

Super D. S 450

Chapter 450: Killing the dragon

Originally these people came to help Tan's elders kill the young dragon. Now, when Tan is old, what is it still killing?

Soon, the disciples of this group of Bai Zongzong are flying back to the sect, telling the lord about things, and also wanting to go through Ye Xuan.

But what they didn't know was that Ye Xuan did not leave.

"What is the dragon's keel, should it be better than the general eight-step holy beast?"

Ye Xuan looked at the back of the group of white bones and disciples, showing a smile coldly.

.....

After leaving the disciples of this group of Bai Zong, Ye Xuan entered the sky in the same line. There is a huge cave in the depths of this line. Presumably, Tianlong is here.

He went deep and was very careful. In a few minutes, he saw a slender dragon.

The dragon and the dragon are very similar, but there is not much similarity between the dragon and the dragon. The dragon is big, and the dragon is a bit like a dragon, just a pair of wings.

This dragon is red, and the body looks at at least a hundred meters. It looks at Ye Xuan who walks in and screams a few times.

"Sorry, I need a keel!"

After Ye Xuan said one sentence, it was the sudden display of the Beastmaster violent, and the six hundred and twenty dragons suddenly soared to more than eight hundred dragons.

kill!

At that time, Ye Xuan rushed to the front of Tianlong, and then took out a dragon's ruling.

"Hey!"

The sniper swiftly landed on the scales of the dragon, and he could barely crack the scales.

Strong defense!

"This dragon and the two dragon kings are simply the difference between heaven and earth. It is a powerful species."

Ye Xuan could not help but sigh.

There are many unfairness in this world. Under the same level, Tianlong is much stronger than Feilong.

"Roar!"

The red dragon screamed and opened the big mouth of the blood basin to spit out a dragon's breath toward Ye Xuan. Ye Xuan quickly avoided it, and the station had already burned a big pit.

This is an attacking method of Denon.

"Dragon has a strong defense and must kill it during the violent duration of the Beastmaster."

Ye Xuan began to attack madly, first squandered the infuriating body, and then used the eight ridiculous dragon sword to cut it.

This Tianlong is indeed difficult to entangle, and it is no wonder that Bai Bingzong brought so many masters. If those people of Bai Bingzong are confronted with this dragon, I am afraid that most of them will be killed and injured, and they may not be able to kill.

However, Ye Xuan is eating by speed. This Tianlong can not catch him like the two Dragon Kings. He can only get rid of the scales bit by bit and then get rid of the faucet.

After the dragon's faucet landed on the day, Ye Xuan's Beastmaster's violent duration also happened.

"At last, I thought I would use the second Beastmaster to violently."

Ye Xuan took a sigh of relief. Next, he just wanted to dissect the dragon and take out the keel.

"Hey, the host has broken through the power of six hundred and forty dragons!"

When Ye Xuan swallowed the dragon corpse and the sacred beast, he also heard the system sound.

Now, if he uses the Beastmaster violently, the speed is estimated to reach the first stage of refining. If you improve a little more, then he has no rivals in the Royal Order.

At this time, Megatron could not help but jump out.

"Don't worry, I will give you when I refine the Tianlong bones." Ye Xuan said with a smile.

The realm of this dragon should be around 850 dragons. If it is to be refining, it is naturally the best material. At that time, it may be able to upgrade to the ninth order.

Although he said that he has received a lot of Qiang Kun ring, but at most, refining a temperament eighth order, it is not enough to reach the ninth order of the qi.

So next, he is going to a place, a place called Wangu City, and then sell the finished white bone warfare to exchange for refining materials.

In the land of bones, not only Bai Bing will control and refine the white bones, but only the white bones in the vicinity, so Fu Shihao and others naturally think of Ye Xuan as a white bone.

At the moment, Ye Xuan is leaving the first line of heaven. This Wangu City is a hub for several bones in the vicinity. There are many sectarian disciples who will purchase materials or purchase finished products.

Ye Xuan spent two days and also rushed to the city of Wangu.

He has not yet entered the city of Wangu, and he saw a huge animal bone in the gate of the city, just like the dinosaurs in the museum. This sacred beast was born before Ye Xuan.

According to other people, this savage demon has once been killed in the city of Wangu. With the strength of the ninth-order temperament, it caused great damage. Finally, the owner of the city of Wangucheng killed him and refining it. Then put it here to warn.

Ye Xuan took a closer look and found that the animal's bones of the nine-order temperament were laid down in a number of ways, and others wanted to take it.

After entering the city, Ye Xuan also found a place to eat a meal, and then went to the largest bone-bone market in Wangu City, where there is a mix of people, there are many people, many people will set up here to sell their own refining The white bones are trembled.

However, most people use human bones to refine them. After all, human beings are small in size, and have the same habits and relatively easy manipulation.

"Hey, little brother, are you coming to buy something or sell something?"

Ye Xuan was just entering, just one person came together.

"Sell, buy too!" Ye Xuan replied.

"Let's come to our store, we buy the body, of course, if you have a strong corpse of sacred animals, we also accept, but at least the sixth order of the sacred gas, there are many finished white bones, even ten years of bone, There are also bones in a hundred years." This smile, some treacherous men said.

The bones of a hundred years are the bones of the strong ones who have died for a hundred years. Such bones are better than those who have just died. The refining bones are stronger.

"I have a lot of finished bones." Ye Xuan answered again.

The man glanced and smiled: "I understand clearly, please ask the little brother here."

The general sects will have groups that specialize in the refining of white bones. These white bone wars are specially used for sale. However, such sects are generally sold together and will never be alone.

Therefore, Ye Xuan is relying on murder to get these bones to fight.

The man took Ye Xuan into a shop on the side, which feels like buying things in the electronic city in the past.

Then, the man took Ye Xuan to a private room.

"There have been a good number of white bone warfare, a total of one hundred and twenty-three, of which thirty-three of the sixth-order temperament, thirteen of the seven-order temperament..."

Ye Xuan took out the useless white bone war.

The man was shocked, and even there were thirteen of the seventh-order qi. It seems that Ye Xuan is not a general generation.
