

Super D. S 438

Chapter 438: Attack

According to the clothes worn by these people, the two men and the same day Ye Xuan killed almost outside the Feifei Pavilion, with a maximum of 520 dragons.

Before the Feifei Pavilion, Ye Xuan used the last Beastmaster violent, but afterwards he got a lot, and with the killing along the way, he can use it again.

At this point, he was hesitant, whether to kill these people outside, and then rushed into the poisonous array, and gave the door to the door.

"Forget it, fight it, I have all kinds of blood, as long as I kill the doorkeeper, I might be able to trap them in the end."

Ye Xuan thought in his heart, that is, quietly descending, close to the team guarding outside.

Beastmaster is violent!

Ye Xuan suddenly surged his strength and directly sneaked in.

In the blink of an eye, there are several heads flying up, all of them are people who are separated by the door.

"what?"

The two elders of the fifth-grade five poisonous elders were shocked. When they reacted, the team was already slaughtered half.

Ye Xuan is more than six hundred dragons in speed, shuttles in the crowd, and a sword falls, can kill a few people.

"Shi Gongzi, hey!"

"Elder Wu, you also gave me a report to hell!"

Ye Xuan is a must-see person. Now, his hatred has also been reported by two-thirds.

In less than three seconds, all but the two fifth-class elders of the five poisonous sects were killed by Ye Xuan.

This time, he not only got a lot of Qiang Kun ring, but also the improvement of martial arts, the silver feather body method, and finally it was upgraded to a 10% fire.

"Haha, it's really helping me, and both of you are going to die!"

Ye Xuan's morale was soaring, and the speed suddenly soared. The two covers fell on the heads of the two elders.

This martial arts promotion is really too timely.

"Hey, the host has broken through the power of four hundred dragons!"

These dozens of things, but also let Ye Xuan just broke through to the fourth order of the Royal.

Ye Xuan did not feel complacent about this, because then he has to complete an important task, killing the door of the door!

Therefore, he rushed into the poisonous array, and the poisonous fog of this poisonous array did not work for him, so he was unimpeded.

"This poison array is solved by the main door, I don't know where they went."

Ye Xuan began to shuttle around in this poisonous array. Although he could not see it, he could feel things within a thousand meters.

Moreover, even if it is the division of the door, it is not so easy to break the law, so Ye Xuan estimates that their speed is not fast.

Sure enough, ten seconds after Ye Xuan entered the poison line, he found the line.

A total of fourteen figures, except for Tang Huaizhi, Bone Seven and his white bones, there are eleven.

Ten of them are naturally the elders of the five poisonous sects. As for the last one, it must be the separation of the lord.

"Found it, see me hit you!"

Ye Xuan double smashed out two killing machines, quietly approaching.

At this point, some people in this team have felt that something is wrong.

"There is movement, speed is fast!"

Walking on the second bone, the brow wrinkled and said in a neutral voice.

"Do not worry about the bone protection method. It should be a holy beast that has been mistaken into the poisonous array. If he dares to come, then he will be embarrassed." Tang Huaizhi explained.

"No, this is the footsteps of people."

Bone seven shakes his head, although his realm is equivalent to Tang Huaizhi, but his strength is stronger than Tang Huaizhi.

He heard it clearly, this is the sound of two feet on the ground.

However, just as his voice fell, a shadow suddenly appeared in the poisonous fog. This figure was extremely fast, and it passed in front of them in the blink of an eye.

Everyone glimpsed, and found that there was a touch of something different to cover them.

"It's poison powder, be careful!" Tang Huaizhi exclaimed and exclaimed.

This pile of toxic powder is not small, this is the most powerful toxic powder that Ye Xuan can refine at present, enough to poison the master of the fifth-order.

He ran too fast this time, the poison powder did not poison one person, only a few pieces of meat were eroded by a few people, but his purpose has been reached.

When Tang Huaizhi and others blasted the poisonous powder, they found that the door of the door of the poisonous door that was in front of the team disappeared.

Yes, it is gone!

On the ground, it was left with a pool of blood, and everyone present was smelling blood.

"Damn, he was killed!" Tang Huaizhi yelled.

This first poisonous array was under the guise of the smugglers. They managed to find a person to crack, but they were killed. Then what should they do?

"People are already dead. If this is the case, then forcibly break it." That bone seven said.

He did not respond to him, only to let Ye Xuan run.

"Well, forcibly breaking, everyone is careful, that person may still appear!" Tang Huaizhi shouted.

They are moving on and are very careful.

At this time, Ye Xuan is hiding in a poisonous flower garden.

"There is a poisonous hive in front of them. When they are attacked by poisonous bees, I will shoot again!"

There was nothing in this planting area, but after being placed in two poisonous arrays, there were many poisons that came in. Although the strength of these poisons was not strong, the toxic and even the masters of the five poisons had to be treated with caution.

Ye Xuan quietly followed behind this group of people, calculating the distance between the group and the poisonous hive in the heart.

At the same time, it is also in the mind to calculate the duration of the Beastmaster violent.

He only has one mobile phone meeting. If he does not add the body of the sacred beast, then he can no longer fight.

There is only one chance, he must grasp it.

The team of the five poisonous sects continued to move forward, only three hundred meters away from the poisonous hive.

Two hundred meters!

One hundred meters!

at this time.

"call out!"

A sniper broke through the poisonous mist and instantly smashed the poisonous hive that was bigger than the hanger into two halves.

In the meantime, there are countless thumb-sized poison bees, and each of them has the ability to poison the three hundred dragons.

"No, everyone is careful!" Tang Huaizhi shouted.

This bee colony has been rolled over to this team, with a total of thousands.

This time, Tang Huaizhi they are miserable.

However, these people are at least the fifth-order of the defensive, even if there are a thousand poison bees, they can't help them much.

Therefore, Ye Xuan shot.

He did not fear the poisonous grass, and rushed toward Tang Huaizhi and others.

"Be careful!"

Tang Huaizhi heard the rapid footsteps and reminded him again, but this is already late.

"what....."

A scream of screams, the elders behind Tang Huaizhi made a miserable cry, and some people were already on the ground.

"Huang Quan sword method, Huang Quan fun!"

A messy and disorderly temperament sweeps out, and instantly kills a fifth-order elder who is defending against poisonous bees.

At this time, the five poisons have already died four people.
