

Super D.S 4481

Chapter 4481: Grinding itself in the **** battle

"It turned out to be..."

After the words of Yingtai, Ye Xuan stunned, and then his face showed a faint color.

As English and Taiwan say, he naturally understands it completely.

Ye Xuan also has an electronic avatar, and if there is no accident, the electronic avatar should have been lurking to the base camp of the Emperor's mechanical family. Place

Therefore, for the electronic life of the Tianji and the mechanical family, Ye Xuan still quite understands.

The so-called electronic life, although their bodies are equally important, need to undergo repeated transformations, so that the specific form of their existence, that is, the physical body, becomes more and more powerful.

But for electronic life, the real core of their existence is actually a series of intricate data sources.

The mechanical body can be changed at any time, and can be changed again and again to make it stronger, but this complex and incomparable data source is the root of their consciousness, just like the soul of flesh and blood. Make

For the patriarch of the mechanical family, Emperor II has this means, and it is naturally understandable to change the core source code of Yingtai.

After the change of the core source code, Yingtai, just like the soul of the flesh and blood is changed, naturally it is no longer the former Tianji, but like a soul change, become a mechanical ethnic group...

After all these things were realized, Ye Xuan suddenly thought of something, and once again, the singer was flashed: "So, the power of summoning that you feel should be related to the mechanical family? Is it... Second, with the mechanical family, has entered this piece of Hong Kong void?"

Do not! Nor is it a mechanical family..."

Let Ye Xuan once again feel that this time, Yingtai actually shook his head again, and both the look on his face and the dawn in his eyes were equally firm and hesitant. He obviously did not hesitate for this. !

This next Ye Xuan is not happy, there is a feeling of being played, and I am surprised by the fact that my heart is almost ups and downs, and for a long time, people are simply arguing! "

You fool me? "eye

When the light flashed, Ye Xuan's face was gloomy in an instant, and the tone also revealed a strong sense of inferiority. He did not breathe in a good voice: "It's not a Tianji family, not a mechanical family, but it's insisting that it feels like a call to the soul. The power, hey, you are an electronic life, can you have other blood groups?"

"No, but I can be sure that the power of summoning is really irrelevant to the Tianji and the mechanical family..."

In the face of Ye Xuan's doubts, Yingtai was still insulted, his face was always firm, and he shook his head. After a short pause, he continued: "Accurately, this power of summoning makes me feel the scent of the Creator. It... It should be from the Creator, he is still alive, just inside this piece of emptiness."

"The Creator? What is it?"

Ye Xuan once again stunned, subconsciously returned a sentence, then changed his face: "You mean... star blog?"

This is obviously the only answer. no

Whether it is the Tianji or the mechanical family, they are all created by the pioneers of the human race. In fact, even the patriarchs of these two families, the emperor and the emperor who stood at the top of the electronic life peak, were created by Xingbo. of. Such as

Therefore, for all electronic life, Xingbo will undoubtedly wait for the supremacy of the creator of the creation. Whether the Yingtai is a celestial or a mechanical family, it is meaningless to call him the creator.

Moreover, as a member of the life group created by Xingbo, Yingtai feels his breath, which is also a normal thing.

Ye Xuan thought of all the possibilities before, but he never thought about this, because in his cognition, the pioneer of the Terran technology pioneer has already fallen, and he has died for tens of thousands of years.

If the non-Emperor rebelled against the Terran, killing Xingbo, and revolting with the Tianji clan, how could the big situation of the three major stars in the world evolve into later?

I am afraid that even the Federation of Viro will not appear! This

Everything, in the three major stars of the world, is a well-known thing!

But now, Yingtai and Ye Xuan said that he felt the breath of the electronic life creator, and there was a strong summoning power in the dark, guiding her to pursue it...

It's amazing!

If Star Bo is not dead, how could it be possible to let everything happen later? How could it let the Emperor take the increasingly powerful Tianji family and eventually dominate the three major star planes?

Even the entire Terran has been driven out of the first universe that originally lived, and moved to the third cosmic plane later...

Knowing that Xingbo claims to be the pioneer of the Terran technology, the meaning represented by the entire Terran is just like the **** of technology. If he really does not die, he witnessed it all happening, and he was indifferent, for the whole Terran...that It is tantamount to the collapse of faith. where

I am afraid that Ye Xuan does not belong to this square, but from other places, but this kind of thing is still unacceptable to him, not to mention the tribes of the three star-studded main planes.

It's not easy to calm down the excited mood. Ye Xuan took a deep breath and looked at Yingtai again. The look on his face was extremely dignified: "You are really sure, this feeling of summoning power, is the so-called creator star?"

No, I am not sure if it is the Creator himself. This is just my intuition, a very strong intuition..."

Yingtai shook his head: "But I can at least be sure that this power of summoning is absolutely related to the Creator, and definitely not a celestial and mechanical family..."

"Okay, just that is enough!"

At the end, Ye Xuan suddenly waved his hand: "This time, the star master will take you out together. Every once in a while, you will be released. Hope, you can find the source of this power of summoning."

call out! "With

With a faint sound of broken air, Yingtai's figure disappeared in front of his eyes and was accepted by Shen Xuan. which is

I decided to take this **** with me, but Ye Xuan still can't always let him follow him. After all, Yingtai's current cultivation is only the realm of the king. It is no exaggeration to say that in today's Ye Xuan, She is a bit of strength, and there is no difference between being serious and cumbersome. do

After all this, Ye Xuan's figure swayed. When he even rushed out of the star nucleus of the source nest star, he came to the base camp and rushed straight into the void. His body shape disappeared.

This time, he is going to go to the forbidden forbidden and the supreme star field around the Milky Way.
Now

In Ye Xuan, if necessary, the strongest force can already exist in the late terror of the Lord of the Universe. It is not only the primary to the strong forbidden land, but also the intermediate to strong forbidden land, and can move around at will.

So, it's time to go out and temper and temper yourself in the **** battle...

Chapter 4482: Blood sea

Blood sea ban, a middle to strong forbidden!

However, unlike other intermediate-to-strong forbidden places, although there is the existence of the main level of the universe in the **** forbidden land, it is only one. very

As for the **** sea master who sits in the **** forbidden land, there is no other living creature in this vast forbidden land void!

Maybe there have been before, but now, all of them have been swallowed up, and turned into the blood of the Lord of the Sea of Blood! blood

The cultivation of the Lord of the Sea is the same as the peak state that Ye Xuan can achieve now, and it is also the sixth order of the universe.

In fact, his body is a **** sea. It is said that during the last Hongmen era, he had created the most powerful demon **** Pangu in the wild, and the blood of a body after the explosion of the body.

At that time, Pangu, sitting on the law of the power of the wild, was the most powerful existence of the five thousand devils in the last Hongmen era.

He held a giant axe and opened the sky and the earth. From then on, there was a flood of heaven and earth.

However, after the opening of the sky, the floods were also exhausted, and the flesh and the gods were all collapsed. Among them, there was a smear of blood, spattered away, and landed in a deserted starland somewhere in Hongkong's void.

After the endless years, this awning blood gave birth to the meaning of the self, slowly growing up, and now, has reached the level of the Lord of the universe, claiming to be the Lord of the Sea of Blood.

In the previous world, the Lord of the Sea of Blood was only a smear of the most powerful demon **** Pangu in Hongmeng, but this time, the new Hongmeng era will come, and the Lord of the Blood Sea is not only the blood of the Chaos Devil. Yes

In the past, there was no endless years, he also tried to find the source nest stars that gave birth to this era of Chaos Devil in this piece of Hong Kong.

Unfortunately, in the end, it failed. The source nest stars that he found, the chaotic seeds in his stars, have all sprouted. As a result, these source nest stars are all protected by the power of an invisible law of Hongmeng. Like the Milky Way star field where the parent star is located, with his cultivation as the strength, it is impossible to break open. Lost

Under the hope, I could not get a source nest star, stealing the **** sea of Ji Hongmeng, and rushed to the Milky Way star field, occupying a place in a certain area around it. The vast Hongmeng void, claiming to be the owner of the blood sea, listed the area as a **** forbidden place! by

Since he possessed the power of the Lord of the universe, since then, there has been an intermediate-to-strong forbidden land among the many forcible forbidden areas around the Milky Way. when

In the thousands of fierce beasts in the **** ban, there are still a lot of starry beasts, but as the Lord of the Blood Sea settles in the void, it is banned from the **** forbidden land, just a few million years old. All the starry beasts in the thousands of fierce beasts in that area were all swallowed up by a **** sea. and

The cultivation of the Lord of the Sea of Blood is the fourth step of the Lord of the Universe before the age of 10,000 years. Do not

However, since then, there have been no other creatures in the **** forbidden land. Only one piece of time is big and small, and the fierceness of the sky is boundless. This piece of boundless blood is the body of the Lord of Blood. This

In the past few years, almost no living beings have dared to enter the **** ban, because all the stars and beasts that enter them, or the ancients and the remains of the ancients, will be swallowed up by the boundless fierce blood and turned into the Lord of the Sea of Blood. Self-cultivation of strength and flesh and blood...

Of course, the Lord of the Sea of Blood did not think about going to the banned land, going to other starry bans to devour and hunted, but even with his fierce flames, this kind of thing would not be easy. complete

In fact, the strong forbidden land around the Milky Way star field is not a minority. Although he is fierce and powerful, he is not invincible. If he comes to the cosmos of the late universe, he will crush him. He simply Not afraid to cause public anger... blood

The sea ban is the next goal of Ye Xuan! in

In the state of the ninth change of the konjac, Ye Xuan's peak power is also the sixth order of the universe, but because of the horror of the horror body of Pangda's 60 million miles, the real power is Will be able to compare with the seventh order of the Lord of the Universe. Such as

In this case, the choice is to be the main force of the sixth-order blood sea of the Lord of the universe as an opponent. Once the war is unfolded, Ye Xuan can also dig out his own potential under the premise of ensuring victory over the other side. , will be hearty, will certainly be able to play what he expected to honed himself in the **** battle!

In addition, Ye Xuan chose to ban the **** sea, as another goal, there is another reason.

Nowadays, under the state of the ninth change of the konjac, although the peak power can reach the sixth order of the universe, even because of the terrible blood, the final combat power can even be compared with the seventh order. but

In the same way, the huge body of 60 million is huge, but it is very inconvenient.

If you encounter not only the casual exposure, but the need to maintain the sixth-order powerful repair of the universe, it will be a headache.

If you can keep the sixth-order combat power of the Lord of the universe from falling, the horror of the tens of millions of miles in the ninth state will be reduced, even if it can not reach the height of ten feet, but only reach the limit. High, for Ye Xuan, it is absolutely significant.

Even if it loses the power of endless blood in the body, the commission of the first-order situation of its comprehensive combat power, in Ye Xuan's view, is definitely worth it. One

The difference in the strength of a small order is sometimes not too important.

But whether the figure can remain hidden, but often has a crucial role and effect...

After understanding the essence of the ninth change of the konjac, Ye Xuan also took the time to re-examine the konjac and change the blood, and wanted to find a two-pronged strategy that would reduce the size but not affect the combat power. can

Unfortunately, there is always no result.

But the Lord of the Sea of Blood, let him see hope, he seems to have a similar blood secret. he

The body is the blood of a chaotic demon god, the name of the Lord of the Sea of Blood, the name of the Lord of the Sea of Blood, but according to the information that Ye Xuan learned, the Lord of the Blood Sea can be transformed into a piece. The vast and endless fierce blood, and can condense into a small drop of blood in an instant, easy and unstoppable...

Although the general starry sky, including the Terran and the Starry Beast, can also become larger and smaller, there are basically limits. Even Ye Xuan can't do a little bit of blood, and a canopy Between the endless blood of a vast expanse of stars, you can easily switch between them. by

It can be seen that in this respect, the Lord of the Sea of Blood still has a unique ability. As long as he can kill him and leave a soul to explore the soul, then Ye Xuan will be able to get this magical blood secret. Session

Then I will smash it into the **** magical power of the konjac. At that time, this powerful and incomparable blood and magical power can be regarded as truly perfect.

Chapter 4483: The third master blood

In front, it is the **** sea, even if Ye Xuan is still outside the edge of the **** forbidden land, it has been able to capture a **** atmosphere of the sky, from the front of the universe void, blowing in the face...

At this moment, he activated the blood of the konjac and changed into a starry sky, but did not provoke the state of the konjac.

The body is ten feet high, and the body's repaired breath is the sixth order of the universe! "

Oh..."

Under the sway, there is no hidden body shape, and even Ye Xuan, who has never had a half-confidence, has rushed into the **** forbidden land.

In an instant, as he rushed into the **** ban, the fierce and **** breath of the face was even more intense.

At the end of the line of sight at the end, there is a vast expanse of blood in the sky, and it appears in the sight...

Ye Xuan is also seen in the inheritance picture of the sacred Tianzhu and other ancient sacred gods. I have seen this kind of body like a huge star. where

I was afraid that when he saw the empty giant turtle in his life, the giant turtle at that time was not completely morphological. Although it was huge, it was only 60 million miles away from the current Ye Xuan in the ninth state. The giant is almost the same.

It can be said that in reality, Ye Xuan is the first time to see a single living being, and it has such a huge body shape, just like a vast star field. Will

It is Ye Xuan's huge figure of 60 million miles in the ninth state, thrown into this vast sea of blood, it is estimated that it is not too eye-catching...

"call....."

"Hey? A violent? The sixth order of the universe?"

At the time, with the arrival of Ye Xuan, the vast sea of blood that was still calm in the front, there was no wind and waves in an instant, and the blood of the sky was soaring, accompanied by a very cold voice of the gods, toward Ye Xuan swept through. "

How many years ago, no outsiders dare to enter the **** forbidden land? Speaking of it... The last time I swallowed flesh and blood, it was almost 10,000 years ago. "

"I can't think of today, I can devour a starry temperament that has been repaired by the cosmic sages. This can be really...the surprise!"

These voices of the gods are obviously from the Lord of the Sea of Blood. This guy, Ye Xuan, who will break into the **** forbidden land, becomes a flesh and blood.

"If you want to devour the Lord of the Stars, you have to see if you have such a good tooth and say... Don't turn around and be swallowed up by the Lord!"

The konjac nine changes... the ninth change! ”

After the words of disobedience came back, the next moment, the roar of the roaring sounded, and there was a huge explosion in the starry sky. One

If you don't have enough interest, your body size will have skyrocketed!

The speed is so fast! body

The power inside is even more like the roar of the big river, the enthusiasm of the extremities in the limbs! no

In the form, there is a horrible atmosphere of unimaginable temperament, half-interest, and the temperament of the temperament, which is only ten feet high, has expanded to a huge scale of 10 billion feet with a horrible speed. That is 60 million miles!

Moreover, while the body is skyrocketing, the temperament of the violent body is also cultivated as a breath, and it also climbs up. From the previous universe, the sixth step of the sage, the blink of an eye has reached the sixth stage of the present universe! This

Everything happened too fast, a dazzling time, a sixth-order sage, turned into a sixth-order lord, repaired as a strength in the less than half-time, it crossed a big realm, simply Unbelievable, unheard of! ”

Ok? Is this the power of blood and blood? "Look

In this scene, in the boundless blood of the waves, another horror sounded. The Lord of the Blood Sea seems to be the **** secret of the moment when Ye Xuan suddenly shows up. Born an interest. short

After the temporary silence, a roar of endless unwillingness and excitement came out from the boundless blood of the front: "Hey! This is not fair! If you want to talk about the size of the body, how can you compare with the Lord?" ""

But why, after your body has skyrocketed, the strength of repairing has also skyrocketed, and it has directly climbed to a big realm, and the Lord has such a vast body of blood, but no matter how it changes, it is vast and sturdy. There is no change in strength..."

"This is unfair. The Lord is the smear of blood in the body of the most powerful demon god. The blood is noble and incomparable. Why can you have such a magical **** secret when you are a little violent, and the Lord... Can it only get bigger and smaller and swallow it?"

Roar.....'''

But it doesn't matter, violent, as long as the Lord swallows you up, you can naturally get the magical secrets that you have mastered, oh... I can't think of today, but I lost the pie in the sky and made such a big deal! ""

call.....'''

Oh la la..."

"Boom!"

The sound of the last gods came out, and in the vast sea of blood in front of it, countless giant blood waves exceeding the giant stars began to rise.

Eventually gathered together to form a huge blood palm like a sky, and took it to Ye Xuan. "

The momentum is really amazing, so huge, even the body of the star of the 60 million giant, compared with this **** palm, is like a small point ..."

With the **** palm of the sky, Ye Xuan 眸眸眸,,,,,,,,,,,,,
 ,,,,,,, The breath of power, but still has not
 changed, it is still the sixth order of the universe..."

"So, it is doomed to the end of the cup! Today, the star is mainly harvested... the third **** master!"

boom....."

After the last sentence was finished, Ye Xuan did not hesitate any more. Under the sway of the body, he did not retreat, but rushed to the sky with the blood of the sky. right

The arm was lifted at this moment, with a ruin of the earth, suddenly blasting upwards.

"Booming..."

The sound of the sound of the sound of the sound of the earth came, facing the face of Ye Xuan can be shouldered with the seventh-order lord, this huge **** palm like a vast, instantly collapsed.

Not only that, even the entire vast sea of blood connected to the wrist under the blood palm is like a huge explosion inside, and countless **** waves are splashing. Such as

This majestic, like a star-like endless blood sea, was actually beaten by Ye Xuan, and it was no longer connected.

Roar! "

"This is impossible... violent, you actually hurt the Lord?"

Almost in the next moment, the Lord of the Sea of Blood screamed with anger and anger, although there was endless anger, but there was also a clear fear and uneasiness. only

Just a blow, his **** body has been torn apart, although he can re-converge again, but now, he was hit hard under this attack, repaired as the strength fell to the fourth rank of the universe, the situation Too optimistic...

Chapter 4484: Actually stared at

With only one blow, the **** sea of the Lord of Blood and Sea is divided, and its own has been hit hard. The original sixth-order cultivation of the universe is the ultimate strength, and immediately fell to the fourth level. although

It is said that the **** body of the split can reunite, but in this case, in the face of a horrible temper with the seventh-order combat power of this situation, this kind of returning to the general recovery, and then re-opening the **** sea body, The opportunity to regroup into one piece... I am afraid it is hard to have it again!

"Oh! I'm violent, you hurt the Lord..."

"You can't escape, really do not know your origins? Hehe..."

"Before you know it, just confuse you. Soon, you will fall into the trap..."

In front of the **** sea, the screaming laughter of the Lord of the Blood Sea sounded again, revealing a strong smug: "This is also your own search for death, who is not good, actually found the Lord... ""

You must know that the subject of the Lord is an endless blood sea, and the vitality is too strong. As long as this **** sea still exists, the consciousness of the Lord can have a steady stream of energy, and you can't kill me. "

"At least, before they arrived, there was absolutely no such thing..."

"Roar....."

In the end, a screaming roaring out, in the vast sea of blood in the front, five figures slowly stood up from the blood of the sky, and finally turned into a **** demon with a five-headed body and the current Ye Xuan. Minute

In five directions, all of them have a small blood sea support. actually

However, I was trapped in Ye Xuan, surrounded by...

"So, the star looks like someone is eyeing?"

In the words of the Lord of the Sea of Blood, Ye Xuan was obviously quite surprised, but after a little thought, he immediately became stunned. Both

However, the previous things have already been revealed. After the news spread, it is also a good idea to be remembered. After all, in addition to the threats he represents, Ye Xuan's hands can immediately make the strength of the cultivation of a big realm. The secret law is also very eye-catching. Photo

So speculative, now he, I am afraid that has been stared by many of the cosmic masters, most of these guys have secretly reached an agreement.

The words of the Lord of the Sea of Blood also prove this point. He should have sent the news of Ye Xuan's arrival with some secret method, and the other cosmic masters will soon come. Session

At the time, if it is under heavy encirclement, Ye Xuan will probably encounter an unprecedented crisis...

Although he has the ability to jump in interstellar coordinates, if there are many cosmic masters who shoot at him at the same time, it may not be able to interfere and interfere with this jumping ability!

This risk, Ye Xuan can not take it, and does not want to take it. Place

Therefore, he must solve the Lord of the Sea of Blood as soon as possible, and then take advantage of the other cosmic masters who have not yet arrived, and immediately withdraw from the distance..."

The Lord of the Sea of Blood, but it is so disappointing, and in this case, everything... should be over! "

"Boom!"

In the mouth of the cockroach, a voice of ignorance and disdain reveals the sound of the gods. At the next moment, the shoulders rushed out, and the speed reached a horrible level. The blink of an eye was already on the side of the **** demon.

"Hey..." and

At the same time, Ye Xuan's body also rushed out a few awnings of colorful fireworks, and the wind will rise. The blink of an eye has turned into an endless sea of fire, and the five blood-colored demon gods surrounded by him. All trapped, and instantly separated them...

For a moment, the violent rushed to a figure of a demon, punching out!

"boom!"

There was no suspense in the following, and a huge roar of sound rang from the air.

At this moment, the incarnation of the **** demon **** of blood, the cultivation of strength has fallen to the fourth order of the universe, in the face of the violent temperament of this seventh-order combat power, he did not even have a chance to mourn, The huge body suddenly exploded. Are

Between the moments, its huge and horrible colorful body, it will be completely blown up for a gorgeous **** fog, and spread! "

call out! Knot

With all this, the violent wave waved in the first place, and a huge invisible instinct was rolled out from the body, covering a radius of ten thousand miles. just

The **** fog that had just spread out was swept away. After being in the body, it was immediately sent to Shennong Ding by Ye Xuan, and the blood was refined.

It's just an incarnation of the Lord of the Sea of Blood, and there are four more! leaf

Xuan did not stop, the huge figure disappeared in the same place, and the blink of an eye appeared behind the second blood-colored demon, which was also a simple punch, and then waved his body to explode. Blood, income, body...

In a blink of an eye, there are only three of the five **** devils of horror. Look

To Ye Xuan is so fierce, these three blood-colored demon gods finally show the color of panic and panic, and if they don't say anything, they just want to turn around and walk away.

One of the blood-colored devils seems to be tempted, and rushes directly into the nine-colored sea of fire that surrounds him. "

what.....""

Hey! "a few

At the same instant, a fierce and fierce sound rang, the huge figure of this **** demon, under the roast of the Shennong nine-color flame, is just like the snow and ice of the sun, just in time In the endless unwillingness, the melt completely disappeared. This

One scene was too horrified, and the other two blood-colored devils were scared to be sluggish on the spot, and they simply did not dare to move. and

Ye Xuan did not stop. The horror figure of Panda's 60 million miles flashed twice in a row. Within a short period of two, he rushed to the side of the two **** devils and punched him with a punch... ..

"call out!"

After the end of everything, Ye Xuan waved his hand, and the nine-color flame sea in the void was instantly turned into a flame, and rushed into his body. tight

Then, as he waved his hand again, the **** seas that were torn apart in the void were all wrapped up in an invisible force. They were included in Ye Xuan's body and sent to Shennong Ding for the first time. Refining...

At this point, the blood of the master of his possession has finally reached three, and it has already passed halfway. Just two more, you can ensure that a twenty-seventh-level supreme treasure will come!

Time is tight, and the realm of the universe summoned by the Lord of the Blood Sea exists. I don't know how many people, but at least it's not one, not too risky, and it's still..."

After doing all this, with Ye Xuan mouth whispering, he activated the interstellar coordinate jumping ability attached to the internal system for the first time, and this time the locked coordinate jumping point is not near the source nest.

It is the source of the nesting stars that gave birth to his strongest strength..."

call out!"

Soon, with the activation of the interstellar coordinate jumping ability, a faint sound of breaking the air immediately sounded, Ye Xuan's huge body shape, and the blink of an eye turned into an almost undetectable milli-man, under a flash, I just disappeared...

Chapter 4485: Hidden danger

Ye Xuangang left soon, less than an hour, from a few different directions around the **** forbidden land, six body types, but the entire body shape is shrouded in a smog of light and shadow, continually spurred... ..This

It is the Lord of the six universes, and the strength is not weak. They are all above the fifth level of this situation. After rushing in, they did not hesitate, and they immediately plunged into the **** forbidden land.

Among the six, there is even a horror of the nine-order grand perfection of the universe, that is, the strongest of the half-step universe. These six strengths can be described as powerful existences, all of which are received by the Lord of the Blood Sea. After the message was delivered, it was rushed over. he

All of them came from the middle-level strong forbidden land in the surrounding stars, and even the high-level forbidden land, but at this moment, the six figures are all covered in smog, and there is no specific origin. It

Therefore, the arrival of the United States is obviously not only the murderous killing of Ye Xuan, but has already caused their vigilance, and even can feel threatened!

As the powerful master of the universe, if it is just because of this, I am afraid that I will not pay attention to this kind of other people's business. he

Their real goal is the **** magical power of the konjac that Ye Xuan has in his hands. Out

For greed, the six powerful cosmic masters arrived at the first time after receiving the message of the Lord of the Sea of Blood. Of course

However, they are still a slow step after all. After all, the distance is too far away. When arriving, Ye Xuan has already left.

At this moment, the six Lords of the universe did not find any clues after conducting some investigations.

They couldn't even find the clues of the fierce starry sky.

Such a result seems to have been unexpected. Under the frustration of the heart, the six powerful cosmic masters all fell into a short silence. Then, there was a deep voice of the gods, which sounded one after another...

"Our prey seems to be extremely embarrassing, afraid that it is not so good to deal with..."

"Yes, the last time I was in the Forbidden City, because the distance was too far, and I didn't prepare in advance, so when he left, there were three hours. I waited until the last half of the clues were not found, even I don't know where he is going."

This time, it is the same, but today, I have been prepared to receive the message from the Lord of the Sea of Blood. I arrived in less than an hour, but the other party... still left. ""

When the Lord of the Sea of Blood delivers the message, it is obviously not yet degraded. That is to say, in less than an hour, this violent, not only thunderous means, but also the host of the **** sea, even calmly leave"

"In such a short period of time, even if he has a strong space secret, it is impossible to leave a trace of it. It can be seen that this violent hand, in addition to that enviable moment, enhances the blood of a big realm. In addition, most of them still hold some secrets that we still don't know, which can make him stay in a short time, even between breaths... beyond the endless distance!"

Moreover, his cultivation is the strength, I am afraid it is not only the sixth order of the universe, so simple... You must know that the Lord of the Blood Sea is originally the sixth-order powerhouse in this world, and because of his particularity is the particularity of a vast sea of blood. His real combat power is almost as good as the seventh-order master. "

"But even so, it was still violently bombarded by this violent temper in a short period of time. It is inferred that the real power of this violent temper is at least seventh in the universe, and most of him. Palm has some powerful means of killing..."

You, we must be vigilant. This is a late-time master, even stronger than some of us. If it happens again, it will be difficult to wait until other people arrive..." "

More importantly, after this battle, with the fall of the Lord of the Blood Sea, he must search for the soul of the remnant, so that we enter the clear from the dark, the other party has already produced vigilance, even have I know who is in the dark, but who is secretly calculating him..."

"I don't know why, the deity... suddenly there is a kind of unpredictable feeling..."...

...when

The six secret secrets of Ye Xuanyi's cosmic universe gathered in the **** forbidden land that had already gone to the sky, and Ye Xuan had already used the interstellar coordinate jumping ability attached to the system title of the body's engulfing system.

In an instant, across the endless void distance, back to the depths of the Hongmeng Star, the source of the nesting stars that gave birth to his strongest strength...

In this piece of Hongmeng, Ye Xuan's branded interplanetary coordinate jump points are only two. One

One of the universe's voids near the source nest base camp, and one of them came here near the source of the nesting stars that gave birth to the strongest power.

At this time, with a faint flash of light, Ye Xuan's figure instantly appeared, but it was no longer the state of the ninth change of the giant konjac. and

It is restored to a figure that is only ten feet high. when

However, his cultivation is the strength, and as a result, he has fallen back to the fifth stage of the universe! light

Song unparalleledly left the **** forbidden land, Ye Xuan completely relieved, but the heart but inexplicably poured out a feeling of uneasiness.

At this moment, he thought of Yingtai, and therefore associates with the star blog known as the pioneer of the Terran Technology! he

The phagocytic system in the body is created by Xingbo. early

At the beginning, Ye Xuan was still in the three major stars of the world, and his own cultivation was the realm. When it was far from the current height, Ye Xuan had always been amazed and shocked by the power of the phagocytic system... ..even the feeling of stunned.

But now, as he enters the void of Hongmeng, his own cultivation is becoming stronger and stronger. This sense of shock has not only weakened, but has become stronger than before.

In this piece of glory, even the existence of the main level of the universe, can not be like him, directly start the inter-satellite coordinate jumping ability attached to the internal system, instantly across the endless void, reaching the brand where the interstellar coordinates are branded... ..

This shows how powerful the phagocytic system is.

In addition to being strong, Ye Xuan feels deeper, but it is still mysterious. Be

Xingbo, who is known as the pioneer of the Terran Technology, has been able to create such a thing that is against the sky. Then, what is his own cultivation as a strength... What is the realm? change

In a word, if Xingbo is really strong enough, how could he be betrayed by Emperor and then killed? If

That is all that is false. If the feelings of Yingtai are correct, then what is the purpose and scheme of Xingbo?

Is it really as the phagocytic system itself said, just to scale and cultivate the strong elite of the Terran?

For this, Ye Xuan never doubted before, but now, with more and more doubts, he is increasingly uneasy about his body's engulfing system. can

Unfortunately, with his current means and abilities, he can't trace the truth at all, and he has no place to start...

Chapter 4486: Perfectly perfect

After some entanglement, Ye Xuan could only sigh and shake his head to throw away these chaotic messes. For the time being, he did not think about it. He decided to start the soul search for the soul of the blood sea master!

"call out!"

Under the sway, the faint sound of the empty air rang, and Ye Xuan circled the source nest star that gave birth to his strongest power, and determined that everything was as old as there was no abnormal situation.

Then, in the sudden sigh of his heart, he directly plunged forward to the front, fully speeding up, only a short period of half a day, in front of the universe, seeing an abandoned star. No

Any hesitation, directly into the star nucleus inside the stars, sit down on this knee. Search

The soul unfolds instantly and soon has a result.

Among the remnants of the Lord of the Sea of Blood, there is nothing that Ye Xuan wants. One

On the one hand, it is the head of the universe about other intermediate-to-strong forbidden places. He has already targeted him and formed alliance intelligence in a small circle. blood

The Lord of the Sea was not originally a member of this small circle alliance, but because he was alone, it was highly recognized by nearly ten cosmic owners in that small circle that it would be the target of violent attacks.

Therefore, the guys informed the Lord of the Blood Sea about this matter, and they were asked to pull him into the gang and gave a promise. If the Lord of the Sea of Blood made a contribution in this matter, then he would be violently robbed and captured. The upgrade is a powerful secret of strength, and he will have one. blood

The Lord of the Sea did indeed pass the message out in the first place, but unfortunately still underestimated the strength of Ye Xuan, and eventually fell to the end of being killed.

Moreover, after the killing, as his remnant soul was searched by Ye Xuan, more than a dozen cosmic masters in that small circle were completely exposed to Ye Xuan.

For which of these guys came from the strong forbidden land, how to cultivate the strength, the basic situation of the Xingqiang forbidden land, in his remnant, all have detailed information...

In addition, the Lord of the Sea of Sea, as the master of a powerful universe, understands the extent of all the strong forbidden and the Supreme Stars that are on both sides of the Milky Way, and is not comparable to Ye Xuan. Now

In fact, all of this is known by Ye Xuan.

For him, this is definitely a big gain, and the intelligence he has captured is too crucial for his next move. and

In addition, through the resurgence of the Lord of the Sea of Blood, Ye Xuan also has a major gain, that is, the blood of the sea is turned into a **** sea, and any change, the hour can be as small as a drop of blood. When the time is big, it can be as big as the mystery of a star field...

For all of this, the remnants of the **** sea have all the detailed information. After Ye Xuan has printed it, he directly throws a bone into the body's engulfing system, and let the system make it with itself in the first time. The magic 猿变变变血血,,,,,,,,,

After completing all this, Ye Xuan sighed with a sigh of relief, sinking his mind into it, and urging the horror of his own universe to the extreme, with the deduction!

With the cooperation of Ye Xuan's powerful knowledge, it was only two days, and everything was completed. original

This has been realized by Ye Xuan to the ninth change of the konjac blood, after the blood and sea secrets of the Lord of the Sea of Blood, finally reached the perfect, Ye Xuan did not like to control the **** state of the blood. The problem of the size of the lower body has been completely solved...

He decided to try the effect immediately! "

call out! "micro

The weak sound of the break sounded, with the excitement of the heart, Ye Xuan directly rushed out from the inside of the abandoned star that was hiding, and went to the outer universe. this

At this moment, his state is to activate the body of the konjac blood, but it does not provoke the state of the konjac nine blood vessels, the body is ten feet high, and the strength is the fifth order of the universe! "

The konjac nine changes... the ninth change! "a few

In the next moment, the roar of the roaring sounds, and there is a huge explosion in the starry sky! One

If you don't have enough interest, your body size will have skyrocketed and the speed is so fast!

The power in the body is rolling like the big river is roaring, and the limbs are screaming for endless fierceness!

Invisible, it is a horrible atmosphere of unimaginable temperament, half-interest, and the temperament of the temperament, which is only ten feet high, has expanded to a huge scale of 10 billion feet with a horrible speed. That is 60 million miles!

Moreover, while the body is skyrocketing, the temperament of the violent body is also cultivated as a breath, and it also climbs up. From the previous universe, the sixth step of the sage, the blink of an eye has reached the sixth stage of the present universe!

The next moment, with Ye Xuan's meditation, his original horror figure of Panda's 60 million miles quickly shrank, and it stopped until the top and bottom.

In fact, this is not the limit. If Ye Xuan is willing, it can even be reduced to only one drop of blood...

However, although the body shape has changed so much, at this time, only the person who has been succumbed to him, the body that is dispersed in the body, is still the sixth-order cultivation of the Lord of the universe, and does not fall because of the reduction of the body shape. . only

However, under the huge horror figure of 60 million miles ago, the first-order combat power that was endlessly tempered by blood and blood was disappeared. Do not

It doesn't matter at all. In contrast, Ye Xuan feels that the convenience brought by this type of body is more practical and affordable. heart

Under the head, he was even thinking again, this time it was getting bigger... short

A short breath, he has already narrowed down to the shape of Zhang Gao, and it has expanded rapidly in an instant. The giants of 60 million miles have not stopped, until the vastness reaches billions of miles, just like a small star field. Only under the influence of Ye Xuan, stopped.

But this is still not the limit. If

If he is willing, he can continue to expand now, until he is comparable to a large domain.

In this way, although it has not reached the level of the size of the hollow giant turtle, it is not too much..."

This is not the limit of the blood of the perfect world, there are other changes..."

With the whisper of Ye Xuan's whispering voice, between his thoughts, the horrible body shape of his Panda's billions of miles has changed again in an instant. This

Once, Ye Xuan transformed his own form, and became a vast and innocent blood sea by a starry and horrible starry sky. tight

Then, as he moved again, this piece of a vast sea of blood like a small star, and instantly condensed, until it turned into a tiny red blood, and finally stopped...

It can be a real change. For Ye Xuan, it is simply too significant. day

Later, if it is needed, his body size can be large or small, and even can be directly transformed into a blood of the same size and heart. For the hidden origins of his own, it is a great success!

"call out!"

After all the powers have been tried, Ye Xuan's body shape has changed to a starry sky, but it has remained in the shape of Zhang's height. Compared with the previous, there is too much flexibility...

Chapter 4487: The time for counterattack is here.

"No, this kind of **** sea secret from the soul of the Lord of the Sea of Blood... is not complete!"

Awkwardly, Ye Xuan's brain flashed a touch of aura. After a little thought, he immediately frowned his brow: "After all, what's left is just a remnant of the soul..."

Or perhaps, even if it is the Lord of the Sea of Blood, it has not yet realized the secret of this blood and sea, to the extent of the ultimate... Otherwise, the final result of this war, I am afraid it will be another look! "

Having said that, Ye Xuan's back is not slightly warm, and a feeling of fortunes comes to mind.

If there is no accident, the real situation should be the latter case, that is, the Lord of the Sea of Blood itself has not grasped the secret of this blood and sea to the extreme degree. because

In the previous war, the Lord of the Sea of Blood was seriously injured by Ye Xuan, and after repairing his strength to fall to the fourth stage of the universe, he once turned the whole vast sea of blood into five shadows of blood. Rear

Come, these five **** shadows are all broken by Ye Xuan one by one. when

At the time, Ye Xuan did not think much, because the five **** shadows were all trapped by the Shennong nine-color flame, separated from each other, and they could not form a situation.

In this case, let alone five, it is that fifty people have no meaning, and all have to be broken by Ye Xuan one by one...

Looking back now, Ye Xuan suddenly realized that the five **** shadows were all the fourth-order cultivation of the Lord of the universe. That is to say, this kind of blood and sea secrets can also change the avatar and the avatar Force, not weaker than itself... this

It is already extremely terrible. Although the blood and sea that are differentiated by this secret law, the number must not be too much, otherwise it is simply invincible.

For example, the Lord of the Sea of Blood, at that time, only divided five avatars, including a deity. can

Even if there are only five, if Ye Xuan did not trap them separately in the Shennong nine-color flame sea, but let them gather together, and repaired the strength has not been previously dropped.

Then, the situation faced by Ye Xuan at that time was besieged by the five sixth-order lords. If this is the case, the final result of this war will be obvious.

This is also the reason why Ye Xuan thinks about it now. it is good

At the very beginning, the Lord of the Sea of Blood did not display this secret law. This should be caused by his own light enemy on the one hand. On the other hand, it is the heavy power of the secret law of blood and sea. He should not fully understand it. , display it, there will be a price. Place

I didn't have the first time to show it, but it was like a life-saving means. When I was desperate at the last time, I showed it.

"It's no wonder that the Lord of the Sea of Blood is alone, and it is also a certain threat, but it has always been shackled in the **** forbidden land, and there is nothing in the other world's most powerful forbidden land. "One

After Fan Sisuo, Ye Xuan finally understood the reason, and could not help but sigh: "It seems that this heavy power of the blood sea secret law, the other masters of the universe around the strong forbidden land should be known, and quite taboo, so, I didn't shoot him..."

Having said that, Ye Xuan no longer speaks, and his body shape is once again transformed into a **** sea. Then, from the three different directions of this vast sea of blood, three huge figures, from the **** sea . This

It is the three great devils of the Taikoo konjac.

One is the flesh and blood, that is, the starry sky.

One is the body of the cheekbone, without any flesh and blood, just a purple-golden cheekbones, revealing endless fierce breath, very incomparable. One

As the body of the black mist, although it is also a violent form, but the body is a black fog, even a pair of scorpions, just two awnings, it looks very strange...

These three great devils, in the overall form of the Taikoo konjac, are trinity, and the back seems to stick in one place...

However, although Ye Xuan now uses this **** sea secret method to divide the three great devils of the Taikoo konjac into three **** seas, but... these three avatars are repaired to strength, but all fall to the universe. The third step of the Lord!

Now, he is in the state of the ninth change of the konjac. If this test is successful, these three konjac avatars should all be the sixth-order cultivation of the Lord of the universe. Take

One is three, but the strength is not changed. If you suddenly have two more yourself, join forces with the deity to fight against the enemy... So, the power of the secret of blood and sea can make sense.

And it's significant, it's amazing.

But now, although it has been completed in one, the three bodies, including the deity, have all fallen to the third-order of the universe, which makes no sense. Do not

But it doesn't make sense, even if it's boring...

"Sure enough, the Lord of the Sea of Blood did not push this power of the secrets of the blood and the sea to the extreme, including the fact that I had integrated it into the blood of the konjac, and it was not perfect. comprehensive....."

After a try, Ye Xuan finally determined everything, whispering in a whisper, he was immediately freed from this state.

The newly formed three magical bodies merged into one, and then they merged into the **** sea. Finally, the **** sea disappeared immediately, and the violent figure of the starry sky appeared. Husband

Xu Gaoxia, the body that has been tempered by the body, is restored to the sixth order of the Lord of the Universe.

"This power of the secrets of the blood and sea, even the Lord of the Blood Sea has not fully understood itself. Therefore, the information and the meanings associated with it from his remnant soul are of little significance... Derived by yourself one by one!"

Having said that, Ye Xuan's face suddenly showed a touch of helplessness, shaking his head and smiling: "This is not just like the fact that he just understood him well, and it's so easy to integrate with the konjac and the blood." It takes a lot of time!"

Now, the body's engulfing system is still pushing the perfect Danfang of the twenty-seventh-level Baodan. This matter... can't be delayed for too long. After all, the hand that I used to refine the twenty-eight-level Baodan The main blood, there are already four full! "One

With this in mind, Ye Xuan sighed: "It seems that I can only wait until the perfect Danfang of the twenty-seventh-level Baodan is deduced, and then deal with it..."

As for now..."

Here, Ye Xuan's fascinating glimpse of the gloom, the body instantly smashed a cold and incomparable killing atmosphere, and even the voice of the whisper in the mouth, revealed the endless sense of the cold: "that Helping the Lord of the Universe also wants to hunt the Lord of the Stars, this is simply not forgiven..."

"I didn't know it before, but now that I know it, even the origins and details of all of their participants are clear..."

"So, it's time to go to the star master... it's time to fight back!"

call out!"

The voice just fell, the violent figure disappeared instantly, turned into a speedy man, shot to the front of the void...

Chapter 4488: The fourth master blood

Among the secret small circles that have been stalked by the savage souls of the Lord of the Sea of Blood, there are a total of eleven masters of the universe, secretly forming alliances, and generally deliberately arbitrarily After the distribution of benefits.

Of course, what makes them most fancy is the **** secrets that the violent masters can master in a short period of time to cultivate themselves as a realm.

In addition to this, it is the temperament of repairing the secret of strength to improve quickly. press

According to the agreement of these eleven guys, after the violent rumors, the eleven masters of the universe, as long as they are able to share these secrets.

This is still the case that they do not know the temper, and there are a lot of heavy treasures, such as Shennong Ding. If

I know all this, I am afraid that this way of distributing benefits will not be so simple...

However, among the eleven masters of the universe, the Lord of the Sea of Blood has fallen, and there are only ten remaining.

The ten masters of the universe, four from three high-level strong forbidden land, behind there is more than one universe supreme as a backing, Ye Xuan did not intend to provoke, first to remember. and

The other six masters of the universe are all from the middle to the strong forbidden land. Although they all know each other with one or two universe supremes, they even have a relationship, but since it is not a relationship, then Ye Xuan will not consider it at all. This

The six masters of the universe, he decided to take turns to visit!

If you can find the opportunity to kill, it is naturally best, but if it is inconvenient to kill, at least you have to go to the other's base camp to make a noise, express an attitude, I am not so irritating, and then have any bad thoughts, most Good quality measurement.

Of course, among the four masters of the universe, the first two to visit, Ye Xuan has defaulted to the general, and listed them as the goal that must be strangled.

Because there are three bloodstains in the hands of the lord in his hand, refining at least five master bloodstains required by the twenty-seventh-level Baodan, now only two. This

Two, can only be obtained from the two targets that are the first to start, because the target of starting first, surprisingly, the chance of successful killing is greater. and

When I got to the back, because some people have been embarrassed before, they will be vigilant. If they want to hunt again, I am afraid it is unlikely...

The first goal chosen by Xuan is a starry wolf! This

The strength of the head star wolf is also extraordinary. It has reached the fifth stage of the universe. Even the current Ye Xuan has a sixth-order combat power in the ninth state of the konjac, plus Panda six thousand. The first-order bonus of the horror of the body. will

There is a certain accident in its killing, and eventually it may cause it to escape!

"Hey!"

The sharp sound of the air broke out, and Ye Xuan's body shape became a stream of arrogant, like a lightning bolt, and immediately rushed into a middle-level strong forbidden land.

Here, there were originally two cosmic masters sitting in the town, but the other one, who went out for a long time ago, so he is currently sitting in the middle-level starry forbidden land, only the fifth-order starry sky rat.

"Hey..."

Konjac, you are so daring..."

As soon as Ye Xuan's figure rushed into the forbidden land, the star rat had already found him. One

The sound of the whistling sound of the road rang, and then its shape rushed out of a giant beastly star.

Also the mouse is also a wolf, the image looks a bit odd, but the body is huge, and the body is not a mess of fun, it is definitely a fifth-order master. this

At the time, Ye Xuan's body shape keeps the blood in the body at a height of ten feet, and changes into a starry sky. The strength is in the sixth order of the universe. It

So, instead of going directly to the ninth state of change, and narrowing down to the shape of the sculpt, and launching the secret killing, it is because Ye Xuan does not want to easily expose this ability, and at the crucial moment in the future, it will be the best. effect.

Right now, I saw that the Lord has already appeared, and absolutely the same as the original Lord of the Sea of Blood, the message was passed out in the first time, Ye Xuan is no longer polite, and he will give a roar to his head: "The konjac has changed... ..the ninth change!"

Almost at the next moment, the roar of the roaring sounds, and there was a huge explosion in the starry sky! its

As soon as the body shape is not enough, it has already skyrocketed. The speed is so fast that the body's strength is even more like the roar of the river, and the inexhaustible fierceness in the limbs! no

In the form, there is a horrible breath that is unimaginable.

The interest rate, the violent temperament was only only ten feet high, and it was exploding to a huge scale of 10 billion feet with a horrible speed, that is, 60 million miles! and

Moreover, while the body is skyrocketing, the temperament of the violent body is also cultivated, and at the same time it climbs up. From the sixth stage of the previous universe, the eyes are now the sixth order of the present universe! "

A rat's wolf, can actually cultivate to this situation, the cultivation of the mid-term peak of the universe is also very valuable, but today... you can't escape! ""

boom! Storm

In the mouth of the sly, the sound of the gods is heard, and the voice is still not falling. The shoulders are swaying, and the body shape has already rushed out. The speed is so horrible that the starry sky mouse has arrived. The side of the wolf.

"Hey..." and

At the same time, Ye Xuan's body also rushed out of a colorful fireworks.

The flame will rise in the wind, and the blink of an eye will be turned into an endless sea of enchanting colors. From the surrounding area, the starry wolf will be surrounded by a group... It will directly break the retreat of his escape!

"The fire is out, your fall... no more suspense!"

This nine-color fire sea formed, surrounded by the starry wall of the rat, and Ye Xuan has been hanging in the eyes of the blind, and finally fell back.

This is a medium-term lord of the fifth-order world. Coupled with the horror of Ye Xuan, I have already learned that if I am eager to escape, it will take some time for Ye Xuan to catch up. turn off

He has no time at all, and more powerful masters are coming at any time.

You must kill the enemy as soon as possible!

In the next moment, the violent rush suddenly rushed to the besieged starry sky in the sea of fire, punching out!

"Hey!"

Everything down is no suspense...big

The loud roar of the sound rang from the emptiness, and there was no chance of a sigh of sorrow in the starry squirrel. The huge body suddenly exploded.

In an instant, its huge and horrible flesh is completely blown up for a gorgeous **** fog, and it spreads!

"call out!"

At the end of this, the violent wave waved in the first time, and a huge invisible instinct was rolled out from the body, covering a radius of ten thousand miles.

The **** fog that had just spread out was swept away. After being in the body, it was immediately sent to Shennong Ding by Ye Xuan, and blood purification was carried out...

At the same time, its body shape did not stop at half point, the first time it rushed to the outside of this strong forbidden land, the speed is far!

Chapter 4489: Sixth order

Four!

From the mid-level to the strong forbidden land where the Star Wings are sitting, Ye Xuan's heart immediately gave birth to a feeling of great joy. This

But the Lord of the Universe can only be cherished by the flesh and blood of the flesh, and each one is precious. more

Now, Ye Xuan has gotten four between unconsciously.

It is only one of the five minimum requirements for refining a twenty-seventh-level supreme Baodan...

Every time I think of this, he has a feeling of a big heart. Take

Ye Xuan's current cultivation of strength and the killing of a cosmic master is already an easy task. The twenty-seventh-level Baodan, finally no longer have to worry. only

Yes, at the thought of the follow-up of the 28th-level powerful Baodan, his face suddenly showed a bitter smile, revealing a deep helplessness. also

Well, after the twenty-seventh-level Baodan, there are only two kinds of Baodan.

Twenty-eight levels are used to break through the wilderness.

Twenty-nine, used to break through to the ancient times.

Perhaps there is still a so-called 30-level Baodan, which is used to break through to the level of...the headless baby corpse and the ridiculous heavenly eye. can

Even after counting the 30th-level Baodan and the 27th-level Baodan, only three kinds of Baodan need to be condensed. Even if the difficulty is big, the end of this spiritual road will not be too far away!

"The four kings are bloody, and they are still one, and they can refine the twenty-seventh-level master Baodan. So it seems that... repairing for strength, it should be improved quickly!"

In the whispering language, Ye Xuan does not hesitate to directly activate the interstellar coordinate jumping ability attached to the internal system. This time, the locked jumping coordinate point is still near the source nest star that bred his strongest power. "

call out! "micro

The weak sound of the air broke out, and the violent temperament only showed the appearance of the high-pitched figure. After turning to the head and recognizing the direction, it instantly turned into a speedy man, and spurred toward the last abandoned star. go with. less

After that, Ye Xuan arrived at the destination, and his body shape suddenly rushed into the interior of the star and entered its star nucleus...

At the same time, the mid-level strong forbidden land where the Star Wings are sitting!

Ye Xuan left less than an hour, several different directions around the forbidden place, several body types, but the entire body shape is shrouded in a haze of light and shadow, it has been continually spurred! This

The masters of the universe are staring at the existence of Ye Xuan's small circle.

The few people who are rushing to the moment are just a few of them. Arrive

After the arrival, these masters of the universe did not hesitate, and they plunged into the intermediate-level forbidden land, and launched a comprehensive search...

For the powerful master of the universe, I would not have to pay attention to this kind of other people's leisure affairs, but they have a common goal, that is the **** magical power of the konjac that Ye Xuan has in his hands.

For the sake of greed, these powerful cosmic masters arrived at the first time after receiving the message from the starry wolf, but they were still slower after all. After all, the distance was too far away, until arrival. Ye Xuan has already left.

At this moment, after some investigations, no clues were found, and even the clues of the fierce starry sky could not be found. This

The result is that the heads of several universes are greatly depressed. After a short silence, there will soon be a low voice of God, which will sound..."

Damn, actually let him succeed! ""

This time, this violent even did not search the land of the starry wolf's lair. All the treasures and cultivation resources were intact. From this point of view, he apparently had already produced a vigilant heart. Time is far..."

It seems that I am waiting for the existence of this small circle, already known to him! ""

Damn, it must be the blood of the Lord who leaked the news, the **** idiot, should not pull him in the first place! ""

What should we do now? I am already prepared to be violent, and I am afraid it will be even harder to count him again! "

"Don't be discouraged, he will definitely shoot again, no matter what the purpose of this violent hunting, but before, whether it is the immortal or the universe, he has hunted more than ten." "

Now, the Lord of the Universe only kills four people, we... there are at least six chances! "...

...

At the same time, Ye Xuan retreats within the abandoned star star!

"Hey..."

As the sound of the sound broke, a spurt of glare came out and hung in front of Ye Xuan! This

These are all the cultivation resources that Ye Xuan took out from the immortal world, including a large number of other cultivation resources of the colorful medicines, such as the evil source liquid.

They are top-notch objects, exuding a powerful atmosphere and dazzling.

After doing all this, he directly mobilized Shennong Ding's domain power, compressing all the cultivation resources to the size of the baby fist only, so that it is easy to swallow the belly!

A new round of breakthroughs is also unfolding at this moment..."

哗啦啦....."

The sound of the chain of the sky is in the next moment, ringing in the body of Ye Xuan. This

Once, there is only one chain of shackles that appears in his body, which is also expected.

After all the light roads, Ye Xuan urged the energy that had just formed in the body, and launched a second-circle operation in the body and accumulated strength. One

Akira, a few days have passed. When all the energy has been refining, it is just a shock. The chain of shackles that appears in the body is immediately interrupted. With

The complete collapse of this shackle chain, the expected system sound, and soon in the mind of Ye Xuan...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the sixth order of the universe!"

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: the sixth order of the universe."

Sixth-order honor!

This breakthrough will undoubtedly make Ye Xuan's combat strength rise sharply again. After the last breakthrough, his deity's cultivation is the fifth-order of the honor. Once he activates the blood of the ancient konjac, he can climb to six in an instant. The realm of order. If

It is to display the konjac and change the magical powers, and reach the ninth change. The combat power is immediately ascended to the sixth stage of the universe! but

Now, after the activation of the konjac blood in the body, Ye Xuan will now have the seventh-order cultivation of the sage.

This is the end of the situation, and if he is to display the magical power of the konjac, and directly into the ninth.

The peak force will reach the seventh stage of the universe, and it is also the late stage of this universe. If you count the horrible blood in the huge body of 60 million miles in the ninth state, you will reach the eighth order of the shoulder. . can

It is said that the peak strength that Ye Xuan can now achieve is a half-step supreme battle with the nine-order grandeur of the universe, and he has been able to ensure his innocence. although

However, it is very possible that we will not be able to defeat each other, but at least we can be fearless!
"

Oh..."

At the thought of this, Ye Xuan was excited and raised his voice with a whistling sound...

Chapter 4490: Take a shot and change places

After a long time, his excited heart calmed down and grew up, taking a step from the Shennong Ding Ding mouth with a colorful mist, and then easily transferred Bao Ding directly into the body!

"The seventh master of the universe, the combat power can be compared with the eighth-order master, so it is time to refine a 27-level supreme treasure required for the last master of the blood... get it. !"eye

Under the flash of the cold man, he did not hesitate to rush out of the star nucleus of this abandoned star, and the first time began to speed.

Going to the forelocked area that is far away from the Milky Way in front of the Milky Way! This is clearly the rhythm of a shot for a place! ...

...

For Ye Xuan, the next goal is crucial! because

For his hands, there are already four bloodstains of the lord. If the next goal can be successfully hunted, then the blood of his master will reach five. Such as

As a result, the minimum requirements for the blood quality of the masters of the twenty-seventh level of the supreme treasure will be reached. with

At this time, this time hunting, compared with before, is also likely to have the most variable once...

When I first hunted the Lord of the Sea of Blood, the ten cosmos owners who stared at Ye Xuan's small circle were still not sure whether Ye Xuan knew their existence.

At most, it is just doubt! but

This time, with Ye Xuan successfully hunting the starry rat, the nine universe masters in the small circle must have confirmed that Ye Xuan knew the news of their existence.

In this case, they will certainly be more prepared, and the next hunting will be more difficult than before. can

Unfortunately, Ye Xuan has no choice. he

There are already four bloodstains in the hands, and there is one more. The stage goal is completed. At that time, you can calm down and temporarily lie for a period of time, find a place, and fully promote the perfection of the twenty-seventh-level Baodan. Dan Fang...

"In any case, this time hunting... must be successful!"

Subconsciously grasping the double fists, Ye Xuan maintains the blood of the konjac in the body, and changes into a violent shape of the ten-foot-high star-shaped starry sky, rushing toward the front of the void, and rushing away!

This time, the goal he chose was a starry zerg. that

Among the nine cosmic masters who have already placed Ye Xuan on the small circle, the Starry Zerg has only one head!

With Ye Xuan and this small circle playing more and more times, this head of the main zerg also makes Ye Xuan feel uneasy.

The Starry Zerg is extremely special, and basically all have unique biological frequency. leaf

Under the state of activating the perfect shock of the spiritual power, the general human strong, as well as the starry beast, are hard to find his existence. but

The starry zerg, which is the same strength as Ye Xuan, is not listed here.

It can be said that the two killing of the blood sea and the starry rat, if not the Ye Xuan succeeded in directly activating the interstellar coordinate jumping ability attached to the internal system, leaving this way without leaving a trace.

Then, with the existence of the main zerg of this genus, under the careful search and tracing, they are very likely to find some clues, thus locking the whereabouts of Ye Xuan!

In fact, apart from all kinds of different powers, they are all very different. In addition to the unique biological wave frequency that can't be prevented, the Starry Zerg has different special blood and powers because of its own blood. If

It is in the midst of the war. Once these mysterious abilities are suddenly activated, the threat to Ye Xuan cannot be ignored. Place

Therefore, after some thoughts, Ye Xuan will lock this target of hunting to the main zerg. From

The information found in the remnant of the Lord of the Sea of Blood shows that the strength of this starry worm is also the sixth in the universe, the same as the starry squirrel that was previously killed by Ye Xuan.

However, even if he has not yet seen the other side, Ye Xuan has already been psychologically prepared. He has already realized that the starry zerg in the sixth-order universe is probably far less effective than the star-sky rat. can

Unfortunately, in addition to this sixth-order zerg, the other eight universe masters in this small circle are all above the seventh-order existence, even if Ye Xuan's current cultivation is to force hunting, Slightly difficult. to

Less will be easier than killing the sixth-order zerg, so he has no choice but to focus on the sixth-order zerg. only

One of the comforts for Ye Xuan is that the sixth-level Zerg is in the mid-level and strong forbidden land, and the Lord of the universe is only one such person. inverted

It is the universe sage under the Lord of the universe, a large number, and there are eight! its

Even now, the cosmic sage is still the target of Ye Xuan's hunting, because the blood of the sage can be used to refine the twenty-sixth-level master Bao Dan, while the master of the wind in the hands of Ye Feng has ten Two, for the time being enough, but this top Baodan, who would be too much? more

What's more, in addition to the refining of the twenty-sixth-level master Baodan, the blood of the sage of the sage can be regarded as the top-level cultivation resource, and after swallowing it, it is used to break through the cultivation of its own. Place

Therefore, as long as there is an opportunity, he will not hesitate to hunt when he meets the universe. but

In fact, the previous two hunting, although he harvested two master blood, but the blood of the sage, but one did not gain. blood

On the other side of the sea, there is no cosmic sacred person at all, and the whole **** sea is vacant, and he is a lonely man.

The strong forbidden land where the Star Wings are sitting, although there are four cosmic sages, but the time does not allow Ye Xuan to shoot this cosmic sage, can only give up.

The same is true for this time. The intermediate-strong forbidden land in which the sixth-order Zerg is located, although there are as many as eight cosmic sages, can not be meaningful to Ye Xuan. he

The only goal is to simply kill the sixth-order Zerg, and then take advantage of the other eight main powers in the small circle before they arrive, and quickly look at it!

A blink of an eye, half a month blink of an eye has passed! This

The middle-level strong forbidden land where the first six-stage Zerg is located is located on the far side of the side of the edge of the Milky Way, and now Ye Xuan has not entered the ninth state, so the speed has not reached its peak. It took a half-month to arrive, but it was meant.

The reason why Ye Xuan is deliberately, after all, the longer the drag, the less likely it is to encounter variables. "

call out! "

The sound of the emptiness sounded, and the violent squatting of the body was turned into a beautiful stream. The blink of an eye reached the edge of this intermediate and strong forbidden land, on the back of an unremarkable abandoned star. And stop...

Ye Xuan did not intend to rush into the ruin, because this time hunting, it is very likely to encounter an ambush, out of caution, he decided to wait outside, hunting an ordinary immortal left and right forbidden beast, soaring to determine the forbidden land The specific situation inside!
