

Super D. S 435

Chapter 435: Kill

"Hey, little girl, our lord and bone seven have gone to Baidumen to catch people. As long as the formation is broken, then you must be **** into the river." A fat old man opened his mouth and smiled.

"And she said so much, we teamed up with the people of Baiguzong. If they were known by the poisonous Wangzong, the entire five poisons would be destroyed." The young man of the small eye reminded.

"It doesn't matter, is it true that these two people still want to live in front of us? The boy broke out at the speed of the day, presumably it used some kind of secret method. Now it seems normal, actually it is very weak?" The fat old man looks like a victory. .

Ye Xuan and Feng Yaqing looked at each other and immediately asked the latter: "How is my father?"

"Except for your father, everyone else is dead, but your father is a hard bone and refuses to disarm the plantation. So we sent people to the door."

The fat old man said, suddenly remembered something to come, said: "Right, all the bodies of your poisonous door, all were taken away by the bones, it is estimated that after a long time, they will become a battle with white bones. "

Feng Yaqing bites her teeth, but she is relieved in her heart because her father is still not dead.

However, it is still the first time to pass this difficult time.

"Well, don't talk too much to them, just give them to me." The little-eyed middle-aged man came out and smiled. "I heard that Yang Ming's kid died in your hands. The lord wants your body, but when you hand over your body, let me first..."

"call out!"

He hasn't finished yet, just a few fine needles.

"Glyphs and small tricks!" The small-eyed middle-aged man sighed coldly and turned to look at Ye Xuan. "You kid, let's go together, you can rest assured, I won't kill you, because I have to ask the door from your mouth." Martial arts..."

"If this is the case, then I will be respectful and obedient!" Ye Xuan's mouth tilted slightly, and he sacrificed the Eight Desert Sword.

Before his Huang Quan sword method has been upgraded to 10% of the fire, after this day's road, his silver feather body method has reached 90%. Moreover, after killing the elder, Ye Xuan also enhanced the power of the Ten Dragons.

Therefore, in his current realm, killing these two people is really more than enough.

"You go first, these two people come!" Ye Xuan finished, just rushed out.

Feng Yaqing was shocked, but she still resisted, because she felt that Ye Xuan should be able to cope.

At the moment, she turned a corner and rushed toward the Flying Dragon Pavilion.

"Good boy, this martial arts I have to set, old fat to help!" Xiaoyan middle-aged people know that Ye Xuan's strength has not been reduced, but also know that he is alone, but Ye Xuan, hurriedly shouted.

"Good!" The fat old man should have a sentence, regardless of Feng Yaqing, directly to Ye Xuan.

The five poison sects have nothing to count, even if the five poison sects are destroyed, they can also change their names to change their surnames and vote for others.

If you get the metamorphosis martial arts that Ye Xuan can enhance the power of Bailong, then they will be developed!

In the meantime, the two men broke out all the strengths, the fat old man 480 dragons, the small-eyed middle-aged people 470 dragons, the two are still sectarian masters, they join hands, even the master of the four hundred and ninety dragons Can also fight for one, after all, they are the people of the five poisons.

However, what they encountered was not the general warrior, but Ye Xuan.

Beastmaster is violent!

Three hundred and fifty dragons, instantly bursting to four hundred and sixty dragons, and the two are not much different. But don't forget, Ye Xuan has eight wild swords, agile advancement and Jiansheng blood.

Even the blood of the outdated boxer can give him an attack speed of 30%.

"Huang Quan sword method!"

Ye Xuan's eyes are cold and silent, and he is crazy.

"A strong sword method is definitely a 10% fire!"

The fat old man and the young middle-aged man suddenly felt tremendous pressure, even if they joined forces, they were very difficult.

However, this made their desire for the violent anger of Ye Xuan beast more intense.

"This martial arts, I must get it."

The two thought in the same place.

At the beginning, Ye Xuan took the upper hand. Just give him some time, and the two must be shackled by him.

However, his heart is somewhat uneasy, since Feng Yaqing left.

Ye Xuan looked at the back of Feng Yaqing and suddenly made a decision, quick decision!

"Kid, look at the trick!"

At this time, the small-eyed middle-aged man suddenly took out a white powder.

In Ye Xuan's eyes, the toxic powder is more terrible than the poisonous dan, just like the powder that turned his arm off the day.

If it is a carelessness, the head is melted, then it will be finished.

Therefore, he did not dare to care about it. After cleverly escaping, he plunged into the middle of the young man.

Taking advantage of Ye Xuan's chance to escape the poison powder, Xiaoyan middle-aged man stabbed a sword, but what he did not expect was that Ye Xuan was counter-using this opportunity and topped it up.

Oh!

The long sword pierced Ye Xuan's shoulder, and Ye Xuan's left hand was also fastened to the middle-aged man's wrist.

"Huang Quan swordsmanship, swords fall to Huangquan!"

Ye Xuan's light flashed, and a sword swept out, instantly cutting the body of the small-eyed middle-aged man into two halves.

"Humph!"

Ye Xuan snorted and took his ring.

"Hey, the host has broken through the power of three hundred and sixty dragons!"

His realm is once again improved!

At this time, the attack of the fat old man has arrived.

"Bad boy, go to hell!"

The fat old man actually left his mind, only when he was able to shoot earlier, but in order to monopolize this martial arts, he killed the young-eyed middle-aged man.

"Hey, the host has been poisoned and started detoxification!"

"Hey, the toxins have been cleared!"

Ye Xuan's mind sounded two beeps, which is the toxin of the small-eyed middle-aged sword, which can make Ye Xuan paralyzed for a while.

However, this poison only exists in that, and it is solved by the blood of the life tree.

"Huang Quan swordsmanship, swords fall to Huangquan!"

"Oh!"

The fat old man's head flew up, he did not expect, Ye Xuan was still able to move.

I have to say that the blood of the sacred tree of life is really good.

Ye Xuan's heart was fluttering and plopping. He quickly slammed the fat old man's body and closed the two bodies together. Then he quickly left the place because he felt a bit strange. Things may not be that simple.

"Hey, the host has broken through the power of three hundred and seventy dragons!"

After the envy of the fat old man, Ye Xuan's realm has once again increased. After he swallowed up the young man of the middle-aged man, he was actually the power of the three hundred and sixty-three dragons and improved the thirteen dragons.

This time, it is just three hundred and seventy dragons!

Feng Yaqing left, there is already a small meeting, it is reasonable to say that it has entered the Feifei Pavilion.
