

## Super D. S 4361

Chapter 4361: Giant turtle reproduction

The second universe!

After a whole month, the third conquest army formed by the three major groups of the world and the top forces finally entered the void crack in the Yinmo Star. original

The second cosmic plane, which has always been extremely embarrassing, is particularly quiet. This

Once, all the people of the second universe all dispatched a large number of warships and a large number of star-studded powerhouses. Even some of the long-lived blood ancestors of the various ancestral lands were awakened and quietly joined the conquest army. . can

It is said that the overall strength of the second universe has been extracted at least half, which is absolutely unprecedented. Let the entire second universe plane appear empty, never deserted. Who

What I don't know is that when the entire plane of the second universe was caught in this rare coldness, it was always quiet and invisible, and the tortoise family that entered the state of the feudal family suddenly became active at this time. Get up... this

In the past few years, it has been dead, like the dead star field of the dead star field. In the deepest area, a black turtle with a huge body like a star suddenly appears at the end of the void. This

The head tortoise is the patriarch of the genus of the tortoise that Ye Xuan had seen before. It was only the strength of the genius that was cultivated for the present, and it was truly immortal! With

With the appearance of the terrapin of the tortoise, among the deepest black holes in the turtle's star field, there are a huge number of shadows that are slowly buffered out, and all of them are all dark turtles.

Too many quantities can't be calculated. in

Among them, the most powerful, actually surpassed the emperor's immortality, at least the existence of the universe's sacred level, the huge flesh, even the breath of the atmosphere, revealed a thick sense of decay...

Even the tortoises that reveal this breath in the body are far more than one.

This is evident from the power of the entire Turtle family.

However, even if these few repairs are at least the strength of the universe, and even most likely the master of the universe, the horrible turtle of the universe, now rushing out of this mysterious black hole in the deepest part of the tortoise There are no other moves, but like other ordinary turtles around me, they are quietly suspended in the void.

As if waiting for something.

Turning around, the tortoises in the sky are big and small. They have already covered most of the turtles, but they all converge quietly in the air. If you don't see them, even from the turtles. By the way, I am afraid I will not hear any movements, and I will not capture any energy.

"Hey!"

After a small half day, in this black hole, a very low humming sound suddenly came, which sounded like a void in a black hole, and the whole person trembled.

Then, under the flash of blood, a body shape even surpassed the huge black shadow of this black hole, and it was extremely reluctant to rush out from the black hole. Its body shape was much larger than the most huge stars. Many, the whole body blood lines, seem to give people a very simple feeling.

It was exactly what Ye Xuan had with the headless baby corpse, and the eye behind the furnace, the empty giant tortoise saved from the mysterious void. thing

In fact, even this scale is the result of its deliberate reduction. but

This degree of shrinking is obviously not enough. Therefore, as this giant horrible tortoise is struggling out of the black hole, its body shape will once again shrink to the naked eye. To

Finally, it is almost the same as a regular star.

"Hey!"

Looking down at his body shape, the virtual giant turtle seemed to be quite dissatisfied. He looked up and snorted. Then he suddenly opened his mouth and slammed it..."

call out!"

"Hey..."

The whole body of the tortoise is ringing innumerable sounds of emptying. It was originally waiting quietly in the void, and the numerous tortoises that filled most of the turtles and stars were all turned into tiny ones. Gloomy, swallowed into the belly by a hollow giant tortoise. on

Even the few ancient tortoises suspected of being repaired in the universe, the Lord of the universe, or even the universe, are all the same.

After doing all this, the Void Giant Turtle suddenly slammed his head. As a secluded mans shot, the black hole that had just been squeezed out of his body immediately broke a huge crack from the center, followed by the Void Giant. The turtle was smashed and rushed in directly, and the blink of an eye disappeared.

The crack is incomparably dark, and it is more bleak than the ordinary cosmic black hole. The faint breath in it is actually the Hongmeng domain where Ye Xuan is at the moment. If it is somewhat similar...

...第第

A universe that replaced the cage of the Magic Emperor's Stars!

Calculating the time, it was nearly fifteen years since Ye Xuan sent the Taikoo Porcupine, the Taikoo tortoise, and the whole savage beast army led by these two old guys into the cage. This

For more than a decade, a fierce \*\*\*\* battle has erupted all the time in the entire cage.

The beasts of the cages that originally inhabited the cage of the cage, and the stars of the world, the starry beasts, and the sacred beasts led by the Taikoo Porcupine and the Taikoo tortoise, fight each other, never stop! ten

In the past few years, I have not known how many star-studded powerhouses and scattered star-studded beasts have entered this cage field for the sake of their interests and resources. In fact, the number of beasts in the cages has become fewer and fewer...

All this is like raising a baby, and at the expense of endless life, quickly increases the strength of survivors.

Nowadays, there are very few strong human races in the cages of the cages, and the original cages and beasts are almost extinct. The two largest forces in the entire cage are in the source of evil. The beastly army is the army, and the other side is the union of the beasts and the scattered beasts that later entered here.

Between the two, the final battle is now erupting, and the place of decisive battle is located on a giant broken continent in the center of the cage...

After more than a decade of development, the two old guys, the Taikoo Porcupine and the Taikoo tortoise, have already had the immortal strength of the Emperor, and the rapid increase in blood flow is simply horrifying.

The number of beasts under the command of the two is now more than 50 million.

Among them, Fenghuang actually has more than ten statues, and the king is nearly a hundred. Even the starry nomadic army under Ye Xuan is not an opponent. phase

In contrast, the other side of the battle against the violent beasts of the horrible beasts has two heads, but all of them are in the early days of the emperor, and now it is the mid-term Taikoo Porcupine and Taikoo. The turtle has obvious weakness.

The war was so terrible that it lasted for more than a month. In the end, all the beasts of the enemy were killed, and the flesh and blood were swallowed up, in order to help the strength of the army's strengths...

Chapter 4362: The cage is empty

For a whole month, the war came to an end, and almost all the beasts in the enemy camp were swept away. Today, only the two emperors are still immortal and still making the final dying struggle. but

Obviously, there is no suspense in their final outcome, because the two beasts of the imperial class are all scarred and eventually killed, just a matter of time!

"Roar!"

"Hey..."

"Booming..."

As the desperation grew thicker, the two emperors were immortal as if they had made an appointment, and they screamed with extreme anger and screams. When they saw this scene, the Taikoo Porcupine and the Taikoo tortoise changed their face, and their minds were in a moment of inspiration. Extremely rapid retreat.

After the interest rate, the earth-shattering roar sounded, and under the guise of death, the two emperors who were repaired as horror were immortal, and they directly launched a self-destruction. The entire continent was blown up by half, and the horrible energy was raging in the void. A void crack straddles the position of the two emperor's immortal body... cracked

The darkness in the seams is incomparably, and the breath that is revealed is actually the same as the Hong Kong void where Ye Xuan is at this time... exactly the same! "

Old turtle, I feel a call..."

Looking at the crack in the sky, the Taikoo Porcupine stayed for a few moments, and finally turned to the Taikoo tortoise that fell on his back, and said in a questioning tone: "There are no cages and beasts here. And the invisible light curtain that banned this caged star field was mostly watched by the blue eyes of the wilderness, and it is difficult for us to leave quietly. It is better than..."

"Let's go, there is no value to stay, I have a strong intuition..."

The green turtle nodded and immediately agreed: "If there is no accident, the back of this void crack must have a great surprise waiting for us. You also know that the \*\*\*\* of the Emperor is very keen, and Very few mistakes."

Said that this pig does not seem to be the emperor..."

The Taikoo Porcupine rolled his eyes and muttered in his mouth, and then he raised his hair and said: "Hey..."

As this long gong rang, before the end of the war, and retreated to the distance, the central zone was vacated to the four beasts of the four emperor-level fierce beasts, and there was a sudden surge. very

Fast, a group of nearly 50 million beasts of the beasts was assembled, and immediately under the command of the Taikoo Porcupine and the Taikoo tortoise, they rushed toward the void crack that unexpectedly appeared in front.

After a small half day, the entire army of beasts and beasts was completely gone. This vast and incomparable prisoner's field was in a state of silence, almost completely empty...

...with

It is also the first cosmic plane, but it is not the main plane of the first universe, but an independent void like a black hole connected to it.

Here, it is the secret ancestral home of the first cosmic demonic group. No one knows which small black hole that is the entrance to the ancestral space of this demon, which is located in the first universe. from

After the change of the Devil's Star Field, the magical star field in the entire core area disappeared completely, and after being replaced by the wilderness of the ancient cages, the whole demonic group was brought to the light of the second generation. The family migration has entered this mysterious ancestral land.

Just like the generals, it has never appeared in the outside world since then! This

Everything happened in a dozen years ago, and it's already more than 6,000 days and nights... Ten

In a few years, the second generation of the Devils' ancestors had already broken through the seal, and now it is already a strong king.

At this moment, he stood on a star in the center of this black hole. Around the stars, there were various fortresses and fortresses of various sizes. The three-kilometer captains had few star-rated conventional warships. whole

The army of the warships is over 100 million. In addition to the strong people of the entire demonic group, there are also other ethnic groups with the enchanted demons.

Above the stars, the next generation of the ancestors of the devil, the generation of the emperor Mo Zhentian, as well as the contemporary demon emperor Mo Wentian, as well as the devil and the uncle, are all visible, after more than a decade of retreat The climb of all people's strength is amazing. complete

In fact, the world of the wild and the wild is likely to come to the world at all times. For any star-studded power who wants to live and does not want to fall in the robbery, it will surely upgrade itself as soon as possible before everything else arrives. For strength. and

Today, even the strength of the contemporary demon emperor Mo Wentian has reached the ordinary post-immortal period. As for the devil's uncle and the generation of the emperor Mo Zhentian and others, they have been sealed. in

Among them, I can still see the figure of the demon emperor leading Chanas. This guy has long been won by Wen Xing. He originally wanted to approach Ye Xuan in this way, but he never found an opportunity. Later, he was in the devil. The hustle and bustle of the human race, now, has also been ordinary immortal cultivation. only

Yes, the ordinary immortality displayed on the surface, whether it is his real cultivation, or in order to match the identity of Chanas, is the hidden level of cultivation, no one knows. in

Across the stars, the stars of the top of the group of demons, there is a star in the distance, and there is a star, and it is even bigger. At this moment, all the tops of the devil, including the second generation of the devil, all fall. On top of this bigger star.

The look on each person's face reveals a sense of tension, seemingly waiting for something, with a feeling of embarrassment and suffering....

boom! ""

Rumble..."

Suddenly, an earth-shattering bang came, followed by the constant thunderous voice, and the huge star locked by the high-ranking demons of the demons suddenly swayed violently. Look

In this scene, including the second generation of the ancestors of the devil, all the hearts of the people mentioned the eyes of the blind, subconsciously holding their breath and looking to wear.

Soon, as the swaying of this star became more and more fierce, the whole star suddenly split into two from the middle, and a large number of broken boulders were wrapped up in a whimsical and intangible impact, facing in all directions. Shoot and go...not

When the dusty curtains ended, a figure walked out of the cracked stars, and it came out in the void. This is a middle-aged man, a blood robe, majestic, face-lifting and the second generation of the devil. Quite a bit like, if there is no accident, this person should be a generation of ancestors of the devil's group. and also

It is the direct scorpion of a descendant of the mysterious demon source ancestors, and the same as the deity of the mad mosquito king and the mosquito-killing old ghost.

According to the second generation of the ancestors of the devil, the generation of the ancestors of this demon was retired in the past, and it was already a long-term restoration of the immortal ninth order. Once it was cleared, it would at least break through the immortality of the king. but

Nowadays, such a long period of time has passed, and the demon people have done their best to help the people. At this time, he suddenly went out, and the cultivation of strength is obviously far more than the closure of the king, not even the emperor and the emperor. its

The temperament that is revealed in the body is clearly the universe.

Chapter 4363: Devil

"Welcome to the ancestors to go out!"

To this one-piece blood robe, the majestic middle-aged man walked out from the stars, and the body's scented breath was even more powerful, and the whole body of the demon in the void was all excited. Trembling, with a deep surprise, holding a fist and a single knee is crisp...

Even the top of the devils, including the ancestors of the second generation of the devil, did. Be

The demon emperor of Wenxing's old ghosts led Chanas, and he also squatted on his knees. Just now, when he saw the ancestors of the devil, he felt that the repairs that had been dispersed in his body actually reached. When the universe was in the sacred world, the bottom of the scorpion clearly floated a touch of color, but it flashed away and quickly recovered.

It seems that although I am surprised, I don't feel too shocked...

It is inferred that the real repair of this old guy is probably not too simple! "

Has it been so long? Fortunately, I am not able to break through to the universe! "before

Fang Yuan, the ancestors of the Devils' ancestors were in the void in the distance of a million miles away. They turned around and looked around. They frowned slightly: "So many people are ordinary people... No, the devil seals Has the family been? Is there a huge change that cannot be resisted?"

call out! "

When the voice did not fall, a \*\*\*\* man has already been shot from his eyebrows and landed on a demon person. In an instant, Mo Fengtian's eyes floated a sense of enlightenment, and even more cold flashes: "The vast world of the wild, is actually coming? So... it's time to use the guide jade that the source ancestors left!"

Between the talks, as he turned his hand, a \*\*\*\* jade card that was only half a palm in size appeared in the hands of Mo Fengtian. It was incomprehensible and vaguely exudes a smattering of the ancient Hongmeng law. Look

To this \*\*\*\* jade card, the demon emperor, who had risen up with a group of demons, has once again flashed a fine mans, and even the brows are slightly picking, but they quickly concealed. Obviously, he seems to be quite motivated by this \*\*\*\* jade that reveals the ancient law of Hongmeng..."

Convene all the tribes, bring all the resources, all three days later, the family migration, this ancient ancestral land ... we will not come back! "

Hanging head and playing with the \*\*\*\* jade in his hand, Mo Fengtian's mouth is like a whisper, and the voice of the words is heard. All the devils hear the words, and all of them are shocked. This

The news was so amazing that no one had thought that a generation of ancestors had just broken out. The entire group of demons immediately gave up their ancestral land and went to the unknown.

However, although my heart was shocked, but no one asked anything, the high-ranking demons immediately acted, mobilized all the magical powerhouses in the void of the black hole, cleaned up the materials, and opened up the family for three days. Airy and fully assembled...three

After the day, all the preparations for everything have been completed. The ethnic group that the democrats left behind in this black hole void can be taken away. All the magicians are also on the scale. Within the army of billions of warships, you can sail with just one order! "

Card..."

"call out!"

Without any words, a generation of ancestors, Mo Fengtian, directly crushed the half-palm \*\*\*\* jade in his hand. With the clear and incomprehensible sound, the \*\*\*\* jade became a \*\*\*\* man, with a sharp and unshakeable The sound of the air, shot to the void in the distance ahead! "

Oh..."

A shocking scene appeared. With this \*\*\*\* glare, the dark black hole in front of the darkness was directly torn open with a huge void crack. The rear of the crack clearly showed a strong emptiness. Breath, that is, the innocent dark world where Ye Xuan is at the moment... small

The small blood mans, there is such a terrible power, leaving his existence, I am afraid that at least it must be the level of the master of the universe. Look

In this scene, the Emperor Wei of the Emperor of the Emperor of the Confucius

The void behind the crack is the location of the source of my devil's ethnic group. When the source ancestors left, this blood was left behind, and it was said that when the great world is about to come to the world, it can be crushed. Guide me to wait for the tribe to reunite with him..."

During the speech, Mo Fengtian raised his hand and pointed it forward, and suddenly violently drunk:  
"All the priests are listening, and they are all working hard. I am a demon person, and this is the case...the family is born!"

boom! "

"Booming..."

Under the order of Mo Fengtian, the hundreds of millions of warships that had already been ready to go were all open, and the huge roaring sound continued, all the battleships moved together, all rushing toward the front of the void cracked by the \*\*\*\* jade. go with. short

In a few hours, all the warships entered the crack of the void, and disappeared. This ancient ancestral home of the former devil became an empty nest...

...

Just as the Devil's family abandoned the nest and entered the void of Hongmeng, at the same time, in a mysterious void with a secret passage connecting the first universe, a large-scale battleship of the size of the Devils was not huge. How many times the battleship army, at this moment, is also full of kinetic energy, to a bloody, like a diaphragm-like curtain, to launch a blasting shock!

This battleship army belongs to the Tianji family.

This ectopic surface void, which has a secret passage with the first universe, is the mysterious void that the Tianji family moved in when they moved.

This mysterious void is the same as the core hinterland of the source of evil that Ye Xuan originally discovered. There are a large number of powerful wrecks of the ancient and deadly creatures in the void, including even the quasi-wild power and the real ancient power level.

The reason why the patriarch of the Tianzu nationality decided to take advantage of the change of the Tianji City at that time, moved the entire huge plane city and the entire Tianji family to this mysterious

void. The purpose is to use this imaginary sky everywhere. The wreckage of the powerful and ridiculous creatures, let the entire celestial family, in a short time, complete a literary evolution!

Today, it has been around for almost two decades.

In the past 20 years, a lot of things can happen. The Tianji nationality has the power of the entire ethnic group. There are countless intelligent robots as the restless labor force. The overall transformation and evolution of today's ethnic groups has already achieved astounding results. when

At the beginning of the Tianji City, its volume is just like a small star. But now, after 20 years of overall and comprehensive upgrade, the size of the Tianji City has even surpassed some extremely rare giant stars. It became a veritable starry sky.

In fact, the change in volume is actually only one aspect of the evolution of Tianji City, and it is not even the most important change.

The original Tianji City was built by the hardest new cosmic alloy inside and outside, with a conventional continental form and a wartime fortress form. Now, all of this has been fully consolidated and upgraded...

Chapter 4364: Mechanical beast

At the beginning, Tianji City, which was built by the hardest new cosmic alloy inside and outside, has two forms, namely the conventional continental form and the wartime fortress form.

Now, all this has been fully consolidated and upgraded. Today, the Tianji City has been completely different from the original... Now

In the Tianji City, it is no longer just made of pure and up-to-date cosmic alloys. In the past 20 years, Emperor Yi has exhausted the power of the entire Tianzu, in this void with numerous wrecks of powerful and ancient treasures. Collect all kinds of top flesh and blood materials everywhere.

For example, the dragon's dragon, the phoenix's phoenix, and the black dragon's keel spine, etc., and so on, and so on. This

These wild animals are extremely powerful during their lifetime. Even if they have fallen into endless years, their treasures are still very strong. However, the Tianji people have a way to divide them and use all kinds of suitable materials to make them cold and pure. The Tianji City, transformed step by step, turned into a biochemical giant plug that combines the cosmic alloy and the ancient creatures and flesh and blood materials! Do not

that's it. on

Even its original form is only two, but it has doubled to four. except

The original conventional continental form, as well as the shape of the wartime ball fortress, the current Tianji City, there are two other forms of birth. only

Under the command of the emperor, the entire Tianmao City, which is huge and incomparably full of terrorist power, can be changed into a huge dragon with a huge size in a short period of time, or a black phoenix with a wingspan! except

Tianji City, including the official tribes of all the celestial beings, including the patriarch, has been changing and advancing at an ever-changing speed within these two decades. he

Not only do we use this treasured and powerful ancient wild spirits to enhance the cultivation of the blood, but also like the transformation of the heavenly city, collecting the top materials such as the dragon ribs and thorns, and transforming the mechanical body step by step. certain

Some powerful celestial people, even giving up the human form of the body, directly based on the bones or treasures of a huge wild creature, from the inside to the end, step by step carefully carved, and finally, the electronic consciousness into the Lord The combination of treasure wreckage and modern scientific and technological power creates a new and huge body.

In this way, it is like a feather, completely reborn, and transformed into a powerful wilderness with the elements of scientific and technological strength... This

Like the body built by the powerful and ancient creatures, there are several patriarchs, one of them, the body that has been dispersed in the body, and even the ancient power of the quasi-desolate... Not an opponent! to

Where is the deity of Emperor Yi, what form is it, and what position has it reached for strength? This point, even within the Tianji family, no one knows. and

In addition to the transformation and evolution of all the official ethnic groups in the ethnic group, the Tianji nationality has used this treasure of the powerful and desolate creatures in the virtual sky for nearly two decades to create a large number of intelligent robots that are not human forms. base

All of this is based on the original appearance of these ruins of the ancient treasures, and processed by various means, and finally created.

This kind of existence, the number is more and more, the combat power is also extremely amazing. Unlike the traditional humanoid intelligent robots in the past, these guys have not born their own electronic consciousness, but they are actually intelligent robots, but they are The official people of the Tianzu nationality, called ... mechanical beasts!

Nowadays, the number of mechanical beasts that have been transformed by the Tianji nationality has reached a million heads, although they are actually built on the basis of various ruins of ancient and precious creatures, adding technological elements, such as body surface. Scales and cortex are the latest biochemical products. but

It must be said that in terms of mimicry materials and manufacturing, the Tianji people do have unparalleled talent and advantages.

This number has reached a million-strong mechanical beast army. Looking at it at a glance, it is impossible to see that it is a product of machinery and flesh and blood. It is like a real army of ancient wilderness...

In addition to all of the above, in recent years, there is still a major event in the Tianji nationality that is constantly being followed up. That is the scene that happened in front of us. A large army of warships with at least hundreds of billions of dollars is going on. All the gunshots of the naval guns point to the

end of this mysterious void. After a long time, under the command of a high-level, the trillions of guns roared and volleyed. and

The bombardment of all the guns of this 100 billion-scale warship army is only a glimpse of the end of this mysterious void, like a layer of blood-colored diaphragm in the sky.

This layer of blood-colored diaphragm seems to be inconspicuous, but the tens of billions of warships of the Tianji nationality have been continually blasting for more than two years, but they have not completely blasted. Two

Before the year, at the beginning of this layer of blood-colored diaphragm, the patriarch of the Tianzu nationality had even visited this place, with several newly-reformed ruins of the ancient and ancient forms of life, and at the same time they joined forces, but there was no result... ...No

Some people know what is on the other side of the blood-colored diaphragm, but one thing is certain, that is, a layer of blood-colored diaphragm on the edge of the zone can have such horrible defensive performance, so if it is blasted, enter The world on the other side of the diaphragm, with its rich resources, will surely surpass this mysterious void! for

With this goal in mind, the patriarch of the empire has reached the order of death. In any case, no matter how much it costs, how long it takes, this layer of \*\*\*\* diaphragm... must be blasted!

"Hey..."

"boom!"

Rumble..."

... with

Another order was issued, and the entire vast expanse of the void, the sound of a sizzling sound like a tidal wave, this is the movement brought by the guns of the 100 billion warships. tight

Then, a huge roar sounded, hundreds of billion warships, countless guns, and volley.

Numerous energy beams of different diameters lasing at different angles, and finally converge together to form a column of horror energy with a wide diameter to the horrible energy. The blink of an eye falls to the front and the sky is like a sky. The general blood color diaphragm. This

Once, the \*\*\*\* diaphragm that had never been smashed and torn, the amplitude and frequency of the swaying of the giant naval gun energy beam was obviously stronger than the previous one. although

However, the degree of improvement is not very large, but this situation at least shows that with the bombardment of each cannon, the horror defense power of this blood-colored diaphragm is slowly but continuously decreasing and weakening... Such as

Therefore, as long as this does not stop, continue to unfold, one day, the \*\*\*\* diaphragm ... will be completely torn. and

At that time, it will obviously be the time for the whole celestial family to move forward again, leaving this mysterious void that has been stranded for nearly two decades...

Chapter 4365: Feng Diwei

Hong Meng's void, Ye Xuan took a group of stars that belonged to Nestle, and the top of the dragon's life inside the star's core...

At this moment, Ye Xuan is sitting cross-legged, the entire top floor, only he is alone, and set a heavy ban. This

An accidental discovery of the Milky Way star field and the numerous foreclosures around the Milky Way star field gave Ye Xuan a strong sense of urgency.

Nowadays, he took a group of scorpions to camp in this source nest star, and then crouched down, and issued a command to let all the genus genus, and all efforts to improve. but

All this is still not enough. which is

Now he is already the emperor, but in the face of so many forcible forbidden places, his cultivation of the emperor's realm is still nothing.

The problem before him is still the improvement of strength, the breakthrough, and the breakthrough...

"call out!"

"咻咻咻..."

With this thought, Ye Xuan's mid-cold flashes, a wave of faint sounds of breaking through the air, all kinds of top-level cultivation resources were taken out from the immortal world, including purple gold top flesh and blood medicine, evil Source liquid, and other rare treasures of rare treasures. with

In this way, the breakthrough resources prepared by this time are also indispensable to a large piece of Baoxuebao meat that has been flooded with ancient and powerful energy. It has been roasted into a golden color by the Shennong seven-color flame, cooked with oil and fragrant... ..tight

Then, in the body of Shennong Ding's domain field power can be fully urged by him, all the cultivation resources hanging in front of the body under the pressure of Baoding domain field power, blinking into a small ball, open mouth When swallowed into the abdomen, it instantly turns into a turbulent flow that runs down the throat and enters the abdomen, rushing to the limbs of his body...."

Oh la la..."

"boom!"

Almost in the next moment, a chain of shackles appeared invisibly. From this moment on, Ye Xuan's body was turned upside down. The sound of the huge chain of chains had never stopped. The pulse turns, constantly swaying the new chain of this shackle.

This time the breakthrough, this is the beginning...

I don't know how long it took. Finally, an earth-shattering chain rang out, and then there was a crisp sound of gold and iron symphony. The chain of shackles that appeared this time was finally completely broken! under

For a moment, the familiar system prompt sounded in his mind...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the emperor is immortal second order!"

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: Fenghuang immortal second order!"

Prior to this, the cultivation of Ye Xuan's deity has reached the immortal level of the imperial concubine. Once the three-headed and six-armed Taikoo konjac blood is activated, the strength is once again soaring and directly climbs to the second stage of the imperial emperor. If

It is to display the konjac and change the magical powers, and reach the sixth change, and it will be able to reach the horrible strength of the immortal eighth order.

But now, with his cultivation as the strength to break through again, once the body's blood of the konjac is activated, and the sixth change of the konjac is changed, its peak strength will instantly reach the unprecedented perfection of the ninth order of the emperor. It's a half-step, and the overall level of combat power is so horrible! "

Is the Fenghuang Jiujie great consummation? Although it is a lot stronger, but... after all, it's just half a step! "With

With a breakthrough, Ye Xuan, who was on the top of the Dragon's Life Giants, opened his eyes. Under the cold, there was a murmur in his mouth: "The next step is to prepare for the refining of the 24th. The treasure of the class Baodan is fine..."

"But in this vain air, although there are many strong emperors, the prey is not a problem, but the number of the emperors is strong, and even the number of cosmic sages is quite large. The cosmic sages

are not too easy to appear. However, the degree of active knowledge of the strong emperors is extremely frequent..."

If you start hunting, it is very likely to be discovered by a certain god-deserved god. So, at least you need to have the power of the Imperial level to ensure safe escape..."

Having said that, Ye Xuan immediately made a decision and subconsciously clenched his fists: "Now, in the state of the sixth change of the konjac, they have already possessed the great power of the ninth order of the emperor. Only a small step breakthrough..."

"So, even if you just completed a breakthrough, it will start again soon, it seems a bit hasty, but the situation is special, and you can't take care of it!"

Having said that, he did not hesitate, and immediately took out a top-level cultivation resource, which was huge, even surpassing the breakthrough. very

Fast, these cultivation resources are all compressed by Ye Xuan's domain power in the body of Shennong Ding, turned into a small ball, and then a mouth will swallow the belly, turned into a majestic energy river, and rushed to open... ..

Soon, the squeaky noise of the chain of shackles continued to be heard in Ye Xuan's body. or

Xu is because of the breakthrough that has just been completed. This time, when Ye Xuan's energy is transformed from the massive resources of the top cultivation resources, it is particularly difficult to attack this newly emerging chain. and

Moreover, every time the impact occurs, the painful feeling in the body is also more intense. This

Obviously it was caused by a forcible breakthrough. He had already prepared himself and did not give up.

After a little bit of impetuosity gradually settled down, Ye Xuan followed the path of the imaginary and ancient shackles of the cave, and the gods took the energy of the swells in the body, and revolved

around the meridians. At the same time as the operation of Zhou Tian, refining and smelting the energy of the river, it is also accumulating as much as possible the power to hit the chain again...

Time does not know how long it has passed. Unconsciously, this hanging energy river was thoroughly refining, and it disappeared into Ye Xuan's hundred meridians, and the power of the real yuan in his body was also significantly higher than before. More powerful.

Without any hesitation, and blessing under the soul, Ye Xuan pushed the gods to the extreme and immediately launched a new round of impact.

"Hey!"

With the sound of a huge gold and iron cross, the chain of chains that appeared in the body broke off! a few

At the next moment, the familiar system prompts once again sounded in his mind...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the emperor is immortal third order!"

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: Fenghuang immortal third order!"

After the previous breakthrough, if he spreads the blood of the konjac to the sixth change, he will be able to reach the peak force in an instant, and complete the ninth order of the emperor. ]

At the moment, with another breakthrough in a short period of time, now Ye Xuan, in the state of entering the sixth change of the konjac, the peak force will directly cross the barrier of the big realm, reaching the immortal Order, and finally have the terrorist power of the Emperor-level powerhouse in advance...

Chapter 4366: The seventh change of konjac

"The power of the emperor..."

Opening his eyes, Ye Xuan's bottom flashed a touch of excitement and whisper, whispering: "The immortality of the emperor is so horrible, and the power of the emperor is so powerful... I can imagine it!"

The Danfang of the twenty-fourth level Dan has already been completed, but the perfect Danfang of the twenty-five-level Dan needs a longer time, and the seventh change of the konjac is changed to the devouring system. For a long time, I am sure it is nearing the end! "

Having said that, Ye Xuanchen's fine man flashed: "Looking at the present, first of all, the essence of the seventh change of the konjac will be completed, and then the part of the perfection of the twenty-five-level Dan's perfect Dan Fang will be launched. I can stabilize my mind and then start the next step..."

After the decision, Ye Xuan did not hesitate, even when he got up, the voice of the mouth screamed: "The konjac changed... the sixth change!"

The roar of the road came out, and the power in Ye Xuan's body suddenly began to swell, just like a roaring river in the roaring river, and the body's limbs stirred up inexhaustible fierceness, and there was a horrible horrible blood. The force emerged from his body, and his body shape, which was only ten feet high, was swollen like a balloon that was inflated rapidly.

Less than three interest rates, it has reached the giant of thousands of feet, like a human star, but this is not all! because

In order to ascend with the violent body of the starry sky, and the temperament that has been diffused in the body, the body of the konjac that was previously in the shape of a scorpion is the body of the sacred body. Fourth order.

At the moment, when the sixth large body of the tens of millions of giants appeared, the self-cultivation exudes from the violent body, and it has reached the first stage of the horror. This

It is not the general order of the emperor, the starry sky is full of temperament, and the strength of the blood is soaring, I am afraid that the general presence of the emperor is far from the opponent, its true The combat power is already comparable to the general second-order emperor!

"Hey!"

The sixth change of the konjac was completed, and the huge starry sky of the tens of thousands of violent heads screamed again and again, and the whole piece of folding space on the top of the dragon's life giant plug seemed to be in this horrible roar... Glittering! This

That is to say, the size of the current Longye has soared, and the vastness of the internal folding space has long been far from the past. Otherwise, the huge shape of the giants under the sixth change of Ye Xuan's konjac, the Longye The top cabin, if it is true, may not be able to put him down. when

After the completion of the sixth change, the starry sky violently rushed out of an unprecedented majestic power, and even Ye Xuan's knowledge was sharply higher than before.

He did not hesitate, even if he converged his mind, and at the same time adjusted the calculation ability of the body's engulfing system to the limit value, and cooperated with the powerful gods of his own emperor, he immediately launched the deduction...

Time passed slowly, unconsciously, and three days passed. magic

猿The seventh change Ye Xuan had already been handed over to the body's phagocytic system for a long time, and it has already completed more than 95%. At this moment, he added the horror of the Emperor's level, and finally failed to complete. The calculations are finally complete. First

Just three days later, Ye Xuan's mind came with a familiar system prompt: "Hey, congratulations to the host, the konjac nine change, the seventh change is completed, is it activated immediately?"

Activate now! "No

Any hesitation, Ye Xuan even opened his eyes and issued an activation command to the system. under

For a moment, the shackles and information of a complex to the extreme poured into his mind. The amount was huge and horrible. Even if Ye Xuan was now the first-class repairing power of the emperor, he was strong and fascinated. The rushing head is dizzy. This

Some of them are a huge number of Obviously, Ye Xuan also needs to understand himself. it is good

It's not difficult to do all of this. Ye Xuan has the understanding basis of the previous six changes. Together with the esoteric derivation of this seventh change, he originally participated, so it's only a small half-day time, pouring into my mind. This canopy is called the seventh most profound information of the righteousness, and it has been thoroughly understood by him. Do not

However, he did not directly play in the top cabin of the Longye Life Giant Plug, because once he entered the seventh change of the Konjac, his huge size of the giants will once again skyrocket ten times and become a strength. It will once again climb the first step because of the arrogance of the horror of the increase. thousand

It is 30 million meters, that is, six thousand miles. This is just the diameter of a small meteor. The folding space of the top cabin of the Longye Life Giant Plug can also be installed.

But if it rises ten times to reach 100 million feet, that is, 60,000 miles, it is definitely the size of an ordinary star. The one-story cabin of the Longye Life Giant Plug is still not installed at all. Read

Under the movement, Ye Xuan will release the state of the sixth change of the konjac in the first time, and return to the violent body of the starry sky above ten feet. Then, the figure will be swept away, and the top case of the dragon squad will be facilitated. disappear.

"call out!"

The faint sound of breaking the air rang, when Ye Xuan's figure appeared again, he had already reached the universe in the void outside the source of the nest, and turned his head to look around, while the gods extended and opened, and determined within a billion miles. There is no abnormality, and after any vicious beast has passed, Ye Xuan will not hesitate any more, even if he looks up and screams: "The konjac changes... the seventh change!"

boom! "huge

The big blast came, this time, his body's skyrocketing speed is faster than before, the body's power is rolling like the big river is roaring, the limbs are screaming in endless fierceness, and there is a majestic To the horrible horror of the horror, the body shape that was originally only ten feet high, swelled in a horrible speed!

Less than three interest rates, it has reached a hundred million feet, which is not the size of a small meteor, but a true ordinary star. and

Moreover, in the body type at the same time skyrocketing, the cultivation of the air from the body of Ye Xuan, also rises again at this moment, the blink of an eye has reached the second order of the emperor!

"Immediately turn on the calculus ability, push the whole force...the eighth change of the konjac!"

Affected by the body's majestic and arrogant power, Ye Xuan was in a state of turmoil. Without hesitation, he immediately gave instructions to the body's engulfment system to continue to push.

"call out!"

In the next moment, Ye Xuan's thoughts removed the state of the seventh change of the konjac. The weak sound of the air broke out. When the figure was shaken, it returned from the darkness of the distant sky and rushed into the source nest. The star nucleus, and immediately entered the top cabin of the Longye Life Giant Plug. Connect

Down, he will continue to push forward, but this time it is not the magical scorpion, but the perfect Dan of the twenty-five dan...

Chapter 4367: In order to seal the blood

Twenty-five Dan and Twenty-four Dan, although seemingly only a big difference in appearance, is actually far from being so simple. two

The fourteenth grade Dan is the strongest who made the Fenghuang Jiujie great consummation, and successfully broke through to the emperor's immortal.

However, the twenty-five-level Dan was the first perfection of the ninth order of the Emperor, and successfully broke through to the universe.

Ordinary immortality, immortality, immortality, imperialism, immortality... These five realms are called immortal five realms.

The cosmic sages after the emperor's immortality are no longer within the immortal five realms. two

The fourteenth grade Dan is the last level of the immortal five, but the twenty-five level Dan has surpassed the scope of the immortal five realms. Such as

This one can clearly and unambiguously determine the difference in the meaning of these two levels of Baodan.

Therefore, compared with the perfect Dan Fang of the 24th grade Dan, the perfect Dan Fang of the 25th grade Dan, if it wants to be smoothly derived, the difficulty is at least several times. It

The former twenty-fourth grade Dan, Ye Xuan pushed for nearly a year, of course, at that time, he did not have the horror of the emperor level, and the efficiency of the promotion was far less than the present.

Even so, with the horror of the world where he is now enshrined, it takes at least a year to successfully extend the perfect Danfang of the 25th-level Dan... and still sleepless, leaving all the other Disregarding things, the whole body is in a state of derivation! Now

In Ye Xuan, it is impossible to have a year to concentrate on the twenty-five-level Dan, because the perfect Danfang of the 24th-level Dan has been deduced, but the raw materials for refining Baodan have not yet Landing.

He can only separate the derivation time of this year and complete it several times.

At the moment, as he returns to the life of the Dragon Field, Ye Xuan once again activates the \*\*\*\* magical power of the konjac, and directly enters the sixth change. At the same time, his body is soaring and strength is also short. Within the short three interest rate, it climbed to the first stage of the emperor's immortality.

With the immediate development, Ye Xuan's mind quickly entered the level of the two things that I forgot, and concentrated all the minds, urging the horror of the Emperor of the Emperor, on the basis of the twenty-four-level Baofan's perfect Dan Fang. When the speed calculation is started...

The time passed slowly, unconsciously, and the time of one month passed. most

Just after the end of the day, Ye Xuan opened his eyes, the depths of the bottom of the bottom, a touch of secluded quietly flashed through, revealing a deep sense of exhaustion.

This kind of abandoning everything else, whole body calculus and deduction, the most is the fatigue, let him burn out.

However, the whole month of full-scale derivation, the harvest is not small, the perfect Danfang of the twenty-fifth-level Baodan, finally had a little eyebrows, according to Ye Xuan's estimation, the entire Danfang's derivation process should be close About 7 percent.

That is to say, the fact that he is now immortal to the immortal level is prevailing. If the perfect Danfang of the twenty-fifth-level Baodan is to be completely deduced, it will take at least 13 months or so!

"It's just a twenty-five-level Dan. It takes more than a year to carry out the full-scale deception of the Emperor's horror. It's so hard, there are twenty-six, twenty-seven, twenty-eight and two behind. The perfect Dan Fang of the 19th-level Baodan, once it is launched, obviously progress will be slower..."

From the state of the sixth change of the konjac, Ye Xuan sighed and whispered, his face could not help but reveal a deep helpless color.

Shaking his head and smiling: "And this is just a deduction of Danfang. After the perfect Dan Fang has been deduced, it is necessary to collect materials to refine Baodan."

This point was not a problem at all, but as the level of Baodan became higher and higher, the level of blood of the beast that was needed increased...."

"For example, if you refine the twenty-five-level Dan in the future, you will need at least five blood-stained emperors. This is the existence of five emperors..."

Twenty-sixth grade Dan is even more horrible. If you want to open a refining system, you must at least kill the five cosmic sages... This is simply speechless. "Say

Here, I think of the problems I face in the future. At this moment, Ye Xuan's face is not green. I can only shake my head again and sigh it for the time being. I will leave it to the future: "Everything will be said in the future. The most pressing problem is to try to find the best way to upgrade the strength to the universe."

"The dozen or so strong forbidden places and the strongest star fields that are surrounded by the imaginary sky around the Milky Way are even the weakest primary and strong forbidden places. The cosmic sages are in the middle of it, so you can rest assured. Walking around the Milky Way star field, and deploying it, at least it needs to have the power of the universe."

The konjac has changed to the seventh change. Once it is displayed, it will nearly increase the combat power of a whole world. That is to say, it is necessary to have the strength of the universe as soon as possible, under my own normal state. The realm, at least to reach the second order of the emperor! ""

In this way, the twenty-fourth-level Dan is imminent, and the five royal bloodsmen needed to refine this Dan must be handed out as soon as possible, and must not be dragged down for a long time..."

Having said that, Ye Xuan no longer speaks, and his body shape is swept away from the top cabin of the Longye Life Giant Plug. His body appears in the source nest star nucleus outside the giant plug...

The King Kong, the Flying Scorpio and the Silver Jubilee, as well as the ten of the beastly army, were immortal, and they were summoned by the voice of God in the first time. "

The star is mainly going out for a lap. Before I return, no one can leave the source nest of 100 million miles, so as not to be caught by the powerful beasts that pass through, and to blame for the base camp..."

Looking around the crowd, Ye Xuan ordered a few words, and then he swayed from the star of the source nest star, rushing toward the darkness of the darkness of Hongmeng. Do not

A long time later, Ye Xuan came to a remote and empty space just about 100 million miles away from the base camp. Without any hesitation, he directly branded an interplanetary coordinate jump point here.

Now, the system title is already the sixth-level interstellar controller. In the same cosmic plane, a total of three interstellar jumping coordinate points can be branded.

Here, the first interstellar coordinate point Ye Xuan is branded in the Sangzhi star field.

The second is branded near the source nest star that gave birth to his strength.

The third interplanetary coordinate jump point is now branded around the source of this big nest, which is obviously the most suitable. although

However, after the interstellar coordinates jumped, the three indicators in Ye Xuan's hands were completely exhausted, but that's okay, the galactic star field where the ancestral star is located has been found, and most of it will become the endless years after the end of the flood era. At the core of the final battle, Ye Xuan branded a star coordinate point on his edge, and he could return at any time no matter where he went. only

This is enough.

This time, he chose to mark the index of the last star coordinate jump point in the void near the base camp because Ye Xuan decided to temporarily leave the Hong Kong void and return to the Xusheng forbidden area. !

Chapter 4368: Return to Xusheng

Although this piece of Hongmeng is extremely dangerous, Ye Xuan will leave the Eight King Kong and Flying Scorpio, the silver scorpion, and the tens of millions of beasts and the Longye Life Giants. but

The source nest star is indeed the most suitable place for the future base camp, Ye Xuan is reluctant to give up, not to mention, this piece of void is so vast, and the base camp star is far from the front of the Galaxy star field, a dozen forcibly forbidden and The strong star field is so far away. more

The key point is that the fierce beasts and starbursts in the dozens of Xingqiang forbidden places will not run to the rear. Their attention is all focused on the front of the Milky Way, which can be described as a slap in the face. Place

Therefore, as long as the batch of squats are not around, it should not be a problem.

What's more, after the third interstellar coordinate jump point is branded, Ye Xuan can jump back at any time...

This is nothing to worry about. to

There are two ways to return to the Xusheng forbidden land. One is to directly activate the interstellar coordinate jumping ability, and to lock the target point of the jump in the Sangzhixing domain, and then rush from the other side to the Xusheng forbidden land. Such as

This time, you can also go back to the banned blood in the middle of the sky.

However, after some sinking, Ye Xuan chose the second option, which is to start the interstellar coordinate jumping ability, but the locked jumping point is the place where the power of the base camp star and the Hongmeng void exit star vortex is bred. Then from there, rush to the exit star whirl at full speed. with

Compared with the previous plan, this can be faster, and compared with the banned blood that should not be too much crisis, Ye Xuan is obviously more concerned about the source nest star that breeds his strongest power. This time, I returned to Xusheng and banned the land. I didn't take a look before I left, and I was not at ease...

After the decision, Ye Xuan quickly branded the third interplanetary coordinate jump point, and then there was no hesitation. When the coordinate jump point of the void around the nurturing area was locked, the command was directly issued to the system and activated immediately. Interstellar coordinate jumping ability!

"call out!"

The faint sound of breaking the air, Ye Xuan's starry sky and the violent body disappeared instantly...when

When his figure reappeared, the surroundings were still incomparably dark, empty and empty, but the breath was obviously different from the area where the former base camp was located, giving a more quiet feeling, as if the endless years were never There is life going through the general from here. turn

First recognized the direction, Ye Xuan shoulders spurt away, and soon saw the source nest star that is gestating his strongest power. complete

The time to leave is not too long. Everything is as old as it is. Ye Xuan sighs and whirls around this huge source nest star. This changes direction and directly transforms the blood of the konjac. By the sixth change, while the figure was skyrocketing, the cultivation also climbed to the realm of Feng Di. Finish

In all this, his figure is like a lightning bolt, with a horrible speed of horror, rushing to the star-shaped zone that entered the Hong Kong void...

According to his estimation, with the repair of his current emperor's realm, full speed and time-shifting, it takes only about two months to get to the star-shaped area that leads to the Xusheng forbidden land. but

During this time, Ye Xuan did not waste too much. He was thinking about how to start hunting after returning to Xu Xing.

The entire Xusheng forbidden land is composed of four vast stars! This

In the four stars, any place is even wider than the Forbidden City. Each star has thousands of life stars, more than ten beasts, and countless forbidden beasts. Together, the whole Asahi The number of the beastmasters who rose to the forbidden land reached more than 50, and the seal was immortalized, with five or six hundred. in

The junction of the four star regions in the southeast and northwest, and a smaller central star field, of which the central star field is smaller, but it is the core of the entire Xusheng forbidden land, surrounded by four stars in the southeast and northwest. The field surrounds the arch. and

Moreover, in the central star field, there are also about ten beasts of the beastmasters. In addition, the beastly king of Xusheng's forbidden land is also here. very

Obviously, those who are qualified to inhabit the Xu Xing forbidden land in the central star field, are the elite of the king! he

Our cultivation is the strength of the king's immortal ninth order!

That is to say, in the central star domain, there are more than ten statues in only half a step, and the real beastly queen has eight, two in the beginning, the middle and the end. In addition, there are two seals. The Emperor Jiujie is a great consummation, that is... a half step! in

Before entering this piece of Hongmeng, for the two half-steps, Ye Xuan could not solve it at all. Even if the Zixia fairy is still asleep in the midst of sleep, the repair of the half-step emperor can only be Fight against the next one.

As for the other one, Ye Xuan even casts the \*\*\*\* magical power of the konjac to the sixth change. Because the strength can only reach the peak of the middle of the emperor, it cannot be solved! but

Now, this is not a problem.

For today's Ye Xuan, to solve the Xusheng ban, there is no need to wait for the Zixia Fairy to wake up. He can do it alone.

At present, the konjac has changed his blood and supernatural powers. He has been able to display the seventh change. In the state of the seventh change, Ye Xuan's cultivation will be soaring to the second stage of the Emperor. but

It is absolutely unnecessary, just two half-steps to seal the emperor, and in the sixth state of his current state of the emperor's first-order cultivation as a strength, it can be easily solved.

However, the entire Xusheng ban is too vast, and the banned beasts can be described as countless. Even with Ye Xuan's current cultivation as a strength, alone, there is no guarantee that all the beasts in the Xusheng ban will be killed. Correct

In his current level of cultivation, there is absolutely no need for it. Even the ordinary immortal flesh and blood treasures are of little significance.

Within the entire Xusheng forbidden land, the eight beasts of the beasts, this is the main goal of Ye Xuan. The fierce beast king is more than 50, which is a secondary goal. As for the seal, there are five or six hundred. He decided to After the eight emperors and more than fifteen sects of the king, they can hunt and kill how many seals to kill. If they are indifferent, they will escape if they escape...

In his view, the eight beasts who are the main target of hunting, in any case, must not escape one, although the complete hunting only allows him to get eight Fenghuang blood, but Among them, after all, there are two great emperors of the ninth order of the emperor, that is, half-step emperor, the blood of the emperor condensed with his flesh and blood, can be described as the best quality. press

According to Ye Xuan's estimation, these eight Fenghuang blood essences should be able to produce three twenty-four treasures. If one is missing, it will be difficult to ensure. two

The 14th-level Baodan is not the same as Xiaoke, and it can be more than one. For Ye Xuan, it is of great significance, so there is absolutely no loss...

Chapter 4369: The emperor

Xusheng is forbidden, and it is surrounded by the four star-shaped stars in the southeast and northwest.

"call out!"

The faint sound of breaking the air, a figure of ten feet high, like a beautiful figure, rushed out from this inconspicuous star swirl in this remote corner. This

It's a starry sky, it's the Ye Xuan returning from Hong Kong's void! this

Inscribed in the state of the sky, the temperament of the sky is only three times, but even so, his body shape rushes out of the star whirlpool, followed by the void Grabbing, just after ten interest rates, Ye Xuan, still found in the first time!

This is normal. On the one hand, he does not hide his breath. On the other hand, the entire imperial powerhouse in the Xusheng ban is only eight, and suddenly there is a strong atmosphere of the imperial level. Fireflies in the night sky will attract countless attention in an instant...

In the distance around the void, there is an extremely powerful sense of God sweeping over, all of which are Fenghuang, a total of eight.

And, there are still a few emperors immortal, issued roar and roar, poor language, very rude.

"Ill, you have crossed the border..."

Here is the Xusheng ban, not anyone who wants to come and enter. ""

The third step of the small seal, I don't know how to live and die. "

"Read your first offense, don't investigate, and then have another time, stand up and get innocent... get out!"

Roar....."

The evictions, the angry and roaring of these emperors are immortal, all in the beginning and the middle of the imperial court, even the two emperors in the late period of the emperor did not say anything.

As for the most powerful two-headed imperial ninth-order grand perfection, it is still silent. It seems that it is not worthy of the fact that Ye Xuan is only the third-order revision of the imperial power. Do not

However, although there was no sound, but the gods swept over, by this, Ye Xuan almost immediately locked the position of these two half-steps, including the position of the other six imperial emperors, as well as the insight. . its

In the middle, two half-steps of the emperor, one on the left, one on the front, the left on the left, looks a little closer... with

These thoughts flashed in my mind, and Ye Xuan quickly drafted a hunting plan. Under the flash of the mans, he did not hesitate, he screamed and swayed his shoulders, and the first time turned to the left. Void... rushing away! This

It is clear that it is not the rhythm of Xu Xing's forbidden land. Instead, it is directed at the deep hinterland of the central star field. suitable

The few emperors who had only made a sound were immortal. After a slight glimpse, they immediately became angry and screamed and roared..."

I am violent, are you looking for the rhythm of death? ""

This guy must be crazy, only to repair the third-level repair of the strength of the emperor, dare to run to my Xusheng forbidden to the wild, simply too long! "

"You don't have to talk to him, you just kneel down, and you have to interrogate it. If you are crazy, there is no other jealousy, you will kill it immediately!"

Roar! ""

Oh..." with

With this roar exclaiming and roaring, the six huge stars in the central star field immediately spurred six figures, all rushing toward Ye Xuan. This

Once, even the two late emperors who had never spoken before have been dispatched. Only in this place, Xu Xun's two supremely sacred emperors are still crouching, never rushing out of the nest stars, nor screaming. roar. This

It is clear that it is just a starry temperament of the third-order emperor. It is not enough to alarm them. It is not in the eyes. Perhaps it is interesting to see this scene. It is not known as a good show. "

Roar! ""

The konjac changed nine times... the sixth change! "

At this moment, Ye Xuan looked up and roared.

Just in the moment when the roaring sound came out, the power in his body quickly rolled up, just like a snarling of the Nujiang River, and the inexhaustible fierceness in the limbs.

There is also a horrible force of horror and horror from him. The starry sky is only a body that is only ten feet high. It is like a balloon that is inflated rapidly. It expands rapidly and is short. Short three interest rates, it has reached the giant of thousands of feet, like a human star! versus

The body type has skyrocketed together, and the body has been cultivated as a breath. In the blink of an eye, when the sixth large body of the tens of thousands of giants appears, the self-cultivation exuded from the violent body has reached horror. The first stage of the Emperor.

And it is far from being a general first-order emperor. Because of its majestic power in the huge body of the tens of thousands of people, it has reached a point where it is horrible. At this time, Ye Yaxuan, the ordinary first entry into the world The existence of the Emperor's level is definitely far from the

opponent. His real combat power has already been forced to the second level of the general Emperor! blink

In the eyes, a huge starry sky is full of emptiness! This

A moment... the emperor is coming! "

Roar! "

At this moment, after entering the sixth change of the konjac nine changes, the huge temperament of the huge size of the body, once again screamed out of the hair!

"boom!"

"Hey..."

"Booming..." only

It's just a roar. With the horror of the starry sky, the horror of the imperial concubine is like a raging river. It's a sudden sigh of relief. With its body shape as its center, all the stars in the universe's void are thousands of miles away. They all blew up without any suspense.

Even the void is like a lake that has been wrinkled by the hurricane. It has a layer of ripples, as if it will collapse completely in the next instant, turning into nothingness...

The scene is too amazing, just like the end of the day, the catastrophe. and

In sharp contrast, this piece of energy is raging beyond the tens of millions of miles away from the vast expanse of Xu Sheng.

As the starry sky is soaring, it has reached the height of tens of thousands of people, and even in the roar, the horror of the horror of the imperial powers is spread, and Xu Sheng's forbidden land is originally concerned. Here, from time to time, all the banned beasts who roared and roared, like the conditioned reflexes in the first place, all shrinking their necks, in the void or in the nest, crouching on the ground...even

As for the whole life stars of the entire Xusheng forbidden land, the forbidden beasts who have been trained to be above the star's main territory, have a full half in the moment of the sudden arrival of the imperial concubine in the invisible Under the shackles, because of the shock, I turned my eyes on the spot and fainted directly...

This is the beast of the beast, the pressure is too horrible, they simply can not produce even a trace of rebellious thoughts, even beyond the existence of the star territory, the only subconscious reaction is to succumb to the ground, and surrender!

Around the central star field, the six vicious beasts who were originally rushing from Ye Xuan were like an appointment. The huge spurt of the spurt of the spurt was instantly and easily stopped in the air. Then, all the shocks were shocked, and there was even more suspicion. The exclamation of being suspected of being in a dream suddenly sounded...

Chapter 4370: Blood emperor

"Hey! What happened? This violent... Wasn't it just the third order?"

Blood and magic! This must be a \*\*\*\* magical power against the sky. In a short period of time, let a third-order starry sky of the emperor be violent, and the strength of the emperor suddenly rose to the first stage of the emperor... damn, too abnormal. , actually crossed the barrier of the big realm! ""

It should be true, this is a \*\*\*\* magical power, but... I have never heard of the violent family of stars and stars have this ability? "

"Insane! This violent temper must be crazy! You, let's go together, how is it just bloody, he still has to fall here today, no luck!"

"Yes, the power of such a perverted blood can not last. This temper is even more likely to be a bluff. It's just a matter of words. Anyway, try it!"

"Break the kill!"

Roar! "

"Hey..."...

...short

The temporary shock and lag, from the central star field spurt, but suddenly the six-faced emperor of the body is immortal, immediately exclaimed.

Even the strongest of the two Xusheng banned land, that is, half-step emperor, this time is no longer silent, and there are voices of anger and screaming.

After all, it is a large forbidden land, far from the small, medium-sized star banned by Ye Xuan.

Even in the face of an intruder who is a big realm beyond the strength of the best in the town, the eight beastly beasts are only briefly shocked and flustered, and then quickly recovered, not only turned around. Escape, and even come to roar, and a consensus has been formed in an instant, to kill Ye Xuan...

In this case, even in the original ban, Ye Xuan never encountered it.

Of course, this aspect is also because Ye Xuan's cultivation at this moment is only the first step, and Xu Xu's forbidden land has two half-step emperors and six other emperors. The reason. another

On the one hand, it is because these eight beastly kings have all decided that Ye Xuan's so-called \*\*\*\* secret method has been greatly improved in the moment... it is impossible to last!

But this kind of misjudgment, for Ye Xuan, is obviously happy!

He had some concerns before that the eight emperors were immortal, and they were alone in killing oneself. It is very likely that there will be a net of fish. After all, the emperor is no better than the king, and the means of strength is simply a judgment. If a certain emperor pays a great price for immortality, and there is some secret way to escape, it is really possible to escape the fish that slipped through the net. but

Now it seems that all this is obviously Ye Xuan more worried! because

In addition to the previous appearance, the six beasts who are sweeping from Ye Xing to the center of the central star field, the abrupt posture of the moment, has been spurred again. very

Even the two half-step emperors who had never heard before, after each of them issued a terrifying roar and roar, at this moment, they also rushed out from their respective nest stars, and came to Ye Xuan's burst. ....

The two strongest people in the Xusheng ban are very large, just like a small star, and they are violent with the starry sky at the moment, with a huge body of horror. Place

Therefore, the power of blood and blood in the body is as horrible as it is, even though it is only the half-step of the imperial empire, but its true combat power, it is almost infinitely close to the real The first step of the Emperor!

It is a pity that although Ye Xuan's current cultivation is only the first step of the emperor's strength, his true combat power is comparable to the existence of the second-order emperor. It can be said that even if these two half-steps of the emperor join forces to fight Ye Xuan, He can also ensure that he is able to do so.

It takes a little more time. but

It is obviously impossible for Ye Xuan to give them the opportunity to fight together, because at this moment, in the case of showing the first-order repair of Emperor Feng, the speed of the violent starry sky has skyrocketed, and the spurt has gone, and it has already arrived. A half-step of the emperor's nest near the stars, and the strong enemy who is screaming in front of the face, only a few million miles away...

The sacred beast of the semi-emperor is a star-studded blood wolf. The huge body of the giant is like red blood, not even a hair.

At this moment, the eyes of this starry blood wolf are tightly locked in the starry sky, and the breath of the body is soaring to the extreme, and the void is trembled.

Obviously, he wants to make a full blow. This is a temptation to sneak into the starry sky of the sudden skyrocketing sky. Look at the strength of the first stage of the emperor's refinement, which is true or not. ! "

Oh..."

With this thought, the starry wolf was spurting at the spur of the moment, and suddenly a long, screaming sound of a long sigh. under

For a moment, his body was already the realm of the semi-empirical world. After this stunned, with a awning like a smoggy \*\*\*\* suffocating from the body, it was immediately visible to the naked eye. The speed quickly climbed up.

Shortly after a short break, it has reached the real first stage of the emperor!

Ye Xuan has a \*\*\*\* magical power, this starry blood wolf, also has. very

Obviously, what he showed at the moment is the \*\*\*\* secret method of the rapid increase of the strength of the blood of the starry sky. Although the degree of combat power is only a small order, it instantly makes him and Ye Xuan And also entered the realm of Feng Di..."

You are so bloody, you can also ignore the barriers of the big realm..."

In this scene, the voice of Ye Xuan's words came out in the mouth of the starry sky. It sounded like it was appreciated, but there was a clear sense of sarcasm. words

When the sound is just falling, the starry sky will once again scream and scream: "The konjac changes... the seventh change!"

"Booming..."

At this moment, the sound of thunder and thunder was heard in the void, and at the same time, the huge size of the starry sky that had reached tens of thousands of feet was once again exploding rapidly with a horrible speed visible to the naked eye. short

After a short break, it has skyrocketed to 100 million feet, or 60,000 miles... This is not the size of a small star, although it is not comparable to those rare giant stars, but compared to the usual stars, But it is not inferior. more

What is important is that with the skyrocketing body shape, the temperament of the starry sky is also a breath of breath, and it has once again climbed a small step, from the previous emperor's immortal first order to the present emperor's immortal second order. .

If you count the huge body that is like a star, the horrible power of horror and blood, the current starry sky, the real power even exceeds the general third order of the emperor, and the situation is straightforward. The existence of the fourth order.

The fourth order is already in the middle of the emperor's reign, and it is not comparable to the general order of the emperor. The gap between the two is completely judged!

Seeing this scene, I just forced the \*\*\*\* wolf in the first step of the emperor's first stage with the secret of the blood and the law. I was stupid on the spot...
