Chapter 4441: Iron blood

"Hey..." just

At the end of this battle, the short side of the sky in the distance, there was a shocking sound of long scorpion, clearly the voice of the starry porcupine...

In the past half-day period, such movements came from time to time. It is obvious that the starry porcupine is also happy in the black ban. Do not

However, Ye Xuan was busy devouring the black inflammation of the world. At the end of the day, he couldn't take care of the old pig. Everything was over, and he immediately turned to look at the past.

In the line of sight, the starry porcupine is squatting behind an immortal emperor, driving away from the central area of Ye Xuan's black ban.

In the past half-day, he has been working for almost a moment, and he has been doing this thing for a long time. At this moment, the airflow from the long pig's nose is like a hurricane, and the sweat is like a raindrop. Not light. This

Once, the old pigs are really out of the air...

In the black ban, the emperor has ten immortals, but it is not very strong. The guy who is the strongest is only the sixth-order emperor. and

And it is just a short break to the imperial emperor's immortality. Compared with entering this realm for some years, only one step is the old pig essence of the immortal seventh-order emperor. Obviously, it is still slightly inferior. positive

Because of this, once the old pigs are desperately desperate, the ten emperors will only avoid the edge when they are immortal, and they will not dare to scorn their front.

In this case, the old pig fine in the past half a day, left and right, seeing this to be far away, immediately rushed over, stopped in front, and pushed the target back to the black ban. tight

Then there was another goal that was about to flee. He immediately rushed over and stopped again... small

After half a day, there was no half-second stop. No

Too tired of this old goods, it is really lucky. when

However, with his own power, even if he is left and right, if he wants to stop the existence of the ten emperors, it is completely impossible, mainly because Ye Xuan is in the central zone of the black ban. The horror of the order is diffused, and it is also deliberately aimed at the ten emperors, suppressing their speed...

Originally, under this circumstance, there is still a countermeasure for the ten emperors to die. That is to work together and join hands to fight the old pigs. Although this will degrade several people, it is also very promising to escape several people. can

Unfortunately, at this time, no one wants to be the first bird. No one wants to stay and face a sixth-order sage who is horrified. These ten emperors are only immortal and only escape from their own lives. A scene.

The ten emperors were immortal, and they were intercepted by the starry porcupines by their own power. No one escaped from the territory of the black ban...."

Hey... violent brother, are you finished over there? In this case, the other Emperor will be handed over to you, and I am tired of the old pig..."

Engraved, seeing Ye Xuan turned and looked, the old pig was in a good spirit, and then he rushed forward. It

Before he was only driving, blocking, but this time, it was anger, and finally no longer have to run out, all the anger, all vented at this moment. "

Oh..."

"The **** broken bird, before you can special toss, a small half-day work, how many times the pig grandfather stopped you? You ran, why do you run again?"

"Can't kill you, me..."

Rumble..."

boom! "

As the roar of this road filled with infinite resentment came out, the starry porcupine did not hesitate, and directly rushed to the front of the emperor who was being driven by him.

This is a fierce bird. It is very fast. Although it is only the second-order cultivation of the emperor, it has indeed hampered the energy of the old pig.

But now, for the old pig essence, it is clear that it has become a time to complain, and it is time to avenge revenge...

With his hooves, a huge thunder and thunder sounded, followed by a thrilling sound of a blast, the murderous poultry fleeing in front, and after a scream, the entire huge body exploded. tight

Then, the blast of blood that burst open, and then quickly gathered away from him under the suction of the old pig, turned into a human-sized blood bead, swallowed into the belly by the old pig. "

The violent brother, I have solved this one, and there are still nine left. If you hunted less than the old pig, then you can throw it home...."

Finally, I vented a grievance, and the old pigs only felt refreshed. When I saw that Ye Xuan didn't seem to move, I suddenly sighed.

After this sentence is finished, the U-turn will rush to another emperor...

Ye Xuan shook his head and smiled. He did not say anything. Under the sway of his shoulder, his figure disappeared instantly. When he appeared again, he was already behind the guy who had the sixth-order repair of the imperial emperor. He did not hesitate and fluttered. Out...

"boom!"

The huge roaring sounds, the next moment, not waiting for this emperor to react with immortality, the starry sky suddenly slammed a punch, it fell directly on his back.

In the face of a full-strike of a sixth-order sage, this sixth-order empire did not even have a chance to react. Its huge body of tens of thousands of giants, instantly blasted into a **** fog, spread out.

"Hey!"

For a moment, Ye Xuan did not hesitate, and waved for the first time...

The invisible temperament of the stock spreads out of his body, and the void between the blinks has been shrouded in a thousand miles. will

The **** red blood that just spread out has swept through. After the income in the body, the first time was sent to Shennong Ding, and it was thrown into the flame pool at the bottom of the volcano in the central area of Dingnai Space.

After that, his figure swayed, and also rushed to the second head of the emperor immortal!

In this way, Ye Xuan and the starry porcupine, a sixth-order sage, a sixth-order emperor, divided from two directions, in the central area of the black ban, rushed to the left and right.

A real iron-and-blood killing, start here...

This scene is too amazing. The targets of the two people's hunts are all strong emperors. This is the emperor's level, even in the emptiness of the ruins of the ruins outside the Hongkong emptiness. It is the supreme hegemon in the top star ban. If

It is placed on the main plane of the three major stars in the world, and it is a rare existence of a million years. It is basically an ancestor of all ethnic groups. but

Here, but for the prey, like a dog at home, was madly chased by Ye Xuan and the starry porcupine..."

boom! ""

Rumble..."

The huge roaring sounded again, and the two anthills of the starry porcupine stepped down. The existence of a third-order immortality of the emperor's emperor directly exploded, turning into a rapid spread of blood.

tight

Then, the old pig looked up and sighed, and the body instantly spread a majestic invisible strength, covering the emptiness of the tens of miles, and the blood fog that spread out of the awning was closed, eventually turning into a The head of the human head was inhaled directly by the abdomen.

This is the third empire that the star porcupine hunted and immortal...

Chapter 4442: See you when you are ready

"boom!"

The starry sky violently slammed a punch, and there was a huge roaring sound in the void. The next moment, a dynasty of the emperor not far from the front, sighed with sorrow, and its huge body began to blast from the back.

This is the last one in the black ban, and the emperor is immortal. In the face of the starry and violent full blow, this is only the fourth-order imperialism, and there is no chance of reaction.

Its huge body of tens of thousands of giants, when the violent fist fell, and instantly burst into a **** fog, spread out. "

call out! "

Without hesitation, Ye Xuan waved at the first time, and the sharp sound of the air broke through...

The invisible temperament of the stock spreads out of his body, and the void between the blinks has been shrouded in a thousand miles. The **** red blood that just spread out is sweeping!

After it was collected into the body, it was immediately sent to Shennong Ding, and it was thrown into the flame pool at the bottom of the volcano in the central area of Ding Nei Space.

At this point, the ten emperors in the black ban were immortal and all fell.

"Hey..."

The violent old man, this battle is so beautiful, we have harvested a full set of ten bloodstains, and a supreme bloodline..."

"咻咻咻..." star

The empty porcupine was very excited, and his body shape rushed to Ye Xuan. After he looked up, he opened three mouth-sized blood beads and sent it to Ye Xuan!

A wave of blood, these three blood beads were picked up by Ye Xuan, sent to the Shennong flame pool at the bottom of the volcano of the central space of Shennong Ding to carry out blood purification.

At the same time, as he swayed, he rushed to a giant star in the distance, which was the place where one of the ten emperors who had been killed before was immortal. versus

At the same time, Ye Xuan's voice of the gods also sounded: "Divisional action, the treasures of the ten emperor's immortal lairs, all looted, and then immediately left, there are other Xingqiang forbidden places after all..."

This time, it took too long to stay in this black ban, and it will change later. We must... "

"嗷呜..." star

The empty porcupine raised his hair and made a long squat. He turned and rushed to another giant star nearby...

After more than one hour, the ten-star emperor's nest stars were all looted. After Ye Xuan and the star-studded porcupines merged, they did not stop. Even when they left the black ban, they started the speed and went away. No trace! "

Roar! "

Shortly after Ye Xuan and the starry porcupine left, an earth-shattering roaring sound rang in the black ban, and a powerful beast that looked like a star, directly tore the void and appeared in the black ban. Look

The original area where the black flames of the stars were, is now empty, and there is no one-legged crow in the entire black ban. very

Even the ten emperors in the forbidden land have been killed, and there is still a faint **** atmosphere in the void. This body-like horror, the strength has also reached the seventh-order supreme, only one

step, Can reach the powerful existence of the master of the half-step universe, suddenly screaming at the sky, revealing endless grief...

After roaring, this powerful sacred beast stayed in the void for about seven or eight days. It seemed to be looking for clues. In the end, he seemed to have found it, and his body was swaying. Rush outside.

Looking at the direction of his departure, it is the direction in which Ye Xuan and the starry porcupine are leaving...

.....

"call out!"

"Hey!"

In the air, the sound of a faint sound broke, and the body shape of Ye Xuan and the starry porcupine came to an abrupt end in an abandoned star, and then, one after the other, fell to the abandoned star.

After leaving the black ban, the two men began to speed up and sprinted in the void for three days. It was far enough away from the black ban, even if there was a chase behind him, it should have been opened at this time...

"The violent brother, we have a huge harvest this time. If you don't mention the blood of the sage, you can refine the two 25th-level sages, just by sealing the blood, is it..."

Entering the stars inland, the two settled in a valley, the foot is just right, the starry porcupine rushed to Ye Xuan for the first time, his face full of expectations. he

I always thought that a twenty-five-level lord Baodan needed five pieces of blood to refine it. Therefore, this time I harvested ten Fengdi blood essences. In his cognition, I should only make two The twenty-five-level nobles are only Baodan.

"Okay, start refining now. You have also made great efforts this time. This blood of the sage is also what you deserve..."

Xuan did not break, immediately nodded, and then, Shen Shen will extend into the body of Shennong Ding, after some observation, it was discovered that the ten blood beads, have all been condensed into Feng Di Jing. "

call out! "

After that, Ye Xuan waved his hand to Shennong Ding, and the faint sound of the air broke out. tight

Then, his body shape directly came to the Shennong Ding Ding mouth with a colorful mist, sitting cross-legged, turning his hand again, and the ten-baby-fighting Fengdi blood appeared in the palm of his right hand. This

Ten pieces of Emperor Blood, together with a large number of other top treasures and treasures of the ancient treasures, will become the basic raw materials of Ye Xuan's twenty-five-level honoror Dan. and

In addition to these two basic materials, Ye Xuan will also add about 10 drops of the source of all evil sources, as well as some of the top resources previously found in the Hong Kong virtual sky! two

The fifteenth-level Feng Di Bao Dan, he has already refining before, can be described as a light car, there is nothing to consider. One

After the cuts were all ready, Ye Xuan waved his hand and prepared all the resources needed for the recipe and all the top treasures and treasures. Then he closed his eyes... God

Nong Ding, interior space, the bottom of the volcano in the central domain!

"call out!"

"Hey..."

The sound of the road broke through, and the dense colors of the spurs came from the heights of the Dangkou over the volcanoes of the central domain. This

These secluded mans appear directly above the flame pool at the bottom of the volcano, and suddenly hovered for a moment...

It is exactly the top materials and cultivation resources that Ye Xuan has prepared for the twenty-fifth grade Baodan.

Ten seals of the blood! ten

Drop thousands of evil sources!

There are also a variety of rare and precious treasures of all kinds of precious materials...

"call....."

Almost in the next moment, below the top resources, in the flame pool at the bottom of the volcano of the central domain, a fascinating Shennong nine-color flame roared.

In an instant, it condenses into a nine-color furnace, which is small and simple, revealing an extraordinary atmosphere.

With the formation of a small flame that is condensed by the nine-color flame of Shennong, the materials and resources such as the blood of the beasts have been prepared.

All of them automatically flew up, and they did not enter the fireworks Ding Ding which only only made a square. Since then, the second furnace of the twenty-five-level Dan's refinement, this officially launched. two

The fifteenth-level Dan, only one, can make a monk who is the emperor of the ninth-order grand perfection, and instantly become a cosmic sage.

Too important!

Even in the second refining, Ye Xuan did not dare to take it lightly. He was in control of everything...

Chapter 4443: Nine color medicine

A refining method of sputum was thrown out in his hands, turning into a mysterious scent of the road, floating from the top of the Shennong Ding, and falling into the energy furnace at the bottom of the volcano below the central domain!

Unconsciously, time is slowly passing...

"boom!"

Two hours later, above the flame pool at the bottom of the central fire, a huge roaring sound rang, and the furnace that was condensed by the pure Shennong seven-color flame was scattered.

A canopy like a river like a colorful fireworks rushed back to the flame pool below!

Staying above the flame pool is a bead of eight baby fists, which is as big as the previous beast, but completely different.

Blood essence is blood red, revealing the power of strong blood, and these eight beads, although they are also the size of the baby fist, but the color of the nine colors, the surface of a layer of dreamy halo, revealing a kind A simple and heavy atmosphere.

Twenty-five grade Dan!

Only one piece can make the emperor's immortal ninth-order big perfection after swallowing, in a short time, instantly break through the big realm and directly enter the twenty-five-level Baodan in the universe!

"There are eight?"

When this furnace Baodan was made, the voice of Ye Xuan's voice came from the Shennong Dingkou above the volcano of the central domain, revealing a deep surprise.

On the last twenty-five-level Baodan, he used nine Fengdi blood essences, and the refining of the honorable Baodan, only six, but this time, with ten Fengdi blood, according to his Derivation should be only about seven.

But now there is one more, and the time is much faster, too only two hours before and after... This makes Ye Xuan unimaginable.

Undoubtedly, this is obviously because the Shennong's different flames in Shennong Ding can be upgraded, from the previous Shennong Eight-Color Flame to the current Shennong Nine-Color Flame...

It's just too obvious. Although Ye Xuan has already been psychologically prepared, he is still scared at this moment.

Eight twenty-five-level lords Baodan, only one star porcupine can be given, the remaining seven Ye Xuan intends to have a bones of their own, so count the previous six, his hands in the twenty There are a total of thirteen pieces of the five-level lord Baodan.

It is definitely enough for a long time in the future.

Even Ye Xuan never thought about the existence of twelve cosmic sages in his own family.

During the meditation, the eight twenty-five-level lords Bao Dan were all put away by Ye Xuan, and they were packed in a jade bottle and temporarily collected in Shennong Ding.

But he did not end this refining, because the time is still early, Shennong Ding's power can be upgraded so much, he decided to refine a **** medicine, if there is no accident, this time refining the flesh and blood medicine It should be a colorful medicine.

The nine-color **** medicine is the pinnacle of the flesh-and-blood medicine. The effect is far from comparable to the eight-color **** medicine. For Ye Xuan, who is in urgent need of improvement, it is too important.

He can't wait!

"Hey..."

After the decision, almost at the next moment, with his enthusiasm, Ye Xuan directly took out the treasures of 108 ancient creatures from the sealed cave at the bottom of the volcano in the central area of Dingnei.

At the same time, there are a large number of top treasures. And this time the refinery used in the spring water, he is also the same luxury, is still directly replaced by a mixture of congenital yin chilling liquid and smelting lotion!

"call out!"

"Hey..."

.....

All the sounds of the empty space appeared, all the materials originally suspended in the side of the void, all of which automatically flew into the huge furnace that was condensed by the Shennong nine-color flame, and melted and mixed together.

Then, Ye Xuan's hands fluttered like a butterfly.

The hues of different colors and shapes of different shapes are falling from the rain in his hands, and they directly enter the colorful furnaces of the energy form. The potential is overwhelming, dense and numerous. Hair pointing.

All the enamel patterns are the perfect refining methods that Ye Xuan learned not long ago.

At this moment, as they fall into the top of the colorful furnace, the top flesh and blood medicine of this furnace has been thoroughly refined, and almost all of it can be neglected.

Even more than the previous twenty-five-level lord Baodan!

This time, the big drugs were used, and the flesh and blood materials used were the same as the previous ones. The lowest level was the land of the emperor, and there were nearly half of the quasi-aged ancient energy levels.

At the moment, the great medicines have been successfully refining, and there are numerous Xiangrui visions that have been leaping and leaping in an instant.

"Hey!"

"expensive....."

This scene is too amazing, the huge shadow of the real dragons and true phoenixes all rushed out from the Ding, leading the neck to roar and clear, for a time meteorological.

"boom!"

Almost the next moment, the loud roar of the sound rang, and the colorful furnace in the front of the void burst into an infinite treasure, and instantly became a star-shaped radiance, which was picked up by Ye Xuan.

Then, between the easy to move, it was put into the flame pool of the volcano of Shennong Dingyang in the body. At this point, the refinement of this **** medicine is finally completed!

In an instant, with the disappearance of the nine-colored flame furnace, the emptiness above the valley in front of the line of sight, there is only a large amount of flesh-and-blood medicine that is full of colorful colors, and its nine colors are so thick that it has completely disappeared. Degree.

Compared with the one-of-a-kind remedy that Ye Xuan once refined, not only does the grade increase the first-order order, but the drug effect will obviously be stronger, and the sharp increase is a proper meaning.

Even the size of this canopy is also like a giant peak. It is huge and huge. At this moment, it is quietly hovering in the void above the valley in front, giving off a rich energy atmosphere, which makes it impossible to look at it!

"God, nine color magic medicine? Is this the legendary nine-color **** medicine?"

Perhaps it was because of the sound of the dragons and phoenixes of the talented people. Originally, according to Ye Xuan's instructions, the starry porcupine who protected him in the void outside the stars also entered the interior of the stars.

I couldn't help but see the nine-color magical medicine that hung in the empty space in front of Ye Xuan's body. The old pig was exclaimed in an instant, and the cockroaches were so fierce, even the corners of the mouth. They all came out...

"call out!"

His words just fell, the faint sound of breaking the air has already sounded, and a small man, shot from Ye Xuan, flew toward the starry porcupine.

This is a jade bottle, which is loaded with it. It is a twenty-five-level lord Baodan who can make the emperor's immortal ninth order complete and break through to the universe in a short time.

"Hey, this time you have contributed a lot. You are a twenty-five-level lord Baodan, but you deserve it..."

After seeing the starry porcupine, Ye Xuan finished, and then waved his hand again. In the blink of an eye, the canopy that hung in the void in front of him was like a giant peak. It disappeared in an instant and was earned by him. The internal space of Shennong Ding in the body.

Then, the voice of Ye Xuan's words only sounded again: "As for this awning, the magical medicine has nothing to do with you. This is why the Lord's Lord is not easy to collect materials. It's only today that he succeeded in smelting..."

Chapter 4444: The emperor is immortal

"Hey!"

During the wave, the jade bottle that was stunned was caught by the star porcupine and was collected directly. but

At this moment, the old pig's mind is obviously not on the twenty-five-level lord Baodan in the jade bottle. What he really cares about now is the awning that was just picked up by Ye Xuan. Jiu Cai Shen medicine. that

But the nine-color **** medicine, and the amount is still so large, just like a giant peak is generally suspended above the valley.

With this kind of horror effect of the **** medicine, even the strong one in the universe, such a large canopy can be used for a long time. and

For the starry porcupine, the meaning of this canopy is absolutely not trivial. because

For him, he is now the sixth-order peak of the emperor's immortality. Only one step can enter the seventh stage of the emperor's immortality.

Seventh order, the distance from the ninth order is perfect, only two orders of difference.

If he is allowed to practice as usual, even if he has no teeth and no teeth, if he wants to break through these two steps, it will take at least a few years to enter the emperor's immortal ninth order.

For a time when the emperor is immortal, it's really nothing to say for a few years. It's no exaggeration to say that a retreat has passed on weekdays.

But now it is different. Now the starry porcupine has just got a twenty-five-level lord Baodan. This lord Baodan is his motivation. Such as

Today, he can't wait to immediately upgrade his own cultivation to the ninth-order perfection of the Emperor's immortality. As a result, he can immediately take this twenty-five-level Fengdi Baodan...

In this case, for a few years, for him now, it is simply a torment and painful suffering.

If you don't get it right, when you are retreating, because your heart is agitated, it will lead to the coming of the demon. If you get out of the fire, it is very likely to happen.

And all this, the one that I just saw, can be easily solved! nine

The efficacy of Caishen medicine is naturally without doubt. Even the star-studded porcupines, the old-fashioned tyrants, are only heard in the legend, and have never really seen it. thing

In fact, let alone the nine-color magic medicine, he even did not even see the single color magic medicine. where

I am afraid that it is the same as the purple gold medicine below the **** medicine.

Just after seeing the canopy of the sacred magical medicine, I felt the strong scent of the sacred sacred medicinal herbs. The porcupine of the starry sky can be determined almost instantaneously. There is no need for too much at all, at most, one thousand feet. Around the square, his cultivation is the strength, and in a short period of one or two months, he can successfully break through the ninth-order grand perfection of the Emperor...

The gap between one and two months and several years is naturally unnecessary!

For this reason, at the moment, I heard that Ye Xuan said that this awning is not related to him, and that he saw him coming over, actually prevented the thief, and waved it and accepted it. The old guy immediately stunned... "

Oh..."

"Imperial brother... No, my brother, violent brother, you can't care about my younger brother..."

Anxiously screaming at the sky, the starry porcupine slammed into the front, and the whole body almost slammed into Ye Xuan's body. A nose screamed in tears: "I don't know, my brother, my heart. Bitter..."

"stop!"

Seeing this scene, Ye Xuan's face was green, and the shoulders were directly pulled back. After turning a blank eye, both hands spread out and said: "Isn't it necessary to have a colorful medicine? Is there anything to say? Don't move your nose on your body..."

.....

"Hey..."

A few minutes later, the starry porcupine raised a happy long scorpion in her hair. When she was in a sway, she took a thousand-square-long sacred magical medicine and plunged into the star nucleus of the star. With

With the opening of the starry porcupine, Ye Xuan shook his head and smiled. After calming down his mind, even if he suddenly waved his hand...

He also decided to break through again and try the efficacy of Jiu Cai Shen Yao! broken

When the air rang, there were 500 cubic meters of nine-color magical medicine in an instant, and various other resources were taken out from Shennong Ding and hung in front of him.

Then, he was motivated by Shennong Ding's domain power. After compression, it turned into a small group, and blinked into the entrance...

Soon, with the spread of medicine, Ye Xuan immediately had a huge energy river between them, and quickly rolled. "

Hey! ""

哗啦啦....." also

In the next moment, in his body, there was a sound like a tidal chain in an instant, and this time, two human potential chains were simultaneously revealed. This

He was very upset, and then he was delighted, because this means that the resources swallowed by the talents are extremely powerful, enough to shake the two chains in Ye Xuan.

And what to do next, he only needs to completely tear the two chains in the process of refining these drugs. One

Once this is done, his cultivation will be a strength, and he will once again usher in a two-shot process without any suspense.

In the blink of an eye, the expected strong tingling sensation is like a date. Although it doesn't hurt into the bone marrow as it used to be, it is definitely far from a good feeling. The pain is like the bones of the bones, and it always lingers... Do not

However, Ye Xuan has long been accustomed to the pain of tearing the chain inside the body.

At this moment, under the pain that this ordinary person can't bear, the mind has never been shaken! beginning

In the end, Bao Yuan is one, and Lingtai is clear, and it is always urging the swelling energy of the river that melts into the body. It runs along the limbs, and it starts again and again, without half-stagnation...to

In the end, Ye Xuan even forgot the existence of time, the whole mind, completely sinking into it, and I don't know how long it took. When he felt the tingling sensation in the body disappeared completely, Ye Xuan's consciousness returned, subconscious The ground opened his eyes.

Almost in the next moment, the familiar system prompts once again sounded in his mind, two times in succession...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the emperor is immortal eighth!"

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: Feng Di immortal eighth order! "

Fengdi eighth order!

The breakthrough that was not long ago, if Ye Xuan turned the blood of the konjac into the eighth change, the peak power that can be achieved in an instant is the sixth order of the universe.

Right now, as he breaks through again, if he activates the blood of the konjac, he will not be able to display the konjac and change his body, and his body will be in the state of ten feet. The order has finally entered the peak of the emperor...

Once the magical power of the konjac is changed to the eighth change, the power that he will possess will rise to the eighth order of the universe! One

With this in mind, Ye Xuan's moment flashed a glimpse of the fine mans, and subconsciously clenched his fists: "With only one step, you can step into the ninth order of the Sayādaw..."

But in fact, if we count the horrendous power of the huge body of six million miles in the eighth state of change, my true combat power is already perfect for the nine-order grandiose. ""

In other words, below the Lord of the Universe, now I am... invincible! "

Chapter 4445: The seventh-order sage is coming

The emperor's immortal eighth order, plus Ye Xuan is now activated the body of the konjac blood, and changed into a ten-foot high starry sky violent form, so at this moment, the body of the body is the breath of breath, is The emperor's immortal nine-order great perfection! "

call out! "

The faint sound of breaking the air rang, and in the middle of the wave, Shennong Ding was absorbed by Ye Xuan. He grew up and swept his head to the stars under his feet.

There was a whisper in the mouth: "The old pig's cultivation is only the sixth order of the emperor's strength, but he has entered this realm for many years, and he is only one step away from the seventh-order world, even if only An ordinary retreat can also easily break through..."

In addition, this time gave him a thousand cubic meters of colorful magic medicine, from the seventh order to the emperor's nine-step great consummation, although there are two small steps, if there is no accident, the same can be successfully broken. "

"Once the cultivation is up to the strength of the ninth order of the Emperor, the old guy must be unable to hold back, and immediately will swallow the twenty-five-level lord Baodan..."

In this way, if there is no accident, after this retreat, when he meets again, he should already be a first-order cosmic sage, and the time required for retreat... should be about three months! ""

However, although I have just made a breakthrough, I am not suitable for re-closing in the near future. At present, my own cultivation has reached the level of the emperor's immortal eight, and once again, I can swallow the twenty-five-level lord Baodan. ”

"From then on, I will enter the universe, and the twenty-sixth-level Baodan that I need next will not be deduced even after the perfect Dan!"

Taking advantage of this opportunity, he will protect him for the law, and it will be used to promote the twenty-sixth-level Baodan..."

Having said that, Ye Xuan did not hesitate any more, and his body shape suddenly came to the universe in the void outside the abandoned star. After sitting cross-legged in the void, even when he provoked the spirit in the brain. power.

Start the perfect shock of the spiritual power secret, the body shape is hidden, all the air movements of the whole body are fully converged, and then immediately issued instructions to the body's phagocytic system, suspending the ninth change of the konjac.

All the computing power of the system is fully developed, and the 26th-level Baodan Perfect Danfang's deduction is launched.

At the same time, he also closed his eyes, fascinated, and the horror of the ninth-ordered perfection of the emperor, fully devoted himself to the body, and cooperated with the body's phagocytic system to carry out the derivative calculation.

Although the perfect Danfang of the twenty-sixth-level Baodan, the degree of difficulty must be far beyond the previous twenty-five-level lord Baodan, but compared with the previous, the phagocytic system in Ye Xuan's body is also growing.

And his own cultivation is also improving, and even if he has not activated the **** magical power of the konjac, he has a powerful knowledge of the half-step sacred world.

In all of this, according to Ye Xuan's estimation, even if it takes three months to fully develop, it is still impossible to smoothly derivate the perfect Danfang of the twenty-sixth-level Baodan.

But this process, completed seven or eighty percent, is still completely okay. Remaining

The next point, if the old pig essence has not yet gone out, continue to push and complete it.

If the old pig has already passed the customs, then if you take a moment to come back when you get back, you can easily end the matter.....

...

At the same time, just as Ye Xuan converged all the breath, in the void of the twenty-sixth-level Baodan perfect Dan Fang's deduction, he was about to touch the fictitious void in the universe beyond the billions of miles, a powerful and fierce breath. The bird is coming from the direction of the black ban.

The horror of this fierce bird reached the seventh level of the universe. It was a late sage. He also rushed to the black ban and found the change. It took a few days to find the trace. The one that has been chasing all the way.

This is a **** and gray-gray, all-in-one feathers and ash, only a pair of scorpions, red as blood. its

The exhibition is extremely horrible, reaching a million miles, covering the sky, and a flapping wing is tens of millions of miles away, belonging to one of the starry beast species known for speed! This

The reason why the head of the blood and gray ash Peng is so angry is that he is a good friend with the one-legged crow who is in the black ban, and they are close to each other and have a good relationship.

Therefore, after entering the black ban, it was found that the one-legged crows were degraded, and even the ten emperors in the forbidden land were all immortal.

Almost no hesitation, immediately launched a search, and found a star and a half clues, and then derived into the direction of the murderer's departure, the first time will be chased out...

The horror of his seventh-order sage is that if it is not in the black ban, it will take too long to find the clues that have been erased by Ye Xuan. For a few days, I am afraid that this breakthrough will not be completed by Ye Xuan. I have already caught up with this place. If

If this is the case, Ye Xuan, who is in a state of retreat, has Shennong Ding's protection and will not be injured. He can be disturbed in this kind of retreat. If this successful breakthrough can be achieved, it must be unrealistic. . Transport

If you are angry, break through without worry.

Luck is a bit worse, maybe everything will be lost...

As for the old pig essence guarding the empty sky outside the abandoned star, there is absolutely no suspense, the only end, is to be killed on the spot by this **** gray ash!

Fortunately, they are lucky, of course, this is also the reason that Ye Xuan is careful. Before leaving the black ban, he did not forget to wipe away the smell of himself and the old pig.

The distance between the stars and the sky of more than one billion is not too far away for the old pigs who have been repaired in the seventh order. In a short period of time, his huge figure has appeared in this. The far end of the star field.

The abandoned star, where the star porcupine retreat is located, is only two or three hundred thousand miles away.

At this time, Ye Xuan concealed his body shape with the perfect shock of the spiritual power secret, converging all the air, sitting cross-legged in the void, while protecting the law for the retreat of the old pig, while stimulating the gods to the extreme, with the body The phagocytic system, the perfect Dan Fang of the twenty-sixth-level Baodan, is fully developed.

Even with the horror of this bloody, fine, gray, and seven-story sage, it is completely impossible to see through the air of Ye Xuan.

However, although Ye Xuan's air machine is not sensed, the old pig is different. Although he sneaked into the depths of the star of the abandoned star, how can he escape a seventh-order statue? Exploring the horror of God? "

Oh..."

The **** guy is actually an old pig that is not even a half-step sage..."

It was only a sacred sweep of the gods, and the blood-clearing gray Peng discovered the star-studded porcupine crouching in the depths of the star's nucleus. A screaming whistling sound came from his mouth, revealing endless resentment and unwillingness. It

The faint breath that was explored in the black ban was also exactly the same as the starry porcupine in the front star, but it was not known before.

Right now, after determining that the one-legged crow is actually in the hands of such a being, the blood is clear and gray, and it is completely angry...

Chapter 4446: Lard is overwhelmed

"Hey..."

"call out!"

"call out!"

An earth-shattering whistling sound followed, followed by two sharp and unpredictable sounds of breaking...

More than 100 million miles away from the universe, the blood is shining, and the blood is shining, and after screaming, the two screams of anger are filled with two bright red blood spurs. Come.

The shape of this blood-cleared gray Peng, under the exhibition of a million miles, a pair of **** heads on the head, each is as large as a small meteor.

At this moment, the two blood awns from the scorpion are two energy ray columns with a diameter like a small meteor. They reveal a few horrible annihilation of the world, and the imaginary distance spanning tens of millions of miles in the blink of an eye. More than 20 million miles away...

At this time, the old pig is still retreating deep in the star's star, far from the time of exit.

More than 20 million miles, with the speed of these two **** beams, you can reach them with just a little bit of interest.

At that time, once bombarded on this abandoned star, with the horror energy that it radiates, I am afraid that the whole star will be completely blown up, and it will become a cosmic dust.

The old pigs who are in the core of the stars retreat, even if they don't die on the spot, at least they must be seriously injured. If they are in a state of chaos, they are very likely to go into flames.

The situation has been critical to the extreme from the beginning!

It was also at this moment that Ye Xuan, who was sitting cross-legged outside the stars, suddenly opened his eyes.

Although he immersed himself in the whole mind, he was eager to cooperate with the body's phagocytic system, and was pushing forward the perfect Danfang of the twenty-sixth-level Baodan.

But after all, it is a strange universe void, Ye Xuan can not be half-prepared, he has already left a trace of knowledge outside the police.

In fact, just as this blood-cleared gray Peng arrived hundreds of millions of miles away, Ye Xuan had already noticed his arrival, and he withdrew from the 26th-level Baodan in the first time. Perfect Dan's derivation process...

Not only that, but in the moment of growing up, Ye Xuan also removed the magical secret of the perfect shock.

In the next moment, his figure is instantly visible in the void...

"Well? Actually, there is still a half-step stalwart of the starry sky? It's no wonder that Raven is killed by you. It's not impossible to join the two, plus other tricks..."

In the first time when his figure appeared, the **** and clear gray Peng, which had already rushed into the distance of 100 million miles, immediately discovered the existence of Ye Xuan.

The voice of his gods came, although there were accidents, but more, it was still ridiculous and disdainful: "The secret of this hidden air machine is not bad, but it has deceived the perception and exploration of the deity..."

"Unfortunately, my mind is a little bit ill, and the old turtle is shrinking. Maybe it can still escape a life. As for now... Since it is exposed, then let's die together!"

"Hey..."

In the end, Xueqing Graypeng once again screamed at the neck, and the two roads had already bombarded more than a million miles. All of them turned to the **** pillars of the old pigs who closed the stars. In a moment, they changed direction and went straight. Boom to Ye Xuan!

At this moment, Ye Xuanyuan flashed over the cold mang, and he did not hesitate. The first time he turned his head and violently said: "The konjac changed nine times... the eighth change!"

"boom!"

As his words fell, a huge explosion came in an instant.

In the blink of an eye, Ye Xuan's body shape has skyrocketed and the speed is so fast.

The power in the body is rolling like the big river is roaring, the limbs are screaming for endless fierceness, and there is a horrible breath that is unimaginable.

In just one tenth of the interest rate, the body shape, which was only ten feet high, swelled at a very high speed and swelled at a rapid speed. When it was visible to the naked eye, it reached a billion.

That is six million miles!

This is absolutely comparable to the real giant stars, and even has it!

In addition, while the body is skyrocketing, the cultivation of the body that Ye Xuan has dispersed is also rising at the same speed. The half-interest has been completed from the previous ninth order of the emperor, reaching the present universe. Eighth order of the Sacred!

Eighth Order!

It's just that this kind of cultivation is better than the spurt of the positive flapping, and it's already seven or eight million miles away, and it's already a small step.

In fact, if you count the power of the horrible blood in the huge body of six million miles in the eighth change state of Ye Xuan, at this time, the real combat power is already comparable to the nine-order grand perfection. .

It can be said that the Lord of the universe is absolutely invincible!

With the combat power of the ninth-order Grand Supreme, the battle against the strength is only the seventh stage of the universe, and the final result of this war, there is no suspense.

The war has not yet started, and the ending is already doomed!

"Hey!"

Seeing this scene, the blood-smooth gray Peng, which is coming from the positive speed, suddenly screams. In the voice of the gods, there is a deep incredible: "The Eighth Order Supreme? This is impossible..."

This is indeed too horrifying and dreamy. The first moment is just the immortality of the emperor. The next moment is transformed into a cosmic sage, and it is not the general cosmic sage, but the eighth order of this world, is close to the great consummation.

These existence, below the Lord of the universe, basically have few rivals!

More importantly, this starry sky is violent, and Xueqing Graypeng has never heard of it before.

Although there are a large number of Xingqiang forbidden areas and Supreme Stars around the Milky Way, even the areas where idle forces are concentrated are even more mixed with dragons and snakes.

However, as a late sage, the **** gray and clear is obviously quite familiar to these strong forbidden places.

If there is such an eighth-order universe, the universe can not be heard at all...

The only explanation is that the strength of the Eighth Order Supreme, which is displayed in front of this starry sky, is not his normal cultivation, but a powerful **** secret method. !

"I don't think of the world, there are still such magical blood secrets..."

These thoughts flashed through my mind, and the blood-clearing gray buds immediately determined their own guesses. The figure was stopped abruptly thousands of miles away, but in the middle of it, it was a fierce glory.

Tightly staring at Ye Xuan, he sneered: "However, this secret law does not belong to you, the starry sky is violent, and you have never heard of it. Since it was taken from it, then, The deity also has a chance to get..."

"As long as you kill, this magical blood secret will belong to the deity..."

"Hey..."

"So, the death of Raven is quite valuable. Today, the deity not only helps him to report his enemies, but also to seize your secret law. Maybe you can get the power of the main level of the universe in advance..."

"This is really... too much to look forward to!"

At the end of the day, the sorrows of the blood and the gray plaques are full of greed. At this moment, he is clearly blinded by lard, fainting...

Chapter 4447: Turned out of the big head

"You are right, this kind of blood secret, it really does not belong to the owner of the star..."

In the six million-mile body, the starry sky and the violent star-studded singularity of the giant stars, the sound of the gods of Ye Xuan, also at this moment, resounded through this void: "And, once this secret method is applied, Instantly improve the cultivation of a big realm..."

"The original master's cultivation is the strength, only the emperor's eighth order. If you have this kind of **** secret, see you, only the wind and escape..."

"However, at present, the cultivation of the star master has reached the eighth level of the universe. In the huge body of one billion feet, the power of blood and blood is even more horrifying. The real combat power is no longer Weak than the ninth order of the Sayādaw."

"But you are just a seventh-order sage!"

"Dare to talk like this in front of the Lord of the Stars, and actually swear that the Lord of the Stars will be killed and seize the secret of this blood... The only way to rely on it is to determine the strength of the Lord's current cultivation and not to last?"

Speaking of this, the huge and violent mouth slowly sneaked out a sneer, revealing a strong sarcasm, not waiting for the blood and gray ash Peng to return to God, it is a punch and bang...

"boom!"

"Card..."

This boxing power is too strong, and the horror power of the half-step cosmic master is so powerful that it is unimaginable.

When a fist hits, there is a sound of a slap in the void. This is the mysterious emptiness of the moon, not the fragmented starry sky of the outside world. It is tough to the extreme, but it is still unable to support this boxing.

"If this is the case, then today, let you see..."

The fierce and fierce screaming of the fierce fists, Ye Xuan's voice of the gods, also at this moment, once again sounded: "The Lord's present lord is repaired, how long... how long can it last!"

"Hey!"

"The bluff is only! The power of this level does not belong to you at all. The deity must look at it... a similar punch, you can blast a few times!"

The blood and the gray ash Peng looked up and screamed, and the sound of the gods came out at the same time, the huge ashes suddenly swayed...

A low humming sound came, and with his incitement, there seemed to be some mysterious power in the void, which made the void have a ghost image, like a folding space, **** gray and gray stars. The distance between them has suddenly skyrocketed.

It was only a million miles away, but now it has been stretched ten times in an instant, reaching 100 million miles.

One hundred million miles, for the powerful war of the universe, may not be far away, and even within the melee area.

However, this distance, for the **** and clear gray Peng who has the seventh-order sages, it is enough to avoid the horrible punch of the starry sky.

"call....."

It is also a wing-spreading wing. This time, the shape of the blood-clearing gray-peng stunned, and it also traversed tens of millions of miles, so that the starry sky violently slammed out a punch, which was close to his left. Going away...

"Now, it's the turn of the deity, I have to look at it. After this punch, you have already become a paper tiger with an empty watch!"

After avoiding the temper of the starry sky, the shape of the blood-clearing gray Peng did not stop there. As the voice of the gods came out, his huge blood and clearness, the cold mangling quietly flashed.

Then quickly flapped again...

"Hey..."

"Hey..."

The low humming sounds that have appeared before, will sound again in an instant, and the frequency is so fast.

In the meantime, there was a sharp and unpredictable sound of breaking through the air. As the blood and the gray swayed, the energy arrows rushed from his eyes.

The number is too large, overwhelming, covering the universe of ten thousand miles.

This is not just an ordinary energy arrow. They are spurred out between the blood and the gray, and they also have the power of some space law, and the low humming sounds that appear simultaneously with these energy arrows. Is to prove.

The overwhelming energy arrow seems to have crossed the void directly, and it has been teleported. The moment it was still in the emptiness of a hundred miles, this moment has come to a close, far from the starry sky, but only a few million miles away.

You must know that the starry sky has reached its own size of about six million miles, more than a giant star, and now, the energy arrow that covers a radius of more than ten million miles, has already reached him in the blink of an eye. Only a few million miles in the void.

It sounds quite far away, but in fact, for the starry sky, the distance of millions of miles is just a separation.

In the view of Blood and Gray, the space secrets of the blood talents, the energy arrows that are overwhelming, all sent to the vicinity of the starry sky.

With his huge and bloated body, it is absolutely inevitable.

If there were no accidents, this shot would be enough to seriously injure him.

The current starry sky is violent, clearly in a state of activating the blood and secret law. Once seriously injured, it must be forced to withdraw from this state, so that he only repairs the emperor's realm, for blood. For Qing Gray Peng, it will undoubtedly become a cockroach...

With these thoughts flashing in my mind, the **** and gray-gray face suddenly showed a pleasing color, and the voice of the gods also showed the meaning of playfulness: "Illness, everything... should be over!"

"You seem... a little too much!"

His words have just fallen, Ye Xuan's voice of the gods has already sounded, and it also has a deep playful meaning, more ridiculous and disdainful: "All this is far from the end, because this star The Lord suddenly changed his mind... Slowly, kill you!"

"call out!"

"call out....."

After waiting to finish, the starry sky storm has suddenly waved, and in a moment, a weak break sounded.

Two tens of thousands of people, as he waved his movements, pulled out from the body.

It is Shennong Ding and Shennong!

When the former appeared, it immediately rushed to the head of Ye Xuan, and this time, it was still in a complete form, and the storm rose in the blink of an eye. It was more than a million miles away, and it was bigger than the starry sky. A few laps.

At the same moment, Shennong Ding's tripods also poured a lot of colorful gas, blinking the stars and violent, protecting the whole body.

At the same time, Shennongyu, who was also waved out, directly rushed to the starry and violent right hand, and quickly became bigger and turned into a **** stick that would last for 20 million miles, and the weight would be better.

"call out!"

"Hey..."

Just at this moment, just like the teleports, the numerous energy arrows that directly passed through the void, finally came close, and directly broke into the misty fog that Shennong Ding had poured.

However, it did not have any impact on the starry sky.

All the energy arrows, in the moment of contact with the smog that covered the violent body, have already resembled the snow and ice under the scorching sun, and instantly melted, so it disappeared...

Seeing this scene, Xueqing Graypeng exclaimed: "What? This... impossible!"

Chapter 4448: Killing Peng Zun

"What? Shennong Ding? This...this is impossible!"

As Baoding was sacrificed by Ye Xuan, he hung over the top of his head, pouring endless nine colors and smog, protecting his body, and the front of the blood and the gray spurs all exerted a blow, but also completely lost.

All the energy arrows are all broken down by the smog of Shennong Ding.

This is a seventh-order sage. If Ye Xuan urged Shennong Ding before, I am afraid that this power cannot be achieved.

But now, on the one hand, Ye Xuan's own cultivation is more than the other side. On the other hand, it is the Shennong fire of Ding, and it has only recently evolved to the peak of the nine-color flame.

Because of this, it also led to the tremendous increase in the power of Shennong Ding, which can be described as a big jump!

At this moment, in the face of the appearance of this scene, after a short period of time, the blood and the gray spurt screamed in an instant, and the sound of the gods revealed the shocking and incomprehensible meaning.

After all, he was a late sage, and his knowledge was quite extraordinary. He even recognized the legendary sacred era of Shennong Ding at the glance!

"Hey..."

"The deity is not sweet!"

With the advent of Shennong Ding, Xueqing Graypeng was completely desperate, and there was such a trip, even if the **** secrets of this starry sky violently disappeared, the cultivation of strength fell to the realm of the emperor.

However, as long as people hide in Shennong Ding, relying on the repair of blood and fine gray Peng, it is simply what can be done. If you want to break the protective power of this legendary ancient treasure, and forcefully kill each other, then at least It takes the cultivation of the main body of the universe to be a talent.

What's more, at present, people are under the protection of Shennong Baoding, and there is no half-step injury. The secret method of blood and blood is probably one and a half, but it is impossible for Wei to dissipate...

This situation is simply boring and horrifying. The other side has the support of Shennong Baoding, and there is no fear of attacking himself.

On the contrary, it is self-improvement, the strength of the starry sky compared to the **** secret method, which was originally weaker, and stayed here again. The final result, apart from passive beating, has no meaning...

"Hey!"

With a thick unwillingness, the blood and clear gray Peng finally screamed and screamed, and turned around and turned around.

At the same time, his voice of the gods has resounded again: "Imperial, don't be proud, although Shennong Baoding is powerful, but it is not completely impossible to break open, at least with your current cultivation, the universe. The Lord can do it... wait!"

The implication is that it is clear that I intend to go back and pull a couple of the universe to solve the rhythm of Ye Xuan.

Perhaps this guy could not have been the owner of the universe, but if he reveals the news of Shennong Baoding, please move one or two masters of the universe, but there is absolutely no difficulty!

"So it seems that today you can't stay with you..."

Not waiting for him to turn around, the sound of the violent starry voice of the starry sky has already come. The next moment, the faint sound of breaking the air, the starry sky of six million miles away, with Shennong Baoding suspended above the sky overhead. It turned out to be a teleport directly.

And it is still precisely locked position, the blink of an eye has reached the front of the **** gray and gray, but separated by 10 million miles, just within the scope of the **** bar...

"boom!"

The huge roar sounded, almost at the same moment of the end of the teleport, the violent right arm of the starry sky was lifted high, without hesitation, the speed was so fast that it was directly smashed in the blood. Gray Peng's right wing root...

"Hey..."

A fierce and horrible sound came from the mouth of Blood Qingpeng, and its huge figure was also a slam in the void. Between the tumbling, the right wing was obviously unnaturally hanged down... ..

The late Zun, as a murderous poultry, heard the horrible sound of wolf in the mouth at this moment, only to see how terrible the power of this attack was.

It is clear that this **** and gray ash is almost on the spot to the mad rhythm!

In fact, the reason why Ye Xuan's stick is in the right wing of the blood-clearing gray Peng is also very particular, but it is the result of his deliberate so.

For Ye Xuan, this seventh-order sage is definitely the strongest opponent he has ever encountered, although the current Ye Xuan combat power is comparable to the universe's nine-order grand perfection, which is closer to the two than the blood-clearing gray Peng. Order.

But the other party is a late sage, and is still a strong breeder who is good at speed and escape.

It can be said that even if Ye Xuan now has the advantage, he is not fully grasped, and he will be able to stay with him.

Therefore, if you don't shoot, once you get the shot, the first thing to do is to break the other's ability to escape, and to abolish his eyes, obviously the best choice...

"Hey..."

At this time, after being knocked over by Ye Xuan, and rolling out tens of millions of emptiness, Xueqing Graypeng finally stabilized his figure.

He didn't hesitate, he vibrated his wings for the first time and wanted to escape quickly.

However, the familiar humming sound just sounded, and it stopped abruptly. The **** and gray-gray's right iliac bone was obviously cut off. Although it is not serious, it is not life-threatening. If you want to escape, it is obviously not possible!

"call out!"

The sound of the empty air rang again, the starry sky violently swayed, and once again used the teleport, and the blink of an eye went to the side of the blood-clear gray Peng.

This time, his position is on the left.

Without hesitation, the **** stick will pick up at the first time, and squatting down. As for the drop point, it happens to be the wing root position of the left wing of the blood.

"boom!"

"Card..."

The huge roar sounded, and the **** and gray body of the gray and gray swelled again and again, and blinked thousands of miles away.

The left wing, which was still good in the first moment, was just like the right wing, and it fell unnaturally.

This blow, the violent force is even bigger, the big head is black and the slamming, the huge roaring sounds, there is clearly a clear sound of broken bones...

"Hey..."

"Irritable, you... shameless!"

Once again, the blood and the gray ash spurt a blood arrow, and the voice of the gods sounded instantly, revealing the endless grief, and the wings were abolished. He knew that this time he finished and lost his speed advantage. In the face of a starry temperament with the ninth-order grandeur of the Sayādaw, he barely sees a little bit of life...

"Roar!"

After two consecutive sticks, the blood-clearing gray Peng's wings were abolished, Ye Xuan always hung in the eyes of the blind eyes, and finally fell completely.

Under the sudden sin of the heartstrings, the starry sky violently raised a roar of hair, and then turned to the blood and clear gray Peng, which was more than 20 million miles away in the distance, and looked at it in the middle of it!

"Don't you say that you want to ask one or two masters of the universe to kill the star master? Now... why not run?"

The voice of the gods came out, the starry sky violently dragged the big hand and dragged the **** stick, not eager to squat, so standing in the void, step by step, toward the blood and gray ash in the distance in front of the sky!

Look at this posture, it is clear that it is necessary to kill the rhythm of the scene...

Chapter 4449: Twenty-six-level Danfang

"Impatient, you have to deceive too much..."

Seeing that he was dragging his **** stick, he was looking at the fierce color, and he walked slowly in the void, step by step toward the starry sky that he walked, and the entire body of the blood and gray Peng squatted subconsciously. Li screamed screamingly..."

What is deceiving too much? Looks like today is your own come to the door? Storm

The face of the cockroach is full of contempt, and the sound of the gods is completely empty: "How? Just ask you to come and attack, don't you let the star kill? If you have the courage to chase, you must be killed." Fallen psychological preparation..."

No matter where you are from, but you better figure out the origins of the deity..."

The violent starry sky approaching step by step, the **** and clear gray Peng became more and more uneasy, and the dawn of the great **** began to flash. on

Even the fierce meaning in the tone has disappeared in an instant, just like persuasion in general, following the temptation: "The **** forbidden land to which the deity belongs is a mid-level and strong forbidden land, with two cosmic owners sitting in the town, one of them, Even the same family of the family..."

"If you dare to marry me today, his day must be degraded to the hands of the old people, violent, and advise you not to make your own mistakes..."

Intermediate to strong forbidden? The Lord of the Universe? so what? "

Unfortunately, these words are completely ineffective against Ye Xuan.

Previously, his goal of hunting was to immortalize the emperor, but now it has risen to the cosmic sage, but this is obviously not the end. Do not

After a long time, his hunting target will rise again and reach the level of the Lord of the Universe!

Therefore, for Ye Xuan, the words spoken by Xue Qing and Gray Peng at the moment, for him, at most, indicate the next target that should be locked first after raising the level of hunting targets! "

Is the blood sea banned? The star master wrote down... Rest assured, not long after, you must rush in and harvest the flesh and blood of your peers! "

"As for now... This war lasts too long, and everything should be over!"

"Booming..."

When the voice of Fan Shenzhi started, the starry sky was still 20 million miles away, but at this moment, as he slammed in the middle of the cold, his shoulders were weak and he immediately approached 10 million miles, with the front The distance between the blood and the gray ash is only about 10 million miles away...

At this moment, the violent right arm of the starry sky was raised again and then squatted.

And the shocking and huge head, the location of the drop point locked by this time, is a huge head of blood and gray gray Peng..."

Do not....."

"Ill, you will regret it!"

Seeing this scene, the blood and the gray and gray plaques flashed through the desperate mans, and the hair screamed fiercely, and hated anger! "

boom! ""

Oh..."

In the next moment, the **** stick that was raised high fell directly on the head of Xueqing Graypeng, and the loud roaring sounded instantly...

In the blink of an eye, the huge body of the bloody, gray, and gray giants was completely blown into a gray **** fog.

This star field is like a sudden violent wind, and the void is blown out of a trace. "

call out! "No

Half a bit hesitant, Ye Xuan waved for the first time, an invisible gas spread out from his body, and the gap between the blink of an eye has covered a thousand miles of the void, the gray blood fog that just spread and swept through Come. will

After the income in the body, he was sent to Shennong Ding for the first time, and he went to the flame pool at the bottom of the volcano in the central area of Ding Nei Space, and began to condense blood!

This blood-clearing and gray-splitting cultivation has reached the seventh level of the universe, and it is the cultivation of this period.

All the gray blood fog that appeared after his body exploded, and it was swept away, and there was no omission.

As a result, Ye Xuan later began refining, and eventually he will get the blood of the sage, although it still does not reach the level of the best, but at least it is also the top thing, this for Ye Xuan's subsequent refining of the 26th level Baodan is a great help.

Because of this, Ye Xuan at the moment is very happy..."

After the blood and blood of this blood-cleared gray Peng was successfully condensed, in my hand, I have already had three bloodstains of the Supreme..."

After the hand put the **** stick away, Ye Xuan's glimpse of the fine mans, as if falling into deep thoughts, the mouth is like a nightmare, muttering: "Although it is impossible to make up the five bloodlines of the sage, Immediately, the condensate of the twenty-sixth-level Baodan was launched, because it was too wasteful to maximize the benefits..."

But now the twenty-fifth-level lord Baodan has been completed, and my cultivation has reached the end of the emperor's immortal order. It only needs another breakthrough of small steps to be able to refine

the twenty-five recently. The class Baodan swallowed it and entered the realm of the Savior in one fell swoop..."

In this way, in the state of the eighth change of the konjac, my cultivation is the first step of the universe, and the hunters of the universe will become easier..."

"There is no doubt that by then, if you have more than five, or even ten, bloodstains, you will not be able to use it for a long time..."

In this way, it seems that there is no time to delay the derivation of the perfect Danfang of the twenty-sixth-level Baodan! ""

I also planned to stay here for only about three months, and after Danfang pushed out a part of it, when the old pig was out of the customs, he immediately left the place, and later became empty, and then completed the follow-up deduction..."

"But now, the plan seems to be slightly adjusted. In any case, let's make a sigh of relief and completely refine the 26-level Baodan's perfect Danfang."

Having said that, Ye Xuan does not hesitate to erase all the traces of the war left in the void and the breath of the blood and the gray. With

After that, the body shape swayed, and rushed directly to the Baoding Dingkou, which was carrying a colorful mist, sitting cross-legged!

After adjusting his mind, Ye Xuan quickly regained his mind, combined with the body's engulfment system, and mobilized the system's calculation and derivation ability to the extreme, and then with the eight-order horror of the universe as the assistant, began to The perfect Danfang of the twenty-sixth-level Baodan... first

Before, in the perfect Dan Fang of the twenty-fifth-level Baodan, Ye Xuan spent almost a year! and

This time, on the one hand, Ye Xuan's current cultivation has reached the late stage of the sage, and the gods are powerful too much. another

On the one hand, it is because of the perfect Danfang of the twenty-sixth-level Baodan, before he has already derived a part of it.

Therefore, this time, he only spent about six months, and he successfully derived the perfect Danfang of the twenty-sixth-level Baodan. "

call....."

"The perfect Danfang of the twenty-sixth-level Baodan? It was finally completed successfully..."

After the completion of the Meidan side, Ye Xuan sighed with a sigh of relief, whispering in a whisper, and flashing a touch of excitement. under

For a moment, he grew up and immediately issued a new order to the body's engulfing system, and fully promoted the ninth change of the konjac!

Chapter 4450: Seven Emperors

"Hey!"

In the wave, Ye Xuan grew up and took Shennong Ding into the body. With

Later, he broke free from the state of Shennong's eighth change, and restored the violent figure of ten feet, and the strength of the body that was poured out in the body, and thus fell back to the ninth stage of the Emperor. also

At this time, his body suddenly came a familiar incitement, that is the movement of the smoke, Ye Xuan heart move, a wave of hands, will directly want to smoke. "

Oh..."micro

The weak sound of the air broke out, and Bao Luo screamed out, and the wind rose. The blink of an eye turned into a pink pipa of a hundred feet in size, and the sky in front of Ye Xuan slowly rises and falls, revealing a very powerful mystery. Breath.

Almost at the same moment that Bao Luo was sacrificed, the voice of Zixia Fairy came out, gentle and pleasant, listening to the ear, making the bones lightly three or two: "Master, fortunately not insulting, recently this During the period of time, our cultivation has risen and the strength has been restored to the immortality of the Emperor..."

Is it finally immortal? "

Ye Xuanyuan flashed through the fine mans, and his face showed a pleasant color.

Because this means that from then on, he will have seven emperors around him, instead of the previous half-step emperor.

The gap between the real emperor and the half-step emperor is obviously huge. The seven glamorous and ridiculous emperor Ji, surrounded by seven glamorous, is absolutely significant for Ye Xuan.

This is definitely a weapon for pulling the wind! want

The seven ancient and ancient repairs in Yanluo are: the ancestral ancestors, the ancestors, the ancestors, the ruins of the ancients, the nine days of mysterious women... the nine-tailed fox, the phoenix goddess, the Zixia fairy!

In the distant era of the wilderness, seven of them were once ridiculously ruined, and they were called the seven great sacred cults of the Hong dynasty. They were famous for a while. Later, when the ancient world broke out, the seven major sagas were all fallen. but

However, each has its own source of consciousness, and it has been sealed in the ancients and smog. Until the endless years, this treasure was obtained by Ye Xuan, and it has experienced various obstacles. To

Nowadays, the seven great cults that once became famous and ruined, finally reunited again, and all of them have molded the blood of this world, successfully survived the second world, and even repaired for strength. They have all recovered to the realm of the emperor. This

Everything, and Ye Xuan almost unrestrained to open a variety of top-level cultivation resources, it can be said that without him, it is still difficult to say whether the seven major repairs can reshape this world treasure.

Although there is a remnant of the soul left, there is no entity. In the face of the coming floods, I am afraid that I will not survive at all. After all, I will still fall in this world. when

However, the seven great sacred repairs in the distant floods, all of them are the existence of the ancient power level of the ancients. Now they have recovered to the emperor, but they still have a long distance from the peak of past life.

After the emperor, it is the cosmic sage, and then the Lord of the universe, the universe is supreme, and then, in order to reach the ancient great power.

From the emperor to the ancient world, there are four great realms. It can be said that there are still a long way to go before the seven majors can be restored to the peak of their previous lives.

But for Ye Xuan, this is not a problem, because now he has evolved the Shennong flame in Shennong Ding to the peak of the seven-color flame, and the magic method of refining medicine has been perfected, and then the legend can be refined. The nine-color **** medicine in the middle.

Even the colorful medicinal herbs that he had previously refined are far from being able to compare with Jiu Cai Shen Yao. There are a large number of supplies of nine-color medicinal herbs. Ye Xuan believes that the cultivation of the seven savvy repairs will certainly be able to Quickly return to the peak of previous life. when

However, in this process, Ye Xuan's own cultivation will also rise rapidly...

In fact, the current Ye Xuan, although it is a step by step practice, but his speed has surpassed the seven emperors who just restored the previous life. "

call out! ""

Oh..." this

At the same time, as the faint sound of the road broke out, seven figures were rushed out from the smog, and in the void in front of Ye Xuan, they were lined up. This

However, the seven major savage repairs, no matter which one, are the existence of the face and body!

Even more so, the purpose is that the seven savvy repairs, temperament are different, at this glance, it gives a feeling that a pair of long eyes are not enough!

Ye Xuan is not the first time to see the seven great repairs gathered, and even in the magic dragon Yu driving, the seven Yan Xiu repair also gathered in the body at the same time, served him for some time. but

At this moment, he still couldn't hold it anymore, his heartbeat faintly accelerated, and even his breathing was rushed. His nose seemed to be faint and itchy, and the nosebleed seemed to be thrown out at any time..."

See owner..."

The figure was suddenly emerged, and the seven beautiful and fascinating savage savage repairs, while at the same time, they smiled at Ye Xuanjiao and sighed in the mouth.

Then, they discovered that Ye Xuan's current cultivation is strength, so the whispering sounds immediately sounded like a tide. "

God, your master is your strength..."

So fast, before I only entered the emperor, how long has it been? We just closed it once, and the masters are all perfected. ""

Our seven sisters have cultivated their strengths. In the past, they have reached the age of the ancients. This world reinvented the treasures. It was just a restoration of the past life. The speed was already very fast. I did not expect the speed of the master to surpass us. ""

Such a gift, really worthy of being the master of our seven sisters, it seems that even if the world is coming again, the sisters can have a dependence, not like the past life, with hate and fragrant jade. ""

I also hope that the owner will pity..."

"It hurts us to pamper us..."

"puff....."

As I said, the seven gimmicks have all been surrounded. This one is on Ye Xuan's body. The one who touched him on his waist seems to believe that the cultivation of Ye Xuan's strength has already reached the ninth stage of the emperor. Have to verify it by yourself. and

Moreover, the seven gimmicks said that they were pitiful, but between the eyebrows, they all clearly had a slapstick, and they laughed from time to time.

There are even people who are grinning and laughing... this

In the scene, Ye Xuan suddenly felt some liver pain, and the sauce on his face was purple, and it was almost a spurt of old blood on the spot.

Niang Dian, actually joined by seven gimmicks, and soaring half-step, this is simply ... how embarrassing?

"I have done it, don't make trouble, know what you mean..." Yu

In the boring, Ye Xuan turned a blind eye without a word, and then waved a hand, directly from the closed cave at the bottom of the volcano in the central space of Shennong Ding's internal space, took out a lot of colorful magical medicine. Minute

In seven copies, each one is full of tens of thousands of cubic meters. This

Directly led to Ye Xuan refining the batch of nine-color magical medicine, less than a small and a half, like a giant big glimpse, at least one-fifth..."

call out! ""

Oh..." with

With his waving hand, seven weak vacancies sounded, and then, seven volleys rushed away, and the emptiness that fell to the side came to an abrupt end. Hang

After the stop, it is clear that there are tens of thousands of cubes of nine-color magical medicines.
