Chapter 4491: Sure enough, there is ambush

"call out!"

Soon after, an inferior sixth-order banned beast rushed out from the forbidden land in front and turned into a mans, spurting away from the left side.

Almost at the first time of his physical appearance, Ye Xuan had already stared at the forbidden beast, but he did not immediately shoot, but still crouched. complete

Actually, the other side is just an ordinary immortal. At the speed of Ye Xuan, even if he is allowed to run for another ten days and a half, he can easily catch up.

Half a day later, there was no movement on the edge of the forbidden land in front. At this point, Ye Xuan just let go of his heart, and then hesitated, and then he went to the direction of the former savage beast. Do not

To the half-column, at the end of the void in front, the figure of the forbidden beast appeared, as if he felt something, he subconsciously turned his head.

When the violent figure of the starry sky reflected into the line of sight and concealed a strong and endless strong atmosphere, the forbidden beast had a big change in face, and slammed his head and turned to escape to the right side of the sky... ..the speed has risen sharply compared to the previous one. can

Unfortunately, it is limited to repairing strength, and how his speed is improved. For Ye Xuan, there is absolutely no meaning at all. Even if he is now showing the strength of cultivation, it is only the sixth order of the universe.

"Boom!" only

With only one punch, the body shape of the forbidden beast will be turned into a **** fog. This

It's just an ordinary immortality. At the level of Ye Xuan's present, even the flesh and blood that he had exploded after his body exploded was lazy.

"Hey..."

In the midst of the movement, an invisible force spurt away, and from the flesh and blood of the forbidden beast, a smashing soul is smashed, even when the soul is searched...

The end result made Ye Xuan completely relieved.

The starry zerg, which has the sixth-order power of the cosmic master, is indeed within the foremost forbidden land in front, and the powerful beasts of the other eight cosmic sages in this forbidden land are also there.

However, apart from this, there are no other abnormalities in the entire Xingqiang forbidden area. when

However, there may be abnormalities or even ambushes. However, because the level of the banned beast is too low, it is simply not qualified. complete

The target targeted by Ye Yexuan is the Lord of the Universe, the strongest person in this strong forbidden land, and the forbidden beast that is suitable for his soul search is only an ordinary immortal, the level between the two The difference is too much. Do not

However, Ye Xuan has no choice, hesitant is not his usual style. One

After Fan Sisuo, he quickly turned back to his body shape and turned into a mans. He rushed toward the road. After about half a column of incense, the front edge of this mid-level strong forbidden land appeared again. Ye Xuan Tied in...

"Roar!"

"The konjac nine changes... the ninth change!"

As soon as he rushed into this forbidden place, Ye Xuan rushed directly to the right side. At the same time, there was a roaring voice in the mouth, and a huge explosion in the starry sky! blink

Between the eyes, the body shape, which was originally only ten feet high, has skyrocketed in an incomparable time.

The speed is so fast, the strength of the body is even more like the roar of the river, the inexhaustible fierceness in the limbs, and the invisible, there is a horrible breath that is unimaginable... ..

At the same time of the skyrocketing body, the temperament of the violent body is also rapidly rising. From the previous seven steps of the universe, the eye has risen to the seventh stage of the present universe! Seven

The realm of the order, this is the late stage of the Lord!

In an instant, with the horror of the late tyrannical powers spread, the entire vast and innocent Xingqiang forbidden land, within a distant beast of stars, responded to the general, and came innumerable The sound of the road humming.

All the forbidden beasts, almost subconsciously, all crouched on the ground at this moment, and did not dare to have any movements at all.

Even the powerful beasts of the eight universes of the universe have been huddled to the depths of their own caves and nests. surface

For a powerful late-time master, they simply did not dare to have the idea of fleeing and fleeing. more

What's more, this mid-level strong forbidden land, and now still sitting in the same strength, is also the same as the sixth-order powerful starry zerg.

From a certain point of view, if it is under the war, it will be difficult to say what is the end of the deer.

At this time, as the body type skyrocketed, the cultivation was soaring, and the speed of Ye Xuan also climbed several times in an instant. In the blink of an eye, it was already in front of the nest star that the sixth-order Zerg was crouching. he

Originally, I didn't know where the nest of the sixth-order Zerg was, and this kind of star-studded zerg, the ability to conceal the breath is very strong, not weaker than the magical secret of Ye Xuan's perfect oscillation.

Even if he starts a search for God, there may be no results. but

The killing of the immortal savage beast before, but solved this problem, so that Ye Xuan has not entered this intermediate strong forbidden land, they have already known the target's lair. thing

In fact, this is one of the reasons why Ye Xuan did not bother to solve the problem of killing an immortal beast.

"Get out, you... can't hide!"

"Boom!"

With the arrival of violent temper, Ye Xuan's voice of the gods also came out. The next moment of the voice, the violent shoulders swayed, and the figure suddenly rushed out. The speed was so horrible that it was already between the blinks. It's near this star. "

call out....."

In the next moment, the violent body rushed out of a colorful fireworks. fire

The flames will rise in the wind, and the blink of an eye will be turned into an endless sea of enchanting colors. From the huge stars in front of them, they will smash the road of the Zerg escape!

In the next moment, the violent rush suddenly rushed to the besieged starry sky in the sea of fire, punching out! Connect

Everything that comes down is no suspense...

"boom!"

The loud roar of the sound rang from the void, and the entire huge star exploded in an instant. Man

Among the fragmented stars of the sky, it is clear that a black zerg with a huge body of tens of thousands of feet can be seen. Under the horrible power of Ye Xuan, the body is completely blown up for a black blood fog. And spread on this!

"Hey!"

In this scene, Ye Xuan's heart is loose, and the ecstasy is instantly floating. again

There was no hesitation, and the violent whistle waved in the first place. A huge invisible instinct was rolled out from the body, covering a radius of ten thousand miles.

The **** fog that had just spread and spread was swept away. After being in the body, it was immediately sent to Shennong Ding by Ye Xuan to carry out blood purification.

"No! Again... disappeared!"

However, almost at the next moment, the violent face changed greatly, and Ye Xuan's exclamation voice also came out subconsciously.

The awning that had just been sent into the body by him had disappeared inexplicably. This

He had previously encountered another Zerg.

Obviously, the sixth-order Zerg has not fallen, here... there is an ambush!

Chapter 4492: Perfect phantom

With Ye Xuan's subconscious whistling sound, the distant air around the sky, just like a response, there are a few voices of God, all of which reveal the meaning of teasing and playfulness, and also reveal the obvious triumph color.....

"I didn't expect it to be just a perfect phantom, let you be fooled, violent, it seems that you are just that!"

It's true that the perfect phantom secret of the black respected friends is really wonderful. With this violent seven-level celestial master, there is no problem from the beginning to the end. ""

Even the **** fog that appeared after the perfect illusion exploded, he took it seriously and waved his hand into the body until the phantom disappeared, and he was shocked..."

In this battle, the black confessed friends have contributed, and he lost a nest star, and then he has to display the strongest ban, so that I will be trapped in this star field... After this violent, the squad, the blackest friend first choice! ""

Yes, this is what it should be... Black respected friends, so you should be satisfied? Then you have to rely on you, otherwise, with this violent mysterious means, maybe this time you have to let him run away without knowing it! "

"No need to hesitate, immediately unfold the secret law..."

With the sound of these gods, from the different directions in the distance, the light and shadow of the eight groups of different colors also quickly spurred. each

A group of light and shadow is full of thousands of feet, and the air-filled atmosphere is all the master of the universe, and it is not the beginning and the middle of the world, but the late.

That is to say, the existence of the stagnation of the eight groups of light and shadow, the weakest of the strength is also the seventh order of the universe.

In fact, the two strongest guys are even the masters of the universe.

Between the eyes, eight powerful masters who are not weaker than themselves are coming. There are even two and a half steps, and Ye Xuan is in a desperate moment...

What makes him feel bad is the words spoken in their mouths, which undoubtedly reveals the so-called Zerg black sage that has not yet appeared. In addition to the fascination of Ye Xuan, the perfect phantom secret that he is fooled, there seems to be some An extremely powerful banned magical power. this

At the time, with the arrival of the Lord of the Eight Universes, this vast void in the tens of billions of dollars has become extremely dignified under the superposition of the power of the multi-chao, even if Ye Xuan now activates the system of the body. Affiliated interplanetary coordinate jumping ability. although

However, it was able to move smoothly and leave, but in terms of the time of urging, it was invisibly extended several times. According to his estimation, at least it takes ten minutes from activation to smooth departure. ten

The time of interest has already allowed these eight powerful masters to exist and do a lot of things.

Therefore, out of caution, Ye Xuan gave up this countermeasure. thing

It also proves that he is right. "

Oh..."

In the moment when he gave up the ability to jump the interstellar coordinates, a low-pitched humming sound was heard. Then, the cosmic starry sky, which is a billion miles away, was stunned by a mysterious force. Shrouded. This

It is a kind of worm's biological wave frequency, but Ye Xuan has never encountered it before. From its power effect, the worm's biological wave frequency actually implies a hint of Hongmeng's space law...

If this is the case, even if Ye Xuan activates the interstellar coordinate jump ability attached to the internal system, I am afraid I can't leave it here.

This interstellar coordinate jumping ability is indeed very powerful, but the Hongmeng space law is also very different, those who are gestating a source of chaotic demon gods, including the entire galaxy of the galaxy, are protected by a mysterious force of the law of Hongmeng.

Some of them are the rules of Hongmeng space!

It can be said that even the mysterious biological wave of the star-studded zerg, known as the black sacred, is only a smattering of the force of the sacred space law. It only involves the fur and jumps on the interstellar coordinates of Ye Xuan. Ability will also have a great impact. when

When this mysterious Zerg creature wave shrouds this piece of emptiness, Ye Xuan's interstellar coordinate jumping ability is very likely to be no longer activated.

"Hey!"

After the decision, Ye Xuanyuan flashed in the cold, and then hesitated. When he waved his hand, he immediately engulfed the nine-color sea of the broken star in front of him. versus

At the same time, as he waved, another nine-color mans were also shot, and when the storm rose, the blink of an eye turned into a horrible stove that was bigger than the stars. positive

It is Shennong Ding!

Without hesitation, Ye Xuan rushed to the Shennong Dingkou where he was holding a colorful mist.

At this time, his body shape was originally 60 million miles, a bigger circle than Shennong Ding, but while the figure spurred away, he quietly spurred the power of the body, will be integrated into the konjac. The magical blood of the magical powers can be displayed, and the body shape can be directly reduced.

However, in order not to expose the power of this heavy blood sea secret method, Ye Xuan did not shrink the body shape to the minimum limit, and the change was not even obvious.

It's just a huge reduction from 60 million miles to about 10 million miles. Although it's still a few big laps, it's still at least a huge tens of thousands of miles. It's not going to let the eight people stay behind. The master of the universe, therefore, too much association... and

At this moment, with the sacrifice of Shennong Ding, Ye Xuan's body shape smashed into the Shennong Ding Ding mouth with the colorful mist, and was protected under the supreme power of Baoding.

Among the eight large ray of light that was spurting around, there was a sudden sigh of coolness, and the sound of exclamation..."

what? This is... a familiar Ding Ding, it seems to have heard of it! "

"Hey! Shennong Ding! Actually it is Shennong Ding... This is the eternal treasure of the era of the era of the floods. Didn't you think that it was actually in the hands of this violent murder?"

That's right! Absolutely Shennong Ding, seeing no, the colorful fog of Dingkou is the biggest sign of this tripod... It's not good, this violent and arrogant fist hits the black laura's lair star, and it's a distinct sacrifice. The ninety-five pounds of sea of fire, and later he was included in the body. "

"Is it a Shennong nine-color flame? How is this possible?"

"In the legend, the Shennong fire in Shennong Baoding is the first fire in the wild, but this fire has nine powers, it can evolve itself, but it needs to devour other top-level fires..."

One color flame power is the weakest, nine color flame power is the strongest! This kind of violently waved and sacrificed is clearly a fascinating nine-color flame sea. That is to say, the Shennong flame in Shennong Baoding in his hand has grown to the peak state... ""

It is no wonder that the Lord of the Sea of Blood and the Star Trek are killed in an instant, and there is no chance of fleeing. In the face of the first fire of the horror of power, even the Lord of the universe can only shun! ""

From this point of view, I am afraid that it will not be so easy to kill this tyranny today..."

Chapter 4493: The secret secret method

"Booming..."

In the void, a huge roar came, and as the sound of the exclamations rang, all of them had a tens of thousands of meters of diarrhea, and the blink of an eye was close, staying at the Shennong Ding three or four billion miles. Outside the universe in the void. will

Bao Ding and Ye Xuan, who sat on the knees of the nine-colored fog, were firmly besieged.

Eight large ray of light, each inside, crouched with a powerful cosmic master, with the strength of the later period of this field.

At this moment, it hovered in all directions, and all the way to Baoding was sealed.

In addition, it is still hidden in the dark, I do not know where the place is called the black sect of the sixth-order Zerg, the zerg secret method, this piece of tens of billions of spheres of the universe, now almost completely banned.

Whether Ye Xuan is the ability to activate the interplanetary coordinate jumping ability attached to the internal system, or directly promote the power of the body to give him the power of protection, Shennong Baoding, in this most direct way to cross the void ... I am afraid, do not want to be short Time to leave easily.

There is no doubt that here, in the coming time, there will be a fierce battle.

Although Ye Xuan has Baoding's support, but it is only temporary protection of his own worry-free, but his time is not much, because if these eight powerful late Zhou masters determine why he is not allowed, will most likely go to the universe supreme level The horror exists. If

In that case, Ye Xuan's situation will be even worse, and the chances of a smooth escape will become more and more rampant. Place

Therefore, he must try to escape from the eight sides of the other side of the eight frontiers before deciding to invite a cosmic supreme to the masses.

The interstellar coordinate jumping ability attached to the internal system is not to be thought of. This time, the first opportunity is lost. This powerful secret method has temporarily lost its usefulness.

His only way out is to push Shennong Ding under his body. Under the support of Baoding, he opened the road with nine colors of fire and rushed out.

However, the biggest drawback of this most direct way of crossing the void is that the speed is not satisfactory. At least, in the face of the powerful late-stage master who is not under the self, Ye Xuan basically does not want to get rid of them.

In this way, even if the eight late-era masters are afraid of the horror power of the nine-color fire sea, they can only follow behind and wait for the opportunity to take the shot, but they carry Shennong Ding, and they are still dragging the huge dawn of eight giants. Mission... this

It's too eye-catching, and running a little further, the sensational effect will probably be difficult to estimate. At that time, it is very likely that a universe will be brought in a short time!

The only way is to try to kill three or four of the eight late masters here, so that they will start to flee again. The opportunity for Ye Xuan to get out of the game will be even bigger! "

After all, the strength is too weak..."

Thinking about it all in the sea, Ye Xuan shook his head and sighed: "If you want to kill three or four heads in this situation, you will not be weaker than your own late masters. In addition to the horror power of Shennong Nine Flames, you have not yet The secret method of blood and sea that is completely derived must also be fully completed..."

Having said that, he did not hesitate, and once he gritted his teeth, he gave orders to the body's engulfing system to suspend the 27th-level Baodan perfect Danfang.

At the same time, another order issued is to extract all the calculus and deductive power of the body's phagocytic system. In the **** sea secret method that is integrated into the magical scorpion, the sacred secret law has not yet been completely completed. Derivation! This

After the two orders were issued, the body's phagocytic system quickly responded and adjusted accordingly. The system's entire calculation and derivation ability were all used in the derivation of the secret method of blood and sea.

Ye Xuan himself was not idle, and he was squatting at the Shennong Ding Dingkou, where he was stunned, and closed his eyes at this moment.

At the same time, the powerful knowledge of the seventh-order master of the universe is fully mobilized to the extreme, with the ability of the body's engulfment system to calculate the perfect meaning of the blood-sea separation secret law, and fully promoted! also

At this time, among the eight groups of the twilight group that hovered around the space of the universe beyond Shennong Ding's three or four billion miles, the voices of the eight late masters of the universe were again heard...

"Hey? Look, the violent, actually sat down on the knees of Shennong Baoding, and also closed his eyes directly. Is this the rhythm of retreating? It's too late to hold the feet. ?""

At this time, who is still thinking about retreating? Besides, even if he is allowed to break through a small step in a short period of time, is it meaningful to face the encirclement of nine powerful late-time masters who are not weaker than themselves? ""

Yes, according to the deity, this violent, must be using other means... The friends of the road should be careful, the enemy is embarrassed, not good to deal with, and must not be his way! ""

What are you waiting for? Let's take a shot now, and take advantage of him to be dragged. At the moment, I can't push the nine-color fires in Shennong Baoding. I can take a try and see if I can open the support of this Baoding. Well.....""

Shennong Baoding, the era of the age of the floods, the age of the ancients to the treasures, can be really stunned, long known, today, can finally try its power? ""

Roar....."

The last sentence is from the **** light group guarded by the three hundred and four billion miles of the Netherland. With

After saying this, the sound of a roaring roar in the **** light group shook the universe void within 10 billion miles...

At this moment, the rest of the seven glare groups were silent, and even the low-pitched voice of the sixth-order zerg **** secret, which has never been revealed in black, seems to be slightly a stagnation...very

Apparently, the existence of the crouching in the seven twilight groups, and the mysterious sixth-order zerg, all of the minds at the moment, all gathered above the **** light. miss you

To see the existence of the crouching in this awning group, under the full force of a blow, can you open up the domain power of Shennong Baoding. "

boom! "One

The sound of the roaring sound of the road sounded, from the **** light of the canopy outside the three or four hundred million miles north of Shennong Ding, a huge energy fist shadow with a diameter of more than 10 million miles, rushed out at this moment...

At the moment, the horror of the eighth order of the universe, the moment spread and spread, covering the entire vast and innocent intermediate starry forbidden land, and the horrific pressure of this eighth-order lord was clearly promoted. The ultimate, revealing endless killing machines.

"boom!"

Oh..."

Within the billions of miles of the void, a fierce beast in the stars, a dense squeaking sound, this is a large number of weaker banned beasts, can not resist the horror of this horror, direct explosion And the demise of death. versus

At the same time, almost at the next moment, this huge fist shadow that rushed out of the blood color group finally rushed to the front of Shennong Baoding, punching and slamming on the outer wall of Baoding...

Chapter 4494: The avatar in the sea of fire

"boom!"

Rumble..."

An earth-shattering blast came, followed by a roar of the aftershocks of the thunderstorm...

This huge fist shadow that rushed out of the blood-colored light group finally rushed to the front of Shennong Baoding, punching it on the outer wall of Baoding.

It is a pity that although this movement is not small, it is even shocking. In the billions of miles in the sky, there are countless beasts and stars in the sky. Numerous repairs are weaker beasts, only because of the sound of this aftershock. The impact, they have exploded and died.

But Shennong Ding, which is more than a giant star, has not even shaken, and has never been shaken!

This scene fell into the eyes of the lord of the universe, which was crouched in the other seven light groups, and immediately silenced the scene and fell into silence. far

Somewhere in the void, there is a faint sigh in the vagueness. This should be the reaction of the sixth-order zerg, who has never appeared, crouching in the dark, called the black lord...

However, he sighed, because it was because of the eighth-order lord in the **** light group. Under the full force, he did not even shake Shennong Ding. also

It is because of the countless fierce beasts in the billions of miles, a large number of forbidden animals and beasts have been smashed by the fish, and they have died in violent bodies... It is not known. or

Xu, both have it! This

The scene is too unexpected, even the late king of the universe, it is inevitable to be depressed... though

However, they have already expected that Shennong Ding, the age-old treasure of the era of the ruins of the ruins of the ruins of the ages, could never be so easily, and was directly blasted by an eighth-order lord. but

The half-points have not been shaken, and the traces on the top of the wall have not been left, and it is too much to give face. Hall

The Eighth Order of the Church, the result of a full blow is this result, what makes people feel ugly? "

Roar! ""

The deity does not believe, one is a ruin, even if it is the eternal age of the age of the raging age, under the full force of the deity, there is no swaying at all... This is impossible! "

The eighth-order lord of the crouching in the **** light group is clearly stimulated. four

The silence of Zhou Xuan's air continued, and his roar of roaring sounds had been transmitted from the **** light group in the first time.

Listening to the tone, it seems very convincing! thing

In fact, it is true. Under the full blow, half of the points have not shaken Shennong Ding. This kind of shameful thing makes the eight-order cyber main crouching in the **** light group lose face. he

I decided to take it again. This time, it will no longer be a blow to the energy of the distant space. He decided that the deity will personally take a shot and forcefully move it at close range... If this has no effect, it is simply against the sky! "

You, Daoyou, you will protect your surroundings. Don't let this violent glimpse of the temper, take the opportunity to escape the encirclement..."

Among the chromophores, the voice of the eighth-order lord's words came out again, revealing a strong and fierce atmosphere. This

It is clearly the rhythm of the real fire that was provoked by the previous blow: "The deity must personally take a shot and get a full blow at a close distance, even if it is still impossible to break the field power of the tripod, but at least, can try it out. How about the power of the power!"

After this sentence, apparently convinced the other seven late-time masters, they all chose silence, this is the test of the eight-order master of the crouching in the **** light group, indicating the default rhythm!

"哗啦啦....."

call out! "under

For a moment, the sound of the overwhelming sound of water splashed, and the **** light group that was trapped in the open space outside the three or four hundred million miles north of Shennong Ding, spread out in an instant.

In less than a moment, the fierce blood mang contracted rapidly after the show, and all the blinks disappeared, and they did not enter the body of a **** beast.

This starry sky is a fierce animal with a body size of a hundred feet, a **** body, a pair of **** eyes, revealing an endless fierce atmosphere.

This is clearly a **** violent bear. Among all the stars and beasts, it is a kind of strong and powerful, and is known for its power! difficult

Blame him for his full blow, but he can't shake the Shennong Ding, so he is so worried.

For the **** violent bears who are known for their power, such a result is simply the face of the red fruit, too hurtful and self-respecting. with

Like the seven late lords who are crouching in the other seven awnings, the reason why this **** violent bear wants to personally shoot, close-range hard, the test of Shennong Ding's true power is the default. Display

However, it is also because of the power of believing in his powerful blood.

A few hundred million miles away from the virtual space, the energy of the distant explosion, and personally, in the close range, the body is hard This is completely different concepts. although

However, this **** violent bear was separated by a distance of hundreds of millions of miles, and a fist was printed, which ultimately failed to shake Shennong Ding.

But it does not mean that he personally went into battle, with the power of the flesh and blood, close to the ground, but also why not...

Among the eight late lords who are crouched in the awning group, although the strength of this blood-eyed violent bear is not the highest, there are two great existences of the nine-order grandeur. but

If you talk about the close-up of the naked body under the hard battle of the deity, it is only the **** violent bear.

If even in this situation, he can't shake this treasure, then, the other seven late masters, basically no need to try again, they must find another way! "

Roar! "

"Impatient, you pray that this broken trip is strong enough, so you can smash it. Otherwise, once you are hit by the deity, you will tear you away..."

"Roar....."

At this moment, after rushing out of the blood-colored light group, and all the energy of the diffused light group is thrown into the body, this body type originally had a huge-eyed violent bear, and after a roar of the head, immediately The number has soared several times. blink

Between the eyes, the size of the body reached 500 million feet, although it is still far from being able to compare with the huge horror figure of 60 million miles in the starry sky, but with this alone, it can be inferred that he must be activated. The blood of the **** violent bear family.

Under the full force, the body shape of the meat has soared five times, and the strength of the increase is bound to be more horrifying!

At this moment, the blood-eyed violent bear once again screamed, and the huge flesh was like a meteor that swiftly crossed the void, with a violent atmosphere, facing the Shennong Ding, hundreds of millions of miles ahead. go with!

"call out....."

Almost at the same moment, the violent slap in the mouth of Shennong, also opened his eyes at this moment. letter

Under the sway of the hand, from inside the Baoding underneath, there was a nine-color sea of fire rising from the sky. In the blink of an eye, it was wrapped in the violent figure of Dingkou and appeared outside Baoding. "

This is your own door, so don't blame the star owner... you are welcome! "

The nine-color fire sea pavilion opened, and it was only a hundred million miles away. At this time, with the sound of Ye Xuan's knowledge, the huge figure of three million miles was also from the nine colors of the sea. From the ground...

Chapter 4495: Bloody eyes

Seeing the **** violent coming, it is necessary to blast to the outer wall of Shennong Ding. At the most critical moment, the slap in the mouth of the nine-colored fog is open.

The body shape has already rushed out of the Dingkou, and the voice of the gods is heard in the mouth: "This is your own door, so don't blame the star owner... You are welcome!"

In the next moment, with the violent wave, a nine-color fire sea spreads out in an instant, blinking hundreds of miles, and then, the huge figure of three million miles is also within the nine-color fire. From the ground...

These three roads are full of huge figures of thousands of miles, all of which are the avatars of Ye Xuan.

To be precise, it is the blood and sea of the Lord of the Sea of Blood, the blood of the sea.

This is the three great devils of the Taikoo konjac.

One is the flesh and blood, that is, the starry sky.

One is the body of the cheekbone, without any flesh and blood, just a purple-golden cheekbones, revealing endless fierce breath, very incomparable.

One is the body of black fog, although it is also a violent form, but the body is a black fog, even a pair of scorpions, just two awnings, it looks very strange...

The three great devils, in the overall form of the Taikoo konjac, are trinity, the back seems to stick in one place...

However, although Ye Xuan now uses this **** sea secret method to divide the three great devils of the Taikoo konjac into three **** seas. first

Before, after Xu Xuan got the **** sea secret of the Lord of the Sea of Blood, he tried to integrate it into the blood and magic of the konjac. As a result, although he succeeded in letting Ye Xuan use the magical power of the konjac, You can change the size at will, without affecting the strength. but

Although he can use this secret method to show three blood and sea avatars,

At that time, these three avatars were repaired, but all fell to the third order of the universe! when

At that time, he is in the state of the ninth change of the konjac. If the experiment is successful, the three konjac avatars should all be the sixth-order cultivation of the Lord of the universe.

It's the same, but it's not changed, but if you suddenly have two more, you can join forces with the deity to fight against the enemy... So, the power of the secret of blood and sea can make sense.

But if the cultivation is reduced in strength, the power of this secret law will completely lose its meaning. when

At the time, Ye Xuan did not have time to carry out the promotion. On the one hand, it was to carry out subsequent hunting. On the other hand, it was because of the in vivo phagocytic system, all the

calculation and derivation ability, and it was fully deriving the twenty. The perfect Danfang of the seven-level supreme Baodan.

This incident was put on hold at that time.

At the moment, Ye Xuan is in danger and can only rely on the power of Shennong Ding to protect himself. He is surrounded by the horror of the eight universes. Even in the unknown place in the distance, there is still a headache. The sixth-order zerg black crouched.

In the face of this dilemma, the only way he wants to escape from birth is to kill at least three to four of the eight cosmos who have surrounded him.

Although his cultivation is the seventh-order of the Lord of the universe, none of the eight powerful cosmos of the universe is weak, and the weakest of them has the cultivation of the sixth-order master.

In this way, if you want to kill your opponent in an instant, you will not be in danger. The only way out is to smoothly derive the power of the blood and sea. for

In response to this situation, Ye Xuan reluctantly ordered the body's engulfing system to temporarily stop the promotion of the 27th-level Baodan Dandan, and instead used all the calculation and derivation skills to the **** sea. The secret law comes from the power.

Coupled with the cooperation of Ye Xuan's own powerful masters, all of this was finally completed at the most critical moment. "

Call..." this

Engraved, with the **** violent body, like a super-speed meteor, the original screaming at the Shennong Ding Ding mouth with a colorful mist, the figure disappeared instantly.

And there is a fascinating endless sea of fire that whistling out, with violent appearance outside Shennong Ding.

In the next moment, the other seven late-time lords who have not yet traveled hundreds of millions of miles away have come back to the world. This endless nine-color sea of fire has surrounded the **** violent bears that spurred the bang. . With

The three physiques are all displayed in the **** sea of thousands of miles. The repaired atmosphere in the body is all the seventh order of the universe. In a moment, the **** violent bears of the bangs come to an abrupt end. .

"Is this impossible? Even if it is a secret law, it is impossible for the realm to fall."

Feeling the strong breath of the three violent bodies in the side of the body, the **** violent bears are stunned and screaming.

Although the three violent repairs are only the seventh stage of the universe, but the power of the blood and blood that he feels is terrible. With the blessing of these qi and blood, three violent The real combat power of each head can be compared with the eighth-order master.

That is to say, now, with one enemy and three, facing, all are not weaker than their own existence. This

Absolutely life-saving..."

You have no chance, go to death..."

"Boom!"

With the arrival of violent temper, Ye Xuan's voice of the gods also came out, the next moment of the voice, the three heads violently swayed, the body shape had already rushed out, the speed was so horrible, between the blink of an eye It has already arrived. "

call out....."

The next moment, three violent shots at the same time, a punch!

Everything that follows is no suspense...

"boom!"

As the fist slammed out, three incomparable energy storms rushed out of the character shape, forming a pinch, a huge roaring sound rang from the void, and the huge body of the **** violent bear exploded in an instant.

Thoroughly bombed into a black blood fog, spread it!

"Hey!"

In this scene, Ye Xuan's heart was loose, and there was no hesitation anymore. One of the violent ones waved at the first time, and a huge invisible instinct was rolled out from the body, covering a radius of ten thousand miles. just

The **** fog that just spread out was swept away. After being in the body, it was immediately sent to Shennong Ding by Ye Xuan to carry out blood purification. do

After all this, the three violent tempers never stopped, and the figure was instantly merged into one moment, and then they fell into the sea of fire at their feet, and disappeared. "

Oh..."micro

The sound of a weak break sounded, and the vast expanse of the sea, which swelled hundreds of miles away, condensed into a faint nine-colored flame in the half interest. The speed was so fast that it was already rushing into Shennong. Ding's tripod.

The news of the nine-color flames disappeared, but the violent figure, but it appeared again at this moment, still sitting on the knees of the Shennong Ding Ding mouth.

The face is calm, and the humiliation is not shocked. It seems that the existence of the **** violent bear of the eighth order of the Lord of the universe has just been killed in a short break. It is not his general...

At this point, Ye Xuan's master of blood in the hands of the king finally reached five, and the minimum requirement for refining a twenty-seventh-level supreme Baodan has already been reached!

Chapter 4496: Unscrupulous

In an instant, with the shot, the three-headed repair is all in the seventh stage of the universe, but because of its large size, coupled with the blessing of the flesh and blood, its true combat power has been more than the eighth-order violence of the Lord of the Universe. Hey at the same time...

The cultivation of strength is also the **** temper of this situation. There is almost no chance of resisting. In a moment, the flesh is bursting open, and it is turned into a **** fog, and it is violently swayed by one of them. Enter the central volcano in the inner space of Shennong Ding and carry out blood refining.

At this point, the main blood of Ye Xuan in the hands of Ye Xuan finally reached five, and the minimum requirement for refining a twenty-seven-level supreme Baodan has already been reached. This

For a moment, Ye Xuan's whole heart was loose. but

The situation in front of us is still not the time to try to escape. Otherwise, in the face of the pursuit of the eight powerful cosmos, he has no chance to chase after the opening of the army, and eventually he still needs a cup. Want

If you want to start a flight, the most suitable opportunity is not yet available. At least you have to kill three strong enemies. only

Yes, the same means can no longer be used before, and the fall of the **** violent bear is a wake-up call. The other seven late-time lords who are surrounded by the ring can no longer be easily fooled.

And the crouching in the distant sky, the sixth-order zerg who carried out the secret of the tens of millions of miles of the vast void, and banned it, could not easily appear.

However, there are always opportunities, so Ye Xuan is not in a hurry. Under the flash of the Han Mang, he is directly at the Shennong Dingkou where he is holding a colorful mist. He sat down on the knees and waited for the opportunity to arrive! versus

At the same time, with the sudden fall of the blood-eyed violent bear, the other seven late-stage lords surrounded by Shennong Ding group, which is more than a hundred million miles away in the virtual sky, will be exclaimed under the shock.

"How is it possible? The **** violent bear... actually fallen?"

"In the vast sea of power and horror, there are three violent tempties in different moments, but the form is different, but the realm of the repair is all the seventh order of the universe, if it is plus the huge The power of terror and blood in the body, the real combat power of these three violent, can already be compared with the eighth order of the universe!"

It is no wonder that the blood-eyed violent bear will be bombarded, and it is still a second, this is the existence of the three-level same-order, and there is the endless nine-color fire sea as the backing. ""

Not to mention that it is only the eighth-order blood-eyed violent bear of the universe, but I am waiting for the nine-order grand perfection of the lord, and at the same time encounter these three violent tempers, they will also be in trouble, even if they are not stunned, Will be seriously injured and withdraw from this war..."

"You are a good friend, you must be vigilant. This temper is not simple. What he has done with his talents is clearly the blood and sea secret of the blood sea. The damn, blood and sea secrets of this avatar power is blood. The Lord of the Sea himself has never fully realized, how long has this violent temper to get this secret law? It has completely integrated, how exactly did he do it?"

The **** blood sea master, doing things is not good, so that I will be fully exposed, and now even the blood of their own secrets have been enemies, this is simply ... not enough things, more than enough! ""

It is useless to say that, everyone is vigilant, think about other countermeasures, but before that, no matter who you are, you can't easily attack alone, otherwise I will be broken. "

"Yes, the original tyrannical tyrannical and Shennong Ding's late Zhou masters have eight statues, which are exactly responsible for one position, perfect, but now, there are only seven left, this trap has a flaw, good for defects It's not big, it's still not affecting the overall situation, but if there are other Taoist wars, the situation will be different. You, be vigilant..."

"Booming..."

The exclamation of this road sounded, and Shennong Ding surrounded the universe of three or four billion miles, and there was an endless thunder of silence. except

But it has disappeared no longer, outside the **** glory of the **** violent bear, and the other seven awnings are slowly moving their positions.

Originally, they had a total of eight post-era masters, each responsible for a position, forming a perfect situation, but now, with the fall of the **** violent bear, one of the eight positions has no trapped people. no

Underneath, the other seven canopy groups can only be slowly shifted, and this one position will be made up. Such as

As a result, the gap between every two light clusters has been enlarged, and it is not too big now, but if there are other light clusters disappearing, the gap between each two light clusters will come. The bigger.

In the end, Shennong Ding will be able to walk away with ease...

In this scene, the remaining seven late-time masters obviously will not let it happen, so, as they are exclaimed at this moment. If

If there is no accident, then, as in the case of the **** violent bear before, the situation of rushing to the close and fighting alone should definitely not appear again...

The thoughts flashed through my mind, and Ye Xuan's whole heart was suddenly sinking. After frowning and thinking, his shackles flashed and there was a new plan in an instant. Both

However, in the late seven awnings, the late lord of the squadron was not good at making an idea. Then, I tried to hang the head in the distance, and even the sixth-order zerg, who did not know the specific position, forced it out.

Even if it is just to expose it to a specific location, it is absolutely significant for Ye Xuan. only

To know the specific location of the other party, then the possibility of smashing the other side and preventing the other party from killing it will exist. and

As long as the sixth-order zerg is killed, then the emptiness of this emptiness by its **** secret law can be resolved in an instant, then, although there are still seven late-time lords, a powerful pressure is overwhelming. Inside the circle.

But as long as they try to kill one or two targets later, then, Ye Xuan can wait for the opportunity to put Shennong Ding away, and at the same time activate the interstellar coordinate jumping ability in the body, in an instant, overlooking the endless void, and then get out of trouble...

One thought of this, he did not hesitate, sitting in the body of the Shennong Ding Ding mouth holding a colorful mist instantly stood up.

"call....."

The next moment, with Ye Xuan waved his hand, inside the Baoding inside, there was a fascinating glare in the blink of an eye. After rushing out of the Dingkou, the wind would rise and the interest would be turned into a foot. There are a hundred thousand miles of the majestic flames of the sea, and Shennong Ding is completely shrouded. "

Oh..." tight

Then, with Ye Xuan's meditation, the Shennong Baoding under his body turned into a man in an instant, rushing toward a giant star hundreds of millions of miles away from the right side. This

At the mid-level and strong forbidden ground, there are eight cosmic sages, and in this giant star that Shennong Ding is rushing away, it is just one of the best. leaf

Xuan's plan is very simple and shameless. He wants to ravage this supreme forbidden place, killing the eight cosmic sages of the sixth-order Zerg, one by one, forcing them to appear...

Chapter 4497: Hit and kill

tight

Then, with Ye Xuan's meditation, the Shennong Baoding under his body turned into a man in an instant, rushing toward a giant star hundreds of millions of miles away from the right side.

At this moment, the huge is like a giant star-like Shennong Ding, and there is a nine-color flame sea that is nearly 100 million miles away. This is a layer of protection, which can avoid ringing around the seven light groups. The powerful late Zhou master approached Shennong Ding and shot on Baoding.

Although Ye Xuan has confidence in Shennong Ding's defense power, he also faces seven powerful late-stage masters at the same time. All of these levels have their own unique means. special

In addition, there are two half-step supremes of the nine-order grand perfection of the Lord of the universe. Because of caution, he has to guard against it.

At this moment, with the Shennong Dingzhen wrapped in a tens of thousands of miles of the nine-color flame sea, the giant star in the right side of the sky spurt away, surrounded by the seven awnings. In the middle, the canopy just happened to be in the purple light group in front of Shennong Ding Road, and immediately evaded.

At the same time, including the awning purple light group, among the seven awnings with different colors, all of them heard a scream of exclamation...

"What do you want to do with this violent temper? Just take the Shennong Baoding and the vast nine-color sea of fire, and walk across the void? This is simply stupid, so you can't afford us..."

"Damn, it's too treacherous. If you really want him to do this, once you get out of this strong forbidden land, you will come to the outside world. It will soon reveal everything. Maybe it will lead to other cosmos and even the universe. Supreme, by then, for me, it is undoubtedly to separate the benefits that are immediately available."

This kind of situation, I can't wait to sit idly by, violent is forcing me to wait for the shot to stop, so that he has the opportunity to kill me like a **** violent bear, one by one! "

"It's too treacherous, you can't let him succeed, your friends, be vigilant, don't shoot it alone, he's going back, he's going back, he's going to keep the current siege formation..."

"No, he didn't want to escape, but rushed to the giant star in front..."

"What is this trick? The one that sits in the giant star is just a cosmic sage in this formidable forbidden place. It is simply not qualified to participate in this level of war. It is mad and mad. Looking for such ants to ventilate?"

"boom!"

Rumble..."

... with

The exclamation of this road sounded, surrounded by a sacred sacred sacred sea of Shennong Ding, in the blink of an eye has reached the front of this giant star. No

If there is any pause, it will hit it directly. God

The size of the farm has even surpassed this giant star, and it bursts open in an instant. The countless forbidden beasts within the stars have all fallen at this moment. whole

The stars are turned into powder, and the cosmic sage who sits within this giant star has not escaped. with

The sample was smashed into a shed of blood, and then it was smashed by an invisible majestic force. It did not enter the Shennong Ding surrounded by the nine-color fire sea!

In the blink of an eye, Ye Xuan has already harvested a blood of the Sacred, which is simply very easy. can

Unfortunately, he once tried his best to go hunting and killing the blood of the sage. For him now, there is no great significance, and he has no inferior resources. Do not

After all, this is also the essence of all the blood of the universe's body, even if Ye Xuan now has enough twenty-six grades of Dan, but these noble blood is used as a cultivation resource, a breakthrough, the effect is good. eye

I got one, it didn't make much sense, but if I killed the other seven cosmic sages one by one and held eight bloodstains, then he would soon be able to break through again. From

From this point of view, this is about to come to the other seven Sayādaw blood, but it is also quite meaningful, can help Ye Xuan improve the first-order cultivation, finally better than nothing..."

Rumble..."

The huge roaring sounded again. After hitting the giant beast and star, and harvesting the flesh and blood of the first cosmic lord, Ye Xuan did not hesitate. He immediately spurred the Shennong under him. tripod. wrap

The vast nine-color flame sea shrouded in the surrounding area, heading for the second giant beastly star in the distance, banging away...眨

Between the eyes, Shennong Ding under the speed of speed has reached the front of this giant beastly star. "

Hey! ""

Oh..."

The sound of the screaming screams, from the inside of this giant beastly star, there are a large number of forbidden beasts rushing out. Although they are stunned by the powerful pressure of the Lord of the Sun Xuan universe, they have been shaking before, 跼\The ground inside the stars is not allowed to move. but

Right now, in the face of such a huge speed that has surpassed the giant star of a giant star, there are still a large number of beasts who have overcome the fear of their hearts and screamed out of the atmosphere of the beastly stars. Scattered.

Unfortunately, everything is too late.

"boom!"

The earth-shattering roar sounded, and Shennong slammed into the giant beastly star, and there was no suspense in the following. whole

A huge beastly animal star, like a fragile egg, directly splashes and blasts, countless stars inside and outside the forbidden land beasts fall, burst into blood fog, spread in the void.

Sitting in this giant star is a fourth-order starry beast of the universe. At this moment, it has not escaped the bad luck. Its huge body has not completely had time to rush out of the atmosphere of the stars, and it has been completely blasted. . "

Oh..."

For a moment, as Ye Xuan waved his hand, an invisible screaming force screamed away, and the qi and blood that spread out the four-stage sages were all wrapped up and sent directly into the body. Blood essence is condensed.

In the blink of an eye, the second sage is bloody. but

For Ye Xuan, this is just a beginning. Eight of them have been booked by him. Only two of them are now, but one in four, and there are more blood. Fine needs to be harvested. "

Rumble..."

"call!"

Without any pauses and hesitations, Shennong Ding, which is more than a giant star, turned its direction in the first place, and rushed to the third giant beastly star with a fierce nine-color sea of fire.

All of this happens within a short period of ten, no matter the countless forbidden beasts in this mid-level and strong forbidden land.

Or the seven canopies were always separated by the imaginary distance of three to four billion miles, and they were firmly trapped in the lord of the universe, which was crouched in the ray of light around the Shennong Ding. For a time, they could not react. straight

At this moment, when Ye Xuan urged Shennong Baoding underneath to move, and rushed toward the third giant beastly star, they finally realized that it was wrong, a thrill of excitement, and immediately sounded... ..

Chapter 4498: Black screaming

"What happened? Is this madness crazy? In a short period of time, actually smashed two fierce beasts, what exactly did he want?"

"His goal is not the two beasts and stars, but the beasts in the stars. To be precise, they are the cosmic sages sitting in the stars of these two beasts. Before that, they clearly saw two savage beasts. The animal blood was taken in by Shennong Ding..."

Yes, it must be like this. This violent temper has been hunting the beasts and collecting the blood of the fierce beasts. He must have great use. ""

At first, he harvested only the immortal, and later became the cosmic lord. Now, he becomes the master of the universe... In this process, his own cultivation is also rapidly rising. . ""

Is this the root of the violent cultivation as the speed of entry? What exactly does he want to do with these fierce beasts? "

"These are not important. As long as you get the storm, you can get the results after you search for the soul. The most important question now is...we seem to be in trouble."

Yes, he is forcing me to wait for the shot. The object of this violent hunted has already risen from the universe to the Lord of the universe. The beastly blood of the sage is not very important to him. Now The reason why I am doing this is to wait for me to wait for the palace..."

Don't be fooled. In any case, you can't shoot it alone. Otherwise, it is very likely that you will be killed again by violent temper. If I join hands, then the siege formation will be turned into a bubble, and the chance of taking it away will be great. increase....."

"But, is it so let him continue? In this Xingqiang forbidden land, there are a total of eight cosmic sages, all of whom are black confidants, let them be destroyed by the regiment, fearing the black lord..."

Rumble..."...

...

As the screams in the Seven Canopy Lights rang, the void on the right side was far away, and the earth-shattering roar sounded again. First

The three giant beasts were knocked open, turned into pieces of stars, and countless fierce beasts, including the cosmic sage who sat in it. its

The flesh and blood of the flesh exploded, and the same could not escape the magic hand of Ye Xuan. With an invisible pound of suffocating power, all of them were sucked away by Shennong Ding and sent to the bottom of the volcano at the center of the Ding Nei space. Pool, in this case, blood condensate. three

The sages are bloody, and the rest are four!

"Oh..."

At this time, he has been crouching in the dark, and has never appeared in the sixth-order Zerg black sage. At this moment, he sent out a terrifying scream, revealing the incomparable sorrowful meaning, and more violently thundering. .

The squadron of the three cosmic sages was slain, and the sixth-order zerg was finally unable to sit still. but

His body shape still does not appear, just smelling his body, but not seeing his people, apparently still pressing hard!

"It seems that the fire is still not enough..."

Ye Xuan's whispering sound came out, and the violent shackles were even more chilly. After the swaying of Shennong Ding under his body, he immediately rushed in the other direction: "Since this is the case. Then give him a few more fires!"

Roar.....""

boom! "

In just a few moments, Shennong Ding rushed to the front of another fierce beast, and the earth-shattering roar sounded again. Bao Ding slammed into the giant beastly star. Connect

Everything that comes down has no suspense. The whole huge beastly beast, still like a fragile egg, is directly splashed and opened. The forbidden beasts inside and outside the countless stars fall into the **** fog and spread in the void.

In the same way, the cosmic sage in this giant star, at the same time, could not escape the bad luck, its huge body, has not had time to rush out of the atmosphere of the stars, it has been completely blasted. "

call out....."

Under the triumph of his heart, Ye Xuan waved his hand, and immediately there was an invisible screaming force screaming away, and the qi and blood of the savage and powerful beasts were all wrapped up and sent directly. In the body, blood condensate is started. This

It was already in his small half-column time that the fourth sage was harvested.

In this mid-level and strong forbidden land, there are only eight powerful beasts of the universe, and now they have been killed more than half, but this is still not the end! "

call out....."

There was still no pause, and Shennong Ding rushed away from the left side of the void, the speed was so fast that the blink of an eye was close to the tens of millions of miles of the fifth goal. "

Oh..."

At this time, an earth-shattering beast roared, from the inside of this fierce beast, a giant figure of a million feet rushed out, with a kind of funeral-like shackles, facing the distance Escape. "

You can't escape! "leaf

Xuanyuan Zhonghan Mang flashes, Shennong Ding at the foot immediately corrects the direction, and launches the spur of the spurt, and has already caught up behind his body shape in the blink of an eye. "

boom! "

In the blink of an eye, this powerful and sacred beast with a million-foot shape is completely blasted into a **** fog.

In the next moment, the violent wave of the Shennong Ding Ding's mouth sitting on the knees, there will be an invisible screaming force in the moment, and the savage and blood of the noble and powerful beast will be wrapped up. However, it was directly sent to Baoding.

This time, although the beastly star chosen as the target did not explode, including the countless weak beasts in the stars, all escaped, but the most important goal, but still can not escape.

The cosmic sage in this mid-level and strong forbidden land has been reduced to three!

"Five! Faster..."

Under the flash of the chilly man, Ye Xuan swayed Shennong Ding at the foot of his mind and headed for the most recent of the last three targets. "

Oh..."

This time, the sixth-order zerg that had never been revealed in the figure was finally unable to sit still. With this more screaming whistling sound, in the other direction in the far distance, the figure was not The black zerg, which is only about a million feet, has finally shown its shape.

However, Ye Xuan did not pay attention to it, because the distance was too far away, especially when he was now under the shackles of the seven universe masters, and it was too difficult to rush to kill the black zerg. he

You must find a way to let the other party proactively approach, so that you can find the best mobile phone..."

The last three, one don't want to run..." Brain

These thoughts flashed through the sea, and the sound of the gods of Ye Xuan was heard in the mouth of the violent moment.

"boom!"

At the same time, Shennong Ding finally hit the target star, and made it into a piece of star shards in the blink of an eye, scattered the universe void.

Numerous beasts in the whole star, including the cosmic sages sitting in the middle of the world, all without exception, all fall. and

The violent blood that spreads out is also waved by Ye Xuan at the first time and directly sent to Shennong Baoding underneath...

Chapter 4499: Burning the sixth-order zerg

This time, the speed is faster. There is a void in the distance. The sound of the sixth-order Zerg, who has just revealed his body shape, has not yet fallen. The Shennong Ding under Ye Xuan has already brought this huge beastly star. , completely hit into the stars fragments. First

Six prey, it's so busy.

In the blink of an eye, there are only two of the eight cosmic sages in this supreme forbidden place...

"Hey..."

In this scene, the sixth-order Zerg in the distant sky once again screamed. This time, it was more violent than before, and there was a feeling of extreme uneasiness in the faint. "

It seems almost..."

Ye Xuan sharply captured the difference between this whistling sound and the previous one. In the middle of the flash, he did not hesitate, even when he pushed the Shennong Ding under his body, he spurred toward the last two beastly stars. .

These two beastly stars are in the same direction, but they are left and right, and the distance between the clouds is about 100 million miles.

At this moment, Ye Xuan controls Shennong Ding, and the rushing to the left is this fierce beast..."

Oh..."

Seeing this scene, the sixth-order Zerg in the distance couldn't sit still anymore. As another whistling sound rang, he was only a million-foot black worm, and instantly turned into a man, toward this side. The emptiness comes from the sky.

Ye Xuan's smashing out of the sacred man, this moment, his shortness of breath, the whole heart hangs in the eyes of the blind. because

In his view, the opportunity to stifle the sixth-order Zerg is finally here, and fleeting, must be grasped in any case, and must not let it slip away.

But now, the distance between the two is still quite far, and it is not the best time to take the shot. Ye Xuanqiang has the urge to bear the heart, restraining the desire to turn around and rush to the sixth-order Zerg. "

boom! "a few

At the same moment, from the star on the left, a powerful beast with a million-foot shape rushed out, but the speed was far less than that of Shennong Ding.

Under the flash, Bao Ding rushed behind him and slammed directly!

A huge roar sounded, and between the blink of an eye, this powerful and sacred beast with a million-foot shape burst into a **** fog.

In the next moment, the violent wave of the Shennong Ding Ding's mouth sitting on the knees, there will be an invisible screaming force in the moment, and the savage and blood of the noble and powerful beast will be wrapped up. However, it was directly sent to Baoding. Let

Ye Xuan's accident is that the sixth-order zerg from the distance, although it is rushing in this direction, but its precise target, it is obviously not suitable for Ye Xuan's left side of the seated person. Fierce beasts and stars. he

It is clearly rushing straight to the fierce beast star on the right side. The virtual space between the two stars is about 100 million miles...

"Hey..."

Just as Ye Xuan urged Shennong Ding, and also turned in the direction, and also spurred toward the last target on the right side, the sixth-order Zerg, who was still outside the 300-400 million-mile, immediately heard a whistling sound. .

The kind of urgency and arrogance is more than ever, and it is extremely obvious.

This scene is quite different, not only that Ye Xuan feels a little confused, but also in the universe of hundreds of millions of miles away, the seven cosmic lords in the seven canopy of the Shennong Ding group . very

Fast, the answer is there! With

The sound of the whistling sound of the sixth-order Zerg, from the front of this fierce beast, suddenly burst out of a figure, the body exudes a breath of breath, and is the third order of the universe. very

Obviously, this figure is the cosmic sage of the surviving star in front of the star, and Ye Xuan's last goal. more

To his surprise, this cosmic sage who just rushed out of the atmosphere of the stars is clearly a starry zerg, and the whole body is dark, and the sixth-order zerg that is coming to this speed is exactly the same..."

It turned out to be a worm... It's no wonder that it's so urgent! "

An aura flashed through Ye Xuan's brain, and he realized everything in an instant. Milli

Undoubtedly, this black zerg, which has just rushed out of the fierce beast, is the blood of the sixth-order zerg, otherwise the sixth-order zerg will never be so eager. "

call....."

At this time, Ye Xuan controlled the Shennong Ding has been irritated to the area only tens of millions of miles away from this fierce beast. No

Any hesitation, he waved his hand for the first time, and a glimpse of the nine-color flame seedlings rushed out of Shennong Ding under his body. The speed reached its peak, and the blink of an eye reached tens of millions of miles ahead. call

Under the screaming voice, the nine-color flame seedlings have already ushered in the storm in less than a tenth of an instant, turning into an endless sea of fire that covers a thousand miles of emptiness, and will directly meet the six The zerg and the sect of the sect, all trapped in the middle of the fire...

In this scene, Ye Xuan has been hanging in the eyes of the blind man, and has finally fallen completely since he knows that this sixth-order Zerg can no longer escape. "

Although your guardian enthusiasm makes the star master quite moved, on the one hand, the star owner hates the Zerg most. On the other hand, today you are also struggling with the star master..."

Between the thoughts, the Shennong Ding underneath, carrying Ye Xuan rushed into the nine-color flame sea, and Ye Xuan's voice of the gods also sounded at this moment: "So, today, you will die... .."

"However, look at your heart and soul, this worm, the star master promises you, leave him a life... immediately leave!"

In the last sentence, Ye Xuan is almost violent, and at the same time, with this violent rumor, the endless nine-color sea of fire in front, also differentiated from the middle, directly to see the two eyes will gather The black zergs that come together are separated. under

For a moment, the side of the black zerg of the sage, separated from the nine-color sea of fire surrounded by the group, directly led to the universe void outside the sea of fire. Look

In this scene, the black Zerg of the Supreme Court stunned, and then hesitated, and the body shape suddenly turned into a black man, rushed out of the sea of fire, and fled to the distant sky, blinking, and then Has disappeared...

"Hey..." and

At the same time, the sixth-order Zerg, who was still trapped in the heavy fire, once again looked up and screamed, but this time, his whistling sound was equally unwilling. but

But there is no such fear and uneasiness in the past. On the contrary, there is a relief of relief..."

boom! "

Almost at the next moment, the whistling sound has not yet fallen, and the sixth-order zerg has already swayed and rushed to the vast and innocent sea of fire. he

I have known that I must die. In the face of this predicament, there is no hope of surviving. The final concern of my heart is already relieved. Then, it is better to ask for it. huge

The big blasting sound came from this moment, and the huge figure of the six-stage zerg, which is nearly a million feet, directly rushed into the sea of fire, and the blink of an eye burst into a black one. Blood fog, spread out like this...

Chapter 4500: Seventh order

For a moment, the body of the sixth-order Zerg broke open and turned into a black blood-stained mist. Then, in the first time, Ye Xuan waved his hand and rolled it up to gain the inside of Shennong Ding. The space is sent to the flame pool to unfold the blood. to

Therefore, the blood of the master of his hand, the number rose again, reaching six. If

If the six major bloodsmen are used to condense, Ye Xuan has more than 60% of the grasp, and can refine two twenty-seventh-level Baodan.

However, the chances of the three were instantly plunged, only about 30%.

After doing all this, Ye Xuan's right hand waved, and directly put the nine-color flame sea that opened in front of the void in the air and put it into the Shennong Ding underneath.

However, surrounded by Baoding, there is a nine-color flame sea in the depth of 10 million miles. He still hasn't put away it. There is this flame sea, and these seven are in the universe's void in the hundreds of millions of miles away. The Lord of the Universe will not dare to approach easily.

Because even with the horror of their late masters, facing the evolution of the ultimate, the power of the Shennong nine-color flame, still can not resist. only

To be touched, under the fire, it is absolutely the same as the sixth-order zerg that is suitable for the explosion in the sea of fire.

Then, Ye Xuan fell into sinking... and

Today, with the sixth-order Zerg being bombarded, the incomprehensible but persistent screams of the void in the void have disappeared completely. but

However, there are still seven statues of the lord who push their own pressure to the extreme, superimposed to affect this piece of emptiness... Ye Xuan wants to directly activate the interstellar coordinate jumping ability to take the long-distance, still not appearing! anti-

It was a series of successive battles that allowed Ye Xuan's body to maintain a state of full agitation. Unconsciously, a feeling that seemed to break through was immediately hit.

After a glimpse of the coldness, he sat down after thinking about it, even when he sat down at the Shennong Dingkou, where he was holding a colorful mist..."

Oh..."

For a moment, as he waved his hand, there was a burst of sound in a moment, and a spurt of glare came out, hanging in front of Ye Xuan, all of which were the cultivation resources that Ye Xuan took from the immortal world, including the nine gods. Other large-scale cultivation resources of medicines, such as allergens and the like. This

These cultivation resources, all of which are top-notch, exude a strong atmosphere and are dazzling. Look

In this scene, surrounded by hundreds of millions of miles away from the universe, the Shennong Ding group is besieged, and the owner of the universe, which is squatting in the seven-canopy group, is thinking about the countermeasures. After a short silence, There was a sound of exclamation..."

Damn, what is this violent thing doing? Black Zun has been bombarded by him, and the power of ban in the void has weakened a lot. Doesn't he have some mysterious escape secret? Why don't you go, actually left it..."

Seeing what he waved and offering, it seems that all are cultivation resources... Hey! This is impossible, the deity actually saw a colorful medicinal medicine, full of a hundred square feet, exudes a rich energy! ""

Absolutely correct, it is indeed the nine-color magical medicine. This violent temper is against the sky. It has actually refined the legendary nine-color magical medicine. Is this not the means of the ancient people? "

"He owns Shennong Ding, and the Shennong Flame in this Baoding has already entered the level of the nine-color flame. It is not an accident to refine the nine-color magical medicine. It seems that this is his cultivation. The secret to entering this world is so fast..."

But what is he doing at this time to sacrifice these top cultivation resources? Break through? At this time, there is still a mind to break through in the face of a number of powerful enemies? Is this violent madness? "

"This is a very different matter, but it is also good. I will just discuss it and how to deal with it in the future. In short, I must not let him escape again today. Whether it is Shennong Baoding or Jiu Cai Shen Medicine, you must get it..."

However, for all of this, Ye Xuan did not pay attention to it. Next, he directly urged Shennong Ding's domain power, and compressed all the cultivation resources to the size of only the baby fist, which was convenient for swallowing the belly. In this, a new round of breakthroughs will be launched! "

Oh la la..." very

The fast, overwhelming sound of the chain rang in Ye Xuan's body. This time, there was only one shackle chain in his body, which is also expected. Connect

Everything that goes down is light and familiar, and Ye Xuan mobilizes the energy that has just formed in the body, and it runs in the mid-days of the whole body and accumulates strength.

But this time the breakthrough may be due to the fact that immediately after the successive wars, the blood of the body was fully mobilized, so it came so fast.

Just one day, when all the energy in his meridians was refining, it was only a shock, and the chain of shackles that appeared in the body was immediately interrupted.

With the complete collapse of this shackle chain, the expected system sounds, and soon in the mind of Ye Xuan...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the seventh order of the universe!"

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: the seventh step of the universe."

Seventh Order!

This is the late Zunzi...

With the arrival of this breakthrough, Ye Xuan's combat power will undoubtedly rise sharply again.

After the last breakthrough, his deity's cultivation is the sixth order of the sage. Once he activates the blood of the ancient konjac in his body, he can climb to the seventh-order world in an instant, and if he is to display the konjac and change the magical power, and reach the first Nine changes, the combat power is immediately soaring to the seventh stage of the universe!

But now, after activating the body's konjac blood, Ye Xuan will have the eighth-order cultivating power of the sage, and if he is to display the magical power of the konjac, he will enter the ninth.

Its ultimate peak strength will reach the eighth order of the universe in an instant, although it is also the late stage of this, but it is completely different from the previous seven.

Because under the eighth-order realm, if you count the horrible blood power in the huge body of 60 million miles in the ninth state, Ye Xuan's real combat power will reach the level of the ninth order of the shoulders. .

It can even be said that the peak strength that Ye Xuan can now achieve is that it is a battle with the first-class universe supreme, and it has been able to substantially ensure that it is innocent.

It is impossible to defeat the other side, but at least it can guarantee that it is innocent! to

The seven late masters who were trapped in the void of the universe hundreds of millions of miles away, now if they are alone, even if Ye Xuan does not use the power of blood and sea secrets, no one can do anything about him. where

I am afraid that the peak of the nine-order grand perfection of the two masters of the universe exists, and its combat power is only equal to the state of the ninth change...

It can be said that he is now invincible in the realm of the Lord of the Universe. "

Oh..."

With these thoughts flashing in my mind, Ye Xuan was excited, and under the head, a voice full of excitement and screaming, resounding through this void...
