

Super D. S 4431

Chapter 4431: Keep the pig under the fist

A blink of an eye, two or three breaths before and after, the last five heads of the wrecked wolf banned the immortal, they have fallen three more, and the rest, only one black beetle, and a star porcupine!

This scene is too astounding. The three heads are immortal. In the hands of Ye Xuan, only three times when they can't breathe, they have been smashed into a awning blood fog. After the fall, they will be taken away!

Until then, the countless forbidden beasts who stayed in the air in the distance, finally reacted to what happened.

Although they know that the greedy wolf is going out, the truth about the demon of the demon tiger has only been guessed, and the others are still in the dark.

But at this moment, I saw this starburst of unknown origins in the shortest three breaths, and after killing three emperors, but after the immortality of the emperor, but in the forbidden place, But there is no reaction at all...

These forbidden beasts are not fools. This unusual situation makes them realize that it is not good.

For a time, all kinds of screams and screams screamed, and instantly it sounded like a tide...

"When it is over, the demon tiger sage has not appeared. This is absolutely not normal. If there is no accident, it must have fallen."

"It's no wonder that this powerful violent ignorance has no meaning at all. People don't need it at all. The whole greedy wolf is forbidden. Now, even a cosmic sage has not. For him, it is simply not fortified. No land..."

"What is the use of the Devil's Supreme Master here? This starry sky is violent, but the fifth-order sage... I am smashing the ground, today is destined to perish!"

"Escape..."

"Roar!"

"Hey..."

.....

With the screams and the screams of screaming, the whole savage wolf smashed the ground completely, and in the vast void of hundreds of billions of miles, countless forbidden beasts were all crazy, and they were banned from the greedy wolf. The direction of the outside is extremely fast, and the wolf is fleeing.

For all of this, Ye Xuan was not interested in paying attention to it. Now, he can give him a little interest to hunt, at least it must be immortal. Under the Emperor, he simply can't afford it.

Of course, this greedy wolf is forbidden as a primary forbidden ban, and there are many banned beasts in the royal family. It is estimated that there are no hundred and eighty. At this moment, there is no such thing as a dog at home. Escape in the distance.

But now, Ye Xuan is not in the mood to pursue them, because in front of him, there are two more tempting emperor-level beasts.

A black beetle, a starry porcupine!

At this moment, the two guys are also one left and one right, rushing to different directions...

According to Ye Xuan's habits, in this case, it is natural to start with the Zerg.

"call out!"

The faint sound of the empty air rang, the huge starry sky slammed the shoulders, and the body shape disappeared in an instant. When it reappeared, it was already 200 million miles away, just in front of the black beetle's escape. !

"Hey..."

At this moment, the black beetle was completely desperate, and the sound of the screaming screaming in the mouth, the whole body trembled fiercely, and the body's breath became violent, which is clearly the rhythm of self-destruction!

Seeing this scene, Ye Xuan stunned, and then he turned his eyes. Then, his voice of God's voice came out: "Is it self-destructive? Then hurry up, the deity just happens to enjoy it, and by the way, you blew himself up." The flesh and blood of the body is collected!"

"puff!"

"boom....."

Hearing this words, the black beetle spurted a blood arrow on the spot, but the body's strength had already violently reached the extreme, and the process of self-destruction could no longer be reversed.

"Damn..."

As the blood arrow in the mouth spurted out, the black beetle raised his unwilling roar, and then, as his voice of God came out, the guy was directly in the void not far from millions of miles away. In the middle of the explosion.

The familiar roaring blast came, and the millions of miles of the void were torn by his blasting madness. A black **** mist spread and opened, and after breaking with the void, it was drilled out of the crack. Countless voids turbulent, disturbing together!

"call out!"

Ye Xuan and so on is this moment!

As the black blood mist spread, he suddenly waved his hand.

In an instant, an invisible temperament spreads out of his body with a weak blast, and the blink of an eye has enveloped the emptiness of a thousand miles.

The black blood fog that just spread out was swept away in full.

Ye Xuan earned it into the body for the first time, and immediately sent it to Shennong Ding, and cast it into the flame pool at the bottom of the volcano in the central area of Ding Nei Space, and began to condense blood!

At this point, within the forbidden land of the vast tyrannical wolf, only one emperor is immortal, and it is the starry porcupine that flies to the other side in the right direction!

The repair of this starry porcupine is not up to the strength, but it is the sixth stage of the emperor's immortality, the mid-peak peak, only a step away from the late Emperor.

At this time, his figure was on the right side of the sky more than 200 million miles away.

Because the body shape is too bloated, this starry porcupine is best at speed, not speed, so the escape means for him, almost no.

Facing the current crisis of life and death, he actually did not have any blood and magical powers and talents to use. The only countermeasure is to squirt and rush to the front...

"call out!"

The faint sound of breaking the air rang, six million miles in shape, like a superstar, and even the starry sky that was over there. It was just a void teleport, and it was directly in front of the starry porcupine. .

The distance between the two, but only six or seven million miles away, Ye Xuan only need a punch, and instantly can blast this starry porcupine into a **** fog, and then collect, refining into one Mid-term emperor blood!

However, just as Ye Xuan raised his arm and a fist was about to blast, the emptiness in the front had already stopped the star-shaped porcupine in the shape of the fear, but at this moment the brain flashed in the light, and under the head, the biography Out of the voice of God for mercy...

"Hey..."

"Predecessors, keep pigs under the fists, we are our own people, your body, the imprint of my direct bloodline descendants..."

"Ok?"

Hearing this discourse, Ye Xuan stunned, and then he searched the body subconsciously, not to mention, he was really found a very weak blood.

It was not deliberately left behind, but was inadvertently left in Ye Xuan's body.

As for the owner of this **** gas, it is the goods of the Taikoo porcupine.

At the beginning of the star of the evil, Ye Xuan entered as the Taikoo konjac. In order to help Ye Xuan get the recognition of the furnace, the Taikoo porcupine helped him to imprint the breath on the wall of the furnace.

This **** breath is obviously left in Ye Xuan's body at that time. Because it is harmless, it has not been actively removed.

Chapter 4432: Intergenerational

"Hold the pig under the fist?"

Chewing on this sentence, Ye Xuan's face suddenly appeared strange colors, this moment, he has already confirmed, this starry porcupine in front of him, is the direct ancestor of the Taikoo porcupine, but I do not know which generation.

Two people... No, the two pigs are simply a virtue!

In this case, then, the starry porcupine in front of you, really can't be embarrassed.

After all, it is the ancestors of the Taikoo Porcupine. If it is true, this matter will turn back to the Taikoo Porcupine, I am afraid that the brothers have not done it.

Although it is a pity, because this starry porcupine in front of the eyes is also a mid-term peak of the emperor immortal, if you really want to smash, then it is a good quality Fengdi blood.

However, Feng Di can go to other places to get it, and the pig ancestors of Taikoo Porcupine can be such a head. Among them, Ye Xuan still understands.

What's more, the blood of the Emperor in his hand has already reached nine, and it is enough to refine the twenty-five-level Supreme Baodan.

If there are no accidents, these nine Fengdi blood, more than 80% chance of refining four, and because there is one of the emperor's immortal ninth-order perfection of the best blood, it is five The probability is more than 60%.

Ye Xuan only needs one, and the remaining ones are left to three or four. In a short period of time, it is obviously enough...

These thoughts flashed through my mind, and Ye Xuan immediately decided to give up the star-studded porcupine. Between his thoughts, his figure swayed and he immediately retreated from the eighth state of the konjac to the konjac fourth. head.

In this way, although his cultivation is a moment of decline, from the fifth stage of the previous universe, he descended to the current rank of the universe, but the body shape has also fallen back to the giant.

The horror figure that was a few laps larger than a superstar was too inconvenient. Now the giants are much larger than the starry porcupines in front of them, but at least they are not so awkward.

"Predecessors, do you know my 108-year-old pig grandson? Look at the **** atmosphere that he inadvertently stays in your body. It's a good relationship..."

At this moment, the starry porcupine saw Ye Xuan slightly indulged after hearing his pleading pleadings, and then directly reduced the size, even the repaired atmosphere has converged a lot, and now only the first step of the universe. Up...

The meaning of this scene can be seen as long as it is not a fool.

When the heart was loose, the starry porcupine, even if she was stunned and smacked in front of Ye Xuan, asked him about the situation of the Taikoo Porcupine, and it seemed quite relaxed, obviously not taking Ye Xuan as a root. A threat.

This is also very well understood. After all, the existence of Ye Xuan's level can easily let untrusted people or pigs touch their bodies?

And his 108-year-old pig grandson, since he could inadvertently leave a harmless blood in Ye Xuan's body, at least his demeanor and even qi and blood have been intimate with Ye Xuan. contact.

Being able to have such contact is absolutely irrelevant.

There is a relationship between this layer, and Ye Xuan now really converges to kill, the star porcupine is not a fool, naturally understand that he not only lifted the crisis, but also fell on a thick thigh.

"One hundred and eight generation pig grandson?"

When I heard that the Taikoo Porcupine was actually the presence of this younger guy, Ye Xuan's face was a bit green.

He and the Taikoo Porcupine are brothers, this Ye Xuan did not intend to deny, deceiving others can not deceive themselves.

Similarly, for the words of this starry porcupine in front of him, he has no doubts, because since it is the blood of the descendants, this starry porcupine can naturally recognize the **** atmosphere of the Taikoo Porcupine in Ye Xuan's body. Come out, this is how many generations of pig grandchildren.

There will be no mistakes.

In this way, the Taikoo Porcupine has to call this guy one hundred and eight generations of ancestors, then what about yourself?

These thoughts flashed through my mind, and Ye Xuan's face was instantly black, and my heart suddenly gave birth to an impulse to shoot the guy in front of him...

Although this thought was only suddenly inadvertently rushed out, but invisible, from Ye Xuan's body, but in an instant there was a faint cold smother!

Although the starry porcupine is full of laughter, a pair of relaxed and incomparable, did not take Ye Xuan as a threatening performance, but in fact, this old guy is very thief, has been paying close attention to the response of Ye Xuan. .

After all, after hearing his words, Ye Xuan directly condensed into a breath, and even his body shape has been reduced to about 10 million, but it is only that, for the relationship between the starry porcupine and Ye Xuan, Ye After all, Xuan has no positive recognition and recognition.

In this case, there is still a rhythm of certain variables.

He has to be careful when he is concerned about life and death.

Of course, the facts also prove that it is obviously correct to drive carefully the Wannian ship. At this moment, the starry porcupine clearly feels a faint murderousness, which is faintly dispersed in Ye Xuan's body...

He was shocked, and the cold hair on his back was erected, but his mind was flying around, and he understood what happened in an instant.

If the starry temperament that is repaired as a horrible horror is really going to kill him, then the murder that is scattered in the body can never be just such a weak point.

However, although the killing machine is very light, it is very clear, which means that the other side of the heart still does not want to kill him, at least the performance has just proved this point.

Suddenly, there was a faint killing of the moment, clearly because he just said the wrong thing.

The starry porcupine is also a pig sperm, and the brain turns slightly, and immediately understands what went wrong.

This level of power is obviously to face, this is a cold-hearted relationship with oneself, and even very likely to be a good friend of the same generation, suddenly emerged a hundred and eight generations of ancestors... for yourself Say, isn't it a short cut?

To be precise, it should be a short one hundred and eight!

This kind of thing, even if it is spread on oneself, I am afraid that it will immediately give birth to killing... No, the idea of killing pigs is gone.

One thought of this, the starry porcupine squatted, screaming at Ye Xuan had not yet shot, even if the forefoot hoisted, the person stood up and smirked at Ye Xuan: "Of course, the seniors, no matter what I What is the relationship between the hundred and eight generations of the pig grandson and you, that is between you and him..."

"As for you and me... let's see it as it is, it's natural for the average generation to talk about it. So, I am his elder, and your cultivation is higher than me. Everyone makes one step, the brothers are symmetrical, just dub, No one is losing, isn't it?"

Intergenerational exchange?

When I heard this, Ye Xuan's eyes turned on instantly...

Chapter 4433: Feng Di Sixth

The average generation is good!

When the generations talked about it, the 108-year-old ancestors of the Taikoo Porcupine called the brothers and sisters... At that time, after the old guy came to this world, he saw this scene, just thinking about his face, Ye Xuan felt everything. All worth it!

Although a piece of blood is fine, ten are not changed!

From this point of view, this old thing can not only be killed, but also has to be protected as a rare species. After all, the strong emperors are everywhere, killing who is not killing?

The 108-year-old ancestors of Taikoo Porcupine, or the 108-year-old ancestors who are brothers and sisters, are the only ones, and there is no semicolon!

"Pig brother, you can rest assured that in the future, we are a family. Whoever dares to move you is not able to go with the Lord..."

Mind this, Ye Xuan even called the chest, directly called the pig brother, said half, the words slightly, then followed: "You are right, the deity is indeed a Taikoo porcupine is a fork Brother, but since you have said the various theories, then do what you say. In the future, the deity and he are brothers, and you are also brothers..."

Listening to this, the star porcupine suddenly determined his own guess, the heart is loose, the smile on his face is more brilliant.

I also learned Ye Xuan's appearance and patted my chest and said: "Since it's a family, then don't say two words. This is nowhere to go, this pig has decided to mix with you, but this pig decided to mix with you, but Before going, there are some good things, can't let go!"

This guy is also a black belly. It's against the water in the blink of an eye. Not only does it have to leave with Ye Xuan, but before leaving, it is clearly intended to take Ye Xuan's rhythm in this forbidden place. .

With his understanding of the forbidden land of the wolf, he led the way, and Ye Xuan and the two shot together, it is estimated that the whole greedy wolf is a little good in the forbidden land, they have to be searched clean.

This is definitely a trend of looting! Do not

I don't care, and it's quite welcome...

At the moment, the two brothers who called the brothers and sisters immediately gathered together and whispered to discuss how to deal with the good things in the forbidden place.

After a short period of time, the two reached a consensus and drafted a preliminary looting plan, followed by action. in

Under the leadership of the starry porcupine, the two directly rushed to the nest star of the Asian blood wolf, and directly found the treasure house of the Asian blood wolf, although there is a ban on the law, but it is useless to Ye Xuan, directly blasted, looted .

Then there is the nest star of the smashed Devil's Tiger, and finally, the other emperor's nest...

It took two days, Taikoo Porcupine with Ye Xuan to rob all the good things in the whole banned wolf, and smashed more than a dozen of the emperors who crouched inside a fierce beast. Everything is seen in the eyes of a large number of savage beasts who are banned from the ground. slow

Slowly, the hatred of these forbidden beasts turned to the starry porcupines, and few people still remembered Ye Xuan. On the one hand, they were such a fifth-order sage, and they hated it. another

On the one hand, Ye Xuan, who came from the invasion, turned his gun to the star of the porcupine, making them feel shameless.

However, the latter did not have such a sense of ignorance. After Ye Xuan robbed the entire savage wolf, he turned his face and smiled and waved his hand. He then went away with Ye Xuanyang.

After the day, the **** greedy wolf returns!

Looking at the dilapidated, deadly greedy wolf forbidden, he almost suspected that he had gone the wrong place.

"Hey..."

The sorrowful and uncomfortable long wolf, resounding in the void, for a long time...

.....and

At this time, Ye Xuan with the starry porcupine, has left the savage wolf field, enough to be hundreds of billions away. he

Did not directly return to the source of the nest base camp, after all, the reliability of the starry porcupine remains to be tested, anyway, Ye Xuan will not have anything to go back, just take him around in the boundless Hong Meng virtual air everywhere, just find an abandoned star stop It's down.

"The deity is going to retreat, you are staying outside, protecting your law..."

Xuan looked at the starry porcupine and did not go to talk with him. He turned into the star's star nucleus and waved Shennong Ding.

Then he went to the Shennong Dingkou, where he was holding a colorful mist, and sat down on his knees. Then his cockroaches flashed, and when he waved, there was a lot of faint sounds of breaking. .

The distinction he has made is a variety of top-level cultivation resources, including the peak eight-color **** medicine, the evil source liquid, and other rare treasures of the rare treasures, but also a large The treasured blood of the ancient and powerful energy level of the ancient sages was baked into golden color by Shennong eight-color flame.

This is clearly the intention to immediately retreat and try to break through the rhythm.

It is because of the many wars that have been experienced before. The real element of Ye Xuan's last breakthrough has been completely refining, and there is a glimmer of glory. very

Fast, the domain field power of Shennong Ding in the body was fully urged by him, and all the cultivation resources hanging in front of him were crushed under the pressure of Baoding domain field, and the eyes were turned into a small ball. Ingested into the abdomen. Following

And it turned into a turbulent stream that ran down the throat and rushed to the limbs of his body!

boom! ”

The next moment of turbulence spread, the sound of the chain of slaps rang, and from this moment on, Ye Xuan's body was turned upside down, and the sound of the huge chain of chains had never stopped.

just

The violent energy that just formed has followed the circulation of the whole body, constantly swaying the newly-opened chain of shackles. he

[illegible]

I don't know how long it has passed. When this hanging energy is completely refining and disappearing in the leaves of Ye Xuan, the power of the real yuan in his body is obviously stronger than before.

Without any hesitation, Ye Xuan immediately launched a new round of impact even if he pushed the gods to the extreme. "

Hey! "

The sound of the golden gold and iron symphony came, and the chain of chains that appeared in the body broke off!

Almost in the next moment, the familiar system sounds make it easy for him to ring in his mind...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the emperor is immortal sixth!"

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: Feng Di immortal sixth order! "

Feng Di sixth order! Do not

The breakthrough before a long time, if Ye Xuan will turn the blood of the konjac into the eighth change, the peak power that can be achieved in an instant is the fifth order of the universe.

Right now, as he breaks through again, if he activates the blood of the konjac, he will not be able to display the konjac and change his body, and his body will be in the state of ten feet. Step, finally entered the late stage of the emperor...

Chapter 4434: Lord Baodan

"Is it the sixth order of the emperor? So, once the magical power of the konjac has changed to the eighth, I will have the power to rise to the sixth order of the universe!"

Opening his eyes, Ye Xuanzhen flashed a glimpse of the fine mans, and subconsciously clenched his fists: "With only one step, you can step into the realm of the late Zun."

And if you count the horrible power of the six million miles in the eighth state, it is the true late sage, I can also fight, the eighth-order sages are able to protect Unbeaten, as long as you don't meet the Nineth Order, you can be fearless! "

"At the moment, it is already a sixth-order situation. If there are three breakthroughs, you will need a twenty-five-level Baodan. Fortunately, the materials have been collected and can be refining at any time."

So, it's cheaper and sooner or later, now... just start refining! "

After that, Ye Xuan did not hesitate, and waved his hand, the twenty-five-level Baodan perfect Dan Fang's various materials resources, he was waved to sacrifice..."

call out! "

"Hey..."

These secondary sources, all spurted out, suspended in front of Ye Xuan.

Among them, the package contains nine pieces of Emperor's blood, plus its various top resources!

This time, he has more than 80% of the grasp, can refine four twenty-five grades of Dan, and even the possibility of five treasures, all of them are more than 70%... As for the six, the chances are much smaller. Only about 50%.

Out of caution, Ye Xuan will have already deduced well, and they have carefully tweeted the twenty-five-level Baodan Danfang twice, and analyzed it again.

After confirming the correctness, only in the wave, all the resources needed for the formula and all kinds of top treasures and medicines were prepared, and then they closed their eyes...

Shennong Ding, the bottom plain of the central volcano!

"Hey..."

The faint sound of breaking the air rang in succession, and a singular spurt came from the height of the Dingkou over the volcano of the central domain. straight

Next to the flame pool at the bottom of the volcano, it suddenly hovered for a moment, and it was the top materials and cultivation resources that Ye Xuan prepared for the twenty-five-level Baodan. "

call....."

In the next moment, below all the resources, in the flame pool at the bottom of the volcano of the central domain, a fascinating Shennong eight-color flame whistling, and instantly condensed into a square furnace with a square shape, small and simple. It reveals an extraordinary atmosphere.

With the formation of the small flames that are condensed by the eight-color flame of Shennong, the materials and resources of the beastly bloodstains, which have already been prepared, all fly automatically, and they have not entered the fireworks of Ding Ding. Inside.

Twenty-five-level Dan, only one, can make a monk who is the emperor of the nine-ordered perfection of the emperor, and instantly become the emperor of the emperor, this kind of resource, for the three major stars in the world All major groups and top forces are absolutely unbelievable.

Just the twenty-level liquid that can make the immortal grotesque, and the twenty-three-level liquid that can make the emperor immortal, can make them crazy, let alone create the twenty-five-level Baodan that immortalizes the emperor? This

Among the top resources that were prepared for the twenty-fifth-level Baodan, only the nine beasts of the emperor's immortal level, in the three major stars of the world, it is extremely difficult to get the hand. Something is gone. because

Therefore, this time Ye Xuan is particularly dignified.

Dedicated to the dedication, he carefully controlled everything, and the method of refining the medicine was thrown out in his hands, turning into a mysterious pattern of incomprehensibility, floating above the Dingkou of Shennong Ding and falling into the lower central domain. The energy stove at the bottom of the volcano!

Time is slowly passing, and three days have passed without knowing it..."

boom! "

Suddenly, above the flame pool at the bottom of the volcano in the central domain, a huge roaring sound rang, and the furnace that was condensed by the pure Shennong eight-color flame was scattered. One

The canopy is like a river of colorful fireworks, whistling back to the flame pool below! stay

Above the flame pool, there are six baby-sized balls.

Compared with the previous beasts, the blood is as big as the head, but it is completely different. The blood is red-blooded and has a strong blood and blood. These six beads, although they are also the size of the baby, are eight Color color.

The surface is more and a layer of dreamy halo, revealing a simple and heavy atmosphere, this is --- twenty-five grade Dan! only

Only one, you can make the emperor immortal ninth-order great perfection level, after swallowing, in a short time, successfully break through the big realm, directly into the twenty-five-level Baodan in the universe!

"There are actually six?"

When Baodan came out, Ye Xuan's voice came from Shennong Dingkou above the volcano of the central domain, revealing a thick surprise.

According to his previous derivation and estimation, this furnace twenty-five-level Dan, the probability of finally releasing six, only 50%, did not expect luck so good, actually actually hit him..."

call out!"

After a sway, Ye Xuan spurred out from the Shennong Ding Ding mouth with a colorful mist, and then waved his hand and directly absorbed Bao Ding into the body. to

The six twenty-five-level Dans that have just been successfully refining are all packed up by him in a jade bottle and properly collected.

With the successful refining of the twenty-five-level lord Baodan, the pressure on Ye Xuan's heart was instantly loose.

But as soon as he thought of the follow-up 26-level Dan, he immediately felt that his head was a few more laps.

The twenty-sixth-level Baodan can make the existence of the ninth-order great consummation of the universe, and after swallowing, it will smoothly break through to the realm of the universe.

Although Ye Xuan still has three small-order breakthroughs from the universe, and after entering the universe, there are a total of nine small steps. So, after all, it is the breakthrough of twelve small steps. You need to use twenty-six-level Baodan. If

It is placed on others, and the breakthrough of twelve small steps may not have a sense of urgency at all, and it takes a long time. but

For Ye Xuan, this is really a very difficult thing to say. In case of two consecutive breaks, the need of the twenty-sixth level Dan will become urgent. Place

Therefore, taking advantage of the current time is still very abundant, he had to think about it early.

I won't get an eyebrow and I will be in a hurry. I am afraid I will not be in a hurry.

But in fact, even now, urgent, it is not urgent. two

The perfect Dan Fang of the 16th-level Dan, he has not yet, the body's phagocytic system is being fully promoted.

In addition to Dan Fang, the most important raw material for the refining of the 26th-level Dan is the blood of the Sacred, which is the resource that can be obtained by hunting the cosmic Lord.

At the moment, although Ye Xuan's hands have a blood of the Sacred, in fact, even this blood of the Lord is also obtained under the accident. It can be said that it is the result of the big game.

Even with this one, it's still four different. Just this thing is enough to make him a headache...

"Unfortunately, the **** wolf on the side of the banned wolf should have returned. At this moment, when he saw the situation inside the forbidden land, he must have been vigilant..."

Here, Ye Xuan sighed: "Otherwise, if it is stopped in the middle of his return, it will not be impossible to kill him with my current strength. Hey, this opportunity... missed it!"

Chapter 4435: Black ban

"How violent the younger brother, why are you so sad?"

From the star of the abandoned star, I saw the starry porcupine on the head. Living

However, with a smile on his face, a big fat belly, a big brother's sect, gently patted Ye Xuan's shoulder, said with a strong heart: "Is there something I can't think of, talk to my pig brother, guarantee to help You solve it." Listen

This is like this piece of Hong Kong, he said that the second child does not dare to call the boss. This

Virtue, and the Taikoo porcupine was carved out of the mold, but also more intensified, seeing Ye Xuan is also drunk, straight through the eyes. eye

Next, Ye Xuan's body shape has been reduced to ten feet, which is to activate the body of the konjac blood, but it does not activate the state of the konjac and blood. In this state, his cultivation is the power of the emperor. Immortal seventh order. with

Like this, the starry porcupine has now shrunk in size, just like Ye Xuan, but it is ten feet high. However, his cultivation has not changed, but it is still the sixth stage of the emperor, which is slightly weaker than Ye Xuan. .

"When you go, you say that you are invincible."

Turning his eyes, Ye Xuan did not take a good breath: "The deity wants to kill the universe, you have a way?"

"hiss!"

Cosmic sage? "star

The empty porcupine was shocked and screamed, and then the sound of coolness was heard, and then he fell into thought.

After a few shorts, I took it: "The violent brother, you are a little surprised. Before staring at the immortal hunting, I suddenly upgraded and killed the universe."

"Don't tell me that you are just doing this to find excitement. Hey, old pig, I guess you definitely have a special purpose, how? Is there any benefit?"

If it is good, it can't be swallowed by one person. I didn't have any strength before the old pig, but it is hard to say later. Even if I am hunting the cosmic lord, I can't help the old pig, but I will give you advice and guide the goal. No problem, I am the most familiar with the old pigs in the entire forbidden area around the entire Milky Way...."

This is really true. Ye Xuan was actually speechless. he

Although I also hunted a forbidden beast to search for the soul before, I had a little understanding of the one of the strongest forbidden places around the Milky Way, but it was only a few nearby. After all, the one was searched by him. The forbidden beast of the soul has limited strength.

The starry porcupine is different. He himself is already the sixth-order existence of the emperor, and he has been with a five-star sage for a long time. He is stunned by all the strong forbidden places in the surrounding area of the entire Milky Way. The understanding is obviously a matter of nailing.

With such a know-how, for Ye Xuan, the follow-up actions will be convenient.

Perhaps, this old pig is really capable of guiding him to the goal, and hunting the cosmic sages who have placed the orders one by one, is not known! With

With these thoughts flashing in my mind, Ye Xuan was in a hurry. Do not

However, if you want this old pig to do things safely for yourself, no temptation is not enough, and the general temptation is also not good. After all, people are already the sixth-order existence of the Emperor, and the general things are still I really can't see my eyes.

What's more, this time, the harvest of the three-footer in the forbidden place, the people and Ye Xuan are also divided according to the Sanqi, Ye Xuan seven, the old pig fine three, it can be said that just this time, he got A lot of top-level cultivation resources.

Therefore, in order to seduce him and let him rush to follow a monkey, Ye Xuan must make a move, and he must come up with something he must have, but there is absolutely nothing that he can't get.

There is no doubt that there must be only one choice, and that is... the twenty-five-level lord Baodan!

Anyway, there are six in the hand, and he has one and five. He said that he can refine it in the future, but there is nothing to be distressed.

As soon as I read this, Ye Xuan's heart suddenly settled, and the corner of his mouth smashed a sly smile that was very interesting. He tilted his head and stared at the starry porcupine. The yin and yang sighed and said: "Hey, this is still on the shelf?"

"Unfortunately, the deity has never been threatened by humans... Forget it, anyway, the twenty-five-level lord Baodan has just been refining, and the refining is needed to break through the 26th-level Baodan in the realm of the universe. The blood of the sage is not in a hurry!"

I met it in the future, and then I hunted it again. Isn't it that the five nobles refine a twenty-six-level Baodan? Now I have one in my hand, only four in the bad, not a lot..."

"Hey!" said

At the end, Ye Xuan turned his hand, and there was an exquisite jade bottle in the palm of his hand. After the bottle was opened, the pour out from the inside was exactly the twenty-five-level Baodan that he had refined before. a strong atmosphere of the Supreme..."

hiss! "

"This medicinal medicine is clearly refining, fresh and incomparable, and... a strong atmosphere of the cosmic sage!"

Next, the starry porcupine immediately looked straight, and looked cool, and looked pale and screamed: "The violent brother, you used to kill the emperor before the immortal, just to collect the so-called Fengdi blood, refining this Kind... twenty-five-level honoror Baodan?"

Lord Baodan? Could it be that the Emperor of the Emperor can successfully break through to the realm of the universe? ""

That's not..."

When the white-eyed one turned, Ye Xuan spoke loudly, and the face of the starry porcupine just floated up to the extreme disappointment. He then turned around and said: "The general Fengdi strong, swallowed no, but Feng Dijiu After the big order is swallowed up, within three days, it must break through to the universe."

"Rely! This is Xiandan, Shendan..."

Listening to the latter part of the sentence, the star of the porcupine with a fat face, both hands trembled a few times, look at this posture, clearly is on the spot shot, directly to Ye Xuan to grab. estimate

It is a key moment to know that you can't beat it. Otherwise, this impulse may not be able to be suppressed.

Taking a deep breath, he even asked again: "The violent brother, before you killed a lot of the emperor in the savage wolf field, immortal, I do not know this time ... a total of a few such twenty Five-level lord Baodan?"

Three! But don't worry about it. Although this deity is not used by the deity, it can all be reserved for friends. "Say

Here, Ye Xuan waved his hand and turned to go away: "Oh, where do you fall in love with it, the deity has no time to fight with you, this has to find ways to kill the universe, collect the blood of the sage , refining the twenty-sixth-level Baodan used to break through the realm of the universe..."

by! Isn't it the hunter of the universe? Is this still useful to find a way? ”

When I heard Ye Xuan to go on his own, the starry porcupine rushed to the spot, his chest was awkward, raising his hand and slamming the chest, and he said with a look of justice: "We are the brothers of the boy, your business, the old Pig, my business, rest assured, killing the cosmic person, hand it over to me..."

Although there are many strong forbidden bans around the Milky Way, not all of the Supreme Forbidden places have two cosmic sages sitting in the town. If only one savior, the murderous brother's cultivation is directly killing the past. For example... black ban is a good choice! ”

Chapter 4436: Another kind of fire

"Black inflammation forbidden? What is it?"

At this point, Ye Xuan's heart suddenly moved, and in the middle of the flash, he subconsciously asked directly: "This forbidden place is named after black inflammation. Is it related to some kind of heaven and earth?"

It is no wonder that he is so sensitive. After all, Shennong Ding's Shennong Flame has evolved to the eighth level. If he can get a top-level fire, the current Shennong Eight-color Flame will once again evolve and become Shennongjiu. Color flame. One

Once the level of the nine-color flame is reached, the evolution of the Shennong fire will also enter the peak state. At that time, the power will definitely rise.

If Ye Xuan's cultivation is further strength, it will be the extent of the universe in the ordinary state. At that time, even if the complete power of Shennong Ding is ushered out, it is very likely.

All of this, getting another kind of top-level fire, is the key to the key, he is naturally very concerned and concerned...

"In the black ban, there is indeed a kind of fire in the world..."

The starry porcupine stunned and then nodded and said: "But what kind of fire is in the world, this pig does not know, after all, it has not really been, just to hear it."

"However, this kind of fire in the heavens and the earth should be very extraordinary, because the cosmic sage in the black ban, the one-legged crow, is said to have been born from this fire in the world..."

Here, the starry porcupine was slightly stunned, and his face showed a fascinating color. Then he took it: "There are many of the various levels of the banned and forbidden stars in the vicinity of the Milky Way, even the weakest primary. Forbidden land in the sky, at least two or more cosmic people will sit on the town..."

"Of course, there is only one star in the sky, and there is also a forbidden land. For various reasons, even if they only have one cosmic sage, they can still stand up without fear of other forbidden places. ""

"But no matter what the reasons for supporting them are standing still, there is basically no doubt that these are the universes in which only one cosmic person sits on the ground, but still stands still. The sage, the cultivation of strength, is basically the late stage of this..."

"At most, there are three or four exceptions, and there are more specific reasons."

"This black ban is one of the three exceptions. The cosmic sage in the black ban is only one, that is the one-legged crow, and the one-legged crow is the strength of the repair. Now, only the third step of the universe is worth..."

"A third-order sage, but can protect a large primary stagnation forbidden, has been standing for years, the reason is because of this world of fire."

It is said that the fire in the sky and the earth shrouded a whole star, and that star is both the birthplace of the one-legged crow and the place of his current lair. On weekdays, the one-legged crow is crouching in this one. Within the stars covered by the fire of heaven and earth. ""

Because of the fire of the heavens and the earth, the fighting power of the one-legged crows is comparable to the existence of the late universe, and it is not mentioned in the expedition to conquer other primary and strong forbidden places, but it is only enough to stick to the black ban. of. ""

Even if the two mid-terms, or even the two universes of the late realm, come together, the one-legged crows crouching in the nest stars, with the help of the power of the fire, can still easily resist..."

This is also why there is only one cosmic sage in the black ban, and it is still the third-order in this world, but it still stands for many years."

"Can the creatures born in this fire in the heavens and the earth grow into the universe?"

Here, Ye Xuanzhen has a glimmer of confidence, and his confidence is even more. He nodded and said: "So, this canopy is different, the level must be extraordinary. If there is no accident, it should be a canopy. Top heavens and fires!"

That... violent brother, you mean..." See

Ye Xuan seems to have given birth to interest, and looks like the interest is still very strong, the starry porcupine immediately grinned. people

Standing up, raise the right hoof and beat the drums like the sound of the chest, and the chest is well-connected: "With the temperament of your brother as your strength and means, destroy this one-legged crow, the top of the world It's no suspense to take away the fire."

In addition to this one-legged crow, the other majestic forbidden areas around the entire Milky Way are like the old pigs, all of them are very familiar. "

"The intermediate-level forbidden land that has the cosmic master is in the middle of the game. We don't have that strength yet, but it's just a primary Xeon forbidden land, but it's completely okay."

"As long as you are interested in the violent brother, all the other primary squadrons with only one cosmic person sitting in the town, I can take you to the old pig, although I can't guarantee that I can collect ten of your respects. The blood is fine, but six or seven are still no problem."

In this way, in the end, it will be a big deal, and then you will risk the conquest of one or two primary slums with two cosmic sages sitting in the town, refining what you call the 26th-level Baodan's blood. It's all right..." said

Here, the horns of the starry porcupine's mouth are coming out quickly, staring at Ye Xuanyuan's direct light: "The violent brother, that can make the universe's nine-order great perfection, after swallowing smoothly. Breaking into the twenty-sixth-level Baodan in the main territory of the universe, except for the violent old brother, here, the old pig I have never heard of other places..."

Look at the old pig, I am so big, I can do it on the top of the squat, can you... oh, anyway, the violent brother only needs one. If you have two pieces of materials, you will reward one. Old pig, me! "

"Just staring at the twenty-sixth-level Baodan?"

In fact, Ye Xuan saw the idea of this dead pig, and listened to him at this moment, and suddenly turned his eyes: "It looks like you are now the emperor's immortal sixth-order? Even swallowing one can help you. When you broke through the twenty-five-level Baodan in the universe, you haven't arrived yet!"

Is there any doubt about this? "One

Listening to Ye Xuan seems to have never taken this as a matter of course. The starry porcupine is in a hurry on the spot: "I am now a sixth-order emperor. I am not a breakthrough in three small steps. If you bite your teeth, it won't take long. I can be behind me..."

"The violent brother, we are relatives... oh, not yelling at you, saying the wrong thing, the old pig means that my good brother and you are relatives, and it is still his 108th generation ancestors. ""

Don't you say that you have a month near the water? The violent old man has a few twenty-five-level Baodan that breaks into the universe of the universe in your hands. Otherwise, you should borrow a grade old pig for use! "

"Borrow one?"

Ye Xuan is also drunk, even if he even flips his eyes again: "If you really want to borrow, you are not a meat buns to beat a dog, Bao Dan feeds pigs... Have you gone back?"

Chapter 4437: Destructive black inflammation

After some adjustments to the price adjustment, Ye Xuan finally nodded, promised to give him a twenty-five-level treasure to break through the universe of the universe after the repair of the starry porcupine reached the end of the ninth order of the emperor. Dan. when

However, it is not without requirements. For this Baodan, the starry porcupine has to do its best to serve Ye Xuan as an intelligence officer and lead the pig. In short, the two formed a hunting combination, ready to ring the ring river. Those junior strong to ban underground black hands...

After the agreement, the two immediately rushed, because the black ban was not far away from the other side of the Galaxy, but it was not near the left and right, but on the right side of the Milky Way near the trillions of miles. . This

Far away, Ye Xuan is traveling with the starry porcupines. Even if he does not sleep, it will take a month to drive at full speed. when

However, he can also take the starry porcupine into Shennong Ding, enter the state of the eighth change of the konjac, and hurry with the cultivation of the universe.

That will be a lot faster. can

In doing so, there are many drawbacks.

On the one hand, the starry porcupine Ye Xuan does not dare to fully trust, and he is also a strong emperor, the means is extraordinary, in case of income Shennong Ding, he was plagued by the treasures in the closed cave at the bottom of the volcano of the central domain, then it is a bad thing. . another

On the one hand, it is because it is very close to the edge of the fortified forbidden land around the Milky Way. In the eighth state, Ye Xuan's size exceeds that of a giant star, and the speed of the rush is too large.

So eye-catching, going straight and pointing in one direction, obviously will be bad for secret hunting...

After some trade-offs, Ye Xuan finally decided to go on the road honestly. Although the time of one month is not short, it is not very long after all!

On the way, for other situations in this black ban, Ye Xuan also had a general understanding through the starry porcupine. Make

For a primary to strong forbidden place, the black ban is not only one less than the cosmic stalwart, but the only one of the cosmic sages, the land of the lair is a huge flame filled with top-level fires. Everything else is similar except the stars. in

The black ban is forbidden, and the emperor is also immortal. In total, the ten emperors are immortal. Ye Xuan also did not intend to let go, and listed it as the second-level hunting target. when

However, everything is still based on hunting the one-legged crows...

After a month of rushing, Ye Xuan and the starry porcupine finally reached the edge of the black ban. No

Any hesitation, the two in tandem, went straight to the black ban, but there is only one cosmic sage here, and Ye Xuan is also directed at him, sooner or later there will be a battle, so There is no need to hide the tail again. versus

If it delays, it is better to rush in directly, and immediately fight! to

In the starry porcupine, the strength has also reached the sixth stage of the emperor's immortality, and it is still only one step away from the seventh order of this situation, it can be described as extremely powerful, Ye Xuan does not have to worry about his safety. Place

Therefore, this time entering the black ban, Ye Xuan did not intend to collect the starry porcupine. After all, although there are ten emperors in the primary ban, there are no late, but the strongest one. Just like the starry porcupine, the emperor is immortal.

This old pig is completely fearless.

In fact, he is not only fearless, but even deliberately pretend to compare, after all, it is rare to encounter such an opportunity, with a cosmic lord behind him, spurting into a primary star ban, killing, naturally, no Will easily miss it...

When the figure rushed into the black ban, Ye Xuan did not hesitate, and the first time he looked up and screamed: "The konjac changed... the eighth change!"

"boom!"

As his words fell, a huge explosion came in an instant, his body suddenly soared, the speed was so irritating, and the power in the body rolled like the river roaring. four

In the limbs, there is an inexhaustible and fierce meaning, and there is a horrible horrible breath. The body shape, which was only ten feet high, swells at a speed that is horribly high.before

After a short period of three interest, it has reached a billion-foot giant, that is, six million miles, which is absolutely comparable to the real giant stars, and even more than it! and

Moreover, at the same time of the skyrocketing body, the cultivation of the atmosphere in Ye Xuan's body is also rising at the same speed. The three interest rates have been immortalized from the previous emperor, reaching the current cosmic respect. The sixth order! six

The order, the mid-term peak of the universe, is three stronger than the one-legged crows who are only the third-order universe. which is

Then the other side has the same fire as a refuge, Ye Xuan also has confidence, easily killing it... After all, for this kind of heaven and earth, Ye Xuan, originally means extraordinary. he

There is Shennong Ding, and the Shennong flames in Ding have evolved to the extent of the eight-color flame, and they can be swallowed up by the strong monochromatic fires. swallow

Lost the black fire in the forbidden land, the one-legged crows will not be able to breathe for a long time..."

Oh..."

"Roar!"

Hey! "...

...with

Ye Xuan's roaring sounded, covering the entire vast and innocent black ban, and instantly alerted the countless stars and beasts in the forbidden land.

The sound of roaring and screaming sounded, and countless starry beasts rushed out of the stars of a fierce beast, with the wrath of the sky.

But then, after they rushed out of the atmosphere, they felt the horrific sacred pressure of the horror in the first place.

For a moment, the original roar and whistling sounds all came to an abrupt end, and the forbidden fierce beast that had just rushed out of a fierce beast star was either shrinking at a faster rate than when it rushed out. Go back.

Or, just trembled in the void, trembled, shivering...

"Hey...small, your pig lord, come, come!"

In this scene, the entire vast and innocent primary and strong forbidden land, are shaking and shaking, the starry porcupine immediately stood up, carrying a big belly with incomparable darkness, and snorted with a long sigh, endless smug feelings undoubtedly.

This is clearly in the ratio, and Ye Xuan, who is looking at it, has turned his eyes straight, and he is too lazy to pay attention to this guy. His body shape, the huge horror figure of Panda's six million miles, is instantly horrible. Speed, like a superb meteor, spurting toward the depths of the black burgeoning hinterland...

The speed of the cosmic sages at the peak of the period is extremely natural and terrifying. Although this black ban is vast and innocent, it can't stand Ye Xuan rushing in this horrible state.

Soon, before the convenience of a super huge star, and his current body is almost the same, with a diameter of nearly six million miles.

It is obviously the place where the lair of the one-legged crow is located, because the whole star is swaying with sallow blackness.

It was also this moment, Ye Xuan's face changed slightly, and the voice was exclaimed: "This is... the world's black inflammation?"

Chapter 4438: Timid crow

At the same time as Ye Xuan's mouth exclaimed, his familiar mind was also sounded in his mind...

"Hey, congratulations to the host, found that the black inflammation! Grade: top heaven and earth fire! Quality: flame mother level! Is it charged immediately?"

With the sound of this system sounding, the data repository of Ye Xuan's body phagocytic system was also updated in the first time, adding various attribute data about the annihilation of black inflammation.

Ye Xuan had only heard of this top-notch fire, but he had never seen it. At this moment, even from the data repository of the in vivo phagocytic system, the various attribute data related to the annihilation black inflammation were adjusted. Quickly browse...

Desperate black inflammation, just listen to this name, you can also know the overbearing color of this top world.

Compared with the void, it is more aggressive, and the power is extremely violent. It is the most brutal and devastating one.

What is even more rare is that this rare awning black smear is actually inconsistent with the emptiness of the awning that Ye Xuan had just swallowed before. There is a mother flame in the interior.

As a top-notch fire, there is a mother flame in it. There is almost no suspense. As long as Ye Xuan uses the Shennong Eight-Color Flame to devour it, then the original Shennong Flame, which is only eight colors, is destined. It will be completed again and again, and it will enter the level of nine-color change.

For Ye Xuan, this is definitely a huge surprise.

Not long ago, I had just swallowed up a emptiness of the emptiness, so that the Shennong smog in Shennong Ding had evolved to the extent of the eight-color flame. He would have taken longer than the next opportunity.

It may even be in the foreseeable future, unless it hits the Universiade, the opportunity comes...

Unexpectedly, this day has become a reality so soon, today is the chance to come, it is definitely hit the Universiade!

One thought of this, Ye Xuan did not hesitate, and immediately wanted to be impulsive.

No matter what it is, first devour the rare black dermatitis of this awning.

This kind of horrible and arrogant, ruthless flame of destruction, for other stars and stars, may be a very headache, even if the cosmic encounter, most of them can not be excused, but for Ye Xuan However, there is no such problem at all.

Even if this black smear is not an object of no lord, it has a powerful third-order existence of the cosmic sage inside. Under the control of the heart, it can make its power stronger.

But all this, under the power of Shennong's eight-color flame, is nothing but a cloud.

Ye Xuan decided that as long as he shot and sacrificed the eight-color flame bridge formed by the eight-color flame, then it would be swallowed up in front of this giant black inflammation like a giant star. At most, it was the length of time.

"Hey!"

Just as he was ready to shoot, he sacrificed a colorful flame bridge formed by the eight-color flame of Shennong, and went away, and when the black smoldering was completely swallowed, the inside of the black flames suddenly came. A terrified noise of whistling.

Ye Xuan

He had been worried that this one-legged crow would not hide in it. So, under his dark control, this canopy is like a giant star, and it is still hugely devastating, although it still has to be completely swallowed up, but still The time required will certainly be longer...

If it is possible to solve this one-legged crow before the devour of black inflammation, it is naturally best.

"call....."

In the void, the black fireworks of a mile away from the giant star rushed out, and the blink of an eye turned into a huge black murderous bird, a horn, a black feather, and a fierce glory. Only a black crow!

As for the temperament that is diffused in the body, it is the third order of the universe. This point is consistent with the information learned by the starry porcupine. There is nothing wrong with it.

"Impatient, why did you invade my blackfield?"

This one-legged black-clawed cockerel rushed out of the giant star that swayed by the black flames, and did not rush to Ye Xuan, but stood above the black flame star. The fine mans, the voice of the gods accompanied by a powerful stalwart pressure, rushed to the surface.

Its sound is cold and cold, and it has clearly sensed the cultivation of Ye Xuan's sixth-order sage, but it has no feeling of panic. It seems that there is a lot of confidence in the chest!

And his source of confidence is obviously the giant fireworks star formed by his numerous blacks and inflammations at his feet.

Inside the fireworks star, there is a mother flame that is ruined by black inflammation. It can survive. This one-legged black crow can have a steady stream of energy as long as it doesn't leave it too far. Don't look at his only three-level statue. The person's cultivation is strength, but even in the face of a seventh-order late sage, they are unbeaten.

Although they can't kill each other, they can also make the other party feel helpless.

Otherwise, Ye Xuan, who is next to the sixth-order sage, can't be so calm.

All of this, Ye Xuan knows the truth, and he is lazy to take care of it. In the middle of the flash, he shakes his hand and jumps directly from the colorful flame pool at the bottom of the volcano in the Shennong Dingyang domain. The colorful flame bridge of Wanli is coming out...

"call out....."

The sharp sound of the air rang, and with Ye Xuan waving again, the eight-color flame bridge that hangs like a starry sky is rushing away. One end is at the foot of Ye Xuan, and the other end is already far ahead. The other side of the black flame star.

Stand directly on top!

"call....."

"Booming..."

The sound of the storm whistling and the thunder of the rumble sounded instantly, and it was an instant, and the aggressiveness of this kind of black inflammation was far more than the void.

At this moment, I felt that there was a foreign object approaching, and even I had already touched the surface of the black flame rolling star. In a moment, there was a huge amount of annihilation black inflammation rushing over and pounced on the Eighty Flame Bridge.

Faced with all this, Ye Xuan sneered, his figure is like a giant star, hanging in the void.

He didn't shoot, he looked at everything with cold eyes, because now he can't kill the one-legged crow who has a constant supply of energy.

The only way is to wait until the canopy that forms the giant star is completely swallowed up, then you can easily kill it...

The raging black flames roared, and the raging like the Nujiang River rushed to the Eight-Colored Flame Bridge, but all of them were like mud cows entering the sea. They didn't have any effect at all. They crossed the void and stood on the surface of the Black Flame Star. Even a little bit of ripples have never started.

"What is this fireworks?"

"Hey..."

Seeing this scene, the one-legged crows are finally not calm, and the huge figure of the giants has shook a few times. In the voice of the gods, there is a deep fear.

In the next moment, he did not hesitate, twisted his figure, turned his head and rushed to the black flame star under him. A fierce plunged into it, and disappeared...

Chapter 4439: Nine-color flame

"call....."

"Booming..."

The sound of the storm whistling, the thunder of the thunder, is always ringing.

With the lasing of the Eight-Colored Flame Bridge, it hangs over the void, and the head is placed on the surface of the Black Flame Star. The effect is instantly like a boiling water in the boiling hot pot. Beads in general.

The movement was too big, and the overwhelming blackness of the world rolled in, with a violent temperament that smashed the earth and rushed to the Eight-Colored Flame Bridge.

However, the time of the semi-column has passed, and in the process, the endless endless black inflammation has been endless, and has not stopped to attack the Batangyan Bridge.

The Wanliyan Bridge, which is in the void, seems to have changed from beginning to end...but

In the center of the volcanic bottom of the Shennong flame pool, but completely different, when the first canopy of black inflammation was sent to the flame pool, the original calm flame bridge, easy to pick up the waves in the first time.

The endless eight-color fireworks transpired and almost filled the entire vast volcanic bottom plain. These Shennong fires originally had only eight colors. but

With the devour of the Eighty-Colored Flame Bridge, and the more and more ruined black inflammation that was sent into the flame pool, the original eight colors of Shennong's different flames clearly showed a pure black color.

However, this pure black color is still extremely unstable...

Sometimes it appears, sometimes disappears, like a glimpse of the fascinating illusion among the eight colors. For all of this, Ye Xuan's knowledge is always closely watching the changes in the Shennong flame pool at the bottom of the volcano.

Right now, when he sees a lot of black inflammation swallowed by the flame bridge, it begins to transport again into the flame pool. flame

Among the eight colors in the pool, the glittering, like the illusory transparent color, finally began to gradually solidify, which made a long sigh of relief, always put in the eyes of the blind, and quietly put down half at this moment. .

"Sure enough, it is not a smashing of black inflammation, the effect is quite extraordinary. The time of the short and half-column fragrance actually gives the Shennong eight-color flame a new appearance, pure black color..."

However, the evolution from the eight-color flame to the nine-color flame is not comparable to any previous evolution, and it will obviously be more difficult..."

"boom!"

Rumble..."

When Ye Xuan's mouth whispered to himself, the black flame star in front of him suddenly heard a huge roar. leaf

Xuan turned to look at the first time, and the cold mang in a moment flashed.

Obviously, this is the one-legged crow who has been squashed into the interior of the Black Flame Star. eye

Next, under his control, the area where the other end of the Eight-Colored Flame Bridge is in contact with the Black Flame Star, within a million miles, the original violent black and white, is less than half a moment.

It was clearly under the control of the one-legged black crow that it was transferred to other areas. This guy, already found out that it was wrong, realized that the Eight-Colored Flame Bridge was eating his dying black inflammation.

So will there be such an action, want to escape this robbery today!

"Oh, unfortunately, I realized that it's not right now, it's already late..." Nose

In the middle of the cold, Ye Xuan did not hesitate, and waved his hand between the thoughts, the other side manipulated the rolling black flame on the stars, then he changed the falling point of the Eight Colored Flame Bridge...

"咻..."

The sharp sound of the air broke out. In the blink of an eye, the empty space in front of it was wide and wide. The eight-mile-long flame bridge was suspended, and it was changed to a position. a few

In the next moment, all the annihilation of black inflammation within a million miles, after sensing the breath of the Eight-Colored Flame Bridge, all of them are like a moth, and they are striking toward it, too much, from The volley came from all directions.

Such a scene reveals endless madness. Within a million miles, all the annihilation blacks in the void are no matter how big or small, no matter the quality, no matter the size, after sensing the intruder's breath, there is no half-stagnation...

They all came with a smashing atmosphere, and they came from a bang. In the blink of an eye, they all rushed into the Eight-Colored Flame Bridge, causing a thrilling sound, just like a tidal wave. This

Once, only a small and half-column time, all the eternal black inflammation in contact with the Eight-Colored Flame Bridge, without exception, was ruthlessly swallowed by the Flame Bridge.

Moreover, these whistling, rushing into the Eight-Colored Flame Bridge, and then disappeared, the massive annihilation of black inflammation, after entering the Flame Bridge, the first time was the powerful domain field power of Shennong Ding, directly sent to the volcano Shennong Flame Pool in the middle of the bottom plain.

At the same time, Shennong Ding's interior space in the central area of the volcano at the bottom of the Shennong flame pool, endless waves of turbulent waves, overwhelming eight-color fireworks transpiration, filled the entire vast volcanic bottom plain, originally only eight colors of Shennong In the middle, the almost pure black color that was wiped out was extremely unstable before...

And appear, and sometimes disappear, like a flash of illusion among the eight colors! but

Now, it is getting more and more solid. Gradually, it no longer flickers and disappears. It seems to be blending with Shennong Baise Flame! only

However, it is still relatively weak, and it is extremely inconspicuous compared with the other eight colors of Shennong.

"Hey..."

A sharp sound of breaking the air rang, under Ye Xuan's thoughts, like Changhong's whistling emptiness, the radiant and fascinating Eight-Colored Flame Bridge rushed to another direction, hanging in the other side of the Black Flame Star. One side.

The same scene was re-enacted immediately, and the banging sound that had just stopped was once again rising.

All the annihilation blacks in this area are completely mad in a short quarter of a column time. The eight-color flame bridge is like a long whale, and all the blacks in the million miles are in In a short period of time, it has been completely swallowed up. class

Like a scene, still on stage...

The crows are eager to rush, just like escaping the general, manipulating the annihilation of black inflammation and avoiding the Eighty Flame Bridge.

And Ye Xuan, who also read again and again, repeatedly changed the position of the Eight-Colored Flame Bridge on the black flame star, and continually swallowed a huge amount of extinction black inflammation.

All of this lasted for a long time, and finally, the giant star of the black flame that disappeared in front of the void disappeared, and could no longer be seen. There was no black inflammation left in the world, and it was completely swallowed...

At this time, in the bottom of the volcano in the central volcano of Shennong Ding, the Shennong Eight-Color Flame, which is being steamed in the Shennong Flame Pool, just completed this transformation.

The pure black and translucent colors are completely stable and strong, and there is no longer a gap between the other eight colors.

At this moment, Shennong eight-color flame finally evolved into... Shennong nine-color flame! "

call out! "

The sharp sound of the air broke out, and the emptiness of the outside world was completely completed with the evolution of the Shennong nine-color flame, and the eight-color flame bridge that spanned the emptiness of the sky. also

Under Ye Xuan's thoughts, he blinked in an instant, and his eyes disappeared. He was taken into Shennong Ding and put into the flame pool of the bottom plain...

Chapter 4440: Killing the one-legged crow

The awning is so large that it has been condensed into a giant star, and the smoldering black flame of the mother flame, after all the bones and brains are swallowed up...

In the Shennong Dingyang area of the volcano at the bottom of the volcano, the Shennong flame pool that is full of endless flames, all the Shennong eight-color flames have finally evolved again and changed from the eight-color flame to the nine-color flame.

The nine-color flame is the highest level of the gods and peasants in Ding. One

Once the level of the nine-color flame was reached, the evolution of Shennong's flames also evolved into a state of peak, and the rise of power was a matter of nailing. eye

Next, the nine-color flame has already been formed. If Ye Xuan's cultivation is further strength, it will reach the level of the universe in the ordinary state. At that time, even if the complete power of Shennong Ding is ushered out, it is extremely may.....

Even now, his cultivation in the ordinary state is still in the realm of enshrining the emperor, but as the Shennong flames evolved from the eight-color flame to the nine-color flame.

Ye Xuan once again controls Shennong Ding, and Wei Neng will also skyrocket. to

Yu Yu makes Shennong nine-color flame, whether it is a battle with the enemy, or used to smelt flesh and blood medicine, all grades of Baodan, or simply roast meat... The effect and power will be far beyond before. although

However, it only changed once, and promoted to a level, but between the eight-color flame and the nine-color flame, it is the difference between the unsatisfactory and the perfection. Putting it at the level of power, it is definitely the difference between the clouds and the mud. ! this

At this moment, the one-legged black crow who turned around and turned back to the black flame star, the figure has once again appeared.

The black flame stars, which are comparable to giant stars, are formed by the dying black inflammation of the river. All the black inflammations in the world have been completely swallowed up, and there is no left, even hidden in the star nucleus. The same is true of the annihilation of the mother flame.

This black flame star naturally does not exist. star

Chen disappeared, and the one-legged crow that was originally hidden in it, there was no hiding place in an instant, and it was completely exposed.

At this time, he is different from the one before, and the black flame is still different.

It was indeed fierce and fierce, but it was because of the one-legged foot under him, standing on the black flame star formed by the annihilation of black inflammation, and there was a huge supply of black flame energy all the time...but

Nowadays, all the black flames of the world have disappeared. This head was born in the black inflammation of the world, and it has always been parasitic on the black flame stars in the process of growth. The one-legged crows who have never been too far away have revealed the ontology in an instant. .

Now he is a one-legged black crow with a huge body. It is dark and black. From time to time, there are black fireworks rushing out of the body. Although it still radiates the powerful strength of the third-order universe, but I don't know why. How to look at it gives you a feeling of guilty guilt..."

Hey! ""

bandit! robber! The bastard..."

As the body shape reveals, the whole black flame star that hides and even lives in peace has completely disappeared. The one-legged black crow in this third-order sage has completely messed up the mood. body

Shaped in the void, like a thunder, fluttering with black wings, screaming, anger and madness: "Irritable, immediately hand over the demented black inflammation of the deity... At least, to hand over the annihilation of the mother flame! ""

Otherwise, the deity must be with you, and even if it is consumed by the horizon, it must be retaken by the mother flame..."

"Hey..."

And the star master is not dead? When it is consumed by the horizon, will it take back the mother flame? Uh... I have to say that you really don't feel good in general! "listen

To the sound of the angry roar of the one-legged crow, Ye Xuan stunned, and then he laughed and laughed, and turned his eyes on the spot.

In the next moment, Ye Xuan's mid-cold glimmering, the voice of God's knowledge is also resounding, revealing the endless cold and sigh of breath: "Why, you think that the star's Lord is coming today, just for the sake of that Mother inflammation?"

That's just a handy thing..."

The deity is here today, the real purpose... is you! "

"boom!"

The last sentence of the voice of God has just fallen, Ye Xuan no longer hesitates, the huge horror figure like a giant star still hangs in the void, but does not move, but the right arm suddenly hits a punch..."

what? you....."

After hearing this discourse, the one-legged crows obviously stayed for a moment, and then they changed their minds, fluttering their wings and evading, and escaped the boxing of Ye Xuan.

Then, he lost his voice and exclaimed: "Are you crazy? Actually want to hunt the deity?"

"Even if you have the sixth-order strength of the universe, the deity is really not your opponent, but the same as the respected person, the deity can't beat you, want to escape, but it is completely ok..."

Don't forget, this piece of glory is not only a black ban, but also a strong forbidden land. If you only plunder the defensive mother flame of the deity, other sages in the foremost forbidden land may not care. . "

"But if it is your purpose, it is for no reason to rush into a strong forbidden land, to hunt down the cosmic sages sitting in the middle of it... then this threatens the safety of other Supreme forbidden places." They will never sit back and ignore!"

"Once the lord flees, spread the matter, just take a few of the cosmic sages who are sitting in the vicinity of the strongest forbidden places, you will die!"

Here, the face of the one-legged crows shows a touch of color. After seeing Ye Xuan's fist fall, there is no movement. It seems that he is listening carefully to his own words and has a rhythm of being told. he

When even the words turn: "Don't be heavy, violently measure yourself, the deity can take a step back, and other annihilation blacks are not needed, as long as the scorpion flame, today's business, it is revealed Over."

"Otherwise, once the deity escapes, you... there will be no more living!"

"Look at you as a third-order sage, the star's hard-working temperament listens to you a few words, but I didn't expect to say that all this is nonsense..."

The words just fell, Ye Xuan suddenly shook his head and sighed.

Halfway through, the slap in the middle of the eye, the body shape suddenly disappeared. When it reappeared, it was already behind the one-legged crow, and the cold words were like a farewell: "Just, although it is a bit reasonable, but that Also look... do you have a life to escape?"

"Boom!" Giant

The loud roar of the bell rang, the next moment, not waiting for the one-legged crow to react, the starry sky suddenly slammed a punch and landed directly on his back.

In the face of a full-strike of a sixth-order sage, only the one-legged cult of the third-order cult is only a chance to react.

Its huge body of tens of thousands of giants, instantly blasted into a **** fog, spread out. "

call out! "This

At the moment, Ye Xuan's heart suddenly became loose, and he did not hesitate. He waved his hand for the first time...

The invisible temperament of the stock spreads out of his body, and the void between the blinks has been shrouded in a thousand miles. will

The **** red blood that just spread out has swept through. After the income in the body, the first time was sent to Shennong Ding, and it was thrown into the flame pool at the bottom of the volcano in the central area of Dingnai Space.
