

Super D. S 436

Chapter 436: Feng Yaqing, hostage!

Ye Xuan hid in the clouds at high altitude for a while, then saw three figures swept over.

The three of them have also seen it, in the group battle of the day, but they are all elders of the five poisons.

"Sure enough, the other party arrived at the Feifei Pavilion first, and then waited for us. Now they should be holding the poisonous princess, ready to smash the door of the poisonous door!"

Ye Xuan thought in the air.

He glanced at him and found the three people underneath. Among them, there was a master of the fifth-grade temperament, and the other two were all four hundred and ninety dragons.

"It looks like it has to be considered for a long time!"

Ye Xuan shook his head helplessly. The two 490 dragons were fine, but he was not sure about the fifth-order.

Moreover, the people of the five poisons should use the reason of the visit to visit the Feifei Pavilion, so the Feiyi Pavilion may not know that the five poisons and the Baizhuzong colluded.

Therefore, Ye Xuan thought of a good way.

He looked at the sky, and the three people in the bottom turned back to the Hida Pavilion after a round of wandering.

"I don't know if the Feifei Pavilion is in good communication with the five poisons, or is blinded by the five poisons. However, Feng Yaqing should have been caught..."

Ye Xuan thought in his heart.

Feng Yaqing was arrested, and there are many reasons for the five poisons, such as Feng Yaqing's escape from marriage.

Then, Ye Xuan took out the pen and paper and wrote dozens of letters. The letter said that the five poisons had colluded with the bones, and then tied to dozens of swords.

He just wants to tell the Feilong Pavilion about the matter, let the Feilongge know about the incident, and perhaps save Feng Yaqing.

In doing so, although Feng Yaqing may be in crisis, but in the event that Feng Yaqing was used to threaten Feng Shan, they will definitely be eliminated afterwards.

Therefore, Ye Xuan can only bet once.

He flew over the flying scorpion pavilion. Coincidentally, there was also a group of people coming out of the scorpion pavilion. It was the five poisonous elders who were holding Feng Yaqing and bid farewell to the people in the Feifei Pavilion.

They only caught Feng Yaqing, and the two people who were outside the whistle disappeared, leaving only blood, which inevitably made them alert, so they must leave immediately.

The four elders of the five poisons, Feng Yaqing, left quickly. At the same time, Ye Xuan also started to act.

"call out!"

Dozens of weapons were shot at the building of the Hida Pavilion.

"There is an enemy attack!"

The disciples of Feifeige rushed out of the weapons, but they found that the targets of these hidden weapons were not theirs, and they still had a letter on the weapons.

When these disciples saw the contents of the envelope, their faces changed suddenly, and then they flew to the cabinet.

Not long after, the Feilong Pavilion was a group of people, chasing the past toward the departure of the five poisoned elders.

Their speed is very fast, if Ye Xuan does not use the Beastmaster violent, it can't catch up.

With the advancement of the realm, the corpse of the sacred beast in the space is only enough to use the Beastmaster once, and Ye Xuan can not be wasted.

He is fully behind the team of the Flying Dragon Pavilion, hoping that the Flying Dragon Pavilion will be able to intercept the four elders of the five poisons.

When he saw the team sent by the Feifeige, he immediately understood that the Feifei Pavilion should also be blinded. Otherwise, as long as he sent a runner, he would not need to dispatch a team of masters.

“Hey!” “Hey!” “Hey!”

When Ye Xuan rushed for a while, there was a roar in front of him. It seems that the team of Feifei Pavilion was playing with the people of the five poisons.

There are four poisonous sects, there are two imperial fifth-order, two four hundred and ninety dragons of the fourth-order temperament. And this team of the Flying Dragon Court has only one fifth-grade temperament and four fourth-order temperament.

In terms of the number of people, the Feifei Pavilion has an advantage, but the five poisonous sects have two pentads. If they really fight, it is not necessarily who wins, but the five venoms still need to be separated. Feng Yaqing.

However, when Ye Xuan arrived, he found that the people in the Feifei Pavilion had already died.

Now, it is three to four.

"The Feiyi Pavilion is not a big faction like the Baidumen and the Wudu Zongzong. It has not enough fighting power. If it is to fight again, the Feiyi Pavilion must be destroyed."

Ye Xuan in the sky is already seeing the situation. He also knows that he should shoot.

In the face of the master of the fifth-grade defensive, he is not sure, but if you add the master of the 蝎, it is different.

At the moment, he is the violent violent savage king, the power of three hundred and seventy dragons, and instantly surged to 480 dragons, and then quickly landed.

In order to avoid trouble, he still used the Beastmaster to violently kill it again, lest this flying scorpion pavilion also swear the beastmaster.

The strength of the four hundred and eighty dragons, plus the speed bonus, his speed can reach nearly 580, plus 90% of the silver feather body, is enough to fight against a five-drug sect. The elders.

"Oh!"

A head flew up, and the five poisonous sects finally had casualties, because Ye Xuan's place was behind Feng Yaqing. The dead man was the five poisonous elders who were responsible for guarding Feng Yaqing. force!

"Hey, the host has broken through the power of 375 dragons!"

Ye Xuan instantly swallowed his Qiang Kun ring.

When the two sides found Ye Xuan, his dragon had risen to 488.

"Backward!"

Ye Xuan untied the **** of Feng Yaqing. After drinking a low sentence, he rushed out again. This speed makes the elders of the five poisons of the five hundred and ten dragons all heartfelt.

So fast!

The eyes of the people in the Flying Dragon Pavilion are very bright. Obviously, Ye Xuan is here to help.

The fifth stage of the five poisonous sects, one is five hundred and ten dragons, and the other is five hundred dragons. After Ye Xuan joined the battle, he immediately went to find the elders of the five hundred dragons.

Although in terms of body law, Ye Xuan's silver feather body is much worse than the five poisonous elders, but the Beastmaster's agile advancement makes his speed much faster than the other side.

"It's your kid, kill Yang Ming, give me to die!" The five hundred dragons' elders screamed and pulled out a pack of poison powder to Ye Xuan.

"Carot powder?"

Ye Xuan recognized it, he had eaten this poison powder, so this thing did not work for him.

Rush!

He rushed over the carrion powder directly, and beat the elder to be caught off guard.

"Huang Quan sword method, Huang Quan fun!"

Ye Xuan's mouth tilted slightly, and when a sword fell, there were countless wind knives blowing up, and the body of this elder was cut to the skin and the bones were visible.

This is the realization of Huang Quan's swordsmanship after it has been upgraded to 10% of the fire. It is similar to the eight wild winds, but the eight wild winds can not get the increase of the eight wild swords.

In fact, the eight wild winds are very powerful, but Ye Xuan is always a challenge, so he was almost eliminated.

"Huang Quan swordsmanship, swords fall to Huangquan!"

"Oh!"
