

## Super D.S 4461

Chapter 4461: Second-order

With the murder of this miscellaneous scorpion, the blood of the sage in Ye Xuan's hands has indeed reached six giants.

And because of the bloodliness of these six nobles, half of them are the scent of the blood and blood left by the later sages, and the quality is excellent.

Therefore, even if only the refining of these six bloodstains is carried out, Ye Xuan still has more than 60% of the grasp, and can refine three twenty-six-level Baodan.

After all, the Shennong fire in Shennong Ding is far from being comparable at first. It has evolved into a nine-color flame, and Wei has reached its peak.

But only three, obviously can not make him satisfied, so Ye Xuan did not intend to refine now.

According to his plan, at least nine or more of the blood of the sages must be gathered, and then the refining of the twenty-sixth-level Baodan can be carried out to maximize the benefits.

Of course, if you can do a little more, naturally better!

Although this miscellaneous green scorpion is already in vain, but within the forbidden land of the entire Qing dynasty, there are eight powerful beasts of the emperor's immortal class. This is the eight blood seals of the emperor, and must not be wasted.

However, Ye Xuan did not intend to shoot again. Unconsciously, even if it was the existence of the Emperor, it was already like an ant for him.

These thoughts flashed through my mind, and Ye Xuan could not help but lose sight of it.

Coupled with the feelings of the enchantment of the \*\*\*\* secrets of the youngsters, this moment, he is like an epiphany, and his mind has completed a sublimation in an instant, and is even more determined.

"This is an unexpected joy. It seems that this battle with the mischievous green is very meaningful..."

In the midst of joy, Ye Xuan turned to the old pigs on the side and said, "The eight heads of the emperor are immortal and their cave nests will be handed over to you."

"As for the Lord of the Stars, go and search the nest stars of Hell's double-headed dog and the mixed-haired scorpion, and then, take advantage of this unexpected breakthrough in the state of mind, and start once in the nest star of the sable. Retreat breakthrough!"

"Hey? Break through?"

Upon hearing this, the old pig was so scared that he looked at Ye Xuan with a stunned look. After confirming that he was not kidding, he just muttered his mouth and said: "How long has this been broken? It is so fast again... It's a metamorphosis!"

While muttering, the old pig's body shape has been spurred away. After a short while, there is a thunderous thunder in that direction. Obviously, the killing has already begun...

Although the surviving emperor in the forbidden land is still immortal, there are still eight heads. However, the old pigs now have the fifth-order power of the Sayādaw, even if they are a pair of eight, they are all crushed. Ye Xuan does not have to worry.

"call out!"

Under the sway, he rushed directly into the nest star of Hell's double-headed dog, and searched for it, then immediately rushed to the nest of the burrowing green scorpion...

In just two hours, this time, Ye Xuan has harvested a large number of top-level cultivation resources.

After all, this is the two cosmic sages, there are too many good things in the hands, especially the miscellaneous hair, his cultivation has reached the eighth order of the sage, compared to the \*\*\*\* ash that Ye Xuan had previously encountered. Pengdu is more powerful and definitely the most powerful opponent Ye Xuan has ever encountered.

The existence of this level, the treasures in Dongfu, can be imagined...

After everything was searched, Ye Xuan did not leave the nest star of the miscellaneous green scorpion, but waved the Shennong Ding directly in a valley, and then he swayed and recovered to the violent form of ten feet. After that, he stepped into the Shennong Dingkou where he was holding a colorful mist, and sat down on his knees.

"Hey..."

The next moment, one after another, broke through the air, all of which were the cultivation resources that Ye Xuan took out from the immortal world, including a nine-color ball of a diameter of a kilometer.

Later, he took out a lot of other cultivation resources, such as ten drops of evil source liquid.

After doing all this, Ye Xuan will mobilize Shennong Ding's domain field power, compress all the cultivation resources to the size of only the baby fist, wave a hand and swallow it directly into the belly.

A new round of breakthroughs was also launched at this time...

"Oh la la..."

In the body, the overwhelming sound of the chain rang, and this time, there was only one chain that appeared in his body. The next thing he had already learned from the road, urging the energy that had just formed in the body, spread out in the body. Running again and again on a large Sunday, building up strength.

In the end, when all the energy is refining, just a shock, the chain will break.

And with this extremely thick shackle chain finally completely broken, the expected system sounds, and soon in the mind of Ye Xuan...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the second order of the universe!"

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: the second order of the universe!"

With this breakthrough, Ye Xuan's combat strength climbed again.

Previously, the strength of his deity was only the first step of the sage. Once the blood of the ancient konjac was activated, he could climb to the second level.

If you then use the konjac to change the magical powers and reach the ninth change, the combat power will immediately rise to the second order of the universe!

Now, after activating the blood of the konjac in the body, Ye Xuan will immediately have the third-order cultivation of the sage.

If you use the magical power of the konjac and change it, and directly enter the ninth change of the konjac, its peak strength can reach the third stage of the universe. This is the peak of the initial stage of the world. Entering the middle of the universe...

"The second step of the Sayādaw is the perfection of the ninth order from this world, and there are seven small steps to break through..."

Opening his eyes, Ye Xuan's scorpion bottom flashed a touch of fine mans, muttering: "In this time, you must collect as much as possible of the blood of the sage, and then, in the cultivation of strength to reach the sacred world At the eighth order, the refining of the twenty-sixth-level Baodan was launched..."

"After that, once I arrived at the 9th stage of the great consummation, I will consume a twenty-six-level Baodan, and after successfully training the strength to the main position of the universe, then once I display the magical power of the konjac, and Pushing it to the ninth change, then, in an

instant, there will be a terrorist power of the universe supreme..."

"The \*\*\*\* mosquitoes that go to the forbidden place are a high-level forbidden place with a cosmic supreme..."

"When I can have the cosmic power of the universe in advance, I will be qualified to explore the forbidden place."

"It seems that this day is obviously not far away, just a breakthrough of seven small steps..."

"And this time I went to the forbidden mosquito to ban the land, not only to check the whereabouts of the bloody, but more importantly... I have to give it a try, can you find the fathers of the mosquitoes and the evil spirits, and the followers they follow? The mysterious mother star came to visit..."

"This person's identity is too mysterious. The bloodline left by His Majesty's followers in the three major star planes of the world is the existence of the level of mosquitoes and old ghosts and the madness of the mosquitoes, and their own power... ..can be imagined!"

Chapter 4462: Late change

Calculating the time, since leaving the three major star planes of the world, Ye Xuan entered the void of the ruins of the ruins of the world from the void in the void of the second universe, and then entered the moment of Hongmeng. Void, it has been nearly ten years...

In the past ten years, Ye Xuan's own cultivation has been soaring at an unimaginable rate of horror. Nowadays, it has become a cosmic sage who surpasses the five great immortals.

Even in the state of activating the body of the konjac blood, and the venom of the konjac has been fully promoted to the ninth state of change, his cultivation is the strength, and even has reached the realm of the universe!

In addition, in less than ten years, Ye Xuan has other huge harvests...

The strength of the strongest source nest stars is born!

I have been away for a long time, and most of my current cultivation has grown to a very high level of devouring!

As well as the young cattle, old pigs and other genus under the account of this period, and the source nest base camp, as well as the banned land of the phoenix, the huge squadron in the Xusheng ban, and so on!

Even the Shennong Flames have evolved to the extent of the nine-color flame during this period of time, reaching its peak power.

And Ye Xuan also mastered the most perfect secret method of refining medicine, and they have been able to refine the nine-color magical medicine that belongs to the top cultivation resources even in the flood season.

In addition, the seven ancient wilderness repairs in Yantai have also gathered together, and all have the strength to repair the emperor's realm. At present, they are retreating and sleeping, trying to attack the universe.

All of this is done by Ye Xuan in less than ten years. It can be said that in ten years, the change is too great. It is like a slap in the sky, and it is turned upside down!

However, although he has entered the void of Hongmeng and even found the Milky Way star field where the parent star is located, many questions in his heart still have not been answered.

The headless baby corpse once again slumbered and fell asleep. In the last few years since he regained consciousness, Ye Xuan tried to call many times, but he never responded.

Without the answers and guidelines of the headless baby, Ye Xuan can only explore everything on his own.

Regarding the whereabouts of the Tianji nationality, he still feels in his heart. Although Ye Xuan does not know the details, he has always had an intuition. The disappearance of the Tianji nationality should be related to the upcoming great prosperity...

In addition, how the layout of the green eyes of the Hongtian Tiandao, and what has been done since the entry into this piece of Hongmeng, has disappeared completely... All this, pressed into the heart of Ye Xuan, turned into a doubtful cloud, the more The heavier it is.

These need him to explore, but at the moment, it seems that there is no starting point.

Only the one who took a few ethnic groups and followed them to the three major star planes of the world, leaving behind the bloodlines of the crazy mosquitoes and the mosquitoes and old ghosts, immediately left, is said to be looking for a return to the mother star. The mysterious person of the road... It seems that there seems to be a clue.

The deity of the crazy mosquito king has already entered a source nest star, and wants to glimpse the glory of this era.

But where is the deity of the mosquito-killing old ghost, it is unknown at the moment.

According to Ye Xuan's speculation, the old guy should also be in the void of this piece. If this is the case, his current position is most likely to be within the \*\*\*\* mosquito.

The fathers of the mosquito-killing old ghosts and the crazy mosquitoes, and the mysterious mother star who they follow, are likely to be all within the blood-mosquito.

For this matter, the \*\*\*\* mosquito of the mosquito king has gone to the \*\*\*\*

mosquito to ban the land alone. Although it is a high-level and strong forbidden land, it has a cosmic supreme town, but after all, it belongs to the world of murderous mosquitoes. The blood in the \*\*\*\* body is already Returning to the ancestors, having the blood of the ridiculous mosquitoes, entering there, there should be no danger...

However, Ye Xuan couldn't sit still. As long as he cultivated his strength to the main position of the universe, he could have the cosmic power of the universe in advance in the state of ninth change of the konjac. At that time, he would do the first thing. The matter is to enter the \*\*\*\* mosquito ban.

As long as you find the deity of the mosquito and the old ghost, or the mysterious old man from the parent star, then many questions in your heart will be answered...

"The breakthrough of the seven small steps... very soon!"

As these thoughts flashed in my mind, Ye Xuan could not help but feel a little bit at the moment.

But in the end, he shook his head and smashed the messy thoughts in his head, whispering in a whisper, subconsciously kneading his fists, smashing, and shooting a firm and unparalleled glory...

This time the retreat broke out, it only took seven days, not long, but because of the moment, I thought too much, Ye Xuan could not sit still in the invisible, and the sense of urgency became stronger.

"call out!"

Growing up, from the stunned Shennong Ding Ding mouth with a colorful mist, Ye Xuan waved his hand and directly absorbed Bao Ding into the body. Then he swayed and rushed out of the atmosphere of this giant star. , the universe of voids appearing outside the atmosphere.

"The violent brother, you... did you really break through?"

At this time, Ye Xuan is already a two-star sage, but when he activates the konjac blood in his body and changes to a starry sky with a body shape, the strength is soaring first. Therefore, what is revealed at the moment is respect. The third-order cultivation of the situation.

The old pig sperm is now freed from the third state of the magic pig, maintaining the body shape of ten feet, but only the second order.

This made the old guy quite unconvinced, and a pair of pig eyes stared at Ye Xuan for a while, and then he sighed in frustration: "Forget it, this is only seven days, actually broke through a small order, both Respecting the situation, the speed of cultivation is almost like this... So perverted, I will not compare with the old pig, and I will not hurt myself!"

"call out!"

"Hey..."

After that, the old pig suddenly opened his mouth, and eight blood-colored beads of the size of the head were directly spurred toward Ye Xuan.

It was precisely before that he killed the beastly blood of the Eight Immortals that were immortal.

Even though he is now a cosmic lord, but without the power of Shennong Ding as an aid, the old pig essence can not completely condense the blood of the eight-headed emperor's immortal body, completely condensed into a real beast. Blood essence.

The size of the human head at the moment is already his limit. Further, it is no longer possible to compress the size of the fist. Therefore, it can only be handled by Ye Xuan.

Ye Xuan did not pay attention to the meaning of this guy's sorrowful resentment. He nodded slightly and directly absorbed the eight blood beads from the volley and sent them to Shennong Ding to carry out blood purification.

After doing all this, he only suddenly disappeared into his face. He turned to the old pig and said: "At the moment, there are six bloodstains in the Lord's hands, and four more, you can expand twenty-six. Refining of Baodan..."

"If you think about it again, what other elementary and strong forbidden places can be used to get started? We must, in the shortest time, at the fastest speed, make the blood of the sages to ten pieces... later will change!"

Chapter 4463: The last two goals

"The four nobles are blood, that is, the star-studded beasts of the four universes..."

After listening to Ye Xuan, the old pigs on the side nodded frequently and excitedly and unanimously answered: "Don't worry about the violent brother, there is absolutely no problem. The primary and strong forbidden places on the side of the Galaxy Star Field are still there, only Four star-studded monsters in the universe, just look for two targets and start."

"However, as you said, the last two goals, we must hurry and start quickly. Otherwise, if time is long, it will change."

The cosmic sage can not be immortal than the emperor, and has entered the category of the last five major realms. If only one or two are killed, it will not cause too serious consequences. "

"The problem is that in just over a year, the cosmic sages you killed before and after have already had six sacred, and then you have to smash four more. This number is not a trivial matter, let alone drag it down. I am afraid that it is not entirely impossible to cause some existing concerns now..."

Here, the old pig's fine words are slightly sloppy, and the first thoughts are taken. After a few moments, they will pick up again: "There are two suitable primary stars in the vicinity, one on the left side of the green forbidden land, and one on the left. On the right side of the barren ban ..."

The name of the white tiger is on the left side of the Forbidden City, and the primary starry sky on the right is forbidden. "

"The two stars in the forbidden land, there are two cosmic people in the town, as long as they are killed, we can refine the ten bloodstains of the twenty-six-level Baodan, and we will be able to get together... ..."

What is the strength of this sacred beast? "leaf

Xuan nodded, and asked casually: "Listen to the names of these two primary and strong forbidden places, the cosmic sages who sit in the middle, the strongest, should be a white tiger, and a basalt?"

"Yes, but it is not pure blood, but the same as the \*\*\*\* wolf, it is the blood of the blood..."

The pig licked his mouth and said, "I am not like the old pig, but the oldest pig is the most pure starry porcupine!"

Ye Xuan rolled his eyes and muttered: "The blood is pure... you are just a pig!"

"Hey... Why do you look down on the pig?"

In the meantime, the old pig essence is like a cat that has been stepped on the tail. It jumps up directly, staring at Ye Xuan with a pair of pig eyes, licking in the long nose, and yelling in the mouth: "Old pig I I want to fight you..."

"Okay, let's talk about the situation of the two \*\*\*\* white tigers and the \*\*\*\* basaltes!"

Xuanyuan grinned and glanced at him with a look of disdain: "If you really want to fight, the star will punch down and make sure you become a starry pig!"

I am old

This is a serious reality. It seems that the blood of the people has realized the ninth change. Once it is displayed, it will have the terrorist power of the Lord of the universe. thing

In fact, even if you don't show your blood, you are now a two-star lord, but he only has one star in the world, and how to fight it is a loss! miss you

At this point, the old pig sperm was smashed in an instant, and Yu Xuan glanced at Ye Xuan, and then turned the words to the topic: "Yes, the sub-

blood white tiger and the sub-blood Xuanwu are indeed the white tiger forbidden and the Xuanwu forbidden land. The strongest person in the town."

The sub-blood white tiger is the seventh order of the Sayādaw. In addition to him, the White Tiger has a third-ordered tail-tailed leopard in the forbidden place. "

"As for the sub-blood basaltic, its cultivation is the same as the one that was just smashed. It is the eighth order for this, and apart from him, another cosmic sage in the Xuanwu ban is one. Two-star star zerg..."

After clarifying the situation, Ye Xuan nodded immediately: "Go to the white tiger first to ban the land..."

"Hey..."

The old pig poked his hair out of a long squat, and then hesitated, and his body shape shook, and then he rushed to the left side of the void. Ye Xuan did not say much, followed him, followed closely...

.....

After leaving the Qing dynasty forbidden, Ye Xuan and the old pig fine graze in the distance from the edge of the strong forbidden land on the side of the Milky Way, and under the speed of speed, only about ten days, the former convenience has arrived at the white tiger. The edge of the forbidden land. "

call out! "

"call out!"

Two sharp sounds broke, Ye Xuan and the old pig fine did not hesitate, even the repair of the breath has not been concealed, directly into two awns, rushed out of the white tiger forbidden. "

I am violent, porcupine... I don't know how to come suddenly, what is my intention? "a few

In the next moment, a low squeaking sound rang, and then, in the giant star on the left side of the front, there was a voice of God. One

The huge white tiger with a large head shape rushes out from the atmosphere of the stars, and the markings between the pure white fluff of the body, in addition to black, and blood color, this is indeed a \*\*\*\* white eye, the body exudes a breath of breath, also Seventh order in the universe.

At the same time, in the slightly smaller vicious beast star on the right side, the tail-eyed leopard, which is full of variegated flowers, also rushed out, and the squatting of the singer was also good, and the strength was also good. The order is equivalent to Ye Xuan, who is currently ten feet tall. "

The white tiger gave it to me, and the tailed leopard gave it to you..."

Ye Xuan did not respond to the inquiries of the \*\*\*\* white tiger, directly turned to the head, understated and distributed the opponent with the old pigs next to him, the cloud of light and light tone and tone, as if to say a piece A trivial little thing is average. "

Roar! ""

I'm mad, you are looking for death..." No

However, although the voice of the discourse is not large, it is clearly introduced into the ears of the blood-white tiger and the tail-tailed leopard. The latter is nothing more than just a roaring roar of the hair, but the seventh-order world. The \*\*\*\* white tiger, but suddenly angered. God

At the same time as the sound of the sound is clear, it is directly lifting the right forelimb and taking a picture of Ye Xuan's palm..."

The magic pig has changed nine times... the third change! "to

The temperament of the old pig, in the face of this extremely unkind words, naturally it is impossible to give a good face. he

Almost without any hesitation, I immediately screamed and entered the third change of the Magic Pig.

In the blink of an eye, the old pig essence was only a ten-foot high, and the body shape instantly swelled, and half of the breath, it has reached about 10,000.

The size of the body is quite inconspicuous compared with the size of the white blood tiger and the tail-tailed leopard.

But when this scene appeared, the \*\*\*\* white tiger just lifted up, and the right front paw that was about to be shot suddenly stopped in the void.

Because the body of the old pigs has skyrocketed, the body has been repaired, and so has soared three small steps. From the previous second-order lord, the fifth stage of the current universe is reached. ! before

For a moment, he was still in the first place. Now, with a blink of an eye, it has reached the middle of this situation. This scene is like a dream. The blood-white tiger and the tail-tailed leopard are in doubt, and they are stupid on the spot... ...

Chapter 4464: Bombing white tiger

"Roar!"

Under the third change of the konjac, the repair of the old pig essence has suddenly skyrocketed and reached the fifth level of the sacred person. This suddenly made him excited, just like a shot of chicken blood. Yang

The first roar, his body swayed, and immediately rushed to the right tailed demon leopard in the sky.

"What? You... actually came for killing?"

In one scene, he said that he would fight, and that there was no such thing as nonsense. It was obvious that the \*\*\*\* white tiger was shocked. At this time, he still relied on the cultivation of the seventh-order sage.

After a short period of time, I was once again furious: "Even if you use the unknown powerful blood secrets, you will only be able to come to the White Tigers and slay the wilderness... Who will give you the courage?"

When his words fell, the answer came in an instant..."

Roar! ""

The konjac changed nine times... the eighth change! "

"Hey!" This

At the moment, Ye Xuan's roar came out of the starry sky, and as his words began to sound, a huge explosion came. only

Only a short break, the starry sky is full of skyrocketing, the speed is so irritating, the power in the body is rolling like the river is roaring, and the limbs are stirring up inexhaustible and fierce.

Invisible, a horrible atmosphere of unimaginable horror swept out of the violent body, and the void was trembled. This supreme pressure made people feel trembled.

Only a half-feet, the temperament was originally only about ten feet high, and it swelled at a speed that is horrible, and reached a billion-foot-thousands, that is, six million miles. .

More than a giant star!

Moreover, while the body is skyrocketing, the temperament of the violent body is also rising at the same time. It is the third order of the former sage, reaching the second order of the present universe.

Or he will change the blood of the konjac in his body, only to promote the eighth change, otherwise, now, violent, will have the third-order terrorist power of the universe.

Its size will also rise ten times again on the existing basis, reaching 60 million miles...

The reason for this is that it only rushes to the eighth change, not the ultimate ninth change. The purpose of Ye Xuan is Tibetan mastiff. After all, he has repeatedly killed the cosmic sage in this year, if there is no accident, The message should leak out soon.

At that time, it will certainly be concerned by many powerful ones, and may

even be counted.

In this case, retaining a little strength and concealing it, in Ye Xuan, there are only benefits, no harm! "

The Lord of the Universe? This is impossible....."

Suddenly, this scene scared the \*\*\*\* white tiger on the spot and the legs were soft. The complexion changed, and the sound of the roar that he was about to export was blinking to exclaim. and

On the other side of the right side of the sky is empty, originally because there is a fifth-order land of porcupine rushing to himself, just bursting with the tail of the demon leopard, now even more scared mourning, a huge ringing tail behind The folder is actually abandoning the war and turning around and running. "

Oh..."

In the face of this scene, the old pig is more sturdy, screaming and screaming, while pursuing the speed of the body, while roaring arrogantly: "Little cat, your male mother? See the old pig scared Isn't that too shameful?"

"Stop right away, I promise that the old pig will blow you up with a punch..."

At the same time, the left side of the void, the seventh-order situation of the sub-blood white tiger mouth in the mouth just fell, no half-lag lag, the reaction is even more profitable than the ring-shaped demon leopard at the right side of the void. blink

The power between the eyes is motivated, and the body shape is instantly easy to disappear.

When it appeared again after the half interest, it was already a distant void of 200 million miles away. for

In order to escape, the sub-blood white tiger used the teleport, and there was a teleport of 200 million miles away. It must be said that his ability to escape surpassed that of the miscellaneous, which is enough for his law of Hongmeng. The understanding has reached a very deep level.

This point, even Ye Xuan is quite surprised! Want

I know that with the strength of the second-order cultivation of the Lord of the Universe, and the full-scale teleportation, the farthest can only reach 400 million miles away. and

The first order of the general universe is only about 200 million miles. This

In the later period, the head of the white tiger was repaired as strength, and the distance of teleportation was comparable to the first order of the

universe. It was really a big surprise.

"I can't think of your understanding of the law of Hong Kong's void, but it has reached this level... If you go further, it will be a bit difficult to leave you today."

The mid-cold mantra flashed, and the violent figure of the starry sky disappeared.

When it appears, it's faster, only about a quarter of the time. and

The position that appears is just on the side of the body of this white blood tiger, but it is only a million miles away. this

At the time, the blood-white tiger was preparing to stimulate the second teleport, and the violent figure appeared in the cold, and it was approaching such a distance. The scared figure shook and almost fell on the spot. "

If it is only this level of escape means, advise you not to offer ugly, after all... can not escape a death! ""

boom! "With

The voice of the gods of ignorance came out, and the next moment, the starry sky violently swayed on the shoulders, and the blink of an eye burst into a punch! Virtual

In the air, a huge roaring sound came, and the white blood tiger, not far away, mourned, and its huge body exploded. Although he had the later cultivation of the Sayādaw, facing the Lord of the universe, it was still like Ants are generally. this

There was no chance of any reaction, and it was already blown.

In the next moment, the huge body of the \*\*\*\* white tiger and the huge tiger was completely blown up for a \*\*\*\* fog, and it spread. "

call out! "One

The fists and enemies, the starry sky violently waved in the first time, and the sharp sound of the air broke through. One

The incomparable invisible enthusiasm of the stocks, rolled out from the violent body, enveloped thousands of miles, the red blood fog that just spread and swept, all sent to the body to carry out blood purification! "

Oh..."

You can't escape, the pig grandfather can not spend so much time with you, and immediately die! "another

On the one side of the right side of the void, the old pig studied the appearance of Ye Xuan, and also launched a teleportation. Under the flash of

his body shape, there was a direct appearance of the tailed leopard in the U-turn. tight

Then, after screaming with excitement, the old pig did not hesitate, and immediately raised a hoof, stepping on the face of the stunned tailed demon leopard.

The huge body of the latter is a huge body, and the head is used as a starting point in an instant, and it is completely blasted in the semi-interest. "

Sucking..."

The sample is also a hit to solve the opponent, the old pig is proud of the smug, and glanced at Ye Xuan, under the head, the \*\*\*\* mouth widely uttered a horrible sucking force.

The \*\*\*\* fog that spreads in the void, all of which are gathered toward him in the blink of an eye, and eventually condensed into a \*\*\*\* beast that is only the size of a human head, squinting toward Ye Xuan here... Shoot it!  
Chapter 4465: Xuanwu forbidden land

"call out!"

As the tail-tailed leopard was smashed, the flesh and blood of the fleshy body exploded, and the old pig was condensed into a human-sized blood bead. The voice, blazed toward Ye Xuan. One

During the wave, this blood bead was taken up by Ye Xuan and sent to Shennong Ding in the body. Together with the blood and blood that was obtained from the \*\*\*\* white tiger, the blood essence was condensed together. This

The battle was so easy, but it was harvested with two precious bloodstains. to

Therefore, Ye Xuan's blood in the hands of the Sacred Man has reached eight. If he is now refining the twenty-sixth-level Baodan, according to his derivation, the power of Shennong's nine-color flame can be at least five! very

As for the chance of even releasing six twenty-six-level Baodan, it is more than 50%! but

It's just that, obviously it's not enough to make Ye Xuan satisfied. The twenty-sixth-level Baodan can make the Sacred ninth-order great perfection and successfully break through the realm of the universe in a short time. This

It is already the second realm of the last five realms, and it is extremely important. Do not

However, the most important raw material needed to refine this twenty-six-level Baodan is the blood of the beast that is formed by the blood of the

universe after the explosion of the universe.

This is the existence of the last five realms, the number is too horrible, even if it is in this glory, I am afraid there is not much more. leaf

Xuan and Lao Pig Jing are now holding all the Xingqiang forbidden places without any vigilance and awareness, so they collected eight easily in such a short period of time. but

Once the wind of the matter has leaked, it is hard to think like this.

Those cosmic sages will either unite or seek refuge from the cosmic master or even the cosmic lord. After all, it is not easy for anyone to go to this step. No one is simple, and there are various means and connections!

Therefore, for Ye Xuan, if you can still start now, you must make a big fortune, collect more blood of the Sacred, and then start to condense. more

What's more, he said before to the old pig, refining two twenty-six grades of Dan, need ten beasts of blood. and

In terms of time, it is almost at this point, and then collect two more. The news of this matter... It should be spread.

"The last two, our speed is going to speed up, I have a hunch, the news of this matter will soon leak out..."

These thoughts flashed through my mind, and Ye Xuan broke free from the state of the eighth change of the konjac, and his body shape was re-emerged to ten feet.

While turning to the head of the old pig who was rushing to the front, he looked at the past and then said: "I will immediately scrape the \*\*\*\* white tiger and the nesting star of the ringing demon leopard, and then immediately leave, go to full speed... Xuanwu Forbidden land!"

The old pig nodded, did not say much, and his body shape shook his head and rushed to the nest star of the ringing demon.

Ye Xuan is also the same, rushing to the left side of the oldest \*\*\*\* white tiger appeared the largest giant star, after entering the atmosphere, the powerful gods directly spread and open, after some search, wave, then All the cultivation resources that can enter his eyes are all involved in the immortal world...

After doing all this, Ye Xuan and the old pig fine did not stagnate, even when he left the white tiger forbidden, the target was directly indexed to the basal ban!

.....

The strongest person in the Xuanwu forbidden place is a sub-blood basalt, and its cultivation is the same as the one that was recently killed by Ye Xuan.

and

In addition to him, another cosmic sage in the Xuanwu ban is a second-order star zerg...

Undoubtedly, this time the hunting plan, Ye Xuan and the old pig fine are still responsible for one opponent and shot at the same time.

With the cultivation of the old pig essence as the strength, the original is also not able to beat the sub-blood basaltic, so he can only deal with the second-order star worm of the sage, and the eight-order sub-blood basaltic is responsible for Ye Xuan.

Although the two did not discuss this matter, but they tacitly agreed to each other, they have already allocated their opponents invisibly! This

Once, the two started under the speed, but they still used it for 16 days before finally reaching the edge of the Xuanwu forbidden land.

This is the last shot, so no matter whether it is Ye Xuan or the old pig essence, there is no scruples. The only thought in my heart is to kill the two prey in this primary Xeon forbidden land in the shortest time. .

Then I immediately turned around and will not be shot in a short time. "

Oh..."

"The magic pig is nine times... the third change!"

Entering the edge of the Xuanwu forbidden land, the old pig essence has almost no hesitation. When even roaring directly, it enters the third change of the magic pig.

In the blink of an eye, the old pig essence was only a ten-foot high, and the body shape instantly swelled, and half of the breath, it has reached about 10,000. repair

In order to gain strength, the third-order, the unique pressure of the fifth-order sage, spread quickly from his body.

On the other hand, Ye Xuan is also the same. Without waiting to see the target, he has entered the fighting state..."

Roar! "

"The konjac changes... the eighth change!"

boom! "

The horrible roar came out from the mouth of the starry sky. As the voices began to sound, a huge explosion came, and only a short break, the body shape has already skyrocketed, and the power in the body is rolling like the river is roaring. There are endless fierce meanings in the limbs.

Originally only about ten feet high, under the rapid expansion, the blink of an eye reached six million miles.

The temperament that has been dispersed in the body has also risen at the same time. It has reached the second order of the present universe by the third order of the previous sage! One

The fifth-order starry porcupine of the cosmic sage, the second-order starry sky of the Lord of the universe! Two

Such a strong presence at the same time rushed into the Xuanwu forbidden land, and immediately this piece of the vast and innocent primary Xingqiang forbidden land fell into silence.

Within the stars of a fierce beast, countless forbidden beasts are all stunned, and they simply don't dare to take their heads. The figure is crouching on the ground inside the stars, shaking and shaking.

"戾..."

There is a deepest area on the left side of the forbidden land, and a sharp and screaming sound of whistling sounds reveals a powerful atmosphere of the mighty late Zun.

Then, in the direction of a giant star, the atmosphere suddenly violently rushed up, a semi-circular land, full of tens of thousands of squares, I do not know what kind of horrible power, from within the stars Throw it out...

An awe-inspiring momentum, with a speed comparable to a meteor, spurred away from the deeper back of the Xuanwu forbidden land. This

A scene fell into the eyes of Ye Xuan and the old pig, and they immediately let the two men glimpse.

Immediately afterwards, Ye Xuan's glimpse of the fine man's eyes flashed a fierce voice: "This is not the mainland, this is a... super huge Wang Ba shell!"

Damn, this old \*\*\*\* actually indented into the tortoise shell and changed it into a piece of land. He wanted to cross the sea in this way, and the owner of the star had not reacted yet, so he fled..."

Chapter 4466: Black stick

This giant, looks like a land-like thing thrown out of the stars by people's wrath, is indeed the king of the \*\*\*\* basaltic shell.

This time, Ye Xuan and the old pig Jing just rushed into the Xuanwu forbidden land, and the Lord has not yet appeared, it directly spurred the blood and magic of the body, showing the strength of terror cultivation. Wei

As soon as the pressure of the gas spread spread, the \*\*\*\* basalt and the

other starry zerg were alarmed.

The second-order star-studded worms of the Supreme Court dare to show up, but this sub-blood basaltic, there is a plan to escape in an instant. he

Taking advantage of his own eight-shell shell is hard enough, he decided to take a dangerous fight, and retracted the four feet and the head and tail into the eight-shell shell, and then urged the \*\*\*\* secret method to disguise this huge incomparable king-eight-shell shell. The land of the square is even on the land, and even the Lord of the universe explores with the gods and finds no problem...

This point, the sub-blood basaltic has great confidence, because this is his kind of blood and magic, it can be regarded as a means of life-saving.

It is a pity that after Ye Xuan began to explore the gods, although he did not see the clues, he had a slight calculation in his mind, but he still guessed the tricks. "

The eight-level sages of the sects have done such a thing that is speechless, and it's true that you're shrinking the turtle's duty..."

"boom!"

In the next moment, the sound of the sorrowful voice of the six-foot-tall starry sky screamed, and then the shoulders shook slightly, and the blink of an eye had teleported away, blocking the huge king-eight-shell path. In front, if you don't say anything, you can directly punch a punch!

"boom!"

The earth-shattering roar sounded, and the violent punch of the starry sky blew directly on the huge octopus that was spurting, causing it to abruptly stop in the void.

However, what makes Ye Xuan unexpected is that this huge Wang Ba shell, which pretends to be a piece of land on the land, has suddenly stopped in the void under the force of his fist, but unexpectedly bursts open. However, it did not appear.

The king of the \*\*\*\* basalt, the eight-shelled shell, actually resisted the horrible power of the violent force!

In fact, it can be understood that the current starry sky storm has the second-order power of the Lord of the universe, coupled with the horrible blood power of the huge body of Panda's six million miles, the real combat power can The third-order existence of the Lord of the universe is more than shoulder. Of course

However, this sub-blood basaltic is not weak, and the family is the eighth-order sage. With a small-scale breakthrough, it can reach the ninth-order grand perfection of the universe, which is the so-called half-step universe. more

What's more, among the stars and the stars, the defense of the Xuanwu family is originally the best, and it can compete with the virtual giant tortoise, and the sub-blood basalt at the moment is giving up the attack and fully urging all the forces. Defense, directly made a tortoise turtle, hiding in the shell and not showing up...

In this case, even if the combat power is comparable to the starry sky of the third-order universe, it is purely reasonable to fail to explode his king's shell.

"Impatient, you are really strong, but if you have not misunderstood, when you just rushed into the Xuanwu forbidden land, it seems that there was a terrifying roar..."

At this time, after seeing the starry sky and violently punching, I really couldn't blast my own squashed king's shell, and the sub-blood basalt hiding in the big shell has been hanging in the heart of the blind man's eyes, and finally let go. . its

The voice of the gods is also quickly spread from the Eight Kings of the King: "You are now the second-order revision of the Lord of the Universe, but it is the result of a certain secret method..."

Since it is a secret law of blood, it must not last forever. At that time, once your strength falls, it is the time when the deity will shoot and kill you..."

In the end, in the sound of the sub-blood basaltic gods, not only has there been no fear of half, but even some self-satisfaction, revealing fierce meaning.

Actually, they all threatened Shangxuan. This clearly warned him to let him know something interesting. Now that he has repaired his strength, he has not yet fallen back. He has to leave, so as not to drag on again, and finally throw away the rhythm of life.

So confident, but let Ye Xuan be stunned.

Later, his voice of the gods immediately spread: "You are a dead king, but it is quite a time to judge the situation. Just now, I saw the situation is not good. I directly indented the king's eight shells and escaped. Now I have a look at it and I will change it immediately. a pair of faces..."

As I said, the starry sky violently turned right hand, directly from the immortal world, the \*\*\*\* pesticides were taken out... Of course, it is not the form of the drug, but the shape of the \*\*\*\* stick.

The right hand holds a \*\*\*\* stick, and Ye Xuan's voice of the gods becomes cold and cold: "Unfortunately, what you think is this kind of leaning... looks a bit unreliable!"

"boom!"

The voice just fell, the \*\*\*\* stick has been violently starred by the starry sky, exhausted the whole body's greatest strength, and slammed to the king of the eight-shelled clam hanging in front of the sky...

The momentum of this blow was too majestic, and the void trembled because of the swaying of the \*\*\*\* stick. and

Although the sub-blood Xuanwu hidden in the eight-shelled king of the king could not see the outside scene, his gods have been exploring all the time. At this moment, he saw this scene, and the king's eight-shelled shell was immediately chilled. ll. surface

To the \*\*\*\* stick, the blood of Xuanwu just put down the heart, and immediately mentioned the eyes of the blind, exclaimed: "What kind of treasure is this? Actually so powerful? Hey! Look at this breath... clearly is the ancient treasure!" ""

boom! "

"Card..." He

The sound of the words has not yet fallen, and the \*\*\*\* stick has already slammed into the eight kings of the king. A loud bang is accompanied by a clear sound, just like the sound of broken bones.

Looking down, this great, directly to the central position of the king of the eight shells, pulled out a huge hole, revealing the inside of the upward looking up, revealing a black light head with endless panic. "

Oh..."

The king's shell was bombarded with a big hole, and the \*\*\*\* basalt suddenly screamed. He knew that it would be boring to hide it again, and he might die even faster. miss you

Here, the \*\*\*\* basaltic martial arts slammed a bit, and the shiny light head directly stretched out from the pores, pleading for mercy: "The tyrannical grandfather, Rao..."

"boom!"

In the void, a huge roaring sound came, and as the king's shell was smashed, he just showed his head and asked for a sigh of sorrow. His huge body exploded and was directly smashed by Ye Xuan. It was a \*\*\*\* fog.

Including the king of the eight shells, the same completely, directly bursting out... After all, this big shell is also part of the sub-blood basaltic body.

Ye Xuan also did not want to miss it because of this \*\*\*\* sorrow! "

call out! "One

The fists and enemies, the starry sky violently waved in the first time, and the sharp sound of the air broke through.

An incomparable invisible temperament, rolled out from the violent body, enveloped a radius of ten million miles, and all the red blood fog that had just spread and swept through, and sent it into the body to carry out blood purification... ..

Chapter 4467: The wind is leaking

Here, Ye Xuan took out the \*\*\*\* stick, and a stick smashed the eight-shelled shell of the \*\*\*\* basaltic king.

Then immediately, he immediately pulled out the second stick, and with the black blood of the basalt of the blood, the black head of the shiny light stucked out, and when he wanted to beg for mercy, he went down and blew it into a \*\*\*\* fog. Directly ended the battle...

All of this is long-lived, but in fact it is only happening within a short period of time.

On the other side of the sky, the old pig essence is rushing to another giant star in the distance ahead. It should be another cosmic lord in this basal ban, which is the second-order realm of this place. The nest of the Starry Zerg is located.

However, due to the violent slamming of the starry sky here, it was not able to explode the basalt of the basal blood of the sub-blood in the first time, which was expected from the old pig.

Therefore, the figure of the old guy who had been spurred by the spurt was suddenly stopped in the middle of the road. He opened the gap and turned to see Ye Xuan.

In the following several breathing hours, the starry sky violently shot twice, pinching the \*\*\*\* stick with fierce name, and directly exploding the \*\*\*\* basalt into blood.

Seeing this, the old pig was relieved, licked his mouth, and whispered something in a low voice. After turning back, he rushed to the giant star in front.

However, it is also at this moment that the change has occurred...

"Hey!"

A very low, but the frequency is so fast that the horrible noises of the horrible sounds, and then, in the giant stars suspected of the starry worm's nest in front, there is a fierce white awn.

The light is too strong, whether it is the old pig essence, or the violent starry sky farther away, they closed their eyes subconsciously...

At the same time, the hearts of the two people are even more grateful, and at the same time give birth to a very bad feeling.

The time is too fast, the two are just because of this sudden appearance of violent white awnings, and under the circumstance, the conditioned reflexes generally close their eyes...

However, when they opened their eyes again, the fierce white awns that bloomed in the giant star in the distance, had already completely dissipated.

Even the majestic atmosphere that originally enveloped the entire giant star disappeared at this moment, as if it had never existed before.

At this moment, the old pig's fine face changed greatly. Ye Xuan was suddenly a sinking heart. Without hesitation, the second-order horror of the Lord of the Universe, the first time to the distant star, swept away.

One tenth of the time is not enough, the whole huge star has been searched again, but there is no such second-order Zerg.

On the contrary, it is a void, and there is a very strange energy left. It is clearly the biological wave power unique to a certain starry zerg...

"Damn, won't let him escape? The Zerg is the most difficult to deal with. The unique biological wave frequency function is varied. I didn't expect to hit such a head today... The ability to escape is too bullish!"

In the void, Ye Xuan's voice is heard, showing unwillingness and annoyance.

At the same time, his gods also left the giant star in front, urging to the extreme, extending in all directions, in all directions...

This is also a no-brainer, because until now, Ye Xuan did not even know which direction the other side fled, there is no trace of any traces, this second-order sacred star zerg, unique life wave frequency Ability, too surprised!

"I am a violent brother, this thing depends on me..."

At this time, the old pig essence has been spurred from afar, and the huge figure of the giant has returned to ten feet, and the face is full of anger, and it looks embarrassed and annoyed.

This time, he lost his hand and let his original appearance disappear. He snorted and blamed himself: "I just opened a small gap. Otherwise, if I rushed to the Zerg's nest star early, I will be able to stop him..."

"After all, looking at the way he just fled, the momentum is so amazing, it must take time to start, just a short amount of interest for a cosmic person... can do a lot of things!"

"Forget it, but we have to be vigilant. With the escape of this second-order Zerg, the news of this matter will soon leak out..."

Since everyone has already escaped, it is no good to say more. Ye Xuan has waved his hand and talked, and has directly escaped from the state of the eighth change of the konjac, and his figure has re-emerged to ten feet.

Then he said: "I will immediately scrape the sub-Xuwu's lair star, and then leave, hurry and find a place... and then a sacred beast!"

The old pig was full of depression and nodded.

Ye Xuan did not delay, and directly rushed to the leftmost front of the \*\*\*\* Xuanwu appeared in the largest giant star, after entering the atmosphere, the powerful knowledge directly spread and opened, after some search, wave, then All the cultivation resources that can enter his eyes are all involved in the immortal world...

After doing all this, Ye Xuan rushed out of the atmosphere of this star, and did not make a half-point stop. Even when it was with the old pig, it started the speed and left the Xuanwu forbidden place...

.....

From the edge of the Milky Way, hundreds of billions of miles away from Xuanwu, there is a middle-level forbidden land called Jinghong Forbidden Land.

Although this banned banned land is a forbidden land, not a remnant of the ancients, but in fact, the so-called beasts in the forbidden land of Jinghong are almost all Zerg, more than 5,000 surviving stars, more than 80%. They are all zerg worm nests.

The strongest person who sits in the forbidden land of Jinghong is the owner of a Zerg universe. The whole body is like a colorful crystal, like a rainbow, so as to be called a crystal rainbow.

The cultivation of this crystal rainbow magic insect is the third order of the Lord of the universe.

In addition to him, Jinghong banned the ground, there is also a first-order universe of the first entry into the world, also a star-sky zerg, but it is abundance of rainbow monsters, but the whole body of blood, this race is called Blood devil.

The two masters of the universe are the strongest in the banned area of Jinghong.

Under them, Jinghong has six cosmic sages in the forbidden land, and all of them are also star zergs.

It can be said that the entire Jinghong forbidden land is a huge worm nest, so that other fierce beasts in the starry sky are basically afraid to enter this forbidden land. Only some are associated with the zerg or parasitic. The special beasts of the relationship can only be in the territory of the Zerg, such as the fish.

At this time, a giant beast star in the hinterland of Jinghong forbidden land suddenly burst into a strong white light, attracting countless forbidden zergs in the void around the star.

Then, the sound of the gods with the anger of the heavens and the horror of the horror, from the zerg star, resounded: "My main crystal rainbow... Xuanwu banned the land, a starry sky, The Lord of the universe, which has been cultivated as a first-order realm, suddenly descends and kills the \*\*\*\* basalt!"

Chapter 4468: Comprehensive search

"call out!"

"call out!"

Two sounds broke through the air, from the inside of this giant beastly star, the two zerg rushed out, all of them are the universe sages, one for the nine-order great consummation, one for the second order.

The person who is apt to speak out is the Sage Zerg in the second-order world. He is also the one who has just escaped from the Xuanwu ban.

The reason for the second-order Zerg Zun, the reason why the Zerg is not occupied by the Zerg, but has been sitting in the Xuanwu forbidden land, there is actually a reason.

At this moment, the nine-order sage who rushed out from this giant beastly star with him was his biological father. In the same year, the second-order sage was the blood he left outside the banned area of Jinghong. With the head of the blood of Xuanwu has a deep friendship, so that there has been no return.

In other words, he now flees back to Jinghong with the secret of the Zerg blood in his body, in fact, he will wait until he returns to his family.

It's no wonder that as soon as I fled back, I immediately heard the voice of the gods, and grasped the control of the banned land of the singer, and the crystal rainbow worm complained of the third-order revision of the Lord of the Universe...

"Hey..."

With the appearance of the Zerg father and son, Jinghong banned the other directions, and five other giant stars, they also rushed out five huge figures, which is the other honors of Jinghong forbidden.

In the past, there were only six statues. If I counted this time and fled back to my mother's family, most of the second-order Zerg Zun, who would never leave, now has a seven-pronged ban, the universe.

At this time, with the seven universes of the Supreme all appearing, Jinghong banned the deepest left and right sides of the hinterland, and the two most

fierce beasts and stars also rushed out.

There are huge body types of billions, although the shape is different, but they are all like the Zerg. The whole body of the left side is like a colorful crystal. It is very incomparable. It is the crystal rainbow.

The other side of the right side is full of blood, it looks very incomparable, for this first-order blood-sucking worm!

"Is the Xuanwu forbidden land also robbed?"

At this time, with the appearance of the crystal rainbow worm, a low voice of the gods, accompanied by some strange squeaking sound, the voice is very gentle, but shrouded the entire vast and innocent Jinghong forbidden land, Clearly and incomparably introduced into the ears of all the beasts and zerds in this area...

"Not long ago, a starry sky and a starry porcupine attacked the white tiger forbidden land... the \*\*\*\* white tiger and the tail-tailed leopard all fell!"

"And, in addition to the white tiger ban, there have been several forbidden areas that have been attacked before..."

"According to incomplete statistics, in the most forbidden land on the coast of the Milky Way in the past year, the fallen universe has at least six or seven!"

"The origin of the starry porcupine is already clear. More than a year ago, it was only the emperor's immortality. It should have met a certain chance, and this was a smooth breakthrough and became the cosmic person."

"But the origin of the starry sky, but there is no clue to check, suspected... a force from the other side of the opposite side of the Milky Way!"

"As for their purpose, it is still unknown at the moment. However, the first-order force of the Lord of the universe, which can barely be achieved by relying on the violent temperament of the blood, can not pose any threat to the ban of the Jinghong. "

Speaking of this, the words of Jinghong's worms suddenly came to a sudden, and when it came out again, it was even more chilly: "Just, the violent \*\*\*\* secret method is quite extraordinary, and it can make him honorable." The cultivation of the real power, directly ascended to the Lord of the universe, this secret method is simply unheard of..."

"Go, you seven, all out, go in this direction, I am using the genre secret method, the violent and starry porcupine, right now in the angle between the two directions..."

During the speech, he lifted a limb and pointed it two times toward the front of the right side. The angle between the two directions was about thirty degrees.

"After finding them, don't shake them, immediately look back at the Zerg secret method and report the specific coordinates. At that time, I will come and kiss them!"

After that, the crystal rainbow worms don't say much, and the huge figure of the giants of Yizhang blooms with a brilliant colorful light. When the light scatters, it has completely disappeared. It should be the deepest nest star in the forbidden place. It is.

At the same time, the body of the blood-sucking worm also bloomed a \*\*\*\* stalk and disappeared in the same way.

In the next moment, a faint burst of sound broke out, and the seven-headed Zerg in the forbidden land of Jinghong was all sent out, turning into a faint awning, a 30-degree angle indicated by the crystal rainbow worm. , rushing away.

However, although the seven zerg sects are moving at the same time, the direction of going to it is obviously different. Don't look at the area indicated by the jinghong worm, it is only a fan shape with a 30-degree angle, but the more the outer edge of this scallop extends. Far, the scope is wider, even if the seven-headed Zerg is dispersed, each is responsible for a smaller angle to search, the number is too small!

As for who can just hit the starry sky and the starry porcupine in this fan-shaped area, it is not known.

Even, this is a kind of luck, or bad luck, right now, it's hard to say...

.....

After leaving the Xuanwu forbidden land, Ye Xuan and the old pigs galloped all the way, rushing to the right side of a primary Xeon forbidden land.

At the moment, he has nine bloodstains in his hands, only one of the original ten goals.

And with the escape of the second-order Zerg Zun in the Xuanwu forbidden land, the news that he and the old pigs were hunting the cosmic sages around should be spread soon.

Anyway, it is determined to be exposed, so Ye Xuan does not matter. He and the old pig have been negotiating, going to a junior strong forbidden land in front of him, and after killing a cosmic sage. Then I immediately pulled away...

From the Xuanwu forbidden land to the nearest primary to strong forbidden land, the two under the speed of the road, the fastest time also takes six to seven days.

This time should be just the node where the news spreads. Although it is a little risky, it should be enough.

However, only two days after leaving the Xuanwu forbidden land, Ye Xuan and the old pig fine found it wrong.

The number of starry beasts in the void is suddenly increasing.

You should know that when he and the old pigs rushed to a place where the primary squad was forbidden, they were on the edge of many forcible forbidden areas on the bank of the Milky Way. In normal times, the stars in this area The number of beasts is very small.

This happens suddenly at the moment, and it is obviously abnormal.

If there is no accident, it should be related to the escaped Zerg second-order sage.

"Only two days ago, did the news spread and spread? If this is the case, these starry beasts will walk out of the strong forbidden land and walk on this edge... What is the purpose?"

In the whispering whisper, Ye Xuan

Chapter 4469: Fourth order

Beyond the tens of thousands of miles in front of the void, four or five starry beasts are swimming in the sky, the strongest one is actually the second stage of the emperor's immortality, and the remaining four starry beasts are also immortal. The later repairs are. This

The five powerful starry beasts don't know where they are from, but they are swaying aimlessly in the void, obviously searching for something. "

boom! "

Cold, a shocking explosion came, just a few million miles from the right side of the five starry beasts, a starry temperament that was only ten feet tall and suddenly appeared. They blew past.

The temperament of the temperament is the breath of the air, clearly reaching the third level of the horror of the sacred, far from the five starry beasts can resist! "

Oh..."

Even the five screams came out without any suspense, and all the five starry beasts were bombarded, turning into a canopy of blood. "

call out! "One

The fists are retracted, and the violent screams are waved in an instant. The sharp and empty sounds are resounding. A huge invisible invincible spirit shrouds the tens of thousands of miles, and the \*\*\*\* red blood that just spreads out is swept away. Into the body, the blood essence is condensed.

This fist blasted out, one of the five starry beasts, and he left a remnant.

At this moment, this remnant soul was also taken away by violent temper, and the soul was directly launched. Finish

After the formation, between the violent temptations, the murderous beast and the soul, completely turned into a smoky smoke, and then dissipated. and

At this point, the violent face is already so dark.

I was violent, it was Ye Xuan. At this moment, as he punched the five starry beasts and launched a search, he got the information he wanted, and the void that was not far away was also embarrassed. The old pig from Zhang Gaojing came over. Out

Inquiring: "How about the violent brother? What is the situation?"

"We are being targeted by a mid-level starry sky..."

Nodded, Ye Xuan said: "And, this Jinghong forbidden land is still a large base of the Zerg, there are two heads of the universe, six cosmic sages... Oh wrong, the second order that escaped from the Xuanwu forbidden place The Sayādaw also joined, and now, the number of their cosmic people is seven!"

These seven cosmic sages are now all sent out and searched in this area. It seems that the two zerg lords of the universe have some kind of secret method that has derived our general position. "

"This is very likely, the Zerg is the most troublesome existence, not only disgusting, the key all kinds of weird means are also invincible, they have this kind of deductive secret, it is normal!"

Listening to the situation is like this, the look of the old pig's face is also dignified. After a little indulging, he will pick up: "What do we do now? There are seven cosmic sages here, although we are not afraid, but only one Shooting, it will immediately attract attention..."

"At that time, as long as the seven cosmic sages have discovered one of them, they will be summoned in the first time. The means of communication of the Zerg are very mysterious. The cosmic master of Jinghong forbidden to send seven heads to search, obviously It is safe to arrive at the first time after receiving the communication..."

"There should be no suspense in this. Isn't that the second-order Zerg Zun, who was in the Xuanwu ban, not so fleeing?"

Speaking of this, the old pig seems to suddenly think of something. When the front turns, he asks: "Right, what is the master of the two universes in this intermediate-level forbidden land?"

Even if they want to kill us, they can't have the two cosmic masters all out, they must have a left-handed ban, so..."

"You old guy, this time it is going to go with the owner of the star..."

Turning to look at the old pig, a look at Ye Xuan's mouth, slowly sneak out a sneer: "The two heads of the universe in Jinghong forbidden land, one for the first order, one for the third order, if there is no accident If you arrive at the first time after receiving the news, it will definitely be the third-order crystal rainbow magic insect!"

Speaking of this, he licked his lips and lips, and the tone suddenly changed. Something is interesting: "The third order of the Lord of the Universe? If the Lord of the Stars turned the blood of the konjac into the ninth change, there is also the same. The third-order repair is."

And if it is combined with the horrible power of the huge body of 60 million miles, then the true power of the star master will be comparable to the fourth order of the universe... but it's just like this, it looks a bit Not very safe. "

"Since you decide to take the shot, you must ensure that you have nothing to lose. You must not let him have a semi-separator. In this case, the owner of the star must break through a small step. At that time, under the ninth change, the strength is the fourth step of the universe. The real combat power has reached the fifth order of this situation, killing his small third order, and it is ten stable."

"What are you waiting for? Isn't that a breakthrough in a small order? For your perversion, it's not a common occurrence."

After listening to Ye Xuan's analysis, the old pig was excited and immediately excited. He urged Ye Xuan to hurry to find a secluded place and immediately broke through.

This time, the hunter is the owner of the universe, and he is only beginning to enter the universe, even if he is not qualified to take the shot, but it is worth to show off, but how can you not be excited? when

That is, the two left the place directly, and after a small half day, they saw a huge abandoned star in the universe of the sky ahead.

"It's here, you are outside to protect the law, and you can tell me at any time..."

One sentence, Ye Xuan did not hesitate, and his body slammed into the giant abandoned star. He waved a Shennong Ding in a valley, and then he swayed and stepped into the Shennong with a colorful mist. At the mouth of the trip, sit down on this knee.

"Hey..."

One after another, the sound of breaking through the air, all of them are the cultivation resources that Ye Xuan took out from the immortal world, including other large-scale cultivation resources of the nine-color \*\*\*\*

medicine, such as the evil source liquid.

After doing all this, Ye Xuan will mobilize Shennong Ding's domain power, and compress all the cultivation resources to the size of only the baby.

A wave of hands swallowed directly into the abdomen, and a new round of breakthroughs was also launched at this time..."

Oh la la..."

Almost in the next moment, the sound of the overwhelming chain was heard in his body. This time, the chain of shackles that appeared was unexpectedly two.

This clearly means that it will usher in a two-breaking rhythm. or

Xu and Ye Xuan have recently been involved in the war of the universe.

After all the light roads, Ye Xuan mobilized the energy that has just formed in the body, and launched a second-circle operation in the whole body of the body, thus accumulating strength. Seven

After the day, when all the energy was refining, just one impact, the two chains were broken.

And as this extremely thick shackle chain was finally completely broken, the system prompts in anticipation, and soon after the sound of Ye Xuan's mind..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the fourth step of the universe! ""

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: the fourth order of the universe...."

Chapter 4470: Lead out of the snake

With this breakthrough, Ye Xuan's combat strength climbed again. this

Before, the cultivation of his deity was only the second order of the sage. Once the blood of the ancient konjac was activated, he could climb to the third level. If

It is to display the konjac and change the magical powers, and reach the ninth change. The combat power is immediately ascended to the third order of the universe!

Now, after activating the blood of the konjac in the body, Ye Xuan will immediately possess the fifth-order cultivation of the sage.

If you use the magical power of the konjac and change it, and directly enter the ninth change of the konjac, its peak power can reach the fifth stage of the universe. This is the middle of this period.

But in fact, if you count the horrible blood in the huge body of 60 million miles in the ninth state of change, Ye Xuan's combat power will be comparable to the sixth-order of the universe's master. The existence, only to kill the third-order of this situation, the initial peak of the crystal rainbow magic insect, when there is no accident...

"I don't think that I have ushered in another two breaks. It seems that... this time, the third-order crystal rainbow worm that smashes the head of the universe will have no suspense."

Opening his eyes, Ye Xuan's sly flashed a touch of excitement. This

Two breaks at a time, coming too timely, let him thoroughly eat a reassurance. "

In addition, in addition to the crystal rainbow monster of the third-order master of the universe, the seven cosmic sages from the forbidden land of Jinghong can at least smash several heads. As a result, the sages in my hands are bloody. By then, it will reach a dozen giants, refining the twenty-sixth-level Baodan, and the number of Baodans released will be unprecedented..."

Here, Ye Xuan's sly glare flashed, and the corner of his mouth also showed a touch of coldness: "I've been sneaking around before, even dare not reveal the real power, worrying about the middle of the universe's main lord in the forbidden zone. Concerned... and now, it's time to set up a power."

With the end of this great war, the third-order cosmic lord in Jinghong's forbidden land was slain. Before this, the situation of the former hunch, basically, should be over..."

call out! "

After that, Ye Xuan waved his hand and directly took the colorful fog of Shennong Ding into his body. His body shape shook and he rushed out from the giant abandoned star under his feet and came to the outer universe. "

Ok? The fifth order of the Sayādaw? "far

At the same time, the old pigs who had been crouching in the void to protect the law, rushed over at the first time, and saw the cultivation of the body that was scattered in Ye Xuan's body, which was actually the fifth order of the Sacred, and suddenly stunned.

Then it seemed to think of something, and the face changed, and immediately exclaimed: "Isn't it violent to the younger brother? This is only seven days, you actually... broke through two orders in succession?"

At the moment, Ye Xuan is the state in which the body of the konjac is activated by ten feet. In this state, the cultivation is the first step of strength, so since it is now the fifth-order cultivation, then Ye Xuan's real cultivation is strength. It should be the fourth order of the sage. Want

I know that he only remembered the second order before retreating. This is

not a breakthrough in two small steps, but what can it be?

Ye Xuan nodded, as if to say that it was a trivial little thing: "Yes, luck, and if you are not careful, you have broken two small steps..."

"Hey... I don't live old pigs..."

In this case, I almost rushed the old pig to the spot to vomit blood. When I looked at Ye Xuan again, the eyes were clearly full of envy and hatred: "When it comes to this situation, the old pig is obviously breaking ahead in front of you. But now, you are in the fourth stage of this situation, but I am still a first-class pig..."

No, after this time, the old pig, I will not manage anything, first burying my head and retreating, breaking through a few small steps! "

"Reassured, after the Jinghong magic insects are killed, we will return immediately. The star master will take you to my rear base camp..."

Nodded, Ye Xuan had no objection to this: "Whether you are retreating or going around, you will be in the back camp."

"After all, in addition to the twenty-six-level Baodan used to break through the realm of the universe, we need to use the twenty-seventh-level Baodan to break through to the universe."

And for the twenty-seventh-level Baodan to refine, each of them needs five bloodstains of the main body of the universe, and all the blood and blood are condensed..."

At the end of the day, Ye Xuan shook his head and sighed, and the face of the helpless vicissitudes of color: "That is, just refining you and the twenty-seven-level Baodan I need, you need to kill the ten masters of the universe. ... is the one that will soon be Fuxi's crystal rainbow, but even so, it is still nine, the main star... no time has been nestled in the rear base camp!"

"Twenty-seven-level Baodan? Can you successfully break through to the universe?"

Listening to these words, the old pig fine eyes immediately appeared green light, slyly looking at Ye Xuan, whispering, it is like a nightmare: "God, old pig, I am not dreaming? Twenty-six Bao Dan is not running now, but... I am one day old pigs can enter the universe to the highest position?"

hiss! That is only weaker than the ancient powers of the ancients and the sacredness of the ancients. Absolutely amnesty..."

"Oh... thank you, violent brother, knowing you, is the biggest blessing of my old pig in my life."

Speaking of the end, this old guy seems to suddenly think of something, suddenly the chest beats the mountain, Yizheng sternly resigned: "Reassured is, after this matter, the old pig I sit in the rear of our base camp,

definitely give You look at the backyard. As for you..."

I am a violent old man, I can do more work for the old pigs, I don't have the ability to hunt down the Lord of the Universe, and I will give you the responsibility of the ten bloodstains of the Lord. Come on, old pigs... I am optimistic about you! ""

roll! "leaf

Xuan was speechless, turned a blind eye, and then hesitated, then turned and spurred toward the cosmic void in front... His cultivation of strength and now the third-order crystal rainbow of the Lord of the universe has no suspense. .

So, when the snake is dispatched... it's coming!

... two

After the day! One

The film is far from the edge of the fortified forbidden land on the coast of the Milky Way. It is already in a distant star field. At this time, a large number of Zerg are swimming in the void.

These Zerg are clearly searching for something, and the low humming sounds of the cockroaches are heard from time to time. This

It is their enthusiasm for stimulating the body's blood, communication with each other, and the search for mega-signals with this kind of biological wave-like blood talent.

Looking at it, the Zerg in the void does not reach the level of denseness, but it is absolutely indispensable. However, the most powerful of these Zerg is only the immortal.

It is for this reason that Ye Xuan and the old pigs who have been behind the Zerg regiment for a long time have been crouching and have not shot. It

Therefore, it is feared that once suddenly appeared, one of the seven Zerg sages who are most likely to be lurking nearby will be scared to turn around and flee, which makes people depressed...
