

## Super D. S 443

### Chapter 443: Dragon

"What the hell?"

Both Bone and Tang Huaizhi are smashed, and the Bone Wars are no longer threatened. The two do not understand why Ye Xuan still has to take time to ruin the white bones and smash, and do not understand what the green thing is.

The more strange nature is the bone seven, because this white bone warfare is his own refining, only he knows that the cervical vertebrae of the white bones are weak.

"Snapped!"

The smashing mud of Megatron fluttered on the white bones, and then disappeared a little. It actually penetrated into the bones.

The next moment, the white bones trembled and stood up again.

"what!"

Bone seven eyes widened, an incredible look, only to see the white bones treacherous arm and thigh connection point was destroyed, the head was cut, and now, it has returned to its original.

No, no recovery!

At this time, there is already a silver liquid on the ground. Megatron has already cleared those connection points. It uses its own body to reorganize the white bones.

"This is impossible!" Bone seven screamed out.

This scene, even Ye Xuan did not think, he distracted and found that the level on the Megatron panel has reached the sixth-order, six hundred and five dragons.

Originally, Megatron had only three hundred dragons. Now, after the integration with the white bones, it has been upgraded to 650 dragons.

"Okay, it really gave me a surprise."

Ye Xuan's eyes flashed a touch of color.

"Hey!" "Hey!" "Hey!"

The white bones trembled to the Ye Xuan side in an instant, and joined the battle with the sword. It was comparable to the sixth-order temperament. The joint Ye Xuan instantly suppressed the bones and Tang Huaizhi.

"You two, it's time to die!"

Ye Xuan's morale is high, because the white bones smashed Tang Huaizhi, and his opponent is Tang Huaizhi.

"Damn!"

Tang Huaizhi's heart is also a roar.

Originally, they and Ye Xuan played indiscriminately. Now there is a sacred six-order white bone war, and the situation is instantly reversed.

"call out!"

A thousand cold flashes, Tang Huaizhi's shoulder was cut off a large piece of meat, and even the neck was rubbed, blood and direct.

Tang Huaizhi knows that he is going to die, and it is a shame that he is a sect of the five poisonous lords.

"Kid, I will die, but you will die too!"

Suddenly, Tang Huaizhi sighed, and then his body began to glow green, a constipation.

Ye Xuan saw it, felt that something was wrong, and quickly retreated.

"Hey!"

Tang Huaizhi's body exploded and flesh and blood flew, and there were countless black powders spreading out.

"In vivo poisoning?"

Ye Xuan was shocked. This ghost tomb was really powerful. Tang Huaizhi still hid the poison in the body, which was terrible.

Fortunately, his speed is faster, he has already flashed a hundred meters away, and the poison powder did not fall on him.

"Second brother!"

Bone seven saw his brother blew himself, his eyes were red.

"It turned out to be a brother!"

Ye Xuan heard a scream, slightly surprised, but the next moment his mouth was slightly tilted.

"Don't worry, you will go down with him soon!"

He quickly plucked out, took a few palms and shook the poison powder, and then got Tang Huaizhi's ring.

"Hey, the host has broken through the power of four hundred and eighty dragons!"

Realm, skyrocketing in an instant.

Now his physical speed has reached seven hundred and fifty dragons!

"call out!"

He did not delay at all and quickly swept out.

Bone Seven is already ready to die, but he is not so dead, he must pull the back of the leaf.

He took out a jade bottle and poured it into his mouth. The jade bottle was not a liquid but a gas.

Dead!

"Dead gas, bone burst!"

Ye Xu, who was looking at the flying bones, also blew himself like Tang Huaizhi.

"Hey!"

The flesh and blood flew, and the bone powder instantly shook 100 meters away.

Ye Xuan reacted so slowly that he was shocked by the shock wave and flew out.

"puff!"

He spit out a blood, but fortunately he has more than 600 dragons at this time, otherwise he will die under this attack.

"It's terrible. One body is poisoned, and one bone is exploding. This ghost tomb collar can't be underestimated."

Ye Xuan stood up hard, and the next moment, he quickly swept past.

Fang Cai, Megatron is around the bones.

"Xiao Tian?"

Ye Xuan shouted.

The bones of the white bones have been shaken, and the hard bones that have been specially refined have also been shattered.

However, Megatron was hidden in the bones of the white bones, so he survived.

It climbed out and reorganized into a small bird that fell on Ye Xuan's shoulder.

"Where, nothing is fine."

Ye Xuan took a look at the panel and found that Megatron had recovered to the power of three hundred dragons. It seems that this is related to the bones of his boarding.

"Don't worry, this white bone war is destroyed, but there is also a sacred eighth-order in his ring, and I will learn to refine the bones and wars to help you refine a stronger one."

Ye Xuan said comfortably.

Then, he went over and smashed the bones of the bones. The bone sword held by the bones was good. He also received the Qiankun ring and used it for Megatron.

He sank his mind into the ring, and did not devour everything, but began to look for it.

"Found, the bone bone secret!"

Ye Xuan took out a white book and then included it in the phagocytic system. After learning the white bones, there was no proficiency and it was completely learned.

Not only that, he also found a good body of martial arts.

"Hey, the host learns to be a ghost, and it's a fire!"

The battle of the genius, the silver feather body method is much worse than this ghost, so it leads to a stalemate between the two sides.

If Ye Xuan had learned this ghostly step by step, Tang Huaizhi and Bone Seven were vulnerable in his eyesight.

"Well, the method of controlling the white bones and the refining method have already been done, but the material of this bone seven can not refine the material of the eight-step white bone warfare. It seems that it is necessary to collect it, Megatron, You should use this white bone to fight."

Ye Xuan said, and took out a white bone warfare, this is the bone skeleton of the bone seven spare, only five hundred and sixty dragons.

Ye Xuan knocked out all the connection points on his body, and then let Megatron and the white bones merge.

Then, he is swallowing up what is not in the ring.

"Hey, the host has broken through the power of five hundred dragons!"

Bone Seven is a guardian of Bai Bingzong, and this time he has taken the most profit from the \*\*\*\* drug-washing door, directly letting Ye Xuan break through the power of five hundred dragons.

Now, things have come to an end, but Ye Xuan is not in a hurry to go to the five poisons, but back to the poison.

This time, he wants to kill the dragon!

This plantation was affected by the poison dragon, and the Tiandi treasure became precious. Ye Xuan took the side and collected it. He was going to pick up the entire poison.
