

## Super D. S 4421

### Chapter 4421: Killing the worm

The repair of the hundred-footed worm is the seventh stage of the emperor's immortality. Ye Xuan wants to kill, at least it needs to be repaired by the emperor's immortal eight-order, and in order to ensure that the emperor is immortal, the nine-step grand perfection is the most appropriate. . Want

In order to achieve the perfection of the ninth-order grand perfection of the emperor, he needs to transform the konjac into a fifth change.

Thus, in the fifth change state, his cultivation is a half-step sacred person, while the body type is in the millions of feet, and the second step of the seven-step magical foot of the emperor has no problem. when

However, if you directly cast the blood of the konjac to the eighth, you will have the third-order strength of the universe, and it will be simpler to kill the worm.

But if you do that, it is tantamount to killing the chicken with a knife. For Ye Xuan, it is more harmful than good! This

Once the shot is made, the final result will surely be exposed, which will cause the attention of the slayered tiger who is the second-order repairer. Such as

Therefore, if Ye Xuan reveals the strength of the third-order sage, the matter will be spread after the war, whether it is the ban on the ban, or the other strong banned areas around it, the degree of attention will be completely different. .

This will be extremely unfavorable for Ye Xuan's subsequent secret hunting. and

If the exposure is only a half-step retreat, it is completely different.

At least, the half-step sacred world is not enough to cause the cosmic sages who are sitting in the surrounding strong and forbidden places, and even the masters of the universe, to really pay too much attention to this matter! Both

However, it is secretly hunting, then the purpose is to make a big fortune, can not expose the cultivation of the Sacred, and try not to be exposed, so that it can also play the role of paralyzing the enemy, for this hunting action, fight for more time! Say

Uncertainly, when the cosmic sages and the masters of the universe around the foremost forbidden land have come back to God and realize the true strength of Ye Xuan, the blood of the emperor in his hands has already been gathered, and drifting away. Nothing to go... this

But the best result!

"Hey!"

The shape of the sky is like a glimpse of the sky, the last 100 million miles of the starry sky, and soon he was picked up behind him! No

With any stagnation, Ye Xuan directly plunged into this fierce beast with a light blue atmosphere. After entering the interior of the star, the direction turned and rushed to a huge black canyon.

The seven-step emperor was repaired as a hundred-footed worm, crouching in this black canyon. Before Ye Xuan quietly entered the canyon with the power of the gods, he had already confirmed his position.

"Hey..."

"Who? It's out of shape!"

Just before the arrival of the Black Canyon, Ye Xuan had not had time to turn the konjac into a fifth change. In the depths of the lower canyon, there was a sudden low voice.

Then, it was the sound of a hazy god, just like Ye Xuan's ear. he

The face changed, no doubt, was discovered. but

At this moment, he did not remove the magical power of perfection, still under the protection of powerful spiritual power...

The heart flashed a bit of doubt, but Ye Xuan soon realized it.

All of this is obviously because the goal he faced this time is because of a Zerg strongman.

Ye Xuan's spiritual strength, the general starry beasts and the humanity's strong sense of the human beings are not explored. Only the Zerg, there are all kinds of special biological waves, which can be explored for spiritual power. when

However, if Ye Xuan's cultivation is higher than the other, it is impossible to be detected. turn off

The key now, he is only the state of the first change of the konjac, and the strength is only the fifth order of the emperor, weaker than the other. Such as

This time, just arrived at the sky above the Black Canyon, it is easy to capture the breath at the first time, naturally understandable.

"Hey..."

At this moment, with the appearance of Ye Xuan's appearance, and he did not appear in the first time of the other party's voice, according to the words, the body of the genius in the Black Belt Canyon, apparently realized that it is wrong, know this It is the rhythm of the invasion of foreign enemies...

The sound of the whistling whistle sounded in an instant, and then, a huge black monster with a million feet was like a small land, and it was swiftly swept from within the Black Canyon. This

The guys are all black and look like silkworms. There are two rows of short legs under the abdomen. They are all very strong and strong. The whole body is covered with sharp thorns. It looks very incomparable and gives people a feeling that they have no way to start. . this

Engraved, as this hundred-footed magic insect turned into a black volley, the seventh-order repair of the body of the emperor was the strength, and it suddenly spread. more

There was a strange energy fluctuation, accompanied by a deeper high-frequency humming sound, which suddenly spread and shrouded Ye Xun's entire body.

This is obviously the biological wave frequency of a hundred-footed magical foot like a \*\*\*\* talent. The first time it breaks the magical secret of the perfect shock of Ye Xuan...

At this moment, the violent figure of Ye Xuan Baizhang's giant body appeared, and the body's temperament was diffused, and it was the fifth stage of the emperor's immortality!

"Hey? Actually it is a violent starry sky in the fifth stage of the emperor? There are several Qiangqiang forbidden places nearby. I have not heard of such existence..."

With the exposure of Ye Xuan's body shape, the full-fledged magical foot reveals the sound of the rich and feminine, and it quietly sounds at this moment.

Compared with the previous suspicions, it has obviously relaxed a lot. In the tone, there is even a feeling of disdain and disdain: "It doesn't matter, where do you come from, if you dare to sneak into the emperor's lair star, you have to do it. Ready to be killed..." Very

Obviously, this is because the other party has already determined the rhythm that can kill Ye Xuan! This

It is also normal, although the fifth stage of the emperor's immortality is not weak, but in the face of the immortal seventh order of the emperor, weakened two small steps, the original is the intention to be crushed!

"Hey!"

"The ants are your own surrender, squatting on the ground, or by the emperor, directly squatting you down, even smashing... you choose yourself!"

The head screamed again, and the body shape of the hundred-footed worm slowly climbed, and soon it was already higher than Ye Xuan, and it was close to the pale blue atmosphere of this fierce beast.

At this time, he is looking down at Ye Xuan in a condescending posture. The superiority is not a little bit. when

However, the reason why this is so, is obviously in the defense of Ye Xuan turned and fled, after all, repairing the strength is only two small steps, if Ye Xuan has any powerful blood secrets, he can't catch up, the possibility of immediately fleeing still exists. of.

It is a pity that since Ye Xuan came to take the initiative, naturally there is no possibility of turning around and fleeing.

In the face of this one-of-a-kind worm, he shook his head and sighed, and then violently screamed: "The konjac changes... the fifth change!"

Roar! "

As the anger also spread, the power of Ye Xuan's body instantly became like a rushing river, and it was swift and turbulent.

Its shape, like the balloon that is inflated, quickly swells up...

Chapter 4422: Devil Tiger is coming

"The konjac changes... the fifth change!"

Roar! "

With the sound of the earth-shattering roar, the violent body of Ye Xuan's giant typhoon immediately expanded rapidly, and when it was less than half-feet, it reached a giant of a million feet, the same size as the sky above. The hundred-footed worms are not weak. versus

At the same time, the repair of the body in the air, in a short period of time, quickly climbed to the emperor's immortal nine-order great consummation, that is, the half-step universe! This

The scene is like a drama. In the blink of an eye, the starry sky is like an ant-like temper in the first moment. It immediately becomes a half-step sage that he needs to look up and fear! brain

The thoughts flashed through the sea, and the whole body of the demon worm at the high altitude was dumbfounded, widened his eyes, and stayed at the top of Ye Xuan's head. The whole brain was banging... For a moment, he forgot about it. This makes any reaction. This

It's no wonder that all changes are too fast. Anyone who faces this situation can't wait for it, and they have to wait a few moments in their heads.

However, these moments of work, for the strong level of the Emperor, is enough to decide to live and die!

"go to hell....."

Roar! "

At this moment, with the fifth change of the konjac state is instantly stable, Ye Xuan's 眸寒寒一,,,,,,  
,,, The meteors  
in general, quickly spurred up. blink

Between the eyes, it has reached the vicinity of the body of this hundred-footed worm!

With a punch, the void is smashing, and a horrible horror of the horror of the cockroach. This

For a moment, he seems to have suddenly fallen into the mud, and like a heavy peak on the back of his back, he can't move at all...

The strong crisis of life and death struck, and the brain still slammed into the stagnation of the hundred-footed worm. After the whole body screamed, the sorrowful sorrow was suddenly revealed. I have come back to God in an instant.

"Cracking Tigers... please me!"

In the next moment, the sorrows and sorrows of the sorcerer's sorcerer's sorrows turned into a deep fear without any suspense, and there was endless despair. but

He did not give up the struggle, although his body shape could not move, but his voice of God's thoughts was bursting under the whisper of the incomprehensible, but extremely fast frequency, and quickly rushed out. The pale blue atmosphere of this fierce beast star spread in the void of the outside world...

The most key to the life and death of the key, the hundred-footed magic insect once again used his blood talent, with this unique strange biological wave frequency, to the help of the cracking tigers far beyond 10 billion miles.

Although the distance of tens of billions of miles is extremely far away, it is not too far away for the late emperor, especially the late stage of the emperor's immortal seventh order.

Especially at this moment, under the crisis of life and death, this help-seeking message not only uses the \*\*\*\* talent of the strange biological wave frequency, but also forces it at all costs. Such as

In this kind of kindness, his distress signal will spread out at the fastest speed. According to Ye Xuan's derivation, I am afraid that I will not be able to use two or three breaths. You can tear the void directly and arrive here. "

boom! "

Almost in the next moment when the help message of the hundred-footed worms was sent out, the starry sky violently slammed into a punch that rushed out of the cannon and fell directly under the belly of the hundred-footed worm. huge

The loud roar of the sound, the huge body of the giant worm, and the huge body of the giant worm, instantly blasted into a black and green \*\*\*\* fog. The height of the star below the pale blue atmosphere is like a sudden blow. The most violent hurricane, the clouds are instantly empty, and even the light blue atmosphere above is blown out of the waves.

"call out!"

Without hesitation, Ye Xuan waved his hand for the first time. An invisible qi was spread from his body. In the blink of an eye, he had enveloped the emptiness of a thousand miles, and the black-green blood fog that had just spread. All of them swept through.

After the income in the body, the first time was sent to Shennong Ding, and it was thrown into the flame pool at the bottom of the volcano in the central area of Ding Nei Space, and the blood essence was condensed!

The repairing power of this hundred-footed worm has reached the seventh stage of the imperial emperor. It is the cultivation of the late stage of this period. At this moment, all the black-green blood fog that appeared after his body exploded, all of them are swept away, and there is no point. Missing.

In this way, although the refining of the blood of the Emperor of this time, although it still does not reach the level of the best, but at least it can also be the top of the goods, which for Ye Xuan's subsequent refining of the 25th-level honorable Baodan, help the pole Big.

For this reason, although there was a slight accident before the war, Ye Xuan's heart was still very happy.

In his view, the current hundred-footed worm has been smashed, and all the black-green blood fog after the body exploded has been put away. It can be said that everything is over.

He only needs to activate the interstellar coordinate jump ability immediately. He can stay away from this place in an instant, and his body shape disappears. Even the cracked tiger is coming in the next moment. For him, it has no meaning! Of course

However, at this moment, Ye Xuan is trying to order the phagocytic system in the body, and immediately activates the interstellar coordinate jumping ability. As a result, the accidental accident suddenly occurs...

...crack

Tiger Star, the nesting star of the Devil's Tiger, the light blue atmosphere of the crouching of the hundred-footed magic foot, there are tens of billions of miles!

The distance of tens of billions of miles, even if the hundred-footed magic insects use the \*\*\*\* talent of the strange biological wave frequency, and still fully urged...

I want to pass his distress signal to the fission tiger star beyond 10 billion miles, and then the cracked empty tiger receives the message, and immediately tears the void to come at the first time... indeed, as Ye Xuan deduced Generally, it takes two or three breaths. but

Unfortunately, in fact, when Ye Xuan entered the nest of the Devil's Nest, the Devil's Tiger was out of the cracked Tiger Star where his nest was located because of other things. and

And the direction he went to is exactly the side of the nest of the worms! when

Ye Xuan slammed into a hundred-footed worm, forcing him to pay the price. When he sent a distress signal from his blood and talents at the moment of life and death, the cracked empty tiger was only more than two billion miles away from this fierce beast with a light blue atmosphere. the distance. More

The original tens of billions of miles away, shortened by 80%!

In this way, when the cracked demon tiger received this message of help, Ye Xuan was just a punch to the hundred-footed bug. and

At this time, a sudden smashing of the devil's tiger, under the slight change of the face, is also a direct wave of tears to tear the cosmic void in front of the body, a glimpse of the cold, a flutter, directly into front of the body Among the cracks in the void, it disappeared! Milli

Undoubtedly, after a short period of time, when his figure reappears, he must have arrived inside the light blue atmosphere of the beastly star...

Chapter 4423: Shocked

"Booming..."

Roar! ""

Ants, leaving a life..."

When Ye Xuan wants to start the interstellar coordinate jumping ability, when he is walking away, the virtual void on the right side is tens of millions of miles away. A huge shocking blast comes, the void is torn open with a crack, and the body is black. The magic tiger rushed out of the crack. just

As soon as he appeared, he screamed and screamed, and the roar of anger and anger rang through the void. The whole star below, the earth was cracked, and the landslide was broken.

This is a giant star, but it was destroyed by the roar of the arrival, broken into pieces of stars, and the pressure of the coming people can be seen.

At the same time, a powerful and incomprehensible atmosphere, also at this moment, shrouded Ye Xuan Zhou body.

This is the pressure of the universe's sacred people. If Ye Xuan has already experienced the power of the universe in the eighth state of the konjac, he is suddenly stunned by this stalwart. I have to wait for a while on the spot.

Seeing this scene, Ye Xuan's face changed slightly. This head is empty and there is no fear at all. If you really want to do it, Ye Xuan has a 10% grasp to kill each other.

But it takes a certain amount of time, and with the delay of this time, another cosmic sage in this savage wolf, that is, the fifth-order sub-blood wolf in this situation, will surely come over. complete

Actually, this is just a cracking tiger. The arrival time is beyond the prediction of Ye Xuan. Ye Xuan originally thought that he would arrive at least two or three interest rates. I didn't expect this to be a half-heart, but it has already torn the tiger. The air is coming.

The speed of the reaction far exceeds the judgment of Ye Xuan.

This made him very uneasy, and now this cracked tiger has arrived. If the other side of the \*\*\*\* wolf is like this, today's game is extremely unfavorable.

Even if Ye Xuan still can still take the interstellar jumping ability, but in the face of the courage of the two cosmic sages, Ye Xuan wants to successfully activate the interstellar coordinate jumping ability to leave, then, before leaving, must have their own It is only when the strength is raised to the universe.

That will undoubtedly expose your true strength in advance, which will be extremely unfavorable for subsequent actions.

"Hey!"

When he was thinking about a hundred turns, the tens of millions of miles away from the snarling tigers roared, and his mouth screamed again.

"Oh yeah..."

Once, as his roar came out, the void in the head of Ye Xuan once again cracked a huge void. One

The invisible power of the stock actually ran through tens of millions of miles in an instant, directly tearing the void. This

It is also one of the abilities of the Devil's Tiger, which is related to his blood talent. His roaring voice has some kind of mysterious power. Not to mention the huge giant stars, even the void can be invisible. Tear in the middle.

"Boom!"

Xuan activated the interplanetary coordinate jumping ability in the body for the first time, and slammed into the cracking empty tiger that was roaring through the distant void.

Although he is not showing the strength of the cosmic sages, it is also the ninth-order grand perfection of the Emperor.

Although this level of power is not the opponent of the slashing tiger, but with a positive battle, it still has this qualification. One

Boxing blasted, Ye Xuan was not meant to reinvent the opponent, but only to confuse.

In general, in the face of strength far more than their own opponents, but still give up their fists to attack, this is definitely forced to a desperate situation, there is no rhythm of any means of escape. leaf

Xuan did this, trying to cover the upcoming interplanetary coordinate jump ability, so as to avoid this ability to be exposed, it will also cause the vigilance of the cracked tiger, and affect the subsequent actions. "

Roar! "

As he slammed out of this boxing, the smashing of the smashing sorcerer's scorpion instantly smashed a sinister sorrowful gaze, which seemed to ridicule Ye Xuan. At the same time, there was another horrible roar in his mouth.

As the roar came out, an invisible force came to the surface. At this time, the interstellar coordinate jumping ability of Ye Xuan's body engulfing system has been activated, and it is ready to jump at any time.

At this moment, his gods rushed to the extreme and felt the invisible power of the awning. When it was about to come, the power of the whole body suddenly broke out and quickly retreated backwards...

In the blink of an eye, Ye Xuan's figure was like a meteor, and he slid backwards. A blood arrow was also sprayed in his mouth, but he waved his hand and directly rolled into the body... Facing this level of opponent, It is a drop of blood that cannot be left behind. no

Then, the other party is very likely to master some kind of secret law, and can make a lot of arrangements with this blood!

All of this is naturally fake, but it is the means by which Ye Xuan is acting for confusing. and

At this moment, as he was seriously repulsed and repulsed, his figure was also incomparably directly retreated into the void crack that the cracking tiger had previously ripped open. Virtual

Inside the empty cracks, there is an endless stream of emptiness. This time, on the violent body of the starry sky, several cracks have been torn open by several small voids. but

But also did not leave a drop of blood, all were included in the body by Ye Xuan.

It was also at this moment that when he fell into the void of the void, Ye Xuan did not hesitate and immediately issued an instruction to expand the interstellar coordinate jump to the body's engulfing system. to

The coordinate point locked by the jump is near the source nest star that bred his strongest avatar..."

call out! "

The faint sound of the air broke away. With the development of the jumping ability, Ye Xuan's figure disappeared directly in the void crack. At this time, all of his body shape raged with a lot of emptiness.

At this time, the Devil Tiger is still more than 20 million miles away. From his perspective and distance, Ye Xuan's figure is clearly endlessly emptied by the endless void of the ocean like a crack... directly swallowed away! "

call out! "

Ye Xuan's figure has just disappeared, and the faint sound of the empty air has suddenly sounded. The shape of the cracked devil tiger has reached the front of this void crack. he

Did not enter the crack, because the crack is slowly gathering, once the crack, the crack is completely closed, then even if he is, I am afraid that can not find the path of return, it will most likely in the endless void turbulence , completely lost..."

Humph! Little ants, dare to come to me to fight the autumn wind... I am lucky, lost in the emptiness of the void, otherwise, if it falls in the hands of the deity, you must be born to die! "

There was a cold voice in the mouth, and the cracked empty tiger hated a few words. The front paws swung down and directly smoothed the void crack, completely cutting off the starry sky that fell into the crack. Escape the crack and find the possibility of returning home. With

After that, the Devil's Tiger turned to glance at the giant star that was smashed by his original roar, and then stopped and turned away. This

Once, although the banned wolf banned the land, although it lost a late emperor, for the cosmic sage, this is obviously nothing, and it is not at all in the heart...

Chapter 4424: Fifth stage

"Hey!" broken

The sound of the air rang, and Ye Xuan's figure appeared in the void...

He did not fall to the void crack at the root, but at the moment of falling, he directly launched the interstellar coordinate jumping ability, thus deceiving the cracking tiger. Such as

This time, not only did not expose their ability to jump, but even let the other side mistakenly believe that they have fallen into the void crack, buried in the endless void turbulence.

This result is simply perfect, and he is more satisfied than Ye Xuan originally planned.

In this way, if this time, two shots were taken before and after the ban on the ban, the two bloodstains were obtained, but the impact was not even a half-step. that

It's impossible to focus on a half-step sacred starry sky that is already destined to fall. This

Everything is unlikely to become a reality. It is basically unrealistic to deceive a cosmic person. It

So finished, on the one hand, Ye Xuan's acting skills are also a pass. After entering the void crack, he deliberately let a few small voids smash his body and look like a wolf. This scene is far away. When the cracking tigers of more than a thousand miles away see it, he naturally will not think much.

Of course, more importantly, the cracking of the devil tiger did not think of anyway, Ye Xuan actually has this magical ability, can actually jump away in an instant, and there is no space fluctuation, even he captures Not going to...this

Engraved, as his figure appeared, Ye Xuan even relieved from the state of the fifth change of the konjac, and still turned into a violent starry sky, so that As a result of his cultivation, he fell to the fourth stage of the emperor's immortality!

As for the previous fall into the void crack, deliberately let a few small voids slosh the scars on the body, the eyes have already healed, and with the arrogant blood of the fifth change state of Ye Xuan A little injury is simply insignificant.

At this time, after he broke the body of the one-hundred-footed worm, he formed a majestic black and green blood income, and sent it into the flame pool at the bottom of the volcano of the Shennong Dingyang domain to carry out blood purification, only a dozen or so Interest only. This

After all, it is the blood of the imperial class, which is different from the public. It is only a matter of ten, and it is obviously not completely condensed.

Ye Xuan did not worry, and did not leave. He directly applied the magical power of the perfect shock, and the whole body was hidden. All the breaths were fully converged, and then they waited in the void.

After about half a column of incense, Ye Xuan opened his eyes and flashed a touch of fine mans.

"call out!"

In a hand, Ye Xuan spread the right palm, palm of his hand, there was a black and green beast blood, revealing a strong atmosphere of the emperor, and still the late Emperor. This

The quality of the Fengfeng Emperor is excellent, but it has not reached the level of the best, but Ye Xuan has been extremely satisfied.

Like the previous blood of the six-tailed fox, the blood of the condensed blood, this \*\*\*\* emperor, leaving the characteristics of the one hundred worms, the color is black and green. Do not

After this time, Ye Xuan has been psychologically prepared, but it is not very entangled.

After turning over again, and after the second Fengdi blood was collected, Ye Xuan thought a little, and immediately flashed a touch of fine mans, whispering: "After the previous two battles, the previous breakthrough has skyrocketed. The power has been completely refining, so... it's time to start a new breakthrough."

"After this breakthrough is completed, continue to hunt!"

After that, he immediately got up and rushed to the right side of the sky. In memory, there is an abandoned star in this direction, which can be used to break through.

Soon, Ye Xuan came to this abandoned star, entered the star nucleus, and directly sacrificed Shennong Ding, but it was a reduced shape of the square shape, and then he became a body, and came directly to the colorful fog. At the mouth of Shennong Ding Ding, sit down on the knees. under

For a moment, his shackles flashed, and when he waved his hand, there was a lot of faint sound of breaking. each

A variety of top-level cultivation resources have been taken out from the immortal world, including the peak remedies that have just been refining not long ago, the evil source liquid, and other rare treasures of rare treasures. .

This time, among the breakthrough resources he prepared, there is also a large piece of Baoxuebao meat that has been flooded with ancient and powerful energy. It has been roasted into a golden color by Shennong Eight-color Flame. With

After that, the domain field power of Shennong Ding in the body was fully promoted by him. All the cultivation resources hanging in front of him were crushed under the pressure of Baoding domain field, and the eyes were turned into a small ball. do

After all this, Ye Xuan opened his mouth and swallowed the beads into the abdomen. He quickly turned into a smashing down the throat and rushing to the limbs of his body!

"Oh la la..."

"boom!"

The next moment when the turbulence spreads, the sound of the chain is screaming, and Ye Xuan unexpectedly, this time there are two chains of shackles in his body!

From this moment on, Ye Xuan's body is like a sky-turning, the sound of the huge chain of chains has not stopped for a second, the newly formed violent energy of the river follows the whole body, constantly swaying the new one.桎梏 chain. leaf

Xuan completely forgot the existence of time, he converges his mind, concentrates on the path of the ancient sacred gongs, and the gods take the energy of the swells in the body, and revolve around the meridians. Sunday's operation. in

In this process, while refining the body of this energy, it is also accumulating the power to hit the chain again!

There is no time for cultivation, and time passes slowly. Even Ye Xuan himself does not know how long it has passed. When this hanging energy is completely refining and disappearing in the leaves of Ye Xuan, the true power of his body is also Significantly stronger than before.

Without any hesitation, Ye Xuan immediately launched a new round of impact even if he pushed the gods to the extreme. "

Hey! ""

Hey! "

The sound of the golden gold and iron symphony came, and the chain of chains that appeared in the body broke off!

Almost at the next moment, the familiar system sounds made it easy for him to ring in his mind, and it was still two times..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: Feng Di immortal fifth order! ""

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: Feng Di immortal fifth order! "

Feng Emperor fifth order!

This time, Ye Xuan ushered in two long-lost violations. It can be said that after entering the royal reign, this situation was less, and I did not expect to encounter it unexpectedly today. Do not

The breakthrough that occurred a long time ago, if Ye Xuan turned the blood of the konjac into the eighth change, the peak power that can be achieved in an instant is the third order of the universe.

Right now, as he breaks through again, if he activates the blood of the konjac, he will not be able to display the konjac and change his body, and his body will be in the state of ten feet. Step, only one step, you can enter the late stage of the emperor...

Chapter 4425: Wonderful opportunity

Once again, Ye Xuan has been repaired to the fifth level of the Emperor in the normal state of human beings. At the moment, he is the state that activates the blood of the konjac and changes into a starry konjac with a height of ten feet. The first order reached the sixth stage of the Emperor. and

If he goes directly to the eighth change of the konjac nine, his peak strength will rise again, reaching the fifth level of the universe!

Moreover, in the state of the eighth change, the giant konjac of Panda's six million miles is so powerful that the strength of the body is soaring, and the combat power is not small. Place

Therefore, Ye Xuan in that state is the sixth-order sage, all capable of pressing, the seventh-order late sage, can also fight!

The strongest person in the forbidden place that had passed before, that is, the head of the blood-scarred wolf, but only the fifth-order of the universe, now Ye Xuan, will definitely be able to fight.

However, if it is added to the second-level sacred enemy, it is not so simple. In order to kill both cosmic sages at the same time, Ye Xuan must have at least seven or more battles of the universe. Row! "

Did you seal the fifth stage? In this way, there are four small-order breakthroughs, that is, the emperor's immortal ninth order is perfect, so it is time to swallow a twenty-five-level lord Baodan..."

After waving the Shennong Ding, Ye Xuan's flashed a surprise, and then he frowned frowningly. In a moment, he felt the pressure was heavy.

The breakthrough of the four small steps, for him, can not be used for a long time.

If, as before, fortunately encounter two breaks, there are two chains in the body, then only two retreats.

Even if there is only one chain of shackles, it is only four times.

After that, you will need to swallow a twenty-five-level lord Baodan, otherwise the strength will be stagnant. and

Now, let alone one of the lords of the lord, he has only collected two of the most important blood materials needed for the refining of the 25th-level lord Baodan. The difference is far away!

"If you use five blood seals to condense, then the last twenty-five-level lord Baodan may be only one."

"And if six or seven pieces of Fengdi blood are used for condensing, the last twenty-five-level lord Baodan will definitely have two."

If it is more than eight, at least three can be released! "

"That said, although there is an urgent need for a twenty-five-level lord Baodan, if it is so close after five, it is too cost-effective to rush."

"It's too hard to get the emperor Baodan. After all, there are so many strong emperors. So it seems that even if you need a twenty-five-level lord Baodan, you shouldn't collect only five emperors. After the blood is fine, it will start to condense immediately."

"It is best to collect more than eight, and then condense, so at least three twenty-five people will come out..."

Here, Ye Xuan sighed and shook his head and smiled: "The five have not yet been assembled, only two in the hand, if you want to make up eight and then expand the condensate... the difference is still six, this task It's very difficult, and time is very urgent. It seems that there can be no more delays."

After the decision, he did not hesitate, his body shape, directly toward the direction of the front of the Milky Way, spurting away.

This time, the direction he went to is not the savage wolf field. It has just played the autumn wind. In a short time, it is not appropriate to pass, otherwise there is a high probability of an accident.

Although in the cognition of the cracked tiger, the starry sky that had gone to the half-step of the autumn wind in the savage wolf field has now fallen into the emptiness, but after all, it has died two times. The emperor is immortal.

The entire savage wolf star is immortal, and it is only ten. This loss is not small, and people cannot be vigilant and prepared. This

Once, Ye Xuan is going to go in the direction of another star-shaped forbidden place on the left side of the forbidden city. all

After a quick rush, it took a day and a half to see a star-shaped field in front of you, but it takes a day to arrive.

So far away, there is no need to worry about being discovered. Therefore, Ye Xuan has developed a speed, but due to careful consideration, he is still under the protection of the perfect shock spirit and secret law. also

After a small half-day, the empty space in the far right side of the front suddenly came with a very powerful energy fluctuation. Ye Xuan felt the breath of this power in the eighth state of the konjac, and was very familiar.

This is clearly the pressure of the cosmic sage.

Right front is all the direction of the ban on the wolf, and now this direction suddenly spreads the horror of the cosmic sage. There is no doubt that it is not the head of the devil, it must be the other sage in the ban. That is to say, the fifth-order sub-blood wolf.

"Look at this breath, it should be more than the second-order cultivation of the sage. So it seems that it should be the \*\*\*\* savage wolf."

In the middle of the flash, Jin Xuan did not hesitate, and his body shape swayed directly to the far left, crouching directly in an inconspicuous abandoned star, convulsing all the breath.

Soon, in the far right of the right, a huge gray-necked wolf appeared in a large body, alone, did not come to Ye Xuan, but rushed out of the savage wolf in the far right front After the edge, it went directly to the left side. straight

After it went far, Ye Xuan Cai rushed out of this abandoned star, condensed the breath, and followed it behind, and did not dare to be too close, keeping the starry sky distance of hundreds of millions of miles, only to ensure that he can weaken I feel a touch of each other's breath. Such as

This journey has been going on for two more days. It has already passed the borderline of the marginal zone of the Xingqiang forbidden land adjacent to the banned banned horse. This Asian blood-stained wolf still has no meaning to stop. Still rushing forward. This

It is clearly the rhythm of the long-distance travel. If there is no accident, it should be a strong forbidden place to go further in this direction.

At that time, the Xingqiang forbidden land will have to arrive at least a few days, and the Asian blood greed is so rushed to go, obviously there is something important, and most of it will be delayed for a while. "

In this way, there is only one second-order cracking tiger in the universe, and the eight-headed emperor is immortal..."

The thought flashed through the sea, and even if Ye Xuan stopped his body shape, the squats kept flashing, and even the breathing was a little quick: "This is a godsend. If everything is going well, this time not only this time, but this time not only I can harvest eight bloodstains in one fell swoop, and maybe even harvest one... Blood of the Lord!"

In fact, the repairing power of the cracked devil's tiger is only the second order of the sacred, and the strength of the fifth-order cult of the sacred martyr in the eighth state of Ye Xuan is the strength of the sacred sect. It was completely killed.

This time, the Asian blood greed... absolutely can't come back!

Chapter 4426: Back to the carbine

On the way to the second target forbidden land, Ye Xuan inadvertently encountered the Asian \*\*\*\* wolf, and spent nearly three days behind him until he determined that the blood-stained wolf was a stronger farther away. Forbidden land, just after arriving there, it will take several days before it stops...

After thinking about it, Ye Xuan even changed the original plan.

He intends to kill a carbine, return to the smashing wolf forbidden land, first kill the head of the devil, and then solve the other eight emperors immortal. This

It is a wonderful opportunity, it can't be lost, and it will not come again!

After the decision, he did not hesitate to fully activate the interplanetary coordinate jump ability even if he gave instructions to the body's phagocytic system. and

The locked jump point is still near the source nest star that gave birth to his strongest avatar.

Right now, he has been galloping in the distance behind the sub-blood wolf. It has been three days. If you turn around directly to the Wolf Star, it will take four days.

And if it is a direct jump, returning to the source of the nesting star that bred his strongest detachment, and then rushing to the forbidden place from there, it only takes two days.

In this way, naturally there is no need to choose, jump immediately! "

call out! "

When the sound broke, Ye Xuan's figure was instantly engraved on the edge of the source nest. He did not hesitate. He activated the magical power of the konjac and changed into the third change in the first time! It

When he has not broken through before, he needs to enter the fifth change, in order to possess the great perfection of the ninth-order perfection of the emperor.

But now, because of the previous two breakthroughs, it is now only in the third state of change, you can achieve this strength and size. It

So I decided to show up with this type and strength and enter the ban on the ban, and Ye Xuan also considered it.

If you directly enter the stagnation of the wolf by the cultivation of the universe, it is very likely that the cracked konjac will be suspicious.

After all, Ye Xuan should have been buried in the emptiness of the void, but now he is not only alive, but also the strength to reach the universe in a short time, he will be suspicious.

Once this is done, in the case of his cultivating, in the event that the other party is prepared, Ye Xuan may not be able to stay.

After all, his cultivation in the eighth state of change is only the fifth-order sage. It is only three stronger than the slashing tiger. It is really necessary to kill the other party and prevent him from escaping. It depends on the plan, otherwise it will probably change. seal

The immortal ninth-order grand perfection, that is, the half-step sacred, the speed is much faster than before, plus Ye Xuan round-trip many times, for this star road has long been familiar with, from time to time directly unfolding the void teleport.

In this way, it took only one day to reach the edge of the forbidden city.

Without hesitation, he rushed into the forbidden place of the greedy wolf and rushed to the star field on the left side of the center. in

The left star field of the central bank is the site of the cracked devil's tiger. He lives in the center, and the four emperors on the four corners of the four behemoths are immortal. They have been solved by Ye Xuan, and they are still the strongest one. . eye

Next, Ye Xuan will hide his body shape and converge all the breath. It is the remaining three emperors who are immortal and cultivated as the weakest one. This

The emperor's immortality is only the third-order cultivation of the emperor. Compared with the six-tailed fox, it is only a strong one, but his relationship with the cracked tiger should be the closest. Otherwise, it will not be cracked. The Devil Tiger is placed in the nearest star to his lair, only about one billion miles away from the fierce beast. This

The distance is far from the Devil's Tiger. It is the weakest, but the only one who is the third-order immortal. It is also a tiger and beast, but it is not a cracking tiger, but a konjac flying tiger, presumably and a cracking tiger. The relationship between distant relatives is also unknown.

Although Ye Xuan had just tossed here before, but because he fell into the crack of the void, in the cognition of the cracked tiger, it should have been buried in the endless emptiness.

Therefore, although the cracked devil tiger has already known the news that the six-tailed fox has fallen, it has not produced vigilance. a few

A few days ago, after a few words of angrily with the Asian blood wolf, there was no movement. and also

For this reason, all the banned beasts in the whole banned wolf have recently been somewhat careful, and they simply dare not hang around in the void, so as not to provoke the dissatisfaction of the two sages, causing disaster. This

In this case, Ye Xuan went straight to the nest star of the konjac flying tiger. After the arrival, he did not hesitate. At the first time, he plunged into the atmosphere of this fierce beast.

After passing through the atmosphere, a mountain river is in the field of vision. At the end of the distant mountains, a million-footed konjac flying tiger is fluttering in the mountains, and the whole body is dark, and the back is actually a pair of bone wings...

And the repairs that are dispersed in the body are breathtaking, and it is the third order of the emperor.

This is the Lord, absolutely right. he

Not only Ye Xuan's prey, but also the bait that Ye Xuan used to bring out the cracked devil.

And, according to Ye Xuan's derivation, the relationship between this konjac flying tiger and the cracking evil tiger should be quite extraordinary. As long as Ye Xuan kills it, then the cracking tiger must be furious and will not be able to prevent it. In the moment, it enters the state of the eighth change of the konjac, and has the fifth-order terrorist power of the universe, and the chance of its bombing on the spot is at least 80%. on

The chances of turning around and fleeing are negligible!

One thought of this, Ye Xuan did not hesitate, and his body rushed over and reached the sky above the mountains.

"boom!"

In the next moment, the starry sky suddenly slammed a punch and landed directly on the back of the konjac flying tiger. huge

The loud roar of the gongs sounded, and the konjac flying tiger did not even have the chance to react. The huge body of a million feet suddenly exploded into a \*\*\*\* fog, and it spread.

"Hey!" No

Half a bit hesitant, Ye Xuan waved for the first time, an invisible gas force spread from his body, and between the blink of an eye, it has enveloped the emptiness of a thousand miles, the red blood fog that just spread and spread, all Sweeping. Receive

After entering the body, the first time was sent to Shennong Ding, and it was thrown into the flame pool at the bottom of the volcano in the central area of Ding Nei Space, and the blood essence was condensed!

This is the third \*\*\*\* animal he has harvested. In just a few days, the harvest is so huge that Ye Xuan is excited.

At the same time, a billion-mile-long, the nesting star in the crouching of the slashing tiger, the cracking of the devil in the nest, seems to suddenly feel something, suddenly opened his eyes, one The incomparable horror of the horror is diffused from its body.

It reveals the meaning of killing.

"Roar!"

In the roar of the roar, the forelimbs of the cracked devil's tiger slammed into the air and directly smashed into the void, and stepped into it, and the figure disappeared.

Chapter 4427: Terror has changed

"Booming..."

"Roar!"

"蝼 ants, you dare..."

Just in the next moment when Ye Xuan just waved the blood of the konjac flying tiger's body, the moon's atmosphere was outside the atmosphere, and there was a tens of millions of miles on the right side of the sky. The void was torn open with a crack, and a black tiger with a large body rushed out of the crack.

As soon as he appeared, he screamed and screamed, and the roar of anger and anger rang through the void. This

Once, the cracking of the devil is clearly anger, and his head is quite stunned by his konjac flying tiger, which is actually being bombarded under his own eyes, which makes him hateful. more

What made him unacceptable was that the existence of the bombing of the konjac flying tiger was only recently tossed in the savage wolf field, and then fell into the void crack, and was starved by the endless stream of emptiness. ape.....

This is \*\*\*\* it!

In just a few days, the greedy wolf was in the same place in the hands of the forbidden land, and the three emperors were degraded, which is clearly the face of the red fruit.

The most unbearable thing for the cracking tiger is that this guy knows that he is sitting here in this place. Before this, he was almost hit hard by his own glimpse, and fell into the crack of the void before he escaped.

Now I don't know what to hit the dog, but he has found the path of return. After returning to life, he did not know how to look down on the low-key, and actually dared to continue to wreak havoc in the savage wolf. very

As for the place where he was only a billion miles away from his own nest star, he killed the konjac flying tiger on the spot...

It's simply not putting him in the eye! "

Roar....."

The thought flashed through my mind, and the cracking of the devil tiger only felt sullen in the chest, not spit up, and looked up again with a screaming roar.

In an instant, the entire star of the konjac flying tiger's nest below, the earth is cracked, the landslide is broken, just like the end.

This is a giant star, but it was destroyed by the roar of the smashing tiger, and it was broken into pieces of stars. It was a powerful and powerful atmosphere. At this moment, it was covered with Ye Xuan...

"Hey!"

Oh..."

At the same moment, in the far left and right rear of the void, there were two loud roaring sounds coming. greedy

The other two emperors in the left side of the center of the womb banned the land and were immortal. They were finally alarmed and rushed over. This

The two emperors are immortal, all in the middle of the world, one for the fifth and one for the sixth.

As for the form, the figure has a million feet, a sub-blood lion and a silver beetle!

After the arrival of these two emperors, they did not approach, but one left and one right, staying in the void of fifty or six million miles away, the atmosphere of the body all diffused and faintly guarded there. It

So, on the one hand, it is the strength of the mid-level of their emperor, and it is not the violent opponent of the ninth-order grand perfection of the emperor. If it is really rushed, it may be directly crushed by others. .

On the other hand, the current Devil's Tiger is here, and the konjac flying tiger that he is fancy is terrible. The cracking of the devil's tiger is obviously furious, and he can't wait to kill the starry temper.

Therefore, even if this kind of sub-blood lion and silver beetle have this strength, they will not dare to do it.

In that case, no difference will once again provoke the cracking of the devil tiger, making him angry! he

The reason why they are kept in the distance between the left and the right sides is obviously to stop Ye Xuan's escape.

After all, he has the strength to repair half a step, and if he wants to escape, he may not have this opportunity.

And if it is really planned to do so, there are sub-blood lions and silver beetles that are slightly blocked on his way to escape. The back of the cracked tiger can also catch up in the first time...

"The ants, your courage is really not big, this time, you can't escape the wings..."

Roar! Yang

The head roared, and the sorcerer's body in the cracked tiger's body was abruptly stunned. Because of the anger, the vagueness reveals a sense of playfulness. It clearly shows the feeling of the old cat playing the mouse: "How? Now Is it your own surrender, or is the deity personally shot and killed you on the spot?"

It seems that your self feels good! "

Ye Xuan did not move at all, it seems to be taboo, but the sound of the gods that came out at the moment, but revealed a feeling of ease.

On the contrary, it is still mocking the cracked tiger.

This is indeed his true performance, not artificial and false.

But in the eyes of the cracked evil tiger, it is clear that it is only bluffing. very

Even the sub-blood lions and silver beetles that were waiting in the distance from the distance were stunned and each gave a contempt.

"The ants, the opportunity has already been given to you, you don't want to... then go to hell!"

Roar! "

The cracking of the devil tiger did not say much, and the chilling awning flashed, and once again screamed, when even the body slammed out, the breath was fierce, and it was rushing toward Ye Xuan, and the blink of an eye had reached thousands of miles away... ...

"This sentence should be the deity...for you!"

A thousand miles away, the other party has no chance of fleeing.

One thought and this Ye Xuan did not hesitate, even if he looked up and screamed: "The konjac changed nine times... the eighth change!"

"Hey!"

His words fell, and a huge explosion came in an instant. This time, his body's skyrocketing speed was faster than before, and the body's strength was even more like the big river roaring.

There are endless fierceness in the limbs, and there is a horrible horror of horror. The body shape that was only ten feet high is exploding at a speed that is horrendous. ....before

After a short period of three interest, it has reached a billion-foot giant, that is, six million miles, which is absolutely comparable to the real giant stars, and even more than it!

Moreover, at the same time of the skyrocketing body, the cultivation of the atmosphere that Ye Xuan has dispersed is also rising at the same speed. The three interest rates have been completed from the previous ninth order of the emperor, reaching the present. The fifth dimension of the universe! Fives

Step of the Lord! and

Opposite to him, the cracking of the evil tiger, but only the second dimension of the universe. two

Between the two, there are three small steps. in

When the level is low, the three small steps may not be anything, but the more they are later, the higher the level is, the smaller the gap is, the difference is the world. and

Today, Ye Xuan and this cracked evil tiger show what they are doing in the universe.

In this big realm, a small-scale gap can almost represent an absolute advantage. If there are two small-order gaps, it is basically crushed. but

Now, Ye Xuan has the advantage of three small steps.

Coupled with the horror of his six million-mile horror body, the strength gap between the two has reached four small steps...

A small order, in the face of this gap, the cracked empty tiger does not say that Ye Xuan has a positive battle, and he even has no chance to turn around and escape.

Already destined to be here, being bombarded on the spot...

Chapter 4428: Destroyer

At this moment, with Ye Xuan's \*\*\*\* magical powers of the konjac change to the eighth change, his body shape has suddenly skyrocketed to six million miles, surpassing the most massive stars, and the power of blood is so majestic. It's eclipsed.

As for the cultivation of strength, it is the same as skyrocketing, and it has reached the fifth level of the universe.

If you count on the power of horrible blood, now he is absolutely comparable to the existence of the sixth order of the universe.

And the Rifting Devil Tiger that is screaming at him is only second-order in this situation, and the gap between Ye Xuan and up to four small steps!

Coupled with the distance between the two at the moment, only 10 million miles away, this is almost doomed to the fall of the cracked tiger.

There is no suspense at all...

"What? The fifth-order sage? This...this is impossible!"

"Roar!"

Seeing this scene, the cracking of the evil tiger instantly changed his face. As a powerful cosmic sage, he almost immediately realized how bad his situation was.

At this moment, with the exclamation, he had almost no hesitation, and for the first time he gave his head a terrible roar.

"Booming..."

"Oh!"

This embarrassing, the cracking of the evil tiger apparently used the blood of the body, with its snoring, tearing open the void, but not for attack, but to escape.

This void crack appears directly above the top of his head, as long as one can rush into it.

Even if you enter the crack, you must face the endless stream of emptiness, and you may even lose your way directly in the endless stream of emptiness, as if you were banished, you will never be able to come back.

But he still has no hesitation at all... In any case, it's better to be killed here immediately.

This thought flashed in the brain, and the emptiness of the devilish tiger, a vertical body, wanted to rush to the void cracks thousands of miles away.

However, this Zhao Yexuan had already expected it, and he was prepared to see it. At this moment, he saw it. Even when he sneered, the voice of God's thoughts came out instantly, revealing endless sarcasm and disdain: "Hey? What is this? The rhythm? In the first moment, I want to die, and the next moment I will tear it up and prepare to drill in. You can really play with the cracked tiger...."

"puff!"

This statement is too sinister, and the cosmic lord of the universe has been damaged. This is a smoldering tiger who only wants to squirt a \*\*\*\* arrow.

"Blood can't be sprayed, these...the deity is useful, already booked!"

"boom!"

Seeing this scene, Ye Xuan did not hesitate. At the same time, the figure of God was heard, and the figure was suddenly abrupt. It was directly trapped in the sky above the head of the cracked devil, blocking his way.

Then, the huge violent violent size of six million kilometers, violently slammed, swung a giant fist, and directly leaned over...

"Oh! No..."

Seeing this scene, the cracking of the devil's tiger was smashed, and the screaming screams came from the mouth, and the unsatisfied voice of the gods also rang through the void.

However, all of this can no longer be changed. In the face of a starry temperament comparable to the sixth-order sage, he has no chance to struggle.

"boom!"

In the next moment, a sharp burst of the starry sky slammed directly on the back of the cracked devil's tiger, making a huge roar.

There was no chance for the cracking of the evil tiger to rebel against it. The huge body of the giants was suddenly blown into a \*\*\*\* fog and spread.

"call out!"

Seeing this scene, Ye Xuan's heart suddenly became loose, without hesitation, and waved for the first time...

An invisible temperament spread from his body. In the blink of an eye, it has enveloped the emptiness of a thousand miles, and the \*\*\*\* red blood that has just spread and swept through.

After all of it was collected into the body, it was immediately sent to Shennong Ding, and it was thrown into the flame pool at the bottom of the volcano in the central area of Dingnai Space.

In the blink of an eye, a second-order universe of the universe... is fallen!

For Ye Xuan, this time the harvest is simply huge.

His own cultivation has not yet officially broken through to the universe, but he has harvested a blood of the sage in advance, which is absolutely an unexpected joy!

You must know that the blood of the Fengfeng Emperor has been so hard to find, and the blood of the Sayādaw is even more imaginable!

In fact, even Ye Xuan's own cultivation has officially broken through to the universe, but at that time, it is not easy to kill a cosmic person.

Although there are many Xingqiang forbidden areas around the Milky Way, there are only a few of them in the Xingqiang forbidden land, and each of them is highly regarded. Can you hunt easily?

It can be said that this time has such an amazing harvest, it is completely hit by the Universiade.

Otherwise, if the head of the \*\*\*\* wolf is here, Ye Xuan has no chance at all.

However, this time, although accidentally killing a second-order sage, the harvest is huge, it is a surprise, but for now, everything is far from over.

Now, with the fall of the slashing tiger, this savvy wolf is in the forbidden land, and there is no longer a cosmic lord. For Ye Xuan, this is definitely an excellent opportunity.

In this Xingqiang forbidden land, there are a total of ten emperors immortal. Before that, he has already killed three of them, and there are still seven remaining.

In the far right tens of billions of miles away from the central right-hand star field, there are five whole emperors immortal, and at this moment Ye Xuan's central left-hand star field is left with two emperors .

Moreover, the two emperors are immortal, and now they are in front of Ye Xuan's eyes, one left and one right, only a few hundred and sixty million miles away from him.

As long as the two \*\*\*\* lions and silver beetles are killed, the thing left by Ye Xuan is to go to the star field on the right side of the center of the forbidden city.

After killing the last five emperors, you can immediately walk away!

It is absolutely shocking for a person to almost eliminate a junior strong ban. Even Ye Xuan himself has never dared to think about it before.

Now, all this is about to become a reality.

These thoughts flashed through my mind, and Ye Xuan was so excited that even the breathing was a little rushed. Under the flash of the cold, the sub-blood lion and silver beetle turned to the left and right sides.

At this moment, the two guys have already been shocked by the scene that happened in front of them.

A moment ago, they also determined that Ye Xuan will be on the spot.

After a moment, Ye Xuan not only did not fall, but also changed into a fifth-order sage who was horrified to scare the dead, and also thunder shots, there will be a second-level sacred space The devil tiger has become a \*\*\*\* fog.

The second-order sages are still so vulnerable, and they can only do what they have done in the mid-term emperor.

Don't look at the distance of tens of millions of miles now, but as soon as you turn around, you are dead right away...

Chapter 4429: One-pot rhythm

In the blink of an eye, the cracked empty tiger fell, and the entire huge body was smashed into a red \*\*\*\* blast that was violently received by the starry sky.

This scene fell into the eyes, the \*\*\*\* lion and the silver beetle were cold, and the whole person was stupid in the void, and even the half did not dare to move.

It's not that they don't want to turn around and escape, but they face the violent starry sky of the fifth-order sage. Even the squadrons that the second-order sages have cultivated are so vulnerable, because they only cultivated in the mid-term What can I do?

Don't look at the distance of tens of millions of miles now, but as soon as you turn around, you are dead right away...

These thoughts flashed through my mind. The \*\*\*\* lion and silver beetle trembled and looked at each other. Only one eye contact was exchanged, and a consensus was reached immediately.

In the next moment, the voice of the gods who are begging for mercy is easy to sound in the air, full of fear and tremor...

"Impatient, leave us a life!"

"Yes, I am willing to do it."

"Roar!"

"If you are willing to do the work of the dog, then let your flesh be sacrificed. The deity wants the flesh of the emperor...the flesh!"

The words of the two were just finished, and the starry sky above the giant stars was violent, and immediately they screamed and the voice of the gods came out at this moment.

Actually, there is no such thing as a half-point of consideration. It is directly related to the life of the other party.

Upon hearing this, the \*\*\*\* lion and the silver beetle were completely enlightened. The grief and anger in the face showed the color of remorse. As I knew so, I would like to turn around and flee for the first time. At least the chance of being separated is even more More than one line.

"escape!"

"Divided separately..."

In the next moment, the hopeless sub-blood lion and the silver beetle roared at the same time. The two men turned left and right, and turned around and rushed to different voids.

"Is it just too late to escape? Is it too late?"

Ye Xuan's voice of the gods came out again, and the shape of the body disappeared after the sound had fallen. It was the direct use of the void teleport. After a flash, it immediately stopped in front of the silver beetle.

Starry Zerg has a special blood talent, so when encountering this type of opponent, Ye Xuan's first choice to solve the problem, usually the Zerg.

"boom!"

As the figure appeared, the starry sky was not hesitant, and suddenly punched a punch.

The moment of the punch fell on the back of the silver beetle, making a huge roar, and the beetle didn't even have a chance to resist.

The huge body of a million feet suddenly exploded into a silvery \*\*\*\* fog, which spreads out.

"call out!"

Ye Xuan waved again, and an invisible temperament spread with his weak air from his body...

In the blink of an eye, there was a emptiness of a radius of ten thousand miles. The silver blood mist that had just spread and swept through it, and it was collected into the body, and immediately sent to Shennong Ding, and it was thrown into the flame pool at the bottom of the volcano in the central area of Dingnai. Expand blood condensate!

After doing all this, the violent figure of the starry sky once again shook, and it began to teleport, and disappeared in the blink of an eye. When it reappeared, it had already reached the distant void of nearly 200 million miles, just stopped running away. The \*\*\*\* lion's go in front of the road.

Moreover, the distance between the stars and the stars is not even ten million miles, only six or seven million miles away.

Such a close distance is simply a close combat, not to mention the \*\*\*\* lion, even if it is a cracking tiger, there is no chance of a half-turn!

Seeing this scene, the blood-scarred lion was completely desperate, and its original spurt shape suddenly stopped in the air.

"Roar!"

"Want to get the body of the emperor? You dream! It is death, it won't make you swear..."

"boom!"

Under extreme desperation, the \*\*\*\* lion screamed an unwilling roar, and then, as his voice of God came out, the guy actually went straight in the air not far from millions of miles away. Detonated.

The earth-shattering bang came, and the millions of miles of the void were torn by the blasting power of his self-destruction. The \*\*\*\* fog of the red swell spread and opened, and after the fragmentation of the void, countless holes were drilled from the crack. Void turbulence, disturbing together...

After all, it is a strong man in the mid-term emperor, desperate to start self-destruction, this power, originally meant to be!

"Bulging? Don't let the deity get what? This is really speechless..."

Seeing this scene in front of him, Ye Xuan was shocked and stunned. After a short period of time, he rolled his eyes and looked up: "I didn't expect to encounter this kind of mentally ill guy... self-destruction? The power of the star master is automatic!"

"call out!"

Saying that the sound has not fallen, Ye Xuan has suddenly waved his hand. In an instant, an invisible qi is spread out from his body with a weak sound of breaking the air. The blink of an eye has enveloped the emptiness of a thousand miles.

Soon, the red blood fog that had just spread and spread has been swept all the way. Ye Xuan was in the body for the first time, and immediately sent to Shennong Ding, and he flew into the flame pool at the bottom of the volcano in the central area of Dingnai. Refining!

At this point, in this forbidden place, Ye Xuan has killed a second-order sage, and the five emperors are immortal, and the harvest is enormous.

Open the end of the long-awaited, it is estimated that in the past few days will not return to the Asian blood wolf, the entire banned wolf in the forbidden land, there are five emperors immortal is the goal he must hunt.

This is the blood of five emperors. Now there is no cosmic person sitting here in this place. These five emperors are immortal. For Ye Xuan, it is just like the little girls who have stripped their clothes, and they can take it at will.

Such an tempting opportunity, if it is missed, is simply no reason!

"There are still the last five goals. After they have solved them, they will be able to pull out and see..."

In the middle of the Han Mang flash, Ye Xuan whispered in the whisper, subconsciously looking to the far side of the virtual space in the distance.

The five heads of the emperor are immortal, located in the central right-hand domain of the sub-blood wolf, and should not have sensed the change of the star field.

After all, the distance between the left-hand star field of the banned wolf and the core of the right-hand star field is enough to be separated by four or five billion miles.

Even if it is the strong emperor, if you do not intentionally push the power of the gods to the extreme, and extend in a single direction, it is impossible to explore the details beyond such a starry sky.

However, Ye Xuan's time is not much. After all, it's five strong emperors. They have different blood talents and supernatural powers. If they are separated, even if he is a cosmic sage, and it is still the fifth-order existence of this place, But in the end, if you want to kill all five goals, you may not be 100% sure.

One thought of this, Ye Xuan did not hesitate, even when he turned and spurred toward the virtual air on the right side, the blink of an eye disappeared.

This time, he not only opened his speed, but even the body's repairing atmosphere was not concealed, because it was completely unnecessary. The next thing to unfold was the undisguised pursuit, and then no cover. Any meaning.

Today's battle, it is clear that the entire greedy wolf is forbidden... all the rhythm of the pot!

Chapter 4430:

The tens of billions of miles of the sky and the distance, for a fifth-order sage, it is nothing!

At this moment, Ye Xuan is in the state of the eighth change of the konjac. There are six million miles in the body, which is a few laps larger than the biggest natural star. The speed is fast enough to surpass the meteor. Crossed in the void...

In the body, there is a sigh of relief to the horrible pressure!

In this scene, there is no doubt that in the first time, the entire savage wolf has been stunned. The countless forbidden beasts in the primary Xeon forbidden land have all rushed out of their nest stars, and they are stunned toward this terrorist threat. The direction of coming, overlooking.

The exclamation, the roar of the roar, the sound of the whistling sound, and the sound of the tide instantly rang, one after another, resounding...

"What? The fifth-order sage? Where is this starry temper?"

"Where is it not important, the key is what he is doing? Actually, I am so rampant within the forbidden land of my greedy wolf... Look at this battle, it is clear that the coming is not good!"

"The greedy wolf is far away, but the demon tiger is still in the forbidden land. How can there be no reaction at this moment? Is it for him to run in my forbidden wolf?"

"The situation is not good. This is a horrible starry sky. It seems that it happened to be from the left star field where the demon tiger is sitting in the town. So it seems... the demon tiger, I am afraid it has already been poisoned! "

"Hey! A fifth-order sage, actually came to me and smashed the ban, and how could it be..."
