

Super D. S 4371

Chapter 4371: Iron and blood

"The second order of the emperor is comparable to the third order of the emperor? The combat power is directly chasing the fourth order of this situation?"..." short

For the time being, the starry wolf wore a roaring sound, and finally the mouth opened with a blood arrow, like a pouring rain, falling in the void...

He is completely desperate.

Just now, the other party is only the first step of the emperor. Although it is because of the blood and blood in the body, the force is directly chasing the second order of the situation, but the **** secret of the starry wolf will be upgraded to the first level of the emperor. And, with the cooperation of the other seven beastly beasts, there is no chance that there will be no chance to fight. but

Now, this violent repair has once again skyrocketed, and the gap has widened further. How can this be played? There is no hope at all.

Even with the **** secret method, he is forced to upgrade to the first level of the emperor. He is not a one-of-a-kind. The other seven beastly beasts don't have to say much, just like an ant, letting the other person Slaughter...

"Daoyou, have something to say, you and I have no hatred..."

Under the sorrow and anger of the heart, this starry blood wolf bites his head and bows, showing a weak voice in his mouth, seems to want to ask for peace.

"late....."

"Hey!"

The starry sky, which is 60,000 miles away, sneered with sneer, without hesitation, and a huge palm like a sky. boom

A loud bang came out, and the huge figure of the starry blood wolf exploded in a moment, and the bone **** did not leave a piece. It was actually taken directly into a **** fog and spread out. "

call out! "a few

At the same instant, the starry sky violently opened the mouth of the blood basin, suddenly sucked, an invisible horror sucking force appeared, the blood mist that was spreading and spread all in the mouth, directly into the body Shennong Ding, the blood essence refining. This

Although the star-studded blood wolf used the inheritance secret in the blood at the last moment, it upgraded the strength to the immortal level of the emperor, but it was only temporary, not the real level of combat power in the body, so it is still only Can refine a piece of the best of the Emperor's blood, rather than a blood. this

Engraved, with this starry blood wolf instantly killed, the entire vast Xusheng forbidden land is a quiet, countless forbidden beasts subconsciously hold their breath, wide eyes, shocked. One

The blink of an eye, one of the two giants of the forbidden land, so completely disappeared?

Even a piece of bones did not stay! One

The shadow of the death of the stock shrouded the hearts of all the forbidden beasts, letting their bodies tremble uncontrollably. At this moment, some of the forbidden beasts finally began to escape, and the outer areas of Xusheng's forbidden land were shivering. From the stars, I rushed out to the far side of Xusheng's forbidden land...

In the inner periphery of the battlefield in the central star field, a road of exclamations screamed, and it sounded at this moment, revealing endless sorrow..."

how is this possible? Blood Wolf King is like this... Fallen? "

"The gods are extinct, the bones are not saved, and they are spiked in an instant... This violent repair is true, and the combat power has been chasing the fourth stage of the emperor. I can't be an opponent at all."

"Xusheng is forbidden, this battle, there is no suspense and hope..."

escape! ""

Roar....." ...

...

Suddenly exclaimed, the surviving seven beasts of the beasts will be like an appointment, all of them will turn around and flee in all directions. more

In the distance, a large number of beasts and banned beasts are banned from the land. Look

In this scene, the starry sky violently screamed at the hair, and the right foot lifted up and slammed into the early stage of the first time.

"Hey!" Giant

The loud sound of the explosion came. This early Emperor did not have a little resistance. The whole figure exploded in a moment, and the flesh exploded into a **** fog. It was directly sucked into the mouth by the starry sky and sent to Shennong Ding. Condensation.

In the blink of an eye, the two beasts of the beasts were killed and half of the resistance was not.

But all this is not enough, and Ye Xuan's established goals are far from each other..."

You... can't escape! ”

The cold snoring sound of Sen cold came from the mouth of the starry sky. Its huge figure was like a star rushing in the void, and went directly to the other half-step. Remaining

Among the six vicious beasts, the first half of the emperor has the greatest chance of escape. If he has the same rapid improvement in the short-term, he will have the first-order repair after the exhibition. Strength, under the speed of speed, will soon be able to see. Place

Therefore, Ye Xuan must first solve him in any case. As long as he has killed the first half of the emperor, the other five beasts of the beasts will never escape the pursuit of Ye Xuan. This

The existence of a semi-prefecture class is a bird, with a spread of 100,000 feet and three eagle heads. However, there seems to be no such **** bird in the sky. It is suspected to be a kind of mixed blood product, which can be called For the three-headed eagle.

The speed of the three-headed eagle is very fast. He is like a black lightning in the void, and his eyes are across the sky, and it is a hundred miles away.

This speed has been comparable to the ordinary first-class emperor, and the starry sky is condensed, and my heart can't help but decide to be correct. no

Then, if he chooses to make an immortal shot on the other five emperors, and then wait until after all the solutions, he will look back at the three-headed eagle. I am afraid that the other party has already escaped and can no longer pursue it...

"Roar!"

Looking up and screaming, the huge starry sky of the 60,000-mile squad suddenly took a big step and chased it up at the limit speed. It was just a body-shaped blast, and it blinked nearly 200 million miles...

At this speed, it is also a matter of time to stop the three eagle fleeing ahead of time.

"Irritable, what do you want? Why do you want to kill? There is nothing in the sky that can't be talked about..."

Fang Santou eagle saw this scene, the soul was scared to fly half, and under the head, there was a voice of words that revealed a clear panic.

However, the shape of the flank between the **** and the flank is not evenly stagnant. The cast is not reduced. It is only a deliberate attempt to fool Ye Xuan and want to fight for escape. "

call out! "

"Hey..."

Almost in the next moment, in the far-away sky, countless sharp and unstoppable sounds suddenly sounded, and the three-headed eagle, who was fleeing forward, actually shook all the black feathers from the whole body to the moment. A black arrow rains, the speed is so horrible, like a huge black cloud like a vast expanse of sky, slamming toward the rear...

"Hey..."

The birds are so insidious, the words in their mouths are still not falling, and the next moment is to enlarge the yin, which makes the starry sky violently roar again, and the hair grows out of a terrible roar, and the body shape is shaken, it is a direct application. Moved, disappeared in place. again

When it appeared, it was already in front of the three-headed eagle. It was not too far away. It was only a few hundred million miles away.

Chapter 4372: Eight seals

"dont see

In this scene, the three-headed eagle stunned, and the mouth was desperately long...

At this moment, he simply regretted that the intestines were all green, and he was suddenly shocked by the whole body. It was originally intended to temporarily stop the starry sky chasing after him, and to distance the two as much as possible. Pull up again.

But the end result made him stunned. He didn't think of it anyway. The starry sky and the starry sky distance of more than a billion of his own, could actually be directly crossed by a teleport, and it was teleported. In the front two or three hundred million miles, this time teleportation has spanned nearly two billion miles.

For him, this is absolutely unimaginable. After all, it is only half a step to seal the emperor. If you have not yet reached that step, you will never be able to feel the true power of the Emperor.

A miscalculation has undoubtedly accelerated his death process. There may be other ways to try it, even if it is just a struggle.

But now, with the starry sky accidentally teleporting to the front, and roaring in the first time, the three-headed eagle has had the chance to struggle for a few more times in the dying... !

"boom!"

The sound of the blasting sound came, and the whole body was smashed. Like a giant eagle, the three-headed eagle, under the starburst of the starry sky, did not have a suspense, directly bombed into a blood. The fog, not to be scattered, was violently opened into the mouth, and was sent to Shennong Ding in the body to carry out blood purification.

At this point, the two giants of Xusheng's forbidden land have all fallen, and the other six beastly beasts have also fallen one, leaving the last five, the strongest, but only the imperial eighth-order repair, for the battle In order to chase the fourth-order starry temperament of the emperor, it is like a real ant!

However, these five guys are separated from each other, and after all, it is the strong emperor, it is difficult to guarantee whether there will be some kind of unexpected escape secret, so Ye Xuan simply does not dare to take it lightly. "

Roar! Yang

The head roared, his figure disappeared in the same place, and when it appeared again, it was already in the other direction nearly two billion miles away, and this direction is the one that is the strongest and reaches the emperor. The direction of the immortal eighth-order tyrannical bear escapes. This

The strength of the head tyrants of the Gorefiend bear reached the eighth level of the imperial concubine. Compared with the two-and-a-half-step emperor who had been strangled before, it only weakened a small order. eye

He obviously fled, even if Ye Xuan casts a teleport, blinking nearly 2 billion miles of the void distance, but the distance in front of the distance, but still can not see its figure.

However, it is not visible in sight, and it does not mean that God does not detect it.

Without any hesitation, the starry sky violently directly pushed the gods to the limit, and extended all the way to the front direction. It was not discovered for the first time, but after the second adjustment of the angle, the head of the **** demon bear The figure is finally captured...

However, it is worthwhile to cultivate the strength closest to the existence of the two giants. So for a while, it has already escaped to nearly 10 billion miles, and the speed is slower than that of the two half-steps.

"咻!"

The situation is urgent, and there is no delay. The violent starry sky will immediately push the real element in the body. With a weak sound, the figure will disappear instantly, and it will have reached nearly 2 billion miles in the flash. . tight

Then, the teleport is unfolding again... six times in succession!

Six times of full-force teleportation, the distance between the starry sky and the starry sky has exceeded 10 billion miles in just a few breaths, but during this time, the blood-blooded bear has pulled forward a distance, now Still ahead, but the distance has been shortened to more than a billion. "

Roar! "With

At the end of the last teleportation of the violent temper, the tyrannical bear who fled in front of him immediately sensed the dangerous atmosphere that came out behind him. Under the sorrow and anger, he raised his hair with a roar, his body swayed, and the body instantly radiated energy. Intense breath. This

It is clear that the rhythm of teleportation is to be carried out, so that although the real yuan consumes too fast and cannot last, the current crisis is approaching, and the **** demon bear simply cannot take care of the other.

Now, the only thing he thinks is to make a full-time teleport, and it has been teleported until it is exhausted...

"End!"

In the mouth of the cockroach, there was a cold drink. When the words were still not falling, the figure had disappeared again. The blink of an eye was close to a billion miles. The distance between the blood and the demon bear that was about to be teleported was only two or three hundred million. The distance is inside. also

It was at this time, a fist that was like a meteor, suddenly blasted out...

"Boom!" blood

Rain spattering, blood mist transpiration, the huge body of the **** demon bear directly turned into a virtual, all the blood and blood were swallowed into the abdomen by the starry sky, sent to the body of Shennong Ding, the blood essence refining.

At this point, the eight evil beasts of Xusheng's forbidden land have already fallen by half. In the end, there are still four left, but the strongest ones are only in the late period of the imperial concubine. The head turtle is also the next hunting target of Ye Xuan.

"call out!"

Oh..."micro

The weak sound of the air broke out successively, and after only seven times, it was temporarily stopped. Just a few breaths of time, the starry sky storm has returned to the former core war, the gods fully urged, toward the duo The direction of the turtle fleeing is extremely rapid.

This guy is not good at speed, and the strength is only the seventh stage of the emperor, so it is not very far away, but he is obviously good at some hidden secrets, but also quite confident.

With the extension of Ye Xuan's powerful knowledge, the figure of the double-headed snapping turtle was not seen in the universe, but in the star of a giant star more than three billion miles away, Ye Xuan discovered The breath of the target...very

Weak and weak, with his powerful knowledge of the second-order immortal, they almost never caught! very

Obviously, this two-headed crocodile turtle knows how to avoid weaknesses and tries to escape. In an attempt to escape this catastrophe, in fact, he almost succeeded...

It is a pity that life and death are two very absolute concepts. There is no chance to fool, even if it is only a little bit worse. The final result is often the opposite. "

call out....."

Under the flash of the cold mantle, the starry sky violently launched a teleport directly, and two times it has reached the front of this inconspicuous abandoned star.

What Ye Xuan had to admire was that at this point, the double-headed snapping turtles crouching in the abandoned star nucleus still had no semi-moving movements, and they did not know that they were too

confident about their hidden secrets. Ye Xuan was not aware of it at all, but now it is only a temptation. also

This guy is actually already scared in the star nucleus, even if he wants to move, he can do nothing...

Everything is not important. What is important is that in the hands of Ye Xuan, there will be an extra **** one. Now, the eight royal sera of Xu Sheng's forbidden land have basically not run... no suspense !

Chapter 4373: Twenty-four grade Dan

"boom!"

As the violent bang bursts out, the entire abandoned star not far from the front is shattered, and a large **** fog is scattered from the spattered stars.

The starry sky violently slammed a mouth, slammed it, and directly sent the body of the late imperial person to the body of Shennong Ding, and immediately began blood purification! most

The last three heads are immortal. In the middle of the two heads, in the early stage, they will not escape. In fact, Ye Xuan is now able to catch up with the fourth-order strength of the Emperor.

"Oh..."

After several successive teleports, he quickly returned to the original battlefield, because the three survivors of the imperial family were immortal, but fled in the other direction. This

The three guys thought that there were other strong and powerful emperors who had impressed Ye Xuan's footsteps, so they were very affluent in terms of the time they fled, and there was no need to escape separately.

In addition, the three men's combat power is a little weaker, get together, and if they are caught up, they can at least join hands, so the three of them are gathered together and flee in the same direction. leaf

Xuan Dang pursued this direction even if he started the teleport again.

What made him speechless was that he thought that these three guys were good brothers and brothers, but they saw the scene in front of the sky, but let him immediately turn his eyes.

In the immortality of the three heads, the one who is the weakest in the first place is only the second-order guy who is immortal, and one person hangs behind, while the two middle-end emperors in front are more than three billion miles ahead. . Hang

In the back of the guy's speed is not good, it is clearly the former two guys as a dead ghost behind the body, no wonder the anger of the face at this moment...

"Boom!"

Xuan did not hesitate, and his body shape approached. He directly slammed his fist and slammed it into a **** fog. He swallowed his mouth and sucked it into the abdomen. Blood essence is condensed. tight

Then, he once again launched a teleport, two times in succession, and the blink of an eye narrowed the distance of billions of miles. The last two middle-end emperors in front were less than a billion miles away..."

Friends, no, seniors, I am willing to drop..."

"As long as we can stay with us, let us drive!"

Desperately rushed to the heart, the two mid-term emperors immediately stopped their stature and pleaded with Ye Xuan to ask for mercy. When the first moment of the violent figure appeared, they knew that they could not escape.

In such a short period of time, even the two giants and the two late emperors have done their best. With their only mid-term training as strength, what hope? If

Not so, the imperial, I am afraid not so desperate for mercy. "

Sorry, you are waiting for the fall, the star master... unwilling to accept! ""

Roar! Sen

The cold words came out, and the starry sky screamed and screamed, and suddenly burst into a punch..."

boom! "

"boom!"

The power of terror swept away and directly smashed the two mid-term emperors into blood, and then they were inhaled into the abdomen by the starry sky, and sent to Shennong Ding to carry out blood purification. to

Therefore, the eight beasts of the Xusheng forbidden land are all fallen!

But for Ye Xuan, everything is far from over.

Looking around, the gods extended and opened, and the entire Xu Xuan forbidden land, the void in the sky are all the images of the forbidden beasts, some of which have escaped from the edge of the forbidden land, but most of them are still Xu Sheng Within the territory of the forbidden land. complete

Actually, Ye Xuan's killing of the eight beasts of the beasts did not take much time, and the whole piece of Xusheng's forbidden land was so vast. The other forbidden beasts were the strongest but the king. It takes time to get out of this area. ..."

Xu Sheng banned the land, the eight emperors do their best, if there are those who dare to flee..."

Soon, with Ye Xuan's enthusiasm to push the real element in the body, a voice of God's voice enveloped the entire Xusheng forbidden land, and every beast had heard it, and they all felt a horrible emperor. The pressure, the hidden pressure came.

Most of the fierce beasts were scared. Even if they stopped their bodies, they groaned in the void and shivered.

But there is also a small part, but it is faster to escape...."

Since I want to die, then I will wait for it! "eye

In the middle of the cold, the violent figure disappeared instantly, and it was teleported again and again, each time in a different area, harvesting a large number of lives that fled the beasts, but each time, it was just a simple punch. half

After the incense, the whole Xusheng was forbidden, completely quiet, and no vicious beast dared to escape...

"Since you don't escape, the Lord of the Stars will not marry you, and you will return to the stars to stand by, if you dare to take the stars out of the stars... Lie!"

call out! ""

Oh..."

Hearing this sentence, all the beasts and banned beasts are as big as they are, and they don't stop. They turn and rush toward the stars where their nests are located. In the blink of an eye, a huge Xusheng ban, the empty sky is empty. A forbidden beast can not be seen. "

call out! "under

For a moment, Ye Xuan waved his hand to Shennong Ding, and then immediately came to the Shennong Ding Ding mouth with a colorful mist, sitting cross-legged.

Once again, the eight-baby-fighting Fenghuang blood beads appeared in the palm of his right hand. These eight blood essences will be combined with other large-scale treasures and ancient resources. This time, the basic raw materials of the twenty-four grade Dan were refined. when

However, in addition to these two basic materials, according to the recipe of the twenty-four liquids that Ye Xuan has developed, he will also add about ten drops of the evil source liquid, and some of the top resources that were previously found in Hongmeng... ..Eight

With the enrichment of the Emperor's blood, plus all kinds of top resources, he has more than 80% of the grasp, can refine three twenty-four grades of Dan, and even the possibility of four treasures, all in more than 50%... .. As for the five, the chances are much smaller, only about 30%. Out

Yu Shenzhong, Ye Xuan will already be well-received, and they have carefully tweeted the twenty-four-level Baodan Danfang twice, and analyzed it again. After confirming the correctness, they will all the resources needed in the formula. And all kinds of top treasures and treasures are all ready.

Then, I closed my eyes... God

Nong Ding, interior space, the bottom of the volcano in the central domain! "

call out! ""

Oh..."

The faint sound of breaking the air rang in succession, and a singular spurt came from the high point of the volcano above the volcano of the central domain. It appeared directly above the flame pool at the bottom of the volcano, and suddenly hovered for a moment, it was Huang Xuan. To this end, we have refined all kinds of top materials and cultivation resources prepared by the twenty-four-level Baodan. Eight

Enchantment of the blood!

Ten drops of evil source!

There are also a variety of rare treasures that are rare and horrible..."

Call..."

For a moment, underneath all the resources, in the flame pool at the bottom of the volcano of the central domain, a fascinating Shennong seven-color flame whistling, and instantly condensed into a colorful furnace with a square shape, small and simple, revealing one The extraordinary atmosphere of the stock. With

The formation of this delicate flame-dwelling condensed by the seven-color flame of Shennong, the materials and resources of the beastly bloodstains, which have already been prepared, all flew up automatically, and fell into the fireworks of Ding Ding.

Since then, the practice of the 24th grade Dan has officially started...

Chapter 4374: Mid-term imperial

Twenty-four grades of Dan, only one, can make a monk who is the emperor of the nine-ordered perfection of the imperial controversy, and instantly become the immortal.

This kind of resource is absolutely unbelievable for the major ethnic groups and top powers of the three major stars in the world. It is just a 20-level liquid that can create immortal grotesque, and can make the emperor The immortal twenty-three grades of liquid can make them crazy, let alone create the twenty-four-level Baodan that immortalizes the emperor?

In addition, among the top resources prepared for the purpose of cultivating the twenty-four-level Baodan, only the eight beasts of the immortality of the emperor are the most difficult things to get, so This time, Ye Xuan is particularly dignified.

He is in control of everything, and the method of refining the medicine is thrown out in his hands, turning into a mysterious pattern of incomprehensible, floating above the Dingkou of Shennong Ding, and falling into the energy of the bottom of the volcano below the central domain. In the middle of the stove! can

To say that this time the practice, absolutely can not be lost!

Unconsciously, time is slowly passing..."

boom! Sudden

However, above the flame pool at the bottom of the central fire, a huge roar sounds!

The furnace that was condensed by the pure Shennong seven-color flame was scattered, and a colorful fireworks like a river would rush back to the flame pool below, and the size of the five infants would be above the flame pool. Beads.

Compared with the previous beasts, the blood is as big as the head, but it is completely different. The blood is red-blooded and has a strong blood and blood. These five beads, although they are also the size of the baby, are colorful. The color, a layer of dreamy halo, reveals a simple and heavy atmosphere. two

Fourteenth grade Dan! only

Only one, let Fenghuang immortal ninth-order grand perfection after swallowing, can break through the big realm in a short time, directly into the emperor's immortal twenty-four treasures! "

Actually there are five? "when

The next moment of this furnace Baodan's refining, Ye Xuan's voice also came from the Shennong Dingkou above the volcano of the central domain, revealing a thick surprise, according to his previous predictions and estimates, This furnace of twenty-four grades, the probability of finally releasing five, only only 30%. No

I was met by the thought of such a small chance, and luck was so good. when

However, this may be because of the two best products, but it may also be because Ye Xuan has joined this special resource that was previously obtained from Hong Meng's void.

But this is not important. What is important is that the twenty-fourth-level Baodan has finally been refining. So, for Ye Xuan, the breakthrough to the real Fengdi strong in the future is already a matter of course. It is. only

If he wants to cultivate in the ordinary state to reach the great perfection of the ninth order of the Emperor, and swallow a twenty-four-level Dan, in a short time, he will be able to enter the emperor in an instant...

After some play, Ye Xuan waved the five precious twenty-four treasures, and then took out a lot of seals and blood.

All of them were killed in the Xusheng forbidden land at the last moment after killing the eight beasts.

Xu Xu's forbidden land originally had more than 50 kings and more than 500 seals.

When the eight kings were chased before, the king who was on the brink of the forbidden land escaped about ten, and escaped nearly a hundred.

The rest, after Ye Xuan issued a warning, most of them continued to flee, so they were killed by Ye Xuan. and

Today, there are still twelve kings in the entire Xusheng ban, and more than a hundred are sealed. All of them are huddled in a star, and they dare not take it anymore.

The rest of the kings and seals, after being killed, became the blood of the beasts in Ye Xuan's hands, totaling twenty-eight kings, and waiting for three hundred. slightly

After the sinking, Ye Xuan threw the ten kings of blood in the Ding and started refining. Soon after, seven twenty-three Baodans were released, which represented his majesty and will be seven more in the future. It is the heart of the emperor.

Subsequently, a total of two hundred sealed bloodstains together with a large number of other top resources were sent by Ye Xuan to the bottom of the volcano in the central area, and refining was carried out. After the meal, one hundred and twenty-six twenty-two dans were released. Batch of twenty-two Dan, will be able to create more than one hundred strong king!

As for the last 18 pieces of the king's blood and more than 100 pieces of blood, Jing Xuan intends to swallow directly, and then with other top-level cultivation resources, and then a breakthrough. eye

Next, these fierce beasts and one hundred cubic meters of the top purple gold flesh and blood medicine, as well as other top-level cultivation resources, were all sacrificed by him, and they were in front of each other. level

After regaining his mind, Ye Xuan suddenly waved his hand, and all the beasts of the beastly bloodstained into a bead in an instant, directly immersed in his mouth and turned into a heat flow.

Subsequently, the one hundred cubes of purple gold top flesh and blood medicine, as well as other resources, were all motivated by the field power of Shennong Ding. After compression, it turned into a small group and blinked into its mouth.

These fierce beasts are all made up of the powerful and banned beasts of the imperial court, and they have also undergone the condensing of Shennong's seven-color flames. Their effectiveness is overbearing, and they are swallowed so much, even with Ye Xuan. The repair of the strength and the physical strength of the body, under the defense, some can not withstand, only a burst of energy is spreading in the body.

However, the one hundred cubic zirconia flesh and blood medicine he swallowed later was refined by the scent of the scented furnace and the innate yin scented liquid, and with the release of its potency, Ye Xuan's body was instantly There was a clear stream between them, neutralizing the hot breath of these fierce beasts, and let him breathe a sigh of relief...

"Hey!"

Oh la la..."

It is also in the next moment. In his body, there was a sound of shackles like a tide in an instant. This

At the same time, two human potential chains were revealed at the same time, which made him feel awkward, and then he was delighted, because this means that the resources swallowed by the talents are extremely powerful, enough to shake the two chains in Ye Xuan. he

The next thing to do is to completely tear the two chains of shackles in the process of refining these medicinal forces. Then, after repairing the strength, it will once again usher in a two-shot process without any suspense!

Soon, the expected strong tingling sensation is as close as possible. If you only swallow a hundred cubic meters of the top purple gold and blood medicine, you will use the scented lotion and a lot of congenital chilling liquid instead of Lingquan spring water.

Therefore, in the process of refining and chemical power, what is felt in the body is only a burst of coolness. Even if there is a sting, it will be weakened to the extreme under the coolness of this all-round Shutai.

However, this time in addition to the top purple gold flesh and blood medicine, Ye Xuan also swallowed the blood of the blood to the horrible concentration of a large number of powerful beasts, the two phases of neutralization, although not as in the past It hurts into the bone marrow, but it is definitely far from a good feeling. The pain is like the bones of the bones, and it is always lingering...

Chapter 4375: Surrender or die

However, Ye Xuan has long been accustomed to the pain of tearing the chain inside the body.

At this moment, under the pain that this ordinary person can't bear, the mind has never been shaken at all, always holding the Yuan Shouyi, Lingtai Qingming, and constantly urging the hanging energy of the river in the body, along the limbs The hundred miles are constantly running, and the cycle is repeated, there is no half-stagnation...to

In the end, Ye Xuan even forgot the existence of time, the whole mind, completely sinking into it, and I don't know how long it took. When he felt the tingling sensation in the body disappeared completely, Ye Xuan's consciousness returned, subconscious The ground opened his eyes.

Almost at the next moment, the familiar system prompts again in his mind, two times..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: Fenghuang immortal fifth order! ""

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: Fenghuang immortal fifth order! "

After the previous breakthrough, Ye Xuan's repairing strength reached the third level of Fenghuang. If he changed the blood of the konjac to the seventh change, he could reach the peak force in an instant, and the second order of the emperor.

At the moment, with another breakthrough in a short period of time, and it is two consecutive breaks, now Ye Xuan, in the state of entering the ninth change of the konjac, the peak force will once again skyrocket, reaching the emperor The fourth order, this is considered to be the terrorist power in the middle of the emperor..."

The fourth stage of the Emperor, coupled with the majestic force of the 60,000-mile huge body in the seventh change state, my real combat power will exceed the fifth stage of the Emperor, which is the mid-term peak of the sixth stage of the Emperor. Can fight and be unbeaten! "open eyes

Opening his eyes, Ye Xuan whispered a whisper, revealing an incomparable excitement: "So, as long as you don't touch the late Emperor, you are completely fearless."

"But this is still not enough. The film is surrounded by more than a dozen Qiangqiang forbidden places and the Xingqiangxing area in the vicinity of the Milky Way. The weakest of the giants in the town are the survivors of the universe beyond the emperor."

"In the state of the seventh change, if the strength is not up to the universe, and there are no sloshing there, there is no guarantee at all."

"So, you need to make a few more breakthroughs."

"Just this time, it's actually two consecutive breaks. If there is no accident, if you start a new round of breakthroughs immediately, it will be extremely difficult..."

"At least it will take a while to make a few big battles, and the strength of this breakthrough will be fully integrated, and the state of mind will be stabilized again, and then break through!"

"Fortunately, this piece of debris in the sky, there are some medium-sized and large-scale forbidden land, just to continue to kill the beasts above the seal level, accumulate the blood of the beast, while quenching itself!"

Having said that, Ye Xuan did not hesitate any more, and he walked away from the Shennong Dingkou, where the colorful fog was swaying. After he waved Baoding into the body, his body shape swayed and went directly to Xusheng's forbidden land. Central star field. in

Before leaving this place, there are still some things to do...

"Roar!"

"Everything is heard, come over immediately, the star owner has something to say..."

After arriving at the central star field, Ye Xuan screamed and screamed, and the voice of the gods came out. In an instant, it covered the vast expanse of the Xusheng forbidden land. With

After that, he suddenly thought of something, and then another voice of the gods: "The forbidden beasts under the immortality are all assembled in the void outside their nest stars, and they can be sealed and sealed. Emperor, all rushed to the central star field at the fastest speed... Deliberately dragging, hehe!"

call out!"

"咻咻咻..." leaves

Xuan's words just fell, Xu Xu's forbidden land in the atmosphere of the stars of life, a lot of fierce beasts were instantly thrown out, the emperor was angry, no one resisted, no one dared to play smart at this time. In the stars, it is useless to face the horror of a strong emperor, how to crouch and hide. very

Fast, all the stars in the universe outside the atmosphere of the life star, there are countless banned beasts, which is called massive. leaf

Xuan's gods swept away and immediately summed up the data in his mind... These forbidden beasts, the immortality of the following is not necessary for calculation, too much.

The immortal beasts of the land are more than two thousand!

In addition, the only remaining 12 kings in the entire Xusheng forbidden land, more than 100 seals, also arrived in the central star field in the shortest time, according to Ye Xuan's request, separated by thousands of miles. The distance stopped and fell to the ground in the void, shivering. It

Before, in the face of Ye Xuan's pursuit, the two emperors can only stop in the middle of the period, crouching in the void for mercy, not to mention these seals and seal the king?

In the face of a powerful mid-term emperor, their strength is simply not even an ant!

At this moment, the entire vast Xusheng ban is dead, numerous beasts and savage beasts, and the heart is shaking, but the shape is like a star, like a star-like temper, standing proudly in the core of the central star field, a powerful **** extends Open, Ye Xuan immediately scanned all the life stars in the entire Xusheng forbidden land several times...

"call out!"

"Hey..."

As soon as the violent hand raised his hand, within a life star, there was a large amount of cultivation resources immediately, turning into a mans, and rushing toward him. all

They are all top-level objects, all kinds of, especially in the nest stars that exist in the eight-level royal family.

Now Ye Xuan, even in the usual state, has been repaired to the strength of the middle of the emperor, the general resources, he simply can not look up. This

Every time you raise your hand and take it away, all of them are the top resources that he can look at. Other common resources are simply too lazy to collect. If it is calculated on a pro-rata basis, the whole cultivation resources in Xusheng's forbidden land, Ye Xuan took it away. It's one or two percent. when

Of course, all are the essence!

The reason why the resources are more, but they don't see the resources left, instead of taking them away, they will supply them to their own corps in the future because Ye Xuan wants to surrender this Xusheng ban. Get married. Such as

Therefore, nature can't be done too much. These surviving massive forbidden beasts also need resources to cultivate and improve.

The reason why I suddenly had this decision, Ye Xuan was also considered by many parties. On the one hand, the Starry Nomadic Legion really needed to expand its military strength. On the other hand, it was because of the small star vortex that entered Hongkong's void, and it was here. Within the forbidden land.

Ye Xuan needs a force of his own, and he will be firmly guarded here...

However, after all, he just started a killing of the sky here. The eight emperors of Xu Sheng's forbidden land were all slaughtered by him. Although these guys seem to be honest, they are just because of fear. Ye Xuan is guilty, that is absolutely impossible. This

He needs to use means to at least achieve the initial gathering of the military. One

In this regard, Ye Xuan immediately sounded, the starry sky in the body, and instantly extended a voice of God, covering the entire Xusheng forbidden land: "Well, is willing to surrender, or ... die!"

Chapter 4376: See the devil

"Well, wait for surrender, or... die!"

With the 12 remaining kings in the entire Xusheng forbidden land, more than 100 people were sealed, and in the shortest time, they came to the central star field in accordance with the requirements of Ye Xuan, stopping at a distance of 10 million miles. In the void, screaming in the ground, shivering, the starry sky, and the sound of the gods again, shrouded the entire Xusheng forbidden land! This

The problem is simply that there is no need to consider it, and there is no suspense. If you want to die, these twelve kings, more than a hundred seals, and the murderous beasts that are everywhere in the sky are long gone. If you rise up and resist, you will not wait until now.

However, since this violent violent temper has already been asked, the murderous beasts in the distance from the sky are not enough.

But at the moment, the twelve kings and more than a hundred seals that are only a hundred million miles away from Ye Xuan, but even if they are trembling, they immediately responded in a panic..."

I wait... willing to surrender! "

"See the Lord!"

"Roar....."

.....

These guys, now even yelling at Ye Xuan, have already dared not, or because of his talent, he is really a devil, and the shot is too hot, one of the beastly kings, actually gave the leaves Xuan An has a name for the devil... From a certain point of view, it is quite appropriate!

Moreover, the high-level leaders and kings of the more than 100 banned beasts not only responded, but also like Ye Xuan, the words that came out of the voice of God, although they used their cultivation as their strength, they could not cover the entire vastness. Xu Xu was forbidden, but it was completely okay to hear the many forbidden beasts in the central star field. its

This is exactly what Ye Xuan wants.

The courtesy of the monarchs and the seal of the king, in the presence of a number of people have been expressed in the face, the follow-up is basically unlikely to have the possibility of immediately and anti-water.

If you do that, you will not have many forbidden beasts to follow. But

Just like this, Ye Xuan is obviously not assured. Although he needs a huge beast army to guard this Xusheng forbidden land, he can't sit here at all. Therefore, you must let these twelve seals be seen. With more than a hundred seals, all of them are willing to surrender.

It's just that force is not enough. It's obviously impossible to do this. As long as Ye Xuan leaves, these high-ranking beasts will immediately roll up a large number of cultivation resources that Ye Xuan has left in the Xusheng forbidden land. where

I am afraid that there will be no other forbidden beasts to follow, and it is okay to leave alone.

In order to let the high-ranking beasts of the beasts be willing to surrender, and to stay in the Xusheng forbidden land, Dai Yexuan leads Xu Xusheng's countless forbidden beasts in the forbidden land. After the slap, the sweet dates are obviously inevitable. Must be given.

And still have a big enough, tempting enough! Correct

In these, Ye Xuan has already planned his heart. At this moment, I saw that the top 100 beasts of the beasts all responded in unison, and they were willing to surrender. The starry sky of 100 million feet was swept over them, reaching out and pointing: "You , you and you... all are listed, come to the Lord of the Star!"

He raised his hand and pointed six feet of high-spirited beasts, three of them were sealed, and three were sealed. This

The six high-level beasts, the strength of the repairs have reached the nine-order grand perfection of the existing realm. As long as they break through, they will immediately be promoted to a big realm, and they will be promoted to the king, and the king will be promoted to the emperor! Do not

At this level, the breakthroughs in the big realm have become extremely difficult. In the end, the breakthrough can be achieved. However, the rest can only be accidental when the breakthrough fails, and die on the spot. Want

It is because it is impossible to break through, and repairing the strength has lost the possibility of improvement. In the end, it can only exhaust the Shouyuan, and it is unwilling to be embarrassed.

Even those who are only one or two lucky ones can successfully break through, but in time, it takes a long time, and it's a good time to seal up. It's a good luck, dozens of hundreds of years, and it's the end of the seal. Even if it can break through, it will take at least a few hundred years. when

However, these starry beasts are very long because of their strong blood, so the life is also very long, dozens of hundreds of years, in fact, nothing, in the cultivation, will soon be spent.

But if there is an opportunity to quickly break through the realm and ensure success, such a temptation, no matter who it is, can't resist. This

It is also the perfect choice for Ye Xuan, who decided to receive countless beasts from the entire Xusheng ban, to protect this vast void.

At this moment, as his words came out, these six heads were repaired as strengths in the current world. The nine-order grand perfection was inconsistent with the king of the seal. He obviously hesitated for a

few moments, but in the end he did not dare to disobey Ye Xuan. In the will, there was a voice of sorrow in the mouth, and then it spurred forward and spurred a distance. but

In the end, I still didn't dare to come close to Ye Xuan's approach, but stopped in the void of a million miles away. Such as

This close proximity to a statue of the emperor is immortal, and it is still huge to 100 million feet, and the original temperament is tyrannical, and the talent is even more powerful. The six tall beasts are more trembled. If you squat on the ground and keep on squatting, you can't stop.

"call out!"

Oh..."

Seeing these six guys is a bit courageous. Actually, I came to my own place. Although they are still separated by a million miles, I think they are only waiting for the seal and the repair of the king. The face is a powerful one. Feng Di, this courage is indeed not bad. One

Mindful of this, Ye Xuan nodded with satisfaction, no longer hesitate, violently like a stalwart arm like a wave of waves, there will be six volleys in a moment, in front of the six beasts Hovering. He

It is exactly three twenty-two Dan, and three twenty-three Dan!

The three twenty-two-level Dans were handed over to the three heads to help them break through to the immortality of the king. another

The other three twenty-three-level Dans are handed over to the three-headed king to help them break through to the imperial family. two

Twelve-level Dan is worth it. Ye Xuan still has one hundred and thirty-six in his hand. Given these three, there are still one hundred and thirty-three, but the twenty-three-level Dan, only eight in his hand. Throwing out three pieces in a cold, even Ye Xuan, can not help but some pain.

However, in order to let the countless forbidden beasts in this Xusheng forbidden land be willing to surrender, in the days when Ye Xuan left, he guarded this place well, guaranteeing that the small star that leads to Hongkong's void is innocent, at the cost of Xuan seems to be worth it.

At this moment, with the six Baodan spurs coming from the emptiness in front of the sky, the six beasts of the beasts were first glimpsed, and then immediately smashed out of the shackles, and even the breathing was rushed. six

Among the Ming Baodan, three of them exude a royal atmosphere, and the other three exude a royal atmosphere, and all of them are very rich. They subconsciously think of some possibility. If this is the case, it is simply a piece of heaven. How can you not be excited?

Chapter 4377: Buy the beast

"Swallow the treasures in front of you, and then break through immediately..."

Seeing the six high-ranking beasts, the tops of the beasts are excited and their breathing has changed. Ye Xuan knows what they have guessed. Even if the voice of God is heard again, it still covers the entire Xusheng forbidden land. This

In one scene, he originally wanted to let all the countless forbidden beasts in the entire Xusheng ban be known. pay

Out of this price, if you can't maximize the benefits, it is too depressed.

Although the entire Xusheng forbidden land is vast and inaccessible, there are many forbidden beasts in the distance between the four major stars in the east, south, west and north. They simply cannot see what is happening in the central star field. God's knowledge can't extend such a long distance.

However, after listening to Ye Xuan's voice of the gods, they can at least know what is happening in the central star field. When the head leaves are gone, when the details are concerned, they are spread through the forbidden beasts of the central star field. The four surrounding stars have been repaired as weaker forbidden beasts, and they will not be suspicious. They will believe on the spot...

At this moment, with the words of Ye Xuan falling, the six high-level beasts had no hesitation at all, and immediately swallowed the Baodan hanging in front of the void. he

Their cultivation is weaker and they are also waiting for the seal and the king. If the effect of a medicinal herb is not seen, it will be alive. thing

In fact, before Ye Xuan's voice, the six beasts of the beasts had already been unable to hold back. The temptation was too great. If it was not before, this was a seal that was extremely powerful and horrible. The emperor exists, they may have swallowed it for a long time.

Right now, with the six treasures dying, the six high-ranking beasts immediately reorganized in the void, and all of them were not far from the hundreds of beasts and the entire central star. Countless forbidden beasts, really look at the eyes...

Time passed slowly, unconsciously, a day and night passed, and as the pottery of the swallowing belly gradually became refining, the repairs of the six beasts in the high-rise body were more and more powerful. Finally, the success of a bottleneck in the immortal impact of the realm...

"Roar!"

At this moment, the first time in the realm of breakthroughs in the realm of the eternal break of the realm was a screaming roar, and at the same time, a powerful seal of the king's immortal breath, from his body quickly Spread out!

Seeing this scene, not far from the void, the hundreds of fierce beasts all had their eyes wide open. They had already seen the clues before, and their hearts were already very envious, but there was some doubt, because this kind of thing used to be Unheard of, the breakthrough in the big realm, when can it be so simple?

But now, with this seal waiting for the immortality to break through to the kingdom of the king, all doubts are gone, and the dawn of the hundred high-ranking beasts in the eyes of each other reveals the green oil. meaning. in

The countless forbidden beasts around the Yangxing domain are even more envious and hateful, and the cockroaches in the mouth are coming out quickly...

"Hey..."

"Hey!"

In the next moment, there are two sounds of joy and shouting. This time, the breakthrough is the immortality of the two kings. Nowadays, the cultivation of the atmosphere from their bodies is clearly the realm of the emperor.

"Booming!"

"Boom..."

The two new beastly beasts are screaming in joy, the six vultures above the high-level position of the beast, a thick black robber cloud is also suddenly appearing at this moment, after the immortal, every big breakthrough They must all undergo the baptism of thunder, the arrival of this thunder, as early as Ye Xuan's expectation...

"As the lord of the lord of the star, no matter who you are, when you cultivate the ninth-order great perfection of the great realm, you can get a treasure, from the ninth order of the universe to the ninth order of the emperor. , all levels of Baodan, everything should be..."

At this point, the starry sky violently waved a hand, and in an instant there were countless tens of thousands of mans from his hand, hanging in front of him in the void, divided into several canopies, arranged in turn. two

Ten grades of Dan, more than three thousand. two

Ten levels of Dan, more than five hundred.

Twenty-two Dan, more than one hundred. two

Thirteen grades of Dan, five.

Even the breakthrough of the emperor's immortal twenty-four-level Dan, actually the same, reached five! Fives

The class of Baodan, which empties the void, exudes a different kind of pressure, and the countless forbidden beasts in the entire central star field can be clearly and incomparably sensed...

At this moment, the entire central star field was completely dead, and all the beasts and forbidden beasts, the dawn was all red and bloody, and the breathing was also rushed. These Baodan were so tempting that they could even help the emperor. The ninth-order great breakthrough has broken into the realm of Fengdi!

In this way, even the two giants of this Xusheng forbidden land, that is, the two half-step Fengdi did not fall, I am afraid to have to be tempted to stand here at this time!

Of course, the countless forbidden beasts in the entire Xusheng forbidden land are absolutely impossible to know. The Baodan in front of them, especially the top Baodan who can break through the realm of Fengdi, is actually using the Xusheng forbidden land. The body of the beastly beast is condensed by the flesh and blood...

"call out!"

When the sound of the air broke out, and under the violent wave, all the treasures disappeared in an instant, and he was again earned into the immortal world. and

At this time, Ye Xuan's voice of voice also sounded again: "However, the star master only provides the various levels of Baodan that break through the big realm. As for whether it can survive the thunderstorm after the breakthrough, this is not enough..."

Speaking of this, the violent abruptly waved a hand, and in a moment there was an invisible esoteric power spread out, and the three high-rise beasts that had just broken through were wrapped around the edge of the central star field.

In the next moment, as the three high-level beasts were separated, the thick robbery clouds that had been gathered on the top of the six beasts were also divided into three, and the blink of an eye went with the high speed of the three beasts. "

Roar! ""

Oh..."

Almost at the same moment, the remaining three high-level beasts also opened their eyes and raised their eyes with joy.

As their breakthrough came, the robbery cloud that had just disappeared from the top of the sky above the head suddenly appeared again, condensed together, covering a vast void. This

At one time, she did not use Ye Xuan's shot. The guy who had just broken through the three mouths had not turned down in the mouth, but they had turned around and rushed in different directions. Soon after, the figure was in An empty area came to an abrupt end, each screaming and welcoming their upcoming thunder... short

In a short period of time, six heads swallowed the high-ranking beasts of Baodan. Whether it was a waiting for the border or a royal kingdom, there was no exception. All of them broke through smoothly and ushered in the final thunder of the promotion.

This scene fell in the distance of the hundreds of fierce beasts in the distance, as well as the eyes of countless forbidden beasts in the entire central star field, and their body shape trembled fiercely.

But this time, it is not because of fear, but... joy and excitement!

Chapter 4378: Fenghuang sixth order

"boom!"

Rumble..."

.....

Xu Sheng banned the land, the edge of the central star field, a roar of earth-shattering, and more than one place, but six.

This is exactly the scene of the six beasts who have just broken through the big realm. This

At one moment, the vast five Xu Xing areas of the Xusheng ban were all silent. by

The voids shrouded in these six robbery clouds are too vast. Even the four major stars in the southeast and northwest around the central star field, countless beasts in the void can be seen and seen at the moment. The face is full of enviable colors. Time

Soon after, it was a short meal, and the thunderous sound of the rumble was gradually stopped, and eventually disappeared completely. This

The six fierce beasts are still pretty good. They all have resisted the test of thunder. Although they all have injuries, they can't be used for a long time. Only a small retreat can be restored. that

The three sacred beasts who passed the immortal breakthrough to the imperial end of the king of the king, but the other three were made up of the immortal breakthrough of the imperial king to the imperial beast of the emperor, but for Ye Xuan, it is of great significance. One

In terms of his sire, he has once again produced three more emperors... This time, he has had such a big advantage, and under the sweetness, these three beastly beasts, it is absolutely impossible for Ye Xuan to have two more hearts. There is absolutely no doubt about it.

On the other hand, with the three new beasts of the beasts, the overall strength of the entire Xusheng forbidden land has finally recovered.

In terms of high-level combat,

Previously, there were a total of eight emperors, and all of them were killed by Ye Xuan. Although only three of them are left, and they are still in the prime of the world, in the vast expanse of the vast wilderness, the surrounding area is more In the near zone, there is no similar large-scale starry ground.

The only large-scale survivor of the same level is also far away, and it is impossible to pose a threat to it. Therefore, with these three new emperors sitting in the town of Xusheng, Ye Xuan has been completely relieved. You can leave at any time.

"See my master!"

As the robbery dissipated, the six kings and the emperor returned from the edge of the central star field to the front of Ye Xuan, crouching in the void in a million miles away. Drinking in unison, passing the voice of God, and paying homage to Ye Xuan. versus

Compared with the previous voices of the six guys, it is clearly devout, this time the harvest is so huge, and this sweetness can continue in the future, as long as it is performed well, even in the future, even the Emperor Baodan get. also

What temptation is bigger than this?

It can be said that even if Ye Xuan is driving them away, I am afraid I will not leave!

"You three, in the future, this is the commander of the Xusheng forbidden land..."

Under a wave of hand, the six kings and the emperor who crouched on the ground were lifted by Ye Xuan. Then, his body shape shook, and he was lifted from the state of the seventh change of the konjac, and his figure returned to ten feet. The starry sky is violent, but it can be repaired as strength, but it is

still in the sixth stage of the imperial concubine. All the beasts present in the scene cannot be dare to change.

Later, Ye Xuan turned to the three beasts of the beasts: "The star owner has another thing, will not stay here, but occasionally come over, your mission is to lead the entire forbidden place. Forbidden land beasts, help the star master to protect this piece of Xusheng forbidden land..."

"In the future, whether you are, or other beasts, below the universe, relying on yourself to cultivate, the existence of the universe above, anyone who has reached the ninth order of great perfection, can apply to the star owner for a big realm Corresponding Baodan..."

"The first issue will be launched soon after the return of the Star Master. In the meantime, if there is a breakthrough to the ninth-order grand perfection, apply on your own, level by level, and wait for the return of the Star Master!"

At the end, Ye Xuan did not hesitate, and his body shape flicked away to the distant void, and his body shape disappeared at the end of the line of sight.

"Gong Gong to the Lord..."

At the moment, the countless forbidden beasts in the entire Xusheng forbidden land were all in the void and sent in unison. leaf

The last words before Xuan's departure allowed them to thoroughly eat the reassurance. Those who repaired their strengths and reached the nine-order grand perfection of the immortality and the ruins of the ninth-order universe in the universe were even more joyous. .

Because the next time the Lord returns, they will each get a Baodan, breaking through the bottleneck and stepping into the next big realm, it is already a matter of nailing...

.....

Half a year later, there was a universe of imaginary space that was hundreds of billions away from Xusheng.

The land surface of an abandoned star, with a body shape of ten feet high, is repaired as a realm of the starry sky of the imperial sixth stage of the emperor. This

Head violent, it is Ye Xuan

After leaving Xusheng forbidden, in the past six months, Ye Xuan has been swaying around in the stars, looking for a mid-level starry ban and a large-scale star ban, and hunted. It can be described as a single-handedly raging raging emptiness! This

In the past six months, the blood of the emperor he has captured has reached six, but Ye Xuan has not re-constructed the twenty-fourth grade Dan, because the six can be refining, but can not guarantee the 24th grade. The number of Dan is maximized, so Ye Xuan decided to make more pieces and then refining. except

In the first half of the year, he also harvested twenty-three kings of blood and more than one hundred blood sealers. its

In the middle of the seal, he left 13 of his blood, and he also planned to condense a twenty-three-level Dan in the future. As for the remaining ten kings and more than one hundred blood-stained, Ye Xuan intends to take it by himself and break through again...

"call out!"

"Hey..."

With the wave, these fierce beast blood and a large number of top cultivation resources were taken out by Ye Xuan, and the blink of an eye was compressed by the domain power of Shennong Ding in the body, which turned into a small ball, and then a mouth swallowed and turned into a The majestic energy of the river, so rushing away!

The sound of the shackles of the slaps, and soon, continued to sound in his body.

"Hey!" No

After knowing how long it took, with the sound of a huge gold and iron cross, the shackle chain that Ye Xuan appeared this time was broken! a few

At the next moment, the familiar system prompts once again sounded in his mind...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: Fenghuang immortal sixth order!"

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: Fenghuang immortal sixth order!"

After the previous breakthrough, if he turned the blood of the konjac into the seventh change, he could reach the peak of the battle, and the fourth stage of the emperor. and

Right now, with another breakthrough in a short period of time, now Ye Xuan, in the state of entering the ninth change of the konjac, the peak force will rise again, reaching the fifth stage of the emperor's immortal, the combat power, again Climb a lot. which is

It is only the activation of the konjac blood, not the konjac change, the body shape is only ten feet high, his cultivation is also the immortal seventh order, with the power of the late emperor Combat power...

Chapter 4379: Seven great celebrations

"Hey!"

After this retreat, Ye Xuan screamed and screamed, and the sound of the universe, which was hundreds of miles away, was a domineering imperial power, and swept away...

Nowadays, he is in the state of activating the body's konjac blood, and changes to a violent state of the sky. The repairing atmosphere of Xiu Nai is the seventh stage of the immortality of the emperor. It is the late stage of this! which is

I will not display the **** magical power of the konjac, and only use this level of cultivation as the strength, and it is enough for him to be in the illusory sky of this ruined land, and the posture is vertical and horizontal! because

Even if it is the same large-scale banned land as the Xusheng ban, or the large-scale sacred land, sitting in the middle of it, it is just the immortal.

As for the existence of the Emperor's level, it is the strongest of the top star ban, and there is no top star ban in this surrounding star field! Do not

However, this time, although it has ushered in two consecutive breaks, repairs have skyrocketed, but Ye Xuan is not satisfied. he

The goal is to upgrade the strength to the second stage of the emperor's immortality in this vast star field. As a result, once the body of the konjac blood is activated, there will be a third-order repair of the emperor.

Then, the **** magical power of the konjac will be transformed into the seventh change, and it will be able to enter the first step of the universe. In this way, the qi and qualifications of walking in the glory of the sky will be available. and

Today, he is in an ordinary state, but only in the sixth stage of the emperor, from the second stage of the emperor, there are five small steps to break through.

But now obviously it is not possible to start again. After all, it has only been completed two times, the realm needs to be stable, and the state of mind needs to be consolidated.

Ye Xuan decided to use a series of battles and a hearty battle to achieve this. Yang

In the roar of his head, his figure swayed and he rushed toward the distant sky. His eyes disappeared at the end of his sight, and he disappeared...

Under the enthusiasm of the seven-level repair of Fenghuang, two months later, in the void of the universe at the end of the line of sight, there were a number of life stars. This is a medium-sized starry forbidden place. It is a two-headed seal. Wang Jiujie's great perfection is also called the half-step Fenghuang.

For Ye Xuan, the existence of this level, even if the two are tied together, can't stand him now. he

Just passing through this place, the medium-sized starry sky is no longer his goal.

However, the two best products are not to be missed.

What's more, there are fourteen people in this medium-sized starry ban, and they are immortal...

"Hey!"

The head roared, this time, Ye Xuan even the magical power of the konjac has never been displayed, directly maintaining the shape of the ten-foot high, rushing toward the front of the medium-sized starry sky.

This terrible roar, in a moment, shocked the vast expanse of the entire forbidden land, countless forbidden animals and trembles, and even the thoughts of struggle.

Ye Xuan did not pay attention to these forbidden beasts, even if it was ordinary immortal, he did not look in the eyes.

His goal is that only the two kings and fourteen seals are waiting... Nowadays, the blood of the ordinary immortal flesh and blood, the improvement of Ye Xuan's cultivation is almost negligible, only Waiting for blood, there is a bit of a look. and

Moreover, if there is no accident, after his cultivation is upgraded to the immortality of the Emperor, even if it is sealed, the effect will be the same, so that any one of the emperor's classes is absolutely endless. Treasures of treasures are hard to pile up..."

call out! ""

Oh..."

Almost in the moment when his roar sounded, the medium-sized starry sky in front of it was already responding, and there were more than a dozen sharp sounds of breaking.

When the two kings and the fourteens were sealed, they fled the first time.

This time, it's not only a savage beast, but also a late emperor. They don't have any chance of resisting at all. Even if they are escaping at this moment, their vitality is very embarrassing. It is purely a fight.

"boom!"

"Booming..."

Ye Xuan punches his fists and shoots them through the distant void. One

The invisible giants of the road whistling away, and the stars along the way did not have a half-effect, but the dozens of figures fleeing in different directions, but without any suspense, burst open. Chemical

For a canopy of blood, then Ye Xuan directly into the mouth, sent to Shennong Ding, refining into two kings of blood and fourteen sealed blood. to

Therefore, the blood of the beast in his hands, in addition to six Fenghuang class, there are fifteen seals of the king, fourteen seals, the number is still too small, not enough to break through. a few

Regardless of any stay, Ye Xuan turned around for the first time and spurred toward the void on the right side of the sky...

In this way, in the next six months, Ye Xuan encountered several medium-sized star bans. Every time, like the initial one, he directly killed the strongest king and seal, and took his flesh and blood. Condensed the beastly blood, then drift away.

Among them, he even encountered a fierce beast who had just broken through to the first stage of the imperial star in a medium-sized star ban, and was easily killed. half

In the year, Ye Xuan's **** beasts in the hands of the beasts reached seven, and the royal family reached 36. As for the seal, it was 167! This

It is enough for him to break through again. In addition, the time has also passed for half a year. The realm and mood of the previous breakthrough have already been solidified.

"call out!"

Under the sway, Ye Xuan came to a more remote universe, and he was prepared to sacrifice Shennong Ding here and break through again. also

It was at this time that there was a sudden burst of familiarity in his body. It was the movement of the smoke, and Ye Xuan's heart moved, and the movements on his hands changed instantly. original

This is to want to sacrifice Shennong Ding, but now it is the desire to smoke. "

Oh..."micro

The weak sound of the air broke out, and Bao Luo screamed out, and the wind rose. The blink of an eye turned into a pink pipa of a hundred feet in size, and the sky in front of Ye Xuan slowly rises and falls, revealing a very powerful mystery. Breath. a few

At the same moment that Bao Luo was sacrificed, the voice of Zixia Fairy, who had fallen into a sleep after reshaping the treasure, came out. It was gentle and pleasant, and it was heard in the ear, making the bones lightly three or two. : "Master, Zixia woke up, fortunately, not to be insulted, repaired to the strength to restore the emperor's immortal nine-order great consummation, that is... half step to seal the emperor!"

"In addition, in addition to Zixia, the other six sisters have already awakened. I didn't expect that after the endless years, the seven great savage relics of the past few years will reunite today..."

hiss! ""

All are awake? "Correct

After the recovery of Zixia, the half-step Fengdi was restored to strength. Ye Xuan was not surprised. At this moment, the reason why he took a sigh of relief was because his heart was too excited. return

Think about the scene when I first got Baoluo. At that time, why did he ever think that there would be such a day...

Chapter 4380: Refining the Kowloon Green Drive

The seven ancient sacred repairs in Yantai are: corpse ancestors, corporal ancestors, ruins of ancient ancestors, nine days of mysterious women... Jiuwei Tianhu, Phoenix Tiannv, Zixia Fairy!

These seven female practitioners, in the distant era of the ruins, had been ruined in the wild, and were called the seven savage repairs of the wilderness.

Later, in the battle of the ancient world, the seven major sacred repairs were all degraded, but each had a source of consciousness, and was sealed in the smog of the ancients.

Until the endless years, this treasure was obtained by Ye Xuan, and experienced various obstacles in the meantime. Nowadays, the seven great savage repairs that once became famous and ruined, finally reunited again, and all of them have molded this out. The blood of the world is the real body, and successfully survived the second world.

As for the cultivation of strength, not only the Zixia Fairy has become the half-step emperor level, but even the six sorrows such as the drought and the post-Qing, after the last sleep, the strength has also reached the seal. The emperor is immortal and the ninth order is perfect.

Although the six of them reinvented the treasures of this world, they were not as good as the Zixia Fairy, and found the past lives of almost no damage, but after all, they wake up earlier, and Ye Xuan has also invested a lot of top-level cultivation. Resources.

Almost unrestrained to open the supply ... more

What's more, their past lives have all been the existence of the ancient power level. This world is just reshaping the real body and restoring it. It is not like Ye Xuan, one step at a time, from scratch.

Therefore, under the accumulation of a large number of top-level cultivation resources, after several times of sleep, repairing the strength so quickly, and now all have reached the half-step of the emperor, it is also a normal thing...

"call out!"

"Hey..."

A faint sound of broken air rang out, and seven figures were rushed out from the smog, and in the void in front of Ye Xuan, they were lined up.

This is the seven sacred repairs of the famous and unfamiliar. No matter which one is the existence of the face and the body, it is even more convincing that the seven sages are different, and the temperament is different. It gives a feeling that a long pair of eyes is not enough! leaf

Xuan is also a person who has seen the world, but at the moment it is still somewhat uncontrollable. The heartbeat is accelerating immediately. Even the breathing is rushing. The nose seems to be faint and itchy. The nosebleeds seem to be thrown out at any time. Watch out for control. "

See the owner..."

The shape of the sudden emergence, seven glamorous floods and savage repairs, while laughing at Ye Xuanjiao Yingying, the mouth screaming master...

At a time, Ye Xuan really couldn't hold it anymore. He bit his tongue and almost bite off his heart and swayed his mind. This is a little stable.

Although the mind is tentative, he does not know how to deal with the situation at hand, and suddenly there is a feeling of being helpless. Such as

In this way, Ye Xuan in the seven beautiful repairs of the ring, for a long time toss for a while, finally finally adapted a little, my heart sighed. Seven

Da Yan Xiu reunited, naturally it was a lot of laughter, Ye Xuan was in the middle, the pain can be imagined, but he did not have any temper at all, because the cultivation of all the strength is above him, any one pulls out They are all half-steps, and Ye Xuan now activates the state of the konjac blood in the body, only to seal the seventh stage, not an opponent.

After some deliberation, the seven beautiful women unanimously decided that in a short period of time, they would never enter the smog again. They should stay outside and be breathable. its

Really, they have reshaped the treasures of this world, and they have the flesh and blood, and they have no need to return to the smoke. but

After all, for so many years, I have always wanted to be a smoker, and I can't give up my emotions for a while. this

Engraved, I heard that these seven gimmicks are actually planning to stay by their side, staying outside and not going back, Ye Xuan suddenly dumbfounded.

He is carrying seven gimmicks around him. After all, it is not very convenient. Even if he is stronger than him, he does not need him to worry about safety. After all, the seven savvy repairs are on the side of the body. This is not a general eye-catching thing.

What's more, Ye Xuan is now going to go to another large-scale forbidden-level power in this vast star field, that is, the survivor's star field that is opposite to the Xusheng forbidden land.

Going to the singer's star field, his purpose is not the blood of the beast, because the strongest person in the sacred star field is a remnant of the ancients, and it is not a starry beast. leaf

Xuan went there, the purpose is to get a more complete, higher-order secret of the big medicines from this large-scale survivor.

At the beginning, Sangzhi Xingyu was just a life star inhabited by the ancients. Even the scale of the small survivors was far from being reached, but there, Ye Xuan's secret method of smelting flesh and blood medicine, But it also makes him benefit.

It can be said that the reason why Ye Xuan can now possess the immortal level of the imperial level so quickly has a close relationship with this.

Even the Sang Zhixing, a small survivor's star field, is so magical that the ancient secrets of the ancient people who lived in it were so magical.

Then, in a star-studded field of a large-scale power level, the secrets of the powerful and ruthless survivors who lived in the hands of the masters of the sacred flesh and blood medicine are so tempting, it is conceivable. Do not

However, this matter cannot be carried out directly by force as if he had previously smashed a place where the beast was forbidden.

Because the core information and secret law must be in the hands of the strongest in this sect. This

However, the large-scale survivor's star field, its strongest, is immortal. leaf

In the state of the seventh change of the konjac, Xuan is able to reach the fifth stage of the emperor's immortality, even if it is the fifth stage of the emperor's immortality, although it can easily kill the immortal level of the immortal. but

If people want to explode and erase their own memories, it is only the strength of the emperor's level, obviously it is impossible to ensure that this is prevented. except

It is impossible to possess the strength of the universe. but

Ye Xuan now, obviously not.

Therefore, entering this large-scale survivor's star field, to obtain a more complete and higher-level smashing of the ancient secrets of smashing blood and meat, Ye Xuan can not take force, forcibly obtained, can only enter the sacred star field in a low-key manner, to explore the situation clearly After that, I will move afterwards. This

In this case, if you follow the seven-and-a-half-step emperor, and all of them are top-level beauty, this is absolutely impossible. I am afraid that when I enter the edge of the star field, I will immediately attract attention.

Once the suspicion is caused by others, any subsequent actions will be difficult. can

Unfortunately, although he understands these situations, it is obviously impossible to convince the seven majors to cultivate.

In desperation, Ye Xuan suddenly thought of a way, the brain flashed, and suddenly he shook his head and smiled: "It seems that you can only choose to refine the Kowloon Green, since you can't keep a low profile, then try to The ground...high-key!"
