Chapter 44: Beast blood

"Not good, you have to go now!"

Ye Xuan's face sank and he ran away, and the moment he left the place, the ceiling burst open.

The way he mines is too overbearing, leading to the destruction of the foundation of this vein, and if it does not fall down, it will blame.

Fortunately, Netherwalk is a seven-mart martial art, so that he was not killed in the mine.

"Where, scare me!"

Outside the blue gold mine, Ye Xuan hands on his knees and gasped. If he was four or five seconds late, he would probably become Sun Wukong.

However, this is only a shock, he successfully broke through the seventh peak of the martial arts, and did not die in the mine, it is very good.

"Haha, now I still have nearly twenty points to devour points, bursting stars, I am coming!"

Ye Xuan laughed twice and exchanged fifteen points for a seven-mart martial art. This martial art is called a blasting star, which can condense a bursting arrow with great power.

Now, the strength of Ye Xuan is also rising. If he is allowed to fight against the sword, I am afraid that it will take only a few strokes to kill the saber-toothed tiger.

"The seventh peak of the martial arts, the explosion of the star arrow, the broken cloud bow, the explosion of Dan, I think I should be able to cross the thirteenth and fourteenth mountains!"

Ye Xuan and more want to be more excited, immediately went out to hunt the monsters.

The strength has improved several grades, and he has encountered a saber-toothed tiger. Sure enough, there are no three starbursts. This saber-toothed tiger is blown up and bruised. When the fourth explosive star arrow fell on it, it was hurt to be soft on the ground, and then was killed by Ye Xuan.

In the thirteenth mountain range of Lianyun, there are some monsters that are not in the top twelve mountains. This is good news for Ye Xuan.

Not only that, but there are also a large variety of eight-order monsters.

In the past few days, Ye Xuan constantly hunted the monsters, and the blood vessels of the beasts also improved rapidly. Ten days later, when Ye Xuan swallowed an eighth-order monster called Vigorous Vajra, the **** groove of the beast finally reached one hundred.

"Hey, the host successfully swallowed the blood of the powerful King Kong."

"Hey, the blood vessels of the beasts are full, the host gets the blood of the beast, is it fusion?"

"Yes!"

Ye Xuan did not want to answer in his mind.

Then, he felt that the body had a visible change, and the whole person began to thrive. The height of one meter and seventy-five was as long as one meter eight.

Not only that, but the arms and thighs are also a lot stronger, and there are two more chest muscles.

"It's so strong, the whole body is full of strength."

Although this change was only a few seconds, but Ye Xuan's confidence skyrocketed, he clenched his right fist and slammed directly into the ground.

"Hey!"

The floor was cracked by him and he was full of strength.

"It's so strong, the strength has increased by at least three times." Ye Xuan hurriedly took out the broken cloud bow.

Before he used his physique, he couldn't pull this broken cloud bow. Now, with his hands pulled, he can easily pull the bow.

"Hey!"

A spurt shot, quickly crossed the distance of more than three hundred meters, and blown a big tree to break.

"Haha, the blood of the beasts is really worthy of the blood of the beasts, full of strength, now my punch, I am afraid I can break two thousand pounds, if you use martial arts, you can play thousands of pounds of strength..."

Ye Xuan smiled and sneaked, he estimated that he could punch a seventh-order monster to kill him.

"Come and come, come to the eighth-order monster, play with me!"

Ye Xuan will take the broken cloud bow and start searching around.

After the integration of the blood of the beasts, his physical condition has greatly improved, and even the running speed is almost twice as fast. After using the seven martial arts sneak steps, the speed is almost bursting.

Soon, he met a monster, so unfortunately, it happened to be a saber-toothed tiger.

"Hey!"

This saber-toothed tiger found Ye Xuan, suddenly swooped, ready to tear Ye Xuan, and then swallowed.

"Take me a punch!"

Ye Xuan is also screaming and rushing up, punching out.

"boom!"

The big fist of the casserole fell on the forehead of the saber-toothed tiger, and actually defeated the saber-toothed tiger.

You know, this punch is a normal attack. If you use martial arts, will you directly kill the saber-toothed tiger?

"Hey!"

The saber-toothed tiger was beaten by Ye Xuan, and suddenly it showed a taboo look. It felt that the human being was not the same as what he had encountered before.

"Come, play one!"

Ye Xuan Chong this sword-toothed tiger shouted.

The saber-toothed tiger shook his head and shook his head. Only then did he punch his head and stunned. At this time, it found that Ye Xuan had rushed over to him, and he even turned around and ran.

"Looking down, want to run?"

Ye Xuan was shocked, and immediately followed the Nether Step to catch up with it, and then grabbed the thick tail of the saber-toothed tiger.

"Hey!"

The huge body of the saber-toothed tiger was placed on the ground by Ye Xuan.

"Look at me, I am shocked!"

Ye Xuan went up a step and slammed his fists together.

This is the second martial arts of Ye Family, through the back boxing method!

"Hey!"

"Hey!"

Two neat crisp sounds spread, and the two large fangs of the saber-toothed tiger turned out to be directly blasted.

"Oh..." The saber-toothed tiger made a painful cry.

"Go to death!"

Ye Xuan's flash of light flashed, and the right fist blasted again. However, this time, but the seven martial arts flustered!

"boom!"

The fist fell accurately on the head of the saber-toothed tiger. After a punch, the saber-toothed tiger was turned over and was shot and killed.

"It's so cool, so cool, it's really strong, it's killing the eighth-order monster, killing me!"

Ye Xuan couldn't help but screamed aloud.

Killing the eighth-order monsters with the seventh peak of the martial arts, even if it is the master of the cracked Yunzong and the cracked Tianzong, I am afraid I can't do it.

"The blood of the beast, I love you, hahahaha..."

Ye Xuan laughed as if he had lost heart and madness.

The blood of a beast is only the lowest blood, but it is so powerful. If the blood of a beast has evolved into a thousand beasts, a blood of a beast, or even a blood of a beast, what will it be so powerful?

There are also those god-level blood, I am afraid that Ye Xuan can not be the phenomenon of the phenomenon, if it is let him get, then it is God to block the killing, the Buddha blocked the Buddha!

After the hundred beasts have accumulated a hundred, the upper limit is directly raised to one thousand, which is ten times that of one hundred.

Ten times, in theory, as long as it takes ten times to reach, there are not many types of monsters. It is very difficult to reach one thousand.

However, Ye Xuan is not in a hurry. After all, he already has a **** animal, and his strength has increased by at least several times.

At the moment, he is in the thirteenth mountain range, continue to hunt the monster. With his current strength, he can already walk in front of the sixteenth mountain range.

This time, he also spent three days, piled up the blood of the beast to a hundred and twenty, and then hurried away.
