Chapter 4401: Rare

"So, the old man is ugly!"

The words to Ye Xuan seem to be extremely unconvincing. After the sixteen emperors were immortal and looked at each other and exchanged a look with each other, Zhao Dong, among the four and a half emperors, stepped out.

I went to Ye Xuan and clenched my fists. This was the only way to take it: "It's just that the old man has already prepared a large pot of medicine. The only thing missing is the refining fire."

Appreciated by the young master of Xuanyuan, it is divided into a top quality transparent top-notch transparent inflammation. With this flame, the quality of this kind of flesh and blood medicine that will be refining will be the best in history..."

call out! ""

Rumble..."

After that, Zhao Dong did not hesitate, and his body shape had already reached the void in the right side of the right side. After sitting cross-legged, he waved a huge furnace trip. furnace

Ding is very large, full of feet, like a giant peak, exudes a simple and calm atmosphere, it is also a good Baoding, of course, and Ye Xuan's Shennong Ding, it is completely incomparable.

As the giant ding was in the air, the thunder of the rumble was heard in a moment.

During the meditation, Dinggai opened, and followed by Zhao Dongyi, a large number of top treasures and beasts and beasts were taken out by him and flew directly into Ding.

These treasures are in the hands of Ye Xuan, and this alone shows the various top-level spirits that are unique to this Xuanhuangxing domain. However, for Ye Xuan's current level of cultivation, I am afraid that nothing can attract him. to

This is especially true for the beastly material, which is the most important thing in Ye Xuan's hands.

At this moment, the materials of these fierce beasts taken out by Zhao Dong, although they are all taken from the starry beasts that have been cultivated in the immortal world, are basically all of them, and they are all superheroes. And the amount is very small, and it is still the beginning of the emperor.

After all the prepared refining materials have entered Baoding, Zhao Dong waved the lids together. When he waved his hand, he immediately had a hood of ten illusion of flames, which was pure and transparent. It was Ye Xuan. The piece of transparency that was thrown out before was divided into a little bit of Zhao Dong's hand.

Soon, this awning was transparent and smashed into the Ding directly through the wall. tight

Then, Zhao Dong's hands quickly changed. One of the obscure scorpions fluttered and danced between his fingers. With these fingers, the different colors of the stalks were also from his fingertips. Flying out, rushing to the front, did not enter Baoding.

Obviously, what Zhao Dong is doing now is the ancient refining method passed down by the strong people of Xuanhuangxing. The ordinary ordinary people may only grasp the defects of the fur, but Zhao Dong as the whole Xuanhuangxing One of the only four semi-emperors. he

What you have in your hands must be the most complete refining method in the Xuanhuangxing domain.

This is exactly where Ye Xuan came to this place, and it is so expensive, the ultimate goal is... If he is only able to enshrine the emperor, he can't force the soul of the semi-emperor to find the soul and ensure that he needs it. Ye Xuan has already forcibly shot. The overlord hardened the bow.

But now, he has to use this method to try to get the necessary refining method.

At the moment, Zhao Dong has finally begun to display the complete refining secrets passed down by Xuanhuang Xingyu. Ye Xuan's heart is moving and he will pay attention to it. Do not

He soon gave up. because

For him, he found that he could not learn the complete secrets of refining medicine at all, and at least he learned three or four percent of his family.

Ye Xuan is a strong emperor, and his **** is powerful. It is far above Zhao Dong, but Zhao Dong's hand speed is too fast, because he is too familiar with this complete secret of medicine. and

Ye Xuan is different. Although he has a strong sense of knowledge, he is completely unfamiliar with the secrets of refining medicines passed down by Xuanhuang Xingyu. although

I can't say that it's like a layman watching a lively event, but in fact, even if he uses his powerful gods to enlighten his memory, he can't completely catch up with Zhao Dong, who is already well-informed. no

Under Nai, Ye Xuan can only give up temporarily, no longer pay attention to.

Anyway, it's just a matter of stealing 30-40%. It doesn't mean anything to him. What he wants is the complete refining secret of Xuanhuangxing. If you want to get it back, then you don't have to be so poor.or

Xu is because Zhao Dong used this time to sculpt the fireworks of flesh and blood, which is the best quality of transparency that he has never received before. This

Once the practice, the progress is extremely smooth, everything can be described as flowing water. short

After a short day, Zhao Dongyu was in a flash of brilliance, waving his hand, and directly took out the remaining transparent and inflamed inflammation of about two or three squares from Baoding, carefully and carefully collected it.

Then he waved his hand and opened the cover. He took out the already well-prepared flesh and blood medicine. "

call out! "

When the sound of the air broke out, the Wanzhang Baoding was taken up by Zhao Dong, and the one left in the void in the front was a big flesh and blood medicine with a thousand feet. This

The quality of the big flesh and blood medicine is not bad. After all, Zhao Dong is also a strong semi-emperor, and the secret of refining medicine he has in his hands is obviously far stronger than Ye Xuan, and the materials used are also considered good. can

Even so, the flesh and blood medicine that has been refined in this furnace is only a faint purple gold. with

Ye Xuan's batch of flesh-and-blood medicines that were refining in the Sangzhi Star Field and provided to the survivors of Sang Zhixing are of comparable quality. but

If it is refining with the bottom of the volcano in the Shennong Dingyang domain, it is obviously far worse than the pure purple gold flesh and blood medicine used for its own use.

On the one hand, the material is too far away. On the other hand, Ye Xuan used the Shennong seven-color flame at the beginning, and Zhao Dong's current fireworks were just pure transparency and no inflammation... no

However, Zhao Dong is obviously very satisfied with the purple-blooded flesh and blood medicine of this thousand-square-meter circle. His face is full of smiles, and even the other fifteen emperors are not immortal, and they are all floodlights. , through the void not far away, hold a fist to congratulate Zhao Dong.

It can be heard from their dialogue that even this kind of flesh and blood medicine is the first time in the Xuanhuangxing domain. "

It's a bunch of earthen buns. With this quality, I changed it to this way. I went straight to the garbage and stinked the ditch. I really don't know what you are happy with. "Look

In this scene, Ye Xuan suddenly turned his eyes, the words in his mouth are even more unwelcome, and even can be said to be somewhat mean.

This discourse, on the spot, Zhao Dong and other 16 Xuanhuang Xingyu's imperial family immortal gave a foolish look, one by one, and his face looked stagnant and embarrassing. Correct

For them, Zhao Dong's refining flesh and blood medicine has already produced a touch of purple gold color, which can definitely be included in the category of Zijinbao medicine, but it is heard from Ye Xuankou. It seems so ordinary, it is clearly attacking people, it is hard to accept...

Chapter 4402: Ask Xuanyuan Master to give pointers

His face looked at the ground and looked at it. The sixteen emperors were all frowning. The heart seemed to be extremely unwilling. The last bite, they rushed to Ye Xuan again.

"Xuanxuan young master, this furnace of flesh-and-blood medicine reveals a faint purple gold halo, which can be included in the scope of Zijinbao medicine, saying that it is rubbish, is it too late?"

"Listen to your words, the young Master Xuanyuan is still on my way to refining this medicine. I am afraid that I will be eager to ask you to refine the stove on the spot and give me some advice..."

Also ask the young master Xuanyuan not to resign! ""

It's not the way of my son, your method of refining, although it's still pretty good, you can go through it, but after all, it's still flawed..."

Xuan and so on is now this scene, see the guys take the initiative to mention, my heart is dark, but the face has never been shown. according to

The old cloud was light and windy, and he waved his hand and said: "Well, anyway, idle is also idle, this way, just refining the stove on the spot to open your eyes to you..."

At the end, his figure swayed, and he went straight to the left side of the void, not far away, and sat down on the knees!

Previously, Ye Xuan would have obtained the refining methods that they passed down in the 12 tribes of Sangzhixing, and issued instructions to the body's engulfment system, so that the system will show the results of analysis and deduction.

It can be said that Ye Xuan has already thoroughly studied the secrets of refining medicines passed down by the Sangzhixing tribe.

That is the refining method that has been passed down in thousands of cottages. The amount of information in it is so large. It can be imagined that if Ye Xuan goes to study, enlighten, and learn, it is estimated that all of them will be thoroughly understood, at least until the Year of the Monkey. went. This

The refining laws passed down in thousands of cottages are all incomplete. They have been passed down from generation to generation. There is no need for mistakes. With Ye Xuan's cultivation at that time, it is impossible to fully grasp it in a short period of time.

In desperation, Ye Xuan gave them all the bones and brains to the body's phagocytic system, let the system carry out analysis and deduction, and finally summed up, went to the sputum, and summed up a set of the most perfect and best-performing refining drugs. Law came.

Since then, Ye Xuan has mastered a special method of refining medicine, which is relatively perfect and is more natural and simple to master! This

The method of refining medicine is the perfect result after the system summarizes all the residual methods of Sang Zhixing and then analyzes, deduces and summarizes the phagocytic system. It is not too complicated and easy to get started.

At the moment, the top flesh and blood medicine that he refines is the one used.

However, all Ye Xuan is carried out in the dark, and nothing can be seen on the surface.

This time, in order to shake the sixteen emperors who were waiting to see the future, Ye Xuan decided to take out the treasures of 108 ancient wild spirits. all

They are all powerful and ancient creatures that have been cultivated above the emperor's territory. Among them, nearly half of them are the treasures of the quasi-aged ancient energy level. They are extremely precious. This kind of treasure of the treasures is just powerful and powerful. In addition to the Shennong Ding of the Furnace and Ye Xuan, he has not seen the third piece that can be accommodated.

"Hey..."

In this movement, the wreckage of this hundred and eight ancient wild spirits was taken out directly from the sealed cave at the bottom of the volcano in the central area of the Dingnai space. With it, there were a large number of top treasures. !

Even in the spring water used for refining medicine, he is extremely extravagant. It is directly replaced by a mixture of congenital yin and cold spirits and a lottery lotion. "

boom! "

"Booming..."

call out! "

.....

Just as the sixteen emperors were immortal, Ye Xuan suddenly waved, an energy form that was condensed by the Shennong eight-color flame. It quickly rose from the flame pool and was taken directly from Shennong Ding. Suspended in the void in front of the Dragon Dragon.

Then there was the sound of a broken air. All the materials originally suspended in the void on one side all flew into the huge furnace that was condensed by the eight-color flame of Shennong. The blink of an eye, It has melted in an instant and merged together.

All of this, the sixteen emperors are all immortal, because this stove is not a physical one, but is condensed by the Shennong eight-color flame, the body is translucent, Ding Everything is clear! "

call out! "

"咻咻咻..." short

A few short breaths, all the treasures of the treasures that have automatically flown into the Ding, the top treasures, and so on, are all melted and merged together. This scene is simply incredible, and this scene is seen by the eyes. Sixteen guys opened their mouths again.

I didn't wait for them to come back, and in front of this empty space where the flesh and blood medicine was being smashed, there was a loud and empty sound.

The colors of the roads are different, and the shapes are different from each other. The leaves of Ye Xuan, which is not far from the rain, are falling like a rain, falling directly into the eight-piece furnace of this energy form. Can

It is said to be overwhelming, dense and numb to the horrible crepe pattern. It is the leaf Xuan sitting in the void in the air, which is made out of the perfect refining method he has mastered. this

Engraved, as they fall into the colorful furnace, the top flesh and blood medicine of this furnace is completely refined. It's almost horrible, and time is almost negligible.

This time, the big medicine was smelted. Ye Xuan and even the body were all condensed with the pure Shennong eight-color flame. The flesh and blood materials used were the lowest level, and there were nearly half of the quasi-deeds. Energy level, the current big medicine is successful, and there are countless dragons and stalks of Xiangrui in an instant. "

Hey! ""

expensive.....""

Hey! "...

...

As these dense and rainy plaques fell into the colorful treasures, the flesh and blood medicine was completely formed. For a time, the virtual shadows of Zhenlong Zhenfeng all rushed out from Ding, and the neck screamed and cleared. The sixteen emperors who were not far away from the surrounding area were scared to death, and almost fell to the ground on the spot. "

boom! "under

In a flash, a huge roaring sound rang, and the colorful stove in front of the empty space burst into an infinite treasure, and instantly became a star-shaped colorful glow, which was put away by Ye Xuan and thrown into the body of Shennong. In the flame pool of the volcano of Dingyang. to

Therefore, this top-class flesh and blood medicine has finally been finished! Vision

In the line, suspended in the front of the void, only a large canopy of the top color of the big flesh-and-blood medicine, its effectiveness, compared to the previous flesh-and-blood medicine, only the purple gold color, the grade is too much too many. Absolutely

It belongs to the category of Supreme Poison! to

In its volume, it is like a mountain, huge and incomparably, emitting a strong energy atmosphere, which makes it impossible to look at it. When you see this scene, the sixteen emperors not far from the front are immortal, and instantly they have wide eyes and shortness of breath. In the middle of the battle, there is a strong desire for eagerness...

Chapter 4403: Supreme

"Supreme medicine! This is absolutely supreme medicine..."

Ordinary flesh and blood medicine, but it is only gold, and the flesh-and-blood medicine of Zijin color can be included in the category of Zijinbao medicine. The furnace that Zhao Mou Shi refining is only a faint purple gold, only Can be regarded as ordinary purple gold medicine..."

The true top purple gold treasure medicine is the rich and pure purple gold color, which is a rare thing to see in the legend. I did not expect that I can still see the colorful gods here today. medicine! ""

Legend has it that the most outstanding supreme medicine is the color of the nine colors. The furnace refining the young master of Xuanyuan has not reached the nine colors, but it is very close. This is absolutely rare in the legend. I have heard the supreme medicine..."...

...with

Ye Xuan's flesh and blood medicine was successfully refining, and the sixteen emperors in the void were not far behind, and they soon lingered, and soon they changed their faces, and they burst into exaggeration.

In the face of this canopy like a giant peak of the eight-color magic, they simply can not resist the temptation, the mouth exclaimed, while the side has swept the body shape, approaching the side of Ye Xuan, surrounded him.

In the middle of it, all of them shot a fierce eager glory. Correct

In this furnace, the eight-color **** medicine, Ye Xuan is actually extremely satisfied, this is definitely the best quality of all the flesh and blood medicines he has refined. which is

There are still a lot of remaining purple gold flesh and blood medicine in the hand, and the quality is far from being comparable. Have

These eight-color magical medicines, Ye Xuan's cultivation of strength, will certainly be able to refine. At this time, he is somewhat impatient, want to swallow some immediately, start a retreat, and try out the efficacy of these eight-color magic drugs. If

There is no accident. Once swallowed, after the retreat, it will break through again. It is a matter of nailing. but

Obviously it is not the time, he has more important things to do, that is, first find a way to get the complete refining secrets passed down by this Xuanhuangxing domain. Have

A more complete secret of refining medicine, Ye Xuan believes that if the same flesh and blood medicine is re-constructed again, even if the same resources are invested, the flesh and blood medicines that have been refined will surely have better quality. which is

Because the Shennong fire is only eight colors, it can not reach the level of the nine-color **** medicine, but it is absolutely no problem to reach the peak of the eight-color **** medicine. "

Master Xuanyuan, I don't know what kind of fireworks are the eight-color stoves that you use to refine your medicine. "

"Yeah, look at the eight-color fireworks that form the medicine tripod. There is clearly one that is pure and transparent. If there is no accident, then it should be a void. Is it the previous colorful flame bridge that swallowed the canopy volume? After the huge pure transparent void flame flame, has it evolved?"

"There is such a treasure flame to smelt flesh and blood, and the young master of Xuanyuan really wants me to wait for the envy. It is no wonder that I can refine this supreme medicine..."

At the time, after the initial shock, the 16 emperors of the Xuanhuangxing domain that had gathered around Ye Xuan had already made their voices.

All eyes are very strong, and the expression on the face is exactly as they say, full of envy.

"Hey!"

During the wave, Ye Xuan directly put the eight-color magical medicine in the front of the virtual sky, which is like a giant peak, and sent it into the closed cave at the bottom of the volcano in the Shennong Dingyang domain, and kept it properly. tight

Then the face sinks, even if it is not pleasing: "The eight-color flame of this Tao has just just completed the evolution, and it is indeed because the colorful flame bridge has swallowed up the hood of the emptiness of the emptiness..."

"However, listening to what you mean, I seem to think that the reason why this Taozi smelt this canopy, everything is because of the eight-color flame, which is clearly doubting the refining of the Tao!"

What he said is indeed a fact, and Ye Xuan is also well aware. eye

The former sixteen old guys are all immortal, the eyes are poisonous, and Ye Xuan is only able to sculpt the eight-color magical medicine in front of them. Naturally, nothing can be seen from their insights.

Although Ye Xuan's prescriptions are also not seen by the 16 emperors, on the one hand, Ye Xuan's hand speed is too fast. On the other hand, these medicines are the phagocytic system of Ye Xuan's body. The more perfect refining methods that have been summarized and summarized, some even derived from innovation.

But in general, they can still see the rough situation. can

It is said that in the eyes of the sixteen emperors, Ye Xuan is able to refine the eight-color magical medicine that makes them enviable, except for the extraordinary eight-color flames that he used to sculpt. Another reason is that the refining materials used by Ye Xuan are too high-end. actually

About half of them are all treasures of the powerful creatures of the quasi-aged ancient energy level, and the rest are all grades above the emperor's emperor...

Yu Xuan's refining pharmacy... I'm sorry, they don't really catch a cold. This

One point, everyone knows it well, and it's okay to take care of it. Ye Xuan seems to have no self-knowledge. It's a face of unpleasantness in public. In the face of such a situation, sixteen Xuanhuangxing The immortal people of the emperor face each other, all of them feel awkward.

Originally, the Xuanyuan young master was not convinced, for the sixteen immortals, the roots are completely indifferent. but

The situation is different now. On the one hand, they have taken a fancy to the back of the people, and they want to hug this thick leg and enter the legendary Hongmeng domain.

On the other hand, it is the emptiness of the Xuanhuangxing domain that has been swallowed up by the other party, but they still can't beat others, so if they don't follow the Xuanyuan Master, I am afraid I will find a replacement in the future. It is unlikely that the void will not extinguish the fire, and the fires and the fires used to refine the top flesh and blood medicines are unlikely. more

What's more, people can easily extract a large transparent and inflamed inflammation from the eight-color flame that has just completed its evolution, and give it to others.

Explain that the essence of the eight-color **** flame should be contained in the amazing treasure of a certain order, and it has been able to continue to live endlessly.

In this way, as long as he is next to the young Master Xuanyuan, in the future, not only will the energy source continue to get pure transparent void from his hands, but even the other seven kinds of heaven and earth will be very likely to be obtained. and

Moreover, after gaining the trust of the other party, it is possible to ask the other party in the future, and directly give a sacred sacred flame to the succulent medicine.

After all, his eight-color sacred flames have long been able to survive, giving a awning, not afraid to damage the roots. miss you

Here, the sixteen emperors exchanged a look and quickly exchanged their eyes, and they reached a certain consensus in an extremely tacit agreement. This

Everything, all did not escape Ye Xuan's eyes. this

Engraved, see these sixteen old guys have obviously been heart-warming, he secretly hijacked, but his face has never been shown, turned his eyes, turned and wanted to leave...

Chapter 4404: Master Xuanyuan, please stay

Seeing that Ye Xuan turned and wanted to go, the sixteen old guys immediately rushed, and quickly rushed to stay..."

Master Xuanyuan, please stay, don't hurry! "

"Right right, have something to say..."

"I am even waiting to question the refining of the Xuanyuan Master. I just want to leave the young master and discuss the refining avenue with you."

"Yes, in my Xuanhuangxing domain, there is a whole set of secrets of refining medicines from the era of the wilderness. If I am interested, I will be willing to take them out for the younger master!"

This set of medicinal medicine secrets is all-encompassing and extremely complicated. If you want to have a thorough understanding, I am afraid it will take a lot of time. Xuanyuan Master, it is better to stay in my Xuanhuangxing domain for the time being. I will accompany you to participate and study slowly. ""

This way... This Taoist is really interested in this refining, but if so, then lead the way! "

When they talked about this, Ye Xuan did not continue to install it. He stopped at the right time and thought about it in a down-to-earth manner. Finally, with a big hand, he turned and plunged into the magic dragon.

Seeing that he finally agreed to stay for a while, the sixteen emperors of Xuanhuang Xingyu's emperor suddenly sighed with relief, and after switching to a look, even if they swept out, lead the way in front, Ye Xuan Leading to the front of the void, a huge life star. this

At the time, Ye Xuan and the seven great Yan Xiu, as well as the elephant fox scorpion, have all returned to the magic dragon, but they did not enter the space of the car, and they were waiting in the vestibule of the smoky curtain. In the meantime, the control of the driving, turned into a black man, spurt away.

After a few moments, the pedestrian entered the atmosphere of this huge life star, and the 16-segment emperor leading the road was immortal, and fell into a huge valley. The environment was beautiful and the aura was pressing. I thought it should be the four and a half. Among the emperors, one of the caves of the people.

"Booming!"

The huge roar sounded, and the earth under the feet shook a little. The dragon dragon frame fell on one side of the huge valley, and then the nine dragons turned to Ye Xuan's thoughts and turned into a black. Mang, drilled into the space inside the cabin. only

Staying in the magic dragon, still staying in the valley floor, it looks like a small house with a vestibule, and there is a curtain formed by the mist of the fairy, the antique, the artistic conception and the aura of this aura , quite fit.

"call out!"

The mist curtain covering the vestibule was put away, and the seven great repairs had returned to the space inside the cabin. Only Ye Xuan was out of the Imperial Motors, and the shoulders were like a fox.

Most of this old guy is the blood of the treasure hunter in the body, and his nose is twitching slightly. From time to time, he turns his head and looks at it. It looks like a thief, and he feels a little bit tempted.

However, in the face of Ye Xuan, and there are still 16 emperors immortal here, he dare not play the idea of a baby in the nest of others, after all, there is still no impulse, lasing away...

"The young master of Xuanyuan, among the jade slips, is the complete refining secret law passed down by the tribes of the Xuanhuangxing domain. Please ask the young master to look over..."

"call out!"

Just out of the Imperial Motors, Zhao Dong, the boss of the four and a half steps, was hurriedly greeted, and looked respectfully at Ye Xuan's fist. As soon as he finished, he raised his hand and there was a green Mang rushed toward Ye Xuan.

This is clearly a jade slip.

Ye Xuan took it with him, and his knowledge was swept inward. With his powerful knowledge of the emperor's realm, all the contents recorded in the jade slip were all engraved in an instant. and

In an instant, a separate data file is formed in the data repository of the in vivo phagocytic system! "

call out! "

In a wave, this cyan jade was sent back by Ye Xuan as it was, spurred away, and fell to Zhao Dong again. With

Afterwards, Ye Xuan nodded and said: "This refining secret is really not bad, but this Tao has just been roughly scanned, and I have to look back carefully..."

"I am afraid that time will take a long time, and you don't have to wait here. After the completion of the discussion, this Tao will naturally go out."

At this point, Ye Xuan was slightly stunned, and after a few insults, he only took it: "But it's gone, this Tao has always been cheaper than others. I just got a secret of the refining drugs that your tribe passed down. You can't have any Express..."

call out! ""

Oh..." said

Before he finished, he waved his hand abruptly. In an instant, there were sixteen people who rushed from the palm of their hands and rushed to the front of the sixteen emperors.

After they arrived in front of them, the mans came to an abrupt end, hanging in the void in front of the 16 people, it was the eight-leaf Ye Xuan just refining the colorful magical medicine on the spot. each

A canopy, there are thousands of squares!

Together, it is a small hill, but compared to the total amount of the sacred peaks of Ye Xuan, it is nothing. "

hiss! This is... eight colors of medicine? ""

Master Xuanyuan, these eight-color ***** medicines... Could it be for me? "

"This... how can this be done? Too expensive!"

.....leaf

Xuan's move made the sixteen emperors all immortal, and then the face showed ecstasy, and they shouted. he

Although they are all immortal, there are even four half-step emperors of the nine-step grand perfection, and because the secrets of the refining drugs passed down by Xuanhuangxing are almost complete, everyone Can refine the pale purple gold flesh and blood. very

As for the fact that before Ye Xuan gave a pure transparent and inflamed inflammation, Zhao Dong also refining a top quality fleshy medicine with better quality and rich purple gold color on the spot...

Even the top-quality flesh-and-blood medicine of pure purple gold can only be regarded as the level of treasure medicine. The magical medicine of the colorful color is still a big one.

At this moment, Ye Xuan gave them not the general three-color magical medicine, four-color magical medicine, but the eight-color magical medicine among the multi-color magical medicines. although

However, each person only has a thousand cubic meters, and perhaps they can't let them break through directly. However, once refining after swallowing, it is a matter of hard work.

Even in addition to the four-and-a-half-step emperor, the other eight have not yet reached the peak of the imperial peak, so breaking through a small step is very likely! This

It's no wonder that they are so excited that they will be so excited!

"Isn't it a thousand cubics of colorful medicinal herbs? Excited into this... oh, you have this!"

The sixteen emperors were immortal and excited, and Ye Xuan turned his eyes intently and waved his hand. He turned and walked inside the imperial car: "Okay, go to retreat, try these colorful gods." How effective is the medicine."

If there is no accident, among you, there should be six or seven people who can break through one or two small steps..."

Oh la la..."

The voice was degraded, and Ye Xuan had stepped into the Imperial Motors. During the meditation, the fog curtain of the vestibule fell and the ban was fully opened...

Chapter 4405: Second stage

With the fog curtain of the Dragon Dragon driving down, the ban was opened. When Ye Xuan sat down in the vestibule, after the ban was opened, the fog curtain was seen from inside, and Ye Xuan still could see the outside scene. but

From the outside, not only can the naked eye not penetrate the fog curtain, even the exploration of the gods will be recognized as an invasion. At that time, the nine dragons that have entered the space of the car will immediately rush out and kill the invaders. and

Today's Demon Dragons, after the re-refining of Ye Xuan, the ranks have already been upgraded, from the old treasures of the past to the current ancient treasures.

The defensive power and the attacking power are extremely amazing, that is, the strong emperor, do not want to shake. Place

Therefore, although there are still 16 emperors in the outer valley, the emperor is immortal, but Ye Xuan is completely unconcerned, and he is not in the heart..."

Temporarily stop the process of the twenty-five-level Dan perfect Danfang..."

After sitting down, Ye Xuan immediately issued a new order to the body's phagocytic system: "At the same time, immediately on the previous refining secrets, and the complete refining secrets passed down by Xuanhuang Xingyu, comprehensively deducted and made every effort. , as soon as possible, integrate the ultimate perfect refining secret..."

After the order was issued, Ye Xuan was slightly indulged, thinking about it, and then he grew up and went directly into the space inside the magic dragon. just

Going in, the seven old sorrows and sorrows of the ancestral ancestors surrounded him, and the foxes on his shoulders jumped to the ground in front of him, looking up at Ye Xuan.

"The secret of the complete refining of the Xuanhuangxing domain has already arrived. You don't have to go out with the star master for the time being. It is important to improve the repair..."

Nodded, Ye Xuan's words have not finished, they have suddenly waved.

A total of eight horses were spurred by him, and the blink of an eye made it easy for the seven people in the drought and the emptiness in front of the elephant fox to stop and quietly hover.

This is a stunning colorful sacred sacred scent of eight awnings, which exudes a strong energy and is dazzling. Do not

After that, there are 10,000 cubes in front of the seven Yan Yan, and their cultivation has reached the half-step of the Emperor's ninth-order grand priest. With this 10,000-square-colored ecstasy Perhaps it is not known to break through to the emperor.

As for the fox, Ye Xuan only gave a thousand cubes. After all, he was still weak, and he couldn't use it for a while. "

Thank you for your master! "

"Eight Gods... I haven't tasted it for a long time!"

"I hope that this time I can successfully restore the emperor to repair it..."

"Master, we are going to retreat."

.....Look

To these eight-color magical medicines, the faces of the seven great Yan Xiu's faces instantly showed the color of surprise. Immediately, they smiled and thanked Ye Xuan. After the eight-color magical medicine was put away, Yingying's gift turned and went away.

Like the fox python, the body shape disappeared and disappeared. They all went to the far side of the space inside the car, and retired and squatted...

Ye Xuan did not leave, turned to glance a circle, and finally swayed, looking for a fairly wide valley, sitting directly on the ground in the middle of the valley. "

call out! ""

Oh..."

For a moment, as he waved his hand, the faint sound of the air broke out, and the spurs of the spurs went, and finally hovered in the low space in front of Ye Xuan, all of them were some of the top cultivation resources that the outside world can rarely see. .

Including the evil source liquid and several special resources previously obtained in the Hongkong void. to

The eight-color magical medicine that has just been distilled out this time has been taken out by him, and the number is still quite large, with a thousand cubic meters. most

After that, there is also a Baizhang square, which is roasted by the Shennong Eight-Color Flame to the golden oyster sauce of the ancient big-class poultry.

These cultivation resources are all prepared by Ye Xuan for this breakthrough. It is worthy of value. Now

In the past, he is already a strong emperor. Every breakthrough in the small steps is extremely difficult. If you change to others, I am afraid that I will use this method of consuming countless top resources, and I will be able to repair it as a heap. I am afraid that I will be powerless. ...

There is a ready-made cultivation resource. At this moment, he is urging Shennong Ding's domain power, compressed into a small ball, and then, under Ye Xuan's mouth, lasing away, directly rushing into the entrance, down the throatvery

Fast, all the cultivation resources swallowed into the body instantly turned into, and quickly gathered into a huge energy river, flowing in the veins of Ye Xuan...

Everything is as old as it is. With the guidance and guidance of Ye Xuan's gods, this huge energy-giving river is very fast, and it quickly follows the slogan of the ancients and the rapids of his limbs. , complete the operation of the next big day. versus

At the same time, Ye Xuan's body, there is also a thick chain of shackles, because now he is already repaired by the emperor, so the chain of shackles appearing is very strong, obviously not easy to move. Do not

However, this time there are a thousand cubes of colorful medicinal herbs enriched and swallowed, together with other top-level cultivation resources, Ye Xuan is still very confident about the breakthrough. most

At the end of the day, I couldn't tell how many big Sundays I had completed. When this hanging energy was completely refining, Ye Xuan did not hesitate, even when he urged the real river in the meridian, it was very strong. The shackle chain slammed away. "

Hey! "No

There is any suspense, after the sound of gold and iron, the chain of shackles should be broken.

In the next moment, the familiar system prompt sounds again in his mind...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the emperor is immortal second order!"

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: Feng Di immortal second order! "

Feng Di second! Do not

The breakthrough that was completed just a long time ago, if Ye Xuan turned the blood of the konjac into the seventh change, the peak power that can be achieved in an instant is the perfection of the ninth order of the emperor.

This time, with his cultivation as the strength to break through again, now, Ye Xuan, if he activates the blood of the konjac, does not display the konjac change, his body is in the state of ten feet, his

cultivation will reach The emperor's immortal third order, this is the peak of the early days of the emperor!

And if it enters the seventh change of the konjac nine times, its peak strength will rise again, and it will cross the great realm and surpass the emperor to reach the first step of the universe...

Moreover, in the state of the seventh change, due to the horror of the horror of the giant horror of Pangda, the strength of the body's blood and blood is soaring, and the combat power is added. Place

Therefore, Ye Xuan in that state, if it encounters the first step of the ordinary universe, will basically form a crushing force, that is, the second-order sage, can fight with it! Yu

The sage of the universe, the Lord of the universe, the supreme of the universe, the power of the ancients, the ancient supreme!

This is the last five major repairs. leaf

Xuan entered the starry environment for so long, until now, finally can reach the first of the last five realms.

Although it is only the strength of the universe in the state of the seventh change of the konjac, it is not the real cultivation of itself, but for him, it is the same... significant!

Chapter 4406: Perfect secret

Feng Di second! in

After entering the seventh change of the magical This

Let him breathe a sigh of relief. Although there is more than a dog in the glory of the sky, the emperor is walking around the earth, but the cosmic lord or the master of the universe, which is everywhere in the forbidden city, is only two or three.

In the strength of Ye Xuan before, the seven changes under the konjac were also the repairs of the late Emperor of the Emperor. In the surrounding area of the glory of the galaxy, you can only walk carefully and hold the tail.

But now, he can at least touch the universe of the Sacred, and the atmosphere is obviously no longer comparable. If

It is the Lord of the Universe who naturally has nothing to say, and runs the first time.

But if you just shocked a cosmic person, you might not be able to fight...睁

Open eyes, Ye Xuan pushed forward a time, only to find that it has been more than ten days, this time is not short, after all, it is already the realm of the emperor, far different from before.

It seems that the stronger the future, the longer it will take to break through. Even if it is only a small step, it may be like last month, months, or even years...

Thinking of this, Ye Xuan could not help but shake his head and smiled, and sighed again and again.

As I sighed, my familiar system sounds suddenly came from my mind, and the system's derivative calculus was completed. in

In the past ten days, Ye Xuan's phagocytic system has been fully calculated, and the secret method of the refining method that Ye Xuan originally mastered has been integrated with the secret recipe of the refining medicine passed down by the relics of the Xuanhuangxing domain.

In the end, a more perfect and refined secret method was derived.

Previously, although Ye Xuan got the secret method of Xuanhuang Xingyu's refining method, and claimed to be a full version, but because the system is too large, various branches are complicated, if you want to study it carefully, even if you borrow the calculation of the in vivo phagocytic system. Ability assisted.

I am afraid it will take a long time to fully grasp. and

Now, the system is deriving and integrating a new secret of refining medicine. It is not only more concise, but also more perfect. The power is much stronger. Ye Xuan immersed his heart in it. It took only one day to fully understand. Mastery!

"This is the real perfect secret!"

Opening his eyes, Ye Xuan's bottom flashed a touch of fine mans, and the tone expressed a deep excitement. He subconsciously grasped the double fist: "With a new secret method, then go to the big medicine, the effect must be Better, so, it's great for the improvement of strength in the future!"

"This is a matter of time, it is time to leave..."

At this point, Ye Xuan did not hesitate, and grew up, directly rushed out of the space inside the cabin, the figure appeared in the vestibule area of the magic dragon, and the curtain formed by the misty wind opened, he took a step Out of the car, appearing outside the void. mountain

The valley is quiet, perhaps because the power of the magic dragon in the invisible is too strong, the strong insiders of this star are not too close, even dare not enter the valley.

And the 16 emperors of the Xuanhuang Xingyu are immortal, and most of them are still in retreat. They rarely encounter this rare eight-color magical medicine. They naturally sneak into the heart, and they are so eager to move, they must not hold it, they must immediately Start a retreat and try its amazing effects. Look

In this scene, Ye Xuan slightly breathed a sigh of relief, even when turned back to return to the Dragon Dragon, and then left. This

The Emperor Xuanhuang Star Field is the colony of the ancients, and the savage beasts and blood flesh required by Ye Xuan's blood-stained medicines, as well as the beast bloodstains needed to refine all kinds of treasures, all need to be from the starry beasts. Get it. Xuan

Although the Imperial Star Field also has a lot of fierce beasts, on the one hand, these starry beasts are all half-supported by the ancient relics in the Xuanhuangxing domain. Ye Xuan just got the complete refining secrets passed down by the tribes of the tribes. Good to start with these fierce beasts.

On the other hand, his current cultivation is becoming more and more powerful, and he needs to be a vicious beast. I am afraid that at least it must be a king. The entire Xuanhuangxing domain has many beasts and stars, and the king-level beasts are not. less. can

If you let Ye Xuan, the strongest of these strengths, hunted, I am afraid that it will take a long time to become extinct. This is also a bit too dark.

Therefore, he can only choose to leave.

What's more, when he entered this Xuanhuangxing domain, his original purpose was only the secret law of the refining law passed down by the tribes of the survivors. Now that the purpose has been realized, what else can be stranded?

"Xuanyuan Shaoye..."

When Ye Xuan turned and wanted to enter the magic dragon's driving, the right side of the right side behind him suddenly heard a familiar whisper. turn

The first look, the Yindi and Yinqi and other high-level sinisters are plucking, and behind them, there are some high-level members of the Yinmo, rushing to other directions outside the valley. Look

This posture seems to be going to call people away. leaf

Xuan frowned, did not understand what it meant, but stopped at the foot, turned and swept to the Yin Emperor and others, did not speak, waiting for his following. This

The old guy's previous madness is not small. Although everyone is an old acquaintance, Ye Xuan and he have always been enemies and non-friends. Therefore, even if it is encountered in the emptiness of this piece of ruined land, there is nowhere else. Feelings of knowing.

"Master Xuanyuan, several elders have told me that if the young masters go out, be sure to inform them the first time..."

In front of Ye Xuan, the tops of a group of Yin Mo people stopped their bodies in a few hundred meters. The patriarch Yin Yin's face was vigilant, but his expression was very respectful. He gave a fist to Ye Xuan to explain the reasons. "

At the moment, someone has already notified the elders, and please ask the young master Xuanyuan to wait. If there is no accident, they should come soon..."

The veteran that he said in his mouth is obviously the 16th emperor of Zhao Dong and other immortals. in

Xuanhuang Xingyu, the leader of the major relic tribes formed a veteran association, can enter the Presbyterian Church, become one of the stars of the veteran, and both are the survivors of the royal family. listen

To the words of the Yin Emperor, Ye Xuan was speechless. Look

It's really bad for a while, but it's just gone. After all, I just got the secret of refining medicine that was passed down by the tribes. Although Zhao Dong and others didn't have the ability to force Ye Xuan to stay, this face, Ye Xuan really Some can't be opened. it is good

There is no other urgent matter in the end, and after confessing it, it will be gone. This

Thinking like this, he nodded immediately, did not say much, did not return to enter the magic dragon, and stayed in the valley for a while. small

After the half-column fragrant work, there was a sound of breaking around the valley, and Zhao Dong and other 16 emperors were immortal. remote

When I saw Ye Xuan, the face suddenly showed a pleasant color, and the foot was tight, and the blink of an eye was already in sight. One

After Fan Hanyu, Zhao Dong first raised the right business and held a fist to Ye Xuan. He then said: "The young master of Xuanyuan, who has retired for more than a dozen days, can he have any experience and understanding of the secrets of refining medicine passed down by my ministry?"

Chapter 4407: Peak eight colors

"It's not just a little experience and understanding, but it has already been fully realized, and it has been perfected and supplemented. Now the secret of medicine refining is truly perfect..."

Ye Xuan nodded, but did not intend to conceal, directly said the truth. Do not

However, Zhao Dong and others apparently did not believe it. They looked at each other and exchanged a look. The look on their faces was all a bit strange.

Ye Xuan was speechless and turned his eyes: "Well, since you don't believe it, this Tao will refine the sacred medicinal herbs for you to see."

After that, he did not wait for Zhao Dong and others to respond, and waved directly.

"Hey..."

Almost at the next moment, with his meditation, Ye Xuan directly took out the treasures of 108 ancient wild spirits from the sealed cave at the bottom of the volcano in the central area of Ding Nei Space, and there are also a large number of top tiers. Treasures of treasures!

The spring water used for refining medicine is also the same luxury this time. It is also directly replaced by a mixture of congenital yin and cold spirits and a lottery lotion!

"boom!"

"Booming..."

call out! "...

...

Just as the sixteen emperors saw this scene in an immortal way, all of them were a bit worried, and Ye Xuan suddenly waved again. boom

The rumble of the rumbling came, an energy form that was condensed by the eight-color flame of Shennong, which quickly rose from the flame pool, and was taken out from Shennong Ding and suspended in the void in front of the valley. With

After that, all the sounds of the empty space appeared. All the materials originally suspended in the void on one side all flew into the huge furnace that was condensed by the eight-color flame of Shennong. The eyes melted and mixed together. . "

call out! "

"Oh..."

When they returned to God, there was a loud and empty voice in the void. With

The hands of Ye Xuan fluttered like a butterfly, and the shackles of different colors and shapes were dripping from his hands, and they directly entered the colorful shape of the energy form. its

The situation is overwhelming and dense, and the number is horrendous. Place

Some 晦涩 纹 ,, and

At this moment, as they fall into the colorful furnace, the top flesh and blood medicine of this furnace is completely refined. Almost all of the time is negligible.

This time, the big medicine was smelted, and Ye Xuan and even the body were all condensed with pure Shennong eight-color flame. use

In terms of flesh and blood materials, it is still the same as the previous one. The lowest level is the land of the emperor, and there are nearly half of the quasi-aged ancient energy level. At present, the great medicines are successfully refining, and there are countless dragons and tigers in the moment. Like, it appears in the void.

"Hey!"

"expensive....."

For a time, the virtual shadows of Zhenlong Zhenfeng all rushed out from Ding, and the neck was roaring and clear, which was a thousand miles.

"boom!"

Almost the next moment, the loud roar of the bell rang, and the colorful stove in front of the void was full of infinite treasure.

In an instant, it turned into a star-shaped eclipse, which was put away by Ye Xuan, and was put into the flame pool of the volcano in the Shennong Dingyang domain.

This stove's top flesh and blood medicine has finally been finished!

At this moment, with the disappearance of the colorful flame furnace, the front of the void in the line of sight, there is only a large top of the rich and colorful color of the top flesh and blood.

The eight colors are so thick that they have reached the point where they can't be opened. Compared with the eight-color magical medicine that Ye Xuan has previously refined, the grade has increased by half, although it has not reached the level of Jiu Cai. But it is definitely the peak of the colorful.

The efficacy of this eight-color magical medicine is obviously stronger than before! to

In its volume, it is also like a giant peak, huge and incomparable. more

And exudes a rich energy atmosphere, which makes it impossible to look at...

With the advent of this scene, the sixteen emperors who are not far away from the front are immortal, have long widened their eyes, and have shortness of breath, and they are stunned by the unrecognizable sacred mans. shock

The voice also sounded quietly at this moment...

"The peak of the eight colors! This is the peak of the eight colors, only a line, you can enter the ranks of the colorful magic ..."

"It's simply unbelievable. It's obviously a colorful flame, but the refined flesh and blood medicine has almost reached the quality of the nine-color magical medicine. This is simply shocking. Even in the legend, it never appeared. Over."

"This time the refining system, the fireworks and materials used by the young Master Xuanyuan are exactly the same as before. Only the medicines used in the refining process are different. The quality of the flesh and blood medicines finally refined is far superior to the previous ones. Order, this can only explain a problem."

That is the rumor of the young master Xuanyuan in the practice of smashing flesh and blood medicine. Compared with ten days ago, it is already a world apart. Did he really understand the secret of the refining medicine that was passed down by Xuanhuang Xingyu, and also modified it? What kind of talent is this? ""

Too amazing, the perfect level of refining method? If I can master it, can I not say that... even if we only use pure transparency and inflammation, can we refine the magic medicine beyond the treasure medicine? Even a single color medicine! ""

Master Xuanyuan, please don't show it, I wait... I am grateful! "...

...

"call out!""

Oh..." No

When the sixteen emperors were immortal and finished the words in the mouth, Ye Xuan smiled lightly and raised his hand to give them a pointer. With

He raised his hand and pointed it out. The faint mists of the size of the 16 fingers were fading away to Zhao Dong and others, and they disappeared into the eyebrows and disappeared. This

The information in the sixteen mega-mans is Ye Xuan's use of the body's engulfing system, and the original refining secrets that he had mastered and the complete refining secrets passed down by Xuanhuangxing. version of. more

For the sake of simplicity, it is more direct and the effect is stronger!

At this moment, with the radiance of these sixteen mega-mans, no eyebrows, Zhao Dong and others slightly glimpsed, the face instantly showed ecstasy.

The sixteen emperors were all immortal and closed their eyes and began to enlighten.

Before, Ye Xuan realized that the perfect refining secret method derived from this system took a whole day, but for Zhao Dong and others, it obviously does not need to be so long.

Because this perfect version is basically based on the complete refining secrets passed down by Xuanhuangxing, only a few improvements and additions have been made.

Ye Xuan did not understand the secret of the complete refining medicine passed down by Xuanhuang Xingyu. Therefore, it took so long to understand the enlightenment, but Zhao Dong and others who had a thorough understanding of the complete refining secrets were obviously better than He is easier.

It is also faster to learn this perfect version. Time

Between the slow lapse, just after an hour, Zhao Dong and Qian Nan and other four have a half-step emperor of the nine-step grand reign of the Emperor, the first to open their eyes.

Under the flash of the bottom of the bottom, Zhao Dong's breathing immediately rushed. The four men exchanged their eyes and exchanged their eyes. They did not hesitate. At the same time, they turned to Ye Xuan and they bent down and gave a big gift...

Chapter 4408: Blood and medicine

After the end of the enlightenment, thoroughly realized that the perfect version of Zhao Dong's four men's bottoms flashed, and the breath immediately rushed up. The face was full of enthusiasm, and the four turned their heads to exchange their eyes, no longer hesitate, and at the same time Xuan arched his hand and actually bent down and gave a big gift. mouth

The voice of the words in the voice also reveals endless gratitude..."

I can't think of Xuanyuan's refining talents. It was so amazing. Before I was smashed, I was disrespectful to Xuanyuan's young master. "

"Yes, I used to wait for the refining ability of the young Master Xuanyuan, but now it seems ridiculous. I want to know that my Xuanhuangxing domain's secrets of refining medicine have passed down the endless years and many times have been perfected. I am waiting, I think it is complete."

I did not expect that the young Master Xuanyuan had only been involved for more than a dozen days, so I had such a major revision and improvement that I was so impressed. ""

More importantly, after the perfection of the young masters of Xuanyuan, the current secret of the refining of medicines is truly a perfect version, which is of great significance to the survivors of the Xuanhuangxing domain. "

"Before, I was waiting to refine the pale purple gold. Only the flesh and blood medicines in the treasure medicine category were ecstatic, but now, the old man is sure, and he has refined the real medicine."

Having said that, Zhao Dong turned around and exchanged a look with another fifteen people. He politely handed over to Ye Xuan again. This was followed: "Master Xuanyuan, please see..."

"call out!""

Rumble..."

When the voice just fell, Zhao Dong would not hesitate any more, and his body would sway, and the blink of an eye would reach the void in the right side of the right!

After sitting cross-legged, a wave of hands, a huge furnace tripod, a huge volume, full of tens of thousands, like a giant peak, exudes a simple and calm atmosphere. positive

It was the one he had before he smelt blood and medicine.

At this moment, with the giant dings across the sky, there was a thunderous sound in the air.

The next moment, with Zhao Dong's thoughts, Ding Gai immediately opened. When he waved his hand, a large number of top treasures and beasts were taken out by him, and they flew directly into Ding.

This time, the materials of the beasts that Zhao Dong took out were also taken from the starry beasts that were repaired in the immortal. but

Basically, all of them are the kings and the seals. The top is only the emperor, but the amount is very small, and it is still the beginning of the emperor.

It is also the same as the material used in his last refining.

This is obviously deliberate!

Soon, after all the refining materials entered Baoding, Zhao Dong waved the lids together, and the hands of the scorpion smashed, and there was a emptiness of the emptiness of the flames, which was pure and transparent. This

The awning was transparent and not smoldering, and it quickly rushed away, directly through the wall, and rushed into the Ding. tight

Then, Zhao Dong's hands quickly changed...

One by one, the incomparable method of refining medicine fluttered and danced between his fingers. With these fingers, the different colors of the stalks flew out from his fingertips and rushed forward, not entering Baoding. within.

But this time, the refining method he used was different from before. The previous method was the complete refining secret that was passed down by Xuanhuang Xingyu.

This time, I used the perfect refining method I just got from Ye Xuan!

Because Zhao Dong used this time to sculpt the fireworks of flesh and blood medicine, it is the best quality transparency that he has never received before, and the secret method of refining is perfect.

Therefore, this time the practice, the progress is smoother than before, everything can be described as water.

After only half a day, Zhao Dongyu's fine mang flashed, and he waved his hand and directly extracted the remaining transparent immortality from Baoding, carefully taking it up.

Then the giant tripod of the giant tripod was opened, and the gods were immersed in it, and the flesh and blood medicine that had already been refined in Ding was taken out. "

call out! "

When the sound of the air broke out, the Wanzhang Baoding was taken up by Zhao Dong, and the one left in the void in the front was a big flesh and blood medicine with a thousand feet. on

Once, Zhao Dongyu's flesh-and-blood medicine was a faint purple gold color, and it entered the purple gold color, which was considered to be the category of treasure medicine. which is

This is the **** medicine, Zhao Dong has not been smelted before, so that time, he can be described as ecstatic.

At the moment, with the large flesh and blood of the canopy, Zhao Dong's face was not happy at all, and it was extremely calm.

But this does not mean that the quality of the flesh and blood medicine he has cultivated this time is not as good as before.

In fact, the opposite is true. Such as

It is said that the last time he smelted it was a pale purple gold flesh-and-blood medicine. Then, this time, Zhao Dong's smelt was beyond the scope of the treasure medicine, and the higher-grade flesh and blood medicine.

But it is just a colorful medicine. This

The so-called one color is a transparent color that is almost non-existent.

This is because Zhao Dong used to smelt the top of the world of blood and meat, but it is pure and transparent. blood

Meat medicine is divided into three major levels.

Ordinary medicine, blood medicine, and blood medicine! general

The peak of the drug is a rich golden color. blood

The meat treasure medicine is the color of purple gold, the pale purple gold is the ordinary grade, and the rich pure purple gold is the peak treasure medicine.

As for the flesh and blood medicine, the level of division is much higher, a total of nine. only

There is a color, a magical medicine. If

There are two colors, it is a double color magic.

By analogy, the best quality medicine is the nine-color magical medicine! blood

The refining of the medicinal medicine has various factors, but there is one condition that must be met. That is, the fireworks used in the smelting must be the top of the world.

But it is not to say that using the top heavens and the earth to smelt flesh and blood medicine, you will be able to smelt the real flesh and blood medicine... even if it is just a colorful medicine! top

Different levels of fire are only necessary requirements, and there are many other requirements. For example, the materials for refining should not be too bad, the secrets of refining drugs that are mastered cannot be too much, etc...

The previous time, Zhao Dong had pure and transparent inflammation that could be counted in the top of the world, and the flesh and blood materials used for refining were still acceptable, but he did not smelt the real flesh and blood medicine. And it's just a pale purple gold fleshy treasure, and it's just a quality meat and blood medicine.

The reason is that because of the so-called complete refining secrets passed down by Xuanhuang Xingyu, there are still many shortcomings and flaws. but

Now, these deficiencies and shackles have been compensated and perfected by Ye Xuan's ability to devour the system in the body, so this scene will appear in front of him...

At this moment, with Zhao Dong's public shot, he successfully smelt a pot of flesh-and-blood medicine, and the entire aura of the aura was instantly immersed in a dead silence. no

On the other hand, Qiannan and other fifteen emperors are immortal, or the upper elders of the Yin and the Yin and the Yin and Yin, all of them are holding their breath, and their eyes are wide, and their faces are full of flushing colors.

In the end, just like the appointment, all the people have their hearts and minds, and they turn to the leaves and look at Ye Xuan...

Chapter 4409: I would like to follow

The "brush" sounds, along with the refining of this furnace.

Whether it is Qiannan and other fifteen emperors immortal, or the Yindi, Yinqi and other high-level sinisters, it is like an appointment, the heart has a spirit, all the people turn around and look at Ye XuanScreen

Live in the breath, wide eyes, the face is full of flushing color. tight

Then, Zhao Dong and Qian Nan and other four imperial ninth-order grand reconciliations were led by the semi-emperor strong, and the 16 emperors of the Xuanhuang star field were immortal, but all of them were kneeling down. to

With Ye Xuan holding his fists and hands, his expression is very excited, and the words in his mouth are really full of expectation and sincerity...

"The young master of Xuanyuan helped me to completely perfect the secrets of the refining drugs that the tribe passed down, and to perfection. This is the reinvention!"

Yes, I have never expected it. I will be able to sculpt the hemorrhoids in a day, but today, all this is achieved because of the young Master Xuanyuan..."

"When it comes to repairing strength, I am not as good as the young master. Others are not convinced that they can only follow the left and right and let the driver drive!"

Please Xuanyuan Master's approval, I wish... Follow us! "

.....most

In the latter sentence, Zhao Dong and other 16 people shouted out at the same time. They were really sincere. After they finished speaking, they were so hugged and knee-shouldered on the ground, staring at Ye Xuan, waiting for his response.

Seeing this scene, not only Ye Xuan was stupid, but even the high-ranking emperors of Yin and Yin, who were standing behind Zhao Dong and others, were all shocked.

For the reason, Zhao Dong actually suddenly and succinctly smelt a pot of magical medicine, Yin and Yin and other people are shocked, but they are the same as Zhao Dong and other 16 emperors. At the same time, turning to the head of Ye Xuan, but it is a subconscious move.

But now, I can't help but see that Zhao Dong and others suddenly have a single knee, and they say that they are surrendering. They are willing to follow the words, Yin and Yin and others are really surprised. This

However, the sixteen powerful emperors are immortal, and even four of them have been repaired to the strength of the imperial ninth order, that is, the semi-excellent strong. again

In one step, you can enter the realm of the emperor. and

At this time, but unanimously took the initiative to kneel down, the mouth called surrender, this is simply ... shocked to no more!

After a short period of sluggishness, the high-level sects of the Yin and the Yin Emperor exchanged a look, and they reached a consensus in an instant. They did not hesitate, and like Zhao Dong and others, they clenched their fists. Go on. although

There is no word in the mouth, but this is no doubt... look

Looking at the figure in front of the ground, Ye Xuan was caught in a dilemma after a brief embarrassment!

In the face of Zhao Dong and others acting on behalf of the entire Xuanhuangxing domain, it is absolutely impossible to say that he is not tempted. whole

The Xuanhuang Xingyu is vast and innocent, and there are countless survivors. There are only 16 of them, and four of them are already half-step emperors. As long as they are sealed, they can break through. . Session

At the time, Ye Xuan's hand will undoubtedly have four more emperors.

Moreover, from the look and discourse of Zhao Dong and others, they are obviously sincere, otherwise they will not be so active in asking Ye Xuan to compile. This

It can be different from Ye Xuan's smuggling of those who are forbidden by the stars and forcibly obeyed by force. Basically, there is no need to worry about their loyalty. base

Originally speaking, the overall strength of the Xuanhuangxing domain is actually still above the Xusheng ban, and it is stronger than just a half-bundle.

If it is possible to take this powerful force down, and then take them to Xusheng forbidden and guard the place, then the entrance to the black hole leading to Hongkong's void will be safer.

Before Ye Xuan left the Xusheng forbidden land this time, although he had already given some ways to seal the Emperor Baodan, he forcibly upgraded some of the kings of the nine-ordered superb beastmaster to the realm of Fenghuang.

But they are only the first-order emperor after all, and the strength is still too weak. One

Once I met a mid-term and late-stage emperor, it was not an opponent. If they were single-handed, they would be able to overthrow the entire Xusheng ban. can

If there is the power of the remnant of Xuanhuang Xingyu, this problem does not exist. Ye Xuan can safely leave the Xusheng forbidden land, whether it is entering the piece of Hong Kong, or walking in the debris sky of this wild world, or They will temporarily return to the three major star planes in the world, expand other arrangements, etc.

You will be completely relieved when you are there. You don't have to worry about the black hole vortex that entered the void of Hongmeng being occupied by other forces!

Of course, in this fragmented starry sky of the world, the ancient survivors and the starry beasts have always been incompatible with each other. Since ancient times, they have been opposite each other. Want

It is also a headache for the countless star-studded beasts in Xusheng's forbidden land, and the numerous survivors of the Xuanhuangxing domain to live in peace in the territory of Xusheng's forbidden land.

But it is not unsolved. For this, Ye Xuan is quite confident.

It can be said that for all the ancient survivors who have banned the entire Emperor's ban, all of them are earned, and Ye Xuan is still very heart-warming. only

If you want to complete this matter, you must first make a contribution to others and explore the tone of 16 people like Zhao Dong. If

It is impossible to do anything, and that can only be done for this. It saves a lot of money, and after the Xusheng bans the land, the two sides turn against each other.

One thought of this, Ye Xuan organized a language, after a brief indulgence, first faintly sighed, and then said: "If you want this syllabus to put your income into the account, it is not impossible to accept it."

However, to follow this Tao, you can't stay in this Xuanhuangxing domain. All the survivors here are afraid to have a collective migration and go to the new habitat with the Tao. ""

In this way, you have to reluctantly support the star of the Xuanhuangxing domain as a star-studded beast, as a star-studded beast of long-term refining blood, completely killing it... It is impossible to carry out a large migration and a large number of Starry beasts hurry? "

"Just just these requirements, you probably can't do it, not to mention that it's not finished yet, or even the focus..."

"The most crucial point is that if you want to follow the side of this Tao, you... including the countless survivors of the entire Xuanhuangxing domain, you have to try and adapt to peaceful coexistence with the starry beasts, and even get along well. ."Say

Here, Ye Xuan hands spread, his face showed a touch of helpless color: "Attention, this Tao said that harmony, get along, does not mean that you Xuanhuang star domain is now like this, the starry beasts are banned in one Within the stars of life, support, but... treat them as intimate comrades, fight side by side!"

"It's just this, I am afraid that you will be very difficult to do. After all, the survivors' tribes and the starry beasts have always existed opposite each other. It has been like this since ancient times. I am afraid it is difficult to change it?"

Chapter 4410: Xuanhuangda migration

After listening to Ye Xuan's words, Zhao Dong and other 16 Xuanhuang Xingyu's imperial emperors face each other, and the faces are all floating, and they all talk about each other..."

Xuanyuan young master, since I have decided to follow the left and right, naturally it is impossible to stay in this Xuanhuangxing domain, leading the tribes to migrate, that is what it should be!"

"Yes, the young master is from the mysterious Hongmeng void. For me, the ancestral star of the Galaxy Star Field is mostly the birthplace of the blood of my remnants. Now I am going with the young master and returning to the ancestral land. It's a happy event."

"Since you want to leave, the starry beasts that are raised on the stars of a sinister beast in the Xuanhuangxing field can only be completely destroyed. The useful flesh and blood materials will be collected and will be used to smelt flesh and blood in the future. medicine....."

"There are no problems with all of the above, just... what the young master said is to live in peace with the beasts and fight side by side, but what is it?"

This clearly conflicts with what Xiao Shaoye said before, and I confused them..."

"But it, just talk to you..."

Ye Xuan shook his head and sighed and then he answered: "That Xu Xu is forbidden, can you tell?"

He mentioned Xu Sheng's forbidden land, Zhao Dong and others glimpsed, but soon nodded one after another. In the vain sky of this trillions of miles away, the only large-scale survivor star field is the forbidden place.

The only large-scale forbidden land in the sky is the Xusheng forbidden land. Although the two are far apart, they obviously know each other's existence. "

call out! "One

In the wave, Ye Xuan directly took out a twenty-four-level Fengdi Baodan from the body, and held it in the palm...

Later, I went on to say: "Not long ago, this Taoist went to Xu Xusheng forbidden land, and killed all the eight beasts in the forbidden land, and refining two Fengdi Baodan... ..one swallowed and broke through to the emperor."

The other one is the one in the hands of this Tao! ""

However, the refining of the Emperor Baoding Dan requires the flesh and blood of the imperial beast. The Fenghuang Baodan needs the flesh and blood of the beastmaster. The Taoist does not need to be sealed. Huang Baodan, is that the people of the savage beasts in the Xusheng ban have not been killed! ""

Later, they sincerely requested to drop, this Tao is also a moment of soft heart, help them refine some of the twenty-three-level Fenghuang Baodan that broke through to the emperor's realm, and created a few fierce beasts, let them stay in Xu Raise the forbidden land and help the Taoist priests to enter the entrance to the Hongkong void..."

Now you understand? If you leave with this Tao, you will be taken to the Xusheng forbidden land, together with those banned beasts, guarding the entrance to the Hongkong void, in the future, when the time is ripe, and then enter the Hong Kong void. "

"So, if you can't peacefully coexist with the starry beasts in Xusheng's forbidden land, and fight side by side, isn't this Taoist trouble?"

In this discourse, Zhao Dong and others suddenly realized that all the sights were looked at the twenty-fourth-level Emperor Baodan, which was supported by Ye Xuan's hands. He was so fierce and exaggerated...

A strong atmosphere of the emperor, once this Baodan swallows, it will surely help the emperor's nine-step grand perfect half-step emperor, in a short time... a smooth breakthrough! "

"Twenty-four levels of Emperor Baodan? Twenty-three Fenghuang Baodan? God, Xuanyuan young master can actually refine this Qidan, then that is not to say ... the road to practice has never been worried The bottleneck of the big realm?"

"Yes, once you reach the ninth-order grand perfection, swallow a peer Baodan, you can break through!"

"The young master of Xuanyuan is relieved, and I will be able to coexist peacefully with the forbidden beasts in the Xusheng ban, and fight side by side to protect the entrance of Hongmeng into the empty space for the young master..."

"Only ask the young master if there is any material in the future, can help me to refine one of the emperors..."

After the last sentence, the 16th emperor was immortal and no words, but in the middle of it, there was a fierce and sturdy man, and he looked at Ye Xuan with a sigh of relief, as if he was afraid of him on the spot.

"If you become the vassal of this Tao, all grades of Baodan will naturally provide you... However, at the moment, there is only one Emperor Baodan in this hand, but you have four people who have reached this stage. It's not good to be thick and thin."

Nodded, Ye Xuan looked stunned and did not hesitate to take it: "After the emperor Baodan has accumulated four pieces, let it be distributed together!"

In fact, there are exactly four of the Emperor Baodan in his hands, but it is impossible to reward them easily, so I will say so.

"In addition to Fengdi Baodan, including Fenghuang Baodan, Fengwang Baodan, Fenghou Baodan and immortal Baodan, this Tao can be refining..."

Except for you, all the other survivors in the entire Xuanhuangxing domain have become the subordinates of this Tao, and after repairing their strength, they will naturally receive the corresponding grades of Baodan. ""

Of course, this requires the accumulation of warfare, or the collection of the beastly blood materials required for refining, and apply upwards step by step. This time, the Tao will be refining once every once in a while! ""

What are you waiting for? "listen

At this point, Zhao Dong and others immediately got excited. After switching to a look, they immediately got up and hugged to Ye Xuan: "Xuan Xuan, young master, please wait a little longer, I will immediately order. Released, the entire Xuanhuangxing domain, all the members of the surviving army team were dispatched to kill all the beasts raised in the star field..."

Yes, I have already been bent on following the young master. In addition to solving these beasts, the resources in the stars of the survivors need a certain amount of time to summarize, all taken away..."

"In a few large beastly stars, there are still a few beasts who have broken through to the emperor's land for nearly a hundred years. After the killing, they collected their flesh and blood, just handed it to the young master, and used it to refine the seal in the future. Emperor Baodan..."

After that, Zhao Dong and others did not hesitate. After seeing Ye Xuan's indulging, he finally nodded. This clearly recognized their sincere petitions, and when they were overjoyed, even when they got up.

After rushing out of the atmosphere of this life star, blinking away..."

Roar....."

"Hey!"

Rumble! "...

...

Soon, the Xuanhuang star field outside the stars was vast and empty, and the sound of the fierce beasts and the screams of the survivors of the survivors came one after another, and sometimes accompanied by the rumbling sound of the war.

The initial is only a little sporadic, but it will soon be smashed, and all kinds of thunder and thunder will be blown up, and it will be like a flood of water!

Obviously, with the departure of Zhao Dong and others, the entire vast expanse of the Xuanhuangxing domain has been fully launched. The numerous survivors of the life stars have been swaying and fighting a ship. Boat, rushing to the surrounding beastly stars, launching a **** massacre! blink

Between the eyes, the preparatory work before the migration of the tribes of the relics of the Xuanhuangxing domain was so vigorously... fully launched!
