first level, there is only one avatar refining the system. This quota has already been occupied by the former engulfing treasure.

In other words, Ye Xuan can no longer refine the second avatar with the avatar system. it is good

After the system realized this bug, it actually made a concession and issued the award of the sixth-level system title in advance, giving the option of two choices.

Either choose to activate another affiliate system, or choose to upgrade the existing avatar system. If there is no accident, the avatar system will be upgraded from the first level to the second level, and the avatar that can be condensed by the avatar system will also be from the previous One, become the two now. Such as

Therefore, this so-called two-choice one does not require any consideration at all.

Still the immediate benefits are more attractive. What do the ghosts know about another affiliate system that is randomly activated? miss you

At this point, Ye Xuan did not hesitate, even if he responded, he chose to upgrade the system directly! very

Fast, his mind came again with a familiar system prompt: "Hey, congratulations to the host, the upgrade of the system is successful! Current level: Level 2! The current level can apply for the number of avatars: one! Whether to apply immediately, refining the avatar ."No

Hesitant, Ye Xuan immediately replied again, and immediately carried out the refining. "

Oh, congratulations to the host, have been determined to use immediately! Target determination, system energy adjustment: progress 1..." to

Therefore, Ye Xuan's whole heart was completely released, and he did not hesitate. When he sat down in the star nucleus of this source nest star, he closed his eyes and entered the reincarnation, and I forgot to practice. status.

Soon, there was an invisible force in his body, and the power of this kind of suction was extremely mysterious. It seemed to be his consciousness of the gods. deep

In the midst of the meditation, Ye Xuan felt that his own consciousness of the gods seemed to be divided out and merged into a tiny light spot with some mysterious power, and then slowly drifted out from his Zifu Lingtai.

At this moment, Ye Xuan seems to have a second perspective. This tiny light spot that floats out of his purple house is like his other eye.

As it was isolated, Ye Xuan saw his demeanor in the state of cultivation, and then the view slowly moved forward, not far from the red crystal of the square. In the line of sight, it has become bigger and bigger, and finally replaced everything..."

Oh..."

At this moment, Ye Xuan's mind heard the sound of humming, and the last point of view of the road was an endless blood red color.

In the next moment, this view disappeared, and Ye Xuan's deity in the inner core of the star also opened his eyes. again

When I looked at the blood-red crystal that was not far ahead, at this moment, he felt a flesh-and-blood feeling in the middle of it, as if this blood-red crystal was originally the same as Ye Xuan. Lifelike.

Obviously, this one would have spawned a source of life with the strongest rule of the law, that is, the law of power, the chaos of the devil, and now it has been obtained by Ye Xuan, who planted the deepest part of this source of life. The **** of the gods. One

Once this seed of the gods sprouts, then everything will be no longer possible. In the near future, when this blood-red crystal gives birth to a complete chaotic demon, Ye Xuan's second avatar will be born. !
press

According to his derivation, this time should not be too long, because the vast world that had already collapsed before the endless years will soon be fully brought to the world. If there is no accident, the once-popular world will come. At that moment, it should be the three thousand chaotic devils in the glory of Hongmeng, rushing out of the stars, gestating the moment of birth...

For the arrival of that day, now Ye Xuan, can be described as extremely incomparable!

When these thoughts flashed through his mind, the unexpected system sounds were also heard at this moment, resounding Ye Xuan's knowledge of the sea..."

Oh, congratulations to the host! The system title exploration task is completed! The system title upgrade was successful! ""

The current title of the system: the sixth level, the Star Master! "

"Interstellar controller: The title's own halo effect will add a brand new system based on the original five-level title of Star Trek, Interstellar Adventurer, Interstellar Explorer, Interstellar Trailblazer, and Star Trekker. Ability, random activation. At the same time, the number of interstellar coordinates imprinted on any cosmic plane, from the first two, grows to three!"

System task exploration reward: has been issued in advance! "

Chapter 4348: Fenghuang

"call out!"

The faint sound of breaking the air, Ye Xuan's figure rushed out from inside the star's nucleus and came to the outer universe. This

He did not use all the resources in the source nest star. After all, it was used to breed his second system. If he took a piece of crystal in the source nest, it would lead to the imperfection of the body. If something goes wrong, it won't pay off. "

Oh..."

Just as Ye Xuan's figure rushed out of the interior of the star nucleus, the source of the nest at the back suddenly heard a low humming sound.

Ye Xuan's heart was clear, and he subconsciously turned his head. He saw a layer of blood-red ripples appearing on the surface of the whole star. It was only a thousand miles away from the surface of the stars.

This source is nested in the stars, after all, is the strongest rule of Hongmeng strength, so the ripples of the whole star are not only different from the others, but also blood red, giving the same strength. leaf

Xuan has a very strong feeling, not to mention that he is now, I am afraid that even the headless baby body shot, most of them can not break this seemingly thin blood red ripples...

Actually, this is the birthplace of the law of Hongmeng!

In this way, he finally completely relieved his heart, and his heart was like a mountain, and suddenly it was a lot easier. although

However, in the near future, the once ruined world will be fully dying, just like the catastrophe, but now, Ye Xuan has the strongest avatar in the gestation, and it is obviously more adequate.

This feeling of relief, his mind suddenly gave birth to some kind of mysterious change, in the midst of it seems to have to break through. thing

In fact, since this time, Ye Xuan has not practiced, calculating the time, has not broken through for a long time, and now solve the knot, it is the best time to break the iron and break through. No

Any hesitation, he even went away, and two days later saw an abandoned star in the sky ahead.

Under the sway, Ye Xuan rushed into the star of the abandoned star, and sat down on the knees, ready to break through...

"call out!"

Oh..." broken

The empty sounds, one after the other, are all the cultivation resources that Ye Xuan took out from the immortal world.

Including a liquid sphere with a diameter of several hundred meters, there is a rich and fascinating scent of fragrant scent. This liquid sphere with a diameter of several hundred meters is the plasma of the vine. This

The resource Ye Xuan used it only once, and the effect is still in the best stage, so this time I took out some more. In any case, the amount of the hand held is amazing, but it is not afraid of consumption. very

Fast, Ye Xuan spurred Shennong Ding's domain power, compressed it to the size of only the baby fist, looks like a red and a drop, it is like a strange strange medicine.

The blood-colored medicinal drug compressed by the massive magic vine plasma was swallowed into the abdomen. Ye Xuan did not pause for a while, and then swallowed a dozen drops of the evil source liquid, and one hundred cubic meters of purple gold top flesh. Big medicine and so on...

Nowadays, his cultivation is getting higher and higher, so there are more top-level cultivation resources needed for each breakthrough. Finish

In all this way, he waved and sacrificed Shennong Ding, a step, and went straight to the Dingkou where the colorful fog was in the air. Without hesitation, he once again sat down with a knee-shoulder and started a new round of breakthrough.

"Oh la la..."

The overwhelming sound of the chain makes it easy for Ye Xuan's body to ring. This time, there is only one chain that appears in his body. For everything that follows, Ye Xuan has already been familiar with the road, without any pause, even if he is just urging The energy formed in the body of the river, in the body of the body within the body of the hundred veins, launched a large Sunday operation, thereby accumulating strength.

In the end, when all the energy is refining, just a shock, the chain will break. and

As this extremely thick shackle chain was finally completely broken, the expected system sounds, and soon in the mind of Ye Xuan..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: Feng Wang immortal ninth order is perfect! "

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: the king of the immortal nine-order great perfection!"

With this breakthrough, Ye Xuan's combat power climbed again and finally reached the peak of the immortal kingdom. Previously, his master's cultivation was only the eighth order of the king. Once he activated the blood of the ancient konjac in his body, he could climb to the ninth-order great perfection of the king. One

Once the konjac was transformed into a supernatural power and reached the sixth change, the combat power immediately rose to the sixth stage of the imperial edict.

Now, after activating the blood of the konjac in the body, Ye Xuan will enter the immortal first stage.

If you use the magical power of the konjac and change it, and directly enter the sixth change of the konjac, its peak strength can reach the seventh stage of the imperial emperor. This is the repair of the late emperor, and the combat power can be described as a big increase. cut!

But this is obviously not the end. This time, the breakthrough that Ye Xuan wants to break through is the realm of the Emperor...

"call out!"

Oh..."

Without any hesitation, even the meaning of rest is not enough. Ye Xuan waved again, from the immortal world in the body and the inner space of Shennong Ding under the body, the second batch of cultivation resources that had already been prepared were taken out one after another...

Some of these resources were swallowed up by him, and once again turned into a breath of energy, and finally, and most importantly, a well-prepared twenty-three-level Dan. first

The former refining system of the twenty-three grades of Dan, a total of five Cheng Dan, gave the Qingniu a self-use, two as a public resource for the banned blood, there are two left. leaf

Xuan took out the best of the two, and after using it, there is only one left. very

Fast, this twenty-three-level Baodan, which exudes a strong royal flavor, was swallowed by Ye Xuan under his mouth. "

boom! "

The earth-shattering roaring sounds, and the sound of the horror chain that has never been heard before. This time, what Ye Xuan wants to impact is the imperial concubine. The movement is different from nature, in the chest inside the body of his body. There was a strong chain of shackles, and the sound of the chain was constantly coming...

This thick chain represents the cultivation of the royal emperor. Once it is torn, Ye Xuan will jump into an imperial immortality in an instant!

As he urged the energy of the body, he endured unprecedented pains and violent pains. In a row, a huge squeaking sound came, and the chain of shackles located inside the sternum of his treasure was finally broken!

The system prompt sound in anticipation is also very loud in Ye Xuan's mind..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: Fenghuang immortal first order! ""

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: Fenghuang immortal first order! "With

With this breakthrough, once Ye Xuan activates the blood of the konjac in the body, he will have the second-order power of the imperial queen.

If you enter the sixth change of the konjac, its peak power will reach the eighth level of the imperial family, and the first stage of the seal of the emperor is complete, only one step difference!

Chapter 4349: Fenghuang Lei

"Hey!"

Looking up at the excitement of the joyful and screaming, Ye Xuan waved the Shennong Ding, stepping out of the star nucleus, the whole body of the body is blooming purple gold Xia Ruizhi, from this moment... He is the emperor!

"boom!"

"Booming..."

.....a few

Just in the next moment, under the foot of this life star, there is a large number of black robber clouds in the universe. The number is so horrible that the whole star is covered, just like the original atmosphere. And covered with a second layer of black atmosphere...

Obviously, with Ye Xuan's breakthrough, his tyrannical robbery has arrived. It's no wonder that the breath is so horrible. After all, it's a robbery. The power is far more than the previous one. The robbery cloud can have such a scale. . and

What he wants today is a baptism of a thunderbolt. In the face of the thunder of the monks who have heard the color of the monks, Ye Xuan's dictionary has never escaped the word. "

Roar! "This

For a moment, he screamed and danced, and the body's breath was all spurred. The whole person was like a most powerful humanoid star. The body of the body was blooming with endless treasure, through the surface of the billion. Eighty million pores sprouted out. "

Card! "day

The robbery clouds in the moment are even more fierce. After a short break, a stout purple gold lightning has already collapsed! "

Lei Diyin! "light

When the voice began, Ye Xuan waved his hand, and the Lei Di Yin, who was hanging in the brain and knew the sea, spurred out...

"Hey..."

With the sacrifice of Lei Diyin, the first time in the emperor's seal was a resounding scream of a high-pitched voice. This is the thunder of the emperor, and for it, this kind of imperial robbery is forged. The best chance to quench itself.

At the beginning, the reef that was refining for Lei Ling was only the third-order immortality, but nowadays, because of the cultivation of Lei Di Yin, plus the power of the robbery of the last king robbery It has already broken through to the immortality.

This time, after sensing the strong atmosphere of the royal thunder, Emperor Yin Lei Ling once again rejoiced, because this thunder is not only the opportunity of Ye Xuan, but also its chance. After the baptism of the thunder, Lei Di Yin More powerful, Emperor Yin Lei Ling is also very likely to break through the big realm, into the immortal! Such as

This huge advantage makes it excited and exciting. There is a feeling that I have long been unable to hold it out and want to rush out...

"To be honest in the emperor's seal, the emperor robbery, there are still three waves of purple gold lightning, the star of the Lord as long as the last wave, the first two waves, leaving you and the emperor printed ..."

Slightly raised, the voice of the words in Ye Xuan's mouth is exactly the same as the previous one, and it is still distributed in the three waves of thunder that are about to come on the top of the head! just

After that, the first wave of the emperor's robbery on the top of the head had already slammed down. Although it fell to the top of Ye Xuan's head, there was no leaking, and all were inhaled by Lei Di. "

Oh..."

In the next moment, there was a resounding voice of Lei Ling in the emperor's seal. At this time, the second sky of the top of the sky, the second loud noise came just in time, a thicker than before, reaching a hundred feet. The huge purple gold thunderbolt, instantly rushed, but Ye Xuan still did not have any movements, carrying his hands, let the Lei Di Yin hanging over the top of the head will absorb the second lightning.

Almost in the next moment, a more cheerful and screaming voice came from inside the emperor's seal, revealing a half-step imperial atmosphere. This

Once, although the Emperor Yin Lei Ling did not directly break through the big realm, it is almost the same, perhaps after a period of digestion, after all, it can still break through to the immortal!

After licking his mouth, Ye Xuan waved his hand into the body of the Emperor Lei, and his body swayed, rushing to the top of the head, the horrible robbery cloud that covered the endless void.

"Card!"

Fast, the last wave of robbery, its power is even more horrible, although the same is the color of purple gold, but the diameter has skyrocketed more than ten times, in order to make people feel like destroying the earth. "

Roar! "

Ye Xuan mouth heard the sound of roaring, not avoiding flashing, but the body shape rushed out in the madness, and went on the face, the blink of an eye did not enter the robbery, the body shape was completely submerged. "

Rumble..."

From this moment on, this vast and incomparable Zijin robbery cloud, the horrible roaring of the horror has continued, and the vast expanse of the emptiness of the emptiness of the purple gold Leihai is shrouded, the void is light Trembling, it is possible to collapse at any time. foot

The foot has ravaged more than a dozen breaths, and the entire vast Leihai has disappeared completely, and the void is one of the clear! "

call out! "leaf

Xuan stepped out of the body, there was no film on the body, but there was no scar on the treasure body, and it was shining, emitting an endless atmosphere of the emperor.

.....

With the repair as a breakthrough, the deity also has the immortal strength of the emperor under normal conditions, and this time the system title task is also successfully completed, and Ye Xuan instantly feels that the whole person has relaxed more than half.

After adjusting his mind, he began to consider the next step. first

First, as the system title was upgraded to the sixth-level interstellar controller, Ye Xuan was able to brand the interplanetary coordinate jump point in the same universe, and thus increased from the previous two to the current three.

When he entered the emptiness of this piece of ruined land, Ye Xuan had already branded it in the Sangzhi Star Field. That is to say, now he can also brand two interstellar coordinates.

After some indulgence, Ye Xuan soon decided. body

In the shape of a sway, he rushed to the source nest star that he had just left.

What is nurtured in it is his avatar, and it is still the vitality of having the strongest power law of Hongmeng. It is very important to become the biggest reliance of Ye Xuan after the full bloom of the world.

So there is absolutely no loss. which is

There is a blood-red ripple support on the surface of the nesting star, but Ye Xuan is still not at ease. It is very likely that he will come over frequently in the future. Therefore, it is imperative to brand an interstellar coordinate jump point here. It is. no

Then, once you leave here, return to the phoenix star field, there is no interplanetary coordinate jump point, Ye Xuan wants to catch up and glance at it, they have to rush in the void in the sky, it is too depressed. "

call out! "broken

The whispered sound, the speed of Ye Xuan's body shape suddenly stagnate, without any hesitation, a wave of hands, directly differentiated their own gods, and in accordance with the secret procedure of the interstellar coordinates of the brand, launched a brand...

Time passed slowly, unconsciously, and three days passed.

Perhaps because this is the highest level of Hongmeng, this time Ye Xuan branded the interstellar coordinate jump point here, the process is extremely slow. it is good

After everything was finally completed successfully, three days later, in the void in front of the hundred miles, a bright and incomparable light suddenly appeared. After a flash, it disappeared quietly, and there was no trace to follow. also

A new interstellar coordinate jump point... branding success!
