Chapter 437: Break

"Oh!"

The elder's neck was cut open, the head was thrown up, and the blood splashed three meters high.

Royal gas fifth-order, dead!

"Hey, the host has broken through the power of 382 dragons!"

Realm, once again improved.

Before Ye Xuan appeared, the elder's opponent was two warriors of four hundred and ninety dragons. Ye Xuan, the means of killing the fifth-order suffocating, also deeply impressed them.

Now, there are only two people left in the five poisons, one fourth-grade temperament and one elder of five hundred and ten dragons.

"It's your guy again, you are so upsetting the good things of my five poisonous sects, the sovereign will not let you go!" The elders of the power of the five hundred and ten dragons shouted loudly.

"How about that, I only know that you are dying today!"

Ye Xuan returned coldly and smashed again.

Within three seconds, the elder was also degraded, and the Qiang Kun ring fell into the hands of Ye Xuan.

"Hey, the host has broken through the power of three hundred and ninety dragons!"

After Ye Xuan swallowed up the Qiang Kun ring, the last poisonous fourth-order of the five poisonous sects was also killed by the master of the flying scorpion.

Now, the team of the five poison sects has been completely destroyed, but the Feifei Pavilion has also lost one person.

"Thank you for the help of the little brothers." The middle-aged people headed by Feifeige hurriedly came over. If this is not Ye Xuan's shot, I am afraid that several of them are dangerous.

Ye Xuan nodded slightly and looked at Feng Yaqing.

"They used my excuse for escaping marriage and held me up..." Feng Yaqing said it directly.

The middle-aged man realized that Ye Xuan and Feng Yaqing were in a hurry and hurriedly said: "Feng girl, I am sorry, we are also blinded by the five poisons."

This time, they were themselves pitted. If Feng Yaqing came in at the time, they did not listen to the words of the five poisonous elders, I am afraid that this time will not break a man.

Feng Yaqing and Ye Xuan looked at each other.

Originally, they wanted to come to the Feiyi Pavilion for help. The owner of the Flying Dragon Pavilion was the master of the power of five hundred and fifty dragons. Although he could not save the poisonous door, he could spread things out.

"Also ask the seniors to spread things out." Feng Yaqing asked.

"Surely, the people of Bai Bingzong dare to swim in our territory. It's really timid. I am going to pass the orders to the blood crows. They will definitely send masters. But I don't know if I can come or not..." People frown.

The owner of the Flying Dragon Court is also the power of five hundred and fifty dragons, and is not in the Feifei Pavilion, so they can't help.

Feng Yaqing frowned, it seems that the door is still difficult to escape this robbery.

At this time, Ye Xuan suddenly said: "You will stay here, I will go to your door."

"you?"

Feng Yaqing looked up strangely. Although Ye Xuan could kill the fifth-order gas, but went to the door of the poisonous door, but there are six orders of qi, and still three, go to find death.

"I just want to find out the news, you are waiting here."

Ye Xuan did not give Feng Yaqing the opportunity to refuse, and immediately left quickly.

He and Feng Yaqing are only in a poor situation, even friends are not counted, Feng Yaqing wants him to do what he has done, and the rewards have not been given.

Ye Xuan's help this time is actually to find an excuse to kill, he will not be stupid to fight against the five poisons, he will not show up before there is no strength.

His speed was slower after all. When he spent more than a day rushing to the door of the poison, the door was already blood washed.

There is no high-rise of Baidumen, and the rest of the people do not exceed the power of four hundred dragons. According to the disciples in the door, the people of the five poisons went in the direction of the division.

"The people at the door of the drug are not willing to crack the array, so they are eyeing the door..."

Ye Xuan thought about it.

In addition to the elders who have already died in battle, there are also a 550-dragon doorkeeper and some elders of more than 400 dragons. Maybe they know how to break the battle.

Although it is a battle, it is actually a lot of traps. Even if it is a five-drug sect of the same industry, it does not dare to go in, so this plantation must be cracked together with the five poisons.

Although Tang Huaizhi and others went to the door of the drug, it may be a **** wash, so Ye Xuan simply did not return to the door, but went directly to the plantation.

The planting site was covered with poison, but Ye Xuan had the blood of the sacred tree of life. Maybe he could break into it directly?

Moreover, Feng Yaqing also told him the address of the planting place. If he can go in and find the bones of the eight-order strongman, he will be able to make the bones and bamboo baskets empty.

At the moment, he is rushing in one direction, he must go to the plantation before the five poisons.

This plantation site is not far from the door of the Baidu, but it takes two days to take Ye Xuan's foot.

Two days later, he found the plantation in a large canyon.

However, he is still a slow step. At this time, there are already many people beside this plantation.

"Tang Huaizhi, Bone Seven, and his white bones war..."

Ye Xuan looked at it, and these three masters of the sixth-class temperament are among them, in addition to the five elders of the poisonous sect, and the people of Baidumen.

However, he did not find Feng Shan, do not know if he was locked in other places, or has been killed.

"Wu elders, Shi Gongzi?"

Ye Xuan in the high air couldn't help but look at the situation. It should be a betrayal of the people who had been separated from the drug. They turned to the five poisonous sects. It was really a wall.

This time, all the elders of Baidumen have come, and there are even many true disciples.

At this time, Tang Huaizhi, the bone seven and other masters, are behind a middle-aged person, into the poison array.

This plantation is very large, and there are two poisonous arrays. The weight inside is the five poisonous cloths, and the outer layer is under the poisonous cloth.

This poisonous array is actually a dangerous area where fascination, poisonous fog, poisonous grass and poisons are mixed together.

If it enters from the air, it will be attacked by those poisons in the air.

It doesn't work with fire. After all, these things are not burnt by ordinary flames.

If you take the poisonous grass and so on, it will not work. If the juice and poison powder spread out, the danger will only increase.

Therefore, it can only be broken normally!

Moreover, I am afraid that the planting place is even more dangerous. Tang Huaizhi needs a correct position to find the position where the Bailing ancestor fell.

As for the middle-aged man who led the leaders of Tang Huaizhi and Bone Seven, it is the door of the door.

In the high sky, Ye Xuan looked at the back of them, and the corners of his mouth were slightly tilted, because the elders who stayed outside were not very strong, and the strongest were the five pentads left by the five poisons.
