

Super D. S 4381

Chapter 4381: Close-fitting cotton jacket

Jiulong Qingyao was originally obtained from the family library of the Second Universe Yinmo.

At that time, Ye Xuanhua was called the ancestor of the ancestors, and he was the body of the Yin Devil. He claimed to be the ancestor of the ancestors of the Yin Mozu, and he was buried in the endless years and was sealed to the world.

At that time, the main demon of the Yin Mozu was the old Yin of the ethnic group. He completely believed in the identity of Ye Xuan, and took out a ruined and heavy-duty driver in the treasure house of the tribe and dedicated it to his ancestors. that

The Kowloon Green Car is very simple, bronze is cast, revealing a strong sense of desert. It can be said that it is extremely stunning. The nine dragons of the energy form are the size of the car, which is like a moving palace. this

When the treasure is retracted, it is only the size of the palm. Once the sacrifice is activated, there are hundreds of feet, bronze ruts, and nine green dragons in the form of energy. The arrangement is simply stunned. I don't know if the real wildest is coming. .

However, it does not have any attacking ability, but its speed and defensive ability are extraordinary. The results of its ridiculous grades are all due to the extremely luxurious and extremely luxurious results.

In a word, this Kowloon Green Car is definitely more than an artifact, practical, but almost completely ignorant. when

At the beginning, the patriarch of the Yin Mozu, who had been in this dynasty for many years, never dared to sit on it once, because he was afraid of being killed, and he was so powerful, he could imagine his luxury and people. I hate the degree of itching of the roots.

However, this treasure is just right for the high-profile temperament that the ancestors showed at the time, of course, and his identity is also very good.

Therefore, this treasure was taken out by the Yin 7 and presented to Ye Xuan. In the later period of time, he also sat in the position of the Qing Dynasty in the name of the ancestors, a group of Yin Mozu's cultivating service. There are also a large number of Yinmo ethnic groups around. And

The family, Laoyin and other people personally opened the way, all the way called the joyful ancestor, the words of life and the sky Qi, in the second universe of the major stars ... swindling. this

At that time, there were also three major cosmic planes in the world, and later revealed that the so-called ancestors were actually the sorcerer and the sinisters.

The patriarch of the patriarch is even more sinister, and the world is chasing and killing the fox. Family

Laoyinqi and others, even the ethnic groups did not dare to go back, wandering in the stars, and finally fell to the point of the star thief...

However, Ye Xuan would never know, not only Yin Qi and his gang of sinisters who later became gangsters, but all of them entered the emptiness of this piece of land, even before the Yinmo The patriarch of the patriarch, it is also true! this

At this moment, he suddenly thought of the Kowloon Qingya car. He felt that since he could not be low-key, he would be as high-profile as possible. Anyway, the purpose was only to obtain the complete secret of the flesh and blood medicine that was passed down from the large-scale survivors. Only. and

When it comes to high-profile ratios, what better than the Kowloon Qinglan?

However, although the Kowloon Qinglan car is a waste of ancient treasures, it is not uncommon, and it is the same level as the smoky Luo, but when Ye Xuan still repaired to a weaker level, it used it to install the ratio in the three major cosmic planes of the world. The effect is not bad.

It is only a place where there is a large-scale remnant of the emperor's immortality. It is just that, obviously not quite enough. although

However, the grades of the ancient and precious treasures can still make the Fenghuang strong people look at the eyes, but it is not necessary to say that there will be more shocks in the heart.

In order to achieve the superb effect of swindling and swindling around the second universe, this Kowloon Green Car must undergo another refining. nine

Long Qing's driving is a waste of ancient treasures. If placed before, Ye Xuan is simply unable to re-consolidate it.

But now it is different.

On the one hand, Ye Xuan's own cultivation has reached the sixth stage of the imperial eternity. If the blood of the konjac is changed to the seventh change, his cultivation can even be directly promoted to the first stage of the emperor. . another

On the one hand, the Shennong Flame in Shennong Ding has now evolved to the extent of the seven-color flame, and it is not too difficult to re-melt a treasure.

It is a practical and ridiculous treasure that is biased towards defense or attack. Now Shennong Ding has been able to melt, not to mention the fact that Jiulong Qingyi is just a flashy and heavy weapon.

After the decision, Ye Xuan was immediately excited.

This is also a very normal thing. After counting, he has been retreating since he entered the emptiness of this piece of land, or he has been conquering, and he has almost no time to rest. This

Once I re-melt the Kowloon Green Drive, with a certain amount of fictitious identity in his mind, I will enter the large-scale survivor's star field with the seven-and-a-half-step sacred sects of the Emperor... ... From a certain point of view, this process is actually a kind of relaxation after a long period of tension!

Such an interesting thing, if he is not excited, then it is strange!

Think of it!

In the middle of a hand, a palm-sized bronze car appeared in the hands of Ye Xuan. Look

To his action, the seven major essays that were whispering in the air suddenly turned around and looked over. versus

At the same time, the voice of Yan Yanyan also sounded at this moment, the seven major Yan Xiu repairs, all eyes golden light, a look of interest, gathered around...

"A beautiful bronze beast..."

"It's still a treasured place, it's already very extraordinary. In the era of the wilderness, the top treasures are nothing but the ancient treasures, and the treasures are second only to it!"

"However, this is a magic weapon, it seems that there is no defense and attack ability, but it is really too gorgeous, it is just tailored for me."

Yes, with the seven sisters' appearance and body, walking outside, there will obviously be a lot of inconvenience, and with such a beast, you can avoid this..."

"Thank you, Master, you are really... too intimate!"

It's just a close-knit jacket for the sisters..."...

...

As the words of this singer rang, Ye Xuan was like a conditioned reflex, and his eyes swept toward the seven beautiful and beautifully beautiful figures. especially

It was a few more sights in that towering place. versus

At the same time, in his mind, he also quietly showed the words "small cotton jacket"...

For a moment, Ye Xuan's entire face was green without reservation.

Hurry up and drive the slap-in-the-know Kowloon Green, and then, just like disguise, hurriedly said:
"Several Miss Sister, can you not make trouble? The Star Master took out this magic weapon, it is necessary to re-melt... .."

"At present, it is only a treasure trove of treasures. The Star mainly upgrades its ranks and refines it into a wild and treasure. At the same time, this treasure is activated. The only thing that pulls the car is only the nine dragons, it is a bit slick!"

"The Lord of the Stars decided to take out the nine demon dragons of the ancient age and refine them into the real thing...the magic dragon!"

Chapter 4382: Wild to treasure

"The Lord of the Stars decided to take out the nine treasures of the ancient dragons of the ancient age and refine them into it, making it a real thing... Demon Dragon!"

Flocking to a group of gimmicks, gathered around the body, all showed a strong interest in the Kowloon Qing dynasty in his hands, Ye Xuan even expressed his attitude. but

In fact, when he said this, he did not have much confidence in his own heart.

The treasures of the fascinating dragons of the ancient ages are indeed in his hands, and the number is exactly nine. In addition to the dragon, there are many other treasures of the ancient and dead spirits in his hands. Not only are there ancient powers, but even There are ancient and supreme. when

Of course, more, it is still the wild power, and the following levels. Do not

However, at the beginning, Ye Xuan tried to use the wreckage of a powerful and powerful creature, used to refine the treasure, and directly roast. but

At that time, he had not yet been shot, and his corpse light tattoo on his left chest was immediately burned and warned. quasi-

The ancient power level of the ancients and the ruins of the ancient and ancient spirits below this level, Ye Xuan can be used casually, the headless baby body will not interfere, but the treasures of the ancient power level and the ancient and powerful ancient creatures are not listed here. This

It was because of the ruin of the past, the ancient powers and the ancient supremes have fallen, but the ancient towers have drifted over the battlefield and collected a remnant.

In the future, when Ye Xuan's cultivation is at a certain height, it will be possible to pass on the shackles of the sacred souls contained in the towers, and to resurrect these ancient powers and the ancients.

Even if you can't directly resurrect the wreckage of the past, these remnants of the ancient and the ruins of the ancients have the treasures of the past life. When reinventing the true body of this world, it will obviously be easier. Once resurrected, it will be the starting point for strength. It will also be higher. example

Such as Zixia Fairy, that's it. Place

In the past, Ye Xuan has only used the wreckage of the ancient and ancient spirits below the quasi-aged ancient energy level, the real wild power, and the ancient supreme, he has never used it.

The collected two levels of the ruins of the ancient treasures of the ancients are properly stored in the closed caves at the bottom of the volcano of Shennong Dingyang.

Because of this, at the moment, when it comes to the use of the treasures of the nine ancient power-class dragons, Ye Xuan actually has some drums. Health

The fear of the voice just fell, the corpse light tattoo on the left chest, immediately hot again to refuse.

But perhaps this time just because the treasures of these nine ancient big-level dragons are used to refine the magic dragon, not to use the liquid, or to bake directly, it will not cause them. The reason for the destruction. leaf

Xuan's words have been exported for a long time, but the corpse lamp tattoo on the left chest still has no reaction. like

The headless baby body does not object to this matter. "

call out! "

A wave of hands, Ye Xuan will Shennong Ding sacrifice, turned to the side of the seven Yan Yan nodded, and then stepped into the colorful fog of Shennong Ding Ding mouth, closed eyes knees down.

At the same time, Shennong Ding interior space, the bottom of the volcano in the central domain!

"call out!"

Oh..."micro

The sound of the weak air broke out successively, and a singular spurt came from the high point of the volcano above the volcano of the central domain. It appeared directly above the flame pool at the bottom of the volcano, and suddenly hovered for a moment, it was Huang Xuan. For this reason, the various refining forgings and nine treasures of the ancient demon dragons prepared by the Demon Dragons are refining. This

Nine old demon dragons are black and inky, each body is more than a million feet, and the body exudes a strong and fierce atmosphere. Even if it has fallen into endless years, it is still eye-catching and shocking.

Then, from the top of the Dingkou of Shennong Ding, a secluded shot was shot by Ye Xuan, who was thrown by Ye Xuan.

"call....."

In the next moment, underneath all the materials, in the flame pool at the bottom of the volcano in the central domain, a fascinating Shennong seven-color flame whistling, and instantly condensed into a colorful furnace, which is small and simple. An extraordinary atmosphere. With

The formation of this small flame that is condensed by the seven-color flame of Shennong, the various materials that have been prepared and the shards of the nine dragons, and the wreckage of the nine ancient dragons, all fly automatically. Under the power of Shennong Ding's domain field, it has shrunk into the fireworks of Ding Ding. from

Therefore, the refining of the magic dragon Yu driving... officially launched! Do not

Unconsciously, time is slowly passing...

This time refining the magic dragon to drive, in fact, Ye Xuan himself is slightly nervous. One

On the one hand, he used Shennong Ding's seven-color flame barbecue, refining flesh and blood medicine and various kinds of Baodan. Although it is often a common thing, it can be used to refine the device, but it is still the first one.

What's more, Jiulong Qingyi was originally a waste of ancient treasures. This time, Ye Xuan wants to upgrade its power and refine it directly to the level of the ancients and treasures. The difficulty can be imagined.

What's more, this time he also directly used the wreckage of nine ancient dragons of the era of great powers. This is absolutely unprecedented.

Everything is added together, even if it is Ye Xuan, it is not awkward!

"Boom!"

I don't know how long it has passed. Suddenly, a huge roaring sound is heard above the flame pool at the bottom of the central fire. that

The furnace that was condensed by the pure Shennong seven-color flame was scattered, and a colorful fireworks like a river rushed back to the flame pool below. The one above the flame pool was a slap-sized cockroach. Driving treasures. It

All the top refining forgings that have been invested in it, and the wreckage of the nine ancient dragons of the age of the great energy, have all disappeared...

Undoubtedly, this time the refining was successful, all the materials have been fully integrated into one, which has appeared in the bottom of the volcano in the central domain. It is somewhat similar to the original Jiulong, but it is completely different. Driving magic! brain

The thought flashed through the sea, and Ye Xuan's face instantly showed a pleasant color. Before he responded, the familiar system prompts suddenly rang in his head.

"Hey, congratulations to the host! Discover the magic dragon!! Grade: the ancient treasure to the treasure! Quality: perfect! Is it immediately refining?"

Abandoned ancient treasure! And

The appearance is still perfect!

This time the refining system was completely successful..."

call out! "

With the excitement of his heart, Ye Xuan fluttered out of Shennong Ding, carrying a colorful mist, and waved his hand into Baoding.

Then, under the hand, the magic dragon that had just been refining success appeared in his right hand. This

The seat of the product has been upgraded to the ancient dragon to the treasure of the magic dragon, compared to the previous look more luxurious and gorgeous, the whole body of purple gold, surrounded by seven small black dragons, exudes a simple and powerful atmosphere.

The previous Kowloon Green Car has no defense and attack ability, but now the Magic Dragon is a powerful and powerful attack and defense treasure. After all, this time, in addition to adding a large number of top forging materials, Ye Xuan also spent nine years old. The treasures of the great-level dragons...

Chapter 4383: Old ancestors re-emerged

"call out!"

After looking at it in the hands, Ye Xuan directly waved his hand, and the magic dragon in the palm of his hand turned into a black and purple mang, and rushed toward the front, rising in the wind, blinking, and turning For a hundred feet of the size of the car...

The whole block is full of purple gold, and it has a metallic luster. Every inch has a purple gold halo, like a smog in the scorpion, carved dragons and phoenixes, covered with mysterious patterns, revealing a simple and incomparable atmosphere.

The area of the Baobai Baizhang is divided into two parts, the front and the rear. The second half is a dome. It is a secret room. It uses space technology. There is a space inside, and the space is very large. In the first half, there is no dome and four walls. But it was shrouded in a layer of purple smog.

You can sit in the first half to watch the scenery, but even in the first half, there are actually a variety of modes. When needed, adjust to the visually visible mode, and the smog will appear translucent in an instant, just like a layer of purple yarn.

When you don't need it, your mind will move, like a curtain of purple smog, it will become rich in an instant, and everything inside is not visible.

This is just a slap in the car, and there is an extension beyond the body of the car.

This extension is a black giant dragon with seven giants, one hovering behind the car, one on the left and the right, and six black dragons in the front... A total of nine black dragons, all of which are entities, not energy ghosts.

Moreover, the atmosphere of the nine black dragons is also the ancient level of the ancients. If necessary, between the movements, Ye Xuan can control any of the magic dragons to rush to the distance and start the bombing!

Of course, once this is the case, the nine black dragons show the strength of cultivation, which is definitely not up to the ancient level.

The breath is the ancient power level of the wild, but the real combat power is limited by the self-cultivation of Ye Xuan. The stronger he is, the better the battle will be when the nine dragons rush out to kill the enemy.

After all, it is not a real living dragon, but a refining pull.

But even if you can't beat it, the enemy wants to destroy the treasures of these nine dragons, but it is unlikely...

Of course, whether it is the nine dragons, or the car driven by the magic dragon, the size of the hundred-footer is just the result of Ye Xuan's deliberate suppression. If he is willing, the car and the dragon can all Dawanzhang's giant!

But now Ye Xuan has already restored the human form, and this is especially true of the seven ancient and ancient repairs. The treasure car of Baizhang is already enough...

"Wow, it's so beautiful, it's too powerful..."

"The sisters will move to this magic dragon to drive on, and no one wants to drive us away!"

"Play is a play, the master can't do it..."

Seeing the magic dragon in the sky in front of the magic dragon, the seven great repairs instantly lighted their eyes, cheering in their mouths, just like a good appointment, all of them rose up and smashed.

First, I wandered around in the front half of the purple mist curtain, and some of them sit on the low table with a variety of spirits and spirits in the center. Try to make the floor of the fierce animal fur soft and comfortable. Wandering around and overlooking the scenery.

In the end, a lot of tossing, the seven gimmicks all glimpse, directly plunged into the carriage with four walls and domes, the body shape disappeared.

Don't look at this part of the car with four walls and domes is only fifty feet square, but in fact, its internal space is full of tens of thousands of miles, mountains and rivers have both, and palaces and contiguous, the beasts and hens flock... ..

Let these seven gimmicks go for a stroll, obviously not a day or two to go shopping.

Seeing this scene, Ye Xuan shook his head and smiled, but there were other things that attracted the attention of the seven hoes. It also made him breathe a sigh of relief. Now he will not hesitate, and his body will smash into the treasure. Above the car, during the meditation, the nine dragons at the same time lead the neck.

The three sides on the left and right sides and the rear did not move, and the body shape was used as a guardian, while the six dragons in front of the body, but at the same time, the body shape was lifted, and the car was turned into a purple and black glare, and the glare went away. The blink of an eye disappeared at the end of the distant void, and it was not seen...

"call out!"

In the middle of a wave, the elephant fox was called out by Shen Xuan from Shennong Ding, and fell directly on the ground of the soft and fierce fur in the front part of the car.

This time, when he left the base camp of Hongmeng in the void, Ye Xuan did not even bring the eight King Kong, the three-jawed dragonfly and the silver cockroach. Only the fox is an exception.

After all, the body of this old goods has the blood of the treasure hunt. For all kinds of top treasures and resources, it is a natural sense of strength. Bring him around, maybe there is no unexpected harvest.

"Oh, this is..."

As soon as the figure appeared, the sound of horror was heard immediately in the mouth of the fox, and the look of the head turned around, and the face appeared curious.

"This is the magic dragon's driving, the star of the star is only the one that won the sinister demon from the yin dynasty, and joined the treasures of the nine ancient savage dragons..."

Ye Xuan smiled faintly, just like saying a small and ordinary thing, he explained: "So, now it is the grade of the ancient and the treasure, and both offensive and defensive. In the future, this magic dragon is the master of the star. Traveling by car!"

"Abandoned ancient treasures? The wreckage of the magical dragons of the ancient ages? There are nine... oh!"

After listening to Ye Xuan's words, like a fox, it scared a big jump, and the complexion changed, but the sound of the air was heard.

Whether Ye Xuan is now able to refine the ancient treasures, or he has thrown out the treasures of the nine ancient power-class dragons, but only to refine such a big car.

They all made the elephant fox stunned.

However, when he thinks about the name of the three pharmacists in the original fox squad, he will be relieved.

How strong is Ye Xuan at that time? Even the power of even Qiankun is not counted, it has been so enchanting, not to mention the fact that it is now immortal, the means is more enchanting, it was originally intended.

"Hey? Is your repair a breakthrough? Is it already the first step of the king?"

When the elephant scorpion hesitated and still shocked, Ye Xuan had noticed his cultivation. When he last met, the old guy's cultivation was only in the late stage of the battle. He did not expect a short time. Inside, it actually broke through the big realm, and now it is made to seal the king immortal.

Of course, this is also because Ye Xuan has already given him a piece of Wang Baodan. So, as soon as he arrives at the 9th-order Grand Contest, he broke through to the kingdom of the king. It was originally a matter of nailing, and there was almost no suspense. !

"There has been a king, and the blood of the treasure hunt in your body will have skyrocketed..."

After some scrutiny, Ye Xuan was extremely satisfied and nodded frequently. Then he followed the magic dragon of the foot and said: "In the future, you will stay outside, this time I will wait for the large-scale survivor star field. There is still a long way to go. Perhaps, there will be any unexpected gains along the way, and I don't know..."

Chapter 4384: Late king

"call out!"

In the middle of the wave, a man rushed toward the elephant fox.

After the man fell into his forehead, Ye Xuan took it: "This is the virtual coordinate position of the large-scale survivor's star field, and the control authority. The star mainly goes in and closes once, and breaks through. In the future, the dragon will drive I gave it to you to control..."

After that, Ye Xuan nodded to Xianghu, and turned into the compartment of the second half of the car.

"call out....."

When the sound of the air broke, Ye Xuan seemed to just walk into the carriage, but in fact it was just like a transmission, and it entered a vast space.

The sky is very blue, the underground mountains are undulating, green and green, there are mountains and water, and a group of beasts and birds fly over the sky.

In the distance, there is a huge peak, and there are even a series of palaces. There are some vague laughs from women. I must first enter the seven major rehearsals here, and play there.

"It won't be..."

Ye Xuan suddenly thought that there was a warm spring in the back of the palace.

Listening to the faint laughter from the peak, it is clearly the position behind the palace. With a flash of light in his mind, he couldn't hold it at this moment. The ghost made the difference, and he would rush to the other side.

But think about the strength of these seven gimmicks over their own, Ye Xuan suddenly slammed, don't be cheap, but the result is fat.

"The owner's name is good, but... the star seems to have no sense of belonging to this title!"

Mouth a few words in his mouth, Ye Xuan shook his head and smiled, turned and spurred in another direction.

After a short time, I came to a valley behind another huge peak. I waved my hand to sacrifice the Shennong Ding, and kept it in a shape of about a thousand feet.

Then, Ye Xuan's figure swayed and went straight to Shennong Ding's tripod with a colorful mist, sitting cross-legged!

This time, the cultivation resources that he prepared, in addition to the purple blood of the top **** drugs, are the vicious beasts that have been obtained before the war.

He did not use the seven blood seals.

Thirty-six pieces of royal blood, he took sixteen, and the remaining twenty were still preserved.

In addition, all the 137 seals are blood.

Finally, there are a few top resources that were previously available in the sky...

All of this was sacrificed by his wave, hanging in front of him, and then he controlled the field power of Shennong Ding, directly compressing it into a ball and swallowing it into the abdomen.

And in the blink of an eye, it was completely opened, and it turned into a breath of energy and flow. In the limbs of Ye Xuan's body, it quickly rushed and flowed...

"Oh la la..."

Almost in the next moment, the sound of the overwhelming chain makes it easy for Ye Xuan's body to ring.

This time, he swallowed so many beasts of blood in his body, but there is only one chain that appears in the body.

This makes Ye Xuan feel helpless, because it means that as he cultivates strength and strength, each breakthrough in the future, even if it is only a small stage, the cultivation resources that need to be poured out will be extremely amazing.

Therefore, in order to continue to grow and grow rapidly, Ye Xuan has no choice but to continue to fight and plunder a large number of cultivation resources.

Because it's not just what he needs, but also a friend who is still a member of the family.

The starry environment is originally the case. Weak meat and strong food can only survive if it is strong, otherwise it can only be reduced to the flesh and blood of others.

These thoughts suddenly flashed in Ye Xuan's mind at this moment, but now it is obviously not a time to consider all of this, because he is now breaking through.

Shaking his head and driving away these chaotic thoughts from his mind, Ye Xuan immediately calmed down and began to mobilize the energy in the meridians of the body to carry out the large-circle operation once and for all, thereby accumulating the shock chain. power.

For all of this, Ye Xuan has already been familiar with the road, without any delay.

Time is slowly flowing. During this period, Ye Xuan has always poured all his mind into the body, urging the body to hang the energy of the river, and in the whole body of the treasure body, the second big day of operation.

In the end, everything is no suspense. When all the energy is refining, it is only a shock, and the chain is broken.

And with this extremely thick shackle chain finally completely broken, the expected system sounds, and soon in the mind of Ye Xuan...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the emperor is immortal seventh!"

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: Fenghuang immortal seven orders!"

With this breakthrough, Ye Xuan's combat strength climbed again!

And the extent of the climb is not small, because the seventh order is already the late emperor!

Previously, the strength of his deity was only the sixth order of the emperor. Once he activated the blood of the ancient konjac in his body, he could climb to the seventh stage of the emperor.

If you use the konjac to change your magical powers and reach the seventh change, the combat power will immediately rise to the fifth stage of the emperor's immortality.

But now, with this revision as a breakthrough again, after activating the blood of the konjac in the body, Ye Xuan will enter the immortal eighth order.

If you turn the magical power of the konjac into the seventh change, its peak strength can reach the sixth stage of the emperor's immortality. This is the mid-peak!

In fact, in the seventh metamorphosis, the giant konjac in the real body, the horrible power of the arrogant, the seventh change, Ye Xuan, even if encountering the Emperor Immortal seventh-order, the eighth-order realm of the late emperor, can be fearless.

It can be said that now he can only pose a threat if he is enshrined in the ninth order of the emperor, that is, the half-step cosmic sage...

"call out!"

After the end of the retreat, Ye Xuan grew up and rushed out from the Shennong Ding Ding mouth with a colorful mist. At the same time, he waved the treasure directly into the immortal world.

After looking at the time, I actually went through the whole three days. It seems that this breakthrough is not easy. I think most of the subsequent breakthroughs will be like this. Now he is the late emperor, and the improvement of strength will come. The harder it is.

Thinking of this, Ye Xuan sighed and sighed, and the body shape rushed out of the valley. It was originally intended to pluck the rolling palaces of the peaks and peaks, but it was not yet close, he found that there was a quiet, suspected in The seven great repairs of the bubble spring here are clearly gone.

Extending the knowledge of God, Ye Xuan quickly discovered that there were no seven beautiful figures in the interior space of the entire car.

Obviously, the seven gimmicks wandered around for a few days. I thought it was boring, and I left the interior of the carriage and ran outside.

"Not good, like a fox is still outside, that old guy... will not be tossed, right?"

The thought flashed through my mind, Ye Xuan took a sigh of coolness, his face changed slightly, and then hesitated, turned and took a step, and his body shape disappeared instantly...

Chapter 4385: Seven grandmothers

"call out!"

As the figure sways, Ye Xuan's figure emerges from the interior of the compartment and appears on the side of the vestibule of the car.

Almost as soon as his body shape suddenly appeared, not far from the front, the screams of the foxes had already passed, and the people shed tears, so that Ye Xuan, who had not had time to figure out the situation, had it's chilling...

"Grandma, old man, I don't dare anymore..."

"Guarantee, this time absolutely guarantee, no longer escape, no longer make small moves, let the dragon attack several aunts..."

"Seven grandmothers, let's put the old man as a fart..."

With the pleading of this voice, Ye Xuan looked stiff and subconsciously turned his head and followed the sound.

In the scene that I saw in the eye, he immediately took a sigh of relief, and his body shape was subconsciously stunned again.

Poor elephant fox licks an old bone, but now it is surrounded by seven hoes... indecent!

To be indecent, in fact, only after Ye Xuan saw this scene, the thought that first appeared in his mind, in fact, whether it is like a fox or a seven hoe, I am afraid that there is no such feeling.

The old man must feel that he is being shackled, and the seven gimmicks, most of them feel that they are punishing the elephant fox... After all, listening to his words of pleading, this guy seems to have been not very good in these three days. honest.

He even tried to escape, trying to control the nine dragons and attacking the seven gimmicks with the authority that Ye Xuan gave him... but obviously, in the end, he all failed.

These seven gimmicks can all be half-stepped emperor. In order to be like a fox, only the king's immortal first-order cultivation is the strength. In front of them, there is no possibility of fleeing halfway. How far can you escape first? Get caught.

As for the nine dragons, although they are temporarily controlled by the elephant foxes, and the treasures are incomparably powerful, they are the cosmic sages, and they can't be bombarded, but the temperament that they radiate in the body is the ancient power level. The power that can be truly demonstrated is limited by the level of the controller's own cultivation.

Elephant foxes only seal the king's immortal first order. These nine dragons have arrived in his hands. At most, they are how to fight how the bangs are not bad. The manifested power is simply impossible to shake the half imperialism. Seven gimmicks in the realm!

It's no wonder that he is so hard and begging for mercy. When he is old, he still screams at his grandmother. It's really hard for this old guy...

In fact, this is not the most bitter. What really makes Ye Xuan stand out is the scene that is in front of you.

Since following the Ye Xuan, the old guy is interested, perhaps for the sake of a good impression. He has never changed the appearance of the adult family. On weekdays, he shows the true form of a fox.

The body is a furry mole, with a long elephant nose on his head and a fluffy foxtail behind his back...

Moreover, because it is often used as a pet in the violent right shoulder pocket of the starry sky, the true form of the old guy like the fox is basically kept in his size.

It's just a foot away, and the two buses are often big.

Now, surrounded by seven gimmicks, it is such a seemingly weird, but faint and revealing cute little gadgets.

The seven gimmicks are obviously not interested in him. They may have wanted to treat him as a pet, but perhaps this old guy has been inferior in these three days. Now, the fluff of his whole body is all dialed. Light... The whole is a bald squirrel with a long elephant nose!

The reason why Ye Xuan's mind has revealed that the old guy was indecent is the reason.

Mao has been lighted up, and the old guy's body is covered with red fruit. Isn't it a gift?

"Head, head... help!"

Just as Ye Xuan looked at it all oddly, the elephant fox, surrounded by seven gimmicks, finally saw him.

The old guy's body trembled, and the mist suddenly appeared in the ripples. He smashed his heart and smashed his throat: "Hey, you just walked for a long time, and suddenly there were seven female demons on the car." Head, I have to take Benedict from your side and say that it is a pet for them. I swear to die, I originally wanted to escape. I didn't expect to be arrested again and again..."

"Then the old man wants to control the nine dragons to win them. Who knows... the first of these, the nine dragons are the ones that can't be used in the middle. The breath is the power of the wild, and it's

in the hands of Benedict. The kingdom of the king is similar to that of the old man, and it is not used at all!"

"Poor old man, my body hair... I tried a few times, and there was no one left, all of them were lighted..."

With the crying of the cry, a sorrowful resentment emerged from the body of Xianghuyu. It seems that in this short three-day period, the old guy was really not tortured and was bullied!

Ye Xuan shook his head and smiled, even when he introduced the two sides.

At this point, the elephant fox stunned and realized that the seven servants who were terrorized were actually the first-serving maids, and they were also servants.

However, although they are also all dependents, the cultivation of the seven people is placed there. It is much stronger than before the head of the konjac is changed. He is naturally offended.

Moreover, the seven gimmicks are so beautiful, and the head is estimated to be reluctant to punish them. In fact, even if they punish, the first person may not have played seven.

The grievances suffered before were sinned.

One thought of this, like a fox screaming incomparably sighed, under the shape of a sway, a thick fluff came out again, and his body shape, it fell on the shoulders of Ye Xuan...

Seeing this scene, all the seven gimmicks were picked up by Ye Xuan's side, and surrounded his body. You said a word, I'm not finished...

"It turned out that this guy was actually the owner's pet..."

"Before I knew this, a few of our sisters wouldn't force it to be a pet for us. The owner's pet is not the same as our pet?"

"Fortunately, I had to pay a lot of money before, and I didn't kill him on the spot. Otherwise, I am afraid I will be punished by the owner..."

"Head, the front... there are a lot of life stars! A strong life!"

Just as Ye Xuan was stunned by the seven hoes, the elephant python lying on his shoulder suddenly screamed and raised his finger to the front.

In the next moment, Ye Xuan and the seven gimmicks all turned to the first, and the gods extended and went far away.

The front star field in the line of sight is about 100 million miles away. A fierce beast is forbidden to see it. Looking at its scale, it should be like the phoenix cricket. It is a mid-level banned land with the immortality of the king.

At this level of forbidden land, Ye Xuan has not had much interest, but after all, it is a few kings of blood and 10 blood seals. Since it is encountered, naturally it should not be let go...

Chapter 4386: Magic dragon

"call out!"

In the void, a black and purple glory flashed past, the speed reached the extreme, surpassing the lightning, and the blink of an eye broke into the medium-sized starry ban, followed by a stop, a hundred-foot-sized Zijin Yokohama high altitude.

This purple gold is extremely simple and sleek, and there are nine powerful dragons that are all in the dark. The body is filled with the breath, all of them are ancient power levels.

At the vestibule of Zijin's squatting, there are eight figures standing. The current one is Ye Xuan, and the shoulders are squatting with three-tailed foxes.

Behind him, the seven old sorrows, such as the ancestral sorrows and sorrows, were lined up in a row, and all the faces were full of expressions of interest...

Almost in the same moment that the magic dragon smashed into a black and purple stalk, and came at a high speed, hovering over the void, this area of the forbidden land of the medium-sized starry sky immediately rang the sound of a roaring beast.

Countless figures, rushing out of the atmosphere of a single life star, desperately fleeing to the surrounding.

Ye Xuan's knowledge extends and opens up, and the entire starry sky is forbidden. Those who have cultivated their strength to be under the immortality are not interested in it. The air machine directly locks in the eleven seals, and four Seal the king.

Then, with the lightness of the leaves in the leaves of Ye Xuan, a purple pattern of sorrows and sorrows, immediately fell into the front of the six heads of the six dragons.

"Hey!"

"Hey!"

These two dragons suddenly screamed at the neck, and their sounds seemed to bring some kind of mysterious magic power. When they covered the vast medium-sized starry sky, they invaded the countless forbidden beasts that were fleeing in the void. When I fell down, I didn't dare to move.

Even the eleven seals and the four kings are all the same.

Only one glimpse, the dragon is fierce, it has been undoubtedly!

In the next moment, the two dragons took shape and left the queue directly, rushing to the front and left sides, aiming at the four kings immortal.

"boom!"

"Hey..."

There is no suspense, and as the two dragons spurt away, they reach the front of the four kings who crouched on the ground in the blink of an eye, raising their hands under the claws, and immortalizing the four kings on the spot. , directly shot into a blood fog.

Immediately afterwards, the body shape turned around and immediately rushed to another eleven heads to seal the immortality.

There was no suspense in the following. The eleven heads were immortalized in just a dozen breaths, and they were completely slain and turned into a canopy.

After doing all this, the two dragons didn't pay attention to other forbidden beasts, and one turned back, and instantly turned into a black lightning, and returned to the queue.

And Ye Xuan, who waved at this time, took the fifteen awnings of blood and brought them into the body and sent them to Shennong Ding. In the blink of an eye, they became four kings of blood, and eleven seals. .

"call out!"

Then, under the enthusiasm of Ye Xuan, the six dragons pulling in front of them were simultaneously thrown out, and the magic dragon was once again turned into a purple electric color. The speed exceeded the lightning, and the eyes disappeared and disappeared at the end of the void. I don't see it...

A similar scene, often in the next three months.

In the past three months, the dragon dragon has driven to the universe in front of the road, and sometimes encounters a small forbidden land and a medium-sized starry forbidden land.

With Ye Xuan's current level of strength, there is not much interest in this medium-sized, small-scale forbidden land. However, in order to break through the cultivation, he will push his own strength to the

second-order immortality of the emperor as soon as possible. He cannot let go of any one. The seal of the blood and the blood of the king.

However, it is only limited to the end of the season, the ordinary immortal level of the banned beasts, for him now, the effect is very small, the meaning of hunting is not great.

Every time, when there is a big or small starry forbidden land in front of the road, Ye Xuan is controlling the magic dragon to shoot, directly killing and sealing the king, refining it into blood, and then continuing on the road...

Three months later, the Dragon Dragon slammed across the extremely distant void, and successively encountered seven or eight small and medium-sized star bans. Ye Xuan's hand-sealing and blood-staining had reached forty-two and One hundred and eight.

The reason why there are more than forty pieces of blood in the king's blood is because the 20 pieces that were previously reserved for the refining of the Emperor Baodan are counted among them.

Twenty-two seals of the king's blood and one hundred and eight seals of blood, if it is combined with the evil source liquid and purple gold top flesh and blood medicine, and the various scarce cultivation resources that Ye Xuan seized from the Hong Kong virtual space. ... basically has been able to support his cultivation as a strength, and then complete a breakthrough!

However, after some consideration, Ye Xuan did not decide to break through immediately.

Because of his radical derivation, there is still a distance of less than two months ahead of the star, and you can reach the large-scale survivor's star field.

In the two-month voyage, there are still four medium-sized star bans.

If there are no accidents, in the four medium-sized stars, the Ye Xuan will once again harvest a lot of Feng Wang, Feng Ji-class beast blood.

In this way, after swallowing all the blood of the beasts in stock, he has more than 70% of the grasp, and can once again greet one after another.

Nowadays, under the ordinary human form, he has been repaired to the strength of the imperial seventh stage. If it is ushered in another two consecutive breaks, the cultivation will be ascended to the imperial nine-order great consummation.

That is to say, the same as the seven sacred repairs such as the corpse of the ancestors, the half-step of the emperor!

If you want to enter the large-scale survivor's star field, you will be the most basic requirement. If it is not time-critical, Ye Xuan wants to break through to the true emperor and immortality.

With this kind of thought, the dragon dragon drive continued to move forward, and after more than 50 days passed, Ye Xuan and his entourage met three medium-sized star bans and won many seals and seals. Blood essence.

There are more than 20 days of star-distance distance in front of you, you can reach the edge of the large-scale survivor's star field.

Before entering, Ye Xuan and his entourage will also encounter the last medium-sized starry ban on the way, just in the distance of the star road about seven days ahead.

Under the speed of speed, seven days passed by.

At the end of the line of sight at the end of the universe, the stars of life are in sight, and the last star-shaped forbidden land along the way to the large-scale remnant star field has finally arrived.

Ye Xuan's knowledge was extended in an instant, and only a moment ago, this medium-sized starry ban was completely covered, and the four beastly kings and the twelve sacred beasts were clearly incomparable in his sense. in.

"The four kings, the twelve seals? It seems that this time the capture is not small..."

Recovering the power of the gods that went to the investigation, Ye Xuan's flashed a touch of fine mans and whispered: "After this hunting, the king's blood in the hands of the Lord will reach fifty-eight. Sealing blood, there are 188 pieces..."

"So, together with the flesh-and-blood medicines and the all-natural source liquids, as well as the top scarce resources seized from the piece of Hongmeng, all swallowed, and once again ushered in a two-round break, it should be a problem..."

Chapter 4387: Feng Di

Then, with the lightness of the leaves in the leaves of Ye Xuan, a purple pattern of sorrows and sorrows, immediately fell into the front of the six heads of the six dragons.

"Hey!"

"Hey!"

These two dragons immediately screamed at the neck, and their sounds seemed to bring some kind of mysterious magic power, covering the entire medium-sized starry sky, while also allowing countless forbidden beasts in the void to escape, all trembled. I crouched down and didn't dare to move.

The next scene was a light car, and the two dragons breathed away. In a short period of time, they made the four kings immortal, and the twelve heads were immortal, all of which were made into a **** fog.

When the magic dragon returns, Ye Xuan has waved all the blood fog and sent it to Shennong Ding in the body, directly refining it into a vicious beast.

Subsequently, the Dragon Dragon turned into a purple-black man, and rushed forward again.

At this time, Ye Xuan turned to look at the seven Yan Xiu Xiu and Xiang Hu Yu behind him and said: "There are still ten days, the destination of this trip will arrive, but before this, this The star owner will enter the space of the car and break through again..."

"If the Lord has not come out before entering the edge of the large-scale remnant's star field, then you will temporarily stop and crouch in the void, and you should not easily enter..."

After that, see the seven Yan Xiu Xiu and Xiang Hu Yu nodded and said that Ye Xuan was relieved, and the body shape immediately entered the space inside the magic dragon, still coming to the valley before, waving The Shennong Ding sacrificed.

Today, he has a total of 188 seals of blood, and 58 of them are bloody. He decided to use them all. As for the other seven seals, he did not use them.

"call out!"

"Hey..."

With the wave, these fierce beasts and a large number of top-level cultivation resources were taken out by Ye Xuan, and the blink of an eye was compressed by the domain power of Shennong Ding in the body.

Turned into a small ball, and then a mouth swallowed into the abdomen, turned into a majestic energy river, and it rushed open!

Then, the sound of the shackles of the slaps, and soon, continued to sound in his body. This time, due to the large number of top-level cultivation resources swallowed, as Ye Xuan expected, there are two chains in the body.

This makes Ye Xuan very happy, because no accident, it will once again usher in a two-time break.

Soon, the cultivation resources that were swallowed up in the body were turned into a majestic energy river. Under the guidance of Ye Xuan's knowledge, in the limbs of his body, he quickly swelled and rolled up. It is like a broken bamboo.

The pain in this period need not be said, but Ye Xuan has long been used to it, and there is no discomfort.

"Hey!"

"Hey!"

I don't know how long it took, and with the sound of two huge gold and iron crosses, the two chains that appeared in Ye Xuan's body all broke off!

Almost at the next moment, the familiar system prompts once again sounded in his mind, two in succession...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: Fenghuang immortal nine-order great perfection!"

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: Fenghuang immortal nine-order great perfection!"

Fenghuang... The 9th order is perfect!

After the previous breakthrough, if he turned the blood of the konjac into the seventh change, the peak power that can be achieved in an instant is the sixth order of the emperor.

At the moment, with another breakthrough in a short period of time, now Ye Xuan, in the state of entering the seventh change of the konjac, the peak force will rise again, reaching the end of the emperor's immortal eight-order, combat power, Climb a big chunk again.

Even if it only activates the blood of the konjac, it does not display the konjac change, and the body shape is only ten feet high. His cultivation will also reach the immortal level of the emperor, and has a moment to cross a big realm. Terrorist force...

"The Emperor's immortal ninth-order grand perfection... finally reached the peak of this great realm!"

Open his eyes, Ye Xuan's bottom flashed a touch of excitement, and then, almost subconsciously, he suddenly reached out, under the palm of his hand, at the palm of his hand, a purple gold Baodan appeared in an instant.

Can help the Emperor's ninth-order grand perfect level of the strong, in a short period of time to break through the emperor's immortal... Twenty-four Dan!

This Dan, Ye Xuan originally produced five pieces of furnace, this time taken out, is one of the best quality, used to swallow, and thus broke through to the realm of the Emperor!

After everything was ready, Ye Xuan did not have too much delay. When even the twenty-four-level Dan that was taken out was thrown into his mouth, then he took out a batch of cultivation resources again, and compressed the domain field power of Shennong Ding. Into the ball, also swallowed in the abdomen.

This twenty-four-level Dan and the cultivation resources that have been compressed into **** have been opened up in an instant, forming a huge energy river that appears in the body of Ye Xuan.

Everything in the following is still the case. With the guidance and guidance of Ye Xuan's gods, this huge energy river is inextricably linked, and in a moment, it follows the sacred method of the ancient and the sacred, and in Ye Xuan's limbs, Quickly flowed around to form a big Sunday operation.

This time, although the shackles that appear in his body are only one, but they are very strong, representing the leap of the big realm.

I can't tell how many big Sundays have been completed. When this hanging energy is completely refining, Ye Xuan has no hesitation. Even when he urges the real Yuan Dajiang in the meridians, he is facing this stupid chain. Slammed away.

"Hey!"

Without any suspense, after the gold and iron symphony, the chain of shackles should be broken.

In the next moment, the familiar system prompt sounds again in his mind...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the emperor is immortal!"

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: Fengdi immortal first order!"

Finally... the emperor is immortal!

The breakthrough that was just completed not long ago, if Ye Xuan turned the blood of the konjac into the seventh change, the peak power that can be achieved in an instant is the eighth order of the emperor.

At the moment, with another breakthrough in a short period of time, now Ye Xuan, in the state of entering the ninth change of the konjac, the peak force will rise again, reaching the ninth-order great perfection of the emperor...

Even if it only activates the blood of the konjac, it does not display the konjac change, the body shape is only ten feet high, his cultivation will also reach the second order of the emperor!

That is to say, now Ye Xuan, even in the normal human form, the weakest cultivation is the strength, and it has reached the Emperor. As long as he thinks, after entering the seventh change of the dragon, he will enter the realm of the emperor. The most peak.

Coupled with the huge konjac of 100 million feet, the power of terror and blood in the body is the true cosmic sage, fearing that it can also fight!

"To this day, the Lord of the Stars, finally have the strength to fight with the cosmic people?"

With clenched fists, Ye Xuan's body shape trembled with excitement, and a passion, a long time in the chest, repeated...

Chapter 4388: Void not extinguishing inflammation

Xuanhuang Xingyu, the vast expanse of hundreds of millions of miles, the only large-scale survivor star field, and the Xusheng ban on the other side of the multi-million-dollar emptiness, is the strongest in this region. The two big forces.

Xu Sheng banned the land, but this morning has been ruined, but the news has not yet reached the Xuanhuangxing domain, so it is still very calm.

The territory of the entire Xuanhuangxing domain is tens of billions of miles. There are countless stars in it, most of which are abandoned stars, and there are more than 3,000 stars in life.

Among the more than three thousand life stars, there are both ancient and dead animals and starry beasts.

There are more than a thousand life stars that belong to the starry beasts. In the other two thousand life stars, all living things are ancient people.

In this territory of the forces that belong to the rule of the remnant, the reason why there will be more than a thousand stars in the sky and the beasts inhabit the stars, because the ancient survivors who ruled this Xuanhuangxing domain also need the resources of the beasts.

And the demand is still quite a lot, because the ancient survivors of the Xuanhuangxing domain must refine the flesh and blood medicine and supply the cultivation, and the flesh and blood of these fierce beasts is the essential material for refining the big flesh and blood medicine. and also

That is to say, the starry beasts of the more than one thousand beasts and stars in the Xuanhuangxing domain are actually as low as the abandonment of the ancient relics of the Xuanhuangxing domain.

They are not without thinking about escaping, but it is obviously impossible. In the stars of more than a thousand beastly beasts, although there are also powerful beasts that are waiting for the seal, and even the king and even the royal family, they can Compared with the ancient survivors of the Star Field, the strength is weaker than a little bit...

To say, simply can't escape! whole

Within the Xuanhuangxing domain, the ancient survivors are countless, divided into tribes, and the ruling class is the old royal family composed of the patriarchs of one tribe.

In the old palace of Xuanhuang, there are more than 200 old kings and 16 old emperors. Among them, the emperor's ninth order is perfect, that is, the half-step emperor's family, there are four in total. name!

It can be said that even if compared with the Xusheng forbidden land, Xuanhuang Xingyu must be significantly stronger. If this is not the case, the forbidden places in this starry sky can be seen everywhere, but the sacred stars are numerous and vast. The imperial star domain simply cannot exist. leaf

Xuan guess is right, Xuanhuang Xingyu really inherits the ancient refining secrets from the era of the wilderness, and it is a very complete inheritance. In contrast, the Sangzhixing refining secret is only a Only fur. in

In the northwest corner of Xuanhuangxing, there is a universe of about one billion yuan in space, an empty piece, not even a star, just like a huge black hole, but there is no black hole unique invisible suction force exists. .

This area belongs to the restricted area in Xuanhuangxing, and no strong survivor is allowed to enter easily. thing

In fact, there will be no legacy of democracy going into here, even if it is only close to the edge of this area. package

The same is true of the starry beasts that live in the thousands of fierce beasts in the Xuanhuangxing domain. because

It is extremely dangerous for this piece of a billion-mile area. Even if the king-level powerhouse enters it, it is very likely that it will encounter a crisis of life and death. If it is not good, it will not come out.

However, for the ancient survivors of the Xuanhuangxing domain, this piece of a billion miles, like a giant black hole-like mysterious void, is indispensable. base

Every year, there are a large number of abandoned ancients who have been cultivated in immortality. They gather in the vicinity of this area to start hunting. and

This annual hunting operation, the target of hunting, is not a starry beast. In fact, in this area like a black hole, there is no starburst at all, even the stars are not empty, empty. Like a world of nothingness...

The high-ranking members of the Xuanhuangxing domain, in this empty universe of the void, the target of hunting is actually a kind of flame, a kind of erratic, like a ghost, it is impossible to be unpredictable, they call it the void. The world is different. and

The purpose of hunting for this kind of emptiness is to use it to refine the top flesh and blood.

The secrets of refining medicines from the ruins of the Xuanhuangxing domain are extremely complete, and they have a far-reaching difference from the furs owned by the survivors of Sangzhixing.

The flesh-and-blood medicines refined with this complete refining secret method are far from being imagined by the survivors of the Sangzhi Star Field. but

In the same way, this complete refining secret has various requirements and limitations, which are extremely demanding. except

The materials used to refine the big flesh and blood medicine, such as the beasts and flesh and blood, all kinds of top treasures, etc., must be strictly in accordance with the order and quantity defined by the secret law, and the flame of the big medicine is also used. Rigorous requirements.

Ordinary earth fire, although the star flame can also be refined, but the refined flesh and blood medicine, the effect will be greatly reduced, can not be said to be lost. and

This kind of ecstasy is like a ghost, and the mysterious emptiness of the dragon that sees the tail is not the best. It is the best fireworks used to smelt flesh and blood.

The void does not extinguish the inflammation, it is also graded, the worst, the color is dark, and the best is completely transparent. The naked eye can't see it at all. Only the sensory sense can capture its existence.

But this kind of completely transparent, the **** void that can't be seen by the naked eye is not the most difficult to capture. Since the endless years, Xuanhuangxing has never captured this level of emptiness, even if it is only a small one. Cluster flames! calendar

In history, the ancient survivors of the Xuanhuangxing domain, in this empty space of one billion miles, the best quality of the void is not extinguished, but it is a double-faced, non-inflamed, the number is Baizhang. The Fangyuan was regarded as the treasure, and was divided by the four and a half steps of the family.

The double shuangwu word of Shuangwu does not extinguish the inflammation, which refers to the color level of the void. no

The color shades between the transparent and the pure black and white, which are divided into nine grades. Under the colorless and transparent, the lightest color is the single black and the non-inflammation, and the deeper is the double-black, and the analogy... ..

Jiuwu does not eliminate inflammation, but the quality is only slightly stronger than the pure black.

In other words, the virtual air does not have inflammation, there are actually 11 grades, single black to nine black, plus the best quality colorless and transparent, and the worst quality pure black!

Right now, it is the time of the year to hunt for the void. In general, the best hunting period is a month in total, because in this month, the void in the emptiness of this one billion mile is the most active, and it is more labor-intensive to find. this

At this moment, the entire top of the remnants of the imperial concubine, almost all of them are gathered around this empty void.

Sixteen emperors, more than two hundred royal seals, more than two thousand seals, since the tens of thousands of ordinary immortal... This is definitely a powerful force, even if Ye Xuan met, they have to shrug However, moving!

Chapter 4389: Xuanhuang Xingyu

The void is not strong, the inflammation is extremely strong, erratic, and the whereabouts are secret, like ghosts.

In the mysterious void of this billion-mile circle in the Xuanhuangxing domain, why is there a void that will not be destroyed? No one knows the reason for the root cause.

In the past, there were once high-ranking survivors who entered the void, on the one hand to explore the mystery of the birth of the void, and on the other hand, to capture the void.

But after a long period of time, all the survivors who entered this mysterious void have all fallen.

Among them, it even includes a half-step seal emperor of the nine-step grand perfection!

The strange thing is that these voids are not extinguished, only in this one billion yuan, like the black hole in the mysterious void internal activities, will not rush outside the black hole.

Therefore, the remnants of Xuanhuang Xingyu capture the emptiness of the emptiness, all waiting for the edge of the black hole, waiting for a certain vacant space that is active in the depths of the black hole to swim to a relatively close distance, then display the magical power Means to capture instantly. and

If you accidentally cross the border and enter the inner area of the mysterious black hole in this process, then this mysterious black hole in the void is originally very leisurely, just like a cluster of fish in the pool is generally casual, and it will be exposed in an instant. The sly face has become extremely violent.

The glare between the blinks, overwhelmingly covering the whole body... It is hard to resist the prestige of the half-step emperor, and will be burned to nothingness in an instant, and the gods will disappear! This

The way of hunting, the ingredients of luck are too big, if you are lucky, you may just approach the edge of the black hole void, and immediately there will be a cluster of voids in the vicinity of the vicinity.

And if luck is bad enough, perhaps until the end of the one-month active period every year, there will be no cluster of emptiness and immortality close, so that you can only sigh and sigh, secretly depressed.

Since the long years, the remains of the relics in the Xuanhuangxing area have been closely watching this mysterious black hole void, and everything that happens during the one-month period of the virtual period is recorded. . Long

For a long time, the entire mysterious black hole of the vast expanse of billions of miles wide on the long boundary line, which part of the region has the highest frequency of emptiness, which frequency is the lowest, has been deduced. that

These are tens of thousands of ordinary immortal, can only wait in the area where the frequency of the void is the lowest, and the hunting section allocated by more than 2,000 immortals is obviously slightly better.

As for the area where the more than two hundred kings are immortalized, the frequency of the emergence of the void is already high. and

The entire mysterious black hole around the virtual boundary line, the area where the void is the most frequent occurrence of the emptiness, the 16 emperors who belong to the banned emperor are immortal.

The width of this boundary line is hundreds of millions of miles. Every time you capture the void, the sixteen emperors of Xuanhuang Xingyu will be scattered and open in this area, waiting in the mysterious black hole. Outside the boundary line, wait for a cluster of voids to appear, and then shoot out and capture it...

This year's hunting season has arrived, and it has been three days.

For the whole three days, there were some voids around the boundary of the black hole in the Xuanhuang Xingyu 16th Emperor's immortality. The small ones only had a big fist, and the big ones had a hundred feet. All have been successfully captured by them.

However, these captured virtual voids are not extinguished, and the highest quality is only the six blacks that are not extinguished. This is already a medium-lower quality, and the sixteen emperors are extremely dissatisfied. because

The quality of the emptiness and inflammation of the emptiness will directly affect the efficacy of the flesh-and-blood drugs that have been refined. he

They can all be immortal, and the nature of refining can't be ordinary flesh and blood. It's just a collection of the beastly material and all kinds of precious treasures. The value is extremely high. If

It is because of the poor relationship between the captured virtual air and the inferior inflammatory grades, which leads to poor quality of flesh and blood medicines in the coming year. It is also a pity. for

To solve this problem, at this moment, the sixteen emperors of the Xuanhuangxing domain have been immortalized, and they have gathered together, and they have settled in the universe of the universe beyond the mysterious black hole void boundary. odd

The strange thing is that there are seventeen figures standing in the void, except for the sixteen emperors, and one king.

If Ye Xuan is here, seeing the first step of the king, he must be shocked, because this person is the patriarch of the former second universe, the genie, who once madly chased the three major cosmic planes in the world. emperor! thing

In fact, the time when the Yin Emperor entered the emptiness of this piece of ruined land, still before Ye Xuan, the first group of strong people who entered the void, was the yin and his tens of thousands of Yin Mozu The Yin Emperor followed closely behind.

After entering the vast void crack, the Yin Emperor and the Yin 7 and the tens of thousands of Yin Mozu people smoothly merged together, releasing their former suspicions, working together, and working together to explore the front.

During this period, they experienced a lot, and finally came to this piece of the ruins of the ruins of the heavens and the earth, and were met by the emperor of the Emperor's Stars in the void of the universe, and the Yin Emperor and others, including their star-ship battleships, all took Arrived at the Imperial Palace forbidden. most

At the beginning, the Yin Emperor and the Yin 7 and the tens of thousands of Yin Mozu people were not highly treated in the Xuanhuangxing domain. although

However, it was not locked up, but the top of the Xuanhuangxing domain did not take them seriously, just because they were curious about the starship battleship they brought, and they were curious about the so-called three starry sky, so they needed to pass These tens of thousands of Yin Mozu people to understand.

But later, a monarch was immortal and unintentionally discovered that the physical form of the Yin Mozu can actually transform its own temperament to be exactly the same as the emptiness of the emptiness, and even the strongest of the royal world can not distinguish between true and false.

Since then, the status of the Yin Emperor, the Yin 7 and the tens of thousands of Yin Mozu people in the Xuanhuangxing domain has been rising. because

No matter whether it is a survivor or a beast, it is impossible to enter this mysterious black hole void that will not be destroyed. As soon as it enters, it will be recognized as an intruder by all the voids. but

The Yin Mozu can transform its own breath. After entering, all the voids will not attack them, and even treat them as similar.

In this way, as long as the sinisters of the mysterious black hole are used to display some means, they can be like a bait. From the depths of the mysterious black hole, a cluster of voids will lead to the black hole. On the fringe, the survivors who have been waiting outside the black hole boundary line are hunting.

The effect of this ability is extremely important for the ancient survivors of the Xuanhuangxing domain. Therefore, since then, the Yin Emperor, who is the patriarch of the Yinmo, and all the tens of thousands of Yinmo people in this Xuanhuangxing domain, it has become a distinguished guest.

Chapter 4390: Single black

Since becoming a guest of the Xuanhuangxing domain, the Yindi and other tens of thousands of Yinmo ethnic groups do not need to do anything on weekdays. They only enjoy the top-class flesh and blood medicines provided by Xuanhuang old homes, and they can cultivate themselves.

Only in the month when the annual emptiness and inflammation activities are most active, the Yin Emperor and the tens of thousands of Yin Mozu people will be busy, and there is almost no rest time.

In order to make their cultivation stronger, so that they can go deeper into the deeper areas of the mysterious black hole void, and induce a higher level of voids, and the old palace of Xuanhuang is not embarrassing, and it is provided to these tens of thousands of Yin. The flesh and blood of the Mozu people are the best quality, and they are still open to the public. Place

Therefore, the cultivation of these tens of thousands of people will be so fast, and nowadays they are all repaired above the border, the universe is more than half, and the immortality is close to a quarter. Immortal, there are dozens of people. Family

Changyin Emperor, has already broken through to the first level of Feng Wang!

At the moment, in addition to the patriarch of the patriarch, including the Yin 7 who has long been the leader of the strong, all the other tens of thousands of Yin Mozu people have all entered the mysterious black hole in front of the void, changing their own atmosphere into a void. The inflammation is exactly the same.

Then spread out and spread as far as possible, each means, try to find a way to attract them to the same kind of void, and slowly approach the black hole virtual boundary line here...

In the past three days, it is precisely because these tens of thousands of Yin Mozu people use their own as a bait to shamelessly attract a lot of emptiness and immortality close to the edge of the black hole, so that the sixteen emperors are immortal, and the harvest is shallow. .

However, among the Yin Mozu people who entered the black hole in front of the void, the one who cultivated the strongest strength is only a dozen or so waiting for immortality. This kind of cultivation is not too deep, or even deep. Did not enter the deep hinterland of this mysterious black hole in the billion-mile radius.

Therefore, they were tempted by the emptiness of the black hole at the edge of the black hole. It is obvious that the quality is not satisfactory. The best quality captured in the past three days is only a emptiness.

Therefore, after the gathering together, the Fenghuang strongmen of the sixteen Xuanhuangxing domain, after seeing each other and exchanging one look, all turned their heads and looked at the Yin Emperor on the sidelines. In the past, there are sounds..."

Vagina friends, this is three days, although it has captured a lot of voids, but this quality is really awkward..."

Right, you know, I am all in the same level. The flesh and blood medicine is the highest level, the material value is amazing, and it is difficult to get together..."

If it is because of the poor quality of the virtual air, the quality of the flesh and blood medicines produced by the smelt is not satisfactory, which not only wastes the top refining materials, violent things, even the progress of the cultivation in the next year, it will be affected! "

"This matter can no longer be dragged on. The Yin 7 elders have more than a dozen people. After all, they are only waiting for immortality. The deep areas are limited, but the vaginal friends are the kings who can go deeper into the area..."

"The more you go inside, the better the quality of the void will not be extinguished. This time, I am afraid I can only help the vaginal friends!"

"Daoyou, please take a shot, I will wait and see!"...

...Say

In the end, the sixteen emperors were all immortal, and they all clasped their hands to the emperor, with a smile on their faces, which was extremely polite. Hall

Tang Fenghuang, actually want to be like a king, they actually have some unpleasant feelings, but these years, slowly become a habit.

Who told them that they need a higher level of emptiness, and they can't personally enter the mysterious black hole in front of them, and they must rely on others to shoot. "

Please rest assured that this matter was originally the responsibility of Yin, and it is natural to be obliged..."

For the value of the emperor in the eyes of the sixteen emperors, although the Yin Emperor is clear, but he also understands that there must be a limit to everything, and must not be arrogant and arrogant, otherwise there will be a major disaster. Yes

So, at this moment, see the 16 emperors of the emperor gather together, all politely ask yourself to go out, go to the depth of this mysterious black hole in the dark, tempting the better quality of the void, the darkness of the Yin Emperor Self-satisfied, but the face is not showing. and

It showed the same humility and politeness. Immediately, he followed the fist and bowed his hand. He turned and wanted to rush to the mysterious black hole boundary line in front...

It was at this time that one of the sixteen emperors was suddenly screaming and shouting, raising his hand to the far side of the mysterious black hole in front of the sky and pointing away: "Behold, what is that? It seems like a canopy... ...single black does not kill inflammation!"

Hearing this exclamation, the other fifteen emperors were immortal and Yin Emperor at the same time, subconsciously turning to the direction of the emperor's immortal pointing, and then he changed his face and exclaimed. The sound is coming out...

"Oh! It really is a single Uganda..."

"And the quantity is still very high, there is actually a big one with a hundred square feet!"

Developed, this time it is really necessary to develop, you must know that since the endless years, the best quality of the void I have captured is not only the Shuangwu class..."

"Although during the period, there were many times in the depths of the black hole in front of the sky, and I saw that there was no such thing as a single one."

"If you can capture this awning, you will be able to capture it. I will wait for 16 people to divide it. It will be enough for the next year. The quality of the flesh and blood medicine will be better than ever before!"

Vagina friends, this time you can see you all, Baizhang Fangyuan's single Wu does not eliminate inflammation, if this ticket can be successful, I will wait for you to celebrate, the entire Xuanhuangxing domain, a feast for three days! "Say

In the end, the sixteen emperors' immortal eyes have once again gathered on the Yin Emperor. because

Although there are many strong emperors in the presence, but they are not used at all, can you successfully capture the huge number of single awnings that cannot be eliminated? The key point is whether the Yin Emperor can take it from the front black hole. In the depths of the field, lured to the edge of the nearby black hole..."

Hahaha... You can rest assured that since this awning has not appeared, then Yin will definitely lure it to the edge of the black hole in front of it. For me, it is just a matter of raising his hand. "

Seeing that these sixteen emperors are impatient and anxious, the sigh of the Yin Emperor's heart is more intense, and his hair is laughing. When he finishes his hand again, his body is swaying, and he has already slammed into the mysterious black hole in front. And go.

At the moment when the figure is close to the edge of the black hole and the moment is about to enter, the atmosphere of the Yin Emperor completely changes. In the blink of an eye, it is exactly the same as the void in the black hole in front, and it is not bad! "

call out! "under

For a moment, Yin Emperor entered the black hole inside the void, and the body was turned into a
mans, toward the depth of the hinterland in front, and the speed went far...
