

Super D.S 4501

Chapter 4501: One more

Previously, when the breakthrough was launched, Ye Xuan spurred the breath of isolation from Shennong Ding.

Therefore, when he breaks down the bottleneck of the realm in order to break through the bottleneck of the realm, the body's repaired atmosphere is also not felt by the seven late masters who are surrounded by the distance. and

Right now, with the completion of this breakthrough, the first thing that Ye Xuan opened after his eyes opened was to transform the konjac into a ninth change...

In an instant, his body has skyrocketed, and his strength has also risen directly to the eighth order of the universe. However, the huge body of 60 million miles in the ninth state is only a huge 10 million miles. Then stopped. no

The Shennong Ding's Dingkou, although able to accommodate it, seems to be full of congestion.

After doing all this, Ye Xuan was able to remove the breath of Shennong Ding. under

For a moment, with the horror of the eighth order of the Lord of the Universe at this time, he was sensed by the seven late masters who were surrounded by the distance, and after a brief silence in the light of the seven awnings, he was again There was a wave of exclamations...

"Hey! The temperament of the temperament is the breath of the air... is it the eighth order of the universe?"

how is this possible? In just one day, I successfully broke through the first order. Before the seventh order, now I have reached the eighth order. This is the master of the universe. A small breakthrough, when is it so easy and quick? ""

Undoubtedly, this violent temper is a secret that is too fast to be arrogant. It has been deciphered. All this is the reason of the colorful medicine. After all, it is a legendary thing, I wait. Don't talk about the medicine, even the treasure level has not tasted, naturally can't imagine the horror power of the medicine..."

"Unfortunately, how can it be deciphered? There is no nine-color flame, no Shennong Ding, I can't refine the nine-color magical medicine, this can be... really unwilling."

"I am not willing to be unwilling? It is simply incomprehensible. I am the master of the late period. I am surrounded by a **** secret law and forced to cultivate to the same level of violent temperament. I am still helpless. The other side retreats and breaks through the first-order repair. This is simply..."

Despicable, the deity feels so fast to vomit blood! "

"In any case, today must leave this violent, the significance of the colorful medicine is too great, I have not realized it before, but now it is not too late to understand."

Yes, this matter is too big, and the opportunity is fleeting. With the speed of this violent growth, if you let him escape today, see you next time... I am afraid I will be a prey! "Correct

The exclamation from the surrounding, Ye Xuan did not pay attention to it, his shackles flashed with sturdy stalks, lingering between the seven awnings around. most

After that, he seems to have determined the target of the shot. With a wave of hands, from the Shennong Ding in the foot, there will be a burst of flames in a moment.

After rushing out of Shennong Ding, he volleyed directly toward the blue light group on the right side.

This nine-color flame blast is welcoming the storm, although the flame tail has always been connected with the nine-color flame sea surrounding Shennong Ding, but the flame head in front of it is rushing to the extreme. blink

Between the eyes, it is close to the tens of millions of miles of this blue light.

In the meantime, the violent temperament of the Shennong Ding Ding mouth, which was sitting on the knees of the colorful fog, was not idle. "

Roar! "

Under the arrogance of the head, the violent figure disappeared directly at the Dingkou. When it reappeared, it was already at the forefront of the nine-color flame sea that spread out.

That is to say, now, he has crossed the gap of hundreds of millions of miles in the blink of an eye, reaching the forefront of the Flame Bridge, and the distance from the blue light group is only about three or four million miles.

This speed even surpasses the teleport of the Lord of the Universe, because this canopy is like a vast expanse of flame bridges, and has always been connected with Shennong Ding. Therefore, Ye Xuan can move anywhere on the flame bridge. appear. This

It is the effect that the Shennong Dingwei can achieve! and

At this time, as he waved and spread a horrible flame bridge, his body shape was also close to the tens of millions of miles of the blue light group in the moment, and within the other six canopy light circles in the sky, it was instantly transmitted. There was a shocking whisper..."

what? Come out two more? The violent use of the **** sea secret of the Lord of the Sea of Blood, this is the voice of the East..."

"We are fooled, his real goal is to be a golden light group to help!"

"Damn, the speed is too fast, and the two avatars are directly drawn from the nine-color flame sea under the feet. There is no sign in the first half of the battle. There is no defense at all, there is no warning!"

That's too late! Damn, is it going to be won by him? This goes on... The deity suddenly has a feeling of extreme uneasiness. I am afraid that today is hard to be good! ”

"The deity is unwilling, too mean, too shameless! Hehe..."

call out....."

As these exclamations sounded, the blue light group did not hesitate, and it quickly retraced, and the other two nearby tarpaulins, which were closest to each other, also rushed to the side at the first time, hoping to rush. its

The light beam on the left side is a little closer because of the distance. In addition, the light flame bridge is moving forward toward the blue light group, and it is also quietly extending to both sides, but the speed is slow and it looks unremarkable. . Yes

Therefore, the golden light group that rushed from the left side, the distance between the blink of an eye and the left side of the flame bridge, has only been more than 30 million miles.

At this moment, the violent smog in the forefront of the flame bridge directly ignited the avatar power of the blood sea secret law...

"call out!""

call out! "a few

At the same instant, at the edge of the left side of the flame bridge, two huge giants of thousands of miles instantly rushed up, which is the sacral body and the black mist in the three avatars of the Taikoo konjac. by

The two avatars are motivated by the power of the blood and sea secrets. Therefore, the repairs that are scattered in their bodies are all eight steps of the universe!

Without hesitation, the two octaves, which were mastered by the eight-order celestial ceremonies, were shot at the same time. They were shot at the same time, and they slammed into the golden light group that was quickly mobilized. "

boom! "

Without a half suspense, the golden light group was simply unable to prevent it, and the body shape did not stop, and it immediately burst into a golden blood fog, which spreads.

"Hey..."

For a moment, the violent figure of the front end of the flame bridge disappeared, and the two konjac avatars that set the volts to kill the golden light group were also waved, and the golden blood fog that spread out in the void was gathered.

Then the shoulders swayed and directly integrated into the nine-color flame bridge at the foot! do

After all this, the flame bridge was retracted in an instant, and it was again turned into a tiny nine-color flame seedling, which broke into the Shennong Ding, and the body shape that had just disappeared from the front end of the Yanqiao Bridge appeared again at Dingkou. There is a lot of excitement in the middle of it...

Therefore, from this moment on, the blood of the master of his hand... has reached seven!

Chapter 4502: The great master of the universe

All that happened before, long story, but in fact it happened between the lightning and the fire...

The degree is too fast, from the violent wave of the Shennong Ding under his own shot, a nine-color flame seedlings, turned into a flame bridge, and went to the golden light group, the late dynasty master was killed, violent Return to Dingkou, Flame Bridge withdraws...

Before and after, only three interest rates are not enough!

At this moment, with the return of violent temper, the newly-collected golden blood fog of the awning was sent to Shennong Ding underneath, and the seventh **** essence of the dynasty was launched, surrounded by hundreds of millions of miles away. In the void of the universe, the only six awnings in the glory of the glory, the sound of exclamations, and the sound of the road, immediately sounded..."

how is this possible? Between a few short breaks, I waited... ""

At first, the tyrannical late master of the typhoon was eight people, counting the Zerg black sect. There are nine cosmos in this intermediate and strong forbidden land. ""

But now, I have lost three of them, but I have only six people left? And in terms of time, it didn't even arrive in two days. It was simply unimaginable..."

"I have a very bad feeling, and this situation seems to continue."

"How is it possible? The same means, will the temper dare to play for the second time? Even if he has this courage, I am not afraid that I will count it, but in the scene that has just happened, I will wait again."

"Adjust the formation, how about the six late masters? I still maintain an absolute advantage, and I can form an effective trap around him in the Shennong Ding. As long as I think of a solution, he still can't escape today. Robbery..."

As these exclamations sounded, the six-small urns around the hundreds of millions of miles of emptiness immediately adjusted their shifts and evened the position of the golden light group that was previously smashed. Such as

As a result, although the gap between the traps is wider, at least the trapping trend is still effective. Correct

In all this, Ye Xuan did not pay attention to it. After some indulging, he once again sat down on the knees of Shennong Ding with a colorful mist. he

To continue to break through!

Because there is another small-order breakthrough, his cultivation is the strength, and he will reach the nine-step grand reunion of the universe. At that time, he will be able to take a twenty-six-level master, and make his own cultivation. Formally entered the realm of the universe. Do not

However, since I have just broken through once before, if in normal times, it is basically difficult to break through the success in a short time. but

Ye Xuan is not worried about this because he has seven bloodstains in his hands and eight bloodstains.

If a bone brain is swallowed up at this time, it is not a problem to forcibly break through to the nine-step grand perfection of the universe. Decision

After the decision, his shackles flashed, and once again opened the isolation power of Shennong Ding...

"Hey..."

The sound of breaking the air, a spurt of anger, hanging in front of Ye Xuan, is still all the cultivation resources he took out from the immortal world!

Including as a breakthrough in the main resources of more than a dozen of the blood and the blood of the Emperor, as well as the colorful magical medicine and other large-scale cultivation resources, such as the evil source liquid and so on.

They are all top-level objects, exuding a strong breath, and once again look at the six late masters who are left in the distance hundreds of millions of miles away.

After a short period of sluggishness, these six minds, who had long been faintly disturbed, once again issued a wave of exclamations...

"Behold, the **** violent squatting down at the mouth of Dingkou, and waving the top cultivating resources such as Jiu Shen Shen Medicine..."

"What does he want to do? Break through again? But how is this possible? Before a few hours, he just broke through the first-order repair and ended the retreat!"

"But if it is not a retreat, what can he do if he does this?"

I have seen it once before, can I still have any questions? This **** violent, is this the rhythm of killing me on the spot? "

"Oh... the deity can't stand it, and the embarrassment is uncomfortable. It's so **** when it comes out!"

Crazy, must be crazy, the deity never believes, he can still break through this time, it is a nightmare..."

The exclamation sounded like a wave, but Ye Xuan completely ignored it. At this moment, he has already promoted the field power of Shennong Ding, and compressed all the cultivation resources to the size of only the baby fist, which is convenient for swallowing the belly. in.

"哗啦啦....."

At the same moment, the overwhelming chain of sounds sounded in the body of Ye Xuan, and the chain of shackles that appeared was still only one. Connect

Everything that comes down is like a replay of the previous... Ye

Xuan is the face of the six late-time masters gathered around the hundreds of millions of miles. He has closed his eyes without urgency, and then spurs the energy of the river that has just formed in the body. Expand the next big day of operation and accumulate strength. This

The time was slightly longer and it took four full days.

In the end, when the energy in the body was refining, Ye Xuan was only a shock, and the chain of the shackles was broken.

And with the complete collapse of this shackle chain, the expected system sounds, and soon in the mind of Ye Xuan..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the eighth order of the universe! "

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: the eighth order of the universe."

Eighth Order! This

A breakthrough will undoubtedly make Ye Xuan's combat strength rise again!

After the last breakthrough, his deity's cultivation is the seventh order of the sage. Once the blood of the ancient konjac is activated, he can climb to the eighth order. If

It is to display the konjac and change the magical powers, and reach the ninth change. The combat power is immediately ascended to the eighth order of the universe! Such as

Today, after the activation of the konjac blood in the body, Ye Xuan will immediately have the strength of the nine-order grand perfection of the Sayādaw. This

It is already the peak of this situation, and if he is to display the magical power of the konjac, and directly enter the ninth change, the peak force will reach the ninth order of the universe, and it is also the peak of this! thing

In fact, if you count the horrible blood power of the huge body of 60 million miles in the ninth state of change, Ye Xuan's real combat power will basically be comparable to the first-order universe of the supreme! where

I am afraid that because of the reason of crossing the big realm, the combat power of this huge body and blood will be slightly discounted. but

Even if you don't reach the true first-order cosmic supreme, there will be no difference.

That is to say, the peak strength that Ye Xuan can now achieve is a half-step supreme battle with the nine-order grand perfection of the universe, and it has been fully crushed.

The presence of the six late masters of the universe, including the existence of the nine great consummations of the two universes, could not have been his opponents. turn off

The key, Ye Xuan and the secret of blood and sea, once motivated his avatar power, this kind of combat power, he can change three in an instant...

Chapter 4503: Speed supreme

Nowadays, Ye Xuan's blood in the hands of the lord has reached seven giants. If it is immediately revival of the twenty-sixth level of Zun Baodan...

This furnace is the supreme treasure, he has more than 70% of the grasp, can refine three. four

The grasp of the piece is also close to 50%! but

In fact, it is still far from the time when the 27th-level Baodan will be unfolded. One

In terms of the perfect Dan Fang of the 27th-level Baodan, he still hasn't pushed it out yet. On the other hand, it is because of the war in front of him. It is far from the end of the battle...

Around the Shennong Ding, hundreds of millions of miles away from the late universe, there are six masters, and Ye Xuan dare not say that he can kill these six powerful late-era masters, but how many can still be two Three of them. each

More than one, it means that at least one twenty-seventh-level Baodan can be added in the future. This temptation is too big, even he can't refuse, and he is very excited.

At the beginning of this battle, Ye Xuan's cultivation was only the sixth order of the universe. In the state of activating the body of the konjac blood, and the blood of the konjac changed to the ninth state, his repair For the strength will reach the seventh order of the Lord of the universe.

Because of the huge force of the huge body of 60 million miles, it has a first-order bonus effect on the cultivation of strength. Therefore, his true combat power can be compared with the existence of the eighth order of the universe. but

Now, in the midst of the war, Ye Xuan has made two breakthroughs in succession. Now his own cultivation has reached the eighth order of the universe. Once the konjac blood in the body is activated, he will have the nine-order perfection of the universe. . Such as

Therefore, under the activation of the ninth change of blood and magic, Ye Xuan will become a true nine-order master, coupled with the blessing of the power of the blood, even its power can not reach the real universe supreme In the first order, the difference is not too far.

More importantly, he has the power of blood and sea secrets. Under the urging, it is the three infinite powers close to the universe supreme...

In this case, even in the universe of hundreds of millions of miles away, there are still six powerful late-stage masters, and he is besieged. Ye Xuan can only cope with the situation with his own strength...

If at the beginning of this war, Ye Xuan was in an absolute disadvantage, the only request at that time was even just trying to escape. that

What has happened, the situation has developed to the present, and within a few days, everything has been completely reversed.

Really want to talk about the power, Ye Xuan has definitely become the dominant side. and

What he is thinking about now is no longer a matter of drawing away... If he needs it, he can now take it easy without any pressure.

The question he is considering now is **** as much as possible the six late masters who are surrounded by hundreds of millions of miles away. each

For a later period, the master of the post, in his case, represents a forthcoming twenty-seventh-level Baodan, which is too significant. Ye Xuan must maximize the benefits as much as possible. because

For the next time I want to refine the Supreme Baodan, I don't know when it will be. The Lord of the Universe is not so good to find, and five pieces can meet the minimum requirements for refining. The threshold is speechless.

Now, although he already has the powerful strength of crushing these six late masters, they are the masters of the universe in the later period. If they realize that they are not good, they want to escape, it is very possible!

At this moment, with Ye Xuan's once again a smooth breakthrough, he opened his eyes. In the past few days, he has been waiting for the six late masters of the Shennong Ding, which is a few hundred million miles away.

The screams of the tide, in an instant, sounded from the different light bands of the six canopies...

"What? How long has this been? Is it over?"

"This guy won't break through the first-order repairs seriously and smoothly? In just a few days, this is the second breakthrough. The efficacy of the colorful magical medicine has really stunned this horrible Realm?"

Before he had not used the mysterious **** magical powers, he was only seven steps in the strength of the sage, but now he has reached the ninth-order great consummation of the sage, and the mysterious **** magical power, once applied, will be instantly Let his cultivation become a big realm of strength, is this not to say that... This violent, already has the ninth-order great perfection of the universe? ""

This is no longer weaker than any one of me. In fact, even the two ninth-order lords of me and so on, now if they are single-handedly fighting, I am afraid that they will no longer be his opponents..."

"It's not bad. Counting the power of terror and blood in its huge treasures, even if it is across the realm of the big realm, at least it can make the violent force increase by half or more. That is to say, now he has it is infinitely close to the true universe supreme."

"How is this still fighting? Even if I wait until it is fixed, I am afraid it will be difficult to trap him again. Is it true that this battle will end up with a hate?"

"It must not be like this. I missed the opportunity of today and gave him a certain time. This violent temper will grow stronger. At that time, even if the universe is in Supreme, I am afraid it will be difficult to surrender him again..."

"You don't have to entangle any more, please supreme. Now, in this situation, only the interests are separated, please come to a cosmic supreme. Today, I will have the possibility of winning the war."

"Other things that have been done before will all be lost..."

Dear lord, five friends, be sure to trap this shackle, at most three days, the deity must return! ""

Oh..."most

The latter sentence was transmitted from a black light group on the west side of Shennong Ding. With the last roar of this roar, the black light of the awning suddenly burst into a strong Wumang, a flash of light. Next, disappear instantly...

"Booming!"

Boom..."

With the disappearance of the black light group, the Twilight Group, which was trapped in the emptiness of Shennong Ding's hundreds of millions of miles away, turned from the previous six canopies to the current five canopies, and the west side of the position, there was a vacancy. but

Soon, the constant roar of the roaring sounds has already started. The five awnings are moving, and all of them are moving to the position. In the blink of an eye, the vacancy left by the black light group has been made up.

Only in this way, the gap between each of the two awnings is even larger than before, but in general, the situation of stagnation still exists. very

Obviously, the five late masters of the five awnings in the glory of the glory of the dynasty still have no heart to die, but they have been biting their teeth and staying in danger! "

This can really be a lard, but I still don't give up until now..."

In this scene, I opened my eyes, and Ye Xuan, who had just grown up from the Shennong Dingkou, had a flash in the middle of the mouth. When the mouth whispered, the shoulders swayed and he stepped out of Shennong Ding. : "If this is the case, then... the war will be over!"

Chapter 4504: Strong crushing

Before, because of the retreat of the retreat, Ye Xuan has been freed from the **** magical power of the konjac, so the current state only activates the blood of the konjac in the body, but does not display the ten-foot high of the blood.

The temperament that is diffused in the body is only the perfection of the ninth order of the universe. but

At this moment, as he stepped out of the Shennong Dingkou mouth with a colorful mist, the violent temperament of the body was ten screaming, and his head was a roar..."

Roar! "

"The konjac nine changes... the ninth change!"

As the roar of the roaring sound came out, the starburst violently exploded a huge explosion in the body. In the blink of an eye, the body shape that was originally only ten feet high has skyrocketed in an incomparable time. speed

The degree is almost horrible, and the strength of the body is even more like the roar of the river, the inexhaustible fierceness in the limbs, and the invisible, there is a horrible breath that is unimaginable.and

Moreover, while the body has skyrocketed, the temperament of the violent body has also rapidly increased. half

If you don't have enough interest, you will be satisfied by the ninth order of the previous universe, and your eyes will rise to the present nine-order grand perfection! One

The cultivation of the realm of the realm is so magical that it has been realized in a half-short time. This scene, watching the hundreds of millions of miles away from the universe, the late universe of the six awnings in the universe, the eyes of the masters jumped straight, the heart of the head Full of endless envy and hate!

In an instant, with the horrible peak of the horror of the horror, the vast and innocent middle-level forbidden land, surrounded by a fierce beast in the distance, responded in an instant, came There are countless rumbling voices.

All the forbidden beasts, almost subconsciously, all crouched on the ground at this moment, and did not dare to have any movements, and even some of them blew the sound of the explosion.

However, many of the forbidden beasts who are weaker in strength can't bear this powerful, infinitely close to the terrible pressure of the cosmic supreme, the flesh is bursting open, and the sin of this fall...

After being trapped for so long, Ye Xuan has shot several times, even before and after the adversity, killing three powerful cosmos.

But these three shots, but no exception, all use the sneak attack means, after a blow, immediately withdraw and retreat, otherwise it is dangerous. can

It is said that these three times, he is all in danger of being in danger, plus the status quo of being besieged, so that the grievances accumulated in the violent heart can naturally be imagined. Do not

After that, everything is already in the past. Now, with the repair of strength in a few days, two small steps have been soared. Now the temper has already had the terrorist power infinitely close to the supreme of the universe. four

In the universe of hundreds of millions of miles away from the universe, although there are still five late Zhou dynasty squatting, but any one of them, Ye Xuan has no fear.

The reversal of the strong crush, the resurgence of the anti-grinding enemy, finally arrived!

"Roar....."

These thoughts flashed through my mind, and the violent temper of the emotions immediately gave me a terrible roar.

The sound of the singer has not fallen, Ye Xuan's voice of the gods has been heard, understatement, not ill, although it is gentle, but it covers the vast void of the entire Xingqiang forbidden land, revealing the meaning of endless bullying: "You are not Do you have a lot of self-defense and besieged the Lord?"

"In this case, the star master now has a pair of five, single-handed, etc... either war or roll!"

"Hey... **** secret law!"

As the last roar came out, the huge body shape of the violent sixty million miles collapsed into a vast and innocent blood sea, which opened in the void of the universe.

With Shennong Ding as the central point, it quickly diverged toward the surrounding area... just a few short distances, the **** sea secret has been spurred by Ye Xuan to the extreme, a piece of nearly one billion miles of endless blood, in the void Presented in it. when

When the vast expanse of blood came to the surrounding, all the stars along the way, whether there were fierce beasts with banned beasts, or abandoned stars, all without exception, were destroyed and turned into cosmic dust. ten

In a vast area of 100 million miles, the five awnings of the surrounding area, which are surrounded by hundreds of millions of miles away, have all been reinstated into the **** sea. Today, this vast and endless vast sea of blood is here. Below the five canopy.

Looking at it at a glance, this scene is like a vast sea above, rising from five different directions, five giant stars of different colors...

"boom!"

"boom!"

"Boom!" Three

The horrific explosion of the road came from three different positions in the vast sea of blood. Then, in the boundless blood of the sea, there were three huge figures, which instantly rose to the ground.

It is the three great devils of the ancient konjac.

One is the flesh and blood, that is, the starry sky. One

For the body of the cheekbones, there is no flesh and blood, just a purple-golden cheekbones, revealing endless fierce breath, very incomparable. One

For the body of the black mist, although it is also a violent form, but the body is a black fog, even a pair of scorpions, just two awnings, it looks very strange...

Under normal conditions, the three great bodies are trinity, and the back seems to stick in one place...

However, now, Ye Xuan actually uses this **** sea secret method to divide the three great devils of the Taikoo konjac into three **** seas. And

Because of his heavy avatar power to the secrets of the blood and sea, he has fully realized that, these three **** seas, the body's refinement of the atmosphere, all of them are the nine major steps of the universe.

Only one step away from the cosmic lord! "

Come, are you not going to trap the Lord? Now, the moment of the war has come, or the sentence, then the battle, or... roll! ""

roll roll roll....."

The three **** seas and avatars all have thousands of miles. At this moment, the ground is still connected with the endless sea of blood and waves, but all of them have heard the voice of Ye Xuan. through

With the endless ambiguity, I want to use my own power to fight the master of the universe between the five late stages! "

boom! ""

Oh..." with

The roar of the three **** spurts came out, and the terror of the half-step to the respect of the body also climbed to the extreme. One

Time, the universe in the void outside the **** sea, within a star of a beastly beast, immediately came a clear and unmistakable bang. only

It's just a roar of sorrows and sorrows. In this mid-level and strong forbidden land, within a star of a beastly beast, it has fallen down and I don't know how many forbidden beasts, all because they can't bear the pressure of this horror. Exploding and dying, the entire vast forbidden land is empty, a piece of wolf!

At this moment, Ye Xuan, called the devil's world, is daunting to look at it. Within the five awnings of the five sides of the **** sea, there is a sudden scream of excitement... ..

Chapter 4505: Second burst

"What? Is this the trick? He really has already realized the blood and sea secrets of the Lord of the Sea of Blood, and has just broken through, and the three **** seas that have been condensed have all the same strength as the deity..."

"This is the three powerful nine-order masters, the existence of half-step supreme, although I have five people, but this real existence, but only two, does not seem to dominate..."

"It's amazing. Everything is ruined. Once upon a time, the situation has evolved to such an extent. At first, I clearly had the absolute crushing advantage, but now everything has changed."

"They are all evenly matched. The so-called trapping is just a joke. You are friends, now... Where are you going?"

"When it is now, it is only as violent as this one said, either to bite your teeth and let go, or ... roll with your tail, it is too wrong!"

"When the war is over, I have lost all my strength in the invisible, but it is still only a close match, and it has not fallen into the downswing. Just stick to it and wait until the reinforcements arrive. This violent, can only be degraded on the spot!"

"Fight!"

"Hey..."

As the sound of these exclamations sounded, the five tents were always restrained, and there was no light inside the Twilight Group, which was too strong to hold the strong pressure of the dynasty.

For a time, the chilling and murderous murder was like a hang of the Nujiang rushing out, bursting out from the five awnings of different colors.

"boom!"

"Hey..."

In a blink of an eye, this vast and empty sky in the mid-level and strong forbidden land is superimposed with the killing power of five powerful late-era lords, within the stars of a beastly beast in the distance around the **** sea.

Immediately, it was like a response, and there was another intensive blasting. This time, I don't know how many innocent savage beasts, because they could not withstand the horror of this horror, they succumbed and died. .

"Roar!"

"Roar!""

Roar....."

At the same moment, three thrilling roars rang, and the waves of endless blood and sea surged to the extreme at this moment. The three fascinated konjac with the **** ocean and the right fist, rushed to a different direction. its

In the middle of the two heads, they rushed to the left and right sides to emit the same half-step scent of cyan and blue light, while the other flesh and blood, which is the violent form of Ye Xuan, directly rushed to the front of the awning Green light group.

The temperament that is scattered in the green light cluster is only the seventh order of the Lord of the universe. It is the five late masters who are still stuck here, and cultivated as the weakest existence. a few

In the next moment, the shape of the violent rushed out suddenly, the blink of an eye has reached the tens of millions of miles in front of the green light group, without hesitation, directly punched out! Connect

Everything that comes down is no suspense..."

boom! "

The loud roar of the sound rang from the void, and the green light of the awning had exploded in an instant.

Among the green light spots that are scattered in the sky, it is clear that a green ostrich with a huge body of tens of thousands of feet can be seen. Under the horrible power of Ye Xuan, its body is completely blown up to a green one. Blood fog, spread on this! "

call out! "sudden

Under the defense, the attack on the enemy is simply a second explosion. This kind of victory makes Ye Xuan feel a loose heart and floats out of joy. No

Any hesitation, then, violently waved in the first time, a huge invisible instinct from the body, enveloped a million miles. just

The green blood mist that just spread out was swept away in an instant, turning into a green waterfall of blood and blood, just like Changhong, and it was incomparably into the Shennong Ding, which stood in the middle of the **** sea. Directly **** condensate. This

The scene happened too suddenly, and the other late lords in the four awnings were completely unresponsive. When they returned to God, the existence of this awning green light group was already violently punched. It has fallen. this

At that time, the black mist and the cheekbones have already rushed into the tens of millions of miles of the blue light group and the blue light group. Without any hesitation, it is also a punch.

"Is it a killer? How is this possible? Hehe..."

"Puzzle...hey!"

Under the anger of the cross, the two awnings are rumored in the sky, and at the same time, there is a giant cyan beast head, and a blue body with the same body shape and covered with barbed scales. The color of the animal limb, extending from within the light group. also

There is a horrible atmosphere that shows no weakness, and the two **** seas that are swept away by a punch are smashed! "

boom! ""

boom! "

"Card..."

Two shocking explosions came, the sea of blood thrilled hundreds of millions of feet, the blue beast and the blue beast and the two **** seas slammed on the front, bursting out of the horrible temperament, even the cosmic void above the **** sea Because of this, the inch is broken and opened, and a large number of emptiness and turbulence flow out. The entire battlefield is a mess...

This blow is evenly matched and equally divided.

The black mist avatar and the shin bones were not able to take advantage of it, and the half-step sacredness of the two sacred squadrons in the blue light group and the blue light group also failed to gain a little benefit! "

Roar! ""

Roar! "This

As a result, the two **** seas of Ye Xuan were obviously dissatisfied, and they were quite unwilling. After each of them screamed and screamed, the two **** seas split up and rushed again.

The four-step supreme of the four ninth-order grand perfection of the king's main body, instantly mingled into a group, a whole piece of the universe of hundreds of millions of miles of the universe, was completely collapsed. Do not

After all, here is the mysterious emptiness of the moon, the power of the law has reached its peak, although the power of half-step supreme can already break the void.

But the void after the collapse, immediately closed at a speed visible to the naked eye. This

The surprise is magical and magical. At the same time, it is dazzling and fascinating. It can't be chilled and scared. Only the half-step supreme of the nine-order grand perfection of the lord can be broken in this void. Under the background of constantly repairing and bridging, the fierce battle is still incomparably calm...

On the other hand, the four sacred sacred sacred sects of the ninth-level squadron gradually became wary, while the flesh and blood on the other side, which is the violent form of Ye Xuan, also blasted the green. After the light group, the first time turned to the other two awnings in front of the left, and looked at the past. This

The two awnings are red and purple, and the temperament that is scattered in them is all the eighth order of the universe. Only one step away, the lord of the ninth order can be perfected.

Previously, when the violent rushed to the green light group, the two awnings were separated by a distance of more than 200 million miles away. They were also expediting and rushing toward the violent spurt. It was clearly intended to try three enemies. The rhythm of violent suppression. but

Nowadays, with the violent means of thunder, the green light group is bombarded in an instant. The red and purple light groups of these two awnings are suddenly stunned, and the momentum that comes from the lasing is also at the same time Halfway through, stop...

Chapter 4506: One can't be less

In a blink of an eye, the green light group was bombarded, and the five late masters became the current four.

Seeing this scene, the red light group and the purple light group that had been rushing from the violent temper, stopped in the middle of the moment, and suddenly came to an end. tight

Then there were a few shocking whispers that came out of the two awnings..."

what? The green dragonfly actually fell? ""

hiss! The original three-on-one has instantly become a two-on-one. With the cultivation of the eighth-order environment, I am only two-on-one. How can I fight this tragic violent temper? ""

Quick withdrawal, today's battle... is no longer necessary! ""

Yes, although the benefits are tempting, things can't be done. The most important thing is, after all, their own lives..."

call out! "

"Hey!"

The sound of the two awnings has already turned away from the road when they came, and listened to what they said. It is clear that it is impossible to see things, and they will immediately withdraw. This

It is also the meaning of it. After all, the temperament of today's temperament has reached the half-step supreme of the nine-order grand perfection of the lord, and if it is the late seven-eighth-order lord, if there are three squats, they will resist each other and rush down. You can also protect yourself from innocence. can

If you only have two eight-order masters, it is obviously impossible to do this. It

When the green beasts in the green light group of the former canopy have not yet fallen, even if Ye Xuan condenses three blood and sea avatars, the strength comparison with the five awning gongs is only a drum. but

Now, with the green and fierce beasts in the green light group falling, the strength comparison between the two sides has changed in an instant, and Ye Xuan, who has condensed three **** seas, has become a strong side.

And the rest of the four canopy glory, but fell to the weak side. four

Among the awnings, the blue light group and the blue light group respectively greet a **** sea and are not affected by the factors of this strength change. anti-

It is a red light group and a purple light group, and the pressure is greatly increased in an instant.

Under this circumstance, if they are forcibly supported, the result they will eventually face is most likely to be like the green beast and beast in the previous green light group.

In the face of this situation, the immediate withdrawal is the only option, even without hesitation! "

It's too late to want to go now? "

"Today, none of you can't run away... one can't be less!"

Roar! "eye

Seeing the two awnings rushing toward the road when they came, the voice of Ye Xuansen's cold words came out of the violent mouth. Then, after screaming and screaming, the horror of his Ponta The figure is instantly turned into a **** fog, and it is not in the endless blood of the waves below.

Almost at the same moment, the red light group retired in front of the road, the **** sea smashed the huge waves, the huge body shape of the tens of thousands of miles, set off the ground, suddenly rushed out, only one step, blink of an eye Within tens of millions of miles in front of this red light group, there is no hesitation and a punch..."

boom! "huge

The loud roar of the roaring sounds from the void, the red light of the awning has exploded in an instant, and among the red spots scattered in the sky, it is clear that a **** body with a huge body of tens of thousands of feet can be seen. Crocodile.

It is a pity that the body shape of the crocodile has just appeared, and its flesh has been completely bombed under the horrible power of this blow, and it has spread rapidly to a **** fog. "

call out! "No

Any hesitation, violently waved in the first time, a huge invisible invisible temperament from the body, enveloped a million miles.

The blood mist that just spread out swept away in an instant, turning into a red, sturdy, **** waterfall, like a long rainbow, and inspiring broke into the Shennong Ding in the center of the **** sea, directly unfolding blood. Refined. "

Hey..." Look

In this scene, in the other direction 200 million miles away, in the purple light group that is heading for the edge of the **** sea, there is a screaming whistling sound, revealing endless panic and fear. The meaning. very

Apparently, the late master of the crouching in this purple light group was finally afraid.

In the vast area where the endless sea of blood spreads, the universe's void is affected by the blood and the power of the sea. It is the late master of the universe, and it is impossible to directly deploy the teleportation. It can only develop the speed, and first rushes to the edge of the **** sea. In order to launch a teleport. Partial

Although their speed is fast, they can be fast, but they can't compare with the temperament of the endless **** sea.

As long as you are on the **** sea, whether it is violent, or the body of two other bones and the body of black fog, you can integrate your body shape into the blood of your feet anytime and anywhere, and at the same time, you can rush at any other place in the **** sea. From

The interval in the middle has reached a level that is completely negligible!

Appropriate, the reason why the violent screaming can kill the star crocodile in the red light group is because it occupies this advantage! no

However, although the strength between the ninth-order lord and the eighth-order lord is disparity, the former wants to block it in the **** sea area where only one billion mile is rounded, but it is not Easy thing... this

Engraved, with the star-shaped giant crocodile in the red light group being bombarded, the power of blood and blood was taken away, and sent to Shennong Ding, Ye Xuan's master of blood, has reached nine giants. nine

The main blood of the king, if it is the refining of the 27th level of the supreme Baodan, Ye Xuan has more than 80% of the grasp, can release six, even even seven, have a 50% or so.

But this is far from over. Just in front of him, he is about to reap a **** master.

"Hey!"

Under the first roar, the huge body shape of the violent tens of thousands of miles directly dissipated, turning into blood rain, falling to the endless blood of the sea.

At the same moment, in the distance of 200 million miles away, the purple light group that was escaping from the canopy was in front of the road. The **** sea suddenly smashed the wrath of the sky, and the huge violent temperament of thousands of miles directly rose to the ground. No

Half a minute stagnation, while the roaring sounds, a punch hits the oncoming purple light group..."

dont see

In this scene, the original speed of the purple light group suddenly stopped, and then there was a fierce whistling sound, which came out of the light group.

"boom!"

The whistling sound has not yet fallen, and the violent fist has already hit the purple light group.

The sound of the earth-shattering sound of the explosion came from the **** sea within a hundred miles, and the purple light group burst into flames. The blink of an eye burst open completely, and a purple blood fog spread from it.

"call out!"

At the same moment, there was no hesitation in the temper, and at the same time, a wave of incomparable invisible enthusiasm was rolled out from the body, covering a radius of 10 miles...

The purple blood fog that has just spread out of this awning has swept through the rumbling, and the blink of an eye has turned into a purple, **** and long waterfall, and it has entered the Shennong Baoding, which stands in the center of the **** sea. First

The refinement of the blood of ten of the main savage beasts...

Chapter 4507: The rhythm of the whole army

In a blink of an eye, the purple light group was bombarded, and the blood and blood formed after the body exploded, turned into the refining material of the tenth master blood in Ye Xuan.

Ten pieces of the main blood of the king, if the refining of the 27th level of the supreme Baodan, Ye Xuan has more than 80% of the grasp, can release seven, even eight, have a 50% or so. but

This is still far from over. On the other side of the **** sea not far away, he will soon be harvesting two more bloodstains.

At that time, as long as the last two awnings of this last blast are blasted to kill the lord of the universe that is crouching within the glory, then the blood of the lord of Ye Xuan's hands will reach the terror of twelve! ten

The two masters of blood, if the furnace is refining the 27th level of the supreme Baodan, he has more than 80% of the grasp, can produce nine, even ten, have close to 50% of the grasp.

Nine twenty-seventh-level Supreme Baodan, each one, in the future, represents his presence among the geniuses, and there is a surviving level of the universe. brain

I thought about these thoughts in the sea, and Ye Xuan was in a hurry between the moments, and the breathing became a rush. band

With this kind of strong expectation, the violent chilling flashes, and turns to the other side of the **** sea in the distance...

Over there, the cheekbones and the black mist are still violently fighting with the peaks of the crests of the blue light and the blue light.

Although the war has just begun, but because both sides have done their best, there is no reservation, so the war has entered a state of infancy in a short period of time...but

In general, the two battlefields are basically equal, and they are not able to take advantage of the two **** seas and two awnings. Of course

However, this balanced situation will obviously be broken soon.

"Booming..."

"Boom..."

Under the flash of the cold mang, the violent sorrow did not hesitate. The huge horror figure of Panda's tens of thousands of miles was suddenly striding in the boundless blood of the waves, so step by step, Going to the other side of the **** sea...

At present, the only remaining cyan light group and blue light group have already been completely restrained by the sacral body and the black fog. Even if you want to take a walk, it is impossible.

Therefore, the temper is not in a hurry, and rushes away.

This scene is too shocking, and there is no boundless vast sea of blood, a road like a sky and sky like a huge wave of blood. and

Above the sea of blood, a huge violent temperament of a huge size has taken a big step, with a horrible atmosphere of rushing thunder, rushing away, even the void, because of this There was a thunderous thunder...

"Roar!"

"Hey..."

At the end of the **** sea in the distance, the two peaks of the crests in the blue light group and the blue light group apparently already saw this scene, and realized the situation here. Are

In the meantime, the sound of the roaring and whistling sounds came from the light of these two awnings.

Followed by the sound of the gods of endless unwillingness and despair..."

waste! It's all waste..."

The three masters of the late seventh and eighth ranks, even the time of the short and half-column incense could not be sustained, they have been wiped out by the whole army, and they are simply vulnerable..."

Finished, today's battle, there is no hope, just relying on you and me, facing the three half-step supreme of the same strength, absolutely can not support three days! ""

Withdraw it! ""

Not sweet..."

Oh..."

With the passage of this utter indignation and unwillingness of the gods, the two crests of the crests of the blue and the blue light group have apparently reached a consensus in the first place. No

It is necessary to fight again. At the moment, they only want it, just hope that they can be safely separated. This

It's so maddening!

A few days ago, they set up a squadron here, and they were strong and besieged their opponents. But now, in just a few days, they have already fallen to the point where they can even retreat. They flee in a hurry, and they are all stunned. There is no point at all.

There is no such thing as a battle of grievances, but it has to face it. How can it be?

However, if you don't want to, you have to let go, and then drag on, the final result must be degenerate..."

Hey! "

"Hey!"

At the same instant, the cyan light group and the blue light group all had a low humming sound. This movement was actually the same as the sixth-order zerg that had been killed by Ye Xuan before. Static, roughly equivalent! very

Obviously, the two powerful masters of the two-and-a-half-step stalwart are mostly from the hands of the sixth-order zerg, and learned the secret law that was originally belonged to the zerg. This

It is also understandable. After all, Ye Xuan's konjac has become a **** genius, which is obtained from the blood of the blood-sucking lion family...

Today, the two half-steps of the blue light group and the blue light group suddenly provoke this **** secret law belonging to the sixth-order Zerg, the purpose of which is naturally impossible to trap their opponents, but to escape! "

Zerg secret law? Want to escape? Not so easy..."

With the sound of these two low and strange screams, the violent rush of the rushing rushing in the endless **** sea flashed, and Ye Xuan's incomparable voice of God was instantly heard. "

Roar! "

"Oh la la..."

Under the scream of the first, the endless sound of the water is ringing, and the huge body shape of the violent tens of thousands of miles directly dissipates, turning into blood rain, falling to the endless blood of the sea. with

At one moment, in the left side of the distance of hundreds of millions of miles away, the canopy is near the blue light group with a low humming sound, and the **** sea suddenly smashes the sky and the waves, the huge temperament of thousands of miles. Directly set on the ground, on the other side of the cheekbones, sandwich the cyan light group. "

You can't escape...go to death! "

"boom!"

At this moment, Ye Xuan's voice of God's voice rang again. When it was still not falling, the violent and squatting squats had been punched out at the same time, and the blue light group was taken straight.

"Hey..."

The sound of the earth-shattering sound of the explosion came, and the **** sea within a hundred miles of the mile blew up an endless hurricane. The blue-colored light blasted in the whistling sound of the screaming, and the stunned eyes were completely opened. Blood fog, spread from it.

"call out!"

At the same moment, violently waved, a huge invisible instinct was rolled out from the body, shrouded in a million miles, and the blue blood fog that had just spread out was collected from Shennong Baoding. tight

Then, without hesitation, the violent scorpion and the sacral bones that had just killed a strong enemy broke away at the same time, turning into two endless **** rains and falling to the endless blood of the feet!

This is clearly to rush to another area hundreds of millions of miles away, to reach the blue light group near the canopy.

At the same time, the body of the black fog that is entangled with it is set up, and the three bloods and seas are separated, and at the same time, the boxing and bombardment are carried out. In one fell swoop, the half-step of the gloom in the light group is supreme, and the rhythm of the smashing...

Chapter 4508: Impact on the territory of the universe

In the blink of an eye, the violent and the sacral bones were shot at the same time. Under the punch, the smashing peak of the blue light group was killed in one fell swoop, and turned into a blue blood fog. tight

Then, without hesitation, the body shape of the violent and cheekbones disappeared at the same time, turning into a **** fog that dissipated and blended into the vast sea of blood under the feet. At the same time, the moment of the blue light group side, the violent and The cockroach plunged into the ground.

Together with the black mist that was originally entangled with the blue light group, it is in the shape of a character, trapping it in the middle...

This is clearly the three major **** seas at the same time to shoot, in one fell swoop! "

Oh..."

Realizing that the crisis of life and death is coming, there is a scream of screaming in the blue light group. At the same time, the blue light group that originally radiated a brilliant light, at this moment, the blue light of the brilliance It's the extreme.

"噙..." low

Under the groaning and groaning sound, the blue light group flashed and disappeared directly. "

boom....."

It was also at the same moment that the three big **** seas were punched directly in the position where the blue light group disappeared. The moment of the void came the sound of the cracking of the card, which was dense and chilling.

It is a pity that the existence of the blue light group has finally escaped. This zerg secret method is quite unpredictable, and the peak of the blue light group has been launched for a little time. This unexpected result, the possibility It was not small. "

Roar! "This

As a result, Ye Xuan was extremely unwilling, and the three bloods and seas were separated, and at the same time, his hair was raised with a terrible roar. under

For a moment, the shin bones and the black mist dissipated and turned into blood fog, which was integrated into the blood sea under the feet. and

Ye Xuan is also in between the minds, directly received the secret law of blood. "

call out! ”

"Oh la la la..."

In the meantime, the vast and innocent whole blood sea quickly gathered, and the blink of an eye disappeared, and it was integrated into Ye Xuan's body.

At this time, Ye Xuan also broke free from the state of the ninth change, and his body shape recovered to ten feet. The original nine-order grand perfection of the universe was restored to the present, and it also fell back to the present universe. Great perfection...

As soon as he was swaying, he even sat back at the mouth of Shennong, who was carrying a colorful mist. eye

In the middle of it, there is a slap in the face, whispering: "After all, I have escaped one, plus the one who called the so-called supreme before... This time, the nine masters of the universe have already been killed by the star masters. !""

There were four bloodstains of the lord before, plus these seven, a total of eleven..."

A master of blood, if it is to refine the twenty-seventh level of the supreme Baodan, he has more than 80% of the grasp, can produce eight, even even nine, have close to 50% of the grasp.

After some indulgence, Ye Xuan decided not to leave for the time being, but stayed here, directly impacting the realm of the universe.

Although he has just broken through two small steps not long ago, he is just in the right place. He has successive battles. The opponents are all the masters of the later universe. The secret method of blood and sea can be described as the ultimate, and the moment of breakthrough is already coming. only

To break through again, in the ordinary human type, even if he does not activate the konjac blood in his body, he will have the nine-step perfection of the universe, so that he can swallow a twenty-six-level Dan. It is.

Once swallowed, it will be able to break through to the real universe in a short time. At that time, the Holiness will come, and he will be fearless!

"The Supreme of the Universe? I have long been hoping to fight this kind of existence. This time, the cosmic sages they invited may not have two, because that would take more benefits..."

Having said that, Ye Xuanzhen's fine mangkin flashes again: "This is a rare opportunity to fight not only with a single universe, but also the opportunity to kill it, as long as this universe The Sayādaw is only the first stage of the first to third order, it is possible..."

After the decision, his shackles flashed, and once again opened the isolation power of Shennong Ding..."

Oh..."

Soon, the sound of the air broke out, and a spurt of glare came out, hanging in front of Ye Xuan.

Still all the cultivation resources he took out from the immortal world! nine

Color medicine and other large-scale cultivation resources, such as the source of all evils, are the top things, giving off a strong atmosphere. With

Later, Ye Xuan mobilized Shennong Ding's domain power, compressing all the cultivation resources to the size of the baby fist, and swallowed it in the middle of a wave. "

哗啦啦....."

At about the same time, the overwhelming chain of sounds rang in his body, and the chain of shackles that appeared was still only one.

Ye Xuan did not rush to close his eyes, condensed in the spirit, and then mobilized the energy that has just formed in the body of the river, in the body of the hundred veins to carry out a major Sunday operation, accumulate strength. This

The time for a breakthrough is still acceptable, only used for a day and a half, perhaps related to his long and arduous battle. very

Fast, when the energy in the body was refining, Ye Xuan was only an impact, and the chain of the shackles was broken. when

The chain of the cockroach was completely broken, and the system prompt sound was expected, and it soon sounded in Ye Xuan's mind..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the universe is satisfied with the nine-order great perfection! ""

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: the universe of the nine-order grand perfection"

Nine-order Supreme! It's finally great! This

A breakthrough will undoubtedly make Ye Xuan's combat strength rise again!

After the last breakthrough, his deity's cultivation is the eighth order of the sage. Once the blood of the ancient konjac is activated, he can climb to the ninth stage in an instant, and if he is to display the konjac and change his power, he will reach The ninth change, the combat power is immediately soaring to the ninth order of the Lord of the universe! but

Now, after activating the body's konjac blood, Ye Xuan will immediately possess the first-order cultivation of the universe. If he is to display the magical power of the konjac, and enter the ninth change directly, the peak force will be able to Reach the first step of the universe! thing

In fact, if you count the horrible blood power of the huge body of 60 million miles in the ninth state of change, Ye Xuan's real combat power will basically be comparable to the second-order universe of the supreme!

The key is that he has the secret of blood and sea. Once he is motivated by his power, this kind of combat power can be changed in three moments.

In this way, even if there is a cosmic supreme in the third-order, Ye Xuan can't guarantee that he will be able to kill him, but he is innocent, and he can easily withdraw and leave at any time, but it is completely okay.

However, this is actually not the end of this breakthrough, because now he has been able to swallow a 26-level Dan, impacting the bottleneck of the big world, and letting himself cultivate strength in the ordinary human race. Into the real universe of the realm. and

Not as it is now, you need to activate the blood of the konjac in your body. With the blessing of this power, you can have the power of the Lord of the universe...

Chapter 4509: Supreme coming

"Does the universe's nine-order grand perfection? Finally... to attack the real world of the king!"

Forcing the heart of the excitement, Ye Xuan muttered to himself, and then closed his eyes again.

His time is running out. If there is no accident, the cosmic supreme that was invited will come in at least two days. Although Ye Xuan has Shennong Ding's support, there is no fear at all, but if it is dragged for too long. It is inevitable that there will be an accident.

If it is possible to complete this breakthrough before the other party arrives, it is naturally best...

"Hey..."

As these thoughts flashed in the brain, the sound of the air broke out in an instant, and a spurt of glare came out, hanging in front of Ye Xuan, still all the resources he had taken from the immortal world.

Only this time, in addition to the colorful magical medicine and other large-scale cultivation resources, such as the evil source liquid, etc., the most important thing is a 26-level master Baodan of the best quality! will

After the twenty-sixth-level Baodan was consumed, Ye Xuan's master Bao Dan had only eleven pieces left, but it was still enough. do

After all this, Ye Xuan urged Shennong Ding's domain field power, and compressed all the cultivation resources to the size of only the baby fist, swallowed in the belly.

"哗啦啦....." shop

The chains of the sky are ringing in his body. Although this time there is still only one chain, but it is much thicker than before. After all, this time it is the cosmic lord and the master of the universe. The bottleneck between the big world.

Ye Xuan is concentrating on the spirit, urging the energy that has just formed in the body, and launching a large Sunday operation in the body and the whole body to accumulate strength. meaning

The pain in the material is coming soon. The impact of the bottleneck in the big world is much stronger than that of the ordinary small order. But for Ye Xuan, it is still nothing, he has long been used to it.

Time is slowly flowing. Under Ye Xuan's all-hearted and full-scale operation, this time, it only takes about one and a half days, and the energy of the body has been completely refining. leaf

Xuan is only a shock, and this sturdy chain of shackles has been broken.

When the shackle chain completely collapsed, the expected system sounds and sounded quickly in Ye Xuan's mind..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the first order of the universe! ”

"Hey, congratulations to the host, breakthrough in the realm of flesh and blood! The current realm: the first order of the universe!"

Lord of the universe!

This time's breakthrough is a leap in the realm of the realm, which will undoubtedly make Ye Xuan's combat power rise again!

Before, his deity's cultivation was the ninth order of the sage. Once he activated the blood of the ancient konjac, he could climb to the first stage of the lord. and

If you use the konjac and change the magical powers and reach the ninth change, the combat power will immediately rise to the first level of the universe! but

Now, with the completion of this breakthrough, Ye Xuan will activate the second-order refinement of the universe after he activates the blood of the konjac in the body. If he is to use the power of the konjac, he will enter the first place. Nine changes, the peak force will be able to reach the second order of the universe! again

Counting the power of terror in the huge body of 60 million miles in the ninth state of change, Ye Xuan's real combat power is basically comparable to the universe of the third-order universe!

That is to say, under the supremacy of the mid-term universe, no one can now do anything about him. Even if there is no accident, the cosmic supreme of any initial situation will meet him, and he will fall into a stature, or flee. The end.

Because as long as the **** sea secret method is applied and the avatar power is motivated, Ye Xuan can immediately become one and three, with the same strength, crushing the opponent..."

Calculating the time, the two rounds of breakthroughs took nearly three days, so the so-called cosmic supreme should be coming soon! "will

After the heart's excited emotions went down, Ye Xuan's mid-cold man flashed, muttering to himself, and his body shape has already rushed out of Shennong Ding.

"call out!"

A wave of hands, Bao Ding turned into a mans, directly into his body. tight

Then, Ye Xuan looked up at the sky, and the sound of the whisper in the mouth rang again: "I don't know how powerful the lord of the tyrannical tyrannical, but now all the breath is introverted, not exuded, so the thunder has not yet arrival."

This is the meaning of what should be. The breakthrough in the realm of the realm is that there will be a thunder robbery. Although there is no such thing as a kind of emptiness and abundance in the sky, the law of the void is perfect. . This

One point, from the thousands of nesting stars that have bred the Chaos Devil, and the entire huge galaxy of the Milky Way, they are shrouded in the power of an invisible law of Hongmeng. Even the ancient powers and even the ancients can't be smashed. Forcibly entering it, you can see one or two.

If Ye Xuan has already realized this, it is that before the body shape rushed out of the Shennong Ding Ding, the first opportunity to conceal his own chances of gas, did not reveal a little bit, at this time, I am afraid that already The king of the king was robbed. when

However, for the Thunderbolt, Ye Xuan has never been a cold, fearless, and even hopeful, because after every baptism of thunder, it can make his own breakthrough as a realm. Thoroughly stabilized and solidified. but

This time, the enemy is approaching, and he has other arrangements for this coming lord...."

After a short period of time, as long as the star master reveals a half-point to cultivate the atmosphere, this time the lord of the lord will soon be coming... Unfortunately, after all, it is only the lord of the lord, for the upcoming universe supreme, can not make any hurt. ""

However, taking advantage of such an opportunity to confuse the other side, it is also a good way to set aside."

Having said that, even if he provoked the magical spirit of the perfect shock, he will hide his body shape, and the atmosphere will be concealed again. The whole person will disappear in the same place, and the air machine will not be able to sense it... versus

At the same time, from the mid-level of the tens of billions of miles away from the mid-level ban, the glory of the glory is coming at a rapid speed. This

The awning light group is dark yellow, and its interior exudes a breath of breath that far exceeds the Lord of the universe. This is clearly a powerful universe supreme.

In the dark yellow light group, there is a vaguely visible black light group. It is the late master who had taken the initiative to move to the reinforcements.

Although the imaginary distance of tens of billions of miles is not close, but for the Supreme of the Universe, it is nothing at all. After a short period of ten, the large yellow light of the awning has plunged into this intermediate level. Forbidden to the ground, came to the void of the previous **** battle. tight

Then, it is convenient to reach the right side of the billions of miles away from Ye Xuan's hiding place, and stop!

Then, from the huge dark yellow light group of this tent, a black light group was instantly taken out...

At the moment, Ye Xuan's whole heart is raised, the universe is supreme... finally come!

Chapter 4510: what happened

"Here... what happened?"

From the dark yellow light group, in the black light group, there was a shocking exclamation in a moment...

This late master of the universe is completely dumbfounded! If

In the distant sky beyond the tens of billions of miles, I can still see a lot of broken pieces of stars, and there is a thick **** atmosphere in the void. He even has to wonder if he is in the wrong place.

Three days ago, he left the area and went to the reinforcements.

Now that I have returned to this place, it has only been three days apart, and everything has changed a lot.

The Shennong Baoding, which is even bigger than the stars, disappeared!

The enchanting starry sky is gone!

Even when he left, the six late masters surrounded by Yu Baoding were also missing! "

Damn, this guy, who had been besieged for a few days, didn't think of the way to deal with that violent, now..." Silly

After a few moments of stupidity, the existence of the black light group immediately gave off the roar of such a roaring voice: "But now, the deity is only just three days away..."

For three days, they not only solved the temper, but even swept the battlefield, and then left calmly..."

"The land of **** battles of tens of billions of miles is like a shit. It is clear that all traces have been erased. I want to cut off the possible rhythm of the deity. It is too... too much!" "

Rumble..."

Just as the late-era master of the black light group leaped like a thunder, the universe on the left side was nearly 10 billion miles away, and suddenly there was a thunderous sound of earth-shattering.

Looking around, a awning thick black cloud is gathering at a speed that is visible to the naked eye. If it is too low, there will be an area of hundreds of millions of miles round, all covered with black. Robbing the clouds. just

At this time, under the area covered by the tens of millions of miles of clouds, a starry sky with a body shape of about ten feet was violent, and the figure was revealed... The repairing atmosphere in the body is exactly what it is. The first step of the universe! This

The head is violent, and it is clearly just a breakthrough. This is also consistent with the sudden thunder of the lord at the moment!

Anyone who sees it will not have any doubts!

At this moment, when the violent figure is reflected in the eye, the late sorcerer who crouched in the black light group, the pair of big eyes that were shocked almost came out...

He had thought that this violent temper had been picked up by the presence of the six awnings in just three days. but

It now appears that the facts are obviously the opposite.

It was not this violent temper, but the existence of the six awnings.

That is the Lord of the six universes, and all of them are the late existence, and even there are two half-step supremes of the nine-order grand perfection of the Lord of the universe! where

I am afraid that they are not completely degraded, but there are still some existences that have been taken away... but this violent, by one's own strength, in just three days, can do this, and it is still enough shocked.

Oh, no, in just three days, he has not only done this. If

If you remember correctly, when you left yourself three days ago, this violent self-cultivation is only a great success. but

Now, looking at his size, it is clear that there is no state of activation of that mysterious blood.

Even so, this violent self-cultivation of strength has also risen from the previous nine-order grand sacred to the first-order leader of the universe today...

What does this mean?

Explain that people have broken through!

In just three days, the six late masters of the Zhou Dynasty were solved. They actually took the opportunity to break through once, and they still broke through the big realm... If the six guys were killed by him? again

After all, I have been besieging this guy from now on, and in just less than ten days, he has actually broken through three times, including a breakthrough across the realm... This is a life-threatening what.

If you don't marry him today, after a few more years, can't you grow to the level of the ancient powers?

These thoughts flashed through my mind. At this moment, the late master of the crouching in the black light group, the killing of Ye Xuan, climbed to the extreme in a flash! Of course

However, this killing machine has just emerged from the heart, his brain flashed a flash of light, the entire body shape instantly stunned two times...

Not right!

This guy has a powerful blood and magical power. Once he is motivated, he can make his own cultivation become a big realm in an instant... This is no doubt, and he has not seen it before.

That is to say, now he is self-cultivated as the first-order leader of the universe. If it is to activate the mysterious **** magical powers... Isn't it a momentary universe that will become a first-order universe? This

The existence that I have already invited with myself has belonged to the same situation!

However, once this violent tempo provokes the mysterious blood secret, its body shape will suddenly skyrocket to 60 million miles, at that time, in this huge size, it will be awesome. Under him, his cultivation will be a small step. and also

That is to say, once the temper is urging the mysterious blood secret, his real combat power will rise directly to the second order of the universe! and

The existence that I invited, but only the first-order power of the universe, is not an opponent at all!

As these thoughts flashed in the brain, the more clear, the presence of black light, the entire body trembled violently, and even affected the black light that shrouded his body shape and covered everything, and it was also slightly light. Shake it up. on

Even the voice of his gods reveals a clear trepidation: "Dark respect, this... This violent repair is a breakthrough, and now it is the Lord of the universe, we are not opponents at all, or Hurry and withdraw?"

"Looking at him and robbing the Lord, you should still have time..."

Roar! Are you fainting? "

Hearing the voice of his god, inside the dark red light group, there was a screaming voice: "It's just the first step of the universe. Don't forget, you are the universe. The seventh seventh..."

It's just that he is now robbing the king of the thunder, and he has not yet sacrificed the Shennong Baoding for defense, which is just the best chance to kill him! ""

Rest assured, after killing this violent temper, the deity will take the Shennong Ding first, and other treasures, then you will pick it first..."

Roar! "

"Imperial scorpion, come on!"

After the last sentence, inside the dark red light group, there was another thunderous roaring sound, revealing the endless excitement and excitement. Under the sway, it immediately turned to the thunder of nearly 10 billion miles ahead. Land of robbery, spurt away..."

God... this is over! "Look

In this scene, inside the black light group, a whisper of desperation, quietly spread!
