Chapter 4411: The third step of the emperor

According to Ye Xuan's derivation, it takes at least one month for the relics of the Xuanhuangxing domain to completely complete the installation. complete

It's not just to clean up the bottom of the family, but also to kill all the starry beasts that are raised in the stars of the entire star field. and

The entire Xuanhuangxing domain is so vast, which obviously takes time. leaf

Xuan couldn't wait here in this place. After he was indulged, he even turned into the magic dragon, and once again entered the space of the car, returned to the small valley that was closed before, and reopened.

Although he has just experienced a breakthrough, his top resources are huge, especially the newly refining canopy is like a giant peak of the eight-color magical medicine, its efficacy has reached the peak of the colorful, from the nine-color magic They are all separated by a line. in

Under the heap of massive top-level cultivation resources, it is not too difficult for him to break through a small order once again.

One month, it should be enough! "

call out! "

"Hey..."

After entering the valley, Ye Xuan sat down in the central area. under

For a moment, his slap in the middle of the cold, a wave of hands will have a lot of weak sounds of the sound of the sound, all kinds of top cultivation resources have been taken out from the immortal world.

Among them are the peak sacred medicinal herbs, the sinister source liquid, and other rare treasures of rare treasures that have just been refining not long ago.

In addition to the breakthrough resources prepared by this time, there is also a large piece of Baoxuebao meat that has been flooded with the ancient colors of the ancient energy level. It has been roasted into a golden color by the Shennong seven-color flame, and it is full of oil and aroma.

During the meditation, the domain field power of Shennong Ding in the body was fully promoted by him. Hang

All the cultivation resources in front of him were crushed into a small round bead under the pressure of Baoding domain. leaf

Xuan opened his mouth and swallowed it into the abdomen. It quickly turned into a squatting down the throat and rushing to the limbs of his body! "

Oh la la..."

"Boom!"

In the next moment, a chain of shackles appeared invisibly. From this moment on, Ye Xuan's body was like a sky-high, and the sound of a huge chain of chains had never stopped.

The newly formed violent energy of the Dajiang River follows the circulation of the whole body, constantly swaying the newly emerging chain of shackles. or

Xu is because of the breakthrough that has just been completed. This time, when Ye Xuan's energy is transformed from the massive resources of the top cultivation resources, it is particularly difficult to attack this newly emerging chain. and

Moreover, every time the impact occurs, the painful feeling in the body is also more intense. but

He did not give up because of this, and gradually calmed down the slightly impetuous mood. With

After that, Ye Xuan followed the path of the dynasty of the ancient dynasty, and the gods took the energy of the river, which was rushing in the body, and revolved around the meridians to carry out the operation of the next big day.

This process, while refining this energy-hanging river, is also accumulating the power to hit the chain again! Time

Between the slow lapse, I do not know how long it has passed. When this hanging energy is completely refining and disappearing in the leaves of Ye Xuan, the power of the real yuan in his body is also significantly stronger than before.

Without any hesitation, Ye Xuan immediately launched a new round of impact even if he pushed the gods to the extreme. "

Hey! "

With the sound of a huge gold and iron cross, the chain of chains that appeared in the body broke off!

Almost at the next moment, the familiar system prompts once again sounded in his mind..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: Feng Di immortal third order! ""

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: Feng Di immortal third order! "

The third stage of the Emperor!

The breakthrough that was completed just a short time ago, if Ye Xuan turned the blood of the konjac into the seventh change, the peak power that can be achieved in an instant is the first step for the universe.

Right now, as he breaks through again, if he activates the blood of the konjac, he will not be able to display the konjac and change his body, and his body will be in the state of ten feet. Step, just enter the middle of the emperor! and

If you enter the seventh change of the konjac nine changes, its peak strength will rise again, reaching the second order of the universe! and

Moreover, in the state of the seventh change, the power of the konjac in the body of the giant cockroach is so horrible that it is not too small.

Therefore, Ye Xuan in that state is the third-order sage, and he can be fearless. In the fourth-order world, he can also fight...

"At the peak, there is already the ability to fight the third-order sage, that is, the fourth-order sage, all capable of unbeaten..."

Open his eyes, Ye Xuanzhen flashed a touch of fine mans, subconsciously grasped the double fist, for a time, full of pride: "So, when returning to Hongmeng empty space... it is here!"

"This time, with the remnants of the Xuanhuangxing domain returning to the Xusheng forbidden land, they immediately entered the Hongmeng Star Field, waiting for the opportunity to hunt down the emperor's powerful... Breaking through the perfection of the twenty-five-level Baodan in the universe. Fang, it must be deduced in the near future."

"So, it is imperative to hunt and kill the emperor and prepare for the refining of the twenty-fifth-level Baodan. It is imperative!"

After that, Ye Xuan immediately got up and checked the time. This time, the retreat was actually used for 28 days. If there is no accident, the relic tribe of Xuanhuang Xingyu should have been fully assembled and can immediately depart. . One

In this regard, Ye Xuan did not hesitate, even after leaving the space inside the cabin, after walking out of the magic dragon, I saw the Zhaohuang strongman who waited for Zhao Dong and other 16 Xuanhuangxing in the outer valley. . "

Master Xuanyuan, all the survivors of the entire Xuanhuangxing domain have been fully assembled..."

"This time I hunted the starry beast and got a lot of **** * condensed with the body of the beastly beast. All of them were collected in this magic weapon."

Also ask the young master to accept it first, and then take the time to take the air out, for me to refine a batch of various grades of Baodan..."

As for all the powers of the survivors and the warships in the star field, they have all been included in their own large space magic weapons. The entire Xuanhuangxing domain has been empty, leaving me only 16 people.""

If there is nothing else in the young master, we can start now! "

The implication is that this is clearly going to go with Ye Xuan and rush to the rhythm of Xu Sheng.

"You first enter the magic dragon to drive, stay in the vestibule of the imperial car, return to the Xusheng ban, and have their own way to deal with..."

Xuan did not explain too much, after the words, even if they urged them to enter the magic dragon.
Zhao

The sixteen people exchanged their eyes for the first time. They didn't ask too much. When they entered the Imperial Motors, they only stayed in the vestibule and did not dare to enter the space.

"call out!"

In a wave, Ye Xuan will retract the magic dragon, and then immediately start the interstellar coordinate jumping ability, the target jumping point, which is the central star field of Xusheng forbidden land...

Chapter 4412: Twenty-five grade Danfang

"call out!"

With the expansion of the interstellar coordinate jump, Ye Xuan's figure is in the faint sound of breaking the air, and the blink of an eye disappears...

Almost at the next moment, when his figure appeared again, he had already crossed the starry sky distance of hundreds of billions of miles and returned to the central star field of Xusheng.

Not far from the front, it is the tiny black hole star that entered the void of Hongmeng. At the beginning, the second jumping coordinate point that Ye Xuan branded in this starry sky is here!

He did not immediately enter the black hole star whirlpool, because the relic tribes brought from the Xuanhuangxing domain still need to settle down. They are not suitable for entering the Hongmeng void, and they meet with the genus power of Ye Xuan's base camp chaotic source nest. .

"call out!"

Between the wave, the magic dragon Yu driving was sacrificed by Ye Xuan, and then, as he chanted, Zhao Dong, who was located in the vestibule of the imperial court, was immortal, even when he was called out, appeared in the leaves. Xuan's body.

After waving again, after the magic dragon was taken away, Ye Xuan even activated the konjac blood in the body, and instantly changed from a human form to a konjac with a height of ten feet, but it still changed into a starry sky. It looks like a Taikoo konjac with three heads and six arms.

As a result, its cultivation as a strength, from the third stage of the former Emperor of the Emperor, to the fourth stage of the current Emperor, from the early Emperor, into the mid-term.

This scene scared Zhao Dong and others, and all the faces showed suspicious colors, because they did not see Ye Xuan appear in this form.

"Okay, it's me, this is my other identity, and it's convenient to deal with the starry beasts of Xusheng!"

Seeing the color of their suspense in their eyes floated, Ye Xuan immediately uttered a voice and explained one sentence.

Zhao Dong and others immediately became stunned, and then they whispered...

"Less Lord, your cultivation is... Was it not the first order of the emperor? Is it actually the fourth stage of this situation? Is this too fast?"

"Hey? Here is..."

"A lot of life stars, every life star, all are forbidden beasts... Among them, there are actually three beasts!"

"Is this the Xusheng forbidden land? But... it's only a moment before, how could it be so fast?"

"The lesser masters are really extraordinary. They must have some sort of secret method. They move directly in the void and move far and wide. The blink of an eye is hundreds of billions of miles away..."

.....

Although these sixteen guys are a little fussed, but the guess is not wrong, Ye Xuan's body phagocytic system's interstellar coordinate jumping ability, basically this is what it means.

In this matter, he did not say much, that is, repairing for improvement, but also perfunctory in the past, because of the peak and blood of the flesh-and-blood medicine, Zhao Dong and others quickly figured out, suddenly Then I sighed with a face.

"Magic Lord!"

"It's the Lord of the Devil, the Devil is back..."

It is also at this time, in the distant universe of the universe, there is a voice of the gods of the beasts, and look around, it is the three beasts of the beasts, with a group of fierce beasts, I rushed to this side.

In fact, at the moment when Ye Xuangang came, the countless forbidden beasts in the entire Xusheng forbidden land have already been sensed. After all, it is the strong emperor of the emperor. Even if it is not deliberate, the empiric pressure in the body is amazing enough. It is.

However, the high-ranking beasts of these Xusheng forbidden areas did not know that Ye Xuan had returned before, so they did not dare to show up under fear.

It was not until after the return of Ye Xuan that it was determined that it was so excited that they flocked.

However, when they saw that Ye Xuan's side was still surrounded by more than a dozen of survivors, and all of them were repaired by the imperial court, these swarming beasts of the forbidden land, the face immediately floated. Shows the color of jealousy.

In the void of this ruined land, the starry beasts and the benevolent strong have always been the enemy of the fire and water, and now there are 16 survivors of the royal family suddenly appearing in the forbidden land. This is simply a disaster.

If Fei Ye Xuan is here, and its cultivation is still in the realm of enshrining the emperor, it is possible to crush the 16 survivors of the emperor's realm, and the forbidden beasts in the surrounding virtual air, I'm afraid I'm already scared. Under the fear, it was smashed and fled!

Soon, a group of beastly kings under the leadership of the three beasts of the beasts came to the near, and after greeting Ye Xuan, they all looked at Zhao Dong and others.

The same is true of the 16-members of the latter. The meaning of the two sides is quite intriguing. For a time, the atmosphere at the scene has become somewhat dignified.

Ye Xuan did not have so much time and they mediate, even if they briefly introduced the two sides, and then directly issued instructions, ordering Xu Xing's forbidden starry beasts must coexist peacefully with the survivors from Xuanhuangxing. Fight alongside.

Together to protect this vast star field.

Otherwise, if someone dares to have two hearts, Yang Feng Yin violates, Ye Xuan will personally shoot, wipe it out!

Under this kind of strength, both the high-ranking beasts of Xusheng's forbidden land, and the sixteen survivors of Zhao Dong, all of them expressed their attitude on the spot, and negotiated the division of life stars in Xusheng's forbidden land.

All of this fell in the eyes of Ye Xuan, which made him extremely satisfied.

Then, he seemed to think of something, turned to the top of the beasts and the high-ranking people gathered around the side, and then said: "Before I said, I will provide you with a number of treasures that break through the big realm to you..."

"This time I went out and got a lot of money. I also have the flesh and blood beads of all the beasts who are forbidden by the Emperor. I am sure that I can refine a large number of Baodans of various grades."

"This matter will be implemented immediately by the Star Master. If there are no accidents, after two or three days, the Baodan will be handed to the hands of Seoul and others. At that time, the Star Master will once again enter the retreat, and the task of guarding the Xusheng forbidden land will be handed over to You have done it together."

"There are a total of 19 emperors who are in the middle of the town, and there are four half-steps to seal the emperor. Even if the existence of a first-order environment of the emperor comes, there is no fear..."

After that, Ye Xuan did not pay attention to Zhao Dong and others who heard the news, and the high-ranking beasts gathered from the top, and suddenly fell to the giant life star that belonged to him.

He is going to use three days to condense all the blood of the beasts in his hands into the blood of the beast. Then, all the blood of the beasts will be refined into all kinds of treasures.

After this batch of Baodan is released, Ye Xuan will enter the retreat. With the shortest time and the fastest speed, he will first help him to break through the perfect Danfang of the twenty-fifth-level Baodan in the universe. Deducted and said.

After all, he is now in the normal human form, the strength is already the third stage of the emperor's immortality, and then there are six small-order breakthroughs, it will enter the emperor's immortal nine-order great consummation.

At that time, it was time to swallow the twenty-fifth-level Baodan, but now Dan even has not been deducted, it is a bit unreasonable...

Chapter 4413: The eighth change of the konjac

Shennong Ding, interior space, the bottom of the volcano in the central domain!

"call out!"

"Hey..."

The faint sound of breaking the air rang in succession, and a secluded spurt came from the high point of the volcano above the volcano of the central volcano. It appeared directly above the flame pool at the bottom of the volcano, and suddenly hovered for a moment, it was a piece of it. A **** bead of the size of a human head.

These **** beads are all the benevolent strongmen of the Xuanhuangxing domain. After killing countless fierce beasts in the Xuanhuangxing domain, they take the flesh and blood and compress them.

It was collected in a storage magic weapon, and all the bones and brains were handed over to Ye Xuan.

Nowadays, they are all taken out by Ye Xuan, and they are going to condense them into blood sera of all levels.

If it was before, Ye Xuan could only condense one by one according to the grade of these blood beads.

But now, he is already a strong emperor, and Shennong's flame has evolved into an eight-color flame. It can be put together and condensed at the same time.

"call....."

In the next moment, below all the **** beads, in the flame pool at the bottom of the volcano in the central domain, a sacred sacred seven-color flame screams and instantly condenses into a square furnace with a square shape. Simple, revealing an extraordinary atmosphere.

With the formation of the small flames that are purely condensed by the eight-color flame of Shennong, the beasts and blood beads that have already been prepared have all flew up automatically, and they have not entered the fireworks Xiaoding, which is only a square.

Since then, the cultivation of the blood of the beastly animal has officially started. Unconsciously, time has slowly passed away...

"boom!"

After about half a day, a huge roaring sound suddenly sounded above the flame pool at the bottom of the central fire.

The furnace that was condensed by the pure Shennong eight-color flame was scattered, and a canopy like a river of colorful fireworks screamed back to the flame pool below, and there were countless infants left above the flame pool. Boxer-sized **** beads.

Compared with the previous beasts, the blood is as big as the head, but it is completely different. The blood is red-blooded and has a strong blood and blood. These beads, although they are also the size of

the baby, are full of dreamy colors. The color of the surface, a layer of halo, reveals a different energy atmosphere, dazzling.

The number of starry beasts in the entire Xuanhuangxing domain can be imagined. Therefore, the blood of the beasts that have been condensed this time is too horrible. If not, Ye Xuan will not take half a day. Only fully condensed successfully.

After doing all this, Ye Xuan did not stop, and the blood of the beasts that had been kept in his hands, including the seven bloodstains that were successively obtained, were once again thrown into the bottom of the volcano of the central domain. Flame pool.

Then, the refining of all levels of Baodan will be launched instantly!

This time it took a full three days, and the refining was over.

"Hey..."

With Ye Xuan waving a hand, a mile of mans from the bottom of the bottom of the Shennong Ding under the colorful flame pool, gathered in front of him, is a variety of levels of Baodan, separated according to different levels, suspended in the body before.

The largest number of them is naturally immortal, and the number is tens of thousands.

The least is the twenty-fourth-level Emperor Baodan, but there are also thirteen!

This time, the various grades of Baodan, Ye Xuan, could not be released all the time, because even the forbidden beasts of Xusheng's forbidden land, together with the survivors of Xuanhuang Xingyu, did not apply so much to Baodan.

For example, the twenty-fourth-level Emperor Baodan, who needs it now, is only Zhao Dong and Qian Nan. The other grades are more numerous, but this time the refining system is still a lot of money.

Each of these surpluses has Baodan, and Ye Xuan remains in his hands as a reserve resource.

As a result, after this release, the twenty-fourth-level Emperor Baodan in his hands will reach 13 giants.

Twenty-three Fenghuang Baodan will also reach forty-five.

Twenty-two second-class Wang Baodan hundreds, 20-level immortal Baodan's reserve, it will directly rise to more than 5,000...

For some time in the future, all grades of Baodan will be enough for the time being!

After all the surplus Baodans have been collected, Ye Xuan will soon be ready to distribute all the various grades of Baodan, all of them are packed in small jade bottles, and the number of applicants for the forbidden fierce beasts and the beneficiaries is The Baodan grade is divided into two.

Each is loaded with a storage magic.

"call out!"

"call out!"

In one wave, the two treasures of the store were turned into masculine masons, directly rushing out of the atmosphere of the stars, shooting in two directions, and eventually fell into the hands of a fierce beast and Zhao Dong.

Today's Ye Xuan is already in the middle of the Emperor's reign, even if it does not move, sitting in the interior of the stars, the whole piece of Xu Sheng banned the vastness of the Daxinghe in the void, but also escaped his mastery.

In addition to the stars, they were excited by a group of precious beasts and the tribes of the survivors, especially Zhao Dong and Qian Nan, who each received a twenty-four-level emperor Baodan. It's a thousand thanks, I immediately crouched in the sky...

All of this, Ye Xuan did not pay attention to it, he quickly regained his mind, combined with the body's engulfing system, the system's calculation and derivation ability was ushered to the extreme, and then with the horror of the middle of the emperor as an aid, began to The perfect Dan Fang of the twenty-five-level Bao Dan...Expanding!

Before the introduction of the perfect Danfang of the twenty-four-level Baodan, Ye Xuan took a full time, and this time, on the one hand, Ye Xuan's cultivation has reached the middle of the Emperor, and the gods are powerful too much. On the other hand, it is because the perfect Danfang of the twenty-fifth-level Baodan has already inferred about a quarter of the touch.

Therefore, this time, he only used the time of about three months, and he successfully derived the perfect Danfang of the twenty-fifth-level Baodan.

"call....."

"Twenty-five-level Baodan? Finally I saw hope..."

After the perfect Dan Fang's derivation, Ye Xuan sighed with a sigh of relief, whispering in the whisper, and flashing a touch of excitement.

However, he did not immediately go out, because after some indulging, he decided to complete one more thing, and then set off to enter the piece of Hongmeng, to the ring of the strongest forbidden land around the Milky Way. , start hunting.

This is the complete mystery of deriving the eighth change of the konjac!

At the moment, Ye Xuan has changed the blood of the konjac and realized the seventh change. Once it is unfolded, it will be a hundred million feet in a moment, that is, a giant of 600,000 miles. It will be the second step of the universe. !

Once he understands the eighth change of the konjac, then once he reaches the eighth change, his body will instantly reach one billion feet, that is, six million miles, even the largest. I am afraid that this is not the case with giant stars.

Its vastness of blood and blood will reach an unprecedented level.

As for the cultivation of strength, it will once again skyrocket, reaching the third order of the universe, that is, the peak of the initial...

Chapter 4414: Everything is ready

After the decision, Ye Xuan did not hesitate. When he even converged his mind, he once again adjusted the calculation ability of the body's engulfing system to the limit value, and cooperated with the powerful gods in the middle of his emperor.

Unconsciously, time passed slowly, blinking, and another month passed.

Regarding the eighth change of the konjac, Ye Xuan had already given the phagocytic system that had been handed over to the body for a long time, and had already completed more than 30%. At this moment, he added the horror of the Emperor.

The last 70% of the unfinished calculus, after spending the most month, was finally completely completed...

Just after a month's time, Ye Xuan's mind came with a familiar system prompt: "Hey, congratulations to the host, the konjac changed to the eighth change, is it activated immediately?"

"activation!"

There was no hesitation in the heart, and even when he opened his eyes, he gave the system an activation command.

"Booming..."

Almost in the next moment, the slogan and the information of a large slogan complicated into the extreme flooded into his mind, the amount of which is huge and horrible, even if Ye Xuan is now the

third-order repairing power of the emperor, forcing the gods, for a moment There was some feeling of dizziness rising between the two.

All the influx into his mind, the amount of which is called the horrible crepe pattern, is the complete meaning of the eighth change of the konjac.

Although these magical mysteries have been completely deduced by Ye Xuan and his body's engulfing system, if you want to successfully display it, you obviously need Ye Xuan to comprehend himself.

This book is exactly what it should be. The system is mastered and mastered by itself. It is totally different concepts.

But for Ye Xuan, it is not difficult to do all of this. With the understanding of the previous seven changes, coupled with the mystery of the eighth change, he originally participated in it and started together...

Therefore, just a day or so, the awning that has poured into my mind is called the massive eighth esoteric information, and it has been realized by him and thoroughly integrated.

However, once he enters the eighth change of the konjac, his violent body shape, which is now ten feet high, will suddenly rise to one billion feet, and it will be fully 100 million times, which is beyond the foot of the star, even if this It is already a giant star!

"call out!"

The next moment, the weak break sounds!

Ye Xuan's figure directly rushed out of the atmosphere of this star. When it reappeared, the blink of an eye went to the universe beyond the stars.

Later, he did not hesitate, even if he looked up and screamed: "The konjac changes... the eighth change!"

"boom!"

As his words fell, a huge explosion came in an instant, and this time his body skyrocketed faster than before.

The power in the body is even more like the roar of the river, the inexhaustible fierceness in the limbs, and the horror of the horrible horror.

The body shape, which was originally only ten feet high, swells at a very high speed and speed.

Short before and after three interest rates, it has reached a billion-foot giant, that is, six million miles!

This is absolutely comparable to the real giant stars, and even more.

Of course, at the same time of the skyrocketing body, the cultivation of the air that Ye Xuan's body has spread is also rising at the same speed. The three interest rates have been immortalized from the previous emperor, reaching the present universe. The third step of the sage!

Crossed a whole big realm!

"Immediately turn on the calculus ability, fully push the ninth change of the konjac!"

Under the turmoil of the heart, Ye Xuan took a breath and felt the power of the body to the horrible blood and joy.

After a long time, the heart to be stirred gradually calmed down, and he immediately gave instructions to the body's engulfing system to continue to push.

The ninth change of the konjac is the last change of the konjac.

Ever since I got this powerful **** magical power, Ye Xuan has grown up all the way to the realm of today's emperor, and finally I will soon be able to realize this bloodline and realize the ultimate situation!

"call out!"

Shantou drove away the feelings of his heart. Ye Xuan's thoughts removed the state of the eighth change of the konjac. The weak sound of the air broke again. His body shape shook, and the dark void from the distance In the return of the country, he once again broke into the giant star that was retreat before...

"Less master... is it you? I am Zhao Dong..."

"I am Qiannan..."

The body shape just broke into the stars, and outside the atmosphere, the voices of Zhao Dong and Qian Nan were heard. With inquiry, with caution, it seems more respectful than before.

At this time, it was already a few months since Ye Xuan gave a large number of Baodans of various grades. After getting the twenty-fourth-level Emperor Baodan, Zhao Dong and Qian Nan started the retreat for the first time. .

Nowadays, the four of them have already made a successful breakthrough, and all of them have become immortal, and it is the first-class emperor in this situation.

However, Ye Xuan has been retreating and they have not dared to bother.

But just now, they seem to have sensed the breath of Ye Xuan, turning into a spurt of extreme speed, and after a remote emptiness in the far distance, it was a direct physical growth.

When the three interest rates are not enough, it has reached the level of faint more than a giant star. The exhalation in the body is a breath, and it is even more terrifying to directly cross the border of the emperor, reaching the third order of the universe.

All this was too sudden, and Zhao Dong was shocked.

Ye Xuan has never used the konjac to change the magical powers in front of them. Therefore, they are still not sure whether the body shape suddenly rises to the horror of a giant star, whether it is the young master that he just recognized.

After all, it is the third-order cultivation of the universe, which is stronger than the younger one. It is really unimaginable, and almost scared their cautious liver out of the blind eye!

However, just as they are very incomparable, when the heart is mad, the huge figure like a giant star has narrowed its body shape in the blink of an eye, and the breath has also fallen back to the third stage of the emperor.

And even if it turns into a very fast, it will return to the giant star where the Lord is retreating...

This made Zhao Dong's four people suspicious. After some hesitation, they finally ran their heads and gnawed their teeth. They tried to make a sound and see if Ye Xuan would respond.

"It's me, don't be afraid..."

Just as Zhao Dong's four hearts were incomparably incomprehensible, Ye Xuan's voice finally came out from the inside of the stars: "Just just exerting a kind of blood and magical power that I just realized, it seems that the effect is not bad..."

Not bad?

The third stage of the Emperor of the Emperor, the cultivation of the strength between the blink of an eye, climbed a whole big realm, reached the third level of the universe, and such a terrible **** magical power, simply unheard of.

In the mouth of the young master, the evaluation is just a good one?

At this moment, Zhao Dong and Qian Nan looked at each other face to face, and the face showed a strange color, all of them felt very hurt.

Compared with this enchanting, this self-cultivation is a strength and talent, but it is too shocking.

Chapter 4415: Re-environment

"call out!"

As soon as the voice fell, the faint sound of the air broke out. Ye Xuan's figure rushed out of the atmosphere of this giant star and appeared in front of Zhao Dong and others.

At this moment, he still maintains the blood of the konjac in the body, and changes the shape into a starry sky. Therefore, the body is diffused into a breath, which is stronger than the human form.
Emperor fourth order!

In this scene, Zhao Dong and Qian Nan were once again changed. Under the cool air, the four men whispered...

"Head, when you first met with you in the Xuanhuangxing domain, your cultivation is only the first step of the emperor's immortality, but now..."

"Yeah, how long has this been? It has actually entered the fourth stage of the imperial emperor. From the early to the middle, it is the promotion of the great realm below the immortality. It is rarely so fast, let alone the emperor's realm?"

"In addition, you...the blood and the magical powers are too amazing. Under the exhibition, you can directly have the terrorist power of the universe, and it is also the third order of the universe."

"The whole battlefield has improved its combat power. This is unheard of, it is amazing!"

.....

After hearing these words, Ye Xuan smiled lightly, did not say much, and his eyes fell on the four people, and they looked at it.

Then, I smiled at the jaw and answered: "The improvement of the strength of the Lord's Lord is faster, but you have all broken through to the realm of the Emperor?"

"With the flesh and blood medicine, it is the meaning of perfection."

"Work hard, as soon as possible, upgrade the strength to the ninth stage of the Emperor of the Emperor. At that time, the Star Master will give you a twenty-five-level honorable person who can help you break through the universe!"

"Even even this is definitely not the end. As long as you have this opportunity, after the Supreme Court, the main territory of the universe... is not impossible!"

Zhao Dong and Qian Nan looked at each other face to face. The look on his face was immediately excited. His chest was up and down, his breathing was short, and he was even more powerful.

The four of them entered the Fenghuang Jiujie Great Consummation. They have been in a short period of time, but they have always stayed in this realm and have not been able to break through.

It can be said that Zhao Tong's only wish and goal has always been that one day, he will be able to break through the realm of the emperor and become a true emperor, rather than the so-called half-step emperor.

However, the more it comes to the back, the more difficult it is to break through the bottleneck of the big realm. Since the long years, Zhao Dong has been able to make a smooth breakthrough, which makes the four people disheartened.

The circumstances surrounding the emperor were so difficult that they did not even dare to expect more.

But nowadays, the wish of many years has suddenly come to an easy and unparalleled realization. The mood of the four people has not been adjusted yet. At this moment, I heard Ye Xuan's words, just like a slap in the face, and immediately let Zhao Dong's four people suddenly Cheerful.

At this moment, their state of mind has been sublimated, and the gloom that has accumulated in the heart for many years has been exhausted.

At this moment, Zhao Dong four boldly look to the future, thinking of the universe, even the more powerful cosmic master, the universe supreme...

If they used to, they would never believe it. They would be so ambitious one day, and they dared to expect this level of realm.

But now, with the birth of the miracle that I saw after I followed Ye Xuan, the hearts of the four people have no more tangles, and the heart is solid and firm.

Under the heart, Zhao Dong and Qian Nan exchanged their eyes and exchanged their eyes. At the same time, they clenched their fists and squatted toward Ye Xuan.

Although there is no words in the mouth, at this moment, everything is in my heart...

"Okay, get up!"

After seeing that the four of them were completely greeted, and they were awakened by their own words, the ambiguity in their minds was also full, and they got a small sublimation. The future road of practice will surely be smoother.

Ye Xuan was also comforted and faint, and then he looked down and said the matter: "Since all four of you have already broken through, and now Xu Sheng has forbidden the land, there are four strong emperors and fifteen emperors. ""

"This is already the size of the top star ban, and within the emptiness of tens of billions of miles, it is the only giant-level existence. There will be no danger at all... So, the star owner once again enters Hongmeng. When it's empty, it's time!"

This incident, Ye Xuan is also well thought out.

In fact, I really want to say that there is one more thing. Ye Xuan thought about dealing with it before the second official entry into Hongkong.

That is the group of scorpions that are banned from the green cattle and the phoenix.

At the moment, Hong Meng's void reappears, even the Milky Way star field where the mysterious mother star is located has also been found. Ye Xuan has a very strong hunch. In the future, the world will change dramatically, and after the flood of the world, all the cores will be in the hollow of the sky, around the Milky Way, surrounded by the unresolved, and surrounded by the power of a singular singularity...

The phoenix star field and other places have long been swayed for the marginal zone, and there is no value and necessity to continue to stay.

Therefore, the batch of squadrons in the green ban and the phoenix banned the land, sooner or later, will be taken over, and merged with Zhao Dong and others in the Xusheng forbidden land.

Even Zhao Dong and others, after the time is ripe in the future, it is impossible to continue to stay in the Xusheng forbidden land outside the Hongkong void, but will enter the void of Hongmeng.

It is the same as the original class of Ye Xuan who stayed in the source nest star base camp.

The source nest star is the base camp in the true sense of Ye Xuan. It is the foundation of his future battle for the great world of the wilderness.

Even if it is not only the group of the squadrons in the forbidden land of the blue cow and the phoenix, if it is said to be farther away, even the power of the three major star planes in the world, Ye Xuan has the thought of receiving it. It is.

For example, the Tianhe Star, such as the squadron on the triumphant star, etc...

Unfortunately, all of this now has no time to deal with it. For him now, what is more important is the refining of the twenty-five-level Dan.

After all, the perfect Dan Fang of the twenty-five-level Dan has been successfully deduced.

And Ye Xuan's own cultivation is also the third stage of the emperor's immortality. Then there are several small-order breakthroughs, which will be able to reach the emperor's immortal ninth order.

At that time, if the twenty-five-level Dan did not refine it, so that his own cultivation had to be stuck in the universe and could not break through the realm, it would be too regrettable!

After all, once you reach the cultivation of the universe, then in the eighth state of the konjac, Ye Xuan's cultivation will once again enhance a great realm and possess the terrorist power of the Lord of the Universe.

In this way, even in the vast and stagnation of the sacred area around the Milky Way, Ye Xuan can not fear anyone, the meaning is absolutely extraordinary...

One thought and this, Ye Xuan did not hesitate, and turned to Zhao Dong and others to look at it, and the fine mans in the middle of the flashed the road: "Look at the good Xu Sheng forbidden land, the main star ... gone!"

Chapter 4416: The growth of the Dragon Field

After saying goodbye to Zhao Dong and Qian Nan, Ye Xuan left alone, and his body shape disappeared. After a few moments, he went to the tiny black hole star that entered the Hong Kong void.

This miniature black hole star whirls, the central star field of the Xusheng forbidden land is not eye-catching, the position is relatively biased, and the scale is also small. After entering it, it is also empty. There is nothing at all, and there is no cosmic dust in the void.

It can be said that it is extremely safe.

Although Ye Xuan revealed to Zhao Dong that he had entered the entrance of Hongmeng Void, he was somewhere in Xusheng's forbidden land, but he did not point out the existence of this black hole star. The emptiness of Hongmeng is of great importance, even if Zhao Dong and others are loyal. There is no doubt about it.

However, due to careful consideration, he still decided not to leak.

At this moment, after urging the spirit of the magical power to oscillate perfectly, and all the airs of the whole body were hidden, Ye Xuan did not hesitate, and rushed into the black hole star vortex in the first time.

Then, the interstellar coordinate jumping ability is directly activated, and this time, the coordinate jumping point that he locks is the coordinate position imprinted in the void near the source nest star in the source nest.

Today's Ye Xuan, the system title of the body phagocytic system, has reached the sixth level, which is the star control.

The interstellar controller, in the void of the same cosmic plane, has been able to mark the interplanetary coordinate jump points, which has reached three.

Before entering this piece of Hongmeng, Ye Xuan has branded an interstellar coordinate jump point in the Sangzhi Star Field.

After entering the void of Hongmeng, he branded the second interstellar coordinate jump point near the strongest source nesting star that gave birth to the power.

Later, when leaving the other source of the base camp star, Ye Xuan branded the third interstellar coordinate point in the nearby starry sky.

Originally thought that these three interstellar coordinates were consumed, here he could no longer brand similar interstellar coordinates.

But in fact, it left here on the same day, returned to Xusheng forbidden land, and killed the eight emperors in the forbidden land. All other banned beasts were plucked.

Ye Xuan came to enter the central star field of the Xusheng forbidden land and entered the edge of the black hole starring the entrance of Hongmeng Void. He tried to re-print the interstellar coordinate jump point. I did not expect it to be branded successfully.

If this is not the case, he will not be able to return to Xusheng from the Xuanhuangxing domain in this way.

The accidental branding of that time was successful, and Ye Xuan was suddenly realized.

Originally, according to the system's judgment, the Xusheng ban and the phoenix forbidden land, the emptiness of the ruins of the ruins of the Xuanhuangxing domain, and the emptiness of the emptiness of the black hole, are not the same cosmic plane.

And Ye Xuan's sixth-level system title ability is capable of branding the next three inter-satellite coordinate jump points in any cosmic plane.

That is to say, in the emptiness of Hongmeng and the ruined starry sky outside the black hole, Ye Xuan now only has two interstellar coordinates jumping points.

There is also an indicator, not consumed!

For him, this is definitely a big good news.

The starry sky of the ruined land outside the black hole whirlpool is no longer important.

However, the Hongkong void in the star-hole whirlpool is the most important thing. The remaining indicator of this branded interplanetary coordinate jump point, Ye Xuan intends to stay in his hands, and wait for an opportunity to try to see if he can break through the Milky Way. The power of Hongmeng outside the domain will enter the Galaxy Starfield in advance.

After all, Ye Xuan is different from other people. He is a man of glory and luck. Although the Galaxy Star Field is not yet open, he is protected by a powerful and invisible force.

But others can't get in, but it doesn't mean that Ye Xuan has no chance.

If it can enter, this last indicator, he will be consumed in the Galaxy.

In this way, even in the years when the Galaxy Stars had not been lifted, he could quietly and freely travel back and forth...

This thought, in his original black hole whirlpool in the forbidden land, accidentally branded the next interstellar coordinate point, and realized that in each of these two places, there is still an indicator, it is already in Ye Xuan. It grows in my mind.

This time back, Ye Xuan's main purpose is to get close to the edge of the Galaxy's star field, look for opportunities, try this plan, whether there is a possibility of implementation!

Of course, all this is afterward. Now I just returned, the first thing, or return to the source nest base camp first, to see if the situation in my backyard is stable, and then make plans!

"call out!"

The faint sound of the empty sound, Ye Xuan's figure instantly appeared, turned around and looked around, the surrounding void is quite familiar, not far away, it is the source nest that looks like a giant abandoned star. .

This piece of void is very empty, and it is also far from the Milky Way star field. Therefore, there are almost no forbidden beasts and survivors in the vicinity.

Ye Xuan extended his knowledge and extended, and soon saw the situation of the source nest base camp.

Outside the stars, there is no figure, but in the land table of the stars, there are some sporadic forbidden beasts wandering. Obviously, it is the patrolman arranged by Feitianyu, Jubilee and the Eight King Kong.

It seems that everything is as usual, and nothing happens.

Under the sudden suffocation of the heart, Ye Xuan's body shape shook, and after a short period of time, he fell into the shape of the nesting star.

After wavering back and stalking the beasts who heard the news, he entered the stars and went straight to the star.

As soon as he entered the star, Ye Xuan was shocked.

This source nest star is extremely huge, just the star nucleus, the diameter of its internal space is more than the size of an ordinary abandoned star.

Before Ye Xuan left, he threw the Longye Life Giants here, letting the world's insects in the life giants self-derivative micro-scores, and letting out the rich innate energy in the absorption source nest.

At that time, if the internal space of the entire star nucleus was likened to a watermelon, then the life of the dragon wilderness is equivalent to an apple stuffed into the watermelon.

This is roughly the ratio.

But now, the apple that has been put into the watermelon has grown up, and it is not a big one. It is clearly a small watermelon. It is only a few small laps compared to the inner space of the entire star.

As this continues, the entire star nucleus will be filled with the soaring Longye, and even more likely, it will continue to expand outward.

At the end of the day, this source nest star may no longer exist, and will be completely blasted by the Longye.

"God, this is a top-class giant star, if the Longye can grow to this level..."

Looking at the dragon field in front of him, Ye Xuan was dumbfounded for a while.

Until the flying scorpion, the silver cockroach and the eight King Kong rushed to wake him up.

Ye Xuan was screaming: "That is the real starry sky, driving it in the void, encountering any stars, you can directly hit it!"

Chapter 4417: Super giant

"Hey, are you back?"

"Four emperor fourth? Hehe... This speed is too fast?"

"If you change your body and turn it into a starry sky, do you have to break through the emperor and reach the universe?"

.....

Seeing the arrival of Ye Xuan, Fei Tianqi, the silver cockroach and the Eight King Kong rushed over the first time, and after sensing the fragrance that was scattered in the body of Ye Xuan, all ten people were discolored and stunned.

Afterwards, the **** was fixed, and this explained to Ye Xuan what happened to the Longye.

At first glance, Ye Xuan knew that after he left, the Longye Life Giant Plug had been growing continuously and growing, and later, it occupied almost half of the inner space of the star.

Originally, this star nucleus was left by Ye Xuan to Feitian, the silver scorpion and the eight King Kong, as well as the more than ten thousand forbidden beasts that had been released from the Dingzhong space before, as a habitat.

The Longye has taken up half of the space. It is extremely violent at once, and tens of millions of starry beasts also need space for survival.

In desperation, the flying scorpion and the silver scorpion and other strangers can only go to the magical strongmen who have been retreating inside the Longye Life Giants, and want them to open a layer of giant internal space. For everyone and millions of beasts to enter.

However, the matter is that the devils and other powerful people who are returning to the sea are also helpless. They only have the access rights of the tens of thousands of demon strongmen who retreat that layer. The other hundred layers of giant plugs internal space, Ye Xuan has been completely closed. Except for him, no one has permission to open.

Just as all the people were at a loss, the Longye seemed to have completed a phased evolution within a few days, and it quickly expanded a large circle.

This time, it actually opened up one of the 108 layers of internal space, which is a vast world, with mountains and water, aura is also full, and the beasts are enough to inhabit.

This solves this biggest problem.

Since then, multiple passages of this interior space have been opened, allowing the flying scorpion, the silver scorpion, the eight King Kong and more than 10 million forbidden beasts to go back and forth between them...

"It seems that it really wants to replace this source nest star and grow into a super giant rhythm!"

After understanding these situations, Ye Xuan satisfactorily nodded.

Since the Longye Life Giant Plug can automatically open a layer of authority, this shows that with the evolution and growth of the giant plug, the intelligence of the world's self-derived group is getting higher and higher.

For this, Ye Xuan is not worried that the core crystal of the world's self-derivatives has long been refining by him, and there is no possibility of rebelling against betrayal. The higher its intelligence, the better it is for Ye Xuan. Message.

Because of this, when it replaces this source nest star, it grows into a super giant, and after becoming the base camp of Ye Xuan's genus, it encounters a special situation, even if Ye Xuan is not here, the world insects The derivative group will also make modest adjustments.

Can be described as a great increase in flexibility, Ye Xuan naturally can be more assured!

After a chilling experience, he learned that all the magical powerhouses, such as the sea of knives, are now retreating in the life of the Dragon Field, and this time, whether it is flying, silver, old, eight King Kong , or more than 10 million people stationed here and the starry beasts.

Everyone's cultivation has been greatly improved.

"Yes, but it is only this level of strength, but it is not enough. It is not enough to be in this glory, with the main star attacking the Quartet!"

After nodding his face, Ye Xuan's face was awkward, even when he answered: "This time, the owner of the star just came back and took a look. There is no time to stay, and he will leave immediately."

"By the way, send you a batch of cultivation resources to come back."

After that, he waved his hand...

"call out!"

"Hey..."

A faint sound of breaking through the air, this time the vast amount of cultivation resources harvested outside, was taken out by a small part of Ye Xuan, packed in a small space box, sent out at this moment, fell to Feitianyu and Jubilee Old monster, eight King Kong hands.

This includes his first refining of the eight-color magical medicine, and a small number of peak-level eight-level blood medicine.

Including the various levels of Baodan that broke through the bottlenecks of the big realm, Ye Xuan also left some. In short, it is enough for a large number of people in the nest of the camp!

After doing all this, Ye Xuan confessed to Fei Tianyi, Jubilee and the Eight King Kong and others, and then left.

This time, he did not rush out of the source nest star nucleus, but directly launched the interstellar coordinate jump ability inside the star nucleus.

This time, the target of jumping is also in this piece of Hong Kong, but it is farther away, and it is located in a lonely void with nothing empty.

"call out!"

The faint sound of breaking the air, Ye Xuan's figure appeared in the void, turned to look at the end, the far end of the line of sight, it is the strongest source of the nest stars.

Within the star nucleus of this source nest star, Ye Xuan is now the strongest avatar, which is the power split.

Since this source nest star already has a master, it activates a certain process. Therefore, when Ye Xuan's power buds and begins to grow inside the star nucleus, this huge source nest star has already been invisible. The power of the law of Hong Meng was guarded in the midst of it.

It is like the Milky Way star field that is not yet open.

It's far from the distance, it doesn't look any abnormal, but if someone approaches, even if it's Ye Xuan's deity, within a distance of a thousand miles, the surface of the star will immediately have a halo, seemingly weak, but in fact, let alone the current Ye Xuan, I am afraid that is the master of the universe, even the universe supreme, may not be able to open it!

From this point of view, this source nest star is actually very safe.

However, after all, Ye Xuan's strength was bred, and he claimed to be his strongest avatar. In the future, the world of floods and grandeurs will come down in an all-round way. After the opening of the new prosperous world, the meaning of this avatar to Ye Xuan is too great, and it is said to be the strongest killer. It is no exaggeration.

In this way, he was a little nervous on this matter. At this moment, before entering the Supreme Xingqiang, which was waiting for the Galaxy Star, he deliberately rushed over to see the situation, which is understandable.

At the moment, after some inspection, it is determined that the source nest stars are all the same, and Ye Xuan's heart has finally been completely released.

He did not approach, but immediately turned around and recognized the direction, even when the endless sigh of the end of the glory of the end of the glory.

This time, his goal is to one of the many formidable forbidden places that surround the Milky Way. As for the purpose of entering it, according to his plan, the first step is to first secretly hunt. First, kill more than five powerful emperor-class beasts, and sculpt their flesh and blood into a **** essence.

Chapter 4418: Hunting begins

"call out!"

The faint sound of breaking through the air, a mile, from the end of the void at the end of the volcanic spurt, in the blink of an eye, has reached the edge of the forbidden place of the greedy wolf...

When I got here, the glare came from abruptly stopped, and my figure stood in the void, and it was a starry sky with a shape of a hundred feet.

This starry sky is violent, it is the source of the nest star that has bred his strongest power, and then Ye Xuan who came to the Milky Way.

Today, his own cultivation has reached the third level of immortality.

If it is to activate the blood of the konjac in the body, the body is transformed into a sacred konjac with a height of ten feet, or it changes into a starry sky. The strength is immediately increased to the first level, reaching the fourth stage of the emperor.

At the moment, he not only activates the blood of the konjac in the body, but also displays the **** magical power of the konjac, but only shows it to the first change of the konjac.

In the first change state, the figure of ten feet high has skyrocketed ten times, reaching a hundred feet, and the strength of cultivation has once again climbed to the first level, reaching the fifth stage of the immortal.

Today's Ye Xuan is precisely this state and cultivation.

After the figure was fixed, the starry sky was violently flashing, and the silvery star field at the end of the line of sight looked at it, revealing a touch of fascination...

Here, the edge of the Milky Way star field is still very far away, but because the whole piece of Hongmeng is incomparably dark, there are even few stars in the sky, often in the void for a month or two, to see a Discard the stars.

Because of the darkness of the environment, there are a large number of galaxy stars in the interior that emit light and heat. Here, it is extremely eye-catching, even if it is far away.

Looking at the empty position where Ye Xuan is now, the vast Milky Way star field is just an oblate silver plate that is not much bigger than the stars. The stars inside and the gaze give a dreamy illusion. !

Nowadays, the entire vast Milky Way star field is firmly protected by an invisible law of Hongmeng. It cannot be entered. Otherwise, just as it is close to the marginal zone, there will be disasters, that is, the universe, the universe, the universe. The Lord may fall.

But on the periphery edge of the Milky Way, since the endless years, it has gathered a large number of top powers from various cosmic planes and fragmented stars.

Gradually, here, one by one strong forbidden land, the strongest star field is formed, there are a lot of idle small forces and scattered settlements... All of this, the entire Galaxy star field, surrounded by the central!

All the people are waiting for the opening of the Galaxy Star Field, then rushing in, capturing resources, occupying the mysterious mother star, occupying the supreme air of the coming world!

"This day, it should come soon, my time... really not much!"

Staring at the distant Milky Way star field, Ye Xuan looked at it for a few minutes before slowly returning to the gods, his heart sighed and sighed, and could not help but whisper.

But very quickly, he took this feeling back to his head, because now is not the time, since time is running out, then you must take action.

The main purpose of his re-entry into Hong Kong's void this time is to enter into a formidable forbidden land surrounded by the Milky Way's starry field, and secretly kill the enemy-level star-studded beast!

The burglary in front of the forbidden place is the first target he chose!

For the general situation of the ban on the ban on the wolf, Ye Xuan had a little understanding before.

The greedy wolf is forbidden, the primary is strong and the forbidden land, that is to say, the strongest person in the forbidden land is only the cosmic sage, not the master of the universe.

There is a strong forbidden land in the seat of the universe, it is already a mid-level strong forbidden land!

But the cosmic sages who are sitting in the forbidden city are not only one.

A total of two, a vulgar tiger in the early days of the universe, a sub-blood in the middle of the universe!

Yes, although the banned wolf is named after the greedy wolf, in fact, the strongest person in this primary Xeon forbidden land is just a sub-blood wolf.

The legendary greedy wolf is a supreme and fierce beast in the era of the ruins, and at least it must be at the same level as the Seven Great Yan.

This Asian blood greed, most likely to be a descendant, has a **** wolf in the body, otherwise I am afraid that I can not go to this height, but actually cultivated into the universe, and still in the medium term!

In addition to the supreme and fierce beasts of these two cosmic sages, there are countless other sinister beasts in the forbidden land.

Ye Xuan is now too lazy to pay attention to the starry beasts of the emperor's immortal level. If it is encountered, if the situation permits, it will be destroyed. It is just a harvest of a royal blood, which can be reserved. In the future, it will be enough. The twenty-fourth level of Emperor Baodan is used for the purpose of taking the account.

But this time, if you deliberately go hunting the beastmaster, it is absolutely impossible. Therefore, for the emperor's existence of the Wolf Star, Ye Xuan did not go too far.

Below the universe, under the royal emperor, only the emperor is immortal, and it is the purpose of Ye Xuan's return to Hongmeng this time!

In the forbidden place of the greedy wolf, there are a total of ten powerful beasts of the immortal level!

This number will make Ye Xuan drooling. If he can kill all the powerful beasts of the ten emperors, he will be able to immediately harvest ten emperors.

In this way, once the furnace is refining the 25th-level Sayādaw Baodan, the probability of four shots will be as high as 60%!

But this is obviously impossible. In that case, Ye Xuan must be exposed. The only result of that time is to attract the two cosmic sages in the forbidden place, namely the smashing devil and the savage wolf.

Today, Ye Xuan, in the state of transforming the blood of the konjac into the eighth change, will instantly have the third-order terrorist power of the universe.

If it is combined with the majestic power of the giant konjac body that exceeds the giant star, it is the fourth order of the universe. He is fearless, can fight positively, and even ensure unbeaten.

However, if it is an enemy two, then it is not good. If you want to escape, you will most likely have to pay a small price...

Therefore, it is simply unrealistic to kill many immortal ideas in this forbidden place.

Ye Xuan's tentative goal is two!

The first fight for God unconsciously secretly hunted, and then seized the time, locked the second goal, Thunder shot to kill it.

Once you have succeeded, activate the interstellar coordinate jumping ability and quickly take it away!

"So, there should not be too much problem..."

The plan that was initially drafted was repeated in my mind. After confirming that there was no omission, Ye Xuan's body shape suddenly turned into a mang, and it rushed toward the right side of the forbidden place. .

In the direction of the savage wolf star field, there is a guy who is only the second-order of the emperor, and is the best assassination target...

Chapter 4419: Six-tailed fox

"call out!"

The faint sound of the air broke out, and Ye Xuan's figure spurred away in the void, and the blink of an eye rushed into the forbidden place.

At this time, he is a hundred-footed, violent for a starry sky, and cultivated as the fifth-order immortal.

Before entering here, Ye Xuan has activated the perfect vibration of the spiritual power secret, and the whole body shape is hidden. All the air machines are converging.

When he was still weak, he exerted the magical secret of the perfect shock, and he could avoid the opponents who strengthened his several realms. Although this heinous effect is getting higher and higher with the cultivation of Ye Xuan. It has gradually been weakened.

Nowadays, it is absolutely impossible to avoid the exploration of opponents who have strengthened his several realms. How much will be felt by the other party.

But a few big realms are not good, but there is still no problem with a big realm.

That is to say, now he, the emperor's immortal fifth-order cultivation of strength, the magical power of the perfect shock, can easily escape the fifth-order powerful exploration of the universe.

Although there are two cosmic sages in the forbidden place, one of them is only in the early days of this place. Even the savage wolf is the fifth stage of the universe.

It can be said that the entire greedy wolf is forbidden, and now it is possible to detect the existence of Ye Xuan's breath, and that is only the head of the **** greed.

And because he is only the fifth order of the universe, so wide-spreading of the gods, I am afraid it is difficult to find Ye Xuan, unless there is a targeted small-scale high-density exploration.

But how can a cosmic person have such a bad taste on weekdays? It's just like itching...

Therefore, Ye Xuan was completely fearless. After entering the ban on the ban, the speed of the squad was rushed to the edge of the forbidden area on the right.

He didn't even converge evenly on speed, because it wasn't fast, and it wouldn't stun in the void even a very weak wave, all of which were swayed by the magical power of the perfect shock...

The goal of this time is to start a six-tailed fox, and cultivated as the second-order emperor of the emperor. As one of the ten emperors of the banned wolf, she should not have inhabited the edge of the forbidden land.

The reason for this is that the six-tailed fox is looking for some banned beasts in a short time, and when she is mating, the body will also have a rich scent of foxes, which will not scatter for a long time. A large star field.

In this way, if he is to stay in the middle of the forbidden place, the cracking of the devil and the blood of the blood will surely be deeply disturbed. Don't think about it.

Therefore, this six-tailed fox squatted on the edge of the right side of the forbidden place, and found a void, and then crouched down.

In fact, it is precisely because of her bad habits that it directly leads to the scarcity of the direct genus that follows.

Except for some star-studded beasts that were picked up by her, raised to face, and sometimes used to mate, the universe of the six-tailed foxes, the universe of more than a hundred beasts, almost all of them A group of **** foxes.

It's just a big fox Fox!

For this six-tailed fox, Ye Xuan is also extremely unhappy. If it is not necessary, now it is necessary to seal the blood, and he will not even approach this void.

Because even if he thought about it with his heels, he could expect that as soon as he entered this zone, there would be a thick fox smell in the void, which would be annoying.

Fortunately, he is now under the protection of the magical power of the perfect shock, the internal air machine can not be diffused, the outside atmosphere can not penetrate, but also save the nose from sin!

"call out....."

With his speed, short and half a day, Ye Xuan has entered the remote area where the six-tailed fox is sitting.

There aren't too many stars in the sky, so I look at it, but it's more than a hundred. The star in the center is obviously a few big laps. If there is no accident, it should be the place where the six-tailed fox's lair is. .

Ye Xuan subconsciously frowned, because the front line of sight is accessible to more than a hundred stars, all of which have an atmosphere.

But this is obviously not an ordinary atmosphere, all of which reveals a faint yellow color. If there is no accident, it should be formed by the aggregation of the fox gas discharged from the body of the fox.

"This is really more than a hundred interstellar sluts!"

Looking at this scene, Ye Xuan's flashed a touch of helplessness, and then hesitated, and the speed suddenly increased. With a slamming sound, the blink of an eye broke into the giant star in the center of the front.

When passing through this layer of yellow atmosphere, the hair of Ye Xuan's body is erected, not afraid, but disgusting. Fortunately, the magical power of the perfect shock will block all the breath, otherwise he really does not know himself. Can you stick to it?

It's very possible to get rid of it in this disgusting yellow atmosphere. It's very likely!

Fortunately, after entering the interior of the stars through the yellow atmosphere, looking at the environment you see, it is not the place where the yellow foxes are everywhere.

The scenery in the stars is quite beautiful. Ye Xuan did not appreciate all of this. The gods quietly extended and opened. In the valley surrounded by a giant peak on the right side, I saw a pink fox with a body shape of about a hundred feet.

After the stock has six powdery hairy tails, the body's repaired breath is also the second stage of the emperor's immortality. Obviously, this is the goal of the Lord, Ye Xuan to start this time.

What makes him extremely speechless is that at this moment, the six-tailed fox is actually doing the kind of work, and in addition to her in the valley, there are other hundred beasts, all kinds of blood, and the body shape. Very strong, but the strength is in the ordinary immortality, at this moment is shivering, guarding the edge of the valley, the six-tailed fox is in the center.

One of the starry beasts is being swayed by the six-tailed fox, and has already been dying.

The existence of the ordinary immortal beast and the emperor's level are inconsistent. The result is obviously self-evident. At the end, it is basically sucked into the beast.

This may also be a way for the six-tailed fox to improve itself, but this kind of blood talent is really too disgusting.

Ye Xuanyuan flashed in the cold, and then hesitated. He immediately swayed and smashed the past. He said nothing. After the sky over the valley, he directly slammed it.

"boom!"

"Booming..."

A fist banged out, and the six-tailed foxes in the valley below had no chance to react. The body that was swaying on the poor beast and beast was instantly bombarded and turned into a pink **** fog. Spread out.

"call out....."

Ye Xuan waved his hand and directly absorbed the pink blood of the canopy into the body, and sent it to the bottom of the central volcano in the inner space of Shennong Ding, and began to condense blood.

At the same time, his body shape did not have a slight delay, and he did not pay attention to other beasts. He turned around and immediately turned into a streamer, and rushed out the star that made him disgusted. Outside the void, quickly go away...

Chapter 4420: The first seal

After the time of the small half-column, Ye Xuan has left the greedy wolf star field. At this time, the pink blood of the volcano at the bottom of the volcano in the Shennong Dingyang domain has just completed the condensing.

His physique came to an abrupt end in the void, but he did not unravel the magical power of perfection.

"call out!"

In the middle of the hand, the sound of the sound of Weibei sounded, and the palm of the right hand of Ye Xuan appeared a pink bead of the size of the pigeon egg. It was the blood of the six-tailed fox. fine.

This is the first Feng Di blood essence obtained by Ye Xuan, which is of great significance.

But at the moment, looking at the pink beads in the palm of his hand, Ye Xuan is a little happy, but even faintly depressed.

This blood bead is pink, not red as blood, which is obviously related to the six-tailed fox. When she kicked her before, the blood fog that spread and spread is pink.

Unexpectedly, after condensing into blood, the blood essence obtained actually left the characteristics related to the six-tailed fox.

This has never happened before.

Perhaps it is because the Emperor of the Emperor has been strong enough to a certain extent, far from the king, the emperor can compare!

But this is exactly what Ye Xuan is worried about.

Although he determined that this will not affect the refining of the twenty-five-level lord Baodan, as long as he has enough five blood-stained emperors to complete the Baodan refining, Ye Xuan has a 10% grasp and will certainly be able to refine Come out with a twenty-five-level lord Baodan.

However, it is one thing to be able to refine the twenty-five-level lord Baodan, and how the effect of the refining lord Baodan can be achieved, except that the existence of the eternal perfection of the emperor can be successfully broken beyond the universe to the extreme... ..

Will there be other side effects?

This is hard to say.

After all, the blood of the Emperor is different from the blood of all the levels that have been condensed before. Even if the blood is fine, it is all red and bloody. Only the blood of this imperial beast is still fierce. Some unique features of the beast.

"Forget it, the matter will go back and re-introduction, it should be able to have results... If you can't make a big one, try it out and try it out!"

After some entanglement, Ye Xuan whispered, he decided not to consider this matter for the time being, after all, there is only one blood in the hand, and the five minimum requirements for refining the 25th-level sage Baodan Still far away.

No matter what, first get at least four more bloodstains!

Thinking of this, when he temporarily threw the matter into his head, he flashed his brilliance and turned to look at the greedy wolf in the distance.

"With the six-tailed fox in the ban on the ban, the situation is not to be seen, even if she has fallen, but this matter should not be spread so quickly, after all, the hundred in the valley The surviving beasts are just immortal and are not qualified to reach the more important high-level forbidden land..."

"So, the second goal is no longer hesitating, you must immediately take the shot, finish the vote, leave immediately... go to another Xingqiang forbidden land, and then continue to secretly hunt!"

After that, Ye Xuan would not hesitate any more. After his body shape, he would instantly become a man, bypassing the right side of the forbidden city, and slamming toward the left side of the other side.

"call out!"

When the sound of the air broke, Ye Xuan spurred from the edge of the forbidden land near the center, and went straight to the front.

In addition to the previous six-tailed fox, there are nine emperors in the forbidden place.

These nine emperors are immortal and are divided into two large areas.

One is in the center of the forbidden city, and the other is in the center of the forbidden city.

In the area to the right, there are five emperors immortal, the nest stars that they crouch, ring-shaped, the strongest who will ban the wolf, the fifth-order sub-blood wolf in the universe. In it.

Ye Xuan directly gave up here, the reason is naturally the reason of the head of the **** wolf.

He chose this centrally located area.

The center of this area is another cosmic sage who is banned from the wolf---the cracking of the evil tiger.

However, although this cracking demon tiger is also a cosmic sage, it is only the second order of this situation. Even if Ye Xuan is blocked by him, he can be fearless!

In this left-centered central area, the nesting stars of the Devil's Tiger are at the core, and the other four nested stars of the Wolf Star, which are immortal, show an irregular quadrilateral. Surrounded by!

The four stars are exactly the four corners of this irregular quadrilateral.

These four corners, from the center of the cracked devil's nest star, the nearest one billion or so, the farthest, nearly 10 billion miles.

There is no doubt that Ye Xuan's choice is the farthest distance, nearly one billion miles of this emperor's star.

The reason is naturally to ensure that nothing is lost.

After all, the cracking of the evil tiger is the cosmic sage, the goal of choosing to start, the farther away from him, the safer it is.

In fact, the distance from the nest of the Devil's Tiger is farthest, and the emperor, who is hundreds of billions of miles away, is immortal. In the immortality of the four emperors in the central left-center area, the cultivation is not the strength. The weakest.

It is the strongest!

Has reached the seventh stage of the immortal!

This is called Ye Xuan, somewhat speechless, almost decided to give up this goal, and instead choose to be closer to the emptiness of the emptiness, but only to repair the strength is only another goal of the immortal third.

However, he finally dismissed the idea and decided to use this one-piece magician of the seven-order immortal.

After all, even if the other party has the strength of the seven-stage repair of the imperial emperor, for Ye Xuan, as long as the konjac has changed its blood and supernatural powers to make a few changes, to ensure that it will kill, but it is still no problem.

If you choose to cultivate the weaker existence, once you take the shot, you will also leak the breath, expose the traces, and be touched by the cracking tiger in the central zone.

In this way, the distance is far, and it is extremely important for Ye Xuan to be able to easily and smoothly navigate.

Under the trade-off, he always felt that it was farther away from the cracking tiger and the tiger!

"call out!"

With this kind of thinking, Ye Xuan maintains the magical power of the perfect shock, and gathers all the air movements in the body and the body. It is quietly and silently in the void. After just three days, it is close to the distance. The nest of the one-hundred-footed worm, the star, is only a hundred miles away.

From this time on, he slightly slowed down some speed, and at the same time, the gods were carefully spread out and explored toward the nest star of the one hundred foxes in front.

In just a few short breaks, Ye Xuan's knowledge entered this huge star with a light blue atmosphere, and soon captured a powerful atmosphere of the emperor...

"That guy...it's really in the nest!"

After confirming the position of the other party, Ye Xuan did not hesitate, and the whisper in his mouth just sounded. His body shape has turned into a speedy flow, and the fierce beast star with a light blue atmosphere in the line of sight rushed quickly... ..
