

## **Super D.S 4471**

### Chapter 4471: Narrow road

It can be said that with the last accident in the Xuanwu forbidden land, now, whether it is Ye Xuan or the old pig essence, the vigilance against these starry zergs has already been raised to the extreme. insect

The strange ability of the family is endless, and the various kinds of people are invincible. Last time, a small second-order sage, actually escaped smoothly, but Ye Xuan, but did not explore which direction people fled.

You know, before he killed the eighth-order sage, this has never happened.

This will be evident!

Although he has been with him for a long time, he has never found a Zerg Zun, but Ye Xuan and the old pig are not in a hurry. This time they have a great picture, including several cosmic saints and a cosmic master. It's worthwhile to wait a little longer...

Sure enough, two days later, the Zerg Legion, which was searching ahead, suddenly screamed and all the Zerg stopped their bodies, crouching in the void, motionless. through

A respectful, and fearful atmosphere.

It seems as if there is an extremely powerful existence coming, they are waiting respectfully for the general!

Ye Xuan and the old pigs crouching in the distance behind the void have raised their vigilance. In this case, if there is no accident, there should be a cosmic sage who will come to this place.

After all, the commander of the Zerg Legion is already an immortal emperor, but at this moment, this emperor is immortal and like other Zerg, also crouching in the void, motionless, respectful and half-hearted .

Even the fear of being diffused from his body even surpassed other Zerg.

Can the existence of a monarchy be immortal, not the cosmic sage, and what can it be? "

Oh..." very

Fast, the humming sound once again made a big fuss. In the void on the right side of the Zerg Legion, a white ray suddenly came, and after flashing, a huge starry worm was born.

It's no wonder that it's a kind of strong white awn. to

In terms of its size, it is full of tens of thousands of feet, and the body is filled with the breath of breath, which is the second order of the universe.

Seeing this scene, both Ye Xuan and the old pig essence are suddenly stunned, and then they are ecstatic.

This is really a narrow road, the second-order Zerg Zun? Could it be the one that escaped from Xuanwu's forbidden place not long ago? I didn't expect to meet so soon.

This time, Ye Xuan did not intend to shoot, he decided to give this opportunity to the old pig.

After all, the last second-order Zerg Zun is lost to him, and now it is reasonable to let the old pig concentrate on this matter, otherwise the heart will be uncomfortable! two

Although people do not carry out the exchange of knowledge, because there are starry zergs everywhere, and the worm's biological frequency is quite mysterious. Even the communication of the cosmic sages may not reveal clues.

However, although there is no exchange, there is obviously a tacit understanding between the two.

"Hey..."

In the next moment, Ye Xuan swayed, but the old pig essence suddenly rushed over, the figure is not yet close, and the sound of the long sigh of anger is already ringing. Accompany

With his long shackles, his hooves slammed toward the front and went all out.

"Hey!"

Oh..."

A sharp and incomprehensible whistle sounded in an instant, and the second-order zerg Zun was frightened and trembled. The first time he screamed, the body's white awning, and again.

This is clearly the same as the last time, through this blood talent, immediately escape the rhythm! "

If this time, let you escape, the old pig, I still mix a fart? "a few

At the same instant, the voice of the old pig's gods sounded, and the two hooves also slammed down. "

boom! "

A huge roar came, and the white radiant splattered. The body of this second-order zerg lord exploded. It is no wonder that his body can make such a bright light. This guy is even bright, even now. Spreading away, it illuminates a large void. "

call out! Receive

Back to the double hooves, the old pig sperm is instantly sucked, and the sharp sound of the air is resounding. A majestic invisible gas swells over a million miles, and the \*\*\*\* red blood that just spreads out is swept away. Inhaled into the body, compressed into a humanoid-sized beast blood bead! "

Oh..."

"Hey!"...

...

This scene is too sudden, and the numerous stars and zergs scattered around the imaginary sky are all fleeing, while fleeing, while making a strong and incomparable humming sound, this is clearly reported for help... in the mysterious way unique to the Zerg. and

All of this is exactly what Ye Xuan and the old pigs are willing to see. Therefore, although it is easy to kill the Zerg who is fleeing, the old pig has not done so, but turned and rushed. In the other direction, it is pretending to chase a few zerg kings.

After all, as the emperor, the zerg's ability to communicate must be stronger, and it can help Ye Xuan and the old pigs to attract more goals faster...

"Hey!"

"Irritable, today, you are dead..."

However, after only a few hundred interest, the far-end sky in front of the right side suddenly screamed again, and with the sound of the humming sound, the sound of the gods of endless grief and indignation came instantly.

This is the old man of the second-order Zerg Zun.

The size of a head is also a giant, and the appearance is exactly the same as that of the second-order zerg lord. The light emitted from the body is also a strong white presence. Do not

However, his cultivation is powerful but too strong, and he has reached the ninth-order grand perfection of the universe, that is, the half-step universe!

If he is not the master of the half-step universe, he can't dare to know that Ye Xuan and the old pig are here, but he still shows up in anger.

In his view, including the situation mastered by the outside world, the starry temperament of the sacred hunting operation in the primary and strong forbidden places in the past is only the first time in the world. .

And this is not a real cultivation, but a mysterious and powerful blood and secret method, hard to improve. Place

Therefore, in the view of the Zerg Supreme in the peak of this peak, the cultivation of the master of the half-step universe, and the master of the universe, which is violently enhanced by the starry sky, should be similar. And

He was only the first time to use the blood of the Zerg to inform the crystal rainbow, and at least 20 will arrive.

Even if there is still a certain strength gap between itself and this starry sky, it should be no problem at all.

Man is the peak of the Supreme, the 9th order is perfect, even if the old pig has already activated the \*\*\*\* magical power of the magic pig to the third change, possessing the fifth-order cultivation of this environment, is far from the opponent.

He retired to the distance in the first place, and at the same time, Ye Xuan, who had been swaying and swaying, showed his body shape...

"Roar!"

Looking up and roaring, the temperament of a ten-footed high, suddenly roared: "The konjac nine changes... the sixth change!"

Chapter 4472: Jinghong is coming

"The konjac nine changes... the sixth change!"

The roar of this roaring sounded, and there was a huge explosion in the starry sky. When it was too late, its body shape had already skyrocketed, and the speed was so fast. This

At one moment, the power of the violent body is rolling like the big river is roaring, and the limbs are screaming for endless fierceness. Invisible, it is a horrible atmosphere that is unimaginable.

Half-interest, the temperament is only a body that is only ten feet high, and it is exploding to a tens of thousands of feet, that is, 60,000 miles! and

At the same time of the skyrocketing body, the temperament of the violent body is also cultivated, and at the same time it climbs up. It is the fifth order of the former sage, reaching the second order of the present universe.

Everything happened too fast, a dazzling time, a fifth-order sage, turned into a second-order universe of the Lord...

This is a nightmare. The vast and innocent void is now in full silence. All the worms that are escaping are crouching and shaking. It

So it is the sixth change, not the ninth change, or the eighth change. Ye Xuan also has his own considerations.

After all, now the leader of the universe in the third-order world has not yet arrived. If it now shows the fifth-order power of the Lord of the universe, the other party smells the dangerous atmosphere, and it is not bad to go farther and escape. How can it still be Will it come? thing

In fact, even the same third-order power of the universe as the other side, Ye Xuan also feels unsafe. only

The second order of the Lord of the universe is just right. On the one hand, the third-order crystal rainbow worm of this kind can come to rest. On the other hand, facing the head of the half-step universe, you can have enough advantages to ensure the use. In the shortest time, solve him..."

hiss! You actually... broke through the first order? "before

The head of the half-step universe in the tens of thousands of miles was deceived by Ye Xuan. Seeing that he showed the second-order cultivation of the universe, he subconsciously thought that Ye Xuan was because of his recent cultivation. It broke through the first order, so the use of this mysterious blood and secret method will have the second-order cultivation of the Lord of the Universe. More

Not long ago, the first order of the Lord of the universe, just a strong order!

Even the first-order gap is heavy for him.

Faced with the powerful existence of the second order of the Lord of the universe, even if people only use some mysterious blood and secret method, they will rise up in a short time.

But with his only half-step master of the universe, he is still far from his opponent. early

The difference between the second world of the universe and the second world is too big. It

Before he had the confidence to hold on to the twenty interest, but now, even the hard grip and confidence are not...

"Hey..."

At this moment, he thought of walking away, so that the crystal rainbow moth has not yet arrived, he will hang up here first. With

With this thought floating up, the powerful Zerg sage in the main position of the half-step universe immediately lit up the bright white mans, and the low and rapid humming sound made a strange insult. sense!

"I just want to escape now, isn't it too late? This kind of thing has happened once in the hands of the old pig. If it is repeated in the hands of the star master today, this star is on this face... how Going?"

"So, you... can die!"

boom! "With

The voice of the gods that revealed the blasphemy came out, and the next moment, the starry sky rushed out of the shoulders, and the blink of an eye reached the side of the Zerg Zun, suddenly bursting a punch!

In the void, a huge roaring sound came, and the Zerg Zun, not far away, mourned, and its huge body exploded, just like an ant, and there was no chance of any reaction, and it was already blown.

In an instant, the huge body of the giants was completely blown up for a \*\*\*\* fog, and it spread. "

call out! "One

The fist is retracted, and the violent swaying wave is the first time, and the sharp sound of the air is heard! One

The invisible invisible enthusiasm of the stocks, rolled out from the violent body, enveloped thousands of miles.

The \*\*\*\* red blood mist that has just spread out is swept away. After being in the body, it will be sent to Shennong Ding immediately, and blood purification will be carried out! It

When he left the Xuanwu forbidden land, Ye Xuan's blood in the hands of the sages had reached nine giants, and just now, he murdered a second-order Zerg Zun, which is enough to make up ten. Count it.

Now add the blood of this beast of the sacred beast, and the number of blood of the sage in Ye Xuan's hand reaches eleven.

"Eleven?"

Under the glory of the glory, Ye Xuan whispered, revealing the excitement and excitement that could not be suppressed: "especially among them there is also a sacred blood of the sacred blood of the sacred sacred body..." ""

In this way, this time refining the twenty-sixth-level Baodan, if there is no accident, the probability of releasing nine will have become more than five... This is clearly a rhythm of development! "

"Hey..."

In the next moment, a fierce and screaming noise suddenly came from the end of the void far away from the front. With

With the sound of this whistling sound, the frequency is so fast that it is almost unimaginable, and it is also in the same direction, like the sound of thunder, rolling in. folder

Miscellaneous in it, there is also a powerful and powerful atmosphere...

It is also the Lord of the universe, but it is stronger than the second-order starry temperament that is now only in this context... This is clearly the third-order terror of the Lord of the universe.

At this moment, after the old pig had a slight glimpse, his body fluttered and he turned around without hesitation and fled in the opposite direction. he

I don't want to stay here again. The two main battles of the universe, for him, it is definitely the rhythm of the fight of the gods, really want to stay too close, and most of them have to fall into the end of a devil.

And Ye Xuan, but at this moment picked up his eyes, his heart pounding.

At this moment, he suddenly gave birth to an inexplicable excitement. Once upon a time, he never thought that he could reach the realm of the Lord of the universe one day. Now, he is standing calmly and waiting for a master of the universe. Going on the hook, want to ambush it...

The feeling of the heart is so wonderful that he gave birth to a sense of ignorance that seems to be in a dream. The current side has a colorful and colorful mans. When he pulls back Ye Xuan's slightly fascinating mind, he suddenly discovers it. It is in this sacred world, and my own state of mind is actually like an epiphany, with obvious improvement.

This is really an unexpected surprise. I didn't expect that this kind of set-up and smashing a strong gap on the way to the enemy could make the state of mind sublime. This is simply... no one else! "

Rumble..." also

It was at this time that the front frequency was so fast that the screaming low humming sound was no longer there. Instead, it was a large piece of continuous thunder, like the thunder of thunder. Vision

At the end of the line, a colorful ray of 100 million miles away is coming at a speed, and blinking, it has reached the universe of hundreds of millions of miles away...

Chapter 4473: Bombing the Lord of the Universe

A few hundred million miles away, a gorgeous colorful radiant rumbling violently came.

The light is too strong, illuminating a vast expanse of void.

It was not until it reached hundreds of millions of miles in the vicinity that it could be seen clearly. It turned out that the colorful glory of the group with a diameter of 100 million nautical miles was not a glory.

It is a real thing... a huge body to the horrible starry zerg.

The blood of this Zerg is obviously very special. Anyone who looks at it can instantly realize its extraordinary. it

The body is crystal clear and translucent, like the purest crystal, and this crystal is not a single color, but rather beautiful, and colorful.

As for this, even the people can make a mistake. They mistakenly believe that the starry zerg of the celestial life body is so horrible that it is scattered in the huge body.

It is the third order of the Lord of the universe! More

The starry sky here is still a small step..."

I'm so violent, I can't think of you breaking through..."

At this time, with the arrival of the crystal rainbow worm, a very low, but revealing the voice of the gods of endless self-confidence, like a rolling thunder, from the distant sky in front: "Unfortunately, even so, you Still the second order of the Lord of the universe..."

Although it is huge in size and possesses the power of horror, it may be barely comparable to the existence of the third-order in this context, but... the deity has entered the third-order environment for thousands of years, and is only one step away from the fourth-order of the universe. It's gone. ""

Hand over your blood and magical powers, the deity refers to all the details of the mystery... Today, free of you! ""

Otherwise, the deity will personally shoot, and after you kill you, you will search for the soul. You can also get most of the magical powers... You, choose it yourself! ""

Roar! ”

"Is the third-order of the Lord of the universe strong? Look at what you have..."

Looking up and roaring, the starry sky is violent, and Ye Xuan is full of ridiculous scornful voice: "Well, who told you, is this star master only a second-order repair?"

The konjac nine changes... the ninth change! ”

In the next moment, the roar of the roaring sounds, and there is a huge explosion in the starry sky! One

If the interest rate is not enough, the body shape will have skyrocketed, and the speed is so fast that the body's strength is even more like the big river roaring. four

In the limbs, there is an inexhaustible and fierce meaning. Invisible, it is a horrible atmosphere that can't be imagined. It's half-interest, and the temperament is only a body that is only a thousand feet high. The speed of the index finger, the speed of expansion to the billions of giants, that is, 60 million miles!

This is 60 million miles away, even if one of the biggest giant stars, compared to it, will be a small point. and

Moreover, while the body is skyrocketing, the temperament of the violent body is also cultivated, and at the same time it climbs up. From the second order of the former universe, the blink of an eye has reached the fifth stage of the present universe! One

Everything that has been cut has happened too fast!

A dazzling work, a second-order master, has become a fifth-order existence of this situation! Such as

This place is not real, just like a nightmare! One

In an instant, the vast expanse of the vast void immediately fell into complete silence, and all the Stars and Zerg who had not had time to escape, all crouched and shivered.

Some of them have been cultivated as weaker ones. Even the pressure of the mid-term cosmic masters scattered in the starry sky is completely unstoppable. "

[illegible]

In the far distance, the piece is as wide as 100 million miles, exuding the gorgeous colorful awns, and the light spurt from the positive spurt is also frightened at this moment, and suddenly stops in the void. stop

In the front of the universe, only two hundred million miles away from the starry sky. tight

Then, with the sound of the gods of endless horror and unbelievable meaning, it suddenly came out from the colorful light group of this awning..."

what? The fifth order of the Lord of the universe? This is absolutely impossible..."

"Hey..."

Just like the exclamation of the general voice of God has just sounded, the incomparable, the frequency is almost astonishing and screaming, and it will ring again.

In front of 200 million miles away, there is a huge light group with a radius of 100 million miles. It instantly bursts into a more brilliant colorful mantle... This is the second-order Zerg sage who wants to escape when he was in the Xuanwu forbidden land. The previous movements were very similar. very

Obviously, at this moment, the crystal rainbow monster wants to escape. He came to capture the mysterious blood secrets mastered by the starry sky, but he did not want to hang himself here...

As this thought floats, the body of the crystal rainbow magic insects instantly illuminates the brighter colorful awns, and the low and rapid humming sounds once again make a sense of inexplicable anxiety!  
"

Hey... self-made, can't live! I didn't intend to look for you, at least not now, but you have to find it yourself! "Look

In this scene, the starry sky sighed and sighed, and Ye Xuan's voice of God immediately followed...

"Since it is here, why bother to go? Everything today... it should be over!"

"boom!"

After passing out the voice of the ignorant and disdainful knowledge of the gods, the next moment, the starry sky violently rushed out of the shoulder!

The speed is so fast that it is horrible, and the blink of an eye has reached the side of the crystal rainbow worm... a sudden punch!

"Hey!"

Everything that comes down is no suspense. The loud roar of the roaring sounds from the emptiness, and it is only the third-order crystal rainbow magic insect of this kind. In the face of the fifth-order, it has a starburst of six-order combat power. There is not even a chance to mourn.

Its huge body suddenly exploded, just like an ant, and any reaction was too late to make a blow. Are

Between the moments, its huge and incomparably horrible colorful body, it is completely blown up for a gorgeous \*\*\*\* fog... Spreading! "

call out! "One

The fists were retracted, and the violently waved in the first time, a huge invisible instinct was rolled out from the body, covering a radius of ten thousand miles. just

The colorful blood mist that just spread out was swept away. After being in the body, it was immediately sent to Shennong Ding by Ye Xuan, and blood purification was carried out!

This is the first body he harvested from the body of the powerful beast of the universe, the \*\*\*\* fog formed after the explosion, the blood of the beast that is condensed, the so-called blood of the king!

The first one is a good start, which represents the goal that Ye Xuan will hunt next... The level will be improved!

"Lord of the universe? Looks like the universe is better than the universe...there are fewer!"

In the mind, Ye Xuan broke free from the state of the ninth change of the konjac. The huge size of the body was reduced to ten feet in an instant, and the repairs that were dispersed in the body also fell. Go back to the fifth stage of the Sacred! versus

At the same time, in the mouth, there is also a nightmare whispering voice, with a sigh, revealing helplessness: "Hey, the rhythm of labor..."

Chapter 4474: Don't do it

"Hey..."

"Hey..."

The crystal rainbow moth was bombarded, and it was surrounded by the void. It was suddenly made a big hit, and countless screams of fierceness came.

A large number of starry zerg, still in the void, are like a mournful dog, fleeing in the distance. more

There are starry beasts of other races that are staying farther away, not from the banned ban, and under extreme shock, there is a fascinating relationship between the gods...

"What? The fifth order of the Lord of the universe? This temper is going against the sky..."

What is the secret of this blood? Can you let a cosmic person have such a terrible battle in an instant? The size is even so large, although the realm is a fifth-order, but the body is soaring to the horrible flesh and blood, it is clearly the sixth-order rhythm of this situation! ""

A single blow, the third-order crystal rainbow magic insect of the Lord of the universe was directly killed. How many people can be enemies? ""

Can't afford it..."

...

Suddenly exclaimed, all the starry beasts who watched the battle in the far-flung air were cleaned in the blink of an eye. After all, the existence of their peeping is the sixth-order existence of the main force of the universe. The starry sky is always known for its temper. true

If you want to stay here, if you are annoyed with him, then there is definitely a dead end!

"Hey..." and

At the same time, in the void in the far distance, an excited and long-sounding voice came, the body shape has been restored to ten feet, and the strength has also fallen back to the second-order old pig essence of the universe. Run back.

The color of the excitement of a face, if you look cold, it seems that you just had a shot of chicken blood...

"The violent brother, fame in the first battle, congratulations..."

In front of the old pig, the old pig was congratulated, and his mouth was squatting, his face was envious of hateful expression, and his tone also showed incomparable emotion: "Hey, I don't know the old pig, when will I have this? This kind of skill, oh, kill the third-order universe, the real self-cultivation is only the universe, and this is simply against the sky..."

Ye Xuan took care of him when he was lazy. He was freed from the state of the ninth change of the konjac. No way, the huge size of 60 million miles is more than the most massive star. A few laps, it's too eye-catching.

Soon, his body shape was restored to ten feet, and the body's self-cultivation was breathtaking, and it fell back to the fifth level of the universe! With

After that, Ye Xuan was suddenly thinking of something, quite sighing politely: "Unfortunately, although I have smashed the crystal rainbow magic worm, I got a master blood, but... the seven respects of Jinghong forbidden land. However, only two of them came and missed the blood of five nobles."

Don't miss it..." Ye

Xuan's words just fell, and the old pig fine jumped up immediately: "This is the blood of the five sages, and you can make a twenty-six-level Baodan..."

"Now the strongest of the banned banned land has fallen, and the rest of the universe is still sitting in the forbidden land of Jinghong, but it is only a blood-stained worm that is only the first order."

"Let's not do it all the time, and we will end up with their old nests. So, in addition to the five bloodstains of the Supreme Master, you can harvest another blood of the lord..."

"Yeah, anyway, the strength of the fifth-order of the Lord of the universe has already been exposed. At the end of the emptiness, there are many stars and beasts that have been seen. So, it is better to take advantage of this opportunity, and then do a big vote, then Immediately crouched..."

Listening to the words of the old pig, Ye Xuan's eyes are instantly brightened: "Not to mention, the crystal rainbow worm has just been smashed. This is a big event, sitting in the ban of Jinghong's forbidden land. Blood devil, absolutely unimagined, in this case, the star master has just exposed the bottom, actually dare to immediately go to Jinghong forbidden to hunt..."

"And such an opportunity, I am afraid that there will be no more in the future, because as time goes by, even if we crouch down, we will not show up for a while, but including Jinghong forbidden, other Qiangqiang forbidden places will be because of today. War, and give birth to vigilance..."

At this point, Ye Xuan has made a decision. It is really a temptation to be a master of blood, but he will only refine a twenty-seven-level Baodan that will break through to the universe. It is also necessary to have five \*\*\*\* masters. Such as

There is only one in my hand today. If I can get one more, this task will be completed 40%, nearly half...

"It's so decided. After entering Jinghong's forbidden land, the star owner is responsible for the blood-sucking demon, and you are responsible for temporarily dragging other cosmic members in the forbidden land... I hope that the five guys have returned. Alright!"

At the end, Ye Xuan did not hesitate, and directly slid his body shape, and then swayed away from the distance. "

Oh..."

The old pig was so excited that he once again looked up and shouted, followed closely behind.....

...

This way to the Jinghong forbidden land, Ye Xuan and the old pig fine did not start a fast speed, because the seven universes in the forbidden land before the Jinghong were all sent out to search.

It is also a certain time for them to return to Jinghong forbidden land.

Since it was decided to destroy the star-studded zerg of the five-headed sage, then Ye Xuan and the old pigs could only wait until they returned to Jinghong forbidden. One

Akira, ten days have passed. thing

In fact, even if it was slower, the two men rushed to the edge of the forbidden land of Jinghong, and it only took seven days. However, Ye Xuan sneaked in and explored it and found that in addition to the first-order phalanx of the head of the universe. In addition to the blood devil, the remaining five cosmic sages in Jinghong's forbidden land only returned to three. Yu

The two heads were obviously still on their way back to Jinghong forbidden land. Therefore, the two men crouched in the distance on the edge of the forbidden land and waited patiently.

This is three days.

Between the two days, the fourth cosmic sage returned, and the last sacred zerg sect, just two hours before, just passed the forbidden edge of the front and entered the forbidden land. to

Therefore, the five-headed Zerg Zerg in the Jinghong forbidden land, and the first-order Zerg of the Lord of the Universe, all returned to the old nest, and the time to launch the last big hunt was finally mature!

"Hey..."

"The magic pig is nine times... the third change!"

After receiving the signal from Ye Xuan, the old pig had almost no hesitation, and immediately screamed and entered the third change of the magic pig. its

The body suddenly skyrocketed, from the original ten feet high, blinking to the end of the Wanzhang, the body repaired into breath, but also skyrocketed three small steps, the blink of an eye has reached the fifth level of the universe!

"Roar!"

"The konjac nine changes... the ninth change!"

"Hey!" and

At the same time, the roar of the old pigs just fell, and the screams of Ye Xuan came out in the starry sky!

As his voice began to sound, a huge explosion came and he couldn't get enough, and the violent body shape had skyrocketed, and the speed was so fast that it was horrible...

Chapter 4475: Yokohama

With the ninth change of the \*\*\*\* state of the state is fully motivated, the power of the violent body is suddenly rolling as the river is roaring, and the limbs are screaming for endless fierceness...

Half-interest, the body shape that was only ten feet high, it swells at a speed that is horrific, and it is a huge speed of 60 million miles.

At the same time of the skyrocketing body, the temperament of the violent body has also been cultivated, and at the same time it has climbed up. It has reached the fifth stage of the current universe by the fifth order of the previous sage..."

call out!"

"Hey!"

After that, two loud sounds like a thunderous sound, the old pig essence and Ye Xuan left and right, directly rushed into the front of the crystal rainbow forbidden.

The two had already negotiated well, and there was no entanglement at the moment. The old pig sperm rushed directly to the nearest giant star. This

The cosmic sage in the stars is a second-order zerg, and with his current fifth-order cultivation as a strength, a few of them can be destroyed in an instant. and

Ye Xuan, directly rushed to the deepest point of Jinghong forbidden land, where there is a \*\*\*\* giant beast star in the void on the right side, which is the only remaining universe in Jinghong's forbidden land. The nest of the nest of the blood-sucking worm. One

In an instant, the entire Jinghong forbidden land was completely dead. In the thousands of fierce beasts, countless starry zergs were like thunder, and sluggish...

The recent scare is too much, one wave after another, it is simply called, not right, the insects should not be overwhelmed.

A few days ago, the strongest person in the forbidden land, the crystal rainbow, fell, and the news of being hit and killed was just coming. The entire vast and innocent Jinghong forbidden land, even the numerous stars and insects have not even had time to I was shocked by the extreme shock.

Now, another round of new shocking events has suddenly come. short

After the temporary silence, the sound of the gods of endless despair, accompanied by the low humming and screaming screams..."

Lord of the universe! And still the fifth order of this! It's that violent... violent! "

"Hey..."

When it was finished, Jinghong was completely banned. The previous large-scale search clearly angered the violent temper. After killing the crystal rainbow worm, it actually killed it again. This is clearly the anger that has to be ruined. The rhythm of a pot! ""

Hey! ""

Damn, I shouldn't have provoked him before, and the starry sky has always been known for being violent and murderous. This kind of existence can't be provoked..."

escape! Jinghong forbids the land, no hope..."

Oh... " ...

...One

In an instant, the entire vast and innocent Jinghong forbidden land was smashed, and within the vicinity of a fierce beast, the innumerable starry zerg was suppressed under the horror of the cosmic lord of the violent body. It's impossible to move, and it's impossible to escape. its

There are even some people who are weaker in strength, and the first moments of this horrible pressure have already smashed and died. and

In the far-reaching area, there are countless stars and zergs in the stars of a beastly beast, and they rushed out of the atmosphere directly, and the head did not return to the place of the forbidden land to escape.

Among them, it actually included the strongest person in the Jinghong forbidden land, and the first-order master of the universe to repair the blood-sucking worm!

"call out....."

The sharp and unpredictable sound of the air broke out, the far end of the line of sight at the end, the \*\*\*\* giant star in the right side of the sky, a blood cloud rushed out of the atmosphere, and there was no slamming, directly to the opposite direction of violent coming. Shoot and go.

The master of the cosmic universe, but so timid, even the meaning of a slap in the face, directly burying his head to escape, this is really called Ye Xuan. "

Roar! "

"I am afraid that death will be like this, it is really the name of your blood-sucking worm..."

With a bang, the violent figure of the starry sky is easy to disappear.

When it reappeared, it was swaying hundreds of millions of miles away and directly stopped in front of the blood-sucking worm. "

Oh..." low

The sound of the incomparable cicada sounded, and the body shape of the blood-sucking worm stopped, and immediately burst into a blushing red blood.

This is clearly the temperament of the blood in the body, and I want to escape from it. "

Even the third-order crystal rainbow magic insect of the universe has never escaped from the hands of the star master. You only want to take it away from the first-order micro-end of the world. Is it too whimsical? "

"boom!"

In the mouth of the violent voice, the sound of contempt was heard. At the same time, his shoulder rushed out immediately, and the blink of an eye had reached the side of the blood-sucking worm, and suddenly punched a punch! meaning

The huge roar of the material immediately came, and the blood-stained worms sighed in the distance, and the huge body exploded and was blown. Pang

The big body was completely blown up for a \*\*\*\* fog, and it spread out. "

call out! "

Invisible enthusiasm swept through all directions, violently waved, sharp sounds of sound broke through, and the red blood fog that had just spread and spread was swept away by him. After being in the body, he was sent directly to Shennong Ding to start condensing... This

For a moment, he was fierce and fierce, and the devil was overwhelming. He was alone in the shadows. He was a middle-level strong forbidden land, which made countless stars and zergs, and his mind was split.

"Hey..."

At the same time, near the giant star in the far left, an exhilarating long-sounding voice came.

Then there was the sound of the old pig's sacred voice: "The violent brother, the old pig I have solved one, and there are four, I stare at one, the other three... can only be handed over to you! "smell

Words, Ye Xuan turned to look forward to, just smashed the old pig essence of a cosmic sage, and now rushed to the second goal. This

The cultivation of the head zerg is the third stage of the master of the universe. It is still not the opponent of the old pig, and there is no need to worry.

The other powerful Zerg of the three-headed sages have already rushed out from the fierce beasts of their respective towns, and they are divided into three different directions, and they are expeditiously rushing away from the banned land of Jinghong.

Among the three Zerg Zerg, the most powerful one is the eighth-order guy of the universe. The speed is almost at the extreme, and the one who is most likely to escape is him. "

call out!"

Under the flash of the cold man, Ye Xuan did not hesitate, and with the faint sound of breaking, his body shape was easy to disappear.

When it reappeared, it was already in front of the road of the Eighth Order Supreme, and it was the way to escape. under

For a moment, before the other side responded, the starry sky was so fierce that the huge right fist was suddenly blasted. "

boom....."

There was a blast in the void, and the earthworms of this eight-ordered land had no chance to scream. The whole body burst into a \*\*\*\* green smog. It was just spread out. Was rolled up in one hand and sent to Shennong Ding in the body to carry out blood purification. do

After all this, Ye Xuan did not have any stagnation, and rushed directly to the second goal. The short-term twenty-six interest was not enough. The three-headed Zerg, who he was responsible for, was all smashed...

Chapter 4476: I am afraid that the thief will remember

The war has only just begun. It's only when the time of a fragrant incense has not arrived, it has completely ended...

The Lord of the universe in the order of the world is too strong, enough to run a strong forbidden land, and it is still a medium-level forbidden land.

If the third-order crystal rainbow worm is still here, although he and the blood-sucking worm will inevitably die, but the remaining five zerg Zun, it is very likely to take the opportunity to take one or two.

But now, the five-headed Zerg, without exception, are all bombarded! "

call out! ""

call out! "With

With the arrival of the old pig essence, two human-sized beasts of \*\*\*\* beasts have been spurred, and they have been reduced to a size, restored to a height of ten feet, and repaired to the strength of the fifth-order Ye Xuan of the universe. Send money to the body, send it to Shennong Ding, and start blood purification!

At this point, Ye Xuan's hands used to refine the twenty-seven-level Baodan's blood, reached two, and the minimum requirement for refining was five, only three. this

No matter what, he didn't even swallow the twenty-sixth-level Baodan, and there are still five small-order breakthroughs coming. Then there is time, which can be collected slowly.

Although it is difficult, the requirements of the lowest three are not high. As long as Ye Xuan's own strength comes up, there is no problem at all. to

The blood of the Sacred, which is used to refine the twenty-sixth-level Baodan that broke through to the realm of the universe, has accumulated to sixteen giants.

There were already nine in the past, followed by two battles, and all the seven zerg sects in the forbidden land of Jinghong were killed and seven, just sixteen!

Among the sixteen bloodlines of the six nobles, one third of them are in the late stage of this period, and there is even one that is the quintessence of the ninth-order grand perfection.

In this way, if we count the factors of the Shennong nine-color flame that Wei can enhance, the sixteen honorable blood, Ye Xuan can at least refine ten twenty-six-level Baodan, which is definitely not on the board. of.

Even if the chance of refining twelve pieces is about 60%, thirteen pieces are 50%!

Fourteen words, only three are! This

A lot of 26-level Dan, for Ye Xuan, basically should be enough, and not enough in the short-term, but in the long-term, basically the same.

After all, a twenty-six-level Baodan represents the birth of a cosmic master. Even now, Ye Xuan can't imagine his own majesty and gather the ten masters of the universe. that

Too scary, it gives a feeling of dreams, too unreal!

"The violent brother, our actions can be faster..."

When Ye Xuan's heart was feeling, the old pig on the side reminded him: "With such a big movement, it is estimated that the news will soon spread, and the Zerg's ability to communicate is very strong..."

"We are only destroying the universe, and there are still a lot of emperors who have not lost their minds. Now they all run far, in case they report to other intermediate-level forbidden places in the surrounding area... really have a few more universes. Lord, you have a headache too."

Search for it and leave immediately! "

"call out!"

Ye Xuan nodded, no hesitation, and under his sway, he rushed directly into the nest of the blood-sucking worm, and searched for it, and then immediately rushed to the nest of several other Zerg sages... short

At a short time, everything is over. This time, Ye Xuan has harvested a huge amount of top-level cultivation resources.

Immediately after the two met, the first time they left Jinghong forbidden land, turned into two weak awns, rushed to the distance, and the blink of an eye disappeared at the end of the void...

In Ye Xuan, the hunting at this stage has temporarily ended. What you have to do now is to return to the base camp!

After the two left, they touched for a few hours or so. From the four different directions around the forbidden land of Jinghong, the four bodies were different, but the whole body was covered in a smog and faint light and shadow. Directly, he plunged into Jinghong forbidden land.

This is the Lord of the Four Universes, and the strength is not weak. They are all above the fifth level. its

There is even a horror of the nine-order grand perfection of the Lord of the universe, that is, the strongest of the half-step universe. thing

In fact, the four powerful cosmic masters apparently arrived after receiving the news that Jinghong had banned the land. Bright

Ming knows that there is a fierce violent temper here in the sixth-order universe. If there is no such sixth-level cultivation, I am afraid I will not come over easily.

The four powerful cosmic masters who arrived at this time are obviously all intermediate and strong forbidden places from the surrounding stars, and even the advanced and strong forbidden land, but at this moment, their bodies are all shrouded in smog, they simply look No specific origin.

The reason why they came together is obviously Ye Xuan's fierce killing, which has already caused their vigilance. It can even be said that they feel threatened. Otherwise, as the powerful cosmic master, how can they care about this kind of other people's leisure affairs? One

After the investigation, there was no clue. Even the clues of the fierce starry sky could not be found. The four powerful cosmic masters fell into a short silence, and then there was a deep god. The sound of knowledge, sounds one after another...

"This temper is not simple. Although the cultivation of the Lord of the universe is strength, it is forced to be promoted by some unknown and powerful blood, but...only he does not leave a trace of clues, even I am looking for Without any clues, you can see that this person is absolutely not good!"

Yes, according to the investigation, he was only hunting and killing the emperor, and then he hunted the cosmic sage. When he first hunted the emperor and immortalized, he showed the strength of cultivation, only the cosmic lord... That must have been the repair after the \*\*\*\* secret method! ""

Yes, if at that time he had the cultivation of the Lord of the universe, why should he hunted the little emperor? There is no way for the Lord to enter the eye. ""

In other words, his cultivation as a strength, in just over a year, from the emperor's immortal, to the cosmic sage? Moreover, it seems to be the fifth order of the sacred person... This is the speed of horror, more than a year, for me, etc., the slap in the eye, on his body, the change is so upside down! ""

This violent, there is a big secret on the body... It is a horrible temptation to enter the country, and it has such a powerful blood and secret method. It is too tempting. Should you be heart-warming? ""

Don't say anything about this matter, I will wait for it to be secretly explored. If there are any discoveries at that time... please do not act arbitrarily, otherwise, it will be degraded, not worth the candle! "

"Yes, it's a big deal, everything is safe, first make this violent... try to kneel down and say it!"

"call out!""

Oh..."

After reaching the final consensus, these four heads were built to the strength of the powerful existence in the late stage of the universe, and then they did not say much, turned around, and suddenly, with a faint sound of breaking, they went away. ,Disappear.....

Chapter 4477: Return to the base camp

After leaving Jinghong forbidden, Ye Xuan and the old pigs directly concealed their stature, and even the air machine was concealed. They stopped making any stops in the middle, and they rushed to the depths of this place. Source nest star base camp in remote areas. Correct

In the old pig fine, Ye Xuan originally had some reassurance, and did not intend to bring him to the source nest base camp easily.

But now, the two have experienced many wars, the performance of the old pig fine is not bad, and then he also tasted the sweetness, whether it is the 26th-level Baodan or the 27th-level Baodan, it must be abandoned, already Ye Xuan died. Place

There is no need to worry about this matter.

What's more, after a period of stagnation, Ye Xuan will once again leave the source nest base camp. There is no strong presence in the long-term place to stay in the town. If it is discovered, it will really suffer. Place

In order to bring the old pig essence back to the source nest base camp, let him sit here in the future. It is also the decision that Ye Xuan made after careful consideration.

After a month, Ye Xuan finally returned to the source nest base camp.

He did not stay on the surface of the stars, but instead entered the interior of the stars with the old pig essence.

"Oh... the violent old man, when he looked outside, thought it was an abandoned star, but it was a little bigger."

Just entering the interior of the star, the old pig will immediately cool down the air: "I found it wrong after coming in. The energy of the vine here is clearly the power of congenital chaos... Could it be a source nest star?"

Xuan nodded, not much to say.

"Rely! The whole Hongmeng void has only a total of 5,000 source nest stars. Basically, there is a future demon-level existence, and all of them are protected by a layer of the law of Hongmeng. Just like the Galaxy Star, it is a wasteland. I am afraid that I can't break into the ages..."

"I didn't expect to be robbed by you. It also destroyed the seeds of the demon gods that were born inside, and used them as a nest. As a secret base camp, this is really... violent things!"

In the end, the old pig shook his head and sighed with regret. Ye Xuan still laughed and said nothing. If the old guy knew that the five thousand brooding the source of the Chaos Devil, the most powerful force The demon \*\*\*\* is actually a detachment of Ye Xuan, and I don't know what it looks like. estimate

It's light, and most of them have to cry and cry to find death.

During the talk, the eight King Kong and Feitian, the silver cockroach soon came, seeing Ye Xuan's current cultivation strength, all scared to cool down. and

After Ye Xuan turned around, he was also shocked. scare

To him is the dragon wild life giant plug!

The last time I left, the life giant plug was already very big. The star space of the whole source nest star was occupied by it. Now, in just a few years, the body shape of the Longye has soared too much. many. All

It has occupied one third of the space inside the source nest. and also

That is to say, on the surface of the whole source nest star, it is still the mud rock layer, but the innermost one third has actually been replaced by the Longye. Look

In this way, one day, the whole source nest star will be replaced, and this day I am afraid it will not be too far away!

As for the repairing strength of the other geniuses, I did not let Ye Xuan disappointed!

A few years ago, when Ye Xuan left, among the tens of millions of beasts in the Yuanchao Base Camp, there were only a hundred of them, and there were more than a hundred! but

At the moment, there are two statues in the Fenghuang, and dozens of kings are sealed. The seal is already seven or eight hundred! This

It is also because Ye Xuan has already issued a batch of Baodans for breaking through the realm of the big realm before leaving. Otherwise, he did not come back. These guys, I am afraid I will get stuck in the 9th stage. It is difficult to break through.

As for the eight King Kong, the original is all ordinary late, but now, after a few years, because Ye Xuan left them a lot of top purple gold medicine, so the eight King Kong has now all entered the world of Feng Wang. The speed of repairing into the country is quite unexpected. fly

The Scorpio has been sealed, and the old singer has reached the end of the immortal kingdom. The entry is extremely gratifying! and

What Ye Xuan is most concerned about is the cultivation of 20,000 devils headed by the sea and Cang Qingyu...

It is said that in the past ten years, the group of the devil who first followed him has almost always been in retreat. Since the arrival of the battleship regiment of the three major star planes in the Sangzhi Star Field, there has never been It's over the face.

However, Ye Xuan has provided a large number of cultivation resources to them, and they are all top-level objects. They are used to break through the various levels of Baodan, and they have also issued a lot! and

Today, Ye Xuan has been away for a few years. When he came back again, it was just a matter of returning to the sea and other important devils. All of them were out of the customs. Therefore, for their cultivation, Ye Xuan had an understanding and was very pleased! through

Over the years, I have been retired and cultivated. I have returned to the sea, the Cang Qingyu, and the Nebo Mountain, Ba Gu, Li Mo, Zuo Fengtai and so on.

Including the British and Taiwan, they are all the same, and the king is immortal.

The remaining 20,000 demon strongmen, repaired to the strength are all above the universe, which is generally immortal two thousand or so, sealed immortal enough five hundred!

This is definitely an elite army with incomparable horror. Once it appears, it must be shocked.

However, Ye Xuan is still not satisfied. In his expectations, the 20,000 devils must all have the above-mentioned immortality. As for the seal, they must reach one quarter, and the king must reach twenty. One, Fenghuang, is reaching one percent! Such as

This time, the 20,000 elite Devils' Legion, all of them are immortal, in which the imperial 5,000 is sealed, the king is immortal, and the emperor is immortal.

Coupled with their tacit cooperation with each other, and the combination of battles, this is the most powerful and immortal army that is truly horrible!

Perhaps it is still far from the day, but at least now, Ye Xuan has seen hope. he

Did not bother the 20,000 geniuses, and once again issued a large number of top cultivating resources, such as the ninth magical medicine, and then let them disperse, and have grown into the source nest stars. Half of the big dragon field life giant plug, continue to retreat and practise...

After a lap, Ye Xuan alone found a secluded place, ready to refine the twenty-sixth-level Baodan!

"call out!"

As he waved his hand to Shennong Ding, the faint sound of the air broke out. tight

Then, Ye Xuan's body shape immediately came to the Shennong Ding Ding mouth with a colorful mist, sitting cross-legged.

Once again, the blood of sixteen infant-sized sorcerers appeared in the palm of the right hand.

Sixteen pieces of blood, together with a large number of other top treasures and treasures of ancient treasures, will become the basic raw material of Ye Xuan's twenty-six-level Baodan.

In addition to these two basic materials, Ye Xuan will also add some of the evil source liquids, as well as the top resources found in the Hong Kong virtual space...

Chapter 4478: Supreme Baodan

After everything was ready, Ye Xuan waved his hand and took out all the resources needed for the recipe and all the treasures of the top treasures. Then he closed his eyes! versus

At the same time, the inner space of Shennong Ding, the bottom of the volcano in the central domain! "

call out! "

"Hey..."

As the sound of the emptiness of the roads sounded one after another, the dense and faint spurs of the volcanoes from the volcanoes above the volcanoes of the central volcano came directly above the flame pool at the bottom of the volcano, and suddenly hovered for a moment! He

It is exactly the top materials and cultivation resources that Ye Xuan has prepared for the twenty-sixth-level Baodan.

"Call!" Wan

If the whistling sound of the whistling sounds, almost at the next moment, below the top resources, in the flame pool at the bottom of the volcano in the central domain, a fascinating Shennong nine-color flame roars.

In the raging wind, the nine-color flame sea is instantly condensed into a nine-color furnace Ding! small

Clever and simple, revealing an extraordinary atmosphere, and with the formation of a small flame that is condensed by the Shennong nine-color flame.

The materials and resources such as the \*\*\*\* beasts that have already been prepared are all automatically flying, and they have not entered the fireworks Xiaoding, which is only a square.

Since then, the first furnace of the twenty-sixth level of Dan's refining, it has officially launched...

The twenty-sixth-level Baodan, with only one piece, can make a monk who is a nine-order grand perfection, and instantly become the master of the universe. Its importance and preciousness can be imagined. And

This is the first time that Ye Xuan refining the 26th grade Dan, so he did not dare to take it lightly. He was all in control of everything, and the method of refining the medicine was thrown out in his hands and turned into a mysterious pattern. Be careful not to enter the colorful furnace.

Time is slowly passing... Half a month, I am passing by!

"Boom!"

However, above the flame pool at the bottom of the central fire, a huge roar sounds!

The furnace that was condensed by the pure Shennong nine-color flame was scattered. Like the river, the colorful fireworks roared back into the flame pool below. and

Still remaining above the flame pool, there are thirteen baby-sized ball beads, which are full of nine colors, with a layer of fantastic halo on the surface, revealing a simple and heavy atmosphere.

Twenty-six-level Baodan! only

If you need one, you can make the nine-step grand perfection of the Supreme Court, after swallowing, break through the big realm in a short time, and directly enter the main territory of the universe... 26th-level Baodan! "

Sure enough, there are thirteen? "

When this furnace Baodan was made, the voice of Ye Xuan's voice came from the Shennong Dingkou above the volcano of the central domain, revealing a deep surprise. This

One-third of the sixteen bloodlines of the Supreme Lord are the late objects of this period. very

There is also a blood of the best sage of the ninth-order grand perfection... So, if it is the factor of the Shennong nine-color flame that can be upgraded by Wei. Connect

According to Ye Xuan's previous derivation, these 16 pieces of blood are refined. Once they are refining, at least ten twenty-six grades of Baodan can be released. Even the chance of even 12 out of the furnace is in the sixth. Into the left and right, and thirteen ... is 50%! eye

Thirteen pieces were released, which is exactly the same as Ye Xuan's speculation. and

This means that in addition to his own consumption of one, in the future, Ye Xuan's majesty, there will be more than twelve cosmos of the universe ... Of course, this old pig is absolutely one, this did not run. which is

Therefore, he is only the first-class cultivation of the strength of the sage, far from reaching the ninth-order great consummation of the twenty-sixth-level Baodan. but

This time the hunting action, the old pig fine also calculated a lot of power, belongs to his twenty-sixth-level Baodan, Ye Xuan will return to the reward will continue ... so that the old guy can completely peace of mind in the source nest base camp Sitting behind the town.

After reuniting the excited heart, Ye Xuan turned over and took out the thirteen small jade bottles, and installed the thirteen precious twenty-six-level Baodans, and then properly collected them. The body is immortal.

Later, he grew up and walked out from the Shennong Dingkou, which was carrying the colorful mist. During the dying, Bao Ding turned into a man and rushed into his body, and disappeared.

After doing all this, Ye Xuan went directly back to the top general control room of the Longye Life Juge, and the old pig was settled here by him. Do not

After a long time, Ye Xuan will leave again, and in the time he left, the old pig will sit here. Therefore, Ye Xuan gave instructions to the Longye Life Giant Plug, and opened the sub-rights to the old pig. Take

Later, in the days when Ye Xuan was absent, the top control room of the Longye Life Giants was the retreat of the old pigs. when

However, Ye Xuan is only open to him. He is only allowed to give orders when the Longye Life Giants stay in the source nest camp. impossible.

This kind of instruction will be rejected directly!

"Hey..."

The light curtain of the space door flickered, and Ye Xuan's figure appeared, step by step, and immediately came to the top total command cabin of Life Juss.

Seeing him coming, the old pig who was on the sidelines was bright and bright, and immediately came over, his eyes were green, and his fart looked like he had just hit a needle. and

And still rooster blood! "

The violent brother, this is only half a month... It became? "although

I did not ask what is specific, but this means that Ye Xuan understands that this old guy can be eager to do this, except for the twenty-sixth-level Baodan, what else?

"The main star of the star, how can there be no reason?"

Xuan turned a blind eye, and at the same time waved a hand, directly took a small jade bottle from the immortal world, turned into a greenish mans, and spurred toward the opposite old pig.

At this moment, the old guy's excited body trembled slightly, after all, the twenty-sixth-level Baodan was too significant for him.

He is now a first-class sage, but he holds a piece of iron that can surely break through the eternal life of the universe in a short time after the ninth-order grand sacredness of the sage. Not excited?

"Hey! This breath..."

The hoofed shovel took over the small jade bottle that was spurred away. The old pig essence opened the cork in the first time, and poured out a main atmosphere that exudes a rich universe, and the surface is still covered with a layer of dreamy colorful smog. Bao Dan. This

At the moment, even with the cultivation and the state of mind of his sage, the old pig's breathing was immediately rushed, and the mouth was chilling. After saying a few sentences, it was actually on the spot... This is clearly exciting. Can't tell the rhythm! "

OK, don't blame the star master for not reminding you that this twenty-six-level Baodan can help you break through to the realm of the universe, and when you hit the bottleneck of the realm, time will not be delayed for too long..."

Seeing this old guy excited like this, Ye Xuan couldn't help but worry, and quickly reminded him: "But this Dan must be swallowed after the 9th order of the Sacred Realm. Otherwise, if you can't help but swallow it in advance. Now, what happened at that time, don't look for the star owner to cry..."

Chapter 4479: Fifth-order sage

"Hey..."

I am not arrogant, don't say that when Bao Dan arrives, the old pig I want to swallow it now..."

Ye Xuan's words obviously spurred the old pigs. The old guy was full of anger and anger, and he had a long hair on his back, but he did not refute anything. He was also a bachelor and admitted directly.

"No, the old pig I have to go to retreat, obviously in front of you to break through the Supreme Court, now you are in this fourth-order, the old pig I am still a first-order, so go on, the more you are throwing the farther away After all, can the Year of the Monkeys swallow this twenty-sixth-level Baodan?"

I really want to go on like this, not to kill the old pigs..."

When he finished, he slammed his hoof and immediately rushed away from the distance. versus

At the same time, his unbearable voice is still coming from afar: "The violent brother, this source of the nest base will be handed over to the old pig, I will be, even in the retreat, there will be any changes, will be the first time to come out... .."

You take a break and hurry to get the blood of the master of the universe. When you go, you don't have to greet the old pig. I am in a hurry, and I am a hard-working brother..."

When I didn't finish the talk, my body shape had already gone, and I had no shadows. I didn't know where to go to the top control room of this giant plug.

Seeing this scene, Ye Xuan shook his head and smiled, and turned and rushed to the other direction. he

It is indeed decided to leave soon, but before leaving, there is still one thing to do, that is to repair the strength and break through a small step again.

Soon, Ye Xuan's physique spurred into a rolling mountain range.

Life giant plugs now have one-third of the source nest stars, and the interior uses folding space technology, so even if it is only one layer, it is vast. leaf

Xuan found a valley in this mountainous region, and then hesitated without hesitation. He directly sacrificed Shennong Ding in a wave of hands, and walked into the Shennong Dingkou where he was carrying a colorful mist. He sat down on the knees...

"Hey..."

In the next moment, the sound of the road broke through and turned into a mans hanging in front of Ye Xuan, all of which were the cultivation resources that Ye Xuan took out from the immortal world.

In addition to a large number of other cultivation resources including the colorful medicinal herbs, such as the evil source liquid, etc., it is dazzling and fascinating. After doing all this, he directly promotes the field power of Shennong Ding. will

All the cultivation resources are compressed to the size of the baby fist only, so that it is easy to swallow the belly directly!

At this point, the new round of breakthroughs has finally begun to fully develop..."

哗啦啦....." are

In the meantime, the overwhelming sound of the chain rang in Ye Xuan's body, and this time there was only one chain of shackles. This

It is also expected, after all, he has just ushered in a two-time break. With

After all, there is no need to say anything. Ye Xuan is eager to mobilize the energy that has just formed in the body, and to carry out a major Sunday operation in the whole body of the body, thereby accumulating strength. a few

As the sky passes by, when all the energy is refining, it is only a shock, and the chain of shackles that appears in the body is immediately interrupted.

With the complete collapse of this shackle chain, the expected system sounds, and soon in the mind of Ye Xuan...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the fifth order of the universe!"

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: the fifth order of the universe...."

Fifth-order sage!

This breakthrough will undoubtedly make Ye Xuan's combat power rise again. on

After a breakthrough, his deity's cultivation is the fourth order of the sage. Once the blood of the ancient konjac is activated, he can climb to the fifth level.

If you use the konjac and change the magical powers and reach the ninth change, the combat power will immediately rise to the fifth stage of the universe!

But after this breakthrough, now that Ye Xuan activates the konjac blood in the body, he will have the sixth-order cultivation of the sage. If

It is to display the \*\*\*\* magical power of the konjac and change it, and directly enter the ninth change. Its peak strength can reach the sixth stage of the universe. This is the peak of the mid-term, and only one step later, it will enter the late stage. The sacred person. Do not

If you count the power of the horrible blood in the huge body of 60 million miles in the ninth state of change...

The peak strength that Xuan can now achieve will be able to compete with the seventh order of the Lord of the universe, that is, the eighth order of the Lord of the universe, the ability to be unbeaten, only to encounter this situation, the nine-order great perfection, that is, half a step When you are supreme, there is a threat! level

After reviving the excitement, Ye Xuan grew up and took a step from the Shennong Ding Ding mouth with a colorful mist. Then it was easy to wave the hand and directly into Baoding. do

After all this, he did not bother the old pigs. This old guy was really stimulated, and in addition to the excitement, the twenty-six-level Baodan that had already arrived, for him, was a kind of motivation.

Next, during the period of the source nest camp, the old pig's temper, if nothing else, will not go out, but has been biting his head and retreating.

Ye Xuan believes that perhaps the next time he comes back, the old guy's cultivation is even if he is not the owner of the universe. I am afraid that he should enter the late period of the universe.

For this, he is quite optimistic about the old pigs. After getting a twenty-five-level lord Baodan, the old guy broke through the sixth stage of the emperor's immortality to the first step, and the speed is also very fast. Did not let Ye Xuan disappointed...

Soon, Ye Xuan walked out of the top general control room of the Longye Life Juge, originally intended to leave, because whether it is the 20,000 magical elite headed by the sea, or the eight King Kong, Feitianyu and Jubilee Blame and wait for the genus.

Not long before Ye Xuan issued a large number of top-level cultivation resources, especially after the nine-color magical medicine they had never seen before, they all entered the retreat with great enthusiasm...

Even the more than 10 million beasts of the beasts, except for the exact rotation, are basically all in the vast area where the life giants are open, and each of them squats and retreats.

Don't look at this source nest star is huge, the demon powerhouse and the starry beast are also very numerous, but in fact, it has always been extremely quiet, all the genius in the base camp, the main daily state is Retreat. This

In this case, Ye Xuan is also boring, but it is better to start the journey sooner...

However, what surprised him was that Ye Xuan was just out of the top control room area of Life Juss, and did not wait for the star surface of the source nest base camp. An unexpected figure appeared in front of him, as if he had been special Waiting for him here...this

The figure is not someone else, it is the Yingtai that Ye Xuan has always ignored.

Speaking of her, Ye Xuan's feelings are quite complicated. From the first time to the first time, the two have actually had a lot of unhappiness.

Later, because the National Emperor of the Immortal Dynasty arranged for Yingtai to follow him, Ye Xuan did not refuse at the time. This situation has continued until now...

Chapter 4480: Call of the underworld

"What?"

Looking forward to Yingtai, Ye Xuan frowned frowningly: "If there is nothing to do, the star is mainly traveling..."

Yu Yingtai, he still doesn't want to be too touched, but since the other party is the emperor of the immortal dynasty, he has been arranged by his side, and since then he has been well-behaved and has no change. Ye Xuan is too lazy to pay attention. She is gone.

More importantly, with his current cultivation as a strength, even if there is any misconduct in the British and Taiwanese, Ye Xuan can completely ignore it. root

This is not a layer of existence. thing

In fact, even the emperor of the immortal dynasty came here, facing the present Ye Xuan, the situation is probably the same.

Emperor II is stronger, but according to Ye Xuan's analysis, it should not be possible to be strong in the realm of the universe.

"I am the king..."

Nodded, Yingtai suddenly said such a sentence.

Ye Xuan, suddenly, a little inexplicable feeling: "I know, what happened?"

"The kingship exists, and the gods are extremely powerful..."

Yingtai's face was still calm and calm, and then said: "In fact, just entering this piece of Hong Kong's emptiness, I have a kind of sense of God's sense of emotion. It seems that there is something that is calling me..."

Only when it was still weak, the perception of the gods was weak, so it was not very strong. ""

However, as these years have become more and more powerful, especially after the immortalization, because of the power of the gods, the power of summoning that I feel is also growing stronger and stronger..." "

After the seal of the king, the summons sensed by my gods will appear almost every once in a while, very strong... So, this time, can you leave with me? I have a hunch that you can find the source of the power of summoning as long as you go out and walk! "

"The power of summoning in the dark?"

Xuan did not expect her to find herself, and said that it was such a discourse, and suddenly frowned.

The strong star of the sky, after the immortality of the seal, especially after the immortalization of the king, the consciousness of the gods is greatly improved. This is naturally known. From this perspective, there is no loophole in the words of Yingtai.

But in fact, for her words, Ye Xuan subconsciously did not believe.

She and the same is also because of the sense of a certain summoning force, so that the bloodiness of leaving is different, even different from all flesh and blood.

Yingtai is not a flesh and blood. She is a celestial family. Since it is not a flesh and blood, how can we feel the so-called \*\*\*\* call? when

However, the Tianji nationality is now a very strong ethnic group, but it is born after the birth of the new generation of ethnic groups, and here is the emptiness of Hongmeng, ancient and incomparable, how long does the Tianji clan be born? How can the British Taiwan feel the so-called summoning power here?

Unless... brain

The thoughts flashed in the sea, Ye Xuan's face suddenly changed, and the shackles also appeared in the cold: "Don't the celestial family... have also entered this piece of emptiness?"

If Guo Yingtai does not lie, then this is the only possibility! and

Moreover, the Tianji people have disappeared for many years in the three major star planes of the world. Now, even Ye Xuan has entered this Hongmeng void for more than ten years. The disappearing Tianji people have also entered the Hongkong void because of certain opportunities. It is entirely possible. miss you

At this point, Ye Xuan's faint glimmer of light flashed, and immediately raised his vigilance. Take

His current cultivation is the strength. If the blood of the konjac in the body is transformed into the ninth change, the peak power that can be possessed has even reached the sixth order of the Lord of the universe, and one step further is to enter the universe. The Lord is late.

Even so, for the Tianji family, Ye Xuan is not afraid to take it lightly. One

The aspect is because of the habituality. After all, the Tianji clan has always been regarded as a true enemy in the subconscious, although it is not as good as the blue sky, but it has never been ignored.

In addition, the patriarch of the Tianzu nationality has always been mysterious. Although his cultivation is not likely to reach the realm of the universe, it is necessary to know that the Tianji family has disappeared for so many years. In recent years, Ye Xuan himself The cultivation of strength has generally increased substantially in the skyrocketing, and even the army under the account has long since reborn, far from being comparable.

However, he can do this. Why can't the emperor of the family be able to do it, and is it that the people of the heavenly family are destined to stay in place?

This is a very difficult race. Emperor Yi was only a robot created by the pioneer of human science and technology. In just a few tens of thousands of years, he could have such an amazing scene later and become the third generation in the world. The sole overlord of the main plane of the starry sky. very

Even the entire Terran cannot compete with it alone. It must be united with other ethnic groups in the Second Universe to establish the Federation of the Vatican in order to be comparable to it. It can be seen that the Heavenly and the Emperor are terrible.

If it is true that Emperor Yi also took the entire Tianji nationality into the void of Hongmeng, even if it was just the emptiness of the piece of ruined land outside the emptiness of Hongmeng, with the rich resources here, the development momentum of Emperor Yi and Tianji will be incomparably amazing. Now

It is really difficult to predict what has grown into a situation.

"Not a celestial family..."

However, what makes Ye Xuan unexpected is that his words have just been finished. The opposite Yingtai will not hesitate to shake his head immediately. His tone is even more uncertain: "I feel the power of summoning, and it is impossible to Related, because... I am not a Tianzu nationality now, I am a mechanical family!"

what? "

"Mechanical family? Emperor's mechanical family?"

This answer made Ye Xuan feel very surprised. For a long time, Yingtai was a matter of the Tianji nationality. He clearly had already decided, but now the other party suddenly said that he was a mechanical family. This suddenly made Ye Xuan a little confused.

Although the Tianji and the mechanical family are the same, the intelligent robots are born with self-awareness and then evolved mechanical life, but... the Tianji family belongs to the emperor, while the mechanical family belongs to the emperor. Two

People are originally deadly enemies of fate, and there is absolutely no need to talk about each other. In this case, how can the British and Taiwan as a mechanical ethnic group be mixed into the heavenly family? The emperor can't even detect this...

"In the beginning, I was indeed a celestial family, but... Later in the imperial dynasty of the imperial capital, the patriarch, that is, the national division emperor II, I have modified my core source code. From then on, I am no longer The Tianzu ethnic group, but the mechanical family!"

Seeing Ye Xuan's face, the face of Yingtai is still very calm, and with a few words, I will explain things clearly. tight

Then, after a slight meal, she went on to say: "And the command of the patriarch to let me stay with you is to protect you, but now it seems that this order is meaningless, so please take me away. Go, I want to enter Hongkong's void to find the call in the midst..."
