

Super D. S 451

Chapter 451: Things are exposed

Men are doing this business, and start to identify a little bit of the good and bad of these bones.

However, when he saw a humanoid warfare with a seventh-order temperament, his body shape could not help but tremble.

"Golden war?"

The man's heart stunned, and suddenly there was an unpredictable hunch in his heart. Because, he knows the refiner with a golden thread on the surface of the bone.

"These trenches, it won't all come from Bai Bong?"

The man's brow wrinkled, and the heart couldn't help but violently jumped.

Because his shop is one of the bases of Baigu Zong in Wangu City, the white bone warfare of the elders of Bai Bingzong is occasionally sent to sell here. At the same time, the materials are also purchased here and then sent to Baiguzong.

The refining of this golden silk warrior was an elder of Bai Bingzong, and then gave him a disciple whose name was Fu Shihao.

The man is a way of protecting the bones. How could he not recognize this?

"Good boy, who killed my white bones, even dared to take things to sell here, it is really self-investment!"

The man's eyes squinted, because the back was against Ye Xuan, so the latter did not feel anything strange, just thought that the man was checking this gold silk trench.

Soon, the man checked the past one by one, and he was even more surprised when he saw other battles of white bones, because there was also the trench of the elders of Bone.

"The strength of this person is so powerful, even Tan Elder is dead in his hands?"

The man turned his back to Ye Xuan and swallowed a spit. He was just a sixth-order temperament. Naturally, he was not the opponent of Ye Xuan.

You know, Tan Elder is a good eighth-order!

"The Sovereign and the elders want to be in Wangu City, let me inform them, this kid is dead!"

The man immediately adjusted his mindset, then turned to look at Ye Xuan and smiled: "Hello, I have seen all these bones and wars, they are all top grades. Do you want to sell them, or do you want to exchange materials for refining?"

"Full refining materials!"

Ye Xuan replied that there are now three corpses of the eight-order temperament in the ring, two human bones, and one dragon bone, so a lot of refining materials are needed.

Among them, the human bones dug out from the nine secluded land is better. After all, it has been dead for a long time. There is a dead air in the bones, and the refining will be stronger than the same level.

"Is it all about refining materials? Well, you have the bones and I guess the price..."

The man reported a price.

Before entering Wan Gucheng, Ye Xuan also learned about the price of Wan Gucheng from the ring of some people, so he also estimated the price of these bones.

However, the price quoted by the man surprised him, because it exceeded his estimate and was almost half the height.

"When he said that these white bone wars are top grades, it seems that Bai Bingzong is still very good at refining the white bones."

Ye Xuan did not think much, immediately agreed, and then listed a list for men.

Most of the items in this list are made of materials for refining the white bones, and there are also a lot of ore, which is for Megatron.

Megatron is now the power of three hundred dragons, the strength is too bad, it is easy to hang. Moreover, the higher its realm, the easier it is to control and the stronger its combat effectiveness.

"Okay, we have these things, but this shop is not enough, we have to go to other stores, please wait a moment."

Said the man.

"Ok."

Ye Xuan nodded and collected these white bones.

Subsequently, the man quickly left.

At this moment, Ye Xuan did not doubt him.

The man left, Ye Xuan waited alone in the box, he waited for a while, the man still did not come back.

However, his material is a bit complicated, and it is reasonable for the man to slow down.

Ye Xuan was helpless and decided to go outside the store and wait to see the world.

But just as his forefoot had just left the store, he saw a group of people coming and going, and the man was there.

"not good!"

Ye Xuan's face changed suddenly, because he saw this group of people wearing the same clothes, it was actually a white bone.

Now, Ye Xuan understands.

It turned out that this shop turned out to be a white bone, and the man apparently recognized the white bones, so he went to ventilate the letter.

This Bai Bingzong came a lot, and the one who led the head reached the strength of the eight hundred and eighty dragons. In addition, there were several masters of the eighth-order temperament, and dozens of qiqi seven-order.

Ye Xuan's heart is a bit stunned, and he sighs that Bai Bingzong is so powerful. There are so many masters in the Bone City.

However, he did not care at all, just watching it quietly.

This group of people came to the fore, and the people around them immediately jumped out. In the blink of an eye, there were not many people on the entire avenue.

"It's a white bone man, what's the matter, what are they going to do?"

"My God, that is the lord of Bai Bingzong. It is already the strength of the eight hundred and eighty dragons. It is strong, and he is actually in Wangu City?"

"Hey, that kid is their goal. What is the situation? It has alarmed so many people. Is this kid an elite disciple who has killed Bai Bingzong?"

The people around them flew into the sky and whispered in that.

Although there are city owners in this Wangu City, there are still three major forces in Wangu City that no one dares to provoke. Baizhuzong is one of them.

In case of chewing on the roots of the tongue and being stared at by Bai Bingzong, it is really dead.

In the place where the bones are buried, there is no such thing as the dead. If the bones are dead, the bodies will be sold and sold. Good will be made into war dead bodies, and the difference will be dissected. The bones are refined into white bones.

The Baizhu Zongzhu led a group of people to rush to Ye Xuan. At this time, only the white bones and Ye Xuan were left on the street.

The main character of Bai Bingzong fell on Ye Xuan and said: "Is he?"

The man who received Ye Xuan nodded and said: "Yes, it is him, that is, he took out the gold war, and even Tan's elders have him!"

Tan elder?

When I heard this, the masses who were watching the show in the air were eclipsed.

This kid actually killed the elders of Bai Bingzong?

No, it should be said that this kid dared to kill the elders of Bai Bingzong?

Genius, they have seen a lot, but at this time, Ye Xuan's courage is even more shocking to others.

"Good boy, even the elders of my bones will dare to kill, report to the name!"

The lord of the Bone Bone asked coldly. He has lived for so many years and has developed a cautious character. He always reminds himself not to take people by appearance.

Ye Xuan, gave him a very mysterious feeling.

After hearing the words of the sacred patriarch, Ye Xuan said only in a cloud: "I don't talk to the dead!"

boom!

His voice fell, and the crowd in the air was screaming.
