Chapter 4351: Actually in the source nest

"What the **** is going on? The power of summoning that you have sensed... actually there are two?"

As the **** words rang, Ye Xuan couldn't change his face suddenly. When he screamed, he was already shocked. tight

Then, as if he suddenly thought of something, he immediately became excited and almost cheered. Then he said, "If this is the case, then we will have a huge harvest this time. The clues of the ancestors are already out of ten... "Correct

At this point, Ye Xuan is almost completely determined. because

For the present, he has already sealed the emperor, and now it is the activation of the body of the konjac blood, and changed into a state of ten-foot high and starry sky, repairing the strength is to reach the second level of Fenghuang. can

Even so, Ye Xuan still did not sense any abnormal call power. thing

In fact, it is obvious that the present is the same as the immortal elephant fox. Elephant

The blood of the treasure hunt in the fox body was originally extraordinary. This time it broke through to the king, which made the blood of the treasure hunt in his body climb a lot, but did not sense any abnormal call. This

It is enough to show that this mysterious summoning call can only be sensed by bloodiness. At the beginning, he also caught the blood of the body and evolved into a real wild mosquito, and suddenly caught this summoning atmosphere. only

Based on this, it can be determined that the mysterious summoning in this kind is related to the blood of the wilderness in the **** body...

Therefore, the strength of the two strong and weak summons that he now senses, in addition to following the murderous mosquitoes around the source of the devil, that is, the **** grandfather, the other, must be what Ye Xuan is looking for. Zuxing...not

Yes, there is still a possibility, that is, another power of summoning, it may be a **** relative, that is, the crazy mosquito king... Deity!

Related to the **** blood of the ancient **** mosquitoes, Ye Xuan can only think of these three points, and now he feels the strength of two strong and weak summons, must be related to this!

One thought of this, Ye Xuan did not hesitate, even when the breath quickly turned to the **** look at the past, anxiously asked: "Blood brother, you are now the king of the immortal, and this time immediately came out A strong induction, quickly talk about the direction of these two summoning forces? Let us immediately rushed over..."

"The two summoning forces that are sensed, one strong and one weak, one east and one west..."

Nodded, **** helplessly pointed to the left and right sides of the figure, and then both hands spread, and said: "And, my sensory, these two positive benefits in different directions, seem to be Extremely far away, but... the weaker sense of power in the east seems to be a little weaker."

"Near is still weak? What is the situation?"

Ye Xuan frowned. After some indulgence, he immediately made a decision. He raised his hand to the east side of the void and pointed it away: "Since the power of summoning here is closer, let's start with it. Let's go... now!"

After that, Ye Xuan's figure swayed and waved a sturdy stalwart to wrap the body like a fox and a **** scorpion, and instantly became a streamer, squinting toward the distant sky, blinking Disappear.....

.....

The second-order repair of Ye Xuan Fenghuang was full of strength, and it was extremely fast. It quickly ran in the virtual direction for a full three months along this fixed direction.

In the meantime, he even started the virtual teleportation and locked the direction. As a result, the void distance behind him was almost an astronomical number, far away to be speechless. in

In the past three months, along the way, Ye Xuan met several source nest stars that gave birth to a chaotic demon god, but he did not pay attention to it, even temporarily stopped to check the birth of these sources. The devil seed, whether it has sprouted, is not interested. he

The whole mind has already been hidden by the front of the sky, and I don't even know how far it is from the source of this power of summoning... completely attracted! also

In the past two days, when Ye Xuan began to feel a little intolerance, he was able to cover the whole body with the power of an invisible real yuan. He kept the same speed as him, and the **** rushing forward finally came. A **** knows the voice and tells Ye Xuan that the weaker power of summoning is in the vicinity, it is not far away... no

Any hesitation, even if Ye Xuan stopped, he waved away the blood and the invisible real elements of the fox and the fox, and then set his sight on the **** body, his eyes stunned. Stare at him straight away and wait for the following. "

The original faint summoning power, after this star field, suddenly became a lot stronger, definitely not far away, it should be... there! "sense

After a while, the **** turn to the other direction, which makes Ye Xuan somewhat speechless, but fortunately this direction is not the opposite, but only a little bit of offset, otherwise he has to start to suspect this **** Kind of induction, whether it is really reliable. Both

However, it is near, then there is no need to hurry again. This time, Ye Xuan makes the blood lead in the front to lead the way, and he will be like a fox on the right shoulder, tightly behind the bloody.

In this way, the three people went forward for a day and a half. When Ye Xuan felt a little intolerance again, there was a huge star suddenly appearing in the distant universe. It was clearly a place. Breeding a source of chaotic devils, the source of the stars... with

This source nest star appears in the cosmic void in front of the sky, and the blood is brightly lit up in a moment. It is distinctly inductive and intense. The body shape is no longer hesitant, and at a speed, it is straight ahead. The stars spurt away.

Looking at this posture, the weaker summoning power he has sensed is clearly related to the source of the nest in front. Although he does not know what it is, one thing is certain, that is, this is more The power of weak summoning is absolutely irrelevant to the ancestors. although

The same is the star, but the ancestral star is obviously completely different from this source nest star. Whether it is the ancient star in the memory that Ye Xuan comes from, or the ancestral star that belongs to this ancient land, it is not like this.when

When the thought flashed through his mind, Ye Xuan's face glimmered, and there was a feeling of disappointment in his mind. Do not

After all, this is only one of the two summoning powers, and it is still the weaker one. Although it is not the ancestral star that is being sought, there is at least another stronger calling power. Find

At least 50% of the chance to reach the ancestral star!

With such thoughts, the feeling of disappointment that had just floated from his heart disappeared in an instant. Ye Xuan did not hesitate any more, and his body shape shook, and the elephant fox squatting in the right shoulder socket spurred away. less

After that, the three people came to the star field where the source nest star was located, and they only smashed in the universe from the stars only a thousand miles away, and all the faces were full of gloom...

Chapter 4352: Crazy mosquito king's deity

The stars in Hong Meng's void are divided into two types, one is the ordinary abandoned star, the same as the outside world, and the other is the source nest star that breeds a chaotic demon.

The latter, only 3,000, and now has one, or even the strongest one, was taken by Ye Xuan, planted a seed of the god, is nurturing his strength.

These three thousand source nest stars, in addition to being extremely large, are basically the same as other ordinary abandoned stars. That is to say, the atmosphere of the life star is not present in the surface of the stars in Hong Kong. positive

Because of this, under the eyes of Ye Xuan and bloody, like the fox python, although there are still thousands of miles away from this huge source nest, but with three powerful repairs, across this distance, the line of sight, but still Everything in the star land table, everything is fine, all have a panoramic view. This

The stars of the stars are the same as the ordinary abandoned stars, and even a plant can't be seen, let alone the figure.

That is to say, the power of summoning sensed by **** blood is actually in the star nucleus inside this source nesting star! With

This thought floated in my mind, Ye Xuan's face was not green, and the face was full of resentment, and turned to the side of the same dumbfounded blood to see the past. quiet

Quietly said: "Blood brother, your sensory is not reliable? This is clearly a source of stars that breed the Chaos Devil..."

"And, the seeds of the devil in this source nest have sprouted. That is to say, in the stars, except for the demon seeds in the star nucleus, there is no other life material. I can definitely be sure. "Correct

At this point, Ye Xuan did not know it before, but when he planted a Yuanshen seed in the source nest star that bred Hongmen's strongest power law, Ye Xuan knew it immediately. This matter. Place

There is a source nest star that breeds the seeds of the demon god. Once the seed of the demon **** has sprouted, it is impossible to have other living bodies inside and outside the star, even if it is a small bug, it will appear in the ripples of the source nest stars. For a moment, it will be annihilated.

As if to prove his own words, Ye Xuan said here, waving an invisible energy, rushing toward the source nest stars thousands of miles ahead.

"boom!"

A huge roar came in an instant, and as this energy spurted away, there was a layer of spherical undulations in the universe of a thousand miles above the source of the star in front of the star, and the whole source nested stars. They all shrouded, and after a flash, they quickly disappeared...

"Look, don't say it is me, even if it is a monarch who is immortal, even the cosmic sages come over, can't open this layer of ripples, only wait until the chaos demon that was born inside the star nucleus was born and formed, and broke open. Crash out... it's born!"

That is to say, this source nest star, there is absolutely no latecomer to enter, the power of mysterious summoning sensed by **** is either wrong, or... it is the chaotic demon **** born in the core of the source nest! From

Ye Xuan's current discourse and performance, he obviously prefers the former!

For this, the foxes and **** sensations were felt. The two exchanged a look, and then the **** stalked and turned to Ye Xuan. God

The feelings are repeated: "Ye Xuan, my induction is absolutely correct, the weaker summoning power is within this star, just as you said, it is in the star of the stars. In the nuclear..."

"And, because the distance is now close, the power of this very weak summoning has reached a strong point. I even know its origins and details..."

"What? Let's listen..."

Listening to this, Ye Xuan's eyes lit up in an instant, and quickly urged: "What is the origin of the Chaos Demon that was born in this source nest?"

he....."

The expression on the **** face was a little weird at once. There was some support between the words. In the end, I shook my head and smiled: "He is my sister! To be precise, it is my deity... This is direct The blood relationship, under such a close distance, I can't be wrong!"

Hey? Is it the deity of a crazy mosquito? "

This result is beyond the expectation of Ye Xuan. He had already prepared himself psychologically. He felt that like him, he actually stole a source of nest stars, mostly **** grandfather, that is, following the source of the devil. The wild mosquito next to you.

I didn't even think that the truth would be like this.

"Yes, that's him, and he's not just like you used to, just planting the seed of the **** of the gods as the source nest..."

Nodded, **** face followed seriously: "According to my induction, he is completely and thoroughly disarmed in the star nucleus of this source nest star, the flesh and the gods together, To develop a seed of a demon god, just like a new life, live the second world..."

"Insane, it's absolutely crazy... No, this guy is crazy, leaving the madman, the deity, obviously more crazy!"

Although the truth about 贛 is amazing, but after Ye Xuan heard it, he immediately believed it.

These source nest stars are bred by the Chaos Demon who controls a law of Hongmeng. Obviously it is not so easy to take Nestle and take it. to

There is absolutely no possibility of a small, ordinary means of winning. leaf

Xuan is because of the possession of the phagocytic system, so it is directly divided into a sacred **** by the system attached to the system, and all this is done.

But the same thing, for other people to do, but definitely not so simple.

Even those who have phagocytic systems in their bodies, such as those who lost to Ye Xuan in the system competition mission, have the same phagocytic system in their bodies, but if they do not activate the attached avatar system like Ye Xuan, obviously the same It is also impossible to do this so easily. but

The deity of the crazy mosquito king did not want to let go of this kind of stealing the sky, live the second world, and fully surrender in the vast world of the wild, transforming itself into a powerful chaotic demon god.

Therefore, we will choose this way, the physical body will be disarmed, and the Yuanshen will return to the market. In the end, everything will be together and become a demon **** seed, occupying this source nest star.

Although the price paid is too great, at least Ye Xuan is absolutely unacceptable, but I have to say that this old guy is not only embarrassed, but looks like luck is still quite good, in this way to win the Hongmeng, and eventually he was succeeded... miss you

Here, Ye Xuan's mind flashed, and I didn't know what to think. When the face changed, I suddenly shouted out: "No, since the deity of the crazy mosquito has done this kind of thing, then the mosquitoes and the old ghosts The deity? Wouldn't it be like this? By relying on the seeds of the gods that were born in the three thousand source nest stars in Hong Meng's emptiness, at least how many were stolen from the sky..."

Chapter 4353: a galaxy

After confirming the seed of the demon **** in the source of the star in front of the eye, in fact, after the deity of the crazy mosquito emperor, Ye Xuan immediately exclaimed, thus reminiscent of the deity of the mosquito and the old ghost, and divergent thinking Think of more and more...

At this moment, as the words in his mouth burst out in exclamation, the **** and elephant foxes on the side were obviously stunned. They looked at Ye Xuan slyly, then conditioned and turned to the first sweep. This source nest star in front of thousands of miles! One

During the time, the three did not continue to speak more, but the shock that the heart was floating at the moment could only be described as overwhelming!

This pit is too deep!

If it is true as Ye Xuan guessed, then, among the three thousand source nest stars in the Hong Kong virtual air, how many of them have been stolen from the sky, it is impossible to estimate!

The things that even Ye Xuan and the madness of the mosquitoes, the devils of the mosquitoes and the old ghosts can think of, those who have lived from the ruined era of the ruin to some of the ancient powers of the present, the ancient sages... can you not think of it? "

It seems that the reason why the furnaces appear in the Xusheng forbidden land outside the star-shaped vortex of this glory is mostly related to these source nest stars..."

After the silence, Ye Xuan made a more daring guess.

Halfway through, the words in his mouth came to an abrupt end, and the whole heart sank to the valley.

If this is the case, in the past, the ancient powers and the ancient sacred men who were seriously injured in the ruin of the ancient world, how many of them sneaked into this emptiness, occupying a chaotic demon The source of the nest stars... This matter, I am afraid it is impossible to estimate. and

Moreover, if there are no accidents, it is not just the top-level wilderness of the camp that has been riddled with the blue sky, but the top-level wilderness of the camp of the headless baby corpse is also doing the same. leaf

Xuan previously thought that it had already fallen in the battle of the ancient world in the past. The existence of the golden dragon and the wild night fork, which are all extinct, it is very likely that all of them are now immersed in a certain source nest.

Even the ancestral marshes, the nine-day virgins, and the ruins of the ancients who were only able to cultivate the ruins of the ancient ages can live the second world. The two camps that are stronger than them are the ruins of the ancients... Why not? This

One thought emerged from the mind, and Ye Xuan was shocked and stunned. If

Everything is as he guessed. Then, the vast world that had already collapsed in the war in the same year will once again be re-emerged. When it came to the world in an all-round way, one of the ancient and powerful people who had fallen in that battle, Undoubtedly, all of them will be born again and again.

In the battle of the year, Ye Xuan still did not know where it was.

This time, when the vast world of the wilderness came to an all-round, Ye Xuan, together with all the Xeon of the two battle camps of the First World War, will be born at the same time. to

In his case, it was only a legendary myth of the wild, and in the near future, it became a reality closely related to his own body... This change is so amazing that no one can accept it under the control of no one!

"Forget it, this time it is a white toss, completely empty..."

After some depression, Ye Xuan quickly adjusted his mentality and sighed and said: "Since all of them have successfully captured Nestle, they have become a demon **** in this source nest star, and there will always be a meeting in the future. At the time, as for now, it's useless to guard, and there's no danger anyway, just leave now..."

After that, he waved his hand directly and collected the **** and elephant foxes into the inner space of Shennong Ding in the immortal world, and then directly activated the interstellar coordinate jumping ability.

It took more than three months to come. Now I have to go back and go to the source of another summoning force in the other direction. Ye Xuan does not want to spend more than three months before returning to the front. Star field. straight

Activate the interstellar coordinate jump ability, expand the interstellar jump, and arrive in an instant...

"Hey!"

With the system's ability to fully start, a faint glimpse of the faint whistle flashed, with a faint sound of broken air, Ye Xuan's body disappeared instantly.

When it reappeared, it crossed the endless void and returned to the star field where he and the bloody, fox-like scorpion started more than three months ago, that is, the source nest star that Ye Xuan's power was bred nearby...

After another day in which the **** scorpion had raised his hand in another direction, Ye Xuan was stopped again. After a wave of his hand, he released the **** and elephant foxes from the internal space of Shennong Ding.

"Hey? Is it really back?"

"So fast? Head, you have a lot of secrets..."

People seem a little dazed, this is only a day when Ye Xuan earned Shennong Ding, and it came out so quickly. After turning around and looking around, he suddenly found an abnormality. At this time, the void was actually more than three months ago. The star field was not too far away, so when the heart was shocked, it suddenly sounded exclaimed.

Ye Xuan did not explain too much, and there is no need to explain. Stars are strong, who has no secrets of their own? very

Fast, the three people are on the road again. This time, the destination to go to is obviously farther away. The source of the weaker call of the previous one is the strength of the second-order repair of Ye Xuan, and the speed is fully open. It took more than a month to arrive. and

Another source of strong summoning here seems to be farther away according to the **** feelings. So, if you want to reach your destination, it may take at least four to five months, or even longer. .

This is indeed the case. This time, Ye Xuan still did not pay attention to everything along the way. Even if he was separated by a distant distance, he saw a source nest star in the distance between the road and the road. He never stopped. .

Even so, the three people went all the way, and after more than five months, they still did not reach the source of the call. Fives

The speed of the month is not only that Ye Xuan and Xiang Huyu are becoming more and more intolerant, even the **** ones themselves.

Just as the three of them all floated, the far end of the line of sight was at the end, the original darkness, there was no light in the distance, and suddenly there was a ray of light coming, and as the three people moved forward again, the front of the sky was passed. The light that came, actually followed suit.

This is clearly the distant space in front of the sky. There is a rhythm of stars that can emit light and heat. Since there are stars, there will be life stars. When you think of this, all three people are excited. This

However, Hong Kong is empty, not the ordinary universe of the void. It is an exciting thing to discover the stars of life in such places. pole

Under the speed of plundering, three days have passed, and the end of the void at the end, a huge field of light stars, quietly appearing, squatting in the void, squatting like a galaxy...

Chapter 4354: Fenghuangfeng is more like a dog

This piece is like a galaxy. The star field is very wide. At this time, it is because Ye Xuan and the bloody, elephant-like scorpion are still far away from it, and as the background of the glory, it is a deep Dark, so, the entire Galaxy, only in the eyes of Ye Xuan's three eyes...

Looking at it, there are countless stars in the entire Galaxy star field, and there are as many as the stars that can radiate light and heat. It is estimated that its vastness may be compared with any of the three stars in the world.

Looking at the galaxy in the starry sky, Ye Xuan was stunned. Unconsciously, the ups and downs of the chest became fierce, and the breathing was extremely urgent...he

Carefully identified and identified the characteristics of the galaxy in the vast galaxy.

Soon, Ye Xuan's dawn became more and more bright, because he found some traces of jewels, and the mouth began to utter a whisper of excitement and excitement: "That is the Large Magellanic Cloud..."

And the Magellanic Cloud Nebula... Yes, there is the Orion's arm, and the Sun, Jupiter..."

hiss! It is, it is, this is the Milky Way, the Milky Way in memory..."

In the end, Ye Xuan mouth heard the sound of cool air, the body shape has been excited to slightly tremble, he saw, not far from the sun, a blue star, where is his The land where life was born has already been ruined in the memory of endless years, but now... but in the vast universe of the universe, I saw it again! and

Moreover, in the legend of the War of the Ancients, after the vast expanse of the vast and vast world, the mother star and a large star field around it were swept away by a mysterious will of Hong Meng's void...

Ye Xuan is now in the void of Hongmeng. At the end of the void, there is a vast expanse of stars like the Milky Way. Obviously, this vast expanse of the Milky Way is the parent star that was taken away that year. And its surrounding stars!

At this time, Ye Xuan was finally able to completely confirm that the mysterious mother star of the legendary era was actually the blue water planet in his memory, but the era when Ye Xuan was born on this star was already Before the endless long time, I am afraid that even if it is now returning, there will already be things...

At this moment, Ye Xuan's heart surged into infinite feelings. After confirming that the front is the Milky Way, where the Orion's arm is not far away, there is a water blue life planet that is closely related to himself, and he can't hold back anymore. I want to rush forward when I shake.

He is extremely hopeful to return to the blue water planet immediately, to see all the above, to see if the man who controlled the planet in the past is still in the process!

"Hey, the situation is a bit wrong, let's not be too reckless!"

Just at this time, just as Ye Xuan just wanted to rush out, the elephant fox squatting in his right shoulder was suddenly reminded.

The **** side is also the same, with a vigilant shackle and a finger to the right: "Although this Galaxy galaxy is probably the star field where the parent star is, in fact, the strong summons I have sensed The force, but from the far side of the right side of the void, is never within this Galaxy galaxy."

In addition, the dark void in front of this Galaxy galaxy seems to be... not very safe! "first

Before, all of Ye Xuan's attention was drawn to the vast galaxy of the galaxy at the end of the line of sight, and nothing else was noticed.

At this moment, I heard the fox and the **** screaming at the same time, and he stunned before returning to God.

Soon, the gods will be extended and deliberately concealed...

After some investigation, Ye Xuan's face was gloomy in an instant, because the situation and the **** saying, first and foremost in the other areas of the Milky Way, only to the front of the Galaxy The cosmic void in the straight direction is definitely not a peace! from

Since entering this piece of Hong Kong's void, Ye Xuan has never encountered any living creatures for about three years, but now, far away, there is a lot of life in it. number

The amount of it has given people a kind of forbidden land outside the void of Hongmeng, or the land of the survivors.

"The situation is really not quite right. There is so much life in the direction of one direction, and all are very powerful..."

Under the trepidation, Ye Xuan whispered: "From this situation, if there is no accident, the galaxy's star field at the end of the line of sight is surrounded by all the stars, and there are countless star powers and fierce. The beast and the remnant are licking it, the wolves are waiting, and they are watching!"

"And, this situation is probably not happening in the near future..."

Next, the **** nodded slightly, and then Ye Xuan's words said: "There are so many star powers and beasts and survivors, it is obviously after a long time to gather, so it is enough to explain a problem, that is, ahead Most of this galaxy's star field has some kind of mysterious invisible power to protect it. Just like those source nest stars, it can't enter at all..."

"Otherwise, since all the wolves are surrounded by wolves, how can these guys who look at them have such good patience, have they always been outside?"

Roar! "

The **** words just said that the end of the void at the far end of the front, suddenly there was an earth-shattering beast roaring.

The three of them were shocked and turned to look at it. They saw a huge beast with a body size of more than one million feet, and they were rushing out of an abandoned star..."

Hey! "tight

Then, just like a general response, in an abandoned star in the other direction, a sharp and screaming whistle immediately sounded. One

The whole body was dark, and the fierce bird that swept the giants of a million feet flew out and spurred toward the huge beast that had previously roared.

These two guys quickly rushed to a place, and the repairs that were scattered in the body were all immortal. With

When the war began, the darkness in front of the sky was filled with infinite power, and the abandoned stars were blasting because they couldn't stand the pressure of this level...

However, everything is far from over.

After the interest rate, as the two fierce beasts fought in the void, the other directions of the dark void at the end of the line of sight, all of them continued to have a whistling and roaring, or a half-point. A powerful sense of God that does not have the meaning of concealing. number

At least tens of hundreds, and the weakest of these breaths are the immortal world, the king is the mainstream, and the emperor is also a lot...

In one scene, Ye Xuan and bloody, elephant foxes were shocked.

What kind of place is this place? It's terrible, it's clearly the rhythm of the emperor's emperor's like a dog. It's simply shocking...

Chapter 4355: Strong forbidden to get together

"The situation is a bit complicated, or the two of you will go to Shennong Ding first to avoid it..."

At this moment, Ye Xuan's face was already very dignified. After a little indulging, he turned to look at the **** and elephant foxes, and then said: "There are so many emperors in the air, and it looks like a frontal void. Among the vastness of life, the weakest are immortal..."

"This kind of situation is outside the emptiness of Hongmeng, even if there is a forbidden land in the top star of the Emperor's stronghold, it is impossible to appear!"

"So, I am extremely skeptical that this place is a strong forbidden place, even more than one place... Maybe all the stars of the Milky Way are all gatherings of star-level powerhouses of this level!"

If this is the case, don't dare to say the Lord of the universe, and the Supreme of the Universe, at least, the cosmic sage, here is definitely there. "

"The existence of this level, although I have a way to escape, I can't guarantee innocence. If you both stay outside, once you change, the chance of safe escape is almost zero..."

Having said that, Ye Xuan no longer speaks, because **** and elephant foxes already understand what he means. most

In the recent past, the two have been following Ye Xuan. They did not understand the level of cultivation after the emperor and the level of starry forces after the top star ban. but

Now, after this period of Ye Xuan's commentary, the two have already known this.

In this vast and unpredictable ruin of the vast wilderness, the banned land is a force that is ruled by the beasts, and the sacred land is a star of the abandonment of the ancients.

However, whether it is a forbidden land or a satellite, it can be divided into two major categories according to the level of influence.

The first category: the seal, the king, the emperor, and the emperor, ruled small, medium, large and top star bans. First

The two categories: the universe, the Lord of the universe, the Supreme of the Universe, and the existence of the five realms of the ancient powers of the wild, the ancient and the supreme, each ruled the five strong hierarchical forbidden places, respectively, for the primary, middle, advanced, and top, Super strong forbidden! before

In this star field, there are more than a dozen atmospheres of the emperor-class starry beasts in just ten places, at least one primary and strong forbidden land, and at least one cosmic person. leaf

Xuan is now the emperor, and the cosmic sage is two higher than his cultivation. It is extremely dangerous to just sneak into it alone. If there are two oil bottles in the world of the king, How can the situation be imagined? more

What's more, the front is at least the place where the primary to strong forbidden land is located, and it is only one direction on the edge of the Galaxy's star field. whole

The emptiness of the glory is a darkness. Only the galactic star field emits a lot of light and heat. If the gaze is like the same galaxy, it will already attract the numerous powerful existences of Hongmeng. Such as

Therefore, the other directions on the edge of the Galaxy's star field must also be a force at least for the primary to strong forbidden land, and even a stronger intermediate and advanced Xingqiang forbidden land is not impossible. This

What is the place where the strongest forbidden land is piled up, and the **** and elephant-like scorpion are only the strength of the king's realm. It's really nothing to toss, basically nothing to do with them...

These thoughts flashed from my mind, **** and elephant foxes once again turned to exchange a look, the latter did not say anything more, nodded silently.

But the **** seems to be indulged, Ye Xuan is not in a hurry, waved his hand to the fox, and Shen Jinding, and then quietly await his response. "

Ye Xuan, I want to go there..."

After the stagnation of the sputum, the **** glimmered over the fine mans, and the look on his face gradually became firmer. He shouted his finger to the direction he had previously said: "I can sense that there is a strong blood in that direction. The power of summoning exists..."

"If there is no accident, the source of this summoning power should also be a **** and pure mosquito, and it has a deep blood relationship with me, mostly... my grandfather!"

"And, his breath is very strong, and the feeling for me should far exceed the breath of the more than ten emperor-level beasts coming from the front... Perhaps, it is what you call the cosmic sage, even the universe. the Lord!"

"If you can find him, it will be of great significance to the situation we are facing now, so this is definitely worth a try."

"However, this direction has a lot of life of a murderous mosquito. If there is a strong forbidden place, more than 80% of the population may be a place where some of the murderous animals and animals live. So, I have no entry. Dangerous, but you are not a murderous mosquito, but you can't get in at all..."

Speaking of this, the **** front turned, after the slight pause, he said: "We are not aware of the strong forbidden area around the Galaxy. If it is only for you to investigate alone, the progress is obviously a bit too slow. ""

On the contrary, it is me. If I can find the source of the power of summoning in this colony of mosquitoes and animals, it is very likely that I can get a lot of information easily, so... we can both of them happen at the same time! "

"It is such a rationale..."

After the **** end, Ye Xuan subconsciously frowned. Although the **** blood is now immortal, but compared to this kind of strong forbidden land, his strength is simply not enough. leaf

Xuan is still somewhat worried about his safety. Do not

However, blood is not his subordinates. The two are brothers who are worshipping. Since he has made his own choice, the only thing Ye Xuan can do is to respect his decision. Otherwise, the taste of this relationship will change. It is.

Thinking of this, Ye Xuan sighed a sigh, raised his hand and patted it gently on the **** shoulder. Dun Dun said: "Well, **** brother, you are all careful, hope that we will be heavy again soon. Gather..."

call out! "

After that, Ye Xuan waved a small box filled with a lot of top-level cultivation resources, slowly drifting away, and fell into the **** hands: "These cultivation resources are taken away, the resources of Hong Meng's void are poor, I There are more on hand here, don't delay the repairing into the country because of these..."

So, then don't ever! Ye Xuan's younger brother... take care! "blood

It is not too much to refuse, and he does not need this between Ye Xuan and Ye Xuan. will

After falling into the hands of the small box of income in the body, he also raised his hand and patted Ye Xuan's shoulder. Without further words, he turned and spurred to the far side of the virtual air in the distance, and his body shape disappeared.

"call out....."

Until the **** figure disappeared completely in the dark void at the end of the line of sight, Ye Xuan was once again faintly sighed, still maintaining the violent form of the current ten-foot-high starry sky, after the body's royal atmosphere converges as much as possible, this I turned around and headed for the dark void of the terrifying battle ahead, going far...

Chapter 4356: The situation is worrying

"Roar!"

"Hey..."

The earth-shattering beast roared and the murderous birds screamed, and the front of the void was far away. The battle between the two emperor-level fierce beasts continued.

Xuan converged, but did not hide his body shape, but did not completely hide it as a breath, because there is no need in this horrible area. With

Just jump out of the two fierce birds and fierce beasts, they are the same level of the emperor, and the surrounding area is far away, and from time to time there will be an emperor-level gods sweeping...

Under this circumstance, he only looked at the strength of the second-order emperor, but it was not too eye-catching. If he was to be deliberately concealed below the king, the effect would be reversed.

In the face of the two terrible battles of the imperial class, even the ordinary kings did not dare to take the lead, let alone the starry beasts of the waiting class, and most of them are now crouching in their nests, shivering! only

It was only a distance of about 200 million miles, and the density of stars in the surrounding sky suddenly rose sharply.

Looking into the distance, within the virtual distance of sight, every tens of millions of miles or so, there are one or two stars, which is normal in the three major starry planes of the world, but for this piece of Hongkong But it is like a miracle... Ye

Xuan has been in this piece of Hong Kong for several years. Basically, it needs to be rushed in the same direction for more than half a month to see an abandoned star or a source nest star that breeds a chaotic demon. but

Here, with his current second-level cultivation of the Emperor, the exploration of the gods is carried out, and within the scope of the knowledge of God, at least tens of thousands of stars exist.

Moreover, from the trajectory of these stars, they obviously do not belong here. If there is no accident, they should be a large number of horrible star-studded beasts gathered here, and their lives are moved from other places.

When it comes to the kingdom, it has the terror means and ability to move the stars in the void of the universe. Of course, the king can only move the stars of ordinary size. If it is a giant star, at least it needs to be repaired. and

Like the super-great stars of the Chaos source nest, I am afraid that only the existence of the Emperor's level can be shaken. Even the current Ye Xuan has no such ability.

Only from this point, we can see some problems.

Inside the vast galaxy at the end of the line of sight, there are more stars, even a lot of glowing stars, and a vibrant life star.

Including the mysterious ancestral star, also within this vast galaxy...

It is this time that these powerful star-studded beasts have been absorbed, but they have spared no effort to move the stars from the distant sky to the place of the nest, which is easy to lie in the weekdays. The vast and infinite Galaxy star field is obviously unable to enter in a short time.

Not to mention the existence of the Emperor's level, that is, the cosmic sage, the Lord of the universe, can only come with a nest like other emperors, patiently outside the edge of the Milky Way, quiet Waiting quietly...

At this point, Ye Xuan had already speculated before entering the adjacent area outside the edge of the Milky Way, and now, as he carefully entered the adjacent area, deep in it, seeing it in the eye. Everything has undoubtedly confirmed his guess!

Due to careful consideration, Ye Xuan did not go straight into the area where the two front-end murderous beasts were fighting in the battle, but shifted slightly, inserting into the left oblique spur.

Moreover, for those void areas that sometimes have one or two emperor-level gods extended, he will also deliberately avoid it, so as not to be inadvertently disturbed, and be stared by a beastly beast, then it will be bad. With Ye Xuan's current training as a strength, in addition to immediately activating the interstellar coordinate jumping ability to escape, there is no choice. With

With him going all the way, Ye Xuan gradually got a certain understanding of this strong forbidden land that gathered countless powerful stars and beasts.

Half a month later, when he went deep into the hinterland of the central area of the forbidden forbidden land, he accidentally encountered a fierce beast that was first-ordered by Feng Huang. It was the same as the blood form that Ye Xuan showed at the moment. This is also a Starry sky.

What surprised him even more was that this starry sky was still very warm and hospitable. He met a fellow family member, and he still had the same strength as his cultivation. He was very happy, but he took the initiative to pull Ye Xuan. Talk to his nest star. This

It is an excellent opportunity for Ye Xuan to understand the situation of the Xingqiang forbidden land as soon as possible. Even the other areas of the Foreclosure and the Stars that surround the vast Milky Way in front of it can have A certain understanding. its

Shi Yexuan has been waiting for such an opportunity, but he does not dare to act recklessly, and actively seeks to find some powerful beasts to talk about, and even dare not in such an environment with a large number of emperors and strong emperors. Start hunting and search for souls.

Soon, Ye Xuan shunned the boat and entered the nest star with the starry sky. To

After the surface of this star, Ye Xuan discovered that there are still a lot of weak starry beasts in the stars. Most of them are starbursts, and there are even more than a dozen half-steps, obviously this is The descent of the **** descendants of the imperial starry sky and the army of the genus. for

After opening the words, Ye Xuan generously took out some of the top cultivating resources, which are rare spirits in the stars and the various spirits he has collected for a long time.

This starry sky is obviously very good, and the body shape is reduced, just like the ordinary human race, holding the wine jar and pouring it into the throat. Two

The people have been drinking more than a dozen altars, and the atmosphere has gradually become more harmonious.

Three days later, when Ye Xuan made a timely speech and politely sent another thousand altar spirits, he left, and he shed light on the Xingqiang forbidden land and other surrounding areas, including the front of the hollow hollow head. The general situation of the hot vast galaxy has already been understood to a certain extent...

In general, the situation is worrying, and his mood is very heavy! eye

This strong forbidden place where Xia Ye Xuan is located is indeed a primary and strong forbidden place. The strongest person sitting in the middle of this place is the cosmic sage who has cultivated the strength to reach the medium term.

In addition to these three cosmic sages, in this primary Xeon forbidden land, there are hundreds of emperors, and hundreds of emperors, powerful enough to be horrible. and

In this vast primary and strong forbidden land, the only ones who can qualify to fly in the void during the week are at least the beasts above the immortal level. but

In the interior of a nest of stars, almost all of them are crouching with a fierce beast army. The starry beasts in the army are all under the immortality. can

It is said that the number of all the starry beasts in this primary starry forbidden land is so large that it is impossible to count, and now all are waiting patiently for the opportunity to enter the front of the Galaxy Star...

Chapter 4357: Crazy plan

This is just a primary and strong forbidden land. In fact, there are more than a dozen forces around this vast galaxy.

Among the more than a dozen large-scale power gathering places, there are both the strong forbidden land where the star-studded beasts gather, and the supreme star field where the ancient survivors are active. its

The most powerful of the two places, one is the middle-class starry ban with the main horror beast of the universe sitting in the town, and the other is the remnant star field with two ancient survivors of the universe.

These dozens of large-scale forces have divided the surrounding voids of the vast Milky Way, and in the gap between the more than ten large forces, and later, there are a lot of small forces, even some scattered like Scattered beasts and survivors. This

The reason why some powerful beasts and survivors gathered here is to wait for the opportunity to enter the vast Galaxy star field ahead. whole

The Galaxy Star Field is protected by an invisible domain power. This field power is suspected to be related to this dark void. very

Earlier, there were several powerful cosmic masters who joined forces to try to break open and rush into it. The result was not only failed, but also provoked the resilience of the field power, and the two masters of the universe fell on the spot.

Since then, no one dared to try it again, fearing to kill himself, but there are two powerful cosmic masters in the tribe of the remnant, together with a powerful beast with a special blood and good at the way of derivation. Expanded the derivation.

The final conclusion is that this Galaxy star domain has not yet reached full open time, but that moment should not be far away, but the specific time has not been derived. press

According to Ye Xuan's speculation, the full opening time of this layer of invisible Hongmeng field that hangs over the Milky Way star field should be on the occasion of the full-scale landing of the world, or after a while.

At that time, once this invisible Hongmeng field is fully open, these powerful beasts and survivors who are outside the Milky Way will undoubtedly swarm in, plunder resources, occupy the ancestral stars, and rob this round of Hongmeng era. Air transport!

This makes Ye Xuan feel a heavy shoulder, but also has a very urgent feeling. After all, his current cultivation is only the first step of the emperor, and there are two whole realms from the cosmic people, not to mention the five great people. It is only the first of the five most powerful realms. except

In addition, Ye Xuan was shocked to learn another news from the starry sky, that is, half a year ago, there was a muffin on the edge of another primary Xingqiang forbidden land in the distance. only

Yes, when the news came, a cosmic lord arrived and wanted to collect it, the smoldering furnace that was suspected of being in the old age suddenly disappeared and disappeared.

The news made Ye Xuan very shocked. He had already entered the Xusheng forbidden area outside the small star whirlpool of Hongmeng.

But now it seems that this is obviously only his wishful thinking. It has been a few years since the time has passed. The Ming furnace has obviously entered this piece of Hong Kong through some channels. From

From this point of view, it came to Xusheng forbidden, and it was...

And its ultimate goal is undoubtedly the mysterious ancestral star in the vast galaxy in front...

Knowing this news, Ye Xuan was shocked, but after thinking about it, his heart was not so uneasy.

After all, although the Milky Way star field where the ancestral star is located has been exposed in the world, even the furnaces have been found here, but the entire Galaxy Star Field now has an invisible

Hongmeng field, if there is no accident, Even if it is a green eye, it is impossible to forcibly break through and enter.

In this way, before the arrival of the big change, the Galaxy star field and the ancestral star are safe, and Ye Xuan can completely calm down. In this case, this piece of Hongmeng emptiness and enhances its own strength, while secretly squatting down the camp. The overall strength, quickly upgraded up...

After that, when he turned around, he did not continue to move forward, because with his deepening, the gods of the Emperor-level powers who passed from time to time in the void have become more and more frequent, and then go forward. If you do, the chance of an accident will increase dramatically.

Anyway, the results of the investigations are already in place. At this time, you should withdraw and leave this junior strong ban, go to the small forces and the scattered forces of the small forces, or the farther rear. Void...half

A month later, Ye Xuan withdrew from the territory of this primary Xingqiang forbidden land, and returned to the empty space where the **** leaves, but did not stop here, but continued to withdraw. He is now looking for a star. Crouched down.

The source nest star is the best choice. Ye Xuan uses the body's phagocytic system to carry out the derivation. The final result is that if the core energy used to breed the Chaos Demon in the source nest star is destroyed, then the source The nest star will be abolished, and the three thousand chaos demon gods that will be born in the future will lose one. leaf

Xuan is now planning to do this. He decided to find a source nest star whose seed of the demon in the star's nucleus has not yet sprouted, killing the seed of the demon god, and then using the huge energy originally used to breed this demon seed. The subordinates of their own army.

This is absolutely a violent thing. There are not many chaotic source nests in Hong Meng's emptiness. It is difficult to find. Even if it is found, it is very likely that the seeds of the demon gods in the nucleus have sprouted and cannot enter. can

It is difficult to find a source nest star whose seed of the demon **** has not yet sprouted. It is definitely a small probability event that hits luck. Ye Xuan has been swaying for a few years in this Hong

Kong virtual air. There are also foxes and phagocytic systems in the body to help each other, before and after, only encountered a few. If

It is to let other powerful beasts or survivors find such a profitable source nest star, and at the same time, there is a means of stealing the sun in the hands of anyone. Anyone who is will consider themselves and replace the seeds of the gods in the star nucleus. example

This is how the deity of the crazy mosquito king is doing this. and also

Only Ye Xuan, will come up with such a crazy plan, a chaotic source nest used to breed the chaos demon, violently natural things, used to enhance the combat power of the lower arm of the army...

In the following time, he once again began a journey of sloshing in the void. The only purpose was to find a source nest star whose seed of the gods had not yet sprouted. This

When I look for it, my eyes are half a year, but I have never had any gains.

Just as Ye Xuan felt a little intolerant, wondering if he should retreat to the next level. With an ordinary abandoned star as the base camp, he set up camp and settled down. When he settled down for a while, a remote star field at the end of the line of sight suddenly appeared. A huge star.

Only one glance, Ye Xuan has identified this giant star, which is a source nest star, and ... the seeds of the demon in it, have not yet sprouted!

Chapter 4358: Set up camp

Hard work pays off, after more than half a year of hard work, Ye Xuan finally found a source of nested stars that have not yet sprouted. This

The harvest is too rare, it is the result of luck, and Ye Xuansheng is late to change, no longer hesitate, and his body will rush to the front. half

In the days after, this huge source nest star is already in front of her eyes. Ye Xuan's figure swayed directly to the stars and land, and immediately rushed to the star-shaped area deep underground. less

After that, he entered the star nuclear zone. by

Yuyuan's nest stars are huge, so even if it is only its internal star nucleus, it is also very vast, similar to the diameter of a normal star.

In the entire star nucleus, all of them are energy crystals of various colors. It is not a simple matter to breed a chaotic demon. The laws of various laws are not only numerous but also complex and horrible. The birth of life is originally the most in the universe. Mysterious things.

In the center of these inexhaustible energy crystals, there is a blood-green prismatic crystal, which is high in the depths, and there is a hint of vitality in it. whole

A large source nest star, whether it is the outer star surface, or the hinterland star nucleus where Ye Xuan is at the moment, only this blood-green prismatic crystal has a faint vitality.

There is no doubt that the Chaos Demon, which was born in this source nest, is in the blood-green prismatic crystal, but it is not yet a complete living body, because the seeds have not yet sprouted, and it No chance to sprout!

"Hey!"眸

Under the flash of the cold, Ye Xuan waved an invisible force, and the blood-green prismatic crystals were shattered between the blinks, turning into a large piece of blood-green crystal fragments scattered on the ground. a few

At the same moment, the scent of life that seems to be absent, and thus completely disappeared, can no longer be sensed.

This seemingly simple shot, but the source of the devil is the seed of the **** of the nest. At this point, the whole star is half-waste, even if it is found again, because the blood-green prismatic crystal that gave birth to the seed of the demon **** It's broken, I want to steal the day, I'm going to make myself, live the second world, and become a chaotic demon god. It's no longer possible... though

Unfortunately, this is the result that Ye Xuan wants! "

call out! "

In the wave, Ye Xuan directly shot a mile, and it was the life of the Dragon. on

Once, Ye Xuan has found the energy that is suitable for the rapid evolution of the early self-derivatives in the world of life giants, and it is very large, and he was thrown directly into the second floor of the bottom chamber of the Longye Life Giants. , stuffed with a full hand, let the countless tiny individuals in the world insect self-derivatives absorb and devour at will. through

After such a long time, the life giant plug is obviously bigger and bigger. There are already two star wars, so the growth of the whole life giant plug is far from over. It is still slowly but continuously changing. And growing up.

The reason why the life giants are sacrificed is because it is a star in the star of the nesting stars. The energy in the environment is more intense, which helps the life transformation and evolution of the world's insects. Benefit effect. another

On the one hand, Ye Xuan has already planned to make this source nest star into his own base camp in the Hongmeng area. At the moment, it is necessary to camp in the star nucleus and need to land in the habitat.

Of course, the more important reason is that because of the life of the Dragon Field, there are also 10,000 swords and Cang Qingyu, as well as Yingtai and other 10,000 heart-bellied demons who are scouting for retreat. will

The life giants sacrificed, just like the seeds of the demon gods camped in the star nucleus of this source nest star, and the tens of thousands of heart-bellied demons scouting in the retreat can also get out of the giant plug at any time, absorbing the inside of the star nucleus. Visible crystal energy...will

After all this was done, Ye Xuan was slightly indulged, and soon waved again. This time, the sound of the vacant sounds continued to sound, and continued, after landing, it instantly turned into a star-shaped beast with different heads. This

Once with the green cow and the elephant fox, leaving the phoenix forbidden land, Ye Xuan, in addition to the tens of thousands of demons scouting in the life of the Longye, was only the four kinetic groups of the four star wars. And the eight King Kong, Flying Scorpio and Silver Jubilee inside Shennong Ding. whole

The starry nomadic corps, including the beast army under the green ox, as well as the captive army and the remnant army, were all left in the ban of the **** ban, and quietly developed... If there is no accident, the old cattle return Later, it has now replaced Ye Xuan and became the acting leader of the entire Starry Nomadic Legion. Do not

Before, before the departure of Qingniu, there was a huge army of fierce beasts that had not been taken away, and remained in Ye Xuan's hands. when

At the beginning of the forest, Ye Xuan opened the killing, and the **** slaughter lasted for a small half of the time. In the end, countless beasts in the entire forbidden land were killed more than 80%, only only one and a half of the forbidden beasts were in the green. Under the deliberate selection of the cattle, they were left behind and earned income. After returning to the Phoenix Blood Field in the future, they were compiled into the army of the beasts under the Qingniu account.

There are more than 10 million beasts left behind by this life. Among them, the immortal ten are immortal, and the ordinary immortal is nearly one hundred. Since the green cow is returning to the banned blood, it is so many thousands of stars and beasts. Has been accepted by Ye Xuan in Shennong Ding.

At this moment, he was waved out by him, and it was the tens of thousands of star-studded beasts... and one of them was recruited, and there were eight King Kong and Flying Scorpio and Silver Jubilee!

After all the starry beasts were recruited, they stood in the star nucleus and stood in a large piece. They were all very quiet. They were stunned by the imperial atmosphere of Ye Xuan's body, and the atmosphere did not dare to breathe.

But Feitianyu, Jubilee and the Eight King Kong are not so honest. One

Seeing Ye Xuan, these ten guys immediately piled up with laughter and got together...

It was a few years ago to see these guys in Shennong Ding. At that time, Fei Tianyi was the second-order repair of the immortal, and the Eight King Kong broke through the immortality and broke through twice. At that time, all had the third-order strength of immortality.

Even the silver cockroaches and old geeks have been repaired to the seventh level of immortality. If there are two breakthroughs, they will need to swallow twenty-first-level dans.

Nowadays, after a few years of disappearance, Feitianyu has already sealed the immortal ninth-order grand perfection, and the silver plaque has already broken through the ordinary immortality, and now it has become an early seal.

Even the eight kings of King Kong have already reached the ordinary nine-order grand perfection. It is precisely the need for a twenty-first-class Dan to attack the immortal.

Seeing this scene, Ye Xuan-teng feels guilty. It seems that he has not entered Shennong Ding recently. He forgot to provide these guys with various levels of Baodan that broke through the bottleneck of the big realm...

Chapter 4359: The third batch of the army

"Hey, if you don't show up again, we have to live alive and die..."

"The playing is yes, we are eight, the last one is into the immortal nine-order great perfection, all of them are half a year ago, but there is no twenty-level Baodan, and we can never break through."

"Hey? This breath... head, are you the emperor?"

"It's awesome, my brother, only a few years ago, actually broke through to the immortality of the emperor, and it is almost speechless!"

"Don't pull so much, head, first give Baodan down. When it comes to the breakthrough, there is no twenty-level Baodan. It has failed several times, and the body's strength is saved. It's fried..."

.....

Suddenly I saw Ye Xuan, the Eight King Kong suddenly surprised, and then all of them had a face, bitterly rushed to Ye Xuan, and for a time, you came to me, all kinds of complaints.

"call out!"

"咻咻咻..." leaves

Xuan shook his head and smiled, but it was a bit embarrassing. He didn't say much. He waved Baodan directly. This time, the eight King Kong not only got a copy of the 20th level Dan, but even the immortal. Even in the future, they helped them break through the twenty-two-level Baodan, which is immortal, and Ye Xuan also released it in advance. when

Of course, including the flying scorpion and the silver scorpion, the two old guys, Ye Xuan not only gave a twenty-two seal Wang Baodan, used to break through the twenty-three treasures of the royal family. They also each gave one. Such as

As a result, Ye Xuan's twenty-three-level Fenghuang Baodan has only one left, and he needs to find a way to hunt the king-level fierce beast and condense the king's blood, used to refine twenty-three. Fenghuang Baodan.

However, the number of twenty-two seals Wang Baodan has fallen back to a large number, with a total of thirty. At the 20th level, the number of Baodan is even more, and there are more than 500 pieces. It will not be tense in the short term.

"Head, thank you, hey? Where is this? The energy is so rich..."

Why do you manage so much? This is the first thing, can you take your mouth? "

"Playing is playing, we are now too weak to repair, we have to go back quickly..."

When Dan arrived, the hearts of these ten guys were immediately unsettled, and they were full of excitement. They repeatedly urged Ye Xuan to immediately pay them to Shennong Ding. This

It is clear that we have to race against time, and once again, we will start the rhythm of retreat! "

Don't worry, for the time being, you don't have to go back to Shennong Ding. It is the same to break through in this star. In the future, here is our home base. In the short term, we should not leave..."

Having said that, Ye Xuan turned to the first sweep of a large army of beasts.

Beckoning to be the tenth of the tens of thousands of beasts and the immortal leader, and nearly one hundred ordinary immortal leaders, all called out.

In the end, he looked around the top of the group of seniors, and he told me: "You have heard it just now. From now on, here is our home base."

"This is a giant star. The diameter of the star nucleus is vast, and the number of people is 100 times larger. It can also be accommodated. Moreover, all the top energy crystals are in this space... The star owner has no restrictions, if necessary. , you can use it anywhere!"

Including the various grades of Baodan used to break through the bottlenecks of the big realm, the star master opened the supply. When the ninth-order grand syllabus of a certain realm is completed, it will be applied directly to the level, and it will be released naturally. ""

The only requirement is that everyone, as soon as possible, as soon as possible, will improve the strength of the cultivation, because the robbery is approaching, self-cultivation is too weak, you simply have no chance to survive..."

In addition to this star nucleus, the outer star surface can also move around at will, but this piece of emptiness is very dangerous, and there are few stars, even the abandoned stars are rarely seen, there is no resource at all, so if you leave the stars to go out Tatsu, don't go too far..."

"In addition, the beasts of the beasts are divided into ten small corps, each of which is one million. One is sealed by immortality and ten ordinary immortal leaders, taking turns to patrol the stars on the land surface, once the stars are outside the universe. There is any change in the first time, return."

Here, Ye Xuan turned to look at the flying scorpion and the silver scorpion, the eight King Kong King: "Ten patrol corps, each of you responsible for one, take turns patrolling in the star land table, the rotation period is one month..."

At the end, Ye Xuan did not say much, and his body shape slammed into the dragon's life giant plug in the central area of the star's nucleus: "The star owner is at the top of the giant plug, and there are important things that need to be reported. Giant plugs look for the devil to scout, they naturally have a way to wake me up..."

.....

In Ye Xuan Yu Hongmeng, find a source nest star in the sky, destroy the seeds of the demon gods in the star nucleus, and violently smash the heavens and the generals to occupy the Nestle, and settle the army of the lower part of the scorpion in this source nest star, set up camp, this is the case. While crouching down...he

The three major starry sky planes that have been left for a long time have also set off a stormy wave!
Count

Counting the time, Ye Xuan left... Accurately speaking, it should be the battleship army formed by the major forces of the three major stars and the main forces to leave, entering the mysterious void crack in the second universe of the sinister star, against this giant It has been more than ten years since the mysterious ectopic surface of the void crack explored. This

For more than a decade, the top three powers of the three major stars in the world, countless star powers, all closely watched this void crack in the second universe.

All the people are looking forward to seeing. From this hollow crack, Bar can see that there is a warship, even if it is just a figure of a starry sky.... In that case, they can at least understand the inside of this void crack. Take

And the vast number of star-studded powers in the three major planes that entered the world more than a decade ago, and the general status of the major starships!

It is a pity that this simple expectation is like a luxury. Until now, thousands of days and nights have passed, but it has not been realized so far. ten

In the past few years, the top three forces of the three major planes have successively dispatched a large or small warship corps, or a star-studded team to enter this void.

And before entering, I deliberately passed it, no matter what the situation is, in any case, come back in the first time, feedback the news and intelligence...

However, all the warship corps and the strong squad that have been in the void for more than a decade have not returned, all without returning! This

It's not normal, it's strange, and let the top powers of the three major stars in the world sit on the blankets. In this context, there is no longer any thought between the top three forces and ethnic groups. They are guilty of each other, and they are all locked in this mysterious void crack...

Just recently, after all the top forces in the three major planes and the ethnic groups urgently negotiated, the high-level leaders unanimously decided to send a third joint army to enter the void.

Chapter 4360: Gathering the Yin Magic Star

At the beginning, the pioneer team sent by the second universe was the first army to enter this void. Do not

After a long time, the top forces and ethnic groups from the three major planes entered the fleet of the parties in the follow-up, and became the second army. and

This time, the joint army consisting of the top three ethnic groups and forces of the three major planes will obviously become the third large-scale army that entered this void crack...

After reaching a consensus, the top three forces and ethnic groups in the three major planes immediately assembled the army. In less than a month, they only gathered outside the mysterious void of the second universe. Say

It is a joint army. In fact, the total number of warships is too large to count the terrorist army. It is still divided into three large camps. First

On the other side of the universe, the Tianji people still have no news, replacing the numerous starry beasts in the cages of the Magic Emperor's Stars, and have not participated in this conquest. How do the Taikoo Porcupine and the Taikoo tortoise mix in it? Still not knowing. package

After the collapse of the magical emperor, he avoided the entire group of demons who did not know where they were, and this time did not appear. but

The other original slaves and servants of the First Universe were all involved, including the giants who had formed alliances with Ye Xuan, the Nether Mouse and the Hell Ants, etc., forming a huge starship army, in the Yin Magic Star. Outside the void of the domain, it occupies a large starry sky.

On the second side of the universe, all the major ethnic groups have not been absent. The top ten ethnic groups led by the **** people are still the leaders, but the only one of the top ten who has already sealed the family is the only exception. This

Once the third batch of conquests, the Turtles still did not participate.

As for the third universe, all the forces of the various parties gathered together, but the main heart, but still the two camps of the Federation of the Faro and the Terran, that is, the Ten Heavenly Palace and the Immortal Dynasty. This

Among them, including the Tianhe Star, the main Ye Xuan, also sent a large fleet to participate, and the outside world simply did not know, this name of the Tianhe Star battleship army, in fact, Ye Xuan originally stayed in the Triumph City of the Triumph. This

Once, the Triumphant Corps and the Tianhe Legion almost moved, and the mosquitoes and old ghosts led the army. It was like a migration. Seeing this situation, it seems that there is no intention to come back at the end...

At the beginning, the second cosmic people sent the first vanguard army to enter this hollow crack, sitting in the strongest of them, for the immortal old monster. Rear

The second squadron, which consists of three major planes and major forces, has a larger lineup. The strongest person in the middle of the battle is immortal for the major ethnic groups, and the number is not much. At present, a small part of it has been taken as a captive of Ye Xuan, entering the prison parliament and becoming a high-level parliament. and

This time, the third conquest army, not only the number of warships far exceeds the second conquest army, the top-ranking high-ranking people in the middle of the town are the most powerful, it is said that even the king is immortal, but the emperor is immortal!

And, whether it is the seal of the king or the emperor, the entire conquest of the army ... a lot of! complete

In fact, the previous two rounds of the squad, including the large and small corps and the star power team that have been dispatched for more than a decade, have not heard any news since they entered. This situation has already made the top three of the three major planes. The forces and the core executives in the community have increased their vigilance.

This time, if you don't shoot, you can't be as light as ever before. very

As for the rumors, in fact, the most powerful person who is seated in this horrific joint army is not immortal, but is more powerful than the emperor's immortal, even more than the emperor. Immortality is more terrifying...

Although this is only a rumor in the market, the truth is still to be verified, but most of the star powers are obviously inclined to believe that this rumor is true.

After all, even the servants of the first universe, which had been enslaved by the celestial family, have their core ancestors, and they all have the sorrow of the emperor, the emperor, and even the emperor.

Not to mention the top ten of the Second Universe, and even the sacred ancestors of the ancient power level in the clan. to

The Yuwanuo Federation, although not even established as these ancient ethnic groups, was the only force that could compete with the Tianji people. Even the two camps of the Terran are included, and with endless resources, these In the year, the Federation of Varo does not necessarily have a network of superpowers that transcend the immortality of the emperor. people
